RAILROAD UNIONS CONTINUE PLANS TO TAKE STRIKE VOTE

LEADERS PREDICT LARGE MAJORITY IN FAVOR OF WALKOUT.

TALK OF A COALITION WITH STRIKING MINERS

Strike If Called, Will Probably Be Come Effective On July Fifteenth.

CHICAGO, June 8.—Railroad unions continued preparations today for their strike vote with leaders predicting that the referendum will be heavily in favor of a suspension of work in protest against wage reductions made by the railroad labor board.

While rail executives and union leaders were weighing the chances of a strike, some of the union chiefs were considering the possibilities of a coalition between the rail workers and striking coal miners.

A strike vote and an actual strike, however, are not the only things according to some of the railroad presidents.

Return of all ballots before June 25 was urged.

BEAUMONT JUDGE TELLS OF VISIT TO HALL OF THE KLAN

WAS ESCORTED TO PLACE BY DEPUTY SHERIFF, HE TESTIFIES.

DECLARES THE SHERIFF URGED THAT HE JOIN

Refuses to Sign Pledge Card—Former Deputy Sheriff Also a Witness.

BEAUMONT, June 8.—To the impeachment proceedings for the removal of Sheriff T. H. Garner of this county for alleged Ku Klux Klan activities, now on trial in this city, Judge W. H. Davidson of the sixth judicial district court of Texas, testified that he was escorted to the Klan hall in this city by Deputy Sheriff George (Red) Wallace and upon learning he was wanted as a member of the Klan he refused to sign a pledge card.

Another witness was George Tevis, a former deputy of the sheriff and a former klanman, who testified that Sheriff Garner got him to join the Klan and told him before a meeting of the grand jury in this city that the Klan was fixing that body and evading questions without swearing a lie.

Medieval Pomp and Splendor Mark the Wedding of Royal Couple.

BELGRADE, June 8.—Medieval pomp and splendor marked the wedding here today of King Alexander of Jugo-Slavia and Princess Marie of Rumania.

King Alexander of Yugoslavia, second son of the late King Peter of Serbia, became heir apparent to his father's throne in 1918 when his elder brother, Prince George, renounced his rights as a sequel to a bitter press campaign in which an alleged indiscretion of his was charged against him.

He had won the respect and esteem of the Balkans in many ways, but chiefly through his efforts to unite the Balkan states.

King Peter died in August, 1918, at the age of 74, and Alexander, then suffering from an attack of appendicitis, was proclaimed his successor at Belgrade.

Several attempts were made to assassinate him during his regency, and after he became king, the latest of these occurred in June, 1921, and resulted in the death of one of his sons.

Princess Marie, called the prettiest princess in Europe, is only 22 years of age.

REPORT NEGOTIATIONS ARE PROCEEDING SATISFACTORILY.

Believes congress will come to relief of placer claimants.

Respite is granted to Ronald True who has been sentenced to die.

Forecast indicates the fourth largest wheat crop known.

NEW CLUE HAS BEEN DISCOVERED IN THE WARD - PETERS CASE

MAY SUBSTANTIATE CLAIM 'PETERS WAS KILLED IN WARD HOME.'

NEW CLUE IS UNSEALED AND UNSTAMPED LETTER

Said to Have Been Found in the Coups of J. Franklin Burke of Seaside.

WHITE PLAINS, N. Y., June 8.—Another clue tending to substantiate the story of James J. Cunningham, race track "detective," that Walter S. Ward shot and killed Clarence Peters, former sailor, at the Ward home in New Rochelle May 15, appeared today as District Attorney Weeks was resuming grand jury investigation of the case.

The new clue was an unsealed and unstamped letter which Benjamin Kendall, White Plains garage employe, gave the authorities, saying he found it in the coups of J. Franklin Burke of Seaside.

The letter, addressed to Mrs. Charles Burke of Atlantic Highlands, N. J., read in part, according to Kendall:

"Frank was there when it happened and left at 10:30. The glass that they found in the driveway was not from Ward's car at all. It came from mine. Wait didn't arrive until 9:30, although Beryl was waiting."

Ward has maintained since his surrender, asserting that he had slain Peters in self-defense, a contention which a blackmail plot, that the killing occurred near Kensington reservoir, where Peters' body was found.

CONSIDERATION OF MEASURE AT THIS TIME BLOCKED BY SENATOR; M'CUMBER PLANS ANOTHER TRIAL

WASHINGTON, June 8.—An effort to present the soldiers' bonus bill to the senate today was blocked by Senator Williams, democrat, Mississippi.

Chairman McCumber of the finance committee gave notice that he would make another effort today in the day to get the measure to the senate calendar.

Because of parliamentary procedure under which the senate was operating, unanimous consent was necessary to present the bill and the report which earlier in the day had been made public by Senator McCumber.

Senator McCumber explained that he would not offer such a motion because there was a gentleman's agreement that the tariff bill would not be laid aside for controversial measures without advance notice being given.

Announcing his opposition to the measure, Senator Underwood of Alabama, democratic leader, said he would be very glad if the bill were over until after the November elections so the American people could voice their sentiment with regard to the measure.

### IOWA DEMOCRATS SEE FAIR CHANCE TO ELECT SENATOR

BROOKHART MAY NOT GET SUPPORT OF ALL PARTY FACTIONS.

### DEMOCRATIC CANDIDATE REGARDED STRONG MAN

Generally Popular and Said to Be a Successful Vote Getter.

By MARK SULLIVAN  
National Political Correspondent of the New York Evening Post and Wichita Daily Times.

WASHINGTON, June 8.—In the forefront of interest of the six-sided republicans in Iowa and its dramatic aspects, there has been much speculation as to the result of the primary and the possible outcome of the entire situation in November. There was one candidate for the democratic senatorial nomination, the name is Clyde L. Herring, and he is a strong man in every sense.

