ALTUS MAN KILLED FIVE ARE INJURED

Automobile Plunges Down Embankment 200 Feet High Near Plainview.

PLAINVIEW, TEXAS, May 4.—Earl Thresh of Altus, Okla., was instantly killed yesterday afternoon, his wife, three children and his sister-in-law, Mrs. Susie Thresh, were seriously injured when an automobile plunged down an embankment 200 feet high near here. Late reports from a farm house where the injured members of the party were taken said that Mrs. Susie Thresh could not survive. She suffered a dislocated neck and internal injuries. Others injured are: Mrs. Earl Thresh, badly cut and bruised about face and body; boy, 10, chest and back crushed, serious; girl, 8, shoulder crushed, serious; young girl, minor hurt, will recover. The members of the two families were en route to Hale Center, near here, to visit the home of Earl Thresh, lost control of the car on the high embankment as he attempted to round a curve.

WANT PROTECTIVE DUTY ON HIDES AND VEGETABLE OILS

Special to The Times. WASHINGTON, May 4.—An effort to induce republican members of the ways and means committee in the house, now engaged in drafting the permanent tariff bill, to place protective duties on hides and vegetable oils is being made by southern and western members, headed by Representative Wurzbach of Texas. The movement was started by the southern tariff association, of which John Henry Kirby of Houston is president, and which is urging protective duties on fifty-seven articles of southern production or manufacture. Despite tentative understandings reached last month, it became known today that the bill is being drafted to include the products of peanuts and cotton seed, on the free list, and the republican congressmen from the south have joined forces with western congressmen to compel recognition in the tariff bill for these two sections. Representative Wurzbach is circulating a petition which is being liberally signed by the republican members from the south and west.

NOTHING WRONG WITH AMERICAN GIRL SAYS AN ITALIAN PROFESSOR

WASHINGTON, May 4.—There is nothing wrong with the modern American girl. There is nothing immoral about her short skirts and cigarette smoking. Such is the conclusion of Dr. Bruno Roselli, first Italian exchange professor, now teaching at Yassar college. He came to the defense of the modern American girl in an address to the first American convention of the American Waldensian Aid society here today. "It isn't fair to compare the American girl today with the Abigail and Patience in the New England church yards," Prof. Roselli said. "The Abigail and Patience belong to a day that is dead and gone. I can speak particularly of the young American college girl," Roselli said. "And I can honestly say that I find her a far more satisfactory product than her European sister. She has commendable courage of her convictions and is healthy physically and mentally. Too often the student of continental Europe is a dried-up and embittered girl."

IMPORTATION OF OIL FROM MEXICO DURING PAST YEAR INCREASES 100 PER CENT

WASHINGTON, D. C., May 4.—According to figures compiled by the United States geological survey, the importation of oil from Mexico during the last year has shown an increase of fully 100 per cent. The total importations from Mexico were 104,163,116 barrels. For the first quarter of 1921 importations were 46,725,000 barrels. For the same three months last year the importations were 17,726,191 barrels.

ELIMINATE 106 NAMES OF ALLEGED DRAFT SLACKERS

NEW YORK, May 4.—District Attorney Leroy W. Ross today submitted to Federal Judge Chatfield a list of 106 names of alleged draft slackers, whose indictments are to be quashed. Ross stated it had been found that the names of these men had been put on the draft slacker list by mistake. Many of them were actually in the army or navy service by enlistment at the time they were supposed to fill out questionnaires. Ross' action today was taken by direction of Attorney General Daugherty.

CHILLICOTHE VOTES BONDS FOR SEWER AND WATERWORKS

CHILLICOTHE, TEXAS, May 4.—Chillicothe voted sewer and waterworks bonds Tuesday to the amount of \$118,000. The vote was 118 for and 55 against.

DENISON NEGRESS DIES AT AGE OF 105 YEARS

DENISON, TEXAS, May 4.—"Aunt" Jess Smith, negress, Denison's oldest resident, died here today at the age of 105. She had been a slave.

CHARGES WAGES CUT TWENTY AND PRICES REDUCED SEVEN

CINCINNATI, OHIO, May 4.—It appears to be the usual post-office operation to reduce wages of employees 20 per cent and give patrons buying their product the benefit of a 7 per cent reduction. This was the comment of Emmet L. Adams, general organizer of the American Federation of Labor here today, for a meeting of the executive council of the federation, discussing the 20 per cent wage cut, announced by the United States Steel corporation. "This financial policy," Adams said, "accounts for the tremendous profits piled up during their years of operation. An aggressive nationwide movement to bring the membership of the American Federation of Labor up to 5,000,000 workers is labor's answer to the campaign to reduce wages and establish the open shop, members of the federation executive council said today. The wage cut by the United States Steel corporation was to be one of the first subjects to be discussed at the meeting.

You Can Buy Color, But Legs, No, Says A Chicago Actress

CHICAGO, May 4.—Short skirts and bright legs make a popular combination. So Mrs. Edna Hodges, wife of Jimmy Hodges and prima donna in her husband's musical company, is having her legs stretched. Her legs were broken by Dr. Max Thorsak at the American hospital here. For six weeks Mrs. Hodges will be forced to stay in bed and another six weeks will be spent on a wheel chair. Mrs. Rebecca Newcomer of Williamsport, Pa., mother of the patient, was with her daughter during the operation. Hodges is in Norfolk, Va. "I am going to give my husband the surprise of his life when I get out of bed," she said. "I am going to get my picture taken in a one piece bathing suit."

ABANDON HOPE FOR A SPEEDY RELEASE OF LINER TIED UP BY A BOYCOTT

BUENOS AIRES, May 4.—Hope for the speedy release of the Munson liner Martha Washington, which has been tied up here by a boycott of dock workers for more than a month, dwindled last night when it became known that two proposed solutions of the question have been disapproved by authorities at the state department in Washington.

The proposals had the support of a substantial body of Argentine, American and other foreign business interests. One was suggested by European steamship lines and would have brought about joint action between them and the United States shipping board, owner of the Martha Washington, in threatening to boycott the port of Buenos Aires unless the Argentine government took some action to relieve steamers from alleged unwarranted impositions by the port workers union. The other offer was made to the Munson line to the Buenos Aires Labor Protective association, an important organization of employers, which proposed to supply non-union labor, which under army protection, would unload the boycotted steamships. Either of these would have been satisfactory and both were strongly recommended to the state department by American government representatives here. They also were favored by the United States chamber of commerce.

GREAT BRITAIN PLANS TO EXTEND DAYLIGHT SAVINGS

LONDON, May 3.—The extension of daylight savings in Great Britain to two hours instead of one hour, as at present, is forehadowed in an announcement in the London Gazette this evening. The announcement says the secretary for home affairs has authorized the advancing of the clock two hours over Greenwich time. The order for setting the clocks forward has not been issued but is expected as a measure for coal conservation, as a result of the mine strike.

THREE REPORTED KILLED IN WRECK IN OKLAHOMA

TULSA, OKLA., May 4.—Three persons are reported to have been killed in a train wreck near Afton, Okla., at 8:30 o'clock this morning.

SUFFERING OF A LIFETIME ENDED

Words Can't Express Gratitude I Feel Toward Tanlac. Says Mrs. Burrington

"From childhood until I got Tanlac, I suffered from indigestion and stomach trouble," Mrs. J. A. Burrington, 44 Stanford Ave., Los Angeles, Calif., said.

MRS. J. A. BURRINGTON
Los Angeles, Calif.

That's been a long time, for I'm now in my sixty-eighth year. "I remember when I was a child I was kept on a strict diet of lime water and milk for weeks and I have been in constant distress all these years. I suffered terribly from bloating and had to be very careful of what I ate. I became so weak and nervous I could hardly go about my household work and was in a miserable condition. "About two years ago my husband got such splendid results from Tanlac he insisted on my taking it and the medicine wasn't but a little while in riding me of my trouble. It gave me a splendid appetite and I could enjoy a good hearty meal, even things I hadn't dared touch before, without any fear of it troubling me. "Then I had the influenza and he came dreadfully sick and weak, but my stomach kept in good order and it only took four bottles of Tanlac to build me up again to where I'm now feeling better than at any time I can remember. I have gained eleven pounds in weight, my appetite is good, my nerves are normal, I feel toward Tanlac. I keep Tanlac in the house all the time now, for I know it is a medicine that can be depended upon. "Tanlac is sold in Wichita Falls by Miller Drug Store, in El Centro by Terrell Drug Store, in West End by Dyer Co., in Burbank by Texas and by all leading druggists.—(Adv.)

COMPETITION IS KEEN IN PARIS THEATRICAL CIRCLES

PARIS, May 4.—Dramatic critics were offered midnight supper and beds at the Theater Montaigne recently so that they might, at their ease, write their criticisms in time for the morning papers and avoid the inconveniences of early morning trips to their homes. Most of the 44 beds installed in the theater were occupied. The hospitality was in competition with that of another manager who hurriedly improvised a ball, with dances by popular actresses, in the foyer, when the star of the evening fainted and was unable to continue the "first night" performance. By the time the ball was well started, the manager had brought in supper for a theater full of people and the party brought the production more publicity than ever had been given by a successful production.

