DEMOCRATS HOPE TO REGISTER BIG GAINS IN LODGE'S DISTRICT

SEE REPUBLICAN SPLIT BY PRIMARY VICTORY OF ANTI-ORGANIZATION

DAUGHTER OF THE SENATOR WANTED TO MAKE RACE

Congressman To Be Elected in Sixth Massachusetts District On Tuesday

WASHINGTON, D. C., Sept. 22.—Fully as interesting as New Mexico's election of a senator is one that is going to occur in the sixth congressional district of Massachusetts next Tuesday. This coming Massachusetts election narrowly missed having dramatic qualities which would have focused the attention of the country on it. The sixth Massachusetts district is the one in which Senator Henry Cabot Lodge has his home, and there is gossip in Washington to the effect that Senator Lodge's daughter, Mrs. Augustus Peabody Gardner, wanted to try for the republican nomination but was dissuaded by her father.

If Mrs. Gardner had tried for the republican nomination she would undoubtedly have won it. If she had got the nomination, she would with equal certainty have won the election. In that event she would have been the third woman to occupy a seat in congress, and her political and personal background being what it is, and her personality being as forceful as it is, her presence in congress would have had greater significance than that of her two feminine predecessors in that body. One from Oklahoma and one from Montana.

Mrs. Gardner is not only the daughter of the senator from Massachusetts but is also the widow of the man who represented the district in congress for ten years. He was one of the most promising public men of his time, and his death, which occurred in a southern army camp, where he had enlisted to go to war as a private, lost to congress one of its most useful and intelligent members. After Representative Gardner died, his secretary, W. Lufkin, succeeded him and had the office through two elections until July of this year, when he resigned to become collector of the port of Boston. Through all these years of the tenure of Gardner and Lufkin the sixth Massachusetts district has been a solidly republican district. Gardner and Lufkin rarely failed to get twice as many votes as their democratic opponents, and on more than one occasion got three times as many. Under the circumstances it is not to be expected that the democrats carry the coming special election, but they have been able to make gains sufficiently impressive to be presented to the country as evidence of shifting sentiment in the home district of the republican leader of the senate. For their hopes the democrats rely not only on changed business conditions, since the election last year and on changed sentiment as to national issues, but also on local factional strife among the republicans.

The primary contest for the republican nomination was marked by much bitterness, of a sort that usually laces among the defeated faction a residue of resentment of which the newspapers in this case, hope to be the beneficiaries. No doubt a considerable number of votes in the election next Tuesday will be determined by matters of this sort.

In the recent republican primary contest in this city, for example, the chief interest seemed to turn on personal episodes in the careers of the two candidates. As to one of the candidates the question was raised whether or not he was justified in leaving home from the war by the fact that he had a wife and three children, he being 32 years old when the war began and having a rich father-in-law. As to the candidates who was made of the fact that in 1912, he had been dismissed from the office of the treasury because he had been absent without leave in order to attend the republican national convention of that year. In a district where trivialities like this occupy the front of the stage, it can hardly be said that the election next Tuesday will have much barometrical value as to change of sentiment on national issues.

The man who won the republican nomination, Col. A. Platt Andrew, is an anti-Lodge man and his victory by a vote of two to one was announced as an anti-Lodge anti-organization triumph of large proportions. The democrats don't hope to win next Tuesday, but they do hope to make an impression by reduction of the normal republican majority.

MESSAGE REPORTS DEATH OF MRS. CORNELIA ADAIR OWNER OF THE JA RANCH

Special to The Times.
CLARENDON, TEXAS, Sept. 22.—Word was received in this city this morning from London of the death of Mrs. Cornelia Adair, owner of the famous JA ranch. The message was brief, stating only that she died in London early today.

By Associated Press.
AMSTERDAM, Sept. 22.—While estimates of the number of dead from Wednesday's explosion which destroyed the Badische company's great chemical plant at Oppau continued today at approximately 1,500, the total of persons actually found to have been injured exceeds the first figures by a wide margin.
About 2,500 persons have received treatment for hurts sustained through the effects of the explosion.
Bodies of the dead to the number of 500 had been recovered this forenoon.

AMSTERDAM, Sept. 22.—The total damage from the explosion in the Badische Anilin and Soda Fabrik plant at Oppau yesterday is estimated at 150,000,000 marks, according to Berlin advices received here today.

MAYENCE, GERMANY, Sept. 22.—French troops and volunteer workers toiled through the night in the ruins of the Badische Anilin and Soda Fabrik plant at Oppau, where hundreds of workmen were killed by an explosion yesterday morning. Estimates of the number of dead ranged as high as 1,500 early today, but definite figures were obviously impossible. More than 300 bodies had been recovered, and every window of the city was shattered by the explosion. Oppau was virtually swept away and the explosion hurled desolation over a wide district on the west bank of the Rhine between Mannheim and Frankenthal.

The scene of the explosion was more than three miles from Mannheim, but every window of that city was shattered by the concussion. The shock was felt in towns 50 miles away. There were hundreds of workmen at the scene of the explosion at 7:30 o'clock when the explosion occurred and there were wild rumors regarding the loss of life yesterday and last night. The count of the dead was not complete but it appeared certain that the casualty list would be appalling.

Immediately after the blast every means of rescuing the injured and bringing out the dead were utilized, but several minor explosions prevented workers from entering the grounds for a long time. Great clouds of chemical smoke obscured the sky and the rain, and the first men to enter the ruins were compelled to wear gas masks. The fumes spread as far as Mannheim and Ludwigshafen and tended to heighten the fears of the frightened people.

Investigation is ordered.
An investigation of the explosion has been ordered by the authorities, but those who have visited the ruins declare there is little upon which a theory of the cause can be based. The findings of the Badische company have disappeared and only a great hole in the ground marks the site of the main explosion. It is a theory of those familiar with the plant that at least two gasometers exploded and that nitrogen compounds stored in the buildings, were detonated. Nitrogen products are unstable as a rule and it is believed the first explosion, which was relatively light, set off great masses of chemical compounds, and that four others were set off by the concussion.

Order is being maintained in the district for the occupation, when French soldiers, that district being within the zone of occupation. The base of the French forces in that region is at Ludwigshafen, on the west bank of the Rhine, from which place the troops were rushed to the scene of the disaster.

This is the second time Oppau has been destroyed. In 1870 a dam burst above the town and the place was swept by a wall of water.

General Degoutte, in command of French forces of occupation, went from this city to Oppau and immediately sent for the sanitary staff of the army to tend the families of the victims of the disaster and the high commissioner has given 15,000 marks to the workers' syndicate to alleviate distress.

LESS HOPEFUL FOR ANOTHER CONFERENCE OVER IRISH QUESTION

LONDON, Sept. 22.—Prospects of a conference between Sinn Fein representatives and members of the British cabinet on early dates were declared today to be less hopeful as a result of yesterday's consultation between Prime Minister Lloyd George and several of his ministers at Gairloch. Several of the morning's newspapers reflected this view and reports from political correspondents at Gairloch generally agreed that the ministers showed a more rigid attitude toward southern Ireland.

It is declared there is a tendency on the part of the cabinet members who talked with the prime minister to insist that Eamonn de Valera formally withdraw his claim that Sinn Fein delegates would enter the conference as representatives of the Irish state.

The London Times remarks that yesterday's meeting scarcely represented shades of opinion in the government.

DENTON MAN DIES FROM INJURIES SUSTAINED IN AN ATTACK ON RAILROAD

DENTON, TEXAS, Sept. 22.—Fayette Newton of Denton died in a Dallas hospital last night from injuries he received when attacked here four days ago by an unknown party. He was beaten with a club and left on a railroad track. Newton recovered consciousness before he died but refused to talk about the assault.

BOTH SIDES CLOSE IN THE SHEARMAN TRIAL

Arguments Under Way and Case is Expected to Go to Jury Late Thursday

MIDLAND, TEXAS, Sept. 22.—The case of C. P. Shearman, and his sons, John and Neil, charged with shooting to death C. Arch Wood, prohibition enforcement officer, on the Shearman ranch near El Paso last March, probably will go to the jury today. Both sides closed yesterday, the defense having placed its case and the prosecution its case.

Director Burns of the department's bureau of investigation, Mr. Daugherty announced, has been instructed to set his agents at work on an investigation of the Klan's organization in various parts of the country.

In connection with the possible summoning of Klan leaders to Washington, the attorney general said the department of justice had the authority to summon any one and it was his policy in the course of an investigation to talk the matter over with persons involved.

The attorney general said that any criminal prosecution would for the most part be made matters of state law unless there had been some violation of the federal statutes through the use of the mails to defraud.

There is no need in this country, Mr. Daugherty said, for vigilance organizations. The country does not need, he added, any such organization to enforce the law and to define and enforce the laws for American citizens. It has, he contended, a well organized department of justice to enforce the federal law and well organized state authorities to maintain the laws of the several states.

PLAN MASS MEETING TO URGE WORK OR ALLOWANCE

CHICAGO, Sept. 22.—A mass meeting to demand work or a federal unemployment allowance equal to at least 75 per cent of current wages will be held Sunday afternoon in Washington Square Park by the Amalgamated Metal Workers of America. It was announced today that the organization is supporting a program for the relief of the unemployed which the metal workers have submitted to congress. The plan demands a minimum of \$20 a week for all unemployed workers, the allowance to be provided by a tax to be levied on all salaries and incomes exceeding \$2,000 per year that is derived from non-productive sources.

At the park bureau office it was said that no application had been made for a permit to hold the mass meeting and that if one is made it probably will be denied.

