DAMAGE SUIT FOR FIFTEEN MILLIONS

ST. LOUIS, July 19 (AP)—A suit for \$15,000,000 damages, the largest sum ever named in a damage suit here, has been filed in circuit court in behalf of James C. Huber, said by his attorney to be a London promoter, against M. C. Marrett, said also by the attorney to be a London capitalist. It was announced today.

14 minutes were allowed at McCook Field for refueling the Curtiss pursuit plane.

"I feel much better on this trip than I did on my former attempt," declared Maughan upon landing here.

"My time was not good but I played safe. I did not lose the way for a single instant although heavy haze and fog were encountered over Pennsylvania."

"In place of flying a compass or straight course, I flew a circuitous one, using familiar landmarks to keep me on the course. This of course cut down the time, but I lost the way entirely as I did the last time."

"My air speed indicator showed only 151 miles an hour for the greater portion of the way between New York and Dayton."

RANGERS ARE ASSISTING OFFICERS INVESTIGATING KILLING NEGRO FARMER

MARSHALL, TEXAS, July 19. (AP)—Before relinquishing the executive chair to Governor Neff who returned yesterday from a trip to Panama, Acting Governor T. W. Davidson sent a telegram to Ranger Captain Nichols, stationed here, asking the officer to give all possible aid in the apprehension of parties who killed the Burfin Negro farmer, near Waskom, Texas. It became known here today.

Captain Nichols has stationed two rangers at Waskom to assist in the investigation of the slaying.

Burfin was shot to death last Saturday night by a party of white men, who called him from his home. The assailants then drove off in an automobile.

The grand jury is expected to resume investigation of the affair today.

CONCRETE WORKER HAS ARM FRACTURED AT DIVERSION DAM

A. L. Reed, a concrete worker employed by the Calahan Construction Company at the diversion dam, was brought to General hospital late Wednesday afternoon with a broken right arm and painful bruises about the hand, as a result of an accident at the dam when his arm was caught in the fly wheel of a concrete mixer.

According to reports, Reed was working on the mixer with a screw driver when the instrument slipped and he was thrown into the moving wheel. He sustained a broken arm and painful flesh wounds where the screw driver was driven through his arm.

Claims 30 of 62 Civilized Nations Enemies of U.S.

NEW YORK, July 19. (AP)—Thirty of the 62 civilized nations of the world are potential enemies of the United States, Mrs. Carrie Chapman Catt, honorary president of the National League of Women Voters yesterday told 1,600 women summer students at Columbia University. Mrs. Catt urged that this country call a conference of all nations to solve present world difficulties. Disarmament, she asserted, was essential to world peace and security.

Mrs. Catt listed 17 of the 29 Latin American republics as among the potential foes of this country. She said these countries believed the purpose of the United States in maintaining the Monroe doctrine was not to prevent foreign aggression, but "to grab."

Mrs. Catt said she favored cancellation of the British debt to America in order that the British might cancel the obligation of France to her, so that the latter country could apply the same policy to Germany and withdraw from the Ruhr. She asserted, however, that the United States should demand the signing of a disarmament pledge as a condition.

Heat Wave Here Relieved Early Thursday Morn

Because of the light south wind that was blowing early Thursday and the clouds that covered the sky, the day dawned a bit cooler, but the cool spell was not very long lived. As the forenoon wore on Old Sol soon drove the clouds to cover, and in spite of the fact that he had no effect on the wind, the day was warm.

Weather conditions Thursday morning were practically the same over the entire surrounding territory. The skies were generally cloudy in most parts, and the temperature was a trifle lower than that of the past few days, with the mercury hanging around 80 degrees.

According to the dial thermometer at Art's Jewelry company, the maximum in heat recorded Wednesday was 107 degrees in the afternoon, remaining at that point for several hours. As a minimum for the 24 hours the mercury dropped to 64 degrees early Thursday morning.

NEGRO DIES RESULT INJURIES FREIGHT TRAIN ACCIDENT

Alonso Golden, a negro who gave his home address as Haines, Kansas, died at General hospital Wednesday afternoon from injuries received when he was thrown under a moving freight car near Burkburnett Wednesday afternoon. Golden was brought from Burkburnett to General hospital Wednesday afternoon at 1:30 o'clock and died an hour later.

