COLD WAVE AND RAIN OVER MUCH OF TEXAS AMARILLO REPORTS 17

NEGRO CRAP GAME LEADS TO SHOOTING, ONE DEATH RESULTS

EARL PIPPIN KILLED AND JIM SLOAN HELD AFTER FATAL QUARREL

MONEY IS ABANDONED AS PARTICIPANTS FLEE

Alleged Slayer Is Taken Into Custody By Officers Early Monday Morning

Earl Pippin, negro trainer in the W. F. Weeks stables, was shot and killed in a saloon here, Monday night at 9 o'clock. The shooting followed an argument over a crap game that was going on in the place.

Jim Sloan, a negro who lives across the alley from where the shooting took place, was arrested early Monday morning and a charge of murder filed against him.

Shortly after 9 o'clock Sunday night, police officers were called to the place and found Pippin lying in the floor of the house with a bullet in his right temple. Several one dollar bills were clinched in the dead man's hand; the other money in the game was left on the floor untouched by the negroes, who fled following the shooting.

The argument which caused the shooting is supposed to have arisen over the change. Sloan, the negro charged with the killing, was arrested following the game. Noble Baker and Lily Fair, the owner of the place where the "murder" occurred, also were arrested.

FOUR JURORS ACCEPTED TENTATIVELY AT MARION

MARION, ILL., Nov. 12.—The first prospective juror examined in the trial of five men charged with murder in connection with the Monday morning killings, in which 23 men were killed, was excused today when he stated he had a firm opinion as to the guilt of the defendants.

VACCINATION LAW HELD TO BE VALID BY SUPREME COURT

WASHINGTON, Nov. 12.—Municipal ordinances authorizing boards of health to enforce vaccination against smallpox and take other precautions to prevent epidemics are valid, the supreme court held today in a case brought by Rosalyn Yucht against officials of San Antonio, Texas, contending that their state legislature legally conferred such jurisdiction, municipalities could not.

GO-GETTERS

The Wisdom of Hebers. When was a country lad who wandered to the city without a job or place to stay—It really was a pity; It Hebers was not a white, Says he, "I ain't so witty, I ain't so tough, pretty with a help."

AFFIRM DECISION INSURANCE CASES FOR MISSISSIPPI

IMPOSES FINES AND PENALTIES AMOUNTING TO \$8,055.075.

ABOUT 130 INSURANCE COMPANIES INVOLVED

Decision of Court Comes From an Evenly Divided Bench—Rule Is to Affirm.

JACKSON, MISS., Nov. 12.—The Mississippi supreme court today affirmed the decision of Chancellor V. J. Stricker in the Illinois county chancery court imposing fines and penalties amounting to \$8,055.075 on the fire insurance companies, formerly operating in the state charged with violating the anti-trust law by conspiring to control rates.

BURKURNETT REPORTS THIRTY-SEVEN DEGREES

BURKURNETT, TEXAS, Nov. 12.—The temperature in Burkurnett registered 37 degrees at 7 o'clock this morning, the coldest yet for this season. Parts of the city suffered some inconvenience because of gas shortage but the local gas company reports that connections with their lines and that of the Lone Star company only require the setting of a meter which will probably be accomplished today and an ample supply of gas assured for the balance of the winter.

INCORPORATED THREE-FOURTEEN RAINFALL AT HENRIETTA

HENRIETTA, TEXAS, Nov. 12.—A heavy rain began falling Saturday night and continued through Sunday, giving a precipitation of one and three-quarters inches. The temperature is much lower this morning and the clouds indicate more rain.

ORGANIC LAW OF PORTO RICO MAY SOON BE CHANGED

WASHINGTON, Nov. 12.—Possible changes in the organic law of Porto Rico and the situation arising therefrom, were discussed today at a white house conference.

The consultation was understood to have been the most comprehensive as to subjects considered at any conference yet held. Those who met with the president were Secretary Weeks, Major General Frank McIntire, chief of the bureau of insular affairs, Felix Cordova Davila, resident commissioner of Porto Rico in Washington, Antonio B. Barcelo, president of the Porto Rican senate, Martin Travieso, mayor of San Juan, Alfonso L. Astra Pharrise, speaker pro tempore of the Porto Rican assembly, and Francisco Giltrivets, a member of the Porto Rican house. The discussion lasted more than an hour.

NOTION FOR CHANGE OF VENUE IS REQUESTED BY GOVERNOR OF OKLAHOMA

By Associated Press. OKLAHOMA CITY, Nov. 12.—Motion for a change of venue in the case of Governor J. B. Robertson, charged with accepting a bribe in connection with the Oklahoma oil lands, was filed today in the district court of Oklahoma county. It was announced here today by J. D. Lydick, chief counsel for the governor.

RAILROAD YARDS AT FT. WORTH ARE WITHOUT GUARDS

PORT WORTH, Nov. 12.—For the first time since July 1, Fort Worth yards were not under the guard of Texas rangers today and strict conditions were said to be approaching normal. All special rangers have been dismissed and the regulars transferred.

CONSTITABLE IS KILLED IN PROHIBITION RAID

CARUT HERVILLE, MO., Nov. 12.—Matt Stubbfield, 43 years old, a constable, was shot and killed here last night by Ben Wade, a grocer, during a prohibition raid. Other officers in the raiding party seriously wounded Wade. Constable Stubbfield was to have relinquished his office to a successor today.

EARTHQUAKE LIST OF DEAD AT LEAST 1000; HEAVY PROPERTY LOSS

TRIAL IS POSTPONED

LIEUT. GOV. M. E. TRAPP

By Associated Press. SANTIAGO, CHILE, Nov. 12.—Relief forces to aid the thousands made homeless by the earthquakes throughout Chile early Saturday morning and the flooding was which followed the shocks were being mobilized today. The death toll will probably be at least 1,000, it is estimated, and the property loss is incalculable. The earthquake waves were almost entirely wiped out and heavy damage to buildings and communication lines and particularly ships and down the 1400 miles of coast affected by the huge waves has resulted from the violent upheavals of nature.

The full extent of the casualties, property damage and distress wrought by the catastrophic disturbances has not yet been learned as many communication lines were put out of operation.

Five hundred persons were reported killed at Valparaiso and in the neighboring city of Coquimbo at least 100 are known to be dead. The damage from the succession of earth shocks, which filled the population with terror, was heaviest in the northern provinces of Antofagasta, Atacama and Coquimbo.

Along the coast ships were swept on shore, pounded against the rocks or left high and dry. At many small ports wharves and quays were destroyed. Today naval ships were steaming up and down the coast, stopping at various places to aid landing parties to the relief of sufferers, many of whom are without food and shelter.

The tidal waves which followed the earthquakes indicated a gigantic disturbance beneath the Pacific ocean. The total height of the waves, from shore, far below the low tide mark, and then came rushing back in a great wave which some observers estimated at 100 feet in height. At Antofagasta this queer and frightful movement of the sea was repeated five times until the houses were broken to ruins and the entire population fled to the hills.

The tremors were so severe that some of the seismographs were put out of commission. The magnitude of the shocks was three hours and forty minutes and the estimated radius 1500 kilometers in a direction from the epicenter. The meteorological institute announced the earth shock coincided with the passage of a sun spot over the center of the earth's body.

The sun spot made its appearance on November 8 and was the largest observed this year.

It was pointed out by Rear Admiral Martin, director of the navy meteorological service, that the earthquake came just as Jupiter and Saturn and Mercury and Uranus were in conjunction and were approaching, and he declared this was significant.

Telegraph Lines Open. Gradual reopening of the telegraph lines to the north is bringing relief to the thousands of the earthquake victims in the Atacama province.

The inland town of Valparaiso is in ruins with 700 dead and about 600 injured. In the most deplorable prison, 12 inmates were killed and others injured. The entire population is without food or adequate medical assistance.

At Coquimbo, where 1000 were killed, earth tremors were continuing yesterday but the population was scattering to the hills for fear of the tidal waves.

At Charras, north of La Serena the tidal wave early Saturday morning was so high that the district in which the towers were situated and the inhabitants are without food. Ten bodies have been recovered.

Caldera is in ruins. The sea swept over the town, even carrying away railroad cars.

PEOPLE BECOME PANICKY WHEN LIGHTS GO OUT. ANTOFAGASTA, CHILE, Nov. 12.—The city of Copiapo was destroyed and the port of Caldera was greatly damaged by the tidal waves Saturday morning. The waters poured off the electric power and the populace became panicky as the city grew completely dark. Most of the houses were destroyed. The waters carried away by the waters and the port of Charras was destroyed, according to reports which are just reaching here.

TURKISH DELEGATE BOASTS OF SUPPORT OF RUSSIAN SOVIET

OUTSPOKEN IN CRITICISM OF POSTPONEMENT OF CONFERENCE.

DETERMINED TO RECOVER TERRITORY LOST IN WAR

Believe Full Sovereign Rights Will Accrue to Nationalists Government.

LAUSANNE, Nov. 12.—The delegates of the Turkish nationalist government have come to the Lausanne conference as victors and their mood is wholly different from that of the crushed representative of the sultan who begged for mercy when the treaty of Sevres was drafted three years ago. Their attitude is one of confidence of being granted their demand that Turkey shall be relieved of the capitulations which are extra territorial rights granted to foreigners in Turkey. They are also firm and confident in believing full sovereign rights will accrue to their government through the conference.

Having heard the Greeks at arms, the Turks apparently are determined to recover practically all the European territory lost from them to the world war.

The Turkish delegation is outspoken in its criticism of the postponement of the conference. Apparently eager to embrace the British and French efforts to come to some sort of agreement before the conference opens, the Turkish government is insistent in urging a quick start of the discussions, which were to have begun today.

EXTREMISTS DOMINATE THE ANGLO-GOVERNMENT

LONDON, Nov. 12.—Now that the Lausanne conference has been postponed to November 26, the question most urgently asked here is whether it will be possible to maintain peace in Constantinople in the interim. Restoration of communication has revealed such an ugly situation that it is thought the utmost tact and skill will be required to prevent violent outbreaks.

All reports coming to London bolster in saying the extremists are dominating the Anglo-Government, which, through its agents in Constantinople, is following the policy of defiance toward the allies and against the local population.

Residents of Constantinople are described as being in a state of extreme alarm. The position of the allied troops is represented as one which may soon become untenable.

The incident which sharply shows the total change in the situation from conditions which have prevailed during the past year is reported by a correspondent whose dispatches say that an English book merchant who became involved in a street squabble was searched by the Turkish police, taken to the Galata police station and thrashed. The correspondents maintain the establishment of martial law alone can make Constantinople safe.

Complete agreement among the allies and a display of unity in the future granting full authority to their commanders in Constantinople to cooperate in any emergency would remove anxiety. It is one thing to guarantee assistance during the discussion with such complete cooperation. It is argued the conference had better not be held.

Commentators in London generally insist strongly upon representatives of the allied governments to meet together before talking to the Turks at Lausanne in order to develop a common policy. This is done, some observers feel it is impossible for GREAT BRITAIN to be represented at all.

GREAT BRITAIN WANTS PRELIMINARY CONFERENCE. LONDON, Nov. 12.—Although the Lausanne conference for the making of peace in the near east has been postponed a week, until November 26, officials take the view another postponement will be necessary if Great Britain fails to win her point that a preliminary conference must be held by the representatives of Great Britain, Italy and France.

The British government is insisting on some sort of consultation with the other allies in order to learn exactly where Great Britain stands before she enters the conference.

