WASHINGTON, Nov. 26.—Exports during October increased by nearly \$150,000,000, while imports decreased approximately \$117,000,000, foreign trade figures made public today by the department of commerce show. Exports were valued at \$752,000,000 against \$602,000,000 in September, while imports were valued at \$232,000,000.

ARDMORE, OKLA., Nov. 26.—Jake L. Hamon, millionaire oil magnate and republican national committeeman died at Hardy sanitarium at 10 a. m. today of acute dilation of the heart. Hamon was born in Missouri and had lived in Ardmore since last Sunday.

The oil came after a twelve-hour attack, Dr. Walter Hardy, head of the sanitarium said. Hamon was believed to have passed the danger mark early Thursday morning but suffered a relapse last night when his heart started failing. Hamon was unconscious for four hours. At first he took the shooting as a joke. He spent Thanksgiving day talking to his wife and friends.

Frank Ketch, Hamon's manager, and several other intimates, who emphatically denied that any woman was connected with the case. They contend that Hamon accidentally shot himself at a local hotel, where he lived, last Sunday evening while cleaning a revolver preparatory to a hunting trip to Texas.

When Hamon staggered into a local hospital with a bullet wound in the right side and told physicians that he had accidentally shot himself while cleaning a revolver, tongues started wagging. A few hours later County Attorney Brown started the community by issuing a warrant charging Mrs. Clara Smith Hamon, a cousin of Hamon's by marriage, with the shooting. And in addition issued a warrant jointly charging the couple with a statutory offense.

AWAIT REACTION OF THE PROTEST NOTE OF SECRETARY OF STATE

EXPECTED TO INFLUENCE THE LEAGUE OF NATIONS MEETINGS AT GENEVA.

UNITED STATES REPUDIATES ANGLO-FRENCH AGREEMENT

Note May Have Some Bearing On Germany's Recent Protest Against Mandates.

WASHINGTON, Nov. 26.—The United States having repudiated the Anglo-French agreement on Mesopotamian oil, officials here today awaited reaction from Europe to Secretary of State Colby's note of protest to Great Britain. The note is expected to influence the League of Nations meetings at Geneva on the question of method of administration of mandates. Great Britain holds the mandate over Mesopotamia.

What effect Colby's note will have in the light of Germany's recent protest against the distribution of mandates over her former colonies, by the principal allies, also is awaited with interest.

The Colby note, addressed to British Foreign Minister Lord Curzon, was in protest against the San Remo agreement between Great Britain and France for an apparent division of the oil supplies of Mesopotamia.

The note made the following important points:

The United States holds it is "of the utmost importance to the future peace of the world that alien territory

transferred as a result of the war with the central powers should be held and administered in such a way as to assure equal treatment to the commerce and to the citizens of all nations."

It was upon an understanding of this effect that President Wilson at the Paris peace conference "was persuaded that the acquisition under mandate of certain enemy territory by the victorious powers would be consistent with the best interests of the world."

Great Britain pleaded in her previous note to this government on the question that the "natural" resources of Mesopotamia are to be secured to the people of Mesopotamia and to the future Arab state to be established in that region, and that it is the purpose of the British government not only to secure those resources to the Mesopotamian state, but also its absolute freedom of action in the control of his land in particular that it is far from the intention of the mandatory power to establish any kind of monopoly or preferred position of its own interest."

The United States "finds difficulty in reconciling" this pledge with the special agreement in the San Remo agreement. In view of Great Britain's assurance that it has no intention of establishing any kind of monopoly, Colby said, "I am at some loss to understand how to construe the provision of the San Remo agreement that any private petroleum company which may develop the Mesopotamian oil fields shall be under permanent British control."

Disarmament was the main topic in the assembly today. A "omission to consider that question began its sessions yesterday, practically with instructions that recommendations for the present must be held within reasonable limits.

The note requests that Great Britain submit to the United States the mandates now being drafted for Mesopotamia and Palestine by Great Britain before their submission to the council of the League of Nations, and that the drafts of these mandates be made public.

RECEIVES SAD NEWS OF ACCIDENTAL SHOOTING OF 12-YEAR-OLD BROTHER

W. Oscar Williams, secretary of the Texas Chief Oil company, received word here Wednesday morning of the accidental shooting of his twelve-year-old brother, Jeff Williams, at his old home at Matador, in Montley county, on that date.

Mr. Williams left once for Matador, taking a trained nurse with him, and Dr. Saunders of Fort Worth was summoned, but when the doctor reached Wichita Falls on his way to Matador, Wednesday night, Henry Hobbs, president of the Texas Chief company, met him at the railway station with the information that the boy had died, and he returned to Fort Worth.

The parents of the boy were away from home at the time of the accident. They had been visiting in Wichita Falls and were on their way to Chillicothe to visit Mr. and Mrs. Elliott, his maternal grandparents.

The Williams boy and Harvey Campbell, aged fifteen, were hunting in the fields near Matador and were in the act of creeping through a barbed wire fence. Jeff Williams' piece was a double-barreled hammerless shotgun, and it appears that he had laid it upon the grass with the muzzle toward the fence and had started to crawl under the bottom wire when both barrels were discharged, their contents striking him in the hip and completely shattering it.

It is thought that the piece was uncocked and that a touch of his foot against it caused its discharge. The Campbell boy is said to have been in the last act of going through the fence about fifteen feet distant.

Deceased was the son of Harrison Williams, who has been a hardware merchant in Matador for twenty years. He is survived by his father and mother and by four brothers and five sisters.

Burial took place at Matador Thursday.

INQUIRES REGARDING THE CONDITIONS IN OLD MEXICO

Letters are being received daily by the chamber of commerce containing inquiries regarding conditions at the present time in Mexico. Hubert Harrison, secretary of the chamber, has written to the American chamber of commerce at Tampico seeking detailed information, and expects to be in a position soon to answer these inquiries. The writers for the most part are especially interested in conditions affecting American oil interests in Old Mexico.

An average of one week letter a week also "drifts in" to the local chamber from men who are anxious to establish cotton mills in this section. There is apparently a general movement of this particular industry into the south.

BURKBURNETT SECRETARY IS GETTING POINTERS ON WORK

S. H. Spence, secretary of the newly organized chamber of commerce at Burburnett, arrived in this city this morning to study the working organization of the local chamber as an aid to putting the Burburnett commercial club on a sound financial and service basis.

Please your taste—Both are Good

Swift & Company realize that taste is a matter of the individual; therefore, they make both Premium Oleomargarine and Gem Nut Margarine.

Both products are equally pure and delicious.

They are made from different ingredients and differ slightly in flavor to please individual taste.

Their delicate flavor makes them suitable for serving at table; their fine shortening qualities make them favorites wherever good cooks turn out superior cakes and pastries.

The fact that they are most moderately priced as well as most nutritious is an added advantage.

Both products share in the advantages of the famous Swift system of wide distribution.

Both are made in fourteen conveniently located factories, so both are fresh, pure, and delicious when they reach you.

Not a hand touches either product in manufacture or in packing.

HARDING DEVOTING DAY TO RECREATION

Late This Afternoon President-Elect Will Leave By Train For Cristobal.

ANCON, CANAL ZONE, Nov. 26.—Senator Harding devoted today the last day of his short visit, at the Pacific terminus of the Panama Canal, to recreation for the most part, although he had several more talks with Canal Zone officials.

The president-elect arose early for a game of golf and later took a motor boat ride. Late this afternoon he will leave by train for Cristobal, where on Sunday he will go on board his ship to return to the United States, sailing for Norfolk. His return to Cristobal will complete a three-day visit here, in which sightseeing was combined with practical study of problems which will confront him after he becomes chief executive of the United States.

Not the least of these problems are the relations the new administration will maintain with the Republic of Panama, with the president of which he exchanged assurances of good will at the banquet given in his honor by President Porras last night.

The question of a proper military force for the Canal Zone also has engaged his active attention, and he will be particularly interested in plans of the war department to increase that force to a full division. Senator Harding today had luncheon with Brigadier General Kennedy, commander of troops in the Canal Zone, and had a long talk with that officer. During his motor ride he inspected the forts of the Pacific end of the great waterway.

Favorable Impression. Senator Harding's address at last night's banquet created a most favorable impression, judging from comments heard throughout the city.

"The cordiality of your greetings and the fine spirit of your good wishes stir me deeply," he said, facing President Porras, "and I am sure that you one republic to be so reassured of the abiding confidence and friendship of a sister republic. I am wholly conscious I am here as a private citizen, though I am not permitted to forget, however, how much I may wish it, that I am to come to a great responsibility at a very distant date. It is for that you honor me as you do? Believing that is the reason, I cannot believe it unbecoming to accept, because more cordial relations between peoples and riveted ties and friendship among nations is the call for the great heart of human kind."

"Moreover, though bent on this hurried trip mainly for recreation, I would be inattentive to the obligations of citizenship if I were indifferent to the great sponsorship of my country. This is a most attractive land and I would be deaf to the call of duty as a public servant in the senate if I did not seek a fuller understanding of the developing obligations of our civilization as reflected here and aim to add to the friendly understanding which becomes our two republics in their exceptional intimacy here."

More Than Friendly Neighbors. "We are rather more than friendly neighbors, quaffing the cup of most cordial association. We are spiritual partners in one of the gigantic advances of the twentieth century transportation."

"Your freedom and our genius and resources combined to link the oceans and the day will come when the commerce of the world will stake its passing pageant here. We cannot escape the inspirations and the impelling influences of commerce and trade. The adventurous navigators and discoverers came hither and revealed a western continent to the old world but they came because they were inspired by trade. Trade has made peoples eminent throughout all time, and this fact is no less true today than in the past."

"In your own republic you are aspiring to enhance your trade. The supreme problem to furnish material and mental trade. Hold it everlastingly righteous and not forget the finer harmony of accompaniments which are essential to spiritual as well as material uplift. It would be folly to produce and exchange if we failed to educate and uplift and exalt."

