

TRINITY IS FALLING AT DALLAS

THREE OF CHICAGO LABOR LEADERS ARE NOW UNDER ARREST

ACTION FOLLOWS BOMBING IN WHICH TWO POLICE ARE KILLED

ANNOUNCE THAT OTHER ARRESTS ARE MADE

Do Not Represent Honest Organized Labor, Declares the Chief of Police

CHICAGO, May 10.—The police today raided the building trades labor headquarters and arrested three of Chicago's biggest labor leaders, "Big Tim" Murphy, Fred Mader and Cornelius Shea in connection with bombings and shootings which early today resulted in the death of two policemen and serious injury of a third.

Murphy, known as Chicago's "labor czar," is out on bail after having been sentenced to seven years in the penitentiary in connection with the \$198,000 union station mail robbery. Mader is presently being held in the city jail while Shea heads the teamsters' union.

All records were seized. Chief of Police Fitzmorris, in ordering the arrest of Murphy, Mader and Shea issued the following statement: "The slaughter of the two police officers while they were on duty in the building trades union was a heinous crime. The tactics employed by Murphy, Mader and Shea and the other hoodlums and ex-convicts who have been going about posing as leaders of labor."

"Now that they want war with the police, they shall have it. They are just as guilty of the murder of these policemen killed last night as were the associates of the police killing in the Haymarket riot."

"They no more represent honest organized labor than the anarchists did. Labor does not need them and the police department will not have them around."

Chief Fitzmorris announced at 1 o'clock that state inspectors, officials in the building trades union was under arrest.

TWO POLICEMEN KILLED ANOTHER IS WOUNDED

CHICAGO, May 10.—Two policemen were shot and killed, another wounded and two buildings bombed early today in disorders which are attributed to labor warfare. The shootings were followed by a running pistol fight in which the killer eluded police.

Charles C. Fitzmorris, chief of police, immediately ordered every policeman on duty and directed that all labor leaders of whatever calling be brought in.

GOLDSTEIN REQUESTS THAT HIS NOMINATION FOR PLACE BE RECALLED

WASHINGTON, May 10.—Nat Goldstein, whose recent nomination as internal revenue collector at St. Louis has been the occasion of much senate criticism, has asked that his nomination be withdrawn.

Goldstein's request was made in a letter to President Harding, read in the senate by Senator Spencer, republican, Missouri, who recommended the appointment, as declared by Senator Hoover in the incident, indicating that the president would meet Goldstein's request.

BRITISH EMBASSY WILL ONLY WATCH COURT PROCEDURE

FAIL IN EFFORT TO BRING ISSUE BEFORE STATE DEPARTMENT

SENATOR'S SECRETARY ISSUES A STATEMENT

Declares Assertions of Robertson "Utterly Silly, Ridiculous and Untrue"

WASHINGTON, May 10.—British embassy officials today issued a statement in which they declared that the embassy would only watch court procedure in the case of the kidnapping of Miss Mary Culbertson, daughter of Senator Culbertson of Texas, and would not attempt to bring the case before the state department.

The statement, issued by the secretary of the embassy, declared that the embassy had no formal statement on the matter had been issued at this time.

"The entire case will form the basis of legal proceedings," Mr. Craigie added. He declined to say whether the matter would be taken up with the state department as though it were in the hands of the state department.

The assertions of Robertson that the attempt to kidnap him was made because of reciprocal allegations of Miss Culbertson were declared in a formal statement issued last night by Senator Culbertson's secretary to be "utterly silly, ridiculous and untrue."

The British embassy was the first to come formally from any one connected with the Culbertson family.

The claims of Alexander E. Robertson, it is stated, "that there was an attempt to kidnap him or to interfere with his freedom in any manner whatever, are utterly silly, ridiculous and untrue."

CONTRAVENY MAY GO TO STATE DEPARTMENT

WASHINGTON, May 10.—Possibility of the outgrowth of the romance of Miss Mary Culbertson, 21 year old daughter of Senator Culbertson of Texas, and Alexander Robertson, British war veteran, being taken to the state department, was seen today in some quarters as the prospect of a retrial of the case with British embassy officials.

The British veteran laid before embassy officials today further information to support his charges that because of his affection for Miss Culbertson he was kidnaped by private detectives and that these detectives attempted to kidnap him out of the country.

Indications were seen in the statement issued last night by E. Leslie Craigie, first secretary of the embassy, after the initial conference with Robertson, that the war veteran had to some extent, at least, impressed the embassy officials with his story. The statement said, "The embassy is inclined to consider that certain aspects as presented call for further investigation."

This additional inquiry, it was hinted today by persons close to the embassy, probably will necessitate a conference with state department officials with state department officials.

PROPOSE TO CHANGE NAME OF ASSOCIATION

ST. LOUIS, May 10.—A proposal to change the name of the Southern Wholesale Grocers association to the American Wholesale Grocers association was discussed at today's session of the convention of the former organization here.

E. L. Adams of Jacksonville, Fla., secretary of the association, announced the change in name was proposed because the organization has members in virtually every state in the Union and it is no longer was a sectional association.

BUSINESS IS STABLE SAME, DEFINITE WITH CONTINUING ADVANCE

NEW YORK, May 10.—Business and trade conditions throughout the United States as reported by 33,000 manufacturers to John E. Magruder, president of the National Association of Manufacturers, today show a "stable, sane, definite and continuing advance."

The survey was made by questionnaires answered to which were received within the last 24 hours so that it represents conditions as of today. A great many of the industries not only report that they are employing more men than they were a year ago, but that they are looking for a still further increase in their forces when the fall work season begins.

TWO ASSOCIATIONS OF FARMERS CONSOLIDATED

BROWNWOOD, TEXAS, May 10.—The state association of city, five marshals and five chiefs voted this morning to consolidate with the State Farmers' association and automatically passed out of existence after nine years of separate organization. The farmers' convention continued its second day's session, devoted mainly to address on fire insurance.

CHARGED WITH ARSON

REV. T. J. IRWIN

LAWTON, OKLA., May 10.—Arrestment of the Rev. Thomas J. Irwin, former pastor of the First Presbyterian church here, and H. C. Lewis, member of the resigned board of sessions of the church on charges of arson was continued in court here today to May 12, on application of counsel for Irwin. The charges grew out of an investigation by County Attorney Fletcher Riley into fires discovered at the church.

RUSSIAN REPLY TO BE REVISED BEFORE DELIVERY TO ALLIES

By Associated Press. GENOA, May 10.—The Russian reply to the allied memorandum which was ready for presentation this forenoon, was not delivered to the allies as expected, at the last moment after a conversation between Foreign Minister Tchitcherin of Russia and British Foreign Secretary Neville Chamberlain.

The Russian reply, it is stated, would have to undergo some alterations. Tchitcherin left Genoa at 3 p. m. returning to Santa Margherita to consult the other members of the Russian delegation. It was not expected, therefore, that the reply would be presented tomorrow.

The fact that the delay was due to M. Tchitcherin's visit to Signor Schanzer was regarded in some quarters as a favorable indication.

Dowell told of the incident in which he received \$200 as his "cut" in the money had been "paid" to him. He stated that he had gotten the money from "old Dan."

The officer told also of the plan to kidnap the money. The plan was to kidnap the money, by which he would be able to collect \$4,000 from "old Dan" on four leading slips just before the money was paid.

COUNCIL OF THE LEAGUE OF NATIONS TO CONVENE AT GENOA ON THURSDAY

GENEVA, May 10.—The eighteenth session of the council of the league of nations will open here tomorrow with the presence of several important questions now before the Geneva conference coming up for discussion.

The possibility, for one thing, of the league law, pending the matter, the Russian question is again in a request filed with the league by Norway asking for an independent inquiry into the famine in Russia.

FATIGUE AND LOSS OF SLEEP ENDS A PIANO ENDURANCE CONTEST

GARY, IND., May 10.—Fatigue and loss of sleep forced "Zack" David Livingston of Edinburgh, Scotland, to stop his attempt to break the long distance piano playing endurance here at 1:30 this morning. This is the second time within two weeks that Livingston fell short of the record of 11 hours, 9 minutes. Livingston had played for 65 hours when he quit, thereby losing a \$10,000 prize which the time limit expired at noon today.

NUMBER 38 PLAYS PART IN CASE OF ALLEGED BRIBERY

J. R. PRENTICE, DUNCAN BANKER, TAKES STAND IN HARDY CASE

BANK ACCOUNT OF A. C. FLOWERS INTRODUCED

J. E. Dowell, Special Officer, Tells of Receipt of \$500 as "His Cut from Old Dan"

Number 38 will play a part in the trial of the case against D. M. Hardy in the United States district court. This statement was made by District Attorney E. W. Swift Wednesday morning while J. R. Prentice, a banker of Duncan, Okla., was on the witness stand.

One of the accounts introduced into evidence as well as several checks, which the district attorney stated, he would connect up later in the case as pointing to alleged business transactions between the defendant and Flowers.

The bank account of A. C. Flowers, alias Eugene Flowers, was introduced into evidence as well as several checks, which the district attorney stated, he would connect up later in the case as pointing to alleged business transactions between the defendant and Flowers.

The witness stated, while the other had nothing but the number "38" on an envelope. The first check was for \$400 while the one that bore the number was for \$75.00.

The witness objected to the introduction of the check on the grounds that there was no connection shown as having any bearing on the alleged conspiracy to bribe the witness.

The witness stated, however, that he was introducing them for the purpose of showing alleged deals in whiskey between the defendant and the witness in the Indian country.

J. E. Dowell, the special officer whom it is alleged was the government officer bribed, occupied the witness stand today. He was called as a witness in another case in Oklahoma, and for that reason court remained in session.

Dowell told of the incident in which he received \$200 as his "cut" in the money had been "paid" to him. He stated that he had gotten the money from "old Dan."

The officer told also of the plan to kidnap the money. The plan was to kidnap the money, by which he would be able to collect \$4,000 from "old Dan" on four leading slips just before the money was paid.

COMBINED COMMON SENSE AND JUSTICE RAILWAY SOLUTION

SUCH IS STATEMENT MADE BY BEN W. HOOPER BEFORE TRAINMEN

HUMAN ELEMENT OF DOMINANT IMPORTANCE

Declares Labor Board Desires to Give a Square Deal to All Involved

TORONTO, May 10.—Combined common sense and justice to all persons concerned in railroad labor disputes may be the means of a solution of every problem affecting the relations of railroads and their employees, Ben W. Hooper, chairman of the United States railroad labor board, said today before members of the Brotherhood of Railroad Trainmen, in triennial convention here.

"I am increasingly impressed with the dominant importance of the human element in all labor controversies," he said. "There can be no real solution of the labor problem until the human element is recognized as the dominant factor in the labor of today."

There may be a controversy between the man who furnishes the labor of yesterday and the man who contributes the labor of today. This is merely a contest between man and man, and not between the labor of yesterday and the labor of today.

"An I sit upon the railroad labor board, I am convinced that the selfish instincts of human nature. On the one hand are the men who represent the others of the labor of yesterday and the man who contributes the labor of today. This is merely a contest between man and man, and not between the labor of yesterday and the labor of today."

"The only thing for which we can reasonably hope is that as the years go by the human element of Christianity will soften the hearts of men into a finer and deeper sense of brotherhood."

The railroad organization was so divided in opinion that it failed to agree on a program of its own ends as to forget the rights of the labor of yesterday and the labor of today. "Let me assure you that the members of the labor board approach their duty with a desire of a square deal for all."

PHYSICIANS ARE OPPOSED TO THE STATE OPERATED INDUSTRIAL INSURANCE

EL PASO, TEXAS, May 10.—A committee of the state medical association of Texas reporting today on completion of a study of the proposed state-operated industrial insurance system of Oklahoma.

The committee, which was headed by Dr. Philip Howard, chairman of the committee, told the house of delegates of the association that the proposed state-operated industrial insurance system of Oklahoma was "a step in the wrong direction."

