DECLARES FARMER AND MANUFACTURER CARRY HANDICAPS

SIZE OF AMERICA AND THE PRESENT HIGH SCALE OF LIVING

BOTH ARE SOCIAL ASSETS BUT TRADE LIABILITIES

President of American Institute of Electrical Engineers is Speaker

CHICAGO, April 19.—The American farmer and the American manufacturer entering the commercial trade of the world carry numerous handicaps, William McClellan of New York, president of the American Institute of Electrical Engineers, said in an address before the Chicago association of commerce here today. Two of these, he said, are the size of America and the high scale of living. Both are "magnificent social assets," he said, "but they are both heavy commercial liabilities."

THE SOLDIER WHO FOUND THE LOST BRIGADE INDORSES GUINN WILLIAMS FOR CONGRESS

HON. T. J. McMURRAY, Decatur, Texas, Dear Sir: I am intensely interested in the candidacy of Senator Guinn Williams for Congress. I had the pleasure of serving with him throughout the sessions of the 37th Legislature in the State Senate.

He was always boldly taking issue in behalf of the people. He stood four-square for sound business principles in the administration of government. His work and his votes in the interest of decency and economy, especially with reference to the penitentiary system of the state, will live as a monument to his name in Texas history.

He was always a Christian gentleman, a faithful friend and an able senator. He has a heart of pure gold, and every pulse beat was an intense yearning for the interests of his people. We need him in Congress. The ex-service men need him. Texas needs him. May we have an increase of his tribe at the national capitol.

Yours very truly, WOODVILLE ROGERS, State Senator, 5th District.

—one of the best tests— of a man's ability is his earning power. It gauges his enthusiasm, his force of character, his energy. But the best test of a man's judgment is his saving power, his capacity for accumulating from his earnings a reserve against the time when his earning power fails. Exide BATTERIES When your battery says: "I'm through" There will come a time when your battery—even if it is an Exide—must be replaced. How will you acquire a new one—by simply calling at the nearest place where batteries are sold, or by getting one for the least money possible? Or will you automatically buy another of the same kind that has just worn out? Or, realizing how much a battery means to your comfort, will you be sure to get an Exide and let it give you its sturdy power through a long life of ungrudging service? There is economy in buying an Exide Battery, because it lasts so much longer than others. Ruggedness is built into it, so the battery spends its time in your car instead of in the repair shop. When you must have a new battery or when your present one needs help, do yourself the justice of stopping at the nearest Exide Service Station. The Electric Storage Battery Company, Philadelphia. RUMOR KATY SHOPS AT DENISON TO BE ON CONTRACT PLAN

DENISON, April 19.—A persistent rumor has been circulating here that the M. K. and T. railroad car shops will be opened Monday under the contract system. It is stated unofficially that a Cleveland firm will take over the shops. The rumor could not be confirmed at the office of E. K. Tutt, mechanical superintendent and superintendent of the car service. Mr. Tutt was not in the city. Executives of the car men's union would not comment upon the report, although they intimated that they had been informed of the proposed change.

OPPOSE PUBLICATION OF NEWSPAPERS ON SUNDAY

NASHVILLE, TENN., April 19.—Adoption of reports to the annual conference, including one insisting on more strict sabbath observance and an effort to stop publication of Sunday newspapers, featured a session here last night of the Nashville district conference of the Methodist Episcopal church, south. The resolutions regarding newspapers follows: "We call attention to the startling fact that about 16,000,000 copies of Sunday newspapers are now sold and delivered every Sunday. Sunday newspapers have increased their circulation 100 per cent in seven years, while our Sunday schools have scarcely increased 10 per cent. The daily paper is a great institution, but it should run every day except Sunday."

Beauty Advice

By Ruth Roland

LOS ANGELES, CAL.—When Ruth Roland, the beautiful actress, was interviewed and asked if she would be willing to tell the readers of this paper how she kept her complexion so youthful and fresh looking she hesitatingly replied, "I shall be more than delighted to do so."

It is a very simple matter, first and foremost absolute cleanliness is an important factor. I cleanse my face thoroughly with Liska cold cream, after which I use a simple toilet preparation called Derwille. I always apply this before going out.

