

ANAMA DECLARES STATE OF WAR

LOVE FOR POOL HALL PROVES THE UNDOING OF YOUTHFUL ROBBER

GET BOY WHO LEFT CHICAGO WITH LARGE AMOUNT OF LIBERTY BONDS.

ARRESTED AT HEYWORTH A SMALL ILLINOIS TOWN

All Of The \$772,000 In Bonds Are Recovered Except \$500 Cash In Chicago.

BLOOMINGTON, Feb. 26.—Dalton in his talk with newspaper men here tonight made the positive statement that the action of Judge Landis in releasing Francis Carey, Ottawa bank clerk, on his own recognizance after confessing to embezzling \$200,000 did not influence him in taking the \$772,000 in bonds from the North American Trust company.

HEYWORTH, ILL., Feb. 25.—Love for playing pool was the undoing of Willie Dalton, who stole \$772,000 from the Northern Trust company of Chicago.

In case Willie could have resisted the temptation of shooting pool when he passed the pool room here he probably would have gone unapprehended for some time.

While in Heyworth, the town pool shark, were shooting "rotation" pool when the town marshal walked in.

Willie had just lifted his cue and was aiming the white ball at the 12-ball when arrested.

HEYWORTH, ILL., Feb. 26.—A country town marshal today caught the quarry of the police of the nation.

Jack Draper, the town marshal of this village, today arrested William Dalton, 17-year-old boy, who had fled from the Northern Trust company of Chicago with \$772,000 worth of Liberty bonds.

Dalton was playing a game of pool with Jack Hennessy, the town post office clerk, when Draper walked up to the table and took him into custody.

A small traveling bag, setting beside the pool table, was opened and \$772,000 in Liberty bonds rolled out on the rough pool room floor.

"I guess you got me," Dalton remarked calmly.

Dalton's arrest came as the result of his asking for a ride.

Dalton was plugging along the country road, loading the bank clerk, who was carrying the fortune in bonds about dawn today when a motorist came along the road and asked if he wanted a ride.

The robber hesitated a minute and then climbed in. The motorist started to question the youth.

"I am going to Springfield," Dalton said.

"Why don't you take the railroad," the auto driver asked.

"I don't want to go through Bloomington," Dalton answered.

That started the motorist thinking. He had been reading in the papers about the bank robbery.

On reaching Heyworth, Dalton had breakfast and then went to a pool hall where he challenged Hennessy to a game.

The motorist, who lives in Heyworth, went to his home.

The more he thought about the young fellow, the more he thought he was Dalton, the man who had stolen \$772,000 from the Northern Trust company.

The president of the local bank was called to the pool room. The bonds were given into his custody and escorted by a constable to the bank. The official carried the bonds to his vault.

Dalton was the coolest man in the bunch.

BUSY AND BRILLIANT PROGRAM READY FOR SPRING STYLE SHOW

AUTO EXHIBIT, PARADE, BALL GAMES, BURIAL OLD MAN GLOOM; BIG DANCE.

NEW STREET LIGHTS TO SIGNAL NIGHT'S FESTIVITIES

Merchants Busy Completing Arrangements For Elaborate Showings Of Spring Goods.

Every important detail of the program for the Spring Style Show on March 11 had been completed Saturday, and announcement was made of the program as follows:

10 a. m.—Opening of Automobile Show in Thom building, Seventh and Scott, to continue for two days.

3 p. m.—Parade of automobiles and floats; prizes for best decorated machines.

3 p. m.—Baseball game at Athletic park, Wichita Falls vs. Minneapolis.

7 p. m.—Ceremony, burial of Old Man Gloom; turning on of new street lights; opening of Style Show.

8:30 p. m.—Open air vaudeville show, followed by open air dance.

The merchants' finance committee completed its work Saturday, having raised sufficient funds to provide for all expenses.

The widest possible publicity is being given the Style Show and attendance is expected to be large.

The Automobile Show will include practically every leading make of car available by local dealers and will also display a complete assortment of accessories.

In order to give ample opportunity for inspection of models and new designs, the Automobile Show will remain open until Friday night, March 11.

The parade at 3 p. m. special prizes will be offered for the best decorated cars from outside the city.

Prizes will also be offered for Wichita Falls and it is probable that a float prize will also be offered later.

The prizes will be \$10, \$25, \$15 and \$10 for the first, second, third and fourth best in each group.

After the parade will come the baseball game, opening the 1921 season in Wichita Falls, and giving local and district spectators the best of baseball material.

The Minneapolis Millers will have a first string club here for the contest.

A big stunt of the day will come at 7 p. m. Old Man Gloom will be buried at Eighth and Scott streets, with ceremonies appropriate to the occasion.

Immediately afterward, Mayor Cline will, by switching on the new street lights, give the signal for the style show.

For the ensuing hours, Wichita Falls stores will be displaying to visitors the styles that are to be the real center of each air dance.

Merchants will be busy completing their arrangements and preparations, so as to make the display as complete, as representative and as metropolitan as possible.

At about 8:30 an open air vaudeville performance will be given in the vicinity of Eighth and Scott, and this will be followed by the open air dance.

The dance will probably be held on Scott between Seventh and Eighth, that has not been definitely determined.

The dance at a late hour will bring the festivities to a close.

At about 8:30 an open air vaudeville performance will be given in the vicinity of Eighth and Scott, and this will be followed by the open air dance.

J. L. MOORE AND JULIAN MONTGOMERY ARE BADLY BURNED

VAPOR GAS IN MANHOLE EXPLODES WHEN MOORE STRIKES MATCH.

WERE INSPECTING SEWER SYSTEM ON SIXTH STREET

Both Suffer Painful Injuries But Their Condition Is Not Regarded As Critical.

J. L. Moore, better known as "Daddy," city gas and plumbing inspector, and Julian Montgomery, city engineer, were seriously burned Saturday afternoon as the result of the explosion of sewer vapor gas in a man hole on Sixth Street.

Both of the injured men were rushed to the hospital where their injuries were reduced and they were returned to their respective homes. Although the injuries of both are regarded as serious, it is not thought that their condition is critical.

"Daddy" Moore suffered the most serious burns. The city has been installing a new sewer on Sixth street west of the man hole at the alley between Lamar and Scott.

It was noticed that the sewer running east from this point was stopped up and the two went to the place Saturday afternoon at a o'clock to make an inspection.

Mr. Moore proceeded to enter the man hole and Mr. Montgomery remained on top, kneeling and peering into the darkness as Moore proceeded downward.

On his way down the ladder Mr. Moore dropped his eye glass and, un mindful of any danger, struck a match. It developed that the man hole contained a deposit of gasoline and oils that had been deposited there from garbage in the house.

When Moore struck the match there was an explosion and the flames leaped up to a height of 19 or 20 feet above the surface. Mr. Montgomery, who had been on one hand and on his face, assisted Mr. Moore out of the hole. He started to call a doctor, but he only walked a few steps when he collapsed.

After the explosion Mr. Moore started up the ladder in the man hole, and he had been badly burned that the closing of his hands as he took hold of the rungs in the ladder forced the skin off his forearms up into the palms of his hands.

Both of the men were resting easy at their homes at a late hour Saturday night and it was stated that their condition was not regarded as critical.

IRISH REPUBLICAN FORCE ESCAPES ITS PURSUERS

DUBLIN, Feb. 26.—The Irish republican force, which defeated a group of British troops and auxiliaries near MacRoom yesterday, has escaped its pursuers, according to an official communique issued here this afternoon.

"The MacRoom rebels have retreated into the mountains, and the pursuing military, which contemplated, had abandoned the attempt to round them up," the statement said.

DUBLIN, Feb. 26.—An Irish republican force was defeated by a parcel of Royal Fusiliers in renewed fighting in the MacRoom district today, it was officially announced at Dublin Castle.

"Fresh engagements have occurred near MacRoom," the statement said.

A patrol royal fusiliers battled with fifty armed men at a stream crossing near Ballycurry mountain. The armed men broke and fled across the country as far as the Cork-Kerry boundary.

The Sinn Feiners gained distance over a boggy ground and forced the military to abandon pursuit.

Two civilians were killed and taken prisoner.

PLAN TO CARRY WAR INTO ENGLAND IS DISCOVERED

By WEBB MILLER

LONDON, Feb. 26.—The Irish plan to carry their war for independence into England, it was revealed here today. Official documents captured in the recent raid on Irish republican army headquarters in Dublin were made public by the Irish office, showing the widespread preparations for "operations abroad."

Among the documents was a memorandum declaring that large scale activities on English territory are of paramount importance.

A two months' training period for volunteers for service in England was outlined in the memorandum.

On his way down the ladder Mr. Moore dropped his eye glass and, un mindful of any danger, struck a match.

It developed that the man hole contained a deposit of gasoline and oils that had been deposited there from garbage in the house.

When Moore struck the match there was an explosion and the flames leaped up to a height of 19 or 20 feet above the surface.

HARMONY AT AUSTIN GETS A SEVERE JOLT, PISTOL BILL VETOED

SHOULD JUST AS WELL PERMIT PUBLIC TO CARRY GUN, SAYS GOVERNOR.

HOUSE OPERATES ON A BARE QUORUM SATURDAY

Repeal Of Suspended Sentence Law Set For Special Order Tuesday.

AUSTIN, TEXAS, Feb. 26.—Harmony between Governor Neff and the Texas legislature was believed to have received another serious setback today when the governor vetoed the senate bill repealing the law prohibiting the sale of pistols in Texas.

"If this bill is to become a law, then it seems to me that it would be proper to repeal the law prohibiting the carrying of pistols by any person, every man, woman and child to enjoy life, liberty and the pursuit of happiness," the governor said in his veto message.

Another declaration was that "it would gladly endorse a bill that would make it absolutely impossible for anyone in Texas to carry a pistol or a revolver. If a thing is productive of sorrow and lawlessness and crime, I am in favor of minimizing it in every legitimate way possible."

The bill passed the senate with but two dissenting votes.

BARE QUORUM SATURDAY IN HOUSE OF REPRESENTATIVES

AUSTIN, TEXAS, Feb. 26.—The house bill by Williams of McLennan proposing to prevent unlicensed and unreported in taking samples from bales of cotton, was killed in the house today when it failed on engrossment by a vote of 41 to 31.

Hall of Herington, who introduced the bill, but Mr. Williams announced that it was evident that the house did not intend to pass the bill and Mr. Hall withdrew his motion.

The house operated on a bare quorum today and roll calls were avoided when possible. Ninety-five members were present.

The roll call showed exactly that number to be present. The senate was not in session today, adjournment yesterday being the order of the day.

The house engrossed the bill by Quinn of Jefferson proposing to prohibit hotels, restaurants, cafes and public places from employing persons who have contagious and infectious diseases and requiring that such employees be examined for these diseases. It also proposed the use of relief fund from America extended to all parts of Ireland, so that unemployment will be relieved and help be extended to the people of that country.

Further records show that the general staff decided to make "all roads in their territory" safe by exploding mines in them, and ordering the county councils to make no repairs.

"Snipe all enemy outposts one night a day and constantly during the day," one document said.

This same paper discussed the working of troop trains and tapping of telegraph lines, and a decision of all property in the military areas.

AN OPEN HEARING WILL BE HELD BY THE HOUSE COMMITTEE ON STATE AFFAIRS NEXT TUESDAY ON THE PROPOSED REPEAL OF HOPKINS PROPOSING A STATE BOARD OF CENSORSHIP FOR MOVING PICTURES.

Members of the committee have already decided that this bill will be reported unfavorably due to the fact that most cities and towns have their own boards and a state board is useless.

PRESIDENT SIGNS PROCLAMATION AND CONVOKES ASSEMBLY MAR. 1 OTHER NATIONS MAY BE INVOLVED

CONGRESS SPEEDING UP TO CLEAN SLATE MUCH AS POSSIBLE

IMMIGRATION RESTRICTION BILL IS SENT TO PRESIDENT SATURDAY.

EMERGENCY TARIFF ON ROAD TO FINAL PASSAGE

Accept Amendments Providing For An Army Of 175,000 Instead Of 150,000.

WASHINGTON, Feb. 26.—Congress worked under forced draft today and tonight with leaders determined to clean the state of most important legislation before the adjournment Friday.

The immigration restriction bill was sent to the president, and several others including the emergency tariff were put on the road to final passage.

After a brief fight the house accepted the senate substitute bill limiting immigration for fifteen months after next April to three per cent of the nation of a foreign country who were in the United States in 1910.

The measure would not affect Japan, China, Canada and Latin American countries. Immediately after the house acted, the bill was sent to the senate which approved the conference report and it then was prepared for transmission to the White House.

While the house was debating emergency tariff bill, the senate passed the tariff measure, carrying approximately \$1,000,000 and sent it to conference.

The house then adopted the conference report on the tariff measure, \$99,000,000, and sent it to the senate.

Members of the finance committee, attempted to start the bill through the senate, but a gentlemen's agreement was reached, however, to take up the bill Monday.

Proceeding with consideration of the army appropriation bill, the senate accepted its conference report, providing for 175,000 men in the army during the next two fiscal years.

ARMY APPROPRIATION BILL NOW GOES TO CONFERENCE

WASHINGTON, Feb. 26.—The army appropriations bill carrying \$261,000,000 and providing for an army of an average strength of 175,000 men in 1922, passed the senate last night.

The senate's action was in response to a conference report passed tonight by the senate and sent to conference.

The emergency budget went through in less than three hours, opposition to the army increase provisions and the total increase of \$21,000,000 over the house bill, and materials for the next two fiscal years.

Immediately after the passage, Senator Forrester moved to take up the navy appropriation bill, the last of such measures before the senate, but it was postponed.

Senator Forrester moved to take up the navy appropriation bill, the last of such measures before the senate, but it was postponed.

A committee amendment providing for discharge upon request of men in the regular army with more than one year's service was also adopted.

SENATE LINES UP FOR DEBATE ON BONUS BILL

WASHINGTON, Feb. 26.—Senate lined up for a spirited clash over soldier bonus legislation when the senate finance committee reported the house bill favorable today after striking out provision for special taxes to pay the cost.

Republican leaders announced their intention to call up the bill early next week, with its passage immediately in doubt, while a bi-partisan prediction was made on the procedure with the bill by democrats and a few republicans.

An amendment postponing all benefits under the bill until January 1, was adopted after Senator McCumber of North Dakota, in charge of the bill, explained that the cost would be met from interest payments by the allies on their loans from the United States.

Repeal of the bill for five options proposed by the house for former service men. These are: Cash payments based on length of service, service certificates for deferred payment, vocational training and loans to aid in purchasing farms or homes and land settlement aid or homestead allotments.

BRING DIPLOMATIC PRESSURE TO BEAR ON UNITED STATES

WASHINGTON, Feb. 26.—Great Britain has brought diplomatic pressure to bear on the United States to recognize the oil concessions granted by the Tinoco government of Costa Rica, to British interests, it was learned today at the state department, but since the United States has withheld recognition from the Tinoco regime aid has taken the position that it can not give its approval to concessions that government has granted.

### AMERICAN LEGION STARTS DRIVE FOR NEW MEMBERSHIP

TWO COMPETING TEAMS WILL MAKE EFFORT TO ENROLL ALL EX-SERVICE MEN.

POPPIES TO BE WORN BY ALL ON MEMORIAL DAY

Local Post Indorses Plan—Proceeds To Go To French War Orphans. Trying To Get Quarters.

Local ex-service men who have not joined the American legion will have 40 poppies "kammered" this week. At Saturday night's meeting of the Post...

The losers will provide a banquet-corn-willie barred—for the winners. Appropriate names for the two teams will be chosen shortly.

C. A. Winfrey was appointed a permanent committee man to keep at work in an effort to find suitable quarters for legion club rooms.