Herring was many years the Iowa distributor for Ford automobiles and tractors. In that capacity he acquired two elements of personal strength. He impressed other businessmen of the state as being a good business man and he acquired an acquaintance with the people of the state such as can readily be imagined from contact with his business. He was a man of many parts. Two years ago Herring ran as the democratic candidate for governor. That was a republican landslide year in which the strength of Harding, at the head of the ticket, and the popularity of the republican national leader, put a severe handicap on all democratic candidates. In the outcome Herring had 118,990 votes more than the head of the republican ticket. Herring's vote was 337,600 to Cox's 227,000. Obviously, a candidate for governor who gets 60 per cent more votes than his party's candidate for president has elements of personal strength of the most marked kind. It is possibly not too much to say if that had not been a presidential year, and if it had been an ordinary election, Herring might readily have won.

The inference that Herring will make a strong run in Iowa in November of this year is unmistakable. Of course, it takes a hardy person to predict a democratic senator from Iowa. Iowa never has had a democratic senator and has not had a democratic governor for more than twenty years. Nevertheless, it is clear that several extraordinary elements in the present Iowa situation will combine to give strength to Herring.

It is obvious that Iowa politics this year are in an abnormal and, from the point of view of the republicans, a dangerous situation. It is difficult to see any possible management on the part of the republican organization in Iowa so astute and so tactful as to overcome entirely the serious cleavages which are bound to remain from the senatorial primaries. What is most likely is that these cleavages will be deepened and intensified.

The Iowa situation as it stands today differs greatly from that of Indiana and Pennsylvania. In these states the victories of Beveridge and Pinchet respectively made republican success in November more probable. Beveridge in Indiana and Pinchet in Pennsylvania will have the united support of the republicans and in addition will get more independent votes and more democratic votes than any other republican could.

But in Iowa the cleavage between the radical Brookhart and the other candidates for the republican senatorial nomination was so much more wide, and the other circumstances are such that the democrats should have a better chance to elect an Iowa senator this year than at any time for twenty years past.

### Chicago Attorney Defendant in Suit By Former Wife

CHICAGO, June 8.—Joseph P. Mahoney, Chicago attorney and former democratic state senator, has been made defendant in a suit for \$20,000 filed by attorneys for his wife, Mrs. Nonie Boren Mahoney, now living in Dallas, Texas.

The suit seeks to force Mahoney to return money he is said to have borrowed from his wife in 1907. Mrs. Mahoney, nationally known as a suffragist and democratic national committee member, filed suit for divorce over a year ago in Dallas. She did not obtain a divorce hearing resulting in a mistrial. A second suit is now pending.

### JURY IS UNABLE TO AGREE IN THE CASE OF A UNION MINER

PARKERSBURG, W. VA., June 8.—The jury in the case of Ramon Spinoza, union miner, charged with violating an injunction restraining interference with the operation of the West Virginia Coal company was discharged in federal court here today. The jury failed to reach a verdict after deliberating 24 hours.

### NOTED CHAUFFEUR IS CHARGED WITH BEATING A SAN FRANCISCO MAN

CARMEL, CAL., June 8.—Floyd Glotzbach, chauffeur, whose wife, Margaret Matzenauer, the prima donna, termed him as a "one-hundred per cent man" before she sued him for divorce, was under bond of \$250 today on the charge that he beat up and severely injured Peter Hannan, son of a wealthy San Francisco family. The alleged encounter occurred at the finale to a birthday party at the home of mutual friends.

### MARK TWAIN CABIN TO BECOME PROPERTY OF TOLUOME COUNTY, CAL.

SONORA, CAL., June 8.—The restored cabin which once sheltered Samuel Clemens (Mark Twain) on Jackass hill, will be presented to Toluome county by W. J. Loring, mining operator, with appropriate dedication ceremonies June 10. Governor Stephens will make the principal address. A barbecue will be a feature.

### MANY DELEGATES AT THE CLARENDON LEAGUE MEETING

CLARENDON, TEXAS, June 8.—The first annual assembly of the Spworth League convened here with delegates from all parts of the panhandle and west Texas in attendance. The opening service was devoted to completing details of the conference and a social meeting.

The suit seeks to force Mahoney to return money he is said to have borrowed from his wife in 1907. Mrs. Mahoney, nationally known as a suffragist and democratic national committee member, filed suit for divorce over a year ago in Dallas. She did not obtain a divorce hearing resulting in a mistrial. A second suit is now pending.

The morning services were held at the Methodist church. Rev. J. P. Patterson of Spur occupied the platform Wednesday afternoon, following which a business meeting was held. Rev. John H. Hicks of Canyon was the evening speaker. More delegates are arriving with every train, and many who came through in cars continue to register. The entertainment of the visitors had been provided for by a committee which has secured homes for them.

A feature of the meetings that is proving very satisfactory is the "Morning Watch" which is held each morning commencing at 6 o'clock. Rev. I. T. Hockabeck of Amarillo received hearty response Wednesday morning when he conducted the meetings, considering topics of interest to the Christian on the "Abundant Life." Clifford E. Casey of Amarillo conference, executive secretary of the leagues, is in charge of the meetings. Miss Lavellyn Deason of Amarillo was elected secretary at the opening meeting. Miss Lottie Lane is registrar, and Misses Mabel Betts, Pansy Lane, Maude Shaw and Olga Griggs compose the committee on homes.

D. M. Beights and Misses Alice Mulkey, Mattie Eva Lane and Olga Griggs are the committee on entertainment at a recreation. Plans are being made for entertaining the visitors with a picnic in some of the scenic canyons near this city before the close of the conference. Hearty co-operation from every one is making the meeting a very successful one and the interest in the assembly is being shown by the large congregations which fill the large auditorium of the Methodist church.

Every district is putting forth great effort to secure next year's conference, which will be selected Sunday afternoon just preceding adjournment.

