MAINE MAJORITY FOR REPUBLICANS LIKELY TO BE CUT

DEMOCRATS HAVE SHOWN CONSIDERABLE STRENGTH FOR ELECTION DAY.

VOTERS NOT ENTHUSIASTIC OVER HARDING REGIME

Under Current of Dissatisfaction, But People Hesitate to Make a Change.

By MARK SULLIVAN
National Political Correspondent of the New York Evening Post and Wichita Daily Times

WASHINGTON, Sept. 11.—The interest in the Maine election today lies in its traditional role as an index to the political state of mind of the country as a whole. In his light the tendency will be to interpret the vote in Maine today by comparison with the vote for president in the same state in 1920. If the vote for the democrats would lead to a serious fall of Harding, it would be a serious fall of Harding.

SULLIVAN situation was a normal one. The league of nations issue revealed the result in such a shape that it is no basis for comparison whatsoever. In that year there were at least 12,000 Maine democrats who voted for the republicans for their party candidate for governor, but refrained from voting for Cox. There were many other thousands of democrats who were further and actually voted for Harding.

The result was that in that year out of a total vote of about 200,000 there were about 100,000 democrats and the total had the immense majority of roughly 100,000. Nothing like that will happen this year. A counter would lead to a more nominal vote and making reasonable allowances for the increase in the total vote caused by women, they will be better off than in 1920 and will be justified in inferring from such a result that they will carry the country comfortably in the election.

On the other hand, if the republican majority should fall below 100,000, the lesson of past experience will teach politicians and voters alike that the republicans are not to be counted on in November. If the democrats should actually carry the state that would be a real upset and a democratic lower house of congress next year would be taken for granted.

Democrats Show Strength. The politicians of both parties who have been in Maine to speak or otherwise have returned with impressions and experiences which indicate that the republicans are better organized and more active than in any other Maine campaign during many years.

Both the democratic and republican candidates for governor and the democratic candidate for United States senator are men who on past occasions have made the state for other parties. The democratic candidate for governor, Pattangall, is described as an especially energetic and convincing speaker. Further, he is a republican by conviction and there is a trend against him.

The general dissatisfaction with the course of the republican congress and with the recent course of the republican presidents so far as it concerns the strikers while it is not so strong in Maine as in some other states is nevertheless very apparent and will have weight in the election.

Observers from Washington who have been in Maine say that the state is not in a mood to give any outstanding endorsement of either republican or democratic party. Many republicans count on, however, is the fact that the cautious state of the state falls, however they may approve some portions of the present republican administration, will hesitate and inquire as to just how much better off they would be under such democratic management and leadership in the nation as is now in sight.

In short the chief democratic handicap in this Maine fight is the same as it is everywhere, mainly the lack of leadership and the lack of strong personalities.

STRIKE INJUNCTION BEFORE U. S. COURT

(Continued from Page One.)

General Harry M. Daugherty set his forces in motion today towards obtaining a permanent injunction in the railroad strike.

Reinforced by a great mass of evidence, to the effect of sabotage and terrorism, the attorney general presented his petition to Federal Judge James H. Wilkerson, who granted the temporary order September 1.

Arranged against the government's lawyers and denying their charges of a widespread conspiracy of vandals, to cripple the nation's transportation machinery, was Donald R. Richberg, attorney for the striking shop craft, against whose leaders and members to government's action was directed.

Both sides avoided much discussion of the day's possibilities. The drop crafts policy committee of ninety was here today to meet with Earl E. Jewell, head of the railway employees department of the American Federation of Labor, and leader of the shopmen's strike.

Two carloads of evidence—tools of destruction, thousands of telegrams, letters, photographs, blue prints, books and transcript of statements of some 17,000 individuals—which the attorney general and his aides had closely guarded by federal agents, secret service operatives protected Mr. Daugherty and Judge Wilkerson.

