SIAMESE TWINS DIE IN HOSPITAL EARLY THURSDAY

BROTHER REFUSES TO PERMIT OPERATION TO SEPARATE THEM

PNEUMONIA FOLLOWS ATTACK OF JAUNDICE

Had Been Confined in a Chicago Hospital for the Past Ten Days

CHICAGO, March 29.—Josefa and Rosa Blazek, the "Siamese twins" died at a hospital here at 2:37 o'clock this morning.

The twins have been confined in the hospital for the last 10 days. Josefa was ill with yellow jaundice and this was followed by pneumonia.

Shortly before her death, Rosa was ill with pneumonia. Josefa was ill with pneumonia.

Preparations had been made for the operation and the physicians were ready to make every effort to save the life of at least one of the women.

Hope of saving the life of Josefa was abandoned at midnight, according to the physician.

Dr. Breakstone explained that a delicate operation would have been necessary. Before their death he had expressed the opinion that the psychological affinity of the twins was so vital that if one should die the other might also succumb before the hands of "fish and fowl" that join them could be severed.

Although the twins possessed separate respiratory and cardiac systems, Dr. Breakstone said that they had only one set of secondary digestive and procreative organs.

Rosa was once married, her name being Rosa Blazek. She was married by a normal 11-year-old boy. Her husband was a captain in the German army and was killed in action in 1917. She was married 15 years ago. Josefa never married.

The little son, Frans has been at the bedside of his mother, who used to be within the last few hours was less critically ill than Josefa. The twins were born in Cascho-Slovakia 15 years ago. There were four other children, all normal and all still living. The father is 55 years old and said he was 15 years old when he was born. The mother died a year ago at the age of 45 years.

Acquire Considerable Wealth. During a tour of the world the twins acquired considerable wealth. They died without making a will.

As the women grew weaker last night physicians pleaded with the brother to permit an operation. He was the only adult relative capable under the Illinois laws of giving his consent.

But the pleas of the doctors were in vain. "No," said the brother. "No, not even if Rosa lives for hours after Josefa dies. There shall be no operation."

Two hours past midnight Dr. Breakstone said there was no need of prolonging the argument with the brother.

"It is useless," he said. "The condition of each is now the same—the condition that forecasts certain death. An operation now would do no good."

Frans, the 11-year-old son, knelt at the bedside weeping while the surgeons endeavored to persuade the brother to permit the operation that they believed might save the life of his mother.

The physicians said the women regarded differently to the same medicine, although their illness recently has been of the same nature.

Medical records recalled by physicians who have been interested in the case disclose a number of so-called Siamese twins. Chang and Eng lived to the age of 44. They married sisters and Chang had six children and Eng five, all of them normal. Eng died first and a surgeon separated them. Chang died soon after.

Twins that have attracted worldwide fame include the Hindu sisters who were joined face to face, the connection being at the chest; the Newport twins, somewhat similar to the Hindu twins; the Orissa sisters, Radhica and Doodie, joined face to face; the Biddenden girls, connected shoulder to shoulder with only two arms; the Hungarian sisters, Helen and Judith, joined back to back at the lower segment of the spine; and the North Carolina sisters, Millie and Christine, joined as were the Hungarian sisters; and the same manner as the twins who just died. Their connection was through the pelvis, the right hip of one and the left of the other being fused together.

Women Are Not Of One Mind on "Flapper" Issue

LAS VEGAS, N. M., March 29.—The women of Mesquite county seat of Harding county, New Mexico, are not of one mind in regard to the objects of the Mesquite Matrimonial Protective association, recently formed in that county.

The association has declared its purpose to be to eliminate the "flapper" from the matrimonial race. Mrs. Myra G. Deferosa, county superintendent of schools, asked the members of the club to be specific in their exact details what their ideal is, while Mrs. Aurelia Trujillo, former editor of the Mesquite Sun, declares that "when the girls learn to dress so as to show more of their ears and less of their knees, to dance with more grace and less indecent wiggling, they will be more desirable in the eyes of the serious minded men."

HEAVY RAIN HANDICAPS MEDIA DRILLING OPERATIONS. MEXIA, TEXAS, March 29.—Mexia was deluged Wednesday after a three-inch rain in less than 15 hours and drilling operations were seriously impaired in the oil field.

A derrick was blown down in the edge of town by the wind storm that accompanied the rain and it is feared that reports from the field will tell of considerable damage.

LEBAN OF KANSAS CITY COUNSEL FOR LUMBERMEN. NEW ORLEANS, March 30.—John H. Lucas of Kansas City was elected chief counsel of the Southern Pine association at the concluding session of the organization's convention here yesterday.

ST. PAUL, MINN., March 30.—A snowstorm coming from the Dakotas had reached the Mississippi river in Minnesota by midnight last night and in Wisconsin had extended as far east as Eau Claire. Mild temperatures accompanied the fall.

WASHINGTON, March 30.—Although no normal order has been entered, it is anticipated that as a result of a conference before the interstate commerce commission yesterday that southwestern railroads will soon apply for authority to grant an emergency rate giving a reduction in freight charges on shipments of cattle from the Texas

range to those of the northwest as well as to prairie pastures of Kansas and Nebraska.

The cattlemen were represented by Sam M. Cowan and D. B. Spiller of Fort Worth, and Representatives Hudspeth and Jones of Texas. Edward Chamber of the Santa Fe represented the railroads, and when Chairman McCord indicated that the application of cattlemen should be granted, Mr. Chambers said he would confer with the other railroads interested.

The rates sought are those applying before those granted under act June 74 and the shippers also seek application of the 20 per cent reduction on short hauls as well as those where the rate exceeds 50 cents a hundred and on intrastate rates in Texas. The only formal objection was made by a representative of the Orient, but this was not pressed.

DEATH PENALTY FOR NEGRO ON TRIAL IN WACO FOR MURDER

WACO, TEXAS, March 29.—The trials of Henric Young and Cooper Johnson, the two negroes charged with the murder of Homer Turk and Mrs. W. H. Barker at Concord, this county, February 11, have been concluded with the conviction of Johnson yesterday and the infliction of the death penalty, the six Texas negroes under command of Captain Frank A. Hamer juried the prisoners over to the local officers and returned to their respective duties elsewhere.

The negroes are still here and Sheriff Buchanan said today he intended to keep them here. Young was given a life term. There has been no manifestation of the mob spirit and the sheriff believes the verdicts meet with the approval of the people. He says he comprehends no attempt to take the prisoners from the jail, but would resist any such attempt to the utmost.