### Indian Ace Now Broken in Health, Deserted by Wife

OKMULGEE, OKLA., June 8.—Broken in health, Captain William Sunset, Cherokee Indian ace and globe trotting adventurer, started east today on a quest for his wife and two babies, wrested from him by poverty.

Captain Sunset came back to the land of his youth at the end of the world war showered with high military decorations attesting his valor as an allied flyer. He lived here with his bride, an Alabamian whose life he saved overseas. They came to know the utmost poverty—the war left Sunset unfit for work—and then last Sunday after trudging 15 miles seeking a job, the war hero returned to his home to find his wife and babies gone.

Friends told Sunset that his wife, unable to bear the life of poverty, bought a ticket for Pittsburgh, Pa. So he sold his little store of goods. Friends made up a purse to help him in his search. Farmers, highest cash price paid for cream. Morgan Feed Stores, 1100 Ohio. 24-57c

### Will Never Marry That Woman Again Asks Third Divorce

CHICAGO, June 8.—"That settles it—I'll never marry that woman again."

Such was the laconic remark of Daniel M. Burnham, wealthy cigar manufacturer, when informed that for the third time Mrs. Pauline Gibson Burnham had filed suit for divorce. The suit is the fourth Burnham has faced. His first wife was granted a decree and in 1922 he married his present wife. Her first bill for divorce was dismissed in 1917 after a reconciliation, but a decree was granted in her second suit in 1919. Eight months later the couple was married again. They told friends the reason was "for the same reason we were married the first time."

Drunkenness and cruelty were the charges in each suit.

### DECLARE VEIL THAT HAS BEEN CLOUDING BUSINESS GRADUALLY BEING LIFTED

INDIANAPOLIS, June 8.—Addresses by R. C. Lettingwell of New York, former assistant secretary of the treasury; Edward F. Gay, editor of the New York Post; and D. R. Crissinger, comptroller of the currency, on business conditions, featured the third day's session of the National Association of Credit Men here today.

The speakers declared the veil which had been clouding business is gradually being lifted and that the nation again is on the road to lasting prosperity. Bishop William A. Quayle of St. Louis in an address declared there is a growing belief that business is neither a "gamble nor a gobble."

PRECISION plays an important part in the manufacture of the Special-Six. It is largely responsible for the dependable service that has singled out the Special-Six as an incomparable value.

Six hundred and eighty inspectors safeguard precision in the Studebaker factories. They literally inspect every part that goes into every car—and every operation on every part. Before cars are passed for delivery 9,500 inspections are made.

In the Special-Six there are 1,120 mechanical operations to the accuracy of one-thousandth of an inch, 360 to one-half-thousandth.

As to the car's performance, a brief experience will reveal its superiority far more convincingly than we could tell it.

Studebaker cars make friends quickly, because they give most for the money. And they invariably keep these friends, because of the universal satisfaction they give in fine performance, economy and service.

### CULBERSON URGED FOR U. S. SENATOR BY BARRY MILLER

VERNON, TEXAS, June 8.—Charles A. Culberson as the son of the senate, Charles A. Culberson as the brainy, unflinching law maker formed the gist of the address made here Wednesday night by Barry Miller of Dallas in behalf of Culberson's candidacy for the nation's highest legislative body. A fair sized crowd heard the speaker who was introduced by F. P. McGee, local attorney.

Miller pleaded continually throughout his address for a consideration of Culberson's record of service. He dealt minutely with the bills written and supported by the state senator, and discounted, at length the rumors that Culberson is much impaired in health. This argument he characterized as being the weakest offered by enemies of the candidate.

Culberson's participation in governmental affairs as members of the judiciary committee, the post office committee and other important bodies was pointed out by Mr. Miller. He declared that the important work of congress is done in the committee rooms, and not from the floor, thus refuting the argument that Culberson seldom makes speeches.

The Dallas attorney upheld vigorously Culberson's stand on the child labor law, the maternity bill, woman suffrage, Zach-Cummins bill and soldier welfare legislation. He pointed out that Culberson is the oldest democrat in the senate in point of service, and indicated that a new man is practically helpless in trying to win influence.

Mr. Miller asserted that Culberson is today more physically fit than he was six years ago when his opponents designated him as being about ready to die. In closing he addressed the speaker with eloquent words on the Texas democracy that would refuse to cast from office a public servant with a glorious record merely because he had grown old.

**PLANT THREE THOUSAND ACRES IMPROVED COTTON**

HASKELL, June 8.—Three thousand acres of improved grade cotton is being planted in this section this season from which to obtain seed for distribution to farmers in West and North Texas. The Texas Farmers Mebane Cotton Breeding association recently secured the pledge of enough acreage in this territory to make the project a go. The association will maintain part time representative in this territory to instruct the farmers. At least one acre here has agreed to give the

### TO FEATURE POULTRY INDUSTRY OF TEXAS

STAMFORD, June 8.—One of the leading poultry journals of the south has requested that the West Texas chamber of commerce prepare for its next issue an article on the poultry industry of West Texas. The request adds that many West Texas contributors have been asked to write along various angles on this important industry. Recently the Denver railroad operator a special "poultry" demonstration train with a school of instruction which not only stimulated the poultry business but secured nationwide publicity on the industry so that at present all eyes are turned to this section of the state as the most advanced and propitiously situated for the propagation of the industry.

### PLANNING TO CONTROL TEXAS FLOOD WATERS

STAMFORD, June 8.—The board of water engineers is now tabulating preliminary data on the Colorado, Brazos, Trinity and other streams of the state for the purpose of organizing a general system by control of these streams to the end that Texas may be rich in stored waters instead of poor because of flood waters, declared John A. Norris, chairman of the board of water engineers, in a letter to the West Texas chamber of commerce. Mr. Norris says data at present is meager but will be cumulative through research and study. He sees a liberal state appropriation to carry on the work of flood control and water conservation if the entire state will bring pressure to bear upon the next session of the legislature.