The evidence was gathered, federal agents said, from all parts of the country by government operatives during the past two months, and assembled in a building near Judge Wilkerson's court.

In connection with charges that there was a widespread conspiracy for violence during the strike, government men mentioned 23 murders, the tampering with 25,000 railroad cars, the burning of 14 bridges and the damaging of many locomotives.

Denying the existence of such a conspiracy by the railway unions and demanding that Judge Wilkerson vacate the injunction, Attorney Richberg built up his defense on the grounds the government had failed to make a case, that the injunction is in violation of the Clayton act, and that it was obtained through misrepresentation "for illegal and ulterior purposes."

Concerning the sabotage charges, Attorney Richberg said: "The railway unions have not only agreed that perpetrators of any violence in connection with the strike should be harshly punished, but they also have sought to cooperate with the proper authorities to prevent any illegal acts to the curb and offered to drive her home." She accepted the invitation and the couple drove off. When Mahoney finally reached the young woman's boarding place, instead of stopping and letting her out she alleged that he insisted that she take a drive, and speeding up his car, he started off in the opposite direction. The young woman became alarmed and forced open the front door of the car, jumped, although the car was said to be going at a good rate of speed. She received a bad cut on her neck and was considerably shaken up.

CISCO JITNEY DRIVER MUST FACE CHARGE OF AGGRAVATED ASSAULT

CISCO, TEXAS, Sept. 11.—Charged with attempting to forcibly compel a young woman to remain in his automobile against her will, G. M. (Newt) Mahoney, jitney driver, is under arrest here on a warrant sworn out by Police Chief W. H. Herston.

According to the story told by the young woman, who works in a local cafe, she left the restaurant about 10 o'clock Saturday night. As she started up the street she alleged that Mahoney drove up to the curb and offered to drive her home. She accepted the invitation and the couple drove off. When Mahoney finally reached the young woman's boarding place, instead of stopping and letting her out she alleged that he insisted that she take a drive, and speeding up his car, he started off in the opposite direction. The young woman became alarmed and forced open the front door of the car, jumped, although the car was said to be going at a good rate of speed. She received a bad cut on her neck and was considerably shaken up.

FOREIGN MADE WOODS INDIA NATIVE SYMPATHIZERS GIVE MILITARY SERVICE

Vincent Llanes, said to be leading a non-co-operationist movement against American rule in the Philippines, sketches show incidents that characterize Gandhi's campaign in India and which may be repeated in Uncle Sam's island possession.

By ISAURO GABALDON
Philippine Commissioner to the United States

WASHINGTON, Aug. 1.—I have no knowledge personally of any plan in the Philippines to launch a campaign of non-co-operation similar to that of Gandhi in India. So far as I know, Vincent Llanes, mentioned in a cable dispatch as being behind the movement, is a member of the Nationalista party, but is undoubtedly only expressing his personal views.

Llanes was a member of the Philippine parliamentary mission which recently visited Washington and appealed to President Harding for independent status for the Philippines in the lower house of the Philippine legislature, but was not selected.

There may possibly be more or less non-co-operation in the island, but to some such a plan as that mentioned by Mr. Llanes, as my advice are that the Philippine people should not be misled by the propaganda of the Nationalista party.

Just prior to the arrival of the mission in the United States, the American chamber of commerce of the Philippines sent a circular letter, I am informed, to chambers of commerce in many American cities, opposing the object of the mission in the United States. Naturally this was displeasing to many Filipinos, and possibly is the cause of the indirect action of Mr. Llanes' proposal of non-co-operation.

However, wholly aside from any confidence independence for the Philippines is only a matter of a short time.

The American government has promised it and I am not willing to believe that the American government will fall to live up to its promise.

By HARRY B. HUNT
WASHINGTON, Sept. 11.—While the administration is struggling in an effort to solve the complicated problem arising from the combined railway and coal strikes, the question of Philippine independence again has forced itself to the front.