Spirit of Liberty. "You speak of our America being mirrored here in our Canal Zone activities. I can well believe and trust

SELECTIONS ARE MADE FOR SEVERAL OF LEADING PARTS IN LOCAL PICTURE

Selections for several of the leading parts in "The Girl From Wichita Falls," the movie which is to be filmed in this city, have been made by Director Charles Le Witt. Lillian Evans was chosen to play the role of "the girl" and she will be supported by William Viner, who will be given the part of the sordid villain of the play.

Other selections made by the director Thursday to appear in the picture are William Evans, Elma Wiggins, Mr. Paul Rutledge, Anabel Bradshaw, Lorain Taylor, Milton Wade, Inez Boyd, Lillian Randall, Corine Whaley, Ella Donaldson, C. C. Donaldson, C. C. Rodgers, Paul Reusser, Mary McCormick, H. E. Granville, W. Williams, Jewell Leed, Dena Rankin, Leona Hankin, Margaret Fox, Fred Hill, Ruth Harvey, Cora Kemp, A. E. Harding, Mamie Benton, Ida Bryant, J. Fred Hopson, Mrs. H. Potter, Marjorie Dulin and H. Shaw.

There are still a large number of places to be assigned but it is expected that these will be filled by Friday evening.

HOW TO GET RID OF CATARRH

A Simple, Safe, Inexpensive Method That Clears Out the Head, Nose and Throat.

There is no disease more offensive or disagreeable or no disease that will lead to so much serious trouble as catarrh. You can now get rid of it by a simple, safe, pleasant home remedy discovered by Dr. Blosser, a catarrh specialist.

Dr. Blosser's Remedy is composed of medical herbs, flowers and berries which you smoke in a dainty pipe or cigarette. The smoke-vapor is inhaled into all the passages of the head, nose, throat and lungs. It contains no cubes or tobacco and may be used by women and children as well as men.

This medicated smoke carries medicine where sprays, douches and ointments cannot possibly reach. Its effect is soothing and healing and is entirely harmless. If you are a sufferer from catarrh, asthma, catarrhal deafness, or subject to frequent colds, you should try this remedy.

Any well-stocked drug store can supply Dr. Blosser's Remedy in cigarettes or powder for smoking in a pipe, or will order it for you. Satisfactory results guaranteed by a genuine, money-back offer.

A trial package will be mailed post-paid to any sufferer for ten cents (value to stamps) by The Blosser Co., 315 S. Atlanta, Ga., to prove its delightful and remarkable effectiveness.—(adv.)

MISS GRACE THOMPSON AND RALPH ROHATCH MARRIED

Ralph Rohatch, former motorcycle officer of this city and now in the water service department of the M. K. & T. railroad, was lodged in the city jail this morning, and a complaint filed against him by George Thorburn, city clerk, charging that Rohatch had

deliberately and with premeditation conspired to interfere with the proper functioning of the city of Wichita Falls.

A bond of \$10,000 was required by his friends. The interference with the proper functioning of the city of Wichita Falls with which Rohatch is charged, centers around his act of Wednesday evening in marrying Miss Grace Thompson, chief clerk of the city clerk's office. When the news leaked out Friday morning, George Thorburn led a movement to put young Rohatch in jail. City policemen, old friends of the bridegroom, made Ralph ride a pole, and finally placed him in the city's custody for half an hour—and in the meantime the youthful Mrs. Rohatch was teased unmercifully.

Mr. and Mrs. Rohatch will make their home at 1225 Burnett street.

WHEAT FOOD

MISTRESS MARY FRUIT CUSTARD

1 pint milk
1/2 cup Ralston
1/2 cup sugar
2 eggs
1/2 teaspoon salt
1 teaspoon vanilla flavoring

This recipe will make six small custards.

Boil milk in double boiler, stir in Ralston and salt and cook thirty minutes, stirring constantly the first five minutes, and then occasionally. Beat eggs, add sugar and flavoring and stir in slowly the hot custard mixture. Add vanilla and pour into buttered custard cups. Place cups in a pan of hot water and bake in a moderate oven until firm, about thirty minutes. Chill, top out and serve with sweetened fresh strawberries, raspberries or sliced fruit. Excellent for children's luncheons.

Our First Semi-Annual Clearance Sale

As A Saving Event In the Purchase of High Grade Wearing Apparel

Is Far Surpassing 50% DISCOUNT SALE

Our Recent

This great saving for our customers, made possible by reason of the fact that our buyers, while in the Eastern markets, were able almost to name their own price for new merchandise of the same high standards, and this merchandise will be sold at prices equal to and, in many instances, lower than during our recent 50% Discount Sale. Many of the Eastern manufacturers were largely overstocked and were forced to dispose of their surplus merchandise at greatly reduced prices. By taking advantage of this situation, we are in position to offer our customers some really remarkable values in high grade wearing apparel.

Not only is this brand new high grade merchandise being offered during this sale at prices that have not been seen for many seasons, but every article in our original stock at the time these new goods were received is being offered at a discount of 50% from regular prices, Arrow Collars and Stetson Hats excepted.

Men's Clothing

We offer our entire stock during this sale at Half Price. This includes all plain and fancy Suits, also Full Dress Suits as well as Raincoats and Sheep-lined Clothing. We have added many new numbers to our Clothing Department within the last few days. If you are interested in a Winter Suit, we would advise you seeing what we have to offer during this sale.

Ladies' Suits, Dresses and Wraps At Greatly Reduced Prices

The occasion and the prices are as timely as the values are remarkable. Those who realize that the selection of winter apparel must be accomplished without delay will see in these offerings of Suits, Dresses, Wraps, etc., an unusual opportunity to practice worth-while economies.

Work on Y.W.C.A. Building to Go Forward at Once

Work on the Wichita Falls Y. W. C. A. boarding home for girls is to go forward at once, according to an announcement from the Y. W. building committee Wednesday evening.

The announcement from the committee, of which Mrs. C. W. Snyder is chairman and T. T. Reese, Mrs. J. A. Richart, Mrs. M. M. Adtekes, Mack Thomas, H. L. Hunter, and Mrs. Martin Rowe are members, came following conferences Wednesday and Miss Blanche Geary, national building chairman of the Y. W. association, who spent the day in the city. Miss Geary urged immediate procedure with work on the building, which is to house twenty-five girls, and work on which has been delayed because of the high cost of materials and labor since the purchase of the Y. W. C. A. lot on Eighth and Burnett street last year.

That more would be lost in service to young women employed in the city and forced to pay the prevalent high lodging fee, than would be gained in a material way by further delay, was the conviction of the National chairman.

"I feel justified, in the light of my knowledge of conditions throughout the country, and in particular as a result of my discussions with architects and the most prominent business men in Dallas, Fort Worth, and Houston, in urging the Wichita Falls board not to delay any longer in beginning to begin," Miss Geary stated. "The indications are that by the time the building committee is ready to take bids, prices will have reached a level, making contracts desirable.

In any case, the association is under an obligation to those who have paid up their obligations, and I am advising it to push its plans to completion with the utmost possible speed.

Building Ready Needed.
The Y. W. boarding home will fill what has been and continues to be one of the greatest needs of the city. The building situation for young business and employed women in Wichita Falls has been very nearly desperate for the past two years. It was at the height of the bad situation over a year ago that the whirlwind campaign for the building fund resulted in the pledging by citizens of something over \$100,000.

But actual work on the boarding home was delayed because of the high cost of materials and labor. Further continuance of the delay was strongly discouraged by Miss Geary.

"Women are in the wage earning world for good," she stated, "and for the benefit of business and for the good of the community it must not only be possible for them to feed and clothe themselves decently, but to provide themselves with decent living quarters. We must remember that the worst accommodation available is the cheapest, and that the cheapest is the best the girl with a small minimum wage can possibly give her home.

Will House 75 Girls.
The boarding home planned by the local association and building committee will house seventy-five girls. It will be erected on the Y. W. lot at Eighth and Burnett streets, which is 120 by 150 feet. Most of the rooms will be single bedrooms, with a few double for the girls who wish to double up in expense.

The living room, and other social rooms, dining room, etc. will be on the first floor. There will be laundry, sewing room and other such conveniences.

It was also stated that the building committee is preparing plans for the construction of a recreation unit, which will ultimately be incorporated in a full sized activities building, with swimming pool, showers, dressing rooms, an assembly hall and stage.

MRS. WILLIAM BONNER HOSTESS AT BRIDGE LUNCHEON FRIDAY

WOMEN NEED SWAMP-ROOT.

Thousands of women have kidney and bladder trouble and never suspect it. Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease. If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

Pain in the back, headache, loss of ambition, nervousness, are often times symptoms of kidney trouble. Don't delay starting treatment. Dr. Kilmer's Swamp-Root, a physician's prescription, obtained at any drug store, may be just the remedy needed to overcome such conditions.

Get a medium or large size bottle immediately from any drug store. However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—(adv.)

PROTEST TAKING OVER RUSSIAN CONCESSIONS

Three Communities Object To Chinese Government Having Jurisdiction.

PEKING.—The three Russian communities heretofore enjoying extraterritorial privileges in Tientsin, Shanghai and Hankow have lodged protests with the diplomatic body in Peking against the taking over by the Chinese government of jurisdiction in the Russian concessions in those cities in pursuance of the decree of September 23 (by which China severed relations with the legation representing the government of the late Russian emperor, Nicholas.)

body was taken, so far as could be ascertained. The attitude of the foreign office is to continue in office all functionaries in the concessions, except the consuls who have been replaced by Chinese commissioners of foreign relations. So far as possible, the Associated Press is informed on good authority, it is the intention to follow Russian law procedure in all cases where Russians are concerned. From the Chinese point of view the new status of the Russian concessions does not infringe any treaty rights and it is declared to be the intention to hold such rights in statu quo until a government is recognized in Russia.