His left foot was severed from the leg and the right was badly mangled. It is said that he was attempting to catch a moving freight train when he lost his balance and was thrown across the tracks in the path of the car wheels, which passed over his lower limbs. The body is being held at Merkle-Lewis Undertaking Company awaiting advices from relatives in Haines.

Girl Confesses To Attack Made On Step Mother

WAUSAU, WIS., July 19. (AP)—Mary Lawando, who was found in a swamp near here late yesterday after an eight day search, confessed to Sheriff Arthur Stewart early today that she attacked her step mother, Mrs. Anna Lawando on the night of July 10, beating her over the head with a club. The girl, according to the sheriff, refused to make known the reason for the attack other than to say that she had trouble with Mrs. Lawando.

The girl, who was captured in a swamp six miles south of here last night after a thrilling chase the climax of an eight day hunt, is in a local hospital recovering from the effects of her wanderings. When taken by the sheriff's posse last night, the girl's condition was such that she could not talk above a whisper. She spent a partly delirious night, hospital authorities declared, but indicated by a negative shake of her head that she knew nothing of the attack on her step-mother. In making her confession Mary said:

"My stepmother and I were good friends when I worked, but when I did not work and stayed at home, I was different and we did not get along. Mary was removed from the home about this morning to the county jail, where she is being held, pending the placing of a charge against her later in the day by the district attorney."

SULLIVAN SAYS RUHR OCCUPATION NOT SUCCESSFUL

FRANCE BLAMES BRITISH AND SAYS SHE WILL SUCCEED ANYHOW.

MEANS BRINGING ABOUT DISRUPTION OF GERMANY

Railroad Operation in Ruhr Not Twenty-Five Per Cent of Normal.

By MARK SULLIVAN, Political Correspondent of the New York Tribune and Wichita Daily Times.

LONDON, July 18.—British says that the Ruhr occupation, besides being illegal, is not a success.

France publishes statistics showing an increasing production of goods in the Ruhr factories, though admitting that the present production is only about 25 per cent of normal.

All statistics on conditions in Germany are out of date before they are compiled. But you do not need statistics when a woman takes a person you look out across from her as big as those at Bethlehem and see not one human being in sight, not one car or piece of machinery in motion, nor when you see trees and acres of railroad tracks

and switches as big as those at the Panama canal at Jersey City and not one car in motion, but every track empty, nor when you see a growing out of a railroad car that must have stood at one spot since early spring. Nor when you see how high wheat grows between the tracks.

Railroad Operation. Railroad operation in the Ruhr is not anything like 25 per cent of normal. A British leader who is a practical railroad man told me that it would take 100,000 skilled French railroad men working steadily for every car that is sent on the Ruhr railroad operation to normal.

The Ruhr occupation is most fatal to France so far as producing goods for reparations is concerned. On the contrary, the real result of the Ruhr occupation is the French occupation in Germany, overflowing into Belgium, Holland and England and promoting an acute food and fuel famine before the winter is over.

Neither is the Ruhr occupation a success in other respects. The British view of the French occupation is a success in the sense that the people are contented, not resentful. But the French occupation is showing increased resistance, and the vicious circle of violence is bringing on counter violence.

The French occupation is a success inasmuch less skillful spirit than the British. You see German men who wish to travel 10 miles standing, hat in hand, before a French soldier who has no power to molest them for the reason of their money, and rolls with studied insolence on the railroad station bench.

Twenty months ago Senator Hitchcock, in the senate, charged the presence of black troops in the Rhineland. Clemenceau was then in America, and he joined other French authorities in a denial. The denial can only be explained through use of the phrase "the Rhineland regiments" now in the Rhineland, but there are thousands of colored soldiers in the so-called Rhineland regiments.

These regiments seem composed of strange hybrids, running from what looks like pure white to what is most certainly pure black. They may not be Negroes, but they are what you call "colored." They are seen in the streets of Cologne, and American newspaper men and others permanently stationed in the Rhineland told me they had seen thousands within the past two weeks.