An altogether new turn has been given to the problem by the announcement in Manila that a non-co-operation movement, similar to that of Mahatma Gandhi in India, will be started in an effort to end American rule in the islands.

This is proposed by Vincent Llanes, former member of the Philippine house of representatives and member of the recent mission to the United States.

What Movement Means. If the non-co-operation movement is carried out in the Philippines in the same way as Gandhi directed the revolt against British rule in India before he was jailed it will mean that natives will refuse to serve in American military forces.

That they will refuse to send their children to American schools, that they will buy no foreign products.

That they will refuse to hold political positions under the American administration.

Administration leaders feared the cold water poured on plans for Philippine self-government by President Harding when a special mission on Philippine independence visited him in Washington a few months ago had so quenched the flame it would take years for it to burn brightly again.

75-CENT TAX RATE IN WATER DISTRICT IS ADOPTED MONDAY

The water improvement district tax for 1923 was fixed at 75 cents on the \$100, by irrigation district directors at a meeting Monday morning.

The present rate is 25 cents. The higher rate is necessitated by the fact that the bonds have been sold and are now drawing interest, making a large revenue necessary.

The board considered a number of routine matters, but did not take up the north side canal question.

M'GOWAN IS SENTENCED TO 25 YEARS IN PRISON

HOUSTON, Sept. 11.—A verdict of guilty, assessing punishment at 25 years in the penitentiary, was returned this morning by a jury in criminal district court, which heard the trial of J. R. McGowan, 22, charged with the murder of George Emrey, May 28, 1921, in a rooming house near the McGowan and Emrey families.

The case went to the jury Saturday night. McGowan pleaded self defense, stating that his life had been threatened as a result of disputes between the McGowan and Emrey families.

Propaganda, however, is frankly admitted. Before Llanes' election to the Philippine house in 1920 he had been farmer, lawyer, court clerk and justice. He was active in the popular independent party. He is a teacher of law and started a public library in his home town of Laoag.

The father of the non-co-operation of passive resistance plan of freedom dependent nations in Mahatma Muhammad Kadamchand Gandhi, a Hindu, now a political prisoner in the Bombay presidency, India.

Gandhi taught his Hindu followers that refusing to buy from, serve under, or even recognize the existence of the English would make the British position in India untenable much more quickly than armed resistance.

Don't Spoil Your Child's Hair by Washing It

When you wash your child's hair be careful what you use. Most soaps and prepared shampoos contain too much alkali, which is very injurious, it dries the scalp and makes the hair brittle.

The best thing to use is Mulsified coconut oil shampoo, for its pure and entirely greaseless. It's very cheap and beats anything else at its price.

Two or three teaspoonfuls of Mulsified in a cup or glass with a little warm water is all that is required. Simply moisten the hair with water, and rub it in. It makes the hair soft, clean, and healthy. Cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, and easy to manage. Keeps the scalp cool and takes out every particle of dust, dirt and dandruff. You can get Mulsified at any drug store, and a few ounces will last everyone in the family for months. Be sure your druggist gives you Mulsified—adv.

LATE CONVENTION AMERICAN LEGION CONVENES IN WACO

THREE DAYS WILL BE DEVOTED TO FOURTH ANNUAL MEETING.

VETERANS WELCOMED BY CONGRESSMAN CONNALLY

Enthusiastic Applause Followed Mention of Name of Woodrow Wilson.

WACO, TEXAS, Sept. 11.—The fourth annual convention of the American Legion, department of Texas, convened here this morning for a three day session. The legionaries assembled in the majestic corridors of the cotton palace, keeping step to the strains of martial music by the Brownwood legion band. Captain R. Armstrong, director, of the convention was called to order by Wayne C. Davis, state commander. Mayor Ben C. Richards of Waco, in a few remarks extending the freedom of the city, introduced Congressman Tom Connally to deliver the address of welcome.

