CONFERENCE WILL DISCUSS WELFARE OF YOUNG AMERICA

MEN INTERESTED IN EDUCATION GATHER FOR MEETING AT CAPITAL ADDRESS OF WELCOME BY SECRETARY DENBY

National Defense Underlying Topic For Consideration, He Points Out.

WASHINGTON, Nov. 16.—Men interested in the welfare of young America gathered from all parts of the United States, met today under call of Secretary of War Weeks to discuss the fundamental questions of national strength involved in the mental, moral and physical fitness of the American people.

In his address of welcome, Secretary Weeks said: "National defense is the underlying topic of this conference. We are assembled to consider the mental, moral and physical fitness of our people and to plan how we can all work together more intelligently and effectively to attain our common purpose—citizenship. We are interested primarily in the coming generations, for upon them certainly rests the future of our nation and perhaps in a larger sense than we may realize at this moment, the future of our civilization and the world."

"The new familiar statistics of the draft, confirmed by numerous other studies, indicate that about half of our population is physically sub-normal. You can imagine the possible effect of such a condition upon a nation waging a war for the life with all the hardships and privations which call for a maximum physical effort and without the support of allies to sustain it. "We are deeply interested, also in another vital factor in national strength—the attitude of the citizen toward the nation. In a crisis such as existed during the world war, nothing surpasses the self-forgetful devotion to country which is evi-

dened by our citizenship, but in times of peace disturbing facts clearly indicate that, lacking a crisis, the average citizen is not keenly interested in the national welfare. "Strikes which involve the discomfort and almost the lives of our people; massacres similar to the one at Herrin which should be an ominous warning to a civilized nation; numerous organized groups in our body politic striving for class or sectional advantage; absurd political ideas, many striking at the very foundation of our form of government, embraced by supposedly intelligent people; local over-crowding of national issues at the ballot box, are signs of an unhealthy condition in our citizenship. Improvement of the physical health of our people will assist in remedying this condition. "Charged with the responsibility the war department is endeavoring to effect practical solutions for the national weaknesses revealed by its study of national defense problems. We realize that we are charged not only with securing victory if war comes, but also with preparing our citizens during peace so that in time of war they shall not lose their lives unnecessarily or be foolishly wasted."

MAJOR APPEALS TO PRESIDENT HARDING TO REVERSE ACTION

BOSTON, Nov. 16.—Major Malcolm Wheeler-Nicholson, critic of the regular army, has lost his appeal from the classification which makes him subject to discharge and has sent a petition to President Harding asking for reversal of the action. The officer a year ago declared a sentence that the regular army had been "Prussianized" and published a pamphlet entitled "The Regular Army—Reform It or Abolish It."

In June he was tried by a court-martial at Camp Dix, N. J., for violation of the 94th article of war, was found guilty and reduced fifty fives. Subsequently he came before the classification board at the first corps area headquarters here on his request that he be taken out of class B. Into which he had been transferred from class A, while on duty with the army of occupation at Coblenz. The refusal of the board to change his classification now becomes public for the first time. In his petition to President Harding, which was in the mails today, Major Wheeler-Nicholson reviews the records in his case, asserts that General Pershing and other officers have been prejudiced against him and asks that he be retained in the service.

Will Devote Her Wedding Gifts to A Fund for Blind

NEW YORK, Nov. 16.—A shower of last minute checks today swelled the dowery of Miss Winifred Holt, worker for the blind, who will become the bride this afternoon at Rufus Graves Nather of Princeton, N. J. An anonymous gift of \$4,000 was among them. It was expected that the fund of \$100,000 which Miss Holt hoped to raise for the light house for the blind she established in France would be over subscribed. The ceremony will be performed in the New York light house by Bishop Manning. Four of her bridesmaids will be blind girls and a blind organist will play selections of his own composition. Among the gifts is \$1,000 from Secretary of the Treasury Mellon, who joined with President Harding, Secretary Hughes, General Pershing and Ambassador Jusserand in commending Miss Holt's purpose to desist from making a fortune in the special fund which is being raised for the light house.

"FASCISTI" MOVEMENT ORGANIZED IN MEXICO

MEXICO CITY, Nov. 16.—Indications point to the spread of the "fascist" movement from Jalapa to Mexico City and all the other important centers throughout the republic in the near future. The organization which is modeled after the Italian society of the same name

is designed to stamp out communism. "Advices from Jalapa say the fascists there have merely formed a tentative organization but that within a few days they will start an active campaign against the radical elements not only in that city but in the entire state of Vera Cruz, which is recognized as a communist stronghold. "Badges bearing the federal tricolor of green, red and white are already available to members of the organization, who are reported to be increasing in numbers daily."

MODERATION MARKS JAPANESE COMMENT ON COURT DECISION

TOKIO, Nov. 16.—Continued moderation marks the Japanese press comment on the decision of the United States supreme court holding Japanese ineligible for naturalization as American citizens. In some circles here, however, it is believed that the underlying feeling is more bitter.

The Yerosa Chobe, an independent daily, predicts that the decision will limit friendly relations between the two countries. The Japan Times, an English language paper now owned and edited by Japanese, declared that the time is not far distant when all Japanese will be driven out of America. The Osaka Nichinichi Shinbun, the only morning paper commenting on the decision, says it is not commendable for America to discriminate in the matter of naturalization by reason of color. Citizenship ought to be granted the subjects of any "civileged nation," it is contended. "However," concedes the paper, "naturalization is a thing to be granted, not forced. Therefore, we are not particularly disappointed. We feel sure that the time will come when Americans will have a better conception of the Japanese."

CORN HAS SOARED 17 CENTS BUSHEL PAST SIXTY DAYS

CHICAGO, Nov. 16.—Corn marketing conditions unprecedented at any time in the last six years are stirring up the liveliest sort of interest among grain traders here. The "outstanding" feature is that within about 60 days the value of corn had soared 17 cents a bushel at a time when the bulk of the crop is still in producers' hands. B. W. Snow of Bartlett Frazier company, former assistant secretary of agriculture at Washington, said in a statement today that the advance is not speculative in character, but is the result of growing appreciation in market centers of the country situation. The crop is some 300,000,000 bushels short of last year, he said, and the stocks of old corn carried over are about 100,000,000 bushels smaller than was the case the past year. "The surplus of corn accumulated as a result of war savings and post-war prices has been used up and we are once again on a basis of current supply and demand," he said. "The present price movement had its origin in the country with the farmers as the price making factor."

ORDER MILLIONAIRE CHICAGO COMMUNIST TO ILLINOIS PRISON

ROCK ISLAND, Ill., Nov. 16.—The Illinois supreme court mandate ordering William Brown Lloyd, millionaire Chicago communist, to Joliet prison for five years for viola-

tion of the state anti-syndicalism law, will be served on Sheriff Peters of Cook county today, Chief Justice Thompson announced this morning.

Judge Thompson last midnight denied Lloyd's plea for a 20 day stay to permit him to arrange for the handling of his \$1,000,000 estate.

"No man going to the penitentiary ought to have that much money," Justice Thompson commented in denying the delay.

