

ARREST 2 BOYS IN CONNECTION WITH BICYCLE THEFTS

A complete bicycle shop, fully equipped for wrecking, repairing, repainting and making all the changes necessary for carrying on a profitable business, three bicycles that had not yet undergone the proposed and usual changes, and parts of at least a dozen other wheels were located Wednesday afternoon by Police Officers Belcher and Gonzalez at a residence on Bonner street. Two Mexican boys, 16 and 17, are being held in connection with the find.

The arrest and location of the stolen wheels were made following a call from the Travis school Wednesday afternoon. One of the boys had ridden a new wheel to the school building and the wheel had been identified.

Police officials believe that the two boys under arrest are responsible for many recent thefts of bicycles that have been reported. A list of purchasers from their shop has been secured and it is hoped that a portion of the stolen wheels can be reassembled and returned to their proper owners.

JUDGMENT RENDERED ON A VERIFIED ACCOUNT

The Auto Tire Company of West Texas was granted judgment against H. Pennington by Judge Guy Rogers in the business court Thursday morning upon presentation of a verified account.

The plaintiff brought suit for debt which it alleged was due them for goods sold on open account. The judgment amounted to \$104.77.

Hearty Welcome From Belgium to American Troops

By Associated Press. ANTWERP, Jan. 25.—A hearty welcome from the Belgian nation awaited the homeward bound American troops upon their arrival here this morning to board the transport St. Michel.

M. Devesse, the minister of war, paid a glowing tribute to America's part in the great conflict.

"Thanks to the American boys," he said, "the unjust aggression of which Belgium was the victim, did not remain unpunished. Belgium could not therefore refrain from expressing gratitude at this moment of departure."

"The American troops came to contribute efficiently to re-establish the integrity and independence of Belgium. With them on the battle field our soldiers fought victoriously for the liberty of the world."

"The Belgians will keep in pious memory those American heroes who fell on Belgium's soil."

We wish you a voyage toward your America."

The first of the two special trains carrying the American troops arrived here at 4:30 o'clock this morning. The second train, the cars were switched at once to the dock where the St. Michel was tied up and the men began to board the steamer immediately.

COPPER STILL IS SEIZED BY DEPUTY WATKINS IN FIELD

Deputy Sheriff Frank Watkins discovered and seized a monster copper still in a raid northwest of Durkburn Wednesday night and arrested one man.

The still which is a most complete one and made entirely of copper, was brought to the sheriff's office. The officer stated that there was no one in attendance on the still at the time he seized it, but that the man who was placed under arrest owned the property on which the equipment was found.

It was said that some mash had been inserted in the drum of the still and everything was in readiness to start cooking the mash. After waiting for over an hour and one making his appearance, Deputy Watkins decided that no one would come. For that reason the still was uprooted and taken away.

CHARTER GRANTED FOR REORGANIZED M. K. & T.

AUSTIN, Jan. 25.—Charter was granted today by Secretary of State Staples to the reorganized Missouri, Kansas and Texas lines in Texas.

Approval of the charter was granted late last night by the attorney general's department. The new corporation is capitalized at \$1,400,000. Headquarters of the Texas lines will be at Dallas. The charter was granted under the state law which requires the purchasing company to assume debts of the former company, it was stated.

Incorporators of the new company include: F. E. Randolph and H. W. Bismarck of New York; W. L. Alexander, C. C. Huff, W. M. Whitenton, C. S. Sherwin, W. G. Crush, W. E. Forrest and Thomas L. Peeler. All of Dallas. The first two named purchased the Texas lines at public auction at Dallas recently.

ONLY FOUR CASES COME TO TRIAL CITY COURT THURSDAY

A decided decrease in the number of offenses, at least in the number of cases on the docket, has been noticed in the city court during the past week. Only four cases came to trial in the city court Thursday morning. Three charges of drunkenness and a speeding charge were disposed of.

Two of the three men arrested Wednesday night in a raid made by city officers on a domino hall in the factory territory were fined \$20 and \$25 on pleas of guilty to drunkenness and disturbing the peace.

The third man arrested in the raid is a well-known police character and an escaped prisoner from the city jail. He is being held for further investigation.

Fines of \$10 each were given in a case of drunkenness and one of speeding. Several cases were passed for investigation and witnesses, until Friday morning.

J. H. PATTON ENTERS ALDERMANIC RACE IN APRIL ELECTION

J. H. Patton has authorized The Times to announce his candidacy for park and sanitary commissioner in the April election. In announcing his candidacy Mr. Patton made the following statement:

"I have been urged by a number of good citizens to announce myself a candidate for the office of park and sanitary commissioner of the city of Wichita Falls."

"After due consideration I have decided to make the race and in soliciting your support for this important office I desire to say that I am not the candidate of any class or faction. I have no faults to find with my opponents. They are all honorable gentlemen, and I shall endeavor to make the race on my own merits."

"There are hundreds of good people in this city that I have never had the pleasure of meeting personally, therefore I make a brief statement of who I am and where I came from to the good city of Wichita Falls."

"I am a native of Texas, having moved from Amarillo to this city about 10 years ago, and have been engaged in the real estate business and done some law practice. I was a resident of Amarillo and adjoining county for 24 years. I have held the office of county clerk, county attorney and mayor of the city of Amarillo. I am glad to refer to my record both as a citizen and an official."

"My politics are democratic from birth; my life is an open book; I have never been on the fence on any question; am always glad to tell the world where I stand on all public questions—sink or swim."

"If elected I shall advocate a progressive and economical administration; my motto will be to make Wichita Falls the cleanest city in Texas."

"I shall favor the strict enforcement of all laws. I invite an investigation of my character and ability to fill the office, and I would like to meet every voter before the election, which is absolutely impossible."