The committee which has the organization of a women's auxiliary in hand was given authority to call a meeting when it deemed best, probably within the next week.

Everyone will be asked to wear a red silk poppy on Memorial day, and the legion, in endorsing this move of the national organization, ordered a supply of the silken flowers. These flowers, made in France, will be sold at ten cents each, the proceeds going to French war orphans.

The competing teams made plans for starting to work vigorously tomorrow. The personnel of the teams is as follows:

T. J. Strong's team: J. B. Hatchett, W. W. Cotnam, John W. Taylor, C. A. Winfrey, D. E. Dennis, Pete Amogus, M. E. Black, J. W. Madrey, E. M. Baker, H. McClung, W. S. McAbee, J. Baker, H. McClung, M. C. McAbee, J. W. Hampton, George McGee, W. G. Blackman, F. H. Gose, T. C. Thomas, G. R. Murray, R. E. Nolan, B. B. Bacon, Joe Kell, M. A. Noble, L. C. Hutchinson, John L. Tracy, R. C. L. Charles, B. Chensault, J. P. Montgomery.

D. M. Perkins' team: E. C. DeMontel, John Gould, T. R. Brunson, H. E. Taylor, E. G. Bartlett, K. G. Buckley, F. V. Fletcher, R. B. Griffin, J. N. Carter, W. M. Meadows, W. F. Florian, J. R. Enoch, John Fletcher, E. M. Evans, G. S. Christian, J. H. Lee, H. C. W. Mack, R. V. Ray, A. J. Renard, A. G. Thornton, Joe H. Jones, V. N. Armstrong, G. Young, W. B. Steinel, H. A. Weaver, W. P. ### TO START REMOVING COLLAPSED CASING FROM WELL TODAY

Although a few days more delay is in prospect on the East Wichita well, operations are to proceed with a minimum of interruption, it was announced Saturday, following the discovery that there is 175 feet of 5-1/2 inch casing collapsed at the bottom of the well.

The stock dropped to 37 1/2 at the afternoon call on the local exchange. It had sold earlier at 35. Several weeks ago, when the showing was first reported, the stock brought better than par on a few sales, but has dropped slowly and steadily since then, on account of the delays at the well.

The statement of L. B. Erwin, the new driller, that 215 feet of oil was standing in the hole was taken as an encouraging sign, but several discouraging rumors regarding the well were in circulation.

It is Mr. Erwin's intention to proceed vigorously with the removal of the collapsed casing, and he said Saturday that he would be at work again this morning.

### REVISED ESTIMATE OF COMPRESS FIRE DAMAGE IS \$185,000

Revised figures on the loss suffered by the Northwest compress fire of Saturday morning place the total damage slightly lower than that which was first estimated. According to Fire Chief McClure and A. L. Warren, manager of the company, the value of the cotton, storage sheds and office furnishings will probably not exceed \$185,000.

A considerable quantity of the baled cotton was of a low grade, it is said, the loss of which was not serious while the building values were also said to be somewhat overestimated in the initial reports. Had the fire passed the concrete fire wall and started in the eastern half of the sheds a loss of half million dollars or possibly more would have been entailed.

Over 4,000 bales were stored on the eastern side, all of which was high grade cotton. The compress itself was also located to the east of the fire wall and would have gone up in smoke had the flames surmounted the concrete barrier.

Local insurance companies Saturday afternoon were checking up on policies carried, but no indication could be obtained as to how much of the loss is covered, and it may be several days before the exact amount is known.

Nothing can be salvaged from the burned over area, as the heat was so intense that nothing of an inflammable nature was left unscathed. Chief McClure was of the opinion Saturday evening that the ruins would be entirely cooled Sunday and that it would be possible to start clearing away the metal remains of the roof.

### THEODORE ROOSEVELT WILL BE ASSISTANT TO SECRETARY DENBY

ST. AUGUSTINE, Fla., Feb. 26.—Edwin Denby, gunner mate in Sampson's fleet, and sergeant of marines in the world war, formally accepted the portfolio of navy in the next cabinet today, with a pledge to maintain the naval fighting machine "at the highest peak of power, ready for battle at any notice."

As his assistant he will have Theodore Roosevelt, son of the former president. He will begin his administration under a policy that calls for adherence to the present naval building program until such time as the nations may be brought into a definite agreement for reduction of armaments.

Continuation of capital construction program for the present was announced formally as an administration policy by President-elect Harding today. He already has communicated his wishes to leaders in congress.

Mr. Harding expects to reach Washington Thursday, the day before inauguration.

### ROWLAND ARRESTED IN CONNECTION WITH STARR-BANK HOLDUP

MUSKOGEE, OKLA., Feb. 26.—J. W. Rowland, a farmer living near Claremore, Okla., was arrested here today in connection with the attempted robbery on February 11 of the People's National bank at Harrison, Ark., in which Henry Starr was fatally shot. The arrest was made upon the request of authorities at Harrison, the police said. Rowland was in a residence and attempted to escape through the rear

### TRAFFIC IS TIED UP ON THE M. & N. A. RAILROAD

HARRISON, ARK., Feb. 26.—Traffic on the Missouri and Northern Arkansas railroad, the main offices and shops of which are located here, is tied up tonight as the result of a strike order which became effective early this morning.

The strike grew out of disagreements over a reduction in wages on February 1, and which the union appealed to the railway labor board, but according to C. A. Phelan, receiver and general manager of the road, the board held that employees and representative of the road should confer with representatives of the board to determine the reasonableness of wages after reductions. Mr. Phelan declared in a statement issued today that the

### VIENNA REFUSES TO HAND OVER KEYS TO VAULT OF BANK

VIENNA, Feb. 26.—The Austrian government has refused to hand over the keys to a vault of the Austro-Hungarian bank for delivery of \$5,000,000 gold crowns to states formerly part of the old empire, as the reparations committee has directed. The government has at the same time entered formal protest against the commission decision.

BERLIN, Feb. 26.—The Kreis Zeitung, the old monarchist organ, which has resumed its slogan, "Forward with God for the King and the Fatherland," tonight for the first time since Emperor William took refuge in Holland refers to him by using his formal court title.

"His Majesty, the Kaiser," says the newspaper, "has commissioned Prince August Wilhelm of Prussia as his representative at the burial ceremony of Archduke Ernst Gunther of Schleswig-Holstein."

### CONFIRMS REPORTS OF CONCESSION TO GERMANS

SANTIAGO, CHILE, Feb. 26.—Foreign Minister Mattei today confirmed reports which have been published here that German interests have acquired a thirty years' concession of nearly 700,000 acres of land in Chile. He declared the concession was given to German engineers. It was proposed to erect a plant for manufacture of iron and steel products for industrial use.

## Get Rid of Your Fat

If you are needlessly burdened with superfluous fat, read the following carefully. See how easily others have reduced by my simple and efficient method of fat reduction. Some have reduced over a pound a day. All this has been accomplished without resorting to diet or tedious exercise.

Miss O. WATSON writes: "I have lost 70 pounds as a result of your treatment and have never felt so well in my life as I do now."

Miss B. BARTON writes: "I have lost 70 pounds as a result of taking your treatment. I feel better in every way. I can now take long walks without becoming tired or short of breath. I thank you very much for what you have done for me."

Miss J. O. HAVITT writes: "I have taken your treatment faithfully and I say that I have also secured relief from my rheumatism."

Miss E. HOBBS writes: "I am glad to inform you that I have lost 40 pounds in six weeks."

Miss O. FALKER says: "I thought I would let you know how I am getting along. I am feeling fine and have found the treatment pleasant to take at all times. I have not weighed, but my measurements show that I have reduced six inches from my bust, five inches from my waist, and 15 inches from my hips. Of course, I am pleased with the result."

I am a licensed practicing physician and personally prescribe for each individual case, thus enabling me to select remedies that will produce not only a loss of weight harmlessly, but will relieve you of all the troublesome symptoms of overweightness such as shortness of breath, palpitation of the heart, indigestion, rheumatism, gout, asthma, kidney trouble and various other troubles which often accompany overweightness.

My treatment will relieve that depressed, tired, sleepy feeling, giving you the renewed energy and vigor which come as a result of the loss of your superfluous fat. My treatment is the only scientific treatment known that will produce a loss of weight without harm to the system.

You are not required to change in the slightest from your regular mode of living. There is no dieting or exercising that you have to follow. It is simple, easy and pleasant to take.

If you are overweight do not postpone but sit down now and send for my free trial treatment and my plan whereby I am to be paid only after reduction has taken place if you so desire.

### Wild West Social By Male Employees Of Phone Company

The men employees association of the Southwestern Telegraph and Telephone company entertained the new employees of the company Thursday night with a genuine wild west social in the club rooms of the building.

Nothing savoring of the west in the earliest days of the gold rush was omitted to make the social a complete success. The gambling hall was full of bold, bad men; the bar-room overflowed occasionally into the dance hall "upstairs"; the opposing candidates for sheriff and mayor made things bum in the good old-fashioned way.

The only unconvincing "property" was the amazing rapidity and good humor with which the free lunch counter was replenished from time to time. "Red Eye Dick" dispensed beer and stronger beverages, waiters moved about among the tables with western freedom, and gamblers and diners conversed in breezy western fashion.

mat in a middleweight contest, and M. L. McKay and Bert McGregor staged a wrestling match.

Appropriate music was furnished during the evening, and the guests were rigged out a la the west in its palmiest days of rigging.

The success of the entertainment was largely due to the work of the entertainment committee, comprised of J. H. Terrell, F. M. McFall, W. F. Money, E. H. McCully, T. B. Corrin, W. W. Cotnam, E. K. Mathis, J. M. Anderson and Mrs. Nichols.

### NIGHT TRIP TO FORT WORTH TO COST \$2.10 MORE AFTER APRIL 2

INCREASE OF 20 AND 8 PER CENT OVER THE FLAT RATE NOW IN EFFECT.

### NIGHT PULLMAN FARES TO JUMP FROM \$2.70 TO \$4.05

Interstate Commerce Commission New Ruling Will Not Go Into Effect Here Before April 2.

Under the new ruling of the Interstate Commerce Commission, after April 2, a night trip to Fort Worth from Wichita Falls will cost \$2.10 more than under the present rates. The flat rate at present is \$4.45 for first class passenger fare and \$1.50 for Pullman with an additional 5 per cent on both for war tax. This brings the total at present to \$6.40.

The new rate which will call for an additional 20 per cent on first class passenger rate and 50 per cent on Pullman rates will bring the fares respectively to \$4.45 and \$6.45, a total of \$10.90. Under the old rate the day fare on Pullman is 45 cents with tax and under the new rate it will be 97 cents.

Local railroad officials state that the new rate will go into effect before April 2, the date ordered by the commission for the rates to be changed.

Under the new rulings, fares to other points can be figured by taking the flat base rate and add an additional 20 per cent and then add an additional 4 per cent on that for war tax. On Pullman, an increase of fifty per cent on the old flat rate will give the new fare.

Upon this basis the new fares to several points within the state will be as follows:

### MUCH COTTON BEING GATHERED IN COUNTY DESPITE LOW PRICES

LESS TO BE ABANDONED IN THE FIELDS THAN AT FIRST SEEMED PROBABLE.

### 50 PER CENT REDUCTION IN ACREAGE ESTIMATED

All Northwest Texas Counties To Plant Less This Year, According To Cotton Firm.

Cotton that was abandoned in the fields last fall, as being worth too little to justify gathering it, is now being picked in many parts of Wichita and adjoining counties and less wasteage will result than at first seemed probable.

It is said that a farm owner can realize seven or eight dollars a bale on cotton, at present prices; however, where farms are run by tenants, the margin of profit is too small, after the rent share is paid, to justify picking. Several rent farm crops have been turned back to the landlords by the tenants for this reason, it is said.

After the discouraging experience of the past season, it was not to be expected that much acreage would be planted in cotton this year, and it is estimated that a 50 per cent reduction is taking place in Wichita county. This estimate is made by R. M. Gordon & Co. of Houston, who collected information from all Texas counties. The firm estimates that there is a reduction of 27.46 per cent in the cotton acreage in Texas as a whole, and that in the northwest Texas, in the area around Wichita Falls, the reduction is 26 per cent. The figures for counties in this section follow:

County	Percentage of Reduction
Archer	41 1/2

### HUSBAND GETS VERDICT WHEN HIS WIFE BRINGS SUIT FOR HER SUPPORT

GREENSBORO, N. C., Feb. 26.—A federal court jury in the case of Mrs. Florence C. Varner, who sued her husband, Colonel Henry B. Varner, Lexington newspaper publisher, for support today returned a verdict for the defendant after two days' deliberation. One of the issues required the jury to find whether she was guilty or innocent of the charge of improper relations with Baxter McRary, wealthy negro of Lexington. The jury answered this affirmatively.

### EXES ARE READY TO OBSERVE MARCH 2

State University Ex-Students To Celebrate Independence Day In Traditional Manner.

Many "Exes" from neighboring towns in Northwest Texas are expected to attend the annual reunion of the local organization of former students of the State University, at the Wichita Falls, Feb. 28, March 1.

Observance of March 2, Texas Independence day, in this manner, is a University tradition that is coming more and more regularly since that time, save during the war. There are upwards of 200 former University students in Wichita Falls, and 150 more within a 50-mile radius, and a creditable proportion of these is expected to attend on Wednesday.

Plans are already under way for having "Benny" come up in 1923 to speak at the reunion. "Benny" is the affectionate nick-name applied to Dr. H. Y. Benedict, teacher of mathematics at the University.

EARNEST OF GOOD INTENTIONS.

The New York Times, as we do, in the announcement of Charles E. Hughes as Mr. Harding's secretary of state "earnest of good intentions," even though it required him to override the opposition of influential republican leaders in order to get a man of Justice Hughes' great ability and high character.

The Times' tribute to the character, courage and ability of the former justice of the supreme court will appeal to very many outside the party to which he makes allegiance as being deserved and as being a cause for rejoicing among those who as patriots did what they could to effect Mr. Harding's defeat by Americans who wish that his administration may tender a real service unto the country.

When men speak of Mr. Hughes' character, they imply, whether they are aware of it or not, that they do not have agreed to take the state department without knowing what he would be allowed to do in it.

There can be no doubt how near to the heart of Mr. Hughes is world cooperation for peace and righteousness. Nobody who heard his speech at the reception to the members of the legislature would be surprised to find that he was not only a man of peace but also a man of war.

Harry Warner of the Paris News thinks Senator Darwin's proposal to the members of the legislature be paid \$10 a day for eighty days and \$5 a day thereafter during the biennial legislative sessions "is a measure which should be adopted by the referendum."

It is because the people have these facts in mind that they will look to Mr. Hughes to lead the government out of the morass into which partisan politics for the time being plunged the nation's noblest aspirations.

AUTOMOBILE AND STYLE SHOW.

With all of the merchants and business men of the city heartily behind the movement Wichita Falls annual spring style show and automobile exhibit promises this spring to surpass any exhibition that has been held here.

One of the general appropriations bills has passed both house and senate, that for the judiciary, and it is not impossible even yet that the regular session will see disposed of the matter of general appropriations for the next fiscal biennium.

Declaration that the bolsheviks have instituted world-wide propaganda designed to wreck discipline of the armies of the world is to be taken cum grano salis. It would seem to the average man that the soviet government would first try to build up the morale of its own forces and its own people and spend some of its money in food supplies instead of devoting millions to the insidious dissemination of anticivilization stuff.

Edwin Denby, Michigan lawyer, former congressman and former enlisted man in the navy and in the marine corps, is the one surprise in the list given out by President-Elect Harding for his cabinet nominations.

Lieutenant Conroy isn't deterred by a little hard luck, and he demonstrated the pluck that has given him fame as an aviator by making a record trip from ocean to ocean in twenty-two hours and thirty-two minutes.

