

BROWN HAS A PLAN TO SAVE MILLIONS

Wants Government to Buy Outright the Buildings Now Being Rented

WASHINGTON, Oct. 11.—Spend \$145,000,000 in buying outright buildings throughout the United States which the government now rents.

That will be one of the recommendations to President Harding by the joint committee on reorganization headed by Walter F. Brown.

The committee's investigation has revealed that the government has an annual rent bill of \$145,000,000 for buildings scattered over the whole nation. Rent usually amounts every year to 10 per cent of the value of the rented building. That would bring the total cost of rented buildings to \$145,000,000.

Big Yearly Saving.

Now the government can borrow all the money it wants at a rate of interest between 4 and 5 per cent.

If the government borrows enough to buy these buildings outright, yearly interest on the funds borrowed for this purpose will be around \$1,200,000.

That's more than \$10,000,000 less than the amount now paid in rents. In many cases the buildings now rented would be abandoned and new buildings constructed with the borrowed funds, putting many idle to work.

The joint committee on reorganization also will recommend that government customs offices at all ports of entry, save the larger ones, be consolidated with revenue offices. The customs offices now are in actual use only a few hours a day.

Against Subsidy.

The committee will discourage formation of a separate department of education with \$100,000,000 annual subsidy to state educational departments, as provided in the Sterling-Towner bill.

A new department of public welfare will be recommended consolidating the public welfare functions of all other government departments.

The committee will not recommend the abolition of the department of labor.

Abolition of the revenue cutter "ghost chasing" service and transfer of its activities to the navy will be recommended.

When Brown has his program complete, he'll submit it to the president.

GERMANY'S MILITARY AND NAVY WORKSHOPS ON PEACE-TIME BASIS

BERLIN, Oct. 12.—The principal former military and naval work shops of the German government, which were closed in 1919 in accordance with the treaty of Versailles, have been reopened as "peace time factories" and are producing goods more adapted to usage of peace than war.

Two hundred thousand workmen, thrown out of employment by the closing of the shops, have been reemployed.

Among the larger factories converted from military to commercial purposes were the artillery work shops, ammunition, gun, powder and fireworks laboratories at Amberg, Pöchlau, Cammel, Erfurt, Involtsadt, Lippstadt, Munich, Stuttgart, Spangau and Weifgang, sea lions, as well as the navy yards and naval torpedo shops at Friedrichshort, Kiel and Ruestring.

These factories are operating virtually full time, producing foundry products, castings, and wrought iron stamped and drawn pieces, all sorts of machinery, railroad supplies, motors, motorcycles, hand and machine tools, pneumatic tools, electrical utensils, ship machinery, motor and sailing boats, agricultural implements, furniture, locomotives, railroad cars, automobiles and auto trucks.

The work of transforming the war factories to commercial uses, undertaken by the government with the permission of the council of ambassadors, was assigned to a stock company, shares of which were taken by the government, the board of control being composed of government officials and representative financiers and industrialists.

German demands are accounting for most of the output of these factories, but surplus products are finding a ready outside market, particularly in the Scandinavian countries, where the high price of money as against the German mark adds to the attractiveness of purchases of German wares. German made automobiles are especially in demand by foreign dealers.

The manufacturers of farm machinery and railroad equipment are looking to Russia as a chief customer as soon as conditions in that country

MAKE FINAL ARRANGEMENTS FOR RECEPTION TO FOCH

WASHINGTON, Oct. 12.—Final arrangements for the reception and entertainment of Marshal Foch on his forthcoming visit to the United States for the American legion convention and the limitation of armament conference, were made public here today by Alton T. Roberts, chairman of the legion reception committee, which is to have charge of the noted Frenchman's tour.

MISS LENA McCROSKEY IS MARRIED SUNDAY AFTERNOON

VERNON, TEXAS, Oct. 12.—Miss Lena McCroskey, daughter of Mr. and Mrs. D. D. McCroskey of this city, was married at 2:30 Sunday afternoon at the bride's home to L. G. Withers of Vernon. Only immediate relatives were present. The bride was born near Chillicothe and has lived in Vernon 14 years. She graduated from the local high school in 1920. The young couple will make their home in Vernon.