GERMAN PATENT TREATY WILL FORCE AMERICA TO PAY HEAVY ROYALTIES

WASHINGTON, May 10.—The American government finds itself under the revived patent treaty with Germany faced with the necessity of paying royalties which it may reach \$50,000,000 to the Krupp firm on patents based on discoveries of American engineers, Thomas W. Edison and the government announced today.

Mr. Miller said that among the 700 German patents filed here since July 20, 1918, none of them can be applied for by his officers, there are at least eight patents dealing with mobile artillery which "embody many principles of American rail artillery," and in official circles the belief is held that trading of the American plans were surreptitiously removed from the war department and tracing made.

AGREEMENT WILL BE EMBODIED IN TREATY

WASHINGTON, May 10.—The agreement understood to have been reached between the American and British governments regarding the mandatory power in Palestine is expected to be embodied soon in a formal treaty by which the United States will recognize the mandate of Great Britain and the latter will guarantee full protection to American rights.

Until the negotiations are finally concluded, the department officials are unwilling to make known the exact terms of the proposed treaty. It is understood, however, to make specific reference to the various capitulatory rights of the mandatory power in Palestine and to provide in detail that none of them can be interfered with through operation of the mandate.

AUTHOR WANTS DIVORCE

MRS. GOVERNOR MORRIS

CHARGE OF MURDER IS ENTERED AGAINST OKLAHOMA STUDENT

STILLWATER, OKLA., May 10.—Further investigation today by county authorities of the slaying here of Beulah Cobb, 21 year old government student at Oklahoma A. and M. college, was expected to decide whether charges would be filed against Earl E. Gordon, 25, another federal student.

Cobb was shot to death near the campus yesterday by Gordon. Armed with a revolver, according to a statement yesterday by Mrs. Cobb, the student was forcing Gordon to accompany him home with the demand that Gordon apologize to Mrs. Cobb, 15, for an alleged insult.

The two war veterans were walking along the street arguing when Gordon opened fire, sending three bullets into Cobb's body. Witnesses said Cobb stepped in front of Gordon just before the latter fired.

Mrs. Cobb declared Gordon had insulted her on the street several nights ago and said she had told her husband.

Cobb's body will be taken to his home at Birmingham, Alabama, for burial.

TEMPERATURE 24 TEN INCHES SNOW AT MODENA, UTAH

DENVER, COLO., May 10.—Heavy snows in southeastern Utah, northern Arizona and southern Colorado were reported today to the local weather bureau. At Modena, Utah, the mercury fell to 24 degrees above zero last night and a great wall of snow, 10 to 12 inches of snow fell at Durango, Colo. Gallup, New Mexico, also reported several inches of snow.

GOVERNOR NEFF TO SPEAK AT PRESS ASSOCIATION

AUSTIN, May 10.—Governor Neff returned unexpectedly to Austin last night, being forced to cancel his trip to Fort Worth to accept of railroad walkouts. He left here Monday night to attend the Knights of Pythias annual convention in Fort Worth and later to speak at the Texas Press association meeting at Denton. He leaves tonight for Denton to fill his engagement.

INTERURBAN TRAFFIC RESUMED ALL LINES EXCEPT TO FT. WORTH; RAILROADS STILL HANDICAPPED

PORT WORTH, May 10.—The Trinity river was five feet below flood stage this morning and continued to drop rapidly. Roadsters are moving back into the lowlands and all interrupted car service and most of the railroad service have been resumed.

TRINITY AT DALLAS IS RESUMING SLOWLY

DALLAS, May 10.—Trinity river continued to recede slowly today after having registered 40.3 feet here yesterday.

Interurban service on the Waco, Corsicana and Denton lines was being restored to normal but still was suspended on the Fort Worth division. It was expected the latter line would be opened by noon.

Railroad communication remained more or less hampered, the Cotton Belt being the only line open between Dallas and Fort Worth.

REPORT BRASSO RIVER IS FALLING AT WACO

WACO, TEXAS, May 10.—The Brasso river is falling here this morning. The water reached at 1 o'clock this morning when the water registered 85.4 feet. But for effective work on the levee, East Waco would have been flooded. A few inches more would have swept away the levee and inundated the east side.

The river has receded two feet at a critical juncture and unless more rain falls today danger is past. Damage to farms below the city is great. Thousands of acres of cotton in the lowlands, some planted in the last few days and some up and growing before the floods, will be ruined. Already farmers are obtaining seed to replant in the flooded districts. County Judge Giles F. Lester is making requisition for the seed.

EXCEPTIONALLY LARGE NUMBER OF BILLS ON CONFERENCE CALENDAR

HOT SPRINGS, ARK., May 10.—With what leaders said was an exceptionally large number of bills on the calendar, the 18th quadrennial general conference of the Methodist Episcopal church south today began the second of its three sessions.

Only a small amount of legislation has been enacted so far and officials said committees were being organized to expedite their consideration of the bills. The full body might take up some of the major bills by the latter part of the week.

It is seemed to be the consensus of opinion that the conference would not begin the election of bishops until next week. In that event, it was said the conference might not be able to complete its business by the end of next week. One of the more important matters scheduled to come up within a few days, it was said, is whether the church shall continue to be elected for life or whether they shall be chosen for terms of four or eight years.

SUNDAY SCHOOL BOARD REGULATIONS REVISED

HOT SPRINGS, May 10.—Revision of the statutes governing operation of the Sunday school board of the Methodist Episcopal church south was accomplished at today's session of the 18th quadrennial general conference, when the conference adopted a resolution recommending that the board of the church shall continue to be elected for life or whether they shall be chosen for terms of four or eight years.

DEFEATED MANCHURIAN GENERAL REPORTED TO HAVE FLED TO DAIREN

TIEN TSIN, CHINA, May 10.—Chang Tso Lin, the defeated Manchurian general, is reported to have fled to Dairen, Manchuria, where his troops have established three lines of trenches this side of Lunachow on the Mukden railway, south of the great wall, but only fight if General Wu's forces press them too hard.

General Wu's soldiers are still in pursuit. Twenty-eight troop trains, each carrying 500 men, have passed through this city to the east, of which three are reported to have been captured by the Manchurians, 25 miles east of here, and four at Tangu at the mouth of the Pei river. Chang's men have out the railway from Taku to Tientsin, 25 miles north of Tien Tsin, to hinder the pursuit.

Three cruisers are reported off Wankow, near Shanghai, bombarding trains passing on the Mukden railway.

CONDUCT HEARING ON VALIDITY OF CONTRACT OF ALABAMA COMPANY

WASHINGTON, May 10.—Attorney General Daugherty today conducted a hearing on the validity of a contract made by the War Department with the Alabama Power company when that company built the Gorges steam plant at Warrior, Ala.

The company contends the contract gives it exclusive option for the purchase of the power plant at any time the government decides to sell and Secretary Weeks recently asked the attorney general for an opinion on the validity of the contract.

WASHINGTON, May 10.—A sharp political fight developed today in the house over the Fordney resolution authorizing a loan of \$5,000,000 to the republic of Liberia, first authorized in 1918 and urged now by the Harding administration.

The measure was taken up under the Congressional Record five hours of debate, the house meeting an hour ahead of time so as to reach a vote late in the day. The measure was passed by a vote of 219 to 197. The measure was passed by a vote of 219 to 197.

UPWARD TREND IN THE RETAIL PRICES OF FOOD REPORTED

WASHINGTON, May 10.—An upward trend in the retail cost of food items noted today in figures released by the labor department's bureau of labor statistics. Reports from 35 cities showed increases from March to April in retail prices of food items, up as much as three per cent. Only four reported decreases.

The cities reporting increases included Dallas, Little Rock and New Orleans.

For the year period, April 15, 1931, to April 15, 1932, the bureau reported decreases in Little Rock, New Orleans, Mobile and New Orleans 5 per cent.

Oakes, chief of police of Los Angeles city, resigned from the Ku Klux Klan last year after brief membership, according to Ku Klux records which became public yesterday in connection with a grand jury investigation after a raid at Inglewood April 22. The sheriff quit the Klan two weeks after he was admitted. Oakes

### ATTORNEY GENERAL CRITICIZED RESULT WAR FRAUD CASES

#### CHARGED WITH HAVING FAILED TO ACT IN THE MATTER

#### DECLARE THAT THE CASES "SMELL TO HIGH HEAVEN"

#### Republican From Michigan Says Congress Cannot "Flea the Country" on Issue

WASHINGTON, May 10.—In a detailed statement concerning the prosecution of war fraud cases, prepared at the request of the president and transmitted to the house, Attorney General Daugherty declared that examinations so far completed disclosed in each instance "sufficient indication that a crime has been committed to warrant submitting them to the vote of a republican caucus, called to consider a legislative problem, including a republican resolution for investigation of charges of fraud in the prosecution by the department of justice, the attorney general's letter proposed a procedure in which the representative committee, the democratic leader, broadly intimated that it was intended to smother the proposed investigation.

Representative Woodruff, the republican leader, to whom Mr. Daugherty's letter was sent by the president, did not indicate in reply to a question on the floor whether it meant the resolution, already given privilege status by the rules committee, never would be heard from again.

Taking issue with the attorney general, Representative Woodruff, republican, Michigan, declared the former was concealing the truth to avoid a hearing on a bill for half a million dollars to clear up his war time docket and that he never voted until republicans had assented to the department in the house.

"Smell to High Heaven."

The Michigan member asserted that a republican congress could not "flea the country" in its election, unless it slaps up war fraud cases, "which smell to high heaven."

Charging that "little or nothing" had been done by the former administration to bring robberies to light, Mr. Daugherty wrote the president the country would save money by knowing the "financial personages in the government who had knowledge of these transactions and were in a position to make disclosures."

The department, he said, was handling upward of 300 war offense cases, and if recovery were obtained in all, the total would reach \$100,000,000.

It was a terrible thing, the Attorney General said, to charge government with robbery in its own government and for that reason he had insisted upon a pain-taking investigation of all cases involving charges of crime.

He declared that public opinion was in the best of health in every part of the country.

### VETERAN OF CIVIL WAR RECALLS THE CAPTURE OF DAVIS

#### PRESIDENT OF CONFEDERACY TAKEN PRISONER BY YEARS AGO

#### HE WAS NOT ATTIRED IN FEMINE APPAREL

#### Men of Regiment Gave \$500 Bonus for Capture—Paid Nineteen Years Later

SPENCER, OREGON, May 10.—Fifty-seven years ago today, Jefferson Davis, president of the Confederacy, was taken prisoner by the Fourth Michigan Cavalry in an early morning surprise near Greenville, Ga.

Today Thomas H. Hunter, 75 years old, veteran of 73 civil war engagements, sat in an old arm chair on the front porch of his country home two miles from here and recounted reminiscences of that tragic period.

The president of the Confederacy was not attired in feminine apparel when the Michigan troopers surrounded his little encampment, asserted "Veteran" Hunter, historical claimant to the contrary notwithstanding.

"He wore a gentleman's morning robe over his regular clothes," said the aged soldier. "On his head was an old striped bowler. He did not have on any woman's belongings. There was not even a string on his bowler. He was a man sure enough."

The Michigan troopers, 415 of them with 10 officers, were preparing for rest after three days and nights of marching from Macon, Soldier Hunter said, when they spotted a little camp nestled amidst a cluster of saplings. An advance guard was sent on, a few shots were fired, the entire regiment swooped down and the camp was taken.

Jefferson Davis, his wife and four children, John H. Reagan, his postmaster general, a staff of aides, servants and some others were found.

"I am the man you are looking for," the veteran quoted Mr. Davis. "We all surrounded him." Mr. Hunter said, "Colonel Pritchard did the talking for us. We were all happy and wanted to celebrate. That made Davis mad and he said, 'You fellows think you are smart to capture a camp of women and children. Well, you are not. They are vandals.'"