Every woman nowadays needs a checking account. With its check machine, it is a household affair more efficiently and economically, and through paying by check she gains a reputation for business-like methods among those with whom she deals.

It is because the people have these facts in mind that they will look to Mr. Hughes to lead the government out of the morass into which partisan politics for the time being plunged the nation's noblest aspirations.

Clampart against abandonment of the Texas state railroad that runs from Palestine to Rusk is being made, principally on the ground that the proposed abandonment, sale or junking of the road along the line of Texas experiment in state ownership of a railroad has never been successful.

It is because the people have these facts in mind that they will look to Mr. Hughes to lead the government out of the morass into which partisan politics for the time being plunged the nation's noblest aspirations.

WHY?

Do Drug Stores Have Colored Globes in the Windows? (Copyright, 1920, by The Wheeler Syndicate, Inc.) In spite of the fact that the modern drug store is far removed from the pharmacy of other days and the wide variety of its stockpiling all the way from toys to hair oils and from books to picture postcards—would anyone an apothecary of the old school, the majority of these establishments still adhere to the old custom of placing a red and a blue globe in their windows, so that the light may shine through and inform those who cannot even see the sign of the location of the drug dispensary.

These colored globes have something in common with the barber's pole, with its red and white stripes which signify the symbol of blood and the bandages which followed the barber's operation of blood letting, for the red globe is the symbol of medicine to be seen in another form today in the red many a doctor's home in many parts of England. The green globe was added both as a means of distinguishing the pharmacy from the lamps which grace the outside of large bottles, filled with certain secret remedies, but they are also physician's office and as an indication of the fact that the apothecary carried a stock of "red" articles which might be useful in the home.

Tomorrow—Why does ammonia clean things? Things ain't lookin' none too good, but let's keep on mavin' wood; Clouse apper a triffle thick, But if I was asked to pick out a shelterin' place to stay Till the storm goes by, I'd say: "Let me be right where I am—I've got faith in Uncle Sam."

Right now, for as I can see, There's no better place to be, Than in the arms of a country through, An' the old red, white an' blue Seems more fitted for rough weather Than the rest of 'em together. Nowhere else can you find a better place to be, Here is where I want to be.

When the weather starts to blow, It's consoler to know That the pilot of the ship Has a strong an' steady grip And knows how to take the seas; In no troubled days like these, Let me say right glad I am That our pilot's Uncle Sam.

NORTH WICHITA TO ASK FOR SIDEWALKS AND STREET LIGHTS

CITIZENS HOLD MEETING FRIDAY NIGHT TO PLAN FOR SEVERAL IMPROVEMENTS. COMMITTEE NAMED TO ATTEND COUNCIL MEETINGS Will Represent North Side in City Affairs—To Make School a Community Center.

The civic pride of North Wichita, which has always been greater than was realized by many folk south of the river is beginning to manifest itself in very definite ways, and plans are now under way for building sidewalks, installing street lights, and making other improvements needed in that section.

On Friday night a well-attended and enthusiastic meeting was held at the church, with Rev. Luther Waggoner as chairman, and a number of civic matters were discussed. Perhaps the most significant action of the meeting was the naming of a committee to represent North Wichita at meetings of the city council and to constitute the informal association of the citizens of town in the city's affairs.

The young people have an important share in the plans for the North side playground, particularly along the line of athletic center. Plans for these things are already contemplated. Both the boys and girls have affected athletic organizations.

One of the most distressing and common of complaints at this season of the year is "cold." "Cold" is usually due to temporary closure of the pores of the skin by chilling, cutting off the processes of elimination. "Cold" then being an auto-intoxication should be treated by a remedy that stimulates the secretions and rouses the liver to action and produces a free and easy evacuation of the bowels, removing deleterious substances from the system.

W. B. Hamilton Points Out Injustice Of Proposed Measure At Austin. The one cent a gallon tax on gasoline proposed in legislation now pending at Austin would prove a severe burden on Wichita county even if its provisions are changed so that the consumer, instead of the refiner, pays the tax.

W. B. Hamilton, general manager of the Texoma company, who returned late in the week from Austin, after attending committee hearings on the bill. The bill as originally drafted provided for payment of the tax by the refiners. The injustice of this was made so apparent to the framers of the bill that they re-drafted the measure, making the tax payable by the ultimate consumer.

News From the Courts

ARRESTS 2 MEN AND LOCATES 7 HORSES

Ranger Gonzales Makes Important Catch On Ranch One Mile Out Of Burkburnett.

Two men were arrested and seven head of horses located by Texas Ranger Gonzales Saturday morning. The horses were found on a ranch south-west of Burkburnett. The two men, Herman Borders and Henry Cagle, were placed in the county jail. The complaint, charging them with horse theft, has been filed at Burkburnett, where it is alleged the horses were stolen.

Two bay mares, two black mares, one gray saddle horse and one bay horse disappeared from the premises of A. D. Jamison, a contractor of Burkburnett, at 10:30 o'clock on February 22. Mr. Jamison identified the horses Saturday afternoon and also identified the two men.

MAN UNDER ARREST WANTED HERE ON SERIOUS CHARGE

Sheriff Fred Smith went to Fort Worth Saturday afternoon to bring back A. J. Weldon, who is wanted here on the charge of rape and incest. The complaint against the man was sworn out last Wednesday by Mrs. C. C. Ouseley, secretary welfare council, and he was placed under arrest by Fort Worth officers on the warrant from Justice of the Peace R. V. Gwinn's office.

OIL THEFT CASE WILL BE CALLED FOR TRIAL MONDAY

After a recess of a week, due to the illness of Judge Weldon, the 10th district court will reconvene Monday morning. The large alleged oil theft case has been set for trial and will be called. It is not known which one of the six defendants will be tried first, but it is understood a severance will be made in each instance. The case is the outgrowth of the tapping into the pipe lines of the Empire Oil company in the Northwest oil fields when it is alleged approximately 3,000 barrels of oil were stolen.

### SAYS SWITZERLAND STRUCK GREAT BLOW AT LEAGUE PRESTIGE

PARIS, Feb. 26.—Leon Bourgeois, of France, speaking at this afternoon's session of the council of the league of nations, said Switzerland struck a great blow at the moral prestige of the league by refusing to grant the request without abandoning her neutrality.

### Asks 200 Officers For Large Cities to Find White Slavers

By RALPH F. COUCH, United Press Staff Correspondent. WASHINGTON, Feb. 26.—Two hundred special agents of the government should be assigned to big cities of the United States, Commissioner General of Immigration Caminetti said, to guard white slavers.

### MACHINE GUN AND ARTILLERY BATTLE RESULT OF STRIKE

RIGA, LETVIA, Feb. 26.—Artillery and machine gun fighting in Manovinkov, a suburb of Moscow, in connection with the strike begun Thursday by 14,000 employees of the government works and various industries, is reported by a dispatch from Moscow today. During the night shooting continued on the street in Moscow, the dispatch says.

Secret service operatives are suppressing the strike movement, according to dispatch, which adds that no change in the government is expected. FOURTEEN THOUSAND IN MOSCOW ARE ON STRIKE

RIGA, LETVIA, Feb. 26.—A report received here from Moscow today says a strike was begun yesterday by 14,000 employees of the government works and in various industries, including printers. The men are demanding an increased bread ration, the convocation of a constituent assembly and the rights of free trade.

### FORGED PASSPORTS ARE BEING ISSUED IN EUROPEAN NATIONS

WASHINGTON, Feb. 26.—Forged passports to enable undesirable and dangerous aliens to enter the United States are being issued in almost every European country, it was announced today at the state department.

An investigation conducted by American consular officers of had has shown, the department's statement said, that passport swindlers have been operating on a wholesale scale. Gangs have been detected with counterfeit passports, rubber stamps with forged signatures of American consular officers and counterfeit fee stamps and seals.

The investigations have been conducted by the consular officers in Poland, Czechoslovakia, Austria, France, Italy, Greece and Germany. At one point a bureau was found dealing in forged passports from which 210 such documents had been placed in circulation within one month.

### LUDWIG MARTENS PLANNING TO COME BACK TO AMERICA

CONSTANTINOPLE, Feb. 26.—Carrying a passport with a British visa granted at Tirfis, Bronislau Kondiah, a commercial delegate from Moscow, arrived in Constantinople today. He stated that he represented the Russian co-operative trade associations for Turkey and the Balkans, with full powers to grant permits for imports into Russia.

M. Kondiah asserted that Ludwig Martens, the soviet representative recently deported from the United States, would soon return to that country, and also that a soviet diplomat envoy to Constantinople, M. Kousletsov, was expected to arrive here in the near future.

WANT PALMER TO FURNISH EVIDENCE AGAINST MARTENS WASHINGTON, Feb. 26.—Attorney General Palmer is requested in a resolution adopted by the senate to submit whatever evidence the department has against Ludwig C. A. K. Martens, representative of the Russian soviet government, who recently was deported from the United States.

NOT ADVISED THAT MARTENS PLANS TO RETURN TO U. S. NEW YORK, Feb. 26.—Charles Recht, counsel for Ludwig C. A. K. Martens, deported soviet "ambassador" to the United States, said today he had no official or personal knowledge that Martens planned to return to this country, as asserted by the

Kondiah, commercial delegate from Moscow, who had just arrived in Constantinople. M. Recht contends that Martens is legally entitled to visit the United States again since the department of labor has canceled its warrant for his deportation. He said no commercial delegate named Kondiah appears in the list of delegates available here.

### MACDOWELL'S STORE SLOGAN "EXCLUSIVE BUT NOT EXPENSIVE"

"THE HOUSE OF PERSONALITY" IS SPECIALIZING IN LATEST STYLES—BUT THE PRICES DON'T INDICATE IT.

MacDowell's "House of Personality" which adopted the policy some weeks ago of operating on the manufacturer's plan, has found the arrangement to be entirely successful. At first there were people who did not understand the idea. They got the impression somehow that such a plan would mean "cheap goods" and first sale quality.

"We are not selling below cost, and we are not selling at cost," the manager at MacDowell's said Saturday. "It is silly to say such things and expect sensible people to believe it. But we do say that we are selling better merchandise at the same price—or the same merchandise at less price than those who buy the usual way, and pay the usual middle-man's profits, which must be added to the cost to the ultimate purchaser."

# TIMES DAILY MARKETS

New York Stocks—Grain and Provisions—Cotton—Livestock

## COTTON MARKET.

**New York Cotton.** Feb. 26.—There was a continuation of southern and scattered selling in the cotton market today and still lower prices levels were reached. Last prices were at the lowest of the day, at a net decline of 25 to 43 points. No fresh factor were reported in connection with the decline, but there were various features responsible for the recent weakness. Current expectations were expressed from Fall River, there next week, while there was no improvement in overnight reports from Manchester, and the appearance of southern selling orders on an open advance here increased nervousness over the spot situation. At the start there was quite a good deal of reactionary feeling around the ring. The opening was higher on covering, but otherwise, there was very little demand and the market soon turned easier under the southern selling, renewed liquidation and re-selling by recent buyers. Houses with Liverpool connections were sellers toward the close, but the southern selling and fear of spot liquidations were the outstanding factors in the morning in the opinion of local brokers.

**New Orleans Cotton.** Feb. 26.—Except for small gains near opening, the cotton market today stood at a decline, the trading being weakest toward the end of the session and closing at the lowest, at net losses of 25 to 43 points. All months made new levels for the season. That much selling was for long accounts could be seen, and longs were scared out of their cotton mainly by reports of serious rioting in Alexandria. Heavy selling toward the end of the day was due to fact that political news Monday might be unfavorable. Profits were increased by the unexpected tone of weekly reviews of trade in general and because of the weakness noted in cotton goods markets. After the close the trade was thrown

into a frenzy by the announcement that the head of a large cotton organization was seeking to have legislation enacted to prohibit short selling of cotton.

## LIVESTOCK.

**Kansas City Livestock.** Feb. 26.—Cattle 450. For week: best steers, stockers and feeders, better grade she stock, 25¢ to 50¢ higher; cutters and common she stock weak; canners and bulls 25¢ lower; calves mostly 1¢ higher; stock calves 50¢ to 75¢ higher; stock cows and heifers steady to 25¢ higher. Hogs 50¢; generally 10¢ to 15¢ higher than yesterday's average. Sales include only medium weight and mixed grades; 19.70 paid for 275 pound hogs; no lights offered.

**Fort Worth Livestock.** Feb. 26.—Livestock receipts today were very small, around 50 head of cattle and 200 head of hogs constituting the entire offering. The cattle market was unchanged, but hogs gained 10 cents. One car of good light hogs brought \$9.45, this being the extreme high range of the market for the week. Other deals were within a general spread of \$9 to \$9.40.

The week's close is 25 cents higher on steers, steady on all other classes of cattle, steady on the best light calves and 50 cents lower on common thin calves. Hog values are 25 cents higher and pigs have gained 75 cents. Best sheep are selling at an advance of 50 cents and on lamb trade showed an advance of 75 cents. Quotations: CATTLE: Heaves, \$5.00@8.00; stockers, \$5.00@6.50; cows, \$2.00@5.50; canners, \$2.00@3.00; heifers, \$5.00@8.00; bulls, \$1.50@3.00; calves, \$4.00@11.00; yearlings, \$5.00@8.50. HOGS: Light, \$9.25@9.45; medium, \$8.00@9.25; mixed, \$8.50@9.00; heavy,

**GRAIN AND PRODUCE.**  
CHICAGO, Feb. 26.—The wheat market was extremely nervous today and fluctuations were rapid. Shorts in March were inclined to cover and delivery was rather firm. This firmness prevented the May delivery from slipping much lower. At the finish wheat was 1 cent lower to 1 cent higher, including March \$1.45 to \$1.53 and May \$1.37 to \$1.51. Corn was off 1/2 to 1 cent. Oats were down 1/2 to 1 cent, while provisions finished strong. The feature in wheat was the relative strength in the March delivery, which went more than 11 cents over May. Settlement was decidedly mixed and while some of the local element were very bearish, there were others who were strongly of the belief that the market was to work higher. The main bullish influence was the prospect for a marked improvement in the export demand. Germany was reported to have purchased wheat in the United States and was after more. Large receipts and a decline in cash corn as compared with May delivery had a depressing influence on coarse grains, which averaged lower and more than offset the effect of the relative strength in wheat. Exports were after corn in the west and sales of 60,000 bushels were reported. Provisions were firmer with hogs on small receipts and in the west.

**NEW YORK STOCKS.**  
NEW YORK, Feb. 26.—The market for coffee futures opened unchanged but coffee futures opened under further scattered liquidation, but later improvement was reported in Santos and futures rallied. The market closed at a net decline of 2 to 10 points: March 6.23; May 6.21; July 7.94; Sept. 7.12; Oct. 7.55; Dec. 7.77. The officials cables reported the markets unchanged but earlier cables showed an advance of 10 to 17 rais in Santos and later a further gain of 10 to 125 rais. Brazilian port receipts for the two days were 43,000; Jundia receipts 25,900. Victoria cleared 3,500 for New Orleans and Santos 10,600 for New York.

**NEW YORK STOCKS.**  
NEW YORK, Feb. 26.—The variable gains registered in the course of today's short stock market session were largely the result of short covering, induced to an extent by the more favorable tenor of overnight developments. Advice, insofar as they dealt with industrial and commercial conditions, indicated a slow but steady restoration of confidence, but there were no signs of any pronounced easement of money rates.

Gains of 1 to 3 points were registered by the popular industrial, such as minor steel, motors and their specialties, tobacco, textiles and about a score of unclassified issues, including international paper and industrial alcohol. Selling for profits caused nominal recessions from best prices in the final dealings but the net result again suggested an over-extension of the bear position. A fair amount of business was done in bonds, but those issues, including the liberty division and recent industrial flotations, were mostly irregular.