"Anyone can see beauty in their complexion if they will use these preparations. Derwille and Liska cold cream. I have no difficulty in securing them at almost every toilet counter."

The first application of Derwille will astonish you, as it gives the skin a youthful appearance and a clear baby complexion every normal woman craves. If you wish to instantly have a beautiful rosy-white complexion and soft unwarmed skin, try Derwille and you will be delightfully surprised. For sale at the toilet counter in all department and drug stores. (adv.)

By OLIVE ROBERTS BARTON

Without any warning the mountain did a most outrageous thing. The last of the Seven Mountains was the Mountain-That-Wasn't There.

When Nancy and Nick stepped off the Five-And-Ten-Cent Store Mountain, still holding tight to the record, it was with great joy that they saw this other mountain before them in the distance.

"It's not a very high one," said Nick, "and we ought to be over it in a little while. Just beyond is the Kingdom of the Diddyevers."

They started as fast as their little legs could carry them to make up for the time they had lost. But although they walked and walked until they were nearly ready to drop, the mountain appeared no nearer.

"There must be something the matter," said Nancy. "I'm so tired I don't think I can go another step."

"I don't understand it," puzzled Nick. "I thought there might be some trick about it because its name is so funny, or something like that. I thought maybe there was no mountain. But there is because

we can see it. Oh, come on, we'll have to get there sometime." And he gave Nancy's arm a pull.

So poor, tired Nancy trudged on again. Suddenly the mountain was as near to them as the houses next door is to yours. It was hard to say how it happened, but it wasn't more than 10 steps away.

"Oh," cried the Twins, stopping suddenly. Then they laughed merrily. "Why, we were getting nearer all the time," said Nancy, "and we didn't know it."

"Well, now that it's here, we'd better climb it," said Nancy wisely. They were about to take a step up its steep side when, without any warning, the mountain did a most outrageous thing. It swung slowly over and balanced itself quite nicely on its top.

"Oh, now I know," said discouraged Nick. "When anything's crazy they say it isn't there. That must be how the mountain gets its name."

CULLEN F. THOMAS TAKES ISSUE WITH CLARENCE OUSLEY

FOR FIRST TIME MENTIONS
NAME OF OPPONENT
IN ADDRESS

DISCUSSES GUARANTY
FOR FARM PRODUCTS

Refers Incidentally to the Record
of Opponent on Political Issues

DECATUR, TEXAS, April 19.—For the first time since he opened his campaign for the United States senate, Cullen F. Thomas called the name of one of his opponents. This was in an address here last night when Mr. Thomas replied to certain statements made by Col. Clarence Ousley within the past week with reference to his position on certain questions. Mr. Thomas came here direct from his headquarters in Dallas. He was given a rousing reception, being met at Fort Worth by a reception committee and accompanied to this city. His reference to Col. Ousley was in part:

"Thus far I have spoken in generous terms personally of all my opponents. Not one harsh word have I uttered as to any of my competitors. I note that Col. Clarence Ousley is the first among them to speak censorious terms of myself or my motives. I hope he may be the last. In his address discussing my suggestion of government guaranty of minimum prices for certain staple farm products, Col. Ousley went out of his way to say:

"The man who favors price fixing, except in the emergency of war, is too ignorant to serve you wisely or he is trying to fool you."

"The man who favors what meat Col. Ousley has fed by which he assumes thus to pass on the equipment of a competitor, or the purchase of a mine, I am unable to find any long catalog of his accomplishments in behalf of the farmers of Texas.

"His most particular biographer would not call him a pathfinder. In what political reform has he led? When the saloon power had its stronghold on the politics of Texas as were ignorant who sought to break it and was he wise who sought to perpetuate it? When in the fulness of new day in the world, the issue was whether or not women should take their stand by the side of man at the ballot box to wring the wrong from human society, were they who championed her cause trying to fool the people, and was he who opposed the reform a friend of the people?"

Mr. Thomas then outlined his suggestion of a governmental agency to stabilize values of certain farm commodities in periods of national calamity. He favored some such measure for emergency relief for the economic salvation of the country. "I favor invoking all the powers of the government to sustain the prices of staple farm products at a reasonable figure above the cost of production, whenever necessary as an emergency measure, whether in the time of war or in the time of peace.

