

GERMAN TROOPS IN WADE SILESIA

REPORT AMERICAN AND JAPANESE IN BATTLE IN CHINA

BEGIN THE TRIAL OF THE ALLEGED GERMAN CRIMINALS OF WAR

LEIPZIG, GERMANY, May 23.—The "little list" of alleged German war criminals was scheduled to go to trial here today.

British legal authorities, headed by Sir Ernest Pollock, chief general, were here to press the charges. The defendants here are accused of cruelties in prison camps. Before court convened at 10:30, British and German attorneys conversed amicably over the procedure to be used. The British said they were convinced Germany intended to make a honest effort to reach just decisions in the cases. The accused men have been treated as other prisoners would be held in jail when they could not provide proper bail.

Representatives of the German state attorney's office told the United Press that his staff was sincere in prosecuting the charges. The hearings were regarded as preliminary to the trial of the big generals, admirals and politicians who have been charged with violating the laws of war. The first case today was that of Sergeant Heinen, charged with beating British and Belgian war prisoners with the butt of his rifle. The prisoner, a Canadian, was charged with deriding the British and Belgian prisoners. He was charged with deriding the British and Belgian prisoners. MUST NOT BE AGAIN, WORDS OF PRESIDENT IN PLACING WREATH

PARTICIPATES IN CEREMONY IN HONOR OF 5,000 WAR DEAD.

VOICE IS HUSKY AND EYES FILLED WITH TEARS.

"One Hundred Thousand Sorrows Are Touching My Heart," Declares Nation's Chief.

NEW YORK, May 23.—"Must not be again." With these solemn words, President Harding today laid a wreath on the coffin of the first American soldier to die on German soil, at a funeral ceremony for 5,000 war dead at the army piers in Hoboken.

His voice husky and his eyes brimmed with tears, the president gazed at the rows and rows of coffins. Then he said: "One hundred thousand sorrows are touching my heart. It must not be again. God grant that it will not be again. Do not let the millionth day have come and that there will be no more wars. I would wish a national so powerful that none will dare provoke it."

When the president had finished his brief address he stepped forward, stooped in front of the coffin that had been placed on the altar, and laid upon it a wreath of roses and orchids.

There was another moment of stirring with life as men went forth to death, had been turned to a tomb after the return of those who had survived.

On the coffin decorated by presidential hand was a plate chronicling the fact that Joseph Guyton of Ewart, Mich., a private in company I of the United States infantry, had given his life for his country on May 24, 1918, in the Gilwilder sector of Alsace.

At the ceremony, President Harding, accompanied by Mrs. Harding, several senators and their wives and army officials of high rank, returned to Manhattan, where he was scheduled to address the House of Representatives at his luncheon in the Hotel Astor before reviewing the old 106th United States infantry in Brooklyn.

In his Hoboken address President Harding said: "There grows on me the realization of the annual character of this occasion. The sun has risen and set on the earth many times since the day that the first American soldier died on German soil."

He said he had received the supreme sacrifice of his sons and daughters. Many sons and daughters made the sublime offering and went to hallowed graves as the nation's defenders. But we never before sent so many to battle under the flag in foreign lands, never before was there the impressive spectacle of thousands of dead returned to find eternal resting places in the beloved home land.

These dead know nothing of our ceremony today. They sense nothing of the sentiment of the tender words which bring their wasted bodies to the homeland for burial, close to kin and friends and cherished associations. These poor bodies are but the clay tenements once possessed of souls which flamed in patriotic devotion, lighted new hopes on the battleground and in the end, their sacrifices sped on to accuse autocracy before the court of eternal justice.

"We are not met for them, though we love and honor and speak a grateful tribute to their memory. One's words speak to those who do not hear, or to sorrow for those who cannot sense it, or to exalt those who cannot know, but we are met for ourselves, and we reach those who sorrow and sacrificed through their service, who suffered through their giving, who glory with the republic through their heroic achievements, who rejoice in the civilization their heroism preserved.

"Every funeral, every memorial, every tribute is for the living—an offering of sympathy, a sharing of sorrow. When the light of life goes out there is a new radiance in eternity, and somehow the glow of it relieves the darkness which is left behind.

"Never a death but somewhere a new life, never a sacrifice but somewhere an achievement, never a service but somewhere a triumph. These have served, which is the supreme in living. They have earned everlasting gratitude which is the supreme solace in dying.

"No one may measure the vast and various affections and sorrows, centering in this priceless cargo of bodies—one living, fighting for, and finally dying for the republic. One's words fail, his understanding is halted, his emotions are stirred beyond control, when contemplating these thousands of beloved dead. I find a hundred thousand sorrows touching my heart, and there is ringing in my ears, like an admonition eternal, an insistent call—it must not be again. It must not be again. God grant that it will not be again. Do not let the millionth day have come and that there will be no more wars. I wish for such an America.

Supreme Conflict of History. "These heroes were sacrificed in the supreme conflict of all human history. (Continued on Page 3, Column 3.)

LEAVE FOR SAN ANGELO AFTER SONORA HEARING

Girl and Fiances Were Killed While Enroute to Del Rio to be Married.

SAN ANGELO, TEXAS, May 23.—After heavy guard, but officiating at liberty under \$1,000 bond each, Dick Harris and his son, H. S. Harris, father and brother of the dead girl, were en route here today from Sonora, where tragedy and death terminated the honeymoon of Southwestern Harriet Harris, 20, and Nelson McClellan, 21.

The father and brother of the girl, killed in a shooting affray when the girls, Harris and McClellan, objected to the marriage of the couple, were charged before leaving Sonora with assault with intent to kill McClellan, whose body was found some distance from the scene. Harris was killed, his throat cut with a pen-knife.

The only other marks on McClellan's body were gunshot flesh wounds on the forehead and a bruise on the back of the head, another inflicted with a blunt instrument. The fatal blow to death from the pen-knife wounds.

The assault charged against the Harris was a case of a deputy sheriff at Sonora following a conference between the older Harris, his son, their attorneys and Justice H. B. Balch and other officials. Testimony could not be taken in Sonora because there was no photographer in the little town, and a coroner's verdict was still out. A grand jury has not yet been summoned.

Following the death of the girl and McClellan, parents and brother of the girl declared that when they overtook the couple there was a mile chase from Valley Mills, where all five shots were exchanged, and then McClellan turned his gun on the girl as she started to run toward her parents, and then on himself.

The bodies of Miss Harris and McClellan lay in a local morgue today pending funeral arrangements. Examination showed one bullet broke the girl's neck, another penetrated her breast, a third entered her side and a fourth penetrated her left leg.

A. A. McNeill, uncle of Nelson McClellan, said that he was with the couple when they were shot. He said that he saw the girl's body and that he saw the bullet hole in her breast.

Reports of the shooting were reported here to the running high at Sonora. Reports here indicated the battle between McClellan and the girl's parents for possession of her was bitter in the extreme.

A shooting was reported near the scene of the tragedy, the stock splintered. A bullet hole was found in McClellan's hat.

Wounds in the girl's body were said to have been made by 22 bullets. Two of the four guns taken by officers were 32 caliber, said to have belonged to McClellan and Mrs. Harris.

### RUSSELL OUTLINES FILIPINO ATTITUDE TOWARD JAPANESE

### ONE PART OF ISLAND IS NOT AFRAID OF BROWN MAN, HE SAYS.

### ARE NOT RUSHING TO THE ISLANDS AS IS REPORTED

### On the Other Hand For Some Time They Have Been Rushing Away.

By CHARLES EDWARD RUSSELL,  
Special Correspondent of the Wichita  
Daily Times.

(Copyright 1921, by the Wichita Times.)  
MANILA, May 22.—Coming down on  
the steamer from Shanghai, an American  
said to me:

"If the United States were to withdraw  
from the Philippines at 6 o'clock  
tomorrow morning, the Japanese would  
have them by 6 o'clock tomorrow  
night."