The Weather

West Texas: Tonight and Friday partly clear, with generally fair in north portion. Oklahoma: Tonight and Friday fair.

SAN FRANCISCO, Sept. 22.—The preliminary hearing of Roscoe (Fatty) Arbuckle on a charge of murder in connection with the death of Miss Virginia Rappe before Justice Judge Sullivan today occupied the attention of all connected with the case today. Men were excluded from the hearing under an order issued last night, the authorities ruling that as Judge Lazarus' court is a women's courtroom, no men, except witnesses, court officials and newspaper reporters should be admitted.

The prosecution will endeavor to prove at the hearing, District Attorney Matthew Brady has announced, the contention that Arbuckle attacked Miss Rappe in his suite of rooms in the Hotel St. Francis Sept. 8 and caused injuries which resulted in her death four days later. The complaint charging murder and under which Arbuckle has been held in jail without bail was sworn by Grace Halston, nurse, who attended the film comedian's party.

Brady said he believed the preliminary hearing would occupy at least three days. "The prosecution will take a little over a day to put in its testimony and I expect the defense to take about as long," he said.

The witnesses subpoenaed for today's hearing are as follows:
Dr. Shelby Strange, acting autopsy surgeon, who performed the autopsy on the body of Miss Rappe.
Dr. William Ophuls, who performed an autopsy in company with Dr. William Rumwell, Miss Rappe's physician.
Mrs. R. M. Delmont, complaining witness against the comedian and friend of the dead girl.

Miss Alice Blake, one of those who attended the Arbuckle party at the Hotel St. Francis, expressed willingness to testify for the prosecution of Fatty Arbuckle in connection with the death of Virginia Rappe up to the time of her death.

Arrangements were made to open the hearing at 1 p. m.

LOWELL SHERMAN READY TO RETURN AND TESTIFY

NEW YORK, Sept. 22.—Lowell Sherman, motion picture actor, questioned today by District Attorney Swann at the request of District Attorney Brady of San Francisco, expressed willingness to return to San Francisco when needed for the trial of Roscoe Arbuckle.

Sherman, located in his New York apartment after eluding detectives who sought him on a train which brought him from Chicago yesterday, came to San Francisco to return to Colorado Springs. Previously she had lived in Fresno, California. She said she had written a letter to the Guardian Trust company of Fort Worth.

The refreshments consisted of a fine quality of Scotch whisky and an equally fine quality of gin, which were partaken of quite freely by everyone present. Eventually everybody returned to their homes.

There was a photograph on the living room table which played constantly. First one person and then another would look at it.

Sherman said that almost all his time at the party was taken up getting in touch by telephone and telegraph with managers in Los Angeles and Seattle regarding an engagement which had been offered him.

During the course of this business of mine I saw Miss Rappe sitting on the sofa in the living room. I was in (Continued on Page 12, Column 2.)

J. W. M'CLURE SHOT AND KILLED AT TULSA

Mrs. Stephen Tripp Probably Fatally Wounded in Shooting Affair On Thursday

TULSA, OKLA., Sept. 22.—J. W. McClure of Tulsa is dead and Mrs. Stephen Tripp also of Tulsa is probably fatally wounded as the result of a shooting affair here today. Tripp shot McClure after the latter is alleged to have entered his home and fired a revolver bullet through Mrs. Tripp's breast, according to the police.

TEXAS OIL OPERATOR SHOTS A WOMAN AND KILLS HIMSELF

DENVER, COL., Sept. 22.—J. A. Reynolds, believed to be an oil operator from Dallas or Fort Worth, Texas, last night shot and seriously wounded Miss Reynolds, 30 years old, a waitress, and then killed himself.

The shooting occurred in front of the Denver county court house while scores of persons were passing.

Reynolds was 45 years of age. Miss Van Meter told the police Reynolds had been following her in an effort to force her to marry him. Miss Van Meter said she came here recently from Colorado Springs. Previously she had lived in Fresno, California. She said she had written a letter to the Guardian Trust company of Fort Worth.

CHEMICAL COMPANY PASSES USUAL QUARTERLY DIVIDEND

NEW YORK, Sept. 22.—The American Agricultural Chemical company today passed the quarterly dividend of 1 per cent on preferred stock, due at this time. The company has paid no dividends on its preferred stock since last April.

BARBER CLOSES HIS SHOP AND LEAVES BOYNTON, OKLA.

BOYNTON, OKLA., Sept. 22.—C. C. Anderson, a barber, closed his shop here today and left town. He was whipped last night by a band of masked men who commanded him to leave within 15 hours.

FIRST CONTEST WILL BE PLAYED IN PARK OF THE LUCKY NATIONAL TEAM

CHICAGO, Sept. 22.—The world's series will start October 5. It was decided today, the first game being played on the home grounds of the National league team.

In the event either Pittsburgh or Cleveland should finish first, two series games will be played in the National league city, the next two in the American league town, and so on. Both New York teams are at present leading the league in home wins.

The details of the series were arranged today at a meeting of the league presidents with Judge K. M. Landis, baseball commissioner, and President John Heydler of the National league won the toss and the first game for his league.

Landis, tossed the coin and Judge Landis, president of the American league, called "heads." It fell "tails."

The commission and the league presidents fixed the prices for the series at from \$1 to \$6.

If one or both New York teams win, the prices will be \$1 in the upper grandstand, \$3 for lower grandstand reservations, and \$6 in the boxes.

The average Cleveland wine boxes will be \$6, reservations \$4 and \$5, pavilion seats \$2, and general admission \$1.

Some games may be played if it was decided, the series going to the winner of five. If a ninth game is played and one of the teams outside of New York is in the series, a coin will be tossed to decide the city.

The prices decided on represent considerable reduction in the cheaper seats. Seats in the grandstand, which have formerly sold at \$2, as compared to \$1 set this year, while at Cleveland last year pavilion seats brought \$3 in the Cleveland series.

There will be no day of rest between games in the event that either Cleveland or Pittsburgh play one of the New York teams, it was decided. Last year the players were given a day off following the overnight trip from New York to Cleveland and back against the four umpires will be selected after the close of the regular season, October 2. One winner and one loser share will be divided and divided between the four umpires.

FARMERS STATE BANK AT M'CUNE, KANSAS, IS CLOSED

PITTSBURG, KAN., Sept. 22.—The Farmers State bank of McCune was closed today by the state bank commissioner. An examination of the bank, conducted by E. S. Tolson, cashier of the bank, is in progress.

PLAN TO BUILD A RAILROAD SALINA, KAN., KANSAS, OKLA.

WASHINGTON, Sept. 22.—The Oklahoma and Arkansas railway company was granted authority today by the interstate commerce commission to issue \$207,500 of capital stock for the purpose of constructing a line of railroad from Salina, Kansas, to Salina, Oklahoma, to Kansas, Oklahoma.

TYRO, KANSAS STATE BANK ROBBED BY FOUR BANDITS

COFFEYVILLE, KAN., Sept. 22.—The Tyro State bank, Tyro, Kan., 14 miles west of Coffeyville, was robbed by four bandits this forenoon.

Fifteen minutes after the hold-up the robber car passed through Wann, Okla., eight miles south of Tyro, and was headed for the Osage hills, southwest of there. The amount secured is unknown, but was probably less than \$200. The Tyro state bank is in charge of Henry Starr and his gang 14 years ago.

PLANS TO LEASE A BUILDING TO CARE FOR THOUSAND MEN

NEW YORK, Sept. 22.—Urban Leuchowicz today extended his plans for helping the jobless by starting negotiations for the lease of a five-story building on Front street—capable of housing and feeding 1,000 men.

In addition, he hopes to have the churches throw open their halls to the unemployed and in planning to call on Bishop Manning of the Protestant Episcopal diocese of New York with this purpose in mind, he began bright and early to recruit an army of human exhibits.

Appearing in Cooper square at 7 a. m., he distributed elevated tickets to nearly 200 former service men, war workers and general laborers now out of jobs. He explained that he would take these men to the cathedral grounds of the cathedral of St. John the Divine, where he planned to prove to Bishop Manning that the 200 were not bums and loafers but zealous workers.

The Rev. Clifton Mason, rector of All Soul's church, today sent to a newspaper a check for the amount which he had planned to pay for tickets for the coming world's series and asked that the money be used to feed hungry men and women.

CHILDRESS FAIR IS LARGELY ATTENDED; SPLENDID EXHIBIT

PROGRAM BEST OF ANY YET GIVEN BY THE ASSOCIATION

LIVESTOCK DEPARTMENT SCENE OF MUCH INTEREST

Event Surpasses Usual County Fair in the Large Territory Represented

Staff Special to The Times.
CHILDRESS, TEXAS, Sept. 22.—Over 6,000 people entered the fair ground gates Wednesday on the opening day of the Childress State fair. Snuggly situated inside the boarded enclosure is one of the greatest collections of exhibitions that will be seen at any fair in the state of Texas this year.

The attendance Wednesday went far above the expectations of the officers of the fair association and the amount of stock and other exhibits completely filled the long buildings designated for each group.

Among the 217 animals on exhibit in the hog barn, Lewis Brothers, of Childress county have on exhibition their 1,000-pound Poland China boar, Transylvania, and a fine Chester white boar of the five hogs throughout the United States that tips the scale over the 1,000-pound mark.

Alexander, Michie & Jones have a large number of Duroc hogs on exhibit. This firm last year sold over \$60,000 worth of registered hogs including one that at public auction brought the sum of \$1,025. This hog was purchased by Clifton Brothers of Hollis, Okla., and is also on exhibition.