TERK LEADERS RESIST ALLEGED AMERICAN NOTE. CONSTANTINOPLE, Nov. 12.—The Turkish nationalist leaders today expressed resentment over what they termed an American interference in Turkey's internal affairs contained in a note received from Secretary of State Hughes. The note was regarded too late for newspaper comment.

The nationalist leaders are particularly displeased over American interference in the capitulations, which they declare must be scrapped forever. Regarding claims for indemnity, they said Turkey could not accept responsibility for damage caused American property by foreign invaders.

They declared, always favored full freedom of the straits of Dardanelles, provided adequate compensation was made.

MOST DISASTROUS FIRE IN THE HISTORY OF GULF COAST FIELDS RAGES ON HUMBLE PROPERTY

DECIDE JAPANESE NOT ELIGIBLE FOR NATURALIZATION

WASHINGTON, Nov. 12.—Japanese are not eligible for naturalization in the United States, it was held today by the supreme court in considering the Gray's case.

Two cases, one brought from Hawaii by Takaoka against the United States and the other brought by Takaji Yamamoto and Charles Hiro Koko against the secretary of state of Washington, the latter cases both Japanese held, were argued before the court.

The court held that the naturalization law of 1906, which requires that the applicant be of the race of the white people, was not unconstitutional. The lower federal courts denied naturalization in both cases, but the ninth circuit court of appeals in considering the Gray's case, suspended its decision and asked the supreme court for instructions as to whether Japanese were eligible for citizenship under the naturalization laws.

The question largely turned upon whether section 2169 of the re-act of 1906, which restricts naturalization to "free white persons" and "those of African descent" was still in force.

At 2:45 p. m. Monday tank No. 22 immediately adjoining tank No. 21 on the north casting first and the flames today are on the bottom of this tank—not a barrel of the oil salvaged. The pumps are working and the new fire is on tank No. 21 and 2.

Tank No. 21 is the largest earthen oil storage tank in Texas. All the tanks on the Gulf tank farm at Humble in the month of August were earthen reservoirs.

It is considered likely that tank 21 will burn until Tuesday and tank 22 or two or three other tanks, which are smaller, about 150,000 capacity, and are nearly full of oil.

When the lightning struck the first tank it put the swing out of commission and the oil could not be pumped. The pumps are working and the new fire is on tank No. 21 and 2.

The value of the 750,000 barrels of oil now burning is well up around \$1,000,000 or more, as it is standard constant heavy gravity. The burning oil was stored when higher prices prevailed. If the sun comes out today, the loss will run around \$1,000,000.

Oil insurance rarely exceeds fifty per cent of the value.

One injury so far is reported. Dode Williams, watchman for the Texas Pipe Line company, which has several tanks just south of the Gulf tank farm, jumped on a horse when the flames started and rushed to turn on the gate valve to the Texas Pipe Line company tanks. His horse stumbled and threw him. He now is in a Houston hospital. His injuries are not reported serious.

MILLION DOLLAR WORTH CRUDE OIL IS BURNED

PITTSBURGH, Pa., Nov. 12.—Two earth tanks, containing 750,000 barrels of crude oil, valued at \$1,200,000, will be lost in the fire at the Humble field near Houston, Texas. It was stated here by officials of the Gulf Oil Corporation that the property on tank had already burned itself out but it may be tomorrow afternoon before the fire ceases in the other.

One tank, part of a battery of nine containing a total of 1,500,000 barrels, was fired by lightning yesterday and "boiling over" fired the next one to it. The other tanks are so located that company officials gave as their opinion that the flames could not spread further. There will be no loss other than the market value of the oil, as the tanks are simply great reservoirs of earth and not, as in other fields, built of steel plates.

LIGHTNING KILLS STEW OF COLLIN COUNTY FARMER

McKINNEY, TEXAS, Nov. 12.—Park Thomas, living at Bloomdale, seven miles from McKinney, lost two horses, his only team, Sunday night when the animals were killed by lightning.

LIGHT HOUSES ON WACO HIGHWAYS

WACO, TEXAS, Nov. 12.—The county commissioners entered into contract today with a New Jersey firm to install five hundred highway light houses at the crossings of the Waco river in the county. The device operates by acetylene gas, flashing a light 45 times a minute as a warning of danger ahead. This is the first county in Texas to install the signals.

200-BARREL WELL IN CLARA DISTRICT COMES IN SUNDAY

Flowing at the rate of 200 barrels from a sand at 1510 feet, No. 2 well of Peck-Fitz-McWhorter No. 2 operators came in Sunday afternoon.

Robbers Secure Eleven Thousand From a Theater

KANSAS CITY, Nov. 12.—Skillful robbers burned a large hole through two steel doors of a vault in the Pantheon theater here early today and carried off approximately \$11,000, according to a report to the police.

The police believe fully five men escaped from the vault. They carried away two tanks, one containing gas and other oxygen, and a two foot acetylene torch were left outside the vault, which is in the main of the theater. A jagged hole 31 inches wide and 23 inches long was burned through the bottom of the vault doors.

COURT DOES NOT PASS ON CONSTITUTIONALITY COTTON FUTURES ACT

WASHINGTON, Nov. 12.—An effort to have the supreme court pass on the constitutionality of the cotton futures act failed today in a case brought by the American Cotton Shippers' Association against Thorn and Magnin of New Orleans. The case originated when the firm attempted to compel Brown to make payment on certain transactions in cotton. Brown contended that the transactions were gambling and therefore not binding and that the cotton futures act was invalid. The supreme court affirmed the decision of the lower court in favor of the firm, but did not pass upon the statute's constitutionality.

FRESH WATER MUSSEL HELD TO BE PROPERTY OF THE OWNER OF LAND

WASHINGTON, Nov. 12.—The fresh water mussel of the Mississippi valley, from whose shell is manufactured pearl buttons, is the property of the owner of the land through which the stream flows, the supreme court held today in a case brought by James S. McKee and others against Missouri's Benjamin Gratz.

The controversy attracted wide attention because of its importance in the pearl button industry. It went into court such questions as whether the mussel is a "wild" animal, whether it is a part of the land, whether it is a part of the stream, whether it is a part of the water, whether it is a part of the soil, whether it is a part of the air, whether it is a part of the sun, whether it is a part of the moon, whether it is a part of the stars, whether it is a part of the planets, whether it is a part of the universe.

200-BARREL WELL IN CLARA DISTRICT COMES IN SUNDAY

Flowing at the rate of 200 barrels from a sand at 1510 feet, No. 2 well of Peck-Fitz-McWhorter No. 2 operators came in Sunday afternoon.

The well is located in section 856 of the John Hirsch tract about one-half mile west of the original Buck-Cameron tract northwest of Clara district. It is the only well of all size and others that the well will increase when the well is closed out. The flow is coming through 800 feet of sand in the hole. The completion of the well is expected to have a stimulating effect on drilling operations in this part of the county.

CHEAPER MONEY RADICALISM GROWS THROUGHOUT WEST

HENRY FORD EXPECTED TO LEAD MOVEMENT IN 1924 CAMPAIGN.

FARM BLOC GAINS POWER IN CONGRESS

Strong Pressure Being Brought to
Bear on Newberry to
Resign.

By MARK SULLIVAN
National Political Correspondent of
the New York Evening Post
and Wichita Daily Times.
(Copyright, 1922, by the New York
Evening Post.)

WASHINGTON, Nov. 12.—Given
with the plain results of the election
before our eyes, the country
generally falls to see the thing that
is the chief cause of the radical
part of the result. Every one
conspicuously does the thing that
he thinks is the cause of the trouble.
Because the south is contented
with cotton at 12 cents a pound,
and the west with wheat at 1.25,
because the manufacturing east
is prosperous with every body
employed at rising wages, these two
parts of the country have not
opened their eyes to what is hap-
pening in the agricultural west and
what is rapidly crystallizing as the
main issue for 1924.

West of the Missouri river, in the
wheat and potato country, and to
only a slightly less extent in the
cattle raising territory there is a
condition of business distress and
political radicalism so extreme that
the rest of the country refuses to

Merchant Now Eats Anything On Table

"By the help of Tannin I have
overcome a case of nervous indiges-
tion I had suffered from for ten or
twelve years," is the emphatic
statement of Norman W. Brown,
well-known wall paper and paint
dealer, of 211 North Cedar st., Char-
lotte, N. C.

"My stomach was always out of
fix and everything disagreed with
me. I was troubled with heartburn
and dizziness, and at times there
was a pressure of gas around my
heart that almost cut off my breath.
"Since taking Tannin my diges-
tion is fine. My appetite is a won-
der and I eat just anything I want
in fact, my stomach acts and feels
just like a new one, and my nerves
are as steady as a die. To put it all
in a few words, I am just the same
as a new man. It's a pleasure for
me to tell my friends about Tan-
nin."

Tannin is sold by all good drug-
gists.—adv.

take it as seriously as the facts are.
In the writers' recent campaign trip
through parts of this territory the
stories about local banks and in-
dividual business in actual or im-
minent bankruptcy were so extreme
that one hesitated to print them
without investigation and verifica-
tion. Among other things, I was
told that in some counties of Mon-
tana the schools would not open
this fall because the farmers could
not meet the taxes to support them.
In this wheat and potato territory,
and because of this condition the
issue that all the local candidates
talked about and that all the people
wanted to hear about was not the
tariff, nor prohibition, nor foreign
relations nor any of the other issues
that the east talked about and
heard about. The issue in this
wheat and potato territory was de-
flation and the federal reserve
board in short, the national system
of currency, banking, and credit.
The farmers in this territory blame
the troubles on the policy of de-
flation and that was what they
wanted to talk about and hear
about.

The republican candidates told
them it was the democrats who
were responsible, because the de-
flation was begun while Wilson
was still president in 1920, and was
carried out by a federal reserve
board, whose members were ap-
pointed by a democratic president.
The democratic candidates in turn
told the farmers the republican ad-
ministration was responsible be-
cause most of the actual drop in
prices happened after President
Harding was elected.

Both parties more or less agreed
that the "goal" idea and in-
crease of W. B. G. Harding, of the
federal reserve board. Thus Governor
Harding and not President Harding
was the issue of the campaign in
the west to an extent that the east
knows nothing about.

One plain political result of the
election is that Governor Harding
almost surely will not be re-ap-
pointed by President Harding. To
do so would merely store up for
1924 added resentment against the
federal reserve board as a whole
and the system as a system. To
yield to this angry sentiment by
re-appointing Governor Harding, east
board may not be ideal justice but
political expediency looking among
other things to enabling the whole
federal reserve system to weather
the storm, will probably cause Gov-
ernor Harding of the reserve board
to be a martyr to his duty as he
saw it.

In Mood for Cheap Money.
But this is merely an incident,
what is more serious is that this
western country is in precisely the
same mood that gave rise to Bryan
and Bryanism and the demand for
cheap money in the early nineties.
And in all probability a similar ex-
pression of this kind of mood is
what we shall have in 1924. That
is the fundamental meaning of the
radical victory in the west.

At the moment the outstanding
figure in this connection is Henry
Ford, the manufacturer by various
quarters and by his weekly paper,
which appears to be distributed to
the buyers of Ford tractors and
Ford cars by the regular Ford
agents, preaches a steady doctrine
of suspicion against banks and
bankers and holds out the idea that
gold must be displaced as the basis
of currency.

This suggestion meets perfectly
the prejudices of farmers who want
cheaper money to pay their taxes
and the interest and principal of
their mortgages. Ford also gives
the idea that he can run the rail-
roads more cheaply than the pre-
sent private owners and freight rates
is the second of the two issues
which the western farmer is talking
about.