He was playing the opening bars of  
the Japanese nocturne in G-minor,  
with which I have been favored ever  
since. According to these and other  
islands but live in the shadow of a  
Jamaican with mouth open to de-  
vour them; the fair Andromeda  
chained to the rocks and the U. S. A.  
playing the protecting Pegasus and  
winging.

This may be all true; I don't know  
and don't see how anybody else can.  
In view of the events of the last seven  
years, anything may be possible. But  
there is at least one corner of these  
islands where it seems likely the Jap-  
anese will not keep anybody awake  
at night worrying about it.

Down on the coast of DAVAO, island  
of Mindanao, they have been learning  
all about the rice, man-eating Japs  
and are not afraid of him.

DAVAO is a great country for hemp.  
Five miles around the landscape looks  
like one vast hemp field.

While the war was on the demand  
for hemp was abnormal and the price  
thereof (to the grower) a rare and  
valuable commodity.

A hemp plantation for a few swift  
sweet days was better than a gold  
mine. Naturally, there was a rush to  
invest in hemp.

LACK OF TELEPHONE  
SERVICE AT LAKE WICHITA

Lake Wichita is to be given tele-  
phone connection with Wichita Falls.  
It is possible to do so, Manager C. C.  
Kirby of the telephone company said  
Monday.

The urgent need for a tele-  
phone there has been twice shown re-  
cently when the lack of one caused se-  
rious delays in summoning aid follow-  
ing accidents.

The phone company had a toll sta-  
tion at the lake last year and received  
a total of 15 cents in tolls therefrom.  
Mr. Kirby said, the coin box being  
broken open and robbed.

A piece of  
the telephone line was removed to use  
as a tow-rop for a disabled automo-  
bile. These mishaps caused the com-  
pany to decide against installing a  
phone this year, but the apparent dire  
need of one has caused this decision to  
be changed.

For instance, have spread all about the  
South sea, so you find them thicker  
than blackberries. A Japanese in those  
regions is rarer than robins up around  
Vladivostok, and the chill Kuril Is-  
lands be awfully perfect at home;  
but no one has yet been able to point  
to a Japanese colony anywhere near  
Vladivostok, and the chill Kuril Is-  
lands be awfully pushed along and devel-  
oped Formosa. Opportunities for  
wealth there are about as good as in  
Formosa, has a climate much like  
that of the Philippines.

But years before the rising of the  
roaring Bolshevik they began to flock  
toward Siberia and Manchuria, where  
these eyes have seen them.

It is no wonder that intelligent Phil-  
ippines, remembering these facts, are  
not much impressed with the idea that  
the Japanese will gobble them over-  
night.

What with Korea and Siberia  
and all Japan would seem to have  
about as much trouble on her hands  
as any one nation can do with nicely  
without going out of her way to insure  
the kind the Philippines would give  
them, which would be no joke. And,  
anyway, there is nothing else down  
here for her.

### China Helped Allies To Win World War, Now Need Your Aid

China sent fifteen million bushels of  
wheat to feed the allied soldiers dur-  
ing the world war; 250,000 men to  
"fight the devil and the Kaiser," and  
gave over a million dollars to the  
Red Cross.

They are fighting worse than the  
devil and the Kaiser now in China; the  
American Commission for Relief in  
China stated in a recent communica-  
tion pleading for more money.

Kaiser Bill could never have seen the horror  
and tragedy that the famine has. He  
was responsible for the deaths of  
thousands of children, probably the  
black famine and starvation in China  
is killing the children by hundreds of  
thousands, to say nothing of the  
grown-ups.

China did all that it could  
with its limited resources and over-  
crowded population, during the war for  
the allies.

### GRAHAM HAS FIRE SUNDAY AFTERNOON

Flames in the Business Part of Town  
Do Damage Estimated at  
\$40,000.

GRAHAM, TEXAS, May 22.—Fire es-  
timated to have destroyed \$40,000 in  
property occurred Sunday afternoon at  
11 o'clock. The cause of the fire was  
unknown.

It was first discovered in  
Robert Lincoln's garage on West  
Fourth street in the new brick build-  
ing owned by Clairborne and Fisher,  
corner of Grove and Fourth streets.  
The garage and building were a total  
loss. Three wooden buildings west of  
the Clairborne and Fisher were also  
destroyed.

It is learned that \$16,000 insurance  
was carried on the Clairborne and  
Fisher buildings, and \$4,000 on Lin-  
coln's garage.

A great deal of damage was also  
done to adjacent property through re-  
moval, which would be no joke. And,  
prompt action saved the automobiles  
that were in the garage at the time. It  
looked as though the whole west sec-  
tion of the town would be a total loss.

### FORMER ITALIAN PREMIER VINDICATED IN ELECTIONS

ROME, May 22.—Francisco Nitti,  
former Italian premier, was vindicated  
today in complete returns from the  
Italian national elections.

It was conceded quite generally that  
the composition of the new parliament  
favors his early return to the post of  
premier. He accomplished his return  
by refusing to swerve from the social-  
ist party despite the rapid growth of  
anti-socialistic feeling and lately the  
employment of violence by their ene-  
mies.

Election returns show the socialist  
have 122 votes and the popular party  
which will work with the socialists  
thousand in the chamber.

### MORE MEN ARE LAID OFF AT TOPEKA SANTA FE SHOPS

TOPEKA, KAN., May 21.—W. R.  
Story, president of the Santa Fe rail-  
road, was quoted here today as saying  
that the big shops of the road, located  
here, would not be completely closed  
down but that he could give no assur-  
ance there would not be further reduc-  
tion of forces.

Four hundred and seventy men were  
laid off last week, reducing the force  
down to 2,000. A few months ago 2,  
000 men were employed here.

### PORCELAIN MONEY IS DESIGNED FOR GUATEMALA

MEISEN, SAVONY, May 22.—A  
series of porcelain money for Guate-  
mal was designed at the former  
porcelain works here. If ac-  
cepted, this currency will replace the  
hard rubber coins now in circulation  
in the Central American republic,  
where paper money cannot be used be-  
cause of climatic conditions.

Notice is hereby given that the part-  
nership heretofore existing between

the firm name of the Wichita Fuel Oil  
Company, was dissolved February 1,  
1921. All outstanding accounts due to

same and give proper receipt. 253-141c

### SHOPLIFTERS AND OTHER OFFENDERS IN POLICE CUSTODY

A motley array of alleged burglars,  
shop lifters and money thieves, five in  
all, were arrested by the city police  
Monday and turned over to county au-  
thorities for prosecution. Two of the  
five were white men, two others were  
Mexicans and the fifth was a negro.

Dry goods and wearing apparel val-  
ued at \$75 was found in the possession  
of the whites and is said to have been  
taken from the Richardson-Hargwin  
basement several days ago. The negro  
was charged with "having taken \$20  
dollars in cash from the purse of a  
lady who drove her automobile into a  
garage for repairs and left the money  
in the seat. The negro was employed at  
the garage and was found with the  
money in his possession shortly after  
the loss had been reported.

The robbery of a small store on the  
Holiday road late Saturday night led  
to the arrest of the Mexicans, who are  
being investigated for any connection  
with the affair. Some clothing and a  
small amount of cash was taken at this  
place.

### CASE OF MRS. ORTHWEIN AT CHICAGO IS POSTPONED

CHICAGO, May 22.—The day of reck-  
oning for Mrs. Cora C. Orthwein, con-  
fessed slayer of Herbert L. Zeigler, was  
postponed again today.

Mrs. Orthwein's trial on charge of  
murdering the high executive of the  
Goodyear Tire and Rubber company  
was to start today, but a crowded  
docket, in criminal court, caused delay  
until Wednesday.

### LARGE CROWD VISITS LAKE WICHITA SUNDAY AFTERNOON AND ENJOYS ATTRACTIONS

Lake Wichita was visited Sunday by  
one of the largest crowds ever wit-  
nessed in the history of that resort.  
The warm weather causing many to  
repair there for an afternoon in the  
 breeze.

