

DEATHS OF MINISTER AND A WOMAN FOUND IN GROVE ON FARM

MADE BEEN MISSING FROM THEIR HOMES SINCE LAST THURSDAY.

BELIEVED TO HAVE BEEN DEAD FORTY-EIGHT HOURS

These Theories Are Advanced By Police In Connection With the Case.

By HARRY E. CAYLOR, United Press Staff Correspondent.

NEW BRUNSWICK, N. J., Sept. 16.—A double murder which bids fair to take rank with the mysterious slaying of Edgar Allan Poe, was revealed today when the bodies of a man and a woman were found in a grove on the farm of the Rev. Edward A. Hall, 62 years old, prominent Episcopal divine, and Mrs. M. J. Miller, 35.

The bodies lay side by side. The man, pastor of the Church of St. John, the Rev. W. J. Miller, was lying on a straw mat over his face—a bullet hole in his forehead.

The woman, wife of St. John's sexton and a member of the choir, was lying on a mat over her face—a bullet hole in her forehead.

Police are investigating the theory that the pair might have been slain elsewhere and carried to the place where they were found and carefully laid out under a tree.

DALLAS MEETING OPPOSE MAYFIELD

(Continued from Page One.)

Dependent's choice to run against Mayfield, was the first to speak at the meeting of the members of his class and advised that the Ku Klux Klan interests were behind the move to oust him from the teaching of the class.

Peddy, who was teacher of a Sunday school class in the First Methodist church Sunday, advised that he was a member of the members of his class and advised that the Ku Klux Klan interests were behind the move to oust him from the teaching of the class.

Peddy's stand for Ferguson in the recent primary brought forth a shower of criticism from Mayfield's adherents. While Peddy was attending Texas University he led the attack of students there on Ferguson.

Mayfield declines to discuss nomination. AUSTIN, TEXAS, Sept. 16.—Erie B. Mayfield, democratic nominee for the United States senate, tonight declined to comment on the report that George E. Peddy, a member of the Ku Klux Klan, had been selected by the republican committee as his opponent in the November general election.

Joe H. Eagle, former congressman from the Houston district, was secretary of the convention. The following vice-chairmen were appointed: Charles King of Corsicana; Ross M. Root of Dallas; J. E. Gosling of Amarillo; Mrs. Walter B. Baker of Waco, and Mrs. Cecil Smith of Sherman.

Harry Miller called the convention to order. George E. Peddy took the chair. Speeches were made by Major Henry Fisher of Houston; Colonel Henry D. Lindsay of Dallas; Mrs. E. L. Lanning; Mrs. Walter B. Baker of Waco, and Mrs. Cecil Smith of Sherman.

Miss Myrtle Sparger of Waco has returned home from a week's visit with Mrs. J. E. McKanna of the Kemp hotel.

Bancroft Nelson of Fort Worth, formerly of this city, is visiting friends and relatives here.

Carroll Reid Pope left Thursday to enter the University of Oklahoma, where he will be a sophomore.

Walter Fryberg is leaving Tuesday to enter the state university.

Miss Grace Donaldson of Winnsboro, Texas, who has been visiting friends in this city for some time, left for Denton, Texas, where she will enter C. I. A.

George E. Peddy left Saturday for Vernon, Texas, for a short visit with friends there.

Harold Macdonough left Sunday morning for College Station, where he will attend A. and M. college.

Mr. and Mrs. E. Davenport of Fort Worth are the guests of Mrs. Davenport's parents, Mr. and Mrs. J. R. Walker.

Cornelius Chewing left Sunday for Austin, Texas, to enter college this year as a freshman.

Mr. and Mrs. Clarence Moore will leave shortly for Dallas, where they will reside for a while. Their home on Victoria street, Fort Worth, is being sold.

Mr. and Mrs. P. A. Oakes will leave this week for Fort Worth to make their home.

H. C. Bishop of Dallas came up Saturday for a round or two of golf with Judge H. W. Welden.

Dr. M. R. Garrison and wife returned Saturday from a week's vacation at Fort Worth and Colorado Springs.

Tommy Thompson, formerly of the Wichita Motors company, has left for Miram, Arkansas, where he will make his home with his parents.

Paul Blak, of Iowa Park, leaves this week for Austin, where he will enter Texas University.

Mrs. E. C. Young will return Sunday from a two month's stay in Colorado Springs.

WAR THREATENS TEN NATIONS IN EUROPE

(Continued from Page One.)

The allied fleets and armies hold the situation in the Balkans, it is impossible for the Kemalists to penetrate to Thrace, invasion of which would ignite a general Balkan conflagration.

Speakers declared the republican party in Texas would endorse an independent democratic candidate, if elected by the convention.

Major Henry Fisher of Houston, in charge of the anti-Communist headquarters in that city, read telegrams to the convention, one reading from Leopold Morry, Victoria: "You can count on Victoria, Fort Worth, and the surrounding territory, if you will only stand by the peace of Europe. Special preparations are being taken in Constantinople to hold down the first broad element of Moslems, which would eagerly join in massacre of Christian residents there."

Regarding the probable lining of nations in event of spread of the fighting, which is confined to Asia Minor, probably will not jeopardize the peace of Europe. Special preparations are being taken in Constantinople to hold down the first broad element of Moslems, which would eagerly join in massacre of Christian residents there.

MARKET REFLECTS STRUGGLE OF BULL AND BEAR FACTIONS

SOME BUYING NOTED PARTICULARLY OF HIGH GRADE RAIL SHARES.

NEW YORK, Sept. 16.—The irregular course of prices in the stock market reflected the struggle between professional bull and bear factions, consolidation interests generally hesitating to engage in further commitments because of the rail and coal strike situation.

Reliable brokerage houses regard the future with a bit of uncertainty and most of them have requested buyers to restrict their purchases to their market operations. Business conditions throughout the country are still far from normal, but decidedly "on the mend."

Carloadings continue to increase, bituminous coal production is now above normal and fair progress is being made for the mining and movement of hard coal. Steel production also is steadily increasing, but freight embargoes are beginning to have a restricting effect on shipments.

The United Press learned authoritatively that the allies are organizing a committee to coordinate their efforts in every direction to prevent a spread of the fighting, which is confined to Asia Minor, probably will not jeopardize the peace of Europe.

DEMOCRAT SLAPS REPUBLICAN'S FACE IN HOUSE DEBATE

WASHINGTON, Sept. 16.—With his open palm, Representative Oliver, Democrat, Alabama, today slapped the face of Representative Dampney, Republican, New York, a slap on the cheek in the house today during the debate on the bill authorizing an appropriation for the university.

After the house adjourned, Mr. Oliver and Mr. Dampney shook hands and the New York representative said the Alabama member had apologized and they were again "the best of friends."

WASHINGTON, Sept. 16.—Information that President Harding had made up his mind definitely to veto the soldiers' bonus bill reached senate leaders today from some of his close advisers. They said his message of disapproval would be sent to the house next Tuesday.

After receiving this word, the majority leaders today made an informal motion to concur with a senate amendment which would reduce the appropriation for that particular bill.

The Alabama representative declared Mr. Dampney, in a manner which he considered offensive, had "smacked him on the face."

"I won't give you any time," "I resent it as any gentleman would," said Representative Oliver, "I smacked him with the palm of my left hand on his face."

WASHINGTON, Sept. 16.—The irregular course of prices in the stock market reflected the struggle between professional bull and bear factions, consolidation interests generally hesitating to engage in further commitments because of the rail and coal strike situation.

SIX OF BRIGADIER GENERALS ADVANCED TO MAJOR GENERALS

WASHINGTON, Sept. 16.—President Harding approved today the selection of six brigadier generals to be promoted to major generals and thirteen colonels to be brigadier generals, the largest promotion list of high ranking army officers ever announced in time of peace at one time.

Brigadier generals to be major generals as given in the list: Andrew Brewster, on duty "vac department retirement board," George E. Duhamel, commanding 14th infantry brigade, Fort Omaha, Neb.

Ernest Hinds, on duty war department retirement board. The 13 promotions were made possible in part by the recent voluntary retirement of five major generals and two brigadier generals from active service, which also made it possible for the army to retain the services of thirteen colonels who would have been separated from the service by the reduction in that grade in accord with acts of congress.

PEAN EASY TERMS FOR PURCHASERS OF IRRIGATED TRACTS

WILL BE MADE POSSIBLE BY ORGANIZATION OF JOINT LAND BANK.

CAPITAL STOCK OF \$250,000 IS PROPOSED

Would Provide For \$3,750,000 in Loans; Plans For Other Organization Under Way.

The steps taken by the chamber of commerce Saturday morning for organization of a joint stock land bank point to the possibility of irrigation farmers being able to acquire tracts on extremely liberal terms. If the bank is organized under the prescribed plan, loans may be made on an amortization basis, whereby a purchaser would pay seven per cent on the principal for 25 years, when the loan would be wiped out.

A joint stock land bank with a capital of \$250,000 is proposed. The law allows such a bank to make loans to the extent of 10 times the amount of its capital, so that a total of \$2,500,000 in loans could be made.

Such an amicable system is made possible by the fact that the notes are tax free and the rate of return is better than that on government bonds, making them readily marketable.

The organization of such a bank has previously been discussed by the chamber of commerce directors and it is expected that definite action will be taken soon. In view of the approach of the time when the lands can be put on the market.

Separately organized, but having a direct connection with the land bank, there will probably be a holding and selling company, the plan for which are set forth in the letter from W. S. Curlee to the directors.

Mr. Curlee's letter follows: "My dear Sir:—As I see it, it is necessary that some local organization be perfected in order to handle the irrigation project in going to depend entirely upon the outside purchasers and the stimulation of the speculative feature prohibiting exorbitant prices on land to the actual settler. It is imperative to expect that any large amount of land in the irrigation district will be sold to local people. First, because very few people here understand irrigation, second, it would be impossible to transport the lands, the necessary expense that would make it unprofitable by local people. Then, if this is true, the only method by which the stock of lands can be handled successfully and by the most practical means would be through an organization perfected for that purpose. Regardless of whether any project is successful or not, the sale of the land must be handled through an organization, whether local or foreign—it has al-

ways been done that way and cannot be done except on a system worked out for the purpose of procuring outside home-seekers. Now the method and organization which was suggested are—An organization to be divided into three distinct branches, a selling company, and holding company and a financial company comprising capitalization of \$10,000 to \$100,000 divided into sufficient amounts to take care of each branch of the organization.

The selling company would of course require approximately \$10,000 within the near future for preliminary work and for the purpose of establishing agents throughout the eastern district with assembling stations at points best suited for this purpose. Out of this fund would of course be advanced sufficient money to defray the expense of general agents to be charged to their accounts and payable out of commissions on land sold by them. The manner of sale handled through commission and done at intervals through already established organizations. The agents-commissioned by the local organization, and the difference in a local organization and an outside organization will be this:

The outside organization will be interested only in the sale of the land—the local organization will not only be interested in the sale of the land but will be interested in seeing that the land is sold at a proper price and to actual settlers; in other words the local organization must, after having sold a man, see that his welfare is the welfare of the community and that the product of his farm shall receive a ready and reasonable market.

I think this is one of the most important and urgent matters the chamber of commerce might consider at this time. It is bigger than I am able to demonstrate and I would like for the chamber to consider this matter within the next few days.

W. S. Curlee, Secretary of Chamber of Commerce, Wichita, Okla.

manor and time of irrigation and for the purpose of securing suitable tracts of land for intensive cultivation and demonstration.

"If an organization of this kind is recommended by the chamber of commerce and is given its support, it would probably be necessary to establish a club house and demonstration farm, near the city, preferably at Lake Wichita or at the diversion dam, provided sufficient land can be obtained for the purpose indicated above.

I think it should first be thoroughly understood that it is no small enterprise for any community to undertake to sell to actual settlers fifty thousand to one hundred thousand acres of land in small tracts, and if Wichita Falls is to make no mistake in handling this project, after having made it possible, the chamber of commerce must realize that some such organization must be perfected for the purpose and if local organization is desired, some outside organization will take up the matter with no local interest attached; the result would probably prove very satisfactory in the end.

The difference in a local organization and an outside organization will be this: The outside organization will be interested only in the sale of the land—the local organization will not only be interested in the sale of the land but will be interested in seeing that the land is sold at a proper price and to actual settlers; in other words the local organization must, after having sold a man, see that his welfare is the welfare of the community and that the product of his farm shall receive a ready and reasonable market.

I think this is one of the most important and urgent matters the chamber of commerce might consider at this time. It is bigger than I am able to demonstrate and I would like for the chamber to consider this matter within the next few days.

FREIGHT STATION OF KATY BEGINS TO TAKE ON SIZE

The new freight depot and office building of the Katy, in course of construction at Ninth and Ohio streets is beginning to take on shape and size. Practically all of the first story walls have been erected and the ground concrete construction work has been completed.

Officials of the railroad company state that the work on the building has progressed much more rapidly than was anticipated and it is now believed that barring any serious delays and bad weather conditions that the building will be ready to be occupied by December 1.

The original plan of the company was that the new structure would be ready for use by the first of the new year.