TRAINED WORKMEN GOING TO AID RUSSIA

Preparing to Leave America to Assist in Industrial Rehabilitation

NEW YORK, Oct. 12.—More than a dozen groups of workmen trained in American industries, headed by experts and fully equipped with the latest machinery are preparing to leave soon to aid in the industrial rehabilitation of soviet Russia.

The Society for Technical Aid to Soviet Russia, which is organizing these units, announced that it already has sent to Russia clothing workers, machinists, builders and tool and die workers. Most of these workers were Russian immigrants who had become skilled here.

The society, an organization of Russians, has its central bureau in this city, headed by Victor P. Wigan. It claims a membership of 10,000 throughout the United States and Canada and publishes a semi-monthly technical

magazine to acquaint its members with modern methods of production in America and their application in soviet Russia.

Officials of the society claim that the aim of their organization is to "bring the people of the United States and soviet Russia into closer relations for the mutual benefit of the two countries."

The society denied it was acting as agents for soviet Russia and declared that its activities were absolutely non-political and confined strictly to organizing technical forces.

"We are not soliciting members, nor do we encourage them to go to soviet Russia at present," said a statement issued by the society.

"Only those brave and energetic workers, who regardless of conditions at present existing in soviet Russia, are willing and ready to go there as soon as possible to help build the Worker's Russian Republic are accepted as members of units that we are organizing to be sent to soviet Russia."

"We are organizing our units in such a way that upon their arrival in soviet Russia they will be able to run on their own initiative under their own supervision all kinds of factories, shops, mines, farms, etc."

The society said that the following units, fully equipped with the latest machinery, will leave in the near fu-

ture for Russia: Two units of shoe-making workers, two units of clothing workers, three units of construction workers, one unit of foundry workers of chilled cast iron wheels for railway cars and locomotives; several groups of electrical and acetylene welders, automobile and tractor units, five agricultural groups fully equipped with

tractors and all modern power machinery and several others.

"All of these units sent to Russia, being disseminated in various parts of that vast country," said the society, "will serve as pioneers for American trade in machines, tools and certain raw materials obtainable in United States and Canada."

ROBBERS BLOW SAFE OF A MISSOURI STATE BANK

SEDALIA, MO., Oct. 12.—Robbers blew the safe in the Napton Stock bank at Napton, Saline county, Mo., this morning and escaped with approximately \$1,500. Efforts to force an entrance to the vault failed.

"I Cannot Do Business With A Pale-Faced Man Who Has No Blood in Him"

That is the statement of one of the biggest captains of industry in America.

How effectively he expresses the almost unanimous sentiment of the world with reference to the lack of esteem in which the deficient in physical force are held!

His words are, in effect, a verdict and sentence in one; condemning the weak and debilitated to a life of indifferent treatment, hardship and consequent failure.

For it's true, there's no possibility of consideration for the wan and worn-out; no place in the scheme of life for the pale and languid—only the swift and strong have any chance in the race of human existence.

But the world is constantly paging red-blooded men, those of alert minds and sturdy bodies; ever calling them in clarion tones, yet with pleading inflection, to come and occupy the positions of real power.

Of what great importance, then, is it that everyone, man and woman alike, look well to his health, guarding his strength and endurance and, thereby, keeping keen in mind and vigorous in body. No greater aid to this result can be found than **FORCE**, the master rebuilder.

FORCE is a refreshing appetizer, a ready aid to digestion and a general systemic and reconstructing, being of special value in conditions of debility following nervous physical or mental exertion, worry, anxiety, convalescence from acute fevers and infectious diseases, and a host of other conditions depending upon or attended by a general nervous breakdown.

FORCE is sold by reliable druggists everywhere. Get a bottle TODAY. You'll find it a splendid strength-giving and up-building tonic.

"A Store For All the People"

JAPAN'S OCCUPATION OF SIBERIA PERILS PEACE

By HERBERT QUICK.

WASHINGTON, Oct. 10.—In some respects Japan is magnificently endowed, not only for legitimate, but for illegitimate development.

