SAW CONCEALED BY MRS. BELL USED IN EFFORT TO ESCAPE

PARTIALLY GUT PARTS OF CELL DISCOVERED BY JAIL MATRON.

PRISONER SAYS SHE WORE SAW DURING TRIAL

Had Put It Away For Use in Event of Condemnation On Charge of Murder.

After using a large saw which she said she had kept hidden on her body all during her trial, Mrs. Ida Bell late Monday afternoon had her plans for a escape frustrated when Mrs. Harvey Snyder, the matron, discovered one of the steel bars across the window sawed half in two.

One of the steel bars which blocks the way to a fire escape had been cut both top and bottom, half way through. It is believed that it was Mrs. Bell's intention to wait until night and then complete the task of sawing the bar off and make her escape in the dead hours of the night.

The matron officers, when they had found the saw, that it was one she had found in the cell fields when she was out under bond awaiting trial and had concealed it on her person so that in event of a conviction she would have means whereby to attempt an escape.

The second attempt within the last ten days for inmates of the women's department of the jail to attempt a jail delivery.

The attempt to escape was discovered at 4 o'clock Monday evening and followed the publication of the alleged confession made by Mrs. Bell in which she implicated another woman, against whom murder charges were preferred.

DEPOSITORS URGE RELIEF FOR OKLA. BANKING SYSTEM

OKLAHOMA CITY, Jan. 29.—Representatives of deposits in 10 banks of the state which have failed are awaiting today a report from a committee appointed late yesterday at a meeting of the depositors organization to urge the joint legislative banking committee to adopt its plan for relief of the state banking system.

The proposal backed by the depositors would rebuild the present guaranty fund by bonding banks of which in the assessment plan advanced by the representative of the depositors organization, are now before the joint committee, which has been instructed by Governor J. C. Walton to provide some immediate solution to the problem now facing the state guaranty fund.

WILL INVESTIGATE LIQUOR VIOLATION AT DANCE TRAGEDY

BLANFORD, IND., Jan. 28.—An investigation into reported liquor law violations, which are believed to have precipitated the shooting affray in a local dance hall resulting in the killing of two men and the wounding of several others yesterday morning is expected to be in a few days. One participant in the disturbance, John Caber, was sentenced to serve 90 days on the state farm and fined \$20 and costs on a charge of carrying concealed weapons and two others, charged with inciting to riot, were released on bond.

Sheriff Newland and Peter Reicher, patron of the dance hall, were today recovering from injuries received in the fight which followed the appearance at the hall of the sheriff and several deputies who were searching for persons who fired several shots at two negroes. Patrons of the dance hall, said to have been intoxicated, opened fire on the sheriff's party and the officers answered with a volley which killed two and injured one.

SITUATION IN RUHR MORE AGGRAVATED

(Continued from Page 1)

The Ruhr occupation, but only the names of civilians are now being mentioned in this connection.

ATTEMPT TO BRIBER TRAIN CARRYING PRISONER OFFICERS

DUESSELDORF, Jan. 29.—An attempt to bribe the train carrying a prisoner of German officials from the Ruhr to Dusseldorf from Paris, is reported to have occurred at Dusseldorf. Other indications of sabotage, such as the wrecking of a train on the Ruhr railroads, have also come to the attention of the occupation authorities.

The train which the general and the minister were passengers was halted in time to avoid striking an obstruction placed on the tracks. General Weygand and M. Le Troquer were proceeding to Dusseldorf by automobile.

General Weygand at Dusseldorf stated that the incident was unintentional and that the obstruction was part of a wrecked car which was smashed up in a rear end collision recently.

General Weygand and M. Le Troquer had a long conference last evening with General de Gontaut de Courcelles and other occupation officials and later the minister left for Brussels to ask the Belgian government for approval of the decision reached.

The greatest secrecy was maintained as to the result of the conference. The indications point to the establishment of a customs ring around the occupied Ruhr valley and the complete stoppage of coal shipments into the interior of Germany, which have been thus far permitted by the French. It is believed these measures will be put into effect February 1 coincident with Germany's failure to meet the reparations payment falling due January 21.

Customs officers who have been stationed at Dusseldorf and Essen for several days have received orders to proceed to the frontier of the occupied territory at points where the railroads entered Germany. They have also been ordered to the locks and canals on the rivers Lippe and Rhine.

The arrest and expulsion of German officials have not been completed, but already number thirteen for this city alone. Among the reported officers are Dr. Switzer, who replaced Dr. Schultze as president of the state finance department, and the director of the Dusseldorf postoffice.

More expulsions are scheduled for Essen, while the cities of Dortmund, Bochum, Gelsenkirchen, Hildesheim, Dusseldorf and Ruhrort will be expelled in the same manner in proportion to their size.

GERMANS WILL NOT YIELD TO FRANCE

BERLIN, Jan. 29.—Germans beyond the Ruhr today had the assurance of their hero, Fritz Thyssen, that their resistance in the all but total strike against the French was a yield to a Franco-Belgian pressure; instead, they constitute a compact unit in their determination to resist French overtures.

This statement, made public at a time when all attempts to communicate with Essen were failing, declared that the Ruhr was united in supporting the government's policy. Herr Thyssen questioned whether the French could effect a customs ring around the Ruhr and said that strangers could hardly hope to operate the mines or railroads successfully.

WILL BRISK STUBBORNNESS AND CARRY OUT PROGRAM

LONDON, Jan. 29.—General de Gontaut in a statement to the press at Dusseldorf this morning soundly rebuffed the suggestion that the striking Ruhr was mistaken to think our patience has no limits, and added that the allies occupying the Ruhr "will force us to break through the stubbornness of their adversaries."

At another point, according to the correspondent, "More general sanctions will soon be decided upon and it will then be possible to say where the mad policy of the Berlin government has led Germany."

General de Gontaut said the French and Belgians had entered the district without polite intentions and had promised a little trouble as possible to the normal life of the German people, but the German government had tried to cause a general rebellion of the people and had placed obstacles in the way of the French and Belgians by means of partial strikes, sabotage, boycotts and similar measures.

"This provocative policy," he continued, "did not succeed in shaking our self command. The French army is not like the Prussian army. We are not anxious to put everything to the fire and sword and beat civilians in the same manner as the discipline of Bismarck."

Moderation, however, is not weakness. They are mistaken to think our patience has no limits."

FOREIGN OFFICE DENIES TWENTY GERMANS KILLED

PARIS, Jan. 29.—The French foreign office declared today there was no truth in the report (printed this morning by a Paris newspaper) that 20 Germans had been killed in a clash with French troops at Bophard, near Bingen. There had been no such trouble at Bophard as reported. It was stated the burgomaster was arrested for retaining the orders of the French military authorities, but there was no rioting.

The foreign office, in remarking that a great deal of insignificant news was still in circulation regarding events in the Ruhr and on the left bank of the Rhine, said the reports of the strikes were greatly exaggerated and that the situation had improved.

CHARGE WOMEN DRIVEN WITH BLOWS OF WHIPS

WASHINGTON, Jan. 29.—A charge that women employes of the telegraph office at Dusseldorf, in the Ruhr, had been driven with blows of riding whips from their offices, was made in a German foreign office statement received today at the German embassy here.

The statement, summing up conditions in the Ruhr, said that the telegraph office at Dusseldorf, in the Ruhr, had been driven with blows of riding whips from their offices, was made in a German foreign office statement received today at the German embassy here.

VICTIMS LATEST WACO TRAGEDY

Waco (Texas) police are seeking to solve the mysterious double murder of Mrs. Ethel Denecamp, 21 (right), and W. Ed Holt, 46 (left), whose bodies were found in a lonely spot after their automobile, blood-stained, had been found in a principal street of the city.

ditions in the occupied region up to last midnight, confirmed news relating to the expulsion of German officials but was said to indicate that because of a censorship established by the French, details of what was taking place in the Ruhr were not known in Berlin.

The German statement says the feeding of children by the American Quakers organization at Agatha school at Bhopard has been stopped through seizure of the school by French soldiers. It also asserts 60 other schools have been closed and side streets closed for military purposes by the French.

tion was shot to death in his automobile on the night of May 25, 1922, six miles out of town and his young woman companion assaulted. The woman said it was a negro of light color and with gold filled front teeth. A few days after the murder a negro, suiting the description, was taken before the woman, identified and was shot and killed by her father in the house. A mob gathered and burned the school at Bhopard on the night of November 20, 1922. Grady Skipworth was murdered and his body was thrown over the cliff at Lovett's Leap in Cameron park. His companion, Miss Naomi Doucher, was taken to a secluded place by Skipworth's murderer, according to the statement of the girl, assaulted and thrown over another cliff. She said he was a mulatto with gold filled teeth. Miss Doucher identified Freddy Clay as her assailant and the murderer of Skipworth, but Clay after habeas corpus hearing last week was discharged. Clay established an alibi.

The officers believe that in the arrest of Mitchell, the mystery of other crimes is solved. The negro under arrest corresponds, they say, with the description given in each case.

Sheriff Stegall and Deputy Sheriff Jackson returned here after taking the statement of the girl, assaulted, his brother-in-law, out of the city this morning. They declined to tell where they left the prisoners, but they would say that a grand jury will be empaneled to take up the case but Judge Monroe had not determined the matter. The next regular grand jury will be called in March. It is expected immediate action will be taken.