WOMAN AWARDED \$1500 DAMAGE IN CLAY COUNTY CASE

HENRIETTA, TEXAS, Nov. 12.—
Mrs. Emma Lee Gowin was awarded
\$1,000 actual and \$500 exemplary
damages by a jury here Saturday in
a suit wherein she sought \$100,000
damages from her husband, J. C.
Gowin, for alleged breach of mar-
ital contract. Lawyers said it prob-
ably was the first suit of its kind
in Texas.

Mrs. Gowin in her petition al-
leged the defendant represented to
plaintiff before marriage that he
was wealthy, that he would build
one of the finest homes in this
county for her, that he travelled
much and would always take her
with him, and would dress her in
style in keeping with his manner of
living. All these representations
Gowin failed to carry out, the plain-
tiff charged, and further that he
was cruel to her after marriage and
upon one occasion struck her.
The jury, finding in favor of Mrs.
Gowin, was composed entirely of
men and deliberated five hours. Da-

YOUNG COUNTY MAN DIES SUDDENLY ON WAY TO HIS HOME

GRAHAM, TEXAS, Nov. 12.—Al-
len Williams, pioneer cattleman and
deputy sheriff, died on his way from
Graham to his ranch, two miles north
of Markley, in the northern part of
Young county. He left Graham about
11:30 o'clock Saturday with his son,
O. R., age 16, and daughter, Julia
Faye, age 12, and Eula Faye's friend,
Miss Lindsay, age 16. Eula Faye was
driving the Ford roadster which was
badly crowded and not until they
arrived at the home of Tom Lindsay,
near Markley, did the children dis-
cover that their father was dead.
How long he had been dead they do
not know. The children had gone
with Mr. Williams to the Armistice
day celebration at Graham, while
their mother was in Jermyn, Texas,
where she was staying and sending
the children to school.

Early to Bed and Early to Rise Is Maxim of Tiger

By Associated Press.
ABOARD THE STEAMSHIP
Paris, En Route to New York, Nov.
12.—Almost every passenger aboard
the steamship Paris is honoring the
maxim "early to bed and early to
rise" in order to "watch Georges
Clemenceau take his early morning
walk on the decks. The former
French premier gets out of bed at
5 o'clock, paces up and down the
ship a while and then goes back to
his cabin.

At dawn today he was up in the
bridge watching the sun rise. He
intimated that he would not attend
the ship's concert Thursday evening,
preferring not to break his custom
of retiring at 8 and rising at 5.
When this information was whis-
pered about the ship there was
much disappointment, as everyone
had been confidently expecting that
he would talk to the passengers at
the Thursday evening rendezvous.

Motor car production for 1921 in
France is placed at 57,000 cars and
2,500 trucks.

WOMAN AWARDED \$1500 DAMAGE IN CLAY COUNTY CASE

HENRIETTA, TEXAS, Nov. 12.—
Mrs. Emma Lee Gowin was awarded
\$1,000 actual and \$500 exemplary
damages by a jury here Saturday in
a suit wherein she sought \$100,000
damages from her husband, J. C.
Gowin, for alleged breach of mar-
ital contract. Lawyers said it prob-
ably was the first suit of its kind
in Texas.

Early to Bed and Early to Rise Is Maxim of Tiger

By Associated Press.
ABOARD THE STEAMSHIP
Paris, En Route to New York, Nov.
12.—Almost every passenger aboard
the steamship Paris is honoring the
maxim "early to bed and early to
rise" in order to "watch Georges
Clemenceau take his early morning
walk on the decks. The former
French premier gets out of bed at
5 o'clock, paces up and down the
ship a while and then goes back to
his cabin.

At dawn today he was up in the
bridge watching the sun rise. He
intimated that he would not attend
the ship's concert Thursday evening,
preferring not to break his custom
of retiring at 8 and rising at 5.
When this information was whis-
pered about the ship there was
much disappointment, as everyone
had been confidently expecting that
he would talk to the passengers at
the Thursday evening rendezvous.

Motor car production for 1921 in
France is placed at 57,000 cars and
2,500 trucks.

WILLIAM PENN

In 1688 Wm. Penn paid \$4.68 per pound for his coffee green and it wasn't very good coffee at that. Then he had to roast it the best way he could. He evidently thought it worth the money and you will admit that "Bill" was a wise guy. If Bill could have bought a pound of "WHO CAN BEAT IT" there's no telling how much coin he would have parted with. The next time you buy coffee ask for "Who Can Beat It." We want you to KNOW how good it is. A Wichita Product.

STAMFORD CHAMBER OF COMMERCE HAS ANNUAL GATHERING

BANQUET AND BUSINESS SESSION IS HELD AT STAMFORD INN.

OFFICERS ARE ELECTED FOR THE ENSUING YEAR

Recommend Creation of Young Men's Business League For That City.

STAMFORD, Nov. 11.—Recommendation of the creation of a young men's business league to work in conjunction with the chamber of commerce, election of a set of new officers for the latter organization for the ensuing year, and the outlining of a policy of chamber of commerce endeavors—these were some of the features of the annual banquet and business session of the Stamford chamber of commerce Friday evening at the Stamford Inn.

The report of the secretary showed that during the year just closing that the organization had raised and expended \$7,500 in connection with its chamber of commerce activities, including salaries of secretary, stenographer and other office help, campaigns in connection with increased school facilities and good roads and incidentals. The chamber faces the new year with a deficit of \$432.11, a figure much smaller than when the chamber started the year.

Col. R. L. Penick, founder of Stamford, president of the chamber since its creation in April, 1906, told of peculiar knotty problems that confronted the first organization and how they had been solved. He said that he was retiring from active labors and that he wanted to turn the affairs of the organization over to young blood.

Suggestions Submitted.
Upon Penick's request that members present express themselves on the idea of maintaining the chamber of commerce, voluntary talks for such perpetuation were made by O. P. Harlan, V. E. Baker, A. C. Cooper, Nicholas Holland, Bernard Bryant, R. L. Haynie, Porter A. Whaley and several others. Cooper suggested organization of an auxiliary commercial club for the city to be known as the Stamford Young Men's Business League, and that the organization preliminaries be committed to Nicholas Holland. Holland agreed to sponsor the movement and line up the young blood. However, it was understood that the chamber of commerce as now constituted should be maintained in its usual high order, the auxiliary organization being mainly to inculcate the chamber of commerce spirit among the young men so that when they took over the affairs of the city later in their lives they would be well fitted to handle them.

A nominating committee appointed by Colonel Penick consisting of Walter Orr, Bernard Bryant and Jack Dial submitted the name of Dr. E. P. Hankley for president for the ensuing year, together with R. L. Haynie, O. P. Harlan, Bob Kinnard, Ed H. Layne, Illey Pratt, A. L. Hunter and J. C. Brady as vice-presidents. Each of the latter to be chairman of a certain committee on chamber activities. All the nominated members unanimously elected to fill the several places for the ensuing year.

Farm Demonstration.
J. R. Masterson, farm demonstration agent and ex-officio secretary of the Stamford chamber of commerce, reviewed the work of the organization during his tenure of several months following the resignation of Homer D. Wade, now assistant manager of the West Texas chamber of commerce. The relations between rural and city people insofar as it concerns this particular section of the much improved, Masterson said. Masterson is looking after all the schools in better stock, better dairy animals and better farming. Almost weekly he is bringing entire schools into Stamford for refreshments and for profitable agricultural instruction. The scheme of making the farmer and the town man better friends.

While nothing definite was undertaken in the way of fixing the figures for the new budget for the activities of the organization, it is expected that it will be about \$3,000.