W. H. Barker, his wife and 13 year old boy named Homer Turk, were murdered at the Barker home and both the negroes arrested ten days after the tragedy, confessed to the officers. They repudiated the confessions and attempted to establish alibi.

Each is indicted for each of the three murders, but it is doubtful if either of them will be tried again. The county attorney is disposed to be satisfied with the two convictions and while motions for new trials have been filed, it is doubtful if any appeal will be taken.

REPUBLICAN PARTY IS SCORED BY COX; TRIBUTE TO WILSON

JACKSON, MISS., March 29.—James M. Cox, former governor of Ohio and democratic presidential candidate in 1920, scored the international policies of the republican administration and what he termed "Lodgeism" and the "boil weevilism" in our international affairs, in a speech before a joint session of the two houses of the Mississippi legislature last night. He paid tribute to Woodrow Wilson and the league of nations and urged upon the southern farmer the need of diversification.

Referring to Henry Ford in his efforts to obtain the lease of the Muscle Shoals nitrate and water power projects, Mr. Cox said: "I want to see his millions and millions of dollars poured into the pockets of the United States government of the United States give him this opportunity."

He closed his address with an optimistic prediction for the future of the democratic party.

SPLENDID TRIBUTE TO LUCIAN PARRISH FROM WOMAN'S PEN

FORT WORTH, March 30.—Mrs. Beulah Sterling Given of Dallas, well known in state organization work, and who had charge of the "Farrish for U. S. Senate" headquarters at Fort Worth, speaking for the women who had supported Mr. Parrish's candidacy, today paid Congressman Lucian W. Parrish the following tribute:

"At the edge of the chasm that separates the sunlit fields of time

from the shadowland of eternity, our splendid leader ended his last gallant fight, which none but a superman could have combated for nearly two weeks at 9:30 p. m. Monday, March 27, for the life that had promised so much. He has passed on to join the chorus of that innumerable band that has marched to other fields, while in the full flower of manhood, carrying with him the love and sympathy and admiration of everyone who knew him.

"His going is a distinct loss to the entire state as well as his friends and loved ones."

"He had, like Abraham Lincoln, heved from poverty and obscurity a path to success and glory. His life was but a poem of rectitude, a song of valorous upright manhood. The only formal objection was made by a representative of the Orient, but this was not pressed.

"His going is a distinct loss to the entire state as well as his friends and loved ones."

"He had, like Abraham Lincoln, heved from poverty and obscurity a path to success and glory. His life was but a poem of rectitude, a song of valorous upright manhood. He stood in line with heroic courage, played a man's brave part and engaged in the final struggle with a smile upon his lips—the consciousness of a sincere, true Christian. Somewhere, in some fairer field, unshackled by earthly clay, the unimpaired soul of our departed leader will live on. What an imperishable, beautiful picture

recollected of his life has painted upon memory's walls.

"All Texas was with him in his courageous struggle. All Texas will join in expressions of love and sympathy to his bereaved ones."

Music Memory Final Contest Friday Evening

The finals in the public schools' music memory contest, which has been conducted the past several weeks under the direction of Miss Henrietta Pyle, and in which hundreds of children have entered, will be held Friday evening in a public hall at the First Baptist auditorium. The program will comprise twenty memory test selections which will be given by Mesdames John Wieg King, Walter A. Robertson, C. Y. Daily, Lucella B. Thompson, O. E. Nichols, and Templeton; Misses Annette Walsh and Florence Sammons; and Messrs. Katz, Templeton, Ray and Lowe, all of whom have been most generous with their assistance during the progress of the contest.

Parents and others interested, including children accompanied by adults, will be welcome in the hall, but the contestants occupying the first floor exclusively. The contestants will not be expected to be at the auditorium before the contest failure to observe this rule, Miss Pyle states, constituting sufficient reason for debarring contestant from the test.

The final test will show the result of a short, intensive, cramming course in musical composition and selection. Miss Pyle stated, "but a serious study that has been in correlation with the regular music work in school since December 1. The children have been led to observe the simple forms that all good music contains, the characteristics of different instruments for obtaining different effects, and on the whole, everything that will enable them to attain a higher appreciation of good music."

The contestants will be called upon to distinguish the selections rendered and write the name of their selection with the name of their composer, on their record. The program will begin at 7:30.

WHEN THE FLAPPER MARRIES

The flapper bride will have none of the stiff satin wedding uniforms that have persisted through decades of varying fashion. She may choose satin of a delicate softness, however, if she feels so inclined, but she is just as likely to choose lace or gauze or silver cloth or some exquisite silk. And she may dispense with a train altogether.

As well, however, she does not despise for no woman can resist the lure of tulle or Brussels point. Tulle is still the popular material for a veil unless one inherits a veil of rare lace. The flapper finds wonderful things may be done with tulle—crisply frilled and standing perkily upright or swathed so that she looks like a medieval princess. A bandeau of silver leaves or of crystal flowers, an effective adjunct to the veil.

The bridal bouquet alone seems to remain unchanged. Lilies of the valley, with an occasional orchid or rosebud, and white ribbons compose it.

By way of innovation, some New York flappers have introduced little crystal chains, as many links as desired, to supplant the ribbon streamers which fall from the bridal bouquet. The chain symbolizes attachment.

Right before them on the ground appeared a little basket. Kip helped Nancy and Nick to find the path again on Electric Mountain and then he left them. "I'd like to stay with you," he said, "but I can't. You see, Princess Thermo, in her Castle of Mirrors, sees everything. She can see all the trouble you are having, although she cannot help you. Besides you must make the journey alone. She is likely looking at me with you now, but that's allowed. I'm only talking to you. Goodbye now."

GRAY HAIR BECOMES DARK AND BEAUTIFUL

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old time recipe improved by the addition of other ingredients at very little cost. Everybody uses this preparation now because no one can possibly tell that you darkened your hair, as it does so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after a few applications or two, your hair becomes beautifully dark, thick and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet-essence. It is not intended for the cure, mitigation or prevention of disease.—A.C.V.

FRECKLES

March Worst Month for This Trouble—How to Remove Easily.

There's a reason why nearly everybody freckles in March, but happily there is also a remedy for these ugly blemishes, and no one need stay freckled.