The camp was guarded closely that night and once the Confederates' presence left his tent and attempted to walk away, only to be betrayed by his spurs when he tripped over a log, Hunter said.

"We took him to Macon two days later," Hunter said. "Then 23 men escorted him to Washington and surrounded him to Major General Sherman's quarters."

Mr. Hunter said the men of his regiment were given a \$500 bonus for the capture. It being awarded in 1861 and finally paid 19 years later.

WASHINGTON, May 10.—Just a few days before she was to have become the bride of George Burton, Miss Charlotte Gardner, Democrat, sister of the widow of Lord Alastair Levenson-Gower, heir to the dukedom of Sutherland, slipped quietly away to the city, Miss Gardner yesterday and became the wife of Count Edward George Zichy.

Burton, whose name was Bernheimer, son of the late Max Bernheimer, a wealthy brewer, refused to discuss the loss of his distinguished bride-to-have—been last night beyond expressing disappointment and cancelling his order for a private car which was to have carried him and his bride to his mother's villa at Blerton, N. J.

Now, but the principals knew of the marriage until the bride took her titled husband to her mother's home last evening and presented him. They disappeared immediately afterwards and all concerned disclaimed any knowledge of their whereabouts.

The Countess Zichy is well known in New York, Philadelphia and Washington society.

"T'WAS ALL RIGHT IN BURKURNETT, BUT CAN'T PULL IT HERE

It's alright to beat up a negro woman in Burkurnett, according to a ducky visitor to this city Wednesday morning, who suddenly found himself behind the bars after a whipping administered a former female acquaintance had been called to the attention of the police.

The negro woman and attendant who he should be arrested merely for beating a woman and said that he often indulged in that pastime at Burkurnett without being molested.

Officers told him he had better confine his pugilistic operations to his home town after this. He was placed in jail when a bond could not be made. The trouble took place in a negro residence on Lee street.

### GOVERNOR HARDING URGES MERCHANTS TO PUT ON STEAM

#### BERMINGHAM, ALA., May 10.—Merchants of the country were urged to put on steam and prepare to handle the business of tomorrow by Governor Harding of the federal reserve board in an address here today before the Southern Wholesale Dry Goods association.

Many indications of improved conditions, both in this country and abroad, are apparent, he declared.

The situation today, Governor Harding asserted, is in many respects the reverse of what it was at the end of 1919, surplus goods having now gone into consumption and there being a marked reduction in the goods on the merchants' shelves.

"The fact that a revival in agriculture," he said, "has come much sooner than had been expected by those who regarded the low prices of last summer as permanent has brought new hope and courage to the agricultural districts and afforded a basis for the belief that there will in due time be a distinct business improvement in those districts."

Two threats Tuesday night were reported to police. A Ford touring car owned by C. M. Parker, 1408 Polk street, was stolen from his residence Tuesday night, according to reports to the police. The machine was a 1921 model.

Thieves entered the home of a Mrs. Colbath, 412 Lee street, early Tuesday evening and made away with a gold watch, a small diamond pin, 48 in cash and several small trinkets. No clue to their identity could be found by officers investigating the case.

Electra, Texas, has water to last a year, despite a large increase in population. The municipal lake, covering some 60 acres in full, and in some places it is 30 feet deep.

Representatives of a Dallas construction company are here making investigations with a view to increasing the water supply and making improvements and extensions in the city sewer plant. One hundred thousand dollars in bonds was voted for this purpose April 15, and the purchasers have on deposit a certified check for \$1,000 guaranteeing to have the money for purchase here today.

Plans contemplate taking up the six-inch line from pumping plant to the elevated tank at the city hall and replacing it with 10-inch pipe or laying a second 6-inch line, as the engineers may recommend. Both surface water and sheet water along Red river will be investigated as a possible permanent supply.

### ARCHER COUNTY HAS SINGING CONVENTION LARGELY ATTENDED

HELD IN BAPTIST CHURCH AT HOLLIDAY ON LAST SUNDAY

### DISTRICT CONVENTION ORGANIZED AT MEETING

A. H. Golden of Bomarton is Elected President of New Organization

HOLLIDAY, TEXAS, May 10.—The Archer county singing convention met at the new Baptist church in Holliday in an all day session last Sunday, about 100 people were present. Several adjoining counties were represented with classes and singers. The entire day was one of enjoyment to those who love good singing.

The house was specially arranged for the occasion with seats to accommodate the singers and plenty of ice water was also furnished that lasted throughout the day.

The county chairman, G. A. Holway, called the house to order at 10:45 a. m. and class leader W. W. Mahan of Holliday sang the opening song, after which the following leaders were called to the floor: M. L. Rhodes of Dundee, J. M. Free of Haskell. Nine young ladies of Holliday sang a welcome song of their own composition which was appreciated by the visitors, and loudly applauded.

The next leaders called were Jack H. Hanson of West Fork, after which Mrs. W. B. Phagley of Thornberry was called to sing a close song. Urban Cox of Seymour was next singer, followed by W. M. Russell of Red Springs, C. L. Downing of Seymour, Prof. L. L. Damm of Red Springs, C. H. Moore of Thornberry, Baylor county singers were called on to sing a quartet which was rendered by C. L. Downing, L. L. Damm, Arch Holmes with Mrs. W. B. Phagley of Thornberry supplying the alto.

After this splendid selection the noon hour arrived and a bountiful feast was spread by the ladies of Holliday. All were invited to come and partake of the repast, and it can be said that no one went away from the place hungry for there was plenty and to spare.

The executive committee of the convention met in a short session after lunch and a district convention was organized with A. H. Golden of Bomarton, president; G. A. Holway of Holliday, vice-president; Urban Cox of Seymour, secretary. The first meeting of the newly organized convention will be held at Seymour in a two days session beginning on Saturday before the third Sunday in September and continuing for two consecutive days.

The house was again called to order and the following program was arranged. Prof. and Mrs. F. H. Haley of Wichita Falls rendered a duet. A quartet was arranged by Elmer Phagley of Thornberry after which the Thornberry class sang two songs. Herrod Simpson of Holliday sang a chorus song followed by C. H. Moore of Thornberry with a quartet. The Mankins class sang a song and Prof. A. H. Golden delivered an eloquent address on spiritual singing, being accompanied by the following illustrations of the sacredness of the soul-stirring hymns as our mothers sang them. Urban Cox of Seymour arranged a quartet. "I Could Hear My Mother Pray Again," after which W. W. Mahan sang the closing song and the convention was dismissed with a short prayer by Rev. J. H. Barnes of Decatur.

### MAN IN JAIL HAS SWIMMING PARTY FLOODS OFFICERS

A male patient who is being held by the county on a lunacy charge attempted to have a swimming party Tuesday night in his cell on the third floor of the court house. As a result the district clerk's and the sheriff's offices Wednesday morning were flooded.

According to the officers the man turned on all the faucets in the place and permitted them to run. He evidently watched the night watchman's rounds and turned them on shortly after one of the rounds about 1 o'clock. Upon his return an hour later the watchman found the man splashing in water ankle deep in his cell.

### OPEN AIR MARKET STARTS SATURDAY FARMERS DECIDE

Plans for the open air market of truck farm products were set on foot Wednesday morning at a meeting attended by a number of farmers and representatives of the Civic League.

The first open market will be held Saturday morning from 7 to 9, at the corner of Eleventh and Scott, and another meeting of the farmers will be held immediately following. At this meeting officers for the year will be elected and rules will be adopted for the conduct of the market.

A nominating committee consisting of S. W. Trout, W. J. Jeter, D. E. Hale and S. Downing was named to suggest officers for the organization. Mrs. H. C. Crawford and Mrs. T. B. Smock represented the Civic League at the meeting.

### LAKE AT OLNEY IS REPAIRED AND AGAIN FILLED WITH WATER

POURS OVER SPILLWAY AS RESULT OF RECENT RAINFALL

### SPENDING \$150,000 IMPROVING SYSTEM

Also Building Sewer Plant to Serve Ninety Per Cent of Population

OLNEY, TEXAS, May 10.—Water from Olney's new lake six miles northwest of the city was turned into the mains Monday. The break in the dam caused by the heavy rains a few weeks ago has been fully repaired and the entire dam strengthened and the lake is again full of water, it having gone over the spillway in the rain which fell Monday morning. It is not expected that any further trouble will develop.

Olney has had a small system of waterworks for the past several years but depended on shallow wells for the water supply. This supply was never sufficient and with the development of the town in recent years it has been very deficient.

This new lake covers an area of about 150 acres and is estimated to hold a two year's water supply for the town. Olney is spending \$150,000 in improving her water system and in the installation of an up to date sewer system and disposal plant. The work of completing the sewer system has been hindered recently by the heavy rains but as soon as weather conditions permit it will be rapidly pushed to completion. Work completed the sewer system will serve 90 per cent of the population. It is doubtful if Olney will now be excelled by any town of its size in the state for water and sewer facilities and the greatest hindrance to the development of this exceptionally well located town is now removed.

### FORMER RESIDENT OF BAYLOR COUNTY DIES OF PNEUMONIA IN PARIS

REYNOLDS, TEXAS, May 10.—News has reached here of the death of Joseph R. Morris which occurred on April 30 at Paris France, from pneumonia. Deceased was born in Seymour. His father, E. R. Morris, owned one-fourth of the city of Seymour, being one of the founders of the town and one of its organizers in 1878, and old-timers in the west will recall that Judge Morris, who was perhaps first county judge of the county and was killed by a gunshot wound while on the bench in the official discharge of duty, was a courageous man and instrumental in the early development of Baylor county.

Deceased, Joseph R. Morris, was about 50 years of age at the time of his death, and left no surviving heirs, his estate being left to a varied number of charitable institutions. For many years he had been general manager of the Peoples Gas Light and Coke company of Chicago until his enlistment in the American army during the world war, and in which he was serving at the time of his death.

### LIEPOLD SUCCEEDS IN LANDING RETAIL CLOTHIERS MEETING

Efforts of the business council of the chamber of commerce to secure conventions for this city in 1922 met with their initial success Tuesday afternoon at Fort Worth, when the Retail Clothiers Association of Texas selected this city for its 1922 meeting; Galveston was defeated for the honor.

Eugene Liepold, local member of the association, waged the successful fight for the meeting, which will bring a large number of clothing store proprietors here.

RECOMMEND THAT UNITED STATES BE ON COMMISSIONS

PROVISION MADE UNDER AN AGREEMENT REPORTED TO THE SENATE

SENATE AMENDMENTS ACCEPTED BY HOUSE

Will Consider Questions Involving Chinese Tariff and Judicial System

WASHINGTON, May 10.—Provision for American representation upon two international commissions created at the arms conference is made under an agreement reported today between senate and house conferees on the annual appropriation bill for the state and justice departments.

House conferees accepted senate amendments appropriating funds for American delegates to the commissions to consider revision of the Chinese tariff and to study the Chinese judicial system, including general abolition of extra territorial rights.

Another senate amendment accepted by the house conferees appropriated \$100,000 for the state and justice commission.

The house managers also accepted a senate amendment increasing the annual appropriation for confidential emergency fund from \$100,000 to \$400,000. This had been requested urgently by Secretary Hughes.

A senate amendment reducing the appropriation for the inter-American high commission studying pan-American financial cooperation and proposing to terminate its work within a year was finally eliminated.

Deadlocks on several amendments resulted. Among these which are to be returned to the house for final disposition was the senate provision for recognition of Egypt and appointment of an American minister.

Other amendments returned to the house include provision for the fifth pan-American conference at Santiago, Chile; for American representation on the international hydrographic commission; the international conference on maritime law and the commission for revision of war laws.

The senate conferees receded from their reduction in appropriations for the international institute of agriculture at Rome and the British claims commission. A compromise was reached between the conferees for continuance of the Alaska-Canada boundary commission.