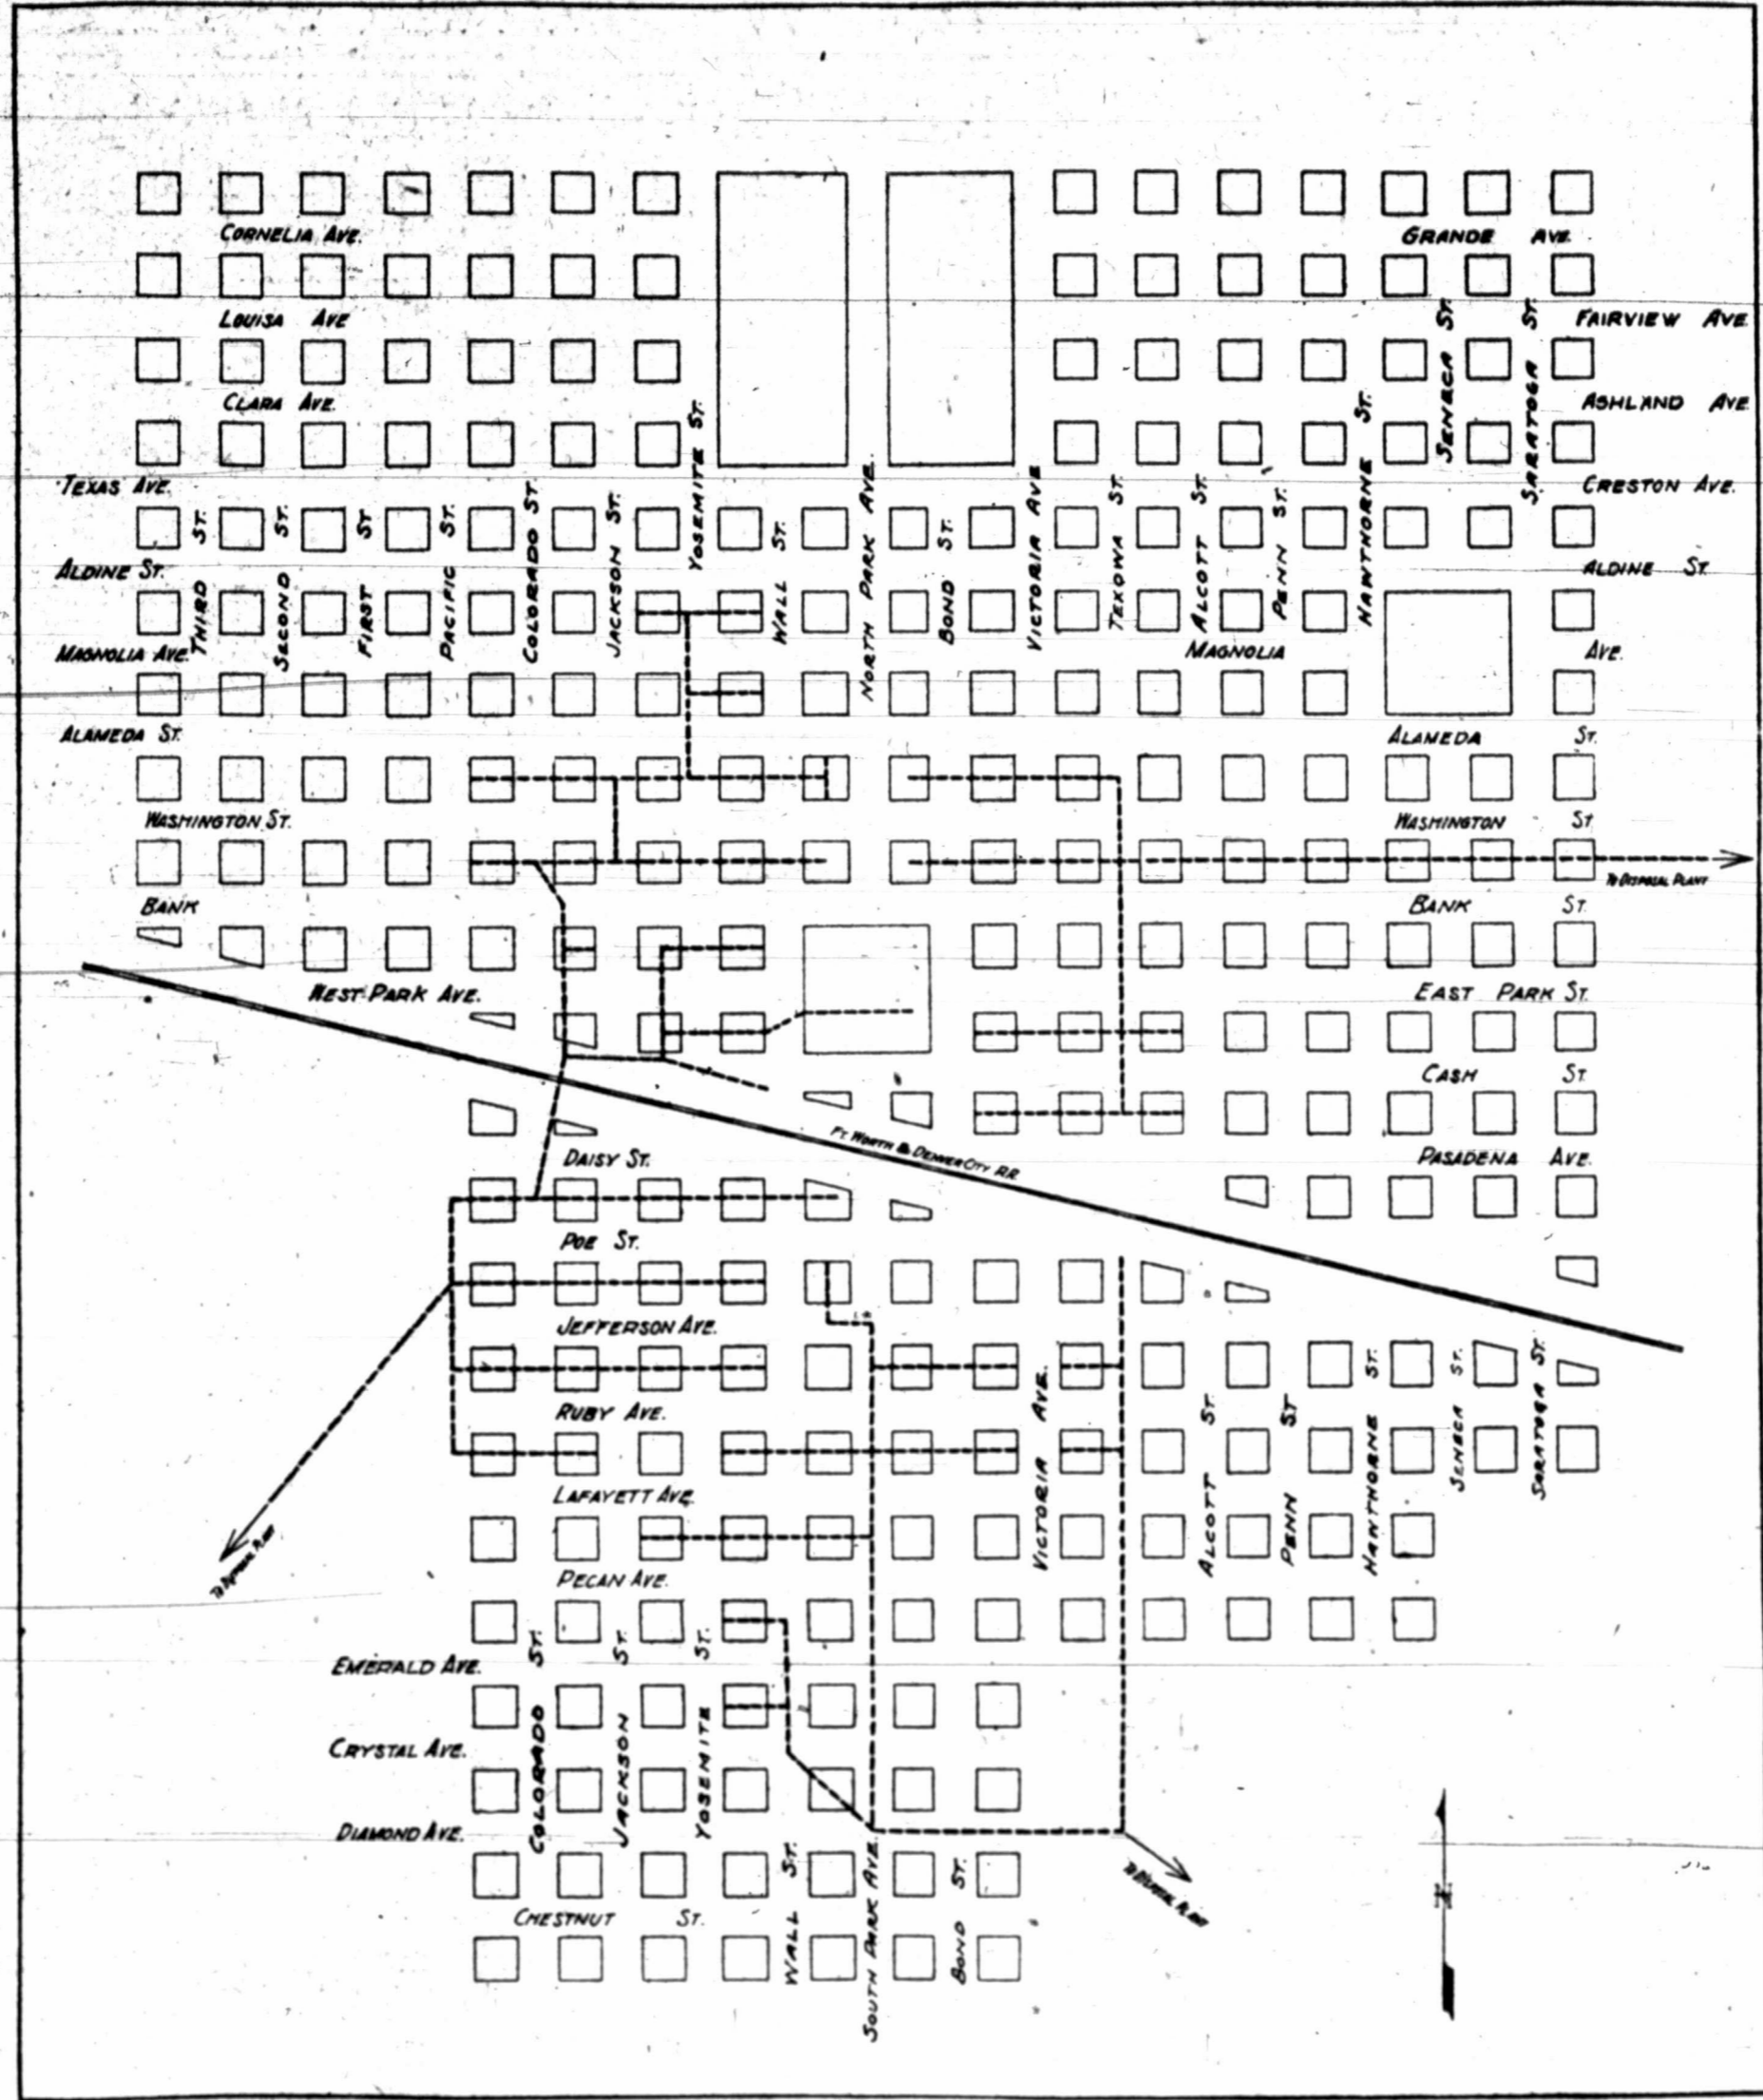

The Stamford chamber of commerce is one of the oldest chambers of commerce in the state that has functioned continuously. It was organized in a shack or shed when the town was only a few months old. Its first problem was to take care of several scores school children without a school. Its first important work was the raising of \$500 with which a school structure was erected the first year.

Interest was aroused in the meeting by the statement of one of the prominent speakers that Stamford was standing in a fair way to get a great railroad when the shop strike occurred and that when the situation was ameliorated Stamford would probably learn something definite which would add lustre and wealth and population to the best known town in west Texas.

KEEP LOOKING YOUNG
It's Easy—If You Know Dr. Edwards' Olive Tablets
The secret of keeping young is to see young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from impure bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

IOWA PARK SOON TO HAVE MODERN SEWER SYSTEM

Above is shown the route to be followed by the \$40,000 sanitary sewer system for Iowa Park, for which bonds were voted earlier in the year, and plans for which have been prepared by Montgomery & Ward, civil engineers, of Wichita Falls. The system will serve the built-up part of the community, with provision for such extensions as the future growth necessitates. The topography of Iowa Park is such that it was found most economical to use three separate systems, one serving the west side, one the northeast and one the southeast.

VERNON PEOPLE OBSERVE "GO TO CHURCH SUNDAY"
VERNON, TEXAS, Nov. 13.—Yesterday was observed by all of the churches of the city as "go to church Sunday." A big campaign had been put on during the past week and all of the town invited to attend. Extensive advertising matter had been distributed, and more than 100 workers on last Tuesday afternoon from four to five put door knob hangers on knobs of almost every door in the city. The little hanger stated that it was only a humble door knob caller and invited the family to attend the church of their choice on November 12.

NO NEED FOR THIRD PARTY SAYS BARUCH

Replies to Suggestion That Manufacturers and Farmers Get Together.
NEW YORK, Nov. 13.—Bernard M. Baruch, former chairman of the war industries board, and personal friend of former President Wilson, declared today there was no need of a third party and he intends to remain a democrat. He made the statement in reply to one by Colonel Robert H. Montgomery, a Republican, who suggested that manufacturers and farmers be brought together with Mr. Baruch in charge.

FIFTH OIL TEST IN HUTCHINSON COUNTY SECTION 2, BLOCK Y

PANHANDLE, TEXAS, Nov. 12.—The fifth test for oil in Hutchinson county has been started on section 2, block Y. The tools and other equipment is being moved to the lease this week by Colorado Springs and Denver interests with H. C. Farley of Denver in charge of operations. This test is two miles east of the Holmes, McIlroy and the pay produced and five miles northeast of the producers in Carson county. Under the terms of the contract, the contracting operators to receive a substantial block of leases in exchange for drilling the well. The leases of small tracts around the well are held by individuals and population to the development will attract much interest.

Tanks and other equipment has been placed on the ground for the completion of the Texas No. 1 Burnett on the north line of Carson county. This well reached the pay three weeks ago and was shut in awaiting the arrival of storage. The completion of this well is guarded with great secrecy and time of drilling in and possible production is not obtainable until it is known that several officials of the company have invested heavily in Panhandle City property since the pay was reached and many business lots have changed hands, deals being completed within the last few days with a rush which had been pending for many weeks. One mile southwest of the Texas well, Gulf is drilling on their No. 3 Burnett at 480 feet. This well is expected to drill through the second pay at which other wells in this district have been stopped and drill several feet deeper with the expectation of striking a more productive sand. In the well drilled on the Wynn ranch 19 miles south and which was abandoned at 2,700 feet, several thick sands containing water were drilled through and officials are of the opinion that the sand is the same as that producing oil to the north, though in the Wynn test the sand had dipped 250 feet to a lower level, which accounted for the water content.