"Are those thoughtful members of the national congress who favor this plan ignorant? Are those patriotic farm leaders who would resort to this plan in times of national distress not to have credit for wisdom and lofty motives?"

At the conclusion of Mr. Thomas' address he called for a hand vote on the foregoing and it was practically unanimous in his favor.

It is said diamonds have been discovered in fallen meteors.

STORY HANDWRITING TALES

Expert Reads Secrets Between the Lines

This is the first of a series of ten articles on character in handwriting by Albert J. Smith, graphologist, 23 Maple Court, Brooklyn, N. Y. Each day Smith will analyze the handwriting of a well known man or woman. Compare this handwriting specimen with yours and read your own character.

By ALBERT J. SMITH

A prudent man endowed with intellectual powers never will plunge into controversies without considering the consequences. And this is accentuated when the nature is distrustful or suspicious. Such qualities mark the character of Samuel Gompers, executive head of the American Federation of Labor.

Gompers possesses a complex nature, in that he is either on two or more inclinations, either of which render for him a clear road for his deductions.

He arrives at his conclusions by deducing his premise and the judgment is accordingly based on its result. It is probably this talent inherent in him that has endeared him to the thousands of the toiling masses.

Gompers' "middle name" ought to be "Caution." Not the period following his name. Mr. Gompers habitually places a period after his name in his signature.

This denotes caution, and when an occasional dash is substituted for the period—or in addition to the period, it denotes distrustfulness and sometimes suspicion.

Handwriting ranges all the way from the almost microscopic to the inordinately exaggerated script of the egotist. Mr. Gompers' scrawl, while large, is not an outcry for attention, but rather the tracings of the temperate, homely body with a modest leaning. It suggests common sense and a hospitable, pleasing disposition, and the desire to please.

The almost child-like formation of the letters, joined together in one string of carefully strung-out connections, shows character of intense deliberation and the unmistakable signs to be distinctly understood.

There is no fuss or flourish to the strokes; they are written in simple, unadorned strokes, strong in maximum pressure, that denote determination and a resolute will.

He's a Thinker.
Gompers is a thinker; he is a logician; he is a master of diplomacy, but lacking the dissimulative traits

President A. F. of L.

of "finesse." He has a practical mind, instinctively careful, and is prudent to the last degree. He does not make up his mind hastily in matters of importance. The abbreviated "I" in Sam's unconsciously made short to accommodate the starting upstroke for the capital "I" are factors that stamp this labor arbiter a tower of strength in mental balance—the subjection of the impulses to the will. This base line of this man's writing is straight, as if drawn by a ruled line. This is the infallible sign of high integrity and a sense of honor.

SEEKS INJUNCTION TO PREVENT VERNON FROM ERECTING LIGHT PLANT

VERNON, TEXAS, April 12.—Charging that excessive valuations have been placed on Vernon property by the city commission for the purpose of levying taxes to be used for the fraudulent enterprise of erecting a large sum of money in order that the city may be thrown into the business of manufacturing ice and producing electric current, a petition has been filed in the district court of the United States, Wichita Falls, by R. E. Montgomery to restrain the latter from attempting for the purpose of constructing a light and local plant. A writ was served on the city Saturday.

Mr. Montgomery is a former resident of Vernon and now lives in Canada. His real estate holdings here amount to \$25,000.

MEETING WILL CONSIDER EXTENSION OF THE KATY

SEMINOLE, TEXAS, April 19.—A meeting of the citizens of Seminole has been called to consider what action will be taken in the proposed extension of the M. K. & T. railway from Rotan westward. It is the view of local citizens that should the railroad extend westward via Lamesa and Seminole, to say Lovington, New Mexico, that it would traverse Gaines county from east to west a distance of 60 miles and at least 50 per cent of adjacent lands along said road would be good and rich. There would practically be no waste land whatever.

It is true that Gaines county has at present a population of only about 2,000 people, but the entire county is entirely undeveloped agriculturally except a small portion in the northeast part of the county and around the town of Seagraves, the terminus of the recently constructed branch of the Santa Fe out of Slaton. This proposed extension would therefore develop practically all of the country since it would run through the county in such a way that all of the same would be nearly enough to the railroad to participate directly in colonization results. The citizens of Seminole have guaranteed rights of way through the county and a cash bonus of \$25,000, also terminal rights in the town of Seminole.