"It is your duty as citizens to investigate and vote for the man who is the best qualified to give the best service as a member of the council."

"My time is not so valuable but I will always have time to attend to the duties of the office. I would appreciate your support at the April election."

TO SPEND FROM THIRTY TO FORTY MILLION IN RUSSIAN OIL FIELDS

CHATTANOOGA, TENN., Jan. 25.—Captain J. F. Lucey, head of the Lucey Manufacturing company, announced here today that the estimated amount to be expended under his contract recently made with the American Darnall corporation in the exploitation of the Russian oil fields, has been underestimated and later investigation showed that it would be between \$30,000,000 and \$40,000,000. Victor Allen, a designing engineer of the company, left today for Russia and will be joined by R. K. Fair, already in Europe, at the scene of operations in Russia, to make the preliminary surveys.

"Russian oil fields are the richest in the world," Mr. Lucey said, "and it is estimated that within two years we will be getting 500,000 barrels of oil a day there. They are producing about 60,000 a day now. In the Russian territory production is expected to reach 800,000 barrels per acre, while 50,000 an acre is better than the average in this country. It is not expected that any of this oil will reach the United States as the need for it is too great in Europe, but it will leave America and Mexico oils for domestic consumption."

FATHER SERIOUSLY ILL AT HIS HOME IN BONHAM

Attorney C. C. McDonald returned from Bonham Wednesday night where he was called to the bedside of his father, G. H. McDonald, who has been seriously ill, suffering from an attack of heart failure. Mr. McDonald reports that his father is yet dangerously ill.

Paderewski at 62 Scores Art's Greatest Comeback

IGNACE PA DEREWSKI

Paderewski has come back—at 62—scoring the greatest personal artistic achievement of the century. The world's supreme pianist was 15 when he abandoned his artistic career for the patriotic service of his beloved Poland. But could he regain his former glory? Wilson G. Smith, one of America's foremost critics and composers, answers in the following article.

By WILSON G. SMITH Famous American Music Critic and Composer

Paderewski, erstwhile premier of Poland and present premier pianist of the world, has come again into his kingdom—the kingdom of art where he reigns with regal splendor.

Time was when he sat at the piano and like an improvisator gave forth the music of his dreams, and made, and cast the glamour of his poetry like a spell upon all who heard.

Technic, the mechanical means of expression, was lost sight and hearing of through the repellant and ecstatic glory of his inspiration. He was a painter of moods clothed in colors glowing with iridescence—a changeable and beautiful as the rainbow.

He was not without his inspired and undreamed of inspiration. It is inspiration if you like, for it had a subtle quality that differentiated it from all others.

He molded his tonal phrases with the plastic certainty of utterance with which the deft hands of the sculptor model his clay.

JURY DISCHARGED WHEN IT FAILS TO AGREE ON VERDICT

Judge E. W. Napier of the 18th district court excused the jury in the McAllister and Grayson-Wagoner and Green case Thursday morning when the foreman reported that they were unable to agree upon a verdict.

It was announced that the jury stood five and seven on the first special issue upon which the case was submitted. Only two special issues were in the case and both were similar. The foreman stated that there was no possibility of arriving at a decision.

The plaintiffs sought the collection of \$1,400 which they claim was due them by the defendants for lumber furnished in the erection of derricks. The defendants plead that they had not purchased the lumber, but that it had been purchased by a contractor with whom they held a contract for the erection of the derricks.

MOTION FOR DISMISSAL OF APPEAL SUSTAINED

Judge Guy Rogers of the county court at law sustained a motion to dismiss the appeal in the case of J. B. Bentley against Joe J. Mevra. The case had been appealed by the plaintiff from the justice court to

the county court at law. Judge Rogers, in addition to sustaining the motion, had issued a writ of prohibition to the justice of the peace. The suit grew out of an automobile accident.

Joint Cypher-Comus Dance at Kemp Hotel Wednesday Enjoyable Affair

The joint Cypher-Comus dance given by the Comus and Cypher clubs Wednesday evening at Kemp hotel ball room was one of the most enjoyable affairs of the winter season, and was attended by about seventy-five young people.

Musical entertainment was furnished by the popular Jim Connolly "Deep River" band, and the dancing was kept up until the wee hours of the morning.

The Cypher club, under the leadership of Mrs. J. J. Connolly, and the Comus club, under the leadership of Mrs. J. J. Connolly, both of which are composed of young people, have been very successful in their efforts to make the dance a success.

The Cypher club, under the leadership of Mrs. J. J. Connolly, and the Comus club, under the leadership of Mrs. J. J. Connolly, both of which are composed of young people, have been very successful in their efforts to make the dance a success.

VICTORIAN ESSAYISTS CLUB STUDY SUBJECT

Victorian essayists formed the study of the Junior Essayists club at Kemp library Wednesday afternoon, with Mrs. J. J. Connolly as the hostess.

The study was on "The Importance of the Essay," and the members discussed the works of various Victorian essayists, including John Ruskin, George Eliot, and others.

The members of the club, who are all young people, have been very successful in their efforts to make the study a success.

ANOTHER LOVELY PARTY HONORS POPULAR YOUNG MAYOR ON WEDNESDAY

Another very lovely party, given at the home of Mrs. Leslie Collins Wednesday afternoon, was in compliment to Mrs. Leslie Collins, who leaves Wichita Falls with her husband, Mr. Leslie Collins, for a short trip to Dallas.

The party was a very successful one, and was attended by many of the young people of the city.

Bacchus Banned, Now It's Terpsichore's Turn

By MARGARET ROHR

NEW YORK, Jan. 25.—On Wednesday, you'd best watch your step, or you'll find yourself in a bit of a predicament. For, on this day, Bacchus is banned, and it's Terpsichore's turn to shine.

The city of New York has decided to ban the sale of alcoholic beverages on Wednesday, and to encourage the sale of non-alcoholic beverages.