The traction company put its big  
double truck cars into service for the  
day, and in addition to the thousands  
who rode street cars, many auto loads  
of pleasure seekers visited the resort.

### CONDITION OF ASSISTANT FIRE CHIEF IS MUCH IMPROVED

A very decided improvement, with  
the possibility of retaining the sight  
of both eyes, has been reported from  
the Wichita General hospital as to the  
condition of Henry Smith, assistant  
fire chief, who was seriously burned  
about the face by a white lightning  
fire in the City Bakery last Saturday.

It was at first feared that the sight  
of the right eye had been entirely de-  
stroyed, but Dr. C. E. Hartsock, at-  
tending physician in now of the pic-  
tion that the injury is not as serious  
as first thought.

The condition of Joe Blocker and  
J. P. Leshure, hosemen who were in-  
jured in the same fire, is very satis-  
factory.

## Do You Know This?

THOMAS A. EDISON spent three million dollars to develop a reproducing instrument which would give perfect music of all kinds, and which, through its mechanism, could confer upon every home the incalculable benefits of pure and good music, exactly as rendered by the world's best artists.

Duplicates of this original three-million-dollar instrument are now on sale at \$295.00.

### \$167.50

### A Real Edison

We have no hesitation in stating that this Heppelwhite model of the New Edison is vastly superior to any and all talking machines at any and all prices. We are prepared to submit the Heppelwhite to scientific comparison for proof of our assertion—you and your friends to be the judges.

Hundreds of thousands of people believe that \$295 is not too much to pay for the Official Laboratory Model, which embodies all of

Mr. Edison's three-million-dollar research. Many others pay more than \$295 for it in special French and Italian cases, or inlaid and hand-decorated English cabinets. However, there may be some who are not yet ready to purchase the Official Laboratory Model. To them we say: Don't delay, don't deny yourself the pleasure and benefits of Mr. Edison's research work. Buy a Heppelwhite now, and later trade it in on an Official Laboratory Model.

## Special Offer

We have set aside a limited number of these charming Heppelwhites. We shall be glad to prove to your satisfaction that they are far superior to any talking machine at any price. Take one of these beautiful Heppelwhites at \$167.50 with the understanding that at any time within one year from the date of purchase you can, if you desire to do so, return the Heppelwhite and receive credit on the purchase of an Official Laboratory Model. For the full amount paid by you for your Heppelwhite. There are absolutely no strings on this special offer. It is a part of our co-operation with Mr. Edison to put real music in every home, particularly those homes where there are young people whose natures are now molding, and who, above all others, require the improving and ennobling influence of the wonderful music which Edison has placed within their reach of every one.

We are able to make this special offer because there will be no reduction in the prices of Edison instruments. Edison has raised his prices less than 15 per cent. since 1914. Don't wait. Come before this special allotment of Heppelwhites is gone. Come at once.

Special terms this month only. \$12.50 cash—\$12.50 per month.

# SUMMERLIN GOES TO INFORM MEXICO OF ATTITUDE OF U. S.

By A. L. BRADFORD  
United Press Staff Correspondent.  
WASHINGTON, May 22.—George T. Summerlin of the American embassy at Mexico City has returned to the Mexican capital to outline to the Obregon government the United States' attitude on recognition. It was announced today at the state department.

A definite decision has been reported by Secretary of State Hughes on the course to be taken by this government in the Mexican question, it was also announced. Officials today refused to reveal the nature of this decision.

Summerlin who will be in charge of the American embassy in Mexico City, is expected to go immediately into conference with President Obregon upon his arrival in the Mexican capital.

It is believed that Summerlin carries with him a communication from Hughes stating whether the American government will recognize Obregon or whether conditions will be demanded before the extension of recognition.

The chief obstacle so far as recognition of Mexico has been understood to be the possibility that article 27 of the old Carranza constitution could be given retroactive interpretation which would allow confiscation of valuable American oil lands in Mexico acquired before the constitution was amended. This article provides that all subsoil rights in Mexico belong to the nation.

# SAYS GIBBONEY NOT GUILTY OF ASSISTING BERGDOLL TO ESCAPE

WASHINGTON, May 22.—A letter from former Judge John Westcott of New Jersey, assistant attorney general Palmer soon after the escape of Grover Cleveland Bergdoll, draft evader, declared the late D. Clarence Gibboney, Bergdoll's counsel, was "in no way an accomplice" of the fugitive in the escape. The communication was placed before the house committee investigating the Bergdoll matter today.

Judge Westcott was named recently as counsel for Bergdoll, as one of the lawyers in the case, but he denied any connection with it.

Former Secretary Baker wrote the committee that while he had never talked to any of Bergdoll's lawyers, he would be glad to come here and testify. He will not be called, however.

Former Representative J. Washington Logue of Pennsylvania, testified that he had refused Gibboney's request to become associated with the Bergdoll defense.

"I would not represent such a man, for I had two boys in service, one of whom never returned."

# DRYS RENEW FIGHT TO PREVENT COLLAPSE RESULT OF DECISION

WASHINGTON, May 22.—Drys in the house took out their war clubs again today and started a legislative fight to prevent a breakdown in the prohibition enforcement organization.

The decision of the secretary of the treasury and prohibition commissioner Kramer to reduce the federal prohibition force from 1,900 to 500 agents until July 1, because of insufficient appropriations, caused Representative Volstead, Minnesota, to ask for an immediate deficiency appropriation of \$200,000 to reinstate these officers.

# STATE POLICEMEN PATROL THE BORDER OF WEST VIRGINIA

WILLIAMSON, W. VA., May 22.—Volunteer state policemen under command of Captain Brockus today scouted among the mountains bordering the Tug river east of Williamson, where for more than a week hidden riflemen fired upon mining villages in the valley. They were unable to locate a single sniper and returned here with the report that the entire front was quiet.

THREE ARMY AIRPLANES HAVE RESUMED FLIGHT

MEMPHIS, TENN., May 22.—The three army airplanes which arrived at Park Field here last week from Dallas, Texas, en route to Kelly Field, Texas, to Langley Field, Va., left at 8:45 o'clock this morning for Cincinnati. The fleet, in command of Lieutenant G. M. Palmer, is composed of two Handley-Page and one Caproni ship.

# CONFERENCE OVER FINAL SETTLEMENT IN STILLMAN CASE

NEW YORK, May 22.—At a conference today at the offices of Mrs. Stillman's attorneys at which John Mack, guardian of Guy, was present, as well as all members of her staff of attorneys, it was believed that the final details of the settlement offered by Jay A. Stillman would be agreed upon.

John Mack, since question of a settlement was first presented by Stillman's lawyers, has stood out against any compromise. It was not certain today that he would consent to the present terms. He was said to be of the opinion that nothing short of a decision from Justice Morschauer establishing for all time Guy's legitimacy would satisfy him.

# THREE BUSINESS MEN ARE KILLED ON MEXICO BORDER

EAGLE PASS, TEXAS, May 22.—Bandits on a robbing expedition yesterday killed three prominent business men at a point between Esperanza and Mesquite, Mexico, according to telegrams today. The killing occurred 100 miles south of Eagle Pass, the victims being Manuel Linaus, a Spaniard, Elroy Chapa and Manuel Pena, both Mexicans.

# PARKERSBURG RIG COMPANY RANGER PLANT IS DESTROYED

RANGER, TEXAS, May 22.—Fire early today destroyed a large part of the Parkersburg Rig and Reel company's plant here, with a loss of about \$50,000. Nine employees sleeping on the second floor had narrow escapes.

# OHIO OIL COMPANY HAS MADE ANOTHER REDUCTION

FINDLAY, OHIO, May 22.—The Ohio Oil company today announced further reduction of 25 cents a barrel in quotations of five grades of central west grades of crude oil. The new prices are: Lima, \$2.08; Indiana, \$1.98; Waco, \$2.30; Illinois, \$2.02; Princeton, \$2.02.