SEVERAL HUNDRED BALES OF COTTON ARE BURNED

SHAWNEE, OKLA., May 4.—Fire which destroyed the Osage cottonseed oil mill last night, caused property damage of more than \$200,000, it was estimated today. Several hundred bales of cotton were burned. The cause of the blaze has not been determined.

SUTTON P. O. INSPECTOR TEXAS AND LOUISIANA

WASHINGTON, May 4.—George M. Sutton, recently relieved as chief post-office inspector, has been assigned as inspector in charge at Austin, Texas.

MEXICO GETTING NEARER TO PROHIBITION PROGRAM

BROWNSVILLE, TEXAS, May 4.—Mexico's getting nearer the camel gradually. The governor of the state of Tamaulipas has issued orders closing saloons from Friday morning until Monday morning effective this week. Saloons have been closing Saturday mornings until Monday.

CHANGE OF WAGE WORKERS TO A PIECE WORK BASIS

ROCHESTER, N. Y., May 4.—Change of wage workers to a piece work basis was decreed for Rochester clothing factories affiliated with the Rochester Clothiers Exchange today by Dr. William M. Laiserson, the chairman paid by the manufacturers and Amalgamated Clothing Workers of America to decide matters in dispute between them. The manufacturers had sought a reduction of 25 per cent, alleging the necessity of lowering production costs to increase business. The employees had opposed any reduction, alleging that unemployment and slack work had reduced their earnings below an adequate living standard.

THE ADVENTURE OF THE GOLDEN PINCE-NEZ

By A. CONAN DOYLE
Copyright, 1921, by Harper Bros. Published by special arrangement with The McClure Newspaper Syndicate.

The story thus far:
One wild and stormy night in November Sherlock Holmes and Dr. Watson were surprised by a visit from Stanley Hopkins, a promising detective whom Holmes had helped on several occasions. He was puzzled by a case down in Kent, a country house down there. Yoxley Old Place was taken some years before by an old man, Professor Coram, who was an invalid keeping his bed half the time. He was writing a learned book, and a year before had found a secretary necessary. The first two he tried were not satisfactory, but the third, Mr. Willoughby Smith, was just what his employer wanted. That morning, between eleven and twelve, Susan, the housemaid, heard a terrible cry and a heavy thud in the study. Rushing in, she found Mr. Willoughby Smith lying on the floor wounded in the neck by a small sealing wax knife from the desk. He gasped, "The Professor—it was she," and died. The Professor, sitting in bed was terribly agitated when the housekeeper told him of the tragedy, but could not explain the strange words. Hopkins showed Sherlock Holmes a rough plan of the rooms. The study was entered by three doors, one of which was blocked by a bureau, and the room, one of which led to the garden, and one of which led to the professor's room. The study was marked on the narrow grass border to the path that led to the garden door. It could not be told which way the tracks were going as it had rained during the night. The corridor to the study from the garden door was carpeted with matting. In the study was a bureau, with a very short-sighted woman with a puckered forehead, rounded shoulders and a peering expression.

PART THREE
The gale had blown itself out next day, but it was a bitter morning when we started upon our journey. We saw the cold bluster sun rise over the dreary marshes of the Thames and the long, sullen reaches of the river, which I shall never associate with our pursuit of the Andaman Islander in the earlier days of our career. After a long and weary journey, we alighted at a small station some miles from Chatham. While a horse was being put into a trap at the local inn, we snatched a hurried breakfast, and so we were all ready for business when we at last arrived at Yoxley Old Place. A constable met us at the garden gate.
"Well, Wilson, any news?"
"No, nothing, sir. It was she."
"No reports of any stranger seen?"
"No, sir. Down at the station they are certain that no stranger either came or went yesterday."
"Have you had inquiries made at inns and lodgings?"
"Yes, sir; there is no one that we cannot account for."
"Well, it's only a reasonable walk to Chatham. Anyone might stay there or take a train without being observed. This is the garden path of which I spoke, Mr. Holmes. I'll pledge my word there was no mark on it yesterday."
"On which side were the marks on the grass?"
"This side, sir. This narrow margin of grass between the path and the flower-bed. I can't see the traces now, but they were clear to me then."
"Yes, yes; someone has passed along," said Holmes, stooping over the grass border. "Our lady must have picked her steps carefully, must she not, since on the one side she would leave a track on the path, and on the other an even clearer one on the soft bed?"
"Yes, sir, she must have been a cool hand."
"I saw an intent look pass over Holmes' face."
"You say that she must have come back this way?"

"Yes, sir, there is no other."
"On this strip of grass?"
"Certainly, Mr. Holmes."
"Hum! It was a very remarkable performance—very remarkable. Well, I think we have exhausted the path. Let us go farther. This garden door is usually kept open, I suppose? Then this visitor had nothing to do but to walk in. The idea of murder was not in her mind, or she could have provided herself with some sort of weapon, instead of having to pick this knife off the writing table. She advanced along this corridor, leaving no traces upon the coconut matting. Then she found herself in this study. How long was she there? We have no means of judging."
"Not more than a few minutes, sir. I forgot to tell you that Mrs. Marker, the housekeeper, had been in there tidying not very long before—about a quarter of an hour, she says."
"Well, that gives us a limit. Our lady enters this room, and what does she do? She goes over to the writing table. What for? Not for anything in the drawers. If there had been anything worth taking, it would surely have been locked up. No, it was for some thing in that wooden bureau. Hallo! what is that scratch upon the face of it? It looks a match. Watson, why did you not tell me this, Hopkins?"
"The mark which he was examining began upon the brass-work on the right-hand side of the bureau, and extended for about four inches, where it had scratched the varnish from the surface."
"I noticed it, Mr. Holmes, but you'll always find scratches 'round a keyhole."
"This is recent, quite recent. See how the brass shines where it is out. An old scratch would be the same color as the surface. Look at it through my lens. There's the varnish, too, like earth on each side of a furrow. Is Mrs. Marker there?"
"A sad-faced, elderly woman came into the room."
"Did you dust this bureau yesterday morning?"
"Yes, sir."
"Did you notice this scratch?"
"No, sir, I did not."
"I am sure you did not, for a dustier would have swept away these shreds of varnish. Who has the key of this bureau?"
"The professor keeps it on his watch-chain."
"Is it a simple key?"
"No, sir, it is Chubb's key."
"Very good, Mrs. Marker, you can go. Now we are making a little progress. Our lady enters the room, advances to the bureau, and either opens it or tries to do so. While she is thus engaged, young Willoughby Smith enters the room. In her hurry to withdraw the key, she makes this scratch upon the door. He seizes her, and she, snatching up the nearest object, which happens to be this knife, strikes at him in order to make him let go his hold. The blow is a fatal one. He falls and she escapes, either with or without the object for which she has come. Is Susan, the maid, there? Could anyone have gotten away through that door after the time that you heard the cry, Susan?"
"No, sir, it is impossible. Before I got down the stair, I'd have seen anyone in the passage. Besides, the door never opened, or I would have heard it."
"That settles the exit. Then no doubt the lady went out the way she came. I understand that this other passage leads only to the professor's room. There is no exit that way?"
"No, sir."
"We shall go down it and make the acquaintance of this professor. Hallo, Hopkins! this is very important, very important indeed. The professor's corridor is also lined with coconut matting."
"Well, sir, what of that?"
"Don't you see any bearing upon the case? Well, well, I don't insist upon it."