TRADE ASSOCIATION LEGISLATION URGED BY HERBERT HOOVER

NEW YORK, May 10.—New legislation to remove uncertainties regarding trade association activities was suggested by Secretary Hoover in an address here today before the National Manufacturers association.

"Without entering into legal formalities," Mr. Hoover said, "my suggestion is that there should be a minor extension to the Clayton act to the effect that interstate trade associations should be permitted to file with some appropriate governmental agency the plan of their operations and the functions they propose to carry on, and that upon approval of such of those functions as do not apparently contravene the restraint of trade act they may proceed with their operations."

Much of the current discussion of trade associations, Mr. Hoover declared, centers around a minority who are or thought to be guilty of the restraint of trade act, but these were of concern to him, he said, only as far as the handling of them has created a great uncertainty as to what is or what is not a restraint of trade.

"This uncertainty," he continued, "now threatens to destroy many useful services because men will not do a good act if they fear it may be interpreted being wrong." He believes the time has come when we must have some assistance from the law but this does not imply the alteration of the purpose of the restraint of trade act.

MOTION PROVIDES \$50,000 A MONTH AID FOR MINERS

HOUSTON, May 10.—A motion that the International Brotherhood of Locomotive Firemen and Enginemen contribute \$50,000 a month to the United Mine Workers of America each month during the continuance of their strike was made, from the floor and placed in the hands of a special committee for consideration and report before the final action of the delegates to the convention of the firemen and enginemen, it was learned today.

The motion, in the form it was given to the committee, provided that the contribution not be continued more than 10 months. A letter, signed by 13 officers of the United Mine Workers of America, read on the floor of the convention, stated that the open shop crusade in the United States is centered on the state of West Virginia and unless immediate relief is obtained from the only source to which we can appeal, the organized workers of West Virginia will be forced to accept any conditions offered by employers.

"We are in a position to know," the motion states, "that many of the large international unions are in a position to assist us. Men, women and children are starving. It is probable that the committee will not report for several days."

DEATH SENTENCE OF ERNEST VICKERS IS AFFIRMED BY COURT

AUSTIN, May 10.—The death sentence of Ernest Vickers, convicted in Tarrant county of the murder of J. M. Loper, was affirmed by the court of criminal appeals today. Vickers is alleged to have killed Loper, a special agent for the Frisco railroad, because he would not throw up his hands when commanded to do so.

The court affirmed the 15 year sentence of Harry Pinkston, convicted in Tarrant county of murder; also the 10 year sentence of Harrison Sands, convicted in Kaufman county for murder. The 15 year sentence assessed Clarence Williams in Camp county for murder was reversed and remanded. This was the only case reversed by the court in today's proceedings.

The court affirmed the 50 year sentence of William Wilson, convicted in Harris county for robbery.

SAGE AND SULPHUR DARKENS GRAY HAIR

Brush this through faded, streaked locks and they become dark, glossy, youthful

Almost everyone knows that Sage and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. After a few applications the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.—Adv.

Hurry mother! Even a sick child loves the "fruit" taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow. If constipated, bilious, feverish, fretful, has cold, colic, or if stomach is sour, tongue coated, breath bad, remember a good cleansing of the little bowels is often all that is necessary.

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup. 6c.

WOMEN OF MIDDLE AGE A Trying Period through which Every Woman Must Pass

Practical Suggestions Given by the Women Whose Letters Follow

Phila., Pa.—"When I was going through the Change of Life I was weak, nervous, dizzy and had headaches. I was troubled in this way for two years and was hardly able to do my work. My friends advised me to take Lydia E. Pinkham's Vegetable Compound, and I am very sorry that I did not take it sooner. But I have got good results from it and am now able to do my household most of the time. I recommend your medicine to those who have similar troubles. I do not like publicity, but if it will help other women I will be glad for you to use my letter."—Mrs. FANNIE ROSENSTEIN, 822 N. Holly Street, Phila., Pa.

Detroit, Michigan—"During the Change of Life I had a lot of stomach trouble and was bothered a great deal with hot flashes. Sometimes I was not able to do any work at all. I read about Lydia E. Pinkham's Vegetable Compound in your little books and took it with very good results. I keep house and am able now to do all my own work. I will tell you to publish this testimonial."—Mrs. J. S. WOMEN OF MIDDLE AGE A Trying Period through which Every Woman Must Pass

The critical time of a woman's life usually comes between the years of 45 and 50, and is often beset with annoying symptoms such as nervousness, irritability, melancholia. Heat flashes or waves of heat appear to pass over the body, cause the face to be very red and often bring on headache, dizziness and a sense of suffocation.

Another annoying symptom which comes at this time is inability to recall names, dates or other small facts. This is liable to make a woman lose confidence in herself. She becomes nervous, avoids meeting strangers and avoids to go out alone.

Lydia E. Pinkham's Vegetable Compound is especially adapted to help women at this time. It exercises a restorative influence, tones and strengthens the system, and assists nature in the long weeks and months covering this period. Let it help carry you through this time of life. It is a splendid medicine for the middle-aged woman. It is prepared from medicinal roots and herbs and contains no harmful drugs or narcotics.

ROAD MAKING LESSONS FROM THE FLOODS
Several years ago when Wichita county was building grades and culverts and bridges for the county highway system there was considerable criticism of the height of the grades and the size of the culverts.

The experience of the past few weeks has demonstrated that the road engineer and the county commissioners used good judgment in making the grades and the culverts as they did. In many other counties the damage from floods and washouts has been quite heavy but in Wichita county the damage has been very small, thanks to the ample culverts and bridges and the good high grades on the county highway system.

The fact that the main roads are built of concrete helped too. To concrete roads suffered practically no damage. Discussing the lessons of the floods in road making the Dallas Journal says:

"The highway system of Dallas county has borne its share of the rain-wrought damage. Repairing that damage will assess a cost which in some places might have been avoided. The necessitated outlay will not be wholly a duplicate investment, if the work of highway restoration is carried through with that thoroughness which will avoid repetition of the original errors in construction and in grading. A Dallas county citizen who is directly served by one of the new cardinal roads has just called attention to losses and necessitated repairs due to the absence of concrete retaining walls. He has urged that such retaining walls be built as will render the highway as nearly permanent as it is possible for a man-made road to be.

"The point is well made, the Journal believes. If our highways are to endure, if the millions of dollars invested in them are to yield fullest dividends in dependable service, our roads must be built to withstand all weathers and the estimable maximum of water strain. Unless that is done, recurrent damage will be recorded, and this and other Texas counties will face the necessity of re-doing what might have been done exactly right in the first place, and of repaying for what has once been paid for. This argument is not based upon belief that it will ever be possible to obviate the cost and the necessity of maintenance. Maintenance, in fact, is vitally important, and always will be. But it is based upon belief that it is possible to reduce the cost of maintenance to the irreducible minimum. This is the business of the highway authorities and of the engineers. Texas can claim today the best roads in her history. But if the experience of this year can teach us how to make these roads even better, it will not prove entirely regrettable."

A GREAT STATESMAN BUT A POOR POLITICIAN
Former President Wilson was and is a great statesman but always was and is a poor politician. He is too straightforward and direct and frank to be a good politician.

Recently he has been giving an exhibition of his poor political sense in answering the letters of some of his friends in Missouri in which he has declared his opposition to the renomination of Senator Reed, who opposed many of Wilson's policies when the latter was president.

It is pretty certain that the effect of these letters will be to stir up resentment at outside interference on the part of the Missouri democrats and it is quite likely that it will make votes for Senator Reed.

A better politician than the former president would not have answered the letters of his friends from Missouri. But this was always a defect in Wilson. In statesmanship he has had few equals. In politics any constable in the land could beat him.

WHY A QUESTION STILL PERSISTS.
Governor Neff is reported to have told persons at Fort Worth that when he was summoned before a grand jury at Amarillo and asked a question that was none of its (the grand jury's) business. And it is also reported that when an Austin constable appealed to him for help in preventing a Ku Klux parade, the executive informed the constable that he would be no help.

In view of these reported happenings there are some folks who would like to know more definitely the governor's attitude toward the Ku Klux Klan.

PAPA AND MAMA.

Strange things happen in the jungles. Carveth Wells, explorer and lecturer, tells about the hornbills, long-tailed birds so big they often measure five feet from tail-tip to beak.

In Malay jungles, Wells saw the male hornbill during the mating season drive the female into a hollow tree, then wall up the opening with mud.

This protects Mama Hornbill against enemies. She stays in her jail until eggs are laid and hatched. Then Pa lets her out. Meantime, he has fed her through a small opening left in the mud.

He gathers the food by using his saw-toothed beak to cut fruits and flowers from their stalks. Maybe that's where man originally got his idea for the saw, now used to cut boards.

Not necessary to go as far as Malaysia. In Canada, when timber wolves mate, Mrs. Wolf hunts a cavern with a roof that slopes downward to meet the floor in a V-shape.

She pushes her young far back in the V. This is to keep Pa Wolf from eating his family. Mother Wolf can get at the babies easily, with her small body. Pa Wolf, having a larger body, cannot wedge himself in far enough to reach them.

Wise nature that makes Mother Wolf smaller than Pa. Wise Mother Wolf that knows, in advance, her husband's appetite and how to baffle it.

Seals swim north to rookeries or breeding grounds. The male seals go first, house-hunting. After they have located good homes, near plentiful food supply, messengers swim back to summon the cow seals.

In the baby ward of a hospital you see infants, each in his own bed, all very orderly. Mother Bee does the same, builds an apartment house of cells with wax walls. In each cell, one egg is laid and one individual raised.

Wasps have the same system, manufacturing in their bodies the paper-pulp with which they make the cells. Ants build their nurseries in the earth or rotted trees, with many bed-rooms, also corridors through which Mother Ant dashes about, peering into each room to see that baby is O. K. then on to the next.

You cannot explain these peculiar things in nature, any more than you can explain why a male peacock always has four wives, never more, never less. All forms of life seem to revolve around the function of having children.

Considering the intricacies and far-sightedness of what we call nature, it is bewildering how any man can fall to believe that a supreme intelligence is behind it all.

Men brag about coming from a good family just as if they had something to do with it.

The early bird catches it when he mows the lawn.

Half-raising stories have given way to hair-bobbing stories.

People who buy bootleg get soaked.

TODAY'S TALK

WASHING THIS SOILED WORLD.
There is a saying that cleanliness is next to godliness—but why isn't cleanliness godliness of itself?

The beautiful yard where your home nestles, the clear water at the bottom of the spring, the neatly dressed man or woman, the orderly desk where you work, clean hands and face, and a cleared out mind, free from thoughts that degrade and pull down—are not these evidences of beauty and sure suggestions of happiness?

Most domestic and wild animals are naturally clean in their habits. Nature has a way of disintegrating and absorbing that which dies or becomes soiled.

So that a large part of our lives are taken up in washing this soiled world of ours and making it a fitter place for us to breathe in and to carry on our work.

I am wondering if every clean thought—though unexpressed—does not enter into this cleansing process and become a permanent part of the working of the world toward better times and better things.

After a rain how fresh is everything, as the sun comes out to dry and warm its creatures, both the dumb and green growing things and us who walk around and see the beautified earth and are inspired to earn, create and build.

I am of the opinion that even those who do no more than to appreciate are vital factors in blessing mankind.

For where would any of us be without appreciation? I have no love for that art which is forever appraising the sordid and unclean in life and trying to pass itself off as a contribution to literature.

I would rather read Thoreau and walk with him among the rocks and have him tell me more about what birds do when they get discouraged or long for companionship. I would rather pick a dandelion and take it to some lone spot where I can hold communion with its secret wonders.

When we are clean in mind and body we are bound to have a feeling of newness and find in every expression about us something to lift us out of ourselves.

JUST FOLKS

WORK.
Work is always hard to do.
Every one of us prefers
Roses under skies of blue
To the briars and cockleburs.

