RAIL STRIKE WORKING TO FORESTALL NEW RAIL STRIKE CRISIS

ARRANGES PARLEY OF THE BROTHERHOODS AND ROAD MANAGERS.

CONFERENCE CALLED TO TALK OVER WAGES

Secretary's Forecast Also Dependent on Avert Trouble in Other Lines.

By MARK SULLIVAN
National Political Correspondent of the New York Evening Post

WASHINGTON, Jan. 12.—What is really the effect on the part of Secretary Hoover of the railroad strike?

The question of wages was not really settled by the calling off of the strike. The railroad managers have again made application to the railway labor board for reduction in wages. In the ordinary course these applications would come up for decision about two months from now. It is in order to forestall what might happen at that time that Mr. Hoover brought about the rather extraordinary spectacle of the heads of the brotherhoods and the railroad managers sitting down together in his house.

This was not only a striking event in itself, but was also an indication of the far-reaching policy of the government which is responsible for preventing such an interruption of business as a railroad strike would mean. It was an example of the point of quiet and unostentatious work done by many government departments which does not get much into the news. If strike conditions should arise as they did in September, that would be a spectacular proceeding and preventing it is fully as important, but less startling to the public mind. No news has been given out as to what the brotherhoods and the railroad managers did when they came together, but there is a favorable indication in the fact that they are to come together again.

In addition to this question of railroad wages, there are two other similar questions, both to come to a head within a few months. Both of them menace business conditions as much as the railroad situation does. The building trades as well as the coal mining agreements about wages, made one and two years ago between the unions and the employers will come to an end. When they end, it is certain that there will be differences in points of view about the new wages. In the building trades, the wages fixed one and two years ago are inconsistent with present conditions.

It is presumed that if Mr. Hoover is successful in bringing the railroad unions and the railroad managers together he will make the same effort in the other two fields. The whole effort is in an attempt to bring about new agreements on wages by negotiation under the aegis of the government some months before the crisis that are to arise otherwise. The thing is really broader than this. It is an effort to bring about the development of another period of smooth running prosperity is dependent upon adjustments of wages to present conditions.

The commerce departments has made exhaustive investigations looking toward the reasonable wages under the conditions of 1922. They have tried to arrive at a decision on what is normal now as compared with previous years. In some lines wages have already been adjusted to what is now normal, but in other lines the wages are far out of line.

If this element can be stabilized successfully it is believed that it will be one of the largest steps now being taken toward the restoration of a period of steadily rising activity and prosperity.

WHY YOU NEED IRON
It makes you strong and "brassy" and put the power into your blood to overcome disease germs.

The food you eat contains carbon. When your food is digested it is absorbed from the intestines into the blood. When you eat iron, the iron comes in contact with the oxygen carried by the iron in your blood, the carbon in the oxygen is oxidized by going into the blood, and the iron is oxidized, thereby giving you strength, energy and endurance. Without iron your blood carries no oxygen and without oxygen there is nothing to unite with the carbon in your food, so that what you eat does you no good—iron is the key to your strength from it. It is like putting coal into a stove, heat will be produced, but not unless the coal unites with the fire.

The strongest women with which prevent and overcome colds, pneumonia, kidney trouble, rheumatism, nervous prostration, in fact almost any disease or disease germs, supply of good rich, pure blood, strength, energy and endurance and the greatest energy carrier in the body is organic iron. The iron that is contained in what is known as organic Nuxated Iron. It may be obtained from any drug store. Nuxated Iron often increased the strength, energy and endurance of weak, nervous, run-down folks in two weeks time.

It has been used and highly recommended by former United States Senators, members of Congress, members of U. S. courts, many physicians and prominent men.

For a full and complete description see advertising literature. It is available annually. Satisfactory results are guaranteed or the manufacturer will refund your money. Sold by all druggists in tablet form.

BIG DECREASE IN FAVORABLE TRADE BALANCE OF U. S.

WASHINGTON, Jan. 12.—A decrease of nearly \$1,000,000,000 in the favorable trade balance of the United States during 1922 was indicated in the foreign trade statistics for December issued today by the commerce department.

Exports decreased in value in 1922 by \$3,742,000,000 and imports by \$2,777,000,000, the report said, attributing much of the reduction to the material decline last year in prices of commodities which made up the bulk of the country's foreign trade.

The lower values of imports and exports in 1922 as compared with 1921 and previous years, the department said, do not represent corresponding declines in volume of trade, but are to a great extent due to the falling prices.

During the year 1922 exports amounted to \$4,456,000,000 as compared with \$5,222,000,000 during the previous year, while imports aggregated \$1,690,000,000 against \$5,274,000,000 in 1921.