Mr. Connally, a veteran of the Spanish-American war and of the great war, eloquently portraying the achievements of the American army in France when it hurriedly crossed the channel back in confusion, beat the greatest fighting machine then known to a standstill, forcing the German legions to their knees and forced their surrender. The history of the world furnished no greater achievement on the field of battle. Yet, when victory crowned the matchless courage of the American army in that conflict, a demand for territory or plunder was made but having received France and her allies from annihilation, you come home to take your places as citizens of your country.

In the course of his address Mr. Connally called the name of Woodrow Wilson as the commander-in-chief of the American army and the convention broke forth in shouts of applause. Colonel Claude V. Birkhead of San Antonio, first state commander of the American Legion, delivered the response, being the representative of Governor Neff who was on the program. Governor Neff was unable to attend the convention. A resolution inviting all world war veterans to seats in the convention was adopted.

BEST ROADS FOUND IN WICHITA COUNTY IN 2000 MILE TRIP

Judge A. H. Carrigan, who has just completed a 2,000 mile trip in his automobile, took occasion Monday morning to come before the county commissioners and testify that the best roads he found throughout his trip were located here in Wichita county.

He stated that he found very few as good as the concrete roads here and that he found none any better. In his trip he traveled 200 miles on the Lincoln highway and he told the court that there was no comparison. He also traveled over a large portion of the California state highways and told the commissioners that Wichita county could be most proud of her road system as the much touted highways of the western state had nothing on Wichita county.

RECEPTION GIVEN THE IOWA PARK TEACHERS

IOWA PARK, TEXAS, Sept. 11.—The reception given the teachers of the city schools here at the Park Friday night by the Parent-Teachers Association was one of the most interesting entertainments of the year.

The crowd began gathering early and by the set time at 8:00 p. m. for the beginning of the program, the large reception hall at the Park was filled to overflowing. All the teachers were present but two and a beautiful program was well rendered.

The music, both vocal and instrumental was exceptionally good and the frequent applause of the audience expressed their full appreciation. Speeches were made in turn by teachers and trustees and all in one accord express faith in the school term for Iowa Park. Miss Georgia Lanford made a talk on home economics which met with hearty approval.

The campaign was launched by Superintendent W. R. Bradford for a new high school building for the city in his excellent speech which was applauded with much enthusiasm. Refreshments were served and all departed to their homes at a late hour with new inspiration and the pleasant remembrance of a happy evening.

ERNEST CHAPMAN AGAIN PLACED UNDER ARREST

HEALTH OFFICER AT BURKBURNETT TO MAKE REPORT

BURKBURNETT, Sept. 11.—First assistant state health officer, Dr. W. H. Deasley, was in Burk Burnett several days last week, returning to Austin Sunday. He came on the invitation of city officials and made a tour of inspection with special reference to sanitary conditions. Dr. Deasley stated that a detailed report will be made of the conditions as he found them and will be submitted to the city officials within the next few days.

He stated that the sanitary regulations are not being complied with as the law directs in many instances, especially with reference to sanitary sewer connections. He further states that an inspection shows many open toilets in use where sanitary sewers have been laid and that in the event conditions are not remedied in the near future prosecutions will result.

Dr. Deasley stated that water as supplied by the city is not being treated in any form for the protection of consumers against the deadly typhoid germ and that an analysis of the water should be made at once and if found to contain impurities, steps should be taken to remedy the condition.

'CYCLONE' MILLER SHOT TO DEATH IN OMAHA

OMAHA, NEB., Sept. 11.—"Cyclone" Miller, so named because of the cyclone that raged at the time of his birth in St. Louis 25 years ago, was shot to death last night at a soft drink resort which he operated in the city. W. Cline, a neighbor living nearby, is held by the police charged with the killing. Stamps for sets at the Times office.

H. B. HINES SUED FOR \$50,000 BY JAKE CARUTHERS

H. B. Hines and Cal Scott of this city were named defendants in a \$50,000 damage suit filed Monday morning in the 20th district court by Jake Caruthers on the grounds that he was illegally restrained by the defendants from possession of his property located on lot G, block 12, Snyder subdivision of the city of Wichita Falls.