Simply get an ounce of Othine—double strength, from your druggist and apply a little of it night and morning, and in a few days you should see that even the worst freckles have begun to disappear, while the light ones have vanished entirely. Now is the time to rid yourself of freckles, for if not removed now they may stay all summer, and spoil an otherwise beautiful complexion. Your money back if Othine fails.—adv.

GIRLS! GROW THICK LONG, HEAVY HAIR WITH "DANDERINE"

Buy a 25-cent bottle of "Danderine." One application ends all dandruff, itching and falling hair, and in a few moments you have doubled the beauty of your hair. It will appear a mass, so soft, lustrous, and easy to do up. But what will please you most will be, after a few weeks use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. "Danderine" is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. This delightful, stimulating tonic helps thin, lifeless, faded hair to grow long, thick, heavy and luxuriant. (adv.)

Watch the Change when you shampoo our way

You who accepted the free trial bottle of Palmolive Shampoo know what these changes are. You have seen the silky texture which Palmolive gives your hair and admired the becoming satiny gloss.

It cleansed your scalp of every trace of clogging dirt and dandruff, leaving the delicate organism of each hair to do its natural work.

These results are due to the action of palm and olive oils in combination. These costly Oriental oils, famous for centuries as softening, relaxing, beautifying cleansers, are the basis of Palmolive Shampoo.

You must fight dandruff

Even the healthiest scalps secrete a moderate amount of dandruff, which doctors call seborrhea and charge with most hair troubles.

It is harmless enough if, when you shampoo, it is thoroughly washed away.

But ordinary shampooing doesn't affect the dry, oily scales which withstand most cleansing. They accumulate until the hair cells are clogged.

This clogging prevents proper nutrition and your hair begins to come out. This is the danger signal.

The softening, penetrating lather produced by the blending of palm and olive oils penetrates the formation of scales, loosening and dislodging them from hair roots and scalp.

You need never fear dandruff if you shampoo with Palmolive.

If you didn't get the free 15-cent trial bottle of Palmolive Shampoo, fill out and mail the coupon to the Palmolive Company. We will gladly mail it, that you may learn the results which follow even the first Palmolive shampoo.

INTERSCHOOL ASTIC CONTESTS START FRIDAY MORNING

NEARLY 200 STUDENTS ARE TO COMPETE IN ANNUAL EVENTS

ATHLETIC, LITERARY AND MUSICAL EVENTS PLANNED

To Decide Who Will Represent Local Schools in Coming District Meet

Approximately 200 public school pupils will swing into action here Friday morning in the first of a series of elimination contests that will eventually decide those who are to represent Wichita Falls schools in the district interscholastic meet at Iowa Park April 14 and 15.

Interest in the interscholastic contests has increased tremendously in the past year, as evidenced by the fact that in the 1921 trials only 29 contestants entered the senior declamation events and a scant half dozen in the junior division.

At the high school Friday a semi-holiday will be declared in order that the entire day may be devoted to the senior declamation preliminaries. With such a large list of entries it will be necessary to start the declamations early in the morning in order that the entire list may be heard in the one day.

Declamation preliminaries will also be held in the ward schools Friday, but since the entry lists at these schools are not so large class work will not be interrupted.

Friday night at the First Baptist church the music memory contests will be held and Saturday morning will find the athletic, spelling and essay writing contests at the Junior and senior track and field events will be alternated Saturday morning, with the probability that the former will be finished by noon.

The declamation finals in both junior and senior divisions will be held Saturday night. School officials are especially anxious that the public generally turn out to witness the various contests. The declamation preliminaries at the high school Friday morning and afternoon will be open to anyone and a cordial invitation is extended on behalf of the teachers and pupils.

In addition to striving for places on the official teams to represent Wichita Falls in the district meets, an added incentive has now been provided by the Lion club of this city, which is offering a silver loving cup to the school whose entries acquire the greatest number of points.

The official schedule, as announced Thursday by C. E. Danheim, athletic director of the high school and general manager of the meet, is as follows:

Friday morning, 9 o'clock: Senior boys and girls preliminary declamatory contests. Junior boys and girls preliminary declamatory contests Friday afternoon, 1:30 o'clock.

Saturday morning, 9:30 o'clock: Spelling contests, fourth, fifth, sixth and seventh grades, Saturday morning, 9:30 o'clock. Essay writing contests. Athletic events.

Class A, 100 yard low hurdle; 100 yard dash; one mile run. Ward schools, boys and girls 100 yard dash; potato race; girls quarter mile relay; boys and girls 50 yard dash; boys half mile relay; standing broad jump; running broad jump; running high jump; boys and girls baseball and basketball throw for distance.

BIGGER PLAYGROUND FOR SAM HOUSTON SCHOOL PROPOSED

Announcement that the purchase of eight lots adjoining the Sam Houston school property was now being consummated for the purpose of enlarging the school playground was made Thursday morning by W. W. Brown, business manager of the local school system.

By acquiring the additional tract of land, the Sam Houston playground will be more than doubled in size, according to Mr. Brown. The school, located in the 2400 block Grant street, has long felt the need of enlarged grounds and the new purchase will provide ample playground facilities for some time to come.

At its Tuesday meeting the board also took up plans for the enlarging of grounds around the Fanning school building, but no definite decision has as yet been reached as to what this will entail.

Other business matters taken up at the meeting included the appointment of Superintendent of Schools Lee Clark as director of plans for the summer school session and the ratification of several recent teaching appointments.

SENIOR HIGH HAS HARD TIME DEFEATING JUNIORS

The Junior high baseball team surprised the Senior high nine Wednesday afternoon by holding it to a 2 to 3 score in the best played game of the season.

A triple play by the Juniors in the sixth session kept the score down but with the exception of these two innings, the Juniors played their older brethren on even terms.

Score by innings: H. R. E. Senior High 1 0 0 0 0 0 0 0 0 0 0 0. Juniors 3 0 2 4 2 0 0 0 0 0 0 0. Batteries: Bonland, Ray and Ross; Gildwell and Perry.

MEMBERS OF OKLAHOMA TRACK TEAM QUIZZED BY ATHLETIC COUNCIL

NORMAN, OKLA., March 26.—The athletic council at the university of Oklahoma was today quizzing members of the track team to find out if they knew that Harold Hufbauer, captain of the Sooner track squad in 1920, was an ineligible member of the team which defeated Baylor University at Waco, Texas, in a dual meet last Monday.

Hufbauer was expelled from school yesterday by President Stratton D. Brooks and (Driver C. Jacobsen, university track coach, was discharged as a result of the affair.