LOYD GEORGE BELIEVES REPORT IS EXAGGERATED

LONDON, Nov. 25.—Premier Lloyd George was asked in the house of commons today if he had seen reports that Americans had secured contracts from the Russian government for the purchase of 600 pounds for locomotives and all kinds of rolling stock. To the question the premier replied: "I did see that, but I left on my mind an impression of an exaggeration."

AMERICAN DELEGATES REACH LONG DESIRED AGREEMENT

PARIS, Nov. 25.—The American delegates to the international postal congress at Madrid have reached a long desired agreement with the French postal authorities for an increase in the weight of parcel post packages from five kilograms to ten kilograms. Similar sentiments were expressed by representative Russians and by certain Chinese and Japanese holders in the other concessions. Chinese officials at Hsinan are reported to have asked the Russian frontier district court there to transfer all its documents to the Chinese government.

FOSTER BUSINESS MANAGER OF CHICAGO LABOR PAPER

CHICAGO, Nov. 25.—William C. Foster, leader of the steel strike last winter, today resigned as business manager of the New Minority, Chicago labor paper.

Foster announced he has organized the Trade Union Educational League, the purpose of which is "to assist in hastening the natural evolution of the labor movement from a craft to an industrial basis."

MEXICANS WELCOME RETURN OF BULLFIGHT

Greeted With As Much Enthusiasm As Opening Of Baseball Season In United States.

MEXICO CITY, Nov. 26.—American fans never welcomed the opening of the baseball season with more enthusiasm than did "toreros" over the return of bull fights after four years of prohibition. Flaming placards on every billboard announced that "El Toro," the huge bull ring here, would again be the scene of battle to death, and the newspapers in news stories and editorials heralded the opening of the season, which was auspiciously inaugurated the latter part of October and will run until the latter part of January.

During this period some of the world's best matadors, most of whom have been fighting in Spain, will appear. Among those who have been engaged at fancy prices are Adolfo Gona, Ernesto Pastor, Luis Freg, Fernandez Manalate and Juan Silveira.

The opening of the season with El Toro, a Mexican favorite, and "Angelito," a Spanish youngster, appearing jointly was a festive occasion. At the last moment there had been a disagreement with the government both as to the amount of taxes to be paid by the promoters and as to the safety of immense amphitheater which for almost four years has been in practical disuse.

All difficulties were finally removed and Sunday afternoon found 25,000 cheering spectators awaiting the entrance of the first bull. Diplomats, high federal and civic officials, the city's social aristocracy paid their six pesos each to sit in the shade and watch the spectacle while several thousand peludos (peons) were glad to sit in the sun and pay two pesos each for the privilege. It was a gala day and six bulls were dispatched in record time.

Bull fights are held on Sunday afternoon and on the days of fiesta and Mexico City's glorious winter season which admits of no rain assures perfect weather. Six bulls are generally killed and clever matadors will complete the bill in an hour and a half. Gona, Pastor, Freg and Belmonte are said to receive from 3,000 to 12,000 pesos each for an afternoon's work (Normally a Mexican peso is worth 20 cents).

SAYS ABANDONMENT OF GREECE WOULD BE DANGEROUS REVENGE

NICE, Nov. 26.—Abandonment of Greece by the allies now would be a dangerous revenge for the upsetting of the government they established there during the war, former Premier Venizelos declared in an interview here today.

Abandonment would force Greece either to continue mobilization of her military forces or to give up some of her recently acquired territory, he said. He declared either would mean the end of Greece and would strengthen the Turks and Bulgarians, behind whom would be Germany.

"King Constantine, who sold his soul to Germany, will be unable to return to Greece, despite the demonstrations and cheers for his name," the former premier said.

"If my adversaries do not want to destroy the future of Hellenism they must continue the national policy instituted by me. Otherwise the people will not continue to support the government."

TEXAS EDUCATORS MUST FIGHT SHOULDERS TO SHOULDER

WOULD ABOLISH THE INTERIOR DEPARTMENT

Bill Prepared To Create Department Of Public Works And Public Welfare.

WASHINGTON, Nov. 26.—Abolition of the department of interior, creation of two new departments—one to be known as the department of public works and the other as the department of public welfare—and general reorganization of other governmental departments, is proposed in a bill prepared by Senator McCormick, republican, Illinois, for introduction at the coming session of congress.

Senator McCormick is now en route to Europe and the principal provisions of his bill were outlined in a statement today from his office. A statement said that while the bill would be introduced on the opening day of the next session, action on it would probably be deferred until after the inauguration of President-elect Harding.

The proposed department of public works under the bill would include all important engineering and building services of the government. The department of public welfare as outlined in the bill would include various welfare agencies of the government, such as the woman's bureau now in the department of labor, the pension bureau, now in the department of the interior, the public health service, the bureau of war risk insurance, and the vocational training board.

DECLARE A PROGRAM IS READY FOR GERMAN REVOLUTIONARY MOVE

HALLE, SAXONY, Nov. 26.—German radical leaders declare that a program has been prepared with the aid of prominent Russian communists to bring about a revolution in Germany to set up a dictatorship of the proletariat. They say the attempt to overthrow the government will be made as soon as the most extreme element of the independent socialist party has perfected an organization which in the opinion of their leaders would have some chance of success.

The "Halle" promise that the outbreak will come very soon, probably late in the winter or early next spring. They are of divided opinion as to whether the government should be overthrown by a revolution or by a coup d'état. Some of them say the attempt probably will fail, others believing they will succeed. But all apparently are unanimous in the belief the effort should be made.

A number of leaders of the moderate wing of the independent socialists, who split with the left wing over the question of co-operating with the third international at Moscow, are springing about the revolution, also expressing the opinion that there will be a serious attempt to oust the present government. One of these, a member of the Reichstag, in an address before a right wing conference, declared Bolshevism would sweep successfully over Germany and that it could not be prevented. After it had come and failed the socialists would have their turn, he said.

The more moderate socialists generally were of the opinion there could be no successful revolution at this

time, and declared the German people would never submit to a "dictatorship of the proletariat," or co-operate with the Russians in a policy of terrorism and destruction to promote the cause of the proletariat. They appeared willing to seek the establishment of a "comradship government of the working classes," by violence if necessary, but were opposed to a dictatorship of a campaign of ruthlessness.

Differences between the two wings of the old party were sharply accentuated by the visiting representatives of the soviet regime, who defended terrorism on the ground of its necessity at the beginning of a revolution and strongly supported the absolute dictatorship of the proletariat. Through these arguments the right wing socialists sat silent except when some statement greatly angered them; but the radicals exhibited the wildest enthusiasm. The galleries supported them with applause and "The Internationale" frequently was sung by a chorus of hundreds who stood at attention until the martial music ceased.

Among the delegates on the convention floor and the crowded galleries were many women and girls. These appeared to be about equally divided in their allegiance, but the supporters of the Moscow adherents were more demonstrative. The speeches of the delegates often were interrupted by thin-voiced protests of girls wearing the red button of the revolutionists, and women and girls always joined in the singing of the proletariat's anthem. The dull gray uniforms of former privates in the army were conspicuous in the galleries and those who wore them all seemed to know the words of "The Internationale."

The more influential leaders of the extreme radicals are gray-haired, veteran socialists, who have been closely identified with government circles since the first German revolution. Others are young and eloquent district labor leaders, who have been brought into prominence since the war by strikes and industrial disturbances.

"We are willing to subscribe unconditionally to the 'red program' to establish the dictatorship of the proletariat," a young radical said to a

respondent. "We don't want to be moderate. We won't be. There will be enough killings in the next revolution to spread a wholesome terror among the bourgeoisie. A revolution cannot be accomplished in a kindly, soft-mannered fashion. Blood must flow and we are willing to shed our share of it. We are fighting a system that has hundreds of years of organization back of it and we cannot treat with it. It is life or death for the proletariat and the issue here has been drawn." Asked when he expected the revolution would begin, he answered: "I could give you dates and figures, but of course I won't. However, you may expect it soon."

The plan of the radical leaders as near as can be learned is to form organizations in the several districts and have them prepared to co-operate when the call goes out. They say that if their first onslaught gives show of success 5,000,000 Germans will quickly rally to their support.

Independent socialist sits opposed to the Moscow program are planning to correspond with radicals of all nations who are opposed to ruthlessness and agree upon a plan of action if possible.

The headquarters of both factions are in Berlin.

DECLARES MARKET FOR REFINED OIL PRODUCTS IS NOT ENCOURAGING

The past week saw another reduction in the retail price of gasoline over a wide area in the southern states when the Standard Oil company of Kentucky, effective November 22, reduced the tank wagon price 1 cent a gallon in its marketing territory embracing Kentucky, Georgia, Alabama, Mississippi, says the National Petroleum News of Wednesday. Kerosene was also reduced by a half cent or 1 cent at some points in the territory.

There is no change in the tank wagon price of gasoline in the Standard Oil company of Indiana's marketing territory, embracing eleven of the middle western states, although a cut

Forty-Nine West Texas Counties Are Attached to Ft. Worth "Dry" District

CUT THIS OUT

OLD ENGLISH RECIPE FOR CATARRH, CATARRHAL DEAFNESS AND HEAD NOISES.

If you know of some one who is troubled with Catarrhal Deafness, head noises or ordinary catarrh cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. In England scientists for a long time past have recognized that catarrh is a constitutional disease and necessarily requires constitutional treatment.

Sprays, inhalers and nose douches are liable to irritate the delicate air passages and force the disease into the middle ear which frequently means total deafness, or else the disease may be driven down the air passages towards the lungs which is equally as dangerous. The following formula which is used extensively in the damp English climate is a constitutional treatment and should prove especially efficacious to sufferers here who live under more favorable climate conditions.

