

**Homecoming Game For FHS Friday**

**Four Girls Seeking Crown**

ONE WILL REIGN. . . One of these four pretty Friona High School girls will be crowned Homecoming Queen in pre-game ceremonies at Chieftain Field Friday evening. Starting at the top, and going clockwise, are Diane Day, Debbie Wassom, Susie Spring and Lana Renner. The girls are all seniors except Miss Day, who is a junior.

Despite the failure of Cesar Chavez and his United Farm Workers Organizing Committee to gain support of the California grape workers, 90% of the growers have signed contracts with the UFWOC. The success was a result of the boycott of table grapes by do-gooders, who never bothered to find out whether or not the workers wanted to be unionized.

The contracts signed by the growers and the UFWOC call for a 7-day compulsory union shop a UFWOC hiring hall to dole out work assignments to the workers and the payment of three months back dues by the pickers; the alternative to this is loss of employment. There is, also, a blacklisting clause in the contract that gives the UFWOC the power to have any worker who speaks out against the UFWOC dismissed.

Chavez is expanding his unique form of organizing to other commodities, such as lettuce, citrus products and tomatoes. Recently, I read a letter published in the Greenfield News and Soledad Bee, two California newspapers in the area of the tomato ranches. The letter, written by Mrs. Lena Garcia, a Soledad tomato field worker, was sent to Chavez and Federal, state and local officials. The text follows:

"Why does the law let so much disorder go on with this strike that is going on against the workers? I hope the law does something to stop this disorder. Mostly, all the families from Soledad don't want the strike. They want to keep on working to buy school clothes for their children.

"The trouble is, that when the families want to go to work, the Chavez people stop them and don't let them pass to work. They threaten the people. Chavez' people stand at each entrance of each ranch, and they threaten the workers.

Today, they all came into the fields, about 12 cars with their red flags with an eagle emblem, to get the people out of the fields. The ranchers called the Sheriff, and they came to get them out. The sheriff told them to leave us alone. They left. This morning they broke the antenna of the car of the contractor.

"We don't need Chavez. All the years we've lived here, we've always had work to support ourselves, to eat and have a roof over our heads, to feed and clothe ourselves and our children. We've never had a strike in this valley. We've had the best wages in this state.

"The Teamsters had a strike, but us field laborers didn't have anything to do with it. The ranchers protect us all year long with their crops. We want to protect their crops too. For my part, I say for them to leave us alone. What do we get out of Chavez? He's not going to support us if we're out of jobs. He's not going to support the people of welfare like the agriculturists do with their taxes.

"Why do they want to force us to join the Union? This is a free country, and each person works where he wants to work and joins what he wants to join, or he doesn't join anybody. This is a free country, Union or no Union. All we want to do is to work to support ourselves.

"I am a Mexican-American, like Chavez, too, but I don't have faith in him. He's not doing anything right. He says he hopes God will help him win this fight. I don't think God will hear him because God is the one who makes the crops grow, so we can work to support ourselves and so we can live. We protect the ranchers, and the ranchers protect us. All Chavez does is stop us from working and ruin all the crops."

This letter speaks for itself.

When you start to feel an attack of awe in the presence of a great man, just imagine how he looks in his nightshirt.-- Arthur Brisbane

The fellow who ignores the collection plate shouldn't squawk if the church's air conditioning goes out from lack of maintenance.

Carleen Greeson, the 1969 Queen, will be present for the game and ceremony, and relinquish her crown to the new Homecoming queen.

Brent Loflin, the young son of Mr. and Mrs. Jerry Loflin, will be the crown-bearer.

In other pre-game ceremonies, under the direction of the Friona High School Student-Faculty Congress, John Bingham will give the invocation; the Friona American Legion post will present the colors; and Terry Thompson will lead the crowd in the Pledge of Allegiance.

Other homecoming activities include a "Tasting Tea Time" sponsored by the FHS Future Homemakers, in the High School cafeteria beginning at 5 p.m.

**Last Call For Seminar**

The Friona Chamber of Commerce is issuing a last call to residents who plan to attend the Governor's Conference on Industrial Expansion in Austin next Tuesday.

A plane-load of Friona boosters will fly down for the conference and back late that afternoon. The cost for the flight is \$35.00.

Those who haven't registered need to contact the Chamber office and let them send in their registration immediately.

In order to set a new record, the last quarter of 1970 would have to see permits issued at

**PERMIT FIGURES**

**September Building Spurts To \$165,000**

Building permit activity in the city of Friona during September spurted to the second-largest total for the calendar year, and revived possibilities of establishing an all-time record for the year's total.

There were 13 permits issued during the month, totalling \$165,100. This has exceeded only by the month of February with the whopping total of \$1,171,700--which included permits for the 60-unit apartment complex and the new building for Friona State Bank. This total set a new one-month record in the city.

Permits during September included eleven new residences, representing the bulk of the total--an estimated cost of \$163,800. Also included were an addition to an existing building valued at \$1,200, and a storage shed for \$100.

The new residences to be built were scattered from Westside Addition to the Hicks Addition and to Drake Addition.

Building permits as issued by the City of Friona now total \$1,679,475 in estimated construction for the year of 1970. This is still \$298,565 short of the all-time record of \$1,978,040 established in 1964--when the new high school complex accounted for almost \$1 million of the total.

You always know the top twenty in college football the Tuesday after the last Saturday that the teams have gone to battle. The statistics don't come out quite that fast in the electric utility business, however, and a Federal Power Commission report which was just recently released shows that two of Southwestern Public Service Company's giant electric generating units were in the top 20 for efficiency in 1968, the latest year for which figures are available.

**Two Area Power Plants On Nation's Top List**

The Federal Power Commission report on operating expenses and efficiencies rated Unit #2 at Cunningham Station, near Hobbs, New Mexico, as the 10th most efficient gas-fired generating unit in the nation, insofar as heat rate is concerned, and Unit #4 at Plant X, near Earth, Texas was selected as the 12th most efficient.

Each of the generating units has a capability of 210,000 kilowatts. The recognition of their efficiency is measured in the amount of gas required to produce a kilowatt-hour of electric energy.

Where this all gets important to the customers is when you get it down to dollars and cents. Southwestern's cost for gas has increased by 36% in the last ten years, but the unit fuel cost for each kilowatt-hour generated has increased by only 22%. The more efficient units, such as those cited in the FPC report, make this performance possible.

Southwestern's cost for gas has increased by 36% in the last ten years, but the unit fuel cost for each kilowatt-hour generated has increased by only 22%. The more efficient units, such as those cited in the FPC report, make this performance possible.

**Agnew Slated For GOP Rally**

Vice President Spiro T. Agnew will be the speaker at the Republican fund-raising dinner honoring Congressman George Bush at the Amarillo Civic Center Monday, October 12, 1970 at 8 p.m.

Tickets may be purchased from Glenn Lust, Route 3, Muleshoe, telephone Lazbuddie, 965-2181, or from Glenn Reeve, 510 W. 10th., Friona, telephone 247-2456 or 247-2774.

All ticket holders are invited to reception honoring Vice-President Agnew, Senate candidate George Bush, gubernatorial candidate Paul Eggers, and Congressman Bob Price, at 7 p.m. in the Amarillo Civic Center.

**Football Picks**

**First-Time Entrant Is Contest Winner**

A first-time contestant emerged as winner in the fourth week of the Friona Star's football contest.

Jim Milner of Muleshoe won the first prize money, Melvin Lloyd was second and John Frazier was third.

All of the top three contestants had scores of 12. Milner won on the basis of the tie-breaker score, guessing the Olton-Friona score at 28-7 in favor of the Mustangs. He thus missed by just seven points.

Five other contestants had scores of 12. They were Joe Reeve, Phillip Weatherly, Dee King, Shirley and Charles Waggoner.

Frazier's score of 12 moved him into first place in the overall contest standings, with a four-week total of 43. Former leader, W.R. Mabry, slipped into a tie with Andy Hurst,

stronger, and have a better quarterback this year," Owen says.

Owen pointed out that Friday night's invaders run the triple-option offense to perfection, and it's quarterback Mark Wohlgenuth who makes it work.

"He reads the opposition's defense well. He is not the passer that Olton's (Steve) Stockdale is, but he's an adequate passer," the Friona head coach says.

**OLD RIVALS**

**Dimmitt Bobcats Are Opponents**

The Dimmitt Bobcats will furnish the opposition for Friona at the annual Homecoming game Friday night--and Friona fans hope the 'Cats don't furnish as much opposition as they did in 1968 in another Homecoming game.

Dimmitt won that last Friona appearance, 46-7; one of only two Homecoming losses for the Chiefs in the past seven years. Friday's game begins at 7:30. It will be preceded by crowning of the Homecoming Queen. (See separate story.)

Dimmitt, like Friona, has a 2-2 record. The Bobcats opened with a 22-8 win over Muleshoe, and then topped Farwell, 25-0. Springlake edged the 'Cats, 14-7 in their third game, and then Floydada won the district opener last Friday, 35-16.

Dimmitt wasn't pegged to have nearly as strong a team as the Bobcats fielded in 1969, but Coach Bob Owen doesn't look at it that way.

"They may not have the overall team speed they had a year ago, but defensively they are better. They are bigger and

**Football Picks**

**First-Time Entrant Is Contest Winner**

Frank Truitt, Charles Waggoner and Holly Welch at 41.

Four other contestants have scores of 40, averaging 10 correct games per week. They are Laverne Mabry, Mal Manchee, Phillip Weatherly and Elaine Wardlaw.

Almost every week, at least one contestant fails to get his name on the entry blank. With some 150 entering the contest each week, it is nearly impossible to find who such blanks belong to.

Another weekly contest appears on a page inside this issue, sponsored by 14 Friona area businesses along with the Friona Star. Contestants are vying for tickets to the Cotton Bowl or Sun Bowl Game, along with expense money as grand prizes in the contest.

The Council agreed to pay David Carson the sum of \$1612.96 representing the amount due on existing sewer lines, provided that Carson plat, dedicate and bring the block into the city.