This decision was made by the city council, and is intended to encourage the sale of non-alcoholic beverages, and to discourage the sale of alcoholic beverages.

DANCING
A LA CRESE—
NO MORE CLOSE UPS.

PIERIA-DELPHIANS MEET WITH MRS. ALLEN DUNCAN

Mrs. Allen Duncan was hostess to the Pieria-Delphians Wednesday afternoon, when roll call was answered with incidents in the life of Moliere, the French dramatist.

The study for the afternoon was "The Tartuffe," the comedy which Moliere wrote in 1664, and which was a satire on the hypocrisy of the French clergy.

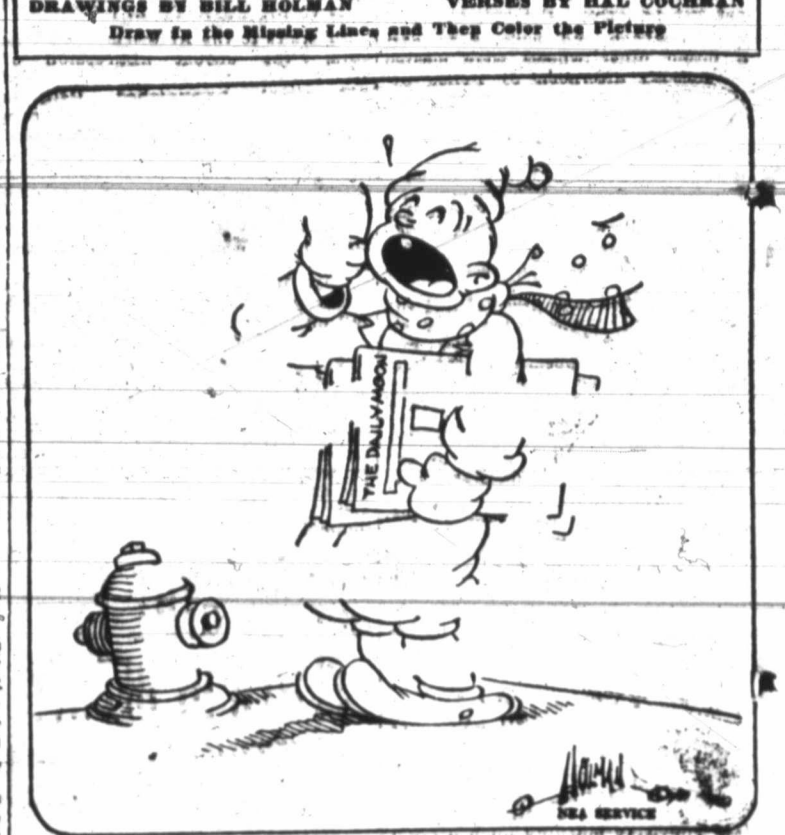

The members of the club, who are all young people, have been very successful in their efforts to make the study a success.

SPLENDID PROGRAM FOR ART ASSOCIATION MEET

A most interesting program has been arranged for the first monthly meeting of the Wichita Falls Art association, which will be held Friday night at the Wichita club, beginning at 7:30, according to an announcement from the president, Mr. Davidson, Thursday noon.

The program will include a reading by Miss Elizabeth Langford, a song by Mrs. Louise Thompson, a reading by Miss Adele Marcus, and a piano number by Miss Annette Walsh.

DRAWFUNNIES

The newswoman is the little lad

NEFF TWENTY-SIXTH GOVERNOR OF TEXAS; IS 14TH RE-ELECTED

AUSTIN, Jan. 25.—Governor Pat M. Neff, who last week was inaugurated as governor of Texas for the next two years, is the twenty-sixth governor of the state. Governor Neff is the fourteenth governor to be elected for a second term.

In addition to the twenty-six different governors which Texas has had, the state is the only one in the nation which has had a president during the period of the republic. Texas had four different presidents during that period, two serving for two terms. David G. Burnett was the first president of the state, having been elected in 1846. Sam Houston succeeded Burnett in October, 1859, and served until 1861 when Mirabeau B. Lamar was elected to the presidency. In 1861, Burnett became acting president again and served until 1865 when he was again succeeded by Sam Houston. Texas' president was Anson Jones, in 1845.

Only one governor of Texas has ever held three terms—E. M. Pease, who served his third term by virtue of appointment.

The list of governors of the state, prepared by the secretary of state's office, with the year in which they took office follows:

J. Pickney Henderson, 1846.
George T. Wood, 1847.
F. Hansbrough Bell, 1849.
E. M. Pease, 1853.
H. R. Runnels, 1857.
Sam Houston, 1859.
Edward Clark, 1861.
F. R. Lubbock, 1861.
Pendleton Murrah, 1863.
A. J. Hamilton (appointed), 1865.
J. W. Throckmorton, 1866.
E. M. Pease (appointed), 1867.
E. J. Davis, 1870.
Richard Coke, 1874.
R. B. Hubbard, 1875.
O. M. Roberts, 1879.
John Ireland, 1883.
L. B. Ross, 1887.
J. E. Ross, 1891.
C. A. Culbertson, 1895.
J. D. Sayers, 1899.

HEALTH BOARD OF TEXAS IS URGING FIVE MEASURES

AUSTIN, TEXAS, Jan. 25.—Five measures have been approved by the state board of health to be submitted to the present session of the legislature for consideration. It is announced by Dr. W. H. Beasley, acting state health officer. A portion of the measures already have been introduced into the legislature.

One of the measures favored by the board is legislation which would require the licensing of water operators connected with municipal water systems. This measure has been put forth by the state association of water operators.

The board of health program also calls for legislation adding a ward to the state to make for feeble-minded children under the age of eight could be cared for. It is pointed out that the state has no system of handling this class of cases at the present time.