Secure from your druggist 1 ounce of Eucalypti (double strength). Take this home and add to it a pint of hot water and a little granulated sugar. Stir until dissolved. Take one teaspoonful four times a day. This will often bring quick relief from distressing head noises. Clogged nostrils should open, breathing become easy and hearing improve as the inflammation in the eustachian tubes is reduced. Eucalypti used in this way acts directly upon the blood and mucous surfaces of the system and has a tonic action that helps to obtain the desired results. The preparation is easy to make, costs little and is pleasant to take. Every person who has catarrh or head noises or is hard of hearing should give this treatment a trial.

Revision of The Tax Burdens of The Future Great Problem Business Men Must Face.

By a unanimous rising vote the business council of the chamber of commerce decided today to support every view and theory held by Frank Kell, Wichita Falls railroad man and financier, regarding the need by the United States of a general sales tax in lieu of a general income tax.

Every man present agreed with the views held by Kell, and every man voted to support the matter to the directors of the local chamber of commerce, and to urge upon that body the necessity of the chamber leading a fight throughout the southwest for the repeal of the excess profits tax and the substitution of a general sales tax as a means of federal revenue.

Within a few days a referendum ballot will be received by every chamber of commerce affiliated with the United States chamber of commerce. That ballot will call for votes on 15 counts that represent the report of a committee on the revision of national taxation.

Every man present agreed with the views held by Kell, and every man voted to support the matter to the directors of the local chamber of commerce, and to urge upon that body the necessity of the chamber leading a fight throughout the southwest for the repeal of the excess profits tax and the substitution of a general sales tax as a means of federal revenue.

Every man present agreed with the views held by Kell, and every man voted to support the matter to the directors of the local chamber of commerce, and to urge upon that body the necessity of the chamber leading a fight throughout the southwest for the repeal of the excess profits tax and the substitution of a general sales tax as a means of federal revenue.

I appeal to you, Judge Huff, as a banker of many years' experience as to how much help any increase would receive from the banks of the country if this method of taxation were placed in effect! Mr. Wilson, head of the great Wilson packing house, told the directors that the application of such a method of taxation would close every packing plant in the country, and he might have added that it would close every other industry also.

Duty to Work Out Plan. "Were it not for the fact that the business men of the country must work out a plan of tax revision for action by congress I would not be here today. It is our duty as business men and good citizens to work out some thought, to agree upon it and to submit it in a body to congress. The next congress, and those to follow, will not be composed of business men and congress will look to the business men of the nation for its inspiration in these matters."

"It is agreed by one part of that United States chamber of commerce committee that a general sales tax will be legal; another part of the committee fears it will be illegal and cannot be collected. But the only thing we can do is to apply horse sense now, and let the courts fight out later the question of legality. Personally, I want to say that if it was legal for the government to levy an excise tax on matches, and later repeal it, the government would also have the right to levy a sales tax, and to repeal it when advisable. The difference between the two forms of taxation is so slight that I can not see it."

Referring to the method of collecting a general sales tax, Kell argued that it would be far easier to check the books of firms and individuals than it is to check every individual personally; that it would not only be easier, but would be more equitable and safer.

Should Be Licensed. "A business friend in Kansas City, agreeing with me on the sales tax, he continued, suggested that every industry should be licensed by the government. I told him, 'No; that I would go out of business before I would permit some blockhead in Washington to dictate my business. Then he amended his suggestion, making it that all industries should be registered in a central office in Washington. And this, if you will think it over, is practicable. Let every man who sells from \$10 worth of goods to \$100,000 worth collect the tax—that also is practicable. We do it every month on our railroads."

"It will be a simple thing to register every business man and every banker and every man with anything to sell. The record will show that he is conducting his business on a certain basis, that he is handling certain goods and that he must collect the tax on every sale and at the end of a designated period pay these taxes to the federal government."

In a brief reference to other recommendations made by the United States chamber of commerce committee, Kell called attention to one section in particular. "The committee reports," he said, "in favor of no tax reductions until the agent of the government has examined the books of the individual and has made that individual know that his condition is correct. That is sound, we can afford to vote for that. I have had on my own tax returns as many reports as there were men who extended it for me. There are millions of dollars being collected from men who do not owe, and millions more are not being collected from men who do."

In closing, Kell again urged every man present to use his influence toward the establishment of a general sales tax in any scheme of tax revision.

The council voted to endorse Kell's views, and to report to the directors of the chamber of commerce; to obtain publication of his remarks in the newspapers throughout the southwest.

MANUFACTURERS OF COTTON GOODS VOTE TO KEEP UP WAGES

FALL RIVER, MASS., Nov. 25.—The Cotton Manufacturers' association at a meeting today voted to stand by its decision to continue present wages without reduction. The meeting followed a conference in Boston several days ago at which the condition of the market for cotton goods was considered and the question of reducing wages to meet lowered market prices was discussed. The action of the local association is understood to be the result of consideration of the subject in the light of conditions here.

MILL HAS CLOSED DOWN FOR LACK OF ORDERS

LAWRENCE, MASS., Nov. 25.—The Lawoco mills of the United States Worsted company were closed indefinitely today because of a lack of orders. The plant has been running only two days a week. Five hundred persons are affected. The Pembroke mills, which employ 1,000 operatives in the making of cotton goods, closed today until December 13 for similar reasons.

APPEAR BEFORE JUDGE AND SENTENCE PRONOUNCED. Roy King, Roy Woods, James Oldham and E. N. Smith appeared before Judge P. A. Martin of the 59th district Friday afternoon, at which time they were sentenced to the state penitentiary. Punishment as assessed by a jury who found them guilty of the charge of robbery with firearms was for five years each with the exception of Roy King, who was sentenced to fifteen years. King and Oldham waived appeal, while a motion for new trial in the Roy Woods case will be heard before the court Saturday. Attorney for E. N. Smith also gave notice of appeal.

JAIL MAN CHARGED WITH SHOOTING AT NEWTOWN. Deputy Sheriff Frank Watkins, Friday afternoon brought B. G. Knight to Wichita Falls where he was placed in the county jail on a charge of assault with intent to murder. It is alleged that he shot and wounded "Happy," a cook at the Red Front cafe in Newtown.

The prisoner stated that both of them were under the influence of liquor at the time and that the trouble started over an argument. He stated

JAKE HAMON DIES AT ARDMORE EARLY TODAY

(Continued from Page 1) Work, circus man, he built 21 miles of railroad from Ardmore to Ringling, Okla. Later he became owner of the Hamon-Kell road in Texas.

Mr. Hamon made his first venture in oil when the Healdton field came into prominence as a prospective producer. He began to buy production at a very low figure. Then, by selling it high, he amassed a fortune of five million dollars within a period of three years.

OFFICERS BELIEVE WOMAN MAY BE IN STATE OF TEXAS. ARDMORE, OKLA., Nov. 25.—Officers here today express the belief that Mrs. Clara Hamon of Ringling, sought in connection with the death of Jake L. Hamon, Ardmore millionaire and reputedly a national committeeman, may be in Texas.

Her brother was arrested near Fort Worth, but later was released, according to word reaching here. He was driving his sister's huge red car which he said he secured at Wilson, Okla.

Mrs. Clara Hamon, it was believed, is en route to El Paso, where her parents live. They formerly resided at Ringling, but moved to the southern city because of ill health.

Funeral services for Hamon will be held at the First Presbyterian church here at 2 o'clock Monday afternoon, it was announced today. Rev. T. J. Irwin of Lawton, the Hamon's former pastor, assisted by Dr. C. C. Weith, pastor of the First Presbyterian church of this city, will conduct the services. It was said.

Burial will be in Rose cemetery, two miles south of Ardmore, according to present arrangements.

SALOONKEEPERS OF CHICAGO RESTRAINED FROM OPENING PLACES

CHICAGO, Nov. 25.—Federal Judge K. M. Landis issued restraining orders against 72 saloon keepers today to prevent their violating the prohibition law.

Attorney General E. J. Brundage of Illinois, who filed suit against the saloon men, has asked that their places be closed.

Judge Landis issued orders prohibiting the saloon keepers removing or selling any liquor or fixtures in their places.

The court decided to try each of the 72 injunction suits separately and announced he would act early in the case as soon as the defendants file their answers.

Robert Perlman, partner of "Mike de Peace" Hollister, who was indicted last Wednesday in connection with the sale of a carload of whiskey, surrendered today to the United States marshal and was held in \$5,000 bond.

Hollister and Mandel Greenburg, a third partner, surrendered several days ago and were released under similar bonds.

TIMES DAILY MARKETS

New York Stocks—Grain and Provisions—Cotton—Livestock

COTTON MARKET.

New York Cotton.

NEW YORK, Nov. 26.—The cotton market was extremely nervous and unsettled as the opening today owing to weakness in Liverpool over the holiday and reports of unsettled financial conditions abroad. First prices were weak at a decline of 30 to 75 points with December selling off to 15.85; January to 15.64 and March to 15.65, or 69 to 75 points below Wednesday's closing.

There was covering enough to cause slight rallies but the market remained unsettled late in the morning, owing to continued December liquidation reports of an easier spot basis in some parts of the south and continued southern selling. December contracts broke to 25.50, or 120 points net lower, while later months showed losses of 50 to 75 points around midday.

Trade advices from Switzerland estimate this season's consumption of American cotton by Germany, Czech-Slovakia and Poland at 1,200,000 bales compared with 600,000 last year.

Reports of an easier spot basis in some sections of the south encouraged further selling and the break extended to 15.40 for December and 15.30 for March. 140 points net lower during the middle of the afternoon.

Cotton closed barely steady.

New Orleans Cotton.

NEW ORLEANS, Nov. 26.—Wide declines were registered in the cotton market today, the active months falling 45 to 80 points in the first half hour of trading as the result of poor cables and the unfavorable impression created by the American note to Great Britain on the Mesopotamian oil fields. The market got next to no support from any quarter.