FOUR PEOPLE ARE BURNED TO DEATH AT AMORY, MISS.

ARMORY, MISS., Nov. 12.—Four persons were burned to death in a fire which destroyed the "IFA" hotel here early today. The dead are: C. F. ALTHEIDE, Evansville, Ind. T. J. MARSHALL, Memphis. JACK HOLDEN, address not ascertained. C. W. FRUETT, a railroad news agent. E. H. MURRAY, Myrtle, Miss., was seriously injured when he jumped from a second-story window. The fire is believed to have been caused by the explosion of an oil stove at the foot of a stairway. The bodies of all those killed have been recovered.

Former President Replies to Message Of Abilene Legion

ABILENE, TEXAS, Nov. 12.—"Thank you from a full heart for your cheering message. I am proud to recall the comradeship of the war," Woodrow Wilson. "That was the message received today by Scott J. King, commander of Parramore post No. 31, American legion, from the former president. The legionnaires on Saturday sent a message of greeting and good cheer to "their buddy" Mr. Wilson. **INCREASED STOCK OF WOOL IS REPORTED** WASHINGTON, Nov. 12.—Increased stocks of wool as compared with three months ago are announced in the joint quarterly report of the departments of agriculture and commerce. Stocks in and about to the United States September 30 amounted to \$25,173,618 pounds, grease equivalent, an increase of 45,020,424 pounds over June 30 stocks. Stocks of foreign raw wool held

by manufacturers increased 23,536,700 pounds. Stocks of domestic wool held by manufacturers remained practically unchanged, while dealers' stocks increased 8,156,359 pounds of domestic wool and 14,172,235 pounds of foreign. Most cars of the first automobile show of 1920 were "one-lungers" had only one cylinder. Steering wheel of today was unknown on the automobiles of 20 years ago.

ISAIAH'S PROPHECY SERMON THEME OF DR. BARNES SUNDAY

Dr. S. A. Barnes selected the sixth verse of the 66th chapter of Isaiah for his text at the evening service Sunday at the Central Heights church, "Seek ye the Lord while He may be found."

"It is one of the old texts of the Bible," said Dr. Barnes. "I have heard this text preached more than any other text in the Bible. This text is quite a masterpiece in the old testament. It is the miracle of the prophecy shedding its light and its golden rays, its hopes, its possibilities and its joys down to the saints."

"The author of this text stands prominent above all other old testament writers. Some of the prophets present side views; others give us a hint; others open up a gap through which we can look. Some have a front view and others a side view, while others have looked backward, but Isaiah gives us a full grown live prophecy of the coming Messiah."

"Isaiah was both an orator and a writer. He was honored and inspired. I like to put the emphasis on inspiration. If the old testament is not inspiring, then there is no inspiration in the new testament. I believe in the inspiration of the old testament as well as the inspiration found in the new. I believe these holy men spoke as God gave them words, and I believe that Isaiah, the author of this text, spoke the words of this sublime 66th chapter at the dictation of God just as much as I believe the Lord's prayer was uttered by the Son of God."

"Isaiah was not a perfect man. God has never selected a perfect man for great tasks. Because man is not a perfect being, no sign that he does not believe in God. God looks upon man, redeems him by the grace divine and sets him up for the tasks of the world. 'Isaiah a man?' Yes, Isaiah, imperfect? Yes. While God knows man to be imperfect, yet it is His wish that we be redeemed through the blood of Christ."

"Isaiah was of the college of prophets. Our text finds him here upon a pinnacle of a mountain of inspiration. Being on the mountain top of inspiration, he is looking down the ages and out in language that is plain. His inspiration as found in the words of this text is convincing evidence that would naturally lead to the Christ. If we want to know about the Christ we look into the new testament, but if you forget the old testament and the prophecy of Isaiah you destroy the very foundation upon which the old and the new testament stand. I am concerned about the religion of Jesus Christ and what He brings to the world and life that is the message. His messages. We are very much concerned about minor things, but the very first word of this text is one that demands our time and attention. It is one of importance, 'seek.' To seek is to search for something. I think if we would give as much time to seeking into the things of the eternal life as we do in the material affairs of life we would get a lot more out of life than we do."

"Did you ever stop to think that in this text we find that there is not only a seeking of man, but there is a seeking of Christ. As man is seeking Christ, Christ is seeking man. Jesus said, 'I come to seek and to save that which was lost.' I think often times until we seek and find ourselves, we never find the Christ, but whenever we find ourselves there is a seeking of Christ. If you desire to seek any person or business you will not sit down and wait for him to come alone. The trouble is, my friends, we do not seek as much common sense into the seeking of the eternal as we do into our every day business, and when you come to the time when religion will form a part of your business, then it will be the glorious one. We have mystified our religion and have held Christ far away. I pray the time will come that the church will not look upon God as far away, but will recognize that He is here and that Christ is a living Christ seeking to demonstrate the glories of pardon."

"We can only seek God in three ways. The first is through the Bible. What is the Bible for? It is our guide. It tells when to be saved and why we should be saved. It tells about the pitfalls. It sets up the guide post all along the way. Jesus asks what is truth. Jesus is the truth. If you want to appreciate the Christ, the life of the church and the Christian brotherhood, you study God's eternal truth."

"Another way by which we seek God is through prayer. I know there is an old idea, we used to think that a sinner ought to pray, but that is a slander on religion. There is no truth in that old statement. Man must come to know the God and then ask forgiveness for his sins."

"Then we seek the Lord through the ordinances of the church. The word salvation ends upon the spiritual heartbeat of the church. If the world is to be saved, it must be saved through the church. It will not be saved through any other organization, and it is through the church ordinances that men are reached."

Some scientists maintain that the equator is not an exact circle, but they have not proved their case, and in any event, it is agreed that the deviation, if there is one, is small.

Movie Critic Weds Screen Star

Motion picture actors, critics and scenario writers gathered in New York at the recent wedding of Robert E. Sherwood (left) and Mary Brandon (right), in the Little Church Around the Corner. Mary and Doug are shown here in the wedding group with Anita Loos (right), the scenario writer.

COLDER WEATHER BEING WELCOMED BY RADIOPHONE FANS

The coming of colder weather is expected to greatly improve conditions for radiophoning, that is, as soon as the weather becomes settled, which may not be for several days yet.

Nightly programs from many stations are being heard in Wichita Falls and vicinity. Among those that are heard clearest are stations of the Palmer School of Chiropractic at Davenport, Iowa, the Sweeney automobile school and the Kansas City Star at Kansas City, the St. Louis Post Dispatch, the Fort Worth Star-Telegram, the Dallas News and Journal, the San Antonio Express, and the Atlanta Journal.

On some nights far distant stations can be heard. A few nights ago the Times radiophone picked up Portland, Ore. and Alberta, Calgary, and Detroit, Mich., Minneapolis, Minn., and Louisville, Ky., can be picked up almost every night.

W. B. A. P. Programs.

A feature of the Star-Telegram's program Monday night beginning at 7:30 and continuing until 8 p. m. will be old-time fiddling by A. Millstead, fiddler, and Charley Barber on the guitar. From 8:30 to 10:30 p. m. W. B. A. P. the Star-Telegram will broadcast a concert by a male quartet.

On Tuesday evening W. B. A. P. will broadcast the following program: 7:30 to 7:45 p. m.: Popular price-reduction talk by Rob Roy Price.

BELLYM STORER DIES SUNDAY NIGHT IN PARIS, FRANCE

CINCINNATI, Ohio, Nov. 12.—Bellym Storer, attorney and former diplomat, died in Paris, France, last night, according to a cablegram received here today.

The circumstances of the death of Mr. Storer were not stated in the cablegram, but it is known he had been in ill health for the past year.

NEW YORK, Nov. 12.—Bellym Storer, who died in Paris yesterday, was American ambassador to Austria-Hungary in 1902-04. Previously he had been minister to Belgium and Spain. He was a member of the 52nd and 53rd congress. He was born in Cincinnati in 1847.

TELEGRAPH BRIEFS

PHILADELPHIA.—Major N. Merritt, an Indian fighter under General Nelson A. Miles, died yesterday.

BERLIN.—Sixty-eight foreigners without passports were arrested in a campaign against aliens here to take advantage of the collapse of the mark.

BERNE.—The Swiss government has decided on establishing a bureau for the importation of cereals from the United States and elsewhere.

PHILADELPHIA.—Dr. Charles Graf, vice president of the Allied medical association and a specialist in bloodless surgery, died last night.

NEW YORK.—Chester W. Chapin, 80, for many years president of the New York and New Haven Steamship company and the Central New England Railroad company, is dead.

BERLIN.—The non-radical press asserted Wirth will be forced to take cognizance of the proposal of Hugo Stinnes to increase the nation's productivity by taking a stand for added working hours.

DUBLIN.—Eamon de Valera in a message to Irish meeting in Scotland characterized as a foolish dream the idea it would be possible to build a prosperous Irish state on any other basis than recognition of the independence of the Irish nation.

AUTO ACCESSORY WHOLESALE HOUSE OPENS HERE SOON

A wholesale house for handling auto accessory and garage equipment will be opened here shortly, adding another concern to the growing list of distributing agencies for this city.

M. A. Bundy is president of the new organization and E. H. Dyer is sales manager. The company's name has not been announced. Mr. Bundy is now in Chicago to attend the annual meeting of the National Automotive Equipment association.

TODAY'S TALK BY GEORGE MATTHEW ADAMS

THE PLOUGHMAN.

The greatest realization that any human can come to is that he is primarily a servant.

Through service alone are men raised to usefulness and eminence. Even the selfish man has to render an indirect service.

I have been traveling over the country. I have talked with salesmen—serving their houses. I have talked with big newspaper editors—serving their readers.

I have looked out of my car window and watched this ploughman and have been inspired by his service.

I think of him as I take my fruit or cereal in the morning, and as I eat my bread. This sturdy man who toils in the sun or rain, who takes the weather as it comes and makes no complaint, who is all the time thinking ahead—should he not be included among such as Carlyle writes about in his book of Heroes?

In this connection I think of Cromwell, called for his plough to lead a nation through his peril; of Cinquatus, and others.

There is another kind of ploughman—he who turns over new ideas, waters them, and cares for them until a nation is able to appreciate them.

The ploughman's job is no easy one. Nor is the life of the pioneer attractive. He must be compensated for all his toil by the consciousness that he is building for others, who may not come along for a long, long time—and whom he may never know.

The shepherd serves the life of his sheep—and the dog delights in every evidence that he is beloved by his master. Together they make up a picture of happy service, willingly entered into.

He who serves—and who delights in his role as servant—is at once clothed with great dignity and beauty of character and worth.

Why not be a ploughman?

Texas Viewpoints YOU AND I BY ALBERT APPLE

THE CASE OF DEMOCRACY IN TEXAS.

Houston Chronicle; Earle B. Mayfield's triumph was to have been expected. Tradition, habit and party loyalty are powerful factors in his favor.

It is a true plot and comes in the telegraph news from Davenport, Ia., in this form: "After a three-day search by the police for Harry Carey, alleged slayer, the startling discovery was made today that the dead man is Carey himself."

Life is the same old show, generation after generation—actors and scenery changing, but the plot never.

IT'S THIS WAITING AROUND THAT GETS TIRESOME

menacing voice, "you think you shall follow in my track. Yes! I blow your damn head off if you stir before the hour. . . . After that—well, follow and be damn!"

He caught up the embossed case, stripped out the first tray, then the second, and flung them aside. Then, searching with the delicate tip of her forefinger in the empty case, she suddenly pressed the bottom hard—thumb, middle finger and little finger forming the three apices of an equilateral triangle.