Oil well pumps in Texas are now operated by electric motors.

In India mythology Cama is the god of love and marriage.

PUREBRED LIVESTOCK ASSOCIATION FORMED

VERNON, TEXAS, April 19.—The Wilbarger County Purebred Livestock association was organized here last week-end with the adoption of a constitution and by-laws and the election of W. T. Collins of Odell as president. A. M. Bourland of Vernon, first vice-president; Logan Cragger of Oklahoma, second vice-president; Jed Morrow of Vernon, secretary; and Emory Rhoads of Vernon, treasurer. Directors chosen were Mark Neal, Joe Moore, Marvin Sharp, S. D. Lawlis and Rex Boyd. Association dues are five dollars a year.

Co-operative advertising, both locally and in farm journals, is planned immediately for the organization. One aim especially will be to aid the small breeder. A county-wide meeting featured by speeches from a representative of Texas A. and M. college and an officer from some successful purebred livestock association will probably be held shortly.

YARBROUGH SPEAKS IN BEHALF OF MORGAN

RYERS, TEXAS, April 19.—Ed Yarbrough of Electra delivered an address here Saturday afternoon in the interest of S. A. J. Morgan of Wichita Falls, candidate for congress from the thirteenth district. He was greeted by a large crowd.

REDUCTION IN RATES ON COAL FROM MINES DELAYED BY THE I. C. C.

WASHINGTON, April 19.—Reductions of rates on coal from mines in Oklahoma, Arkansas and contiguous territory to Omaha, Neb., and nearby consuming points, proposed by southwestern railroads, were delayed today by the I. C. C., which ordered the schedules given out by the railroads to become effective April 19 suspended until August 17. The action was taken, the commission's order said, to allow an investigation to determine whether unjust discrimination would result from the reductions.

The reductions proposed would have varied in accordance with the distance which the shipments travel and amounted to as much as ten or fifteen per cent below existing rates in some cases.

CHILDRESS PLANS TO ENTERTAIN GOVERNOR ON NEXT WEDNESDAY

CHILDRESS, TEXAS, April 19.—Mayor J. W. Mitchell and Secretary T. Paul Barron of the chamber of commerce have been instructed by that organization to have full charge of the entertainment and

conducting of the "Governor's Special" from Childress to Canadian on April 24.

A banquet will be tendered the guests at Childress on the night of April 23, and the governor will address Childress people at the Grande theater at 8 o'clock. On the following morning a number of cars bearing the Childress delegation to the D-C-D highway convention, and the guests that will make up the governor's party, will leave promptly at 8 o'clock, stopping at Wellington about 10. The governor will speak there, and the next stop will be at the new bridge four miles north of Shamrock, which is to be dedicated by

Governor Neff. A basket dinner will be served by the people of Wheeler county. Stops will also be made at Wheeler and Mobeetie before reaching Canadian at about 5 o'clock.

The Childress cars will bear attractive cloth signs bearing the name of the town and the words "Governor's Special."

CONVENTIONS ARE BEING HELD IN NORTH DAKOTA

JAMESTOWN, N. D., April 19.—Republicans and democrats of North Dakota will hold separate state conventions here today to name tickets for the June primaries.

A THOUGHT FOR TODAY
 If thou draw out thy soul to the hungry, and
 satisfy the afflicted soul, then shall thy light
 rise in obscurity, and thy darkness be as the
 noonday, and the Lord shall guide thee contin-
 ually.—Isaiah 63:10, 11.
 Is true freedom but to break
 Fetters for our own dear sake,
 And with leathern bands forget
 That we owe mankind a debt?
 No! True freedom is to share
 All the chains our brothers wear,
 And with heart and hand to be
 Earnest to make others free!
 —James Russell Lowell.

TWO LETTERS FROM WOODROW WILSON
 Two letters written to newspapers indicate that
 former President Woodrow Wilson is keeping in
 much closer touch with political developments in
 the democratic party than has been generally sup-
 posed.

