#### INDIANAPOLIS, April 18.—Twenty persons are dead, more than 200 injured and a property loss estimated at more than a million dollars was the toll of yesterday's tornado which swept western and central Indiana, according to figures received here this afternoon. It will be several days, however, before the correct figures will be known, because of the confusion in the stricken areas.

#### CHICAGO, April 18.—Revised figures on the casualties and damage caused by the storm which swept over the central states yesterday and last night indicated at noon today that the loss of life would not be as great as had been expected. The latest figures showed 24 known deaths in Illinois, 13 in Indiana and two in Missouri; three to four hundred injured and property damage running into millions of dollars.

#### NEW YORK, April 18.—Recent high pressure of activity in the stock market was continued today, with a mid-day being estimated at \$1,000,000,000. Yesterday's unsettling movement made further progress, however, many leaders in the industrial group, especially oils, motors and steels and equipments, losing 1 to 4 points. Rails exercised a stabilizing influence, all edge issues such as Union Pacific, Southern Pacific, Atchafalpa and New York Central displaying marked strength. Bonds were slightly unsettled.

#### MONTREAL, April 18.—An official rat catcher has been appointed for the Montreal court house. Official stenographers had their notes eaten by rats during the night. A judge lost his gown and silk hat from the closet in his chambers. Civil suits involving valuable property were delayed through the disappearance of records. Finally when Exhibit A in a murder trial was eaten and the prisoner had to be liberated from lack of evidence the authorities decided it was time to take action.

#### WAR JUST BEGINNING FOR LEGION AUXILIARY SAYS NATIONAL OFFICER. The world war is just beginning for the American Legion auxiliary, the vice, mothers, daughters and sisters of the American soldiers must carry on as faithfully as the boys who fought our battles in France in 1917 and 1918. Mrs. William H. Cadworth, Milwaukee, national president of the auxiliary, chairman of the national welfare committee, told members of the auxiliary gathered here for the second annual convention of the Kansas department today.

#### AMATEUR WIRELESS IS NOT A NUISANCE, HOLDS JUDGE ARKANSAS COURT. An amateur wireless plant is not a nuisance, according to Chancellor E. Martinson of Putnam county, Ark., who has refused to issue a restraining order against two local radio enthusiasts, father and son, to prohibit them from operating their wireless outfit between 9:00 p. m. and 7:00 a. m. The restraining order was applied for by several persons who complained of annoying noise caused by the radio set interfering with their sleep. The chancellor declared that the noise is one that persons must have become accustomed to the noise of street cars, whistles, etc.

#### LINEMAN ALIVE AFTER RECEIVING A SHOCK OF 1000 VOLTS ELECTRICITY. Oakland, Cal., April 18.—Alfred Stattenberg, 29, a lineman, was alive today after receiving a shock of 1,000 volts of electricity while making wire repairs on top of a pole in West Oakland. Firemen and policemen united to rescue Stattenberg. Although it probably would have meant death to touch the electrician's body as it dangled stiff from a live wire, firemen put a rope around it and lowered the suffering man. His hands were burned nearly black. Stattenberg was rushed to a hospital and placed on a bed of oil soaked cotton.

#### CHARLESTON MAN WHO DIED MONDAY WAS 110. Charleston, S. C., April 18.—Robert W. Greene, aged 110 years, died here yesterday. He was born in Charleston in 1812 and returned here from New Orleans about 25 years ago. Later he had kept a small store and until quite recently passed for a man in his sixties.

#### MAGNOLIA COMPANY ADVANCES THE PRICE OF GAS THREE CENTS. Houston, April 18.—Effective today, the Magnolia Petroleum company advanced the price of gasoline three cents, from 18 less three to 21 less three per filling station in Houston and several Texas points. No reason was given for the advance other than instructions from the general offices in Dallas. Other large refiners and marketers had taken no action early today to meet the new price.

#### SENATE REPUBLICANS DECIDE TO PASS BONUS BEFORE SESSION ENDS. Washington, April 18.—Decision to pass a soldiers bonus bill in the second session of the senate reached today by senate republicans in party conference. The vote was 36 to 9 on a motion offered by Senator Lenroot, republican, Wisconsin. The conference resolution as made public follows: "It is the sense of this conference that the senate should at this session pass a soldiers' bonus bill and that the republican members of the senate should be requested to report such a bill within a reasonable time." The conference also decided that the single should proceed to the consideration of the administration tariff bill on Thursday without further delay. The measure will be called up at that time, and it

#### HOUSE APPROVES THE PROVISIONS NAVY BILL TO REDUCE GRADUATES. Washington, April 18.—The house today approved the provision in the naval bill that not to exceed 200 of the 541 members of the naval academy class to be graduated in June should be commissioned as ensigns.

#### TEMPORARY INJUNCTION IS CONTINUED TEN DAYS. Danville, Ill., April 18.—Ten persons are known to have been injured, several fatally, in a tornado which swept across Champaign and Vermilion counties, Ill., and Warren county, Indiana, Monday afternoon, doing damage estimated at a quarter of a million dollars.

#### MINISTER TO WALK TO WASHINGTON TO SEE THE PRESIDENT. San Francisco, April 18.—Rev. W. F. Bamwood, a local minister, declared today he would start on foot for Washington to see the president. He said he expected to go blind soon and that he wanted to see the president while he could. He carried with him 75 pounds of luggage with him which he will haul behind him with a small wagon.

GENOA, April 18.—The allies have decided that Germany should not be permitted to take part in the discussion of the conditions of agreement between Russia and the various other countries represented at the economic conference.

#### RESUME EFFORT TO SETTLE THE STRIKE ANTHRACITE MINERS. Operators are expected to submit a proposition by letter—Part of Week. NEW YORK, April 18.—Efforts of anthracite miners and operators to settle the pending strike were resumed here today when members of their joint sub-committee on wage contract negotiations reopened the series of conferences which began two weeks before the strike was called, April 1.

#### REOPEN NEGOTIATIONS WHICH BEGAN BEFORE STRIKE WAS CALLED. The issues of the strike have not been settled, according to members of the sub-committee. Although the operators have refused pointblank to grant the miners' demands for higher wages and altered working conditions, they have thus far in the conference declined to make any of their counter demands.

#### ISSUES INVOLVED HAVE NOT YET BEEN DEFINED. Operators are expected to submit a proposition by letter—Part of Week. THREE OF THE FIVE PACKERS PLAN FOR MERGING INTERESTS

PROPOSE ORGANIZATION OF FIVE HUNDRED MILLION CORPORATION.

WILSON, ARMOUR AND CUDAHY ARE INVOLVED

Must Obtain Consent of the Interstate Commerce Commission.

CHICAGO, April 18.—Informal negotiations for a merger of three of the "big five" packing companies into a \$500,000,000 corporation have been conducted by J. Ogden Armour, head of Armour and company, according to the Herald and Examiner today.

The firms involved are Armour and company, with a total valuation of \$226,713,297; Wilson and company, with a net worth of \$88,072,529; and Cudahy and company, with a valuation of \$43,602,250. Consent of the interstate commerce commission would be necessary for the success of the proposed merger, it is said.