Upon the findings of the athletic council will depend whether the entire track team will be declared ineligible for further athletic competition at the university, according to Ben G. Owen, director of athletics.

Hufbauer conferred with Owen this morning and tried to take all the blame for his entry in the meet with Baylor, Owen said. Hufbauer, according to Owen, said he had taken along to fill the place of Raymond Moore, who was left behind because of a wrenched knee.

A telegram accepting the apology of Director Owen for the affair but declining to accept forfeiture of the meet, was received today by Owen from Frank C. Bridges, director of athletics at Baylor, Bridges' view

the hope that relations between the two institutions would continue the same. Owen had wired an apology last night and offered to forfeit the meet, won by Oklahoma, 69 to 45.

WACO, TEXAS, MARCH 30.—COACH FRANK B. BRIDGES OF THE BAYLOR TRACK TEAM HAS WIRED THE NORMAN, OKLA., TRACK OFFICIALS THAT BAYLOR WOULD ACCEPT THE APOLOGIES OF THE OKLAHOMA MANAGER FOR USING INELIGIBLE MEN IN THE TRACK MEET HERE, BUT WOULD NOT ACCEPT THE FORFEITURE OF THE MEET.

Coach Bridges attaches no blame to the Sooner management.

Manager Walter Salm of the Spudgers returned today from a trip made in an effort to further strengthen the team, and while he had no definite deal to report, he stated that he was negotiating for two pitchers and expected to have a definite reply within the next 48 hours.

Negotiations are under way with the New York Giants for Pitcher Clumby and it is possible that he may join the Spudder twirling staff. Another pitcher is in prospect, but his name has not yet been announced.

Increases the action of the intestines

Hundreds of men and women have already found freedom from laxatives by eating Fleischmann's fresh yeast.

Doctors are now agreed that proper elimination of waste matter should be brought about by food. One doctor comes right out and states plainly that the indiscriminate use of cathartics is one of the causes of constipation.

Physicians all over the country are recommending Fleischmann's fresh yeast because it is a fresh food, rich in those elements which keep the intestines healthy. In one series of tested cases, normal functions were restored in from 3 days to 5 weeks.

Try it out for yourself. Begin today by adding 2 or 3 cubes of Fleischmann's Yeast to your everyday diet. Keep it up and see how normally and regularly your intestines act. Be sure it's Fleischmann's Yeast—the familiar tin-foil package with the yellow label. Place a standing order with your grocer.

THE FIVE POWER PACT PROVIDES

The five power naval pact has been ratified by the United States senate. It is almost certain to be ratified by the other nations in the pact, Great Britain, Japan, France and Italy. For these countries rarely fail to ratify the acts of their representatives.

This treaty marks the first voluntary step among nations for a limitation of armament. The league of nations was instituted to end wars and it is its purpose to bring about a very marked limitation of armament, a limitation extending much further than that provided for in the five power pact but it was the fortune of the Washington conference to take the first actual and definite step in this direction.

The new treaty will not mean for the United States that our naval expenditures will be decreased but it does mean that they will not be largely increased as would have been probable without this treaty.

Here are some of the things the five power pact provides: Provides for a naval holiday of ten years, and sets up rules for the replacement of vessels after that date, until the termination of the treaty, Dec. 31, 1936.

Provides for the scrapping of twenty-eight battleships by the United States, twenty by Britain and ten by Japan, finally to establish this tonnage: United States 35,000 tons, Britain 35,000 tons, France 22,170 tons, Italy 12,000 tons, Japan 10,000 tons.

Limits aircraft carriers to 135,000 tons for the United States and Britain, 10,000 tons for France and Italy, 8,000 tons for Japan; armament to be not larger than 8-inch guns.

Limits the tonnage of auxiliary vessels to 10,000, but not their numbers. Limits armament to 8-inch guns.

Stipulates that capital ships can not be larger than 35,000 tons, nor carry guns larger than 16-inch.

Maintains the status with regard to fortifications in the Pacific, excepting home lands; except that America can fortify Hawaii, the Aleutians and Panama.

TODAY'S TALK

By GEORGE MATTHEW ADAMS

MORNING, NOON AND NIGHT. We sleep—only to wake again. And then into the day and its activities, appeals and incidents we go—only to sleep again!

Our little lives are filled with mornings, noons and nights. And were it not for the Creator of these movements of time that come to us all, what an expanse of monotony our lot here would be!

But as it is, Morning comes with its freshness and promise, Noon with its inspiration—Night with its fulfillments.

Only as we turn over routine, as the farmer does the dead soil that it may be reborn again, are we able to rout sameness and put in its place richness of experience and accomplishment.

Each day comes to us in the appearance of a darkened room. The shades are drawn. We know not what manner of day we are going to have. But as we step to each window and raise each shade, the light streams in. We know that we are to have as companions every gift of the Universe.

And God pity the man who can see nothing in Nature but monotony and dullness—merely morning, noon and night.

Every thought of ours produces a definite effect—significant or not. We are measured in the world by the height and breadth and depth of the appreciations that come out of our experiences. And we grow happy as we pass the sensations from these appreciations along.

Morning, noon and night, to you who wish to live the life of action, are a program. Into your morning you will put courage and determination, a well thought-out plan, cheer and the desire to serve. Into your noon you will put laughter, a little rest, many kindnesses shown, a little art and perhaps a song.

While into night you will come with a glad prayer, arms full of that which you have gathered from your toil, and treasuring in your heart the knowledge that you have done your best.

So that morning, noon and night shall spell Victory to you! (Copyright, 1922, by George Matthew Adams.)

"Fastest humans are Paddock and Kirksey," say sport writers. We say the fastest human is the man who married 15 times.

Texas Viewpoints

Amarillo Tribune: One can sympathize with the purpose of Governor Neff in offering to send rangers to Dallas to assist in running down those who are guilty of administering floggings to citizens without agreeing with the wisdom of his seeming eagerness to thrust the power of the state government into a local situation.

The conditions in Dallas are far different from those which obtained in Mexico when the governor declared martial law there. There is nowhere any evidence of a breakdown in the authority of the local officers. At no time has it been charged that officers were in collusion with criminals, as was the case at Mexico. Under these conditions, the suggestion of the governor was rather gratuitous.

He had not been asked for assistance and the conditions in Dallas have not reached such proportion as to warrant the belief that the local moralists cannot cope with it. It is entirely possible that Governor Neff has become somewhat intoxicated with the general approval that his proposals have met.