The first of the letters was written to the New
 York Times making a very plain and blunt denial
 that James P. Tumulty was authorized to speak for
 him at a banquet of democrats in New York city
 recently. Mr. Tumulty had delivered a message as
 coming from the former president under circum-
 stances that made it appear he was favorable to
 the candidacy of James E. Cox in 1924.

The second letter was addressed to the St. Louis
 Globe-Democrat and denied that Mr. Wilson had
 written a letter, as had been claimed by one of
 Senator Reed's friends, to the senator, thanking
 him for his support of Wilson's policies while
 president and endorsing him. In his letter to the
 Globe-Democrat Mr. Wilson said that he failed to
 recall having written such a letter as claimed by
 Senator Reed's friend and he made it plain that
 he did not consider that Senator Reed had sup-
 ported his policies and that he did not endorse
 the senator.

The letter to the New York Times shows that
 Mr. Wilson has lost none of his plainness and blunt-
 ness, even when these things hurt a friend, as his
 letter must have hurt Mr. Tumulty. It shows also
 that Mr. Wilson will be very slow and deliberate in
 giving his endorsement to any democrat seeking
 the nomination for 1924.

While the letter concerning the Tumulty message
 is simply one of denial, that in reference to Sena-
 tor Reed goes further and expresses Mr. Wilson's
 attitude toward the Missouri senator in no uncer-
 tain terms.

One could wish that Mr. Wilson had shown more
 consideration for Mr. Tumulty's feelings in the
 letter to the New York Times. He cannot be blamed
 for his attitude toward Senator Reed. His feel-
 ings are natural but the effect of the letter may
 be to gain votes for Senator Reed in the primary.
 A large number of people outside of Missouri would
 regret this.

Perhaps it would have been better had Mr. Wil-
 son written neither of these letters. But they show
 the old spirit of this plain, straight forward fight-
 er. They reveal also his close interests in po-
 litical developments.

WHAT'S AHEAD OF US?
 You, like everyone else in the country, are won-
 dering:

First—When business gets going good again how
 will times compare with the great boom of 1919?

Second—What standard of living lies in store for
 the average American?

On every hand you hear people saying, "I guess
 we can't expect times ever to get as good again
 as they were during the silk-shirt days of the war
 boom."

Developments in the iron and steel industry sug-
 gest that this may be the wrong view. For instance:
 During March the country produced 2,034,794 tons
 of pig iron, or roughly four-fifths as much as in
 March, 1913, which was a typical month of normal
 "good times."

Before the war it was customary for pig iron out-
 put to increase 1,000,000 tons a year to take care of
 the normal growth of the country's needs.

On this basis, if the climb had continued nor-
 mally and there hadn't been a war, pig iron pro-
 duction in March, 1922, would have been 3,225,000
 tons, which compares with 3,090,243 tons produced
 in March, 1919, during the boom.

In other words, pig iron output during the war
 boom was no larger than the normal, natural growth.
 Pig iron production, by the way, is one of the
 two barometers of general business. The other is
 wheat.

How about the future standard of living? Nearly
 everyone has learned from bitter experience that
 prices and dollars have very little to do with it.
 The real standard of living is the amount of com-
 modities you are able to buy with your money.

Furthermore, America can buy only in propor-
 tion to what it produces.
 If the farmers raise 106,000,000 bushels of wheat
 a year, there's only one bushel for each of us. But
 we have three bushels apiece if they raise 318,000,
 000 bushels.

Similarly, if the men who make autos produce
 106,000,000 cars a year, there's a car for each of us.
 Only 1,060,000 cars are produced in a year
 there's only a car for each 100 persons.

The future standard of living will depend large-
 ly on how much we Americans produce—how hard
 we work.

To pay the interest on our national debt would
 take yearly only one-thirty-second of the American
 people's total income in 1913. The burden, unless
 pyramided by profiteers, is not big enough to sub-
 tract materially from the future standard of living.

Burglars have started their spring cleaning early.

 ripest glory. And at autumn time is the year most
 golden.

You have done the best that you knew—and now
 you sit in the twilight watching the shadows lengthen.
 But you have the comfort of the good that you have
 done to brighten your lonely hours and you must
 never forget that the great God understands "old
 folks" as no one else.