VERDICT OF CORONER IS OIL OPERATOR SUICIDES

BRIDGEPORT, CONN., Sept. 16.—Coroner Phelan, in a finding today, said that Fidel S. Henry, New York oil promoter, who was found dead near his summer home at Campville last Monday night, committed suicide. The body was discovered leaning against a tree with a shotgun across the legs. Part of the head had been torn away.

Henry was a Yale graduate class of 1894 and came east three years ago from Tulsa, Okla.

3 TRIPS FINISHED BY C. OF C. TEAMS, PLANNING 2 MORE

NEXT CARAVAN WILL VISIT FAIRS AT VERNON AND SEYMOUR.

TRAIN TRIP TO BE MADE TO ABILENE FAIR.

Manigum, Frederick, Childress, Dunsmuir, Crowell and Ryan Have Been Visited.

Three very successful automobile trade trips to points in Oklahoma and northwest Texas having already been taken, plans were rapidly being completed Saturday for the fourth trip, which it is expected will have a larger personnel than any of the others.

This trip, which will be taken next Friday and Saturday, will carry Wichita Falls message to Vernon and Seymour at both of which places fairs will be in progress. It is expected that not less than a dozen automobiles will make the caravan, which will leave for Vernon early Friday morning, spend Friday and Saturday night there, proceed to Seymour early Saturday, and return home late Saturday evening.

Early in the following week, the last trip on the schedule will be taken, to Abilene. This trip will be made on a special Pullman car, going down one night and coming back the next. The entire day will be spent at Abilene.

Wagon at Decorators Co.—Adv.

COAL CAR ORDER AFFECTS COUNTY IN ROAD PROGRAM

The coal car order of the interstate commerce commission served to put a crimp in the carrying out of the county's road construction work during the past week. Due to the lack of a supply of sand, Potts and Prentice were able to operate only three days during the six.

All open cars are to be used in the carrying of coal, according to the order and for this reason the sand pits which have been supplying the county with sand were unable to secure cars in which to ship the material.

During the three days that the two mixers operated a total of 2180 feet of concrete were laid on the Burnburn-City road. Mr. Potts stated Saturday that in all probability the road would not be completed by October 1, as was first anticipated. The shortage of cars and the delay in transportation he stated would make them fall short of completing the road at that date by probably two or three weeks.

On the Iowa Park-Kemp City road, the contractors have completed approximately a mile and a half of gravel road.

DISPLAYS BUNDLE OF NERVE; FORGES CHECK ON SHERIFF

Sombody may be presented with a set of steel bars as a commemoration for possessing a real bunch of "nerve." This certain individual, whose real identity is not known, took it upon himself to forge Sheriff Fred K. Smith's name to a check, present it and leave with 11 simoleons safely tucked away in the farthest and deepest corner of his jeans.

The discovery of the forgery was made when the cancelled check for last month's business were returned by the bank to the sheriff's office.

The check was made payable to J. Stephens and in parenthesis back of the man's name was placed "negro."

No arrests had been made in the case at a late hour Saturday.

Got the Real Thing

For five long years I suffered with stomach trouble and what the doctors called gall stone colic, and all said nothing but an operation would do me any good. A friend who had taken your medicine advised me to try it, and I found it to be the real thing. I feel better than I have in eight years and I am grateful God for Mayr's Wonderful Remedy. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—adv.

MOTHER!

Move Child's Bowels with "California Fig Syrup"

Hurry mother! Even a sick child loves the "fruity" taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow. If constipated, bilious, feverish, fretful, has cold, colic, or if stomach is sour, tongue coated, breath bad, remember a good cleansing of the little bowels is often all that is necessary. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

ADMINISTER VERY SEVERE BEATING TO FARM TENANT

J. C. WARD IS TRICKED FROM HIS HOME BY PARTY OF UNKNOWN MEN.

SUFFERS TWO BROKEN RIBS BY BEING KICKED

Six Ruffians Take Him to Isolated Spot Near Petrolia and Apply Strap.

Tricked from his home, beat over the head with a gun, kicked in the ribs and beaten nearly to insensibility, was the experience had by J. C. Ward, a tenant on the Frisberg farm in the Cooper district Friday night.

Six men were in the party who took Mr. Ward from his home and drove him to a spot near Petrolia and administered the beating with a leather strap. After recovering sufficiently to stand up he walked to Petrolia and sought the aid of an officer there. Sheriff Fred K. Smith was called at 1 o'clock Saturday morning. After spending practically the entire morning, Sheriff Smith returned stating that he was unable to get a satisfactory description of the men who had taken part in the affair.

Ward stated that shortly after sunset Friday night he was called to the front gate of his house. He stated that he saw only two men. He was informed they wanted to inquire as to the direction of Wichita Falls.

When he heard the scene, a revolver was thrust in his side. He made a grab for the gun and a brief tussle ensued, but he was conquered as four more men came into sight and assisted their two companions. Placed in a waiting automobile he was told of reports regarding himself.

"We have been watching you for some time and now you're going to get a good beating," one of the men said. "I remember for a long time to come," one of the men said.

Mr. Ward told officers that he started to fight, but he was overpowered, telling them that they were mistaken. They would not listen to his pleading, he said, as he started to fight. It was then that he was struck over the head with a gun and kicked in the side.

At a point about two miles from Petrolia the automobile left the road and turned into a pasture. In a secluded spot he said they took off his clothes and applied a leather strap. He told officers that he could not remember anything after they had given him ten lashes.

When Mr. Ward arrived in Petrolia, a physician was called and an examination revealed that two ribs had been broken.

Objects When Engine Is Started While He Works Underneath

A straw boss who was at work underneath a big locomotive in one of the local shops with two helpers objected most strenuously Friday night when a man started the locomotive. His first objection was voiced when he called and secondly when he climbed up into the cab and shook the man loose from the throttle.

The third objection was made known when his right fist started in the direction of the other man's face. There was some little tussle and the man who had been working around one of the axles of the engine when it was started just got himself loose in time to see the final blow.

GUINN WILLIAMS GOING TO HOSPITAL FOR AN OPERATION

WASHINGTON, Sept. 16.—Representative Guinn Williams of the 13th district in Texas will be unable to leave for home upon the adjournment of congress as he will enter the Johns Hopkins hospital next Monday for a slight operation. This, it is anticipated, will keep him in the east for several weeks, but he will return to Texas just as soon as the doctors feel he will be able to stand the trip.

OUT OF TOWN FAIR PATRONS CAN OBTAIN THRIFT TICKETS

It is not intended that Wichita Falls shall monopolize the thrift tickets offered for admission to the fair, it was stated Saturday at Texas-Oklahoma fair offices. Although no effort to sell them outside the city has yet been made, any one wishing to buy them may mail check to the fair association, and the tickets will be sent by return mail. It is expected that before the sales campaign ends, many of the neighboring communities will have been visited by salesmen.

Evangelical Church. Corner Fifteenth and Broad. Big fall day program in Sunday school next Sunday at 9:15 a. m. On account of the rain last Sunday we were unable to render our program last Sunday. Will give you a good entertainment. Sunday morning everybody come and bring some one with you. A souvenir for all. There will be no preaching services in the morning. Will talk to the Sunday school for a short time. T. P. A. 7:30 p. m. followed by preaching service by the pastor.—OEO. L. TRABOUT, Pastor.

WHAT MOTORISTS SHOULD KNOW

In California they discovered something of vital interest. About half of all motor mishaps are due, not to defective brakes or defective tires or defective lights, but to DEPECTIVE VISION. Investigators in Cleveland have reported similar findings. In Detroit, it was revealed, an ocular condition existed among motorists that is really appalling. Some day state law will require an optical examination before granting a motorist a license, and will thereby prevent much grief and worry. Wouldn't it be wise—wouldn't it make you as a motorist and your family feel easier—to KNOW that YOUR EYES are right instead of guessing. We think so, and suggest an examination, which takes but a short time, and yet is scientific and efficient. We'd be glad indeed to have you phone 5191 for an appointment. CONFIDENT NEGRO IS 'IKE' ELLIS, ESCAPED CONVICT

Upon receipt of the identification card and a photograph from the Texas state prison system, the sheriff's department is convinced that the negro prisoner they are holding here is "Ike" Ellis, an escaped convict.

Ellis was sent up from Potter county for murder for a term of 15 years. He made his escape a year ago and last Sunday night he was placed under arrest by the sheriff's department.

DODGE BROTHERS ARE ERECTING ANOTHER NEW BUILDING AT FACTORY

Following recent completion of a vast construction program costing \$2,000,000, Dodge Brothers, Detroit, have broken ground for another huge eight-story building requiring an additional investment of \$1,500,000. In this new unit, 64,000 feet of floor space will be provided. It will be devoted largely to closed body work. The new principle of all-steel closed body construction developed by Dodge Brothers has generated a rapidly growing demand for this type of body. The new plant will provide much needed space for assembly, assembling and storage of the all-steel closed bodies. Many large presses and enormous electrically heated enameling ovens will be installed, and warehousing space will be provided.

FRANK B. LOGAN IS FIRST NUMBER ON BIG LYCEUM COURSE

Frank B. Logan, a famous cartoonist, is the first number of the lyceum course which will be given this fall by the young people of the First Christian church. This first number will be presented at the church auditorium the night of September 23.

Before sailing in the United States navy, Mr. Logan had been a newspaper cartoonist. In France as an officer he walked away his spare moments by sketching the scenes that presented themselves there. Only a part of the program he offers is devoted to war pictures.

WICHITA FALLS DAY AT BAYLOR COUNTY FAIR WILL BE SEPT. 28

ORTH-STEELSMITH PARKER RANCH WELL IS NEAR-SENSATION

ADDITIONAL LOCATION MADE AND MUCH TRADING IN ACREAGE.

WATER SITUATION AT ELECTRA IS IMPROVED

Activity Being Revived to Some Extent. Completion in Brazos Bed in Young.

The Orth-Steele-Smith well on the R. Parker tract, brought in several days ago from a sand at 1,200 feet, is attracting much attention from the fraternity and bids fair to lead to much more development than was at first indicated.

Already two additional locations have been made, and there is a brisk trading in acreage, with prices from \$500 to \$750 per acre. The well made several flows Friday and Saturday, and is expected to be a 100-barrel or better.

The well is about two miles southeast of the Electric Park pool and has some shallow production at 750 feet, in its immediate vicinity.

The owners of the well tried without success, to interest a number of Wichitans in their proposition, and finally proceeded on their own hook. They control a large amount of acreage in the vicinity and it is expected that considerable further development will take place.

The bringing in of this well was easily the feature of the week in local oil circles.

Water Situation Improves

With a six foot rise in Beaver Creek the drought which had practically shut down over half the drilling wells in the Wichita pools and especially the South Electric district where the greatest activity is shown was broken last week to the joy of operators and workmen engaged in the industry.

On account of the situation caused by this shortage no completions of importance were reported during the week; however a number are on the verge of activity, and only waiting for water to drill in.

The Kruger well in section 13,

Wagoner lands, was put on the pump and is producing 100 barrels from the new sand at 1450 feet. The Texas company on the Wagoner with the aid of the company's own water line have obtained drilling in the four tests in the south pool. On the Grand Jennings tract the McClure Drilling company has set casing on the sand while Green and others are down 300 feet in their No. 2 which is an effort to the Kruger well. Several rigs have resumed drilling on the Griswold Oil company's lease in the Burnett land and producers are looked for during the coming week.

The Magnolia Petroleum company is arranging to drill a deep test to a depth of 2500 feet on the L. P. Douglas tract east of Electric, in an effort to uncover a deep productive stratum in the belief that it will be found not on the crown of the structure but on the outer edges of the prolific fields. The same company is rigging up a deep test on the southwest quarter of section 34 on the Anson ranch and in the event of bringing in producer will mean the extension to the south of the Piper and H. T. C. pools.

Get Well in Young Country. The first well to be drilled in the bed of the Brazos river proper, although O. B. Colquhoun and others drilled some wells in the bed of the Clear Fork in the southwest part of this county and got some good producers.

Over a hundred miles of the Brazos river in Young county, and if it continues to be as productive as the tests that have already been made it will be a valuable asset to the state of Texas, as the royalty derived from wells drilled in the river beds of the state goes to that fund.

The Fred B. Foster Oil company has erected three absorption tanks sixty feet in height at their gasoline plant south of Graham and are building in the stills, storage tanks and other equipment for an up-to-date absorption gasoline plant.

The Foster company has at present two producing wells and three wells drilling at various depths on their lease. An unusual amount of activity is noticeable in the immediate vicinity of these leases.

An irrigation matter in which there is much interest among those effected will probably be gone into thoroughly within the next week; this has to do with the north agricultural construction and the further organization of Water Improvement District No. 3. The directors of the two districts will probably get together on these matters before the end of the month. It is considered probable that a portion of the north side ditch will be dug, but it is doubtful whether the entire distance to the Charlie community will be contracted for in the near future.

A crew of engineers will start work shortly surveying laterals to be served from the south side canal and the results of this will determine what lands not on the main canal are to be irrigable. The distance from the south ditch of lands that will be reached by the water will vary widely, according to the terrain.