Waco Times-Herald: By a vote of 47 to 27, the senate ratified the four power Pacific pact. Four of the minority 23 democrats made up the majority side. The four power pact is an agreement between England, France, Japan and the United States to respect their respective rights in the Pacific ocean.

It isn't an alliance; it simply is an agreement to respect each other's rights in the Pacific. There is no sort of resemblance between the four power pact and the league of nations. The league sets up a government of the world, but this pact confers in the event one of the four suspects a trespass. What has been done is merely a recognition of what should be done—respect for the other fellow's rights.

ordinarily, no pact would be necessary, but a situation had arisen that required the pact. It is here to remove any occasion for suspicion and distrust. It nowhere impinges on any country's sovereignty. It gives Charles Evans Hughes a large place in the world's history.

Hall County Herald: Several whippings of white men have occurred over the past few weeks, but they have all been done by unmasked men. No Ku Klux are even suggested. When a man becomes a criminal, he is liable to be whipped. It may not surprise one to hear of him being whipped now and then. No expert lawyer can then get him off on technicalities.

Several months ago, several unmasked men in Dallas, rather than the Ku Klux, were responsible for the whipping of a man in Dallas. The fact is that the recent outrages in Texas are traceable to some extent to a source other than the Klan. The greatest danger to the Klan is that it is possible for irresponsible mobs to be formed to use darkness and deception upon the public, and then lay it on the Klan. The Klan stands primarily for organized law enforcement as we understand it.

Denton Record-Chronicle: Senator Shepard's speech indicates his belief that the league of nations is still the subject to be voted on by the senate. One finds oneself quite in accord with the junior Texas senator in his belief that the league of nations was of infinitely greater beneficial possibilities than the four-power Pacific pact, but one is forced to separate from him when he then upon the proposed sending opposition to the latter. The four-power pact lacks much of being as helpful as the league in settling world affairs.

In the proposition of somewhere near forty-two—which is the league membership—to four—which is the four-power treaty membership—the latter is infinitely greater than its possibilities of harm, and something to be desired. The ultimate effect of which it was evolved, the maintenance of peace, and not, as Senator Shepard apparently thinks, the starting of war. One who is quite in sympathy with him on the Japanese immigration question is wholly unable to follow his argument that the ultimate effect of the treaty will be to admit Japanese immigrants to this country on an equal footing.

and one need go no farther in support of that belief than to point to the British dominions, which, in the face of the Anglo-Japanese alliance—which is in all things an alliance and not a treaty—have erected even more rigid bars against Japanese and other Oriental immigrants than the

United States purposes. Admitting that it is impossible to exactly foresee all the results of ratifying the treaty, or at least that the nature of those results is largely a matter of judgment and opinion, one is constrained to believe that Senator Underwood's judgment is at least as good as that of any other democratic senator, including the junior member from Texas, and in all probability, since he took part in the negotiations which culminated in the arms conference treaties, is better than that of most because of his more information regarding them. Too much of the democratic opposition to the treaties has seemed to be predicated too much upon the same kind of partisanship that brought about the defeat of the Versailles treaty, and deservedly condemning republican partisanship in that instance should not lead to unwholesome democratic partisanship in this.

Amarillo News: It is no secret that men of prominence in outstanding manner, have proclaimed the fact that the morals on the highways about Amarillo, are most deplorable. Several months ago, two young girls were found "waiting in" following an automobile accident. This was just one of many such incidents, or worse. The following press dispatch out of Dallas under date of March 21, is of interest, bearing on the point in hand.

"Probe of the morals on highways around this city will be started Tuesday by the grand jury. It was announced today. Two boys and a girl who is only 16 years old will be called before the jury to testify. They were arrested by officers recently near E. M. U. It is charged that the two young men attempted to criminally assault the girl." The Dallas grand jury has unquestionably been forced to take cognizance of the unhealthy condition of morals on the highways near that city. This leads to the question: Will the Potter county grand jury be able to get anywhere with an investigation into matters of a similar nature? It has been said that Amarillo is not worse regarding such matters than are many other considerably sized communities, and perhaps even less consequent upon the personal conduct of the grand jury is such that none will question for a minute, this assertion. The work of the present grand jury will be watched with keenest interest, in view of many statements which have been made publicly, as touching the low state of morals presumed to be prevailing on the highways near this city, and elsewhere, for that matter.

FRENCH ATTITUDE ON TREATIES MAY CAUSE CONFUSION

Disturbing feature is possible attempt to change ratio

Idea of reservations is from U. S. senate

Great Britain might resent increase in French and Italian navies

By MARK SULLIVAN (Copyright, 1922, by the New York Evening Post)

WASHINGTON, D. C., March 29.—The intimation from France that the parliament of that country is to be convened in the near future and that it will discuss our American attitude and initiate a prerogative of adopting reservations to international treaties is gravely disturbing to the American senate.

It is now apparent that the lead taken by the United States senate in the case of the league of nations and in the case of the present treaties has been to appeal to some of the foreign parliaments as a good practice to imitate if for no better reason than pride and prerogative.

It would do no harm and create no confusion if the French parliament should restrict itself to adopting merely the American reservation that the American senate has already adopted.

But if the fundamental matter of the ratio is to be taken into the boiling pot of French politics something very embarrassing might emerge.

The ratio of naval ships given to France by the Washington conference was 1.75 as compared to 3 to Japan, 2 for Great Britain, and 1 for the United States.

At the recent conference Italy took the position that she must have the right to have as many ships as France. If France should attempt to raise her ratio to 2.50, and if Italy should attempt to do the same, Great Britain would undoubtedly take notice.

The position of Great Britain at the Washington conference was that she must have at least as large a navy as the combined navies of any two European powers. If France should insist on 2.50 and Italy should do the same, the world would give these two nations combined the same number of ships as Great Britain.

France on November 12 had about 144,000 tons of capital ships. It had been treated on the same basis as the other three nations and if she had been required to scrap 40 per cent of her existing strength, 58,400 tons would have been left.

In this respect, the treatment of France was unique. Navy was the only nation permitted to have more ships in the future, than she actually had at the time the conference opened.

What France wants to do now is not to take her standing of November 12 as the basis, but to go back to a time when she had not so large a navy relative to the others, or to look forward to a time when she may be able to build a larger navy.