DALLAS OFFICERS REPORT PRISONER NOT IN CITY

DALLAS, Jan. 29.—Dallas officers declared that Sheriff Stegall of Waco had not arrived here at 9 o'clock with his prisoner, and that no word had been received from the sheriff had been received indicating when he might arrive.

GENERAL AGENCY OPENED AT AMARILLO BY DENVER WICHITAN CHIEF CLERK

AMARILLO, TEXAS, Jan. 29.—The Fort Worth & Denver Railway has opened a general agency in the new Panhandle building at Sixth and Tyler streets with E. J. Valentine as general agent and R. G. Braisher as chief clerk.

Mr. Valentine was formerly with the Denver as traveling auditor for twelve years and for the past three years has been with the Cotton Belt as traveling freight agent.

Mr. Braisher is from Wichita Falls where he served the Denver in an official capacity. The company will have offices at 207-7 Panhandle building. J. D. Schuford, general livestock agent for the Fort Worth & Denver, will maintain his office in room 202 of the Panhandle building.

PROMINENT BANKER AND FILER WILL MAY DIE

WACO, Jan. 29.—J. F. Wieser, 52, general manager of the Waco Mill and Elevator company, died this morning. He had operated flour mills at Hico, Stamford, Clifton, Dublin and Hamilton. He was president of the Hico National bank and a stockholder in banks at Carlton, Clairette and Cranfills Gap.

CASCARETS 10¢

TEEBERSTROM IS BACK ON OLD JOB AT CARBON PLANT

RELEASED ON \$500 BOND FOR HIS APPEARANCE AT HEARING.

WAS IN BATON ROUGE DURING RECENT HEARING

Saw Governor Parker and Was Tempted to Ask Him His Advice But Did Not.

MONROE, LA., Jan. 29.—Harold Teeberstrom, timekeeper at the Southern Carbon company plant at Bayou La Poudre, Louisiana, country-wide search was instituted by federal agents and state authorities following his disappearance December 29, was back on his old job today. He was arrested yesterday and released on \$500 bond for his appearance as a material witness at the grand jury hearing at Baton Rouge in March into Morehouse parish kidnaping activities which resulted last August in the death of Watt Daniel and Thomas F. Richardson, Mar Rouge citizens.

Teeberstrom was taken into custody at Spkyer after he had suddenly appeared in Monroe earlier in the day in almost as mysterious a manner as he had disappeared from his bunkhouse at the carbon plant shortly before the open hearing at Baton Rouge. He declared that he was not kidnaped and not forced to leave Spkyer, but left "because I felt I was doing the right thing. I did it for my friends."

He said a number of persons came to see him at his sleeping quarters at the plant December 29. They said they would see him all the time I wanted to get my clothes and go with them," Teeberstrom said. He did not go to the men, but wandered around in the woods all night. He said the following morning he caught a train for Eldorado, Arkansas.

Teeberstrom said while he was in Baton Rouge he saw Governor Parker several times and was tempted to ask the governor for advice. He said he decided not to take that course, however, because "I did not want to injure any of my friends."

WOMAN SICK TWO YEARS

Caused by Troubles Women Often Have—Relieved by Lydia E. Pinkham's Vegetable Compound

Medina, New York.—"That great deal of trouble such as women often have, and this affected my nerves. For over two years I suffered this way, then I read in the Buffalo Times about Lydia E. Pinkham's Vegetable Compound and have taken it with very good results. I am very much better and feel justified in praising the Vegetable Compound to my friends and neighbors who suffer from anything of the kind."—Mrs. Wm. H. Atkins, 311 Erin Road, Medina, N. Y.

Feel Like Girl Sixteen

Rochester, N. Y.—"After my twin girls were born I was all run-down. My neighbors thought I was going to die. I saw your advertisement in the paper and bought Lydia E. Pinkham's Vegetable Compound. The first bottle helped me and I kept on taking it. I only weighed ninety pounds when I began taking it, and I have gained in weight and feel like a girl of sixteen. I never can say enough for Lydia E. Pinkham's Vegetable Compound."—Mrs. NELLIE DORR, 16 Bruce Park, Rochester, N. Y.

FEAR RESULT OF TURK ULTIMATUM BY CONFERENCE

By Associated Press.

LAUSANNE, Jan. 30.—Year of what might result from an abrupt termination of the near east conference here tomorrow when the allies formally present their treaty to the Turkish delegation, is apparently having a temporary influence at this critical stage of the negotiations, and influences are at work to prevent Wednesday's allied pronouncement from favoring of an ultimatum.

The treaty draft contains several clauses to which the Turks have, having a temporary opposition. Whether they will take a stand which will enable a continuance of the conference among the experts after a temporary adjournment remains to be seen.

Apart from the unconfirmed rumors of troop movements, one phase of the situation receiving attention is the arrival from Greece of Colonel Pliastiras, whose conferences with former Premier Venizelos are the subject of considerable speculation.

tion. These consultations, it is said, concern Greek internal affairs, and one suggestion is that Pliastiras, who led the revolution that cast off King Constantine, may ask Venizelos to become premier.

COUNCIL ADOPTS MORE ECONOMICAL WHITE WAY PLANS

GLOBES TO BE CHANGED TO PROVIDE MORE LIGHT AT LESS COST.

PAVING IN VICINITY OF COURT HOUSE PLANNED

Petitions Received For Total Of Six Blocks; Golf Club Buys Old Water Tower.

New outer shades for the city's white way, that will furnish more light and possibly a change to smaller globes that will give as much or more light at less expense, were decided upon at a meeting of the city council Monday afternoon.

Pete Rogers, of the Wichita Falls Electric company, met with the council and offered the above change as one of his suggestions for reducing the cost of city street lighting. The new shades will be the same type and design as the ones now used except in thickness and spacing. It is expected that the city will take steps in the near future to reduce the size of bulbs now being used on the white way as a result of the change in shades.

The change in shades was made at little or no expense to the city and it is hoped will aid greatly in helping to keep the lighting expense within the appropriation.

Old Tank Sold.

Clint Wood, representing the Golf Club, made the council an offer of \$1,000 from his club for the city stand pipe. The council voted to accept the offer as the tank stood at Eleventh and Burnett and until recently was an important factor in the city water system.

Property owners in that section of the city have for some time been anxious for its removal. It has been suggested to the council that the grounds be used for a city park and play ground.

Form Number One declaring pavement of portions of Lamar, Sixth and Travis streets, a necessity was adopted and the city engineer authorized to submit profiles and specifications for bids. The suggested pavement will include: From Fifth to seventh street on Lamar, from Scott to Travis on Sixth street, from Sixth to Eighth on Travis.

Signatures of property owners are being secured and the engineer's plans will be submitted and bids advertised for at an early date. Unless sufficient protest is made by tax payers at the open hearing, work will be under way in the near future.

Hemrod and Randle requested a permit to move their curb filling station from its present location at 712 Eighth street to 707-9 Scott. The permit was allowed under the usual provisions.

Ordinances Passed. Ordinances 428 and 429 were passed to their second reading with-

CATCH FROM LAKE NEAR VERNON

VERNON, TEXAS, Jan. 28.—The picture above is of J. W. Wheeler, owner of the H. W. Drug company, Dr. E. M. Dickerson, pastor of the First Methodist church and H. D. Kilgough, an attorney, all of Vernon. They have a 24-pound channel cat caught at Lake Lardner, 2 1/2 miles west of Vernon.

out protest. Ordinance 428 deals with the traction company franchise for an extension of the line to the new junior college. The other ordinance calls for the closing of an alley in the Floral Heights addition, and was passed at the request of property owners in the neighborhood.

On recommendation of Commissioner Statton, the council authorized the installation of fire plugs at the corner of Love and Bass streets and at Bass and the Heights road. The two plugs will be installed at an expense of \$25 to the city and will furnish fire protection for a number of residences in that section. The installation of the two plugs will require an extension of the six-inch main to the two points. Upon request from Commissioner Fitts, the council confirmed the appointment of Harvey Harris as recorder in the city court and John Davenport as special prosecutor. The appointments were made for a period of two years.

A special meeting of the council is called for Wednesday morning at 10 o'clock to open bids on the paving of Austin street from Eleventh to Twelfth street. Several other matters of importance will come up at that time.

EXPECT SENATE TO LOWER AMOUNT OF TAX ON PRODUCTION

The belief that the senate at Austin will reduce the amount of the gross production tax, and perhaps leave the tax where it now is, was expressed Tuesday by local oil operators who have been watching the situation, following receipt of news that the house had passed a bill increasing the tax to three cents, just doubling the present tax.

It is thought here that the senate will reduce the tax to two and a half, or perhaps two cents and that the house will eventually agree to this reduction. Some operators Tuesday took the view that if the additional tax went into the school fund, as proposed, oil men generally will accept it with much less objection than if the money were used for other purposes.

PITTSBURGH AGENTS ADVANCE PRICE OF CORNING CRUDE OIL

PITTSBURGH, Jan. 30.—The price of Corning crude oil was advanced today by the principal purchasing agencies, 15 cents, to \$2.15 a barrel. Pennsylvania crude and all other grades remained unchanged.

Old Wanderer Is Allowed to Leave In 1917 Model Ford

An old man, who testified that he was just "travelling around" was the sole offender in the city court Tuesday morning. The man charged with vagrancy was arrested late Monday afternoon; a gun was found in his possession.