J. W. Mitchell, mayor of Childress, an enthusiastic and sincere booster for his own home town, states that Childress county has more registered live stock than any other county in the state. He says that this is not a county affair, but is open to the wide world and other counties in the state as well as in Oklahoma are well represented in practically all of the departments.

Members of the Boys and Girls' Pigeon club of this county have entered a large number of birds and only a glance at the entries is convincing that they can well be proud of their entries.

The hog barn as well as all the other barns and exhibition halls are well equipped. The hog barn in particular has a number of wash racks where the animals can be and are bathed each morning. Another feature of the hog barn is that a fine Chester white pig is on exhibition. The pig is a fine specimen of the breed and is on exhibition.

The 600 odd pens in the chicken department are all filled with crowing roosters, quills and hens. A part of this barn was set aside for the exhibition of the 1921 yearling chickens.

WASHINGTON, Sept. 22.—Permission to intervene in the case before the interstate commerce commission involving freight rates on lumber from the south and southwest to northern and eastern points was granted to the Associated Coopersage Industries of America today by the interstate commerce commission.

The permission was granted with the provision that the intervenor would be allowed to introduce no evidence "which will unduly broaden the issues" raised in the complaint which was brought by the Southern Hardwood Traffic association and others.

WHAT'S THE MATTER WITH US?

Nation's Foremost Business Experts Tell You!

What is the matter with us, anyway? What is the cause of business depression? What are the remedy conditions? These questions everyone is asking. For they affect everyone intimately. Everyone is feeling the effects of commercial stagnation, either in wages or dividends.

The Times, through NEA Service, has asked the men who should be best able to answer these questions for their diagnosis of the situation. It has received signed statements from:

- Samuel M. Vauclain, president of the Baldwin locomotive works;
- Walter C. Teagle, president of the Standard Oil company of New Jersey;
- Samuel Gompers, president of the American Federation of Labor;
- Julius Kruttschnitt, chairman of the executive committee, Southern Pacific railroad;
- Alfred Armour, president of Armour & Co.
- Otto H. Kahn of Kahn, Loeb & Co.
- Theodore H. Price, editor of Commerce and Finance.
- William Brewster, former United States secretary of commerce.
- J. Parke Channing, chairman of Hoover engine's committee on elimination of unemployment.
- William Fellows Morgan, president of the Merchants' association of New York.
- Dr. E. F. Ladd, United States senator from North Dakota.
- Lemuel Bolles, national adjutant, American legion.
- Alfred Reeves, general manager, National Automobile Chamber of Commerce.
- John L. Lewis, president of the United Mine Workers of America.
- Francis H. Sisson, vice president of the Guaranty Trust company of New York.
- Benjamin M. Anderson Jr., Ph. D., economist of the Chase National bank, New York.

These signed statements analyzing the situation—the first of which is published herewith—and others of which will follow daily—these authorities give various opinions, but these views recur frequently:

First—That lack of capital is chiefly to blame.

Second—That faults in the system of taxation and the sudden restrictions enforced by the federal reserve bank system have contributed.

Third—That Europe's economic illness is a great factor.

Fourth—That unemployment is not as great as generally believed.

Fifth—That the low point has been reached and conditions are improving.

Directly or indirectly, most of these authorities say that the question is not "What's the matter with us," but "What's the matter with the world—with everybody?"

Another put it this way: "The big trouble is that the old-time pride in work is gone. Every one, employ and employer, figures how much work he can make, instead of how much work he can do."

To get at the facts of unemployment, the Industrial Relations commission, America has made a special survey of the nation's unemployment situation for this paper.

The result bears out the opinion of many of the men who have answered the questions, that unemployment is not so serious as painted by federal, state and city officials.

Replies to the questionnaire sent out by E. A. Shay, executive secretary of the Industrial Relations association, brought direct agreement with the department of labor's first estimate early in September that 5,700,000 were unemployed throughout the country.

These figures are deceptive, Secretary Shay said, because they were based on the number of men dropped from the abnormally large payrolls of industrial plants doing war work and that excessive work of 1919-1920 stimulated by war.

Secretary of Labor Davis has now revised these figures to the estimate made by our association—nationwide unemployment of between 2,000,000 and 2,500,000. He points out that in normal times between 1,500,000 and 2,000,000 workers always are seeking jobs, had changing from one position to another.

Feel positive, after carefully surveying conditions in nine centers representative of various industries, that many of the people listed as unemployed actually are employed in some other lines.

The special survey was made in these manufacturing centers: Pittsburgh, Detroit, Buffalo, San Francisco, St. Louis, Toledo, Birmingham, Conn., Reading, Pa., and Moline, Ill.

These were chosen for questionnaires on the basis that Pittsburgh is representative of the steel industry, Detroit of automobile manufacturing, Buffalo as typical of diversified industry of the east and of lake shipping, San Francisco as representative of the Pacific coast, St. Louis is the middle west, Toledo of automobile activities, Bridgeport of the eastern machine shop trades, Reading of center of the Philadelphia district, and Moline as typical of agricultural implement manufacturing.

Result of survey shows: PITTSBURGH—Unemployed 50,000. No figures available for comparison with unemployment before the war. Low point has been reached. No suffering among unemployed. Common labor 10 to 15 cents an hour in 1914, and now gets 10 to 15 cents.

DETROIT—Unemployed 40,000 now, before war 15,000. Low point reached. No suffering among unemployed, but city agencies are prepared to care for any suffering that may occur during winter.

ST. LOUIS—Unemployed 65,000. Larger than normal, figures unavailable. Low point not yet reached. No serious suffering. Relief plans made for winter. Common labor 25 to 30 cents now.

TOLEDO—Fifty per cent of factory employees unemployed, but many employed in other lines. Biggest plant just put on 1,300 new workers. Unemployment 20 per cent more than normal. City appropriating funds to assist unemployed and give them work.

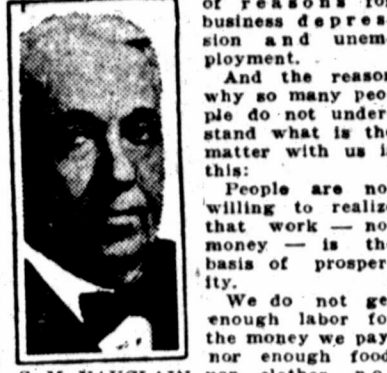

BRIDGEPORT—Unemployed 20,000, higher than in pre-war period. Low point reached. No serious suffering, though 2,000 families being helped by city and appropriations made for winter relief. Common labor, 2 to 18 cents 1914, 18 to 25 cents now.

READING—Unemployed 7,000, 20 per cent higher than pre-war. Low point not yet reached. Very little suffering, but plans made for winter relief. Common labor 15 cents 1914, 25 cents now.

MOLINE—Unemployed 25 per cent of normal, 50 per cent irregularly employed and 25 per cent with steady work. Some pre-war years were as bad, but not for so long a period. Low point reached in industry. No suffering now, but plans made for relieving expected suffering in winter. Common labor 20 cents 1914, 20 cents now.

SAMUEL M. VAUCLAIN, PRESIDENT OF BALDWIN LOCOMOTIVE WORKS, ANSWERS QUESTION.

By SAMUEL M. VAUCLAIN, President, Baldwin Locomotive Works

The chief thing that is the matter with us is lack of capital. That is the outstanding link in the endless chain of reasons for business depression and unemployment. And the reason why so many people are not willing to realize that work—not money—is the basis of prosperity. We do not get enough labor for the money we pay, nor enough food, nor clothing, nor housing. We are suffering from a depreciated value of our own money. Our money's value is unpaired in other countries—but we can't sell our goods, abroad, and we only count 50 cents value on the dollar here.

The only way to analyze the business situation is to analyze your own household. If you can bring its cost and its standards down to the 1913 level you will get along—but you won't have many things you have been having lately.

Apparently we must wait till hard times pull people down to doing without things to make them realize what the same thing. Not because we don't want to run to capacity—but because the money is not available to swing it.

We are all working people, supporting each other. Closed plants throw thousands out of work, but that hurts the factory owner more than it helps him. A closed plant fairly eats up

money, with no return. There are no dividends. Labor suffers because wages are cut off, or cut down. And it is because there are no dividends, for otherwise the plant would operate. And the stockholders are the public themselves and they suffer when there are no dividends.

A desperate effort is being made to reduce the cost of things. Steel is the basis of everything. If steel mills were busy, railroads would be busy, everybody would be busy. It's the endless chain—each of us dependent upon the

other fellow, supporting each other like on the rocks because the other fellow is on the rocks—no capital to float the ship.

What we need is for somebody to stick his finger into that endless chain and change things. Secretary Mellon has done that very thing with his new tax proposals. He has the right idea—you can't expect a revival in business unless business men have money left to do business with.

Money is here for use. It ought not be grabbed up. The ideal thing would be universal taxation, spread out so

well that nobody would miss his individual contribution. The working man thinks he escapes because the business man is taxed. But it always comes out his side. There is no other way to get it.

Mistaken idea. It is a mistake for anybody, complaining against unemployment, to think that if the business man doesn't have to pay an enormous excess profits tax or doesn't have most of his income taken away by the government, the business man is being properly disciplined.

The working man has to pay too, for without that money there can be no new business, no new enterprise, nothing to make more work for everybody. Excess profits do not go into the strong box—they go back to labor, to the public. Anybody can see that.

What's wrong with us is no capital and an endless chain of circumstances. Nobody in particular is to blame—everybody is!