Private telegrams from Liverpool stating that master spinners would ballot at once on the question of 50 per cent curtailment of spindles working on American cotton, caused increased offerings and in the trading up to 11 o'clock the decline was widened to 60 to 80 points, January trading down to 15.20.

Heavy selling of the session followed the posting of the weekly statistics, showing mill takings at 492,000 this week last year and 330,000 this week. Some months ago the mills were sent to new low levels for the season, March touching 14.11, 25 the lowest, and the market fell to a decline was widened to 102 to 134 points.

Cotton closed barely steady, net 109 to 120 points lower.

GRAIN AND PRODUCE.

CHICAGO, Nov. 26.—Wheat tumbled today below \$1.50 a bushel. The immediate bearish factors were the strained banking situation in North Dakota, a break in the cotton market and a sharp downturn in foreign exchange. British buying was resumed on the downward swing, but rallies failed to stabilize the market as low as \$1.47 for March delivery. Opening quotations, which varied from 31 to 35 cents, closed between 31 and 32 cents, with the market 1 1/2 to 1 cent weaker.

Wheat weakened with wheat. After opening 1c to 1 1/2c lower, including May at 77 1/2 to 79c, the market reacted a little but then sagged again.

Oats were depressed by the action of other cereals, starting 4c to 5c lower, May 47 1/2 to 48c and continued to weaken.

An advance in hog values counterbalanced to some degree in the provisions market, the bearish effect of the grain market.

Comparative firmness was shown later as a result of estimates that Louisiana's domestic grown hogs had been bought for export by way of the Gulf of Mexico, making a demand for so far this week. The close was unsettled, net to 13c lower, and March \$1.44 to \$1.51 and March \$1.44 to \$1.43.

December corn touched the lowest point since before the war but the market subsequently showed stubborn resistance to selling pressure. The close was nervous at 4c net decline to 10 1/2 cents, or 17 1/2 to 17c.

NO TRACE OF PARTY WHO KILLED MAN IN ATTEMPTED HOLD UP

The identity of the alleged bandit who shot and killed J. D. Bridwell, an aged meat cutter in the oil fields, Wednesday evening is still unknown, all efforts to capture him having proven futile. Texas Rangers and county authorities have made extensive searches of the fields near the scene of the murder but aside from the arrest of one suspect who soon established his innocence nothing has been accomplished.

The only clues on which the officers have to work are a few articles of clothing believed to have been dropped by the fugitive in his flight from the C. P. Watson store—where the shooting took place. This wearing apparel was described as being a fashionable and excellent material, which would indicate that owner was a careful, if not fastidious, dresser. Rangers who are working on the case are not satisfied, however, that the clothing was the property of the murderer and they are more of the opinion that the clothes had been stolen a short time before the hold-up in the Watson store was attempted.

Efforts, said to have been made, to find the actual owner have met with no success. A Panama hat and fur cap, a heavy jersey sweater, a silk handkerchief and a pair of wool trousers of expensive material comprise the wardrobe which was picked up in the highway a short distance from the store.

Early reports of the shooting received in this city indicated that the Watson store was located in Bridge-town, but these statements have been corrected by Rangers Gonzales and Brady who visited the scene of the crime Thursday. According to their report the Watson establishment is located about midway between Burk-burnett and Newton on the highway connecting those places.

The body of Mr. Bridwell was removed to the Collier Brothers undertak-ing establishment in Burkburnett and prepared for burial, later being shipped to Lawton, Okla., where funeral services will be held Saturday. Mr. Bridwell was 57 years of age at the time of his death and has been a resident of this section for many years.

REPORT KU KLUX KLAN ACTIVE OVER COUNTRY

HOUSTON, TEXAS, Nov. 26.—The Ku Klux Klan, champion of the Caucasian race, is starting a fight on threatening wholesale invasion in western states, according to Colonel W. J. Simmons, imperial wizard of the organization.

"Following successful campaigns on racial questions in the south after the Civil war, the Klan has spread itself into practically every section of the United States," Simmons explained in a talk, the purpose of the Klan.

"Western states are threatened with a similar invasion of another race and the Ku Klux Klan is going to California," he added. "Voting is a privilege and the supreme court has so held. See to it that this privilege falls not in unworthy hands," he added.

Simmons as head of the Klan is the only known member, he explained. There is said to be a membership of 100,000.

YOUTHS MAKE EFFORT TO BREAK CITY JAIL

Had Almost Completed Work Of Sawing Bars When Act Was Discovered.

An attempted jail delivery at the city hall was frustrated Thursday night by Turnkey Jensen, who interrupted the work of two prisoners after they had cut through a bar in their cell. A small saw, believed to have been concealed in a shoe of one of the men, was used. One bar had been completely severed and good headway made on a second when Jensen happened on the scene and shattered all hopes of freedom.

The cell, which is located on the second floor of the hall, was occupied by Otis Reynolds and Lewis Brown, both of whom had been arrested earlier in the day. Brown was taken into custody by Officer Bobo Thursday afternoon and lodged up on a charge of auto theft. A new roadster which he was driving has been identified as having been stolen in Houston last Tuesday.

Reynolds was one of a pair of alleged "clothesline" robbers arrested by Detectives Boone and Jackson in connection with the pilfering of a number of residences in this city.

All prisoners locked up in the city jail are thoroughly searched before being placed in cells and all money,

JEWELRY, POCKET KNIVES AND OTHER ARTICLES WHICH THEY MAY HAVE IN THEIR POSSESSION REMOVED AND GIVEN INTO THE CARE OF THE DEK SERGEANT. THE USUAL POCKET ACCUMULATION WAS TAKEN FROM BOTH REYNOLDS AND BROWN BUT NO SEARCH WAS MADE OF THE SHOES WHICH THE FORMER WAS WEARING, SO IT IS THOUGHT THAT HE HAD CONCEALED THE SAW IN ONE OF THE SOLES OF HIS FOOTWEAR.

BILL ROWE OIL CO. HAS GOOD SHOWING OFFSETTING TEMPLE

A good showing of oil at the No. 2 well of the Bill Rowe Oil company offsetting the Temple-White discovery well on the Mattie Parker sands, was reported from the field today. The oil was bailed from a depth of about 1200 feet, a few feet shallower than the producing sand, and it is thought that the well will have to be drilled eight or ten feet deeper before the real producing sand is struck. However, the showing made this morning is sufficient to indicate that another producer has been brought in, according to the report.

PANHANDLE MAKING TWENTY-FIVE MILLION FEET OF GAS DAILY

The Panhandle No. 2 well on the McCluskey in Young county is producing about 25,000,000 cubic feet of gas, according to a report brought in from the field yesterday. The No. 2 well was expected to be drilled in this week at the same depth as the No. 1, which came in at a depth of 2540 feet. The gas sand was struck at 2542 and the pressure has been so great that drilling operations have practically been held up. The drillers were able to make only one foot yesterday forenoon.

This new gasser is the only important development that has been reported from Young county this week. Several other wells are approaching the sand, however, and are expected to be brought in before the end of next week.

JUST BY WAY OF DIVERSION

By JOHN GOULD.

From the time a rubber tree is planted until it produces rubber, is about eight years, and we have figured it out that the spade with which they will dig the hole in which to plant the tree that will produce the rubber from which will be made the tires which our car will have, has just been turned out at the spade factory. For the next few years, therefore, we must continue as in the past, to start out walking to town in the morning.

The times when we have to walk all the way are few and far between, and we take this occasion to again thank the numerous Wichitans who have taken pity on the enforced pedestrianism of ourselves and many others, it is a kindly, thoughtful and hospitable custom that many autoists here have, of stopping for everyone they see hoofing it, until the car is loaded. In our case, the traction company's revenues are not depleted by so much as one six-cent fare, for we'd walk even if we knew no life were forthcoming. Strangers and newcomers have commented upon this custom of autoists, as something not encountered everywhere.

We have learned that certain cars are more apt to hail us than are others. Most of our rides are in Dodge, Buick, Overland, Essex, Hudson and Studebaker cars. Very seldom does a Fordist offer to share his jolts and squeaks with us; not often does the driver of a Cadillac or a Pierce-Arrow seem aware of our secret longing. We have learned to expect most of our lifts, not from the proletariat who flit, nor from the aristocrats in Cadillac, but from the bourgeoisie who inhabit Buicks and Dodges and such. And once again, we thank you.

In Defense of Our City.
A report that reflects seriously upon Wichita Falls is being circulated in other parts of Texas, to the effect that whiskey is selling here for \$60 a quart.

In defense of the good name of our more or less fair city, such a slanderous rumor should be corrected. There never was a time when you couldn't get a quart for \$40, at most.

Postage Stamp Ped. easy.
If you want to improve your memory, build up an Adonis-like physique, make your wife love you more, become an engineer, editor, dancer, pugilist or member of any other learned profession, you can learn how by mail. Magazines are cluttered with the advertisements of the learn by mail institutions. Some forms of instructions are pure rot, of course, but it is certainly true that figitality to leave home need no longer bar anyone from acquiring professional or technical training.

Such mail instruction can take the place of personal contact and teaching, but it can do so to equip a man for his chosen work, provided of course that both instructor and pupil are sincere.

A man whose ambition is to be a good ditch-digger could certainly, by studying, learn certain things about that work that would make him more useful and efficient when he comes to apply his knowledge. The scope of mail-instruction is now so broad that one can obtain training in almost any work he chooses for himself, and opportunities are afforded any ambitious young man to get the principles of any calling grounded into himself.

The man who really wants to learn by mail can do so. Education obtained that way isn't the best sort of education, but it's better than none at all.

Safe Deposit Socks.
A Wichitan, who has several times suffered the loss of money and valuables while on a sleeping car or in an oil country rooming house was hit upon a plan to safeguard his wealth. At first, he put his wallet and watch under his pillow, where they were safe enough while he slept; but one morn-

ing he forgot to retrieve them when he awoke, and they were stolen. So now he puts his valuables into one of his socks, puts the sock under his pillow, and betakes himself to untroubled sleep, knowing that when he wakes he won't forget so necessary a part of his toilet as a sock. The plan has worked fine so far, but it seems to us to have one weakness; he may want to change his socks some morning.