There came a clear, tiny sound like the ringing of the alarm in a repeating watch by very gently the false bottom of the case detached itself and came away in the palm of her hand.

And there, each embedded in its own shaped compartment of chaos, lay the Methonian jewels—the true ones—deep hidden, always doubly guarded by two sets of perfect imitations lining the two visible trays above.

And, in the center, blazed the Emerald gem—the magnificent Flaming Jewel, a glory of living, blazing, crackling, crystalline glass as though stunned.

Then the young girl who had once seen Her Serene Highness Theodora, Grand Duchess of Esthonia, looked up at her brand-new husband and laughed.

"Did you really suppose it was these that brought me across the ocean? Did you suppose it was a passion for these that filled my heart? Did you think it was for these that I followed you?"

She laughed again, turned to Eve. "You understand. Tell him that if he had been in rags I would have followed him like a puppy. . . . They say there is envy blood in us. . . . God knows. . . . I think perhaps there is a little of it in all real women—still laughing and meeting his; she lifted the jewel-case, closed it, and placed it in his hands.

"Now," she said, "you have everything in your pocket, and we are safe—safe as quite safe, now my jewels and I."

Then she went to Eve and rested both hands on her shoulders. "Shall we put on our snow-shoes and go—home?"

Stormont flung open the bullet-

slitted door. Outside in the snow he dropped on both knees to buckle on Eve's snow shoes.

Darragh was performing a like office for his wife, and the State Trooper, being unobserved, took Eve's slim hands and kissed them, looking up at her where he was kneeling on his first touched her hands.

Her pale face blushed as it had that day in the woods on Owl Marsh, so long, so long ago, when this man's lips first touched her hands.

At their eyes met both remembered. Then she smiled at her lover with the shy girl's soul of her gazing out at him through eyes as blue as the wild bird-gentians that grow among the ferns and mosses of Star Pond.

Far away in the northwestern forests of Quintana, still lashed by his horses through the primal pin-needles, triumphant, reckless, resourceful, dangerous, he felt that now nothing could stop him, nothing bar his way to freedom.

A THOUGHT FOR TODAY To be spiritually minded is life and peace.—Romans 8:6. Progress begins with the minority.—It is completed by persuading the majority.—George William Curtis.

ANOTHER INSTANCE OF NEWSPAPER ENTERPRISE. The story is told that the publisher of an early Boston newspaper made a bet upon his competitors by sending a boat outside the harbor to meet the ships coming in from Europe to obtain letters and copies of European newspapers, rushing back with them to the printing office where excerpts were reprinted and gotten into circulation ahead of other publications which waited until the ship docked before obtaining their news.

That Boston publisher started a competition in speed in obtaining news that has kept up between newspapers ever since. Speed not only in obtaining the news but in printing it and in circulating it after it has been printed is one of the big and necessary efforts in newspaper work. And it may be said with no desire of self flattery that newspapers have made wonderful accomplishments in this direction through enterprise and organization.

It is a far cry from the slow sailing ship that brought news from Europe in six or seven months in the day of the Boston publisher who first displayed American newspaper enterprise to present day methods when telegraph, cable, telephone and radio carry the news of the day of the whole world in lightning rapid streams into the newspaper offices.

It would appear that the ultimate in speed had been reached in newspaper work but a photographer for the Detroit News a few days ago showed the way in something new. This photographer had been carried to Ann Arbor, Michigan, by airplane to take photographs of a football game. Having taken the photographs he hopped into the waiting plane to be carried back to Detroit so that the photographs could appear in his newspaper at the earliest moment possible. There was nothing new about this. It had been done by newspaper photographers many times before. But at this point the Detroit News photographer departed from custom and like the Boston publisher, brought something new into newspaper work. As the propeller of the airplane began to revolve the photographer slipped the film into a black bag and as the airplane flew faster than any bird toward Detroit he developed the photographs, having them ready for the engraver when he landed in Detroit.

His was a spirit and enterprise which has made American journalism lead the world.

MR. METAL MIKE. An uncanny new invention, known as "Metal Mike," is perfected by Elmer A. Sperry, the marine inventor.

Metal Mike is an automatic ship steering device. It looks a lot like a street car motorman's control box. Hook it to a ship's wheel and it steers six times more accurately than the best human wheelman.

The Moffett, largest tanker of the Standard Oil fleet, recently made a 4,000-mile trip in which it was steered almost continuously by Metal Mike.

If the ocean waves twist the ship off her course, Metal Mike instantly detects the deviation from the route mapped out inside him before leaving port. Automatically Mike whirls the steering wheel and corrects the ship's course.

When you have a device like Metal Mike, by which a ship can practically steer itself from San Francisco to Hong Kong, you have about the nearest human piece of machinery ever made.

It's enough to have made a skilled navigator like Christopher Columbus drop dead from fright. . . . It makes you wonder, is there any work we do that eventually will not be duplicated by machinery? Metal Mike, of course, lacks judgment, the most important quality of a human pilot. That is, Mike can steer a ship to destination—unless another ship gets in the way.

Still, it would not be impossible to improve Mike's eye-wheel brain so that, nearing another ship, he automatically would steer away from it.

This would be just the reverse of the selenium torpedo, which automatically pursues its prey, no matter how many twists and turns are taken in the attempt to escape.

We recall an "automatic man" that years ago toured the country in cheap vaudeville houses. It walked. It bowed. It did many stunts. Its operator opened its coil, displaying a maze of machinery visible inside through a glass.

All went well until a woman, crafty in her knowledge of masculinity, shoved a hatpin into the automatic man's leg. His career ended with a howl.

But, at that, we wouldn't be surprised to wake up one of these marvelous days and find a genuine automatic man strutting the streets—and possibly running for political office.

They have talking movies in Germany and talking audiences here.

JUST FOLKS BY EGGER A. GOSSET

LIFE'S STORY. To write life's story well one must be wise—Wise in the beauty of courageous deeds. The strong, clean virtues and the simple creeds. And though in vice some truth of nature lies. And creatures do those things which gods despise. Who tints with splendor what is shameful leads. To baser standards him who blindly rises. Who loves the mire shall never higher rise.

To live life's story well needs wisdom, too—Wisdom to pass by grossness undefiled, To see the worst of nature and come through. Fit to be trusted by a little child. To know that mad exists and must be seen, But still to fill your life with what is clean.

SMILE A WHILE WITH TOM SIMS

If Dempsey can't get mad enough to fight why not appoint an assistant champion? Trouble with electing the wrong man to office is you can't get your money back if not satisfied. Grocer is suing a girl for breach of promise. Only a very foolish girl would jilt a grocer.

Beauty secret: Closing the eyes eight hours every night keeps away the dark circles. The man worth while is the man who can smile when his neighbor struggles along with a song.

Beauty secret: Not wearing tight shoes helps keep your face from becoming wrinkled. In these new fall dance steps you meet her face to face.

Eat, drink and be married, for tomorrow winter may come. The height of folly is the high cost of living. Tramp, tramp, tramp, the tramps are heading south.

A stitch in time saves two socks. Trains are carrying radio outfits. Their cowcatchers have been broadcasting stations always. Fordney is planning a trip around the world and Fordney tariff hopes he stops half way.

Letters may be sent to Uruguay for two cents now. Bargain hunters wish they knew someone in Uruguay. Lafayette, when it comes to keeping our troops on the Rhine, they are there.

Some towns are lucky. In New Orleans, a man shot a bootlegger. Lloyd George will have to go some to come back. Is it more blessed to pay than collect? Several Baltimore butchers have been told to mend their weights.

Drive on tax dodgers has started. Drive on taxi dodgers continues. Entirely too many Hons and elephants are being sent by hunters. Beyond the Alps lie Italy's politicians.

Some towns are lucky. Near Wittenberg, Mo., two robbers were killed. Harding has bought a farm. Making it pay will be much harder work than his present job.

Louisiana couple has four sets of twins. That's a thrift. They are cheaper two at a time.

The FLAMING JEWEL BY ROBERT W. CHAMBERS

Continued from our last issue. CHAPTER III. Stormont's eyes stared at Clinch's quarters, and presently came downstairs again, carrying Clinch's snow shoes and a basket.

He seated himself near Darragh. After a silence: "Your wife is beautiful. Jim's character seems to be better now than before."

"She's like God's own messenger to Eve. . . . And—you're rather wonderful yourself, aren't you?"

"Nonsense," said Darragh. "I've given my wife her first American friend, and I've done a shrewd stroke of business. My best business associate I ever heard of."

"You're crazy but kind. . . . I hope I'll be some good. . . . One thing: I'll never get over what you've done for me in this crisis."

"I'm glad we are to be friends," he said. "I hurt a lot to know you held me in contempt. But I had to go about it that way."

Eve nodded. Then, suddenly recollecting: "Oh," she exclaimed, "I forgot the jewel case! It's under my pillow."

She turned and sped upstairs and returned in a twinkling, carrying the jewel-case. Breathless, flushed, thankful and happy in the excitement of restitution, she placed the leather case in Ricca's hands.

"My jewels!" cried the girl, astounded. Then, with a little cry of delight, she placed the case upon the table, stripped open the embossed cover, and emptied the two trays. All over the table rolled the jewels, flashing, scintillating, ablaze with blinding light.

Cause of Wellesley Furore

When two pretty maids of Wellesley jessed up their freshman year by smoking cigarettes and wearing knickers, the faculty stepped in and ended their scholastic career in the Massachusetts college. Here are the socomastic freshmen, Mildred Roth of Stamford, Conn., and Edna Burso of Barre, Vt.

Camera Seizes Emotions of Tragedy

Modern photography reproduces the intense moment in the tragedy of "Medea" which instilled pity and terror into the Athenian audience of 2500 years ago. The great tragic figure has decided to kill her children. Horror and determination are registered in Sybil Thornhike's face while double exposure develops the story by showing the women of Corinth in piteous appeal to prevent the death of the innocents.

ALL THE NEWS OF ALL THE SPORTS ALL THE TIME

ILLINOIS-CHICAGO GAME SATURDAY TO BE THRILLER

URBANA, ILL., Nov. 11.—Illinois, horse, foot and dragons, will invade Staggs field at Chicago next Saturday, to back Bob Zuppke when he makes his last game for the team with Alonzo Staggs. Since 3,500 tickets have been sold here the Illinois representation will be formidable. Horde of supporters will not replace shiftily limon or speedy backs and this time on paper Staggs seems to have all the better of the argument. If it is as good a game as Illinois must fall, Orange and Blue rosters can stand it with better grace than they could have a decade or so ago when victories over the Maroon were as scarce as hen's teeth.

There was a stretch from 1901 until 1910—nine years in which the best that Illinois accomplished against Chicago was a tie. The Illinois won in 1910 but lost again in 1911 and 1912.

Then came little Bob to change the face of Illinois-Chicago football history.

His Zuppke leads Staggs. In nine years he has put the erstwhile conqueror Maroon to rout. He has licked Chicago five times while the Maroons have won three games. There has been one tie.

When Chicago won on Illinois last year it was the first Maroon triumph over the Illini since 1915—and it was also the first time since that year that Staggs' men had been able to cross Illinois' goal for a touchdown.

This is not saying that the state rosters wouldn't swap several of those wins of the past decade for a victory next Saturday. But these annals indicate that Alonzo Staggs will hold his foomen from downstate with due respect. For Zuppke more than once has sprung from ambush and tomahawked the overconfident Maroons.