Licensing of home operators and persons collecting fees for such homes is another measure supported by the state board. This measure also would provide sanitary regulations for hospitals and other institutions and would prohibit dealing in children, according to Doctor Beasley. Another provision would be the requirement of a license of approval before a person could adopt a child.

The board also expressed favor at a recent meeting for legislation modifying the restrictions now placed on the state bureau of vital statistics, and appropriations to enable the purchase of modern tabulating machinery.

No final action has been taken by the board regarding the Sheppard-Towner measure which has been passed by congress and gives state assistance in maternity and child welfare work providing the state supplies an equal amount with the federal government. It developed that a division resulted on this measure and the board did not express itself for or against it. This measure is supported by a number of the state-wide women's organizations and has been reported favorably by the education committee of the senate.

LODGE CONDUCTED BY PAST MASTERS WEDNESDAY NIGHT

Wichita Falls Lodge No. 635, A. F. & A. M., fittingly celebrated Past Master's Night on Wednesday beginning at 8 p. m., when a lodge of Master Masons was opened by the regular officers, and then turned over to the past masters who were present.

C. M. Crowell acted as worshipful master; W. Y. Hammack, past master of Faith Lodge, and also of Wichita Falls lodge, senior warden; M. J. Gardner, junior warden; E. V. Friberg, senior deacon; A. F. Kerr, the oldest living past master present; junior deacon; V. E. Wooten, secretary, and C. R. Wofford, Tyler.

The work was conferred in an impressive manner upon Claude P. Stevens, and after lodge closed, all repaired to the dining room where refreshments were served. Talks for the good of the order were given by several of the past masters and other visiting brethren. This is just one of a number of good things that the lodge has planned for the year.

Of special interest to master Masons in the lecture to be given on Saturday evening, February 3, in the interest of the Masonic Service association, which is an association for the promotion of the study of Masonry. The speaker has not been announced, but the lecture will be given at the Masonic Temple, to which all master Masons are cordially invited. Further announcements will be given later.

BILL TO PROTECT LABORERS AGAINST LOSS OF WAGES

AUSTIN, TEXAS, Jan. 25.—One of the results of a stringent "blue sky" law, such as is proposed in the legislature, is the loss of wages by laborers. Representative E. E. Johnson, would have the protection of Texas laborers against loss of wages. In the opinion of Joseph E. Myers, state labor commissioner.

Speaking today of the proposed "blue sky" measure, Commissioner Myers stated that during the past two years, Texas laborers reported to the state department losses amounting to more than \$200,000 by refusal or inability of employing concerns to pay wages. These losses included only about 500 cases and Myers stated this number is probably a small per centage of the cases where employees have been unable to collect wages due them.

During the last two years, Myers said, the state department also has received word from more than 1500 employees who had claims against 144 oil companies. Commissioner Myers stated the department had been unable to locate the state offices of these firms. More than \$50,000 was involved in these claims, which are said to be less than ten per cent of similar cases which have existed during the biennial period. "If no other benefit resulted from a stringent blue sky law, it would be in favor of the day laborer of Texas," Commissioner Myers said. "Every year we have several hundred cases reported to us in which we are unable to collect wages for employees because of the financial status of companies or inability to locate the firms. A blue sky law should do away with such companies in the state and be a permanent protection for the employee."

Buffaloes Get Space.
EL PASO.—El Paso's herd of seven buffaloes has been moved to a pen containing ten times as much space as the former inclosure. Veterinarians said the animals were threatened with tuberculosis and suggested that they be moved.

EXTENSIVE PROGRAM OF LEGISLATION TO AID TEXAS SCHOOLS

AUSTIN, TEXAS, Jan. 25.—S. M. N. Marra, who recently took the oath as state superintendent of public instruction, has recommended an extensive program of legislation to the legislature regarding the educational system of the state. The recommendations are contained in a communication addressed to each member of the legislature.

Chief among the recommendations is that for a \$1,500,000 appropriation for the state available school fund for the present year. Marra also recommends a two million dollar appropriation for "aid" of the rural schools for the next two years. Other measures advocated by the state superintendent are:

Laying of taxes upon incomes, inheritances, amusements, luxuries and natural resources for the benefit of public education.

Retirement of a portion of the three per cent state bonds now owned by the permanent school fund so that the money may be reinvested in small issues of six per cent bonds of common school districts.

If constitutional, permitting counties to vote themselves into independent school districts and to vote a tax to be disbursed by county school board.

Matching of federal funds made

available through the Smith-Hughes law for encouraging vocational education.

Appropriation of sufficient funds for support of state department of education and higher educational institutions.

Placing all school districts having fewer than 500 scholars under the complete supervision of the county superintendent and county board of trustees.

Reenacting the law requiring trustees to pay teachers for attendance upon institutes.

Providing for scholastic census by means of actual enrollment during preceding year.

Requiring the English language to be the basis of instruction in all schools, both public and private.

An exhaustive survey of the entire educational system to be made by national experts who are non-residents of Texas.

Several minor recommendations also were made by Marra, including the raising of the compulsory school age to sixteen or completion of the seventh grade. Several of the recommendations already are covered in bills introduced.

Denton County Fair.
DENTON.—Dates for the fourth annual Denton county fair will be October 31 to November 1, the fair committee of the chamber of commerce has announced.

Doctors Recommend Bon-Opto for the Eyes

ALL THE NEWS OF ALL THE SPORTS ALL THE TIME

TERITZ IS FIRST MICHIGAN QUARTER PICKED BY CAMP

By NEA Service.
ANN ARBOR, MICH., Jan. 25.—Walter Camp named Irwin Teritz of Michigan as quarter back on his third all-America eleven for 1925, he accorded the Ann Arbor school an honor which it had never before received. For Teritz is the first Michigan signal-caller to be listed for any of Camp's mythical teams.