The water situation in Eastland county has been improved by the rains of the early part of the week and many tests are preparing to resume drilling.

The most interesting news for the week is reported from the Pioneer section of the county where several good producers were added to the field. Among them was the No. 4 well of the McClure and associates on the Armstrong tract north of town which came in for 500 barrels from the 1440 foot depth making the eighth producer from the Moore and Armstrong tracts.

In the townsite on block 22 the Greeney well was finished with a production of 400 barrels, and two others were completed nearby on block 20 and one on block 21, making three completions in 24 hours, totaling over 1,000 barrels flush production. Knight others on the Len Irvin tract completed another good well for over 300 barrels from the usual sand and the No. 2 well of the Kimmel on the Kersch lease that came in early in the week has increased its flow to 350 barrels.

Activity in the semi-wildcat territories is looking better since the rains and drilling has already begun on several that has been shut down ever since developments are going on everywhere making this with the Eastland and Lake districts one of the most active counties in the north Texas district.

BIG DREDGE BEING ADJUSTED TO ITS MAMMOTH TASK

HAS MOVED LITTLE DIRT SO FAR, OWING TO MINOR DELAYS.

SPILLWAY EXCAVATION PROGRESSING RAPIDLY

Surveyors Are Locating Laterals On South Side to Determine Extent of Water.

Activities on the irrigation project last week centered around the storage dam, where the starting of operations early in the week by the dredger T. B. Noble marked the entering of a new and important phase of the work. Construction work on the service spillway, another of the massive features of the undertaking, is also well under way at that site, though it will be some weeks before pouring of concrete starts.

The dredge has made relatively little progress so far, its operations being delayed by the troubles incident to adjusting it to the big task it has under way. Some fuses have blown out, a few of the bearings have given trouble, and there have been other minor difficulties which are expected to be straightened out within a short time. A force of men is at work night and day getting the big machine adjusted.

Steady progress is being made on the excavation for the spillway, but it will be a month or six weeks at least before pouring of concrete can start.

An irrigation matter in which there is much interest among those effected will probably be gone into thoroughly within the next week; this has to do with the north agricultural construction and the further organization of Water Improvement District No. 3. The directors of the two districts will probably get together on these matters before the end of the month. It is considered probable that a portion of the north side ditch will be dug, but it is doubtful whether the entire distance to the Charlie community will be contracted for in the near future.

A crew of engineers will start work shortly surveying laterals to be served from the south side canal and the results of this will determine what lands not on the main canal are to be irrigable. The distance from the south ditch of lands that will be reached by the water will vary widely, according to the terrain.

PARK FLOWER BEDS BEING DAMAGED BY YOUTHFUL VANDALS

Complaints are being made almost daily to the police station that the park on Ninth street is being abused by children. The city has had to considerable expense in furnishing these beauty spots only to see the shrubs and flowers destroyed.

Friday night flood plain was damaged in this way to a great extent Jake Burk, who has had charge of beautifying and making these places attractive, has turned the matter over to the police.

However, a special officer will protect the parka with instructions to arrest anyone molesting the shrubs and flowers. If this method does not prove effective the city will make grass plots of them and do away with the flowers.

NEARLY \$17,000 IN BUILDING PERMITS ISSUED LAST WEEK

Building permits for the past week amounted to \$16,871. Nine permits were granted during the week, as follows:

Stamper Baking company, 1413 Lamar, repairs estimated at \$5,000.

TWO BURKBURNETT BOYS' EXPEDITION IS CUT SHORT HERE

An ardent desire to see the world at any price landed two Burk Burnett boys in the city jail Saturday morning. Both give their ages at 15 years.

One of them signed a statement at the police station Saturday morning admitting his connection with the theft of two rear castings from a U. M. C. truck in Burk Burnett. The boys were arrested while they were making an effort to dispose of the tires at a local garage. In his statement the youth declared that it was his first offense and that he had planned a trip to Kansas and was in need of funds. He hoped by the sale of the castings to secure a portion of the railroad fare.

The Woman's Auxiliary of the First Baptist church will meet Monday afternoon at five o'clock at the church. The program will be in charge of the president, Mrs. W. E. Miller. Devotional will be led by Mrs. E. W. Williams and Mrs. T. M. Smyre will give a talk on "The Growth of State and Associational Missions." Mr. Young will contribute a musical number to the program.

OIL MEN, ATTENTION. Two thousand feet moving pictures just out covering Texas fields including Koss. Also portable projector. First 1400 takes outfit. Duffey Maps. Phone 4021.—Adv.

VICTROLA

Only the Best Instrument Could Be So Famous

All over the world, wherever the finest music is heard, the Victrola is the chosen instrument. Both in the quality of its music and the number of instruments actually in use, the Victrola stands supreme.

Complete and lasting satisfaction cannot be obtained through an instrument which is something less than the best—so be sure the instrument you buy is a Victrola and bears the Victor trade marks.

It is significant that the greatest artists have chosen the Victrola to reproduce their art. They know music and they are Victor artists because Victor Records have so faithfully recorded their interpretations, and because the Victrola is the one instrument which reproduces them in a manner that meets their entire approval. Such absolute fidelity is due to the fact that Victor Records and the Victrola are specially made to be played together.

YANKS BEAT THE BROWNS; VIC KEENE LOSES HARD GAME

Yanks Win Pitchers' Battle; Sister Back in Game; Witt Hurt

SPORTSMAN PARK, ST. LOUIS, Sept. 16.—Bob Shawkey bested Urban Shooker in a pitchers' battle and the New York Yankees defeated the St. Louis Browns 3 to 1 today in the first game of a three-game series which is generally believed will decide the championship of the American league.

The victory put the victors a game and a half in the lead of the season race. The Yankees, who have won seven hits and are leading no base on balls, Shawkey was supreme throughout in his lead. With Shooker who touched for nine hits and issued two walks, New York counted its first run in the second inning on Jacobson's double, advanced to third on Ward's sacrifice and scored on Scott's single. The Browns scored in the third on Dugan's single. Ruth's single and a sacrifice by Phipps.

The Browns scored in the sixth on a single, Shooker's infield out and singles by Tobin and Foster. Sister hit into a double play, leaving Phipps, who was considerably hurt by the local.

Sister's two base hit in the fourth inning marked the first time since the game in which the local first baseman has hit. His performance was the major league record for a player in a game. Sister's hit was a double, the first of the Detroit Tigers in 1933.

Sister's hit was a double, the first of the Detroit Tigers in 1933. The crowd which filled almost every available foot of space inside the park and spilled over on the street field at times viewed the contest with interest. Many fans were refused admittance shortly before the game, and the park was packed to capacity and overflowing. Hopes were stretched and reinforced, while spectators outside the park were disappointed. Some of the fans had waited outside the park from Friday night until early today to see the game which is many people's favorite.

Lawson "Valley" Witt, center fielder for the New York Yankees, was hurt in the fourth inning when he was struck by a pop fly, presumably thrown by a fan. Witt was carried off the field by yellow players and taken to the club house, where physicians announced that he was seriously hurt. Witt was examined by several doctors, but it was announced it did not seem that Witt could prevent Witt from playing for several days. Witt was with which he was hit. Witt was hit in the chest by a pop fly, which was thrown by the pitcher.

Two base hits, Jacobson, Sister, Phipps, advanced to third on Jacobson's double, advanced to third on Ward's sacrifice and scored on Scott's single. The Browns scored in the third on Dugan's single. Ruth's single and a sacrifice by Phipps.

Chicago, Sept. 16.—Chicago celebrated its recent marriage to the Cleveland Indians by holding the Cleveland Indians to four scattered hits, Philadelphia winning the first game of the series 4 to 1. The game was played at the stadium in Philadelphia.

Pat Moran at his best with new men. Pat Moran simply wouldn't have been back when he discovered that the Boston Braves had an all-time Jack won't turn up with the Braves, who may help a lot in the direction of a pennant that is being fought so much about. Will Robertson of the Dodgers and Branch Rickey of the Cards have been mentioned as the best results.

FORT WORTH IN UPROAR ON EVE OF THE DIXIE SERIES

Each Manager Expected To Use "Ace" in First Game—Pate vs. Henry

By GEORGE E. HUGHES, United Press Staff Correspondent.

PORT WORTH, Sept. 16.—The eve of the classic "Dixie" series finds Fort Worth tonight with nothing but baseball to be heard on the radio.

This town, with two successive Dixie championships dangling from the Panther Park masthead and accustomed to such things, is not unduly excited.

The champion Mobils Bears seemed into every day morning and were welcomed at the station by a large delegation of fans. Manager Bert Hirschoff met his man in good condition for the start.

President Wamscher of the Mobils club and a large delegation of fans will arrive Monday morning.

Managers Hirschoff and Atz would not discuss their battery choices tonight for the opening game, but "wise" ones" hoped that neither would trust the "revelation" game to any other than their "ace" batsman.

"Lefty" Joe Pate and "Dutch" Henry are generally conceded to be the cream of the two pitching staffs and likely tonight to be the main events. It is believed.

Patrons Favorites.

The Panthers were given 7 to 5 favorites here tonight to take the series, although the opening game was causing very little wagering. Most of this was said to be at even money.

Low hanging clouds this afternoon have disappeared before tonight but the best forecast obtainable for tomorrow's curtain raiser was "probably cloudy, not much prospect for rain." This came from Dr. Joseph Cline of the Dallas weather bureau. Cline explained that cooler weather was expected tonight and this probably would dispel any rain clouds.

When received seats went on sale early today, some 2,000 weary fans dragged themselves into the cigar stores and other dispensing places after an all-night vigil on the sidewalk. Secretary of the Panthers announced that every reserved seat had been taken before noon.

General admission seats will be sold at the park Sunday and preparations have been made to care for a capacity crowd of approximately 12,000 fans.

Many small boys reaped a harvest for their valiant efforts in the night-lights. One of these was said to have realized \$40 for his night's work "in the line." The line which began forming at 11 o'clock and extended two blocks from two cigar stores by this morning.

Many of the fans walked away the night at dominion cards and checkers, while others brought their blankets and made the best of it. Several women, some elderly, were in the line.

There has been no reports of tick-tack or scolding, adequate police on duty preventing the person and youth to children.

Johns is cheered.

The champion Panther Cajs are being praised on every hand. One of them received the open admiration of a flock of kids this morning. Young "Lefty" Johns swaggered down Houston street shortly before the eve of the start and every small kid there trailed him.

Manager Jakey Atz is still hobbling around on his cane, unable to walk without aid, and the fiery leader of old. There will be no "dragging out" of the series if Atz can prevent it. Only two tickets to "strangle" man of Texas baseball has pledged himself to the shortest route possible for the series, and says he has to take the straight.

Panther Park, with its closely clipped beautiful grass, was in splendid condition for the start.

Debutants tonight had very little to base predictions on for a walk-away for either team. Some pointed out that the eve of the start probably would exist among the Cajs, would prove their own greatest enemy. Mobils supporters declare the Southern League champions are far above the team that came here last season from Memphis and, at the same time will not meet with the most machine as Atz was able to put in the field in 1921. The Fort Worth infield is conceded to be weaker in both defense and offense this season and the pitching staff, while considered the best in class A baseball, is not rated far above the Mobils hurler.

Fort Worth is generally given the edge in the outfield with four men hitting close to or above the 300 mark.

There is nothing to choose between the two catching staffs. Both teams are able to put the bat to face left or right handed pitchers and handle the job in first class shape.

The probable line-ups:

MOBILS: 2b Williams, rs Cline, cf Nishoff, 3b Mulvey, cf E. Williams, 1b Mullen, 3b Hahn, 1b Tanager, c Moore, p Henry.

PT. WORTH: 2b Coombs, cf Cline, cf Mulvey, cf E. Williams, 1b Mullen, 3b Hahn, 1b Tanager, c Moore, p Henry.

Profits of 1922 Will Be Spent Principally For Hurlers, Says Harvey

A declaration by President E. O. Harvey of the Wichita Falls baseball club that the profits of 1922 will be spent principally for the benefit of the hurlers, was the only incident of moment that has happened around the baseball office since the close of the season. None of the 1922 Spudders have been assigned for 1923 yet and Skipper Walter Salas, before leaving for Fort Worth to attend the Dixie series, was decidedly reticent about his plans for next season.

Though disappointed because they failed to win the second half at the hands of Dallas and Fort Worth, the Wichita Falls fans had been very generous during the entire season and as soon as the strain undergone during the last few weeks of the campaign of the owners, however, that there will be a real pitching staff at Athletic park next April and that they will not have the big show means they will have to wait until the middle of July.

something to think about during the coming month and Fred Becker, Detroit, 328; Williams, St. Louis, 277; Miller, Philadelphia, 326.

Becker Paces Mynst.

Deals Becker, outfielder with the Kansas City club, is the new champion of the American association, Becker, in his last eight games, collected 16 hits, which shot him from fourth to third with three points behind Mynst of Milwaukee, who is leading with an average of .367.