No doubt I am wrong. And yet it seems to me to be suggestive. Come with me and introduce me to the man of the matter. We passed down the passage, which was of the same length as that which led to the garden. At the end was a short flight of steps ending in a door. Our guide knocked, and then ushered us into the professor's bedroom. It was a very large chamber, lined with innumerable volumes, which had overflowed from the shelves and lay in piles in the corners, or were stacked all round at the base of the cases. The bed was in the center of the room, and in it, propped up with pillows, was the owner of the house. I have seldom seen a more remarkable-looking person. It was a gaunt, aquiline face which was turned toward us, with piercing dark eyes, which lurked in deep hollows under overhanging and tufted brows. His hair and beard were white, save that the latter was curiously stained with yellow around his mouth. A cigarette glowed amid the tangle of white hair, and the air of the room was filled with stale tobacco smoke. As he held out his hand to Holmes, I perceived that it was also stained with yellow nicotine.
"A smoker, Mr. Holmes?" said he, speaking in well-chosen English, with a curious little accent. "Pray take a cigarette. And you, sir? I can recommend them, for I have them especially prepared by Ionides of Alexandria. He sends me a thousand at a time, and I give to say that I have to arrange for a fresh supply every fortnight. Had, sir, very bad luck. I would surely have been locked up. No, it was for some thing in that wooden bureau. Hallo! what is that scratch upon the face of it? It looks a match. Watson, why did you not tell me this, Hopkins?"
"The mark which he was examining began upon the brass-work on the right-hand side of the bureau, and extended for about four inches, where it had scratched the varnish from the surface."
"I noticed it, Mr. Holmes, but you'll always find scratches 'round a keyhole."
"This is recent, quite recent. See how the brass shines where it is out. An old scratch would be the same color as the surface. Look at it through my lens. There's the varnish, too, like earth on each side of a furrow. Is Mrs. Marker there?"
"A sad-faced, elderly woman came into the room."
"Did you dust this bureau yesterday morning?"
"Yes, sir."
"Did you notice this scratch?"
"No, sir, I did not."
"I am sure you did not, for a dustier would have swept away these shreds of varnish. Who has the key of this bureau?"
"The professor keeps it on his watch-chain."
"Is it a simple key?"
"No, sir, it is Chubb's key."
"Very good, Mrs. Marker, you can go. Now we are making a little progress. Our lady enters the room, advances to the bureau, and either opens it or tries to do so. While she is thus engaged, young Willoughby Smith enters the room. In her hurry to withdraw the key, she makes this scratch upon the door. He seizes her, and she, snatching up the nearest object, which happens to be this knife, strikes at him in order to make him let go his hold. The blow is a fatal one. He falls and she escapes, either with or without the object for which she has come. Is Susan, the maid, there? Could anyone have gotten away through that door after the time that you heard the cry, Susan?"
"No, sir, it is impossible. Before I got down the stair, I'd have seen anyone in the passage. Besides, the door never opened, or I would have heard it."
"That settles the exit. Then no doubt the lady went out the way she came. I understand that this other passage leads only to the professor's room. There is no exit that way?"
"No, sir."
"We shall go down it and make the acquaintance of this professor. Hallo, Hopkins! this is very important, very important indeed. The professor's corridor is also lined with coconut matting."
"Well, sir, what of that?"
"Don't you see any bearing upon the case? Well, well, I don't insist upon it."

ing, he was an "admirable assistant. What do you think of the matter, Mr. Holmes?"
"I have not yet made up my mind."
"I shall indeed be indebted to you if you can throw a light where all is so dark to us. To a poor bookworm and invalid like myself such a blow is paralyzing. I seem to have lost the faculty of thought. But you are a man of action—you are a man of affairs. It is a part of the everyday routine of your life. You can preserve your balance in every emergency. We are fortunate, indeed, in having you at our side."
Tomorrow—The Adventure of the Golden Pince-Nez, continued.

DESTRUCTION OF COTTON SEED FROM QUARANTINE AREA
VERNON, TEXAS, May 4.—What might have proved of lamentable consequences to Wilbarger county interests was averted here when S. A. Moore, federal agricultural agent with headquarters at El Paso, and John A. Storey, county attorney, burned approximately 200 pounds of cotton seed on the farm of J. M. Miller near Doans because the seed were shipped to this vicinity from Carlsbad, New Mexico, a quarantined area. Carlsbad was placed under ban in January because of the presence of the boll worm, and agents immediately looked up all express records to find the localities to which seed had been shipped. The seed is of the Durango long staple variety. The seed burned in this county was raised on a farm immediately adjoining one on which the worms were found in the product. The entire county would have been quarantined, according to Mr. Storey, and not a bale of cotton would have been sold in the United States had the seed been planted and cotton grown. Mr. Miller expressed himself as happy that the

to Wilbarger farmers, and preventing serious losses to merchants and townspeople as well.
VERNON DONATES \$232.54 TO EUROPEAN RELIEF FUND
VERNON, TEXAS, May 4.—Donations coming from Vernon townspeople

and merchants for the European Relief Council Fund amounted to \$232.54, according to R. B. Sherrill, local chairman, and this amount has been forwarded to Edwin Hobby, state manager. The fund has been open for solicitations locally for several months. Picture frames at Decorators Co.

CITY NATIONAL BANK of COMMERCE

EIGHTH & SCOTT WICHITA FALLS, TEXAS

To Heads of Business

You avoid carefully the waste of materials. Are you equally careful in avoiding waste of money? Unproductive funds mean waste.

The City National Bank of Commerce serves many business houses, safeguarding their reserve accounts and paying 4% interest, compounded semi-annually.

By this means you eliminate waste and operate the more economically.

Deposits are welcomed in any amount.

It's So Easy to Make the Change

There's no bother and no sacrifice in turning away from the ills which sometimes come from tea and coffee, when you decide on

INSTANT POSTUM

Then you have a rich, full-bodied table beverage which fully satisfies the taste—and there's no ingredient to harm nerves or digestion. Thousands have changed to Postum as the better meal-time drink and they don't turn back.

Suppose you try the change for ten days and note the result.

Didn't Know His Brother

"My brother got so bad with stomach and liver trouble that when I saw him after a year I didn't know him. He was emaciated and yellow as a pumpkin and was often in great pain. He couldn't have lived long the way he was going. Doctors and medicine gave him no relief. I picked up a little booklet on May's Wonderful Remedy, which he had described his case perfectly. The first dose of it gave him great relief and in a month he was good as ever. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Mack Taylor and druggists everywhere.—Adv.

PUBLIC MARKET TO OPEN MAY 14, TRUCK COMMITTEE DECIDES

WILL BE HELD BETWEEN TENTH AND ELEVENTH ON OHIO, 7 TO 9 A. M. DAILY.

ALL TRUCK FARMERS TO BE ASKED TO PARTICIPATE

Arrangements for Opening Perfected at Meeting of Organization Committee Tuesday Night.

Saturday, May 14, was selected Tuesday night as the date for opening the public market, the date was fixed at a meeting of the organization committee of the truck growers at the chamber of commerce.

Between now and the date chosen, practically all raisers of trucks will be seen by the committee in an effort to have as many as possible participate in the marketing movement.

The market will be on Ohio avenue between Tenth and Eleventh, and the hours will probably be from seven to nine daily. It is hoped to enlist the co-operation of all truck growers in the vicinity of the city, but of poultry raisers and dairymen as well, so that a plentiful supply of fresh eatables will be available daily for the housewives of the city.

All plans for the market are tentative as yet, as the truck growers will be waiting until the date of the market to see what the market will be like. It is planned to have prices substantially lower than those prevailing at grocery stores, as the truck growers will add, to the price usually paid them by merchants, a profit sufficient to cover the added time and trouble, but which profit, they claim, will not be as great as the stores find it necessary to charge.

A. Downing, manager of one of the largest truck farms, is chairman of the organization committee, and is pushing the plan. Mrs. M. S. Smock is representing the Civic league, which originated the movement.

The location chosen is considered readily accessible to both auto and street car patrons, but if it does not prove suitable, after a trial, the committee has other sites in view.

NEW SCHOOL NAMED FOR JUDGE BARWISE

Board Honors Pioneer Citizen—Contract is Awarded for New Building for Negroes.

The new public school building on Salome street will be known as the Barwise school. The school board Tuesday night decided to name the school in honor of Judge J. H. Barwise, Wichita Falls pioneer, who is the first Wichitan to be thus honored.

Other schools being named in honor of the early heroes of Texas. The name Lamer school had previously been mentioned for the new building.

Members of the board felt that in naming a school for him, they were paying but a scant tribute to a beloved citizen, the founder of this city; the name has a further significance to the schools, in that Judge Barwise's daughter, Mrs. A. H. Carrigan, was once a teacher in the local schools and has been for years a devoted worker in educational circles here, and Judge Carrigan is the present president of the school board.

The board awarded the contract for the new negro school to J. C. Jopling & Company, its bid of \$16,850 being the lowest of the eight submitted; the heating contract went to S. F. Osborne for \$2,220, the plumbing to Hornum & Co. for \$2,012.27 and the wiring to the Nuan Electric company for \$507.72, making the total contract price \$16,484.

The school will have nine classrooms, in addition to manual training and domestic science departments and an auditorium, in the basement. The location has not yet been finally determined, though a deal for the site will probably be closed shortly.

The board fixed the date for the teachers' banquet for next Tuesday night, May 10, at the Kemp.

CHARTER IS GRANTED FOR SOLDIERS MEMORIAL HALL AT THE STATE UNIVERSITY

AUSTIN, May 4.—The Mothers' Memorial Association of Texas, Boys of the World War, with headquarters at San Antonio, to build and equip a soldiers' and sailors' memorial hall at Texas university in memory of all Texas boys participating in the war, was granted a charter by the state department today.

The association will have no capital stock. The hall proposed is to be used for a boarding and lodging place for boys and young men attending the university. Home surroundings at a minimum cost will be the aim of the plan, it was said.

SPEAKER TELLS AD CLUB PUBLIC HOLDS REMEDY FOR EVILS

Norris Ewing and J. G. Culbertson were speakers at the weekly luncheon of the Wichita Falls Ad club at the Kemp Wednesday.