# PROMINENT TENNESSEE PHYSICIAN SHOT AND KILLED

NASHVILLE, TENN., May 22.—Dr. G. E. Horton, prominent physician of Shelbyville, was shot to death at Wartrace, south of here, by W. B. Carroll, a local farmer, today.

Carroll was arrested and released under \$25,000 bail. He is quoted as saying the physician had broken up his home.

# MUST NOT BE AGAIN, WORDS OF PRESIDENT

(Continued from Page 1)

They saw democracy challenged and defended. They saw civilization threatened and rescued. They saw America affronted and resented. They saw our nation's rights imperiled and stamped those rights with a new sanctity and renewed security.

"They gave all which men and women can give. We shall give our most and best if we make certain that they did not die in vain. We shall not forget no matter whether they lie amid the sweetness and the bloom of the homeland or steep in the soil they crimsoned. Our mindfulness, our gratitude, our reverence shall be in the preserved republic and the maintained liberties and the supreme justice for which they died."

In placing the wreath on the casket, the president said: "In the name of the republic, I bestow this tribute on the casket of the first soldier who perished on the soil of the enemy. This opportunity is not chosen to express the suggestion of hatred in the American heart, for there is no hatred in the American heart, but I have chosen it because I am offering the tribute to one returned whose death on enemy soil marked the day when our civilization went forward and the assault on our present day civilization knew it had failed. May 24, 1918, is the date on which this soldier was killed, and the name is that of Joseph W. Guyton, company I, of the 126th Infantry, a resident patriot and hero of the state of Michigan of the United States of America."

# BUSY DAY IN PLANNED FOR PRESIDENT AND PARTY

NEW YORK, May 22.—President Harding arrived here today from Washington on the Mayflower and landed at West 25th street at 9:55 to face a day's program that will leave him scarcely a minute for rest.

Saluted by all manner of craft as the Mayflower steamed up the Hudson to her anchorage in the center of the great line of destroyers that arrived here last week from the south, President Harding received another salute of 21 guns as he put off in the yacht barge for the naval landing stage.

Amid a continuous boom of guns, the swift little craft darted with the president's party toward the New York shore, where thousands of persons were massed along Riverside Drive to greet the nation's chief executive.

At the dock were hundreds of blue jackets and police, surrounding the motor cars assembled there for the party.

President and Mrs. Harding were met at the dock by Gen. W. G. Halstead, national commander of the American Legion.

The party motored through the wind-

# ING ROADS OF CENTRAL PARK DOWN FIFTH AVENUE, AND ACROSS TWENTY-FOURTH STREET TO THE HUDSON RIVER, WHERE THEY CROSSED ON A FERRY BOAT TO ATTEND A SOLEMN CEREMONY IN HOBOKEN.

This ceremony was a funeral service for more than 5,500 American war dead—representing every state in the union and every combat division of the A. E. F.—whose bodies were brought home last week on the transport Wheaton.

The presidential party landed at the great army piers in Hoboken at 10:30 o'clock.

Preceded by a military guard, steel helmets and bayoneted rifles, the president and Mrs. Harding entered the great hall of the dead.

With bared heads, the president and his party trod softly down the white-walled shed, with coffins to right, cof-

ins to the left and coffins ahead as far as the eye could see. Each was draped with an American flag. Finally, the party passed into one section, holding itself nearly a thousand bodies. It was in this section that the ceremony was to take place. As the president stepped on the platform, a military band struck up the Star Spangled Banner.

President Harding's visit today became all the more momentous when it was announced that the chief executive will participate in memorial ceremonies in honor of more than 5,000 war dead whose bodies are at Hoboken, an arrangement made by wireless by the American Legion.

Other than participation in the memorial exercise plans for the president's program remained unchanged. Upon his return from Hoboken, he will go to the hotel Astor to address the

# SAYS RAILROADS CANNOT GET MONEY TO IMPROVE

WASHINGTON, May 22.—The railroads of the country ought to be preparing for the return of prosperity that is sure to come, but they are unable to obtain the necessary money, A. H. Smith, president of the New York Central line, declared today at the opening of the third week of the senate inquiry into the transportation situation.

"For twenty years the roads haven't had sufficient income to meet the demands of their developments," Mr. Smith said. "We ought to be getting ready for the return of prosperity. I'd like to be getting ready so that you will not have me down here after a while to explain why we can't handle the business."

JUBILEE'S PARTNER

When I had got everything done yesterday morning and was setting on the front step with my feet in my slippers and Jubilee sitting by the side of me, feeling sorry for me because I had got my neck washed to go to Sunday school with Nibs, come along and said that he was going up past the school to paint a kid that had made a snoot at him and for me to come along. I would of liked to but my aunt was listening by the door so I said to him that I was not that kind of a fella. I said that when I was giving my dear little sister to mind I minded her, so then he cut on towny and bring there and he went on to paint the fella.

My aunt came out and said I was improving and give me a cent. I asked her if I could go to the school to paint like she'd like to take it back, but I had it. And anyhow just then Nibs come back past our house like a deer with his hat in his hand so he could run faster and the fella he went to paint was right behind him. My aunt said, "Where do you suppose them boys going in such a hurry?" and I said I guess they were going to Sunday school.

PRESENT DELAY COSTS COUNTY \$375 PER DAY

One of Commissioners Favors Cancellation of Pending Contract With Company.

The crushed rock contract, which the county holds with the Lone Star quarry at Chico came in for its share of attention by the commissioners' court again Monday.

It was pointed out to the court that, due to lack of material, work had to be abandoned on the Iowa Park road and that the delay is costing the county approximately \$375 per day depreciation of machinery and salaries of those hired by the month.

The court at the afternoon session rescinded the order passed two weeks ago calling for an inspector stationed at the quarry, hired by the county engineer and paid for by the stone company.

One of the members of the court was highly in favor of cancelling the contract with the Lone Star company. This was not deemed advisable at this time by the other members, but it was definitely decided upon that the stone company would be given until next Monday to install the new machinery and that after that it would be entirely up to them to furnish the county with the required amount of stone.

It should be their task to secure it from some other source, commissioners said.

T. B. Noble of the chamber of commerce appeared before the court. He visited the stone quarries at Chico Saturday. He stated that he had been in recently drawn into the affair and that he did not come before the court to dictate. He stated, however, that in his opinion the establishing of an inspector at the quarry, paid for by the company, was of no value.

There was much discussion over why there was no stone on hand since orders had been given that if the Lone Star could not supply the necessary amount that stone should be purchased from the North Texas company.

It was reported that the county engineer stated that he had placed an order for 75 cars of rock with the Texas company, but a representative of the Texas company, who appeared personally, stated that the order had never been received. He said that they could have sent at least 50 cars of stone to Wichita county last week had they had an order to do so.

The Fort Worth & Denver City Railroad company communicated to the commissioners' court Monday that it would require an additional deposit of some \$12,500 in addition to the \$2,500 appropriated last week in order to have the spur built between Iowa Park and Electra. This spur is to be used for the unloading of material on the road project work.

The court was also advised by the attorney general of the state that the purchase of the rights to the road for a road foreman in one of the precincts was not legal. The court passed an order and advised for the car which has already been ordered.

The court considered that payment of \$55 for the sharpening of two lawn mowers for the county was excessive, but passed the order with the understanding that the firm was to have no more business from the county.

NOT EXPECTED TO ASK FOR DEATH PENALTY IN CASE OF DENSEL CHESTER

KANSAS CITY, MO., May 23.—Questioning of prospective jurors to hear the case of Densel Chester, charged with the murder of Mrs. Florence Barton, prominent young society girl, indicated the state will not ask for the death penalty for Chester.

County Prosecutor Orr did not once refer to a death sentence for the defendant, as man after man was examined in the criminal court today.