Lloyd and 17 other members of the communist party were convicted in Chicago in August, 1920. They were accused of advocating overthrow of the government. In addition to prison sentences most of the defendants were fined various amounts. Lloyd's fine was \$2,000.

Lloyd inherited a fortune from his father, the late Henry D. Lloyd, rich Boston philanthropist, which was greatly augmented in recent years while he was a stockholder in a Chicago daily newspaper.

MAJOR APPEALS TO PRESIDENT HARDING TO REVERSE ACTION

BOSTON, Nov. 16.—Major Malcolm Wheeler-Nicholson, critic of the regular army, has lost his appeal from the classification board which made him subject to discharge, and has sent a petition to President Harding asking for reversal of the action. The board a year ago declared in a letter to the president that the army had been "Frusianized" and published a pamphlet entitled "The Regular Army—Reform It or Abolish It."

In June he was tried by a court-martial at Camp Dix, N. J., for violation of the 14th article of war, was found guilty and reduced fifty flog. Subsequently he came before the classification board, the first time he was taken out of class B, into which he had been transferred from class A, while on duty with the army of occupation at Coblenz. The refusal of the board to change his classification now becomes public for the first time. In his petition to President Harding, which was in the mails today, Major Wheeler-Nicholson reviews the records in his case, asserts that General Pershing and other officers have been prejudiced against him and asks that he be retained in the service.

Will Devote Her Wedding Gifts to A Fund for Blind

NEW YORK, Nov. 16.—A shower of last minute checks today swelled the dowry of Miss Winifred Holt, worker for the blind, who will become the bride this afternoon at Rufus Graves Nether of Princeton, N. J. An anonymous gift of \$5,000 has come from the crowd of guests. The fund of \$10,000 which Miss Holt hoped to raise for the light house for the blind she established in France would be over subscribed. The ceremony will be performed in the New York light house by Bishop Manning. Four of her bridesmaids will be blind girls and a blind usher will play selections of his own composition. Among the gifts is \$1,000 from Secretary of the Treasury Mellon, who joined with President Harding, Secretary Hughes, General Pershing and Ambassador Jusserand in commending Miss Holt's purpose to devote her wedding presents to the special fund which is being raised for the light house.

CORN HAS SOARED 17 CENTS BUSHEL PAST SIXTY DAYS

CHICAGO, Nov. 16.—Corn marketing conditions unprecedented at any time in the last six years are stirring up the liveliest sort of interest among grain traders here. The outstanding feature is that within about 60 days the value of corn had soared 17 cents a bushel at a time when the bulk of the crop is still in producers' hands.

B. W. Snow of Bartlett Frazier company, former assistant secretary of agriculture at Washington, said in a statement today that the advance is not speculative in character, but is the result of growing appreciation in market centers of the country situation. The crop is some 300,000,000 bushels short of last year, he said, and the stocks of old corn carried over are about 100,000,000 bushels smaller than a year ago, so that the available supply for the coming year is fully 400,000,000 bushels smaller than was the case the past year.

"The surplus of corn accumulated as a result of war pricing and post-war prices has been used up and we are once again on a basis of current supply and demand," he said. "The present price movement had its origin in the country with the farmers as the price making factor."

DEMAND RELEASE OF MISSIONARIES HELD BY CHINESE BANDITS

By Associated Press. PEKING, Nov. 16.—Measures for the immediate release of the foreign missionaries kidnaped by Chinese bandits were demanded of the Peking government today by the American, British, Italian, French and Swedish ministers, who acted under instructions of their governments.

These five ministers presented a joint note which declared the missionaries were carrying on their work in the interior of China under treaties which had been violated by the abductions. Besides the Americans the captives now held include one Greek, one French citizen, one British subject, one Swedish and one Italian. The bandits have seized the various nationals with a view of forcing the Peking government to incorporate the bandits in the regular Chinese army. Most of the grignards are dismissed soldiers who want reinstatement.

ORDER MILLIONAIRE CHICAGO COMMUNIST TO ILLINOIS PRISON

ROCK ISLAND, ILL., Nov. 16.—The Illinois supreme court mandate ordering William Brown Lloyd, millionaire Chicago communist, to Joliet prison for five years for viola-

tion of the state anti-syndicalism law, will be served on Sheriff Peters of Cook county today, Chief Justice Thompson announced this morning.

Judge Thompson last midnight denied Lloyd's plea for a 30 day stay to permit him to arrange for the handling of his \$1,500,000 estate.

"No man going to the penitentiary ought to have that much money," Justice Thompson commented in denying the delay. Lloyd and 17 other members of the communist party were convicted in Chicago in August, 1920. They were accused of advocating overthrow of the government. In addition to prison sentences most of the defendants were fined various amounts. Lloyd's fine was \$2,000.

Lloyd inherited a fortune from his father, the late Henry D. Lloyd, rich Boston philanthropist, which was greatly augmented in recent years while he was a stockholder in a Chicago daily newspaper. He was known as a radical for years and was arrested here during the war for displaying the red flag above the American flag on his automobile. He declared the red

flag was his flag and that he flew the stars and stripes as a courtesy to the American government.

FOUR ADDITIONAL JURORS QUALIFY IN THE MARION TRIAL

By Associated Press.
 MARION, ILL., Nov. 14.—Another panel of four prospective jurors to try the five men on trial on murder charges in connection with the Hermin mine killings, was completed by the state today and tendered to the defense. One panel of four already has been accepted by both sides.

With only a score of 130 veniremen remaining in the jury box, arrangements were going forward for the selection of 100 more prospective jurors.

The state insists that the special deputies, appointed by the court, draw the new panel of veniremen, declaring that six out of every seven examined already have been miners or former miners. The defense, however, insists that Sheriff Melvin Thaxton, a former miner, select the new panel. Sheriff Thaxton was criticized by the special grand jury for alleged failure to take necessary steps to prevent the rioting in which 23 men met death. Indications are Judge Hartwell will be called upon to give the problem and he has indicated he, if called upon, would appoint two deputies to draw the panel—one selected by the state and the other by the prosecution.

Two veniremen were excused today for having opinions on the rioting.

WANT TO PROVIDE GREATER FACILITIES FOR FARM CREDITS

WASHINGTON, Nov. 15.—Proposals for legislation modifying the federal reserve act to provide greater facilities for agricultural credits are expected by treasury officials to make their appearance soon in congress.

The subject already has been under discussion by the administration and it was said today that Secretary Mellon saw no objection to some modification of the law, particularly with respect to providing a longer maturity than six months, the present limit, for livestock paper because of the longer turn-over in that industry.

Liberal facilities for the extension of credit to the agricultural industry were seen today by federal reserve officials in recent rulings of the board regarding the eligibility for rediscout of the paper of cooperative marketing associations. The most recent ruling excludes growers drafts drawn and accepted by cooperative associations from the provision of the federal reserve act which limits the amount of paper bank may rediscout for a member bank to 10 per cent of the capital and surplus of the member bank.

A number of more cases have been dismissed during the term for want of prosecution, and final judgment of dismissal will be entered on the minutes at the close of this term.

All motions for reinstatement must be presented Monday, Nov. 27 at 9 o'clock.