Open Season.
A street commissioner is always fair game, of course, but they ought to be limited, and a closed season. Recently when Walter Curlee was telling about the paying program, some hick got up and asked him, "Say, when are you going to pave Tenth street?"

Some City.
Ever since the writer became a Wichitan, over a decade ago, he has been possessed of an overweening pride in his city. But never does this pride mount to greater heights than when he sees some rural brother gazing up at the tall buildings, counting the stories, and exposing his tonsils and epiglottis to the sun and breeze.

Your Very First Movie.
What was the first movie you ever saw? There was no pipe organ, no plush seats, no blithering proscenium, but it wasn't so bad, was it, even if it did cost a whole dime and no war tax? For the benefit of those who can't remember back that far, the first movies shown in Texas were carnival attractions, and they were some movies, too; a little jerky as to movements of the actors, and a little uncertain and flickery as to film, but they thrilled our youthful soul as nothing has since. We can shudder even today at "The Great Western Train Robbery" and "The Convent's Escape," each with a plethora of homicide and gunpowder.

The very first was a comedy, "Wanted—A Wife." A young man, single and wealthy, advertised for a wife, telling applicants to meet him at Grant's tomb. The applicants came, all sorts, shapes and sizes, and the young man lost heart and ran. The girls chased him. That's the whole

plot. They pursued him through scenes urban and rural, up hill and down dale, and always, in each scene, a big fat girl would puffing bring up the tag end of the chase. The youth sought refuge in a lake, wading in up to his neck. The water barrier halted all pursuers except the fat one, who waddled boldly into the lake and clasped the hero in a damp but ample embrace.

There have been many movies for us since, with literary plots, high paid actors and expensive settings. Probably that first celluloid comedy wouldn't rank very high with movie critics today. But we would give four bits war tax to see it again and enjoy it as much as we did a score of years ago.

Unnecessaries.
The city has again removed the traffic cops from the downtown intersections, occasioning no great sorrow thereby. The human semaphores lacked experience, and their work did seem rather raw at times. But they were even in their most ivory moments, much more useful to the community than some folks who stood on the corners and made remarks about 'em.

High Cost of Shining.
Cokes are down to six cents, and Camels to 20, but a shine still costs 15 cents, plus an insult if you fail to tip the shiner. A shine parlor is one institution that nearly every visitor patronizes, and while neither the extra nickel nor the insult will break the shiner's heart, he gets the impression that he is being crowded for every possible odd jenny he holds. It's about time for 15-cent shines to follow some other things into the discard.

Meets Our Approval.
"Shining and Dying Done Here" reads one shine parlor sign. As it is one of the 15-cent places, we are heartily in favor of the last part of the sign.

Spilled.
We are again cookless at our house. The latest victim of the missing oven-

heard a chance remark, about the specific gravity of the biscuits, and she promptly took umbrage, the remains of yesterday's chicken, some odd pieces of silverware and her departure.

"What's the matter, Pellagra?" we asked, "why are you leaving us?" "I don't seem able to suit you-all, and I don't have to work nohow" she made reply.

Pellagra and her tribe are never long in one place. Sometimes they leave because you want corn-bread for dinner, and sometimes because you don't. High yellows that can't boil water without scorching it know that they can have their choice of half a dozen places, and that therefore pleasing you is nothing whatever in their young lives. You hire one for \$10 a week, permit her to support a large family and numerous friends out of your pantry and to be saasy and lippy to an extent that would make your grandmother turn over in her grave, and all to no purpose. The great demand for cooks and household help has resulted in spilling a lot of negro women to the point where they will never be much account again. It would seem to be about time for a city-wide "do your own cooking" campaign.

Boy, Page Jim Marlow.
The reference in a former article to the well known and justly outdoor

sport of badger-fighting brought some inquiries as to the nature of such a contest. Any Wichitan who has never seen a badger fight has missed something without which his education is incomplete, and his name will be sent to us, be promptly forwarded to an ex-mayor, who has a ferocious and well-conditioned badger that has not been exercised for some time.

SOLD EVERYWHERE. TABLETS OR LIQUID.

IT'S not a bit of trouble to have plenty of good things to eat on hand all the time, when you use Calumet Baking Powder.

It never allows baking trouble. You don't "dread" to bake. There is nothing to worry about—and that really is the hardest part of it.

Mix up a batch of biscuits—or the finest kind of cake—it's all the same. There is never but one result—the sweetest and most palatable of foods.

There is not as much worry over baking costs either. Because Calumet costs less—when you buy it—the price is moderate.

—the Kind Mother Uses!

CALUMET BAKING POWDER

It costs you less when you use it—because you don't use as much of it—it has more than the ordinary leavening strength.

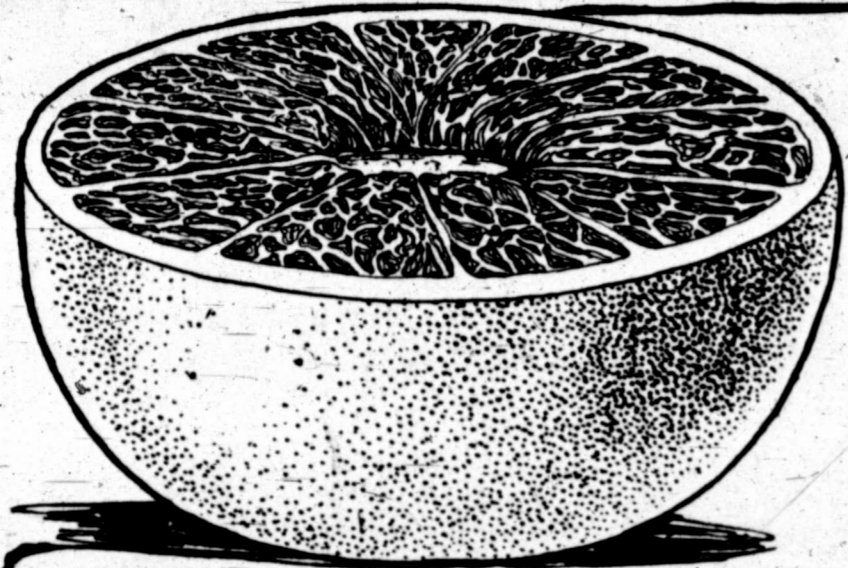

You get more out of the flour, sugar, eggs, shortening, etc., because there are no failures—no waste.

The most critical of baking powder judges gave it highest awards, World's Pure Food Exposition, Chicago, Paris Exposition, Paris, France.

The largest selling brand in the world.

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

Calumet Doughnut Recipe
4 cups of pastry flour, 3 level teaspoons Calumet Baking Powder, 1/2 teaspoon of salt, 1 cup of sugar, 2 eggs, beaten together, 2 tablespoons of melted butter, 1 cup of milk. Then mix in the regular way.

Sealdsweet Grapefruit for Food and Health

Tune the meal and tone the system. Nature's own aids to the digestion of other foods. Appetizing, delicious, refreshing and strengthening.

The ideal fruits with which to begin breakfast and end dinner. True food-fruits, delightful and beneficial at every meal, they may be served in a wide variety of ways.

Say Sealdsweet Soon This week, Today, Now! To Your Fruit Dealer

Say to your fruit dealer:
"I want Sealdsweet grapefruit and oranges."
"This season I shall expect you to supply them to me regularly."
Say this to him right away, that he may have opportunity to provide for a stock of these superior grapefruit and oranges.
Say also that some nearby wholesale house will regularly furnish him Sealdsweet fruits out of carload shipments received direct from the cooperating growers who form the Florida Citrus Exchange.

To make sure of dependable grapefruit and oranges, look on boxes and wrappers for the Sealdsweet trademark of Florida Citrus Exchange.

Say Sealdsweet to your fruit dealer and keep on saying it; if he hesitates, tell him you insist on having Sealdsweet grapefruit and oranges. Most good dealers like to sell them because they give such satisfaction.

The Florida Citrus Exchange is a great body of 3,000 grapefruit and orange growers who sell their own fruits to avoid speculation in them.

Sealdsweet Oranges—Better Because Juicier

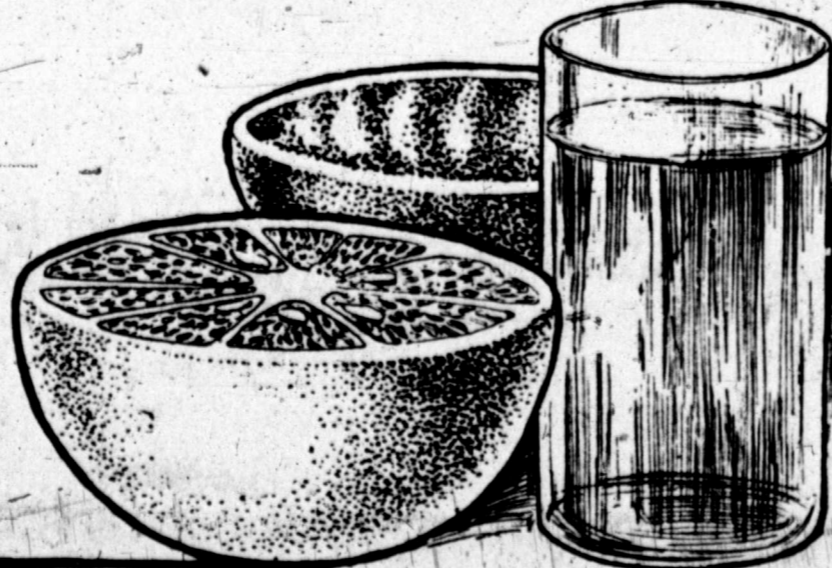

All oranges are good, but Sealdsweet oranges are better than most. They are better because heavier in juice, the food and health element of oranges. Buy Sealdsweet oranges for your health's

ake; enjoy them because of their rare deliciousness. Try Florida Sealdsweet oranges and see for yourself how much more juice they give than oranges from sections less favored by nature.