October, 1921, RE-CREATIONS for The NEW EDISON "The Phonograph With a Soul"

- No. 50746—Price, \$1.35**
Rainbow, Weirich
Requests have come to us for a RE-CREATION of "Rainbow" from many parts of the country. Everybody will be glad to hear the two good old standards, Ada Jones and Billy Murray, in this one-time favorite number with the public.
- No. 50747—Price, \$1.35**
Put on Your Blippers, You're In For the Night, Furth
Another number which has been made at the request of Edison owners. The song was the big comic hit of De Wolf Hopper's musical comedy, "The Maxine Idol," in which it was featured by Louise Dresser, who was also author of the lyric with E. S. R. Huntington.
- No. 50748—Price, \$1.35**
Casey Jones, Newton
In answer to many requests received from Edison owners, this RE-CREATION of "Casey Jones" has been made. Everybody knows this song, which is one of the best made money out of of the past, but there is a comic breathlessness about the words which cannot be taken seriously.
- No. 50749—Price, \$1.35**
Scene on the Old Plantation
Billy Golden and Empire Vaudeville Co. Jollily reigns in this scene. It opens with a chorus of men who sing the song, "Down Mobile," which is interrupted by talk about dinner. Then Billy Golden, the famous black-face comedian, recites his original monologue, entitled "Rabbit Hash."
- No. 50748—Price, \$1.35**
El Capitán March, Sousa
Sousa's Marches have been played all over the world. He himself, at the head of his band, has conducted thousands of concerts in various cities of the globe, and none of his compositions has won more universal favor than "El Capitán."
- No. 50749—Price, \$1.35**
Filtration Valve—Intermezzo, Steck
Written by Conway's Band, "Filtration Valve" is full of musical coquetry, and will bring delight to the admirers of this splendid organization.
- No. 50801—Price, \$1.35**
I Know Where the Files Go (On a Cold and Frosty Morning)—Biff, Bing, Bang, Mayo, Tenor
This is the principal song in "Biff, Bing, Bang," The Dumellells Company which presented this musical revue on Broadway. It is an organization of former Canadian soldiers. They plan to take their show around the world. "Biff, Bing, Bang" makes a comedy of the theatre goers in New York. Billy Jones, the tenor, gives the song in breezy fashion.
- No. 50819—Price, \$1.35**
All by Myself, Berlin, Contralto
Here's a serio-comic song done by Irving Berlin, the king-pin of all popular song writers. It has made a stir in vaudeville circuits and cabarets. Miss Helen Clark, who has sung scores of songs for us, sings this one with the artistry which distinguishes all of her work.
- No. 50819—Price, \$1.35**
Molly on a Trolley, Schwartz, Tenor, with Soprano obligato
Verona Blinn and Betty Lane Shepherd This is one of the song hits of "The Whirl of New York," in which Edna May was starred. The music of "Molly" was written by Jean Schwartz, the words by William Jerome.
- No. 50824—Price, \$1.35**
YO-LAY-EE-OO (Means I Love You), Motzian-Jerome
Marguerite Farrell Here's a serio-comic song done by Irving Berlin, the king-pin of all popular song writers. It has made a stir in vaudeville circuits and cabarets. Miss Helen Clark, who has sung scores of songs for us, sings this one with the artistry which distinguishes all of her work.

Just Because—Fox Trot, Stevens-Frosini
Earl Fuller's New York Orchestra Earl Fuller comes back to us with a fascinating fox trot. His orchestra is on its toes all through it, so to speak. "Just Because" was written by Vernon T. Stevens and J. Frosini.
- No. 50825—Price, \$1.35**
I Wonder Where My Sweet, Sweet Daddy's Gone—Fox Trot, Hammed-Stark, for Dancing
Another fox trot which pairs well with "Just Because." Earl Fuller's New York Orchestra is certainly a dance organization of which to be proud. It simply makes you dance.

If Shamrocks Grew Along the Swane Shore, Fairman-Van-Schenck, Tenors
Charles Hart and Lewis James An amusing number which melodically depicts what would happen if shamrocks grew on the banks of the famous Swane River. Bits of Irish tunes are cleverly interspersed in the course of the composition which was written by Geo. Fairman and Van and Schenck.
- No. 50825—Price, \$1.35**
Fare Thee Well, Love (Fare Thee Well), Keith, Soprano and Tenor
Elizabeth Spencer and Lewis James E. Austin Keith, the composer of this song, has the ability to write a sentimental song that will reach every heart. This is his latest effort of the kind. It makes a tender love story. Mr. Keith also wrote "When I'm Gone You'll Soon Forget." (RE-CREATION No. 50411).
- No. 50825—Price, \$1.35**
Bird at the Water Fall, Ring-Hager Whistling
Sibyl Sanderson Fagan This is the second number in the "Bird Suite" which Sibyl Sanderson Fagan is recording for us. The first, "Bird and the Saxophone," was issued a month ago for the pleasure of Edison owners. Little need be said to our clients, the unique bits of Miss Fagan, who has been acknowledged the queen of lady whistlers.

Massa's In De Cold, Cold Ground, S. C. Foster Mixed Voices
Metropolitan Quartet Stephen Foster was a very prolific song writer. From the latest output of his work we gather that he wrote about seven hundred songs. Of this number, probably a half dozen will rank with the music that never dies. "Massa's In De Cold, Cold Ground" is surely one of them.
- No. 50831—Price, \$1.35**
Sweeter As the Years Go By, Morris, Helen Davis, L. James and Mixed Chs.
Mezzo-Soprano and Tenor One of the later revival hymns, which is very popular with Billy Sunday audiences, and much used at big summer religious communities, such as Ocean Grove, Northampton, Stony Brook, etc.
- No. 50831—Price, \$1.35**
Softly and Tenderly Jesus is Calling, Thompson
Metropolitan Quartet Mixed Voices This is a fine arrangement of a favorite hymn. The voices of the Metropolitan Quartet are particularly sympathetic in the rendition, and every word and tone is clearly defined. The text of the hymn is found in Matthew 11: 28: "Come unto Me."
- No. 50832—Price, \$1.35**
I Hear a Thrush At Eve, Cadman, and Kitty of Colorado, Arr. by Page
Helena Clark Here are an old song and a new one side by side. "I Hear a Thrush At Eve" is the joint composition of Nellie Richmond, who wrote the words, and Charles Wakelied Cadman, who wrote the music. It is a tenderly wistful number, and "Kitty of Colorado" affords an excellent contrast to it.

Madame Butterfly Selection—Part II, Puccini
American Symphony Orch. Puccini used a number of genuine Japanese tunes in his score, one of which, by the way, is also found in Sullivan's "Mikado." He employed the opening notes of "The Star-Spangled Banner" in the scene introducing the American hero, Pinkerton. In the arrangement, played here by the American Symphony Orchestra, the following principal motifs are used: "Love or Fancy" "Foggy Day" "The Waiting" music, "Did I Not Tell You" "One Fine Day," and Butterfly's death scene.

The following list of "Hits of Broadway" and "Flashes from Broadway" RE-CREATIONS were released during June, July, August and September.

Battle of Flowers Is On; How Long Is Your Rose's Stem?

Judge J. P. Jones brought the Times office an American Beauty rose Wednesday morning with a stem said to be 48 inches long, and in spite of the fact that it never got upstairs to the proper department—i. e., editorial—a note of it was radioed into the paper.

Thursday morning Mrs. S. C. Utz of 1517 Eighth street, telephoned that she had just cut a La France rose with a stem 25 inches long, which is an unusual length for yard La France buds.

As a matter of fact, the editorial department doesn't know whether Judge Jones' American Beauty rose's stem was 48 inches or not, as it is downstairs in the wrong department, as aforesaid. And it doesn't know whether Mrs. Utz' La France rose stem was 25 inches or not, as it is pinned away at Mrs. Utz's house. But it does know this: Anybody else who enlists in the Battle of Flowers with long-stemmed candidates has got to escort the candidate to the editorial office of the Times Publishing company—preferably to the beautiful young lady with bobbed hair and an intelligent expression at the center desk southwest.

SHOWER FOR BRIDE-ELECT IS PRETTY AFFAIR WEDNESDAY

Mrs. L. D. Townsend entertained at her home, 1412 Thirteenth street Wednesday evening with a party and a surprise shower complimenting Miss Minnie White, daughter of Mr. and Mrs. W. L. White, whose marriage to Allen Pasky is set for Oct. 23. It is the guests gathered at Mrs. Townsend's home, which was beautifully decorated for the occasion, some time after supper, and Miss White came later with Mr. Pasky, having been invited to "drop in." She was taken into the dining room, where a color scheme of pink and white was most attractively carried out and where the lining table held a pretty mound of gifts which were immediately presented to her.

Refreshments of fruit punch, ice cream and angel food cake were served at a late hour to the following: Mesdames J. A. White, Fannie Stanley, W. B. Reeves, Paul Hathorn, R. V. Gwynn, Topi Stevens, Pauline Woodward, Gus Stearns and W. L. White; Misses Al Carrell, Ann Carrell, Thelma Pross, Ruth Town and Minnie White and Mr. Pasky.

CENTRAL PRESBYTERIAN SUNDAY SCHOOL STAGES BIG AUTO RACE

The Central Presbyterian Sunday school is staging a big auto race from Los Angeles to New York and right now the Dodge, Ford and Studebaker fans are about to shriek their heads off. For the Dodge is leading—past Memphis almost—and the other two are close behind.