He testified that he was waiting here for money from his people in Sherman and produced letters from his daughters begging him to come back to that place and make his home with them.

JUDGE MARTIN ADVISED THE OLD MAN TO GET HIS MONEY AND RETURN TO SHERMAN AS SOON AS POSSIBLE. HE AGREED TO LEAVE ON CONDITION THAT THE CASE BE DISMISSED. HE WAS ALLOWED UNTIL SATURDAY TO GET HIS MONEY AND HAVE HIS 1917 MODEL FORD REPAIRED IN ORDER TO CONTINUE HIS JOURNEY.

WILL RESUME HEARING ON RAILROAD MERGERS

WASHINGTON, Jan. 30.—Hearings on tentative proposals of the government looking to railroad consolidations in the west will be resumed, according to an interstate commission order issued today, in Washington on February 24. Evidence and argument concerning the possibilities of consolidation in the territory south of the Missouri and west of the Mississippi river will be taken up first.

Notice. Dr. E. T. Barker wishes to announce his return to the city and that he can be found at the Tenth street drug store until offices are arranged for. Residence phone 2429.—adv.

PRIMA DONNA GETS DECREE OF DIVORCE IN SAN FRANCISCO

PROVE "ORCHID" AND "WILD MUSTARD" COULD NOT GET ALONG.

CHAUFFEUR URGED THAT HIS WIFE WAS CRUEL

Wanted Him to Have Breakfast in Bed and Hook Up Her Gowns.

SAN FRANCISCO, Jan. 29.—The orchid and the wild mustard will not thrive under like conditions. Madame Margaret Matzenauer, grand opera singer, whom he called an orchid, is free today of the bonds of matrimony she contracted with Floyd Glatzbach, who described himself as "wild mustard." Glatzbach, before he met the prima donna and after he separated from her, was a chauffeur.

Madame Matzenauer was awarded an interlocutory decree of divorce from Glatzbach yesterday in superior court here, on a cross complaint she filed some time ago, after Glatzbach had sought marital freedom on the ground that she practiced cruelty on her gown.

In published statements he declared he was a "he man" and would rather be a chauffeur in California than remain with her and act as a "lady's maid."

Among Glatzbach's specifications of cruelty were allegations that his wife desired him to have breakfast in bed and to hook up her gowns. In published statements he declared he was a "he man" and would rather be a chauffeur in California than remain with her and act as a "lady's maid."

Yesterday's trial of the case was brief. Only one witness, Glatzbach's attorney, was called by Madame Matzenauer's counsel but a quantity of documentary evidence was offered including depositions from both parties which related to the motive which prompted the shooting to death of Mrs. Ruth McElwain Tucker, 26, and Dupeca Waller, 19, a salesman of Mayfield, Ky., whose bodies were found on a country road near Memphis early Sunday morning, officials today awaited word from Mayfield as to whether anyone in that city could have felt an enmity towards Waller.

Locally the officials declared they based their principal hope for a solution in the sifting of the robbery theory.

STILL HOLD BODY OF MAN SUPPOSED DEAD

PHOENIX, ARIZ., Jan. 30.—The body of George W. Stevenson is still in a local undertaking establishment with the family remaining firm in its belief that he will revive from a state of suspended animation into which they contend he has passed.

RADIO PROGRAM THURS. EVENING TO CELEBRATE BAYLOR'S ANNIVERSARY

Former students of Baylor University are looking forward to participating by radio in the Founders Day celebration, scheduled for Friday evening from 7:30 to 8:30 p. m. It will be broadcasted from Fort Worth, Dallas and Waco.

The receiving set at the Baldwin Piano company salerooms at 718 Tenth will be tuned in by the W. S. Radio Supply company, for the benefit of former Baylor students who do not have receiving sets. F. C. Harron, head of the local organization of former Baylor students, requests that as many as possible listen in on the program, which will be as follows:

7:30-8:00—The president's message, Dr. S. P. Brooks at Fort Worth. Broadcasted by the Star-Telegram from Fort Worth, Texas. Station call WBAP operating on 400 meter wave length.

8:00-8:10—Baylor Meda. Dr. E. H. Pillsbury at Dallas. Broadcasted by the Dallas News. Station call WFAA operating on 400 meter wave length.

8:10-8:20—Baylor at Old Independence, Judge Lewis R. Bryan broadcasted by the Hurlbert-Still Electric company from Houston.

IMPROVEMENT SHOWN IN SURVEY OF CONDITION

WASHINGTON, Jan. 30.—A survey of the effect of prohibition enforcement in California, made by S. P. Rutter, state director, based on juvenile court statistics and testimony of probation officers, discloses some improvement in the annual number of arrests for drunkenness in California declined from an average of 27,705 in the three years prior to prohibition to 14,455 in the three subsequent years, while court cases declined from 3,457 to 1,331. The survey was made public here today by the information bureau of the prohibition unit.

Texas. Station call WEV operating on 360 meter wave length.

8:20-8:30—Program of Alumni Association, Dr. K. H. Aysenworth at Waco. Broadcasted by the Jackson Radio company from Waco, Texas. Station call WJAD operating on 360 meter wave length.

8:30-8:55—Concert from Waco through station WJAD. The Waco Baylor club and the Baylor student body will be assembled at the First Baptist church. Here the Baylor band will furnish you a concert and the students will put out some "pop."

NIGHT SERVICE TO OKLAHOMA CITY IS RESTORED BY KATY

SLEEPER WILL BE OPERATED BY WAY OF FRISCO THROUGH ALTUS.

MEANS BETTER SERVICE ALONG NORTHWESTERN

Restoration of Trains to and From Elk City is Provided For, Effective Feb. 11.

Pullman service between Wichita Falls and Oklahoma City over the Northwestern and Frisco will be resumed February 11, according to an announcement from the office of H. G. Smith, division freight and passenger agent of the M. K. & T.

The Pullman will operate by way of Altus instead of changing to the Frisco at Frederick, as was the plan formerly. The train will leave Wichita Falls at 7:00 p. m. and arrive at 8:40 a. m.

The restoration of trains 1 and 2 will also provide service between Wichita Falls and Elk City, as the trains which carry the sleepers will operate between Altus and that point. The train is expected to be of benefit to residents of North-western towns who can leave home early in the morning for Wichita Falls and return that evening.

The chamber of commerce has been endeavoring for some time to have the trains restored, and Hubert M. Harrison, general manager, went to Altus early Tuesday to attend a conference on the subject.

MELVIN JOHNSON JR. ARRIVES AND IS MADE HONORARY COP. The most recent addition to the city police force was made Monday afternoon when Melvin C. Johnson, city motorcycle officer, announced the arrival at his home of M. C. Johnson, Jr. Immediately after the announcement steps were taken to confirm the appointment of the arrival as an honorary member of the police force.

BLOCK AROUND THE COURT HOUSE WILL BE PAVED AT ONCE

County commissioners in session Monday afternoon voted to pave the block around the county court house. This will mean three blocks of pavement. It will include Travis and Lamar streets between Sixth and Seventh streets and Sixth between Lamar and Travis.

It was stated to the court that all of the property owners on the three streets affected, with the exception of two, had signed the petition for the paving, and it is believed that these two will also sign within a few days.

Paving will begin as soon as the contract can be let. It was pointed out to the court that the parking space for automobiles around the court house was confined to such a small space that this alone would be worth the cost of the paving.

FAIR GROUNDS TO BE BEAUTIFIED BY TREES AND FLOWERS

Several hundred shade trees and many shrubs and flowering plants are to be planted on the Texas-Oklahoma fair grounds within the next few weeks, according to plans of the directors.

It is intended to beautify the grounds at once, without attempting any elaborate landscaping just now, and to the advantage of the possibilities for making the grounds attractive.

The Call Field lateral irrigation canal can be used to furnish water for the plants; its present terminus is just across the road south of the property.

MODEL IRRIGATED FARM TO BE BUILT FOR CELEBRATION

A model irrigated farm, one acre in size, will be built on the Tom Burnett ranch near Iowa Park as a feature of the round-up and celebration to be staged there in April. The most recent addition to the city police force was made Monday afternoon when Melvin C. Johnson, city motorcycle officer, announced the arrival at his home of M. C. Johnson, Jr. Immediately after the announcement steps were taken to confirm the appointment of the arrival as an honorary member of the police force.

The pageant of progress which will be an important feature of the celebration will depict a number of scenes in the history of this section.

LUNCHEON TO START CAMPAIGN FOR BUDGET. VERNON, TEXAS, Jan. 26.—The chamber of commerce at a luncheon held at the Bailey hotel appointed a committee to begin work Wednesday raising the budget for the present year. It is estimated that there will be needed \$10,000 for the year's work. The committee had lunch with the directors who outlined the work. Twenty-five Vernon business men participated in the demonstration of getting up the assessments and outlining the work.

GEORGE F. GENTRY, AGED 39, CALLED BY DEATH TUESDAY. George Foster Gentry, employe of Ball Bros., died at his home, 2150 Avenue F, Tuesday morning after a short illness. He was 39 years old. The funeral services are to be held at the Merkle-Lunn chapel Wednesday afternoon at 2:30, with Rev. Lambrecht Hancock in charge. Burial will be made in the Rosemont cemetery.

Mr. Gentry is survived by his widow and one son, Frank, aged 5; by two brothers, J. F. Gentry of London, Texas, and J. B. Gentry of Rusk, both of whom were with him when he died; also by four sisters.