Persons who are credited with being familiar with the merger plans, say no action is being contemplated until the proposition being that Armour and company exchange its securities for those of the other two companies.

Mr. Armour is supposed to be actuated by the motive of desiring a successor to the presidency of Armour and company, a position handed down to him by his father. Having no son to carry on the business he is forced to go outside the family. Mr. Wilson's success in the packing industry has made him the logical candidate and the newspaper points out that to secure Mr. Wilson, Mr. Armour is forced to buy Mr. Wilson's company.

PACKERS DENY THAT AN AMALGAMATION IS PLANNED

CHICAGO, April 18.—Flat denial that an amalgamation of the Armour, Cudahy and Wilson packing companies is contemplated was made today by J. Ogden Armour, head of the respective organizations. Thomas E. Wilson, head of Wilson and company, was not in the city.

"The Cudahy company is not in any way concerned in such a merger," said Mr. Cudahy. Mr. Armour did not make a formal statement, but issued a flat denial over his name.

Later today, however, a statement was issued at Wilson and company saying that Mr. Wilson, now in New York, had telegraphed authorization for a denial of the reported merger.

OIL FIELD WORKER IN YOUNG COUNTY IS PAINFULLY BURNED

ELIASVILLE, TEXAS, April 18.—George Mosbider, an oil field worker in the Young county area, was burned Monday afternoon at 1:00 o'clock. When attempting to turn the gas off in the rig torch, he made a mistake and turned it on. The combustion burned Mosbider almost all over, and although the injury is not considered serious it is very painful. George Mosbider is an employee of the Kellogg Drilling company, which is drilling the Cotton No. 1 for Jen Ross, three miles northwest of here.

ORDER FORBIDDING TENT COLONIES OF MINERS SUSPENDED

CHARLESTON, W. VA., April 18.—Portions of an injunction issued in federal court which would forbid maintenance of tent colonies of strikers in Mingo county, were suspended by the fourth circuit court of appeals, filed in the district court here today. The order, however, excepts from the suspension clauses restraining the mine workers from violence and from attempting to incite by intimidation employees to break contracts with the Borderland Coal company and other operators who appeared as plaintiffs in the Borderland case.

MORE THAN A THOUSAND UNBURIED BODIES OF THE SPANIARDS IN MOROCCO

MELILLA, April 14.—More than 1,000 unburied bodies of Spanish soldiers lie in the vicinity of Darquebdan, the position recently recaptured from the Moroccan. According to reports reaching here from native sources, these bodies are scattered along a line four kilometers in length over valleys and broken ground.

MISS MURIEL McCORMICK MAKES HER PROFESSIONAL STAGE DEBUT IN CHICAGO

CHICAGO, April 18.—Miss Muriel McCormick, daughter of Harold P. and Mrs. Edith Rockefeller McCormick and granddaughter of John D. Rockefeller Sr., will make her professional stage debut here today. She will take the leading role, that of a boy, in "Yanook Coppens" on the set piece, "Lebanon"—"The Passing Boy." The play is French.

MRS. STEPHEN TEEL DIES AT HOME IN HENRIETTA

HENRIETTA, TEXAS, April 18.—Mrs. Stephen Teel, a prominent pioneer citizen, died here at 7 o'clock last night. She is survived by her husband and five children. Funeral services will be conducted from the Episcopal church Wednesday morning at 10 o'clock. Interment at Hope cemetery.

THE RINGMASTER'S TEST OF SKILL

EDITOR OF OAKLAND PAPER A VICTIM OF TAR AND FEATHERS

OAKLAND, CAL., April 18.—Philip Riley, editor of the Free Press, a local weekly publication, was seized by three masked men last night, taken blindfolded into the hills back of the city, and tarred and feathered. Riley told the police he was taken out of town into the hills and ordered to strip. When his clothing was removed hot tar was applied to his body and two sacks of feathers poured over him. Riley said he had no idea who the men were and no idea why they mistreated him.

TEXARKANA MERCHANT IS GIVEN A FLOGGING

TEXARKANA, April 18.—R. E. Clark, local grocer, was seized by a party of masked men last night as he alighted from a street car. He was driven by automobile in the country and given a flogging. The spokesman of the party gave Clark a lecture for alleged immorality. Clark and members of his family deny the charges.

USE ARMORED CAR TO RESTORE ORDER IN BELFAST RIOTS

BELFAST, April 18.—Disorders continued today in the Marrowbone district of North Belfast, inhabited largely by Sinn Feiners. A report to the military, although only six cases were treated in hospitals. An armored car was used in an endeavor to restore order.

CHARGE RAILWAY EXECUTIVES BACK OPEN SHOP MOVE

WASHINGTON, April 18.—The Association of Railway Executives has charged with backing an open shop, anti-union movement by W. Jett Lauck, economist, representing railroad labor organizations in testimony today before the senate interstate commerce committee. Mr. Lauck declared that the Pennsylvania railroad fostered and was leading, as the chairman of the railway executives labor committee, the fight against unionism.

CHANGE STANDARDS FOR WHITE WHEATS AMEND THE RULES

WASHINGTON, April 18.—Changes in the standards for white wheat, amended inspection rules and widespread dissemination of market information are announced by Secretary Wallace as the result of the agricultural department's study of the grain situation. Changes in the standards for the white wheat will be made effective July 17, the classes common white and white club being combined into one class designated as "white wheat." This new class is to be subdivided into three subclasses—hard white, soft white and western white—making the same application of the hard wheat and soft white substitute classes as at present and designating as western wheat all white wheats or mixtures of white wheats containing more than ten per cent club or sonora.

DISPATCHES FROM U. S. FAIL TO EXCITE THE MEXICO PAPERS

MEXICO CITY, April 18.—The Mexico City newspapers decline to get excited over dispatches from the United States relative to the reported change in the status of negotiations looking toward recognition by the American government.

ALLIES HAVE BARRED GERMANS AT GENOA

conference. The pact constitutes recognition by Germany of the Russian government—a question forming one of the chief points of the conference agenda. Hence the terms "dishonorable" and "disloyal" employed by the British spokesman in referring to Germany's action, and the words of warning uttered significantly by the French that if the conference were employed to construct secret combinations one against another the Genoa conference, instead of proving a boon, would develop as an obstacle to re-establishment of an era of confidence and peace. Louis Barthou, head of the French delegation, last night sent a long telegram to Premier Poincaré outlining the situation and presenting his personal views.

DRAMATIC STROKE FAILS TO EXCITE THE FRENCH

PARIS, April 18.—The dramatic stroke of the Russians and Germans in concluding their treaty at Rapallo, the news of which incidentally first reached Paris by way of New York, does not fill the French with consternation. Instead there is a perceptible feeling of almost satisfaction among the newspapers supporting the national bloc at which they consider a distinct hit against Prime

RUSSIAN MONARCHISTS PLAN TO KILL LENINE

RIGA, April 18.—A conspiracy among Russian monarchists in central and eastern Europe to kill Nikolai Lenine if he dares to step outside of Russia, is said by secret service men here to have had more or less a hearing on the fact that Lenine has not started for Genoa to attend the economic conference.