WISCONSIN WILL FIGHT TO RETAIN MURRAY

By NEA Service. MADISON, Wis., Nov. 11.—Although relations between the university of Wisconsin and Illinois are strained to the breaking point as the result of the protest by Illinois authorities because of the playing of Donald "Jab" Murray, right tackle on the Badger varsity eleven, on the Taylorville American Legion team, the conference eligibility committee ruled Murray out of the Minnesota game last Saturday.

Coach John Richards, Wisconsin, retailed on the same day by making a public statement that five men new on the Illinois squad, Allison Auger, tackle; Green, Yates, Robinson and Durant, also had played on the Taylorville team.

Auger confessed his participation in Illinois authorities and was told to stay in his uniform at once. Director of Athletics George Huff, Illinois, is defending the other men, who declare themselves innocent of any charge of professionalism.

Coach Richards, meanwhile, is attempting to get Murray reinstated. "We won't get back into the breach and permit him to be ruled out," he says.

Murray declares he is innocent of professionalism. Taylorville, in his home town, and he admits having played with the Taylorville team, but he was at that time not enrolled in any university and he did not receive money for playing, according to his story.

Coach Richards hopes to have Murray reinstated in the Wisconsin game against Illinois in the Wisconsin homecoming game here next Saturday, Nov. 11.

Major John Griffith, "Big Ten" athletic commissioner, has refused to take his hand in the embargo, declaring that he has no events involving occurred before last June 1. "As the team line up for the punt and you have in mind all the possibilities and the disastrous results of a blocked punt, you get about as much intensity as anything in sports can furnish."

Frazer Offers Manager's Job To Bill Carrigan

BOSTON, MASS., Nov. 11.—Bill Carrigan, former leader of the Red Sox, can manage his old team again next year if he desires, according to Harry Frazer, owner of the Sox, who admits that Carrigan is the man he is after to handle the local American League team.

The sorry showing made by the Red Sox last season demands action. No one realizes it more than Frazer. He feels that a managerial change is absolutely necessary.

Carrigan, a big favorite in Boston, is the one man that could restore lost prestige to the American League.

The proposition has been put up to Carrigan, and it is up to him to refuse or accept the leadership. It is understood the money question will not enter into the affair. Frazer will pay any reasonable figure Carrigan demands.

The owner of the Red Sox believes that his team with a bit of strength added here and there would be anything but a last place proposition. While fond of Hughie Duffy, Frazer believes the club needs a driver to get anywhere. Duffy is too agreeable with his athletes and they got away from him.

Bill Carrigan is the only manager who has ever made a name for himself in Boston. He has behaved himself.

Driftwood Left By the Sport Tide

Victory in Defeat. The Coyotes lost yet they won. The gridders of Wichita Falls high school returned from Cleburne minus the district title, their ambition of the 1932 season, yet they embosomed themselves, Wichita Falls and Coach Jones with a signal honor.

Any one of the 3,000 supporters of Cleburne's yellow jackets would tell you today that the Coyotes played the cleanest, gamest and snappiest contest ever staged on Rhombs field. And that is a victory par excellence.

Yes, the Mustangs lost, but they were disappointed with the one now sponsored by Texas University and an effort will likely be made in the near future to perfect a new organization.

Waco, Dallas, Waxahatchie, Houston, Ft. Worth and others remained on the present league as long as possible, but were forced to gain recognition for their teams.

But 1932 will probably see a new league.

What of the Mustangs? S. M. U. rumped home with one of the finest victories of the present season when they defeated the Aggies accompanied to a superior act in the Fair Park stadium at Dallas.

Yes, the Mustangs defeated the Cadets by a more decisive count than did the Baylor Bears, reputed to be the state's strongest eleven.

Since Baylor and Texas were not scheduled to meet, Baylor immediately opened negotiations for a post-season game with the Longhorns to determine the conference winner. But they overlooked a bet. Few had figured S. M. U. dangerous, but they were wrong.

Ray Morrison rocked along with a wealth of material at hand early in the season, but the Mustangs before gaining the right to meet Baylor for the title.

Remember, 1932 has been a season of upsets and the schedules are not played out yet.

FILE SIXTY TO CANCEL. HONOR VOTED AT VERNON. VERNON, TEXAS, Nov. 11.—W. N. Stokes, a Vernon attorney, has returned from a trip to San Antonio, where he has been for several days during the past week attending to some legal matters. Mr. Stokes of the firm of Berry, Stokes and Kilgore is leading a campaign to cancel the city of Vernon, which has been in the federal court to cancel \$100,000 in city bonds, voted during January of this year to build a city light plant. The case will probably be called at Wichita Falls some time in the near future.

Historically engineering is one of the oldest of professions. Tokio has averaged in the last 25 years, 20 earthquakes annually.

CHAMPS LINED UP FOR BILLIARD PLAY

Gotham Fans Expect Greatest Matches Of All Time in Tourney.

NEW YORK, Nov. 11.—William Hoppe, 32, former 12 balling billiard champion, is the oldest, and Roger Conti, 21, French title holder, is the youngest of the six competitors who will play in the international professional championship tournament starting today and continuing for eight days.

Jake Schaefer, the defending champion, will start the title matches tonight in a match with Frenchlingmaster of Germany, the "day horse" of the tournament, Conti and Hoppe will play tomorrow, the former meeting Walker Cochran, another American star in the afternoon, while Hoppe opposes colored horsemaster of Belgium in an evening match.

Bentley for Roust Now Latest Rumor

NEW YORK, Nov. 11.—Will Jack Bentley, the Yankee Ruth of the minors, start the season with the New York Giants. The rumor has it that Bentley was secured by McGraw to use in a trade that would bring Eddie Roush back to the Yankees.

McGraw says that he intends to use Bentley as a pitcher. The New York club doesn't need a southpaw, but Bentley is one of the best in the National league.

The Giants need a center fielder badly. Cincinnati could stand some pitching strength. First base also needs attention. While Jake Daubert played the best first base in the National league last season the age 34 Jack cannot be expected to go on forever.

Roush, no doubt, is dissatisfied at Cincinnati. He joined the club late in the season after holding out for months over a salary difference.

Perhaps his late joining of the club may be merely a blind, the real purpose being to get him back into good standing so that he would be eligible to play in 1933 should a trade be made.

McGraw usually gets what he wants. The leader of the Giants wants Roush. The Bentley deal may be the means of bringing about the transfer.

Tokio has averaged in the last 25 years, 20 earthquakes annually.

Clarendon College Retains Record as Undeclared "11"

CLARENDON, TEXAS, Nov. 11.—The Clarendon College Bulldogs maintained their two season record of losing no games and of not being scored on, on their home grounds Saturday by defeating the team from Goodwell, Okla. The score was 56 to 0.

The Bulldogs started the game with a rush and scored a touchdown in the first two minutes of play. After this the touchdowns came thick and fast until the third quarter when Coach Burton sent an elderly new lineup composed of men who had not yet made their letter. This quarter was scoreless with the ball in mid-field for the greater part of the play. In the last period the first team sent into the fray and as a result the scoring began anew. The game ended with the ball in the center of the field. There ball in the center of the field. There ball in the center of the field. There ball in the center of the field.

Up to date, the Bulldogs have played six games, with 15 Senior colleges, and have scored 170 points to their opponents 44 without the loss of a single game. Next Friday they encounter the Canyon Bulldogs in perhaps the hardest game of the season. The Canyon team has just defeated the strong Rowlett team by the score of 20 to 0.

As Clarendon is forced to play minus the services of their star quarterback, Jackson, the game promises to be very tight.

Tackle "Jab" Murray, Coach Richards.

By NEA Service. MADISON, Wis., Nov. 11.—Although relations between the university of Wisconsin and Illinois are strained to the breaking point as the result of the protest by Illinois authorities because of the playing of Donald "Jab" Murray, right tackle on the Badger varsity eleven, on the Taylorville American Legion team, the conference eligibility committee ruled Murray out of the Minnesota game last Saturday.

Coach John Richards, Wisconsin, retailed on the same day by making a public statement that five men new on the Illinois squad, Allison Auger, tackle; Green, Yates, Robinson and Durant, also had played on the Taylorville team.

Auger confessed his participation in Illinois authorities and was told to stay in his uniform at once. Director of Athletics George Huff, Illinois, is defending the other men, who declare themselves innocent of any charge of professionalism.

Coach Richards, meanwhile, is attempting to get Murray reinstated. "We won't get back into the breach and permit him to be ruled out," he says.

Murray declares he is innocent of professionalism. Taylorville, in his home town, and he admits having played with the Taylorville team, but he was at that time not enrolled in any university and he did not receive money for playing, according to his story.

Coach Richards hopes to have Murray reinstated in the Wisconsin game against Illinois in the Wisconsin homecoming game here next Saturday, Nov. 11.

Major John Griffith, "Big Ten" athletic commissioner, has refused to take his hand in the embargo, declaring that he has no events involving occurred before last June 1. "As the team line up for the punt and you have in mind all the possibilities and the disastrous results of a blocked punt, you get about as much intensity as anything in sports can furnish."

Vernon Wins From Quanah in Hard, Exciting Contest

VERNON, TEXAS, Nov. 11.—The football game Saturday between the Vernon high school team and the Quanah team resulted in a victory for Vernon. Quanah was defeated 21 to 6 by the Vernon eleven. The game furnished many thrills for the local football fans and the three touchdowns made by Ransome Walker of the Vernon team made him easily the star player. Vernon has been handicapped on kicking goals until the Saturday game, when she completely overcame herself by kicking three goals. These brought a round of applause from the grandstand and the side lines. The Vernon team has now defeated only one time this season and that was by the Wichita Falls high school team.

Centre Now Boasts Unique Record as Harvard Reviewed

Even if Centre College is shunted off the Harvard schedule next year the little southern institution feels that it has established a record against the crimson that will stand for a long time.

Centre has met Harvard for three consecutive years on the Harvard field. In 1929 Centre won, 20 to 14 after holding Harvard on even terms until near the close of the game, when lack of reserves turned the tide of victory to Harvard.

Centre's record in 1930 in that game led to a return engagement in its second chance at Harvard. Centre emerged the victor by the scant margin of 10 to 7. "Bo" McMillin made the winning touchdown.

Five years, after getting a bad break in the opening period, when Harvard scored three times, Centre outplayed the Crimson the rest of the game losing 24 to 10.

Now Centre has three consecutive meetings on the Harvard field can claim one victory and the crossing of the Harvard line one or more times in each game. It is a record of which little Centre may well feel proud.

Burke Picked to Succeed Duffy as Manager at Boston

When a manager finishes his last place in the majors his job is in jeopardy. That is the position Hughie Duffy, manager of the Boston Red Sox, finds himself in.

While no one figured the Sox to finish very high, still few considered Duffy and his team to last place.

The Boston club, in bad with the fans because of the way the star player, Duffy, has been sold during the last three or four years, did not improve its popularity through the poor showing of the team this season.

It is doubtful if any manager could have done any better with the Boston club. However, owner Frazer is said to be dissatisfied with conditions, which probably means that a new manager will be at the head of the club in 1933.

Jimmy Burke, who acted as assistant to Duffy, is said to be the man slated for the position. Burke for several years helped Hughie Jennings at Detroit and later managed the St. Louis Browns.

If Frazer hopes to get out of the cellar berth in 1933, he will have to make more changes than merely shifting managers.

Yost Gives Version Of Greatest Thrill

What is the most thrilling play in football?

What is the most intense play in football?