But there is no beauty here
But is born of someone's toil.
For the rose which blossoms near
Someone had to till the soil.

Work is father of the smile
On a glad child's morning face.
Every joy that is worth while
Work has fashioned in its place.

Work has builded all we know.
Stitched the clothing that we wear
Set our houses in a row.
Leveled every thoroughfare.

And that sometimes we may play
By the laughing river's brink,
Sweet with all the blooms of May,
Even God must work, I think.

YOU AND I

By ALBERT APPLE
LIFERS.
Cheer up, we aren't the only people carrying a vast army of government employes.

Germany, with only half as big a population as America, reports that 1,157,142 are on her national payroll.

Of these, \$67,513 hold position for life. That couldn't happen in our country, where the ax falls on good and bad alike when national elections knock one political party out of power and enthroned another.

It might be a bad system in principle, however, provided the life-termers were of proper caliber and easily removable by the people if they fell down on their jobs.

By the time an American public official has been in office long enough to know something about how to handle it, he finds the final curtain falling on him. A few exceptions, like Uncle Joe Cannon and supreme court justices.

LOUISIANA.
Louis Napoleon, 15 years ago the 15th of this month, stole a carpenter's overall, donned them and strolled calmly out of the prison that confined him.

That appealed to French imagination and overnight changed Louis into a hero. He was a national idol. Six years later he was emperor of France.

The French, highly imaginative, volatile, and excited, can usually be counted on to do the dramatic and unexpected. That's the chief reason Lord George finds it so hard to keep the "lifers" in line ruled by the intellect, they by emotions.

WHY.
Tobacco companies say that production of cigarettes is 13 per cent less than a year ago and 16 per cent below 1930.

Cigar output also is declining. Pipe tobacco and snuff are making only mild gains.

America is smoking less. Why? The answer is, nervously are calming down—from high tension of war-time. Nervous systems, returning to normalcy, have less craving for stimulants.

MAY BE THE TONSILS

By DR. R. H. RISHOP.
Is your child backward in school? Is he a "mouth breather?" Does he have frequent colds or constant "croup?" Does he have trouble in hearing?

If your child is affected in any such way his tonsils may be the cause. Infected and enlarged tonsils are great little helpers to disease. They make the throat susceptible to diphtheria, scarlet fever, measles and whooping cough.

The constant trouble, physicians find, is that people are rather all low their children to suffer from diseased tonsils than have them undergo the operation necessary to remove them. Rather than undergo operations people will risk disease and death.

Adenoids are the tonsils' colleagues in infection. They are a small, soft red growth which comes in the back of the throat, where the nose and throat join. A child having them will be a mouth-breather, have frequent colds, constant snoring or become deaf.

Adenoids dull the expression, destroy the resonance of the voice and distort the facial expression so as to produce a blank, idiotic stare. They hinder mental development by interfering with proper physical development.

Both adenoids and enlarged tonsils can be removed at the same time by a simple and practically harmless operation.

Texas Viewpoints

Denison Herald is restoring powers of the Texas railroad commission over purely intrastate traffic and rates. The interstate body made only a partial concession, hence the victory is not complete.

The decision merely vacates orders entered in the celebrated Shreveport rate case which affected adversely seventy-five per cent of Texas' intrastate freight shipments and which by its terms destroyed the rate making authority of the state body.

The decision does not mean that a reduction in freight or passenger rates will follow, but that under certain limitations the Texas commission will be empowered to remove discriminations and make adjustments in purely intrastate rates and rate situations. Thus it will be seen that while yielding to the Texas commission some of its demands the interstate commission announces limitations and boundaries beyond which the state body can not go.

The full power of the commission can not be restored until the transportation act of 1934 is amended or repealed. Under the decision of the supreme court in the New York and Wisconsin cases it was held that state commissions could not legally regulate rates on traffic wholly within a state that would affect adversely rates promulgated in interstate traffic.

It was in anticipation of that provision of the transportation act that the thirty-three and a third per cent increase in Texas freight allowed by the Texas commission was not allowed to stand and a thirty-five per cent increase forced in lieu thereof. This increase will continue until the interstate commission decides otherwise or the transportation act is amended.

While incomplete as a whole, the decision of the interstate commission makes a fit in the cloud that has overshadowed the rights and powers of the states for five years, and encouraged the hope that in a very short time the full powers and authority of states to regulate and control their own affairs may be fully restored.

While it may be good to see a good government yield to it, yet we have never accepted the moral right of the federal government to set aside and hold for naught a law of the state as was done in the order increasing passenger rates in Texas. As a contrast distinguished from freight rates, passenger fares were fixed by statutory enactment but have never been repealed by the legislature; but its enforcement is stayed by the mailed hand of the federal government.

There is no question of the overpowering influence of public opinion is being felt at Washington. It is not probable that it had something to do with the concessions granted the state by the interstate commission in its recent order. The people are demanding restoration of their rights and privileges under state sovereignty which were ruthlessly taken from them during the intoxicated period of the war and immediately following it. Congress will not be able to withstand the pressure much longer, and by yielding return to the states the authorities properly belonging to them under our scheme of government.

Liquids.
The most frequent liquid is water. Found in splashes, hoses and creeks its ideal to take a bath in. And varies from floods to leaks.

Lemniscate is merely water. With things added and nothing removed. It don't even look much different. But O how the taste is improved.

Milk is a liquid made by cows. They squirt how quite a lot. Its nothing special when its cold. And awful when its not.

Among the liquids in bottles. One of the darkest is ink. Being useful to mankind to write with. But on the contrary to drink.

Altho melted ice cream is good liquid. And gravy makes things wet that would be dry. There's nothing can take the place of. The juice from a jobey apple pie.

GERMANISM.
German government reports it is making rapid progress at erasing all traces of Hohenzollern royalty. Coat and patent brush are removing remnants of same—and other imperial trade-marks from public buildings and offices. Even the postage stamp are being changed.

In a quiet way, this demonstrates a German desire and intention to remain republican. It is like giving away the clothing of the "bear departed." Of especial interest to people who fear that Germany is shadow-boxing and deep in her heart longs for the return of the Hohenzollerns.

### 2 DEEP TESTS WILL START SHORTLY IN CLAY COUNTY AREAS

The deepest to be put down on the Allen ranch in Clay county by Baldwin Brothers and Dave Nelson of this city will start in the next few days. The new well is located half way between the Reese Allen well and the one lately brought in on the Biddy tract which made quite a stir in this section of the county by producing around 50 barrels from a sand encountered in the first 125 feet. The new test will be drilled with a rotary 3000 feet unless a paying sand is picked up at a shallower depth.

Barber and Shilby of this city are moving material to Newport, Texas, to drill a 2500 foot deep test in the southwest corner of block 10, Freestone county school lands in Clay county, just a short distance north of the Jack county line.

This territory has been looked upon in a favorable light by a number of geologists for some time. The operators have secured a large block of acreage and will drill the first deep in the immediate vicinity which is just north and east of the Avis shallow field. Building of the derrick will start at once and drilling will commence as soon as the machinery can be installed. The company has opened up an office in this city with headquarters at 235 Bob Waggoner building.

Another test will start drilling on the Getzke farm east of Sunshine Hill within the next few days, Nelson and Holcomb of this city are rigging up for their No. 1 on this tract.

### SUPREME COURT IS THEME OF ADDRESS AT LIONS LUNCHEON

The United States supreme court stands as a bulwark for American liberties and always has and always will be one of the greatest institutions in the country," Judge A. H. Britain told members of the Lions club at their weekly meeting Wednesday noon.

Judge Britain spoke at length on the history and origin of the court, tracing its growth from the original sessions started in September, 1789, up to the present date, and giving brief biographies of some of the justices who had served on the tribunal.

John Marshall, close personal friend of George Washington and one of the outstanding figures of the Revolutionary war, who served as chief justice for 34 years, was credited by the speaker as being perhaps the greatest jurist who ever donned the robes of supreme court member.

Several interesting facts regarding the recent Reg river hearing, at which he was present, were related by the speaker in a manner of conclusion that more attention be paid the work and progress of the court.

"The Roaring Lions," a male quartette composed of R. E. Shepherd, Dr. L. D. Parnell, John Bradley and Jeff Elvins provided music during the luncheon. The quartette was received with gusto by the club.

Announcement of the school bond election Tuesday and adjournment that the Lions support it heartily made up the business session.

### STATE EVANGELICAL CONFERENCE OPENS

With Evangelical ministers from every part of the state attending, the state conference of the Evangelical association, which opened its sessions here Tuesday, is devoting its time to discussion of a number of church matters and ecclesiastical questions.

The sessions are being held at the local First church at the corner of Fifteenth and Broadway. Thursday afternoon the missionary union of the conference will be in session, and on Friday and Saturday the young people's conference will have its state meeting.

### BURKBURNETT SETS PATTERN FOR LOCAL VOTERS TO FOLLOW

By a vote of 142 to 14 Burk Burnett on Tuesday declared for a \$150,000 bond issue for a new school house, setting a pattern for Wichita Falls voters to follow on Saturday.

The new school will rank with any in the state, outside of the largest cities. Plans are now being prepared by Volkler & Dixon of this city, and work is expected to start as soon as the bonds have been sold.

"The Roaring Lions," a male quartette composed of R. E. Shepherd, Dr. L. D. Parnell, John Bradley and Jeff Elvins provided music during the luncheon. The quartette was received with gusto by the club.

### STATE INSPECTOR FINDS 12 SCALES HERE INACCURATE

After having closed more than a score of local gasoline filling station pumps within the last week because of irregularities found, State Weights and Measures Inspector Cam H. Murray is now devoting his attention to scales in this city. Inspections made in half a day resulted in 12 pairs in down town business houses being condemned and sealed until proper repairs are made.

In one establishment, Mr. Murray reported, a pair of scales was found that registered two and one-half ounces under weight and an investigation of the volume and character of merchandise sold revealed that this defect was costing the store's customers around \$25 a week. None of the other scales tested were as bad as this one case.

Mr. Murray has not yet finished all the filling stations in town but expects to complete this work before leaving. Those stations in outlying portions of the city have not been visited.

Officials of the health department will carry on the weights and measures inspections after the state inspector has gone, and it is hoped that similar defects will be avoided.

### FIVE GIRLS AMONG THOSE ARRESTED IN RAIDS UPON HOTELS

Another quota of vagrants, over a dozen in all, spent part of Tuesday night in the city jail after having been rounded up from various hotels and rooming houses. A raiding squad of officers visited some of the smaller hostesses after midnight and arrested every inmate who could not give satisfactory explanations of their presence.

Of the dozen taken into custody five were girls and of these four were under 18 years of age. They were taken from a hotel in company with several men.

The police court session Wednesday lasted for an hour and a half of the longest periods of the year, and disposed of 30 cases. The two youngest girls were given a suspended sentence and turned over to the chief of police when they agreed to wire their parents for funds on which to go home. They will be allowed to go if they can get out of town.

### JURY COMPLETED IN GOVERNOR SMALL CASE

By Associated Press. WASHINGTON, Ill., May 10.—The jury to try Governor Len Small on charges of conspiring with Lieutenant Governor Fred E. Sterling, the late Senator Edward C. Curtis and Vernon Curtis, a Grant Park banker, to embezzle state funds was completed this afternoon.

C. Fred Mortimer, state attorney of Sangamon county, will make the opening statement tomorrow morning.

### AUSTIN COLLEGE GLEE ARRIVES FOR CONCERT HERE WEDNESDAY NIGHT

The Austin college glee club of 25 members, scheduled to appear at Wichita Wednesday evening, arrived in the city at noon and made ready for a concert that should prove one of the most enjoyable of the season.

Twenty-four male voices make up the glee club personnel, while an extra attraction is provided by a jazz orchestra being led by the last word in modern music production.