OWNER OF MIDWAY GROCERY ARRESTED AGAIN ON MONDAY

M. A. Morris, proprietor of the Midway grocery, located on the Burkburnett paved highway near the Texhoma shallow pool was again arrested Monday afternoon by Chief Deputy Sheriff Jack Miller. The arrest followed the finding of a half gallon corn whiskey in the garage which adjoins the store.

Deputy Miller equipped himself with a search warrant Monday afternoon for the place and stopped on his way to Burkburnett. He stated that in addition to the half gallon of whiskey he found a large number of empty containers.

Morris was arrested ten days ago when Chief of Police McCormick and Deputy Miller effected a purchase from the man. He was released on bond on this charge.

Charges of illegal possession of whiskey were filed against him in the state court Tuesday morning and his bond set at \$100. He perfected bond and was released.

NEW MANAGER FOR FRUIT JAR PLANT ARRIVES MONDAY

George Sopher, late of Streator, Ill., arrived Monday to become manager of Ball Brothers fruit jar plant here. He entered upon his duties Tuesday.

Mr. Sopher succeeds Tom B. Smock, who resigned several months ago to become general manager of the motor company.

F. E. Jewett of Muncie, general superintendent for Ball Brothers, who accompanied Mr. Sopher here, was confined to his hotel room Tuesday with a severe cold. Mr. Sopher has been with Ball Brothers since the first of the year. His family will move here to join him later in the year.

The REX INGRAM PRODUCTION
TRIFLING WOMEN
This Picture Breaks All Records Last Week at the Palace, Dallas' Million Dollar Theatre.

TRUCKS OF OVER 3-TON CAPACITY BARRED FROM ROAD

Although met with stern opposition, the commissioners' court late Monday afternoon passed an order barring all commercial trucks of the paved highways of the county which are more than three tons capacity. A bill is before the legislature at this time which will, if passed, regulate this.

It is the contention of the court that trucks of a larger capacity than three tons will damage the roads which has cost the property owners of Wichita county two and a quarter million dollars.

It is believed, however, that when the state law is passed, trucks of a larger capacity will be allowed on the paved roads of the state when equipped with wheels which will bring the pressure per square inch down to the limit.

Judge B. D. Sarlin stated Tuesday that if it becomes necessary to enforce the ruling of the court with reference to this measure that traffic policemen would be employed.

This same rule is in operation on the paved roads of Dallas county. Motor cops are there equipped with scales and often times it is said trucks are stopped and the load weighed if either they come within the limit of three tons.

WOMAN ACCUSED BY MRS. BELL IS BEING BROUGHT TO CITY

Deputy Sheriff W. W. Belcher left for Texarkana Monday afternoon to bring back Mrs. Elizabeth Cavender, who was arrested Monday upon telegraphic instructions from officials here.

A charge of murder was lodged against Mrs. Cavender following the statement made by Mrs. Ida Bell who was convicted on the charge of murder Sunday afternoon. In the statement made by Mrs. Bell she said that the Cavender woman had offered her \$500 to kill G. A. DeMoss, but that she had never received the money.

Mrs. Cavender had been subpoenaed as a witness in the trial of Mrs. Bell's case, but failed to make her appearance.

The theory is advanced by state officials that the woman "Letty" who wrote the letter to DeMoss and Mrs. Cavender are one and the same person.

Officer Belcher and the woman are expected to arrive here some time Tuesday night or Wednesday morning.

NEW SHALLOW PAY IS DEVELOPED IN HOLLIDAY DISTRICT

Hackman and Sanderson have just completed their second producer in the shallow sand of the McCall-Sanderson tract about one and one-half miles south of Holliday in Archer county, and is one of the best shallow producers so far brought in from that field.

The well is producing from an entirely new depth, the top of the pay being encountered at 465 feet which was penetrated a few feet when the well came in with a flush production of between 45 and 50 barrels.

The same company set casing on No. 2 test on the 525 sand from which their initial well is producing. No. 4, southwest of No. 2, is drilling at 200 feet.

These wells are located in the southwest 40 acre tract of block 23, where the owners have erected a first class power plant of dimensions large enough to take care of all future wells which the company may drill, and sufficient storage and pipe line facilities.

Clear ice taken from polluted water may in some cases contain as low as one per cent of the number of bacteria present in the water.

A THOUGHT FOR TODAY

Pilate saith unto Him, What is truth?—John 18:38.
That great mystery of time, were there no others; the illimitable silent, never-resting thing called time, rolling on, swift, silent, like an all-embracing ocean-tide, on which we and the universe swim like exhalations, like apparitions which are, and then are not: this is forever very literally a miracle; a thing to strike us dumb—for we have no word to speak about it.—Thomas Carlyle.

LET US THINK OF AMERICA, TOO.

Premier Poincare, of France, has declared that the French troops will remain in the Ruhr as long as may be necessary to assure payment of reparations, but not a single day longer.

This is the official declaration of a responsible French spokesman and ought to allay the fears of those who believe France is seeking permanent control of German territory and the disunion of Germany.

There is a good deal of misplaced sympathy for Germany in this country. There are some who would like to see Germany escape reparations payments altogether, and who are thinking more of the plight of the German people than of the French who were our allies. They think a lot of debt-burdened Germany and German people and forget debt-burdened France and French people, many of whom live in the ruins of German aggression and malice.

It is all well to be magnanimous to a defeated foe but there is such a thing as being too soft. Germany ought to pay every dollar in reparations that her people can pay and the French are justified in extreme measures in collecting their share.

Another reason we don't want another war is we don't want Henry Ford to go off in another peace ship.

Seattle man was kicked by a horse. How quaint and old-fashioned!

Chicago is building a \$100,000,000 depot to scare strangers.

Beauty secret: It takes a little nerve to use rouge but the men will like your cheek.

Chewing gum may not be so nice but it is in good taste.

In Atlanta, a cop says he saw a statue salute a ghost. Atlanta needs a law against cops drinking.

The man who thought up paper napkins is still at large.

French might take money for coal. Germany has marks to burn.

A young lady got blue in the face talking back to our radio.

A woman tells us her husband is growing a moustache and she is kissing a clothes brush to get tough.

Raising a baby scientifically would be all right if you could get fit to be scientific in its crying.

Trouble with having a political job is you are always liable to lose it and have to go to work.

to do with regulating our weather. Without it, life on our earth would be impossible. It is the force that apparently has most to do with perpetuating life, and some even believe it is the source of life.

TODAY'S TALK

By GEORGE MATTHEW ADAMS

GET A PROSPEROUS HEART!

I am not any too expert at selecting prosperous people from the crowd, and yet I can sometimes make the selection.

The fact is that prosperity usually wears the same sort of clothes. Even a man's face dresses itself up under unusual success.

I have a friend who has an unusually prosperous heart. I know this for this friend never seems to run out of wealth that is constantly given away.

Smiles (no tears), thoughtfulness, appreciation, generosity, tolerance, kindness, self-sacrifice—these neglected virtues make up this prosperous heart.

Love, most, give much, forgive, forget, have no fear, relax, play, be positive in your thinking and in your decisions, remember that happiness is hidden right where you are and that to get it you have but to search for it, and your heart will take upon itself great prosperity.

What a wonderful experience to spend an entire evening with a prosperous heart!

Usually the most prosperous heart is that one which was once poor, which had to go through great privations and disappointments and discouragements, until finally it got a little hold upon life—and then life seemed so good that it went right on having faith and believing until it became naturally prosperous.

A prosperous heart is happy anywhere and everywhere.

You can't say that about a man prosperous only in pocketbook style.

Work toward a prosperous heart. How it shines and advertises itself by every line and plane of the face and in the very walk and manner of the body!

Why not go home with a prosperous heart to-night?

(Copyright, 1922, George Matthew Adams.)

JUST FOLKS

By—Edgar A. Guest

THE FLAG.
Emblem of all that makes life worth while, Freedom, security and sheltered homes, The mother happy in her baby's smile, Bright widow pines and temple spires and domes.

The school door open to the feet of all, Books and sweet music and the realms of art, Strong hands to help the weaker who may fall, Fame for the genius, whatsoever his start.

My chance that was—my boy's that is to be, All this is shielded in her starry folds, All this and more in fancy I can see— This is our flag, and this is what it holds.

(Copyright, 1922, by Edgar A. Guest.)

Texas Viewpoints

State Needs the Money.

Denison Herald: The legislature is in its advanced stage and the principles and attention of the members have been centered on how and where new sources of revenue may be discovered, whether by the institutions, established and to be established, may be provided for.

The fact that the people are already taxed beyond endurance and that business progress is endangered, presents no deterring argument against further impositions calculated to destroy property values and stay the march of development.

"Get the money" appears to be the sole controlling thought in all legislative bodies these days, from the highest to the lowest. Nor does it seem to be a very original idea.

"I have a friend who has an unusually prosperous heart. I know this for this friend never seems to run out of wealth that is constantly given away."

Smiles (no tears), thoughtfulness, appreciation, generosity, tolerance, kindness, self-sacrifice—these neglected virtues make up this prosperous heart.

Love, most, give much, forgive, forget, have no fear, relax, play, be positive in your thinking and in your decisions, remember that happiness is hidden right where you are and that to get it you have but to search for it, and your heart will take upon itself great prosperity.