HOPE TO RESTORE "TWIN SISTERS" TWO FAMOUS LITTLE CANNON NOW BURIED NEAR HARRISBURG, TEXAS

DALLAS, TEXAS, Nov. 26.—Hope that the famous "Twin Sisters" two small cannon which figured so largely in Texas' struggle for independence, will be restored was revived here this week when State Senator C. McNealus announced that he intends to take steps at the next session of the Texas legislature toward locating the historic relics. The senator's action will take the form of a resolution asking for an appropriation to conduct the search. If after investigation, the plan appears practical, Senator McNealus said that he had conducted a thorough personal investigation and felt convinced that the cannon can be located.

Should the appropriation be made, lovers of Texas history may realize a dream of more than half a century, and to the people of the Lone Star State may be given the greatest memorial, perhaps, in existence of the heroic fight against the Mexican hordes in 1836.

Success in locating the "Twin Sisters" depends upon one man—Dr. H. N. Graves of Dallas—the only survivor of the five Confederate soldiers who buried the guns near Harrisburg, Texas, early in June, 1835. Dr. Graves has visited the spot several times, his latest visit being during the Confederate reunion at Houston in a fall, and he recently expressed himself as not only willing but eager to lead the search. He probably will be aided by an expert from the physics department of the Texas university, who will be equipped with a delicate instrument used in locating buried metals. The instrument is said to be particularly infallible when operated within a few hundred yards of the object sought.

Despite his advanced age—for he is nearing his eightieth milestone—Dr. Graves' memory is remarkably clear and he is able to recall even the minutest details of the burial of the relics.

The burial took place soon after Governor Pendleton Murrah's attempt to obtain special terms of surrender for our division from the head of the blockading squadron of federal warships anchored near what is now known as the Galveston Jetty. Dr. Graves related recently:

"It was shortly after the 'break-up' of southern forces occurred that Gov-

ernor Murrah asked for volunteers to search in Galveston while he negotiated with the commander of the squadron. Four hundred of us volunteered and took up our stations on the island. However, when the government returned from the warships five days later, all but 72 of the volunteers had become tired of waiting and had gone home.

"Those of us who had waited," continued Dr. Graves, "then started inland, our first stop being at Harrisburg. When we reached this point we found a pile of abandoned cannon where they had been dumped by the roadside. In the pile were two small guns—dear to the hearts of Texas patriots—the 'Twin Sisters'.

"To allow those precious guns to fall into the hands of the Yankees was unthinkable. We had been beaten, but the fire of patriotism was still there, and while the greater part of our party resumed the journey, five of us, and in addition, my negro body guard, determined to put the 'Twin Sisters' where they would be safe, forever. Those who remained were: Jack Taylor, Ira Prewitt, Sol J. Thomas, John Burnett, my negro Day and myself.

"As night drew near we started to dig the grave. We will bury the little darlings so deep that no infernal Yankee ever find them, we said fervently as we started to work with the spades. But though our fervor did not diminish our strength did, and for my part, I was glad to let my negro finish my share of the work.

"At last the task was completed, and after dismantling the 'Twin Sisters' we rolled them into the grave. Then after filling in the earth over the guns we proceeded to destroy all evidence of the burial. All metal parts, such as the iron ties, were dumped into the bayou nearby. Then with the wood we built a fire over the 'freshly spaded dirt' and scattered the ashes in every direction. Before leaving we marked the spot carefully by notching the trees surrounding the grave.

"More than thirty years later John Burnett and I went to Harrisburg with the intention of digging up the buried cannon. We located the exact spot, but had to abandon the project because the owner of the land was away and would not want to dig into his property without his consent. We waited

UNION OF NEGROES AND "RED" ELEMENT URGED AT MOSCOW

WASHINGTON, Nov. 26.—Union of the American negroes with the radical elements of all nations to further the cause of world sovietism was urged before the Moscow meeting of the communist international, at which both Lenin and Trotsky spoke, by the late American radical and magazine writer, John Reed, according to the text of his speech received here in official dispatches from Russia.

Describing the position of the negro in the United States especially in the southern states, as "terrible," Reed declared the negro offers a two-fold opportunity to the spread of communism in this country, first, a strong race and social movement, and second, a strong proletarian movement. Race consciousness has steadily increased among the negroes, he said, "a certain section of whom are now carrying on a propaganda in favor of armed revolt against the white," and socialist ideas are rapidly developing among the blacks employed in industrial establishments. White and negro labor in both the northern and southern parts of the country must be joined in common labor unions, Reed proposed, as the quickest way to eliminate race prejudice and develop class solidarity. Until negroes "were not admitted to membership in the majority of unions which comprise what is known as

"Hanging in age from 11 to 42 years and including Germans, Russians, Spaniards, Italians, Mexicans and Greeks, the little class nightly is instructed in the adventures of George Washington, America's first president, and are told of the ferocity with which immigrants of a couple of centuries ago made out of a wilderness the great land which now is known as America—land of opportunity.

the American Federation of Labor," he said.

"The communists must not, however, stand aloof from the negro movement for social and political equality, which is developing so rapidly at the present time among the negro masses," Reed told the meeting. "Communists must avail themselves of this movement in order to prove the emptiness of bourgeois equality and the necessity for a social revolution, not only to liberate all laborers from slavery, but also as being the only effective means of liberating the oppressed negro people."

Describing the status of the negro in America, Reed asserted that despite the constitutional right to the ballot in the southern states, negroes were killed if they dared to exercise this right and that the separate use of public schools, hotels and theaters existed in all parts of the country.

"This separation of the negro from the white is called the 'Jim Crow' system and the clergy of the southern churches teach that there is also a

heaven where the 'Jim Crow' system is in operation," Reed declared.

Operation of the foreign labor in the United States for revolt and the coordination of radicalism in north and south American into a single movement, was advocated at the same meeting by Louis Pratta, head of the communist party of America, according to the dispatches.

For Beauty's Sake

Remove that film-coat from your teeth

Teeth cannot glisten with a film-coat on them. You who want white teeth must learn how to remove it.

This week your druggist offers—free—a new way of teeth cleaning. Millions now employ it. Leading dentists everywhere advise it. Go make that test. One week's results will be a revelation.

Film—the great enemy

But this is more than a beauty question. Film ruins millions of teeth. Most tooth troubles are now traced to it.

Film is that viscous coat you feel. It clings to teeth, enters crevices and stays. The ordinary tooth paste cannot end it, so the tooth brush has left much of it intact.

It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. All these troubles have been constantly increasing, because brushing failed to end that film.

Now a new dental era

Dental science, after years of research, has found ways to combat film day by day. The methods have been proved efficient by many careful tests. High authorities endorse them. And millions of people now employ them, largely by dental advice.

These methods are combined in a tooth paste called Pepsodent. Together they combat the film as nothing else has done. And they are fast bringing, the world over, a new era in teeth cleaning.

That is the tooth paste you are urged to test. See the instant results—watch the effects for ten days. Then decide for yourself between the old ways and the new.

The unique effects

One ingredient of Pepsodent is pepsin. Another multiplies the starch digester in the saliva to digest starch deposits that cling. The alkalinity of the saliva is multiplied also. That to neutralize the acids which cause tooth decay.

Two factors directly attack the film. One of them keeps teeth so highly polished that film cannot easily adhere.

The Pepsodent effects come with every application. Day by day they fight the teeth's great enemies. And teeth are protected as they never were before.

See and feel it act

Present this coupon for the 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

The results are quick and apparent. A little book tells the reasons for them. For your own sake learn how much they mean.

FREE

This week only

At any drug store named below, a 10-day tube of Pepsodent. Simply present the coupon. Let this new way prove itself. Judge by results what it means to you. Learn now the way that millions know to whiter, safer teeth.

Now daily used by millions

Millions of people are now using Pepsodent. You can see the results wherever you look—in glistening teeth.

Women who think their teeth white now should see how they look with the film gone.

With men who smoke the films are apt to be particularly discolored. They will see the most conspicuous results.

But children need Pepsodent most. Their teeth are most subject to decay. Dentists advise that Pepsodent be daily applied from the time the first tooth appears. It may save them troubles life-long in effect.

KILBANE LEADS THEM ALL WHEN IT COMES TO DUCKING BOUTS

MARTIAL AIR WILL BE A FEATURE OF ANNUAL ARMY-NAVY STRUGGLE

Champion Not Nearly As Popular As Billy DeFoe Or Andy Chaney.

By HENRY L. PARRELL, (United Press Staff Correspondent.)

NEW YORK, Nov. 25.—In these days of non-fighting champions, Johnny Kilbane, histrionic expert and erstwhile Cleveland politician, wins the powder "Cox de Ring."

He is the undisputed champion of all weights and classes at avoiding ring engagements. Beating through the small-time circuits with a vaudeville act in which he dances, sings and plays a violin, the featherweight champion of the world has no ear for offers of Tex Rickard and the challenges of a pair of first class contenders.

The champion told the writer during the world's series that he had received no offer from Rickard, but that he was not disposed to risk his title in a little east, where he figures there is nothing but prejudice against him. In a decision bout eastern fans sincerely believe that he will be able to make a decision either Billy De Foe, the St. Paul little fellow, or Andy Chaney.

De Foe with his slashing attack, his clever boxing and his efforts and the welterweights, Rickard is having the same trouble in getting the featherweights of the east to go against him.

Andy Chaney another good boy. Bug-around here are confident he would finish the champion in a fifteen-round go to a decision. Eddie Mead Chaney's manager, called a lot of amusement recently with a novel advertising stunt to force the champion into a fight.