The club has been on an extended tour of the larger cities of Texas during recent days and press reports from these latter points indicate that their concert is well worth hearing. The performance will begin promptly at 8 o'clock.

### SPECIAL JUDGE TO CALL CASES ON NON JURY DOCKET FRIDAY

In order to set for trial for the week beginning May 22 only such cases as will likely be tried, Judge E. H. Handcock, special judge of the 14th district court, has announced that on Friday morning this week at 9 o'clock he will call the non jury docket. Cases will be set upon request for the week beginning May 22.

A jury panel has been drawn for the week beginning May 15 but only four jury cases have been set down. The judge asks that counsel who have jury cases and who wish them to be tried next week make the announcement Friday morning.

### ABOUT 500 PEOPLE ATTEND A BARBECUE GIVEN AT ELECTRA

About 500 people attended the barbecue Wednesday at Electra given by Jim Jennings and L. P. Douglas on the Douglas tract north of the Beaver Electric refinery. Many visitors were present from nearby towns, over 100 being from this city. Plenty to eat, consisting of barbecued beef, pickles, onions and hot coffee was had by everybody. Many candidates were on the ground but refrained from cutting logs on the burning issues. Old time Ancestral spoke of the early days in the "mother pool" that brought forth great applause. The mayor of Electra also made a short address.

RAIN POSTPONES BARBECUE AT ELECTRA CELEBRATION

Rains which appeared just as the crowds were gathering for the barbecue at Electra Tuesday evening forced postponement of the festive affair until Wednesday.

The barbecue was scheduled to be held early Wednesday afternoon and a number went up from Wichita Falls.

### MAN REMANDED TO JAIL WITHOUT BAIL ON HABEAS CORPUS

H. H. Austin was remanded to the county jail without bail bond by Special Judge O. O. Ross who occupied the bench in the 7th district court, Wednesday afternoon in the hearing on the writ of habeas corpus.

Austin, who was indicted by the special grand jury of the 18th district court, stands charged with criminal assault on a little ten-year-old girl. He has been in prison ever since his arrest over a month ago.

The mother of the girl and the girl and a doctor testified at the hearing. According to the testimony the defendant was in business across the street from a school in which he had been committed to the rear of his store.

### VOTING BOXES ARE READY BUT BALLOT IS STILL MISSING

Voting boxes for each one of the precinct voting places are ready for the sheriff to distribute but the distribution is being held up on account of the failure of the official ballots to arrive.

A number of new boxes had to be made due to the fact that the number of voting places in the county has increased from 14 to 24.

It was stated Wednesday afternoon that the official ballots will be on hand some Thursday which will give the sheriff just one day in which to distribute all the boxes.

Frost in the air of that early winter day lent its sunlight the cold light of a diamond dust. On Fifth avenue the crush of motor cars had grown so dense that one could hardly drive from the Plaza to Thirty-fourth street in less than 30 minutes.

Bellamy turned over every halt dictated by the winking semaphore lights of the traffic towers. In his understanding it was essential that the car set him down in front of the sedate, pressed-brick structure on East Thirtieth street whose entrance was flanked by an ever-stainless plate of brass advertising in dignified black letters, "OFFICES OF THE DRUG COMPANY."

"Necessary for the plant—of what he was pleased to term his 'nibi'."

"It was true, Lucinda had never denied in question a servant about his comings and goings, he had no reason to believe she would ever be so forgetful of her dignity. Still, if one will flirt with fire, the first rule is to take out insurance."

Today found Bellamy more out of tune with himself than ever before, more disposed to consider turning over a new leaf, a project often mooted by his conscience (always with a warning of loss), often approved but never seriously tackled.

Thrice in the course of the count hour he spent at his desk. Bellamy put out a hand to the telephone, meaning to call up Amelle and call it off; and thrice withheld his hand, partly because he hated the thought of a wrangle over the wire, partly because he was afraid the girl at the switchboard might listen in.

In the end he left his office half an hour earlier than he need have and took a taxi to the Claque.

The Claque club was a post-prohibition institution of New York, run in direct, more or less open, and famously successful defiance of the eighteenth amendment.

Amelle Severn kept Bellamy kicking his heels a bad quarter of an hour longer than she need have, but his temper was obscured by the admiration which her undeniable good looks excited. There was something in the knowledge that one had made a conquest of so rare a creature.

Amelle had married Ross Severn because he was well-to-do, uninteresting, middle-aged, of good family; and had quickly repented because she spoiled her and showed no intention of ceasing to be a good life-insurance risk.

She frankly owned as much while Bellamy was helping her with her wrap in the smoky atmosphere of their apartment as uncertain booth.

"Thrilled to a jellybean," she declared. She shrugged out of her furs, planted elbows upon the table, rounded her chin upon the backs of engaged fingers, and peered about the room

ing it strange, all the while her mouth hung to his, that he should so clearly know this to be good acting, no more than that, no less. Bellamy was not accustomed to see through women at so young a stage of intimacy; that came later, came surely; but never before had it come so soon. And in a little while of dread he wondered if it were because he had grown old beyond his years, too aged in sentimental tipping to have retained the capacity for generous credulity of his younger years. Or was it that the woman's insincerity had so eaten out her heart, no technical perfection could tempt her to her playing, her careless potency? Or that he had, since morning, fallen in love with his wife all over again and so truly that no rival passion could seem real?

"I'd like to see Ross . . . A laugh of lazy insolence rounded off Amelle's thought. 'Besides, I'm not doing anything wrong.'"

"Not yet," Bellamy admitted equably. He nodded to her hovering waiter. "What kind of cocktail, Amelle? Everything else is ordered."

"A T-N-T, please."

The waiter noted down this frightful prescription with entire equanimity, but lingered. "Et monseigneur?"

"Nothing, thank you."

"Nothing, monsieur?" Professional politeness was surely abhorred for an instant.

Bellamy tried to cover his annoyance with a laugh, but surprised a look of dark resentment in Amelle's eyes.

"Do you want the waiters to think you bring me here solely to satisfy my appetite for liquor?"

"Sorry, Amy. Make it a rule never to drink before evening."

Bellamy surveyed the restaurant without bias. "Not a bad little hole for people in our position."

"The motion, indolent and unsteady, was removed, soup in cups was substituted.

"People in our position! I'm to understand, then, any 'little hole' is good enough for me, so long as I don't interfere with Lucinda's parties at the Ritz?"

Bellamy straightened his spine and put down his spoon. An understanding captain of waiters read his troubled eyes and made casual occasion to draw the curtains across the front of the booth.

"It is because Lucinda's lunching at the Ritz today, isn't it?"

"The motion, indolent and unsteady, was removed, soup in cups was substituted.

"I'm unware of having done anything to provoke this, and if I've sinned unwittingly, I beg your pardon very truly. Won't you believe that, please, and let me off for today? I'm feeling rather rusty myself, dear, and this is beginning to get on my nerves."

At his first words the woman drew back, flushing, eyes stormy above a mouth whose gentle lines lost itself in a hardening line. Then swiftness reconsideration followed, visibly the selfish second thought took shape in the angry eyes and melted their ice to a mist of unshed tears beneath lids newly languorous. The petulant lips, too, refound their tremulous tenderness. Amelle's hand fell upon Bellamy's in a warm, convulsive clasp. She leaned across the corner of the table.

He kissed her adequately but without any sort of emotion, think-

"But if she should divorce you?"

ing it true, at least, that his thoughts were quick and warm with memories of Linda even while he was most engaged with the effort to do justice to Amelle's lips. And perceiving this to be so, self contempt took hold of him like a sickness.

They resumed their poses of nonchalant and sophisticated creatures amiably discussing an informal meal. But first the woman made effective use of a handkerchief.

"Forgive me, dear," she murmured. "I know it was perfectly rotten of me, but I couldn't help it."

### CONSTANT ACTIVITY IS REPORTED IN OIL CIRCLES IN WILBARGER DISTRICT

VERNON, TEXAS, May 16.—Constant activity is reported in Wilbarger county oil circles for the past week, although no developments of a startling nature have transpired. Excessive rains have made roads nearly impassable and interfered materially with the transportation of supplies, crews and fuel oil, but this difficulty has served merely to slow up the work. Triangle well drillers are again busy, having rebuilt their derricks after a storm several weeks ago leveled it to the ground. Three hundred feet of hole have been cleaned of cavings. The bit has penetrated more than 1,900 feet.

West Vernon well drillers are experiencing innumerable difficulties. Salt water has been the chief cause for concern. The Sigler No. 1 offset, south of Vernon, is progressing well, and much interest is attached to operations on this location. The Noble well, southeast of town, is now considered near a crucial depth. It is more than 2,000 feet deep.

One of the things which has led the public to think differently about the Hupmobile, is its wonderful performance.

We know of no other engine that responds so well and so willingly to any demand its driver may make.

This uncommon quality is all the more valuable, since it is accompanied by economy, low repairs and durability in a degree that is equally unusual.

## Why is it?

Why are there more calls for Gargoyle Mobiloil than for any three other oils produced?

YOU are no different from other motorists in this one respect: Clever salesmanship or striking advertising may sell you a lubricating oil once—but it doesn't make a permanent friend of you.

What does?

The lubricating value in the oil! Nothing else.

More of your fellow motorists are today specifically asking for Gargoyle Mobiloil than for any three other oils combined. They ask for it day after day, month after month. Why?

Economy? Yes! You will find that Gargoyle Mobiloil helps you to secure the lowest possible repair bills—the greatest possible freedom from minor engine troubles—the fullest possible mileage from gasoline and oil.

Quality? Yes! Gargoyle Mobiloil "wears" better and lasts longer than 9 out of any 10 oils possibly can. Why? The next two paragraphs will tell you.

Nine out of every ten other oils offered you are merely by-products incidental to the production of gasoline. Such "oils" are made from crude petroleum chosen for high gasoline yield.

Gargoyle Mobiloil is produced by specialists in lubrication, who choose their crude oil for lubricating properties—refining it to secure the best obtainable lubricating oil.

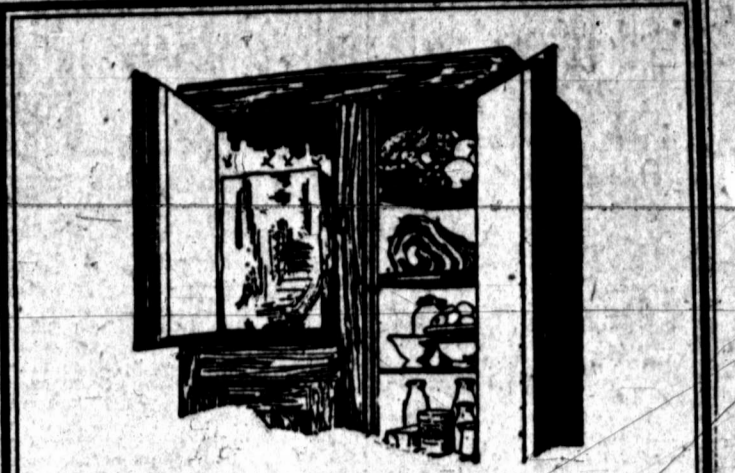

The next time you are out driving, look for the Gargoyle Mobiloil sign. As you come in front of it—stop. Ask the dealer for a 5-gallon can of Gargoyle Mobiloil.

### No family is well fed without ice

JUST as true in Spring as in midsummer. The food may not spoil so fast, but it spoils. Above 50° milk is unsafe; meat loses its appetizing flavor; eggs and butter deteriorate.

To feed a family well, raw food must be kept at its best. If it is the least bit stale, the flavor suffers; if a little more stale, the nourishment is impaired; after a day or two it spoils, becomes a menace to health.

Why run such risks when ice costs so little? A few cents a day keeps the refrigerator full and your food in prime condition.

### NO WAR TAX

Effective May 8, 1922, the Excise Tax on United States Tires for passenger cars, both casings and tubes is absorbed by the makers and is not added to the selling price.—United States Rubber Company.