Chester hobbled into the court room with the aid of a cane shortly before court opened. His attorneys promptly announced themselves ready when the case was called.

The first twelve veniremen examined qualified and were ordered to report for service until the panel is completed. Thirty-five remained to be chosen shortly before noon.

The selection of the jury, it is expected, will take from two to four days.

GENERAL PERSHING IS GOOD ROADS BOOSTER

Money Wasted Unless Fund For Maintenance is Provided, He Says.

WASHINGTON, May 23.—General Pershing speaking from experience gained in France and in the Philippines, told the senate post roads committee today that money appropriated to build roads for which maintenance was not provided was money wasted.

The general said that in his opinion a central body such as the highway commission provided in the pending Townsend bill was necessary to coordinate highway construction.

Local roads of the roads directly serving the farmer, he said, were most worthy of consideration by the federal government.

The country roads, he said, are of tremendous value in time of war, he continued, adding that the railroad plans so far worked out for troop movements, but that the farm market roads must be relied on to obtain the needed food supplies.

Replying to questions from Senator Odde, republican, Nevada, who sought to establish that trans-continental highways should be undertaken at once as a defense measure in event of hostilities on the Pacific, General Pershing said he could see no great need for such roads in view of the existence of four great trans-continental railway lines.

He minimized the suggestion that in event of war enemy spies might put those railways out of commission, remarking that spies did not blow up any railway bridges in France.

MOVING PICTURE CASES POSTPONED UNTIL TUESDAY IN COUNTY COURT AT LAW

The cases against moving picture show proprietors and operators which have been set down for trial Monday morning were passed over until Tuesday morning. The court in the county court at law was engaged in the trial of a case today. It was reported, however, that the defendant and attorney would both be ready for trial Tuesday morning.

The cases include also those who were picked under arrest three weeks ago when the moving picture shows in the city opened their places on Sunday.

GRADUATING SERMON HEARD BY SENIORS

Baccalaureate Service Held Sunday Morning at Baptist Church. Rev. Powers Speaks.

"The Glories of the Gospel," as exhortation of the servitude of Christians to the world today, was the main theme of a stirring sermon delivered by Rev. O. L. Powers of the First Baptist church to 75 members of this year's class at the baccalaureate service Sunday morning. A crowd which taxed the big Baptist church auditorium to its limit was on hand when the seniors filed in, capped and gowned, and took their places in a reserved section.

"I am not ashamed of the Gospel of Jesus Christ," Rev. Powers told the students in opening, and then went on to point out that applying Christianity to the problems of the world is the only way to success. In citing examples of the worth of Christianity the speaker pointed out a few of the more important achievements of Christian movements and dwell at length on their beneficial influences on mankind.

In closing, Rev. Powers exhorted his hearers to remember the teachings of Christ, and assured them that an application of the principles of these teachings in any line of business would be amply rewarded.

The invocation of the service was delivered by Rev. W. C. Ashford, assistant pastor of the church, and was followed by a prayer given and heartily received by the club. E. C. Huckabee got the crowd raring around the tables Indian fashion to the tune of some selected new Kismet songs before the program started.

Rep. Powers told the senate post roads committee today that money appropriated to build roads for which maintenance was not provided was money wasted.

FOUR BATTALIONS BRITISH SOLDIERS FOR UPPER SILEZIA

LONDON, May 23.—Four battalions of British soldiers will leave immediately for Upper Silesia, it was announced officially at the war office today.

The troops are to be drawn from the troops along the Rhine. The battalions will augment the allied forces sent to preserve order until the plebiscite has been determined.

Officials reports here today said that fighting between Polish and German troops in Upper Silesia in the neighborhood of Kreuzberg, Losenberg and Kapititz, the fighting was continuing. Well armed Polish forces were dispersed by two columns of Germans, armed with revolvers, who marched boldly into Grindler Forest where large Polish forces awaited them in roughly made barricades.

Poles after a sharp conflict at Lovitzko, were overwhelmed by the Germans. They set fire to numerous buildings, terrorized the German inhabitants and withdrew. The most extensive damage there was a notable landmark.

Losses on both sides were said to be mounting.

GRISHAM TEST HITS NEW SAND ON GOSE

Chancee Believed Good For Producer. Increasing Activity in Old Texhoma District.

After drilling into an apparently hard sand at 7.613 feet, the Grisham test on the Gose is now setting the casing on top of a good sand struck at 1,620-1,625. Some water is showing, which is thought to come from above. Mr. Grisham thinks he has a good chance for a well.

Seven miles southeast of the Texhoma discovery the Bluff Creek Oil company has made location for a well on the southeast corner of the Aldridge survey and a derrick is being erected. The well is 10 miles south of Wichita Falls on the Archer City road.

In the old Texhoma field southeast of Burkhardt the Progressive Oil company is testing out a good sand at 1,100 feet on No. 9 Roller; the Texhoma Oil and Gas company has a good sand at 1,576 feet. On the Beach tract the Old Colony Oil company is testing a sand at 1,030 feet. The Sinclair has a derrick up for its No. 4 Rexford. The Jones Light Gas company is drilling at 800 feet in its test on the Rexford.

At Electra, Nelson Bros. have started their No. 2 Waggoner, being down 250 feet after skidding their rig 300 feet south of the No. 1, which is now making 10 barrels. Hobbs et al. No. 3 Burdett is testing a good sand at 800 feet. McClure Oil company's No. 2 Henson on the Eaves survey, eight miles southeast of Electra, is rat-tailing in the 1,200-foot sand. A 1,000-foot test is to be put down on section 10 of the Fisher tract east of Electra, by Deo Fisher and associates.

# HARDING PLANS TO PLACE GOVERNMENT ON BUSINESS BASIS

## DISCUSSES PROGRAM BEFORE ACADEMY OF POLITICAL SCIENCE

### GUEST AT LUNCHEON HELD IN NEW YORK CITY

Requires Persistent, Determined, Stoney-Hearted Devotion to the Public Interest.

NEW YORK, May 23.—The administration's purpose to place the federal government on a sound business basis, even at the cost of offending "a certain class of politicians," was reaffirmed by President Harding here today in an address at luncheon of the Academy of Political Science.

The task, the president declared, already had shown that to be successfully completed it would require "persistent, determined, stoney-hearted devotion to the public interest." He said that sympathy for the office holder whose only excuse for drawing a salary is that he needs the money. Loss of a certain sort of prestige to the administration, Mr. Harding said, was certain to result, though it might be compensated in the long run by a realization of the good accomplished for the general public.

Everywhere we turn, we note that government has in recent times assumed a more complex relationship to the public. The mobilization of man power, industrial forces and financial resources, which was made necessary in the war's exigencies, could only have been accomplished through the exertion of the utmost powers of the government.

As a result of that demonstration of government's capacity to force great results in emergencies, there has grown up a school of thought which assumes that even in time of peace the same autocratic authority might well be exercised.

Those who look below the surface know that the things which governments accomplished during the war, were accomplished at a staggering cost, a cost which society could not bear for long; a cost that has left society burdened with debts which mortgage generations of the future. They know that the feverish seeming of prosperity was not genuine, but was possible only because society was literally burning up its stocks of capital; and that this destruction of capital was responsible for the reaction and depression which are now felt universally.

Government, to a greater extent than ever before, is under obligation to give the greatest service for the lowest possible cost. But it is for certain obvious reasons difficult to do this because government is not under the necessity to earn profits, nor to obey laws which regulate the competition. These are the prime guarantees of efficiency and fair dealing in private business. They do not apply to government; and therefore government should be placed, so far as possible, under a strict away of the methods which are applied in private business to secure these ends.

Mr. Harding spoke of the "multiplication of bureaus and departments in recent years and continued: "Fortunately, the prospect is not so hopeless as might appear, because the present organization is so bad that the most persistent application of a few established principles of sound business organization will result in immediate economies.