**Kansas City Cash Grains.** Feb. 26.—Cash wheat No. 1 hard \$1.41@1.56; No. 2 \$1.49@1.55; No. 1 red \$1.73; No. 2 \$1.72; Corn No. 2 mixed 58¢; No. 1 white 62¢; No. 2 yellow 54¢; Oats No. 2 white, 45¢; No. 2 mixed 42¢; Rye \$1.15@1.25.

**Coffee Market.** NEW YORK, Feb. 26.—The market for coffee futures opened unchanged but coffee futures opened under further scattered liquidation, but later improvement was reported in Santos and futures rallied. The market closed at a net decline of 2 to 10 points: March 6.23; May 6.21; July 7.94; Sept. 7.12; Oct. 7.55; Dec. 7.77. # NOTHING WILL ESCAPE

—Everything Is Going the Bargain Way. It's a Gigantic Task to Turn This Stock Into Cash Quick, too Honestly

In my entire selling experience I have never seen a finer made, complete, better selected stock of home furnishings. It seems a shame to sacrifice such a stock as this. It's the most sensational, most liberal disposal of high-class home furnishings EVER OFFERED THE BUYING PUBLIC in Northern Texas. Understand me people this sale will last just six more days. On Saturday night, March 5, it will be all over. Six more days of price slashing for your benefit. It's your opportunity. If you miss it you lose.

### Citizenship Study Department, Civic League, Plans Work

The Citizenship Study Department of the Civic League has mapped out an ambitious study program for its membership and announced complete organization for semi-monthly meetings beginning Friday, March 11.

City, state and national legislation will be a feature of the regular study sessions, while state civic, education and tax laws, passed and pending legislation on special matters pertaining to women and children, will be taken up in detail, studied and discussed. State and national legislative and congressional publications have been subscribed to, and the study department expects to keep in active touch with both the state and national law-making bodies.

Membership in the study department will not be limited to members of the Civic League, but every woman citizen interested in the public affairs of the day is invited to become a member. The legislative committee, which Mrs. D. O. Long is chairman and Mrs. W. W. Cook, assistant chairman, will make a regular report at each Civic League meeting and discuss legislative proposals to the end that all the league membership not actively connected with the department may be properly informed of public affairs.

It is believed that the citizenship study department will be one of the strongest sections of the Civic League and their work will do much towards encouraging interested citizenship among women.

The semi-monthly meetings will be held at the home of Mrs. J. W. Thorne, 1130 S. 11th St., from 9 to 11:30 a. m. The meeting Friday, March 11, will take for its theme the charters of the city of Wichita Falls.

The department forwarded a telegram to Senator Hedges recently requesting him to work for the passage of senate bill 174, relating to the school appropriations.

Members of the legislative committee include: Mesdames Long, Cook, L. Cook, M. A. Beckman, Charles Wallace, R. T. Evans, F. L. Lipscomb, Bronson, Guy Davis, F. H. Whaley, H. H. Markes, C. W. Coffey, Richard Bailey, John W. Naylor, and Fred Loomis.

### T. E. L. SUNDAY SCHOOL CLASS MEETS THURSDAY

The T. E. L. Sunday school class of the First Baptist church met Thursday afternoon in social session at the church from 2:30 to 5 o'clock.

During the business session the class decided to continue to meet every week and partly finance a family of seven sick people. The sick and visiting committee also reported.

With Mesdames Porter, Hall, Craig and Phillips hostesses, a most enjoyable social hour was spent. Well prepared papers were read, discussing the Christian character of the subjects, Gullone, and Lora, for whom the class is named. A very amusing game was played, the winning side being given prizes of all kinds.

Miss Murphy gave a reading which provoked much fun and laughter.

At the close of the program Mesdames Hedges, Wilson, Abbott, and Roy Carter served a salad plate to the following: Mesdames T. R. Brunson, J. H. Ward, G. O. Hawley, R. Murphy, G. H. Hill, K. Hill, M. Russell, C. R. Taylor, Louise Goodwin, E. W. Enos, Ralph Hines, J. W. Ferguson, Hooker, M. A. H. Barrett, Nickerson, Travathan, J. C. Walker, G. H. Watson, Knox Finley, E. E. Porter, A. A. Norris, W. Fisher, E. L. Smith, S. H. Haddock, E. H. Minor, R. M. Wilhite, Roy Carter, and J. F. Abbott.

### FORMER WICHITA FALLS WOMEN HOSTESSES, WASHINGTON TEA

The Benton County (Ark.) Democrat contains the following account of a Washington tea given by a group of former Wichita Falls hostesses:

"A delightful and most gracious compliment was paid their many friends yesterday from 2 to 5 o'clock with a tea given by Mesdames W. J. Bullock, H. L. Baker and W. H. Heath at the hospitable home of Mr. and Mrs. W. J. Bullock on East Fourteenth street.

"The house was decorated throughout with red and white festoons from the ceilings and chandeliers and over the doorways, while hatches of the same colors were everywhere to be played, and over the piano in the music room hung pictures of George and Martha Washington against a large American flag as their background. A profusion of American roses, red and white carnations reminded the guests of the patriotic commemoration of the day, and those with the greenery of potted plants everywhere about the rooms and the soft light made a beautiful setting for the picture which was helped by the pretty afternoon glow of the guests.

"Thirty-five ladies and girls were in the house party. Mrs. H. Y. King met the callers and the receiving line included Mesdames Bullock, Baker, Heath, W. W. Little, M. A. Bundy, E. H. Bredlove, L. R. DeLong, C. W. Rhode, F. W. Peel, R. F. McPhetridge, J. R. Craig, E. C. Pickett, T. B. Noble Jr., T. T. Omohundro, H. E. Woods and Miss Ebe Laughlin.

"Punch was served by Mrs. K. B. Huffman and Mesdames Josephine Bullock and Helen King. Mrs. E. C. Knott ushered the guests into the dining room where brick cream, mints, cakes and nuts were served by Mesdames Hanes, Leta Bryan, Ima Bredlove and Mesdames Bennett, Erickson, H. W. Cook and W. B. Chastain. In the refreshments there was present also the red and white of the decorations.

"Musical numbers were given by Mesdames Shannon, Bohart, Elmer Jackson, J. A. Vaughan and Mesdames Elizabeth DeShong, Florence Stride and Gladys Maxwell, adding to the pleasure of the guests.

"During the afternoon a hundred guests called."

### FLORAL HEIGHTS WESLEY GIRLS MET WITH MRS. HUGHES FRIDAY

The Floral Heights Wesley Girls sang with Mrs. John Hughes Friday afternoon, enjoying a business and social session. Refreshments were served late in the afternoon to Mesdames R. L. Dillard, Carlisle Norwood, Harvey McCarty, Leon Deaton, Charles Crowell, Rhoda McGee, Fisher, Ray Hanks, Lester Jones, and Ray Howard. The next meeting will be held March 11 with Mrs. Olin Harvey at 1201 Taylor street.

### JAPANESE GARDEN PARTY WAS BIG SUCCESS FRIDAY

The Japanese Garden Party given by the Senior Epworth League members of the First Methodist church Friday night was generally voted the most attractive and enjoyable ever given by the League.

The League room was turned into a Japanese garden, lanterns, cherry trees, bamboo, madia flowers, oriental butterflies and wisteria vines completing the oriental ensemble. The guests were received by Mesdames O. G. Scott and J. O. McDowell, Mesdames Thelma Stuck, Mary Hanks and Bruce Dickson, and conducted to the tea room. Here they were seated on cushions, and Mrs. Hugh Weaver, assisted by Mesdames A. H. Drake, E. W. Shaw, J. M. Hooper and T. A. Richards and Mesdames Ida Baggett, Hilda Masters and Jennie Shaw, served tea.

For the Japanese guests the guests were separated into four divisions, named for different Japanese cities. In the Japanese hop relay the teams were the Tokyo, Osaka, and Yokohama teams, and were successful in the hop relay. One of the most interesting features of the Japanese hop relay was the contest, in which chop sticks were the serving medium employed. After "many a slip" twist the plate and the chop sticks were declared winner of this somewhat debatable contest. Eleven Japanese proverbs were acted on the platform, and were guessed by the Japanese guests. The Yokohama team was most successful in this.

Other interesting diversions were the Japanese race, won by Mrs. Nell Hooper, the Jap tag game, marching around the obstacle race, and the light rope walking specialty by Prof. Wisby-Washby. M. L. C. Foster gave a Japanese reading, in costume. The costumes were exceptionally attractive, much very handsome oriental loggery being displayed. J. W. Thorne directed the games, and handled that part of the entertainment most successfully.

Over a hundred and fifty guests were present, including the young people of the church and league.

### TRAVIS MOTHERS CLUB BEGINS ACTIVE WORK

The Travis Mothers' Club, organized two weeks ago, began active work at its meeting Friday afternoon of last week at the school house.

Cook, chairman of the program committee, and Mrs. Busby, chairman of the plans committee, it was decided that meetings would be held each first and third Friday in the month at 4 o'clock at the school house.

During the business session the mothers decided to begin plans for a St. Patrick's box supper, to begin the campaign for funds for school ground equipment. It was also decided to combine the school work with a study of history, literature and art.

Twenty-three members were present at Friday's meeting, a feature of which was Supt. Leo Clark's informal talk to the mothers, stressing the advantages of such co-operation between parents and teachers as if afforded by the Mothers' club organizations. Music was given by the fourth and fifth grade pupils, and Miss La Verne Benson gave a reading.

### FIRST BAPTIST "FACULTY" HAS PARTY AT THE CHURCH

The "faculty"—including officers, teachers and their families—of the First Baptist Sunday school met in the basement of the new church Saturday evening and enjoyed the first "faculty" party of the season.

Games and contests were entered into most heartily, and refreshments of ice cream and home made cake served. Following the serving of refreshments an earnest and helpful round-table discussion on "How to enlarge the Sunday School and Increase its Efficiency" was participated in by the officers and teachers. Mrs. W. L. Robertson suggested that a greater value should be stimulated in the importance of the Sunday school as a constructive force.

MRS. A. J. LESTER, HOSTESS SAN BOUN CLUB THURSDAY

Mrs. A. J. Lester was hostess to the San Boun club Thursday afternoon at a very attractive party. The George Washington motif was preserved in the floral decorations, tally cards, refreshments, etc., and the afternoon pleasantly spent at the "500" tables. In the games, Mrs. C. Q. Parker won high score and was presented with a remembrance by the hostess, who consoled Mrs. R. B. Morton for low score. In a contest Mrs. Olin Geers was most successful, and was presented with a trophy.

Refreshments were served to the following: Mesdames H. A. Davis, A. G. Deather, Edward Knowles, M. F. Hamric, Clarence Moore, F. M. McClure, R. B. Morton, Clarence Muehlberger, C. Q. Parker, Felix White, Leo Wilson, C. H. Lawson, Eugene Nicholson, Olin Geers and A. J. Lester.

The next meeting will be held with Mrs. R. B. Morton.

Judge and Mrs. W. T. Carlton have returned from a three weeks stay in Dallas, attending court and visiting relatives and friends.

### MRS. CHARLES CROWELL ENTERTAINS AT DINNER

Mrs. Charles Crowell entertained with a delightful informal dinner Thursday evening, honoring Mr. Crowell's birthday anniversary.

The living and dining rooms were decorated very attractively in out flowers and colors appropriate to the Washington season. The dining table was especially pretty with its dainty cloth, birthday cake and lighted candles and place cards. Covers were laid for eight guests, and a four-course dinner served to the following: Messrs. John Davenport and Charles Crowell, Cecil Crowell and Mrs. M. E. Crowell, and Miss Mary Isabel Crowell.

### UNION MEETING OF YOUNG PEOPLE'S ORGANIZATIONS

A union meeting of the young people's organization of the different churches of the city will be held at the First M. E. church, corner Seventh and Lamar streets, Sunday evening at 8:15. The service will open promptly at that time. Invitations have been sent to all the young people's organizations in the city and all will attend, it is reported. The following program has been arranged:

Opening song.  
Opening prayer—Mr. J. W. Thorne, First M. E. church, south.  
Piano solo, "A Prayer to the Virgin"—Miss Gertrude Bauch, Presbyterian church.  
Outline of lesson—Arch Dawson, First Baptist church.

### Young Folks, North Wichita Falls Meet To Organize Clubs

Young people of North Wichita Falls were assisted in organizations of clubs at the civic meeting Friday evening in the First Methodist church by Mesdames N. O. Monroe, T. B. Smock and H. R. Crawford of the Wichita Falls Civic League.

Mrs. Henry Mitchell was elected president of the Girls Social club, with Miss Kate Hefner secretary and Miss Ada Gullitt vice-president. The club will organize basketball, tennis, tennis teams and other athletic forms. A committee comprised of Miss Gullitt and Miss Olin Marsh will meet with the recreational secretary of the Y. W. C. A. Monday afternoon at 5 o'clock at Fannin school house to plan social work.

The young people formed a boys' and girls' club for which officers elected included Charles Hefner, president; Ray Ford, first vice; Cecil Arkin, second vice; Bessie Hefner, treasurer; Annie Lee Jones, secretary, and Henry Dunlap, parliamentarian.

Mrs. Monroe expects to meet with the girls again Thursday afternoon at 4 o'clock for the purpose of organizing a Campfire Girls council of girls from 10 to 14 years of age. A parent-teacher club is also to be organized shortly on the North Side.

### GIRLS AUXILIARY FIRST BAPTIST WILL MEET WITH MISS HEATH

The Girls Auxiliary of the First Baptist church will meet Tuesday, March 1, with Miss Heba Heath at 1008 Travis.

The auxiliary had a very interesting meeting last Tuesday at the church, studying "China."

### LOCAL WOMEN AT BURBURNETT ATTEND MISSION MEET TUESDAY

Mrs. M. M. Black, district secretary of the Women's Missionary society, S. E. Trevathan of the Floral Heights M. E. church, south, and J. W. Thorne and Miss Edith Slaten, both of the First Church Epworth League, were guests of the Burburnett Mission society at an all-day meeting Tuesday, February 23.

At noon luncheon was served at the church, and after dinner the program was turned over to the visitors, after devotionals led by Mrs. Majora. Mrs. Black discussed the work in general, answered questions and made a number of practical suggestions. Mrs. Trevathan made an interesting talk on "mission study," and Mrs. Thorne and Miss Slaten directed games, after Miss Slaten had made an informal talk on "Recreation."

The pastor, Rev. Mr. Montgomery, spoke on the importance of building up the social life of the church. Volunteers spoke for the Junior League work.

## LAUN-DRY-ETTE

WASHES AND DRIES WITHOUT A WRINGER

Having had such wonderful pleasing results with our LAUN-DRY-ETTE demonstrations during this entire week and not having sufficient time to answer all inquiries we have arranged with the factory to allow Mr. I. W. Cook and Mrs. J. C. Meyers and Mr. E. E. Shankle to remain and continue the demonstration in our store and to make house demonstrations all this coming week.

This will give another opportunity to those who could not see the LAUN-DRY-ETTE during the past week.

REMEMBER we will be pleased to have you call in person at our store or phone for a demonstration at your home.

To responsible parties we will place these machines on the contract plan, giving you ample time to pay for them.

Ladies Aid Society meets Monday afternoon at 2:30. Special music will be featured at each service. Come to Sunday school early and hear that good music played by the fifteen-piece orchestra. Visitors to the city are cordially invited to attend.