Not that Michigan hasn't had some good quarterbacks, for it has, but until last fall the dean of football critics didn't see fit to recognize them in an all-America list.

Take, for instance, "Boss" Weeks, 1923 captain, and still considered by most as the best player he has had during the 12 seasons he has been coaching at Michigan; Fred Norwood, 1924 leader; "Shorty" McMillan, star in 1916-17; Tommy Leggett, who played in the "Big Game" in 1914 with a fractured collar bone; and Cliff Sparks, starting quarterback in 1916-17-18. All of the above men were good field generals, and there were others, too, but the palm goes to little Teritz, who in his two campaigns at Michigan has developed into a twinkler of the first degree.

For some reason or other, though, Camp has never been very much impressed by quarterbacks developed in the west. In fact, very few have been able to get a place "in the pan" in so far as any of his all-America teams were concerned.

FARMERS URGED TO REDUCE COTTON ACREAGE IN TEXAS

WACO, TEXAS, Jan. 25.—Texas farmers were urged to keep down cotton acreage during the coming year in order to keep prices at a reasonable level by J. C. Webb, president of the Texas State Farmers Union, at the mid-winter convention of the union which closed here today.

"Recently I called the attention of our membership to the fact that we should keep down our cotton acreage to a minimum," President Webb said, while discussing the proposition. "The low production of cotton during the last season and the good prices now prevailing shows that the farmer can get better prices by planting what can be consumed."

Webb urged that a campaign be inaugurated to keep down the cotton acreage and to enlist the aid of business interests in the work.

The union president also suggested that campaigns be arranged in each county to hold a series of meetings lasting from a week to ten days, for extensive membership drives. Webb also urged the organization of more marketing associations and support of such bodies now organized.

"We need more marketing associations and we should more liberally patronize those we now have. We should have a marketing association in every organized community. The marketing of our products is one of the fundamental planks of our organization."

Opposition to measures which have been introduced in the state legislature providing for the union of the marketing and warehouse department with the agricultural department, was voiced by the president.

Plans for the work of the union during the coming year were the chief consideration of the mid-winter session.

WORLD-FAMOUS SPRINTER IN AN ENTIRELY NEW ROLE

Charlie Faddock On Fiery Steed.

Presenting Charlie Faddock, famous sprinter, holder of innumerable world records, in a new role. Instead of the usual attire, running suit and spiked shoes, Faddock is shown wearing a plaid hat, bright red top boots and mounted on a fiery charger.

PRINCETON CONFERS TITLE OF PROF. ON TRAINER FITZPATRICK

By NEA Service.
PRINCETON, N. J., Jan. 25.—It is now Professor Keane Fitzpatrick of Princeton, if you please.

The trustees of Princeton university have decided to confer that title on Fitzpatrick, who has played a most prominent part in the development of athletics at Princeton.

Fitzpatrick is one of the finest characters in sport. Aside from turning out athletic winners at Princeton, Fitzpatrick is doing much to make real men out of the Tiger athletes. He is a great influence for good at Princeton and the trustees realize it.

It is said that regardless of the many disputes between the college and the world, Fitzpatrick always makes a real friend out of every fellow that comes out for athletics at Princeton.

Since coming to Princeton, Fitzpatrick's teams have met with great success, not only on the track and field, but gridiron as well.

Fitzpatrick is more than a mere trainer to Bill Roper—he is really an advisory coach. It is said that Roper lets Fitzpatrick be the entire judge as to the athlete's fitness for play and always abides by his decision in the matter.

Fitzpatrick, the dean of all college trainers, was in his day a great athlete.

NISTOL TOWER DRAWS A FINE OF \$100 AND COSTS

Judge Guy Rogers of the county court at law accepted a plea of guilty from Curley Wright of Ellettsville late Wednesday afternoon to a charge of carrying a pistol and assessed a fine of \$100 and costs. This is the minimum fine on the charge.

KEANE FITZPATRICK.

NEW BIG LEAGUE UMPIRE IS HERO OF WORLD WAR

By NEA Service.
CHICAGO, Jan. 25.—Emmett "Red" Ormsby, who is to receive a trial as a member of the American league staff of umpires the coming season, is a hero of the World War.

Ormsby began his baseball career as a pitcher and was meeting with much success when the United States got in the World War. Ormsby joined the marines, saw two years of service in France, and was decorated for distinguished service.

While overseas he was gassed. Returning to this country he found his ball playing ability greatly impaired. His love for the game caused him to take a whirl at umpiring. He made good.

For the past two years he has worked for the Western league. His work was so uniformly good it attracted the attention of President Johnson of the American league, who offered him a contract for 1925. He accepted.

Mack Figures Recruit Pitcher Will Deliver

By NEA Service.
PHILADELPHIA, Jan. 25.—Connie Mack is the most original cuss in the world. Probably that is the reason he is one of the greatest baseball leaders in the game.

"You must have pitching to get anywhere," says the genial Mack, "and I expect much improved work from my boys next season."

"It wouldn't surprise me if a youngster on my pitching staff by the name of Ogden proved one of the most effective pitchers next season."

No doubt that statement from Mack will cause a lot of people to wonder who Ogden is.

The youngster is a Swarthmore collegian, still in college. He is a brother of the Ogden who for several years has been the star of the Baltimore team.

What did Ogden do last year? Nothing very impressive; won one and lost four games.

However, Connie Mack should know and his opinion of Ogden is interesting to say the least.

Plan "Livable" Homes.

ARLINGTON—Women of Texas will be given an opportunity to learn how to create "livable" homes, select wall paper, draperies, rugs and furniture, how to adorn themselves in "dressy" dresses of simple texture, and how to revive "hubby's" good humor with a properly baked potato, in a special course announced by Arlington college to begin January 25.