What a wonderful experience to spend an entire evening with a prosperous heart!

YOU AND I

By ALBERT APPLE

SUCCESS For 80 years Charles Sheath has worked in an office in London, England. Sheath entered it when he was 14, as an office boy. While he still is in the same job, today he is one of the head officials of the group of railroads that uses the same room as his office.

Geography—location—is of "secondary" importance. It is the successful men make their opportunities instead of wandering until they find them. Success, young man, has to be created. It is not a plum, already ripened and ready to pick at some far-off corner of the earth.

FAMOUS If you read Dickens, you recall that Mr. Pickwick had his boots polished with Day & Martin blacking. Day & Martin was a real company, famous for generations.

Now it is selling out—quitting business. Its managing director, who is a trouble maker in his eyes, explains: "We failed to keep up our advertising."

It was advertising that "made" Day & Martin. But, in many other concerns, it thought that, once established, it no longer needed publicity. The public dies off and a new public is forever coming on the stage. This new public nature has to be reached by ads, else it will not know of the advertiser.

Do you like your name? In Hammond, Ind., the nurse tells a father that a fifth son is born to him. "Fifteen is enough," says pa. So he names the son Enough.

This may seem funny now, but it will not seem funny to Edward if he grows up and gets tired of jests about his name.

We carry our names with us as long as we live. Parents should select baby's name with great care. The selection should be made with an eye to whether baby will like his name when he grows up. Some people have to waste a lot of time and effort to change a name that another liked when she saw it in a novel.

A hundred home-brewers send samples of their cellar hooch, for analysis, to W. G. Brown, prohibition commissioner. West Virginia Brown reports that most of the samples are "absolutely dangerous for human consumption."

Many of them contained the deadly bacterial bacteria which causes botulism poisoning, more deadly than ptomaine.

For the stomach's sake, remember that the hooch in which home-made hooch ferments is really a garbage can. The contents undergo the various stages of decomposition, decay and putrefaction.

JESTER Dealers introduce these bills in the New Hampshire legislature. One would make the right horse sleep compulsory. Another would prevent any woman from marrying her grandmother's son. The third calls for a committee to investigate horses and see if they're happy.

The speaker, presiding over the legislature, reprimands the members who introduced the bills for their levity. At that, though, are they any more silly than some of the bills taken seriously by state legislatures and national congress?

HOSS The horse during the last year has lost his place in the race of the auto. There are about 13,522,000 horses on American farms now. That's 13,522,000 less than there were in 1910.

During those two years, the horse has slowly been on the downgrade, in numbers. But auto men needn't chirp, for the horse is vanishing at such a slow rate that it would take over 40 more years to make him extinct.

Dear Mr. horse lover, Dobbin will be here in multitudes when people discard autos and use airplanes.

NERVES More hospital cases of nervous breakdowns than any other disease, reports the Dr. Lambert of Columbia university. He says one person in every 10 is treated for this trouble at some time or other during life. Often nervousness is mental or physical. Nervous is a penalty for the noise, rush, battling, worry, filth, congestion and other unnatural living in "civilization."

LITTLE BENNY'S NOTE BOOK

By LEE PAPE

We was eating supper, being stew with more gravity than dumplings, and some boys selling papers starting to go past the house yelling, pop saying, Benny, go to the door and find out what they're selling. It must be about something in the neighborhood.

My goodness I hope it's nothing but a pretty girl. Which I went out to see, and they were yelling, Big merder, all about the big merder. And just then the door of the fallow started to go, past all excited, me saying, Wait a matter, fellows?

Fuds Simpson and Sid Hunt are going around the alley to have a fight come on errand, Sam Cross said.

Which I did, going errand with them and they got around there Fuds said, Now, those I hear? You are, whose number? Sid said, You are, now go ahead and hit me first, you ain't got the nerve, Fuds said, You ain't got the nerve either. Your place to hit me first. And they kept on waiting time trying to get hit first till the fight started. I was standing there and just then I remembered I aint to be sitting back and I quick climbed over our back fence and went in the door and out with my stick. Gladie was in there but not pop me saying, It was all about a merder, me.

I didn't you come back some time next week and tell us your father is out at the front door for the 4th time looking for you, he said, but it was just a joke. My stick is completely spilt and you know how he likes stew with dumplings, ma said.

We two made one. With just then pop came back and I quick red, its a merder, pop.

We'll I wouldn't go so far as to say that, but it was extremely funny, believe me, pop said.

Which it was.

BREAKING WARTIES

By Morris

VAL OF PARADISE

By Uniqe C. Roe

But Lolo pushed him down with her little hand.
"Stake me," she said. "I give you leave."
Brideman stared for a moment in dull amazement at the girl's words. Then his great laugh boomed in the room once more, the sparkle came swiftly to his blue eyes.
"Don't," he cried, "come on, youngster, if you're a stayer! I stake Lolo, the Rose of Santa Leandra, against your whole pile!"

The speaker, presiding over the legislature, reprimands the members who introduced the bills for their levity. At that, though, are they any more silly than some of the bills taken seriously by state legislatures and national congress?

HOSS The horse during the last year has lost his place in the race of the auto. There are about 13,522,000 horses on American farms now. That's 13,522,000 less than there were in 1910.

INCOME TAX FACTS

No. 2

While the exemptions for married persons are \$2,500 for persons whose net income for 1922 was \$4,000 or less, and \$2,000 for persons whose net income was more than \$4,000, there is inserted in the income tax law a qualifying clause in justice to the taxpayer, whose net income just exceeds \$2,000. The law provides that the reduction of the amount of the exemption from \$2,500 to \$2,000 shall not operate to increase the tax which would be payable if the exemption were \$2,500 or more than the amount of net income in excess of \$2,000.

For the year 1922 there is no change in the normal tax rates. The normal rate on the first \$4,000 of net income in excess of the exemptions and 8 per cent on the remaining net income.

The surtax rates which apply only to net income in excess of \$4,000 are lowered for the year 1922 the surtax rates range from 1 per cent on the amount of net income between \$4,000 and \$10,000 to 5 per cent on the amount which the net income exceeds \$10,000.

The surtax rates range from 1 per cent on the amount of net income between \$4,000 and \$10,000 to 5 per cent on the amount which the net income exceeds \$10,000.

The tax may be paid in full at the time of filing the return or in quarterly installments, due on or before 15th, 30th, June 15, September 15, and December 15, 1922.

Copyright, 1933, by Public Ledger Company

Man Has Turned to His Own Advantage the Incessant Warfare That Is Going On in the Insect World, Breeding and Liberating Vast Armies to Prey on Pests and Searching for the Parasite Which Will Destroy Them

The Conflict of the Midgets, Which Is Often Waged on a Pinhead Battlefield

AT THIS chilly season of the year the amateur naturalist who is fond of outdoors finds much pleasure in collecting the eggs of moths and other insects, and afterward in hatching them and rearing the larvae. Most insects lay their eggs in autumn, on leaf, or plant-stalk, or tree-branch, to await hatching until warm weather comes again, and during the winter they are rather conspicuous and easily found.

The business of hatching insects' eggs is conducted by the Federal Government on a very large scale, occupying much of the attention of the Bureau of Entomology, which, under the direction of Dr. Leland O. Howard, maintains no fewer than seventy-five "field laboratories," widely scattered. At every such laboratory an outfit is maintained for incubating the eggs and studying the development and habits of insects that attack the crops, or which are otherwise of economic importance.

Many species of moths are the parents of caterpillars which devour cultivated plants. Some of them lay their eggs in batches; others scatter them about, singly or in couples. One kind deposits them on the points of thorns. Some cover them with scales or hairs from their bodies. In every case the object of the mother moth is to place her eggs where the baby caterpillars when hatched will find their chosen food close at hand.

The eggs of many insects, examined under a strong magnifying glass, are very beautiful. In warm weather the easiest way to procure the eggs of a moth is to capture the female, shut her up in a cage with a sprig of the proper food plant and feed her on a sirup of sugar and water. A small glass jar, covered with mosquito net, will serve the purpose. If a little sponge, saturated with the sirup, be laid upon the net, the moth will soon find it and feed contentedly through the mesh. She will live for a week or ten days, and, if the sponge be kept moistened, will deposit her eggs upon the plant.

Many species of beetles lay their eggs underground, and the latter, for purposes of observation, are hatched in jars partly filled with earth. Grasshoppers, likewise, bury their eggs. If it be desired to watch the performance the easiest way is to put a female "hopper" into a glass-covered box containing earth a foot or so deep, allow her to attend to the business for herself and wait for the young ones to emerge in due season. The lady grasshopper drills a hole in the ground with the horny tip of her abdomen, and in it she deposits about twenty eggs. Then she fills up the hole with mucus, making it water-tight—a necessary precaution, inasmuch as her offspring will not come out until the following spring.

METHODS of hatching insects' eggs necessarily vary with the species. Some have to be hatched under water—as, for instance, those of the buffalo gnat, the larva of which is aquatic. It is thus with the eggs of the giant fly, commonly known as the "electric light bug," whose larva crawls on the bottom of stagnant ponds.

It may be asked, of what economic importance is the electric-light bug? And the answer is that, in its winged form, it is a destructive enemy of little fishes, diving into fish-ponds at night, seizing them and sucking their blood. This insect vampire makes a great deal of trouble for fish culturists.