Jumped ahead of Jay Kirks of Louisville and Wilbur Good of Kansas City, who are leading with an average of .265, and Good fourth with .252. Becker also is considerable home run hitter with 24 to his credit in 10 games, including games of Wednesday.

Hamar of Toledo and Berghammer of St. Paul are making battle, the Indianapolis star, step to retain the lead in base stealing. Baird has stolen 28, while his two contenders are 23 and 22.

Other leading batters for the 25 or more games: Leary Milwaukee, 25; Brogan, Indianapolis, 25; Lanning, Louisville, 25; Hahn, Toledo, 24; Mathews Milwaukee, 24; Hahn, St. Paul, 24; Drier, Kansas City, 23.

Southern Base Class.

The batting champion of the Southern association probably will not be determined until the official final average of 150 games is compiled. It's a race between Schlegler of Little Rock and Henry of New Orleans, with Schlegler having the edge of 11 points on Henry. A week ago they were tied with .338.

Ferguson, however, took the lead as a result of smothering out 14 hits in seven games, while the Henry could do was 11 in the same number of games. Ferguson is captain of the pennant winning Mobils club, with 11 homers apiece, threaten to complicate the home run race for the first time. He is leading the race with 12, but the final averages may upset him.

In base stealing, Stewart of Birmingham leads with 21 points on Henry. He is in a tight race to capture the season's honors. He pilfered 44, while Silva, his teammate, is second with 32.

Other leading batters for 95 or more games: Tucker, New Orleans, 232; Neen, Birmingham, 229; Williams, Mobils, 315; Silva, Birmingham, 316; Camp, Memphis, 311; Hahn, Mobils, 311; Logan, New Orleans, 268.

Big Army Blimp Due to Sail Over Wichita During The Day Sunday

The big army blimp C-3, shown in the above picture, will probably pass over Wichita Falls on its journey from Fort Hill to San Antonio, this city being almost on a direct line between the two points. If the big aircraft does appear over Wichita Falls, it will be most Wichita's first opportunity to view a dirigible in flight.

Arrangements are being made at Brooks Field tonight for the arrival of the big ship.

REDUCE NUMBER OF TROOPS AT DENISON FROM 500 TO 250

AUSTIN, Sept. 16.—Reduction of the force of state troops at Denison for its action. It is known that one-half by next Monday noon, was ordered late today by Governor Nef in a telegram to Adjutant General Thomas D. Barton, now at Denison. The guard force will cut to 250, Governor Nef said.

Partial settlement of the railroad strike had no bearing on the decision to reduce the number of troops at Denison, Nef said. The governor refused to discuss the number of troops to be removed from Denison and other parts of the state by Governor Nef. The telegram to Adjutant General Barton follows:

"It is my desire that the number of troops now on duty at Denison be reduced to 250 by Monday noon. Please therefore take proper steps to have the number of national guardsmen on duty at Denison reduced by noon Monday."

COMMITTEE WILL HEAR IMPEACHMENT CHARGES TUESDAY

By LAWRENCE M. BRINKLEY, United Press Staff Correspondent.

WASHINGTON, Sept. 16.—With the American Federation of Labor cooperating, Representative Oscar Keller, Minnesota, republican, will seek to prove to the house judiciary committee next Tuesday, that it should not drop his impeachment charges against Attorney General Clegg.

On that day Keller is under instructions from the committee to present evidence substantiating the seven allegations on which he bases an impeachment resolution against Clegg, president of the American Federation of Labor, also in testimony, according to Edward J. McCready, legislative representative for the federation, Benjamin Mahon, will represent the farmers' cause.

Following their testimony, the committee will decide whether to postpone their action, report to the house in favor of a formal investigation of Clegg, or report an impeachment resolution.

REWARD FOR ARREST OF DOPTLE MURKIN

ST. LOUIS, Sept. 16.—A reward of \$500 has been offered for the arrest of the person who injured Lewton "Whitey" Keller, New York American outfielder, by throwing a soda water bottle at the player in today's game with the Browns. It was announced. The Browns management offered \$500 as the reward and the St. Louis rooters club \$50.

NO ADMISSION TO SCHOLASTIC LEAGUE AFTER OCTOBER

AUSTIN, TEXAS, Sept. 16.—The state office of the University of Texas interscholastic league has been rushed the past few days receiving acceptance from high schools of the league's football plan. The rush at this particular time of the year has been unusual.

First schools are opening and preparations are being made for the football season; and second, October 1, the date for the closing of entries, is drawing near.

One defeat in the plan the last two years was that no schooling state was set for receiving participating schools. This caused a great deal of trouble and kept the smoothly running waters of the championship stream constantly in danger of being dammed by the numerous principals and coaches appointed for the purpose of adopting a plan for this season, corrected this flaw by making the date for a school to be in not later than the first of October. When October 1 comes the league will have complete details of the schools, in addition to the list will be made and the eliminations may be arranged and carried out in a systematic manner.

Participating schools have been supplied with eligibility blanks for players and blanks upon which game statistics are to be recorded. These have not been received, school authorities are requested to communicate with the state officials at once.

LONGHORN SQUAD IS LIGHTER THAN USUAL

Gilstrap, Weighing 185 Pounds, is Heaviest Man to Turn Out.

AUSTIN, TEXAS, Sept. 16.—During the first week of Longhorn football practice which began Monday at the University of Texas, the Texas football players of the 1922 eleven have been drilled in the fundamentals of football. So many of the candidates for the Longhorn team are comparatively inexperienced, that the Varsity coaches have found it necessary to devote the first week of training to elementary football training. Probably the greater part of this week will be given over to such practice as the candidates for have acquired, and so on.

From present indications the Varsity coaching staff is gratified rather light team. The average weight of the forty odd men now in camp is 173 pounds. There are a number of heavy line candidates, but few have the desired experience. Especially do the Longhorns have a scarcity of outstanding wing candidates. Joe Moore, regular of last season, is weighing only 180 pounds, seems to be a fixture at one end. There are a number of inexperienced backs trying out for the best wing position.

There is a noticeable lack of beef among the backfield candidates. Buddy Gilstrap, 185 pounds, substitute fullback of last season, is the heaviest candidate trying for the backfield. The other candidates are scattered back of the line are light. If the Varsity team of 1922 is to be a scoring machine of merit, the coaches will have to discover a number of speedy backs, who by their speed will be able to counterbalance their lack of weight.

BURKBURNETT WINS GAME FROM DEVOL

Wichitans Feel They Have Set-Up Next Saturday in Game With Oklahomans.

Members of the Wichita Falls minor league football team who journeyed to Devol Saturday to take the Burk-Devol game do not figure that they have anything to fear from the Oklahomans. A couple of trick plays were sufficient for the Burk-Devol game to win 19 to 6, and the consequence of opinion among the local players seems to be that they should win a walk-over Saturday.

The first Burk touchdown came in the opening quarter on a catch line plunging and the other two were shown across in the second period, one on a long forward pass and the other on a recovered fumble.

Devol resorted to the open game exclusively in the last half and a series of forward passes brought the ball to the Burk goal line in the third period. The Oklahomans were held for down, however, when a few inches advance would have netted them at least one touchdown.

ALL TICKETS FOR FIRST OF DIXIE SERIES SOLD.

PORT WORTH, Sept. 16.—All tickets in reserved seat sections of the Fort Worth Athletic park for Sunday's opening game between Fort Worth and Mobils were sold by 9 a. m. today. Purchasers started forming lines at 7 p. m. yesterday. Among those who stood in line all night were 150 women fans. The Mobils club winners of the Southern association pennant, arrived late this morning.

"Dancing Fool," a new Edison dance record. The Phonograph Shop—Adv.

TIERNEY PRESSES HORNSBY IN NATIONAL SWAT RACE; SISLER HAS GOOD LEAD

By Associated Press.

CHICAGO, Sept. 16.—Roger Hornsby, St. Louis star, who a few weeks ago was the batting champion of the National league tucked in his hip pocket, today has a good reason for the prospects of bagging the 1923 honors.

Jimmy Tierney of the pennant containing Pirates is the pogy ahead of Hornsby.

The Pirate, star second baseman, has been traveling at such a hot pace with the willow that he is only seventeen points behind the St. Louis favorite, and with the close of the season three weeks away, may have a decided edge.

Just a little over a month ago Tierney launched his drive for batting honors, but it was thought this was only a flash in the pan. However, he has been improving his average each week and the latest figures which include games of Wednesday, show him hitting .350, compared with .245 four weeks ago. In his last six games Tierney has hit .500; his batting average now points to his mark of a week ago. Tierney has batted .311 hits in 194 games, his drives including 24 triples and 10 home runs.

Max Carey of the Pirates has increased his lead in stolen bases to 127.

Hornsby, however, is leading the regulars with an average of .337, and has 10 home runs and a string to 37, having bagged three four-baggers during the past week.

The Pirates in their race to overtake the Giants are out in front of team batting with an average of .311. The Giants are hitting .304, while the Cardinals are third with .297.

Other leading batters for 100 or more games:

Grimes, Chicago, 345; Hight, Pittsburgh, 334; Miller, Chicago, 349; Hollocher, Chicago, 345; Dauber, Cincinnati, 342; Harper, Cincinnati, 341; Carey, Pittsburgh, 338; Bell, New York, 335; Duncan, Cincinnati, 334.

Slider Taps Cobb.

Slider's average of .326 appears to be high enough to safely insure his position as leading hitter for the 1922 season. His closest rival, Cobb, is 21 points behind, and the chances of his catching up are remote. Cobb's average is .252. Sisler has the edge for home runs, with 47, over Kenneth Williams, a teammate, tagging along with 31.

The race of Babe Ruth to overtake Williams and Walker of the Athletics for the home run honors is becoming more exciting. Walker smashed out three during the past week and ran his string to 25, while Williams bagged two for a total of 27 and the Babe crashed out a like number for a total of 31.

Other leading batters for 100 or more games: Speaker, Cleveland, 327; Heilmann, Detroit, 327; Tobin, St. Louis, 326.

SHOULD APPEAR OVER THIS CITY SOME TIME SUNDAY

SAINT ANTONIO, TEXAS, Sept. 16.—The army dirigible C-3 which left Belleville, Ill. tonight is all probability will arrive in San Antonio some time Sunday, according to Major Ralph Royce, commander of Brooks Field, near San Antonio. A message from the war department to Major Royce this afternoon, said the ship would probably fly over Fort Hill and come direct to Brooks Field tonight for the arrival of the big ship.

COUNTY BASEBALL TITLE AT STAKE

Iowa Park and Wichita Falls All Stars To Meet Today.

When Iowa Park, Oil Belt league champions, and the Wichita Falls All-Stars, composed of the cream of the city league players, meet up this afternoon at Athletic park, the championship of Wichita county will be at stake. The two clubs have met four times this season, each club getting two decisions. The following lineup have been announced by the club members:

IOWA PARK: Warren, 1b; N. McKinley, 2b; Golden, 3b; Hayden, cf; G. Verbum, ss; G. Hobson, rf; Parker, c; McKinley, c; McEach, p; Wolford, p.

Shots Are Fired Result Zion City Sign Board War

ZION CITY, ILL., Sept. 16.—Shots were fired today in the "sign board war" of Zion City.

Policeman Isaac Perry fired three shots at several "independents" who he declared were daubing paint on a Voliva sign board.

This is the second outbreak in two days at Zion City.

The first occurred when some one threw a "bomb" made of an electric light globe, filled with red paint at one of the signs.

The signs were placed in conspicuous places by Overseer Wilbur Glick Voliva. They announce the "independents" as bums, thugs and riff raff who insist upon forcing their presence on a religious community.

TWO THOUSAND FEET MOVING PICTURES JUST SET COVERING TEXAS FIELDS, including Koss, Also portable projector. First \$100 takes outfit. Duffy Maps, Phone 4823—Adv.

GUN BATTLE IN WHICH NO PERSON IS INJURED

TEXARKANA, TEXAS, Sept. 16.—A gun battle in which no person was hurt occurred tonight at the Kansas City Southern railroad yards, five shots being fired at Texas rangers on guard duty, the rangers firing about fifteen shots in return. Who fired at the rangers is not known; the shots coming from across a creek near the tracks. Thirty-six rangers are now on duty here.

TWO UPSETS IN FIRST ROUND OF CITY NET TOURNAMENT

Two upsets occurred Saturday afternoon in the city tennis championship singles when Formaglio defeated Hayes and Ferguson defeated Hayes in the first round. Both matches went to the third set. Formaglio winning from Hayes 7-6, 6-4, 6-2, and Ferguson defeating Angle 4-6, 4-2, 6-1.

Ferguson's surprising match was finished in samidarkness and "Ferg's" ability to follow the ball enabled him to emerge victorious. In his first set and for the first part of the second it looked as if Ferguson was going to serve himself out of a victory. Time and again he committed double faults, but his placement shots on Angle's serves and a few of his own decided the match.

C. O. Gallensap, 1921 champion, won his match from Oscar Powers, the youngest entrant in the tournament. The prize was a beautiful straight stick, 8-0 and 8-1, but he made his opponent hustle for every point.