Senator Stanley of Kentucky arrived at Cologne as I left, and in spending some time traveling through the Ruhr, an one who has spent his life in Kentucky and Washington, he knows colored soldiers when he sees them and should be able to report the facts.

Without trying to understand the records ethnological distinctions in the French official details, it is readily possible that those who want the sweet facts and figures about the presence of colored troops in the Ruhr, can get them from the correspondents of American papers stationed permanently in the Ruhr, from American army observers stationed with the spring armies and from American consuls in cities in the occupied areas. Aside from the obvious objection, however, that these reports are not trustworthy.

On the other hand, if the Berlin government withdraws passive resistance, unless this is accompanied by a complete restoration of the status quo, the result may be slightly increased production in the Ruhr, but it is not certain that the remainder of the year will be a scene of monarchical and reactionary movements, leading to counter violence from the communists.

Fear of the communistic movement is the animating motive which has done much both with the Berlin government and the big industrialists. They continue to pay full wages to idle workmen in the Ruhr not only as an encouragement to passive resistance, but also as a safeguard against communistic movement.

There may be strange and unexpected developments in the Ruhr occupation. In many parts the position is prevailing communistic. At all times they resent working for German capitalists and Bourgeois. Even more so they resent working for the capitalists and Bourgeois who backed by French soldiers, in certain circumstances, it is possible that the communists may take over the factories and operate them on a communistic basis. If this should happen, many observers speculate that the attitude might be taken by the French and Belgian soldiers, among the latter of whom especially there are many who sympathize with communistic and socialism.

THE TANGLE

Telephone Conversation Between Mrs. Harry Dickinson and Mr. Walter Smith

"Is this Mrs. Dickinson?"

"Yes, that's a funny contraption about it, dear. It ought to be 'What's the matter with you?' but you see that 'What's the matter with you?' is the cause for the number."

"By the way, what was the matter with you yesterday before your husband came in? I haven't done anything to make you angry, have I?"

"Not in the least, Harry, but your coming into the room confirmed me in my decision that things have been going too fast with us. I am going to call a halt."

"I have taken a great fancy to Mrs. Franchetti. I found yesterday that I had more fun shopping with her than I have ever had talking foolish nonsense with you, and I do not intend to have our friendship hurt by any foolishness on my part."

"I thought you told me, Ruth, that you were not a snobby. You are not, but I do care very much for what people say of me, even though I know I am in the right. I don't believe there is a woman living who does not have regard for what people will say unless she has completely lost her own self-respect."

"There you go again, Ruth. I thought you were a new woman."

"I am, but yesterday you showed me that when you want your women to be above reproach in the mind and speech of people. You wish us to be the most circumspect of beings with every one but yourself and yet you will not protect us from the eyes of the women with the slightest intimation we have known yesterday that you had been making love to me. I did not like it."

"I only wanted to make you happy, Ruth."

"And you have succeeded. Wait in making you snobby. You know of course that my little flirtation was perfectly harmless, but you gave it the appearance of something sinister. I am in my wits. I want the little foolish things that make up happiness. Lucile Prescott, hit the nail on the head yesterday when she said, 'All women on what little kisses, small caresses, and so on.'"

Rescue of Child From Horrible Fate Given as Justification for Destruction of Household Enemies—Declares She Would Do It Again If Necessary.

The woman admits it, but says: "It was either a case of kill or see my babies subjected to revolting contact with filth and disease a thousand times a day."

"You see I suddenly learned that these distributors are fifth and sixth hand and it made me frantic to see a fly crawling on my baby's pink face."

"I resolved to do some killing myself and while I was at it to kill every fly, mosquito, roach, ant or any other pest that flies or crawls in my house."

"My druggist guaranteed that Fly-Kill was a ruthless pest killer and that if it failed when used according to directions the manufacturer would pay me \$24. My house is free from pests and vermin now and Fly-Kill keeps it free."

"I'll give you a bottle with spray for \$20 guarantee behind every bottle. Ask your druggist or grocer about this undogable pest killer."