One would hardly imagine that wasps had any economic importance, yet it is a fact that they give trouble to grape-growers in California and elsewhere. Nowadays fancy grapes fetch high prices, and in some vineyards the individual bunches while ripening are enclosed in paper bags to prevent the insects and birds from damaging them. Often the bags are torn to pieces or disappear. Wasps carry them away for nest-building.

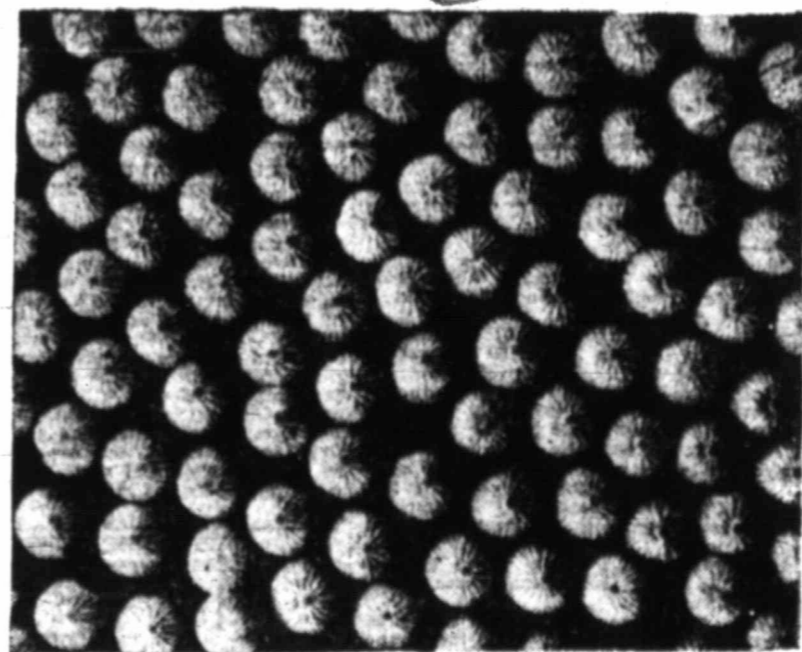

Wasps' nests are made of paper—woodpulp paper. The wasps usually get their woodpulp not from trees but from old boards. They scrape off some of the woody fiber and chew it up, thereby mixing it with saliva and converting it into the stuff they need for nest-building. Their preference is for seasoned wood, and it is for this reason that their nests are usually gray in color. But ready-made paper, from their point of view, is cheaper.

Recently an amateur naturalist, strolling through the woods just outside of the city of Washington, came across a large wasp nest that struck him as very remarkable. It was sky-blue. Investiga-

tion disclosed the fact that its material must have been derived from a house that was being built not far away, in which roofing paper of that color was used.

Wasp nests are sometimes as much as two feet long. When one is cut open its interior is found to be a mass of cells. In these cells the eggs are laid and hatched, the young larvae being fed by the working members of the colony with chewed-up pieces of insects.

IN ORDER to fight an obnoxious insect successfully, the whole story of its life must be known. Hatched from the egg, it is watched through all its transformations. A mosquito, for example, on "chipping the shell," is first a wiggler, then a pupa and finally a winged

Eggs of the moth that is the mother of the destructive cutworm

pillar. Hardly has it begun to feed when it is assailed perhaps by a minute fly, which lays its own eggs in the caterpillar's body. Tiny maggots hatched from these eggs devour the caterpillar, and it dies.

The eggs of moth or beetle may be parasitized before they have had a chance to hatch. Enemy insects may lay their own eggs inside of them. This is a hard world for "bugs." If it were not for the parasitic insects' goodness knows how any effective fight could be put up against the caterpillars and beetles that devour the cultivated plants.

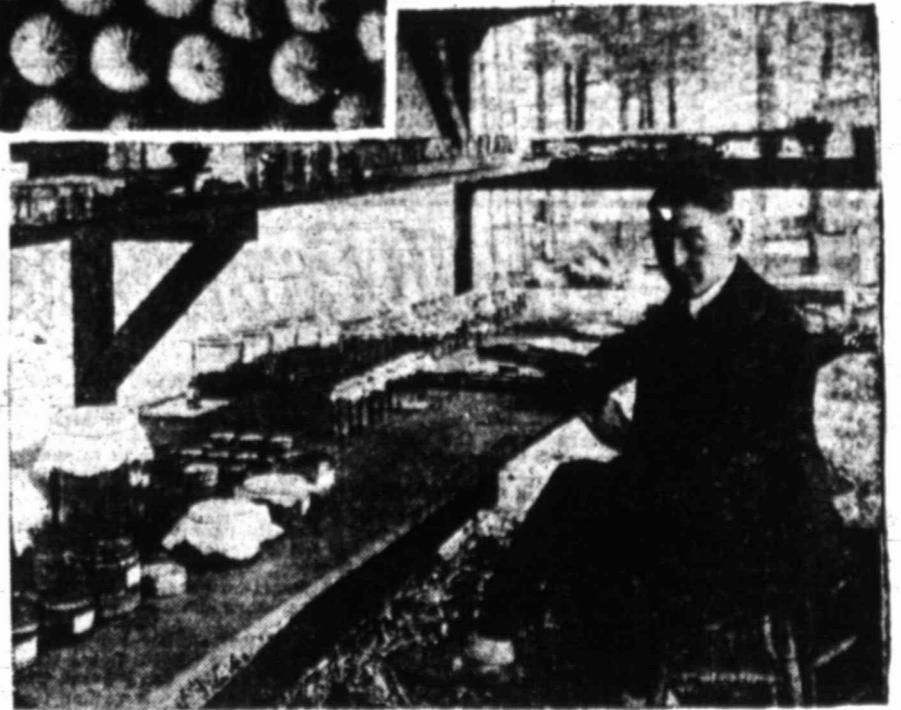

Accordingly, in the egg-hatching business much attention is paid to the parasites, which are always at hand. Suppose, for instance, that there is under observation a handful of weevil-infested corn in a glass jar. The weevils (tiny beetles) have laid their eggs among the grain. Soon the little grubs make their appearance, and simultaneously are hatched in the jar the eggs of a fly, whose maggots attack the grubs. That fly is a friend of man; it is worth identifying as a species, and its life history calls for study.

The United States Bureau of Entomology devotes much attention to the insect foes of the housewife, especially those which attack the foodstuffs in the family larder. There are many of these,

looks somewhat like a greenhouse, being covered with glass to admit plenty of light. Ranged on shelves, on tables and on the floor are glass jars and glass-sided boxes containing fruits, vegetables, grains, etc. One sees nothing of the insects, which are either hidden inside of the infested material or else wrapped in cocoons.

One cocoon, nine inches long, hanging from a twig in a big jar, attracts the eye. It is the nest of a gregarious butterfly, from Mexico, and contains 100 or more chrysalids. Each chrysalis represents a future butterfly, so that the nest is the winter home of a whole flock. At the bottom of the cocoon is a little door, through which the insects will make their way out when warm weather arrives.

The silk of this cocoon is most exquisite and one is told that twenty or more sheets could be stripped off of it, looking as if woven in a loom. If the silk could be spun, the caterpillar of that Mexican butterfly would soon displace the silkworm, for in the forests of

Hatching insect eggs which will be used in experiments in an effort to find the natural enemy of pests

mostly beetles and moths. The appearance of such pests in cereals and other stored foods is often so mysterious, and their propagation so enormously rapid, that the notion that they are generated spontaneously is still widely entertained.

But the truth is that an egg must be laid in the oatmeal or hominy grits before a single insect can occur in such articles of diet on the pantry shelves. Attached to one of the buildings of the Department of Agriculture, in Washington, is a completely equipped bug hatchery, properly called an "insectary." It

Mexico its nests can be gathered in immense numbers as a wild crop. Unfortunately, all attempts to utilize it have been unsuccessful.

But, where communal nest-building is concerned, there is no insect that can vie with one of our own native moths, whose offspring is the "tent caterpillar." Not long ago, near Winchendon, Mass., caterpillars of that species erected an enormous encampment along a roadside, comprising more than 3000 nests, which had the shape of huge tents, some of them more than six feet high.

fly. But the eggs of some species of mosquitoes (like those of the common rainbarrel sket) float on water until hatched; others are laid on the surface of water and sink to the bottom; others are deposited in moist mud, and yet others in hollow places on dry land, to await the coming of spring rains or water from melting snow. There is even

one kind of mosquito that lays its eggs in the pitchers of pitcher plants. Each species thus offers a distinct problem.

The Government's egg-hatching work, however, has another object in view. Every economically important insect has its parasitic enemies. No sooner does it emerge from the egg than it is liable to be attacked. Suppose that it is a cater-

2 HARD GAMES ON TUESDAY SCHEDULE IN QUINT LEAGUE

American Legion vs. Methodists. Ineligibles vs. Collier & Landon. Three teams that participated in the play-off of the first half of city league basketball...

UNUSUAL BASKETBALL RECORD MADE BY VINCENNES, INDIANA, FIVE

Left to right, Coach Adams, Reese Jones, "Red" Wampler.

By NEA Service. VINCENNES, IND., Jan. 30.—Indiana, the hotbed of basketball in the United States, is mighty proud of the record of the Vincennes high school five.

The gymnasium of the Vincennes team is not a trick affair working greatly to the advantage of the home team. Rather it is one of the finest floors in southwestern Indiana.