"At the beginning of his administration, President Taft secured from congress the establishment of an economy and efficiency commission. It made a comprehensive survey of activities, organization and personnel of the whole government establishment. The report on that survey was never printed. But it is available and can be consulted in determining where wastage and overlapping of function are.

"The present congress has already provided for a joint committee on the reorganization of the administrative branch of the government. A representative of the executive will serve with this committee so that there is now in progress a thorough study of the whole problem. The task will require some time, and ultimate results must await it. More, it will demand a resolute courage to effect the abolition of the useless and the co-ordination of the useful.

But meanwhile we shall, I trust, have

a budget system in operation under the law, before the opening of the new fiscal year.

### Urges Budget System

"Establishment of a budget system is the foundation on which reorganization must be based. It is hardly conceivable, indeed, that a proper budget system could be established and carried on for any considerable time without forcing attention to the evils and effecting the reform of many of the evils in the present system. But the budget program will not do everything. There must still be much and consistent effort to keep expenses down to insure full value for every dollar of the tax payers' money the government spends.

Too much stress cannot be laid on the fact that eternal vigilance is the price of economy and efficiency. It requires persistent, determined, stoney-hearted devotion to the public interest. There must be utter sacrifice of all sympathy for the place holder whose real reason for keeping his position is that he wanted the salary. The men who conscientiously and intelligently do this work must not expect to popularize themselves with the office holders or with the liberal spenders. Even the administration which devotes itself relentlessly to such work must understand that it will lose a good deal of immediate loyalty on the part of a certain class of politicians, which will not have the deep, immediate interest, or the active concern, which will animate the person who finds himself being pried loose from the purse string.

### Temporary Relief

"Nevertheless, thankless and ungracious as the task will be for most of those who devote their efforts to it, it must and will be attacked; it is being attacked, with all determination. Something can be done even pending the effective inauguration of the budget and the survey by the joint committee toward bettering conditions. In all the departments, I may say to you, this sort of work is already progressing under executive orders. We shall need the full support of enlightened public opinion, and, realizing this, I am glad that such bodies as the Academy of Political Science, the United States Chamber of Commerce, the engineering societies and business organizations generally are studying and discussing these questions. Out of such councils will come truer appreciation of the difficulties and magnitude of government business, a larger sense of public responsibility and a highly desirable co-operation between public and private business for the common good."

AMERICAN VICTORIES STIR GOLFING WORLD

Viscount Northcliffe, England's foremost newspaper publisher and a leading amateur golf enthusiast of Great Britain, will "cover" the amateur golf championship for the United Press.

SPORTS SHOTS by Paul W. Barkin

Looks like a repetition of the first road trip. It wasn't Danny Clark's fault that he lost. However, he needs some co-operation.

After reading one account of the game and listening to the telegraphic reports at the Airmen we would say that the Spudders passed up their best opportunity to win in the fifth when three singles and a base failed to produce a run.

It was also stated over the wire that a couple of Galveston hits that figured prominently in the run scoring were blows through Danny Gross which an experienced shortstop would ordinarily have struck in his hip pocket.

However, it's the same old story. If the boys get the pitching, they don't get the hitting; if they get the hitting, they don't get the pitching; if they get both, they kick 'em. They're not able to do everything right at the same time.

The Pirates pulled another game out of the fire yesterday by scoring a half dozen runs in the final chapter. These won five out of seven games and rose to third place.

The Giants were lucky to get out of the Cub series with an even break. Cincinnati and the Athletics are in a terrible slump.

Brooklyn Slipping Fast — Yankees Show Good Form — Tigers and Braves Still Winning.

By HENRY L. FARRELL, United Press Staff Correspondent. NEW YORK, May 23.—Utter collapse of the Brooklyn champions, the continuation of a sensational sweep through the east by the Pittsburgh Pirates and the erratic work of the New York Yankees and Cleveland Indians in the major leagues last week.

George Gibson's Pirates are the real sensation of the early season. The Pirates had an easy time with the west coast teams and came out to meet what was expected to be a critical time.

However, the Pirates won five out of six games. They slaughtered the Robins and have started in like brigands on the Giants.

Washington came in for some grief on the trip losing five out of seven games. Cleveland won four out of seven by the way.

Keen Disappointment Among Americans When it is Learned He Cannot Play. HOYLAK, May 22.—J. Wood Platt of Philadelphia injured his knee in a fall here last night, and will be unable to play in the amateur golf championship tournament, as his injury will prevent him from walking during the next four days.

By VISCOUNT NORTHCLIFFE, (Copyright, 1921, by the United Press.) HOYLAK, ENGLAND, May 23.—The wonderful victories of the Americans Saturday have profoundly stirred the golfing world of Great Britain, but as I have intimated before, the play of the British team Saturday is a criterion by which to judge the fight for the amateur championship of Britain.

Manford, who meets Bobby Jones, who hits off the first ball Monday morning, was not included in Saturday's play. Nor was Torrence Harris.

Mark Seymour, who meets Wright Monday afternoon, Hambro and quite a number of others who are at least as good and probably better than any other players, who went down so disastrously.

It is beginning to be considered here that we have no amateur equal to what are regarded as your best three—Chick Evans, Bobby Jones and Francis Ouimet.

Chick Evans is pretty certain to beat Stoner Crowther and Outmet has a tougher opponent in Dick. Monday is likely to be a day when the Americans will win.

Mark Seymour is young and has had very little public experience. He is sure to have a big fight against Wright.

The big match will be between Hunter and Carter for the Irish championship. Three old-timers will play Monday—John Ball, who was a great player at 15 years of age; Montgomery, who is 50, but who gave Bobby Jones a good fight Saturday; and Hilton, who won your championship.

Everyone hopes the course will not be as fiery as Saturday's. Everybody is full of praise at the modest demeanor of your team.

#### Surprises Sprung in Qualifying Rounds For Bower Trophies

Play was expected to start today in the first round of both the first and second flights of the Country Club tournament for the two Bower trophies. Some surprises were sprung in the qualifying round Saturday. Such players as Frank Collier, G. F. Reppy and Walter Robbins failed to get into the first flight, while Edman and Burleson in some manner got into it. W. H. Sanford, with a score of 111, won a special prize offered by Robbins brothers, of a three-year golf insurance policy; this form of insurance protects the policyholder against loss as a result of accidents to himself, his caddy, other players or to property.

T. E. Cochran and Dud Golding, among the most formidable contestants in the first flight, drew each other in the opening round.

The brackets for the two flights, together with the handicaps and qualifying scores of the players, follow:

### Players and Fans Are Knocked Out By Lightning Bolt

Just as the Browns went to bat in the final game of the series with the Detroit Tigers in St. Louis on May 9, a terrific bolt of lightning struck the grandstand, the iron railing flashed fire and the crash was deafening. Players were knocked down on the field, spectators were sent tumbling from their seats and the wire netting about the press box was a blaze of fire, with the noise like that of a machine gun in action.

Several newspaper men were sent sprawling, but none seriously hurt and none of the spectators were badly damaged, though several were made unconscious for the moment. On the field players were put out as though with a club.

McManus of the Browns, who was at bat, fell over on his back and rolled over unconscious. Owen Bush at short field was hit in the chest and fell. Jones was brought to his knees by the shock, but retained consciousness. Pop Young was half down, one hand on the ground. O'Day was hit in the chest. The a drunken man, Lee Fohl on the coaching lines went tumbling.

The worst damage was in the Tigers' dugout, where players were hurled in every direction. Carl Kling went out completely and was a long time coming to. Ira Fliegstad tumbled down the stairs, landed on the back of his neck and suffered severe sprains. Walter Stewart was standing at the water jar with a tin cup in his hands. He doesn't know yet where the bolt struck.

### The SPORTLIGHT by Grantland Rice

LIVERPOOL, ENGLAND. You might think that England, with so many international activities under way in the realm of sport, would not be overjoyed. Yet the average Englishman is turning a yearning eye in the general direction of Jersey City, N. J., Dempsey and a Mr. Carpenter will exchange costly salutations upon July 2.