In the only other match Parks had little difficulty in disposing of Plak 6-4, 6-2.

Ferguson's hard rally for singles matches between W. Powers and Ferguson, Williams and Rogers, Coburn and Day, and Gills and Upchurch. No special time has been set for these matches and it is hoped by the committee that different opponents will set their own hours and finish their matches before Monday.

Entries for the doubles event will close Monday noon and the drawings will be made in the afternoon.

Molla Mallory Wins From Mrs. Jessup In Tennis Tourney

PHILADELPHIA, Sept. 16.—The girls' national lawn tennis doubles title was won by Molla Mallory and Miss Helen Hooker of New York, who defeated Miss L. Goodman and Miss Helen Millery, both of Philadelphia, 6-4, 6-2.

Miss Willie was the girls' singles title yesterday.

In the final for the middle states singles for women, Mrs. Mollie Bluestadt Mallory of New York defeated Mrs. Marion Hindershan Jessup of Wilmington, 6-4, 6-1.

Mrs. Jessup was able to break through the steady game of the national champion to win only the fifth game of the first and sixth games of the second set.

In the final of the middle states doubles Mrs. Mallory and Miss Edith Seymour, Boston, defeated Miss Mollie Thayer, Philadelphia, and Mrs. Jessup, 6-2, 6-10, 7-5.

"Hurry Along Side With Me" came out by Al DeRose and Ernest Hara. A new Edison record. The Phonograph Shop—Adv.

Pathe Photographs at Decorators Co.—Adv.

O'DOWD IS BARRED FROM N. Y. RING BY THE COMMISSION

NEW YORK, Sept. 16.—Mike O'Dowd of St. Paul, former middleweight boxing champion, has been barred from a 15 round contest with Dave Rosenberg of Brooklyn at Ebbets field tonight.

The New York state athletic commission ruled O'Dowd was not a fit opponent for Rosenberg, who is recognized by the commission as a middleweight champion of the world, and ordered the promoters to substitute Lou Bogach.

SPECIAL AUTOS TO TAKE LOCAL FANS TO DIXIE SERIES

Those who prefer the open air to railroad traveling and wish to take in the Dixie series at Fort Worth can travel in automobiles.

The Citizens Auto service company has planned to run several cars to Fort Worth and the round trip fare will be \$16. Those who take advantage of this means of transportation will have the car at their disposal while in Fort Worth and will be taken to and from the ball park without any additional charge.

Sunday's cars will leave the stand near the depot at 9 o'clock but no time has been announced yet for the next games that will be played in the Panther City.

"Dancing Fool," a new Edison dance record. The Phonograph Shop—Adv.

The Cold Wave Flag!

WHEN Uncle Sam first displays the Cold Wave warning, a whole lot of people are going to forget the iceman.

They're going to say they "don't need ice."

Just as a little advance warning of our own, then, remember that ice will be just as important then as it is today. You won't need as much, because the weather will keep your ice bill down—but you will need it, daily!

When that time comes, remember our year-round service; a service to the public which embodies its responsibility in this significant emblem:

Blackheads

indicate your cleansing method is wrong

BLACKHEADS indicate that you are not using the right method of cleansing for your type of skin.

A skin specialist would tell you that blackheads are caused by excessive oil collecting dirt in the pores of your skin.

To free your skin from this disfiguring trouble, use this simple treatment:

APPLY hot cloths to the face until the skin is reddened.

Then with a rough washcloth, work up a heavy lather of Woodbury's Facial Soap and rub it into the pores thoroughly, always with an upward and outward motion.

Rinse with clear, hot water, then with cold—the colder the better. If possible, rub your face for thirty seconds with a piece of ice.

DRY carefully.

To remove blackheads already formed, substitute a flesh brush for the washcloth. Then protect the fingers with a handkerchief and press out the blackheads.

GET a cake of Woodbury's today and begin this treatment tonight. A 25-cent cake lasts a month or six weeks.

MOVIE CALENDAR FOR THE WEEK AT LOCAL THEATRES

"THE INVISIBLE FEAR" WITH ANITA STEWART COMING TO EMPRESS

Anita Stewart in "The Invisible Fear," a First National attraction, will appear at the Empress Monday for a three-day run. Because of the large following of the star and the fact that "The Invisible Fear" has been proclaimed one of the best pictures of the year, the management is making elaborate preparations for handling large audiences.

The play is from the pen of Hampton Del Ruth, and the scenario was prepared by Midge Tyrone, Edwin Carow, one of the foremost directors in the motion picture industry, wielded the megaphone. The cast includes such well known actors and actresses as Walter Byron, Gail, Alva Forrest, Hamilton Morse, Estelle Evans, Edward Hunt, Ogden Crane and George Kuwa.

One of the tense situations in the production shows Miss Stewart, as Sylvia Langdon, under the hypnotic spell of Arthur Comstock, who has been one of her suitors before her marriage to Bentley Arnold. Until his reappearance Sylvia had thought Comstock dead, and she had been which she believed to be his, being consumed by flames in a burning cabin.

For years she has been the victim of the "invisible fear" and the shock of her appearance in the flesh proved too much. Under a magic spell, she opened a wall safe in the home of her uncle and handed the valuables it contained to Comstock. And then the climax hit.

"Golden Dreams," another thrilling story, produced by Benjamin R. Hampton and distributed by Goldwyn, "Golden Dreams" is coming to the Empress theatre next Monday, beginning Thursday. It is based upon Zane Grey's story of the same name.

The story concerns the daughter of a Spanish mother and an American father, in the mythical Spanish state of Chinora, who falls in love with Sandy Buchanan, the American engineer in charge of the oil wells of the MacDonald estate. Her aunt, Countess de Silbers, has other plans for her. She wants Mercedes to marry the young Duke of Othmo, whose fortune is at a very high level and who is wanted in Spain for offenses against the government. The duke and his uncle, Don Felipe de Chinora, plot to kill Buchanan, but with the aid of an American circus troupe he routs his enemies and wins the girl.

There is comedy and picturesque and adventure galore in this photoplay. Spectators early take sides with the lovers and root for them till the last foot of film has been unrolled. Mr. Hampton and his directors staged a great fight between the two heroes and his friends held back hundreds of natives until the circus people have opened the animal cages and bears upon the attacking party. The photography and direction are excellent.

Claire Adams and Carl Gustav are the featured players, as they were in Goldwyn's previous attempt production by the same author. Their roles give them opportunity for some thrilling and spectacular situations in suspense.

Other stars are Madame Rose Dione, Norris McKay, Bertram Crosby, Frank Leigh, Audrey Chapman, Frank Hayes, Babe Lon, Walter Perkins and Mary Jane Devine.

STRAND THREE DAYS STARTING MONDAY

ONE OF THE LOVE SCENES IN D.W. GRIFFITH'S "ORPHANS OF THE STORM"

OLYMPIC BEGINNING MONDAY

WALLACE REID and BEBE DANIELS in Paramount Picture "NICE PEOPLE" a WILLIAM DE MILLE production

SERIES OF ACCIDENTS IN MAKING OF COMEDY FEATURED AT STRAND

Those who view the latest comedy sensation of that international screen favorite, Max Linder, entitled "The Three Must-Get-Theres," which has been booked as the feature attraction at the Strand theatre Thursday to Saturday probably will be too busy laughing at its screamingly farcical take-off on "The Three Musketeers" to appreciate the many perilous personal risks which were taken in this production by Mr. Linder and other players in the cast.

Mr. Linder worked six months in producing this five reel comedy for Allied Producers and Distributors Corporation, and in the course of that time there were several real accidents and many narrow escapes from serious injury. Mr. Linder plays the leading role, that of D'Artagnan, though in this burlesque he calls himself Dart-in-Again.

Instead of leaving his Gascony home on horseback as did the famous character, Linder starts out astride a mule—and a trick mule at that. He explained to the trainer of Zabo, the trick mule, that he wanted her to refuse to leave the old home spot after he got astride her; indeed Janbo must sit back on her haunches.

After a little preliminary training Linder thought he'd try Janbo. In mounting the saddle he unfortunately touched her with his spur on the spot that gave her the cue to buck—and buck, she did. Not the combined efforts of every player on the set, including the King and the Queen and the Cardinal, could stop Janbo's bucking until she had shot Mr. Linder some fifteen feet into the air. He fell on his head, was carried off the

hospital for a week.

In due time he finished this part of "The Three Must-Get-Theres" and then came the scene where he jumps off a wall twenty-eight feet high. There followed a wrenched ankle that put him in the hospital for another week.

While in the hospital he read to the nurses the scenario of the comedy, whereupon his personal nurse said, "Now that we know the story, I'll keep this room for I know well have you back with us very soon." And she had the right idea.

During one of the scenes the Duke of Richelieu, played by Bull Montana as the "Duke of Richelieu," hears a noise in the next room. Finding the door locked he starts to investigate by piling chairs up on a table jammed against the door. He missed his footing, lost his balance and landed on the floor with a broken rib. He took the hospital room. Charles Matzetti, who plays the role of "Octopus," one of the three "Must-Get-Theres," in a scene where he leaps out of a window eighteen feet from the ground and lands straddling his horse. The horse had stepped a bit to one side, with the result that Athos, known in this burlesque version as "Octopus" struck the cement and received a fractured shoulder. He joined Bull Montana in the hospital. In another scene Max Linder battles single handed with fifteen swordsmen. One of the swords broke in half, the broken part piercing Linder's arm and leaving a deep wound eight inches long. He joined Bull Montana and Matzetti.

After the three had been discharged from the hospital and again were ready for camera action, Mr. Linder was again destined to return, this time with his eyes severely burned by the sun-arc used in photographing the picture. Mr. Linder was laid up this time in a dark room for

STRAND THURSDAY

MAX LINDER in "THE THREE MUST-GET-THERES"

six weeks. But this was the last mishap, the picture being finished without further serious incident.

The cast of "Peg O' My Heart," starring Laurette Taylor, includes Mahlon Hamilton, Ethel Gray Terry, Russell Simpson, Lionel Belmore, Vera Lewis, R. D. O. Hatwell and Nigel Barry.

A price of 9,000,000 marks has been asked for distribution rights for "The Kid" in Germany. That amounts to about 25,000 American dollars.

Conrad Nagle is a man of the same type who, once befuddled with liquor, becomes a menace to the woman in his company. It is an almost perfect portrayal.

THE MOVIE THEATRE

Phyllis Haver will be leading lady in Buster Keaton's next comedy.

REX INGRAM has taken his company to Miami, Fla., to film scenes for "The Passion Vine."

Edward Sloman is directing "A Honeymoon for Three."

"A Circus Story," Shirley Mason's next.

First they called it "A Kiss in the Dark" then "Blood Will Tell" now it's "Do and Dare." What's the dirt?

LEGION TOURIST CAMP POPULAR WITH PUBLIC

Anita Stewart in "The Invisible Fear" Monday, Tuesday and Wednesday.

COSTUMES FROM PILGRIM DAYS TO THE PRESENT IN DE MILLE'S "NICE PEOPLE"

A revue of American fashions from the days of the Pilgrims to the present. This is one of the distinctive and vital features of William de Mille's Paramount production of "Nice People," which will be seen at the Olympic theatre next Monday, Tuesday, Wednesday and Thursday.

The occasion is a Fourth of July masquerade ball and the guests appear wearing costumes reminiscent of every important period of American history. No two costumes are alike. Colonial grand dames, maids of the first-revolutionary period, Civil War beauties and dozens of other types are presented with their masculine counterparts.

Julia Faye, in the role of the hostess, is gowned as Columbia. Bebe Daniels, charming in the huge keystone of today most happily in "Nice People." The modern jazz spirit which pervades our times as well as the possible remedy thereof, are clearly and most entertainingly depicted.

Without preaching in the least, the picture demonstrates that the girls and boys of today have too much leisure for indulgence in what may be easily developed into harmful social relationships. The theme of the picture is to show clearly throughout without intruding itself to the detriment of the story.

Wallace Reid's role presents him in the light of a good samaritan, his mental outlook, cleansed of its possible previous acceptance of such things as the public accepts, as a result of the great war. Bebe Daniels expresses the product of the jazz age flawlessly and her experience proves that those who accept freedom up to a given point will turn upon anyone who oversteps that point.

Conrad Nagle is a man of the

same type who, once befuddled with liquor, becomes a menace to the woman in his company. It is an almost perfect portrayal.

THE MOVIE THEATRE

Phyllis Haver will be leading lady in Buster Keaton's next comedy.

REX INGRAM has taken his company to Miami, Fla., to film scenes for "The Passion Vine."

Edward Sloman is directing "A Honeymoon for Three."

"A Circus Story," Shirley Mason's next.

First they called it "A Kiss in the Dark" then "Blood Will Tell" now it's "Do and Dare." What's the dirt?

LEGION TOURIST CAMP POPULAR WITH PUBLIC

TERRELL, Sept. 18.—The tourist camp of the American Legion post in this city is proving very popular with travelers. Guests at the legion but enjoy tree shower baths and a cool camping place, with plenty of pure water.