MEXICO NOT INTERESTED IN THE GENOA CONFERENCE

MEXICO CITY, April 17.—The proceedings at Genoa are receiving scant editorial attention here. El Universal apparently voicing the sentiments of the other papers, remarked editorially today: "The Genoa conference means nothing for Mexico. We are more interested in the digestion of President Harding's Easter dinner than in the indulgence of Lloyd George or the just lamentations of Mr. Barthou."

LONDON ASTONISHED AT RUSSO-GERMAN TREATY

LONDON, April 18.—It would not be easy to imagine any possible happening at Genoa which could excite greater astonishment or more misgivings than the announcement of the Russo-German treaty produced in the majority of this morning's London newspapers. With one or two exceptions the new pact is condemned in the strongest language as a deadly blow aimed at the conference, at the Versailles treaty and at the peace of Europe; and its negotiators are charged with complicity and perfidy.

ALLIES HAVE BARRED GERMANS AT GENOA

"It is earnestly to be hoped that the entente powers, especially Great Britain and France, will teach the Germans and bolsheviks alike that the allies are not to be defied and flouted with impunity. If the challenge is not taken up promptly and firmly there is an end to the entente."

ALLIES HAVE BARRED GERMANS AT GENOA

The Daily Telegraph thinks it is the obvious intention of the Russians to force the powers to grant them recognition on the same full scale as is accorded them by Germany.

ALLIES HAVE BARRED GERMANS AT GENOA

On the other hand, the Daily Chronicle, staunch advocate of Mr. Lloyd George, refuses to be disturbed. It admits that the treaty signing "was perhaps not tactfully timed, for it at least gives an excuse for the outcry of critics to whom any Russo-Germanian dealings furnish ground for suspicion and fear."

ALLIES HAVE BARRED GERMANS AT GENOA

Nothing better than this treaty could have been devised to support the French attitude toward Russia and Germany in the opinion of the Italian delegation, the spokesman for which declared it a "great political mistake."

The Germans expressed surprise that the allies should resent what they called a perfectly logical outcome of negotiations previously inaugurated in Berlin.

Minister Lloyd-George of Great Britain and at the same time the "clumsy blunder of German psychology" which as M. Saint-Jerice put it in the Journal, will perhaps "pull us out of the Genoa was a nest."

The Figaro, more nationalistic than the Journal, thinks that Louis Barthou, head of the French delegation, guessed what was coming at his first encounter with M. Chicherin, head of the soviet delegation, and wished to take his precautions.

# MEXICO HAS PLANS FOR ADMINISTERING THE AGRARIAN LAW

## DESCRIBE METHODS FOR LAND EXPROPRIATION AND DISTRIBUTION.

### SIX CLASSES OF TOWNS NAMED BENEFICIARIES

Each Head of Family Or Individual Over 18 Shall Receive Land.

By Associated Press. MEXICO CITY, April 18.—The basis under which the federal agrarian law is to be administered is outlined in a decree signed yesterday by President Obregon, which is expected to become effective today upon publication in the Diario Oficial.

The decree contains 25 articles which describe the methods of expropriation and distribution, with a preface pointing out why certain people have inherent rights to the land which the federal government plans to confiscate. Six classes of towns ranging from considerable villages to the smallest communities are named as beneficiaries, and the properties to be taken include cultivated as well as uncultivated. Restitution of lands to towns is not permitted under the decree when the actual possession of the property can prove that his title was obtained in conformity with the law of June 23, 1876, and when it can be shown that the lands asked for by the townsmen do not exceed 50 hectares in area (123 1/2 acres) and have been possessed by the person named in the title for more than 20 years. Properties of less than 20 hectares are to be untouched if all cases.

Each head of a family or individual more than 18 years of age shall receive land, the amount varying according to his value. In the case of land under irrigation or where the moisture is sufficient the year round, the allotment is shall range from three to five hectares; lands dependent upon rains which are regular, but not as abundant as in the foregoing allotments, from four to six hectares; and where rainfall is variable and often scant, from six to eight hectares. The following classes are prohibited from acquiring allotments: Professional men, those who possess lands of other than those appropriated, persons having capital of more than 1,000 pesos, and federal or municipal employees earning salaries of more than 75 pesos a month.

## SECRETARY CALLS FOR EVIDENCE COUNTERFEIT MONEY IS CIRCULATED

WASHINGTON, April 18.—Secretary Mellon today called on the "Plate Printer," official organ of the plate printer union employees at the bureau of engraving and printing, to furnish him immediately with any evidence upon which that publication based its statements that the country was flooded with millions of counterfeit bank notes, bonds, and savings and other stamps, war bonds and coupons. Any such evidence, he added, would be investigated at once.

## CHARGE GEORGE GOULD HAS "WRECKED EVERY RAILROAD HE TOUCHED"

NEW YORK, April 18.—Charging that George Gould had "wrecked every railroad he touched" and calling his management of his father's estate a "disgrace," the New York Times today published an article by Helen Gould, guardian for the children of the late Duke of Marlborough, formerly Anna Gould, protesting against the support of the Justice Department against payment to him of further sums. George L. Gould seeks to collect \$654,000 from Edwin and Howard Gould and Mrs. Finley J. Sheppard, formerly Helen Gould.

## VALUE "SLIGHTLY LESS THAN A TINKER'S DAM" DECLARES CORDELL HULL

MINNEAPOLIS, April 18.—Cordell Hull, national democratic chairman, speaking here yesterday before the Hennepin county democratic committee, declared he placed the value of what he termed a republican pre-election promise at "slightly less than a tinker's dam."

## KNIGHTS TEMPLAR SERVICE AT SEYMOUR ON SUNDAY

SEYMOUR, TEXAS, April 18.—Faster services held here Sunday by Seymour Commandery U. D. at the First Baptist church proved to be a very interesting event. Weather conditions being favorable, a larger number of Knights Templar were in attendance than expected. More than 100 knights in uniform participated in a parade from the lodge hall filling the central aisle of the church. The church was filled to capacity and more than 1500 people heard Dr. S. Brimley of Waco in a very appropriate Masonic discourse. Mrs. Luella Thompson and accompanist, Miss Walsh, who motored from Wichita Falls with Sir Knight Otto Stehlik of that city, rendered especially fitting and delightful music. About 50 visiting knights from commanderies of Haskell, Jacksboro and Wichita Falls were in attendance.

## NOCONA SECTION VISITED BY SEVERE WINDSTORM

NOCONA, TEXAS, April 18.—This section was visited Sunday afternoon by a one and one-half inch rain and some hail. Fruit and gardens were damaged to some extent. The wind was very severe, blowing down trees and outhouses.