## Never before could you get so much tire worth for \$10.90

AR-OWNERS who bought a 30 x 3 1/2 "Usco" for \$10.90 last Fall have discovered this by now—

Nobody before ever got so much tire value in the neighborhood of ten dollars.

They never had to question the quality—with the makers of U. S. Royal Cords behind it.

They couldn't help admiring the price—spontaneously made to meet the new economy times.

Today a number of other 30 x 3 1/2 tires have come into the popular \$10.90 price range originally established by "Usco."

So it might be well to remember

### LACEY HIMSELF WILL BE INTERLOCUTOR IN SHRINE MINSTRELS

Lewis L. Lacey, under whose direction local Shrines and young ladies have been rehearsing during the past two weeks, is scheduled to take part in Shrine Minstrels when the show goes on at the Wichita theater Thursday night, May 11, and will act as interlocutor of the minstrel part, which comes as the first act of the production.

While it is not Mr. Lacey's practice to take any part in shows produced under his direction, he was prevailed upon to consent to take his place within the circle, when the crew of the S. S. "Hokum-18" is permitted to amuse themselves at sea.

Shrine Minstrels was written, arranged and produced under the direction of Lacey, and it is possible that the name the show bears may be somewhat misleading, for the piece is primarily not a minstrel, this part being only incidental to the plot of the show.

"This is Lacey's second show in Wichita Falls, he having produced the "Joy Musical Revue" for the Shriners last October. Previous to his experience as a director of amateur theatricals, in which business he is widely known throughout the southwest, he was at different times connected with various vaudeville circuits as a blackface comedian, and for the seasons of 1915 and 1916 was stage manager and director for Hal M. Selby's No. 1 company of the Runaway Girls burlesque.

### SEVERAL CHANGES MADE IN KATY TRAIN SCHEDULES EFFECTIVE NEXT SUNDAY

Changes in Katy schedules, effective next Sunday, are announced, which will shorten the time between this city and Denison.

Train No. 44 will leave this city at 8:45 p. m. instead of 8:15, and will reach Denison at 11:30 instead of 11:45.

Train No. 46 will leave here at 6:15 a. m. instead of 5:50, and will reach Dallas at 1:40 p. m. instead of 1:30; it will connect with No. 38 at Whitehouse.

Train No. 42 will reach here from Denison at 10:45 a. m. instead of 10:15.

No other changes affecting this city are announced.

### AVIATION MEET WILL BE STAGED AT VERNON

VERNON, TEXAS, May 10.—An aviation meet, similar to the one staged last week-end in Wichita Falls, will be presented in Vernon this coming week-end, or May 12 and 13, by the local post of the American Legion. A petition circulated by the ex-service men has been signed by a sufficient number of business men to underwrite the event here.

Suitable grounds for the meet have been secured three miles southeast of the city and on the main highway. Two large five government planes and twelve commercial machines will compete for honors. Wing walking, nose diving and other fancy flying exhibitions will be given.

### GRISWOLD OIL COMPANY LEASES SIX LOCATIONS IN WILBARGER COUNTY

VERNON, TEXAS, May 10.—Six locations in Wilbarger county have been leased by the Griswold Oil company of Wichita Falls on W. T. Waggoner land, and material is now on the south half of section 29, block 14, in order to start the first test for oil in the near future.

This well is 14 miles southeast of Vernon, or just east of the Sigler field. A bond of \$20,000 has been posted by the Griswold company guaranteeing that five additional tests will be drilled. These will be put down on the south half of section 20, block 14, the south half of section 4, block 4, the north half of Southern Pacific, and on sections 21 and 22, block 5. Standard rigs will be used in all the work and the company is prepared to make a deep test on each location.

### HEAVY RAIN FALLS ON BOTH SIDES OF CITY TUESDAY EVE

As Wichita walls scurried for shelter Tuesday evening when the dark heavy clouds appeared from the southwest, the elements took things into control and sent part of the storm to the west and the other part to the east. Heavy rains fell on both sides of the city, but Wichita Falls itself received very little. Wichita, reported exceedingly heavy showers as did Frederick and Tipton. At Frederick two beats of a bridge at mile post 251 were washed away on the Northwestern. To the east heavy rains fell at

Henrietta, Bellevue and Bowin. The agents on the Valley road stated that the rainfall at Abilene, Suggerton and Maybelle was also heavy. Elk City reported rain Wednesday morning. Although the sky was heavily overcast Wednesday morning, it cleared at 9 o'clock and there was no indication from the south that any rain was imminent. The mercury climbed to the 75 degree mark Tuesday and fell to 75 for the low mark during the night. South-winds were reported from all points.

### When Hungry Little Muscles Say, "Please Help Me"

DID you ever stop to think who it really is that's talking, when childish voices raise a clamor, "Mother, I'm hungry?"

It's really muscles and bones and nerves and cells worn in the stress and strain of play—that are calling for rebuilding material.

What kind of an answer? The right thing, or just anything? It makes a big difference.

Grape-Nuts, so deliciously crisp and appetizing to taste, and so quick and convenient to serve, is a splendid food for rebuilding young bodies. All the wonderful nutriment put in wheat and barley by Nature, including the vital mineral elements, is there—and Grape-Nuts digests easily, quickly and completely. Served with cream or milk, Grape-Nuts is exceptionally nourishing.

"That's splendid!" says appetite. "That's just the need!" say the hungry muscles, nerves and bones.

Ready to serve right from the package—always crisp and fresh. A favorite dish with all the family. Sold by grocers.

SHRINE MINSTREL GREATEST SHOW EVER HERE
Biggest Men in Town Laud This Show

READ ALL ABOUT MARVELOUS SHOW FROM STATEMENTS MADE BY FEW OF CITY'S HIGH UPS

One Declares He Has Never Seen Anything To Compare With It In All His 75 Years Of Existence Upon This Old Circle.

I've already broken a dozen engagements as to attend Shrine Minstrels on the first night of the performance, said Clint Wood, social leader of Wichita Falls. I want to see the show a second time, and the only way to attain this goal is for me to grace it with my presence.

"I understand," continued Mr. Wood, "there are to be a number of beautiful girls in this show. While this is a great beauty show, I believe it will prove a great drawing card. I have not as yet decided whether I shall occupy a box or a section of seats in the front row. Should Clint decide to occupy a section, it means that he will have several of his friends enjoy the show as his guest."

"I witnessed one rehearsal of the show the other night, and it proved a revelation to me," is the way W. D. Cline, potentate of Maskat Temple expressed it. "So much beauty, so many catchy songs and such dramatic talent I have never witnessed since leaving my old home many years ago in New Orleans."

"I am seriously considering," continued Mr. Cline, "writing my friends over the state to take a day off and come to Wichita Falls to see the show for I am sure they will be amply repaid for the time and incidental expense."

"Although I have permanently retired from the social whirl," said J. A. Kemp, a pioneer in Shrinehood who has just affixed his signature to a check for \$250,000 which is to present to the Shrine Minstrels a new hotel for Wichita Falls, when he was approached for a brief interview regarding the coming Shrine Minstrels, so he was in a happy frame of mind.

"Say! you don't think I am going to miss this show—why I've already sent my dress suit and my hat to the tailor, and I'm ready to go. The fact that I have been on this planet for many decades, is no reason I can't appreciate something good. I heard that F. P. Langford had bought a box for the occasion, and I do not propose to be outdone by him or any of those fellows."

Dr. Will T. Wells, the only painless tooth operator of Wichita Falls, strenuously denied that he was going to the Shrine Minstrels just because there were going to be a bevy of pretty girls in the performance. "Of course, I didn't really mind having the doctor," but my real enjoyment will be in listening to the singing of those girls."

HORRACE

Read all performances, so you see what I think of the show. I will also cheerfully supply the necessary funds for those who may be so unfortunate as not to have the price of a couple of tickets.

"It brings me back to the days of my youth, which is about 60 years ago, just to think that I shall have the privilege of witnessing a show put on by the Shrine Minstrels of Maskat Temple, was the dream of P. F. Langford. You bet, I'll be there, even if I have to buy the tickets for I am determined not to miss the fun," continued Mr. Langford. "I remember many, many years ago, when the Shrine Minstrels showed in my town, as much that I laughed myself pink, so you see I do not intend to be absent when the Shrine Minstrels are in town."

W. M. McGrew, a prominent Shrine, was dignified and somewhat reticent, when an interview was sought, as he was apparently laboring under the impression that the interviewer desired to make a loan, or something, but when assured that this was not the case, he readily relaxed. "Why, certainly I'll be there, you can rest assured on that point. I would not miss the performance for anything, even to play a game of dominoes with friends," he asserted. This was in answer as to whether he would attend the Shrine show at the Wichita Falls theater, May 11, 12 and 13. "In fact," he continued, "I am seriously contemplating buying a hall coat ticket, and probably I shall occupy a box."

Here's Staff for Shrine Minstrels

THE BEST YET

It is understood B. A. I. Morgan is negotiating with the director of Shrine Minstrels, which is to be produced at the Wichita Falls Theater, May 11-12-13, to have the pleasure and privilege of introducing to the audience every member of the cast as they make their appearance.

When questioned about the matter, Mr. Morgan refused to affirm or deny the report. He indicated, however, that he had the matter under consideration. "As you well know," continued Mr. Morgan, "I have been the official introducer of Wichita Falls for many years, and if there is any introducing to be done, I do not want to be denied the privilege. In my day I've introduced presidents, financiers, philanthropists, statesmen and politicians. At all events I shall attend the performance and do all I can to make it a high success."

GHOLLY

GHOLLY SHOWS GLASSY CHEER

He's Especially Good At Poetry

And now, reading from left to right, and from right to wrong, we come to an attraction on the list, which is over this way, ladies and gentlemen—step lively, please—right this way, and be convinced. In this corner we have that corner, in that corner we have that corner, and in the center we have the middle of the stage, occupied by this discussion by a prodigious of fame and renown in the world of minstrelsy—a blackface comedian, and now something else—Gholly. Gholly, for something else—himself, in the flesh, better known to his erstwhile brothers in pain, and third, and fourth, and fifth. And he it was, we learn from the lips of tradition, who, in a certain case, lowered the curtain on the Shrine Minstrels.

W. M. McGrew, a prominent Shrine, was dignified and somewhat reticent, when an interview was sought, as he was apparently laboring under the impression that the interviewer desired to make a loan, or something, but when assured that this was not the case, he readily relaxed. "Why, certainly I'll be there, you can rest assured on that point. I would not miss the performance for anything, even to play a game of dominoes with friends," he asserted. This was in answer as to whether he would attend the Shrine show at the Wichita Falls theater, May 11, 12 and 13. "In fact," he continued, "I am seriously contemplating buying a hall coat ticket, and probably I shall occupy a box."

In peaceful slumber Lies Ezra Speed. He stopped to sneeze. But in passing let us not forget to mention one of Gholly's most endearing of his many winning ways, and one which should be overlooked under no circumstances, namely, his left-handed flip-top as he takes a departure from the stage after singing his heart rending ballad. One would think this due to his feet, but really that's not it; they're matter, even though they are big. No, this habit is due to the activity of the audience in the usual manifestation of their appreciation of his efforts in presenting him with vegetables, raw and cooked, and fruit (hen).

Maskat Temple In Acknowledgment

Maskat Temple, A. A. O. N. M. E., and Lewis L. Lacey take this means of expressing their most sincere thanks for the generous spirit if cooperation which has at all times been shown by all contributing, in making this local talent production a worthy success. Especially are thanks expressed to advertising in this section, and to members of the cast who have given so freely of their time.

To you people who enjoy a good show, let it not be said that there can be a better production gotten together than that which will be offered you at the Wichita Falls theater, Thursday, Friday and Saturday nights. We have worked hard and long to give you much more than just your money's worth, and we promise you a real show, which you will long remember as pleasantly as anything you ever saw.