Mr. Ewing, quoting from an eminent advertising authority, discussed the relationship of advertising to present-day conditions, particularly as showing the need of a better understanding by the buying public of the part it can play in righting things.

The present is no time at all to stop up in advertising, Mr. Ewing pointed out, and he read from an article by a nationally known advertising man to show that under conditions as at present, the best business policy is to stimulate buying in every possible way through use of advertising.

Mr. Culbertson discussed some interesting phases of foreign advertising as practiced by the Wichita Motors company, and also spoke of conditions abroad.

"It is largely a matter of poor distribution," he said. "There are 40,000,000 people starving in China, and yet in Manchuria which is a part of China, millions of bushels of wheat are lying on the ground."

Announcement was made of the election of T. A. Bradley as a member of the club's board of directors. T. A. Bradley presided at the meeting in the absence of President Walter Daugherty. Attendance prizes given by E. R. Goodner were drawn by H. J. Forrester and Miss Murphy.

ALLEGED CHICKEN THIEF RUNS BUT IS SHOT IN FOOT

Charlie Jones, negro, was arrested by Deputy Sheriff Robinson Tuesday night on the charge of stealing chickens. He was a model prisoner until they arrived at the court house drive way when Charlie jumped from the car and started to run.

He had gone but thirty feet when a shot from the deputy's gun brought him to a standstill. The bullet struck the negro in the left foot near the ankle and came out just above the little toe. He was placed in the county jail and a physician called to dress the wound.

STEAMER HAS ON BOARD 70 SACKS GOLD BULLION DESTINED FOR THE U. S.

CHRISTIANA, NORWAY, May 4.—The Scandinavian-American line steamer United States, from Christiania April 20, due in New York May 11, has on board 70 sacks of gold bullion, valued at several million dollars, consigned from the Swedish mail service as first-class mail.

The gold is Russian bolshevik gold remitted by the Swedish royal mint. Last year the Swedish mint remitted and refined 19 tons of Russian gold, and so far this year has put 70 tons through the same process. Most of this gold is destined for the United States.

The Norwegian mail service, it is learned, yesterday refused to transmit 27 sacks of gold bullion from the Stockholm Roskilde bank and returned the gold to the bank.

The Norwegian-American line, the Swedish-American line and also the Scandinavian-American line itself, now are declining to carry such gold cargoes to America.

M'CLURE HAS BEEN IN EMPLOY OF CITY EXACTLY 14 YEARS

Wednesday marked the fourteenth anniversary of Fire Chief J. L. McClure's connection with the city. "Pa," as he is known by the fire boys, having started in the employ of the municipal government late in the afternoon of May 4, 1907.

His first job was driving a team of horses hitched to a road grader, this continuing for a period of about nine months. He was hired to work with the fire department, but was assigned to the road crew until a new fire station could be completed. The undertaking was that this was to be done in a few weeks' time, but the work dragged on and nearly a year elapsed before the building was finished.

McClure's worth as a fire fighter was recognized from the first and in August, 1913, when a new chief was needed he was given the position, which he has held ever since. At the same time he was appointed fire marshal by the state fire marshal's department and holds that position also at the present time.

AMERICAN FOREIGN TRADE SUBJECT FOR DISCUSSION

CLEVELAND, OHIO, May 4.—American foreign trade and its present "problems" will be the general convention theme during the four days' session of the national foreign trade council convention which opened here today.

Three thousand delegates were in attendance when the convention was called to order by James A. Farrell, president of the United States Steel corporation, who is chairman of the council.

The urgent and immediate need of long time credits for foreign trade and the prospering of the American merchant marine were emphasized in the making up of the program and were to be especially dwelt upon by Chairman Farrell in the talk with which he opened the convention today.

SIX MEN ARRESTED FOR GAMBLING IN OIL FIELD RAID

Members of the sheriff's department made a general tour of the oil fields Tuesday night and found everything quiet. A little poker game was disturbed by Deputy Windham and Sanbury and six men were brought to the county jail.

All pleaded guilty to the charge of gambling and after paying fines were released Wednesday morning. Those whose names appeared on the docket were J. B. Gill, O. P. Gilbert, R. S. Stagner, J. D. Walbrook, Louis Baskin and R. M. Garnet.

Sheriff Fred Smith stated Wednesday that the fields have quieted down considerably and that everything was going along in an orderly manner.

HIGHEST PRICED ACT IN VAUDEVILLE FOR WICHITA THIS WEEK

Vaudeville's highest priced act, the famous "Leighner Sisters and Alexander" is announced as the headline attraction of this week's vaudeville bill which opens Wednesday afternoon and evening at the Wichita theatre.

There is but one more week of vaudeville at the Wichita, following the present one, and all indications point to the fact that these last two are to be the best of the entire year.

The Leighner sisters are numbered among the foremost musical comedy stars of the day, having made unqualified successes of their work on practically every vaudeville circuit of the land. These presents offering is called "Little Miss Vamp" and features the leading trio with a dozen chorus girls.

In the second round Cladd and Fannie Usher will offer their novel playlet, "The Bide-a-Wee Home," an act that has delighted thousands of amusement fans. The story of the play is new and novel, the actors are experienced and capable performers and the staging is all that could be asked.

"The Bachelors' Vision" is the title of Samsted and Marions skit, which is a comical take-off on a disgruntled "bach." Joe Towle appears as a single with a good line of songs, stories and foolish antics and the bill wraps up with Merritt and Bridwell in a decidedly attractive series of vaudeville antics.

Due to the high cost of several of the acts a slight advance in price will be made by the management of the Wichita.

"HEART OF THE JUNGLE"—RAINEY'S BIG PICTURE, FOR CHILDREN SATURDAY

"The Heart of the Jungle," one of the most wonderful wild animal movies ever caught or screened, is to be featured for the children's matinee Saturday morning at the Strand theatre under the auspices of the Alamo Mothers.

The picture was made by Paul Rainey, internationally famous African explorer and photographer, and some of the most beautiful jungle and wild animal scenes ever witnessed by the human eye are said to be incorporated in the picture. All of the animals that the children have seen and been thrilled by in the circus and a great many they will never see anywhere, all in their native haunts and unconscious of the observant eye of the camera, are shown in the picture.

Some of the moonlight scenes with the scallythly moving creatures of the jungle heart are said to be indescribably beautiful. The picture will be screened at two matinees, beginning at 2:30. Admission for adults is 25 cents and for children, 15 cents.

A feature of Saturday's matinee arrangement will be the chapters group provided to look after the smaller children, so that they may be sent in perfect safety by the mothers. In the group are Mesdames Fred Lee, M. J. Bashara, C. W. Reid, Abe Marcus, S. E. Trevathan and William L. Rhodes.

NOTED CALIFORNIA EXPERT EXPLAINS MARKETING PLAN

ADDRESSES LARGE CROWD AT THE COURT HOUSE AT ABILENE

RECORD OF HOME STATE IS CITED BY SPEAKER

Raisin Growers Used to Get Eight Cents of Consumers Dollar—Now Get Nearly Fifty.

ABILENE, TEXAS, May 3.—When Aaron Sapiro, marketing expert appeared here to speak Monday afternoon, such a big crowd was out to hear him that the court house would not hold them. The crowd finally went to First Baptist church where Mr. Sapiro's address was delivered to a crowd estimated at 2,000. Farmers and business men were here from all parts of the Central West.

The law of supply and demand is made of rubber and the only trick of the trade is to find the elastic point. Aaron Sapiro, noted California marketing expert and author of the Texas Co-operative marketing law, declared in addressing a meeting of farmers in the county court room Monday afternoon on the subject of the Texas Farm Bureau, Cotton Growers Co-operative Marketing Association.

"Out in California, where we have been learning to co-operate for 25 years, we made a study of this queer

law of supply and demand which some how always manages to rob the farmer of the legitimate profit and enrich everyone else who handles the farmers' products. As an illustration, I will tell you about the story of the raisin growers around Fresno, Cal. Fresno was once the dearest town in the United States, and was used as a by-word. The farmers were selling their products to five big firms and five little firms and the way the business was handled, there was always an overproduction of raisins and there were always raisins to be had to the hog.

"One day they called a meeting of all the growers in the surrounding country and at that meeting the farmers declared that they could not go on forever as they were. And the merchants got up and said that they didn't want to have to make their money by dealing with mortgages, but they wanted to sell the goods to a prosperous community. The bankers said that they were tired of doing a 'washers' business and wanted to make their money through the prosperity of the community. At the meeting they organized an association and today Fresno is the most prosperous little town in America.

Find New Uses for Product.