**First Baptist Church.**  
Sunday school at 10 a. m. We are exceedingly anxious to have as many

as possible of our church membership and others who may desire to do so to come and attend the senior and adult classes, and study with us the subject of tomorrow's lesson. We will study "Rewards of Faithfulness." (1) Faithfulness is required. The Master ascended from Olivet. He is coming again. We have our task until he comes. (2) Faithfulness is expected. The Lord purchased his servants with his blood. He is entitled to their service. He counts on it. (3) Faithfulness is commensurate. Each of us can do something. There is a worthy task that exactly fits each of us. (4) Faithfulness is energetic. The talent was not for display but for use. And what a field there is for investment of the consecrated talent. (5) Faithfulness is developing. The first man did no more than the second. Each multiplied his endowment by two. The man with one talent could have done the same. (6) Faithfulness is contrasted. The untalented man failed not because of his meager endowment, nor ignorance, after lack of opportunity, nor extravagance but simply because he kept his Master's money in stultified idleness. (7) Faithfulness is accountable. It is ready for opportunity. When the Master comes all of us must give an account of ourselves. (8) Faithfulness will be rewarded. The Master's approving smile, His gracious word, His loving promotion, His abounding joy—that is the sweetness of heaven when the hard day's work is over. (9) Faithfulness will be continued. Draw aside the veil that curtains off the larger life. We shall have greater responsibility and wider service hereafter. Our school is having a wonderful growth. Our enrollment is nearing the 900 mark. To be correct, we have 845 pupils. We have the largest organized class in the city. If you have not done so before, it will be worth your while to visit our primary or junior departments. We are now headed for an enrollment of 2,000. Come join a big thing and help make it go.—W. C. ASHFORD, Gen. Supt.

Preaching at 11 o'clock by the pastor. Subject: "The Fundamentals of Prosperity." Evening service at 7:30 o'clock. Subject: "What Would We Have to Do to Strengthen Christianity?" We have a treat in store for us in the form of a duet to be sung by Mr. R. Vaughn Ray and Miss Edna Jones at the morning service. At the evening service Mr. J. X. Martin will bring us a message in song. It will do you good to hear him. You are cordially invited to come and partake of the bread of life as the pastor shall break it to us, morning and evening.

## EIGHT FAMOUS VICTOR ARTISTS AT THE PALACE TUESDAY NIGHT MUSICAL EVENT OF THE SEASON

Managers of the Palace theatre are anticipating a capacity crowd to turn out for the concert to be given by the Eight Famous Victor Artists in their house on next Tuesday evening, and the advance seat sale bears out the prediction that the peer cent of the music loving public in Wichita Falls will be on hand when the curtain goes up on the celebrated entertainers.

Although each of the eight artists is already well known through their association with the Victor talking machine a short sketch may serve to better introduce them.

Henry Burr, known the world over as a singer of tuneful and sentimental ballads. His is an art that never fails to please. Duets, too, with Campbell, a member of the Sterling trio and Feebles quartet.

Albert Campbell, first tenor of the Sterling trio and the Feebles quartet, is a New York actor, singer, pianist and actor. He is an old minstrel man, but has gained undying fame through his duets with Henry Burr.

Frank Croxton, leader of the party, a member of the American and Feebles quartets, has spent many years on the concert platform and is especially noted as an orchestra singer. He has deep, powerful voice of quality.

Billy Murray, according to the opinion of many who have heard him, he is the funniest man in the world. He is a comedian and a singer of topical songs. Next to singing he loves baseball best.

John Meyer, baritone of the Sterling trio, Feebles and American quartets, gained his first experience as a church singer. He is a talented pianist and will be heard in duets with Frank Fanta. His composed several popular songs.

Monroe Silver. Here is "Cohen" himself. He will stand before you and tell the various incidents of a familiar inhabitant of New York's famous lower east side. Only the deaf fail to laugh when Silver tells a story.

Fred Van Eps, leader of the famous Van Eps trio, and probably the best of the banjo man living today. He is a wizard at entertaining.

Frank Banta, the pianist and accompanist, has specialized in that class of music known as "Jazz." His skill is truly remarkable and no one is more versatile in deriving new rag time effects at the key board.

Tuesday's program will be made up of solo, duets, numbers by the Sterling trio and the Feebles quartet, instrumental numbers by Mr. Banta and Mr. Van Eps, and character stories by Mr. Silver. Certainly no greater array of talent has appeared in this city than these artists and those who miss this concert are passing up the opportunity of a life time.

HENRY BURR With the Eight Victor Artists at the Palace theatre.

## Wichita Theatre To Reopen Monday With Vaudeville

All arrangements have been completed for the opening Monday of the Wichita theatre as a popular priced vaudeville and musical comedy house, together with a first class program of moving pictures.

Rube Hooper in "Oh You Wildcat," a musical comedy which was presented for the first division in France, will be the main feature of the initial program. Hooper and his company have a show which is of the rapid moving, laughable kind that keeps the audience in a constant titter and leaves not a dull minute from the opening lines to the closing songs.

Plenty of tuneful melodies, good clean comedy and a long list of war time jokes and stories makes up the major portion of the bill.

The Wichita will be open for a matinee and evening show each night in the week. Matinee prices have been placed at 15 and 25 cents, while evening tickets will go for 15, 25, 35 and 50 cents.

## THEATRES

## Reel Chatter

By JEAN DARNELL

Priscilla Dana and her husband, Wheeler Okman, have purchased a lot in fashionable Beverly Hills and plan to build a southern colonial style home in the spring.

Jimmie Harrison, of the Christie comedies, who has played leading roles in many famous stars, is now taking the leading male role in one of Constance Talmadge's new pictures.

Gloria Swanson's next stellar vehicle will be "A Sheltered Daughter," a story from the pen of Elmer Glynn, especially written for Miss Swanson.

Alice Lake is getting all the winter weather she wants at Flagstaff, and Director Wes Huggles confirms the statement that it is so cold there it from the flames of a match.

Pauline Frederick has a movable dressing room that she takes from set to set, and from location to location.

Mabel Normand sent the speed cap after Hugh Thompson and for a half a day Hugh thought he was pinched.

Bill Duncan has been weathering the Pacific for two weeks, "Fighting Fate," as it were.

The "White and Unmarried" company are making box scenes near San Francisco. Tom Meighan is starred. Tom Foreman directing.

"Worlds Apart" is the new Seznick picture, starring Eugene O'Brien. According to the interest of the picture is the fact that fifty well-known horsemen and horsewomen of Virginia will appear as extras in fox hunting scenes.

Goldwyn is producing "Rip Van Winkle," in which Will Rogers plays the title role. No one but an acrobatic artist like Will could make the jump from "Boys Will Be Boys" to "Rip Van Winkle."

You remember "Lefty" Flynn, the crack full-back of Yale? Well, he is kicking new goals these days in motion picture. "Lefty" has made good as an actor in the silent drama and is rapidly forging to the front. He has a prominent role in Rex Beach's "Going Some," and in other Goldwyn productions.

Mary Miles Minter has returned to Los Angeles after a three week's visit to New York City.

Louis Weber celebrated the formal opening of her tennis court at her new studio on Santa Monica Boulevard recently by a tennis exhibition, dancing on the production stage, and an unheralded review of the latest production of Miss Weber's pen, a five-part production for Famous Players-Lasky, entitled "Painting the Lily."

Anna Q. Nilsson has been engaged to play the lead in "Why Girls Leave Home," under the direction of William Nye.

Miss Nilsson has been engaged to play the lead in "Why Girls Leave Home," under the direction of William Nye.

The little blonde star of "The Marriage of William Ashe" has long been one of the reigning favorites with theatre goers all over the country and advance reports on her forthcoming film indicate that this popularity will be greatly increased. Miss Nilsson's pictures have invariably been characterized by their peppy style and rapid action, none of the moth eaten "moral" pictures ever found favor with her. "Without Limit" will probably "go the limit" in fun and wholesome drama and will no doubt score decidedly with local theatre-goers.

**MARY MILES MINTER IN "ALL SOULS EVE" MONDAY**

A perfect piece of acting by the star, an appealing Irish legend entertainingly told, and an excellent theme of mother love are the high spots of "All Souls Eve," the Mary Miles Minter picture which opens at the Majestic theatre for a two days run Monday and which serves as the feature attraction for the week. Miss Minter has been given one of the best roles of her career in this picture, one in which she is seen as a small Irish nurse maid and also as the prim and haughty wife of a famous sculptor. The dual role is well handled and gives the popular star two chances in which to score. "All Souls Eve" playgoers will re-

call, in the Anne Crawford, Fleischer stage success of last season. It was adapted for the screen by Elmer Harris, co-author of "So Long Lefty" and "Clancy Cottage." For the screen he has written many successes, including the popular "Miss Hobbs." Rehearsals initial Wanda Hawley offering.

In the supporting cast of the picture are Jack Holt, one of the best leading men in the business; Mickey Moore, popular child actor; Clarence Gearty; Carmen Phillips and Lottie Williams.

The film is a Reelart release and was directed by Chester Franklin.

On Wednesday and Thursday another Reelart picture, "Man's Plaything," featuring Elain Hammerstein, will be the chief offering. This is another of the type of pictures which Miss Hammerstein is seen to the best advantage in, and from all reports it is the best she has ever made. The regular weekly installment of "The Son of Taran" will also make its appearance on these two mid-week days.

An all-star cast in "The Man From Nowhere" and a special comedy, "The Sportsman," starring Clyde Cook, will wind up the week's bill on Friday and Saturday. Both pictures are reported to be well worth while, the former especially having some unique thrills and exciting adventures.

### SOMETHING OF EARLY HISTORY OF OLD SPANISH FORT ON RED RIVER AGAIN BROUGHT INTO LIMELIGHT

By A. A. LITTLE.

NOCONA, TEXAS, Feb. 26.—Near the wigwam village of one hundred years ago where the Indians took council as to war or peace, held war dances, related stories of war and the chase where the Mimihahas and Hiawathas of those days loved and sung, stands an old man's tepee, the Gulf-Phillips derrick on the Bouldin farm. Drilling is under way at this well. It is expected the Pure Oil-Tammany test will be spudding within a week. This brings Spanish Fort into public view once more.

Turning back to early history, perhaps the first reference is made to this locality in the report of an expedition made by French traders up Red river in canoes in 1718. They pushed their way as far as Spanish Fort, but what the Indians called their chief camping ground is not recorded. The French had established an outpost in the vicinity of Texarkana which was their base of supplies. Indian villages of the associated tribes known as the Tawoyas were found. One with favored spots on both sides of the river to the confluence of the Little Wichita with Red River. Spanish Fort became an important trading center, and was under French influence for a considerable period, writes Prof. Herbert Bolton of the University of California.

In 1753 Indians attacked a mission on the San Saba river and killed several Spaniards, including two missionaries. A Spanish officer named Bonilla led an expedition against the Indians, and traveled north one hundred and fifty leagues, says his report. He found several ranches where the Indians, and one hundred and fifty-nine taken prisoners. But when he advanced on the Tawoyas village (Spanish Fort), it was found to be fortified with entrenchments, stockades and ditches, and inside were more than six thousand confederated Indians, who with boldness and arrogance were flying the French flag. In well-directed sallies, they attacked our troops, and increasing their outposts and detachments, tried to cut off our retreat, and leave no other alternative than death or surrender.

This mode of warfare never before experienced among Indians, in which they not only observed regular military discipline, but also dextrously inflicted injuries with musket, saber and lance, throwing aside their bows and arrows, moccasins and arms peculiar to their ancient usage, so astounded the troops that their officer's ardor, good example and persuasion were of no avail. They retreated, leaving behind two field pieces; and the memory of this event remains to this day on the Tawoyas frontier as a disgrace to the Spaniards.

**Flying the French Flag.** Old Spanish Fort was not only a fortification, erected possibly under French direction, as it was found by the Spaniards to be flying the French flag, but contained underground room for non-combatants. This information is contained in Spanish records. Early white settlers evidently presumed it had been built by the Spaniards, hence the name.

The battle above noted was probably fought in Farmers creek bottom, and between the test wells mentioned at the beginning of this article. The first white settlers are said to have found a lot of human skeletons at this point. It is just possible they gathered them up and threw them into the river, which comprised six pieces of earth work on each side of the river, as excavations at the fort reveals the presence of human skeletons. There seems to be no remains of the Indian happy hunting ground.

Here was probably fought the only battle waged between French and Spanish troops on American soil. The Indians assisted the French in this battle.

The French Indian agent, who was in the employ of the Spanish government, named the fort on the Texas side, San Teodoro, and on the Oklahoma side, San Bernardo. Under his direction the two field pieces were sent to San Antonio in 1778. The two forts are still visible, though caved in and partly obliterated by the ravages of time.

Reached its greatest importance, Spanish Fort reached its greatest im-

portance as a trading place between 1870 and 1885. Here stores and saloons were established. It is said to have taken on all the wild and woolly conditions which usually come to frontier settlements. During the same period, Red River Crossing, on the west side of the big bend in the river, but still in Texas, and the town of Montague, were rivals of Spanish Fort, but never equaled or exceeded it. Perhaps no town in all north Texas or Oklahoma could do that. The place was remote and near the state and territory line. This would readily account for the early history of Spanish Fort. It is quiet and law-abiding now as any town in the state. Red River Crossing was the point to which the cattle from Central and Southern Texas were driven to ford the river and take the old Chisom trail for Kansas City. During the overland shipping season, twenty to thirty herds might be seen, guarded by herders and awaiting their turn to cross the river.

But the coming of the M. K. & T. railroad in 1885, soon changed all this. Nocona was established, Spanish Fort and Montague each contributed from their population and stores, and soon the new railroad town took the lead and is now the second town in the county. Red River Crossing was abandoned as a village.

Though as a white settlement, Spanish Fort is not so large as it once was, it still has hopes. Should oil be found in paying quantities in Montague county, the Ringling railroad is likely to be built across Red river via Nocona and Montague to Bowie, a survey for which is said to have been made.

In the early days, a stream of live stock wended its way across Montague county off to market, and instead of being on the Chisom trail, it is the oil pipe trunk lines, leading off to the markets of the world.

The spirit which governs City National bank of Commerce service is that of co-operation—the endeavor to be of the utmost assistance to Wichita Falls' people in their business undertakings and in the handling of their personal financial affairs. 219-112

## The Advance Spring Fashions

# Harper's Bazar

Now on Sale

YOUR Spring wardrobe will be simple and straight, of course. But will you distinguish your frocks by lengthening the skirt and with godets as Jenny does? Will you follow the Directoire? Or—like Vionnet—make wraps and frocks showing Spanish influence? And have you seen the new over-blouses? And the uneven skirt? Will you choose for your country club turnout, a blue cloth coat and white crepe skirt, like the model on the right? To know with certainty what to choose, you must have the *March Harper's Bazar*.

For Harper's Bazar for March anticipates every question—about your tailor, your frock of foulard perhaps, and of course, your evening gowns and wraps and hats—down even to the smallest detail of gloves and shoes.

And besides fashions—fourteen special features, among them the talked-of "Pot of Gold," George Agnew Chamberlain's newest novel.

# MARK SULLIVAN CLASSES HARDING KINDLY, WELL MEANING, PATIENT MODEST TO POINT OF HUMILITY

By MARK SULLIVAN  
National Political Correspondent of  
The N. Y. Evening Post.  
(Copyright, 1921, by N. Y. Evening Post.)  
ST. AUGUSTINE, FLA., Feb. 26.—  
We have now had four months since  
the election in which to get a clearer  
picture of Mr. Harding's personality.  
With that accuracy on the part of the  
public in "sizing up" its public men  
which is one of the most dependable  
instruments of democracy, people gen-  
erally have come to have a fairly true  
picture of Mr. Harding as kindly, well  
meaning, benevolent, patient, modest  
and to the point of humility, al-  
ways intending to do the right thing  
and sure to do it whenever the alter-  
natives are made clear to him, lacking  
any pretence to greatness, a character  
to inspire friendliness on the part both  
of those close to him and of the wider  
public as well, a character to win the  
kindliness of judgment and likely to  
keep kindness of judgment on the  
part of the public even long after  
things have begun to go against him,  
if that should come to be.