This sort of hypothetical situation and all this sort of argument about special needs is exactly the kind of thing that has been done from consideration of the Washington conference. It was realized that if the Washington conference should engage in a debate about hypothetical naval needs or special needs it would get nowhere.

It was a plain question of stopping competition, or of not stopping competition. If it had been decided not to stop competition, the United States, Great Britain, and Japan had and have the resources to build navies many times the size of any navy that France could hope to build.

If France had been successful in defeating the Hughes plan or if she should now destroy the result of the conference by reservation, the treaty she would be hopelessly outdistanced in the competitive naval building that would result.

WASHINGTON, March 29.—Congress and President Harding are not at loggerheads, despite the impression created by "certain writers and certain newspapers," Representative Mondell, Wyoming, republican leader, declared today in a statement which he said he had prepared for delivery as an address in the house.

"The fact is that instead of the president and congress being at loggerheads," stated Mr. Mondell, "there never has been a time in my quarter of a century of experience in congress when the relations between the president and congress, particularly in the house of representatives, were more pleasant, cordial, sympathetic and harmonious than at the present time."

"Any one who will take the trouble to read the recommendations of President Harding to this congress from time to time and examine the record of congress will find that practically all of these recommendations have either been written into law or are in process of enactment, and this applies particularly to the record of the house."

The republican leader said he favored a comparison with any period of American history and challenged any one to find a record of "finer relations between the president and congress" than the present.

He said that the impression created by "certain writers and certain newspapers" was a "systematic attempt" on the part of various newspapers and writers to create the impression that there was friction between the executive and republican congressional leaders.

Efforts are also being made, Mr. Mondell declared, to make it appear that there is a wide rift between the president and republican leaders in congress over legislation affecting the army and navy.

He stated that the president's wish with regard to the military establishment is much more nearly in harmony with the action which has been taken by the house than it is with the attitude of the majority of the newspapers and newspaper editors who are assuming to know and to promulgate his views.

One of the largest crowds ever assembled in Henrietta gathered Wednesday afternoon to attend the funeral of Congressman Lucian W. Parrish. Early in the afternoon and long before the hour of the funeral service, which started at 2:30 p. m., the First Baptist church, of which Mr. Parrish was a member and where the funeral was held, was filled to overflowing and the crowd that stood reverently outside the building during the service was much larger than that which filled the church to its capacity.

Several hundred citizens of Wichita Falls were present and there were many from other sections of the state.

The service was conducted by Rev. Hunt, pastor of the First Baptist church, who delivered an eulogy on the life of the dead congressman. Rev. R. F. Jenkins of Amarillo, former pastor of the church, and Rev. Finis Crutchfield of Dallas, former pastor of the First Methodist church at Henrietta, also paid fitting tributes to a life and character.

Thousands followed the bier to Hope cemetery where the body was laid to rest. Beautiful floral tributes covered the grave and will pile high upon it.

Active pallbearers were: Leslie Humphrey of Wichita Falls, O. T. John Jenkins of Henrietta, H. D. Bonnell of Henrietta, T. H. Marberry of Henrietta, and J. H. Marberry of Henrietta.

CLAIMS CONGRESS HAS HAD NO BREAK WITH MR. HARDING

STATEMENT IS MADE BY REPUBLICAN LEADER IN THE HOUSE

RELATIONS PLEASANT AT ALL TIMES, HE DECLARES

Charges "Certain Writers and Certain Newspapers" Create Impression

WASHINGTON, March 29.—Congress and President Harding are not at loggerheads, despite the impression created by "certain writers and certain newspapers," Representative Mondell, Wyoming, republican leader, declared today in a statement which he said he had prepared for delivery as an address in the house.

"The fact is that instead of the president and congress being at loggerheads," stated Mr. Mondell, "there never has been a time in my quarter of a century of experience in congress when the relations between the president and congress, particularly in the house of representatives, were more pleasant, cordial, sympathetic and harmonious than at the present time."

"Any one who will take the trouble to read the recommendations of President Harding to this congress from time to time and examine the record of congress will find that practically all of these recommendations have either been written into law or are in process of enactment, and this applies particularly to the record of the house."

The republican leader said he favored a comparison with any period of American history and challenged any one to find a record of "finer relations between the president and congress" than the present.

He said that the impression created by "certain writers and certain newspapers" was a "systematic attempt" on the part of various newspapers and writers to create the impression that there was friction between the executive and republican congressional leaders.

Efforts are also being made, Mr. Mondell declared, to make it appear that there is a wide rift between the president and republican leaders in congress over legislation affecting the army and navy.

He stated that the president's wish with regard to the military establishment is much more nearly in harmony with the action which has been taken by the house than it is with the attitude of the majority of the newspapers and newspaper editors who are assuming to know and to promulgate his views.

YANKEES ARE WEAK AT THIRD CORNER

Bad Legs May Force Frank Baker Out of the Running

By NEA Service.

NEW ORLEANS, La., March 30.—The New York infield will consist of Wallie Pipp at first, Aaron Ward at second, Everett Scott at short and J. Franklin Baker at third.

Except at short, where Scott replaces the veteran Roger Peckinpaugh, this is the same combination as that which started the 1921 campaign, and except during periods of enforced activity for Baker, remained intact practically throughout the season.

The only apparent weakness in the arrangement is at third base, where Baker is thought to be too brittle to survive the wear and tear of another strenuous race.

Baker is getting old, as baseball players measure age, and his legs are none too good. Injuries to his legs forced him out of the game for long periods at more than one critical stage of the 1921 pennant pursuit. It is feared that he will be the victim of the same fate again this year.

Fortunately for their chances of winning another pennant, however, the Yankees are well equipped with extra infielders. Mike McNally, who played so brilliantly a game after replacing Baker at short, again is available for service. Huggins also has McMillan, a most promising youngster, in reserve.

FORMER EXPORTER ONE OF TWO PHENOMS UNCOVERED BY BROWNS

Left to right, Eugene Robertson, Frank Ellerbe, Dave Danforth.

By NEA Service.

MOBILE, Ala., March 30.—Two new baseball phenoms have been entered by the St. Louis Browns. There may be more, for one can never tell just how far a young rookie is going to jump.

In the 1922 edition of Lee Fohl's pennant entry prepping at Mobile, Ala., there are 13 pitchers, two catchers, two infielders and one outfielder making their debut into the major league society.

The two who already have attracted attention are infielder Eugene Robertson and outfielder Cedric Durst.