Englishmen esteem a prizefight as a losing match above every other sport. You can imagine how deep this affection for the game must be when you look back over the line of British heavyweights for the last thirty years, culminating in a Joe Beckett and a Bombardier Wells.

They know quite a bit about Dempsey, but their main interest is in Jack Dempsey, whom most of them have never seen. You can't start talking sport for two and a quarter minutes before you are frisked for your opinion concerning the champion.

There was a time when Carpenter was favored over here to win. The Frenchman whipped Wells in a stanza or two and stopped Beckett with a lone punch.

Naturally when a man scrambles up the two best heavyweights in a nation, all inside of five rounds, that nation will be inclined to think well of him, with a leaning toward enthusiastic praise.

If Carpenter could whip Beckett in a round he must be invincible. But when Frank Moran dropped in upon the pugilistic constituency one day and soaked Beckett for a goal in less than two chapters, Carpenter naturally shed some of his glamour.

They still think he is a great fighting machine. But he is no longer classed as a miracle worker.

**WHAT THEY THINK OF CARPENTIER.**  
Veteran English critics who have seen Carpenter in action figure that he has a good outside chance to win for two reasons, no matter what Dempsey may be.

The two reasons are that Carpenter is extremely fast and can hit like a battle-ax.

The fighter who carries these two prime requisites is always dangerous. For a fast hitter who can hurt is liable to start something at any moment.

Over here they seem to take it for granted that Dempsey must be a giant in the field. They saw Fred Fulton six feet five inches and his 240 pounds of displacement. And then they were told that Fulton was a pale wisp compared to Willard. And Dempsey knocked Willard down seven times in the first round.

Many of them are astonished to hear that Dempsey won't weigh as much when he meets Carpenter as Beckett weighed.

"Carpenter," a well known fight critic remarked, "undoubtedly has speed, skill, brains, courage and the punch. You may say that is quite sufficient. But is it? Can he take the pounding that Dempsey can take? Is he as rugged and as strong as Dempsey, also, his important matters to consider. Besides, Wells nor Beckett was able to prove his stamina, for he stopped both too quickly. The Beckett fight was very sad. But while we have never seen Dempsey, we understand he is not a slow moving Beckett."

**NEW EXPERIENCE.**  
It might well be suggested, the critic continued, "that this contest will be a novel experience for both men. Dempsey has never met a man who has hit him as hard as the French champion can hit. In turn, Carpenter has never met a man in Dempsey's class. He has never met a fighter who had the same speed as Dempsey, the same terrific crushing power in his blows. He can't afford to take the chances he took with Wells and Beckett. He must be more careful, and this alone will take away some of his dash. But it will be a great fight while it lasts."

When an observant Scot first saw Woodie Platt step up and hit the ball while apparently still walking, he thought at first that George Duncan had broken back into amateur ranks. Duncan is the fastest player in Great Britain, but even the nervous speedster Scot has nothing on Platt as a swift traveler, whether through the fairway or upon the green. In the course of an eighteen hole match Woodie probably used up about twenty-seven seconds between his seventy-six or seventy-seven strokes.

### LOCAL GOLFERS TO LEAVE TUESDAY FOR STATE TOURNAMENT

At least eight members of the Golf club will leave Tuesday for Dallas to attend the 15th annual state tournament which may decide at the moment to join the party. T. H. Cochran, Dudley Golding, C. J. Norton, G. F. Reppy, A. H. Brittain, A. R. Cotton, S. L. McDowell and John O'Donnell have sent in their entries. W. E. Norton and T. P. Adams may also go.

The qualifying round will be played Wednesday, being limited to players with a handicap of 14 or better, which means that those who cannot shoot the local course in as good as 44 are barred. The makers of the 22 lowest scores will comprise the first or championship flight, the next 22 will compete in the flight for the Dallas cup, and the third flight will play for the Trinity cup. The 14 to be first eliminated in the championship flight will compete in a consolation round for the Texas cup. There will be no medal to the maker of the lowest qualifying score.

Two man and four-man teams from the several clubs will compete for trophies, also.

The tournament will continue through Saturday, on which day the finals for the state championship will be played.

### UMPIRE DOYLE HELPS TO DEFEAT ELKS IN ARDMORE

The Ardmore Elks, greatly aided and abetted by the umpire, defeated the Wichita Elks yesterday in Ardmore, 5 to 1. Umpire Doyle, erstwhile Texas league arbiter whom ability to call 'em right was always questioned, handled the indicator and it is the contention of the local team that many of the decisions rendered by him in favor of the winners weren't even close. Both clubs played good baseball, but the odds were too great for the locals to overcome.

A return match will be played at Athletic Park June 6. The Spudgers have no game scheduled for this date and the Wichitans claim that there will be a different tale after the next contest.

### BRITISH ISLES TENNIS TEAM WINS PRELIMINARY MATCH

LONDON, May 23.—The British Isles tennis team won the first preliminary match of the Davis cup matches here today by defeating the Spanish team, 6-4, 6-2 and 6-4.

The American player became a top-up again at the 15th, where he was on the green with Manford short, Jones then took the sixteenth and the match.

R. R. Burton of Mid-Surrey, beat W. L. Thompson, American, 3 up and 1 to play.

E. Hunt of Texas defeated A. C. Crichton, of Wallasey, by 3 up and 1 to play.

W. C. Fowkes Jr. of Pittsburgh had a walkover, owing to the fact that G. O. Hutchinson, of the Royal and Ancient, scratched.

Chas. (Chick) Evans of Chicago beat D. S. Crowther of Coombe Hill by 5 up and 4 to play.

Francis Outmet of Boston defeated C. E. Dick of the Royal Liverpool by 3 up and 2 to play.

F. J. Wright of Boston beat W. W. Seymour, of North Foreland by one hole.

Harold K. Hilton former British amateur champion, defeated M. K. Foster, of Aberdey, 5 up and 4 to play.

### TARIFF CONGRESS TO MEET IN FT. WORTH

Similar Meeting to be Held Throughout the South, According to Plan.

WASHINGTON, May 22.—A congress of the southern tariff association will be held at Fort Worth, Texas, on Saturday, June 4, to aid the effort to have mineral, oil, hides and vegetable oils placed in the permanent tariff bill, according to announcement today by John H. Kirby, president of the association.

Louisiana, Arkansas, Oklahoma, New Mexico and Arizona expect to be represented. The Fort Worth congress is the beginning of a series of similar meetings to be held throughout the south to uphold the sentiment for a permanent tariff policy.

### WARNING NOTE IS SOUNDED BY SENATOR

Urges Congressional Investigation of Lobbies in the National Capital.

WASHINGTON, May 22.—Business men of the country were warned today by Senator King, democrat, of Utah, that "if they keep on trying to destroy competition in business by tariffs and combines which challenge the right of consumers to live they will have socialism to face."

The senator in an address to the senate urged congressional investigation of lobbies in the national capital, and particularly of efforts which were being made by dye interests to get legislation.

### BARBED WIRE ENTANGLEMENTS SURROUND CARPENTIER QUARTERS

Elaborate barriers are being erected around the old Mathews estate, Manchester, Long Island, to insure peace and quiet for Georges Carpentier, the French champion, who is training there for his title bout with Jack Dempsey on July 2. A high board fence has been erected around the barns on the estate, which have been fitted up as gymnasiums, wherein Georges will do most of his training. Barbed wire has been added to the picket fence in front of the house in which Carpentier will live during the training period. The house is shown in the background.

### WELL ON NETHERTON RANCH STRIKES SAND, AND LOOKS PROMISING

Picking up a rich sand at 1,615 feet, the well of the Rathke Drilling company on the E. J. Netherton ranch in Archer county is the latest test in the new field to make a bid for play. A 24-foot core was run with promising results. The hole is now being underreamed to set the 61-inch casing and complete.