It is alleged in the petition that in June 18, 1928, he was restrained by an injunction writ issued from the 18th district court from proceeding with the erection of a building, the lower floor of which was to be used for merchandising purposes and the second story for residential purposes. He said that the writ was issued upon application of the defendants who contended that the erection of the building was contrary to the zoning ordinance of the city of Wichita Falls.

The plaintiff alleges that he was dispossessed of his property until late in the year 1931 and that by that time his building and property had depreciated greatly. He asks \$50,000 actual damages and \$20,000 punitive damages.

Wichita Falls C. I. A. Club Is Organized Saturday Afternoon; Christmas Banquet Is Planned

Under the inspiration of Mrs. Luther Hoffman and with Mrs. Hoffman and Mrs. Leslie Humphries as hostesses at the first meeting, a Wichita Falls C. I. A. club was organized Saturday afternoon at the Y. W. C. A. with a score or more charter members and another score or more prospective members.

The meeting was called at 4 o'clock at the Y. W. C. A. living room, with 18 former graduates and faculty members of the Denton state college present. Mrs. Hoffman asked Miss Emma Carter, 1921 graduate and former president of the student association of the C. I. A., to act as temporary chairman, and the following officers were immediately elected:

Miss Carter, president; Mrs. Frank G. Lewis, vice president; Mrs. Chester Wynne, secretary-treasurer.

The membership of the new club meeting to make their first social meeting a big Christmas banquet, and a committee with Mrs. Lewis as chairman was asked to attend to plans for the banquet. A meeting around Thanksgiving to decide on other plans for the year were also agreed on, the president to call the meeting through the secretary. Each member was asked to try to see and talk to all other former students or graduates of the C. I. A. and invite them to become members of the club, which will take rank more especially as a social organization.

Those who were present at Saturday's meeting, or telephoned in their request for membership, included the following: Mesdames Leslie Humphries, Mark Moore, Chester Wynne, J. L. Lechridge, Bentley Bacon, Ruth Chorn Martin and Frank O. Lewis, and Misses Georgia Lansford, Winnie Mays Giddings, Frances Cook, Emma Carter, Montague Thompson, Mrs. Carter, Florence Jackson, Beattie Lee Bartlett, Gretchen Avis, Irma Heath and Leona Maricle, members, and Mrs. Luther Hoffman and Mrs. Irene Davidson associate members.

The hostesses, assisted by Mrs. Martin, served a delightful ice cream and cake repast at 5:30, after a social meeting during which two or three little C. I. A. grandchildren were very happily introduced.

LITTLE MARVIN HAMILTON SERIOUSLY ILL IN CALIFORNIA

A message received at the telephone office last week from W. B. Hamilton, at Los Angeles, California, stated that the Hamilton's youngest son, Marvin, is seriously ill. Mrs. Hamilton and the children have been spending the summer on the coast. Marvin is about three, and friends of the family here are anxious to hear a more encouraging report of his condition.

Mrs. Herbert Brown and little daughter, little Dorothy Zane, left today for Dallas and Fort Worth for a month's visit with friends and relatives.

ADVENTURES OF THE TWINS THE WIZARD

Instantly Flap-Doodle turned into a bent-up old man.

Flap-Doodle heard Rubadub, the fairyman, tell Nancy and Nick something that was a howling bear. And at the same time pretty bushes and flowers grew all around with a tinkly little stream flowing merrily along between them.

A pretty arch-way with rose vines growing on it bore some letters which read, "Diddle Diddle! Your name is told for nothing! All magic free! Step in!"

By and by when everything was ready, along came Nancy and Nick and Rubadub.

"Why, I declare!" said Rubadub. "This isn't the Diddle Diddle I was looking for, but I suppose it's as good as any. Let's go in and see if this wizard can help us catch Flap-Doodle and get back the Fairy Queen's wand."