## FLORAL METHODISTS TO ENTERTAIN IN HONOR OF 239 NEW MEMBERS

The congregation of the Floral Heights Methodist church will give an "honorary social" Wednesday night at 7:45, honoring the 239 new members who have recently united with the church. The close of the first half year will also be celebrated in connection with this meeting. Records will be read showing the progress of the work done during the pastorate of Dr. Grosselore, who came here the middle of last November. This report will show that in addition to the great increase in membership, the financial budget, greatly increased over last year, has been met. Fruit and gardens were damaged to some extent by the wind with an excess of about 14 per cent. This church was organized about two and a half years ago with about 75 members from the First Methodist church, south, who withdrew for that purpose. It now has a membership of nearly 300, outside of three churches in Dallas, there are only the following that have a larger membership: Grapeville, Sulphur Springs, Sherman, Paris, Terrell and Greenville. Some of the churches mentioned pay as much salary to the pastor as does the Floral Heights church, and only two Methodist churches in Dallas pay as much. The delegates from this church who will attend the district conference at Electra next Thursday and Friday will carry up one of the best reports ever carried to any Methodist conference, they believe. At the social, Judge P. P. Cox, leader of the Wesley girls class, who has charge of all arrangements, will act as toastmaster. The musical program includes a piano solo by Len Krivy, a reading by Joline Woods, a vocal solo by Mrs. Lee Clark, a violin solo by Jarrell Gose, a reading by Malcolm Ducker, vocal solo by R. E. Sherman, a reading by Miss Alada Knickerbocker and a vocal duet by Misses Dean and Roper. Music for the social hour will be furnished by the Templeton orchestra.

## DECLARES HE SAW LETTER BY WILSON TO SENATOR REED

### PRaised REED'S ATTITUDE ON FEDERAL RESERVE BILL, SAYS ATTORNEY.

### LETTER ALSO WRITTEN BY SECRETARY MADDOX

Former President Denies the Existence of Letter as Charged by Merrivether.

ST. LOUIS, April 18.—Lee Merrivether, attorney and supporter of Senator James A. Reed, today repeated his statement that he had seen a copy of a letter by former President Wilson praising Reed's attitude on the federal reserve bill which the former executive last night denied existed after he read Merrivether's statement in the Globe-Democrat recently. Merrivether said he had also seen a letter from William G. McAdoo, son-in-law of Wilson, written to McAdoo as secretary of the treasury, commending Reed's work on the federal reserve bill. Merrivether's statement follows: "When the league of nations fight was on in 1915 and while there was much criticism of Senator Reed in public prints because of his opposition to the league pact, I asked Reed what he had to say in reply to the charge that he was always knocking the president. 'The senator mentioned several important measures in which he had co-operated with the president, one of the measures being the federal reserve act. 'He called his secretary, Don Hunt, and told him to 'show Merrivether those letters.'"

"The senator mentioned several important measures in which he had co-operated with the president, one of the measures being the federal reserve act. 'He called his secretary, Don Hunt, and told him to 'show Merrivether those letters.'"

"In substantiation of Senator Reed's claim that he had received the approbation of the president for his work on the federal reserve bill, Hunt produced from the senator's files first a letter from Secretary of the Treasury McAdoo, in which McAdoo very warmly commended and thanked Senator Reed for his work he had done in perfecting the federal reserve bill. Hunt then produced another letter of the same general nature written on White House stationery and signed by Woodrow Wilson."

Senator Reed's statement and the letter containing the denial of Merrivether's remarks were printed in parallel columns of the Globe-Democrat here today on the first page.

## NEED OF REVIVAL IS DISCUSSED BY PASTOR AT CHRISTIAN CHURCH

The meetings of the Church of Christ were well attended Sunday and five were added to the local congregation. The Bible classes were larger than usual and a warm interest was shown in all services. The subject for the coming sermon was "The Union of Believers." The text was Psalms 133:1, "Behold how good and how pleasant it is for brethren to dwell together in unity." In his sermon the pastor sought to emphasize the unity of the congregation as a local body and stressed especially the importance of brethren dwelling together in peace. He pointed out the great hindrance to the progress of the cause, and named it "division," and showed the many advantages to come from a united effort on the part of the membership. The congregation was urged to put aside little personal differences and to join hands in the great work before them.

At the evening hour there was a discussion of "A Revival in this sermon the speaker endeavored to arouse his hearers to a more active effort in the work of the church along all lines. It was pointed out that religion has always "ebbed and flowed"; that it sometimes reaches high tide and is sometimes at the low. This last named condition, said the minister, has always brought grief to both God and to His faithful ones, and here was pointed out several examples, as follows: "Just before the deluge God apparently mournfully said, 'I will destroy man whom I have made from the face of the earth; both man, and beast, and the creeping thing, and the fowls of the air; for I repent me that I have made them.' Gen. 6:7. The verses just above this quotation tell the reason."

"In substantiation of Senator Reed's claim that he had received the approbation of the president for his work on the federal reserve bill, Hunt produced from the senator's files first a letter from Secretary of the Treasury McAdoo, in which McAdoo very warmly commended and thanked Senator Reed for his work he had done in perfecting the federal reserve bill. Hunt then produced another letter of the same general nature written on White House stationery and signed by Woodrow Wilson."

## COMB SAGE TEA IN FADED OR GRAY HAIR

Look young! Common garden Sage and Sulfur. No one naturally anybody can tell. Grandmother kept her hair beautifully darkened, glossy and attractive with the use of Sage and Sulfur. Whenever her hair took on that dull, faded or streaked appearance, she would apply the comb sage tea with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use at a very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair. A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, making one strand at a time. By morning the gray hair disappears; after another application or two, it is replaced by its natural color and becomes glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease—adv.

son for this decision, i. e., man had fallen in a state of great wickedness. Again it was said the Lord looked down from heaven to see concerning man and mournfully said they have all gone out of the way. Jeremiah's lamentations were on account of this very fact, i. e., the low state of religious activity amongst the people of God. "Elijah said, in substance, 'Lord they have digged down thy altars and killed thy prophets and I only am left and they seek my life to take it away.' Paul said, 'I could wish that I myself were accursed from Christ for my brethren.' Peter said some had become like the dog that returned to his own vomit and the sow that was washed to her wallowing in the mire. John said to one of the seven churches of Asia, 'You have left your first love.' But the words of Jesus must stir the hearts of all who have hearts. Hear Him, said the speaker, as He stands upon the mount overlooking the wicked city, and waits on her account of her sins, O Jerusalem, how often would I have gathered thy children together even as a hen gathers her brood under her wings, but ye would not. It was urged by the minister that the congregation and the minister, the servant of the church, arouse themselves and work and pray like the ancient faithful that the Lord might revive his work and cause it to flourish as it has never before."

## GOOD FIRM FLESH, INCREASED WEIGHT, STRENGTH AND ENERGY—Amazing New Food Factor.

Thousands who have always been complaining about being weak, thin, emaciated and run-down may now find in Yeast Vitamins when used in the very thing which will often quickly help them to put on good firm flesh, round out their faces and increase their energy and endurance, provided their blood contains a sufficient quantity of oxygenated organic iron to enable them to assimilate their food properly. Without organic iron both food and Vitamins are absolutely useless as your body lacks the power to transform lifeless food matter into living cells, flesh, muscle and tissue, therefore your food merely passes through your body without doing you any good. It therefore appears that in practically all cases where Vitamins are necessary, organic iron is also necessary. To prove to you the surprising results which you should be quickly obtained from this valuable combination, arrangements have been made with druggists in this city to give you A LARGE DOLLAR PACKAGE OF GENUINE YEAST VITAMINE TABLETS ABSOLUTELY FREE with your purchase of a bottle of organic Nuxated Iron. Take your Vitamins before meals and organic Nuxated Iron after meals. Weigh yourself before you start and again after ten days and see how much you have increased in weight, also in strength, vigor and energy. If you are not perfectly satisfied with your weight increase and the general results obtained, the manufacturers will promptly refund your money.