Soon all of us who are now out in the working
 world will hear the night call and we, too, will come
 into the rest house before the last long journey.

The kind and thoughtful words which you send
 out into the world are as seeds planted in the fresh
 soil of spring—later to rise in flowers to beautify or
 to blossom and ripen into fruit for the benefit of
 many.

Let this thought brighten your lives anew.
 Tired and aching bones have their rich reward.
 Time waves its wand gently. Be of good faith and
 of full courage.

You may be weary—but think of what it means
 to have been a worthy pilgrim!

Have no regrets. Take a fresh hold upon hope.
 Mingle the breath of your prayers with the wide and
 endless atmosphere of the stars.

Mingle the memories of your years and seat them
 in the choice places of your heart. And let them
 sweeten every one of your moments as each melts
 silently into the evermore.

And may the love of heaven bless you through!

JUST FOLKS
 BY EDGAR A. GUEST

SPRING—THE TEMPTER

If they shall ask me over there:
 "What tempted you over there?"
 Was it the eyes of woman fair
 That made you leave your post,
 Or did you for the lure of gold
 From honor's pathway fly?"

I'll blame, when my confessor's told,
 A patch of summer sky.

A patch of blue sky overhead,
 The birds upon the wing,
 The grass a velvet carpet spread,
 All set me wandering;

A laughing stream, the hills afar,
 The sun above them all,
 All these my great temptations are,
 So loudly do they call.

I can resist a woman's eyes,
 And spurn the lure of gain;
 With various tricks the devil tries,
 Unmoved I can remain.

But though the path of duty's clear,
 A faithless wretch am I
 When May has painted far and near
 A most bewitching sky.

When they shall ask me over there
 What made me go astray,
 I'll say the world was wondrous fair
 When came the month of May,
 The trees were glorious to see,
 The streams went laughing by—
 'Twas these that made a tramp of me
 With summer in the sky.

SMILE A WHILE
 BY TOM SIMS

April has five pay days; but there is Easter. Next
 month with five is July; but there is the Fourth.
 What's the use?

The pleasure of receiving a box score by radio
 will be doubled if they have somebody cuss the um-
 pire between plays.

Albanian women asking permission to dress like
 Americans must be expecting a hot summer.

American troops are leaving Coblenz. The watch
 on the Rhine has quit marking time.

Tariff makers, please note that a thing of duty is
 an expense forever.

Time flies. First thing you know Harding will be
 asking for another safe and sane Fourth of July.

Misery doesn't love company when it's the com-
 pany that makes the misery.

When two live cheaper than one they feel that
 way.

Now is the time to begin resting up for a vaca-
 tion.

The thrill of the first pair of long trousers is noth-
 ing compared to the thrill of the first shorts dress.

One way to make an enemy is by agreeing with a
 man when he says he looks bad.

When hubby plays golf and wife plays bridge they
 only meet on payday.

It must be awful to own the best car on the
 market and not be able to wish you had a better one.

Only things most amateur gardeners raise are
 hopes.

And "ex" is liable to mark the congressman who
 doesn't help the jobless veteran.

Only thing congress can pass without fighting
 over it is time.

Dry chief says bootleggers are on the run. Spring
 business?

The man of the hour takes care of the minutes.

Model husbands are not built for speed.

The only rent a tramp has is in his pants.

YOU AND I
 BY ALBERT APPLE

The baseball season gets under
 way. It has been the national
 sport since the Knickerbocker club
 of New York City started the
 world's first organized baseball
 club in 1845.

Six years before that, Abner

**Health Agencies
 Are Yours**

By DR. R. H. BISHOP.
 In almost every community, large
 or small, there are public health
 agencies brought into being and
 supported by the taxpayers' money.
 Such agencies are there solely to
 serve and help you.

They employ competent doctors,
 nurses and public health experts,
 who are kept there to your dis-
 posal.

The common conception of any
 sort of public health agency is that
 it is expressly for poor people. This
 is not true. Poor and well-to-do
 alike are expected to take advan-
 tage of the facilities offered by a
 public health agency.