Fielding H. Yost, coach of Michigan, replying to the first question, "The most thrilling play of a game depends entirely upon the situation. Any play can be a thrilling play and the same play can carry no thrill at all. It all depends upon what the play means and what it results in."

"A simple play in mid-field that gains nothing cannot hold any thrill. The same play resulting in a touchdown carries the thrill of the game. It all depends."

Regarding the most intense play: "When your team is kicking from behind its own goal line you have football's most intense play."

"As the team line up for the punt and you have in mind all the possibilities and the disastrous results of a blocked punt, you get about as much intensity as anything in sports can furnish."

Johnson Is Offered Manager's Position

PHILADELPHIA, Pa., Nov. 11.—"Doc" Johnson, the veteran first baseman of the Athletics, may manage the Columbus team of the American association next year. Negotiations are under way, and it is said that manager Mack will not stand in Johnson's way of advancement.

Johnson is a veteran big leaguer. Having seen service with Cleveland and Philadelphia in the American League and Pittsburgh in the National. Most of the time that he has spent in the minors has been in the south. He played for Milwaukee the year Jack Egan handed that club, and his good work got him his chance with Pittsburgh.

While Johnson is no longer able to stand the strain of a big league campaign he has plenty of good ball playing left in him and should do big things in the minors as a playing manager.

Johnson is a hustler, possesses the old fighting spirit, and has always been popular with the players. It is believed that he would retain all three essential qualities as a manager.

In a showing made by Hauser at first base for the Athletics has won him that position, and no doubt no trouble will be had with Mack on getting Johnson out of the league.

Citizen is the Pond of France, with a "record" output in 1921 of 18,000 cars.

SIKI'S LIFE STORY

As Told by Milton Branner, NEA Staff Correspondent CHAPTER FOUR—SIKI RESUMES BOXING

When the war was over, my artillery regiment was sent to Italy and I was demobilized shortly afterward.

I was Corporal Louis Phral, with two decorations and a honorable wounds. Also, I had no job and only 200 francs. But I wanted to do break plates occasionally. His was a plain little place where you didn't have to put on a lot of style. No, the work was much plier than dish washing.

One day I had my arm full of dishes and a man came to me and said: "You are Siki!" He said I told him my name. He said he wanted me to fight in Paris, against Drenel, champion of the French army. The boss let me off to train, and he thought it would help his eating place if I won or put up a good losing fight. The patrons would know how little I got for licking the army champion—200 francs, which was only about \$25.

I had a couple of fights in 1920. I went to Toulouse and beat Henry in 10 rounds on points, and knocked off J. Andouy in four rounds, after losing to him on points six years before.

One day I had my arm full of dishes and a man came to me and said: "You are Siki!" He said I told him my name. He said he wanted me to fight in Paris, against Drenel, champion of the French army. The boss let me off to train, and he thought it would help his eating place if I won or put up a good losing fight. The patrons would know how little I got for licking the army champion—200 francs, which was only about \$25.

STARS AT QUARTER

QUARTERBACK R. SIMMONS.

The forward pass is the big punch in modern football. It is a dangerous weapon at all times. Princeton after being outplayed throughout the greater part of the game with Chicago, turned defeat into victory at the last minute via the forward pass.

Syracuse university has used the forward pass to advantage in many of its games. To Quarterback R. Simmons goes the task of passing the ball. He is an adept at this feature of play.

HEAVY FROST IS REPORTED FROM NORTHERN POINTS

LOWEST MINIMUM TEMPERATURE OF DISTRICT IS 15 DEGREES AT TEXLINE.

RAINS ARE GENERAL THROUGHOUT DISTRICT

Clear Skies Follow Storm and Brisk Cold North Wind Continues.

A heavy frost was reported Monday morning from points located on the north and west ends of the Wichita Falls and Northwestern and the Fort Worth & Denver City railroad.

The minimum temperature was reported by the agent at Texline, who stated that the temperature fell down to 15 degrees Monday morning. The children's operator reported a low mark for the night of 30 degrees and points between the two towns reported a gradual snowfall which made a gradual snow cover.

At Forgan the lowest mark was 22 degrees while Woodward reported 24. Locally the mercury continued sufficiently to permit the low mark to rest at 28 degrees. During the day Sunday the highest altitude reached was 55 degrees.

The rains of Saturday night and Sunday were general and practically all agents reported a half inch of rainfall. A heavy rain was reported between Childress and Amarillo.

On the north and west ends of the local railroad clear skies were reported and at 9:00 o'clock Monday morning it was apparent that the clouds would disappear here.

There was no drying down of the cold north wind at any point and locally it was blowing at the rate of 30 to 25 miles an hour. The same velocity was indicated by reports from agents on the roads.

The skies had also cleared on the Spur line at an early hour Monday morning and the operator at Spur reported a low temperature mark of 29 degrees for the night.

France has 50,000 persons on the payroll of automotive manufacturers.

GET RID OF THAT "TIRED FEELING"

Do you feel run down and half-sick all the time? Are you thin, pale, easily tired—no energy, no ambition, no pep?

Now is the time to take Gude's Pepto-Mangan. It will brace you up, give you a delightful feeling of vigor and ambition, enrich your blood, build firm, solid flesh, and bring the healthy color back to your skin.

Your druggist has Gude's—Liquid as solid, as you prefer.

INTRODUCTION OF CHRIST TO MANKIND IS SERMON THEME

At the First Methodist Episcopal church in the morning service Rev. Ira L. Crabtree, the pastor, using as his text, "This is my beloved Son in Whom I am well pleased, hear ye Him," Matt. 17:5, said: "I am here to introduce to you Jesus—Christ, not because I think He has never been introduced, but because that is my business, I have been sent here for that purpose, and I have no other reason to offer for being here, and I am exceedingly happy to come to this beautiful city on such a blessed business."

"A voice out of the cloud saying, 'This is my beloved Son,' has led all the world to believe that it was God speaking and introducing Jesus Christ to the world."

"Our day happens to be one of formal introductions. Every one knows what it is to give or to receive an introduction. We all know that there are some characters who would not care to introduce to our friends, nor would we like to have them introduced to us or our sons."

"The character of the individual character of Christ had been spoken of to the world before this. All the prophets testified of Him. Angels had been sent on different occasions from heaven to give with something to say to the world concerning Him; and yet we listen now to the voice from the cloud while God introduces His own son."

"When Christ began His work among us He was further recognized in the manner of His teachings, for He taught as one having authority, and by the many wonderful works He did, which no other man had done."

"Now, the mere mention of the name of Christ brings to the mind of all something of His life and personality. We instantly and unconsciously see His self-sacrificing spirit, His tenderness, His love, His great faith in the Father and in men. His readiness to forgive, His teachings or His unswerving loyalty to God in the work He had come to do."

"Many centuries have passed since the voice from the clouds said, 'This is my beloved son.' The work of change has been going on ever since, and nothing has escaped it, even the rivers have found new courses and the mountains and seas have moved to new locations. Then surely it is the greatest miracle of all time that we do not find Him to be a back number. He is not out of date. He is not behind the times. He is more in demand, and His teachings are sought after more now than ever before. Our thoughts grow stale, but not His. That He should be sought after more now than ever before, and our order of things as well as He did in that of His own day, is a great miracle which should commend Him to all men. But all the yesterdays are His. All the tomorrows are His. Today is His. He is in them all. He is the Father and the Son, the newness and freshness of the morning dew. It still inspires and illuminates the human mind and soul like the first rays of sunlight on a snow-capped mountain. He is God's beloved son. Let us hear Him."

S. M. GEE WILL NOT BE BROUGHT BACK FOR TRIAL

S. M. Gee, who was scheduled to go on trial in the 33rd district court this week on a charge of robbery with firearms, will be brought back here from El Paso as was first anticipated. Gee is being held at El Paso for trial there this week. The district attorney's office announced that it is likely he will be brought back here for trial later in the year.

CHURCH OF CHRIST REVIVAL MEETING ENDS, 42 ADDITIONS

The revival meeting of the Church of Christ closed Sunday night with 42 additions consisting of 19 baptisms, seven restorations and 15 memberships and identifications.

Foy E. Wallace preached the last sermon of the meeting on "Sin and Its Consequences." Taking the case of Naaman the leper as a basis for his sermon, he drew a picture of how sin was against the soul like leprosy was against the body.

"As leprosy is a heinous disease of the body, sin is a heinous disease of the soul," he said. "It shall die, as the body attacked by leprosy shall die."

"Moreover, sin is the 'fruit of lust. Sin is the cause of all the evils that have befallen mankind. The three divisions of sin as portrayed by the word of God are the fact of sin, the penalty for sin and the remedy for sin. No process of the imagination can bring the world to believe that sin is a delusion of the mind, as taught by some. The penalty of sin is death. The wicked when they go into eternity shall be taken out of the world. The remedy for sin is the blood of Jesus Christ which takes away the sin of the world."

COUNTY RECEIVES TOTAL OF \$175,000 FROM STATE

County Treasurer T. W. Mellan Monday morning received two checks from the state highway department amounting to \$17,000 to be applied as aid on the paved highways of the county. One check amounted to \$13,251.25 and the other for \$3,748.75.

16 BURGLARIES NOW TRACED TO FIVE JUVENILES

Juvenile Officer R. L. Yates stated Monday morning that following the arrest of five juveniles he and other officers had cleared up 16 burglaries in the city. All five of the youths are being held pending trial.

It is believed that the boys never realized anything to speak of following their burglary escapades. Practically all of the goods taken were taken at the various times when the boys were in the city. All five of the youths are being held pending trial.

One of the boys who is being held is a student in the local high school and comes from a good family. It is said that he has admitted that he took part in the workings of the five boys although records show that he has not missed a day since school opened.

ESTATE OF J. A. JONES DIVIDED OUT OF COURT

VERNON, TEXAS, Nov. 12.—The estate of J. A. Jones was divided Saturday by amicable settlement out of court between his widow, Mrs. J. A. Jones and his two children, G. A. Jones and Mrs. Ellen Worley. J. A. Jones died some two years ago at this county and since that time the estate has been kept intact by his widow. Mr. Jones left an estate valued at over \$25,000, which was divided one-half to Mrs. Jones, one-fourth to Mrs. Worley and one-fourth to G. R. Jones. G. R. Jones was given vendor's lien notes and Mrs. Jones and Mrs. Worley took the real estate

PLENTY OF WATER IS PROVIDED FOR DREDGE OPERATING

The depth of the water in the dredge pool at the storage damsite was increased 18 feet by the rains of Saturday night and Sunday, and enough water is on hand for operating for two or three months. Prior to the rain, the dredge faced the prospect of closing down before the end of the month, as a result of low water.

The rains also replenished tanks used for stock water and for other phases of the project. Belgium collects an import duty of 20 per cent on American automobiles. Forty-five per cent of all motor vehicles are in towns of 5,000 population or less.

CAPTURE LARGE STILL AND ARREST TWO MEN

BENJAMIN, TEXAS, Nov. 12.—Sheriff W. S. Britton and Constable W. A. Holt assisted by deputies brought two large stills into Benjamin Friday morning.

They also brought about 25 quart jugs filled with whiskey and one 15 gallon keg filled with whiskey. The two stills were found near Rhineland and two men were also captured in the raid.

The stills were taken and up to date in every particular. One hundred and twenty-five gallons of mash was destroyed and the place showed evidence of doing a large business.

The still was located in one-half mile of Rhineland and the making of the whiskey was all done in the house. The officers had been watching the place for some time.