IMPORTANT: We recommend that you do not take Vitamins unless you wish your weight increased. If you merely wish greater strength, energy, physical and mental vigor, we recommend that you take Nuxated Iron only.

A THOUGHT FOR TODAY

As we therefore have opportunity, let us do good unto all men.—Galatians 6:10.

The more irksome any habit is in its formation, the more pleasantly and satisfactorily it sticks to you when formed.—Thomas Hughes.

CHINESE JOY.

The On Leong Tong, organization of Chinese merchants, enjoys queer entertainment at its Philadelphia convention.

A real Chinese opera was staged for the delegates. Since the show lasted 22 hours, it had to be split into two daily performances.

Three fiddlers, three drummers and a gong pounder, hammering away at a five-note theme, made up the orchestra. The actors, brought from Chinatowns all over the country, worked mostly in pantomime.

The orchestra had brisk competition in the form of noise, for a Chinese stage carpenter changes scenery for the next act while the show still is going on, without lowering the curtain.

This will interest women: The actors, by Chinese custom, were all men, even in the feminine roles. A woman hasn't political equality in China, but she is considered too good to be put on exhibition for money.

An American, after an hour or so of a 22-hour Chinese theatrical performance, would begin to yell: "Jazz 'er up! Give us some speed! Put a little pep in 'er."

Not so, with the Chinese. Their most popular plays are continued on from one night to the next, like a serial story, some lasting a whole year.

The nearest we have come to this is the serial movie thriller.

The plot of a year-long Chinese play shows the audience every stage of a man's life, a war, an economic movement or the career of a dragon-devil.

Interesting to study the Chinese, probably the oldest existing civilization. The Chinese claim their authentic history dates back at least 22,000 years.

Possibly, when our civilization becomes as ancient as China's is now, we'll have the same viewpoint and philosophy.

From the 22-hour Chinese opera, you observe that the Chinese takes things patiently as they come and enjoys life with a slow natural serenity and calm.

The Chinese are far behind us in many things. Somehow, though, they nearly all seem contented, happy.

Unlike white men, they are not shattering their nerves by trying to cram a lifetime into a day.

That is the real lurking peril of white civilization—the danger that nerves will become so "on edge" that there'll be a breakdown, possibly a lapse into race-insanity, of which the world war was a sample.

BIG IMPROVEMENT IN STEEL INDUSTRY.

Steel is one of our basic industries.

It took one of the biggest drops of any when business halted in this country from whatever and all causes that contributed to the depression.

A year ago the steel mills were operating at less than forty per cent of normal. The smokestacks in the Pittsburgh district were smokeless. Many thousands of workmen were idle and there was great depression in the industry.

Today the situation is different. The skies over the district around Pittsburgh are again lighted with the flames of the forges. Workers again are moding and shaping the molten metal into bars and rails and all the other products of steel and iron.

Elbert H. Gary, head of the U. S. Steel Corporation, has made an optimistic report to stockholders of the corporation.

He says that steel business has more than doubled within the past twelve months and that it is now 75 per cent normal. The demand is increasing. Judge Gary is optimistic about the future.

One reason for his optimism is the improvement of conditions abroad. "Export business at present is increasing," says Judge Gary, "and has been increasing for some time. It is getting back to the highest point. There is reason to expect it will increase and to expect that all our business will increase."

Industry is slowly recovering in many countries. As it recovers there is a better demand for nearly all American products, and this improvement is being reflected in a number of our basic industries. It has recently been noticed in the better prices for farm products.

With good conditions in agriculture and steel it cannot be long until all other industries are affected.

CIVIL SERVICE LEAGUE TO DISCUSS HARDING'S ACTS.

The Civil Service Reform League will meet in Washington on April 27th to discuss the administration of civil service in the federal government and especially some recent acts of President Harding.

One of these acts was the order dismissing a large number of employees in the bureau of engraving a few weeks ago. These employees were under the civil service, but were given no hearing and not even an explanation of the reason for their dismissal. It is reported the big majority of those dismissed were democrats. This may have been the reason for their dismissal.

President Harding is not to be blamed firing democrats and firing republicans where doing so does not conflict with civil service rules. That is the way of politics and our president is a master among politicians. But it is not right for him nor any other government official to disregard the rules of the civil service where they govern. If he has violated these rules, as alleged, certainly the Civil Service League will have something to talk about when it meets in Washington next week.

TODAY'S TALK

By GEORGE MATTHEW ADAMS

YOUR SPIRIT.

It's the spirit that you carry around in your heart that people know you by.

The spirit of a person is so much like the perfume that goes with so many flowers. We love the flowers that draw us close to them by their delicate odors.

Not long ago I had the privilege of being in a section where the oranges grow, and one evening as we drove past a farm the wonderful orange blossom perfume swept over us and seemed to envelop us. For a moment we felt as though we were in an enchanted country.

How many there are who cast a beautiful atmosphere about you whenever they come into your presence.

How stimulating is the spirit of some people. How you want them to stay around.

Carry a beautiful spirit in your heart and you will attract the same spirit to you.

Hungry hearts are fed by the sweetening influences that radiate from people who carry kind and even and clean spirits within them.

And it is the spirit in which you do things that counts above everything else.

I read a book last evening. The author has long since gone upon his silent journey, but I could feel his fine and lofty spirit still alive and moving as I read and sought to feel as he felt.

Your spirit will make you happy if you tell it to. For, you see, you have to tell your spirit what to do—and then it acts so gladly and so quickly!

THE FAIRY AND THE ROBIN.

(Written Especially for a Little Friend) A fairy and a robin met Beside a bed of mignonette.

The robin bowed and raised his hat, And smiled a smile as wide as— That— Then said: "Miss Fairy, I declare, I'd kiss you, only I don't dare."

The fairy curtsied low and said: "Your breast is such a lovely red, And you are such a handsome thing, And, oh, such pretty songs you sing— I'd gladly kiss you now, but I May only kiss a butterfly!"

The robin spoke a silly word: "I'm sorry I was born a bird! Were I a fairy man instead, Then you and I might some day wed." The fairy laughed and said: "My dear, God had to have some robins here."

"Be glad you're what you are and sing And cheer the people in the Spring. I play with children as I'm told, But you bring joy to young and old. And it seems always strange to me I'm one of the old folks never see."

The robin spoke: "Perhaps it's best, I'll sing my songs and show my breast And be a robin, and you stay And share in all the children's play. God needs us both, so let us try To do our duty—you and I."

How do I know they said these things? I saw the robin spread his wings, I saw the fairy standing up Upon a golden buttercup, I hid myself behind a wall And listened close and heard it all.