ELECTRA ICE CO. BUYS MACHINERY FOR ANOTHER GIN

WILL BE ELECTRICALLY DRIVEN AND OF THE AIR BLAST TYPE

ELECTRA TO MAKE BID FOR MEETING FIREMEN

Decision Made to Send Committee to Annual Convention at McKinney.

ELECTRA, TEXAS, July 18.—Machinery has been ordered and work will begin this week on a four-stand gin to be erected by the Electra Ice Company. An investment of \$15,000 exclusive of ground will be made in this property. The gin will be electrically driven and is of the blast type, doing away with brushes entirely. The new plant will be just west of the ice company's plant where fire last week destroyed the storage warehouse.

One of Electra's two gins was burned last fall. The other plant is being repaired by the Vernon Cotton Oil Company which bought the property after the plant was destroyed by fire.

West Cotton Mill. Secretary Byron T. Johnson of the chamber of commerce and agriculture and Vice-President J. A. Wise of the First National Bank left last night for Fort Worth, where they will attend a meeting of the Texas commercial secretaries. Mr. Johnson will read a paper on trade extension. Mr. Wise is chairman of the industrial bureau and will discuss facts relative to the possibility of establishing a cotton mill in Electra.

Close Suggests Revival. There were 44 acceptions to the church in the revival services which closed last night at the Baptist church. Among the number were Mayor and Mrs. W. C. Calvert and Chief Jim Taylor of the city police force. A collection of \$1,200 was taken toward the purchase of the new \$40,000 church of the denomination which is nearing completion. This was in addition to a liberal private donation made by Rev. J. W. Dawson of Waco, who conducted the revival, and his singer.

A fire meeting of the firemen. Electra will be a contender for the 1923 meeting of the state volunteer firemen. This decision was reached at a banquet sponsored by the city government to the firemen and friends. The 1924 convention will be in McKinney, and a large delegation will be taken from Electra to carry the invitation for next year's meeting.

With a fire loss of only \$15,132 during the year, Electra's record is better than that of any other town of more than 5,000 in this section. According to the state fire insurance department, Plainview, \$21,000; Lubbock, \$12,000; and Wichita Falls more than \$272,000.

DOG MUZZLING ORDINANCE TO BE STRICTLY ENFORCED, CHIEF HODGINS DECLARES

An ordinance requiring the owners of all dogs that are allowed to leave the owner's premises to be muzzled was revived and has been in force since Monday, following an order of Chief Hodgins, Saturday. Tags do not exempt a canine from the strong arm of the dog-catcher if he is allowed to run at large without a muzzle.

An unusual number of cases of rabies reported to the police and health departments has made the enforcement of the ordinance necessary, Chief Hodgins explained. It will be rigidly enforced through the summer months and until the danger is over, according to the report.

\$100 FINE ASSESSED IN MACHINING CASE

A plea of guilty to a charge of indecent exposure of the person and washing was entered in city court Thursday morning by the middle-aged wife said that the woman admitted to her that she had been living with the man.

Thurs morning the wife called county officers and had her husband and the woman arrested. Both went to jail when they were unable to pay the fine assessed.

WIFE HALES HER HUSBAND AND A WOMAN INTO COURT

A wife who did a piece of detective work herself Wednesday, hauled her husband and another woman into the county court at law Thursday morning, where each of them pleaded guilty to the charge of adultery. Special Judge Arch Dawson assessed a fine of \$100 in each case.

According to officers, the wife took the woman to Electra Wednesday evening, where it was alleged the pair had been living as man and wife for the past week. It was there the wife said that the woman admitted to her that she had been living with the man.

Thurs morning the wife called county officers and had her husband and the woman arrested. Both went to jail when they were unable to pay the fine assessed.

LOCAL RELATIVES LEAVE FOR FUNERAL OF R. L. PATTERSON IN HOLLYWOOD

Mr. and Mrs. Everett Patterson, of 1714 First Street, West, left Wednesday night for Los Angeles, California, on receipt of advices of the death of Mr. Patterson's brother, Redmond L. Patterson, who was found dead in his Hollywood home, July 16.

Mr. Patterson is connected with the local branch of the American Red Cross here and is an only brother of the dead man, who was president of a large sulphur syndicate in Los Angeles and prominent in business circles, it is stated.