The sewer line in question was laid in 1951, by the late Fred Carson, with the understanding that whenever the property was annexed, Carson would be repaid the cost of the line.

In other business, an ordinance was passed declaring a public necessity and authorizing the purchase of right-of-way on properties along Grand Avenue south of Fifth Street within the city limits for the proposed widening of Highway 214 and the overpass at the southern edge of the city, to span the Santa Fe railway.

The council passed an ordinance allowing General Telephone Co. to "freeze" any further two-party business telephones. At the end of a year, these will be converted to one-party services.

Gerald Kehoe, representing General Telephone, said there were only 11 such services currently in Friona. Many of these have dwindled to only one party on a dual service, and the trend is away from this type of telephone service for businesses, Kehoe said.

A payment of \$2664 to Rushing Insurance Co. for the city's annual workman's compensation.

(Continued on Page 5)

HARVEST IN HIGH GEAR. . . As you perhaps can tell by the above picture, the maize harvest in the Friona area is nearing its peak, with farmers working early and late in an attempt to get the crop harvested while good weather lasts. A cold front expected on Thursday might cause another delay in the harvest.

FEEDLOT GUEST. . . This registered Texas Longhorn Steer, "Old Blue," belongs to Hi-Plains Feedlot, and is enjoying a balanced diet without worrying about the slaughter house. "Old Blue" is about six years old, and weighs 1800 pounds. He stands quite a bit taller than the average steer (note feedlot stock at right), and has a good set of horns. Longhorn steers have been known to live 20 years. "Old Blue" has performed in several movies.

**AN EDITORIAL**

**Rules Given On Fire Safety And Children**

One child out of every three who die in fires is alone and helpless when fire strikes.

This is the shocking and tragic conclusion of a study by the National Fire Protection Association, reports Fire Chief Ralph Shirley. Children under 5 years of age account for 17-1/2 per cent of the 12,100 persons killed by fire in the United States each year, and another 10 per cent of the nation's fire victims are between 5 and 14 years old.

"Never leave small children alone," Chief Shirley urges. "If it's necessary to leave the house for even a few minutes, take the children with you unless you can find a competent person to watch over them."

To protect your children from fire at home and at play, the Chief advises parents to take these precautions:

1. Make sure babysitters have specific instructions in case of fire. These include orders to get the children out of the house the instant smoke or gas is noted, the location of at least two escape routes from every room, and how to get in touch with the fire department, parents, doctor and police.
2. Keep young children--age 2 and under--in constant sight and mind.
3. Teach older children how to use and respect fire. They learn best by the good example set by their parents.
4. Keep your home free of fire hazards through regular check-ups. Don't hesitate to ask the fire department to help in this.
5. Train children of all ages to get out of the house to safety in case of fire. Work out at least two escape routes from each room, and be sure the youngsters know these routes by heart.

**Friona Flashbacks**

...from the files of the Friona Star

40 YEARS AGO--OCTOBER 10, 1930

The concrete foundation was poured last week and material placed on the ground for the new Wicks hatchery. As stated, the building will be 24 by 60 feet, frame and brick veneer. Furlong and Dilger are doing the work. The building will house a 53,000-egg incubator, making it one of the largest in this territory.

35 YEARS AGO--OCTOBER 11, 1935

Misses Lela and Ella Staley of Springfield, Missouri, were business visitors here last Saturday for a few hours, looking after their property interest in and adjoining town. The Misses Staley own the tract of land immediately adjoining the west side of town which has been cultivated by W.H. Foster for several years.

30 YEARS AGO--OCTOBER 11, 1940

All the public schools of Parmer County have been ordered closed for one day on Wednesday, October 16, by County Judge Lee Thompson, as the first official action taken in this county to facilitate the registration of men within the draft-age limits. All men between the ages of 21 and 36 will be required to register on the above date. This registration is the first step in selecting able-bodied men who are qualified for military training in the United States Army.

25 YEARS AGO--OCTOBER 5, 1945

The filling station building on Main Street that was owned and formerly operated by Sheets Brothers has been sold to the Friona Consumers Company.

During the severe rainy and chilling spell of weather that hit suddenly down upon the Friona territory and all of Parmer County last week, quite a number of farmers and cattlemen suffered losses through the death of their cattle.

20 YEARS AGO--OCTOBER 5, 1950

Crop prospects of Parmer County are now tending a fine balance, with distinct possibilities of either a record bumper crop or the other extreme--a meager one. Main factor in the outcome is unmistakably the danger of killing frost. With the cool, damp weather prevailing, all the grain is slow in maturing, necessitating a late frost for productive harvests.

15 YEARS AGO--OCTOBER 7, 1955

First bales of cotton have been delivered in the last week to the L. & H. Gin and the North Plains Gin Company, both of Friona. First area bale went to the Mills-Fleming Gin at Hub at an earlier (September 9) date. Delivering the first bale in the city was Lynn Hughes, grown on the irrigated land of Jake Lamb northwest of Friona. Gin owner Wright Williams paid a premium price of 50¢ per pound for the bale.

10 YEARS AGO--OCTOBER 6, 1960

Rev. W.G. (Bill) Burton of O'Donnell is the new pastor of the First Baptist Church in Friona. The Rev. Burton and his family moved to Friona last weekend and he brought his first message in the local church last Sunday.

Carroll Bennett and Tom Gee will represent the Friona chapter of the Future Farmers of America at the national convention in Kansas City next week.

5 YEARS AGO--OCTOBER 6, 1965

Two members of the Friona High School Future Farmers of America chapter, along with one sponsor, David T. McVey, will attend the national FFA Convention in Kansas City next week. Attending along with McVey will be Jimmy Taylor and Roger Nelson.

**Pause and Reflect**

By Nelson Lewis

Two or three people mentioned that there was no "Pause and Reflect" column in last week's paper.

They all asked the same question--"What's the matter, old man, couldn't you think of anything to write about?"

They all got the same answer "The trouble was that there was too much to write about!"

Did it ever occur to you that I, in our small town weekly, and my brothers in their widely circulated nationally syndicated daily columns, sometimes get tired of beating our heads against the stone wall of public apathy?

Do you think that ours is a vainglorious occupation whose only purpose is to excite comment?

Nothing could be farther from the truth!

A newspaper's duty is to inform, not to coerce nor to bend thoughts to suit an editor's or a columnist's preconceived opinions.

For almost three years this space has been devoted to an attempt to remind you--the American public--that your freedom is being slowly and carefully stolen away from you. Is that just another "fire alarm" statement?

All right, answer these questions fairly and honestly and then make up your minds.

Who determines how many hours a week you may work, and at what wage?

You and your boss, or the Federal Government?

Do you want your children bussed miles away from home to achieve racial balance or do you want to keep neighborhood schools?

If your son is caged in the jungles of Vietnam are you a Hawk or a Dove?

How much interest do you pay on your new home or automobile?

Who says so?

Are you willing to pay for the keep of "brood mare mothers," and their foals?

Do you enjoy supporting millions of lazy bums?

Did you contribute to the college of your choice just to see it burned down?

Are you willing to see your tax dollars spent on vote getting "domestic programs" while our Navy, Army, and Air Force become second class powers?

Do you agree with the findings of two recent presidential commissions?--

Pornography has no ill effect on youth--Campus tragedies are the fault of the police?

Should your tax dollars be spent to help industry clean up the mess it has made of our rivers and air?

Should drunk drivers, and other criminals, be turned loose to go and sin again?

The list is endless, but if I continue you will revert to the old Ho-Hum attitude and "by our much speaking we will be ignored."

So what can we do?

Very simple, friends.

Be sure you are registered to vote.

Study every issue, review every legislators voting record (never mind his speeches) take a good down to earth, common sense approach, to each question and candidate and let your conscience be your guide.

Someone said that unless we get more water into the Panhandle of Texas we won't have an agricultural-beef business thirty-five years from now.

I've got news for him--unless we get a more sensible federal government it won't matter thirty-five years from now!

You might bear in mind that bad government is caused by good people who fail to vote!

THORP, WISC., COURIER: "We humans have been so preoccupied with watching the price of everything else go up that we have failed to notice that the price of us has gone up too. Just 30 years ago chemicals in the human body had a commercial value of about 98 cents. . . Today, experts say, those chemicals are worth about \$800. Now no matter how modest he may be, anyone who owns a body has to be at least proud of something like this. Any body that contains chemicals which have increased in value by 800 percent can't be all bad."

TIPTON, IOWA, CONSERVATIVE: "The idea that any family with a yearly income of \$8,400 could be poor is of somewhat recent origin. As a matter of fact, the amount that a family can earn and be in poverty increased \$1,000 last year, according to the Department of Labor."

BENTON, MO., DEMOCRAT: "If we could convince our youngsters that they are wrong in believing, that somehow, the world owes them a living it would be a giant step forward."

**LETTERS TO EDITOR**

Dear Sir:

Our son and two of his friends were recently involved in an accident in your town.

We would like to thank the people of Friona for their kind and thoughtful treatment of these young men who were so far from home.

We would also like to thank the staff at Parmer County Hospital and especially Mr. and Mrs. Paterson of Friona who so unselfishly offered them the use of their home.

We have never been to Texas, but if we are ever fortunate enough to find ourselves there,

we would most certainly visit Friona. It must be a wonderful town in which to live.

Sincerely,  
 Mr. and Mrs. John Calore  
 Pennsauken, New Jersey

Most bankruptcies result from management incompetence rather than fire, flood or other disasters. That's the finding of Dun & Bradstreet, since 1929 the only organization reporting on bankruptcies. A D & B spokesman adds that between 350,000 and 400,000 concerns have been discontinued annually.

CONTEST ACTION. . . The above photos show contestants taking their turns in the local Punt, Pass and Kick competition last Saturday. Some 116 contestants were registered in the contest, which was the best turnout in recent years.

## Spotlight on HEALTH

### HEALTH AND SCIENCE SHORTS

An article written for pharmacists advises that dandruff needs "continuous control." Habitual use of "a pleasant shampoo containing the proven-effective sulfur and other medications" is suggested as the way to achieve this control.