### PREPARED TO MEET THE EARM LABOR SITUATION

STAMFORD, June 8.—All fears that the farm labor situation cannot be met this year—especially during the cotton gathering period—are groundless, if employment of Mexican labor is resorted to, declared John A. Norris, chairman of the board of water engineers, in a letter to the West Texas chamber of commerce. Mr. Norris writes that it is in position to supply large numbers of laborers—especially Mexicans—on short notice. The concern is willing to pick labor from recruiting point to destination. The West Texas chamber of commerce employment department is in charge of Hamilton Wright. It is desirous of rendering free and satisfactory service to all West Texas in need of workers.

### CALL A GRAND JURY FOR INVESTIGATION OF O'BRIEN KILLING

HASKELL, TEXAS, June 8.—Judge W. R. Chapman, district judge of the 20th judicial district was here Tuesday and has called a special grand jury to investigate the alleged killing of George Page last Saturday a week ago by C. Metura at O'Brien, Texas. In the preliminary trial Metura was remanded to jail without bond.

A splendid shower fell over the south half of Haskell county Tuesday evening stopping all plowing for the rest of the week. Crops that are up and worked out are as fine as was ever seen in this county. George McDaniel of the Abilene Reporter was here Wednesday mingling with the public. ### WAR IS DECLARED ON CAMPERS IN WILBARGER

VERNON, TEXAS, June 8.—"War to the hills" on vagrants was declared the first of this week by E. L. McHugh, county judge, when he issued instructions to the sheriff's office to bring before him all idlers found in Wilbarger county. Those who make use of the county as a camp ground will not be spared in the drive as the executive is determined that it is either "get to work or get out."

Campers wagons can be found on all roads leading into Vernon and up and down Pease river as well. Some of the occupants stay here for weeks and months.

### ELECTRA TO REQUIRE SEWER CONNECTIONS

ELECTRA, TEXAS, June 8.—Looking to the prevention of disease announcement has been made by the city attorney that all householders within 200 feet of the city sewer must do away with other methods of sewage disposal. The ordinance providing for making connections with the sewer where it is within 200 feet of a residence has not been rigidly enforced because the sewage disposal plant has been overloaded. Twenty thousand dollars was recently voted for extensions and enlargement of the sewer system.

An odorless powder is being manufactured by a German company which, it is claimed, will render wool mothproof.

### SOON TO DETERMINE WEST VERNON TEST NOW DOWN TO 3000

VERNON, TEXAS, June 8.—Definite determination of the worth of the West Vernon test for oil, three miles west of Vernon, is expected by the end of the week, according to A. E. Dean, in charge of operations. The standard bit has reached a depth little short of 1,000 feet. Since February 27 only seven days have witnessed a suspension of work on the West Vernon holdings. On these occasions weather conditions caused a cessation of activities. Work on the West Vernon well was first begun three years ago this coming August.

Developments at the Sigler No. 1 offset south of town promise the most interest for the week. Extreme caution is being exercised, and after each five feet of progress has been made, the hole is tested. Casing will probably be set by the end of the week.

North of town drillers on the Ogery well have reached a depth between 1,400 and 1,500 feet. Work has been temporarily suspended due to boiler trouble. Much optimism is being expressed over prospects on the location. The formation is said to be different from any encountered before north of Pease river.

### WELLINGTON TO IMPROVE LIGHT AND WATER PLANTS

WELLINGTON, June 8.—Wellington recently issued \$50,000 in bonds for purchase of the light plant and improvement of the water system. A white-way system along designs recommended by the West Texas chamber of commerce is being installed, making Wellington streets the peer of any town's streets for illumination. J. J. Leggett is mayor. He has a progressive policy contagious among the business interests. An ice plant is being erected and engineers are on the ground directing the preliminaries to the paving of the streets. Wellington is making progress—not by steps, but by leaps and bounds.

### STAMFORD TO VOTE ON GOOD ROADS PROPOSAL

STAMFORD, June 8.—Voters of the Stamford precinct will be called upon June 24 to decide whether or not they will vote \$400,000 for good roads. It is proposed to gridiron the precinct with as good roads as can be found in West Texas. One of the highways to be improved is the Port Worth-Plains airline.

### Byers News

BYERS, TEXAS, June 8.—Light showers of rain have been falling here since Sunday night, which will benefit the cotton and feed crops. With but few exceptions all cotton and feed has been planted and a good stand is above the ground. Conditions are favorable for a bumper crop. Cattle and hogs on some of the ranches here are fat enough for market.

A number of binders have started in this section. A fair yield is expected from fields that survived the dry weather. The wheat yield in this section will be small, considering the acreage originally planted, but will be fair considering the number of acres harvested. Unfavorable weather in the winter and early spring made it necessary to plow up a large part of the crop.

A new one-story wooden structure is being erected at this place which will be used as a confectionery. The old First National Bank building that is being repaired is nearing completion. This building when completed will be used for the postoffice.

L. A. Wilson of Byers has announced as a candidate for county superintendent of Clay county. A community service club was organized here last week by Capt. Nausham. The following officers were elected: Sam Householder, president; R. L. Ligon, vice-president; Leo E. Curtis, secretary; Miss Ethel Burton, treasurer.

ELECTRA ROTARY CLUB INTERESTED IN BOYS

ELECTRA, June 8.—The Electra Rotary club will engage actively in boys' work. A committee consisting of Conrad Engelking, L. E. Sheldon, H. M. Carlton, and Buford O. Brown is in charge and as soon as a survey has been made definite steps will be taken looking toward the laying out of a comprehensive schedule. Rev. R. B. Curry, scoutmaster, has asked aid of the Rotarians in his campaign to secure \$1,000 for the local scout troop.

# Miles That's What You're Buying

It's the cost of your mileage that determines your tire economy, not the price of the tires. It's the extra thousands of miles that make Firestone Cords the choice of taxicab operators and other big mileage consumers.