Robertson originally is a graduate of the corner lots of St. Louis. He made the enormous leap from municipal baseball to the Browns in the spring of 1919.

He tarted the entire season under Jimmy Burke for his experience course and then had two seasons of minor league ball.

Durst is having his second season in professional ball. He was in Austin, Texas, August 23, 1920 he played in the home town semi-professional circuit as a kid and then blossomed forth with Beaumont in the Texas League last season.

There they are—Robertson and Durst, the selections for the phenom class with the Browns.

Robertson is a shortstopper by trade. He is a shortstopper along the lines of Everett Scott of the Yankees and Charley Hollocher of the Cubs.

A left-handed hitter he has a powerful swing at the ball for a chap who stands but 5 feet 3 inches, weighing 155 pounds.

With Gerber settled for the Browns' shortstop position Manager Fohl is grooming Robertson for the general utility infield position, he is practicing him at second base and third base.

His general knowledge of baseball is what impresses Fohl. He waits until the pitcher to the limit. He is a skillful bunter.

In fielding Robby gets a running start on the ball the minute it starts on its course off the bat. He whips the ball across the diamond with an underhand throw and plays the slow rollers in back of the pitcher with ease. In plain words Robertson is flawless as a ball player.

Durst is a remarkable hitter for a first year man. He may be paired along the lines of Hobby Veach—that slugging left-handed type.

In center field he has not come up with a single weakness. He races in the direction of the fences with the sureness of Tris Speaker, he plays the low liners as Jimmy Sheekard did during his palmy days and he has an arm which, while not possessing the power of Tillie Walker's, is one of exceptional strength.

With Durst it is simply a question of polishing the rough spots, for it is known that a youngster having had but one year in professional baseball is not equipped with the complete knowledge of major league training.

Anyway, Fohl is positive that he has two of the phenom class in Robertson and Durst.

TRACK SCANDAL AT UNIV. OF OKLAHOMA

Coach Discharged and Captain Expelled for Using "Ringer" in Dual Meet

NORMAN, OKLA., March 30.—Grover C. Jacobsen, coach of the University of Oklahoma track team has been discharged, and Harold Hufbauer, captain of the Sooner track squad in 1920, has been expelled from the university, President Stratton D. Brooks announced last night. According to university officials, Jacobsen entered Hufbauer as a "ringer" under the name of Raymond Moore in a dual meet with Baylor university at Waco, Texas, last Monday.

Bennie Owen, director of athletics, also announced he had sent an apology to Baylor officials and had notified them that Oklahoma would forfeit the meet. Oklahoma won by a score of 59 to 4.

When the Oklahoma track team departed for Waco last week, Raymond Moore, a pole vaulter, was in a pacified mood because of a wrenched knee. It was charged that Hufbauer, an all-star athlete in 1920 and now a senior law student, was substituted and entered under Moore's name. He won the pole vault in the Baylor meet and took second place in the high and broad jumps.

Hufbauer was graduated from the State university in 1920, receiving the A. B. degree, which made him ineligible for further athletic competition. His home is at Newkirk, Okla.

Jacobsen is a senior law student. President Brooks said Jacobsen could continue his course if he chose, but would not be connected in any way with Sooner athletics in the future.

A ROOKIE GETS "SHOT"

Billy Evans says

Reports from the Yankees' training camp at New Orleans wait northward the information that Manager Huggins is worried about his outfield.

When Bob Meusel and Babe Ruth were suspended it was believed that the New York club would not be greatly weakened during the absence of these two stars from the game.

It was believed the added pitching strength would carry the burden imposed by their loss.

It really thought that Bobby Roth would step into Meusel's place and deliver with a vengeance. Roth is a great ball player if he wants to be. He is the type who goes great guns for a limited time.

I thought Roth would fill the bill because it is usually in the pinch that he does his best. However, for some reason Roth has been suspended. He can't be figured on.

In many quarters there is an increasing belief that the loss of Roth and Meusel is going to prove a much greater handicap than at first seemed.

Eyes of Baseball World Will Follow Jimmy O'Connell

No ball player is going to be watched more carefully this summer than Jimmy O'Connell.

For fear you have forgotten, Jimmy O'Connell is the young man for whom John McGraw of the New York Giants paid \$25,000 to the San Francisco club.

In a few more weeks the Coast League season will be on full blast. The eyes of the cynical fans will soon be boldly analyzing his work.

Not only will O'Connell be receiving the once over from the home town fans in San Francisco, but all over the United States.

The glare of the sporting spotlight, however, doesn't seem to have changed O'Connell in the least.

When queried as to how he felt about the publicity that had come his way because of the record price McGraw paid for him, he modestly remarked:

"The major league is still one year removed. I am not giving a single thought to the big show. I still have to make good in the minors because I am as yet a minor leaguer."

"I am very glad I didn't get a chance in the National League this year. I am sure to be a much improved ball player in 1923. I really need another year in the minors."

"In addition, by this time next year a lot of the fans will have forgotten all about the \$25,000 New York paid for me and won't expect as much when I make my debut in the majors."

That is certainly some sensible reasoning by one of the most advertised young men in the country.

Farrell Deals Advance.

The Western league voted recently to raise the salary limit from \$4,000 to \$5,000, feeling that it was up to the club owners themselves to determine what the limit should be. There are several Texas league club owners, who feel the same way and rightly so. Just Secretary Farrell of the National Association believes otherwise and has denied the Western's \$500 advance. Farrell is insuring the enmity of the minor league players more every day and some owners have openly declared that they will try to out him at the next meeting.

A Manager's Predicament.

Farrell has made a lot of queer rulings lately and some of his decisions have been taken up by Landis and overruled. Farrell interprets matters, to suit himself, apparently with no thought or feeling for the manager or player. He cooked his goose with the players when he stated that they could not sell their services when free agents. The club owners in Class A ball will be well enough there is a severe penalty attached to any infraction of the rule. Not long ago Walter Salm declared that "it's getting harder every season for a manager to get a winning club together without being crooked. You can't get the good players unless you pay them what they deserve. If you don't get the good players you don't get the patronage. And if you go over the salary limit in getting the good players you're more than likely to pay a stiff penalty."

Says Clark Will Stick.

A Detroit article has picked 25 players who, in his opinion, will be on the Tiger roster all year. Included among the infielders is Danny Clark. An opening day approacher, Danny's return grows more dubious. He won't be missed, however, if the local management succeeds in landing Krehmeyer—it being supposed that Krehmeyer is the player the club is seeking.