She has an industrious, a teachable, an intelligent population, and she has developed a high civilization of her own, on which she has grafted the civilization of the western world. She has a productive soil, scanty in area for her prolific people. Her greatest enemy is her birthrate.

But her geographical position is the most wonderful on earth. Look at the map. Japan lies, a great semi-circle of islands, hemming the Sea of Japan in like a barbed wire fence; and this sea measured from north to south is twice as long as the longest diameter of the Gulf of Mexico.

All the western coast of the Pacific from the lands of ice to the latitude of Cuba fronts seaward on Japanese possessions. I do not know of any nation capable of making better use of these advantages than Japan; better use for her own benefit and that of the world. But she must not feel hurt in her pride if the rest of the world would like to know how she means to use it.

For she can use it for good or for general harm; legitimately or illegitimately; for peace or for war; for the war of commercial and industrial

aggression; for the wars of armies or navies.

Japan in Siberia. And this brings us to another great question which I feel sure must be settled in the disarmament conference—Japan's occupation of eastern Siberia.

When the allies decided to enter Siberia from the east during the late war, the United States sent in some 7,500 troops. Japan surprised everyone by sending in a large army—I have heard it estimated at 50,000 men. I have seen heavy masses of troops under arms in the town of Vladivostok—many more than we sent in all.

It looked to the world like a permanent occupation. The Japanese commanders in Siberia acted as if it were one. They are there yet, though we took all our men out in the spring of 1920.

Let us be just to Japan. She has always denied that such is her intention.

Important Move. If she does seek to annex this northeastern corner of Asia, it is a momentous thing for the rest of the world.

For Siberia is twice as large as the United States. It is a white man's country. It has in it several Canadas, many northern Wisconsin and northern Minnesota. It is wonderfully rich in coal, iron, zinc, copper, gems, furs, timber, oil and grazing and farming land.

The Japanese and Chinese have lived near it for thousands of years and have not tried to occupy or develop it.

They will not migrate to lands so cold and inclement; but it is perfectly fitted for Russians, Scandinavians and all the peoples of northern Europe and for Americans and Canadians. There are several millions of white people

ANOTHER ARREST IN SCOTT-FIELDS CASE EFFECTED TUESDAY

A third arrest was made Tuesday morning in the case of H. T. Scott and Sowell Fields, charged with robbery. No charge was filed against the new prisoner, who was marked "held for investigation."

It was reported Tuesday that federal officials were investigating the case. In connection with declarations that the two men now in jail at Henrietta had impersonated federal officers.

A report from Henrietta Tuesday morning indicated that there would be no examining trials for the two men, and that they would remain in jail until the Clay county grand jury meets on October 24.

living prosperous lives there now, so far as they can prosper in these times.

This coast is blanketed by Japan. If she also occupies it she will have planted herself across the pathway, from their homes to the sea, of the millions of whites who still people Siberia.

The Russians will come back. They will fight Japan eventually if they must to reach the sea; and they will fight with the north wind at their backs—and so fighting they will win.

But the peace of the world will be disturbed. The disarmament conference will give Japan the opportunity, which I am sure she will welcome, to show her critics that they have done her an injustice.

MANUEL HERRICK OF OKLAHOMA SAYS HE'S HERMIT OF CONGRESS

By N. E. A. Service.
WASHINGTON, Oct. 12.—"I'm the hermit of congress," says Manuel Herrick. "I work from 7 a. m. to 11 p. m. every day in the interest of the people."
His words prove he works, too.
Even though his words don't work! For none of the five bills and three resolutions which the gentleman from the eighth district of Oklahoma has introduced since taking his seat last

fall, have got further than committee. Some day, after congress has disposed of a few less important matters, such as the tariff and taxation, it may take up Herrick's Utopian proposals.
"For relaxation," says a crusty old chairman.
Herrick's latest bill would inflict a fine of \$10,000 or 20 years in a federal penitentiary on any person who acts the part of a king or queen; or on any one who employs a person to act in that capacity. "Treason," Herrick calls it.
Herrick's other bills are designed: To bring liberty and other government bonds to par by providing that holders may deposit them with the United States treasury and receive face value.
To make it unlawful for mining and other companies to issue tokens, due bills or scrip as a substitute for money in payment of wages.
To fix the price of wheat at \$1.50 to \$3 a bushel "for the purpose of stimulating wheat production and averting famine."
To prohibit newspapers and advertising agencies from conducting beauty contests.
Herrick's three resolutions ask the