JAMES OLIVER CURWOOD PROVIDES SCREEN ANOTHER BIG OUTDOOR PRODUCTION

James Oliver Curwood, who has provided such well known stories for screen presentation as "The River's End," "Back to God's country," "Flower of the North," etc., is the author of a splendid production, "Jan of the Big Snows," which will be the feature attraction at the Gem Theatre Wednesday.

In "Jan of the Big Snows" Mr. Curwood has again chosen the Hudson Bay country as his locale and his "true to life" characters were selected after the usual Curwood research work far north from civilization's rim. Director Charles M. Seay achieves another success in his work with this Curwood story and with the combination of a great author, a great director and a great cast a production has been provided that is packed tight with thrills and verities.

All the action takes place at an isolated trading post where Fred Cummings returns with his bride. The entire population consists of seventeen men, including Jan, who has never had a love affair in his entire life (ill he meets Cummings' wife. "The honor of the big snows" demands protection for the weak—a man must suffer, starve or die before he will take what belongs to another man.

Blending, a New Yorker, arrived at the post, and his attentions focused upon Nancy cause Jan and his comrades to teach him to observe the "honor of the big snows."

COURSE IN ECONOMICS OF PUBLIC UTILITIES

DALLAS, Sept. 16.—The Southern Methodist University here has announced a course in the economics of public utilities for the fall term. PART TWO

SULLIVAN DISCUSSES ECONOMIC RESULTS COAL MINE AGREEMENT CREDITING MINERS WITH SUCCESS

By MARK SULLIVAN National Political Correspondent of the New York Times and Wichita Daily Times. (Copyright, 1933, by the New York Evening Post.)

WASHINGTON, D. C. Sept. 17.—The coal strike is now completely ended and there is room for discussion on both of the economic results of it and of the meaning of the settlement in the broadest sense of politics.

The striking miners have been successful. This is a miners' victory. It is the one group of workers in the United States whose compensation for their labor has not been materially reduced from the war-time peak.

By their solidarity and by the remarkable skill of their leaders, they are the one group who have defied the process of deflation. To use the commercial phrase, the farmers have been liquidated, the security holders have been liquidated, the wage earners have been liquidated to some degree.

Further than this, the success of the coal miner in keeping his wages at a high level will tend to bring about higher wages in other lines. Much of the labor in steel making, in railroad building, and in other forms of manufacture and construction is of the same kind as that which works in the coal mines.

Several Causes For this there are several causes. One of the most potent, although not generally taken into account is our policy of immigration restrictions.

Condition of the Past This condition is wholly of the past. However, the larger employers of labor may wish for more of this form of raw material, however much the public generally may have wished that the coal strike should be broken, the aggregate of these forces will never be able to change our present immigration law in the direction of greater looseness.

overwhelming majorities were a correct expression of the state of feeling in the communities from which the senators and congressmen come. There is no question upon which the state of public feeling is more clear. The drastic reduction of immigration must be accepted as a fixed fact in our future industrial life and the effects of this new condition must be accepted. Of these effects the first and most conspicuous is the "winning of the coal strike. Stated in the broadest way, some of these effects are going to be to enable labor of the sort that comes in competition with immigrants to achieve higher wages and greater privileges.

Coal to Be Higher It will turn now for the other industrial aspects of the winding of the coal strike, they are no less clear. The price of coal is going to be higher. It is going to be higher not merely to the extent that the wages paid the coal miners are higher than they were before the war. The addition to the price of coal will not be measured merely by the sum by which the wages of coal miners are greater than they were before the war.

Further than this, the success of the coal miner in keeping his wages at a high level will tend to bring about higher wages in other lines. Much of the labor in steel making, in railroad building, and in other forms of manufacture and construction is of the same kind as that which works in the coal mines.

Several Causes For this there are several causes. One of the most potent, although not generally taken into account is our policy of immigration restrictions.

factories. The immense immigration to the United States in former years did not form a competition to farming as it did to raw labor in the cities, mines and factories. On the contrary, to the extent that the city population and the non-farm population generally was increased by immigration, to that same extent the consumers of the farmers' goods were increasing and the farmer was thereby benefited by the extent that the total population of the United States is restrained by the cessation of immigration, to that extent is the domestic market for the farmer restrained. At the same time, to the extent that the worker in the mines, factories and cities is enabled to increase his wages by the cessation of immigration, to that same extent will the farmer be compelled to pay higher prices for all the manufactured goods that he buys.

Out of this contrast between conditions on the farm and in the factory one clear result must come. Unhappily it is one of those results which are universally looked upon as unfortunate from the point of view of any nation's destiny. With wages in the cities going higher and with remuneration to the farmer restrained, it must follow that there will be a tendency on the part of farmers to leave the farms and go to the cities. To this extent there will be increased a movement that has gone on in this country for more than a generation, and which is universally looked upon as not good for the nation's destiny.

markets. The farmer is penalized by the wages paid to city, mine and factory workers. He is further penalized by the fact that he is deprived of the opportunity of selling his crops to that annual million or more of immigrants which used to be added to our population from Europe. He is still further penalized by the fact that the disruption of international relations reduces his selling to Europe. He can hardly sell to his million or more Europeans after they come to America as immigrants, nor while they remain in Europe.

AUTOMOBILE NEWS

UNITED EFFORT IS MADE TO STOP SHORT MEASURE

The short measure gasoline artist must go.

This form of holdup, the delivery of less gas than is paid for, has reached such proportions throughout the United States that it can be stopped only by intensive and concerted action and by taking radical steps.

The National Motorists' association has set itself to the task of remedying this evil.

Recent tests with fraud detecting devices, carefully made under official auspices, principally in Cleveland, Louisville and Kansas City, Mo., by representatives of automobile clubs affiliated with the N. M. A., developed the astounding fact that out of a number of purchases of gas in five gallon lots there was a shortage running from one to three pints each in over 50 per cent of the tests made. It is gratifying to note, however, that in one large city where a considerable number of tests were made short measure was reported in but one or two cases.

The task of exposing and preventing those who give short measure will not be an easy one, but that the effort will be relentless is evidenced by warrants for arrests issued at the instance of N. M. A. officials. The spotlight of publicity will continue to be thrown upon the practice to a point where the motorists, warned of the danger, will be on the alert to the end that he is not victimized.

It is estimated that each of the 10,000,000 motorists of the United States buys two gallons of gas a day, making a total of 20,000,000 gallons. On the basis of a shortage of two pints to every five gallons this would mean that filching is going on daily to the tune of 1,000,000 gallons. Fixing an average price of 10 cents for the product, this shortage would represent a loss to the motorist public of \$250,000 per day or \$90,000,000 a year, which is more money than is now appropriated annually by the federal government for the good roads.

The tests being made usually cover a period of several days and are taken by means of a specially equipped automobile. Purchases are put in a special tank. An official five gallon measure with a device to record shortage is carried with other apparatus in an official city truck which is kept out of sight around the corner. Purchases are followed by immediate tests to determine the actual quantity of gasoline in the special tank.

No evidence has been found that the fraud is countenanced by the oil companies and in fact, offers of assistance are being received from such companies. It is in this connection the question should be asked, "Why should a shortage always result when pumps get out of order?" If the fault is entirely mechanical, it seems logical to believe that it would result just as often in the pump giving over measure. In other words, it is suggested, when a pump slips out of order, it should not always slip in favor of the filling station.

AVERAGE AUTO OWNER.

By NEA Service.

CLEVELAND, OHIO, Sept. 16.—The average automobile buyer has been lousy by a securities company here. Statistics compiled here on 2,500 motorists—outside of those who drive a popular car—and found that:

The average purchaser has a net equity in real estate of \$4,250.00 and in personal property of \$5,975.25.

His monthly income is \$43.75.

He buys a car averaging \$1,413.14 in cost, on which he pays down \$493.31.

He is 31 years old. Seventy-four per cent of this number are married, 42 per cent have bank accounts and 69 per cent carry life insurance.

AUTO NOTES

Automobile production last month was 20,000 above that of July.

First Japanese automobile has just been completed in Tokyo.

French engineers are testing carburetion to cut fuel costs.

In cleaning the muffler after it has been disassembled and the parts cleaned with kerosene it is well to go over all the holes with a sharp punch or fine taper reamer to make sure that these holes have not been reduced in size by accumulation of carbon.

MOTORING CENTER.

Chillicothe, Mo., with a population of only 12,560, has 28 national, state and interstate highways passing through it. The city reports it has made a profitable business of 7.5 m. motorists passing through.

THE MOTORISTS' PROBLEMS

By WILLIAM H. STEWART, JR.

Motor Department: Is it proper in slowing down for bad pieces of road to brake without using the clutch, or will it in any way injure the car?—M. T.

It is considered good practice and best for the car to disengage the clutch in passing over rough places. Under normal road conditions the car is "controlled" by the service brake without disengaging the clutch, providing, however, the engine is fully throttled. In city driving where starts and stops are frequent and quick, the clutch must be used more often. Proper adjustment of these matters will be acquired as you gain more experience.

Motor Department: In your next issue will you kindly state the address of the person who makes the Pontiac cylinder head for Ford cars. Any information you can give me will be greatly appreciated.—M. A.

Write the Chevrolet Bros. Mfg. Co., Indianapolis, Ind.

Motor Department: Please estimate in what position the piston should be when the intake valve starts opening? I have thought of hanging the springs under the rest axle. They are new on the top axle. Would this make any difference in the rate turning, when the brakes are applied? There are no torque rods on this car.—S. T.

The intake valves should begin to open about 10 degrees after the piston has passed top dead center. If you find that the engine backfires when pulling up hill at low engine speed, set the valves to open a little earlier. Degree measurement on flywheel is more accurate than the measurement of the piston motion. Provided the springs are securely fastened changing them should make no difference in the torque load.

Motor Department: Will you kindly explain what causes the inside of a tire to break or crack? I have had several tires crack inside and the fabric becomes loose. I took the matter up with the tire people, but they refuse to make any adjustment, stating that I did not pump enough air into the tire. Is this correct?—M. L.

Insufficient air pressure will cause the fabric to break up quickly. When the tire is not fully inflated the fabric works constantly. As a result the tire becomes overheated and very quickly deteriorates. Also, when road obstructions, etc., are encountered, such as cobblestones, etc., the fabric is unnecessarily contorted and bruised. After very little treatment of this sort blowouts must be expected.

Motor Department: I recently changed oil in my engine, cleaning

the oil pan with kerosene, then filled the base to the right level with oil recommended for my car. After running the car about 100 miles I had the curiosity to inspect the oil and I drew off some in a china cup. To my surprise it was as black as the old oil I had thrown away. Does this indicate a poor oil, or is there some defect in the engine?—Ovren.

All oils become brown, almost black, when subjected to the heat of an internal combustion engine. This is probably the trouble in your case. Some of the old oil may not have been removed by the kerosene and so have mixed with the new oil, deepening the color. If your engine pulls well and has plenty of power you may reasonably assume that the oil is good.

Motor Department: For a long time I have been using storage battery for lighting and starting (connected by switch) and with return wire to battery. Have recently put in new wiring grounded to frame. This works alright for lighting but will not work for ignition. To start had to put in dry batteries. Must I put on return wire as before or is there some other way to avoid the use of extra dry cells?—C. E.

When installing new wiring it should be spliced exactly like the old as any change, unless made by an experienced man may ruin battery, coil or lights. If both bat-

teries have of late the motor runs for a few strokes and then makes a funny noise and then stops. The noise sounds just the same as when the motor kicks. Any information you can give me will be highly appreciated.—Owner.

Your trouble is probably due to clogged gasoline lines. Although it could be caused by air valve sticking or spray nozzle out of adjustment. Make sure that spark is good, and that there are no leaks in inlet manifold. If cylinders are free from carbon, the engine should stop immediately when ignition is turned off.

Motor Department: In installing a starter on a Ford does it make any difference which side you put the battery? The negative wire from generator is the same as the battery? What would be the effect if you wired the negative to positive and positive to negative pole on battery?—C. K.

You may place battery wherever most convenient, but the battery must be wired up according to directions. If you connect positives to negatives the battery will be discharged and ruined. The wires from the generator may be short circuited or the voltage regulator be out of order. Have systems looked over by an expert, as it is not safe to experiment with such apparatus.

Motor Department: I have a Ford car. There is a knock in the motor which develops slightly as the spark is advanced, but principally as the throttle is opened. What do

DODGE BROTHERS SEDAN

The first thing you will notice about the car is the new and distinctive beauty which Dodge Brothers have brought to it.

The cowl is higher and more graceful. The radiator is more dashingly shaped. A new smartness and distinction of line is obvious from end to end.