Every new scholar in the Sunday school gives a 10-mile stretch to the class securing the "buff" as they say as it looks, for the drivers have trouble with punctures and blowouts. Any boy or girl brought from another Sunday school comes with a "buff" and the class harboring the prospector is set back 10 miles on the course. And a class which registers a drop in attendance any Sunday is charged with a puncture and set back five miles.

Mrs. Bert Taylor is driving the Dodge; Mrs. D. R. Read, Ford and Mrs. E. S. Goodner, the Studebaker. V. Buick, a Franklin, a Liberty, a Willys-Knight and other cars are bringing up the rear.

MOTHER OF MRS. C. W. SNIDER DIED WEDNESDAY IN KANSAS

News was received here Thursday morning of the death Wednesday night in Horton, Kan., at her home of Mrs. L. H. Duff, mother of Mrs. C. W. Snider. Mrs. Snider has been at her home in her bed since her return to this part of the county from California, where they were together.

Mr. Snider left Tuesday night for Horton, having received word of Mrs. Duff's serious condition. The funeral services are to be held Friday afternoon.

Mrs. Duff has many friends and acquaintances in this city where she has visited a number of times.

FIRST CHRISTIAN AUXILIARY FIRST FALL MEETING MONDAY

The women's mission auxiliary of the First Christian church will hold the first fall meeting Monday at the church, when an all-day session opening at 10:30 in the morning is scheduled.

Mrs. T. M. Conroy's division of the society will have charge of the entertainment for the day, and luncheon will be served at 12. After the luncheon a special program will be given, and plans for the year's work will be discussed.

All members of the auxiliary and their friends and members of the church are especially invited to attend the all-day meeting.

Y-W SAFETY FORCE GIVE MRS. COYNE SURPRISE PARTY

Members of the Y. W. C. A. cafeteria force surprised Mrs. C. J. Coyne, who is leaving for Seattle October 1, with a good-bye party in the dining room Wednesday afternoon.

During the afternoon Mrs. Etherington presented Mrs. Coyne with a pretty ivory hand mirror, the gift of the force, and expressed the general regret felt at her coming departure. Ice cream and cake was served at a prettily decorated table. Those who were present included Mesdames Etherington, Ring, Morley, Henderson, Richardson and Clinkenbeard; Misses Heister Tucker, Laura Tucker, Elizabeth Miller and Du Bose, and Callie Conant and Dave Weatherly and Thomas Richardson.

GYP'S GOING BACK TO HER ENGLISH HOME

Miss Mamie Powers, Her Mother and Gyp.

Gyp is going back to England. Though an ocean voyage means nothing to Gyp. She's quite blasé, worldly-wise, as it were, so far as travels are concerned.

She's journeyed from England to Ireland, thence to Canada, eventually to the States, where she's been for some time in Chicago. And the streets of the latter city she's mastered on her own! So Gyp faces the trip back to England with not a little concern.

Indeed, she forced the thing! She's had a way of doing that ever since she was born in a military camp at Shorncliffe, Kent, and came into the possession of a little English girl, Mamie Powers, and her mother.

"She began by forcing a ride in a signified English wash basket which a dignified English maid was carrying. Gyp moved the nice soft white looking mass applied in the yard below the second story window from which she viewed the landscape. When it came into focus Gyp leaped and landed safely in the midst of the freshly laundered clothes, which the maid, whom Gyp knew, was carrying.

"That's Gyp's way. But she's just as generous with her friendship as she expects other folk to be with theirs. The difficulty of arranging passage for Gyp had been so great that Miss Powers decided to find a home for her on this side.

But Gyp had plans of her own. She sought the first chance to escape and after traveling at least three miles over busy Chicago streets, she was found waiting one morning, footsore but happy, at the door of the house where Miss Powers and her mother were staying.

So passage is being arranged for Gyp.

ROSES AND STEMS.
Everybody who there is
Can get into our Battle of Flowers
If they want to.
The only requirement is that they bring
The roses upstairs to our desk, and let
Us measure the stems.
Maybe we can get Mr. John Gould to offer
A small prize for the longest.
It doesn't make any difference
What kind
Of rose it is. "Merican Beauty, or
Miss rose, or cabbage, or Crimson Rambler.
(And just personally,
Aside from the contest and everything,
We won't pay half as much
Attention to how long the stem is, as to
How sweet the rose is.)

MISS EVELYN HARRIS HOSTESS AT BIRTHDAY PARTY TUESDAY

Little Miss Evelyn Harris was hostess Tuesday afternoon at an unusually pretty party planned to celebrate her eighth birthday. The children played games and enjoyed contests in several of which little prizes were awarded. In the peanut carrying contest Robert Riddle was most successful, and in the bean-guessing contest Helen Buester was the "winner."

The children were invited into the dining room after an hour or so of play, and were delighted at the pretty decorations in their honor. The room and table were decorated in pink and white, with pink and white streamers above the table, which was centered with a beautiful birthday cake with the honoree's name in pink icing. Eight pink and white candles gave the young lady's age away, and were blown out with good wishes by the guests. The cake was cut, and little Miss Sadie Shain found in her ring, while Robert Riddle found the "blimble." The dime refused to be located. The cake, with fruit punch and pink and white cream, was served by the hostess, assisted by Mesdames Kramer and Tyson and Miss Eva Blank, to the following little folk: Elizabeth Buss, Fannie Blank, Bertha May Kruger, Rose Marion Art, Babette and Rosaline Joseph, Radie Shain,

Nathalie and Helen Sylvia Lebeson, Helen Buester, Odessa Katz, Evelyn, Geraldine and Gwendolyn Harris, Robert and Roseman Riddle and Daniel Cohen, Mr. and Mrs. Tyson, Mr. and Mrs. Harris, M. S. Aaron Kramer and Mrs. Saul Lebeson, and Misses Steph- anie Fieldsmith and Eva Blank were among the groups present.

BACTERIA LESSON FOR HOME HYGIENE CLASS AT CITADEL

The home hygiene class at the Citadel with 10 members of the class and the Home League present, had a specially interesting lesson Wednesday afternoon on plants and animal bacteria and their relation to food and health. Miss Mary Quinn made the talk and conducted the lesson.

Bruce Hampton Deatherage made a successful application for board and lodging at the home of Mr. and Mrs. A. G. Deatherage last Wednesday, Sept. 14.

ELECTRA WOMEN WORKING ON HEALTH CONFERENCE; LINING UP WELL LOCALLY

Miss Mary Quinn, Red Cross nurse, returned from Elizora Wednesday night, where she visited leading women of the community to get matters lined up for the Child Health conference in that town Friday of next week. Miss Quinn found the most encouraging and interested response, and arrangements are being made for the holding of the conference in the basement of the First M. E. church there.

Mrs. Gault and Mrs. McGann, prominent Electra women, are interesting themselves and other women of the town in the conference, and it promises to be a big drawing card for the community. Electra merchants are arranging for window displays to support and advertise the conference, and the movie slips are to be displayed there, as here.

Miss Dorpat, Red Cross nurse, has visited Burk Burnett, where the conference is to be held October 1, and Iowa Park, the 29th, with an encouraging result.

Getting Ready Here.

Local arrangements for the three-day conference are moving forward, and the leaders are getting fair cooperation. Invitations were sent out to the mothers of the school children, and replies began to come in Wednesday. Children in the art departments of the schools also are making posters for the conference.

Some attractive window displays are expected downtown as part of the three-day health campaign. Local merchants will arrange appropriate windows for the period of the conference, and one or two have reported specially interesting ideas for their displays.

FLORAL HEIGHTS WESLEY GIRLS MEET AT CHURCH FRIDAY AT 3

The Floral Heights Wesley girls will be the guests of Mesdames T. Allday and Barrow at the Floral Heights M. E. church Friday afternoon, instead of at Mrs. Allday's home, as was first announced.

Stunts, Thrills and Romance

THE WORLD'S LUCKIEST GIRL

How often have you wished that your parents had named you Bill—of Cleopatra—instead of Simon, or Maud, or whatever they did name you? Well, this little girl will have no such regret. She's three years old and she has no first name! When she grows up she'll have the pleasure of choosing one she likes, thanks to her parents, Lieut. and Mrs. F. N. Pugley. Temporarily she is just called "Pugley." Lieut. Pugley, U. S. N., has been stationed in Hawaii for two years.

THE GREAT ILLUSION.

A Japanese newspaper refers to "those questions that can be settled only by war." That will cause benevolent smiles among the Chinese, who once sent 25,000,000 Mongol warriors westward against the white man.

The Mongols, in their military excursion which lasted several centuries, conquered India, Persia, Arabia, Turkey and all of Europe. Their advance scouts went as far as Portugal. The Mongol armies finally were defeated at the Marne by Turkish mamelukes, white slaves from Egypt.

They retreated through Russia. By the time this racial movement got back home, inter-marriage with the conquered had produced a new race, which promptly attacked China.

"War is a boomerang," said the Chinese. "In the long run, both sides lose. We've learned our lesson. No more wars for us."

Your ancestors' fear of those Chinese armies runs in your blood as a vague fear of The Yellow Peril.

War never settled anything. Charlemagne's three grandsons divided Europe among themselves 1078 years ago. Charles the Bold took the throne of France. Louis the German took Germany. Soon they fell quarreling over the lands allotted to the third brother, half-wit Lothair.

Each especially wanted Lothair's prize possession, Alsace-Lorraine. Many wars have been fought over those "lost provinces" by the descendants of Charles and Louis. Each seemed decisive—at the time.