Omitting the matter of his cabinet  
from consideration, practically every  
one of Mr. Harding's public acts since  
his election have made no merely a  
good impression but a marked happy  
one. At the same time, those who have  
followed him minutely know that he  
has had some narrow escapes from an  
unpleasant public verdict on some of  
his acts. In connection with the in-  
augural ceremonies for example, the  
next that the public recalls of Mr.  
Harding in that connection is his well  
conceived and well composed message  
calling off all ceremonies.

**Action Was Timely.**  
However, that act and the letter in  
which Mr. Harding accomplished it  
were in the best of taste and showed  
him perfectly in time with the public  
judgment of what is fitting. At the  
same time, the things that preceded  
Mr. Harding's letter and made it nec-  
essary constituted an example of his  
greatest weakness. In the beginning  
Mr. Harding gave the management of  
the inaugural ceremonies into the  
hands of an old associate to whom,  
apparently, he was eager to show his  
loyalty. That old associate proceeded  
to promote an inaugural ceremony of  
a kind and of an ostentatious cost-  
liness such as brought down serious  
criticism. The criticism reacted to  
congress, from there it was borne in  
upon Mr. Harding, and in the end he  
undid an enterprise of easy going  
thoughtlessness with a well-brought-  
out act which had extraordinary suc-  
cess. In the same way, the early voca-  
tion which Mr. Harding took in Texas  
was not a public act. But if it had  
been a public act, as the outcome  
of that vacation was, it would have  
had a damaging effect on his career.  
His going to a place which involved

discomfort and even danger and which  
resulted in a fiasco, was another case  
of easy-going, good-natured acquies-  
cence in the suggestions of old ac-  
quaintances. With this temperament,  
with capacity for doing the right thing  
when he puts his mind on it, it is ob-  
viously important in Mr. Harding's  
case that he should be surrounded by  
men whose initiative is toward the  
best.

**Associates Important.**  
Dependable as he is to do the right  
thing when the alternatives are clear-  
ly before him, it is important who is  
close to him and who lays the alterna-  
tives before him.

On the other hand, the appointment  
of Mr. Hughes as secretary of state  
was solely Mr. Harding's own idea.  
The name of Mr. Hughes never oc-  
curred to any of the politicians who  
have or thought they were going to  
have a hand in the cabinet making.  
Some of these wanted Mr. Root, more  
of them, especially the insistents  
among the senators, wanted Senator  
Knox, and after Mr. Knox, David Jayne  
Hill.

Mr. Harding did upon Mr. Hughes  
himself. It was his earliest choice for  
any cabinet post. He arrived at it be-  
fore he returned from his vacation in  
December and he stuck to it through  
many efforts to dissuade him, some of  
them directly and some through the  
indirection of intrigue. From the day  
of his election forward, Mr. Harding's  
course in cabinet making has been a  
steady progress upward. It is too  
early to discuss the cabinet as a whole  
with adequate thoughtfulness or to  
know the public verdict on it. What-  
ever that judgment may turn out to  
be, it is a certain fact that the cabi-  
net of March 1 is better than the cabi-  
net of November 1 would have been.

**Rises to High Standards.**  
The earlier cabinet would have been  
almost wholly political, almost wholly  
made up of political friends and as-  
sociates of the sort of which the cabi-  
net as it now stands contains only two  
or three. In his cabinet making, in  
spite of parts of it, Mr. Harding has  
shown steady capacity to rise to high-  
er standards. However, an adequate  
estimate of the cabinet as a whole  
calls for later and more detailed con-  
sideration. It is almost too much to  
expect that Mr. Harding as a human  
being will ever rise fully to the op-  
portunities of his office. The presi-  
dency of the United States in the pres-  
ent state of the world carries the re-  
sponsibilities of unimaginable influence  
on the destiny of the whole human race  
but it is not in Mr. Harding's nature  
to reach out for them. He is not dynam-  
ic enough a man for that.

Indeed, he will be more likely to re-  
gard it as a virtue not to attempt them.  
In his philosophy it is the better thing  
for the human race to work out its own  
salvation. Too much interference on  
the part of governments with the or-

derly processes of "Normalcy" he holds  
to be one of the evils of the time.  
Moreover, such executive capacity as  
Mr. Harding has is not the kind that  
reaches out for functions. It is rather  
the kind that attends faithfully to  
what comes to his doorstep. Whatever  
is laid on his desk for action will get  
conscientious care and a judgment far  
above the average. If Mr. Hughes  
should turn out to be a man who sees  
the opportunities that the president of  
the United States has for world service,  
who can reach out for them and grasp  
them and reduce them to concrete and  
simple form, and in that form lay them  
on Mr. Harding's desk, it is possible  
for the new administration to make  
such a figure in history as is propor-  
tionate to the opportunity.

## OUTLINE PROPOSED CONSERVATION PLAN FOR OIL INDUSTRY

The "something," which all operators  
have agreed heretofore is needed to  
curb production until the time when  
the refining industry can take the oil,  
seems to have been arrived at by the  
Mid-Continent Oil & Gas Association,  
says the National Petroleum News. The  
plan as outlined embodies these fea-  
tures:

1. Where wells are not yet started,  
but merely locations, which are not  
deemed necessary to protect lease  
titles, the operators are urged to sus-  
pend work until there is a ready  
market for all oil.
2. Where the wells are actually  
drilling, the plan contemplates the  
continuation to the top of the sand,  
except in the case of offsets or lease  
validating wells.
3. Value Depends Upon Completion.  
Naturally, the efficiency of the plan  
depends upon the operators. Like  
movements in either line, restriction of  
cotton acreage or what-not, only strict  
adherence will bring the desired result.  
The association has set up the man-  
ner of carrying out the plan and

it believes the industry will exhibit  
the same ability to manage its own  
affairs it displayed during the war.  
In furtherance of the extended ef-  
fort to keep down new production,  
Magnolia Petroleum Company, in an-  
nouncing it will take the full offerings  
of producers, made it plain that this  
policy is preferred only to those wells  
which its pipe line company has con-  
nections.

**Companies Further Retrenchment.**  
The rapid scaling down of crude oil  
prices is being followed by retrach-  
ment on the part of all operators.  
Drilling programs are being cut and  
labor costs adjusted to meet the new  
order. It is axiomatic that the prices  
of material and equipment, which have  
already declined in many instances,  
will fall further.

A survey of the supply companies  
and tube mills in the Pittsburgh dis-  
trict found heads of the companies as  
one in expecting readjustment of their  
prices in the near future.

**Another Well in Arkansas.**  
One-fourth of a mile west of the  
Mitchell & Bussey No. 1 Armstrong,  
west of Eldorado, Arkansas, Con-  
stantin Refining Company, Sunday,  
drilled in its No. 1 Bump at 1,180 feet,  
for an estimated initial output of 1-  
000 barrels of oil and 15 million cubic  
feet of gas. This well found a sand-  
considerably thicker than did the "dis-  
covery" well and it is possible will  
make a better producer if the gas pres-  
sure drills it in.

**New Montana Pool Opened.**  
Forty miles southwest of Hardin,  
Montana, on the Crow Indian reser-  
vation, the Western States Oil & Land  
Company has drilled into the Embarras  
sand, securing a production estimated at  
200 barrels a day of heavy black oil.  
This is in the southeastern part of  
Montana, in Big Horn county, and is  
200 miles from the Cat Creek field. As  
practically all the so-called structure  
is on the reservation and the govern-  
ment land office has been instructed  
to require proof of financial ability to  
develop on leases granted, there will  
be no great rush to the probable field.

Every woman nowadays needs a  
checking account. With it she can  
manage her personal and household  
affairs more efficiently and economi-  
cally, and through paying by check she  
gains a reputation for business-like  
methods among those with whom she  
deals. The City National Bank of Com-  
merce welcomes the accounts of  
women.

The Wichita Falls Kiwanis club is growing rapidly. Saturday over 40 members had been accepted and it was believed that the charter membership of 100 would be filled before the time of the first membership meeting on March 10. The membership includes leading business and professional men.

Alban C. Simmers, Kiwanis field representative for Texas and Oklahoma, who is here in connection with the organization of the Wichita Falls club Saturday issued a statement setting forth the purposes and scope of work of Kiwanis. This statement follows: "Kiwanis is a movement. Its many clubs scattered throughout Canada and the United States represent collectively an organized effort to raise the standard of business. This object has in view the purpose of causing business to so function that it will render the community the highest type of service."

"Thinking men of the world recognize the fact that the day is past in which business can drain the community which supports it without giving something in return for that support. On the other hand, thinking men realize that the building of business is a natural consequence of building up the community."

"This is the fundamental idea of Kiwanis. It seeks to teach and promote community service."

"With this idea in mind, Kiwanis has adopted, as the standard of doing business, the simple rule of 'do unto others as you would have them do unto you.' It is commonly known as a fair play organization, the golden rule club, the club of service, etc. All these titles imply the same general idea—that of doing business on an ethical basis."

"It is not difficult to state an abstract principle of ethics. It is generally a matter of considerable difficulty to reduce that principle to a practical working outline. Kiwanis fully recognizes this fact. It recognizes also, the fullest extent, the danger and acuteness of stating, as a working principle, a mere platitude. There is nothing startlingly new in the advocacy of the square deal in business and industrial life. There is something new and refreshing and with great promise for the future in the organized effort of business men to translate this principle into something that is vital to the life of the community. Kiwanis believes that it is worth while to attempt to give this great principle a practical application."

"The local clubs, and the district which they comprise, are tied together by the great international organization. Through this organization Kiwanis ideas function throughout Canada and the United States. No small part of the success of the main big war drives for the sale of bonds, funds for the Red Cross and war relief is directly due to Kiwanis. This is but one example of how Kiwanis functions as an international organization."

"Teaching co-operation for community service, Kiwanis seeks to establish confidence in business. The world is shaken today by distrust and lack of confidence. The old order has changed and in the upheaval of social, political and economic conditions there has been laid bare these things which have caused men to view each other with suspicion and hatred."

"The great tide that has swept against that which was unjust and oppressive in the old order has passed beyond its objective and threatens to engulf and ruin the entire economic structure of the world."

"Kiwanis believes that the remedy for this danger lies in bringing back to men love and trust for each other. It believes that business must stand forth and through its service demonstrate that it is worthy of the confidence of the world. It seeks to so function that the great conflicting industrial forces of the world may find through it a common meeting ground upon which to come to an understanding. Unselfish in its practice, it seeks to demonstrate that man can do business at a profit and yet be fair and just to the other fellow."

"Kiwanis endeavors to inculcate and encourage among its members high ideals and business integrity, coupled with a spirit of generosity and unselfishness in service for the common good, with the realization that service brings its own reward, and that a true man lives not for himself alone."

### TEXAS SHOE DEALERS TO HAVE MEETING AT HOUSTON

HOUSTON, TEXAS, Feb. 24.—Vamps—short and long—will be on exhibition here three days next week when the Texas Shoe Retailers and Southwestern Shoe Traders' association meet Monday in the ninth annual convention.

Nearly 2,500 shoe men will attend the convention, it is expected.

### PLANS FOR TWO TRIPS DISCUSSED SATURDAY BY LOCAL SHRINERS

HOPE TO SEND BAND AND TROOP ON HAWAII TRIP IN SUMMER OF 1923.

### FIRST WEEKLY LUNCHEON IS LARGELY ATTENDED

Preparations Completed For Band's Visit To Electra Today To Give Concert.

Plans for two trips—one to Electra today, and one to Honolulu in the summer of 1923—were discussed Saturday when nearly 100 members of Maskat Temple of the Shriners held the first of their weekly luncheons at the Kemp hotel.

The trip to Electra this afternoon will be made by the Shrine band, the Shrine patrol and as many other Shriners as care to go. An instrumental and vocal concert will be given for the Electra Shrine club. Plans for the journey were perfected at Saturday's meeting.

The other trip will also be participated in by the band and the patrol, if plans formulated at Saturday's luncheon are materialized. Those active in local Shrine affairs hope to make it possible to take these organizations to the Imperial Shrine Council in San Francisco in 1923, and from there to Hawaii, on the side-trip to which Shriners all over the country are already looking forward.

Two quartette selections by Messrs. Shepherd, Ray, Von Almen and Butington and several pieces by the Elder orchestra added to the enjoyment of Saturday's repast. Most of the Shriners purchased attractive post cards at a dollar apiece, but that of course had nothing to do with the drawing of a full dress suit, donated by H. S. Baum; the lucky number was held by Fred Clark.

Volunteers are called for to take charge of the program for the next meeting. Dr. R. G. Anderson rose very promptly to put in time to beat several others to it.

Potentate Walter Cline presided at the meeting, but announced that henceforth he would sit with the plain people instead of at the head table.

Announcements regarding today's trip were made by Joe Ward for the band and Horace Robbins for the patrol. Mr. Robbins, as captain of the patrol, called upon all members to be at the lodge hall Sunday at 1:00 p. m. prepared to make the Electra trip in uniform.

Recorder Fritz spoke of the tentative plans for next year, and said that with due support and enthusiasm by the more than 400 members of the Temple, the San Francisco-Honolulu trip could be made a reality.

Men and women who aspire to be financially independent must not only themselves work but must make their money work also. Money which is not profitably employed is useless alike to its owner and to the community. The City National Bank of Commerce safeguards the funds of savers and pays thereon a 4 per cent compound interest.

## SPRING AUTOMOBILE SHOW HERE MARCH 11-12

### WILL BE HELD IN CONNECTION WITH SPRING STYLE SHOW AND OPENING OF GREAT WHITE WAY

By far the most ambitious undertaking of the Wichita Falls Automobile Dealers' Association is the Spring Automobile Show, scheduled for Friday and Saturday, March 11 and 12. Special arrangements have been made to secure the entire floor and wall space of the new building of Thom & Son, Seventh and Scott avenue, and coming at the same time as the Spring Style Show of the retail merchants and the opening of the "Great White Way," it is expected that thousands of people from out of town will be in the city.

Members of the Wichita Falls Automobile Dealers' Association, about twenty-five in number, will exhibit very latest models in passenger cars, as well as scores of innovations in accessories on display. Arrangements have been made for the accessory dealers to occupy the lower floor, and from ten to twelve automobile exhibits to occupy the second and third floors. The entire building will be attractively decorated, and all signs and advertising matters will be so regulated as to obtain the greatest possible harmony. Only members of the Wichita Falls Automobile Dealers' Association will be represented at the show, according to those in charge.

Meetings are being held at frequent intervals by the committee on arrangements, headed by W. J. Daugherty as chairman. Other members of the committee are: C. C. Eckman, J. M. McFall, D. H. Rubsam, L. L. Dixon and Lloyd Weaver. This committee has been given full power to act, and is proceeding along the line that, as the automobile industry stands second only to oil, the city of Wichita Falls should set the pace for Texas cities. Although the plans for the show are by no means complete, according to Chairman Daugherty, it will be a demonstration worthy of any city many times the size of Wichita Falls. Among the numerous interesting educational features on display will be a cut-down model of the Overland eleven-valve motor, showing exactly how the motor is made and the operation of the sleeve valve principle.

Officers of the Wichita Falls Automobile Dealers' Association are: Frank Krim, president; O. C. Somers, vice-president; A. Booth, secretary; Lloyd Weaver, treasurer. The board of directors includes the four named above and Charlie Nolen, Carl Waelder and L. L. Dixon. Members of the association are: Apperson Sales Co., Dixon Motor Co., Eggenman & Von Allen, Excelsior Motor Co., Franklin Sales Co., Fritz Motor Co., Gaines Motor Sales Co., King &

Weaver Auto Co., Lloyd Weaver Automobile Co., Locomobile Co. Co., Marshall-Huff Motor Co., McFall Brothers, Conney-Myers Auto Co., Motor Supply Co., Nolen-Stringer Co., Overland Motors Co., Paige Wichita Co., Smith Auto Sales Co., Victory Motor Co., Williams-Thompson Motor Co., and Williams-Thompson Motor Co.