A number of effective dandruff shampoos which control sulfur can be used as a "regular" shampoo after the condition clears. One of these, pHisoDan, also contains an antibacterial agent that helps to prevent bacterial infection of the scalp.

When used routinely, the antibacterial skin cleanser, pHisoHex, has been found to control perspiration odor by markedly reducing the bacterial count on the skin. It protects skin against these bacteria between washings.

Drafts, dampness or wet feet will not give you a cold! However, prolonged exposure to

chilling, dampness or overheating lower body resistance, and the ability to fight off infection, including common cold virus.

Once a cold strikes, rest helps the body to build up resistance against complications. Aspirin helps headache and achiness. Gargling eases a sore throat. Sprays or drops containing Neo-Synephrine are often recommended for relief of nasal congestion and postnasal drip.

Teenagers with acne are more likely to seek medical help in fall and winter than in summer. An explanation offered by a New York dermatologist is that "the ultraviolet rays of summer sun, in moderation, provide a beneficial peeling and drying action on oily, blemished skin. These rays also have a bacteriostatic effect." The physician advises that this peeling and drying can be simulated through the use of a medicated cream, such as pHisoAc.

### Bond Totals Are Listed

United States Savings Bond sales in Parmar County during the month of August totaled \$5,177, according to County Savings Bond Chairman, Frank A. Spring. Sales for the eight month period were \$36,997, which is 37 per cent of the 1970 goal of \$100,000.

Texas sales during August amounted to \$15,063,651 while the year-to-date sales totaled \$121,269,825 for 67 per cent of the 1970 goal of \$179.9 million. Series E Sales alone during August 1970 were \$14,841,344 compared to 1969 sales of \$14,036,564--an increase of 5.7 per cent. The January-August sales for Series E Bonds totaled \$114,763,654 in comparison with \$108,578,640 during the same period of 1969.

Over the nation, Series E and H Savings Bond sales amounting to \$388 million were purchased during August--a 12 per cent increase over August 1969 sales of \$348 million. The

eight month sales totaled \$3,149 million--3.3 per cent above a year earlier.

### Date Set For Sausage Dinner

Members of St. Teresa's Ladies Society have announced that a German Sausage Dinner will be served from 11:30 a.m. to 2:30 p.m., October 11, in St. Teresa's Parish Hall.

Tickets are being sold by members or may be purchased at the door for \$1.50 per plate. The public is invited to attend by Mrs. James Ball, spokesman for the group.

Fishing pays off in dollars and cents. Stripper fishing in California is said to return more than \$7 million annually to the state's economy.

Another "MoorMan First"!  
**Roughage Buster 100**  
 --with Biuret  
 Here's the new, low-cost way to supplement beef cattle on pasture, crop residue or other roughage: Self-feed MoorMan's\* Roughage Buster 100\* containing Biuret--slow-release nitrogen source. Roughage Buster 100--blocks or granular--also supplies complete, balanced minerals plus vitamins A and D. It stimulates rumen micro-organisms to break down coarse, fibrous forage and build protein. Roughage Buster 100 was designed by MoorMan Research for consumption of about ¼ lb. per cow daily. This supplies her needs even with low-protein, low-quality pasture or roughage. And it encourages wide, uniform grazing. I'll be glad to tell you more about it. Your MoorMan Man,

on, was approved, as way payment of \$899 to Ethridge-Spring Agency for liability on all city vehicles.

The council voted to send City Manager A.L. (Jake) Outland to the fall meeting of the Texas Municipal League in Fort Worth on October 26-27. Outland is a director to the TML representing the Panhandle region.

The National Council on Alcoholism, 2 Park Avenue, New York, N.Y. 10016, reveals that 6,500,000 Americans are now victims of this tragic condition. Contribute generously to the council which is conducting a nation-wide fight on alcoholism.

**PEANUT BUTTER FOR BREAKFAST**

Put the jar of peanut butter on the table at breakfast time and chances are the kids will spread it on their toast. It's as smart a way as you'll find to see that your children get the protein they need for growth, and for tissue repair and maintenance. Or for a special surprise, make these easy-do peanut butter pancakes.

**Peanut Butter Pancakes**

1/2 cup Skippy creamy peanut butter  
1/2 cup light corn syrup  
1 cup pancake mix

Mix together peanut butter and corn syrup. Prepare pancakes as directed on package for 1 cup mix, adding peanut butter mixture with the shortening. Makes 8 to 10 (4-inch) pancakes.

**THE THIGH BONE IS THE LONGEST BONE IN THE HUMAN BODY.**

**STATEMENT OF OWNERSHIP, MANAGEMENT AND CIRCULATION**

## CONTEST RULES

1. Pick the winner of the 14 games listed in the advertisements on this page. Write the winners in the blanks provided on the official contest blank.
2. Pick the score of the tie-breaker game. This score will be used to break weekly as well as grand prize winners.
3. Bring your entry blank by the Friona Star or Bi-Wize Drug by 5 p.m. on Friday. Entries must be post-marked on Friday to be eligible, if mailed.
4. The leading contestant at the close of 12 weeks will receive two free tickets to the Cotton Bowl Football game, along with \$30 expense money. Second place winner will receive two tickets to the Sun bowl game and \$25 expense money. Third place winner gets two season tickets to the Friona Chiefs games next fall.
5. Only one entry per person.
6. To account for grand prizes, entries must be on official blank printed in the paper.
7. Contestants must be 12 years of age or older.
8. Everyone eligible to enter (sponsors included) except employees of the Friona Star and their families.

GOVERNOR Preston Smith presents Mrs. C. L. Mansfield, Fort Worth, Vice President for Church Activities, Texas Safety Association, with an official proclamation setting Oct. 11, 1970, as Safety Sunday in Texas.

Noting the continuing cost of accidents on highways, in homes, and at work, Gov. Smith urged in the proclamation that Texans of all faiths enlist in the fight for greater safety. Hundreds of clergymen in Texas will mark Safety Sunday with special observances designed to call attention to the fact that safety is a matter of moral responsibility.

In his proclamation, Gov. Smith said, "Accidents in Texas continue to be our major social problem. I urge all citizens to Drive Friendly, obey traffic laws, and to be thoughtful of their responsibilities to protect the sanctity of human life in our State."

**Frionan Is TSTI Student**

Jimmy D. Broyles has enrolled at the James Connally Campus of the Texas State Technical Institute in Waco, Texas.

His major course of study is welding technology. He is the son of Mr. and Mrs. Ralph Broyles of Friona, Texas. TSTI opened its fifth year

this fall with a total of 57 different courses of study. It is the state's first technical institute.

The multi-campus technical institute also includes the Mid-Continent Campus at Amarillo, the Rio Grande Campus at Harlingen, and the Sweetwater facility at Sweetwater.

(National Cotton Council Photo)

## October Is Designated As Cooperative Month

The October observance for cooperatives is being designated as a time for cooperatives to gather strength for the 70's, strength directed toward helping members build a better life for themselves, their community, and the Nation.

The majority of the States will again this year have State-wide committees of all types of cooperatives to plan activities for the month, called Cooperative Commitment Month for 1970.

On a national basis, representatives of the national cooperative organizations are working with Federal government officials on plans for activities.

These national groups are preparing background and support materials for State and local groups to use--all geared to the theme, "A Better Life in the Seventies--The Pledge of America's Cooperatives."

Kenneth D. Naden, Executive Vice President, National Council of Farmer Cooperatives, is heading up rural cooperatives activities; Stanley Dreyer, President, Cooperative League of the USA, those for urban cooperatives.

They suggest that while members and employees are seeking to help correct some of the problems facing the communi-

ties and the Nation, they can also be building stronger cooperatives.

Cooperatives and their members will be making pledges to move into action on various fronts.

Among these are: Improving the environment by curbing pollution and other hazards. . . . Adding to income of members in order that they personally can have a better life. . . . finding new services and improving existing ones that will upgrade the quality of life for members. . . . Increasing participation in community affairs in order to improve educational and cultural aspects of life. . . . Encouraging young farmers to begin to take leadership. . . . Helping bring industry into rural areas in order to provide jobs and add to income.

Mr. Naden explains why a clear call to action is needed this October. "There is overwhelming evidence that our Nation is in trouble. Rural areas especially are facing problems. Yet cities too face a serious crisis. Irony of it is that one relates very directly to the other. Migration from the country leads to overcrowded cities. Pollution on the farm threatens food and water supplies of the city. Pollution from the cities threatens crops and livestock on the farm.

## A CLEAN CLOSE

The time has come to put summer clothes away until next spring. Be sure everything is clean and dry. Soil and spots may oxidize and damage the fabric. Take out the hems you know will have to come down next year, giving the hemline an extra scrub before the final wash. Forget the starch-silverfish feed on it; and forget the ironing--you'll only have it to do all over again come spring.

## Frionans To Attend State Conservation Convention

Mr. and Mrs. A.L. Black, Mr. and Mrs. Dick Rocky, and Herb Evans will represent the Parmer County Soil and Water Conservation District at the 30th Annual State-Wide Meeting of Texas Soil and Water Conservation District Directors to be held in Houston, October 6-8, 1970 at the Astroworld Hotel.

Black, who has served three years as president of the state association, will preside for the last time at the meeting.

There are 940 Directors in Texas representing 188 Soil and Water Conservation Districts. Each district is a local government agency of the State governed by a five-man board of elected directors.

People scheduled to be on the program include Senator Tom Creighton of Mineral Wells, John Wilder, President, National Association of Conservation Districts, Somerville, Tennessee, Mrs. Irma Hooks,

A. L. BLACK.

Director, Harris Soil and Water Conservation District, and Dan Petty, Director, Division of Planning Coordination, Office of the Governor.

The theme for the meeting is "The Modern District."

## Voters Okay Soybean Research Referendum

The soybean referendum which was voted on last Saturday, September 26, has been approved, according to preliminary results, announces County Agricultural Agent Mack Heald.