EXCELLENT RESULTS FROM KNOW-YOUR-OWN-COTTON CAMPAIGN OF TWO YEARS

WASHINGTON, Nov. 15.—Excellent results have been produced according to the department of agriculture, by the know-your-own-cotton campaign which for the last two years has been carried on in the cotton producing states under the direction of G. S. Meloy, cotton specialist of the bureau of agricultural economics. The work was incidentally undertaken in connection with studies of the small interior markets and is designed to teach cotton producers the factors on which the value of cotton is based and to assist producers to secure a price commensurate with the true value of the cotton produced and offered for sale by them. The immediate results are the encouragement of greater care in harvesting and handling the crop on the farms so as to improve the grade and the production of pure seed, resulting in improvement in the staple and character of the cotton crop.

Louise Homer Friday Night, Y. W. Membership Dinner Thursday Night, N Chicken Dinner Benefit Friday

Louise Homer at the Palace Friday night; if you haven't bought your tickets, buy 'em. Y. W. C. A. membership dinner at the Association headquarters Thursday night; if you haven't spoken up, it's too late now. And chicken-dumplings for dinner Friday noon with the women of the First M. E. Church, at Seventh and Lamar, served in the basement of the church at fifty cents a plate. Nothing to do but walk in and ask to be served. The dinner is a mission society benefit, and everybody is invited.

These make a fair enough program for Thursday and Friday, ain't they? The outer man and the inner man and the "Innards" man all fed! But don't go by tickets to Homer and then forget about the chicken dinner Friday; true—

"If thou hast two loaves, sell one and buy a rose— Thy soul, too, must be fed—"

But you'll notice Mister Pope just said sell ONE loaf. He recognized the need of the tummy along with the need of the soul, if you'll shut the door while we mention it.

The Homer concert begins at 8:30 Friday evening; and the music clubs are expecting a record attendance to hear the famed prima donna. A number of theater parties from nearby towns, as well as local groups, have been arranged for at the box office, one of the largest of these being the Austin teachers' reception by the Mothers' council of that school. Practically every music lover in the city is planning to hear Miss Homer.

Y. W. Membership Dinner. About one hundred members of the Y. W. C. A. have signed up for the membership dinner Thursday evening, and an attractive program has been planned. The membership meeting will close the Volunteer Leaders' Institute which has been conducted at the Y. W. C. A. building with three interesting and prominent out of town speakers.

All of the visitors are planning to remain for the dinner and those who have not yet met Mrs. Hanna, Miss Gerwick and Miss Bothwell will have the opportunity of doing so Thursday night, Mrs. Hanna, who is national vice president of the association, residing in Dallas, is a woman of exceptional charm and graciousness, in her bearing, her spirit of fellowship and her deep sympathy and faith in the association service.

Miss Gerwick is an inspiration of a variety not common in any organization; a young woman of spiritual breadth and vision, poise and unusual attractiveness in her manner of address. Miss Bothwell is the one of the three already well known in Wichita Falls, and all of her friends in the association were glad to greet her on this visit.

Wednesday evening at the Y. W. Mrs. Hanna made a brief address to the business girls and women who gathered in an interested group in the living room. Miss Gerwick later told of the world fellowship movement, and brought a vision of world peace achieved in the only way that will ever be possible—through the chain of fellowship and friendship established by an international organization without regard for creed or political conviction.

At the close of the talks Mrs. Fain, president of the local association, presided over an informal social hour during which delicious fruit punch and cakes were served and the younger and older women discussed their work with Mrs. Hanna and Miss Gerwick.

Last Not Least. 'N the chicken dinner! It's at the First M. E. church, Seventh and Lamar, at 12 o'clock, and just half a dollar a service! Let's help them raise the money.

The Right and Wrong Way to Dress

This is the first of a series of 12 articles on the art of dressing well by making clothes suit the particular type of the wearer.

Do you know your type? Do you get what suits you, individually, when you buy clothes, or do you buy gowns because they look pretty in the shop, or because they are similar to the ones affected by your favorite movie star, who may be your opposite as to type?

Do you know your worst points as well as your best ones? The well-dressed woman is the one who knows the truth about herself, not the one who patronizes the most exclusive costumers or who gets the biggest bills the first of the month.

The tall, slender woman requires one style of gown, the short, stout one another. The same hat that glorifies the narrow face caricatures the broad one.

Learn Your Type. Since every woman wants to look her best, she must learn her type. Let us take up today the problem of an evening gown for the tall, heavy type.

The two photographs show you two gowns, both attractive in themselves, one correct for the model who is wearing it, the other sadly inappropriate.

Place on the same woman the simple evening gown of black crepe and the effect is entirely different. There is an actual illusion of slenderness, as well as pleasing dignity.

Charm is Simplicity. But place on the same woman the simple evening gown of black crepe and the effect is entirely different. There is an actual illusion of slenderness, as well as pleasing dignity.

The falling sleeves break the line of the waist and add a volume of November 19, at the Church Hall at 2 o'clock to meet Mrs. Mary Drake of Fort Worth, former state regent of the association.

There will be a meeting of all the ladies of the Parish at 2:30 and women are expected from Puckersett, Electric, IOWA PARK, Windthorst and Scotland. Refreshments will be served.

TUXEDO CLUB GIVES FIRST DANCE AT KEMP WEDNESDAY. The Tuxedo club gave its first dance at Kemp hotel Wednesday evening, with about thirty-five members present. Music for the dances was furnished by the Doc Ross orchestra.

The club expects to complete organization of its next dance two weeks from Wednesday night, when the membership list will be completed.

Community Art Association Group Plans to Perfect Organization at Meeting Next Week; Met Wednesday

A little group which will form the nucleus of a Community Art association for Wichita Falls met Wednesday afternoon at the home of Mrs. P. P. Langford and formed a temporary organization, naming Mrs. Bonnie Hyatt Donnell chairman, calling a regular meeting for Friday, November 24, at a place to be announced Sunday.

The meeting Wednesday afternoon was an outgrowth of the inspiration and interest created by the splendid art exhibit at the Texas-Oklahoma fair here in October, when the display of nature and amateur talent, as well as well-founded ambition, astonished hundreds of critical visitors in the art department. Unsuspected local talent was discovered, and a great interest and love of art among the townsmen.

The organizers plan to make the Art association truly a community organization for the promotion of a love of art as well as an assistance in the case of talent, and weekly student classes and monthly lectures are among its ambitious plans.

The association will not be confined to any one art but will include, in its development, every line of art represented by local talent or interest. Painting, handcraft, design, architecture, sculpture and modeling are the initial lines from which the membership is expected to be drawn.

Half a Dozen Study Clubs Hold Weekly Meetings on Wednesday. Half a dozen study clubs held their regular meetings Wednesday afternoon at the Delphians at the library, the Delphians at the library, the Beta-Delphians with Mrs. J. J. Deberry on Tenth street, the Phi-Delphians (in fact, the Delphian group almost had a monopoly of it) with Mrs. A. C. Parks on Lucile, the Sorosis with Mrs. Burke at the Junior Travel at the library, and the Unity Junior club with Mrs. J. J. Deberry.