So in they all marched.

STATISTICS AND STYLES KEEP THE WOMEN YOUNG

By MARGARET ROHE

With silver hair beneath their caps, in days gone by our grandmas had dimming eyes and palsied limbs. They'd gently rock and knit and chat.

Today our grandmas seldom sit. They're all too full of life and vim. Their hair is bobbed, nor palsy makes them shake a very wicked limb.

NEW YORK, Sept. 11.—They say a woman is as old as she feels. If that is true then that other cynical statement about the fair sex, that they have no feelings, must be veracious also. Recent statistics show that the average span of life for females in this country has increased 2.71 years since 1910. In our cities the average longevity of the ladies is 73.4 years, and in the rural feminine life reaches an average of 67.41 years. In spite of statistical proof that their years are increasing the fact remains on the face of things that they are also growing younger every year they gain.

A generation ago the average woman of 40 was classed as an aged crone. Her sparse white hairs were peeped up under a cap, her back was bent and her joints were gnarled. She affected flat slippers and woolen lingerie and sat peering through her specs as the world swept past her.

Nowadays the woman of 60 sweeps right along with the jolly old mundane sphere. She kicks up her heels as easily as the swags and is just a few flaps ahead of the flapper flapper. If her hair isn't bobbed, then it is elaborately dressed and the sparkling eyes that look out from under carefully arched brows wink gayly at the advancing years until 60 is a memory and 70 a promise.

With kittenish young flappers like Edna Wallace Hopper confessing to 49 years it's no wonder poor old Father Time looks woe and discouraged.

Hyman on the other hand is beginning to perk up and take notice. When his young brides of 70 like Mrs. Elizabeth Eastman Johnson are led to the altar by dashing 77-year-old bridegrooms like General William F. Knowland, it means both Cadet and Hyman will have to work overtime and no longer expect to sit back and cease all active attention to himself.

Like everything else in which she is given half a chance woman is ahead of man in this longevity business. Of course, there are a few

Spudders Split Even In Final Games of Season on the Road

SHREVEPORT, Sept. 11.—The Spudders wound up their 1922 road season yesterday by taking victory in their final game at Shreveport. They won the opening game 3 to 2 and were blanked in the second, which lasted only five minutes. In both games were hitless, the one outstanding feature of the two contests being a circuit around the bases in the second game. Spudders' pitcher, Ed Hammer, pitched a perfect game in the second game, hitting three times in the ninth. He was hitless in the ninth.

WILL THEY STOP MOBILE?

Left to right—Ed Ross, Paul Wachtel, Joe Fite, Bill Whittaker, Bill Morgan. Above are the hurlers upon whom Mobile is depending to win the Dixie championship this season but the championship of the class A organization has been practically intact for three seasons and has been taken league wide and the Dixie crown for Fort Worth in the last three years. The only new man in the corps this year who is still with the club is Ed Ross, southpaw. The

MAGNOLIAS SWAMP GULF PRODUCTION OUTFIT IN BURN

The Magnolia nine of Burkhardt included in an over of great Sunday afternoon on their own diamond at the expense of Salpe Connally and soundly trounced the Gulf City league champion 19 to 4. The Wichitans were considerably handicapped by the absence of Captain Bill Lowrey, catcher, and Billy Maloney in the outfield and looked for worse than they did when winning the city title.

seventh when they scored eight times on five singles, a couple of passed balls, two errors and a few stolen bases. The Gulf showed a few signs of life in the eighth when they counted twice on Connally's infield hit, a pass and three singles gave the winners their last run in the eighth. The Spudders were out of luck. A message was received from Wattle last night Sunday stating that the club had missed connections and that Monday's game would have to be postponed. Two games will be played at Athletic park, Tuesday with the 1922 champs, the first to be called at 2:30.