Peril Lurks in Fevers

By DR. R. H. BISHOP

Fever may be the result of a number of things, but whatever the cause, it is a signal that something is vitally wrong.

This does not mean that one need become panic-stricken if a case of fever has to be cared for. This would not be wise, and yet the seriousness of fever must not be overlooked.

The skin of a person with fever will probably feel hot to the hands, the eyes will be very bright or perhaps very dull, and the patient may be delirious or excited or in a stupor.

It is always a good plan to take the temperature in every case of illness. This is done with the clinical thermometer.

To take the temperature shake down the mercury to 92 degrees Fahrenheit or below. Wash the thermometer in clean cold water, shaking off the clinging drop.

Put it in the patient's mouth, under the tongue, with the tip of the thermometer in the center of the tongue. Leave it for five minutes, after which it can be removed and read.

Wipe the thermometer in clean, cold water before putting it back in its case. Remember that in fever the temperature is always higher at night, perhaps by two or three degrees, so that a high morning temperature is more serious than the same temperature at night.

The normal temperature is 98.6 degrees Fahrenheit. From that point to 100 degrees at night is slight fever; from 100 degrees Fahrenheit to 102 degrees Fahrenheit is moderate fever, and from 102 degrees to 104 degrees high fever. Still higher temperatures are very uncommon.

Children are much more liable to fever from slight causes than are their elders. In any case of fever the place for the sick person is in bed, if possible in a quiet, dark room.

The patient should be lightly covered. He may be bathed in cool water. The food should be very simple, milk or a little milk toast will be all that is required. Plenty of cool water is necessary. Call the doctor immediately.

Spanish soaproot, the saprophyte of this and the bark of the Peruvian soap tree form natural soaps.

Texas Viewpoints

Houston Post: There is no lack of aspirants for the seat in congress of the late Lucian W. Parrish of the Thirtieth district, some half a dozen having announced for the place. The election is set for May 12, a date sure to be unlucky for all but one of the candidates.

The unexpected term will run until next March, thus giving the new incumbent almost a year to serve, and incidentally almost a year's campaign. The term is long enough to induce the candidates to make a spirited campaign. But, perhaps, the principal advantage to be gained from success in this election will be the advantage it will give to the incumbent in the coming primary election in July, when nominations will be made for the 1-nd term. As Representative Parrish was a candidate for senator, he would not have been a candidate for reelection to the house in that election, but his successors will have the inside track in the primary. The Thirtieth district has sent some strong men to congress. For years it was represented in the lower house by Joseph W. Bailey who became leader of the party in the house, and afterwards senator. Mr. Parrish himself stood out as an exceptionally strong man and was making his mark as a figure throughout the state when his untimely end came. He was a man not easy to replace. The successful candidate will succeed to a large responsibility, as well as an honor, in maintaining the traditions of the district for ability and high standard of service in its representation.

Quannah Tribune-Chief: It is untrue for any Ku Klux Klan lecturer to state that the press of this country is Roman Catholic. It is composed of men belonging to various races and denominations, all of whom stand for the best interests of the country. Being a newspaper man brings one in touch with people of all sorts, and naturally one discovers and reports something good about all of them. This editor has been Presbyterian all of his life, but he likes a good man of any other religion as well or better than he does a "sorry" Presbyterian. A spirit of tolerance is something the average Ku Klux Klan leader stands sadly in need of.

YOU AND I

By ALBERT APPLE

You hear talk about whether Hugo Stinnes, German industrial wizard, will become as rich as John D. He has a good start.

The Stinnes corporation is the Rhein-Elbe-Siemens-Schuckert-Union, consolidation of five of the largest business organizations in Germany.

Its annual report, just published, shows that the Stinnes outfit last year made 25 per cent gross profit on its capitalization and paid a trifling under 6 per cent dividends. The rest probably went for expansion.

Business men will be amazed that the Stinnes company operates with a capital equivalent to only \$250,000,000.

A Wall Street broker would take a business of that size and run its capital into billions of dollars worth of stocks and bonds, faster than even a German printing press could turn out the money.

Since 1913, new companies have been formed in the United States with a combined authorized capitalization of more than \$2,000,000,000.

Since the signing of the armistice, new oil and gas companies alone have involved \$10,000,000,000.

Since they entered the war, the American people have bought about \$12,000,000,000 of the flood of new securities. Note that this does not include government bonds.

How long before the entire national wealth will be mortgaged, dollar for dollar, by industrial securities?

Five lead-pipe companies in 1914 had combined working capital of about \$141,000,000.

This has been increased to nearly \$121,000,000.

The number of dollars that would have paid 6 per cent dividends on the working capital of the five companies before the war will pay only 2 per cent on present working capital.

In other words, actual profits have to be three times as big, to pay the former rate of dividend.

This interesting situation is found in nearly every industry. In many cases it is the burden that has made business weak in the knees.

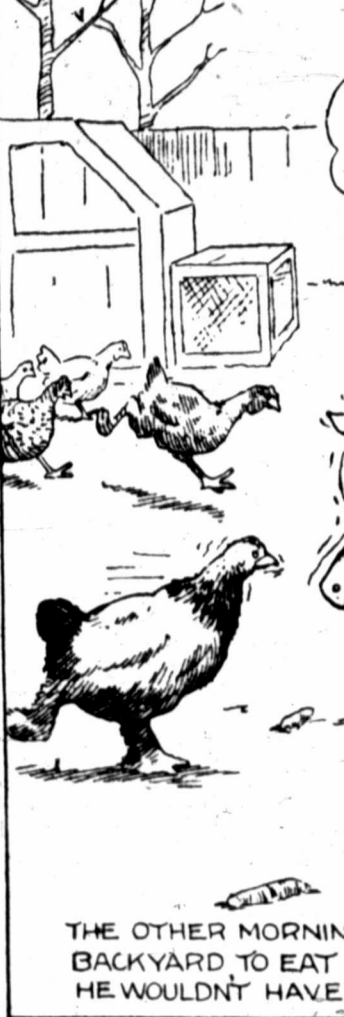

INVENTION A French inventor has a device that takes 25,000 photographs a second. It will be a big help to rapid movies which slow down action and show you each step of the growth of a plant or the jumping burdock.

The rapid camera stretches a second into a minute. Time is relative, elastic.

DELUSION Suppose you had \$5,000 worth of stock in certain oil company in 1914, paying 20 per cent dividends. During the war boom this company learned some tricks from the financial jugglers. Stock dividends were issued and you were pleased

OUT OUR WAY

BY WILLIAMS

SAY, YOU! LET GO OF MY BREAD 'N JAM!

THE OTHER MORNING ELTON WENT OUT IN THE BACKYARD TO EAT HIS BREAD AND JAM SO THAT HE WOULDN'T HAVE TO DIVIDE WITH SISTER.

to learn that his \$5,000 stock had swollen to \$20,000.

However, industry is like a cow—it can give only so much milk.

So the inflated \$20,000 worth of stock pays only 5 per cent dividends, against 20 per cent on the \$5,000 of stock before the war. Either way, the dividends total \$1,000.

Why not stop kidding ourselves and deflate capitalization, same as prices?