BROTHERHOODS MAY REACH DECISION ON STRIKE BY TONIGHT

CHICAGO, Oct. 12.—Today's conferences of general chairmen of the railroad conductors, engineers and firemen's brotherhoods, threatening out their decision on a strike vote by the members last month, were expected to draw nearer a definite conclusion and perhaps reach final action by tonight.
W. G. Lee, president of the Brotherhood of Railroad Trainmen, arrived in Chicago today to await the decision of the other organizations. He said that whatever action the other three organizations took would be agreeable to him and the trainmen would act accordingly.

POSTPONE HEARING ON THE INJUNCTION IN MINE CASE
INDIANAPOLIS, IND., Oct. 12.—Postponement to October 22 of the federal court hearing on an application for preliminary injunction in the suit attacking all essential details of present cooperative agreements between union miners and operators was agreed upon today by counsel in the case and approved by Judge A. B. Anderson who will conduct the hearing.

ARREST MAN AT AUSTIN ON EMBEZZLEMENT CHARGE
AUSTIN, Oct. 12.—An officer from Dallas is expected here today for L. C. Andre, charged with felony embezzlement of several thousand dollars from a Dallas concern where Andre was employed. Andre was arrested here late Tuesday and is being held in the city jail pending the arrival of a Dallas officer.

Mrs. Rose M. Brown Gained 20 Pounds In Four Weeks Time

Declares It's Simply Astonishing to See the Wonderful Benefits She Has Derived From Tanlac—Says Terrible Headaches Have Disappeared.

"It sounds unreasonable, but I have actually gained 20 pounds in less than a month's time by taking Tanlac, and the wonderful benefit I have derived from the use of this medicine is simply astonishing," said Mrs. Rose M. Brown, 111 Third street, Manchester, N. H.
"Why, I am so happy to be relieved of my troubles I can really never praise this medicine enough. Up to the time I began taking Tanlac, I suffered for something over two years with a very bad form of stomach trouble.
"My appetite was so poor I could scarcely eat a thing. My stomach would be so badly bloated with gas sometimes I was almost afraid to go to bed for fear I would actually smother. I felt tired and worn out most of the time and became terribly discouraged over my condition. I often had such violent headaches I was unable to be out of bed for two or three days at a stretch.
"Four bottles of Tanlac completely restored my health and anyone can see at a glance the wonderful change that has taken place in my condition. I have a splendid appetite now and the stomach trouble has entirely disappeared. I can eat just anything I want without ever feeling a sign of indigestion. The best of all, I am never bothered any more with headaches and this was the greatest relief of all. I want to tell everybody what this medicine has done for me."
Tanlac is sold in Wichita Falls by Miller drug store; in Electra by Tarrington drug store; West End Drug Co., Burkburnett, Texas, and by all leading druggists. (Adv.)

SOUTH BEND TRACT BRINGS \$125,000 IN TRADE WEDNESDAY

The Texas Producing Co., with headquarters at 717 American Bank building, has purchased the interests of the Kent Oil Co. in the South Bend district of Young county for the consideration of \$125,000. The property consists of 50 acres with six producing wells with a daily production of 500 barrels.

CHRISTIAN CHURCH HAS CONGREGATIONAL MEETING TO PLAN FOR REVIVAL

The Times has received the following: Preparations for the revival service to begin Sunday at the First Christian church were given a great impetus at the congregational meeting held in the basement of the church Tuesday evening. The ladies of the missionary society entertained the whole congregation with luncheon. At this meeting reports were had from fifteen of the prayer meetings that were held on Monday night in various parts of the city. Unusual interest was manifested and the congregation is enthusiastic in its hopes and plans for the future. A further series of prayer meetings will be definitely arranged for and announced in Thursday's papers. All members of the church and friends are urged to secure a paper and watch for these announcements. The men's banquet planned for Thursday night was, by vote, postponed for a future date to be announced soon. Let everyone take note

MRS. ROSE M. BROWN

of this change. At the Tuesday night meeting a very fine musical and literary program was rendered.