"One year there was a great over-production of raisins and we thought that we had already reached the limit of consumption because we believed that we had everyone eating raisins who possibly would. Then we found an elastic point in the law of supply and demand and discovered that raisins can be baked into bread with a delightful result. We sent men out to show the bakers how and through our advertising, sold 700 tons of raisins to the bakers of the country that year. Now we are selling the bakers and hotels 20,000 tons, and we have increased the

consumption of raisins for food from 30 to 140 tons." There was considerable laughter among the audience when Mr. Sapiro explained that this increase in both price and consumption came before prohibition and that he would not quote the abnormal figures to which the raisin industry has mounted since then.

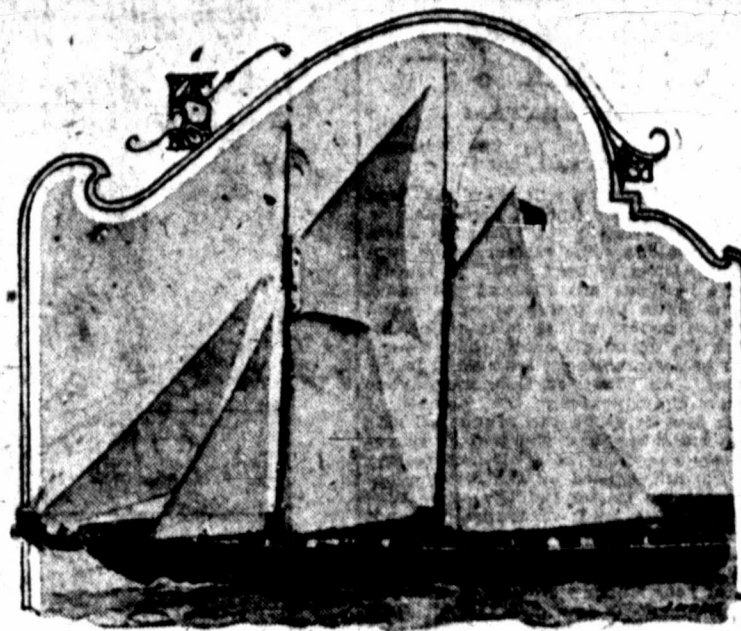

Applicable to Cotton.

"The co-operative movements out in California are no piker moves, because the 22 associations out there will market \$200,000,000 worth of products this year, and California is making money on her farm products, this year when the farmers of every other state are losing money," Mr. Sapiro said, after telling the raisin story. "We have met every problem with which you are likely to meet because we have organized to handle products from the most perishable to the non-perishables. We sell all of our oranges under one central agency, just as the ten cotton states are planning to sell their cotton through the American Cotton Exchange which will have its office at Dallas. Oklahoma has signed up 100,000 bales more than its quota of 200,000 bales and the other states are organizing rapidly.

Nothing New.

"There is not one word of theory in the cotton association because everything is actually being done by other groups of farmers like you, today. It contains nothing new, revolutionary, nor radical. The principles of co-operation are that you must organize with farmers only and for business only, with your association based on a strong, long term contract. You must have a minimum guaranteed that is large enough to make you the biggest factor upon the market upon which you expect to operate. In Texas we want a million bales, and when all of the states are federated we expect to have three million bales this year. You do not have to have a monopoly, or even half of the crop, because Swift and Armour control the packing industry though they handle only 25 per cent of the livestock. We will not make the price, but we will have a

CHALLENGER MAYFLOWER HAS TRIAL

The fishing schooner Mayflower, Boston's entry in the International fishing schooner races next fall, leaving Boston for her maiden sail to Boston Light and return. The Mayflower, designed by W. Starling Burgess, is expected to win the trophy lifted last year by the Gloucester schooner Esperanto.

say in it. We will not get you 20 cents for 15 cent cotton, but we will get you 15 cents for 15 cent cotton and a whole lot of it will not stick to the middlemen.

Will Not Work Miracles.

"The association is to be, and must be, a non-profit, non-capital stock corporation, to be controlled by a board of directors whom you will elect from your membership. It will collect, grade, pool, and sell the cotton direct to the mills in large quantities, as the mills need it gone through the year. All of the proceeds will be prorated back to the members, less the actual

cost of doing business. If the association is formed it will face a big task, but if it is not formed, this country will face the biggest crisis in history. Co-operative marketing will perform no miracle over night; it only promises to merchandise your cotton through warehousing, property grading, pooling, financing, and direct selling.

"One of the fundamental principles of successful co-operation is to operate through experts and not amateurs. We are not going to hire good talkers for managers, but men who can perform. J. Odgen Armour knows nothing about the Armour Grain company except

whether or not it is making him money. He hires brains in every department, and he hires men who come and separate you from your grain at the least price possible to you and the most profit to him. This is just good business, every business is organized but your farming business. And you can get the experts, for we have had expressions to that effect from several of them. Other things equal, there is not a man in the world who would not rather do constructive work for the growers and the whole industry than to work for the gambler or speculator. It's just human nature.

Money in Advance.

"I know you want to know how you are going to get some money when this is being done. By a federal reserve board ruling; you can draw a rediscountable draft on the association for a fixed amount, probably \$25 or 150 per bale, when you deliver your cotton. The association accepts this and you can get the money on it at your bank, less the current discount rate on three months paper. The bank has the growers' signature, the association's, which has more four year cotton behind it, and the warehouse receipt for the actual cotton. If the cotton is mortgaged, the draft is applied upon it and the bank gets rediscountable paper for the mortgage, which is not rediscountable." The bank can, thus get its money back again from the federal reserve bank.

'T WAS A VERY PEACEFUL NIGHT AT POLICE STATION. VERY FEW ARRESTS MADE

"Not even a chicken was stolen last night," was all Chief Detective Boyd could offer Wednesday morning, when requested to enumerate in alphabetical order the crimes committed during the night.

According to the police records no autos were stolen, no robbers reported and only two vagrants locked up. This is the first night thus far this week to have passed without at least one car being taken by thieves or joyriders.

ARE WE WILLING TO PAY THE PRICE?

There may be some disagreement about the soundness of the policy of a protective tariff on fuel oil and the consequences of such action but if it is wanted there is no question that the present is the time to get it. A general tariff measure is soon to be made. This tariff will be one of the highest ever levied in this country. Its chief beneficiaries, of course, will be the manufacturers of the north and east. Republican leaders in the house and senate will be glad to get this measure through with as little opposition as possible. The measure is willing to obligate the southwest, through giving it a tariff on crude oil and wool and other products, to support the general tariff measure. Tariff making is a matter of trade and barter between representatives of the various sections of the country in which local interests are placed above all other interests. If we are going in for this kind of business we can probably make a good trade. But it must not be forgotten that we will be expected to deliver the goods later on when the general tariff measure comes up.

WE'RE FOR IT, TOM.

Tom Burnett of Iowa Park, who last week staged one of the most successful round-up programs the southwest has ever seen, has it in mind to build a stadium in Wichita Falls, where the future programs can be staged. It seems to us that this is a move in which, at the proper time, Wichitans should co-operate most actively. There is at present only one place for outdoor contests, the baseball park, and it is not available at all times; a stadium such as Mr. Burnett suggests, with a seating capacity of 12,000 to 15,000, would enable Wichita Falls to have some of the premier athletic events of the south held here, such as the annual football classics between leading universities, and it would be useful for many other occasions. Mr. Burnett would use it for only a few days out of the year, and it is hardly probable that he would be willing to make the large investment required, when the benefits to himself would be so limited. He hasn't submitted Wichita Falls any definite proposition yet, but The Times understands he expects to do so later; when he does, it ought to have the city's whole-hearted support.

ELECTRIC POWER FROM THE WIND.

After years of labor and experiment apparatus has now been perfected whereby electricity may be generated from wind power and stored for lights and to operate light machinery. The apparatus has been perfected by engineers of the Westinghouse Electric company, the Perkins corporation and the Hyatt Roller Bearing company. Several plants have been erected and are in practical operation, it is said. From these plants it has been learned that electricity may be stored from winds of as low velocity as seven miles per hour. An apparatus that would generate electricity from the wind and store it for future use has long been a dream of mechanics and electricians. It has been a matter of practical mechanics rather than of scientific principle. The new method is expected to bring in a new era to the farm power and light field, putting electricity within the reach of many who are now denied it.

THE GOOD NAME OF MICHIGAN.

"I am thankful that the good name of the state of Michigan has been absolutely cleared," United States Senator Truman H. Newberry is reported to have said when he learned that the United States supreme court had set aside the verdict in which he had been convicted of violating the federal corrupt practices act. Senator Newberry is not to be blamed for being highly pleased with the findings of the court, but its finding is a long way from absolutely clearing the good name of the state of Michigan. The supreme court held that the law under which Senator Newberry was convicted was unconstitutional. That's how the senator gets off. Testimony introduced at the trial of Senator Newberry showed practices in the Michigan primary and election that ought to cause shame in that state.