The following concerns have applications for membership pending: Randle Auto Supply Co., Exide Battery Co., Crawford Automobile Co., Southern Tire & Vulcanizing Co., Electric Service Station, Wichita Falls Battery Co., Auto Tire Company of West Texas, and The Automotive Accessories Co.

### AMERICAN MADE CARS ENCIRCLE THE GLOBE

Over one hundred countries, colonies and islands received American made automobiles during the year 1920.

One million dollars per day was the sum paid by foreign countries to American manufacturers for automobiles, tires and accessories.

This tremendous buying is prophetic of the great foreign market which America is just beginning to develop. "It indicates," says D. H. Rubsam, manager of the Marshall-Huff Motor company, local Jordan dealers, "the standing and prestige that American automobiles enjoy abroad."

People of all creeds, colors and races have learned of the high degree of dependability which may be secured by America's automotive products. In the last twenty years over \$1,250,000,000 worth of automobiles have left our shores for Persia, Iceland, England, Australia, Samoa and countless other far distant countries.

So keen has been the demand for American automobiles that Europe, in the first nine months of 1920, bought over fifty million dollars worth of cars, as against half that amount the preceding year.

Great Britain alone paid American manufacturers over \$27,000,000 in 1920, as against \$5,000,000 in the same months of 1919.

Those who talk of the saturation point in the automobile industry have no conception of the vast undeveloped territories of the world.

James Goff, assistant division manager of the Overland Motor company, with headquarters at Kansas City, is expected to make a business visit to the Overland agency here the early part of this week.

### WITH THE AUTO DEALERS

A carload of classy single six Packard roadsters is expected early this week by the Williams-Thompson company. The shipment left Detroit factory over a week ago, according to reports received here, and should be available for local display shortly.

Sid Gaines of the Gaines Motor company is highly elated over the success of his efforts in rebuilding two Republic trucks. "The machines are on display in the salesroom and call for five or six looks, more or less, to determine whether they are new ones or not. 'And they're gunnin' fools,' says Sid.

The Holmes Sales and Service station reports the sale of a new Holmes touring car to a local purchaser this week.

Used and second-hand cars are in big demand, according to the managers of the Dean Motor company, exclusive dealers in these machines. Several sales were reported during the week.

The Dixon Motor company, local agents for the Buick machine, is disposing of cars every day of the week, and will continue to sell them as long as gas to make them so can be bought, begged or stolen. Two machines were delivered Thursday and at least one was sold every other day of the week.

A large extension to the used parts department of the Marshall-Huff Motor company has been added, according to D. H. Rubsam, boss of the

the Gaines Motor company in this city is progressing in great shape, according to Sid Gaines. Business is good down there, so reports state.

The Packard repair department of the Williams-Thompson company is about swamped with business. This doesn't mean that the Packard demands more repairs but that Packard owners are learning of the excellent

service given and are having their cars put in the best of shape.

W. J. Daugherty and S. G. Hawkins of the Overland Motor company spent several days in Bowie last week on business.

The Motor Supply company, local agents for a popular brand of machines whose name begins with P and

ends with d, have added another noisy red service car to their large fleet.

Two Haynes machines were sold by the Nolen-Stringer company last week. The same concern also reports that business prospects for the coming months are exceedingly bright.

A carload of Oakland machines is expected within the next few days by the Marshall Huff Motor company, according to Manager Rubsam.

## HUDSON

### Consider Its Low Cost

INSTINCTIVELY you group Hudson with the few cars men consider really great. But do you take note of its lower price?

Not one but scores of official records give Hudson its reputation. For five years it has been the largest selling fine car. More than 100,000 owners regard it, not as a lower priced automobile but as a superior performing car of unquestioned reliability.

There is little in the qualities of any costlier car that make it as desirable. There is a price advantage in Hudson not met in any car of its quality.

### EXPENSE ITEM IS SMALL COMPARED WITH THE PLEASURE

The manager of one of the nation's largest automobile plants was discussing the business with a friend one day and in the course of their conversation the matter of expense in connection with the owning of a machine was brought up. The executive's friend argued that an automobile was expensive, so much so that in many cases owning one was a losing proposition.

Here is what the auto man had to say in regard to that:

"The automobile is the realization of one of humanity's fondest dreams. It has given to the people the next best thing to a pair of wings. It has proved to the world that it costs more to walk than to ride.

"This argument of expense put forward against the motor car is a foolish one. It doesn't hold water at all. A cash outlay ceased to be an expense when the benefits of use are worth more than the price paid to bring them about.

"There are always two sides to this matter of expense.

"One is expense of ownership and the other expense of getting along without.

"People who need a thing pay for it whether they buy it or not. They pay for it in forfeits. There are many people in the world who are downright extravagant by attempting to be too economical. They don't know how to figure profit and loss as applied to every day living. They don't stop to think of both sides of the economy question.

"The automobile helps a man to get the most out of life. If time is worth anything to him, it puts more minutes in an hour—it makes the day longer—it enables him to get more out of the day.

"Life is made out of time. Time and life mean the same thing, and the automobile, through the saving of time, performs the equivalent of presenting the user with the gift of more life."

There is no reason why anyone should hesitate to open a savings account with a small amount. The City National Bank of Commerce cordially welcomes deposits of \$1 and upwards and pays 4 per cent compound interest.

### KNOWLEDGE FOR CAR OWNERS

Interesting and Important Facts That Every Motorist Should Know.

Soft water should always be used in the cooling system.

Chewing gum may sometimes be used in an emergency to cover a leak.

Expert attention should be given to the adjustment of the carburetors to avoid too rich a mixture.

When you are able to move the fan blades too freely, it indicates that they are too loose.

The best way to clean the muffler is to dismantle it and clean the parts separately.

A pungent odor, accompanied with black smoke from the exhaust, denotes a rich mixture. To correct this adjust the amount of gasoline or air.

To test lost of compression, crank the engine by hand and note the resistance of each cylinder. If one cylinder has less resistance than the others, it should be corrected at once.

In gravity and vacuum feed gasoline systems there is a vent in the tank around the filler cap which is likely to cause engine trouble if not inspected occasionally and a wire run through it to make sure it is open.

Loss of power is not the only trouble caused by leaking valves. The hot flame that escapes past the valves distempers the valve stem, softens the valve springs, corrodes stem bearing and forms a sediment that prevents free action.

When placing a touring car in "dead storage," the top should be extended with just enough tension to bring it up taut. The curtains should be hung in place and allowed to drop full length, so that the creases in the material and

the rolls to the celluloid may naturally straighten out.

A blow torch, tap drill and file are all the tools a car owner needs to mend a cracked water jacket at home. Drill a small hole in each end of the crack and tap for a small copper plug. File the surface near the crack until the metal is bright. Cover with small copper filings and melt in with a blow torch, using a flux of rosin dissolved in alcohol.

Noise coming from the hub indicates trouble in the wheel bearings. Unless promptly attended to a burned up wheel bearing may result, and there is danger of what drivers call a "hot box," which is likely to lock the wheel on the axle and burn the axle in half, permitting the wheel to roll off.

In replacing a bearing on a front wheel spindle on which it is a tight fit, many owners slip the bearing onto the taper end of the spindle and then put on the wheel and use it as a hammer to drive the bearing home. This is a great mistake. The bearing is likely to be injured, particularly is the hardened shoulder of the inner race likely to be broken, as it is intended for wear and not for sudden shocks of this kind.

To avoid trouble with electric wires, it is well to inclose them at the points where they are held to the iron frame with rubber tubing. The tubing may be split to admit the wire and then be clamped to the frame.

It sometimes happens that the plunger spindle for the carburetor, in its operation forms a vacuum in the plunger guide as the valve is closing. This condition causes a leak which is remedied by drilling a tiny hole in the cap over the check valve.

### INCREASED DEMAND FOR AUTOMOBILES EXPECTED

Indications that there will be an increased demand for automobiles in all parts of the country this spring are given in bulletins received the past week by L. L. Dixon, manager of the Buick agency in this city. The reports made to the local man by the Buick sales department at Flint, Mich., show that the call for new spring cars is already being made from the large eastern markets, and that this means a corresponding demand from other sections of the country in the near future.

Messages received from the New York distributors of the Buick state that 1,650 new machines will be needed before April first, and of this number 450 will be required for retail trade alone. Urgent requests were made for immediate shipments of new machines.

This condition in the eastern portion of the country is an indication of what may be expected from other sections, according to automobile men, and since the early spring demand is larger than usual it seems that the call for new cars over the entire United States will be of corresponding proportions.

### Trail Once Strewn With Skulls Holds Many Auto Parts

Frank R. Adams, famous author, playwright, traveler and soldier, recently completed a motor tour from Whitehall, Mich., to Santa Barbara, Cal., and it proved so interesting that he could not restrain himself from writing a letter a hour. His letter is directed to Ray Long, editor of Cosmopolitan, in which his fascinating short stories are now appearing. He writes: "Once fifteen years ago when I followed the Santa Fe trail on horseback, the principal objects of interest adjacent to the beaten track were the skulls, vertebrae, ribs and other parts of cattle. Now after traveling the same ground by motor, my principal memory is of almost equally numerous abandoned automobiles, some buried, some overturned, others smashed and looted. There must be a story in each one.

"Was warned all along the line to beware of bandits, but no one tried to rob me of my ten dollars. Probably all the professions are selling oil stock in the new boom territory.

"If your Americanian waffles the least bit, the medicine is a trip from coast to coast by automobile. In no other way can you realize the tremendous extent of the land you own—its breadth, its height, and the depth of its mud especially in Oklahoma. Also advise crossing Florida Pass. New Mexico by winter moonlight. If you don't sin you will carry away a lasting thrill.

"Was uniformly impressed by efficiency and courtesy of western garage men. Am in favor of a movement to deport some of them to some eastern cities I could name.

"It was a luxuriously upholstered, high-powered four-cylinder Dodge Brothers' open faced caboose as did the truck. No repairs, no adjustments, almost no gasoline. Kept perfect time all the way. Short wheelbase, handy in mountain passes. Car would meet itself on some of the turns.

"Mr. Adams leaped into fame several years ago as author of 'The Time, the Place and the Girl,' 'A Stubborn Cinderella' and other musical comedies. One of his songs, 'I Wonder Who's Kissing Her Now?' is probably known by nearly everybody in the world.

### Hypnotist Here Recently Buys a Hudson Roadster

Among other names on last week's sales sheets of the Lloyd Weaver company is listed that of A. S. Alburta, 321 State street, Chicago, who is credited with having purchased a new Hudson roadster.

Investigations developed that the bigger was none other than the famous Alburta who performed mystical stunts of hypnotism and other occult sciences on the stage of the Wichita theater, and that the machine which he acquired was an attractive special built roadster. According to officials of the Weaver company, Alburta was struck with the appearance of the car a short time after it had been placed on the floor, and this attraction grew until he finally walked into the sales room, plunked down a stack of iron men and got a key to the roadster in return.

The machine really was an exceptional one, being finished in a flaming red, with bright trimmings and many accessories. It was built on low, racy lines and gave every appearance of being more than an ordinary automobile. Alburta ordered his name printed in large gold letters across the sides, and after this was accomplished he drove his new acquisition to Lubbock, Texas, where he opened a week's stand at a local theater.

### FINE WORKMANSHIP A FEATURE OF THE CADILLAC

One of the underlying reasons for the dependability of the Cadillac is the wonderful accuracy and precision which is rigidly observed in machining and finishing its important parts, according to George H. Layne, vice-president of the Cadillac Motor Car company, in charge of manufacturing.

"As indicative of the care exercised in building the Cadillac," says Mr. Layne, "72 hours are actually spent in inspecting each individual Cadillac.

"To put it another way, it would require one man working nine hours per day for eight days to carry out the inspection to which every Cadillac is subjected.

"And this is but a part of the accurate manufacturing which goes to build dependability in our cars.

"There are more than 1,000 dimensions in the Cadillac which are not allowed to vary more than one thousandth of an inch. More than 300 dimensions are held to five ten-thousandths of an inch.

"Among these dimensions are piston, five ten-thousandths; piston pin, three ten-thousandths; two connecting rod bearings, five ten-thousandths (in the piston assembly there are 56 dimensions held below five ten-thousandths of an inch); valve stem, five ten-thousandths; cam slide, five ten-thousandths; shaft for rocker arm, five ten-thousandths (in the valve assembly there are 48 dimensions accurate to five ten-thousandths of an inch); liners between engine base and main bearings, five ten-thousandths; fan shaft bearing, five ten-thousandths; air pump piston, five ten-thousandths; two dimensions of the gasoline inlet needle, five ten-thousandths; clutch connection bearing surface, five ten-

### REPORT FORT WORTH ROAD IN FAIR CONDITION AFTER PASSING THROUGH HENRIETTA

Messrs. Weaver and King of the King & Weaver Automobile Co. made a special trip to Fort Worth last Tuesday for the purpose of driving back two Nash roadsters. They report the roads in fair condition except between Henrietta and Wichita Falls, some difficulty being expected over this stretch. Sales reported for the week by King & Weaver were one Nash "Four" touring car, one Nash "Six" roadster, and one Nash five-passenger touring car.

In speaking of the ability of the Nash factory to keep abreast of the demand for cars, Mr. Weaver cited the fact that the Nash Automobile Co. factory covers 101 acres, there being thirty-three acres under a single roof. The Nash company employs more than five thousand skilled mechanics, he said, and some of these mechanics came to the factory from the tool shops of England more than twenty years ago. The factory has fourteen hundred productive machines, making it one of the best equipped automobile manufacturing plants in the world.

**FRANKLIN CARS NOW  
OCCUPY HIGH PLACES**  
The closing months of 1920 and the early part of 1921 witnessed a strong demand for the Franklin car. Franklin manufacturers announced

that in the last quarter of 1920 the Franklin's rank among American motor car manufacturers (including Ford) rose from nineteenth to seventh in value of sales, and from twenty-first to tenth in number of cars produced. December 1920 was the biggest month in Franklin history—2,061

cars having been ordered from Franklin dealers by customers. In January, demand was 15 per cent in excess of production. On February 1 unfilled orders totaled 426, against a production for the month of 314. By February 1, 72 per cent of this number had already been sold.

### ORDER PUTS DAMPER ON A HIGH-POWERED DUNCAN, OKLA. BOOM

#### FEELING THE EFFECTS OF RECENT RULE OF MID-CONTINENT ASSOCIATION.

#### NUMBER OF IMPORTANT DEALS HAVE BEEN MADE

#### Leases Remain Active And Many Men With Big Money Have Arrived During Week.

DUNCAN, OKLA., Feb. 26.—Just as Duncan was entering a high-powered oil boom came the order of the Mid-continent Oil and Gas association suspending drilling operations in this district temporarily.

The order calls upon all operators to cease activity in new territory altogether. They are permitted to drill offset wells and also drill in the areas where it is necessary to protect leases. A provision is carried that where an operator drills a well in violation of these orders, those holding offset acreage may drill and have their production connected with the pipe line but the original driller cannot be connected with the pipe line.

The order applies to all the Duncan district, and in the opinion of leading operators will be in effect for practically sixty days.

The Duncan district in the past thirty days has led all mid-continent territory in new production. The heavy drilling campaign here, association executives say, has been the thorn in their side, and the salutary action has been taken only as a last resort to slow down production against the coming of normal times.

Leases Are Active. Notwithstanding the shut-down order, leases remain active throughout the territory, and it is believed that big money has come here during this week than ever before in the history of the fields.