The outstanding figures on the Vincennes team are Red Wampler, the 125-pound forward, and Reese Jones, the husky six-footer who tips the beam a trifle better than 200 pounds.

REB RUSSELL WAS BIG THUNDER IN NATIONAL LEAGUE

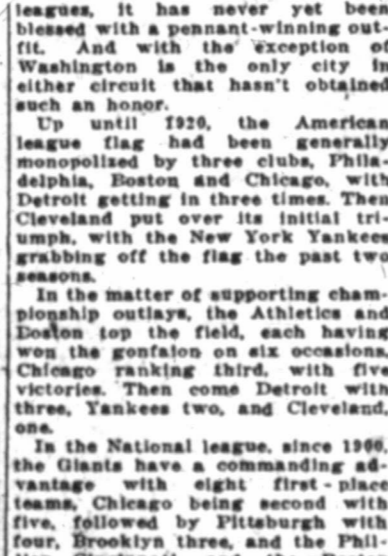

National league pitchers have given plenty of attention to "Reb" Russell of the Pittsburgh team the coming season. Russell, former White Sox pitcher, is now the big thunder in National league swat circles.

TWO VETERAN MANAGERS, M'GRAW AND MACK LEAD ALL OTHER RIVALS IN PENNANT WINNERS

JOHN MCGRAW

For a while last season it appeared that baseball precedent was being set for a pair of sports, but they failed to materialize when the two St. Louis clubs faltered in the stretch of the major league races.

CONNIE MACK

In plotting pennant-winning combinations, old "Jawn" McGraw of the Giants stands supreme with eight triumphs in 20 campaigns.

HARRY HEILMANN

Harry Heilmann, hard-hitting right fielder of the Detroit Tigers and American league batting champion in 1921, aspires to a new honor.

50 GOLFERS ENTER OPEN TOURNAMENT AT CORPUS CHRISTI

CORPUS CHRISTI, TEXAS, Jan. 30.—Practice play was scheduled today for golfers from many states gathered here for the Corpus Christi Golf and Country club open tournament.

SEASON OF 1923 SHOULD BE BIG ONE FOR MAJOR LEAGUE RECRUITS

Third base appears to be the most unsettled position in the American league. Of the eight clubs, Joe Dugan of the New York Yankees is the only player who has his position clinched.

his play questionable, while Eddie Foster cannot stand the strain of regular work. Willie Kamm, the \$100,000 beauty from the San Francisco team of the Coast league, is expected to be a fixture.

VERNON COMMANDERY IS HAVING CONCLAVE

VERNON, TEXAS, Jan. 30.—Vernon Commandery No. 33 will have a convclave beginning at 2 p. m. today. All of the Sir Knights and their ladies are invited to the banquet to be held in honor of the new candidates.

WESTERN LEAGUE JOINS OPPOSITION TO DRAFT MEASURE

KANSAS CITY, MO., Jan. 30.—The Western league has taken a definite stand against the major league draft plan. Meeting behind closed doors here yesterday, Western league club owners voted in line with the stand of President Al Toney in opposition to the draft plan.

PHILLY MANAGER MAKES PLANS FOR COMING SEASON

ARTHUR FLETCHER

Gase on Arthur Fletcher, new manager of the Philadelphia National, in winter attire. Fletcher has just arrived in Philadelphia for a conference with President Baker relative to plans for the coming season.

TYGER'S SLUGGER FAST BECOMING HANDBALL EXPERT

Harry Heilmann, hard-hitting right fielder of the Detroit Tigers and American league batting champion in 1921, aspires to a new honor.

Hoppe to Meet Jack Schaefer

NEW YORK, Jan. 30.—Jake Schaefer to get another whirl at Willie Hoppe for the 18.3 balling billiard title. Recently Schaefer met Roger Conit, the French champion, for the right to play Hoppe. Schaefer won in a decisive manner.

Crack Golfers Invade South

Texas is certainly strong for its golf. The winter golf lid has already been pried off at San Antonio. A prize list of \$4,000 enticed practically every professional of note to the southland.

ARCHER CITY WILL PROBABLY BE SITE OF CAGE TOURNEY

Indications were Tuesday that the district basketball tournament early in February would be held at Archer City. Of the ten votes cast for a meeting place, Archer City received four, Wichita Falls three, and Electra one; the two votes outstanding may change the result, but are not likely to do so.

Billy Evans Says

Stars at certain positions in baseball run in cycles. Ten years ago the American league was rich in shortstops. Today it is a much different story when you start giving the shortstops the once over.

Johnny Lavan, who later developed into a crack fielder, was just breaking into the majors. What an array of talent! Peckinpaw alone remains, and Roger is beginning to slow up a bit.

Gas Dont's. Don't let your appliances get out of adjustment. Don't let your lines become defective. Don't look for leaks with a match or candle. On the other hand have a dependable gas fitter or plumber do your work, either new or repair, and you will find Natural Gas the safest, cleanest, most convenient, and most economical fuel you can use. Municipal Gas Co.

NORTH SIDE DITCH
IOWA PARK'S CHIEF
AIM IN 1923 WORK

CHAMBER OF COMMERCE HAS
ENTHUSIASTIC ANNUAL
MEETING MONDAY.

CITY HALL, PARK AND
FIRE STATION PLANNED

Number of Speakers Are Heard—
Six New Directors Elected
For Year.

Staff Special to the Times.
IOWA PARK, TEXAS, Jan. 29.—
The Iowa Park chamber of
commerce at its annual meeting Monday
night adopted an irrigation
plan as its chief aim for 1923; the
building of the north side ditch was
decried to be the big and all-en-
compassing task before the community
this year. About 100 men and
women attended the meeting and
approved the excellent and inspiring
program.

Here's to the men of brawn and
brain.
Who can build a town without any
rain?
It's only the men who hope to get
rich,
Will brush up their brains and vote
for the ditch.

Such was the way Mrs. Mamie
Dale Brown summed up the situation
as affecting Iowa Park. Here
wasn't the only home-made poetry
that graced the occasion, either. The
chamber of commerce quartette
sang verses that dealt with
the history of Iowa Park, and it
went over big. It left every com-
munity that has a chamber of com-
merce secretary who can write
poetry and then help sing it.

Progress 1922's Work.
While the construction of the
north side ditch was put first on
Iowa Park's program for 1923, it is

Why Corns?
Blue-jay
to your druggist

The simplest way to end a
corn is Blue-jay. A touch
stops the pain instantly. Then
the corn loosens and comes
out. Made in a colorful
liquid (one drop does
it) and in thin plasters. The
action is the same.

Pain Stops Instantly

MRS. W. H. PASCHALL

Every Woman Needs a Tonic
at Some Period of Life
Read This

Dallas, Texas.—"I had been in ill
health for a long time and then a
more serious condition developed. I
was under treatment of a doctor, but
would not see much improvement. I
then began taking Dr. Pierce's
Favorite Prescription and now I am a
perfectly well woman. I shall al-
ways be glad to say a good word
for Dr. Pierce's Favorite Prescrip-
tion." Mrs. W. H. Paschall, 4114
Metropolitan street.

How Doctors
Treat Colds
AND THE FLU

First Step in Treatment is a
Briak
Purgative With Calomel, the
Purging and Refined Calomel
Tablets That Are Non-toxic,
Safe and Sure.

Doctors have found by experience
that no medicine for colds, coughs,
sore throat, and influenza can be
relied upon for full effectiveness
until the liver is made thoroughly
active. That is why the first step
in the treatment is the new, nau-
seous calomel tablets called Calo-
mels, which are free from the sick-
ening and weakening effects of the
old style calomel. Doctors also
point out the fact that an active
liver may do a long way towards
preventing influenza and colds and
be one of the most important factors
in enabling the patient to success-
fully withstand an attack and ward
off pneumonia.

One or two Calomels on the tongue
at bed time, with a swallow of water
that's all. No salts, no nausea,
nor the slightest interference with
your eating, pleasure or work. Next
morning your cold has vanished,
your liver is active, your system is
purified, and you are feeling fine,
with a hearty appetite for break-
fast. Genuine Calomels are sold only
in original sealed packages, price
twenty-five cents for the large fam-
ily package, ten cents for the small,
pocket-size size.—adv.

Veteran Motorman Dies
On Day That Brought
Promise of Independence

not the only item on the program.
Other things planned for the year
included:
A new city hall and fire station,
well equipped.
More street and sidewalk paving,
especially in the business section.
A city park, already being fi-
nanced.
Improved lighting and telephone
facilities.
A bigger cotton market.
Encouragement was given the
reception of the program by the re-
tal of 1922's accomplishments; these
included the completion of the water
system, the starting of the
saw system, the setting out of
2,000 shade trees, the changing of
the road construction program so as
to be of more benefit, and the build-
ing of \$100,000 worth of homes, and
the organization of a poultry asso-
ciation, which staged one very suc-
cessful show.

The meeting was held in the I. O.
O. F. hall, where the dinner was
served by the Hotel Helton man-
agement. The report on a re-
cord of generous helpings of turkey
and its excellence was in line with
Iowa Park's traditions in the way
of providing feasts.

Mass. Speakers Heard.
J. R. Pace presided as toast-
master and put out a line that
was among the featured to
tears, had that Wichita was present.
His introductions and com-
ments added much to the jollity
of the occasion.