When they give you advice, it
 should be followed—always. If you
 do not you are falling to avail
 yourself of the benefits your money
 is buying.

If your children come home from
 school a dull you that the school
 nurse has recommended certain
 diets or the observance of personal
 hygiene rules, you should co-oper-
 ate in every way. Such advice
 would not be given if it were not
 altogether necessary.

When the request is made that
 your child be vaccinated against a
 dangerous and contagious disease,
 your permission should be immedi-
 ate. Remember always that these
 suggestions and requests are being
 made for your good as well as your
 child's and that your co-operation
 is needed to carry them out.

By insisting on it, you are you
 and your children will be made
 healthier and happier.

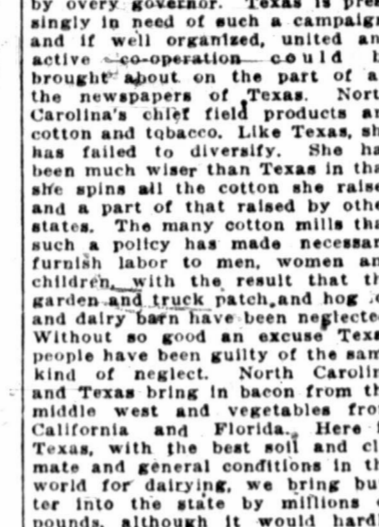

By neglecting to do your part you
 are the means of sending needless
 misery to those you love.

The public health doctor and
 nurses are working for you.

Texas Viewpoints

Houston Chronicle: Governor
 Morrison of North Carolina is in-
 augurating a campaign to awake
 the people of his state to the great
 importance of their food supply
 at home, has set an example
 which should meet active imitation
 by every governor. Texas is pres-
 ently in the midst of such a mad
 and if well organized, united and
 active co-operation could be
 brought about on the part of all
 the newspapers of Texas. North
 Carolina's chief field products are
 cotton and tobacco. Like Texas, she
 has failed to diversify. She has
 been much wiser than Texas in that
 she spins all the cotton she raises
 and a part of that raised by other
 states. The many cotton mills that
 such a policy has made necessary
 furnish labor to men, women and
 children, with the result that the
 cotton and truck patch and hog
 and dairy barn have been neglected.
 Without so good an excuse Texas
 people have been guilty of the same
 kind of neglect. North Carolina
 and Texas bring in bacon from the
 middle west and vegetables from
 California and Florida. Here in
 Texas with the best soil and cli-
 mate and general conditions in the
 world for dairying, we bring but-
 ter into the state by millions of
 pounds, although it would hardly
 be possible in ten or twenty years
 to meet the local demand. We plow
 acres of cropland and buy millions
 of gallons of "so-called" syrup, but
 the outside tons of sauer kraut. We
 ship millions of pounds of cotton
 out of Texas and buy millions of
 buy it back at from three to five
 times as much a pound as we sold
 it for, yet wonder why the farmer
 makes so little. He buys millions

An occasional purifying of the
 system and thorough cleansing of
 the liver are absolutely essential to
 the maintenance of health, and Calo-
 mel is the only drug that gives per-
 manent results. Now that the un-
 pleasant effects are entirely re-
 moved, the popularity of this new
 Calomel, Calotabs, will be vastly
 increased. One tablet on the tongue
 at bedtime, with a swallow of water
 that has a touch of lemon juice, will
 be of any kind. A good night's

making for the enlargement of this business. "Every Christian should be an evangelist. We may be promoters of evangelism through our ties of friendships, for surely such ties are strong enough that your friends have confidence in you. Again, show a spirit of evangelism as you pass by. There is no estimating the good that may come to an honest word or hearty handshake. But, the most important type of evangelism may be found in the home. Domestic evangelism means not only the saving of souls, but the saving of lives. What does your home mean toward the salvation of your children? Quartet music will be featured Wednesday night. Twenty-five million workers have defective vision requiring correction. Times' Want Ads Bring Results.

METER INSPECTION ORDINANCE TAKES EFFECT THURSDAY

Effective Thursday, consumers who think their gas, electric or water meters are too ambitious can find out the truth by letting two dollars, so to speak, on their suspensions. If the meter is found too fast the offending company pays the two dollars, that is, if it is not over two percent too fast. If it is recording correctly, or is too slow, the consumer pays the inspection fee himself.