Mr. and Mrs. Patterson, senior, of Tyler, Texas, will not go to California until further advices are received.

Mrs. Everett Patterson is connected with the ready-to-wear department of the Perkins-Timberlake store here.

PERSONAL INJURY SUIT FOR \$4,200 FILED THURSDAY

Les James, a minor, through his next friend, J. A. James, instituted suit Thursday in the 78th district court against the Wilson Hydraulic Casing Pulling Machine Company, in which he asks damages in the sum of \$4,200 for personal injuries alleged to have been suffered March 12, 1923, while in the employ of the defendant company.

The plaintiff complains that he was assisting the manager of the company, engaged on work south of Electra, in loading a jack on the wagon, and that while he was attempting to push the jack on the wagon, the cable broke and the jack fell on him.

He alleges that as a result of the fall and under the weight of the jack both of his wrists have been permanently injured and that as a result of the injuries he suffered much physical pain.

During the early part of the last century the principal dish at any important English feast was invariably a roasted swan.

Jury Assesses Five Year Term In Carter Case

At 3:45 o'clock Thursday morning the jury which tried M. C. Carter on a charge of robbery by assault in the 10th district court, returned a verdict of guilty and assessed a punishment of five years confinement in the state penitentiary.

The case went to the jury shortly after 9 o'clock Wednesday evening. The jury deliberated several hours Wednesday night and arrived at a verdict early Thursday morning.

Carter was charged with robbing R. A. Logan on the night of January 17, 1922, and relieving him of \$100. It was charged that the defendant was assisted by J. E. Jones in planning and carrying out the scheme.

It was contended by the state that Carter took Logan to the spot upon which he and Jones had planned to stage the holdup.

CROPS GENERALLY IN GOOD CONDITION IS BUREAU REPORT

WASHINGTON, July 18.—Generally favorable conditions for crops prevailed during the first half of July and livestock is in good condition, according to reports to the department of agriculture indicate. The farm labor shortage continues generally, although the situation has been satisfactorily handled in most localities thus far.

Cotton continued to improve on the whole and growth made good progress, although the crop is still somewhat backward. Fields are clean and well cultivated. Plowing has begun in southern Texas. The boll weevil is active in most of the territory, being particularly bad in Florida and southern Georgia and causing a decline in the condition. The general dry weather has checked the boll weevil in other sections.

The corn crop is late, but is growing rapidly with generally favorable weather, although rain is needed in some areas.

The winter wheat harvest is on in a large part of the belt and threshing is in full swing in southern areas. Good yields are general and the quality is excellent as a rule. Hanges generally are in good shape though needing rain in the mountain states and in Texas.

WASHINGTON, July 18.—Final action in Washington in connection with the incident in Manila, which resulted in the resignation of the Philippine cabinet and council of state in protest against the policies of Governor General Wood, will await the return of President Harding from his Alaskan trip.

Reports reached Secretary Weeks today from General Wood and from Richard Quisenberry, president of the Philippine senate, setting forth both sides of the controversy. It was indicated that further details would be asked both from the governor general and from Mr. Quisenberry, and that when all available information is at hand, the case will be left to the personal consideration of the president.

PERSONAL INJURY SUIT FOR \$4,200 FILED THURSDAY

Les James, a minor, through his next friend, J. A. James, instituted suit Thursday in the 78th district court against the Wilson Hydraulic Casing Pulling Machine Company, in which he asks damages in the sum of \$4,200 for personal injuries alleged to have been suffered March 12, 1923, while in the employ of the defendant company.

The plaintiff complains that he was assisting the manager of the company, engaged on work south of Electra, in loading a jack on the wagon, and that while he was attempting to push the jack on the wagon, the cable broke and the jack fell on him.

He alleges that as a result of the fall and under the weight of the jack both of his wrists have been permanently injured and that as a result of the injuries he suffered much physical pain.

RANGE CONDITION DECLINES THREE POINTS IN JUNE

AVERAGE IS EIGHTY-SEVEN PER CENT OF NORMAL ON JULY FIRST.