The principal address of the evening
was by Leonard Withington,
editorial executive of the Fort
Worth Record. He made several
sound suggestions on
community work with a running
fire of appropriate and effective
advice.

J. A. Wise of Electra, Walter S.
Duvall of Burkburnett, Hubert M.
Harrison and C. H. Clark of Wichita
Falls, and other speakers. Mr.
Pace was the other speaker. Dr.
Frank Clark, president of the
chamber, gave his annual report.
The Wichita county speakers made
their remarks brief and practically
all sounded the keynote of county
cooperation for the good of the
county as a whole.

Burnett Tells of Plans.
Mr. Burnett outlined briefly his
plans for the celebration in April,
which he said was to be in keeping
with "irrigation and civilization and
such things." A historical pageant
will be arranged, and it
is also planned to have a small
model irrigated farm as an object
lesson.

The chamber of commerce quar-
tet, composed of Roy Arnold, A. C.
Golden, Otis Kidwell and W. B.
Siska, sang a song alleged to have
been written by Mr. Arnold, to the
tune of "Casey Jones." It dealt with
the founding of the town, the
early county seat election, the ar-
rival of Tom Corcoran Jr., the first
child to be born in the town, the
coming of irrigation, and other
important events in the commu-
nity's history, and made a tremendous
hit.

Much Excellent Music.
A high school girls' quartette,
armed with whistles, gave a number
of pleasing selections. Misses Eliza-
beth Phillips, Eunice Dennis, Thelma
Mathews and Aileen Bogey were the
members. Two readings by Miss
Mathis, expression teacher, were
heartily enjoyed. A violin solo by
Mrs. J. H. Renfro and a vocal solo
by Mrs. J. H. Renfro, with Mrs.
Chester Zink at the piano, were
musical numbers that added greatly
to the charm of the occasion.

Members voted on six directors of
the chamber of commerce, out of 13
nominations. Tom Burnett, J. C. Ras-
ton, W. F. George, J. F. Boyd, T. J.
Pace and L. L. Linn were the six
elected. These will meet Thursday
afternoon with the holdover direc-
tors to elect officers for the en-
suing year.

ELECTRA MAKING PLANS
FOR SCHOOL BUILDINGS
ELECTRA, TEXAS, Jan. 29.—E. M.
Friend, chairman of the local school
board, Superintendent M. M. Din-
more, Brogue Magee and Buford O.
Brown returned yesterday from an
inspection trip to Brokenridge and
Ranger, where they visited the new
school buildings being completed at
those places, with a view to making
recommendations for a proposed
building in Electra. The buildings
at Brokenridge and Ranger cost
about \$150,000 each and will care for
500 to 700 high school students.

Members of the church being
used in Electra to take care of an
enrollment of more than 2,300, it is
likely that the citizens will be asked
to vote as soon as possible on a
bond issue to provide adequate fac-
ilities another year. Recently dis-
covered oil fields in the school dis-
trict will make possible a bond issue
without any increase in taxes. The
school board will decide Thursday
regarding the calling of a bond
election.

FOURTH OF CHURCH BUDGET
ALREADY PAID IN CASH
ELECTRA, TEXAS, Jan. 29.—The
third month of the conference year
of the Methodist church, which closes
with more than one-fourth of
the church budget for the year
having been paid in cash. The bud-
get was adopted last November and
a church secretary employed. Her
work has resulted in a number of
people whose membership had
lapsed or been lost, taking active
part in the church. Forty-two new
members have joined the church
since conference without any special
campaign for increased membership.

Reduce Mail Losses.
WASHINGTON.—Losses to the
government through mail bandits in
major mail robberies have been ma-
terially reduced by the relentless
warfare waged by the postoffice de-
partment. They have aggregated
only \$21,482 for the large nine months
compared with \$1,129,266 for the
year ending March 31. Two years
ago \$4,847,077 was stolen from the
mails, of which \$3,218,917 was re-
covered, leaving a net loss of \$1,628,160.

Plan Busy Trials.
CHICAGO.—Early trials for the 24
men indicted by a grand jury on
charges of conspiring to obtain \$1,000,000 from the Chicago board of
education funds were anticipated
here today when it became known
that all those indicted, including
F. R. Loring, reputed political
"boss" and supporter of Mayor Wil-
liam Hale Thompson, was on his
way here to submit to arrest, give
bond and ask for an immediate
hearing.

Will Undergo Operation.
LOS ANGELES.—Viola Davis, ac-
tion picture actress, is expected to
undergo an operation for appendi-
citis in a hospital here today.

John Gatlin, aged 49, an employe
of the traction company contin-
gently from the time the first spade
full of earth was turned in con-
structing the line, died at the gen-
eral hospital at 6 p. m. Monday. He
had been in poor health for some
months.
Mr. Gatlin was employed on a
construction crew when the car line
was first built, and became a motorman
when it started operation,
thirteen and a half years ago. Dur-
ing his long service he never had an
accident, was never reported for any
infraction of rules, and made a
record unique for its sincerity of
service and its faithfulness.
On the very day that death came,
Mr. Gatlin received a check for
\$1500 from an oil company which
had leased his farm near Geary,
Oklahoma. Mr. Gatlin acquired the
farm 20 years ago and had it rented
since moving to Wichita Falls. Late-
ly, oil discoveries in that section
added to its value, and he accepted
an offer of \$5000 for a lease on it,
the \$1500 first payment, reaching
him Monday, with its promise of
freedom and independence.

Both T. R. T. Orth, the first su-
perintendent of the traction com-
pany, and L. L. Albritton, the pres-
ent superintendent, voiced deep re-
gret at the passing of the veteran
employe. His last service was on
the Southland line, and his patrons
often remarked upon the care and
courtesy of the slim, gray-haired
motorman whose name few probably
knew, yet whose efficiency and
kindliness nearly all recognized.

Funeral services were to be held
Tuesday afternoon at 4 o'clock from
the Merkle-Lay chapel, Rev. J. D.
Pinkston officiating.
Surviving are the widow and two
daughters, Bernice, aged 17, a
student in junior college, and Muriel,
aged nine; three brothers and a
sister also survive.
Palbearers will be W. E. Laws,
C. W. Stearman, Ed Ewing, Will
Pierce, Carl Jones and O. L. Gibbs.
Burial will be in Rosemont.

ADDITIONAL FIRE PLUGS
INSTALLED AT ELECTRA
ELECTRA, TEXAS, Jan. 29.—The
placing of a new fire plug at the
intersection of Cleveland avenue
and Main streets is part of the plan
of local authorities to give more
ample fire protection. New plugs
have also been placed in South
Electra near the Thompson school.
Work on the new 18-inch water
main to South Electra is about
complete.

SLOW MISTY RAIN
FALLS THROUGHOUT
NIGHT IN DISTRICT

A slow steady rain, which did not
produce a sufficient amount to be
measurable, fell throughout the
night over the entire district
touched by local railroads. It pro-
duced a sufficient amount of mois-
ture, however, to create a slushy
surface to the ground and streets.
The thermometer locally varied
but four degrees from Monday after-
noon until Tuesday morning. The
maximum temperature was 37 de-
grees and the minimum 33 de-
grees.
Electra was visited with a heavy
rainfall Monday and points north
and west of this town received a
greater rainfall than did the town.
The total rainfall here for the past
24 hours was only one-tenth of an
inch.
Locally the wind continued from
the south but Woodard reported a
light north wind.

Changing Methods
But Not Principles

We find it expedient to often change
and enlarge the facilities and serv-
ices of this bank, to keep pace with
changing conditions.
But the fundamental and guiding
principle back of the service does not
change. That principle is usefulness.

Where Do
You Live?
From this list of widely
separated cities you can
compute the time of de-
livery from St. Louis to
your door by St. Louis
package car service.

Table with 2 columns: City, Days. Lists cities like Albuquerque, Atlanta, Dallas, etc. with corresponding delivery times.

St. Louis Package Car Service
for 1923 Spring Stocks

MERCHANTS throughout the Middle West have the advantage of quick
delivery of Spring stocks from St. Louis by a complete package-car system
without extra expense. More than 1,200 package cars for less-than-carload
lots leave St. Louis every night by through freight on connected schedules for points
in the St. Louis trade territory.
This dependable, prompt delivery from St. Louis, arranged for your benefit,
places the goods on your counters for advance Spring announcements and quick
turnover—it solves the time-in-transit problem for you. It gives you an advantage
over competitors who buy in other markets with the usual uncertainties about
deliveries.
St. Louis wholesale houses have the largest open stocks of any market in the
country. Imported and domestic products of widest varieties are ready for immediate
shipment. St. Louis is your nearest big market. You can buy your entire needs in
St. Louis' compact wholesale district. This saves you time, railroad fare and hotel
bills on your buying trip.

St. Louis invites you to arrange your Spring buying trip so that you can attend its
Big Merchandising Conference
and Retail Merchants' Institute
February 6th, 7th and 8th
Information to retail merchants along the
latest and most effective lines of modern
store operation. Actual business-getting fea-
tures will be demonstrated. It will help
solve your business problems.
Thirty merchandising experts of national
reputation will discuss new methods of dis-
playing and selling goods. The business
"tips" and ideas will be valuable to you in
the conduct of your store.
Held by the Advertising Club of St. Louis, assisted by the Sales Managers' Bureau,
Chamber of Commerce, and leading manufacturers and wholesalers in conjunction
with the District Conference of the Associated Advertising Clubs of the World.