Editorial Echoes

"By The Associated Press."
 (Kansas City Star)
 The annual meeting of the Associated Press in New York invites attention once more to the great attention for the gathering and exchanging of news.
 Here is an organization able to furnish such accurate and impartial service to more than a thousand members of every sort of views that there is rarely a complaint of error. Through years of effort the organization has reached a stage of excellence where the words, "By the Associated Press" over a dispatch, are the hall mark of reliability.
 The machinery and general scheme of the Associated Press are not generally understood by the readers who profit from its vigilance. It is a non-stock, non-profit, co-operative organization, created primarily for the exchange of news between its members. Through the agency of the Associated Press The Star, for instance, exchanges news from its territory with the St. Paul Dispatch, the Chicago News, the Boston Transcript and all the other members scattered over the country.

This service is not sold to outsiders. No profits are earned. Each member paper pays its share of the cost of operations through a weekly assessment. In the course of years the organization has developed its own staff, supplementing the news service of the member newspapers. This kind of independent service has been extensively developed abroad, to supplement the service of foreign news agencies.
 By virtue of the nature of the nature of the organization and the variety of opinions of the member newspapers, the country is assured of the integrity of the news service. No individual body can possibly control the Associated Press for sinister purposes. No body can use it in any way. Day by day it must meet the requirements of all its members under circumstances that would instantly expose dishonesty if any member of its staff should prove unfaithful to his trust.
 The public is fortunate in the sort of news organization that has been developed to serve the important newspapers of the United States.

VOICE OF THE PEOPLE

FORMER RESIDENT WRITES FROM ROCKPORT, TEXAS

Editor Times: I have been a resident of Wichita Falls and Wichita county eight years, but came to Aransas county the early part of 1919. I have my crop of cotton, corn and vegetables laid by, and am now gathering and shipping my vegetables, having a truck and a car. I am now in the market for a new car. We will ship to northern markets as long as the price holds good and then we will begin canning. We only have home canners, but nearly every family owns enough of all kinds of vegetables for home use, and has some to sell.
 If some enterprising man with a little capital would erect a canning factory here and can all surplus vegetables, fish, and oysters, he could make money for himself and everybody else. This is a trucking and a fishing country, but the truckers and fishermen need a better market for their products. At times the market for fish is so poor that the fishermen have to lay off. I know one crew that caught 15,000 pounds of fish one day. It took twelve men two days to pack them for market. It is not uncommon for this same crew to catch from 1,000 to 1,500 pounds of fish in a day. Some fishing story isn't it?
 I have been in the oil business for some time. I have seen a lot of men often catch from 50 pounds to 75 pounds of trout in a day with a hook.
 Rockport is on Live Oak peninsula, which is surrounded by Fish Bay. We get the sea breeze from every direction. Vegetables grow here all winter, and grass grows green all winter. There is a fine health resort, and also a fine place for sport, boating, hunting, fishing and bathing. There are more ducks and geese here in the winter than anywhere else in Texas. There is outside range, and all kinds of stock do well here, living all winter on the range without any feed.
 E. D. DANCE, Rockport, Texas.

VAN DEVENTER AGAIN DISCUSSES SUNDAY LAWS

Editor of The Times: A reading of the article by A. Submitter in The Times' issue of April 23 convinces me that we are making headway toward coming to agreement on the issue raised in the present discussion about Sunday observance laws. I predict that we will soon get all the critics corralled if some one does not leave the gap down again.
 I find that we are now in substantial agreement on the following propositions:
 First.—Man's great need of one rest day in seven. A Subscriber says, "No intelligent man will question this, for it is a law written by the Almighty into the very being."
 Second.—Agreed that "the chamber of commerce holds a position that would be peculiarly fitting for that body to take the lead in matters affecting the physical, mental and moral welfare of the city."
 Third.—Agreed that churches have no business going to civil authorities asking for laws to enforce religious ordinances. We want no semblance of union of church and state.
 Fourth.—Church members are privileged to take a part in civil government and may properly work along with the secular forces for laws calculated to benefit society.
 Fifth.—The state should not make laws that interfere with man's religious freedom so long as that religion does not lead him to commit acts that injure himself or fellow man.
 The remaining question to dispose of, then, is "the question of laws a proper subject of legislation?" Seeing that a minority of the people prefer another rest day, can the state justly make laws regulating the keeping of any day? Even if exceptions were made to accommodate those preferring another day, would it not be favoritism to make Sunday laws?
 As Hamlet would say, "There's the rub." Likewise someone ought to raise the question of whether we should date state papers from the beginning of Christian era because it would call attention to the date of the birth of Jesus Christ, or whether we should date the passing of laws admittedly beneficial to the people because everyone can not agree which is the best day to keep.
 The question is whether the question of Sunday observance laws is entirely a religious question. There were many laws of health given to the Jews by Moses. Some of them even at this late date, are just discovering their meaning. But they arrived at these discoveries entirely independent of the Bible. Are we to be deprived of the benefit of health regulations just because they were first written in the Bible? Whenever you want to destroy a law in America you begin by calling it a religious law. If the people are not sharp enough to see through the camouflage they will await it. There appears to be no impression among Sunday law despisers that Sunday laws are a relic of tyranny foisted upon the people when kings were in fashion without any sound basis for them to start with. It would only take a little agitation, only a little false philosophy, only a little anti-church propaganda and the American people, the majority of whom belong to no church, would overthrow the Sunday laws and make it "wide open." This evidently thought the Sunday show advocates in North Dakota fourteen months ago. Accordingly, through the initiative laws of North Dakota the question was submitted to the people on the first day of April, 1920. On that day there came such a landslide as the voters of North Dakota voted by a substantial majority to retain their Sunday laws.
 Thus, North Dakota, that much abused state, with supposed bolshevistic tendencies, under the most unfavorable circumstances, in spite of all the sophistry and lying that was done, decided that it was also a

WHY?

Does a Match Light Experimentation will show us that matches may be lighted apparently in two ways—either by drawing them sharply along some surface, or by subjecting them to heat. But, in reality, these methods are one and the same, for slipping the match along a rough surface generates the heat which ignites the chemicals on the match-head just as certainly as if we held it in the flame. As proof of this, draw your finger sharply along the sleeve of your coat or along the roughened side of a matchbox, and you will be immediately conscious of a distinct feeling of warmth, caused by the friction between your finger and the other substance. The heat, of course, will not cause your finger to catch fire, but if continued sufficiently long, it will cause a blister to appear, and if the tip of your finger were coated with the same chemicals as a match-head, these chemicals would at once burst into flame.

The placing of a small amount of easily inflammable substance at the end of a bit of wood, so that it may be ignited by friction, makes what we call a "match," and the process of striking the match is nothing more than the exercise of strength sufficient to generate the necessary amount of heat. Safely matches differ from the ordinary matches in that the chemicals on the coating of their tips do not burst into flame unless drawn along a surface especially designed for the purpose. The chemicals on the tips are against premature ignition through being rubbed together or stepped upon or handled by children who are ignorant of their use.

civil question and a proper subject of legislation. The people voted as citizens and not as church men. Should not Americans be as wise in statesmanship as Napoleon? The reason when France had not semblance of a rest day shall always be known as "The Reign of Terror." The first how you used to look was you was in hand was to restore the observance of a rest day.
 American people are not a bit feint-hearted about raising issues that may inconvenience a few in their money-making or pleasure-seeking so long as good comes to the majority. And right here let me say that the observance of a rest day shall always be known as "The Reign of Terror." The first how you used to look was you was in hand was to restore the observance of a rest day.

JUST FOLKS

By EDGAR A. GUEST.
FAILURES.
 There are several kinds of failure. There's the kind men notice most. And it haunts them in their business like an ever-present ghost: But to fall in love and marry, and then to be launched for selfish gain in a temporary set-back and may never leave a stain. While the heart which cuts more deeply and forget we never can, is to have our honor tested and then fail to play the man.
 Worse than any business failure is the failure to be true. To fail in kindly service when the chance is given to succeed. There is no regret so bitter, when the past you look upon. As to know you've kept your roses 'till the friend is dead and gone; And there isn't any failure quite so difficult to bear. However goes the battle, as the failure to be fair.
 The bitterest sort of failure isn't misdeed or wealth or fame— For a man may rise to blunder and still keep an honored name. And a man may fall in conquest and still be a loyal friend. And find his life a blessing when it's written to the end; But the failure that cuts deepest when our book of deeds we scan, Are the mean and petty failures when horses err and the house is down.

Little Benny's Note Book

By Joe Page
 There are many new inventions now days that people used to miss without knowing it. One of the lucky things about living in the 20th century instead of the 1st or 2nd is that we have a lot of things now instead of formerly is that you are still alive.
 One of the most important inventions of the 20th century is the telephone. This rings any hour of the day or night so you talk to somebody that maybe you never even saw and maybe you wouldn't have even known his name. You talk to your friends just as easy. When anybody in the olden days had a long piece of wire they just used it to fish things around the house. Nearly of wasting time thinking about trying to talk through it, while now all you have to do to talk through the telephone wire is just call up and if you get the right number you know exactly who your talking to, and if you get the wrong number you don't.
 Another important invention is the electric light, which saves us the trouble and expense of tending on the gas stoves. The gas stoves are being made to burn kerosene, but the electric light is better.
 Another important invention is the electric light, which saves us the trouble and expense of tending on the gas stoves. The gas stoves are being made to burn kerosene, but the electric light is better.