MARKS If you are holding a basket of German marks the news from Berlin is sad. In the last week of March, Germany added \$495,000,000 marks to its paper currency in circulation.

This sort of inflation is the reason why German commodity prices advanced an average of 20 per cent in March.

When prices are low, money is hard to get. When money is plentiful, prices are high. The system gets us coming and going. It's a gambling game, with a permanent cleanup only for the gentlemen who saute it away while the sailing is good.

PRICES The stock market shoots upward.

This, according to some economists, is just one of the many straws in the wind, pointing to a secondary period of inflation ahead.

That is, a house which you are offered \$2,000 for now might bring \$12,000 later on—if, which is a big word.

In the price declines that followed the Napoleonic and Civil wars, people had the same notion. Prices would stop falling, begin to rise, then slump again.

In a general way, their path was like the teeth of a saw, up and down, with each succeeding saw tooth lower than the one before. As to the future, one guess is as good as another.

COAL The coal that lies unmined in the ground is enough to last only 200 years, under present wasteful methods of mining. So says Percy Tallow, director of the Ohio state department of industrial relations.

The Geological Survey, on the other hand, says that the unmined coal reserves of America are about 5,000,000,000 tons, or enough to last more than 8,000 years unless

we begin burning coal twice as fast as in the last five years.

The most striking characteristic about experts is that no two of them seem to agree. Somewhere there exists an "expert" who can prove almost anything.

LEARN A WORD EVERY DAY.

Today's word in betman. It's pronounced—bet-man, with accent on the first syllable.

It means—a Cossack chieftain, tribal leader in Siberia, chief, head.

It comes from—Polish "hetman," chief, from German "hauptmann," a captain.

Companion words—hetmanate, hetmanship.

It's used like this—"There is a movement on in the senate to deport Gen. Semenov, the Cossack hetman."

Two-thirds of all coal mined in the United States is used for generating power.

ALL THE NEWS OF ALL THE SPORTS ALL THE TIME

Spudders Hit Well In Pinches and Win Final Game From the Giants

By PAUL W. LARKIN. Skipper James Galloway of the Dallas Giants sent his pitcher to the well once too often at Athletic park Monday afternoon. He didn't surprise anyone when he nominated "Lefty" Swartz to turn the Spudders back in the odd game of the series, but the Spudders surprised more than one when they turned on "Lefty" in one chapter and clubbed enough counters across the plate to sew up the contest. The Salmites had an enjoyable inning at Athletic park, hitting for five blows and four runs, which proved sufficient to win, though they added one more later in the game which made the final score 5 to 3.

"Tabbit" Darrough was Salm's selection to stop Swartz and the Little fellow did all that was required of him. With the exception of the seventh and ninth cantos, he kept the Giant blows well scattered but he worked considerably in the final period and one more knock was all that would have been necessary to force him to step out of the picture. The invaders got to him for four solid smashes in this chapter, two of which were converted into tallies. When the last man had been retired by Jake Miller there were two visitors tugging at their leashes on first and second and had the ball gotten away from Miller as it came near doing the thing run would have crossed the plate. But the ball didn't get away, as the score indicates, and the Spudders caught the longest of the first series of the season.

Lincoln Swifted. Salm switched his lineup in an effort to get over the left-handed hump and the result was highly satisfactory. Bob Becher, due to the fact that he swings from either side of the plate, was sent in to cover the center pasture, vice Ray O'Brien, who takes his cut from the first base side only. Bob led off and though he failed to hit safely, he got on once by a pass and dealt the Giant infield plenty of mischief. While Salm was sitting, with Bob on first, Shandling took exception to one of Brasher's decisions and he turned his head to tell him about it. It was a disastrous turn as Bob hit out for second the moment Shandling took his eye off him and made a clean steal of the bag.

"Shory" Adams was dropped down to sixth place in the batting order and if yesterday's work is any criterion, he will be a long time before he gets back to the top. He cracked out three singles, one of which came with men on second and third and had Swartz on the mound for construction. But it was his fielding that brought the fans to their feet in nearly every inning. He was all the while in the left field, but he was in the right place at the right time, many of which were extremely difficult, in a fashion that would do credit to any shortstop in the league. He was a constant pegging his sled, if even duplicated at Athletic park.

Swartz started in as though he was going to be a star in his opening day. Only one hit was garnered off him until the fourth. Jake Miller flashed a double to left center in the second, but left him naught as Adams asked to Donohue and Sorey fanned. The Spudder artillery loosened up in the fourth, and the fusillade started. Summa's speed enabled him to beat out a high bounce, but he was forced at second a moment later when McDonald hit to Segrist. Beck dropped a Texas leaguer into center which was hit on third and Miller filled the bases with a single through Stow. Adams came through with a most timely single at this juncture to right which scored McDonald and while Miller romped to third, Jake and Sorey executed a perfect squeeze play, the latter hitting a difficult pitch at eighth, when he hit. Adams crossed the plate and went to second on the play and after Kitchens had been passed scored through Darrough to take a clean single to center. Kitchens tried to make third on the drive, but was caught by several yards.

Though a trifle wild at times, Darrough limited his opponents to two safe hits until the seventh. A double by Shandling and Spencer's single to right resulted in a run in this round. Swartz settled down after the fourth canto and went along steadily until the eighth, when a sixes by McDonald and Beck coupled with a fumble by Donohue gave the home boys their last counter. The visitors threw a single into the Salmites in the ninth and the fans who had started to leave the park hastily scrambled back to their seats before the inning was over. With one away, Swartz was sent in to hit for Swartz and forced Shandling at second, taking third. Spencer and Allen hit safely, scoring Stow and Seely, but they were left stranded when Miller made a shoe-string catch of Donohue's drive.

SOUTHERN LEAGUE. Little Rock 7, Chattanooga 3. Chattanooga, April 17. -Angered because he was hit by a pitched ball, First Baseman Schriner of Little Rock attacked Pitcher Wingfield of Chattanooga at a sixth inning of today's game and other players joined in. The fans crowded on the field. Police succeeded in restoring order. The Little Rock team, whose action in knocking down First Baseman Anderson of Chattanooga had caused the two managers to become general, followed Wingfield from the field, and Pitcher Morrison of Chattanooga went after the two White Managers. Eddie McDonald of Chattanooga held the door, the three players engaged in a battle inside the clubhouse, police finally forcing an entrance after Steel had been severely beaten. The incident was brought on by complaints from Manager Eberhart of Little Rock. Little Rock won the game, an erratic affair, 7 to 3.

TWO PITCHERS WITH GREAT FUTURE

Pitching is a problem that confronts practically every major league manager. A good many of the major league leaders are pretty well satisfied with their local pitching excepted. The lament of a majority of the managers is, "If our club only had a little more pitching we would make lots of trouble for our opponents." The Cleveland club has a pitcher in George Uhle who is being developed into a star inside of a season. In the American league today there are two pitchers who have every chance to reach stardom. I have in mind George Uhle of the Cleveland club and Wilkinson of the Chicago White Sox.