ODD FELLOWS NOTES

The Rebekah drill team put in an hour of solid drill on Tuesday evening and the maneuvers were well executed under the direction of Drill Captain Chas. Hansen, assisted by Mrs. Walter Smith. A number of visitors were present and "42" was played by some. Later in the evening coffee and doughnuts were served by W. J. and the Misses Clara and Beth Seefeld.

ADVERTISING PLANE FOR AERO MEET ON TRIP TO OKLAHOMA

The American Legion Aero Meet advertising plane left Wednesday morning for a trip into Oklahoma as far as Altus to bomb the town and cities with advertising matter. Potts and Proutie, contractors, stated Wednesday morning. A tripe more than 750 feet was unspooled when work began Wednesday morning and barring any mishaps this plane will be entirely finished by quitting time Wednesday night. When this plane has been closed this mixer will remain idle until the street of road before the plane can be moved. It is estimated that the far mixer will complete its present stand within 18 working days. The camp and plant will then be moved into the city of Burkburnett on the grounds of the Thomas Lumber company, which has been rented for this purpose.

LAKE WICHITA PAVILION TO OPEN FOR SUMMER SEASON ON SATURDAY

The summer season will open at Lake Wichita next Saturday, it was announced Wednesday, and preparations have been made for a big crowd. The dancing pavilion will be the first of the attractions to open, and the others will probably be ready within a few weeks. A chicken dinner will be served in the pavilion from 5 to 11 Saturday night, and Billy Huzzard's six-piece orchestra from Fort Worth will furnish the music. It is planned to have regular dances at the lake and to make the resort more popular than ever.

SALARY CUTS WILL BE CONSIDERED BY THE COUNCIL THURSDAY

The municipal paving knife is expected to function at the adjourned meeting of the city council scheduled for 10 o'clock Thursday morning. It is understood that salary reductions will be made in practically every department and that all working forces will be reduced to the minimum personnel possible. Most municipal salaries have been already substantially reduced from the figures of early in 1921, but members of the council feel that some further cuts are in order. It is possible that the council will also act on the proposal to lease the building adjoining the city hall for additional office space.

TO CLOSE UP GAP ON BURKBURNETT ROAD BY FRIDAY

The space that exists between the place where the mixer bears Wichita Falls is working and the starting point of the far mixer will be closed up by Friday morning, Potts and Proutie, contractors, stated Wednesday morning. A tripe more than 750 feet was unspooled when work began Wednesday morning and barring any mishaps this plane will be entirely finished by quitting time Wednesday night. When this plane has been closed this mixer will remain idle until the street of road before the plane can be moved. It is estimated that the far mixer will complete its present stand within 18 working days. The camp and plant will then be moved into the city of Burkburnett on the grounds of the Thomas Lumber company, which has been rented for this purpose.

THREAT OF FROST NOT MATERIALIZED, MERCURY CLIMBING

Generally clear with rising temperatures was the report from all agents on railroad lines leading into the city Wednesday morning. Forgan and Amarillo reported the lowest minimum temperatures for the night with 40 degrees. Snow fell at Amarillo between the hours of 9:30 and 11 o'clock Tuesday morning, according to reports received in this city. A trace of snow was reported as far east and south as Memphis. The minimum temperature locally for the night was 46 degrees. It remained warmer through the night than was anticipated as many fruit growers and truckers, as protection for their crops, built emuges late Tuesday night. The high mark reached by the thermometer Tuesday was 78 degrees.

NEW CHIEF MEETS MEMBERS OF FORCE TUESDAY EVENING

Members of the police force met their new chief, J. W. McCormick, Tuesday night, at a meeting called by Police Commissioner Pitts. The commissioner told the force that he was going to give the new chief very broad authority, confirming previous hints that the personnel of the force would be very largely up to the chief himself. It is being rumored that some changes are in prospect, but that they will not materialize for several days. Chief McCormick's first day was a very peaceful one, the number of arrests being below normal. The robbery of a gasoline station in North Wichita late Tuesday evening was the first serious affair he was called upon to tackle.