The results showed that 86 percent of the producers that voted across the state favored the one-half cent per bushel self-assessment for research, education market development, and disease and insect control.

According to Heald, nine producers were also elected to a board charged with the administration of the new program.

Elected were Raymond L. Tidwell, DeKalb, Bowie Co.; W. A. Mabry and Loyd Goldston, both of Petersburg, Hale Co.; Wesley A. Schumaker, Plainview, Hale Co.; E.O. Feagley, Littlefield, Lamb Co.; Clarence R. Mason, Muleshoe, Bailey Co.; Carl Pate, Kress, Swisher Co.; Royal D. Burnside, Jr., Baytown, Harris Co.; and R.G. Dunlap, Floydada, Floyd Co.

A joint meeting of the officers of the Texas Soybean Association and the newly elected board members was held on Monday, October 5, at 10 a. m. in Lubbock in the Reddy Room of the Southwestern Pub-

lic Service Co. Plans and procedures were developed for instituting the collection of funds, and program administration will be formulated.

Soybean producers who do not wish to be a part of this "self-help" program through the check-off may ask for a refund on paid-in assessments. A written request must be made within 60 days from the date of the check-off payment on a form provided by the Producers Commodity Board. The assessments will be made at the point of the first sale.

The check-off program may be terminated at any time by a simple majority vote of qualified producers, adds the agent.

Heald points out that the soybean producers not join the producers of peanuts, grain sorghum and turkeys in adopting a self-assessment program for research and promotion of their commodities under authority granted by the 61st Texas Legislature in House Bill 764.

Official results of the referendum will be announced through the office of Texas Commissioner of Agriculture John C. White.

## Soil Conservation Dist. Directors Hold Meeting

The Parmer County Soil and Water Conservation district held its regular meeting at the

Parmer House Restaurant Wednesday, September 23.

A.L. Black, district director gave a program on the services available to local units of government through the local soil and water conservation district. Some of the services are: soils, information for city planning and highway planning; help in planning flood prevention through flood prevention projects; help cities plan waste disposal through sanitary land fills; help plan irrigation systems to use water disposed from sewerage plants; and pollution control by planning feed lot waste disposal.

Following this part of the program there was a discussion of the needs of each unit of government and what was being done to solve some of the problems.

The meeting ended with a startling fact evident to all, that there is over \$100,000.00 spent annually in Parmer County to remove silt from our road ways; tailwater being the villain that deposited the silt.

Those attending were: A.W. Dalrymple, State soil and Water Conservation Board; Kenneth P. Seales and Albert W. Sechrist, High Plains Water Conservation District; R. L. Fleming and Arley Outland. Also, Archie Tarter, Guy Cox, Tom Lewellen, Charlie Jefferson, Mack Heald and Leon Grissom. Also, Alton Morris, Dick Rocky, A.L. Black, James Moody, and Rhea Bradley, Texas Highway Department; and Herb Evans, District Conservationist, Soil Conservation Service.

It is difficult to be content with little, and impossible with much.

## October 4-10 Named National 4-H Week

National 4-H Week will be observed throughout the nation during October 4-10, as a tribute to the strength and success of the 4-H program. During this time the highlights of the previous year are reviewed and plans are made for the coming year.

The overall 4-H program today is varied and more complex than it was ten years ago. It is designed for urban as well as rural youth in an attempt to reach as many of the nation's youth as possible.

Even though the 4-H program is primarily rural in Parmer County, several youngsters participate in various projects such as photography, entomology, wildlife and leadership. The 4-H enrollment in Parmer County is approximately 130 members. Most of the boys carry projects in field crops, beef cattle, sheep and swine. The girls participate in these same projects as well as clothing, foods and home improvement.

One of the main programs in Texas is training youngsters to participate in method demonstration contests. A method demonstration is composed of a single member or a team of two. In the safety contest for instance, the youngsters demonstrate unsafe practices around the home or farm. This improves a youngster's speech and allows him to speak before the public. There are many divisions that boys and girls can participate in. This year Darwin Green won the single Farm and Ranch Management demonstration at State 4-H Roundup in June. He had previously won the district contest in Canyon, thereby qualifying him for state. Other 4-H'ers competing in the state contest were Kevin and Steve Kaltwasser in Beef Cattle Business and Deborah Harding in Food and Nu-

trition Educational Activity.

The fastest growing program in Texas is the 4-H horse program. Started in 1963, it has grown to several thousand members in less than ten years. Out of these members about 300 youngsters qualify and compete at the state show each year. They show at halter and compete in western pleasure, reining, pole bending and barrel racing. Laura Doshier qualified for the state show this year by winning the pole bending contest at the district show, as well as placing in the barrel racing division.

Parmer County 4-H'ers will exhibit their livestock at several major stock shows this coming year. The starting show will be Odessa followed by Amarillo, El Paso, Parmer County and Houston. Parmer County youngsters will feed approximately thirty steers, thirty lambs and forty barrows for the coming spring shows.

After the spring stock shows and the demonstration contests will come county 4-H camp and the other summer activities, which will make the coming year a busy one for the 4-H youngsters in Parmer County.

### YOU VS. VIRUS: HOW TO WIN!

The tiny germs called viruses are regarded by medical men as the most common cold-causing culprits. Not to be sneezed at, here are several suggestions on how to avoid viruses and thereby come to grips with the cold facts.

Keep in top physical condition. Get three well-balanced meals a day, exercise to unwind tense muscles, and get eight hours or more of sleep. Don't omit regular medical check-ups that pinpoint small health problems before they become big ones.

Avoid getting wet or chilled. Wearing raincoat and overshoes when the weather looks threatening—and having a spare set of these snuffle-preventers at the office in case the weather changes—will help.

Steer clear of carriers. Give crowds in general and cold sufferers in particular a wide berth, bearing in mind that one sneeze can blast 20,000 virus-laden droplets up to 12 feet at a speed of 150 feet per second—and that some of these droplets will still be lingering in the air after half an hour.

Be careful of contaminated objects. Anything that a cold sufferer has used—dishes, tableware, chairs—can be virus laden.

For drinking glasses, dishes and laundry, use a detergent with a high phosphate content. High-phosphate detergents help to insure the most complete removal of soils and stains which hold onto and foster growth of viruses that deposit on clothing and dinnerware hourly from the air.

## Announcement Made By Local Draft Board

Local Draft Board No. 18 Executive Secretary Cleo O. Allshie announced today that random selection number 141 is the highest lottery number reached in 1970.

However, the board spokesman said, it may be necessary to go to a higher random selection number than the previous high number in order to satisfy the remaining 1970 draft calls.

Executive Secretary Cleo O. Allshie said that in compliance with the White House Executive Order announced recently, all registrants of Local Board No. 18 who hold the highest reached number or numbers below the highest reached number and who

have not been issued orders for induction due to any circumstance, will be considered for carryover into the extended-priority selection group if they are classified 1-A as of December 31, 1970. Such young men will have their liability for induction extended for the first three months of 1971.

The local board spokesman said that the Executive Order states that registrants who held numbers above the highest reached number of Board No. 18 and are classified 1-A on December 31, will be placed in a lower draft priority group on January 1.

JUNIOR CLEERLEADERS. . . The cheerleaders for the seventh and eighth grade are shown above. Standing in back are Lisa Cummings and Cheryl McPherson. Kneeling are Stacy Wheeler and Kena Moore. In the center is Connie Lindeman, head cheerleader. In front are Sherrie Thorn and Margie McPherson of the seventh grade.

## Mrs. Boatman Returns Home

Mrs. Bessie Boatman returned home Monday after spending about ten days visiting in Oklahoma City. She visited in the homes of Mr. and Mrs. B. E. Todd and Mr. and Mrs. Clifford Boatman.

The Clifford Boatmans came to Friona and Mrs. Boatman returned home with them. The B. E. Todds brought her home. The Clifford Boatmans and Todds also visited in the homes of Mr. and Mrs. Gilbert Boatman, Mrs. Lillian McLellan and other Friona relatives.

Spain did not acknowledge the independence of the United States until 1873.

## Form Change Announced

When the mailman brings you your income tax Form 1040 early next January, it won't really help any to holler "Why does Internal Revenue keep changing the thing?" The answer on why is actually a simple one. You, the taxpayers, want Congress to change the law to make it more equitable and possibly to ease your personal tax burden just a little. The good tax folks have to change the form so it will comply with the law. They also try to change the form to cut down taxpayer misunderstanding of instructions on some particular item on the tax form. It is pretty obvious that Internal Revenue can't make a simple Form 1040 because the law is just too complex.

Instead of complaining, start trying to understand those fine new tax instructions. Reading the instructions always makes the Form 1040 look a whole lot simpler.

## EARLY DETECTION HELPS CURE CANCER

Breast cancer is so common—over 60,000 American women contract it every year—that physicians agree every woman should examine her breasts every month for signs of it. At least 85% of all breast cancers are curable if caught early enough, but over half are now fatal because of needless delay.

The intelligent woman who examines her breasts monthly, and in a systematic manner, stands an excellent chance of detecting cancer early—before it can endanger her life. The case of Mrs. A. T. of Chicago, Ill., is fairly typical. Having carefully read the American Cancer Society's booklet on breast self-examination (available free from all local ACS offices), she knew that the odds were pretty good that the lump that she detected in her breast one morning wasn't cancerous. She also knew that only her doctor could tell her for sure.

Mrs. T. was unlucky—but not too unlucky. The lump was cancerous, but it was still very small and had not spread very far. A mastectomy was required, but Mrs. T. is alive and well today—years later—and still caring for her family. Her sensible precautions may well have saved her life.

Mastectomy is not only a medical problem, however. It is a traumatic emotional experience for the woman partly because she knows that the fit of her clothes may well be affected, and she dreads the thought of making others feel awkward or self-conscious in her presence.