Uhle has great chance. Inside a couple of innings I made up my mind that Uhle was a real big league prospect. Before the game was over I learned he was the property of the Cleveland club. I ventured the prediction that the sand letter inside of three years would be a sensation in the American league. While Uhle hasn't quite lived up to my prophecy he has demonstrated that he is a great pitcher. I haven't weakened on him in the least. Unquestionably there is still some little thing lacking. One of these days he is going to find himself, correct that fact, whatever it may be, and then look out!

Wilkinson is a pitcher with the speed, fast breaking curve, nice change of pace and free delivery that Uhle would have no great trouble winning from 20 to 30 games every year with a club that is up in the race. Roy Wilkinson of the Chicago club has had a similar experience to that of Uhle. In fact, he has never been nearly as successful as the Cleveland pitcher. In the final game between the Giants and the White Sox, on their recent spring training trip, Wilkinson stood the Giants on their heads. He pitched the kind of a game you always expect him to but seldom does.

Gleason believes he has discovered Wilkinson's fault, working too hard on every batter. Certainly he has the stuff to be a consistent winner.

After watching Jim Galloway's crew five days, one cannot help but think that the Giants have been underestimated around a circuit. They have the most formidable hurling staff in the league. Swartz, Hill, Seely, Harper, Tippie, Reid and Mitchell should win a lot of games and they have plenty of offensive strength behind them. I venture the prediction that Galloway could use a good second baseman, though he may fill that gap with Joe Brown whom he signed as soon as the Panthers fit him, and he's not any too strong behind the bat. But he has a club which should be in the first division practically all season unless something unforeseen happens.

Swartz's delivery with men on bases had the umpires and Spudders up in the air several times. He finally got a balk called on him with Adams on first base. It was coming in him sooner or later as Salm and Kitchens had been after Swartz and O'Leary all afternoon to call him.

Wichita is more difficult than baseball. Baseball is more difficult than grid game says Mohardt. Baseball is more difficult than football. Tyrus Cobb has clung to this contention for years. On the Detroit club is a player who will wear his manager's right. Johnny Mohardt is the athlete who backs up Tyrus Cobb and has had experience in both sports. As a football player he was the outstanding back of the west last year. He was a big cog in Coach Rockne's great Notre Dame eleven. Mohardt has jumped from the college ranks as a ball player to the majors. He has shown enough stuff to cause Manager Cobb to decide he will stick with the Tigers.

DATES FOR TITLE BOUTS ANNOUNCED

Dempsey, Leonard and Britton to Fight On Labor Day, Fourth of July and August 5.

MICHIGAN CITY, IND., April 15. -Dates on which Jack Dempsey, heavyweight champion, Benny Leonard, lightweight champion, and Jack Britton, welterweight champion, are to defend their titles in matches here have been announced by Flood Fitzsimmons, promoter for the local post of the American Legion.

FITZSIMMONS said Leonard would fight here July fourth, Britton would fight August 5 and Dempsey would appear Labor day. Leonard is to get \$10,000. His opponent's name will be announced late this week. Fitzsimmons said. The money and opponents of Dempsey and Britton will be fixed later.

EASTERN TEAMS SAVED BY RAIN

NEW YORK, April 18. -Several managers of eastern teams in the big league were thanking the weather man today for having interfered yesterday afternoon with their scheduled games and making it possible for them to play off the postponed contests later in the season when their teams will have reached championship form.

The best pitcher's battle of the year occurred yesterday in Cincinnati, where the Pirates shut out the Reds, one to nothing. Morrison of Pittsburgh held the Reds to four hits, Louie being hit by seven by the Buccaneers.

The St. Louis Cardinals basted Detroit for the first time this season when the Cubs beat 'em 7 to 6, driving Doak from the box. Washington was victorious in a series against the Athletics. The score was 11 to 9, and 20 men took part in the exhibition.

WHEN YOU SCORE A BALL GAME

A passed ball is a legally delivered ball that the catcher should control or stop with ordinary effort, but his failure to do so enables a batsman who becomes a base runner on such pitch to reach first base or a base runner to advance.

IF THIS PLAY COMES UP

Here's Your Decision. If while attempting a third strike, the ball touch any part of a batsman's person, the batsman shall immediately be declared out. The ball becomes dead and no bases can be run, or runners retired, on any play that might be made after the ball has touched the batsman's person.

NEW INFIELDER IS SIGNED BY DALLAS

FORT WORTH, April 18. -Joe Brown, infielder, who was secured by the Panthers from Hamilton, Ont., was released this morning and immediately signed by Dallas. Catcher Tim Griesbeck, who came to Fort Worth from the West Texas league, was turned over to Paris in the Texas-Oklahoma league. Brown was tried out here as a third baseman. It is understood, however, that Dallas will put him on second.

FOUR MANAGERS STILL ACTIVE IN BIG SHOW

Meyers Kayser Smith, Salt Lake City, Utah, April 18. -Spuz Meyers of Pocatello, Idaho, knocked out Midget Smith of Midvale, Utah, in the fourth round of a scheduled six round affair here last night. The men fought for the junior lightweight championship of the Rocky mountain district.

DEMPSEY WILL NOT FIGHT IN EUROPE ON PRESENT TRIP

By Associated Press. CHICAGO, April 18. -Jack Dempsey, pugilist, does not plan to engage in any bouts on his present trip to Europe, but will return if suitable opponents can be found.

NORTH CAROLINA CHAMP WINS OPENING SHOOT

PINEBLUFF, S. C., April 18. -H. A. Morson, the North Carolina state champion, won the introductory handicap in yesterday's opening session of the sixth annual north and south trap shooting tournament.

CRABS 7, HOUSTON 9

HOUSTON, TEXAS, April 18. -The Houston Crabs noosed out the Sand Crabs here today in a seven-inning game, stopped by rain, by a score of 9 to 7. Ward pitching and odd plays featured the game. Score: Houston, 9; Crabs, 7.

BEAUMONT 4, SANTONE 3

SAN ANTONIO, April 18. -Although wild at times, Jacobus was strong in the seventh and Beaumont beat San Antonio in the odd game of the series here yesterday. The locals made six hits off Jacobus, 2 of which came in the ninth, when they filled the bases but were unable to score.

THE BOY WHO STARTED TO TOWN WITH A HUNDRED DOLLARS

The advice they gave him for getting on in the world was simple and familiar enough: "Keep what you have, and build on it."

It's a safe rule—with money or health, but a good many overlook the rule with health, until they have lost what they had.

You can begin with Postum today, with an order to your grocer. The road to health is a good road for anybody to follow.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water.

HER eyes blazed furiously at him!

Why had she acted so strangely? Was the sin he committed great enough to warrant his bride's action?

What would you do if a short time after your marriage you found yourself in a strange city and suddenly discovered that the man who was your husband was everything a man should not be?

Read this thrilling, gripping tale of a curious conflict between a newly married couple, as told in the May issue of

True Story Magazine

You will be amazed at what happened on their strange honeymoon. See how fearlessly the author lays bare the sore spot of America's homes of wealth and fashion.

Read "The Dead Speakeeth"—the powerful story of a mother love that even death could not conquer.

Some More Real Life Stories. These are but a few of the many true stories of death.