Nothing was really settled by the recent war with Germany. Diplomats still are trying to patch up a peace that will hold. Net result is that Europe is in greater danger of another war today than it was in 1913.

The Civil War in America was fought to determine where states rights ended and federal rights began. The question remains unsettled.

We fought the Revolution to make us independent. But in the light of our inter-related relations with the rest of the world are we really that?

Nothing is ever settled by war, for the simple reason that you can't kill an idea by murdering those who admit they share the idea. Only reason can change an idea or settle a dispute over it.

Killing a man doesn't convert him to an opposite belief. Roman emperors, who tried to kill Christianity by throwing Christians to the lions, found that out.

Man has tried war since two cave men wanted the same woman.

War has proved itself a failure as a settler of disputes. So far, the Chinese are the only people intelligent enough to "get the bunk" of The Great Illusion.

Will the white race commit suicide before it, too, beholds the truth and disarms?

COURAGEOUS ACT TO BE REWARDED.

Alvin S. Page, a stenographer in the mail service who volunteered to act as mail messenger to be held up when an attempt was made to rob the Texas and Pacific mail train near Fort Worth a few weeks ago, has been called to Washington to be rewarded for his courageous act.

Page volunteered even though he knew it was the plan of the would-be robbers to kill the messenger and that all that would save him would be the killing of the robbers by federal agents before they could kill him.

This was indeed high courage the post office department may well reward.

TEXAS OUGHT TO HAVE BUFFALO HERD.

When the state of Texas acquires the Palo Duro canyon, as the site for a state park, as all Texans hope it will, it can start the foundation for a great buffalo herd.

From a few head about ten years ago the federal government has developed a herd of buffalo of more than 150 head at the federal game preserve in the Wichita mountains near Fort Sill and the herd is increasing from season to season.

Conditions for the propagation of a herd are not less favorable in the Palo Duro country than they are in the Wichita mountains. In fact some of the conditions are better.

It would be a fine thing for the state of Texas to preserve the buffalo so that future generations might see the kind of animals that once roamed its plains in countless herds of teeming thousands. It is none too early for Texas to start the founding of herd of such animals. Fortunately it is not too late.

JUST FOLKS

By Edgar A. Guest

COURAGE.

What is courage but the will to do the noblest thing.

To meet what comes of good or ill and play the man and soldier still though hurt and failure sting.

What is courage but belief that good shall crown the strife.

That disappointment's hours are brief and out of bitterness and grief men come to larger life.

What is courage, but the sum of all that men have learned.

The songs of voices long since dumb. The call of freedom's stirring drum. The shackles men have spurned.

What is courage, but the grace to meet life's trials well.

To bring the splendor of your race to dutiful grim or common-pace until the final bell.

TODAY'S TALK

By GEORGE MATTHEW ADAMS

WHO'S YOUR BOSS?

Bosses are all right—if they are the right bosses. All through nature and human life is felt the power of bosses, good and bad.

There are bosses—and bosses. Some folks talk a little 3-inch paper of tobacco boss them. Some have been led around most of their lives by little glasses of fire-water.

Some of us are ruled by a bunch of worries. Some of us allow our stomachs to boss us. Some turn over the reins of government to clothes and style and "what will the neighbors say?" These are pretty hard bosses. But don't forget—

You can select your own boss.

One of the saddest sights in the world is a wrongly bossed man or woman. For that man is a failure—that woman is in misery.

Let's think of our bosses for a minute. Who's your boss? What bosses boss you? Don't forget that—

You can choose your own boss.

This is the way: Put your will in complete control. Make it boss. The human will is the greatest, finest boss in all the world of bosses. Then say—

"Nerves, a word with you! You are not my boss. Fear, you can't run me. Habit, you have to give up; you can't boss me. But—

"Will, let's shake hands! I select you as my boss. And from this day on, there is to be order, growth, power in this life of mine."

ECONOMIC CONDITIONS.

(Houston Chronicle)

Economic conditions—are they like the weather, over which we have no control? One would think so from the way they are being discussed.

Prosperity is just ahead, say some wisecracks, leaving the impression that we have nothing more important on hand than to sit down and wait for it.

There are approximately 4,000,000 people out of employment in this country, and we are threatened with a railroad strike by way of consolation.

Murder and thievery are on the increase, but the Ku Klux Klan tells us to look for the remedy in a few more acts of lawlessness.

Work for everybody through strikes, law and order by the bar-bucket in disguise, more prosperity with less effort. Isn't it time we talked a little about common sense?

Something has gone out of American life that used to lend it poise and practicality. Call it what you will, but it has gone, and something of a different fiber has taken its place.

The old boys looked upon economic conditions as partially subordinate to their will and labor.

We regard them as far away and of an origin quite independent of our activities.

The old boys were concerned about making them better. We are concerned about lapping them up.

Our co-operation is mechanical and attractive for what we can get out of it.

Their co-operation had a soul in it, and was founded primarily on the willingness to contribute.

They had fewer experts and card catalogues than we do, but they knew how to live together and help each other.

They did not worry half so expertly over economic conditions, but they worked to a better purpose.

They went out into the land with ax and rifle. We go out with posters and propaganda.

They had a notion that life, whether viewed morally, intellectually or economically, was merely the aggregate of individual effort.

We have a notion that the aggregate is quite apart from individual effort, that humanity is the product of environment instead of its producer, and that personal responsibility can be laid aside.

Our notion is far more comfortable. It justifies shorter working days and longer night frolics.

Most of our grandfathers knew what a sunrise looks like, and the coming generation promises to find out, though in reverse order.

Economic conditions, indeed. What would be the matter with them if the majority of us were doing our part? We are not even thinking about them, except in platitudes.

The man who goes to work and stays at work usually gets ahead. It doesn't make much difference what his work is, either.

The man who minds other people's business when he ought to be minding his own usually falls to get ahead.

MISS KITTY

Miss Kitty is our teacher. Her face is round but sour, And she's shaped like a bolster tied in half.

So she don't look like a flower.

She's not extra tall and she's not extra And her feet are long for their size, And she eats lunch rite on her desk, Especially buttermilk and pie.

Her age is between 30 and 60 And she's fense if you don't mind, O it's not her fault she's a teacher So let us think of her kind.

Her worst words are "I'll now give out homework"

Will "The class is dismissed" are her best, And the nicest thing she does is get sick for a day.

Will the nicest is to give us a test.

She likes silent in the class room But she chases out the flies, And she teaches every subject Including physical exercise.

It makes her mad if you're late for school And it takes a good lesson to fool her, O is that the world coming to an end? No, it's Miss Kitty banging her ruler.

THE HISTORY OF YOUR NAME

By PHILIP FRANCIS NOWLAN

ROWAN

Variations—Rohan, Ross, Reughan, Ruase.

Actual Origin—Irish, also English.

Source—Given names, also geographical.

By far the majority of families bearing names in this group are of Irish origin, but not all; for one variation the name is developed in medieval England from an independent source.

The larger of the two Irish sources of the name is the given name of "Ruadh," which, literally translated, means "the chosen one." The "Ruadh," to use the nearest equivalent to the old Irish spelling, trace back in nearly every case to a chieftain of this name, who was a descendant in the line of O'Dea.

The other source is from the given name, or sobriquet "Ruadh," meaning "red." Ruadh is met with most frequently in Irish nomenclature, but always in the form of a descriptive addition to the family name, distinguishing the name of the "Red Douglas" or "Red O'Connell," which explains why we so often meet such terms in Irish, and even Scottish history as "The Red O'Connor," "The Red Douglas" and the like. But only under very exceptional circumstances have such qualifying terms developed into real family names.

The English family name developed from which is proper Rowan, but the similarity of sound between Rowan and Ruadh, has often led to their interchange in English spelling.

The English family name developed from which is proper Rowan, which was the common medieval spelling of the name of the city Rowan, in France. Settlers in England from foreign cities commonly came to be known by the names of the cities or countries whence they came.

Picardy, Antwerp, Cologne and Lyons have given many English family names.

ALCOHOL FROM CORN CONS.

The now worthless corn cob may soon be an important source of alcohol for use in industry and medicine.

Peteron has found a way to make the work effectively, care must be taken to supply them with the right quantities of nitrogen and phosphates.

The acidity must be just right and an eye must be kept on the fermentation so as not to lose the bacilli, after they have accomplished their part in fermenting the syrup.

One hundred pounds of corn cob yield nearly seven pounds of alcohol. Besides this, there are 27 pounds of acetone and 84 pounds of acids, mostly formic and acetic.

Learn From Illinois Money Lenders. Whose Wallet is Empty?

The events that send most people to the money lenders are the arrival of the story and the empty coal bin, says a report issued by the Illinois association of licensed lenders.

Teachers seem to be harder up than any others, for they are most persistent borrowers. Landladies come second, in order, machine switchmen, stenographers and nurses.

Young folks, deciding what career to follow, learn, from the above, the lines of work where the shoe pinches tightest.

MOTIVE.

French language will be barred from German schools, the minister of education tells the Bavarian Landtag.

Pupils in southern Germany, he says, will be taught English first, Spanish or Italian second.

The motive? Germany is laying out a campaign for high foreign trade on so colossal a scale that its roots are planted in the public schools.

Couldn't be better news. What happens in the plowed fields and plantations is what really counts. They lead to good times or bad, and the less important element—cities—follow.

WORK.

Forty-six out of every 100 inhabitants of Chicago work in "gainful occupations"—meaning for pay—says a census analysis.

Compare that situation, which probably is typical of most cities, with conditions 40 or even 25 years ago, when a woman in business was an exception.