Back in the 1920's, a hospital x-ray technician named Ella Bernhardt became aware that the woman who underwent breast surgery frequently suffered from a depression which

seemed to have more to do with worry about personal appearance than about health. This worry was quite justified, since very little attention had been paid to the problem by science or industry up to this time. Deeply concerned over this neglected need, Ella Bernhardt taught herself the difficult arts of industrial design, developed a fluid breast form so natural she named it Identical Form and founded a company with the same name to manufacture it.

Since then Identical Forms have insured peace of mind for over a million women. Identical Forms duplicate the weight and constantly changing contours and positions of the natural breast. Identical Forms are filled with a slow-moving, creamy fluid and covered by a double wall of soft, skinlike plastic. It is almost impossible to overestimate the part that a carefully fitted, carefully designed breast form can play in the emotional recovery of mastectomy patients.

Remember, breast cancer is usually curable if caught early. If you are not sure how to go about examining yourself, ask your local Cancer Society office or your family physician. See him once every six months in any case, for a general all-around check-up. Make full use of your best weapon against cancer—early detection.

NEW FENCE. . . A new chain-link fence has been installed at the Friona Cemetery, along with a cattle guard at the main entrance, as a further protection of gravesites. Besides providing the extra protection, the new fence adds to the looks of the cemetery.

FALL-SUITED—Ribless cotton corduroy in a soft shade of chamois is the choice for a stylish pant suit. The side-buttoned midi coat features a high inset waist band and squared off collar. By Patty Woodard of California.

### World of Tomorrow

Hovercraft (left) that spray crops, pull down warm air to warm the soil for early seed germination and longer growing seasons, and work the soil with vibrating tillage members will appear on many farms by the year 2000, Ford Motor Company farm machinery experts predict. Ford sees the hovercraft evolving from special high-clearance tractors (right) currently used for cultivating, spraying, topping or defoliating tall, mature crops and from light airplanes used for crop dusting.

## Neelley Is Analyst For Houston's Credit Bank

Robert L. Neelley has joined the Federal Intermediate Credit Bank of Houston as credit analyst. Neelley comes from the Plainview Production Credit Association, the Association which posted the second largest loan volume nationwide in 1969.

The graduate of Texas Technological University began his career as a loan representative with the Plainview Association in 1964. He moved to Friona in 1965 as field office manager. In 1969 the Friona office under Neelley's direction had a peak outstanding volume of \$13 million loaned to Parmer County farmers and ranchers.

In his new position, Neelley will evaluate large loans submitted to the Bank from the Associations and Agricultural Credit Companies, conduct credit examinations, and perform other credit functions for the Bank.

He is a member of the Texas Tech Ex-Students Association, Methodist Church and while in

Robert Neelley

Friona was a member of the City Commission, Chamber of Commerce and Lions Club.

The Perryton High School graduate is the son of Mr. and Mrs. Bert Neelley, Lubbock. He and his wife, the former Connie LaMaster of Perryton, have two children, Ben, 4, and Leigh Ann, 1.

PUNT, PASS AND KICK WINNERS. . . The first-place winners in the local Punt, Pass & Kick contest are shown above. From left to right are (front) Jerry Harrelson, Robin Roberts, Jeff Whitesides and Clifford McLellan. Standing are Keith Martin and Gene Strickland with Troy Young of Friona Motors, the sponsor of the annual contest.

## Punt, Pass, Kick Lists Local Trophy Winners

Winners in Friona's annual Punt, Pass and Kick Contest, sponsored by Friona Motors, were announced this week. The contest was held last Saturday at Chieftain Field.

Some 116 contestants took part in the contest this year, which was a new high. Trophies were awarded to the top three placers in six age groups, eight through 13 years.

The first place winners will compete in the P, P & K zone competition Saturday at Hobbs, N.M.

The elimination continues until national champions are named for each age group.

Winners, for each group, are as follows: The contestants' accumulated points are also shown:

Eight years old--1. Jerry Harrelson, 157; 2. Kirk Frye, 121; 3. Jimmy Evans.

Nine year olds--1. Robin Roberts, 177-1/2; 2. Rowdy Chandler, 158-1/2; 3. Darcy

Renner, 142.

Ten year olds--1. Jeff Whitesides, 194; 2. Steve Owens, 148-1/2; 3. John Carson, 146-1/2.

Eleven year olds--1. Clifford McLellan, 196; 2. Mark Neill, 194; 3. Edward Castillo, 173.

Twelve year olds--1. Keith Martin, 248-1/2; 2. David Barnett, 239-1/2; 3. Sammie Felder, 235.

Thirteen year olds--1. Gene Strickland, 310; 2. Dale Cleveland, 281; 3. Davy Carthel, 238-1/2.

## Election To Name Director

Election of a district director for the Parmer County Soil and Water Conservation District is to be held Monday, October 12.

The election will be in zone two which is generally the North Friona and Black school districts.

The election will be held from 8:30 a.m. to 5 p.m. at the Black Grain Company office, Black.

Dick Rocky is the director presently serving this zone.

All landowners 21 years old or older are eligible to vote.

LOGJAM. . . Waiting lines became long at Friona elevators during the past week, as farmers got into the maize harvest in full swing. This photo is a good example, showing just a sample of the lines at a local elevator.

IN THE BIBLE THE WORD "CORN" MEANS "WHEAT".

THE PRINCIPAL FOOD OF HALF THE PEOPLE OF THE WORLD IS RICE!

A WATERSPOUT IS A TORNADO AT SEA -- USUALLY IN THE TROPICS.

"Hi, Mom. I was near a phone so I thought I'd call to say hello."

You really don't need a reason to call home. Not when it costs so little. It's especially inexpensive if you can wait for the after-hours rates\* After 5 P.M. weekdays and all day Saturday and Sunday.

Your family will appreciate the money you're saving even when you call collect.

CHIEFS DROP DIST. OPENER

# Stockdale Gives FHS A Lesson In Passing

It was too much Steve Stockdale in the 1970 district opener for the Friona Chiefs last Friday at Olton. Stockdale, the junior passing whiz for the Mustangs, hadn't really tested his arm until the district opener, but in that game, it had to rate an A-plus. He sparked Olton to a 35-7 win.

Although Friona pretty well

shut out the Mustangs on the ground, limiting them to 99 yards rushing, Stockdale completed 13 of 26 passes, for a total of 237 yards in the air, including three touchdowns. In addition, Olton had a kickoff return for a TD.

Friona, meanwhile had trouble cranking up its offense for the second straight week, managing 151 yards rushing but only

37 passing, as receivers dropped passes throughout the game. The Chieftain fans had an inkling of what was in store on the opening series of downs. Olton took the kickoff out to its 28, and on second down Stockdale hit Alonzo Springer on a 45-yard play to the Friona 18.

Two plays later, a Stockdale to Luis Rey pass got the Mustangs on the scoreboard after only 93 seconds of play. Stockdale's kick made it 7-0. It was the second straight game for an opponent to score within two minutes of the opening kickoff.

Making matters worse, the next time Olton got the ball, they drove for another score. From their own 36, it took the Mustangs just seven plays to cover the distance, with Stockdale hitting Mike Parsons on 27 and 21-yard strikes on the last two plays of the drive. It was 14-0 with 4:42 left in the quarter.

Friona got a break early in the second quarter, when Mike Royal's punt bounced into an Olton safety man and Friona recovered. On the next play, a pass interference call gave the Chiefs a first down at the Olton 16.

Royal made a first down to the five, and then on second down, Mike carried the pigskin across standing up. Bobby Drake's kick made it 14-7 with 9:27 left in the half, and

Friona fans felt better.

But the Chieftains' prosperity was short lived. On the kickoff, Keith Workman charged 80 yards up the sideline, and regained Olton's 14-point lead at 21-7.

That was all the first half scoring, although the Mustangs had a 60-yard interception return called back for a penalty. A 36-yard field goal try by Stockdale barely missed, and at halftime it was still 21-7.

Friona held the Mustangs on their first two tries in the second half, but Wesley Clark fumbled an Olton punt at his own 32, and the home team took advantage.

Held to 19 yards on his first eight carries, the high-scoring Workman broke for a 32-yard touchdown run, shaking off tacklers along the way. This made it 28-7 with 2:50 remaining in the third quarter.

The Chiefs kept plugging, as Bill Bailey and Royal sparked the team to two first downs. But a busted play caused a fumble and Olton recovered.

Both teams were in a fumbling mood. In fact, the next time Friona had the ball, the Chiefs had 20 yards in penalties, 15 yards in losses on pass attempts, and then a lost fumble in five plays. The fumble

came when it was third down and 35 yards to go—proving to fans that it really could be worse.

The Mustangs weren't satisfied, and Stockdale passed the team 35 yards in eight plays, the caper being a nine-yarder to Springer for the TD, making it 35-7 with 4:40 left in the game.

Give the Chieftains "A" in "Character." Don Fortenberry playing despite a week of personal tragedy in his family, passed to Clark for a first down, and then became a receiver on a halfback pass from Wesley, and the Chiefs had a drive going on the Olton 30.

Johnny Bandy raced to the Olton 13 and pitched the ball to Clark who went on into the end zone, but it was called a forward lateral and called back. After the penalty shoved the team back to the 22, the drive died at the Olton 16, and that was the game.

Olton kept its "Indian sign" over the Chieftains, winning its sixth game in the past nine years, and now leads the all-time series, 9-3.

Bailey, with 50 yards, became the third different backfield man to be a leading rusher in the team's four games.

BAILEY GAINS. . . Bill Bailey, halfback for the Friona Chieftains, was the team's leading ground-gainer last week against Olton. The junior speedster is shown making one of his gains in the game.

SECOND LOSS

## Freshmen Edged By Morton, 19-12 Score

Friona's Freshman Chieftains lost their second game of the season, a hard-fought 19-12 decision at Morton last Thursday. The loss left the team with a 2-2 record for the season. Morton scored with only 30 seconds left in the game to break a 12-12 tie and take the win. It was a close game all the way.

All the other scoring came in the second quarter. Morton took a 6-0 lead on a 52-yard drive. Then Danny Waggoner ran 37 yards to the Morton 12. Three plays later Leonard Wassom crashed over from the three to tie the score at 6-6 with 6:42 left in the half.