Only recently there was staged at Venice, Cal., a benefit for Ad Wolcott, former lightweight champion, conqueror of Battling Nelson.

The story of Nelson, Wolcott and Wolcott is merely the story of a majority of the ring celebrities. Few of them are good business men. Some squander their money in riotous living, but most of them fall for the wiles of fake promoters.

Many a dollar earned in the ring has been sunk in gold mines that never gave forth gold and oil wells that never oiled.

New York gossip has it that even

MANY OLD-TIME FIGHTERS NOW DOWN AND OUT—BEING A GOOD FELLOW PROVES MIGHTY COSTLY

By RILEY EVANS.
The other day the wires carried a story that Battling Nelson, when he learned that the Pullman fare between New York and his destination was \$9, passed up the opportunity because he didn't believe he could afford it.

"Bat," according to the story, took a seat in "the day coach and slept catch-as-catch-can style. In between snoozes some kindly passenger relieved Nelson of his bank roll."

Can you imagine such a situation? Battling Nelson, former lightweight champion, reputed to have been worth half a million dollars at one time during his career, feeling that he couldn't afford the \$9 tariff for a Pullman berth.

Last fall I dropped into a Boston

bowling alley. I noticed a husky colored chap setting up pins on one of the alleys. There was something familiar about him.

"Some husky pin-setter!" I remarked.

Wolcott is pin-setter.

"Still strong but not as good as he once was," smilingly replied the manager of the bowling alley. After

received sums that appeared a bit out of proportion to the attraction, I have always felt that money earned in the ring was far from soft. Fighters usually deserve all they get.

Being a good fellow has sounded the fatal ten for many a great fighter. In the fight game a man is dead when he is out. That motto works both ways. Young Corbett

INELIGIBLES WILL MEET METHODISTS, FIRST APPEARANCE

Basket ball fans will be given the opportunity of looking over the material which Coach Jones is bringing out in the recent addition to city league basketball, the high school ineligibleibles, when they make their debut in city basketball against Clarence Neal's Methodists at the Legion hall Thursday night.

No lineup has been announced for the initial appearance of the new team in the league. There is a wealth of material on hand in high school and junior college that is available for the city league team and the Methodists realize that the game will be far from practice.

The new team was taken into the league to fill the vacancy which resulted in the withdrawal of the

Baptists. If the ineligibleibles are able to compete with the Methodists, it means that they will furnish competition for the best outfit in the city.

Knights of Columbus and Texoma will stage the second cage battle for Thursday night. The date is all with the Knights, but the recent upheaval in city league games make predictions unsafe.

Both teams have put in valuable time in practice since their last games and a real fight is expected in the second game. At any rate Texoma will be there strong and the Knights will be there a struggle for the decision.

TAILOR-MADE CLOTHING WILL INCREASE IN PRICE

ST. LOUIS, Jan. 25.—Prices of tailor-made clothing will increase from 13 to 15 per cent in the near future, L. A. Banner, secretary of the National Merchant Tailor Designers association, stated today. The association is holding its forty-third annual convention here.

He ascribed the mounting price of wool and scarcity of workmen as reasons for the predicted price increase. It was pointed out that wool at present is 42 per cent higher for spring than a year ago and 121 per cent higher than for last fall.

PULLSEYES of BASEBALL

BY DILLY EVANS

No. 21—THE GREATEST HUNTING I EVER SAW

No sport offers more possibilities for unusual features than baseball. I have umpired any number of games in which players have starred at the bat, in the field and on the bases.

The game in which Roger Feckins, caught, then with New York, faced the pitcher five times and was not charged with a time at bat was most unusual. He received five bases on balls in offering at a single ball pitched.

I have umpired games in which players have made hits on each and every appearance at the plate. I have umpired games where batters have reached first base in safety in each time at bat; yet failed to make a hit and were credited with a time at bat in each trip to the plate. To make such a thing possible it was necessary that the opposing fielders err each time.

In a double header at Washington I saw a player hit the ball on five consecutive trips to the plate, be retired at first in each instance, yet fail to be charged with a single time at bat.

How come? Sounds difficult, but it isn't since all that is necessary for a player to create such a record is sacrifice on each trip to the plate.

That sounds rather easy, yet when the opposition realizes that is the play you intend to make, it is far from a soft proposition for the batsman to successfully advance a base runner on five consecutive trips to the plate.

In the first game, Killefer made four trips to the plate. Each time there was a runner on first base and as one out. The closeness of the score made it imperative that Killefer bunt, since Washington was playing for one run.

AW—HIT IT

In every one of his four trips to the plate in the first game, Killefer bunted perfectly down the third-base line. He was retired at first every time on close plays, the runner advancing to second.

The first time he came to the bat in the second game the situation was the same—a runner on first and no one out. Again Killefer bunted perfectly, advancing the runner to second and being retired on a close play.

In five consecutive times at bat Killefer sacrificed perfectly. In each time at bat he faced the same situation—a runner on first and no one out.

Five consecutive sacrifice hits certainly stands out as a most unusual batting performance, or perhaps better, hunting performance.

Tomorrow—The most unusual play I ever saw.

THE STUDEBAKER NEW LIGHT-SIX TOURING \$975

The 1923 Series Studebaker Light-Six Touring Car was shown for the first time at the New York Automobile Show.

Many pronounced this car the most striking feature of the show. It was certainly the center of the crowd.

The Light-Six Touring Car is beautiful, roomy and comfortable. In design, mechanical excellence and equipment it is a worthy member of the world's greatest line of quality motor cars.

The new body is all steel, with wide, deep and comfortable seats, upholstered, as usual, in genuine leather. The rear seat is 43 1/2 inches wide, which provides ease and comfort for three adults. Cushions are ten inches deep. The Light-Six Touring Car is as comfortable as that favorite chair in your living room.