"EDUCATE AND LESSEN THE CRIME IN NEGRO RACE" IS PLEA
Rev. M. P. Graham, field secretary of the St. Johns negro orphanage at Austin, who is conducting meetings in this city in an effort to raise funds for maintaining the institution, called to an interested audience Wednesday night that if the colored children were educated that it would help materially in lessening the crime among the negro race.

The meeting Wednesday evening was held at the Mt. Pleasant Baptist church and a large audience was present.

JAILER CASS TARVER COMES BACK WITHOUT HIS PRISONER
Jailer Cass Tarver who went to Denver, Colo., last Saturday, returned home Tuesday night without W. G. Hopkins, the man he went after. Hopkins was arrested in Denver upon information from this county that he was

wanted here on a charge of embezzlement. When the local deputy sheriff arrived there and was making preparations to bring the man back, word was received from the sheriff's office here that the case had been dropped.

Foy from Fisher; W. E. Neal vs. Tiesel Bros. from Deaf Smith.

FUNERAL FOR HOTEL CLERK HELD WEDNESDAY AFTERNOON Funeral services for S. F. Sattle, night clerk of the Marion hotel, who died here Tuesday, were held Wednesday afternoon at 3:30 o'clock from the King chapel. The body was buried at Rosabont. The Rev. Mr. Grafton officiated.

BEGIN MAKING OF ROLLS FOR IRRIGATION TAXES Work was begun Tuesday by the county tax assessor of the rolls for irrigation tax of irrigation project No. 1. This project affects Wichita Falls property and the district between the city and the lake. As yet no rate has been set by the board and this column and the tax is being left vacant at present.

20% DISCOUNT On all sittings during month of October only. NOSSETT'S STUDIO Phone 6970.

WELL KNOWN SMITH FAMILY MOST NUMEROUS HERE, ACCORDING TO CITY DIRECTORY JUST PUBLISHED

Mr. Bill Smith is the most numerous resident of Wichita Falls, according to the new city directory, now being distributed to subscribers. They are 14 of Bill Smith, and his family as a whole is decidedly the most populous in town, numbering 23, not counting wives, or children too young to get their names in the big book, so that there are probably 700 or 800 Smiths here altogether. They are more numerous by far than any other family, second place going to the Williams family, which has 171 representatives of sufficient consequence to be put into the directory. Next come the Browns with 148, and two sets of twins ahead of the Jones, who number 145. Several years ago the Jones family outnumbered the Smiths. Fourth place goes to the Johnson family, with 128, not counting 14 who spell it Johnston. In the United States as a whole, the Johnsons are the most numerous family, according to the 1920 census, but not so in Wichita Falls. There are about 18,000 individuals and firms listed in the directory, showing a substantial gain over the 1920 volume, and reflecting this city's consistent growth. The first name listed is that of Lester F. Aaron, employed by the Wichita Ice company. The last name is that of the well known Wichita, A. Zundelwitz, who has had that distinction in nearly all previous directories issued here. There are 40 firms and institutions which begin with the word "Wichita" and 30 that begin with "Wichita Falls."

PUBLIC SCHOOLS TO GIVE PUBLICITY TO EMPLOYMENT PLAN

WASHINGTON, Oct. 12.—Proposed remedies for the unemployment situation are to be given publicity through the nation's schools, the National Education association announced today, the campaign having been decided upon in compliance with a request from Secretary Hoover. The plan will follow largely that adopted in the food campaign of 1918, it was said. O'DOWD STARTS TRAINING FOR BOUT WITH GIBBONS WICHITA, KAN., Oct. 12.—Mike O'Dowd, former middleweight boxing champion of the world, today began training for his 15-round bout here next Tuesday night with Mike Gibbons. O'Dowd arrived here last night with Bob Armstrong, negro heavyweight, who is acting as his trainer. Gibbons was expected to reach the city during the day, according to word received from him by the local promoters.