The Indians jumped right back in the lead on their third play, when a double reverse worked for 75 yards and a touchdown. It was 12-6 at 5:20.

But the Frosh Chiefs had some offense of their own. Weldon Peace passed to Waggoner on a play that covered

42 yards down to the Morton 10, and Friona was threatening again. Peace went across from the five on a keeper play to tie the game at 12-12. This was the score until 30 seconds remained in the game.

In the third quarter, Morton drove to the Friona 11, but the freshmen rose up to hold the Indians on downs, taking over at their 12. In the final period Morton was driving at the Friona 23, when Wassom intercepted a pass to end the threat.

But late in the game Morton got a break when the snap from center went over the Friona punter's head, and the Indians got the ball at the Friona 15. It took Morton seven plays, but they finally punched across the winning TD from the one-yard stripe, and kicked the point for insurance.

Friona never could get a sustained drive going in the second half, as penalties hampered them at times.

THIRD WIN

## B-Team Edges Morton In 2-0 Defensive Gem

Friona's B-Team which has yet to be scored on this season, won their third game of the 1970 season last Thursday at Morton, by the unusual score of 2-0.

Only points in the defensive game came in the third period on a safety, and the B-Chiefs made it stand up for the win. Friona threatened to score at least twice in the game, but never could punch across a touchdown.

Morton never was across midfield in the game, and made only two first downs against the hard-hitting B-teamers.

The B-Chiefs drove to the Morton nine-yard line early in the game for a first and goal. However, a 15-yard penalty shoved the team back to the 24, and a play later, they fumbled the football and Morton recovered.

Contest Results

(Editor's Note: Following are the scores of games included on last week's contest slide.)

Lockney 28, Littlefield 13  
Abernathy 35, Morton 16  
Muleshoe 34, Boys Ranch 27  
Dunbar 17, Hereford 14  
Borger 24, Dumas 22  
Bovina 21, Happy 0  
Rice 28, California 0  
Springlake 21, Sudan 7  
Texas Tech 63, Santa Barbara 21  
WTSU 42, E. Carolina 30  
L.S.U. 31, Baylor 10  
Mississippi 48, Alabama 23  
Missouri 40, Okla. St. 20  
St. Louis 20, Dallas 7

Mike Martin recovered a Morton fumble at the 20 late in the first quarter, but the team couldn't move. Late in the second quarter after another fumble, James Bartlett ran 30 yards to the Indians' 10-yard line. However, the half ended in a scoreless tie moments later, with Friona on the 15-yard line.

Friona kept Morton in its own end of the field during the third stanza, and finally got a break that put the B-Chiefs on the scoreboard. Facing a punting situation from their 20, the Indian punter saw the snap from center go over his head and out of the end zone. That made it Friona 2, Morton 0, with two minutes to play in the quarter.

The B-Chiefs had one other scoring threat, again following a turnover in Indian territory. Friona worked the ball to the 18, but the game ended with Friona owning the scoreboard, which sounded more like a baseball score--but a win, nevertheless.

Coach Larry Dyess praised middle linebacker Mike Martin, corner back Oberlin DeLeon and James Bartlett, linebacker Donnie Campbell and guard Bobby Moore for outstanding defensive work. The team was playing without starter Mario Perea, who was tabbed for varsity duty. This hurt its offensive punch.

Coach Dyess said he was proud of the spirit exhibited by the boys on the B-team this year.

LONGHORN STALWARTS. . . Lazbuddie coach Pat Casey is shown with his two starting guards, who anchor the Longhorn line. George Wilson, left, and Jimmy Noland, who are returning all-district players, are the leading tacklers on the team after its first three games. Lazbuddie hosts Texico in its Homecoming game Friday night.

THURSDAY, OCTOBER 8, 1970, PAGE 13

7th Graders SEEK 4th WIN

### In 0-0 Tie

The seventh grade Braves fought the Olton seventh graders to a 0-0 tie at Olton last Tuesday.

In a game of inches, Friona missed a scoring chance when a fourth down play fell short of picking up a first down at the Olton five, and the home team had a touchdown called back for a clipping penalty.

Friona had its best opportunity early in the second period. Ronald Land recovered an Olton fumble at their 16. Davy Cartmel, David Barnett and Kent Miller carried the ball, but the first down was narrowly missed and Olton took over.

Late in the half Olton blocked a Brave punt at the 21, and drove to the 11 before the Braves and the clock stopped the threat.

Friona got to the Olton 20 in the third quarter, but that was their only threat of the second half.

Olton had another break late in the game on their second blocked punt at the Friona 24. However, the Braves dug in and took over on the 21 with 55 seconds left in the game.

The seventh graders stand 0-1-1 after the Olton game.

### Lazbuddie H'coming Is Friday Vs Texico

After an open date last week, the Lazbuddie Longhorns have their Homecoming game this Friday against the Texico Wolverines.

Texico is fielding a team for only the second year after a 35-year layoff, but Lazbuddie Coach Pat Casey says the New Mexico eleven has some good players, and are 3-2 after their first five games. Lazbuddie is 3-0.

At halftime, the Homecoming Queen and Football Hero will be named. Candidates for queen are Delayne Steinbock, Lee Ann Harlan, Barbara Woodard and Debbie Engelking.

Football Hero candidates are Charles Lee, Mike Casey, George Wilson and Randy Bush.

Tackle Thomas Kervin, who was tabbed as a starter and looked good in scrimmages, has been out with a leg injury, but may see some action on offense Friday. He hasn't played in a game as yet.

Jimmy Noland is the team's

leading tackler, with 53. George Wilson is next with 34, followed by Mike Casey and Mark Barnes, 29 each.

Quarterback Charles Lee leads in kickoff returns with a nifty 38-yard average. Casey has a 45-yard average on two punt returns, and Loy Dale Clark leads the team in interceptions with two.

Lazbuddie is leading its opponents after three games in first downs, 58-21. The 'Horns are averaging 373 yards rushing to 80 for the opposition, and hold an edge in passing, with a 93-15 average there. The Big Orange even leads in penalties, with 216 yards to 88 for the opponents.

Coach Casey says it should be an interesting game. He expects Lazbuddie to win, but hopes his team isn't looking ahead too much. The following week they face New Home, a team expected to give the 'Horns their most trouble to date.

### Eighth Graders Outrun Olton, 20-6

The eighth grade Braves won their second game in as many tries for the season at Olton last Tuesday, 20-6.

Clay Bandy scored all of Friona's points, as the Braves survived a bad case of fumbitis. David Clark recovered an Olton fumble to set up the first score, Eddie Waggoner gave the team first and goal at the five, and from here Bandy went in to score for a 6-0 Friona lead.

Olton made hay after jumping on a Friona fumble at the 45. Seven plays found the Colts on

the scoreboard, tying the count at 6-6.

The Braves received the second half kickoff and drove for a touchdown. Waggoner returned the kick to Friona's 44. Dale Cleveland, Bandy, Kevin Welch and Waggoner each had gains as the team moved downfield.

Bandy went in to score from the 21, and Friona led, 12-6, with 4:50 left in the third quarter.

Early in the fourth quarter, Olton took to the air, but Cl-

leveland deflected the pass and Bandy intercepted. He went down the sideline, 50 yards for the TD, and then swept left end for two points and a 20-6 Friona lead, and that turned out to be the final score.

A 22-yard Cleveland to Waggoner pass late in the game put the team in scoring territory, but Olton took over on downs at their 30.

**Young Farmers, Homemakers Fall Coats Play The Fake Skin Game Toys For Tots Deadline Nears**

**Hear Bill Sarpalius Speak**

Nearly 400 members of the Young Farmers and Young Homemakers' organization and their guests attended the annual Area 1 Banquet Saturday night. The banquet, sponsored by Deaf Smith County Electric Cooperative and other area REC's, was held at the High School Cafeteria in Hereford.

Bill Sarpalius, guest speaker at the banquet, received a standing ovation for his stirring patriotic speech. Sarpalius, a former Boys Rancher and past state president of FAA in Texas, was employed during the summer months by Deaf Smith County REC as a public relationsist. Sarpalius was introduced by Richard Montgomery, Director of Industrial Relations at Deaf Smith County Electric Cooperative.

Jerry Cluck, Castro County farmer, was named Outstanding Young Farmer of Area 1. A new slate of officers was announced by both organizations. For the Young Farmers' Organization: President, Danny Bruton, Dimmitt; Vice-President, Tommy Wages, Abernathy; Secretary, Duane Cookston, Whiteface; Reporter, Wayne Stephens, Silverton. For the Young Homemakers: President, Mrs. Charles Wetherford, Hereford; first vice-president, Mrs. Wayne Stephens, Silverton; 2nd vice-president, Mrs. R. Hunt, Muleshoe; Secretary-treasurer, Mrs. Pete Laney, Halecenter; Parliamentarian, Mrs. Wayland Fields, Plainview; Representative on State Board from Area 1, Mrs. Jim Roberts, Dimmitt.

Conservationists take note: coats take a hide-bound attitude for fall, 1970, but they go to great lengths to conserve wild life by playing a skin-game that's purely fake. Wining skins in the fashion game are cottons that look like lizard, snake, crocodile, ocelot, leopard, tiger, calf, buck, and pony—you name it and you can find its equivalent in cotton. The fake skins turn up in vinyl-coated cotton prints that are richly grained in reptile patterns or in soft cotton suedes, ribless corduroys, and velveteens with authentic-looking pelt markings. Style-wise, the standard topper for fall is the reed-slim midi coat that offers practical protection against the cold. Most are belted for a long, slim look... some take over-vests for added interest. It's a season when fashion offers options and hemlines, of course, are among the most obvious choices. Besides the midi, coats show up in lengths that hover around the knee... a few inches above or below. Even minis are still in evidence for those who prefer to take the shorter view of fashion. Other options include single vs. double-breasted stylings, and capes or ponchos instead of coats.