You can't buy mileage today cheaper than Firestone is selling it—regardless of what you pay to begin with.

What will give the Most Miles per Dollar determines the processes and methods Firestone employs. For instance, Firestone Cords are built oversize, cured on air bags and the cords gum-dipped—because these processes add thousands of miles to tire service.

Most tire makers find such operations too difficult and costly from a manufacturing standpoint, but Firestone engineers found the successful and practical way to employ them.

The result is that Firestone Cords are not only outstripping all previous mileage records this year, but the cost to the user is the lowest in history.

### EPWORTH LEAGUERS GET DOWN TO WORK THURSDAY MORNING

ADDRESS "THE FOUR SQUARE LIFE" IS FEATURE OF THE SESSION.

FIRST MEETING HELD WEDNESDAY EVENING

Delegates From Two Score Communities in North Texas Are in Attendance.

Appointment of committees, holding of sectional conferences and an address by Dr. Paul B. Kern on "The Four Square Life," were features of the Thursday morning session of the district conference of the North Texas Epworth Leaguers, which opened Wednesday night.

Dr. Kern in his address said that appreciation of the significance of one's own life, a love of truth, a cheerful reverence for womanhood and a profound love for God were the fundamental qualities of great lives.

Robert Porter led the singing during the morning session and the morning watch service was conducted by Mrs. C. D. Ward of Comby.

The first of several talks on studying the Bible was given by Rev. C. O. Shugart of Dallas, after which adjournment for delegation conferences was held.

When the district reconvened at 11 a. m., President Jess F. Morris of Greenville announced the following committees:

Resolutions—Harrell, M. G. & S. chairman; Mrs. Linwood Egger and Miss Willie Lee Dickerman. Auditing—E. M. Thompson, chairman; Lay Lovel and Ira Thomas. Policy committee—Mrs. Lee Mcnelly, Miss Liza Stewart and Mrs. Frank Mood.

Finance—J. W. Thonne, chairman; Miss Lucinda Nutting and Dan Record—Carl H. Chodory, R. W. H. McCulloch, William H. Rue, Oscar Jones, C. C. Jones, Miss B. Sherman, Mrs. C. D. Ward, Mrs. Downs and Miss Margaret Todd.

Several loving cups to be given to the different chapters of the league for efficiency in their past work were on display at the church on the desk of the president.

Among those to be awarded are the C. C. Young cup for the senior chapter, which has the highest average for efficiency and which was won by the Kavenaugh chapter of Greenville last year; the C. T. Day cup to be awarded to the Junior League, and the Imo Bickham cup to the Intermediate chapter.

The conference will open Wednesday night at 7:30 p. m. with its opening meeting Wednesday night at the

FINALY HOLDS THAT 20-DAY NOTICE OF ELECTION WAS NOT ENOUGH.

TAXPAYERS TO VOTE AGAIN ON JUNE 24TH

Second Election Had Already Been Ordered By Board For That Date.

A decision from the attorney-general, finally disapproving the recent \$350,000 school bond issue, has been received by the school board, and the second election, ordered for June 24, will be held as planned.

Recent advice from the attorney-general's office indicated that the bonds would be approved, but the final decision was that 20 days' notice was necessary for such an election. At the second election the form of the bonds will be changed to make them serial bonds, thereby affecting a saving to the district, so that the ruling is in one sense an advantage.

School officials expressed the hope Thursday that another big majority for the bonds would be recorded on June 24. Plans for new buildings are going forward steadily.

REVIVAL SERVICES NORTH SIDE METHODIST CHURCH

The layman announced to bring the message having failed to appear at the North Side Methodist revival services on Wednesday evening, the pastor preached from the words of Zechariah 4:6: "Not by might, nor by power, but by my spirit, saith the Lord of hosts."

Three forms of material force are familiar with: (1) Muscular might as seen in strong hearts of burden, the powerful wild creatures and trained pugilists. (2) Mechanical appliances, as the inclined plane, lever, etc. (3) Physical forces as exhibited in the mind, ideas, steam, electricity, chemical reactions and gravitation.

But the mightiest force mankind may associate themselves with is found in the realm of the spiritual. The text is a battle cry whose slogan is The Overthrow of Satan's Kingdom and the Extermination of Sin. The divinely appointed means for this tremendous undertaking is (1) An organized church maintaining unity in its membership, financial integrity and the untrammelled execution of its discipline. (2) The quickening and energizing presence of the Holy Spirit. (3) Explicit and prompt obedience to His clear call in service.

This evening the message will be by Lee Stamford, W. A. BETTS, Pastor, 502 Bridge St.

## CALOMEL SALIVATES EVEN WHEN CAREFUL

Fraserous Drug can not be trusted and Next Dose may Start Trouble

Calomel is dangerous. It may salivate you and make you suffer fearfully from soreness of gums, tenderness of jaws and teeth, swollen tongue, and excessive saliva dribbling from the mouth. Don't trust calomel. It is mercury, quicksilver.

If you feel bilious, headachy, constipated and all knotted out, just go to your druggist and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you're sick and nauseated tomorrow, besides, it may salivate you, while if you will take Dodson's Liver Tonic you will wake up feeling great. No salts necessary. Give it to the children; because it is perfectly harmless and does not salivate.—Adv.

## Two Circuit Clouts By Tanner Feature Spudgers' Victory

By PAUL W. LARKIN.

A heavy downpour in the fifth inning of Wednesday afternoon's melee between the Spudgers and Exporters was all that prevented Hub Ford's return of the day from being happy. The manager was given an opportunity by his skipper to celebrate his thirty-ninth birthday by subduing the Exporters, but he had to wait for years of service on the fitting line he never used a spit ball and when J. Pivius broke forth in all his glory Hub was unable to control the sphere. The result was he was withdrawn from the most picture after four invaders had crossed the platter and two more were signified at the bases trying to perform a similar feat. Until the catastrophe occurred Hub ran the ball game as suited himself. The manager's punning, Lou Kraff and he was moving down the Exporters. But Hub lost his control. He didn't become wild, but he wanted to control the sphere and the visitors socked them. They weren't such terrific clouts, but were of the tantalizing sort which drop just at every body's feet. The Exporters and Spudgers ultimately won by the score of 11 to 1 and brought their total of consecutive victories up to eight. Hub was glad to see the Spudgers' victory and wanted to see Hub go the route.