NEW YORK CLUBS WIDEN GAPS IN SUNDAY'S GAMES

By Associated Press. CHICAGO, Sept. 11.—With the final battle against their western rivals but two days off, the Yankees and Giants possessed increased margins in the pennant race today as a result of Sunday's victory while their leading opponents were idle. Joe Bush and Walter Hoyt twisted the Hugman to a double triumph over the Athletics, 10-5 and 5-1, increasing the team's advantage over the St. Louis Browns to one and a half games. The Giants mailed Dutch Reuther and Leon Cadore of the Brooklyn Dodgers for a 10-4 decision, putting the champions four and a half games in front of the threatening Pittsburgh Pirates. The New York clubs opposed rival Chicago outfits in a series beginning Wednesday, the Yankees facing the White Sox in the west, while the Giants clash with the Cubs at the Polo Grounds. Ferguson held Washington to four hits and Boston won, 4 to 1, while Cincinnati outdistanced the St. Louis Cardinals, 19 to 5, in the only other major league game played.

FORT WORTH DRAWS FIRST GAME OF THE DIXIE SERIES

FORT WORTH, Sept. 11.—The first game of the annual Dixie championship series between the champions of the Texas league and the Southern association will be played in Fort Worth. It was announced here today. The series will start either Saturday or Sunday the first of the two games being played in Fort Worth and the next three in Mobile. Then the teams will return to Fort Worth for one game, if such is necessary. The best four games out of seven will decide the championship.

PANTHERS 6, GIANTS 7

FORT WORTH, Sept. 11.—Nellis Gray was wild Sunday and a costly error in the first frame cost three runs. Dallas winning 7 to 5. Gray hitting by Stelbauer and Kraft was responsible for most of the Cat runs. Kraft made two home runs which gave him total for the season to 31. This broke his last year's record. Score: Dallas, 6; Panthers, 7.

MOBILE WINS FLAG IN SOUTHERN LEAGUE

MEMPHIS, TENN., Sept. 11.—Mobile under the leadership of Bert Nichols, playing manager and victorious in the Southern association, yesterday took Silver title to the 1922 Southern association pennant and the right to meet Fort Worth, Texas (league pennant winner) in post-season championship of the class A baseball championship of the south. As the race stood after yesterday's game, Mobile had a lead of 51 games with only three more games to be played by that club and other finalist contenders. Memphis before the season's end September 14. Mobile put an end to all conjecture as to the title fight by taking the first game of a double header from New Orleans 3 to 2. The second game was a defeat for Mobile but the pennant already was clinched.

MOBILE, ALA., Sept. 11.—The Mobile Southern association baseball club, in honor of winning the pennant for the season of 1922, were accorded a big welcome here last night on their arrival from New Orleans where they won the game that decided the pennant. Several thousand persons headed by a brass band and a display of fireworks met the train conveying the players and escorted them through the principal streets of the city with torchlight and fireworks procession. Over 1,000 automobiles were in the line of March. A large purse of money has been made up here for the pennant winner.

HOME RUN AND CIRCUS CATCH FEATURE VICTORY

The Wichita All-Stars won from the last Iowa Park aggregation on a diamond adjacent to Athletic park Sunday afternoon in a fast game, 3 to 2. Terbusch pitched good ball for the losers, but a circuit smash by Shultz, Hale with one man on and a circus catch by Parker with two Iowa Park base runners tumbling at the leashes in the last inning prevented him from winning.

AMERICAN LEAGUE

Yankees 10-3 Athletics 5-1. NEW YORK, Sept. 11.—The New York Americans today increased their lead in the American league game to 2 games and a half by defeating Philadelphia, 10 to 3. The game was the last American league contest to be played on the Polo grounds and attracted the greatest outpouring of fans of the year. It was necessary to close the gates at the start of the first game when 10,000 persons were in the grounds. Police estimated 25,000 others were turned away.