The Delphians continued their study of Hamlet in their meeting at the library, following a business session during which Mrs. O. E. Nichols, delegate to the state federation meeting at Houston, made the most interesting report. Mrs. Nichols' report was really the feature of the afternoon. She told of the reception of Mrs. W. S. Robertson's report of the district association meeting at the first district, which with 19 new clubs organized, was but three behind the record of the new panhandle (seventy) district also.

Mrs. Wallace conducted the lesson on Hamlet, act 4, scene 1, and Mrs. A. C. Parks, delegate to the state meeting, the state of religious belief in England at this period. Roll call was answered at the first of the program with lines from Shakespeare. The members present included Mesdames Alexander, Bean, Boone, Britton, Carver, Chennault, Roberts, Wray, and others.

The Beta-Delphians continued their study of dramatic history with a study of the entertainments of the Elizabethan period, meeting with Mrs. J. J. Deberry on Eleventh street.

Mrs. J. T. Carter was leader for the program with lines from Shakespeare. The members present included Mesdames Alexander, Bean, Boone, Britton, Carver, Chennault, Roberts, Wray, and others.

ADVENTURES OF THE TWINS OFF TO HUNT SNOW MAN

They asked some chickadees if they had seen Snow Man. Jack O'Lantern did not have Mother Goose's broom—or broomstick, I should say—after all. He was greatly relieved to find that his attack of a body had not been stolen from the fairy lady who swept the sky.

It had been enough to have to spend the rest of one's days leaning up against a barn, said Jack, "but it would be worse to go to jail." Scarcely had the words left his mouth when the farmer's wife came out and lifted off Jack's head and set it on the ground. Then she walked back to the house with the broomstick in her hand.

"This is a fine stick for beating carpets," she said. "Much too useful to be wasted on a silly pumpkin." By this time Nancy and Nick were far down the road in their magic Green Shoes. And you'll never guess where they were going. They were hunting for Snow Man, and Snow Man was a long way off on a mountain.

They asked some chickadees if they had seen Snow Man, and the chickadees had. They told the Twins where to find him. "He's standing in front of the wood-chopper's house and he's got on red mittens and a muffler and a butter bowl for a hat, and stones for eyes and he has an old pipe in his mouth," said the chickadees. "And he's got a broomstick and his shoulder for a gun."

"That's the very person we're looking for," said Nick, positively. "Perhaps his gun is Mother Goose's broomstick." The Twins thanked the little gray birds and hurried on.

"Hello, children! How did you get here?" exclaimed Snow Man. The Twins climbed a mountain and before long they came to a place where there was a lot of snow. Right near was a little house where a woodchopper lived, and out in the front yard stood a big white figure looking thoughtfully at nothing at all.

"There's Snow Man," whispered Nancy. "Let's surprise him." So they slipped up softly from behind and yelled "boo," so loudly that Snow Man dropped his gunstick and his butter-bowl hat slid down over his eyes. "Who is it?" he gasped. "Is school out already? I thought from the looks of the sky it was only ten o'clock. Billy, please pick up my stick and straighten my hat. I'd be mortified to death if anyone saw me like this."

Nancy and Nick stepped around where Mr. Snow Man could see them. "We're not Billy," laughed Nancy, straightening his hat. "My, my! Hello, children! How did you get here?" exclaimed Snow Man, taking as well as he could with his pipe in his mouth. Nick explained that no mountain was too steep for them to climb with their magic Green Shoes. And he told about Mother Goose losing her broom, too, and they were hunting for it. "Did you happen to see it?" asked Nancy. "I'm not sure," answered Snow Man in a worried voice. "The children found an old broom somewhere and chopped off the handle to make my gun. Will you please see if it's the one you are looking for?" "Does it change color?" asked Nancy. "Mother Goose says her broom always matches her hair."

FASHIONS

Many of the leading costumers have been showing new models for post-winter wear. Though lines are not particularly new, there is a world of novelty in details and trimmings which, in some instances at least, are perhaps more amusing than the ornamental or dark green velour coat, for example, imported from Paris, has as its only trimming a large pocket on which is embroidered a charming little house in gray colors.

Though the majority of street coats are made up of winter materials familiar to the average woman, some of the smarter models feature hatcases or cloaky fabrics, and the patterned woolen material, like velours de Smyrna or broche de laine, both in the plain and the patterned being combined as in the Drecoll coat illustrated above.

One of the most marked features of the fashion is the generous use of velvet for the more formal tailored suit, the afternoon and evening wrap, and all types of dresses. Indeed, some of the most beautiful afternoon dresses shown in Paris were almost pure silk, so far as design was concerned, but they were made of the gorgeous Bianchini Persian print velvets, or the gauze crinkled velvet in some rich color.

State Secretary Graduate Nurses Brings Message

Delegates from all local clubs, and all others who are interested have been invited to meet Miss Louise Dietrich, state secretary of the Graduate Nurses association of Texas, "Saturday" afternoon at the Wichita Falls club. The invitation comes from the Wichita Falls Graduate Nurses' association, which will be hosted by Miss Dietrich.

Miss Dietrich comes in the interest of a bill which is to be presented to the next legislature defining and regulating the practice of professional nursing. The measure is of interest to all, and the local nurses are anxious that the public get a clear understanding of the issue.

They are asked to phone these to Mrs. Roy I. Carter at 6172.

The banquet will be at 1 o'clock, and an attractive program is being planned by the committee.

OLD REPUBLICANS PREPARE TO YIELD TO YOUNG LEADERS

WHEN YOU CAN'T BEAT 'EM

POLITICAL GUIDE

ATTACH SIGNIFICANCE TO MCCORMICK LETTER

Opposition From Borah Is Ex-
pected to Develop, Says
Mark Sullivan

By MARK SULLIVAN
National Political Correspondent of
the New York Evening Post
and Wichita Daily Times
(Copyright, 1922, by the New York
Evening Post.)

WASHINGTON, Nov. 16.—In all
this talk of resigning, the
or the other of both of the two
parties along
radical lines there
is some substance,
but not so much
as appears on the
surface. For ex-
ample, the Senator
McCormick's most
graciously polite
note to Senator
Lodge, asking the
elderly gentleman
to edge over a
little on the upper
bench and make
room for some
young fellows,
has no relation to
the radical suc-
cesses in the re-
cent election.

This idea of abolishing the sen-
iority method of selecting committee
chairmen was first brought up sev-
eral months ago. Probably the de-
ferring of the public letter to Lodge
until after the election was due to
the wish not to cause even the
faintest seeming of embarrassment
to Lodge in his campaign. It is
true that Senator McCormick was
one of the high priests of the old
progressive party. It is also true
that recently in the senate he is
one of those whose opinions are
most disturbing to the old guard, for Mc-
Cormick's Scotch-Irish temperament
is such that he doesn't insure un-
til he has a good case, but when he
does insure he goes all the way
through.

But between McCormick and
Lodge there is the best of good
feeling. The Illinois senator's let-
ter is not all a case of a radical
against a stand-patter. It is wholly
a case of June against December, of
forty-five against seventy-two. Mc-
Cormick is speaking not exclusively
for the radicals and progressives. He
is talking up for the senators in the
forties against those in the seven-
ties. It's a case of the young
Turks against the old Sultan, the
young Chinese against the Manchu
dynasty.