CLAUDE

LOW DOWN ON TWO END MEN

Woods and Robbins Pair of Artists

By way of explanation for selecting Claude Woods and Horrace Robbins as endmen in the dining saloon scene on the steamship "Hokum-in," let us say that these two were though the most likely to suffer from vegetable contributions from the audience, and for this reason were placed on each end closest the wings, where they could leave the stage when necessity dictates. Another reason, both were used to being at the end of the class in school, (right), everything coming in an end some times, the wide birds tell us, why not Claude and Horrace? No, it was not because of their school experience, but because of their ability to handle the audience, and without malice.

Claude Woods is the discoverer of the "slang" way bridges are built across rivers, and he is the only one to prevent the fish from being sunburned and also to keep the rain out of the river. One thing he says is that he is going to get a boat to see that people will go that way when they build bridges! Claude studied in his early youth to be a ballet dancer, and as a result, he is in the cavalry, during the war he became a shepherd on a farm, as everyone knows, but he is unable to continue to be a shepherd because he is obliged, so Claude turned to other pursuits, one of which is the pursuing of the "Wahoo" bird.

As a warbler of beautiful tunes, Claude is in the possession of a vocal range which is his rendition of popular ballads, while he is heard in a series of sound effects, while alone, for it was found that the cast of Shrine Minstrels after hearing him, was so affected that they were unable to continue to sing, and he further famed as a Spanish athlete, meaning he is some speaker, he being the only Toreador upon whom the Mexican bull fight in Comarca has placed a handicap of three bulls. In Mexico as well as Latin America and local beach houses, Claude is known as "The King of the Beach." He is a member of the Shrine, and let us look at Horrace.

Horrace Robbins will be dealt with kindly, to prevent his past history from being revealed. He is also a singer who shakes a wicked tonil. Singing and getting off wide cracks comes to come natural with Horrace, and we call attention to the wisest of all that he is responsible for: "Listen! Do you smell gas?" To this Horrace's keen ability, it is said that his better three-fourths (formerly one-half), is giving him person introduction in his song, "Dangerous Blues." How this can't be, because he doesn't say, but there is a war and ways.

Horrace is noted for cool and deliberate reasoning power. Last Sunday he was called upon to pray with the congregation was listening in, and although he admits that he is a little out of practice, he accompanied the preacher to the extent of about thirty minutes of inspired prayer. By this time the audience was becoming just a little restless, as it were, and finally one of the deacons furnished a loud and fervent "Amen." Said Horrace, "Lord bless you, brother, that's the word I've been trying to think of for the last twenty-five minutes."

Horrace walked into Wichita Music company the other day to buy some new music. The young lady was pleasing of appearance, Horrace asked her if she had any new music. She said, "I'm Nobody's Baby." Horrace said, "I can't help that, I'm married man." Now please show me some music."

3,000 STEERS BOUGHT FOR WICHITA MAN

ARCHER CITY, Texas, May 9.—Charles Abernethy has returned from West Texas, where he bought some 3,000 steers for N. B. Chasault, of Wichita Falls, to be shipped to Oklahoma. For the yearling he paid \$27.50 to \$32.00, and for the two-year-olds \$35 to \$42. The steers averaged extra fine, he says.

BEAUTIFUL AND TALENTED YOUNG GIRLS AND GIFTED MEN STAR IN OFFERING AT WICHITA THEATER THREE DAYS

Galaxy of Popular People Gathered in Notable Cast of Performers for Wonder Attraction Thursday, Friday, Saturday; Reserved Seats Are on Sale Today.

Never before in the history of Wichita Falls has such an opportunity been afforded as confronts the lovers of music and minstrelry in the presentation of the Shrine Minstrels on Thursday, Friday and Saturday, nights of this week at the Wichita theater.

A GOOD ONE

There is going to be plenty of entertainment for those who journey to the Land of Imagination and for them there will be soft ballads, jokes with a kick, dancing, all unsurpassed, crowd in professional circles. From the opening scene to the last curtain drop the co-mingling of the laughing faces of the audience, the unsurpassed songs of the vocalists will present a picture of well-trained players doing their best to please a big crowd of appreciative patrons. Big of collar and bigger of show, the all-star staff of endmen will walk across the boards to the strains of laughing peas and the louder laughs of a pleased audience. Slippery, sliding trombones will aid the vocalists and end their turn in a big way, as they will be doing so with their best to please a big crowd of appreciative patrons. Pretty girls, the prettiest to be found in Wichita Falls, and that means the world, will make the married men wish they were not "married up" and the unmarried men wish they were. Boy, if you ever want to see a show, you had better go to this one, for if you don't you'll "shorley" wish you had.

Director Lewis Lacey promises that this will be the best show Wichita Falls ever saw. It ought to be, it is a "good one."

"It'll be a large evening on Koo-Koo Island for the cannibals I'll say," says the peppery director with whom the Shrine Minstrels are under the local divan.

Reserved seats will be on sale today and tomorrow at Tipton's. They are selling for \$1 each.

Adding much to the comedy side of the performance, will be seen Horrace Robbins and Claude Woods, who are blackface men supreme, and not to mention Dr. Rhodius, and Sid Gaines. These two clever people give the idea of the show in an impressive prologue. There is Frank Jarrett, one of the best comedians in the one Jerry Van Cleve, a young man possessed of a most remarkable imagination, and a most remarkable imagination of dollars. His part is cleverly done, too, and Jerry is responsible for the plot of the production.

J. A. Kemp, a pioneer in Shrinehood, is a member of the Shrine, and is a member of a literary interpretation of an old southern "uncle," one Washington, and W. H. Caldwell as Old Man Gloom. These two clever people give the idea of the show in an impressive prologue. There is Frank Jarrett, one of the best comedians in the one Jerry Van Cleve, a young man possessed of a most remarkable imagination, and a most remarkable imagination of dollars. His part is cleverly done, too, and Jerry is responsible for the plot of the production.

Ladies and Gentlemen: On Thursday glance down into the orchestra pit and you will see the figure of our sometimes sworn by, but always sworn at, director, Lewis L. Lacey, blonde, and benign who, through his machinations, has contrived to give us what General Sherman said was during many a night of "Let's go." "More volume," "Louder," while we labored in agonies of sound that rent the air nightly in the ballroom of the Kemp hotel.

Lewis L. Lacey has not always been a director of theatricals—ah, no! Years ago the boys around his home in Austin kidded him into believing that the theatrical world of comedy was his for the asking, and he believed them to the extent that he left home and mother and became what is commonly known as a blackface comedian. But after months of struggle upward (?) General Pershing asked the boys to get together, as there was something to be attended to over yonder, so Lewis, along with several others, crossed the bridge as a member of the Rainbow Division, and after a stay of some twenty-two months among the ma'jelles and things that crawl, he decided that too much was enough, and he returned. But that's getting ahead of our story.

Lewis was born in the fair city of San Antonio some twenty-seven years ago, and was moved to Austin about four years later. Since that time, on account of the prominence (?) of the celebrity in question, the two cities have never been able to satisfactorily settle the question of which town he came from. San Antonio claiming it was Austin, and Austin, not to be outdone in civic pride immediately claiming that San Antonio should take all the blame, and Lewis' middle name represented by the mysterious "L" has long been of a doubtful quality, even the boy himself being unable to decide which would sound better, Lawrence or Lorenza, as becoming one of the profession.

But, like Shakespeare said, "Let chance, what may, I love you for your breath," we all like our director and we are sure that he has trained his cast in the best show that ever hit Wichita Falls.

Girls, if by any chance you like the style of slick headed beauty, he is rumored and always has been. Let your conscience guide you in all things, for it looks like he has a good future, not saying anything about his past. Amen.

Five Steel Bridges Lost in Grayson. Five steel bridges in the western and northwestern part of Grayson county have been washed away, according to reports here, since the heavy rain has fallen here since Sunday.

From the time the doctor gives you a few quick slaps and hands you over to the nurse, until your friends "SAY IT WITH FLOWERS," the question of MONEY enters into everyone's very existence—

When Henry lumps little Willie with a new kiddie car he says, "What did you dad pay for it?"—When Henry's mother sees the new washing machine going into her neighbor's basement she is mighty apt to find out the cost—When WHITE sees BLACK with a new roadster his first thought is "Gee!! where did he get the money?"

That is to say, from infancy and ALL THRU LIFE, it is perfectly natural to think of MONEY—as a matter of fact, it is as the man once said, "MONEY WILL MAKE THE POT BOIL THOUGH THE DEVIL POUR WATER ON THE FIRE."

In this connection let us suggest that while some clothiers are continually harping PRICE we want to say that there is SOMETHING BESIDES THE PRICE—often by paying an EXTRA \$5.00 above what you may have INTENDED paying for your suit may save the whole investment.

That don't mean we are \$5.00 higher, either. Try us—we won't fail you.

**OFFICIAL ELECTION STATISTICS**

In the Record News of Sunday, May 7, there appeared a tabulated statement showing election statistics of 1920 for the 13th congressional district which purported to be from the World's Almanac and which were highly misleading and erroneous.

This table showed only 2898 votes cast for Mr. Harding in this district.

Examination of the official records compiled by the secretary of state show that Mr. Harding received 6,971 votes in this congressional district.

The Record News figures credit Mr. Harding with only 344 votes in Wichita county. The secretary of state's records show that Mr. Harding received 1,437 votes in Wichita county. One precinct in Wichita county, No. 13, gave Mr. Harding more votes than the Record News shows for the entire county—this can be verified by the record on file in the office of the Wichita county clerk.

The Record News figures credit Denton county with 459 Harding votes—when in reality he received 809. The figures show that only 175 votes were cast for Harding in Clay county, while the official figures credit Mr. Harding with 453. Similar errors exist in each and every county vote given in the table.

In order to keep the records straight we submit the correct and official figures as compiled by Mr. A. L. Staples, secretary of state,

given by counties, the vote for the democratic, republican and American party presidential electors in the 13th congressional district.

Counties:	Cox.	Harding,	Ferg'n
Archer .....	406	169	20
Baylor .....	623	149	41
Clay .....	1,224	453	22
Cooke .....	2,170	1,002	40
Denton .....	1,257	900	303
Jack .....	856	254	14
Montague .....	1,714	474	52
Throckmorton .....	299	72	11
Wichita .....	3,812	1,487	26
Wilbarger .....	1,117	223	34
Wise .....	2,031	579	54
Young .....	1,214	209	8
<b>Totals .....</b>	<b>17,542</b>	<b>6,971</b>	<b>691</b>

It will be observed that the Cox vote for the entire district was two to two and one-half times the opposition vote. With four candidates in the field, the republicans easily hold the balance of power in the special election to be held next Saturday.

In the entire congressional district there are 312 voting precincts—the republicans have active organizations in 178 of them officered principally by outstanding former democrats who have cast their lot with the republican party.

The candidate that gets the republican support will represent this district in congress for the unexpired term.

**For CONGRESS**

- He is a Democrat.
- He is a home man and deserves your support.
- He is the best qualified man in the race.
- It is conceded over the district by those who are familiar with the situation that he will win.
- True representation is what we need and not politics.

### FOR BUICK OWNERS ONLY

SERVICE is a much bandied word, but it has a real meaning in our vocabulary. We believe that service is ability plus desire to give satisfaction. The unwritten agreement between us is that you must be satisfied before we are. A contract on any other basis is foggy.

- Hence, you ought to know—
  - That there's a \$30,000 stock of parts here—here, mind you, not Flint.
  - That every job is supervised by a principal—responsibility is centered.
  - That every job is priced in advance—no guesswork, no friction, no excuses.
  - That there's a rest-room for women—comfortable waiting for the done-while-you-wait job.
- We have a strong suspicion that we can give you a refreshing new idea of what real service should be and is, if you'll pick up that phone and call us.