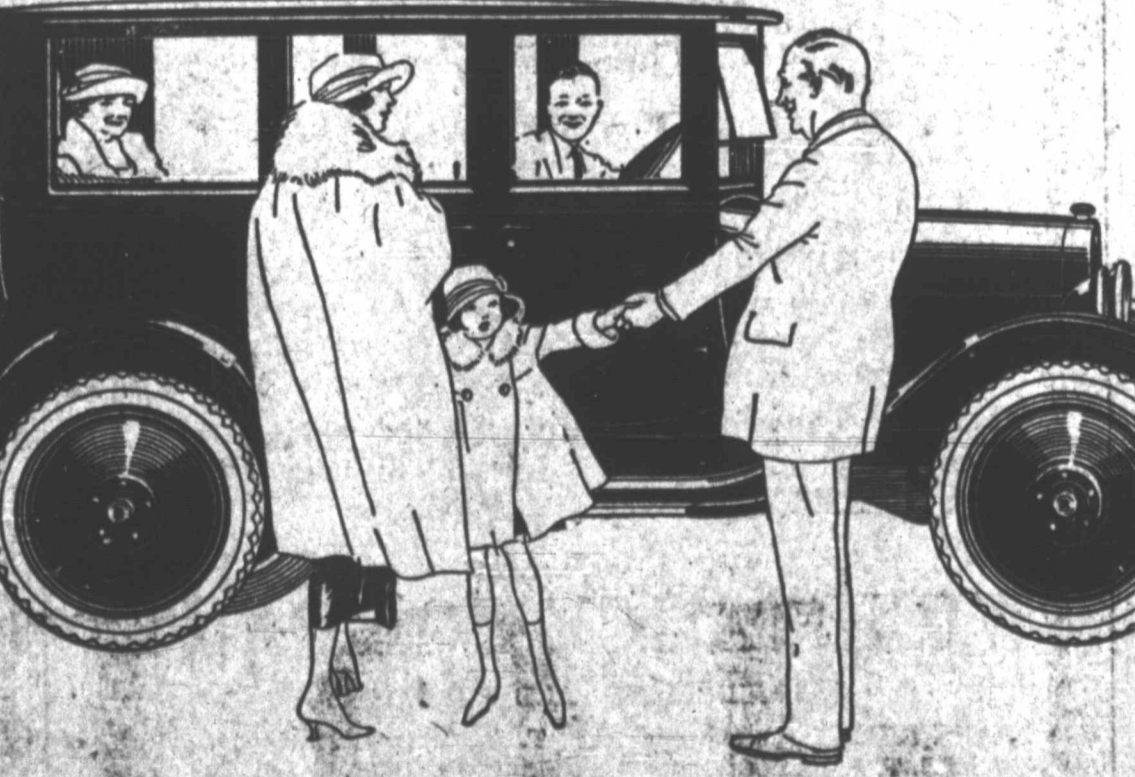

The upholstery is done in genuine mohair velvet of the finest quality. Rear arm rests and deep, wide seats contribute to the comfort of riding.

The fittings and trimmings are in excellent taste, and include nicked window regulators, etched dome light, horsehair carpets, body heater, windshield cleaner, Yale door locks and weather-stripped doors and windows.

Eighteen coats of paint and varnish, hand-applied over an equal number of days, account for the exquisite finish of the exterior.

Steel disc wheels (with cord tires) harmonize with the lines of the body and screen the under parts of the chassis.

Yet in spite of its ample and inviting luxury, owners will tell you that the cost of running the car is exceptionally low.

FOR SERVICE AND SATISFACTION USE THE

W. K. Spark Plug

Absolutely Guaranteed to be the very best plug on the market

- Saves better than 10% gas
- Self Cleaning
- Increases Power
- Reduces Carbon
- Reduces Oil Pumping

We the undersigned have been using the W. K. Spark Plug for the past three to eight months and find that they do all claimed for them. We take pleasure in recommending them to all as the very best plug on the market.

KNOWLEDGE FOR CAR OWNERS

Interesting and Important Facts That Every Motorist Should Know

Don't fail to release the emergency hand brake before attempting to start.

Continuous cranking will soon run down any battery.

Never start a car with a hot, glowing radiator. Always release the clutch slightly and see that the car starts off easily.

The most common cause of the accumulation of carbon in the cylinders is due to natural wear and deterioration which permits oil pumping.

With spur gears, power may be transmitted with or without an increase or decrease of speed.

To reinforce a broken fender make templates of heavy paper and cut to the correct size so that it can be used as a pattern to cut a steel patch.

Never jam the gear shift lever from low to reverse, or vice versa, until the car has come to a dead stop; and then take your time.

An excessive accumulation of sediment or scale in the jackets will cause overheating, while in the winter months the water freezes in it is likely to crack the water jacket walls.

Warm gearing is the smoothest form of gearing, as there is a continuous sliding action.

When a small lump of carbon lodges on the valve seat, there will be a clicking sound and a noticeable loss of power, and perhaps misfiring in that cylinder at low speeds.

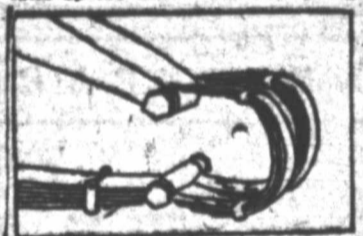

Thousands of strokes of the rings within the cylinders, aided by road dust and other abrasions sucked into the cylinders with the mixture, will gradually wear down the cylinder wall, the wear being greater on the two sides at right angles to the crankshaft.

To raise or lower the pitch of an electric horn, remove and take the horn apart, then place the diaphragm, or disc, from which the sound is produced, on some smooth hard surface. Then hammer lightly all around the edge of the disc. This raises the tension in the center which causes a quicker and higher pitched tone.

Small leaks in the top of the car may be repaired with the rubber compound used for fillings in the tire casings. Press the compound into the hole and trim off the excess. Allow it to stand a few hours, and then apply heated flat-irons to both sides, pressing together firmly. The heat of the irons will vulcanize the rubber in place.

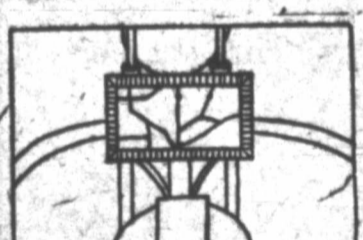

To adjust the front wheel roller bearing, the bearing is drawn up tight by means of the adjusting nuts and lock nuts. The wheel is then spun around to overcome backlash. Back off the lock nut and slightly loosen the adjusting nut until a barely perceptible play is noticeable in the bearing, after which the lock nut may be tightened. There should be just enough play to allow the valve of the tire to slowly turn the

Spring Hump Springs
A double spring arrangement is being put out for attachment to the ends of the automobile springs. These additional, say the producers, "take up the taste where the springs

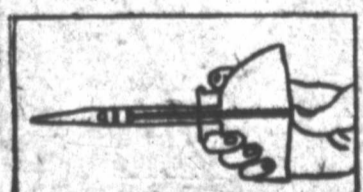

leave off." They take up the first shock of a bump that goes into the springs. Shock and rebound are alleviated.

Maps for Crisscross
Motorcyclists touring the country are relieved of the trouble of stop-

ping to locate their position. A holder can be made of a frame and fastened to the handlebars, so that the map of the surrounding country is always in view.

Leak-Proof Oil Can
A valve and spring plunger inside an oil can will keep it from leaking oil. This is a new kind of receptacle that is especially handy for motor-

ists. No matter how it happens to be in the tool box no oil will get out of it and grease up all the other materials in the chest.

plates have the light spotted appearance of sulphating. It may be necessary to replace them altogether. In case sulphating appears to be the only trouble, the groups should be reassembled in a jar with distilled water and electrolyte and given a long slow charge.

When a cell requires the addition of water more often than the other cells of a battery, or does not rest to the same specific gravity, it is usually an indication that there is

a leak in the jar. Failure to give the same specific gravity reading is not proof of this condition, as the cell may be low from other causes. The only remedy is to repair the cell at fault.

Motor Cycle Notes.
A useful tip for a high power machine which has been running smoothly up to 40 miles per hour beyond which speed it starts knocking, fit the engine with a couple of special racing spark-plugs and there

will be no knocking no matter how much the machine is overdriven.

The motorcyclist who is not too sure of his brakes should change down to second speed before descending a steep hill. If not, the chances are you will burn up the only brake and crash into a fence probably a bridge, making an end of car and passenger. Compression—what there is of it when the exhaust valves are fitted—has very

little "braking effect" down a steep hill.

It always pays to get your punctured vulcanized at the first opportunity, as patches have a bad habit of lifting at most inconvenient points on the roadway, generally miles away from a garage.

Brasil has a motor vehicle for every 1497 persons.
Tighten wire connections often.

WAIT!

For the JORDAN Announcement NEXT SUNDAY

To The American People:

May I ask you to wait just seven days before placing your order for a Jordan enclosed car?

We will make a very unusual announcement in all of the leading newspapers next Sunday.

It is most gratifying, of course, to find every Jordan dealer's sales floor bare of cars at this time but it makes necessary your indulgence until further shipments can be made.

Jordan sales have been more than tripled this year but we must not increase production so rapidly as to endanger quality and service.

Our future depends upon our constantly building a better car and giving to the public such prices as increased volume warrants.

Next Sunday's announcement will make clear this extraordinary request.

In these seven days intervening it will please us to have you act upon the following suggestion.

Do not call upon Jordan dealers or salesmen during the next seven days except for the information I specify.

Just phone, give your name, and ask the dealer to send you a list of five, ten, fifty, five hundred or a thousand Jordan owners.

They all have lists ready for mailing.

Then write, telegraph, telephone or call upon any Jordan owner or group of owners, asking any one or all of the following questions.

Would you advise me to buy a Jordan car? Is it a more satisfactory car than any you have driven before?

How many Jordans have you owned? Have you ever known Jordan to cut the quality when the price was reduced?

How does the final cost compare? I mean of course, list price, plus service expense, plus the second hand market depreciation.

Is the Jordan good looking? Comfortable? Economical?

Is it easy to handle? Well balanced? Quiet?

Is it durable? Does it perform well? Does the dealer render satisfactory service?

Get the answers to these questions.

Meanwhile remember that you will eventually drive an enclosed car.

Make up your mind to read the Jordan announcement in next Sunday's papers.

We know we will meet many new friends on Monday morning, September—25th.

Jordan owners, I know, will be happy to introduce you.

Cordially yours,

Edward Jordan

JORDAN

BACK-TRAILING ON THE OLD FRONTIERS

Drawing by CHARLES M. RUSSELL

Yellowstone" Kelly, Indian Fighter, Scout and Guide, Was One of Youngest of Plainsmen of the 60's and Hero of Many Adventures.

One of the most notable of the western plainsmen of the Indian fighting days of the 60's and 70's, and one of the last great scouts and guides of the West, "Yellowstone" Kelly, or Major Lawrence S. Kelly, as his name appears on records of the war department at Pasadena, Calif., on a little farm he bought some years ago, Kelly is spending the declining years of his life in peaceful contrast to the stirring times that he lived through half a century ago. At the age of 74 he is still active and vigorous.

"Yellowstone" Kelly was the perfect type of plainsman, combining the adventurous spirit of the early trapper and hunter with the reserved manner and quality of cool daring that marked the best type of soldier. He began his military career at the age of 14, when he joined the army and fought through the last year of the Civil War, with his regiment in the grand parade in Washington in 1865. After that his battalion was ordered to Minnesota, and in 1867 he was sent to Fort Snelling, Minn., where he met Wadsworth, Dakota. He then was honorably discharged from the service, and after visiting the Red River of the north, he rode alone through the wilderness to the Missouri river, encountering numerous adventures. One of these was a meeting with Sitting Bull, who then was becoming prominent among the Sioux as a medicine man.

Arriving at Fort Buford on the Missouri, situated on the present North Dakota-Montana boundary line, his appearance caused something of a sensation, for although he was nearly 70, Kelly appeared much younger. In fact he could not make the post riders believe that he was older than 34 or 35. The post commanders at the time went a good deal of their time playing practical jokes on him, all of which he took in good part. He was not and retiring, and he had never been mistaken for a child. He was very much out of place in the wild country where danger lurked every side.

The Sioux nation, flushed with its success in riding the country around Fort Phil Kearney, Wyo., from which the post was being abandoned at that time, and extremely hostile to whites, the country about Fort Buford was infested with them. Kelly, who made a war every day on the American trappers and soldiers along the river, as well as on the hostile Indians, was the only man between Fort Buford and the post army post, and he was the only one to be accompanied always by a post of cavalry.

One day, just after Kelly's arrival at the post, the mail carriers came down the river had become miserably overdue and the post commander gave them up as lost. Kelly, however, was equal to the occasion. Throwing himself from his horse he shot almost as his feet touched the ground, killing one warrior at the first fire. The other jumped behind a cottonwood tree, and there followed a duel between rifle and bow and arrow. The Sioux brave was cunning in warfare, and while exposing himself greatly, kept thrusting his blanket to one side of the tree to draw the fire of his enemy. As soon as Kelly would fire, the Indian would leap out, discharge an arrow and jump back to shelter again. Awaiting his chance, however, Kelly finally caught his man off guard and the Indian fell dead with a bullet through his throat.

Kelly's horse had stampeded, leaving him alone with the dead Sioux, so the boy retraced his steps to Bloody Knife's camp and told of his experience. The chief became one of Custer's most trusted scouts in the Little Horn campaign and was one of the first to fall at the side of Major Reno on the fatal 28th day of June, 1876. In fact it was said that Reno first lost his self-control when the blood of the Indian scout splattered in the officer's face when a bullet crushed the Aricari's skull.