Hub was relieved by Steve Moran and matters couldn't have been any better. Hub was glad to see the Spudgers' victory and wanted to see Hub go the route.

### BENNY AND JOEY LEONARD

Most fighters, when they get to be champs, think of nothing but how to hold their titles—not to whom they can leave them.

But Benny Leonard, premier light-weight, believes in keeping the championship in his own family. A champion is an asset to a family, he says. He admits he can't be title-holder forever, but he wants his successor to be named Leonard, too.

So he has been training his brother, Joey, in the way he should go.

"Joey's never yet faced an opponent in the ring," he said, "but Billy Gibson and I are sure he's about ready now and we expect to start him in a few weeks."

"I've worked on and with Joe for four years. I've taught him all my tricks. He's game and cool and strong. He's 5'8" tall and weighs 132. He's 5 feet 8 inches tall and has a very long reach.

"We Leonard have all been fighters—Willie, Charley and myself. Joe will make the fourth. I believe he'll be the best of the lot."

Benny had just finished a stiff workout in the gym with his brother, who hadn't been by any means on the receiving end alone.

### HOW TO PLAY BALL

By RALPH PERKINS.

Brilliant Backstop—Philadelphia Athletics.

Proper handling of the ball is a catcher's greatest asset. I believe I am conservative when I say that 75 per cent of a catcher's value to his club depends on the actual receiving of the ball in known places.

A catcher who is constantly dropping pitched balls is bound to upset his pitcher, also the rest of his ball club.

Trying to handle the ball before it reaches the catcher is what causes most of the backstops a lot of trouble. It is in what is known by ballplayers as "fighting the ball."

When a catcher fights the ball he is constantly courting injury. Wait until the ball reaches you is one of the most important bits of advice I can offer to ambitious catchers.

I always prefer to catch the ball up to the chest. If you are so doing you are never off balance, always in a position to throw.

A strong throwing arm is much to be desired, but not actually necessary in order to be a great catcher.

The accurate thrower is the successful catcher in the long run. That is, unless he has a ball that has speed. It is very advisable to practice getting the ball away as quickly as possible. A fraction of a second lost in making the throw often spoils the play.

A pitcher can be of great assistance to the catcher, likewise the catcher to the pitcher.

The pitcher must hold the runners on. Laxly on the part of the pitcher in watching runners makes all kinds of trouble for the catcher, also the rest of the team.

Talk to your pitcher constantly. Never have the pitcher out on the field. Always wait until you reach the bench to argue out your disputes.

Watch the Ball.

When a runner reaches first, watch him closely. Most runners have some peculiarity they resort to when about to go down. When you learn their mannerisms it is easy to call for a pitchout and break up the steal or hit-and-run play.

Keep your eye on the batters. It is often possible to learn their sign for the hit-and-run play. That is, when they call for a pitchout and break it up.

Tomorrow the playing of first base, once considered a soft job, but now a most difficult one, is taken up.

### ARKANSAS WOMAN'S SHOOTING FEATURES

Mrs. Hixson On Way to Another Title in Southern Zone Handicap.

MEMPHIS, TENN., June 8.—Mrs. J. H. Hixson, Arkansas state woman champion, made a start for another title in the third day's shoot of the southern zone handicap here today. Sliding handicap will be 15-yard zone championship event. This is one of the highest scores recorded by a woman in a southern shoot.

In the preliminary handicap she broke 99 during a hard shower. Mrs. E. E. Buxton, Tennessee woman champion, and Mrs. C. L. Degrett, Clarkdale, Miss., champion, tied for second place with 88.

Boyd Duncan, of Lucy, Tenn., and Homer Clark of Alton, Ill., tied for high run among the professionals in the 16-yard event when they shot a perfect score. C. O. Lecompte, Anchorage, Ky., should anyone break five more in succession from the 17-yard line he'll be sent back another yard and so on until the 22-yard mark is reached.

CORBETT HAD A GOOD LEFT. IT WAS THE MOST VALUABLE ASSET HE HAD IN HIS BOXING BAG.

GOOD LEFT IS THE MOST VALUABLE ASSET A BOXER CAN HAVE AND NET FIGHTERS THAT HAVE MASTERED THE LEFT HAND DELIVER A FEW IN ALL RING HISTORY

The most valuable asset a boxer possesses is a good left, and yet in all ring history few fighters have mastered the left-hand delivery as mightily and far between.

Jim Corbett's "corkscrew" left was his greatest asset. This punch was a hook, but it snapped it over with a sharp twist it had a terrible kick to it and was a mighty hard punch to ward off.

Jack Johnson's "over-the-shoulder" left was a knockout punch. It was a hook, but it snapped it over with a sharp twist it had a terrible kick to it and was a mighty hard punch to ward off.

REFUSE TO PERMIT MRS. COX TO TAKE STAND AT HOUSTON

OBJECTION OF PROSECUTION IS SUSTAINED BY THE COURT. DEFENSE RESTS CASE AT THE NOON RECESS.

HOUSTON, June 8.—The defense rested at noon in the trial of E. E. Cox, charged with using the mails to defraud the government and begin introducing rebuttal evidence this afternoon.

An attempt was made by the defense to put Mrs. Cox on the stand but the prosecution objection was sustained and the defense announced that Cox would not take the stand.