Every American seems to be reaching out for financial independence. The ancient job of "father and support of the family" is being to the museum.

MURDEN.

Here's an average family of five, living in New York. How much of a tax burden does it have to carry? Five hundred and forty dollars a year—\$250 for Uncle Sam, the rest in state and municipal taxes.

Nearly as much as the average family's normal income!

The railroad and the auto may exit just as rapidly when flying machines are perfected and made fool-proof.

COMMON SENSE WAYS TO KEEP WELL

DUST IS DANGEROUS

Dust from the street is made up of more filthy materials. Street dust, if not directly the cause of tuberculosis, does irritate the lungs and this renders them susceptible to the attacks of the germs which cause the white plague.

When the throat feels irritated from inhaling particles of dust, a mild mouth wash should be used as a gargle to clean out all dust particles that have not already entered the lungs.

NEARLY ALL COUNTY SCHOOLS NOW OPEN, OIL DISTRICTS GAIN

All but two of the county schools have now opened for the 1921-22 session, Superintendent Bryant said.

Thursday, Cityview and Countyline have not yet opened, but are expected to do so shortly. Cotton picking is lowering the attendance average at some of the schools, but not as much as in former seasons when the crop was larger.

MAN GIVES WIFE GLYCERINE MIXTURE
She had stomach trouble for years. After giving her simple buckthorn bark glycerine, etc., as mixed in Adler-ka, her husband says: "My wife feels fine now and has gained weight. It is wonderful stomach medicine." Adler-ka acts on BOTH upper and lower bowel removing foul matter which poisoned stomach and which you never thought was in your system. EXCLUSIVE for gas on the stomach or chronic constipation. Guards against appendicitis. The impurities it brings out will surprise you. Winston Drug Co., 704 Indiana Ave. (Adv.)

That Most Important Item
The Tailored Suit for Autumn
The A. B. C.'s of Suit Styles for Fall include: Appropriateness, Beauty and Conservative Cost—for styles are versatile—they will cleverly meet any occasion requirement; they are beautiful in fabric, color and trimming; and price tags respectfully concede to the Dollar its birthright.

The Suit That's Fur-Trimmed
For any other than a strictly businesslike affair, a fur-trimmed suit, complemented by a chic blouse, will prove adaptable for almost any day occasion. Thoroughly competent are suits of velvety pile fabrics, in new rich colorings. Grey furs, such as Caracul and Squirrel and embroideres, especially those that recognize nailheads are favored as trimmings. Black duvety, luxurious in rich black fur, will also find its followers.

Those of Conservative Lines
The suit of conservative lines broadens its outlook for Fall by adapting to its use some of the new pile fabrics, though navy blue twill and some trim, mannish tweeds, in new colorings, still reign supreme. Women will gladly greet collars that are convertible and coats that may be worn with or without belts. Some, a bit less conservative, show embroidered motifs or braiding.

SEVERE PAIN FROM BLISTERS
All Over Body. Itched Badly. Cuticura Healed.
"Little pimples broke out in patches all over my arms and body. They itched so badly that I could not keep from scratching them, which caused them to form blisters and a burning sensation with severe pain. After a while the blisters would break and cause sore eruptions which my clothing aggravated, and I could not rest or sleep."
"I began using Cuticura Soap and Ointment and after I had used two cakes of Cuticura Soap and three boxes of Cuticura Ointment I was healed, in three weeks." (Signed) Miss Ella Wallace, Dover, Tenn.

LIVER TROUBLE, SICK-HEADACHES
Houston, Texas.—"All my life my liver has given me considerable trouble. I have suffered with sick-headaches and have had yellow blotches appear all over my body. At one time I was so bad with it that I lost all ambition to do any housework and was really 'all in' when 'Golden Medical Discovery' was recommended to me by a friend. I took six bottles of it, which made me feel like a different woman. I consider Dr. Pierce's Golden Medical Discovery the very best liver medicine I have ever known."—MRS. C. A. WHO'LL BE HERO 1921 SERIES?

JOE QUINN GAVE 4 PASSES THE FIRST INNING—FILLED THE BASES FOR EACH OF 5 INNINGS BEFORE AN OUT—AND THEN BLANKED 'EM.

Bill Wambagans, Cleveland second sacker, whose unassisted triple play made him the hero of the 1920 world series, and sketches of some of baseball's other great plays.

By ROY GROVE. The good pitching record belongs to Iowa wood chopper. His fame as a pitcher reached the ears of Joe Quinn, then managing the Des Moines team.

Last year Bill Wambagans did it. The Cleveland second sacker galloped off with a front suite in the well-known hall by engineering and completing an unassisted triple play during the big series in Brooklyn.

Speculation concerning the hero and the goat—for there's always a goat, you know—of the coming series recalls some of the famous freak plays and misplays of the past.

When Mike Fisher became manager of the Tacoma Coast League team, he thought it would be well to get before the fans, so he announced that he would umpire an exhibition series between Sacramento and the Chicago Nationals, then training on the coast.

Sacramento was batting. The first man up hit a hot liner toward short. The ball went by Tinker like a shot, but Joe went through all the motions of fielding and throwing it to first.

Chance, on first, stretched out and slapped his glove as if making the catch. "Out!" yelled Mike, loudly. And all the while the centerfielder was madly chasing the ball.

PATE WILL OPPOSE ZAHNIZER ON MOUND

Texas Champ's Confident Southpaw Will Turn Tables On the Southern Leaders

FORT WORTH, Sept. 22.—While the visiting Memphis team of the Southern association is confident that it will continue its winning performance today, the Fort Worth Panthers, Texas league champions, are hoping that a change of pitchers will turn the scale in their favor.

Manager Jake Ats announced that he will start Pate in the mound today, with Haworth in place behind the plate. The Memphis battery will be Zahnizer and Dowie, Manager Abbott said.

Ats will use his best pitcher in the effort to "come back." Pate has 30 victories to his credit this season, a Texas league record.

A ban on children was in effect at the ticket sale this morning. They were not permitted to buy tickets or keep places in line for adult fans.

The day opened clear and there was little indication that a shower such as blew up and ended almost within one inning yesterday would occur.

Left Earful. There was a little flyweight Who flew from ring to ring. It wasn't wings that took him. It was biff-bam-bing.

Right Earful. At stealing 'round the bases He could always knock 'em dead. He tried to turn at first, but turned His ankle bone, instead.

ESTIMATE COTTON CROP 45 PER CENT OF NORMAL

HASKELL, TEXAS, Sept. 22.—To date there has been ginned at Haskell 1,451 bales of cotton and many farmers report that they are practically through gathering, except in the sandy land where the cotton has still got to play its part from now on until the late frost.

After a careful canvass with the ginners, farmers and merchants, the general opinion is that this county will make about 45 per cent of a normal cotton crop. Last year Haskell county ginned approximately 35,000 bales of cotton, and it is believed that the total will be around 16,000 bales this year.

With cotton bringing yesterday and today from 20 to 21 cents and cotton seed from 25 to 40 per ton, the farmers are rushing to market with their cotton and seed.

Owing to the high price of cotton the last two weeks the business men report good business.

It is evident at this time that people are more confident and are beginning to feel that we are across the bottom of depression and considerably up the other side toward "normalcy."

STYLE SHOW AT HASKELL IS VOTED BIG SUCCESS. A ban on children was in effect at the ticket sale this morning.

HASKELL, TEXAS, Sept. 22.—At the combination free style show held here last night, more than 60 models of fall and winter coats, coat suits and hand-made gowns were elaborately shown.

It was considered by those competent to judge, that it was one of the best displays ever shown in this section.

All dry goods merchants of Haskell joined heartily in an earnest effort to make the event a success.

LEOPARD CANNOT CHANGE SPOTS

Mr. Dodson, the "Liver Tonic" Man, Tells the Treachery of Calomel.

Calomel loses you a day! You know what calomel is. It's mercury; quick-silver. Calomel is dangerous. It makes into your blood like dynamic, strapping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tonic, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel.

It is guaranteed to start your liver without stirring you up inside, and can not irritate.

Don't take calomel! It can not be trusted any more than a leopard or a wild-cat. Take Dodson's Liver Tonic which straightens you right up and makes you feel fine. Give it to the children because it is perfectly harmless and doesn't gripe—adv.

FRUSH CLAIMS TITLE ON ACCOUNT OF FOUL

Baltimore Scrapper Signs Statement Declaring Kibane Fouled Him Twice

CLEVELAND, Sept. 22.—Declaring that he had been deliberately fouled several times, Danny Frush of Baltimore, who was knocked out by Johnny Kibane last Saturday in the contest for the featherweight championship, issued a signed statement today in which he claims the title. He said he was not only fouled in the first round when Kibane hit him in the groin with his knee, but later on when the champion continued the fighting after the bell had been rung and Frush had dropped his arms.

Watch Your Blood When The Iron Runs Low You Are In Danger

The Same As When The Mercury Goes Down You Know There Will Be A Frost

How To Make The Test That Tells

Actual blood tests show that a tremendously large number of people who are weak and ill lack iron in their blood and that they are ill for no other reason than lack of iron. Iron deficiency paralyzes healthy, forceful action, pulls down the whole organism and weakens the entire system. A pale face, a nervous irritable disposition, a lack of strength and endurance and the inability to cope with the strong vigorous folks in the race of life—these are the sort of warning signals that Nature gives when the blood is getting thin, pale, watery and literally starving for want of iron. If you are not sure of your condition, go to your doctor and have him take your blood count and see where you stand or else make the following test yourself: See how long you can walk without becoming tired; next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. By enriching the blood and creating new red blood cells Nuxated Iron strengthens the nerves, rebuilds the weakened tissues and helps to instill renewed energy and power into the whole system. Unlike the older inorganic iron products Nuxated Iron is easily assimilated, does not irritate the teeth, make them black nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed by all good druggists. (Adv.)