The one-piece, rain-proof windshield, with cowl lights in base, and the cowl ventilator are improvements for moderate priced cars originated by Studebaker.

The Light-Six chassis, the dependability of which has been established in the hands of 100,000 owners, remains practically unchanged. The body, windshield, radiator, cowl and fittings are the new features.

The name STUDEBAKER on an automobile is assurance of satisfaction.

How all-steel body. Upholstered in genuine leather. One-piece windshield with attractive cowl lights in base. Cowl-ventilator cowl ventilator. Large rectangular window in rear curtain. Curtains, based on three sides, by steel rods, open with doors. Door pocket flaps with weights to hold them in shape. Rain-proof transmission lock.

SEPARATE CELLS FOR JUVENILE GIRLS URGED BY WOMEN

COUNCIL PROMISES ACTION ON
PETITION OF MISERABLE
SOCIETIES.

PAYING OF ONE BLOCK ON AUSTIN IS ORDERED

Water Main Extensions to Serve
Total of 61 Customers Ap-
proved By Council.

Arrangement will be made in the near future to furnish separate cells in the city jail for juvenile girls who are confined there from time to time, and for older women, if the plans of the Federated Missionary societies of the city materialize.

A committee from that organization met the city council Wednesday afternoon with a request that they be allowed to equip a comfortable cell for juvenile girls. Mrs. R. C. Smith, Mrs. R. H. Allen and Mrs. M. M. Adickes composed the committee from the several societies.

Mrs. Smith, in presenting her request called attention to the fact that delinquent girls are now being placed in the same cells with hardened women criminals. This practice, Mrs. Smith said, tends to increase the delinquency of the girl.

The council agreed that some arrangement should be made and informed the committee that the removal of the health department officers from the city hall would furnish the necessary space for additional cell room. It was also suggested that some arrangement might be made with the county authorities whereby city juveniles could be kept in the county jail where a more satisfactory arrangement has already been made.

The council agreed to make a report to the committee in the near future.

J. A. Richolt, representing the property owners on Austin between Eleventh and Twelfth streets, presented a petition from six of the eight tax payers in that section asking that the block be paved to connect them with the Eleventh street paving.

A motion to let the contract for the paving of Austin was made and passed. Plans and specifications were submitted by the city engineer.

and bids will be advertised for. The contract will be awarded January 31.

Several matters of tax adjustment were brought before the council. In two instances at the suggestion of City Tax Collector Anderson, adjustments were made on the 1932 assessment. Commissioner Stanton reported that a number of inquiries had been received from persons interested in the purchase of the city tower tank. No action was taken toward the sale; the council will investigate the condition of the tank and decide on a price before the next meeting.

A claim for damage amounting to \$10 caused when a horse fell through a defective bridge near Riverside was submitted to the council for adjustment. The claim was not allowed.

Water extensions that will serve 61 customers and the city park were recommended by Commissioner Stanton and passed by the council.

The extensions involve an expenditure of \$1,513.76 and are as follows:

On Jalonic, from Kentuck to California, 335 feet of 3-inch main and trenching of 280 feet for 13-inch pipe to be supplied by the negroes on that street; supplies city park and six customers, \$1,513.76.

On Fort Worth, from Wichita to Edwards, 400 feet of 3-inch pipe to supply 10 customers, \$140.

On Owen from Humphries to Barwick, 700 feet of 3-inch main, to serve 20 houses, \$210.

On Maple, from Second to Third, 315 feet of 4-inch, \$475.

Fire plug at Maple and Second, \$120.

On Maple from Second to Front, 375 feet of 3-inch, \$125.

On Maple from Third to Fourth, 375 feet of 3-inch, \$125.

Total, 61 customers, \$1,513.76.

Bids on contract to furnish the fuel supply for the city were passed until the next meeting. Several bids had been entered Wednesday but the council was not ready to let the contract.

SOUTH WIND DUE TO BRING BACK SPRING WEATHER

During the night Wednesday, Aolus, the god of weather, decided to make a change. Auster, the son of Jupiter, asked for a further opportunity to direct the weather conditions and the wind was blown from the south.

Warmer weather and clear skies were reported in the wake of the south wind and agents on railroad lines east and south of the city reported ideal spring weather on Thursday morning.

Locally the morning Thursday was an ideal one. The low thermometer reading for the night was 44 degrees while during the afternoon Wednesday the high point reached was 58 degrees.

Throughout the district, with the exception of the extreme northern and of the Northwestern, south winds were reported. Light north winds were reported by the agent at Woodward, who also reported a low temperature reading of 34 degrees for the night.

Plans for the 1932 Texas-Oklahoma fair will be actively set on foot Friday night, when the annual meeting of stockholders is held at the chamber of commerce. Directors for 1932 will be named, and the first steps taken for the 1932 fair.

It is hoped to make important improvements at the fair grounds this year, and the erection of a stadium is the chief item on the tentative improvement program.

Representatives of various fairs in west Texas and Oklahoma will meet Friday at Abilene to route attractions for the fair; Hubert M. Harrison will represent the local association.

The meeting Friday night will be called at 7:30. George D. Keith, retiring president, urges that all stockholders be represented either in person or by proxy.

FAIR MEETING ON FRIDAY NIGHT TO MAKE 1932 PLANS

First Step in Treatment is a Brisk Purgative With Calomel Tablets That Are Non-toxic, Safe and Sure.

Doctors have found by experience that no medicine for colds, coughs, sore throat, and influenza can be depended upon for full effectiveness until the liver is made thoroughly active. That is why the first step in the treatment of these ailments is a brisk purgative. Calomel tablets, which are free from the sickening and weakening effects of the old style calomel. Doctors also point out the fact that an active liver may go a long way towards preventing influenza and colds and is one of the most important factors in enabling the patient to successfully withstand an attack and ward off pneumonia.