**THE SKIN GAME**—Coats take a hide-bound attitude for fall, as evidenced in this midi that looks like real snakeskin. Made from reptile-printed cotton covered with vinyl, the coat is water-proof and can be dry-cleaned. A wide black belt accents the Smart Maid of California design.

**THE SHORTER VIEW**—Cotton suede with shadings that make it look like authentic animal hide is the choice for a casual mini-length coat in 1970's soft, unconstructed look. In chamois, antelope, or brown, it comes with a matching hat and bag. Styled by Winett of California.

**Brownie Troop Has Seven New Members**

Brownie Troop #266 met Thursday Sept. 24 at the Girl Scout House for their first meeting of the year. Flag Bearers were Janice Coffey, Kimber Britting and Sylvia Bermea. Pledge of Allegiance was led by Becky McLellan. Brownie Promise was led by Rene Brock. Brownie Smile Song was led by Deena Mason. The girls were divided into new groups today. New committee mothers announced were Mrs. Evelyn Fuiks, Mrs. Margaret Duggins, Mrs. Francis Merritt and Mrs. LaQuita Dodson. Two new troop leaders are Mrs. Winette Parr and Mrs. Karen Britting. Refreshments of cookies and punch were served to 31 troop members, 7 new members, Debbie Wilson, Maria Villanueva, Patrice Sanders, Tina Milligan, Tera Simpson, Kim Johnson and Paula Jo Williams and mothers Mrs. Andy Williams, Mrs. Harley Merritt, Mrs. Jim Sanders, Mrs. C.D. Dodson, Mrs. L.A. Milligan, Mrs. Harrell Mays, Mrs. Jimmy Norwood, Mrs. Lewis Gore, Mrs. Bob Johnson, Mrs. Ross Miller and Mrs. Paul Williams.

**Miscellaneous Shower**

**Honors Recent Bride**

Mrs. Charles Carter, the former Karen O'Brian, was honored with a miscellaneous shower in the home of Mrs. Herschel Johnson, 208 West 14th Street, from 3 to 5 p.m. Saturday. Special guests were Mrs. Russel O'Brian, mother of the bride, and Mrs. Zora Patterson, Big Spring, who is her mother-in-law. The serving table was covered with a pink linen cloth and centered with an arrangement of pink roses and greenery in a footed vase, which was later presented to the honoree. Coffee, punch, nuts and mints were served with squares of white cake topped with pink rosebuds. Hostesses with Mrs. Johnson were Mesdames George A. Jones, Otho Whitefield, Raymond Milner, A.S. Grubbs, Glenn Floyd, Doyle Cummings, Earl Hawkins, Kenneth McLellan and Charles Richerd. Out-of-town guests signing the register were Mrs. A.H. Hyden, Big Spring; Mrs. Mark Vinson, Canyon; Mrs. Odie Moore and Mrs. Milton Moore, Dimmitt; Mrs. Richard Conley, Fort Worth; Mrs. Jim Welch,

Pettit, Texas; Mrs. Junior Jones, Dallas and Mrs. Scott Cummings, Levelland.

**FRIONA SCHOOL LUNCH MENU**

- Monday--creole spaghetti, green beans, hot rolls and butter, pickled beets, apple cobbler and milk.
- Tuesday--roast beef and brown gravy, mashed potatoes, cabbage slaw, hot rolls and butter, English peas, peanut butter and honey and milk.
- Wednesday--burritos, chili, and cheese, pinto beans, corn bread and butter, lettuce and tomato salad, cherry-cobbler and milk.
- Thursday--hamburgers, lettuce, tomatoes, pickles, onions and potato chips, chocolate milk and orange juice.
- Friday--baked turkey, dressing, giblet gravy, strawberry short cake, buttered carrots, cranberry sauce, hot rolls and butter and milk.

**Graphoanalyst**

**Will Present Program**

Ray Walker, graphoanalyst from Amarillo, will be a guest at the Thursday afternoon meeting of Friona Young Homemakers in the Friona High School Auditorium. Walker, who is currently serving as dean of the Institute of Scientific Suggestion, 1915 Washington Street, Amarillo, is active in graphotherapy, working closely with young people. He feels that graphoanalysis can be an effective tool in warning young people against narcotics and LSD. He has appeared on panels with psychologists, police officers and doctors in regard to narcotics in this capacity. Mrs. Roy O'Brian, president of the sponsoring organization, cordially invites everyone in the area who is interested to attend the meeting.

Mrs. James McLean and daughter Kathy had visitors from Los Alamitos, California last weekend. They were Mr. and Mrs. L.F. Root who were on their way to visit other relatives in Massachusetts. Mrs. Root is Mrs. McLean's sister.

## Study Club Sponsors

### Measles Clinic Oct. 15

Progressive Study Club and Texas State Department of Health are jointly sponsoring a special "Rub Out Rubella" (German Measles) clinic. This will take place Thursday, October 15th at the grade school auditorium. The local medical society has endorsed this clinic and the Friona school administration have given permission for the vaccine to be given during school hours.

It is hoped that all Friona children, ages one year through fifth grade will take advantage of this immunization which is given free—as Rubella is responsible for thousands of birth defects.

Clinic times are: School children—1 through 4 p.m.; Pre-school children, 2:30 to 3 p.m.; and 3:30 to 4 p.m. Evening clinic from 8-9 p.m.

Parents of school children need not be present as long as they have signed the permission slips. Friona's Future Nurses will take them through the clinic and back to their school rooms. A doctor will be in attendance to answer any questions. The shots which are practically painless, will be given by local nurse volunteers.

What is Rubella? German or 3-day measles is a common childhood illness. It is an entirely different disease than "red measles." The measles immunizations that have been given during the last few years give no protection against Rubella.

Why immunize against Rubella? The danger of Rubella is in the defects it may cause to an unborn child if the mother catches Rubella during early pregnancy. Some of the defects are cataracts, heart disease, deafness, blindness, cerebral palsy and mental retardation. The last major epidemic occurred in 1964 resulting in 30,000 miscarriages or stillbirths, and 20,000 infants born with severe defects. It is estimated that the care and education of these 20,000 defective children, to age 18, will surpass three billion dollars, figured on present day costs.

Who spreads Rubella? School-age children are the most likely to catch and spread the disease. Unprotected, expectant mothers can acquire the disease from them.

Who should not receive the vaccine? Children who have already received it; Children who are sensitive to chicken or duck eggs or feathers or neomycin; Children who are sick with a high fever on the day of immunization; Children who have received a live virus vaccination, smallpox, polio, measles within the past four weeks.

Why immunize children when it is the expectant mothers who need protection? Since it is not known what effects the vaccine might have on an unborn child, it is best not to immunize women who are pregnant or who might become pregnant during the next three months. With enough children being immunized against Rubella, the threat to expectant mothers is greatly reduced.

Is it possible to predict when a Rubella epidemic may strike? Yes, the number of cases peak every six to nine years. With the last major epidemic occurring in 1964 we might expect another epidemic between 1970 and 1973.

How was the vaccine developed? In 1961, the Rubella virus was discovered by two groups of U.S. scientists. The task then was to use this live virus to make a safe and effective vaccine. A vaccine was developed in 1965, thoroughly tested and licensed in 1969.

How effective is the vaccine? Several countries throughout the world have used the vaccine resulting in a 90 percent immunity three weeks after inoculation and the immunized persons were incapable of spreading the disease.

Does the vaccine cause a reaction? Children who have been given live Rubella virus vaccine, have had essentially no complications whatever.

NEAT — Pre-schoolers can learn to dress themselves in clothes that button and zip. The little boy's shirt has geometric printed cotton corduroy zips up the front and has a belt that buttons on either side. The girl's matching A-line skimmer buttons at the shoulders and belt. In both toddler and regular sizes, they're by Ruth Scharf.

### Club Unity Is Meeting Theme

Club unity was the theme of the Thursday evening meeting of New Horizons Junior Study Club at Federated Club House. Words of wisdom and the club collect were presented by Mrs. Hank Wheeler.

Mrs. Wayne Rhodes, club parliamentarian, presented "Robert's Rules." A round table discussion on ways to improve club meetings was directed by Mrs. Jimmy Maynard. Seven members answered roll call.

Stacy and Mika Wheeler, guests, presented "Now That You Mention It."

Mrs. Glen Waters was welcomed as a new member. Refreshments of assorted nut breads and hot spiced punch were served by Mrs. Jerry Wikle, hostess.

### Services Held For Jimmy Ivy

Funeral services for Jimmy Ivy, 63, of Lazbuddie, were conducted Friday afternoon in the Lazbuddie Baptist Church.

Officiating was Rev. Johnny Tims, pastor. Burial was in Bailey County Memorial Park Cemetery at Muleshoe, with Singleton Funeral Home in charge of arrangements.

Ivy was dead on arrival Wednesday afternoon at Castro County Hospital in Dimmitt following a heart attack at his farm at Lazbuddie.

He was a native of Blue Ridge, Texas, and had lived in the Lazbuddie area 50 years after going there from Anna. He was a farmer and a member of the Lazbuddie Baptist Church.

Surviving are his wife, Artis; two sons, Jimmy Ivy of Muleshoe and Ronald Ivy of Lazbuddie; two daughters, Mrs. Ronny Smith of Earth and Mrs. Jack Tompkins of Dallas; two

sisters, Mrs. B.H. Wagon of Muleshoe and Mrs. Bill Garrett of Las Cruces; six brothers, Henry Ivy, Olen Ivy, Leeland Ivy, D.E. Ivy and R.V. Ivy, all of Lazbuddie; Tony Ivy of Vinita, Okla.; and six grandchildren.

### Girl Scouts Have Nature Program

Troop 266 met Thursday at Girl Scout House. Those participating in the flag ceremony were Angie Sims, Gay Deaton, Teresa Cortez, Joanna Merritt, Rene Brock, Shannon Parr, Shirla Duggins, Charity Mays, Detricia Miller, Sylvia Bermea and Kathy Middleton.