Furnish Thrills in Tennis

PHILADELPHIA, Sept. 22.—The thrills in tennis are not limited to the spines of the spectators.

The player gets his kick out of the game now and then. The English team, at the National Singles Championship Tournament held here, supplied the kick.

The red-faced Englishman, Gordon Lowe, was the most surprised bird in the tournament to think that he lasted so long. He was expecting himself to be eliminated early, but Tilden, the champion, eliminated him only after a run which surprised everybody.

J. O. Anderson, Australian, who makes up the height for the shorter players, and a dark horse all along, surprised the fans when he defeated Richard Norris Williams.

St. Paul Goller Puts Bostonian Out of Running At the Last Hole

ST. LOUIS, Sept. 22.—Four excellent contests today marked the third round of match play in the national amateur golf championship at the St. Louis country club, but the medalist, Francis Ouimet, was absent as a result of his defeat yesterday by Harrison R. Johnston of St. Paul in a gruelling match that reached the home green and was decided by a fraction of an inch, both final putts stopping on the lip of the cup.

Ouimet's conqueror today played Jesse Gullford of Boston, who eliminated Dewey Weber of Chicago, 3 and 2.

Chick Evans, defending the title, today met Jess Sweetser, the only surviving metropolitan player, having won his way to the third round by two easy victories over Charles Dexter of Dallas, whom he defeated, 18 and 9, and Richard Bockenamp of St. Louis, who fell his victim yesterday, 7 and 6.

These two matches are in the upper half of the draw and their survivors will face each other in the semi-finals on Friday.

In the lower half the contestants were Bob Gardner of Chicago, and H. E. Knipper of Sioux City in one match, and Willie Hunter, British champion, and Bobby Jones of Atlanta in the other.

SAGINAW, MICH., Sept. 22.—Any baseball player engaging in the sport or against Eddie Cicotte in a scheduled semi-professional game here Saturday will be placed on the ineligible list, fined and barred from further participation in professional baseball, according to a ruling received here today from Judge Landis, baseball commissioner. The ruling followed announcement that Cicotte, one of the former Chicago White Sox players implicated in the world series scandal, would appear in the game here Saturday.

SPORT SHOTS

By Paul W. Larkin

The Cats aren't going to have a walkaway.

However, every club looks bad when it doesn't get the pitching. Whittaker certainly wasn't right.

Wait until these Chicks see a little southpawing and spitballing. They may thrive on it, but we have our doubts.

Rhino Williams, who did as much as any one Panther last year with his club to defeat Little Rock, was given the razz by the Fort Worth fans yesterday when he appeared in a Memphis uniform. Just another example of Panther rooting.

Were it not for the ground rules the game would have been much closer.

It's hardly fair for a pitcher to be criticized severely in such a series. Ordinarily outfield flies go for two bases. Don Brown even caught one of Ziggy Sears' crashes, yet it went for two bases and knocked in a man from second.

The batting feats of Ruth, Kelly, the Medals and all the rest have given so much publicity that Stuffy McInnis' record of having gone over 100 consecutive games without a boot passed almost unnoticed. Despite the fact that it is a record of fielding perfection without parallel in major league annals, one short paragraph was all that was sent out regarding it. The Red Sox first baseman has fumbled just one all year and has an average to date of .999. Babe's mark will probably stand for a long time, but it will be shattered before Stuffy's.

Our Yanks didn't play, but they're still up there.

The hot weather has no terror for Coach Harbaugh's high school football squad. The boys are still smarting under the defeat suffered by them at the hands of Vernon last year and are out to redeem themselves when the two schools clash Saturday at Athletic Park. Harbaugh has the makings of a great team this year and with practically all the home games carried for Athletic Park, the sport should prove to be a paying proposition for the first time.

For the sake of the boys, it is to be hoped that "Dad" has all the sand burred cleaned up. We'll never forget the day George Whiteman fell down in center field while going after a fly ball. He was picking the "stickers" out of his hide for the next week. We'd hate to fall every few seconds.

Kaynes are getting to be a habit with Tommy Gibbons. He scored his sixteenth straight the other night.

SALVAGED CANNED GOODS BEING SOLD, INSPECTOR REPORTS

Salvaged canned goods have made their appearance on local markets recently, according to Dr. A. H. Douglas, head of the city health department, who has issued a statement warning against the use of such food. The wholesale grocery firms, according to Douglas, make periodic examinations of their stocks and take out all canned goods that have "swelled." The decomposition of the food product liberates a gas inside the can, it seems, which causes the ends of the cans to bulge out. These are removed from the shelves and thrown out. A quantity of such cans, however, were recently given to a drayman to be hauled to the city incinerator and instead of doing this he sold them to local grocers, representing that they were wholesome. Occasionally a bulged lid will be found on cans of goods that are entirely safe, this being due to a lid which was slightly too large when fitted on the can. If the can is placed in boiling water for a short time, Dr. Douglas states, it can easily be determined whether or not the food inside is safe for use. If the lid was too large the bulge will soon disappear, but if the swelling is caused by spoiled contents heat will have no effect on it. Hematizing 10 cents per yard. Work done promptly. "LOVE YOUR ENEMIES" IS EVANGELIST IRELAND'S THEME ON WEDNESDAY

Taking the fifth chapter of Matthew as the lesson for the evening, Evangelist Ireland preached on the text of "Love Your Enemies," Wednesday night. Showing the difference between the ideas of the Jews and those of Christ, with regard to love and hate, the evangelist explained that the Jews had the idea of revenge, but God, through Christ, led them out into the field of love, in the sermon on the mount. "Jesus did not change the laws one jot or tittle but injected a higher and better interpretation into them. If we wish to conquer our enemies, we should kill them with love instead of with the dagger. God tries to take away the bestial heart and the heart of hatred and anger and send the heart of love and forgiveness when one is converted. God formerly wrote His laws on tablets of stone, but he now writes them on the hearts of men. When we are real true Christians we never worry about the laws of church or state because we never fear them and have no reason to break them. "God never asks us to do more than we are able to do, and His love can take broken lives and make them lives of beautiful deeds to shine through all eternity. It is impossible to love God if we hate our fellow man, and it is hard to forgive if we do not have the love of God in our hearts. We should melt the barriers that have stood before us as fire melts the iron in the furnace. Christ forgave His persecutors even from the cross. "We may be in tune with Christ today and out of tune with Him tomorrow, but we should not stay out of tune. There is sometimes discord among the instruments of an orchestra and there has been discord in the human heart, with its death and sorrow, since the serpent first crept into the Garden of Eden. We should fight evil wherever it is found but should love the souls of our enemies that pursue evil. "For every Christian that has died a martyr for Christ, thousands have risen in his place. Christ is the same Savior that he has always been and is still pleading to save our soul for eternity. Prayer meetings are being held each day at different homes. This evening is especially for young people and everyone is invited.

COTTON SEED SELLING FOR \$32 ON THE VERNON MARKET

VERNON, TEXAS, Sept. 22.—Cottonseed in Vernon is now bringing \$32 a ton at the gin. This is the highest price paid here this season. Vernon gins to date have ginned 2,800 bales. Daily receipts at the cotton yard are increasing steadily. Wednesday they reached more than 300 bales. The compress here will commence first operations this season Thursday. The county farm bureau has been concentrating its cotton at this establishment, and thus far has about 300 bales, which is only a start. Cotton is being transferred from the warehouses to the compress with the object of getting it pressed and put on the market. MRS. ETTA GARDNER BELL IS BURIED AT VERNON TUESDAY VERNON, TEXAS, Sept. 22.—Mrs. Etta Gardner Bell, the Burkburnett woman who was shot early in the week, was buried here Tuesday afternoon. Mrs. Bell is survived by relatives in Vernon. Zula Bell Braswell, the 20 months' old daughter of Mr. and Mrs. R. C. Braswell of this city, died Monday

morning from a complication of diseases. Funeral services were conducted the afternoon of the same day with burial at Eastview. The two days' old infant of Frank Hofschulte and wife died here Sunday morning. The child, a boy, was buried Monday.

SHERIFF IS AGAIN SUED FOR DAMAGES AS RESULT OF "KANGAROO" TRIAL

Another damage suit against Sheriff Fred K. Smith, growing out of alleged treatment by the prisoners' "kangaroo court" in the county jail, was filed Wednesday afternoon, the plaintiff, A. E. Griffin of Burkburnett asking for \$20,000. The petition alleges that Griffin was beaten by the prisoners in the jail after a "kangaroo" trial. Griffin, who was arrested on a charge of vagrancy, was later acquitted. A similar suit was filed several weeks ago by L. B. Gray, local grocer, asking for \$10,000 damages.

MUCH SMOKE, LITTLE FIRE, RESULTS IN STILL ALARM

Smoke pouring into the Olympic theater through the big ventilating funnels on the roof caused a small flurry of excitement late Wednesday afternoon and resulted in a still alarm being sent in to the Central fire station. Firemen found that a furnace in the basement of the Perkins-Timberlake store, which adjoins the theater, had been fired up and that the smoke from this was being caught by the theater ventilating fans as it came from the flue and drawn into the picture house. The fears of a few uneasy movie fans were soon quieted when the cause of the trouble was learned.