PROHIBITION ENFORCEMENT

the invention of the electric light all you have to do to make a dark room disappear is just push a button.

Another important invention is the camera, which takes your picture and shows you exactly how you looked that minute no matter how much you change later. This way you are all grown up you can look at a picture of how you used to look when you was a baby and realize how much you have improved.

Other important inventions are the automobile, which does all the work in a trane of cars, and the phonograph, which gives us the privilege of turning off the music whenever we don't feel like hearing it.

Negro Woman at Dallas Wins Suit For Rich Oil Land

By United Press.
 DALLAS, May 4.—A negro sat in a tumble-down shack in the negro quarter on Hill street here today and stoically refused to get excited over the battle involving millions of attorneys are waging about her claims to oil lands. Lillie Gussie Taylor, the negro, who explains to visitors that her "health is poorly and she ain't no great hand to talk nobow," merely shrugged her shoulders when reporters told her she had won her suit in the Louisiana state supreme court that established her title, insofar as state courts are concerned, to what her attorneys declared is the biggest producing lease in the great Homer, Louisiana, oil fields. The land, about three miles from the town of Homer, has already produced about \$2,000,000 worth of oil, according to Foster, Looney and Wilkinson, Shreveport, La., the law firm representing her.

A suit pending in the circuit court of appeals at New Orleans will, with the state court verdict, complete establishment of her title if she wins it, her lawyers said, and will probably make her one of the richest negroes in the world.
 "Ah ain't got this money yet," she reminded friends today who sought to play for her what to do with "all that money." She punctuated the remark with a cough and drew a ragged shawl about her shoulders and huddled closed for her what to do with "all that money." She punctuated the remark with a cough and drew a ragged shawl about her shoulders and huddled closed for her what to do with "all that money." She punctuated the remark with a cough and drew a ragged shawl about her shoulders and huddled closed for her what to do with "all that money."

HEAL SKIN DISEASES

Apply Zemo, Clean, Penetrating, Antiseptic Liquid
 It is unnecessary for you to suffer with eczema, blotches, ringworm, rashes and similar skin troubles. Zemo, obtained at any drug store for 25c, or \$1.00 for extra large bottle, and promptly applied will usually give instant relief from itching torture. It cleanses and soothes the skin and heals quickly and effectively most skin diseases.
 Zemo is a wonderful, penetrating, disappearing liquid and is soothing to the most delicate skin. It is not greasy, is easily applied and costs little. Get it today and save all further distress.

Don't let Mother know this secret

May 8th is the day to surprise her with this Brunswick
 Your Mother has heard, no doubt, of the Mothers' Day Club, but she has no idea whether you are one of the members. But a great many Mothers are wondering.
 We don't intend to give the secret away here. A good many sons and daughters now belong to the Mothers' Day Club and are preparing to give their Mothers a big surprise.
 Mothers' Day Club is a Brunswick idea, a happy conception, and one you'll be delighted with, once you come in and learn the details.

SPORTS

LANDIS TO GIVE UP BENCH AND DEVOTE TIME TO BASEBALL

Expect Resignation to Take Effect Early Next Month.

CHICAGO, May 4.—Judge K. M. Landis will give up his job as judge of the federal court here in order to devote all his time to his position as high baseball commissioner. His resignation, according to present indications, will take effect early in June. It has been known among Judge Landis' friends that he would give up the bench.

Since the attack was made on him in congress because of the fact he held two positions, the judge has planned to quit the court. He would not quit under fire, however, and would not leave while the impeachment proceedings were pending. The impression among the judge's friends was that he decided to retire from the bench as soon as he accepted the baseball position.

However, because of the fact that he was a federal judge added weight to his prestige and importance as baseball dictator, caused him to stay on the bench for a short time. With the resignation of Judge Landis, the federal court will lose one of its most picturesque characters. His ready wit, his broad spoken humor, his vigorous outspoken method of dealing with attorneys, witnesses, court attaches and those on trial before him, made him nationally known. Judge Landis said today he had not presented his resignation yet. "I have not said anything which could be construed as a statement that I have resigned," the judge said. Several months ago the judge told newspapermen, in confidence, that he would resign. Breaking of this confidence by a Chicago newspaper today resulted in the fact becoming known before the judge had planned.

CHICAGO, May 4.—Judge Kenesaw Mountain Landis, in a formal statement today, denied reports that he had resigned the federal bench to devote his time to his position as baseball commissioner. The statement was as follows: "I have not resigned nor have I said anything that could have been construed into a statement that I have resigned. The action Monday of the senate judiciary committee in endorsing Senator Duff's bill making it an offense for a federal judge to accept another position of pecuniary profit while on the bench, had again aroused the rumors that the judge was to relinquish his federal position. Judge Landis refused to say whether, whether he was thinking of resigning at some future date. Judge Landis said the present rumor probably had arisen through conversations he had with Charles Nagel, co-counsel of the federal building. "I told Nagel that when I felt this court I wished to take some chairs with me, as they were cherished by me. They belong to the government and I asked him if I could purchase them." Judge Landis would not say why he had refused recently to set any cases beyond June 15, a fact which caused reports that he would resign in June.

M'DOWELL AND BOWER TO CLASH IN GOLF FINALS

It has finally got down to the finals in the Art cup tournament at the golf club. In the semi-finals, E. S. McDowell defeated Bud Golding, two up, and Scott Bower won from Fred T. Cooper, five up, leaving McDowell and Bower to clash for the trophy. The finals will probably be staged later this week.

BRITISH TENNIS CHAMPION DEFENDS TITLE

LONDON, May 4.—E. M. Bawley, the British tennis champion, successfully defended his title against C. M. Snydam Cutting, the American challenger, at the Queen's club here today, defeating Cutting, three straight sets.

FACES FOUR SHOTGUNS TRYING TO GET BOOZE

CHICAGO, May 4.—When witnesses today described to a United States commissioner how John Lopata, a man wanted for breaking into a carload of whiskey guarded by four men armed with sawed-off shotguns, the commissioner ordered Lopata held for a psychiatric examination. "No sane man will face four shotguns to commit a theft of booze," he said. The liquor was being shipped in a sealed car from Canada to Mexico, when Lopata tried to break in at Harvey, Ill.

Card of Thanks. We wish to thank our friends and neighbors for their kindness during the sickness and loss of our dear beloved baby, Mrs. and Mrs. T. A. Ward, 219 E. 11th St., Chicago, Ill. May 1-1921.

KELLY AND MEUSEL SEEM TO HAVE FATHOMED BABE RUTH STYLE OF KNOCKING HOMERS

NEW YORK, May 4.—The big league batters have been studying Babe Ruth's swing, and at least two other heavy hitters, long George Kelly of the Giants and "Irish" Meusel of the Phillies, ought to beat his record of 54 home runs before the start of the 1921 season. Now he is getting the swing of the Phillies, which could mean 70.

Klem is laid up with a mashed instep. He was hit by a foul tip during the spring training trip and is following the season out on his old front porch in Yonkers with his face greased to ward off sunburn, and the sporting pages stacked beside him in the hammock. "I always thought George Kelly would make a great hitter," Bill said. "But last year he was crumpling at the plate. Maybe McGraw told him to crouch. If he did it was a mistake because Kelly was crumpling his swing. This year he is standing up and taking full smashes with all his height extended, and his big shoulders thrown into the blow. 'Irish' Meusel is another big man, not as tall as Kelly or Ruth, but big-boned and broad across the shoulders. He is getting the swing that Ruth invented."

The Babe has six honors to date and is far ahead of his gait for 1920. But Kelly, who never figured as a home-run hitter before, is leading him by one blow. Rice of Washington and Earl Smith of the Indians have three each. Those who have two homers so far are George Sizer of the Browns, Bob Meusel of the Yanks, Bernie Neis of the Dodgers, Williams and Meadows of the Phillies, and Cruise of the Braves. Sixty-Four Circuit Clouts. There were 64 homers in 24 ball games. Klem said the ball is not a bit more lively today than it was before the war, when the materials were of standard quality and always the best. Those who have two homers so far are George Sizer of the Browns, Bob Meusel of the Yanks, Bernie Neis of the Dodgers, Williams and Meadows of the Phillies, and Cruise of the Braves.