One or two Calomels on the tongue at bed time, with a swallow of water—thats all. No salts, no nausea, nor the slightest interference with your eating, pleasure or work. Next morning your cold has vanished, your liver is active, your system is purified, and you are feeling fine, with a hearty appetite for breakfast. Genuine Calomels are sold only in original sealed packages, price thirty-five cents for the large, family-package; ten cents for the small, post-pocket size—adv.

FRONTIERS TRAIL LOST
ON THE SOUTHERN PACIFIC

TUMA, ARIZ., Jan. 25.—Garbled reports of the robbery of a freight train at Dome, 28 miles east of here on the Southern Pacific, last night, led to circulation of a report that the Golden State Limited eastbound, had been held up. A car was detached from a freight train and looted of merchandise, according to reports here early today. Officers went to the scene last night.

FURTHER DECREASE IN DAILY AVERAGE CRUDE PRODUCTION

LOSS OF 14,400 BARRELS COM-
PARED WITH THE PRE-
CEDING WEEK.

NORTH TEXAS SHOWS DECREASE OF 1,150

Oklahoma-Kansas Production Cred-
ited With Daily Gain Of
4,900 Barrels.

NEW YORK, Jan. 25.—The daily average production of oil in the United States decreased 14,400 barrels for the week ending Jan. 20, totalling 1,736,900 barrels compared with 1,751,300 for the preceding week, according to the weekly summary of the American Petroleum Institute. The daily average production east of the Rocky mountains was 1,306,900 compared with 1,321,350, a decrease of 14,450 barrels. California production was 534,000 compared with 529,000, an increase of 5,000 barrels.

Oklahoma-Kansas showed a daily average gross production of 491,000 barrels, an increase of 4,900; central Texas a decrease of 1,150; north Texas a decrease of 1,100; north Louisiana a decrease of 3,100; and Arkansas a decrease of 2,100.

In Oklahoma production of the Cushing field was shown as 254,000 against 250,000; Tonkawa, 25,000 against 24,500; Lyons-Quinn, 10,500 against 11,000; the Bristol pool, 57,000 against 57,500 barrels. The Mexico pool, central Texas was reported at 57,000 against 57,500; Haynesville, north Louisiana, 21,500 against 22,500; Eldorado, Ark., 28,900 against 28,500, and Smackover, Ark., 74,700 against 75,000 barrels. In the Gulf coast field Hull is reported at 32,000 against 34,000 and West Columbia 22,000 against 22,400 barrels.

Pennsylvania crude advanced 10 cents a barrel, now being quoted at \$2.45. There were no other changes reported, mid-continent being quoted at \$2.00 to \$2.10, according to the gravity of the oil, and Gulf coast at \$1.25 a barrel.

According to the Institute, imports of petroleum, refined and refined oils at the principal United States ports for the week ended January 20 totalled 1,995,157 barrels; a daily average of 285,165 barrels against 1,777,901, a daily average of 253,983 barrels for the week ending January 12.

CONSECRATED BISHOP OF
THE PITTSBURGH DIOCESE

PITTSBURGH, PA., Jan. 24.—The Rev. Dr. Alexander Mann today was consecrated Bishop of the Pittsburgh diocese of the Protestant Episcopal church, to which place he was called from the rectory of Trinity church, Boston.

The impressive services took place in Trinity church in the presence of a large number of clergymen and laymen, which included members of the city and state governments.

Houston Judge Wants Sixteen Fearless Men

HOUSTON, Jan. 25.—"If there is such a thing in Harris county as sixteen 1,000 per cent Americans, I want them," Judge C. W. Robinson of criminal district court, told a jury commission when he implored them to draw a grand jury for the February term of the court.

which requires manhood on the grand jury, on the petit jury and in every other office in the country," Judge Robinson said.

"Get me fearless men, men who will not hesitate a moment to indict any man who violates the laws of this country, whether he be Ku Klux or anti-Ku Klux, whether he be Catholic or Jew."

"If you select men of this kind for the grand jury I will promise you that this court will render them all the aid that the law gives me power to give, and we will run down these people, whoever they be, who go into houses of our citizens at night and drag them out and inflict punishment upon them."

The grand jury for the January term is still in session after spending more than a week in an investigation of the flogging at Goose Creek on January 5 of Mrs. Audrey Harrison and R. A. Armand. No indictments had been returned so far.

VERNON NEGRO IS SHOT SIX TIMES BY NEGRO WOMAN

VERNON, TEXAS, Jan. 25.—Willie Taylor, a negro woman, shot Clarence Hunt, another negro, six times about 11:45 p. m. last night. He was not dead this morning but the doctors have little hope for his recovery. Hunt has a family. Willie Taylor is cooking for a prominent white family and Hunt has been firing the furnace for another prominent family of Vernon. Hunt was at the room of Willie Taylor when she fired six times, each bullet taking effect.

EXILED SOVIET LEADER
AND REFUGES AT MANILA

By Associated Press
MANILA, Jan. 25.—Admiral Stark, exiled soviet leader of Vladivostok, arrived at Manila yesterday with five other vessels of the homeless fleet. Five other vessels of the homeless fleet are expected to arrive in a few days from China.

Governor General Leonard Wood, who has left for an inspection tour in Zamboanga province, will visit the Russians before returning to Manila, with a view to determining what is to be done with them.

COLDS

Pape's Cold Compound Breaks a Cold in Few Hours

Every struggle here guarantees each package of Pape's Cold Compound to break up any cold and rid the system of mucus in a few hours of money returned. Stiffness, pain, headache, feverishness, inflamed or congested nose and head relieved with first dose. These safe, pleasant tablets cost only a few cents and millions now take them instead of sickening quinine.