FITZGERALD NAMED A MEMBER OF BOARD OF REGENTS OF C.I.A.

AUSTIN, Oct. 12.—Governor Neff today announced the appointment of Hugh Nugent Fitzgerald of Wichita Falls to be a member of the board of regents of the College of Industrial Arts in place of J. A. Kemp resigned. W. H. Wilsnant of San Antonio and W. H. Cousins of the Texas board of regents in lieu of W. H. Cousins, resigned.

W. B. HAMILTON DUE TO RETURN SHORTLY FROM BATTLE CREEK

Word has been received that W. B. Hamilton, vice president and general manager of the Texoma Oil and Refining company, would return shortly from Battle Creek, Michigan. Mr. Hamilton, who has been under treatment at Battle Creek for the past two months, is reported much improved in health. News of his prospective early return was received with much gratification not only by his associates in the Texoma company, but by his numerous other friends here.

P. S. RICHARDSON ENTERS REAL ESTATE BUSINESS HERE

P. S. Richardson, until recently in the men's furnishing business here, has formed a real estate partnership with H. C. Welch, the new firm to be known as Welch & Richardson, with offices at 217 First National building. Ben E. Smith of the Smith Drug company on Ohio avenue, has purchased the Kemp drug store in the Kemp hotel, and will take charge as soon as the inventory of the stock has been completed. Mr. Smith will still manage his Ohio street pharmacy.

W. E. Golden, formerly with Constantin Refining company, has resigned and has accepted a position with the Southern Oil corporation in the sales department, with headquarters in the Durkburn district. According to Scotch tradition, the gift of a bunch of heather to a Highland lassie is equal to an offer of marriage. Women are more careful in addressing letters than men, says an employe in the Washington dead letter office.

FORMER ACCOUNTANT AT TRAINING SCHOOL WITNESS AT HEARING

GATESVILLE, TEXAS, Oct. 12.—J. E. McDonald of San Antonio, former accountant at the state juvenile training school here, was the first witness today before the inquiry into affairs at the institution being conducted by the state board of control. Like other witnesses at the hearings, McDonald was not sworn and declared he had never seen boy inmates "hit or kicked at" drill by Drill Master H. G. Twyman, who is held in jail here in connection with the death of Dell Thaman, 14, of Beaumont, which occurred September 25 following alleged cruel treatment. McDonald described whipping and other forms of punishment at the school, which he said was approved by Supt. C. E. King. Whipping, he said, was the extreme punishment and that this was never applied to the bare back. He declared that never seen Twyman treat boys cruelly. Forty-nine employes at the school are to be heard.

GRANDPA DIDN'T NEED CASCARETS FOR THE BOWELS

Great medicine—the Sawbuck. Two hours a day sawing wood will keep any one's bowels regular. But, if you will take your exercise in an easy chair, there's only one way to do it—Cascarets. Cascarets act like exercise on the bowels. They remove the poison which is keeping your head dizzy, your tongue coated, your breath offensive, stomach sour and your body full of cold. Get a 10-cent box of Cascarets at any drug store and enjoy the nicest, gentlest and yet the most thorough (liver and bowel) cleansing you ever experienced. (adv.)

BILL FOR FUNDING OF FOREIGN DEBTS

Provides for Commission With Secretary of Treasury as Chairman WASHINGTON, Oct. 12.—A commission of which the secretary of the treasury would be chairman would have full authority to fix terms for funding and refunding of the foreign debt under provisions of a bill tentatively agreed to today by the house ways and means committee. The measure, Chairman Fordney said, would be favorably reported, probably tomorrow, as a substitute for the administration's bill which would have given the treasury secretary authority to arrange for funding and refunding of the debt.