Among the beneficiaries of Mc-
Cormick's move would be such per-
fectly good and regular republicans
as Hale, of Maine; Wadsworth of
New York; Pepper, of Pennsylvania—all
the young men and all the new ones.
It is a case of youth insisting on
being served, clamoring for its
place in the sun.

Some of the hardest opposition to
Senator McCormick's proposal will
come from the strongest progres-
sives. There is good reason to an-
ticipate that Senator Borah, when
he gets back from Idaho, will have
something to say, and personally
adverse to say. After waiting
around all these years under the
seniority rule, until he is within
a hair's breadth of being elected
Lodge—of being chairman of the
foreign relations committee, Borah
is not going to have any consuming
enthusiasm for a last minute change
in the rules of the game which
would throw his chances of a most
desired chairmanship into the pool
with all the other candidates.

The same is true of LaFollette,
who is now within one of the top
of the other of the two most pow-
erful committees, the one on
finance.

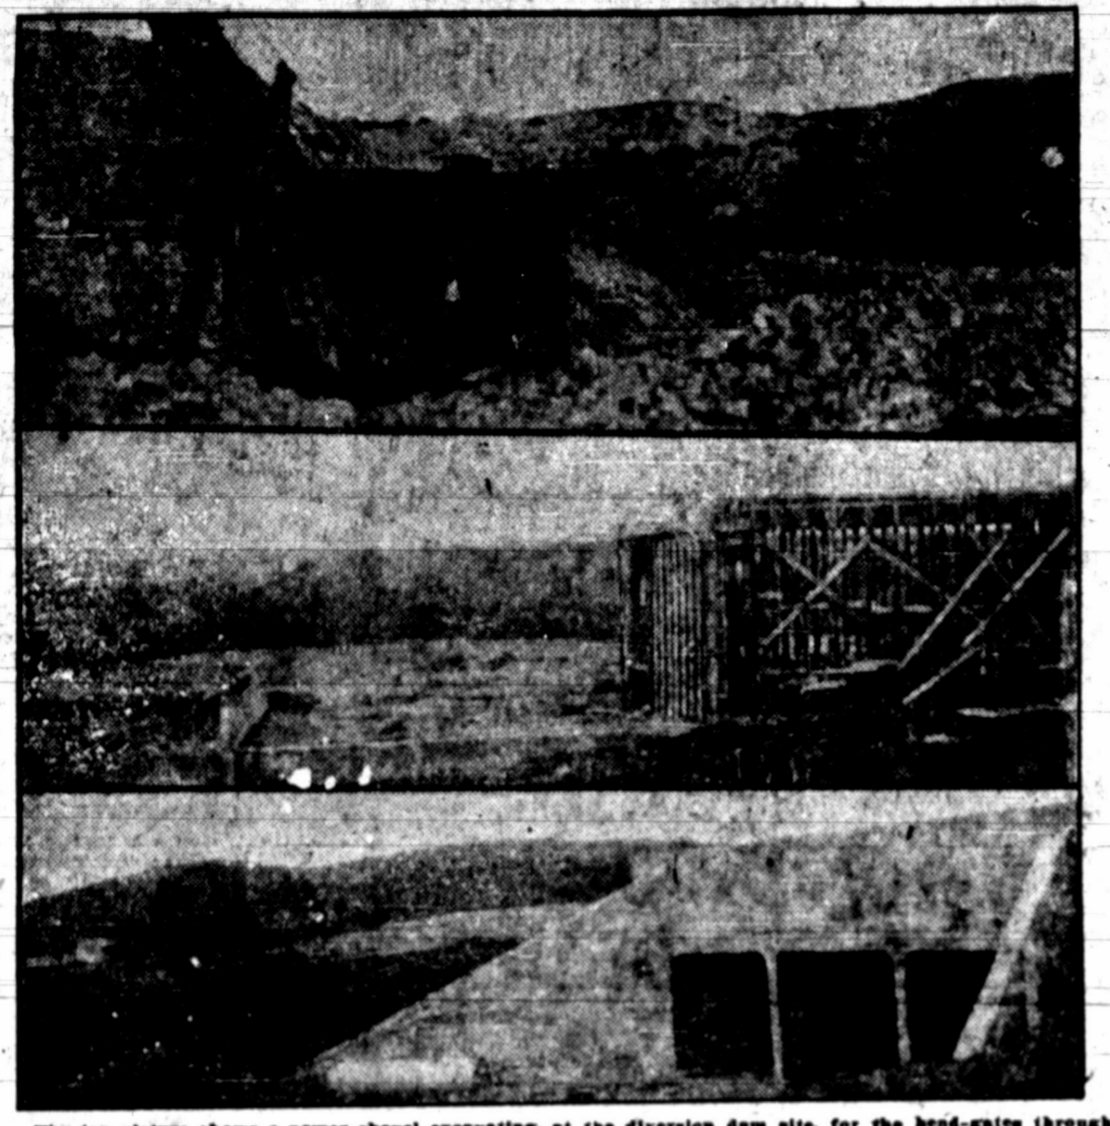

McCormick's argument is pri-
marily against age, and it is un-
doubtedly true that the work of the
senate is impeded by the fact that
important committees which have a
heavy burden of work, including
daily hearings for weeks at a
stretch, are headed by men to whom
such immense and detailed work is
a real physical burden. If you take
the ten most important senate com-
mittees you find that Warren,
chairman of appropriations, is 73;
Lodge of foreign relations is 72;
Cummings of interstate commerce is
71; Colt of immigration is 70; Nel-
son of judiciary is 70; Page of na-
tional affairs is 70; Dillingham of
privileges and elections is 70.

And so on. The only real young
senator who has a chance of suc-
cessful chairmanship is Wadsworth
of New York, who at 45, is head of
military affairs. There is plenty of
soundness in the argument that
these older senators should be
freed from burdensome detail work
so that their experience and wis-
dom can be utilized in more general
ways.

But aside from this specific mat-
ter of the seniority rule, there is
some disposition on the part of
regular republicans to take account
of the radical successes in the re-
cent elections. The old crowd is
hesitant if the need is clear to
back on rule one of the code of
procedural politics: "When you can
beat 'em, join 'em."

There is some talk of inviting
Johnson of California into the mys-
tic circle and giving him a fran-
chise to boss from within the
Billie Hard expresses it, the old
guard "having in the past looked

Getting South Side Canal Ready To Carry Water to Thirsty Farms

upon Johnson as the fire, are now
disposed to look upon him as the
fire engine.

Of course the outstanding pro-
gressive is Borah. But as between
Borah and Johnson, they recall that
Johnson swallowed the tank—
swallowed it and told the people of
this state it sat well on his stom-
ach, whereas Borah voted against it.
Borah has established too
firm a reputation as one who goes
his own gait at all times and un-
der all circumstances. Borah will
never sacrifice even the least of his
personal ideas for the sake of team-
work.

If the hard pressed republican
senators should come to such a
point of desperation as to ask Bor-
ah to be their leader, Borah would
merely say: "Sure, fall in and fol-
low." That's the only kind of lead-
er Borah will ever be. He will make
no personal concessions for the
sake of organization leadership of
the orthodox kind.