Exports in December totaled \$293,000,000 against \$294,000,000 in November, 1921, and \$70,000,000 in December, 1920, while imports amounted to \$221,000,000 in November and \$286,000,000 in the preceding December.

CONFLICTING REPORTS AS TO EVENTS PRECEDING TRAGEDY.

HUSBAND ATTACHED TO CHICAGO TRIBUNE STAFF

One Account of Affair Indicates Couple Had Formed a Suicide Pact.

By Associated Press.
PARIS, Jan. 12.—Mrs. Audrey Creighton Ryan, better known as Miss Audrey Creighton, California violinist and prize winner at the American Conservatory of Music in Fontabert, is reported dying in the American hospital at Neuilly, from the results of swallowing three poison tablets.

Her husband, Thomas Stewart Ryan, who is attached to the Paris staff of the Chicago Tribune, was arrested on a charge of administering the tablets to her under the threat to kill her with a knife unless she swallowed them. Later he is said to have stabbed himself, but not seriously.

According to the story told to the police by the young woman's mother, Ryan returned to Paris unexpectedly on Wednesday and visited her and his wife. He told his wife that he was willing to facilitate a divorce, but begged her to go with him to a farewell dinner.

Mrs. Ryan accompanied her husband to his hotel after the dinner, then, according to a statement by the young woman to the authorities, her husband accused her of infidelity and forced her at the point of a knife to swallow the poison. Ryan accompanied his wife to the Cochin hospital, from which she later was removed to Neuilly. He had been wounded in the neck, the doctor requiring several stitches to close, but the doctors reported it was not serious.

Ryan told his friends that his wife's statements to the authorities were untrue and surrendered to the police when he found they were searching for him. Mrs. Ryan was reported as having intended to marry an American named McCoy after securing a divorce from Ryan. Another version of the case was revealed by Police Commissioner Pralleu this afternoon in reporting statements Mrs. Ryan had made to him at the Cochin hospital. Her husband, the commissioner quoted her as saying, had told her he knew she had had an intrigue with a young man and proposed that they

ADVENTURES OF THE TWINS BIRD-KITES' STORY

By OLIVE ROBERTS BARTON

All he could find was a string of pearl beads on his mother's bureau, which he tied on to me for a tail.

The next kite that came before the Fairy Queen was a bird-kite and he, too, was in trouble. "What's all this?" "Neither could Billy," answered the bird-kite mournfully. "That is, he couldn't find a tail to balance me when I was up in the air. A strip of old muslin would have done, but he couldn't find a thing. So he hurried around and all he could find was a string of pearl beads on his mother's bureau, which he tied on to me for a tail.

"Then he took me out and let me fly away up into the air above the tree-tops. But the wind was so strong that the string snapped and the wind blew me up here. Now I'm afraid they'll think I stole the pearls."

The Fairy Queen smiled. "I'll send Twinkle Toe back with the pearls," she said, "and Silver Wing will show you the way back to Billy's house."

"Oh hold on, hold on!" cried out ENDEAVORS TO HAVE PARTY FRIDAY EVENING

The Senior Christian Endeavors of the Central Presbyterian church will have a business meeting and social session at the home of Mr. and Mrs. E. S. Goodner Friday evening and all of the members are cordially invited to be present.

DAIRYMAN IS FINED \$25 FOR FAILURE TO GET PERMIT
W. H. Skidmore, operator of a large local dairy, was fined \$25 in the city police court Friday morning following his arrest Thursday on charges of conducting his dairy business without a dairy permit and for operating without having his cows tested by a licensed veterinarian.

He was arrested by Dr. L. I. Lacey, county and dairy inspector, who declared that Skidmore's permit expired last July and had never been renewed.

DON'T SPOIL YOUR HAIR BY WASHING IT
When you wash your hair, be careful what you use. Most soaps and prepared shampoos contain too much alkali, which is very injurious as it dries the scalp and makes the hair brittle.

The best thing to use is Mulstified coconut oil shampoo, for this is pure and entirely greaseless. It is very cheap and beats anything else all to pieces. You can get Mulstified at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful of Mulstified is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff. Be sure your druggist gives you Mulstified. (Adv.)

A WILD PROPOSAL.

If the republican party in congress is to adopt as one of its dominant policies the proposal to pay a soldier's bonus with the income from the interest and principal payments of the debts of the allies to the United States, then we are in for more political dilly-dallying and further postponement of any constructive program for economic reconstruction in the world.

FAST CONTESTS ARE PREDICTED TONIGHT

High School to Play Methodists And University Club Meets Texhomas.

High School vs. Methodists. University Club vs. Texhomas. That's the card at the American Legion hall tonight with the scholastic and church team playing the first and the ex-collegians and others furnishing the entertainment in the second bill.