Perhaps the most important deal has been that by which the Dainger Oil and Refining company has taken over the Fiddler Oil company's holdings for a consideration in the neighborhood of \$200,000. This property is located in the vicinity of 25-14-30, where Parsons & Gant recently completed one of the largest wells in Stephens county in strictly wildcat territory.

The Dainger interests are moving a number of rigs here from the Wichita Falls district and will begin an active drilling campaign as quickly as the shut-down order is rescinded.

Eighty acres in section 5-14-30 was sold this week to Earl S. Sinclair and C. J. Wrightman of Tulsa. Forty thousand dollars was paid in cash and \$20,000 is to be paid in oil from the acreage. Sinclair and Wrightman were here with a number of Tulsa operators in a private car and several other large deals are expected to result.

Cleaned With Healdies. The Magnolia Petroleum company this week posted a notice placing the Healdton valley district on a parity with Healdton crude and announcing a new price of \$1 for this oil. This order affects only a small portion of the county's production, the remainder bringing mid-continent high gravity oil prices.

The city of Duncan itself is growing at a pace never before recorded in its history. The shut-down order has failed to slow building and more than \$1,500,000 worth is now projected here for the next few months.

A day and night crew is working on repairs to one Main street building, and contracts have been let for several others. Free mail delivery was also inaugurated this week.

Because of heavy rains and snow there were no completions during the week in any of the territory.

### THIRD INTEREST IN BARR-DAVIS COMPANY SOLD FOR \$104,000

#### By H. A. STROUD

ELECTRA, TEXAS, Feb. 26.—It was announced this week that F. Davis had sold his interest in the Barr-Davis Oil company, the consideration being \$104,000. Davis owned one-third of the stock and received \$20,000 more for his interest than the company was originally capitalized for. Other stockholders of the company bought his stock.

The Barr-Davis Oil company was organized April 12, 1920, with a capital stock of \$75,000 and took over a 20-acre lease from the Agenda Oil company. The Agenda company had drilled a well which showed up for a producer but were unable to complete it on account of water. The Barr-Davis company drilled another well, which was the discovery well of the Gladiolus district. From the production of this well the company branched out and drilled more wells and now have eight producing wells.

### REPRESENTATIVE OF THE COMMISSION IS LOCATED AT ELECTRA

#### ELECTRA, TEXAS, Feb. 26.—W. F. Arnold of Austin has been appointed as a representative of the railroad commission to handle their business in this city. He will have the supervision of the oil conservation program for a large district surrounding this city, including the Electra pool, Iowa Park, north extension, Kemp Munger Allen, Sunshine Hill, Ramming pool, Mattie Parker sub-division, the south field and his authority will extend as far west as the New Mexico state line.

Mr. Arnold arrived in the late part of the week and immediately started in on his duties. He established his office with the local chamber of commerce.

The service offered by the commission is designed to be of benefit to the oil operators of the vicinity. Mr. Arnold stated that it was his purpose to render them every assistance possible in the drilling in their wells and expected to make an extensive study of salt water conditions in the field. Salt water often works into old productive districts and ultimately ruins the production and this condition has already started in some sections of the old Electra pool. Having made a study of these conditions for several years it is his belief that the spread of the water can be stopped and the production of oil increased.

The representative of the railroad commission in the field will eliminate much correspondence and red tape and in this respect will be a saving of time and trouble to the fraternity.

### SOUTH ELECTRA FIELD IS SCENE OF UNUSUAL DRILLING ACTIVITIES

#### By H. A. STROUD

ELECTRA, TEXAS, Feb. 26.—Many successful completions in the south Electra field have led to renewed activities and drilling is picking up with a number of new locations announced. The Gladiolus Oil company will soon have five strings of tools running on their lease and have announced locations for their wells Nos. 21 and 22. Seventeen, 18, 19 and 20 are drilling at various stages and No. 21 was started as soon as they can get a rig moved. The Barr-Davis Oil company is drilling No. 3, but will start two more rigs to go in the next few days.

The Bryan Oil Corporation No. 4 is drilling at 1100 feet. The Gulf Production company has made a location for their No. 4 Melton. Winkworth & Harris now have their No. 1 on the pump, making about 90 barrels a day and have a location for their No. 2. Burnett. The Texas Interstate Oil company is rigging up their No. 5 Burnett to offset Winkworth & Harris' No. 1. Sam Kruger #1 also has a sand at 720 feet and are setting casing to test it out. Henry Hobbs' No. 1 Burnett is erecting a derrick.

Fisher & Gilliland have a completion in their No. 3 Fisher, section 15, in the 940 foot sand, which is showing up for about 100 barrels. This is an extension of about a half mile for other the 950 or 1400 foot sands and will have a bearing upon the development of that section of the country.

Two dry holes were reported on Sunshine Hill, both in less than 50 feet of producing wells. One was drilled by Stidham, Thrasher and Miller and the other by Hughes and Buchanan.

### WASHINGTON LUMBER MEN BUY LEASE NEAR ELECTRA

#### ELECTRA, TEXAS, Feb. 26.—A party of business men, composed of A. L. McKee, Delbert Castle, Chas. F. Wright and H. C. Largent, from Aberdeen, Washington, closed a deal here this week for the purchase of a forty-acre lease and three producing wells. The property is located two miles east of Electra and is a portion of the J. E. Duke tract.

These men represented the interests of a number of lumber jacks in the Washington woods who are desirous of getting in the oil business. A company is being formed in Aberdeen and the lease will be fully developed in the spring.

### TWO YOUTHS ARE GIVEN SENTENCES IN VERNON COURT

#### CHARGED WITH ROBBERIES COMMITTED IN THE COUNTY LAST OCTOBER.

#### BOYS ARE ARRESTED IN WICHITA FALLS OCTOBER 30

#### Defendants Are Reported To Have Entered a Plea Of Guilty To Charges.

VERNON, TEXAS, Feb. 26.—Hope Nicely, 19 years old, and Jim Dye, alias W. H. Hill, 20 years old, were sentenced in the district court here to four and two years, respectively, in the state penitentiary for alleged participation in several robberies in Wilbarger county the latter part of October. Both men pleaded guilty. They will be taken to various other points in Texas to stand trial for alleged depositions, according to the sheriff.

The boys were taken into custody in Wichita Falls October 20 after the Herring-Showers store here, the Stalup grocery store at Oklaunion, and the Wilson drug store at Harrold had been robbed several nights before. Police found in their possession many of the articles taken from the county establishments. Dye from the first vehemently protected his innocence, and both boys defended their own cases in court. Nicely pleaded guilty to the charge against him, and was immediately sentenced. Dye swore on the witness stand that he was in Wichita Falls the night of the robbery. Evidence submitted, however, was such that Thursday morning he admitted his participation in the robberies.

#### POLL TAX PAYMENTS IN WILBARGER COUNTY 2011

#### VERNON, TEXAS, Feb. 26.—Two

thousand and eleven poll taxes were paid in Wilbarger county, according to the treasurer's office. Of this \$2,975.50 went to the state, and \$927.75 went to the county. Five hundred fifty-four poll taxes were paid in the city.

#### RURAL SCHOOLS INSPECTOR WORKING IN WILBARGER

VERNON, TEXAS, Feb. 26.—Miss George Walker, state inspector of rural schools, is inspecting the 31 institutions in the county applying for state aid. County schools have been preparing for some time to pass the rigid examination required to be passed in order to gain advantage of the state funds.

#### COMPLETION OF PYRAMID WELL FURTHER DELAYED

VERNON, TEXAS, Feb. 26.—Excitement over reported developments at the Pyramid well yesterday caused numbers of local citizens to hurry to the field south of town only to find that the anticipated "coming in" was still delayed. "According to information given out this morning at the Sigler office drillers were engaged Tuesday in washing out the well. Toward evening the pump at the well was put out of commission, and consequently work was suspended until repairs could be made.

The pilgrimage yesterday was in anticipation of the heralded "show down," but it is thought that this may develop instead today.

#### PARENT-TEACHER TO HAVE TAG DAY ON MARCH 4

VERNON, TEXAS, Feb. 26.—The local Parent-Teacher association will conduct a tag day March 4 for the purpose of raising funds with which to beautify the school grounds of the city, and make needed improvements around the festival board. This change of date was made because of the unavoidable absence from Vernon of a number of former students, and the presence of court work on many who are in town.

Preparations are being made for 40 places here. An elaborate banquet will be served, after which if it is planned to perfect a local alumni organization.

#### UNIVERSITY STUDENTS TO BANQUET ON MARCH 3

VERNON, TEXAS, Feb. 26.—Former students of the University of Texas will banquet March 31 instead of March 2, the date on which "Texas Exes" all over the state and in many adjoining commonwealths gather around the festival board. This change of date was made because of the unavoidable absence from Vernon of a number of former students, and the presence of court work on many who are in town.

Preparations are being made for 40 places here. An elaborate banquet will be served, after which if it is planned to perfect a local alumni organization.

Are You Weak, Worn or Worried? Is Your Blood Thin and Watery

so that it makes you nervous, sleepless or easily fatigued? Don't wait until you collapse but commence to fortify your starving blood with iron today. How to do it.

If you are undergoing STRAIN, STRESS OR TROUBLE, don't forget that it is probably sapping the iron from your blood and that your RED BLOOD CORPUSCLES are likely DYING BY THE MILLIONS.

WHEN YOU FEEL THE FIRST WARNING SYMPTOMS—when you commence to lose your strength or vitality, don't sleep well at night are highly nervous or irritable, get the "blues" really, when your eyes begin to lose their luster or brilliancy and the lids are pale inside (a most important symptom) then is the time you should act, and not wait until you go down in a state of complete nervous prostration or physical collapse.

A New York physician says that MORE THAN ONE-HALF THE POPULATION OF AMERICA PERISHES BEFORE MIDDLE AGE; and that one of the chief contributory causes of this terrible waste of human life is the devastating weakness brought on by lack of iron in the blood.

THERE ARE 100,000,000,000 RED BLOOD CORPUSCLES IN YOUR BLOOD AND EACH ONE MUST HAVE IRON. When your blood is starving for iron no more toxic nor stimulant can be put you right. You must have iron. To get iron you must take the husks of grains and the peels and skins of fruits and vegetables as our forefathers did or take a little organic iron from time to time and eat more such iron-containing foods as spinach and apples. But to insure the iron you take, take NUXATED IRON and not metallic or mineral iron which people usually take. Metallic iron is just what it comes from the action of strong acids on small pieces of iron and is therefore an entirely different substance from organic iron like the iron in spinach, lentils and apples. It may be had from your druggist under the name of Nuxated Iron.

Nuxated Iron represents organic iron in such a highly condensed form that one dose of it is estimated to be approximately equivalent (in organic iron content) to eating half a quart of spinach, one quart of green vegetables or half a dozen apples. It's like taking extract of beef instead of eating pounds of meat.

If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained.

Over 4,000,000 people annually are using NUXATED IRON. It will not injure the teeth nor disturb the stomach. Organic iron like the iron in spinach, lentils and apples. It may be had from your druggist under the name of Nuxated Iron.

Be aware of substitutes. Always look for the word NUXATED on every package and the letters N. I. on every tablet. Sold by all druggists.

### GRAHAM WILL HAVE CITY MAIL DELIVERY BEGINNING MONDAY

ROCK ISLAND INAUGURATES A REGULAR OIL SPECIAL FOR SUNDAYS.

GRADING ON SOUTHERN MOVING WITHOUT HITCH

Revival in Building Activity Is Noted in Developments Of The Past Week.

Special to The Times. GRAHAM, TEXAS, Feb. 26.—The directors of the chamber of commerce scored another achievement when it announced that Postmaster N. S. Farmer had been authorized by the post office department to establish city mail delivery Monday.

Realizing the need for a city mail delivery in Graham, the chamber of commerce got in behind the movement a few days ago and finally succeeded in having this service inaugurated. This is considered another step forward for the city.

When questioned as to when the delivery would be started, how many carriers would be employed and what sections of the city would be affected, Postmaster Farmer said, "I do not know."

However, it is thought that the chamber of commerce, having succeeded in securing authorization for its establishment, will assist in having the service started as soon as possible.

Special Oil Treats. Beginning Sunday the Rock Island will start running an oil special on Sundays between Fort Worth and Graham, according to a letter received by Milton McConnell, secretary of the chamber of commerce, from John G. Farmer, general passenger agent of the road.

The road will also improve its passenger service by putting on what is known as the "500 class" coach. This car has a seating capacity of 52 persons and is expected to aid much to the comfort and convenience of travelers.

This action of the road follows a request for better service made by the chamber of commerce. In his letter to Mr. McConnell, the general passenger agent said officials of the Rock Island were desirous of co-operating with the people of Graham in every respect for the mutual welfare of the city.

The Sunday oil special will be a great help to all men and others residing at South Bend, Ellettsville and Ivan.

Grading work on the Wichita Falls & Southern, both in the local yards and on the main line, is moving along without a hitch. It is announced at the office of Chief Engineer McFarland.

Work of building the local yards will be rushed through to completion as soon as possible in order to care for the large amount of materials the road will receive here, as well as to accommodate industrial concerns wishing to locate along the tracks.

New Building Activity. Building operations temporarily halted by extremely bad weather during the latter part of last week, have

been spurred to new activity this week. The Waples-Platter Grocer company of Fort Worth has completed the foundation for a new warehouse which will be located just south of the Goodner people, near the light plant. The building will be rushed to completion as soon as possible.

The finishing touches are now being put to the Lynch building on the east side of the square. The outside work already has been completed and the floors are now being concreted and the walls plastered. The building, which covers a space of 53x94, will cost about \$40,000. It has been under construction since early in January.

The brick and tile building of the Coca Cola Bottling company, located near the depot, is nearing completion. Work on the structure was started early last week.

There are several residence and frame buildings under construction in various parts of the city. These buildings are going up with such rapidity that it is almost impossible to keep check on them.

Early Wichitan Was One Time Member Gang of Henry Starr

Henry Starr, Oklahoma bandit, who died last week as a result of wounds received in an attempt bank robbery, once had as a member of his gang a resident of Wichita Falls, according to old-timers here.

Ben Christian, member of one of this county's earliest families, joined Starr in the early nineties, according to J. B. Marlow, and participated in numerous escapades of the Starr gang. He was eventually sent to prison, served a term, and then moved to Arizona, where it is believed he still resides.

Starr himself was never here, so far as known.

J. B. Marlow says that Christian got into trouble several times here, stealing some oats from Mr. Marlow himself, for one thing; with a prison sentence facing him, he made his escape and when next heard from was in Starr's retinue.

Speaking of bandits, today is the 25th anniversary of the death of two who appeared in Wichita Falls, "the kid" and Foster Crawford. On February 25, 1896, these two robbed the City National bank, then at the corner of Seventh and Ohio, killed the cashier, Frank Dorsey, and inflicted a painful flesh wound upon P. P. Langford, then assistant cashier. They were captured two days later, February 27, and after being jailed, were taken out by a mob and hanged to a telephone pole near the bank.

The gangsters with which "the kid" supposed to be only about 20 years old, met his fate, for many years made his nickname a synonym for pluckiness and coolness in this region. "The kid" had been a member of Al Jennings' notorious crew previous to his stunt here.

WASHINGTON, AND THE STAGE COACH DAYS Our forefathers used the Ox-Cart and rode in the Stage Coach and selected their glasses themselves, if they had any. They did it because, there was no other way and yet, there are some persons who hold that because some of their ancestors did not use glasses, that such things are unnecessary, and let some of these same people use automobiles and electric lights, and some of their lives lightning rods. Today the Ox-Cart and Stage Coach are curiosities, and the Science of Fitting Glasses has more than kept up with modern advancement.