There is plenty of evidence that
partly because they can't help it,
and partly because it is expedient,
the elder and more regular republi-
can leaders are getting ready to
accommodate their leadership to
their following—or what is left of
it. If the rank and file republican
party is going to be progressive, or
even somewhat explosively radical,
the republican leaders are going to
be that way, too, and try to look as
if they like it.

SLIGHTLY LOWER PRICES IN SIGHT FOR TURKEYS HERE

Turkeys for Thanksgiving are
just a wee bit cheaper this year
than they were in 1921, accord-
ing to reports from local dealers. How-
ever, the drop in price is not a big
one, and housewives can expect to
pay 50 cents a pound, or there-
abouts, for dressed birds. Last year
the price ranged from 50 to 60
cents.

Farmers are getting 25 to 30
cents a pound, live weight, which
is also slightly under last year's
figures. Turkeys are more plenti-
ful in Wichita, Archer and Clay
counties this year, that being the
territory from which this city gets
most of its Thanksgiving meat.

DISCUSSES VALUE OF IRRIGATION TO WICHITA VALLEY

IOWA PARK, TEXAS, Nov. 16.—
At the business men's luncheon
Monday at the Park Inn, which was
attended by a large and enthusiastic
number, C. H. Clark, a former resi-
dent of Iowa Park, but now of
Wichita Falls, was the principal
speaker. Mr. Clark is one of the
directors of irrigation district No. 2,
which includes practically all of the
valley lands closely adjacent to
Iowa Park. The local chamber of
commerce had invited Mr. Clark to
furnish information as to the ir-
rigation of this district, relative to
the cost to the land owners, etc.

Some very interesting facts were
brought out, showing the compara-
tive costs of this irrigation project
in this and other states. There is
not a body of land under irrigation
anywhere, according to Mr. Clark
where the cost is as small for the
water as this one.

Instances were cited in California
and Idaho where the cost per acre
is \$12 and \$67 respectively. The
average cost of water for irrigated
lands per acre over the entire United
States is \$7.25. From available
data and information at hand at
this time, Mr. Clark figures the cost
of irrigation in Wichita county will
be \$35 per acre. This low figure is
accounted for by the fact that water
can be stored at the big dam, suffi-
cient for this irrigation at such a
nominal sum, on account of the
favorable location which nature has
made for this dam. These figures
are based upon 100,000 acres being
under irrigation, and there is this
difference between this project and
many others. When at the end of
30 years this money has been paid,

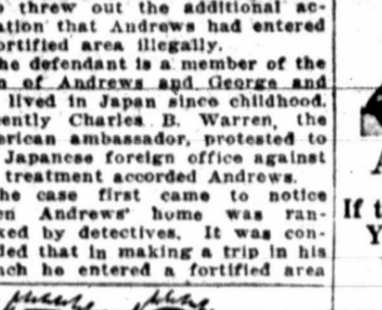

CHARGE AMERICAN IN JAPAN VIOLATED NAVIGATION LAWS

By Associated Press.
TOKIO, Nov. 16.—R. M. Andrews,
a prominent American business man
here, will be tried on a charge of
violating the navigation laws, it has
been decided by an examining judge,
who threw out the additional ac-
cusation that Andrews had entered
a fortified area illegally.

The defendant is a member of the
firm of Andrews and George and
has lived in Japan since childhood.
Recently Charles B. Warren, the
American ambassador, protested to
the Japanese foreign office against
the treatment accorded Andrews.
The case first came to notice
when Andrews' home was rans-
acked by detectives. It was con-
tended that in making this in his
launch he entered a fortified area

and had taken photographs. He denied the charges. Since then his case has dragged along through a preliminary hearing with no formal complaint against him. He has not been under arrest.

MORE EARTHQUAKE SHOCKS ARE FELT ALARMING PEOPLE

WASHINGTON, Nov. 16.—An American in the vicinity of Valparaiso, Chile, was reported to have received a "safe and well" in advice today received by the state department bearing upon the recent earthquake which caused the death of General Diggins at Valparaiso, Chile.

SANTIAGO, CHILE, Nov. 16.—Strong earth shocks were felt at 12:30 o'clock this morning in the Copiapo and La Serena districts, where the greatest loss of life was suffered in Saturday's quake, according to the National Telegraph dispatches.

The inhabitants of Santiago were much alarmed early this morning when a slight earth shock was felt here, the motion apparently being vertical. The tremor began at 1:12 o'clock.

The director of a private meteorological institute had forecast an earth movement at 2 o'clock, due to the conjunction of the moon and Saturn.

Dispatches from Copiapo report the arrival there of a medical and relief party, bringing a large stock of food and medicines.

The medical officers of the party found a number of injured lying in the open air in the vineyards, as the hospital, which was built in 1884, has been completely ruined. Other victims to the number of 50, mostly aged persons, were huddled in a motion picture theatre, lacking proper ventilating facilities.

In Valparaiso, bodies still remain beneath the ruins, their decomposition constituting a serious menace to the health of the inhabitants, who, without food, are living in a continual state of terror, sleeping on the nearby hills. Breaking of the pipes has left the town without water.

The news that President Harding is sending warships to Huasco with supplies was received with gratitude. The quickest means of communication with the district is by ship and it is believed some weeks will elapse before it is possible to deliver all the supplies necessary to allay distress.

Much appreciation was expressed for the offer of assistance from the American Red Cross, but so far as known no decision has been taken.

CHAPTER III
This robbery had been committed by some one of the hotel thieves of Paris, who were accustomed to enter any building which they were able to get into, and to search any apartment that they happened to find open.

The Marquis was again able to indicate a valuable suggestion. He had noticed the Marquis's desk and always the same habits. They did not trust their memories for anything that required an accuracy of memory.

The door unlocked a week before, he had left it unlocked the afternoon. It was then that this man had gone in—taking with him a slip of paper from the basement—broke open the Marquis's desk and searched for the combination, which he finally found and wrote down.

The man made no defense and waived all legal procedure. He confessed and was sentenced to a term of imprisonment. He refused to say what he had done with the necklace.

"Monseigneur," he said, "I was you who promised to tell me that." "And I shall tell you," replied Jonquelle.

Second Brace of Games in Basket Loop Billed Tonight

BAYLOR WILL SEND STRONGEST CLUB TO BATTLE OKLA. A. & M.

WACO, TEXAS, Nov. 15.—The lineup that Coach Bridges of Baylor will send against Oklahoma A. & M. next Friday at Stillwater will in all probability be much changed from that which faced Boston College last Saturday and Texas Aegies the week before. Although Bridges may start Bradshaw at quarter it is not likely that he will play the entire game, as he is still suffering from an injured shoulder received in the Boston game.

In the workouts held in Guthrie, Oklahoma, where the team will train until Friday morning before the transfer to Stillwater for the game, Strickland was put in charge of the team and called signals. Bradshaw was out in uniform and ran signals with the team a few minutes, but did not take an active part like the rest. Strickland at quarter will be an able substitute for Bradshaw as a field general, but will not compare with the Baylor star as a running back. Strickland played this position for two years before he was shifted to halfback.