The first contest should be a whirlwind affair from start to finish. Coach Tate's Red and Black charges have been practicing daily for over a month while the Methodist outfit has practiced as a team more than any other quintet in the league, with the possible exception of the high school. The church placement has been used advantageously by the Methodist aggression and their teamwork and wrestling is expected to be second to none in the circuit.

The high school team will be much lighter and some of the men have had less experience than their older opponents, but Tate has developed some expert cagers during the last couple of weeks and the young fellows can be expected to give good accounts of themselves and carry the battle to the Methodists all the way.

On paper, the University club has the edge on the Texhomas, but that fact can by no means be taken as a prediction that they will win. The American Legion was supposed to be stronger than the Knights of Columbus, while those who have been following the activities of the various teams figured that Gaines would win over the Elks. The odds are very apt to spring a surprise on the university followers and have one advantage in that the university team has practiced together once.

The first game will start promptly at 8 o'clock and the legion has promised to have more chairs on hand so that the spectators will be more comfortable than they were Wednesday night.

WEAVER APPEALS TO JUDGE LANDIS

Grivas Version Of World Series Scandal and Asks For Reinstatement.

CHICAGO, Jan. 13.—An echo of the 1919 world series scandal was heard today when it became known that George (Buck) Weaver, a former Chicago White Sox third baseman, had personally appealed to Judge K. M. Landis for reinstatement in organized baseball and for the first time had told a baseball official his version of the scandal through which it was alleged eight White Sox players were bribed by the Cincinnati Reds.

Weaver, it has become known, actually appeared before Judge Landis a personal one and not a formal application, nothing was known of it publicly. In his plea to the baseball commissioner, the third baseman reiterated his innocence and told a story which for many months has been known to a few of his personal friends, but which has never been made public.

Weaver, it is said, declared that he was approached by a White Sox ball commissioner, the third baseman asked if he would join in a plan to throw games in the world series that fall. It was explained to him that several other players had agreed to deliberately lose contests and make the series a "made to order" one so far as the gamblers were concerned. "Buck" was offered \$10,000 as his share if he agreed to "lay down."

Weaver at that time had just opened a drug store on the south side and needed capital, he is understood to have told Judge Landis. Thinking over the proposition, he found himself faced with three possible courses of action:

- 1.—To accept the bribe and help throw the series.
 - 2.—To refuse the bribe and tell Charles A. Comiskey, owner of the Sox, of it.
 - 3.—To refuse the bribe and say nothing, thus avoiding the odium that attaches to one who "itches" on a friend.
- The third baseman told Judge Landis that while he needed the \$10,000 badly in view of his new business enterprise, it never entered his head to accept it.
- "The only doubt in my mind," Weaver is said to have informed the baseball commissioner, "was whether I should keep quiet about it or tell Mr. Comiskey. I was not certain just what men, if any, had received propositions or whether they accepted. I couldn't bring myself to tell on them even had I known for certain. I decided to keep quiet and play my best."
- Judge Landis refused to discuss the case.

TUNNEY AFTER LIGHT HEAVYWEIGHT TITLE

Will Attempt to Wrest Crown From Levinsky in Madison Square Garden Tonight.

NEW YORK, Jan. 13.—Gene Tunney, a champion product of fistie engagements that occurred behind the battle lines in France, will attempt tonight to wrest the American light-heavyweight title from Battling Levinsky, one of the veterans of the ring, in a 12-round bout in Madison Square Garden.

Since Tunney returned from France his pugilistic prowess has carried him through to victory against such big men as his division. He is a hard hitting boxer of the Carpenter type and has been mentioned as a future world champion. Levinsky in his more than 200 ring engagements has been knocked out but twice, once by Jack Dempsey and once by Carpentier.

In another bout, Fred Fulton, the over-sized Minnesotan, will meet Bartley Madden, a rugged heavy-weight, who boasts the fact that he never has been floored for the full count. Fulton is recognized by experts as the best boxer of the heavyweights. He has been knocked out, however, by Dempsey and Harry Wills.

CARPENTIER PROVES HE'S IN GOOD SHAPE

Decisive Victory Over Cook in London Disperses Rumors As To Poor Condition.

LONDON, Jan. 13.—Georges Carpentier's decisive victory over George Cook, the Australian heavy-weight, in Albert Hall last night is looked on in sporting circles as definitely disposing of recent reports that the European champion is in poor physical condition. Cook put up a game fight for three rounds, but the superior ring generalship of the Frenchman, combined with his carefully trained condition, soon told and the Australian went down for the count in the fourth. A straight left to the jaw followed by two crashing rights on the same point felled Cook, who was on one knee for the count of ten but unable to continue the battle.

Carpentier entered the ring at 170 pounds, 18 pounds lighter than his opponent, but a 5 to 2 favorite in the betting. Ringside observers said he had never appeared more fit and had never exhibited greater skill.