The hitters have been killing the ball in these 24 games played since April 12. There has been just one game in which no man got an extra base hit, between the Cardinals and Reds on April 12. There have been repeated occasions of eight two-baggers in one game and three-baggers in one game have run as high as seven. The records give 166 two-baggers and 108 triples in these games. "The pitcher has just as many weapons this year as he had last year," said Klem. "As for the boys, we're knocking the cover off the ball then. I think they have just been studying the way Babe Ruth does it. It looks as though the hitters had been using too much science and too little beef until Ruth showed the way to get that tremendous leverage under the ball by taking a natural club. Some hitters are cramped by the proper scientific pose. "Any big man like Kelly, who learns the secret of the free swing and knows how to keep his eye on the break of the curve ought to be able to hit homers right along with Ruth. The Babe showed them how, and I expect he'll have a battle on his hands now to keep ahead of the pupils."

Notice to the Public. Please watch your trees and have them treated as soon as possible. The insect is much easier killed and kept off by commencing early. A stitch in time saves nine. Yours to please, Wichita Tree Spray Co., Phone 6556. Ballengee & Stewart, prop. 255-51p

DESCH MAKES THE WORLD'S RECORD AT 440-YARD HURDLES

August Desch, speedy timber-topper from Notre Dame, broke the world's 440-yard hurdle record when he galloped the quarter mile over ten hurdles in 52.45 seconds at the University of Pennsylvania relay carnival held at Franklin Field. The previous record of 54.1-2 seconds was held by Wren of Cornell. The above photo was made as Desch cleared the last hurdle.

UNIVERSITY CLUB AND HIGH SCHOOL READY

Teams Will Meet at Athletic Park Tomorrow for Benefit of High School. "I used to smash a baseball." Quoth the Had-Born, loud and clear. "But now that age has stowed me up, I smash the atmosphere." The above bit of bum verse, selected at random from the writings of the poetess Sal Hepatica, describes the fate of a number of University Club baseball players, if McAbee, the big south-paw twirler of the Wichita Falls high school, works Thursday afternoon as his schoolmates believe he will. The high school and the University Club teams are going to look up in a game Thursday at 4 p. m. on the Spudgers Texas League field, the proceeds from the sale of tickets going into a fund to buy sweaters for the high school players.

HERE'S A NEW ONE. DETROIT, May 4.—The Tigers presented an unusual lineup in the game with the White Sox here yesterday. Every man on the team batted left-handed against the four Chicago right-handed pitchers. Young, Bush and Hite take either side of the plate as occasion demands. Shorten was used in place of Heilman and made the left-handed attack unanimous, the others being regular southpaw hitters. Homer Crawford himself, none other than the estimable head of the Crawford Automobile company, "Slim" Kellogg, the demon Walk-Over shoe salesman; "Cy" Williams, who sells F's

AMERICAN NATIONAL AND TELEPHONE IN TIE GAME. The American National bank and Telephone company battled eight innings to a deadlock yesterday, when the shades of night grew so heavy that the men couldn't see the ball, each side had tallied eight times. Both teams displayed some real baseball. Warren and Brown kept their nine hits well scattered and were backed up in better fashion than heretofore this season. A rally in the seventh, which included a brace of passes, two triples and many singles, gave the Telephone crew four counters that tied up the contest. A home run by Tully Brown of the Money Grabbers while the sacks were loaded featured. Score: Telephone Co., 401 152 46-3 9 2 Amer. National, 600 265 18-3 9 2 Batters: Warren and Norwood, Brown and Gordon. I. Philip Meyer, has purchased the Lamar Street Garage from Harry L. Douglass, 1065 Lamar-st. I will not be responsible for any outstanding accounts. Philip Meyer, 254-21e

VILLAGE IN SOUTH PERU IS ATTACKED BY INDIANS

LIMA, PERU, May 4.—Indian bands attacked the village of Juli, in southern Peru, on April 29, and many persons were killed and wounded before the gendarmes and civilians succeeded in driving the aborigines from the town. A dispatch to the newspaper La Prensa, which is now operated by the Peruvian government.

ARREST MAN SAID TO BE WANTED FOR ROBBERY

OKLAHOMA CITY, May 4.—Roy Brooks, who authorities say is wanted in Wichita, Kan., in face of charges of robbery, was held in the county jail here today, pending arrival of Wichita officers to identify him. Brooks has been sought since 1919, according to local authorities.

EX-ENLISTED MAN NAMED COMMANDER OF CARRIGAN POST

With three desirable locations available, committees of the Pat Carrigan Post of the American Legion are expected to take early action on selection of a site for club rooms for the Post. Reports submitted at Tuesday night's meeting of the Post indicated that the matter would be brought to a head at an early date.

HAS LIST OF EX-SOLDIERS WHOSE DISCHARGE PAPERS OR BONDS ARE UNCLAIMED

T. E. Brunson, adjutant of the Pat Carrigan post of the American Legion, with offices in the City National building, has received from the war department a long list of former soldiers whose discharge papers and \$50 bonus checks are awaiting them at Washington.

LOCAL CONTESTANTS OFF FOR MEET AT CAPITAL, EIGHT GO FROM THIS CITY

The Wichita Falls delegation of high school contestants for the state interscholastic meet which opens at Austin Thursday left at 2 o'clock Wednesday afternoon. They were scheduled to reach the capital early Thursday morning.

RIVALRY DEVELOPS FOR 1922'S ROUNDUP

J. B. Marlow and Others Plan Park for Such Events; May Have Separate Affair.

Rivalry for the next round-up, with two groups making more or less active plans for staging it, is developing locally, with the possibility that two such events will be held here in 1922. This is indicated by the announcement that J. B. Marlow and D. Phyl Taylor expect to construct a suitable park for such events near the ball park, and it is understood that their plans are entirely independent of those of Tom Burnett, who also hopes to see his 1922 round-up held in a new and suitable stadium.

It is planned to open the Marlow-Taylor grounds with a race meet on July 4, according to present plans. Total attendance at the round-up last year, according to the re-checked figures furnished by the management, total receipts were \$22,399.82 and total expenses were \$12,114.56, the net profit being \$10,285.26.

HIGH SCHOOL BOYS' CLUB ELECTS OFFICERS FOR YEAR POLLY CLARK PRESIDENT

Polly Clark, prominent member of this year's junior class and the high school, was elected president of the Boys club for the year 1922 at a meeting of that organization held after school Tuesday afternoon. Clark has been prominent in school activities during the last two years and was practically the unanimous choice of the club for next year's leader.

A negro court scene, in which a luckless black was tried for everything from bigamy to intoxication, was put on by the club as a closing celebration of its year's work. Plans were also made to furnish a mock jazz band at the school exhibits to be given next Friday afternoon, the members of the "orchestra" to be recruited from the club personnel. The boys are not predicting how much music will be forthcoming, but are promising plenty of fun.

PARK BUREAU WILL HELP ELECTRA WITH BEAUTIFICATION PLAN

Improvement of Electra's park system will be undertaken shortly by the chamber of commerce of that city, and the assistance of the park bureau of the Wichita Falls chamber of commerce has been enlisted. At the request of the Electra organization, E. E. Widener of the local park bureau, and J. E. Dobson, park superintendent, will go to Electra shortly to help plan the improvements there.

FUNERAL SERVICES HELD TUESDAY FOR LITTLE GIRL

Funeral services for Gryneth Ward, 4 year old daughter of Mr. and Mrs. L. A. Ward of Billings, Mont., were held at 4 o'clock Tuesday afternoon. The little one died after an illness of two weeks from bronchial pneumonia. Services were held at Merkle & Lunn funeral chapel, Rev. J. D. Pinkton, assistant pastor of the Methodist church South, officiating.

FOOTBALL FIELD AND 2 DIAMONDS URGED IN NEW SCOUT PARK

A standard sized football field and two baseball diamonds will be provided in Scout park, if the plans submitted by George E. Kessler, city planner, for improvement of the tract given by Mr. and Mrs. Kemp are adopted. The plans have been received from Mr. Kessler by the chamber of commerce.

The lowest portion of the tract, on the southeast side, is chosen as the football field site by Mr. Kessler, it being so situated that full benefit can be taken of the natural amphitheater. Further westward are the locations of the baseball diamonds, each with ample room. Mr. Kessler also recommends some changes in street routings so as to give attractive curved roadways through portions of the park.

NORTH WICHITANS TO BUILD 1,000 FEET OF ADDITIONAL WALKS

Work will start shortly in North Wichita on an additional 1,000 feet of sidewalks, in line with the improvement program in that section, it developed Tuesday night at a meeting of the North Side Men's club. Owners of property promised to start on that much additional walk without delay. The school board was asked to pave the walk abutting the Fannin school, and it is understood that the request will be granted, as soon as the sidewalk construction reaches the school. Attention was called to the fact that the auto accident of last Saturday, in which little Lola Burton was injured, would probably have been avoided if there had been sidewalks on Bridge street, as the child was walking in the street when the car struck her.

A Little Parable You'll Appreciate

Any sort of machine does well on a smooth, straight highway; it takes a powerful, sturdy and carefully driven one to get over the rough places in security and comfort.
