#### A THOUGHT FOR TODAY

Stand fast therefore in the liberty wherewith help hath made us free, and be not entang d again with the yoke of bendage.—Galatiers

Liberty and not theology is the enthusiasm of the present century. The very men who would once have been conspicuous saints are now conspicuous revolutionists; for while their heroism and disinterestedness are their own, the direction which these qualities have taken is determined by the pressure of the age.—H.

Texas-Oklahoma Fair, September 30 to October 4, Wichits Falls THE BASEBALL SEASON.

Viewed solely from a sportive standpoint, the ball season which ended Thursday was a disapment, in that Wichita Falls did not, in the arargot of the sporting page, grab the gonfalon. otherwise, the results are not so disappoint Wichita Falls' third year in the Texas and in each of the three years, we believe, team won itself and its city widespread winning streak that came near to setting son a challenger for pennant honors. It has been

During the on this edition has been increasingly popular, while its sales have never equalled the addial expense entailed by publishing it, The Times did not start it with any idea of selling emagh cop-ies to foot the additional bills. It was with a view to better serving its clientels that the sporting edi-tion was inaugurated by The Times, and the pink sheet has fulfilled that mission adequately.

There is no great danger of the Turk being permitted to run wild in the Near East; there is danger that Great Britain and France will continue to ork at cross purposes and permit the Turk to ree to himself much that he lost during the war. fishness and near-sightedness of those in power in London and Paris are responsible for the exng menace to the countries of the Near East and to the Christian peoples on erstwhile Turkish soil.

If the Turk has an allotted place in the world, it not in Christian Europe; but it is going to take some team-work to put him in his place.

#### KEEP 'EM WET THESE DAYS.

In spite of the fact that it was one of the dryest record, the past summer saw unprecedented re-its attained in the cultivation of lawns, shade es and flower gardens; never before in this city's was there such a wealth of color, of foliage and of beauty as was in evidence in Wichita Falls front yards.

If you want a pretty yard next year, keep pourng the water on the plants these September days. Every gallon of water used from now until frost will may you back next year; this applies to laws, shade fruit trees and flower plants alike, It is a stake to stop watering the grass simply bese the time is not far distant when it will be he will live to see the honus passed.

These pretty front yards are a greater civic asset many folks realize. Start planning now for yours in 1923.

SATURDAY

Because the people in general are beginning to realize what the word Piggly Wiggly means—(Help yourself).

Piggly Wiggly fosters the spirt of independence, the soul of democratic institutions, teaching men, women and children to do for themselves, that's why the Piggly Wiggly system has made such a great success. They afford the people the privilege of helping themselves. We are going to keep the prices of groceries down in Wichita Falls, if we can't keep them down with two stores we will put in two more. Piggly Wiggly is here to stay, and is just one kind of a store for every kind of people.

We want to thank our customers, both new and old for the increased volume of business since we commenced a general reduction in our