SOUTHERN ASSOCIATION

NEW ORLEANS, Sept. 10.—Mobile clinched the 1922 Southern association, the first in Mobile's history, by winning the first game of this afternoon's double header. Mobile could lose her closing game while Memphis won all three of her remaining games and Mobile could not lose. The score was 3 to 2. New Orleans won the second of the double header 5 to 0.

HE'S A HARD-LUCK PLAYER, ISN'T SPECTACULAR, BUT HE'S ON THE JOB EVERY MINUTE

By JACK SMITH. Professional Highland Golf Club, Cleveland, Ohio. A golfer, purely a golfer in every sense of the word, that's Mike Brady. He has never won a golf trophy and he has never won a golf trophy. A hard luck golfer, one who at certain points. He is a common, ordinary sort. A fellow we just can't count play the game. He looks silly, short and heavy set. Can pulled well over the eyes, and he is gone straight down the middle of a consistent average of 100 to 110 yards. Dead to the pin, only one shot.

ATTORNEY CLAIMS NEW ZONING LAW UNCONSTITUTIONAL

Attorney William H. Watkins of this city, who fought the former city zoning ordinance through the higher courts for a period of thirteen months and finally succeeded in having it set aside, in discussing the present case now in the district court, said that a different wording of this ordinance does not alter the situation.

The local attorney also fought the Dallas case through the higher courts and succeeded in having this measure set aside. The supreme court of the state of Texas heard Mr. Watkins' arguments on the case as did two federal judges. Immediately after Judge Wilson of the northern district of Texas voiced his opinion against the ordinance the supreme court of the state also set the measure aside as unconstitutional.

The steps recently taken by the city council to prohibit the erection of business houses in the residential districts have apparently been viewed with indifference by the public, when in fact a question of vital importance is involved. This class of legislation has frequently been before the American courts since the first attempt to justify it on the ground that the municipal authorities had power to prescribe the nature and kind of buildings that could be located in portions of communities, believing that the government was interested in preserving architectural harmony and beauty.

The courts have steadfastly refused to permit the government to say what shall and what shall not be considered beautiful or pleasing to the public eye, realizing that great wrong and injustice would result to property owners in the municipal authorities elected from time to time could indiscriminately prescribe the color, size, design or lawful use to which private property could be put.

It has always been considered elementary that in employing his property in a lawful manner he at the same time cause a deprivation in the value of the use to which his neighbor is entitled to put his property, but no damages can be recovered therefor.

It is dangerous to the welfare of this nation when it is attempted by political means to segregate our people into classes forcibly, as this legislation has a tendency to do. We should strive rather to promote a feeling of tolerance and good will among the citizens of all classes than to destroy their confidence in one another by attempting to throw certain class restrictions upon their liberty and happiness.

The business of the government is to preserve the natural rights that already exist and not to define what may or may not be done.

GAS FACTS

Ask yourself this question: Of the things essential to every day life, which one has been ready for the asking every hour for the past year? It is our ambition and expectation to render the same service during the next 365 days.

"Commodity plus service" is our motto.

MUNICIPAL GAS COMPANY

Published by The Wichita Daily Times, in cooperation with the American Association of Advertising Agencies

It is a maxim of advertising that a poor product cannot be successfully advertised. It may flash upon the scene with brilliance, become the talk of the hour, and to all appearances be destined to set new records, but unless it is and does what is claimed for it, no amount of printer's ink and artist's colors can give it permanence.

Once in a while some article of merchandise will appear to defy this rule, but not for long. Public response, at first, perhaps, quick and active, becomes slower and slower. Sales fall off. The business grows sick, and in a few months or a few years, the very name of the product is forgotten.

Advertising men know this so well that today the first question upon which they must be satisfied before they will recommend advertising to any manufacturer is—Is the product right?

And merchandise that is right—merchandise that will satisfy in service—merchandise that will bring customers back for another purchase is the first requirement of the jobber and the retailer who expect to endure and flourish.

There is no better assurance of this kind of merchandise than an advertising pledge to the public.