The program was a nature study. Hostesses were Linda Ruzicka, Karen Patterson, Teresa Cortez and Rene Brock. They served refreshments to 39 Brownies and five leaders, Mrs. Kenneth McLellan, Mrs. Johnny Miller, Mrs. Lee Britting and Mrs. Ira Bruce Parr.

### HOSPITAL NOTES

**Admissions:**  
Ruben Galvan, Friona; Joel Hight, Friona; Andrew J. Glenn, Farwell; Maria D. Rando, Friona; June M. Wallace, Friona; Camilla J. Goldsmith, Farwell; Ellen Remmsnyder, Bovina; Beulah Jarrell, Friona; Kyle Barnett, Friona; and James L. Taylor, Friona.

**Patients In Hospital:**  
Mrs. Doyle Goldsmith and baby, Beulah Jarrell, Cayson Jones, Teresa Maurer, Odom Smith, and James L. Taylor.

**OES Makes Time Change**  
Friona Chapter No. 990 Order of Eastern Star will meet Monday, October 12 at 7:30 p.m. at Masonic Temple.

**Dismissals:**  
Ruben Galvan, Mrs. Andres Galan, Jr. and baby boy, Idalia Hernandez, Joel Hight, Lillian Wheeler, Andrew J. Glenn, Wanda Costes, June Wallace, Mrs. Santos Rando, Jr. and baby boy, Ira Wellborn, Kyle Barnett, Bessie Caldwell and Jessie Orr.

**Sincerely Yours**

BY REV. ALBERT LINDLEY

The other day a remark was made to me about the many grain trucks that we see all of a sudden and how soon it makes the Fall of the year feel--how the fields make the Fall feel--that's kinda poetic, isn't it? . . . at any rate, it is very close.

One has only to drive down--or up--how ever you do it--5th street and notice the beauty of the leaves and know that Fall is here--of course if you want to be orthodox and unromantic, just look at the calendar. . . The wind is whipping the leaves around and my neighbor and I are already trying to figure out how we can get the leaves of the tree between us to fall the other way. I just know he has more time to pick them up than I do. . .

One thing brings on another--have you ever taken a serious thought about how everything is related? -- how it all ties in? -- of course if things are not like you want them to be you can always alibi yourself out--at least you can think you can. . .

I happened to be in the Doctor's office and I witnessed this event: A man moves an ash tray stand over beside him and lights up a cigarette. A woman--along in years--said to him, "Don't you know that's bad for your health?" To which came the reply, "Yeah, but we do all kinds of things that are bad, don't we?" And she acknowledged it.

Well now--several things took place here --1.) He pulled her into a guilt feeling for what she did that could be considered harmful; 2.) He tried to excuse one thing that he admitted to be harmful by acknowledging that there were many that we all do; 3.) He tried to alibi his way out like many in that position seek to do (that's personal experience from a few years back); 4.) and I think in the final analysis, he really had reached a plateau of thinking which sought to settle his own situation with the attitude of, "Yes, Who cares?", "So what?", "Is that your business?" etc.

Now had you heard that conversation, you might not have picked up all that, but it did seem to indicate to me how we relate things and how we relate them in such a way as to uphold some idea or thought (should I say prejudice?) that we hold.

Again, I'm not using this as a public denunciation of "fags" (now you can tell when I smoked) but I do want to use the conversation I overheard as an example of how we can quickly turn related things around to suit our own--we are actually capable of talking ourselves into believing that what we are doing is really the most important thing, in spite of what heritage, culture, religion or community seek to say in a different way--and of course, the danger then becomes that we are able to determine environment, culture, community beliefs and in some instances, we even seek to change religion.

Now I'm in the business and you might well imagine--that's where my righteous indignation starts moving toward being not so righteous--(I get mad). . . The basis of Christian thought--as well as some other religions--points toward real community--real acceptance (with differences and all)--to the acknowledgement of brotherly love--to the desire to be sensitive to the real needs of others and to move to meet those needs.

Can't you see how related we all are and how important our acceptance of each other is? (When you accept a person, you accept him for what he is, not that you have to accept for yourself, what he is! That is a good point to remember!)

You can even see that I'm guilty of doing what I'm trying to get you to do!

I have tried to relate you to what I am related to, however poor it may be, that of living a related Christian life in daily existence. The key word here, as anywhere, is the word "Christian". . . a related Christian life. . . I want to finish with something like, "Meditate on that for a while," but that sounds too stoic (7). . . rather, let me say it with the modern twist, "Put that in your pipe and smoke it. . ."

...bundle for winter

**CONVERT YOUR HOME TO COMFORT ELECTRIC HEATING NOW...AND WE'LL INSTALL STORM WINDOWS... Free!**

Now is the time to bundle up your home for winter. Now is the time to install whole-house, comfort electric heating because, right now, with every qualifying electric home heating installation, we'll install *free* a complete set of storm windows for the heated portion of your home. All you need do is call Southwestern Public Service Company. Our electric heating specialist will gladly and professionally determine the exact heating requirements for your home.

Modern electric comfort heating is already being enjoyed by over 4 million American families . . . almost 5,000 in our area alone. The reasons are many, but what most people like about clean electric heating is the comfort it gives. An even warmth from floor to ceiling creates a comfort unlike any other heating method. You owe it to yourself and your family to get the facts about electric heating! . . . and now is the time to do it.

Storm windows have proven their value in keeping out cold, wintry winds, holding down inner heat loss and contributing to lower heating costs. The storm windows now offered *free* with qualifying home electric heating installations are 2-track, aluminum windows with screen, and custom made to fit your own windows. Storm windows do an excellent job of combating dust storms, too.

**IS YOUR HOME ELIGIBLE?**  
This offer is available to residential customers of Southwestern Public Service Company, living in existing single-family homes and qualifying for the special residential electric heating rate. Should you already have storm windows or windows of such design or shape that they do not lend themselves to normal installation, do not despair--we have a special, most attractive plan for you, too.

I've added a new and very unusual birth announcement to my collection. Mike and Jeanne (Taylor) Collier have a new baby boy. His paternal grandparents, Mr. and Mrs. Jack Collier of Dallas are associated with a printing firm and the announcements were printed offset.

The name of the paper carrying the announcement was "The Bawl Street Journal." Featured on the front page was an announcement, "Collier & Co. Announces Addition." The story, of course, was written from Dallas, and was worded like a stock acquisition announcement.

Friends of Jay and Phyllis Sanders will probably be interested in learning of their latest venture. Jay has retired from employment with the Soil Conservation Service and he and Phyllis have opened an art shop in their home, which is located at 307 North Arkansas Street in Seymour.

Phyllis is an artist and conducts classes in oils for beginners and advanced students. She has studied with Jeanne McGee of McGee Art Studio in Hereford and with Mary Lee Garrett of Garrett Studios of New Mexico and Julian Robles of New York City and Amarillo. Her works are displayed in Texas, New Mexico, Oklahoma, Louisiana, Mississippi, Kentucky, Iowa, Idaho and Washington. She also has some paintings currently on consignment with King's Galleries in Fort Worth.

Jay's hobby for the past twenty years or so has been restoring old and antique wooden furniture. He and Phyllis have attended framing seminars on custom framing, shadow boxes, matting and restoring old frames and gold leafing frames.

In their shop they will specialize in custom framing and re-building and restoring old or antique wooden frames and furniture.

October will be "rummage month" in Friona. Members of the hospital auxiliary will be holding their annual sales in the Nunn Lumber Company building on North Main.

All proceeds from the sales will be used to re-furnish the reception room at the hospital. If you haven't cleaned out your cabinets, closets and other storage space for some time, now would be a good time to do it.

Thanks to our readers who so graciously expressed appreciation for the letter from "A Concerned Mother on Oak Street."

Bouquets are always appreciated and it seems that very few of us take the time or spend the effort to commend our fellowmen when we appreciate something which has been done.

On the other hand, most of us are quick to express our feelings when we feel someone merits our criticism.

In addition to this weekend being "Homecoming, it will also be "Tasting Tea Time." As usual, members of the local chapters of Future Homemakers of America will be serving delicious food in the high school cafeteria.

This event, which is becoming more and more popular with local people, is also attracting at least one out-of-state resident. A man who lives in Pratt, Kansas, just happened to be here for the Tasting Tea last year, but this year he is coming 'specially for it. Of course, he will also visit local relatives, but he's timing his visit to coincide with the tea.

Serving will begin at 5:00 p.m. and will continue until 7:00 p.m. Mrs. Ernest Osborn and Mrs. Dale Gober, chapter sponsors, and Susan Floyd and Gay Welch, chapter presidents cordially invite everyone to attend.

We're always pleased when someone tells us how effective Star classifieds are. Recently we've successfully sold some carpet for the Jim Shaffers, some dogs for the Jack Pattersons and several other things.

However, we're not doing so well in our "Strayed," department. I'm beginning to wonder about so many cows and calves straying away. Are they wandering off into the corn or haygrazer fields or are they having help in getting "lost."

Some of the fields are so densely populated with tall stalks of corn, or other crops that it would be difficult to sight an elephant if one were to get lost, but any lost cattle should show up when these crops are harvested.

Maybe some of our readers have observed stray animals. If so, please call us. Surely we can help locate their owner.

**DAFFODILS PROCLAIM**

SPRING—next spring, that is. A small clump of these Dutch bulbs, planted now, will give a golden edge to your spring when the new season rolls around. At the edge of your lawn, or any other spot on your home grounds where a splash of color will be welcome, these Dutch bulbs will give big returns for a little effort. They are available now at dealers for planting anytime until hard frosts set in.

Hyalcins are ideal for contemporary gardening, as their well-defined silhouettes permit their use in clumps, in rows, in planter boxes, window boxes, and as accent flowers with other Spring-blossoming bulbs and plants. Their wide variety of color—blue, red, pink, orange, deep purple, yellow, and white—permit many colorful planting patterns and designs.

Hyalcins should be planted in the Fall before the deep winter freeze. The bulbs should be set firmly in well-drained soil, approximately six inches deep and six inches apart.