The well is a mile and a half south of the Texoma discovery and would open up a nice stretch of territory if it made a productive Messrs. Heydrick, Snow, Johnson and Richardson have over 3,000 acres surrounding the well.

### Sheriffs Must Pay Expense for Moving Distilling Outfits

AUSTIN, May 23.—Sheriffs of Texas are not allowed expenses for hiring trucks to go after a whiskey distilling outfit which is to be used as evidence against parties taken into custody for operating the still, according to an opinion given by the attorney general's department today.

The opinion held that county commissioners' courts were not authorized to allow expenses for such purposes.

### TWO FIREMEN ARE SERIOUSLY INJURED IN ST. LOUIS BLAZE

ST. LOUIS, May 23.—Two firemen were seriously injured and two others suffered painful injuries fighting a spectacular blaze in the old levee district here today.

The damage was estimated at several hundred thousand dollars.

The blaze started in the George T. Mathews and company building and spread rapidly to two adjoining warehouses.

Business in the district was practically paralyzed for several hours.

The warehouse was stored with lubricating oils, gasoline and resin. It burned fiercely and flames shot into the sky.

District Fire Chief Angelo and Lieutenant Stacy, who were among the first to arrive, were seriously injured when a barrel of oil exploded.

The Mathews building is within a few feet of the spot where Pierre Chouteau landed from the Mississippi river in 1763, from which grew the settlement of Saint Louis.

SHELTON DEFENSE FAILS TO EXCLUDE MURDER CONFESSION

CASE OF ALLEGED SLAYER OF THOMAS ABSCHER GOES TO TRIAL AGAIN MONDAY.

QUESTION OF MENTALITY OF DEFENDANT IS RAISED

Jury is Completed at Noon Monday and State Introduces Several Witnesses.

The defense in the case against Willie Shelton, charged with murder, made a triple effort Monday to have the alleged confession of the defendant excluded from the testimony but failed each time.

The defendant, half Italian and half Indian, went on trial Monday in the 23rd district court for the murder of Thomas Abscher, the watchman of the Bob Waggoner building, who was struck by a dynamite bomb on the roof of the building Sunday morning.

The defendant made a confession before Judge J. Davenport, then county attorney, four days after Abscher was found. The defense first raised the objection to the introduction of the alleged confession on the grounds that the state had not proved the body of the crime, contending that there was no testimony before the jury that the dead man was not a Jew, an acrobat or a burglar.

The next objection was that the defendant had not been sufficiently warned before making the confession and the third objection came after the confession had been read to the jury in which counsel asked that the confession be excluded on the grounds that the defendant had not known the intent of the other two men he was with.

The court overruled all three objections. Dave Maya was the second witness called to stand after the state had called the defendant. The state called the defendant's brother, Thomas Abscher, who was dead.

### Children's Home Workers to Go Before People of Wichita Falls For Funds to Continue the Work

"You see," explained Miss Katherine Henricke confidentially to a Times reporter, "we can't believe that since our salaries slide a little, if he have to, but we have simply got to have enough money to handle the cases themselves and pay the children's transportation and for the general upkeep."

"Most of the \$700 debt now in the workers' salaries, but, of course, we haven't said just what it was. It oughtn't to be a breach of confidence, however, to let the people of Wichita Falls know that the women who are rescuing and giving a chance for a wholesome upbringing to the children of Wichita county are that kind of workers. They are not only put-ting in from 12 to 14 hours a day, but they are willing to let their salaries slide a little—if provision is made for the children. Can't you see that?"

The Home and Aid society, which is operated entirely at an expense of something less than \$8,000 a year—not a big salary for one good business man—is going before the people of Wichita Falls for funds to pay off a \$700 indebtedness and continue the work for 30 days. After that they plan to get the funds for carrying on for another 30 days in Parkburnett, Iowa Park and other towns of the county. But right now they are held up at the door. "We weren't afraid," Miss Henricke said when asked why the society did not conduct a campaign last winter, "but we were afraid of the people of Wichita Falls. First one thing and then another came up for money and we put our work to one side here, and our children are brought right here, and people know exactly what we are doing. If they read the papers, it would be a little easier for us to be provided for than some of the other relief causes. So we just waited along."

Just for instance—The children who are brought to and gone after by Miss Henricke and her assistant in Wichita county are usually in surroundings and conditions which would be unbearable to the average father or mother. Last week the society closed one case, which was the most pitiful in the history of the work. "Wichita Falls," she said, "is a place familiar to the reading public through the news item which told, several weeks ago, of the burning and resulting death of a mother of three or four children living in a tent near town. The whole circumstance of the tragedy was a chain of woe for a mother and father struggling to get their family together. The mother, ill, fell against the stove and in trying to get away from the terrible burns, crawled outside the tent. Her husband, who had been drinking, shot her a few days later. The children were taken by Miss Henricke and are being cared for in boarding homes in the city until real homes can be found for them."

And this past week Mrs. Owsley of the Welfare council and Marvin Smith brought a little 12-year-old girl, hugging a big doll, to Miss Henricke. The child was bright and sweet, but its body was black and blue with bruises and marks from beating. The mother had been arrested for drunkenness. Miss Henricke kept the little girl at her own room until Friday morning when she was sent to the receiving home of the society at Fort Worth, partly because there was no boarding home left on the local list ready for her, and partly to get her away from the circumstances and remembrance of her terrible experience. When legal possession is established by the society she will be given a real mother and father somewhere in Texas.

"I could get a home for her in two hours," Miss Henricke said. Another case closed several weeks ago was that of a little girl who was placed in a "real" home on a big prosperous ranch. The girls were thirteen and nine, and their mother died in a hospital several years ago. When they were brought to Wichita Falls to work, and managed to keep them several years. He became seriously ill and never fully recovered. His health was something he couldn't combat, and for the children's sake he turned them over to Miss Henricke. Neighbors said that the oldest child was getting unmanageable and should be sent to a corrective institution.

### TENTATIVE GIFT OF \$50,000 TO CHURCH

Mr. and Mrs. J. J. Perkins Offer Sum to Education Fund if Equal Amount is Raised.

If Wichita Falls Methodists accept the challenge of Mr. and Mrs. J. J. Perkins, this city will make a \$100,000 contribution to the \$35,000,000 educational fund of the Methodist church, South.

At a meeting of the local committee Sunday, Mr. Perkins announced that he and Mrs. Perkins would make a joint gift of \$50,000, provided an equal amount were raised here. In a campaign to be inaugurated without delay, the committee expects to match the Perkins' gift, and to use the \$100,000 thus to be obtained to endow a chair in Southern Methodist University at Dallas.

This is the second large gift from Wichita Falls to Southern Methodist university. W. R. Hamilton some time ago giving \$50,000 to that institution to endow a chair of geology.

Ten teams have been selected to conduct the local campaign, and the captains are making active plans this week for their work. T. R. Noble, C. W. Snider, Oral Jones, T. T. Bessa, Rev. J. C. Pinkston, Rev. E. C. Huckabee, C. M. Clark, N. H. Martin, W. D. Cline and Rev. H. D. Knickerbocker are the team captains.

is injured in diving collision at lake pool

A diving collision between Ernest Beer and Charles Carter, while swimming at the lake pool Sunday afternoon, came near causing the death of the former. He was stunned by the impact, and did not come up again after his dive; other swimmers did not notice the accident, but started diving for the injured man when spectators shouted warnings. Beer was taken from the water by Joe Elliott and others and rushed to the Methodist hospital where he recovered consciousness. He is a fireman on the Wichita Valley.

### A VISION OF OUR WORK

The optician is more than a fitter of eyeglasses and a helper of those with defective eyes; he is a missionary who, if given the opportunity, would banish from his community, every trouble that comes from poor eyesight.

The appeal of the Wichita Falls executive committee for the assistance of the starving Chinese has our hearty endorsement and support.

It should be a pleasure to deny one's self a small luxury to save a human life.