Houston Kicks One.

The Houston Buffs may have a good team this season, but it hardly warrants the headlines that appeared in a Houston paper this week that "Houston was the only Texas league club to escape a bad drubbing." A 4 to 5 victory over an AA club could hardly be classed as a "drubbing."

Stevie Has Sore Whip.

Stevie Mookan says he regrets now that he has put so much stress on the ball during the practice seasons. His arm has been sore the past few days that he could hardly raise it, but he declares he is ready to go in against the Cardinals Saturday or Sunday if called upon.

Wright Has Gone.

Eddie Wright has left for Denver and the former Oklahoma City infielder had the best wishes of every Spudder when he went. Eddie was one of the peepiest men on the squad and should bring back the life which has been missing so long from the old Joplin club.

Salm Still Aways.

Walter Salm did not get back Wednesday from Marlin as was expected, so there's nothing to relate on the southward deal. Walter feels, as do numerous others, that a fork-hander is necessary to route out a hurling staff. John McGraw, how-

SCHAFFER RETAINS BILLIARD CROWN

JACOB SCHAEFER

CHICAGO, March 30.—Jake Schaefer today retained world's champion at 162 ballline billiards. In a heart breaking finish last night he nosed out the veteran Willie Hoppe, 1500 to 1468. Thereby "Young Jake" proved conclusively that his two previous victories over the man who for sixteen years reigned supreme in the world of ball line billiards were not flukes and at the same time erased from the family escutcheon a smear marked there fifteen years ago when Hoppe, then a lad in his teens, defeated the elder Jake Schaefer, the "wizard" father of "Young Jake."

over, doesn't think so. John would just as soon have a good right-hander as left-hander any day, he says. It makes no difference to him which way a pitcher throws as long as he can throw 'em past the batter.

Johnny Mookan in Utility Role.

Looks as if Johnny Mookan has landed the outfield berth with the Pirates. Ray Rohwer will be used regularly in right, according to the latest dope emanating from the Pirate camp.

You Tell 'Em.

"Frank Beck's bat will be missed" is a statement made in a Wichita (Kan.) story. What about his fielding?

Pleats of Opposition.

The Cardinal rosters have been winning almost as many games as the regulars this spring and some stellar ball players are numbered among them. Branch Rickey has a wealth of good material this season and the mere fact that the aggregation which is coming to Wichita Falls Saturday and Sunday is termed the "yanigans," does not mean that they are a "bunch of dubs." They have a stronger club than any which has appeared here with the possible exception of the Kansas City Blues.

ATHLETIC CARNIVAL PLANS DISCUSSED AT LEGION SESSION

A meeting that drew one of the largest attendances of the year and that resulted in numerous definite accomplishments featured the American Legion session held Wednesday night at legion hall. Hub Haxel, chairman of the committee, presided over the evening and his spirited address was thoroughly enjoyed by the legionnaires.

Plans for the staging of an athletic carnival, to be composed mainly of boxing bouts, in the near future were put in motion and the complete knowledge of major league training.

Any way, Fohl is positive that he has two of the phenom class in Robertson and Durst.

EXPECTING RECORDS AT WEEKLY SHOOT

More Targets Ordered to Accommodate Shooters; Registered Shoots Announced

A record attendance and some record scores are expected to be chalked up at the regular weekly shoot of the Wichita Falls Gun club Friday afternoon. The number of shooters has increased every week since the opening of the season and preparations to accommodate at least seven squads have been made for this week's event. New targets have been ordered to be shipped by express as the large supply which was thought would be sufficient to carry the club well into the season is fast diminishing.

If the shooters are to be believed, they will not be a bit sorry when the present supply is exhausted. It is the poorest lot at which they have ever shot and the numerous birds which break as soon as they are released from the trap

throws many a nimrod off his stride.

Competition is keener than ever over the club's season trophy. Paul Adams has three legs on it at present and is determined to get his fourth Friday. There are others, however, who have something to say about that and they declare that Adams will do his best shooting of the year if he leads the field this week. Dark horses loom up every week and it would not be a bit surprising if, before the end of the season, some of the present "rookies" are among the leaders.

President Al Deatherage has announced the following dates for the regular monthly registered shoots: April 21, May 19, June 25, July 14, August 18, September 15 and October 13.

WEBB AND COMO TO BOX IN VERNON

VERNON, TEXAS, March 30.—D Webb of Vernon and Kid Como of Lawton, Okla., are scheduled to enter a ten round dispute here Wednesday, April 5, in the local armory. Webb and Como recently fought a draw in Frederick, Okla., and those who witnessed the encounter are prone to give the Vernon scrapper an edge on his opponent. Webb is now working at Frederick for his tilt with Como.

AMERICAN INDIANS TAKING UP GOLF

Natural Ability Makes Aborigines Loom Up As Possible Champion

CHICAGO, March 30.—And now the American Indians have taken up golf, many of the aboriginal caddies on the courses in Arizona having procured clubs and by imitating the white man, become fairly proficient in the game. At the new Ingleside club near Phoenix, Arizona, young bucks from nine different tribes have gained considerable proficiency and with gifts of clubs from wily visitors practice the various strokes tenaciously. With the natural swing begotten of the looser joints the sinewy muscles of the keen eyed redskin drive far and straight and approach with the accuracy for which their tomahawking forefathers were justly feared by the white pioneers, all of which makes it possible that some day the national championship will be won by a golfer, who is indisputably an American.

RENTROP DEFEATS BATES IN STRAIGHT FALLS

LITTLE ROCK, ARK., March 30.—Charles Rentrop, claimant of the midweight wrestling championship, won in straight falls here last night from Peter Bates of Chicago. He won the first fall in 39 minutes; the second in less than six minutes.

THE OUTTA-LUCK CLUB

PARDON ME, STRANGER, BUT YOU SEEM TO BE HAVING SOME TROUBLE - CAN I BE OF ANY ASSISTANCE?

SURE - I LOST MY KEY TO THE LOCK ON THIS SPARE TIRE. MAYBE YOU'VE GOT ONE THAT WILL FIT IT.

THANKS - I'LL RUN OVER AND BUY SOME CIGARS - I'LL BE BACK BY THE TIME YOU GET IT OFF.

MAYBE I HAVE.

HELP! POLICE! THIEF!

I'LL NEVER OFFER TO HELP ANOTHER SOUL TILL MY DYING DAY.