Williamson who is bidding strongly for an all-conference position at tackle, is still limping from the same knee which he injured in the Boston game. It is gradually improving and he may yet get into shape that will permit him to take part in Friday's game. Hartzog will likely be used by Line Coach Crow to take Williamson's place. Hartzog is a powerful tackle and has a considerable substitute at tackle. He has been used as a guard up to this time.

Because of the condition of the squad Coach Bridges probably will give many of his reserve men a chance to get into the game. He has several capable players in Ralph Pittman, Connolly, Sims, Goodman, Moses and Hartzog.

Realizing the worth of a victory against the Oklahoma Aegies the Baylorites will put everything that they have left into the clash Friday. A defeat at the hands of Oklahoma would put Baylor out of the running for the conference title. The fact that Oklahoma has had a two weeks rest will count heavily against Baylor.

Evan's Weekly Boxing Letter

By BILLY EVANS

Why so much fuss about an opponent for Champion Jack Dempsey? No heavyweight in the business is more entitled to a bout than Tommy Gibbons.

A year ago at this time Gibbons was regarded as the logical contender for the heavy weight championship. As a matter of fact, I understand that negotiations for a match between Dempsey and Gibbons had practically been made. Then came the big pugilistic upset, the defeat of Gibbons by Harry Greb.

Gibbons, because of his sensational knockout record, was then the most talked about man in the ring. New Yorkers wanted to see him pitted against a good man before taking on Dempsey.

Greb had to solve Gibbons a real work-out. Tommy had fought him before and had no great trouble taking care of himself.

I saw the Gibbons-Greb bout. Greb was at his best that night. Gibbons at his worst. Tommy never got started, while Greb threw a million boxing punches at him.

While Greb did no particular damage to Gibbons because he seldom set still Tommy was so badly out-punched that he lost much prestige and immediate the promoter who intended staging a bout with Dempsey passed up the proposition.

Just before the bout between Gibbons and Greb I had a chat with the latter. Greb appeared to be a trifle nervous. However, it was caused by a desire to get into action rather than any fear of Gibbons.

Says Gibbons His Fate:

"How do you like your chances, Harry?" I asked him.

"Great unless I should happen to take a sock on the jaw. Gibbons can hit, and if he hits me on the right spot it will be certain that 'it is up to me to keep away from his 'kay' punch. If I can do that I will win easily on points."

Gibbons was unable to reach a vital spot and true to his word Greb took down the decision by a wide margin.

After the fight I dropped around to see Greb.

"Well, he didn't reach you with a good punch," was my greeting.

"Yes, he did," answered Greb. "He got to me twice. I could hear the canaries singing in the second round, also later in the bout, but Gibbons was unable to press his advantage."

Greb Talks About Dempsey:

Then Greb made a statement that was very interesting to me, since Gibbons once again loomed as the logical contender for a fight with Dempsey.

"Folks may laugh at me for saying it, but Dempsey is no harder than Gibbons, and if I could stay away from Dempsey as I did Gibbons I would be able to make the champion look as bad as I did Tommy."

Greb is one of the hardest fighters in the business to solve. Unless you knock him out you haven't much of a chance to get the decision over him. So, after all the showing of Gibbons was perhaps taken too seriously when discussing his chances with Dempsey.

LACK OF OFFICIALS IS WOE OF GRID, SAYS McMILLAN

By "BO" McMILLAN

All-America Quarterback. To have a good football game, one that will satisfy both the players and the spectators as well, it is necessary to have capable men in the capacity of officials. During my experience as a player I have come in contact with very few first class officials.

The reason for this might be easily understood if one would stop to reason it out. Most of the men who are in the present-day game are ex-college stars, and it is natural that they should be the first choice when it comes to selecting men for the job. My own experience with star football players, however, has shown me that they are not capable of officiating in a football game where so much rests upon his knowledge and judgment. There are some thirty rules in the book with from two to 10 sections under each, and these are being changed and modified from season to season.

Few Players Know Rules.

Those of us who are familiar with the game know that after a man goes out on the field every afternoon and works hard in running the plays and the various routine of the training season, then comes in at night and prepares his classes for the following day, he will not be in a very good mood to spend more time in studying the football rule book than he has already spent. Now don't get the impression that I am not in favor of the entire squad learning the rules, because I am. This year I had rules books for every candidate for my team and we have had classes in the study of these rules. But what I am trying to impress is the difficulty of getting the average football player to do this.

The players think as long as they are a captain and a coach that it is not necessary for them to learn the technical side of the game. I am strongly in favor of each man making himself familiar with the rules before the hard training is started. I am afraid that this is being neglected by a large number of coaches.

Big College Change System.

Many times a star football player of former days has been advertised to officiate in a game. Usually he is a big drawing card. Many times this same man will not be familiar with the rules. He will get along fine until he makes a bad decision that decides the game against the home team. Then the school authorities decide that it is not competent and next time they will call on someone else. Probably another ex-player, who is no more familiar with the rules than the first.

Most of the larger institutions are getting away from the old custom of having ex-football stars to officiate their games. They are employing men who have reputations as first class officials and not as star football players.

The smaller colleges and the high schools are still working under the old system, and since I have been at Central college, I have received flattering offers to work in college and high school games. I am sure these schools have no way of knowing of my ability as an official, but simply want me as a drawing card. They are willing to take a chance of having their game run in the proper manner.

Billy Evans Says

Open play in football may be risky but it is a great weapon for a team that is being outplayed in the line.

In the now memorable game between Chicago and Princeton the latter team had much the better line. Chicago, until the final period, gained almost all through the tiger line, while Princeton could make little or no headway against the Chicago forwards.

It didn't take Quarterback Gorman of Princeton very long to realize that he was up against it as far as making any worthwhile gains through the line. It was apparent to him that Princeton must open up if it was to have a chance.

The first score made by Princeton was the result of a 45-yard pass, Cleaves to Gray. The second score was made by Gray who recovered a fumble and ran 40 yards for a touchdown. The final touchdown was largely the result of a series of successful passes.

To my way of thinking one of the greatest plays I ever saw on the gridiron was played by Princeton in the Chicago game. It was a risky play but it worked, and is probably saved the day for the Tigers.

In football as in any other sport, the winning team is an aggregation of eleven men who have a variety of plays and formations. The system must be stereotyped so that the opposition can soon wise itself up to the style of play.

The play I have in mind as one of the greatest I ever saw pulled was staged in this manner: Chicago kicked off to Princeton. Gorman received the ball on the 2 yard line, ran a few feet and then turned and hurried a long pass to Cleaves who ran the ball to midfield.

It was a pretty play and the Tigers seemed out of danger. Then it became apparent that something was wrong with the play. The officials ruled that Cleaves was not eligible to receive the pass. The ball was brought back and a penalty inflicted.

It seemed there was no other play to make except a punt by Princeton. Cleaves dropped back about 10 yards behind the goal line and apparently set himself for a punt. The ball was passed to him. He held it momentarily while five or six Chicago players broke through the block and kicked. It seemed as if they would.

Then, to the amazement of the 30,000 fans and the Chicago team, he hurried a beautiful forward pass over the goal line and the Princeton 10-yard line. The fleet little quarterback ran it to the 40 yard line before he was tackled.

I have never seen anything quite like it for a long time. It required "cut" play, perfect execution. Cleaves and Gorman proved they possessed both.