Kelly went on to Fort Buford without further adventure and delivered his letters, and for some time thereafter he carried the mail regularly between that post and Fort Stevenson. His standing at Buford now was greatly changed. The Indians around the post were particularly admiring of his daring and named him "The Little-Man-With-a-Strong-Heart." But Kelly soon learned of so prosaic a title as mail-carrier. His restless nature demanded new thrills, and in the early summer he set out up the valley of the Yellowstone, which was in the very heart of the hostile Sioux hunting grounds of that year. He spent months hunting and trapping, and grew familiar with every mile of the river valley and its tributaries for many miles up its course toward the Crow country.

In 1877 General George A. Forsyth, an aide on General Sheridan's staff, was given orders at Fort Lincoln, Wash., to take military command of the Missouri river steamer Key West, and to explore the Yellowstone river as far as the mouth of Powder river. No steamer had ever as-

KELLY'S DUEL WITH SIOUX INDIANS

Copyrighted 1911 by the Cheely-Raban Syndicate.

ended the Yellowstone to that point, and the object of the trip was to learn whether it was navigable that far. This was one of the military moves that led three years later to the Custer fight and the subsequent subjugation of the Sioux nation.

Fifty miles above Fort Buford he camped with a famous Aricari chief, Bloody Knife, who respected him heartily. The next morning what the garrison at Fort Stevenson had foreseen happened. Kelly, firing a point in the trail suddenly, came face-to-face with two mounted Sioux warriors. One fired point-blank at him with his rifle and wounded Kelly's horse. The other lit up with arrows and wounded the boy in the knee.

Kelly, however, was equal to the occasion. Throwing himself from his horse he shot almost as his feet touched the ground, killing one warrior at the first fire. The other jumped behind a cottonwood tree, and there followed a duel between rifle and bow and arrow. The Sioux brave was cunning in warfare, and while exposing himself greatly, kept thrusting his blanket to one side of the tree to draw the fire of his enemy.

As soon as Kelly would fire, the Indian would leap out, discharge an arrow and jump back to shelter again. Awaiting his chance, however, Kelly finally caught his man off guard and the Indian fell dead with a bullet through his throat.

Kelly's horse had stampeded, leaving him alone with the dead Sioux, so the boy retraced his steps to Bloody Knife's camp and told of his experience. The chief became one of Custer's most trusted scouts in the Little Horn campaign and was one of the first to fall at the side of Major Reno on the fatal 28th day of June, 1876.

Adams Electrified Water Co.

part as a scout, successively, for Terry, Custer and Miles. His adventures during the 70's would compare with those of Cody or any of the other heroes of the plains who have survived in western history.

But Kelly, differing from the other plainsmen of his day, was destined to play a part in later army history after most of his associates of the Indian wars had long retired from active service. He was a scout in government service until 1882, when he became attached to the war department for service of various kinds. In 1888 he went to Alaska on exploration work. Later in that year he returned to the United States to

take a commission as captain in a volunteer regiment in the Philippine campaign. There, after the war, he was appointed as treasury officer of one of the larger provinces. Four years later he was appointed United States Indian agent for the Apaches and Mojaves, with headquarters at San Carlos, Arizona. He continued as such until some 10 years ago, when he retired and went to live at Paradise, California.

The activities of "Yellowstone" Kelly probably cover as wide a range of time and as great a variety of service as any man who has been connected with the military establishment of the United States.

Eastland man hunts a lost silver mine. EASTLAND, Sept. 16.—Search for a lost silver mine in Mexico by East Louis Potosi is being made by Kenneth H. Tanner, according to word received by his father, Dr. H. D. Tanner of Eastland. The mine, the son avers, was worked by Spaniards the location of which is known to but one old Indian.

BE GUEST OF HONOR
BEAUMONT, Sept. 15.—Louis Votaw, Beaumont's great hero of the

world war and one of the few veterans in Texas to win the coveted distinguished service cross, may be among the guests of honor at the annual convention of the legion at New Orleans. Votaw was a member of the local fire department when the distinguished service cross arrived here. After leaving the fire department, Votaw returned to his home in Uquet, Texas, later going to law school in Atlanta, Ga., and Hot Springs, Ark., and is now practicing law in Austin, Texas.

IF YOU ARE SICK

Profit by the Experience of Others
Consult DR. SCHULTZ
The Reliable Specialist

For scientific treatment of chronic, nervous and special diseases of both sexes, catarrh of all mucus membrane, stomach, liver, kidney complaints, blood and skin diseases. Hemroids and prostatic complications treated without the knife, by a safe and humane system of scientific office treatment.

If you are sick of experimenting, sick of failures, sick of being sick, come to me. I invite sick people who contemplate taking treatment to come. Special attention given in the combination of curative powers, modern electricity, vibrations, etc., with the scientific administration of selected Specific Medicines. I endeavor to do everything to promote the welfare of my patients.

IF YOU NEED A SPECIALIST—WHY NOT THE BEST

Are you a nervous wreck? Are you worn out and broken-down. Are you suffering from vicious Blood and Skin diseases, that destroy bone tissue, and disfigure for life? Backaches, and kidneys give you all-gone feeling? Whether these conditions were caused by early excesses, or contracted by inoculation, it does not matter, for they will all respond to my treatment. Consult Dr. Schultz, the Reliable Specialist, who is well equipped by long experience, that enable him to offer his services on a basis that no other can; his charges are lower for cures than the average physician generally charges for failures.

Those who have wasted time and money, and failed to get rid of their ailments, are especially invited to consult FREE. I am giving the benefit of over 35 years honorable experience; some of my cures are truly wonderful, yet I do not work magic; I do not make the old younger, nor the blind see; I simply apply the knowledge of my years of honorable experience have given me, and I do this honestly and intelligently.

SPECIAL ATTENTION GIVEN TO ALL DISEASES OF WOMEN
Office 605 1/4 Eighth Street
Room 3, Ward Bldg. Telephone 6990

Petrolia Compressor Station

The picture shows a photograph of the Lone Star Compressor Station at Petrolia, Texas. Note the massive machinery.

There is a lot of misapprehension about the use of compressors in the gas business. They are simply a means of inducing sufficient pressure in the gas lines to transport the gas long distances. These tremendous engines, of which twenty-nine are now in your service along the lines of the Lone Star Gas Company, pick up the gas from the mains at low pressure, compress it to about 300 pounds pressure, and deliver it with that start toward your homes.

Transport Your Gas

They use nothing but gas. They cannot enrich it or weaken it. They cannot add to the bulk. They are simply transporting stations that make it possible to maintain the supply of gas thruout the 875 miles of pipe line this company operates.

As the supply of gas decreases at nearby points, the pipe lines from the wells extend further and further, thus requiring greater compressor capacity. Each compressor represents an expenditure, with the installation, of approximately \$25,000.00. Thirty of these have been ordered for delivery this year.

They are a part of the service extended to eastern Texas by the Lone Star Gas Company.

At the Churches Today

First M. E. Church.—Plans for the Sunday school rally are being worked out. The primary and junior will find a fine piano in their room, placed there by the Wichita Music company. Sunday school 9:45. Morning sermon. "The Challenge of the Church." Egworth League will meet at 6:30 p. m. Mrs. G. L. Dorance, leader. Note the change of the hour of meeting. Evening preaching 7:30. Let us rally all the old and new members and close the year's work making the best record in the history of this church.—**R. B. PITTINGER, Pastor.**

Evangelical Church.—1311 North Sixth street, Scotland addition.—Soul-stirring revival meeting is being conducted by Evangelist James P. Aaron. His plan of prayer, of faith, of consecration, and taking God at His word, is meeting the conditions and holds on to God until his prayer is answered. Oh, that we had the faith of this man, a true servant of Jesus Christ. You can't afford to miss this meeting if you are a Christian; it's food to your soul. And if you have never been saved or have backslidden, he shows you through the blood of Jesus Christ how necessary it is to not neglect your soul. Sunday school 9:45 a. m. Bible study 3:00 p. m. Junior Alliance 4:00 p. m. Senior Y. P. A. 7:30 p. m. Preaching at 8:00 p. m. We invite you to these services. Come, you will feel at home and receive a glad welcome.—**R. C. MITCHELL, Pastor.**

Episcopal Church.—Sunday school will be open for the fall tomorrow at the usual hour. All pupils are expected to be present for assignment to new classes. Day services will be conducted at 11:00 a. m. There will be no services at night.

Christian Endeavor Program.—First Christian church. Subject, "Getting an Education." Leader, Mrs. M. W. White. Scriptural lesson, Prov. 9-11. Sentences prayers, Reading, Miss Elva Allman. What is Education?—Miss Hettie Garrison. What a College Education Means to a Girl—Miss Estelle Keenly. What a College Education Means to a Boy—J. W. Bradley. Video solo—Mr. Frank Rutledge. The Value of Business Education—Miss Mary Ellen Verzhoye. Religious Education, Its Opportunities, and Reward—Rev. Hancock. Scriptural quotation.

First Christian Church.—Special music feature of Sunday services. First Christian church choir begins fall work at the 11 o'clock service Sunday morning in the First Christian church. Dr. Hancock will speak on "Are You Getting in Front of Yourself?" This is one of several sermons on "Personal Questions." The subject for the 7:30 o'clock night services will be "The Calamity of Neglect of 'Business Tomorrow.'" The large chorus choir of the First church will render the following special numbers in these services: "Praise the Lord, Ye Heavens, Adore Him" (Turner); "He Hath Done Marvelous Things" (Herbert); trio, "Hear Our Prayer" (Abbott); "Te Deum in C" (Frank). In all departments of both church and Bible school the fall work will begin Sunday, and special preparations are being made for rally and promotion Sundays the first of October. All services begin and stop on time.

Burk Burnett Baptist.—BURKBURNETT, TEXAS, Sept. 16.—There will be all day services at the Baptist church Sunday with

First Baptist church. Subject for Tuesday night "Safety Security Employment." Are you traveling first, second or third class? If interested come—everybody welcome.—**MRS. GOODNER, Teacher.**

Fiscal Heights Baptist.—(Tenth and Kemp.) Sunday school at 9:45 a. m. Chas. Smoot, superintendent. Preaching by pastor 11:00 a. m. and 8 p. m. Junior Union 5:30 p. m. Senior Union 7 p. m. Prayer meeting Wednesday evening. Boy Scouts Friday evening. A cordial invitation is extended to all.—**J. W. LOVING, Pastor.**

Epworth League, Tenth and Lamar.—Halt! March yourself to Epworth League tonight. Military meeting open at 7:45 with song service, and this will be followed immediately by the sermon.

The Church of Christ.—Corner Tenth and Austin. R. D. Smith, minister. The Bible classes meet promptly at 9:45; and we earnestly urge all members and members' children to attend and study the word of God with us. Also others are given a special invitation to join our classes. The preaching service begins at 11 o'clock and is followed by the communion service. All services close at a rule by 12 o'clock. The evening service will open at 7:45 with song service, and this will be followed immediately by the sermon.

Fiscal Heights Methodist.—The services will all be of special interest at this church. The Sunday school at 9:30 with Judge Chauncey in charge is getting back to normal. Classes for all ages and grades. The pastor will speak at both hours today. The 11 a. m. theme will be "Is Material Success a Goal in Itself?" This will be a discussion of comparative values in life. All students will be interested. There will also be a story for the junior and intermediates at this service. The anthem will be, "They Trust in the Lord." by Adams.

Lutheran St. Paul's Church.—No. 52nd and Eleventh and Holiday streets.—Sunday we shall celebrate our annual mission festival. In the morning service Prof. H. Stoppelwerth will preach in the English language. In the afternoon at 2:30 the Rev. P. J. Klank will preach in

the German language. At 7 p. m. Prof. Stoppelwerth will give a special lecture to the young people. All, however, are cordially invited to hear this lecture. At the noon hour the ladies of the church will serve luncheon in the school house. All are welcome to partake of this luncheon. In both morning and evening services a special feature will offering will be taken for the home mission treasury of the Texas district. May God grant unto all of us willing hearts to cheerfully contribute to this fund, which at the present time is in dire need. We shall have neither Sunday school nor Bible class on Sunday. On Thursday night at 7:30 the Lutheran study circle will meet. Bring your "Messenger" July issue. The public is cordially invited to worship with us on Sunday and to hear the lecture of Prof. Stoppelwerth. All are welcome. Bring your friends with you.—**C. M. HEYER, Pastor.**

ST. MARY'S COLLEGE TO OPEN SEPTEMBER 28

DALLAS, Sept. 16.—St. Mary's college will open Thursday, Sept. 28, with probably the largest enrollment of students according to Miss Anna Martin Crocker, principal. Home economics, a new branch of study, will be offered this year.

GUARANTY FUND BANK

Come to the Texas-Oklahoma Fair, Wichita Falls, Sept. 30-Oct. 4

Save Your Eyes

A careful examination was made of 16,996 industrial and commercial workers, active in their work, and supposedly in first-class physical condition; 83 per cent showed defective vision.