He spread broadcast notices, bearing the picture and description of Kilbane and offering \$1,000 for his "capture."

"One thousand dollars will be paid by the undersigned (Eddie Mead) to any man who captures Johnny Kilbane and delivers him into the hands of Andy Chaney in any ring in the United States," the notice read.

He is now independently wealthy and while he is making very little money out of the ring, his title as champion is helping him to cash in on vaudeville act.

Kilbane refuses to make weight for anyone and this may be the one big reason why he refuses to come to New York. It is becoming an accepted belief that he cannot make the weight of his class under any condition.

LEONARD AND WELLING IN DECISION BOUT TONIGHT

NEW YORK, Nov. 25.—Benny Leonard, world's lightweight boxing champion, defends his title here tonight against Joe Welling of Chicago in a 15-round bout to a decision. The contestants were to weigh in at 135 pounds at 3 p. m. The winner will receive a diamond studded belt to be presented by Tex Rickard.

PURYEAR "IN DUTCH" WITH THE GOTHAM COMMISSION

NEW YORK, Nov. 25.—Earl Puryear, Tulsa featherweight, will be summoned before the state boxing commission to explain why he failed to appear yesterday for a bout with Charles Beecher. It was the second time he "ran out" on the Commonwealth Sporting club.

Soldiers Slight Favorite Owing To Record Made This Season.

While other football struggles may surpass tomorrow's battle between the Army and Navy in classic atmosphere and in point of attendance, none can begin to compare with it for martial pomp and splendor. The West Point Cadets, with their Army mule, and the Annapolis Middies, with their Navy goat, present a spectacle that cannot even be approached in other contests.

Even the crowd this afternoon, the game is different. While there will be many on hand in civilian clothes who will carry the pennants of their favorite, the outpouring of military and naval officers lends a color to the huge throng that is not found any place else.

If there ever was a distinctive American athletic contest, the annual Army and Navy battle is.

As is the case in all big games, tickets are hard to procure and they were harder this year than ever before. The unprecedented popularity of football this year increased the number of requests to over 50,000. The Polo grounds, where the battle is to be staged, has been enlarged to accommodate that number and the applications from the athletic associations of both institutions are said to have reached the 20,000 mark.

The Army is the favorite this year on the strength of the season's record. The soldiers have dropped only one game—a 27 to 17 loss to Notre Dame, while the sailors have been defeated by North Carolina and Princeton and have had close calls at the hands of Lafayette and Bucknell.

The Army is still smarting under last year's 6 to 0 defeat which the Navy administered and can see nothing but revenge and a victory tomorrow. But no matter which team is on the short end before the whistle, it always has a peculiar habit of sprucing up before the greatest battle of the year leaving little to choose between the two.

No teams in the country have been more evenly matched year after year since the first struggle in 1890. The Army holds the edge on the Navy with 11 wins and 10 defeats while one game was tied.

Players Arrive at Grounds. NEW YORK, Nov. 25.—The traditional spirit of Army-Navy rivalry began to permeate 2,000 atmospheres today on the eve of the annual football classic between the two service institutions tomorrow at the Polo Grounds. The Annapolis players arrived here last night and the West Pointers came today.

Hotels today already were taxed to capacity to house the advance guard of the crowd. Josephus Daniels, secretary of the navy, and General John J. Pershing stayed over after attending the airplane race at Mineola yesterday, and Newton D. Baker, secretary of war, was expected to arrive during the day. High officers of the army and navy and governors of several states also were numbered among the prospective spectators.

Most zealous care was being taken of the teams' mascots, the proverbial army mule and the shaggy "William Goat" of the middies. The latter spent last evening in a hotel with the navy players.

Aside from short signal practices scheduled for this afternoon at the Polo Grounds, complete rest was prescribed for the players. Favoritism among unbiased critics of the teams leans slightly toward the West Pointers.

REPPY WINS SILVER CUP THOUGH PUSHED BY COLLIER

By defeating Frank Collier 1 up yesterday, G. F. Reppy won the silver cup offered weeks ago by the Wichita Golf club at the start of a membership tournament. Collier gave his opponent a battle from the first drive and the match was a matter of doubt until the final hole had been played.

Another tournament will be started immediately for a cup offered by the "Golf Illustrators." All members of the club subscribing to the magazine are eligible to enter.

Rice 'G' Arkansas 6.

HOUSTON, Nov. 25.—Arkansas sprung a surprise here today and held the Rice Owls 6 to 0 in one of the best football games ever played here. L. J. Williams and McGill, made a wonderful showing while Eddie Byer and Kennedy starred for Rice.

Both teams resorted to straight football methods practically throughout. Since Rice was defeated by Texas, this gives the Longhorns undisputed right to the southwestern conference title.

FINANCIAL SITUATION AFFECTS OPERATIONS IN WILBARGER COUNTY

VERNON, TEXAS, Nov. 26.—Financial conditions have had and still are making their presence felt on the Vernon oil field as on all producing centers in the state, and as a consequence operations have been exceedingly cautious and there has been a considerable suspension of active development until the money market eases up. The temporary suspension of activity is not regarded as a local incident as an indication that the field here is exhausted or not of a promising nature, it is merely a phase of the general conditions that are being felt all over the country.

Several companies, however, are steadily progressing and others expect to resume operations within the next few days.

The Gulf Production company, McMillan, has reached 2,180 feet with casing set and completed as far as 2,916 feet. This well, it will be remembered, is the one which caused such a flurry of excitement in local circles a little more than a month ago. Drilling is in progress for the past month, but it is understood that the promoters are well satisfied with their showing thus far and are willing to expend their resources on a deeper hole.

The Gem Oil company, section 27, block 2, is drilling at 1,460 feet. This organization has consistently kept up with its progress for the past month.

The Hamid Royalty company, Wharton, section 22, block 5, is one of the comparatively new concerns that has not permitted the terrors of the financial situation to retard its development. Drilling is set for holding at 1,520 feet. The company has twice declared dividends since its organization about two months ago.

Staley, Green et al. Dill, section 22, block 14, has resumed drilling at 2,130 feet after a temporary period of suspension. Other companies and their activities are as follows:

Armstrong and Churchill, Wharton, 1,800 feet, drilling; Cable Oil and Gas Co., Waggoner colony, 2,200 feet, new contract pending; fishing; Federal Oil company, section 19, block 5, 1,520 feet, setting packer; Harrington and Robinson, section 67, block 15, 1,870 feet, waiting on casing; Mid-Kansas Oil and Gas Co., No. 1, drilling 2,010 feet; Paul Waggoner, 2,510 feet, contract completed; Home Oil and Gas company, section 10, block 13, drilling 1,310 feet; Noble Oil and Development company, 2,500 feet, contract completed; negotiating drilling 500 feet deeper; Penn-Burk Oil company, West Vernon No. 1, drilling 1,420 feet; Sure Pop Oil company, Scott No. 1, junked, No. 2 testing 725 feet; Sigler Oil company No. 2 junked at 2,531 feet; S. and R.

WEATHER DELAYS WORK ON WILBARGER ROADS

VERNON, TEXAS, Nov. 26.—Weather has hindered work on Wilbarger county roads of late, and commissioners have been hard pressed to keep the highways sufficiently passable for the travel of conveyances.

Numbers of bridges have been washed out and in many places springs have burst forth and flooded the roads. Three tractors are at work on the roads and faster progress in making repairs will be possible with drier conditions. Roads southwest of Vernon and north of the Pease river are in the worst condition.

Taxpayers in the county have been rather slow in making returns, according to one official, and this has halted considerably the work of improvement.

VERNON, TEXAS, Nov. 26.—Seventeen women were enrolled in the Oklahoma Home Improvement club when it met at the home of Mrs. J. M. King Tuesday afternoon for the purpose of reorganization. The meeting was presided over by Mrs. H. A. Blevins, who is president and the following officers were elected: Vice-president, Mrs. I. M. Smith; secretary, Mrs. Roscoe Rainwater; and treasurer, Mrs. Clay White. Miss Edith Lacy and Mrs. Eula Warren were demonstrators. A. C. S. A. were present to help with the organization and to give instructive demonstrations.

PARISH PRIEST FIGHTS TWO FEROCIOUS BEARS AND SAVES BOY'S LIFE

SAN ANTONIO, TEXAS, Nov. 26.—How Padre Pablo Martinez, parish priest of Anales, Durango, Mexico, fought with two ferocious bears in the Sierra Madre mountains and saved the life of his boy companion by plunging a knife into the heart of one of the animals is related in San Antonio by Father Eugene Sgranes of the Missionary Sons of the Immaculate Heart of Mary, with headquarters here. As Padre Martinez a few days ago received an urgent sick call which took him away from his rectory a long distance on horseback through the rugged mountains of that vicinity. Accompanied by a boy, he began the long trip, carrying a rifle, a hunting knife and some rations. Suddenly, while in the rocky fastness of the mountains they were attacked by two large bears. The boy fainting but the priest kept his composure. He shot one bear killing it instantly. In the meantime the other bear jumped on the unconscious form of the boy and was preparing to tear the flesh when Padre Martinez came to the rescue with his hunting knife. As the blade plunged through the heart of the bear, the animal relaxed its

grasp on the boy and gradually sank to the ground where it bled to death. After the boy was revived with a dash of cold water—the pair proceeded on their journey, reaching their destination not far from the scene of the encounter. Some Indians, who were told of the incident, took the carcasses of the bears to Durango where they were skinned and the pelts distributed among the tribe. The meat, weighing approximately 1500 pounds, was also given to the Indians.

Do Glasses Disfigure?

Yes and no. If properly and correctly fitted glasses do not disfigure, and in many instances, actually improve one's appearance. But improperly fitted glasses are not an improvement to the appearance or the vision.

This is one of the points of advantage in our service, as we do the refracting and make up each pair of glasses to suit the individual eye and face, so that besides being correct, they must look well.