JUDGE DOES NOT LIKE REMARKS OF WITNESS. HOUSTON, June 8.—"You are the witness I ever heard of. You make a speech every time you answer a question. Make your answers more direct," Judge J. Cox trial on a charge of using the mails to defraud, thus admonished A. J. Henderson, former president of the General Oil company, for making such profuse explanations and descriptions of the wells on the Sparks lease in the Burkburnett country.

Henderson, who was the legal adviser for the General Oil company at Wichita Falls, told investigating accounts of the Sparks gushers. His word paintings of gushers going over the derrick tops and covering the landscape for a great distance with a filmy mist of oil did not suit Judge Hutcherson, so Henderson was ordered to confine his answers to a brief manner.

Efforts were made at the trial to bring out evidence tending to show that the government, which is now prosecuting Cox, is the party responsible for the failure of the General Oil company.

Charge Bolsheviks Invading Tomb for Church Treasures

PARIS, June 8.—The Russian bolsheviks, leaving no stone unturned in their work of ferreting out church treasures for confiscation, have violated the tombs of the dead and carried in St. Peter and St. Paul's cathedral, Strasbourg, says the Journal, quoting private sources.

The tomb of the Charina Anna Ivanovna, which is made of silver, was removed bodily, and the coffin of Catherine the Great was broken open and a necklace and rings of great value were taken. The bolsheviks are declared to have preserved, were abashed and dared not strip it of its jewels.

SEMI-ANNUAL REPORT OF MUNICIPAL WELFARE BOARD IS SUBMITTED

Approximately \$30,000 was expended by the United Charities organization in Wichita during the past six months for charitable purposes, according to a report submitted by Mrs. E. B. Goresline Jr., secretary of the municipal welfare board, Thursday morning.

The total collections made by the United Charities amounted to \$1,121,815. Of this \$122,815 was collected on the drive, \$239,38 being collected from January 1, 1932, to March 10, 1932, and \$8,896.48 was collected from March 10 to June 1, 1932.

The total appropriations to the various organizations during this period were: Welfare board, \$2,571.81; Salvation Army, \$8,012.20; Boy Scouts, \$2,194.42; Y. W. C. A., \$8,523.78; Red Cross, \$5,174.15; Day Nursery, \$2,157.37; and the Texas Children's Home, \$2,359.24.

OPPOSES THE BILL DESIGNED TO MEET COURT'S OBJECTION

WASHINGTON, June 8.—Opposition to the passage of the Capper-Tincher bill which would reinforce the future trading act to meet the recent decision of the supreme court was expressed today before the house agriculture committee by Louis F. Gates, formerly president of the Chicago board of trade. He declared that the bill contained a "joker" in the proposition to substitute federal grain weighing and inspecting over the state inspectors.

Such supervision, Mr. Gates said, would constitute an invasion of state rights and give the secretary of agriculture the right to weigh when federal weighing and inspection should be accepted. A materially enlarged force of employees of the department would be necessary, he said, should the bill become law and the secretary of agriculture refuse to organize a board of trade standards of inspection and weights.

Indian Ace Finds Wife and Children At Pittsburgh, Pa.

PITTSBURGH, Pa., June 8.—Travel stopped and a long journey from Okmulgee, Okla., in search of his wife and two children, who the police said, had deserted him last Sunday, Captain Sunset, famous Indian fighter of the LaFayette escadrille, was taken to them by Detective O'Brien immediately upon his arrival at the city. The officer left them to decide whether the little family was to return to the western home.

The woman, who gave her name as Mrs. Reichert, came here with her children yesterday, a few hours before the police were notified by Sheriff Carr of Okmulgee that they were on their way. Detective O'Brien soon located them and knew where to take the husband when he came in.

MODIFY AN INJUNCTION AGAINST MINE WORKERS. RICHMOND, Va., June 8.—An injunction granted by Federal Judge McClinton of West Virginia in behalf of the Borderland Coal company and others, against the United Mine Workers of America, restraining officers and members of the union from interfering with the coal companies' employees and property, was modified in an opinion handed down here today by the United States circuit court of appeals and the case sent back to the West Virginia court for trial on its merits.

"Get Married or Live Apart," Fitts Warns Couples

Police Commissioner Fitts announced Thursday afternoon that he would give two weeks longer to all unmarried men and women living together illegally to secure marriage licenses from the county clerk and marry or else leave town as he intended to prosecute them to the limit of his ability.

REBEL LEADER AND COMPANION KILLED CROSSING BORDER

LAREDO, TEXAS, June 8.—It was reported here today that General Lucio Blanco, formerly of the Mexican army, and a companion named Martinez, had been captured and killed by Mexican customs guards and soldiers at Bayito crossing of the Rio Grande, a few miles up the river from Laredo. Blanco, planned entering Mexico from Texas with a small band of followers and was crossing the stream in skiffs, the report said.

FIREMEN CONDEMN PRESIDENT AS AN ENEMY OF LABOR

HOUSTON, June 8.—A seething resolution condemning President Harding as an enemy of organized labor and a parasite on the industry of the organization that was the best of their ability to prevent his re-election was passed today by the members of the Brotherhood of Locomotive Firemen and Enginemen.

The resolution with regard to Harding policy ran as follows: "Whereas, Warren G. Harding, president of the United States, has in many ways shown himself to be a constant and unrelenting enemy of organized labor in particular and of the working classes in general; and, whereas, when the railroad train service employees of the United States had determined to exercise their economic power in raising the wages of their members he declared he would crush their organizations if they went on strike; and, whereas, it behooves us to utilize our political power and exercise our right of public franchise in the protection of our economic and industrial interests.

INDIAN ACE FINDS WIFE AND CHILDREN AT PITTSBURGH, PA.

PITTSBURGH, Pa., June 8.—Travel stopped and a long journey from Okmulgee, Okla., in search of his wife and two children, who the police said, had deserted him last Sunday, Captain Sunset, famous Indian fighter of the LaFayette escadrille, was taken to them by Detective O'Brien immediately upon his arrival at the city. The officer left them to decide whether the little family was to return to the western home.