WILL MAKE ANOTHER ESTIMATE OF 1921 COTTON CROP

WASHINGTON, Oct. 12.—Director Stuart of the census bureau today informed Senator Harris, democrat, Georgia, that through an arrangement with the bureau of crop estimates of the department of agriculture, he would issue an estimate of the condition of the cotton crop with the ginners' report to be made by the census bureau Oct. 15. I. O. S. F. Notice Encampment No. 4, I. O. O. F., and visiting brothers are requested to be present Thursday evening, 13th, at the hall. Degree work and the representative's report from Grand Encampment will be special features of the evening. Come all. C. O. Simmons, Scribe. 119-11c 147-7m

What's the Matter With Us, Anyway

By FRANCIS H. SIBSON
Vice President, Guaranty Trust Company, New York

Business is suffering from utilitarian reactions and no one of them can be held to be solely, or even chiefly, responsible, unless it be universal economic exhaustion following the most destructive of all wars.

There seems to be a widespread misconception of that fact, however, as evidenced by the countless proposed economic nostrums, each advanced as a panacea, and by the misguided attempts of certain economic and political elements to legislate for their own selfish interests in the belief, honestly entertained, doubtless, that by solving their own special problems, through obtaining preferential treatment, usually at the expense of other taxpayers, the country will be restored to prosperity.

We should not forget that more than \$100,000,000,000 of the world's wealth were spent in war's activities between Aug. 4, 1914, and Nov. 11, 1918, for the most part without economic or replacement value. But more important, and deplorable, than that, ten millions of the world's most productive lives were laid down on the fields of battle and the activities of forty billions of people were deflected from production to destruction.

Universal Problem
The world's debts were increased from \$40,000,000,000 to more than \$150,000,000,000. The world's trade industry and finance were thrown completely out of balance and there was created the need for a complete economic reconstruction.

That is the situation we face today. It presents a problem in which we are involved in common with all other nations, and whether we will or no, we must consider our relations to other nations as an essential feature of our own national life.

While before the war we were a debtor nation to the amount of \$4,000,000,000, we are today the world's creditor to the sum of more than \$15,000,000,000, and our entire relationships to the world's business and the world's life are generally completely reversed—a change we are tardily recognizing and the full significance of which, apparently, we have not yet begun to comprehend.

In brief, the betterment of business in this country is not merely a domestic problem, it is a world-wide problem.

Situation Improving
We are paying the bills of man's folly, ambition, greed, selfishness and hatred, nation against nation, class against class, interest against interest, and as long as these factors in human nature are dominant, all of the relations of men are disturbed by them and economic recovery is halted.

When will this recovery be manifested? No man can foretell. It can only be stated that fundamental factors in the situation are improving.

There are concrete evidences of gradual improvement abroad, and there is reason to believe that we have passed through the worst of our deflation period in the United States and will soon experience a slow but material betterment.

This would undoubtedly be immediately accelerated by the funding of the railroads' indebtedness to the government on account of capital expenditures made by the government while the roads were under its control. That settlement, which would provide half a billion dollars for the immediate use of the railroads, should result in a stronger financial position for the carriers and hasten the time when they can make additional expenditures for maintenance and equipment.

The stimulus to the steel and other industries resulting from any large scale expenditures by the railroads would result more than any other single factor at this particular time, perhaps, in overcoming the present business dullness and in providing employment for thousands of men.

How to Get Rid of Colds and Catarrh
A Simple, Safe, Inexpensive Method That Clear Out the Head, Nose and Throat.

There must be readers suffering from chronic catarrh who would like to know how they can stop catching cold after cold, for their mist and those sooner or later this may lead to deafness and other serious troubles.

Dr. Blosser, a respected physician, and for year a specialist in catarrh, is the discoverer of a pleasant, direct method that can be used by man, woman and child. His remedy is made from medicinal herbs, flowers and berries which you smoke in a dainty pipe or cigarette, and inhale the vapor into all the air passages. It contains no opium, tobacco or habit-forming drugs, and is not objectionable to those who have never smoked.

Dr. Blosser's Remedy is effective in all forms of colds, catarrh, asthma, catarrhal sore-throat and ear troubles that may lead to deafness. You will breathe better and feel better after using it. Satisfactory results guaranteed. Any well-stocked drug store can supply Dr. Blosser's Remedy.

A trial package will be mailed to any sufferer for ten cents (coin or stamps) by Dr. Blosser Co., 49 E. 12th, Atlanta, Ga., to prove its beneficial and pleasant nature.

Corns, Bunions, Callous and all foot ailments scientifically treated.