Owners May Put Ban on Lively Ball

PHILADELPHIA, Pa., Nov. 15.—Officials of the factory in this city that supplies the major leagues with baseballs, hint that the ball may not be as lively next year.

The fact that during 1921, some runs were made in the two major leagues has caused certain agitation against the lively ball. Some of the managers feel that the games hitting that has featured the games for the past three years will soon have robbed the home run of much of its thrill, since it is getting so common.

While it is conceded that the public likes free hitting rather than straight pitching, the managers seem to think the hitting end of the game is being overdone.

It is said the matter will be freely discussed at the coming major league meeting, and it wouldn't be at all surprising if the order went out to slow up the ball, which after all simply means that the game will not be so tightly wound around the cork center.

It is the spin and the way it is placed on the ball that produces the liveliness of the sphere rather than the cork center.

Passer Uses Tar To Assit Throwing

Quarterback Covington of Central college, who succeeded Bo McMILLAN that position, resorted to a new stunt in the Harvard game to assist him in making his passes more accurate.

Covington's hand, so the story goes, was smeared with tar. The reason, of course, was to eliminate the chance of fumbling when Covington poised the arm high in the air preparatory to starting his pass on the way.

Some years back baseball pitchers started to apply foreign substances to the ball in order to give them a firmer grip on the sphere, which naturally enabled them to get a better break on the ball.

The superiority which the pitchers soon attained over the batters because of the many freak deliveries, in which the doctored ball

TEXAS GRIDDEERS TO LEAVE FOR SOONER GAME FULL OF HOPE

AUSTIN, TEXAS, Nov. 15.—Coach Berry Whitaker of the Texas Longhorns has been working under some difficulties this week, trying to build a winning team to go against the strong Oklahoma Sooners at Norman, Okla., Saturday. Whitaker has been required to practically rebuild his team in order to send a team against the Sooners with possibilities of winning.

At least four Longhorn players will not be in the Oklahoma game because of Missouri Valley rules which prevent members playing their fourth year to compete. Players coming under this rule are Moore, end; Jones, guard, Culp, fullback, and Bralley, guard. Tyner, regular fullback, and Hansell, halfback, will be out on account of grades.

Robertson, Ward and Marley, all regulars, are also included on the doubtful list because of sickness and injuries, while quarterbacks Stacy and Gardner will be out because of injuries.

The Longhorns are scheduled to leave Austin tonight for Norman. One of the features of the Longhorns visit to Oklahoma will be a banquet given in honor of the Texas alumni now living in Oklahoma.

BILLIARD PLAY STILL HOLDS MUCH INTEREST

NEW YORK, Nov. 16.—Edouard Horemans of Belgium and Erich Hagenbacher, champion of Germany, will meet in the matinee game of the international 13.3 billiard tournament today.

Neither of the two foreigners has won a match thus far in the tournament. The Belgian has lost one and Hagenbacher lost his second match when he was defeated by Welker Cochran in a close game yesterday, 590 to 471.

In the evening Welker Cochran of San Francisco will meet Willie Hoppe, the former champion. Jake Schoeber of San Francisco, playing at his best, defeated Roger Conitt of France, 590 to 251, last night.

Jones Sends Team Through Work With Hard Game in View

Expecting play of the same type as that encountered at Cleburne, Coach Jones is drilling the Coyotes in strenuous defensive tactics as the Fort Worth (Central) High game date nears. The griddeers of Big Bill Jones, former Centre college star, are known to be one of the heaviest teams of the state this year and had been picked to run strong in the title race, but the Oak Cliff segregation upset the old dog game date nears. Tough Luck Fails To Dampen Ardor Of Coach Rockne

BY NEA Service.

SOUTH BEND, IND., Nov. 14.—The loss of one of the star football players means nothing in the life of Coach Knute Rockne of Notre Dame. His team goes on winning just the same.

Last year his football squad lost a dozen regulars either through graduation or having been declared ineligible because of professionalism. That was quite a blow.

In one of the early games this fall his star tackle, Tom Lieb, suffered a broken leg, putting him out for the rest of the season.

The latest tough break for Rockne is the loss of his whirlwind halfback, Gus Desch. Rockne has declared that Desch is through for the season.

Desch, who is captain of the Notre Dame track team and a hurdler of Olympic caliber, injured his heel some time ago. The bruise continues very painful and refuses to respond to treatment. Rest seems to be the only cure and Desch has decided to save Desch for track work rather than use him on the gridiron.

VILLA MEETS GOLDSTEIN IN 15-ROUND GO TONIGHT

NEW YORK, Nov. 14.—Pancho Villa, Filipino holder of the America flyweight championship, will box Abe Goldstein of New York tonight in a 15 round contest at Madison Square garden.

Villa's title was not expected to be at stake, however, as articles of agreement call for the pugilist to make 116 pounds this afternoon, while the flyweight limit is 112 pounds. Villa was expected to weigh about 105 and his opponent 115 or 116.

JACK DAW AT SEA

BY ELTON

As the great ocean liner steamed away, Jack turned his attention to fishing. Something was pulling on it. Jack grabbed it and started to pull it in. Suddenly the line broke and let Jack fall back in a "gee, that must have been a big fellow," said Jack.

The next line that Jack threw into the water was a much stronger one. In fact he used a clothesline this time. He had taken a big piece of rope and made a hook out of it. Then he had some real luck. As he gave a jerk, Jack pulled it in. There was a big fish on it.

Jack was a bit frightened at first. He had never seen such a big fish. However, he finally managed to hold it still, by sitting on it. Then discovered that he couldn't cook any fish as he had no matches. "I'll throw it back in," said Jack.

It is hard to believe that a little boy would do such a foolish thing. When Jack tossed the big fish back into the water, he forgot to take hook out of its mouth. As soon as the fish was out of sight it tried to swim. Jack had all he could do to hold on to the line.

"This is the fastest ride we've had yet," shouted Jack as the big sea raced through the water with the little raft in tow. Jack had tied end of the fish line to a big sail and he was having great fun dodging the big waves that surged up over his nose.

After a while the water became smooth and the waves didn't wash the raft any more. The hooked fish, however, was still fishing and flip on a rapid ride. "I'll just sit down and enjoy this," said Jack and once again he fell fast asleep. On went the raft.

MANY SCALES AND MEASURES FOUND TO BE INACURATE

AUSTIN, TEXAS, Nov. 16.—More than 200,000 inspections of public scales, measures, weights and pumps in Texas were made by the division of weights and measures of the state department of market and warehouse during the fiscal year ending August 31, representing fee collections of \$841, according to the annual report by State Commissioner Charles E. Baughman.

A total of 21,226 public scales were inspected by field representatives of the department, of which 3,217 were condemned for repairs, 659 were seized and 27,961 were found to be correct.

Approximately 5,000 linear measures were inspected by the department. A total of 723 of these measures were seized, 295 condemned for repairs and 4,019 sealed as correct.

More than 15,000 avoirdupois weights were inspected during the year, 520 being seized, 723 condemned for repairs, and 14,756 approved. A total of 11,056 automatic pumps were inspected. These include chiefly public gasoline stations, and according to the report, a majority of these were found to be incorrect.