WICHITA CHIEF OF POLICE FORBIDS EMPLOYMENT OF NEGRO MEN IN HOTELS

TULSA, Okla., June 8.—Local hotel owners were to meet this afternoon to consider an order issued last night by Chief of Police Hedden, forbidding the employment in hostilities of negro men as porters, elevator boys and bell boys.

The order gave June 10 as the time limit for compliance. Chief Morah said today he found the order necessary "for moral reasons." Some establishments have already complied with the order, officials said.

"HUGO, FIRST" ADDS SPECIAL SHIPS TO HUGE FLEET TO STEAL RUSSIAN TRADE

By MILTON BRONNER. European Manager for NEA Service... One day the captain of a Swedish passenger vessel plying between Sweden and Germany said to a German passenger: "Who is that poor senile fellow? He looks as if he might die before he landed in Sweden."

It is in the North German Lloyd, the great Bremen rival of Hamburg. It was in connection with his shipping interest that Stinnes got the reputation of being a man who got much shuns and hates.

There were built for him three new 12,000-ton ships. Stinnes derided them as "Ludendorffs, Hindenburgs and Tirpits." As representatives of Germany were then conferring with the allies, the latter took this action of Stinnes as a good sign that Germany was still kaiserist, militarist and unrepentant.

But that is about the only mistake that can be charged up to Stinnes. He has chosen the offensive names for his ships thinking of the men who bore them as persons whom Germany once despised and imagining the people still did so. When he realized his error, it was too late.

to and from Russia for some years will be by sea. Stinnes has an entire department of his executive branch here in Berlin devoted to the study of Russia. They are experts on Russia.

Only recently the director of this department returned from a personal visit and reported to his chief that eight years of war, blockade and neglect have put Russian harbors into a terrible state. The big freight ships that America and England have will probably not be able to negotiate those harbors. But where they fail, the Stinnes 3000-tonners will glide in like ducks on a mill pond.

Has Eye on Russia. The Stinnes 3000-ton ships are being built for a specific purpose. Stinnes, like every wiseawake German, has his eye on Russia. Some day and not very long off he expects that immense country to be opened once more to the commerce of the world.

PRESIDENT TO DELIVER TWO SPEECHES FRIDAY

WASHINGTON, June 5.—President Harding, accompanied by Mrs. Harding and a party of friends, left Washington today for New Jersey, where tomorrow he will deliver two addresses, one at the dedication of the Princeton battle monument and the other at the Princeton university.

The president and his party traveled on a regular train and will go to Bound Brook. From there they will go by automobile to Senator Frelinghuysen's home, near Raritan, and spend the night. Accompanying the president, in addition to Mrs. Harding, were Senators Frelinghuysen and Edge of New Jersey; Speaker Gillett, Secretary Christian and newspaper men.

This trip from Raritan to Princeton tomorrow will be made by automobile. The president will arrive there about noon. He will speak at the dedication of the monument where the revolutionary battle of Princeton was fought, about 1 o'clock, and about two hours later will receive an honorary degree from Princeton university.

Princeton university. The president will then speak in the university chapel. The president's schedule calls for his return to Washington late tomorrow night.

ANTICIPATE NO FURTHER DEMONSTRATION AGAINST NEGROES TO BE EXECUTED

CARTHAGE, MO., June 5.—No further demonstration against Sterling Jackson and Castille Stapleton, negroes, sentenced to death for the murder of George Babcock, grocer, was anticipated today by county authorities, who late last night permitted leaders of a crowd of 150 men and women to go through the county jail before they would be convinced that the condemned men were not locked in cells.

The negroes had been taken to Joplin and after the search of the jail the mob disbanded.

Ugva River Craft. Until a few years ago, the chief trade of German river craft. In his 70s of German river craft, the Stinnes family has been associated with this business for two centuries. And how successful it has become the visitants of Hugo Stinnes, he has such forgotten the family fortunes started by transporting things of German rivers.

Every one who sits on a fine May morning scores the terraces of a Dresden hotel, totalling the Elbe river below. Eighty Stinneses were constructed, a big sturdy tug pulling up a long line of barges, each laden with coal. Some men are you will see the magic name "Stinnes."

But when the war broke out, the Stinneses were still keeping watch on the Rhine and the Moselle rivers and once more were sailing the Stinnes name. This, in spite of the fact that under the peace treaty a large number of German river craft were surrendered to France and Belgium.

Stinnes is humiliated. Imagine the surprise of the managing directors, therefore, when one fine morning as they sipped their coffee and perused the Hamburg papers, their eyes were claimed by a fiering advertisement in which the Hugo Stinnes lines announced the inauguration of a regular service between Hamburg and Buenos Aires.

For a fellow director to steal a march on them like that wasn't considered "clubby." There was an immediate conclave and Stinnes, the billionaire in German marks, was flung out on his ear. Not, of course, literally and physically. But his name ceased to adorn the board of directors of the Hapag, as the great shipping company is known all over Germany. Stinnes' retort was twofold—he advertised and pushed his South American lines more than ever and he immediately took some of his ever-ready cash and invested it in the stock of the Hapag.

block of stock in the German East African and the Woermann lines. Later he obtained a big interest in the Deutsche Werft, a concern of Hamburg which builds ships. Another which fell into his all-embracing net was the Hamburg Verkehr's corporation, which is not only interested in shipping but owns vessels that carry excursionists there. At Flensburg Stinnes has a company whose swift small ships ply the Baltic.

Within the past two years he formed the Hugo Stinnes lines and this new concern was the cause of one of the deepest humiliations of his business career. Stinnes owned a considerable block of stock in the once great Hamburg-American Steamship company and was made a director. The concern, beginning to recuperate from the paralysis caused by the war and the loss of its biggest and best ships, was preparing to resume active steamship service between Hamburg and South America. The latter has always been a favorite field for German exploitation and German business firms have many friends there.