FEW STEERS ARE LEFT IN NORTHWEST TEXAS

Mostly Shipped to Grass While Many Yearling Steers Sold to Go North.

HOUSTON, TEXAS, July 13.—During June the condition of the ranges declined an additional three points and that of cattle dropped off one point according to reports received by H. H. Schuch, Stationer, U. S. Bureau of Agricultural Economics. The condition of pastures in all parts of the state averaged 87 per cent of normal on July 1, which was four points below the June figure, but it equaled the average during the past ten years. The July 1 condition of cattle ranges was 85 per cent and that of sheep 85 per cent. Most of the countries outside of the west, west center and south districts had good range during June and temperatures were slightly above normal. Grasshoppers have done considerable damage to the range, particularly in the west center.

Cattle are fattening in all sections, their condition averaging 92 per cent of normal as compared with 83 per cent a month before. Their general health continues good in all sections. Tick eradication is making good progress. The shipments of beef cattle from South Texas have been approximately a third heavier than during the first six months of 1922; those of cattle to northern Texas about one-half as heavy. It is estimated that the losses of cattle since January 1 amount to 4.1 per cent of the total number on hand at that date; the number of calves that have died approximate 4.8 per cent.

Fat Cattle Moving

The calf crop has varied greatly in the different districts ranging from 52 per cent of the number of cows in the southeast to 89 per cent in the south, 84 per cent in the west, 62 per cent in the northwest, 61 per cent in the west center, 71 per cent in the north. The average for the state is 62 per cent. The calf crop has been very uneven and there are many late calvers. Fat cattle are moving from all sections. The average prices given for June show a uniform decline for all classes from those reported for May.

Northern Texas Report

Northwest: Few steers left, mostly shipped to the coast. Demand for stockers; many yearlings sent to go north; not much trading. Grass excellent in most places, but in some counties it is short and needs rain. Calf crop is fairly good; in localities it will be needed as early as possible. Rains have been ample and good grass is in prospect for the remainder of the season. There are several counties that need rain badly. Cattle are beginning to fatten, and the condition of wet cows compares favorably with the condition of dry cows last year.

SEWELL FIELDS AND THREE MORE LEAVE FOR PRISON

Sewell Fields, Ed Mitchell, Charles Allen and Juan Garcia left Thursday afternoon for Huntsville to begin serving sentences in the state penitentiary.

Fields was found guilty of the charge of robbery with firearms by a jury shortly after his arrest. He was sentenced to 10 years in the state penitentiary. Mitchell was sentenced to 10 years for the same offense. Allen and Garcia were sentenced to 10 years for the same offense.

Ed Mitchell goes to serve one year on a charge of manufacturing whiskey; Charles Allen was given two years for forgery and Juan Garcia was given one year for manufacturing whiskey.

STOCKS AND FINANCIAL

NEW YORK, July 13.—Price changes were relatively small at the opening of today's stock market. The trend seemed definitely upward. Leaders of the low priced stocks were common and preferred, and Colorado Fuel. Houston oil moved up nearly two points. The demand for miscellaneous shares which has been pronounced during recent sessions was materially greater in the early trading today. Many of the ordinarily inactive stocks rising a point or more. The customer list also moved higher but their gains were confined to fractional ex-100. The Pan American R. and Gulf States Steel which improved a point each. Associated Drug Goods three. German marks appreciated its recent low record of 200 cent. Foreign exchange rates were slightly higher. The stock market closed with a better account of itself than it had in weeks. Buying and selling were active. The market was braced all of the week by speculative favorites, many of which failed 2 or 3 points.

A Bread That's Different. The Flavor Lasts is DE LUXE BREAD

The art of breadmaking is in the flavor. Scientific processes often shorten the working of the yeast, producing a varied taste. We obtain a pure, satisfactorily tasting bread by blending nature's chemistry in the fermentation of the yeast with man's art and experience in mixing the dough, producing a wholesome and easily digestible bread. A temperature of 450 degrees F. forms a complete crust which retains the appetizing flavor within the loaf.

SCHOOL BONDS ARE VOTED FOR VERNON; MAJORITY IS 9 TO 1

ARCHITECT IS SECURED AND BOARD IS CONSIDERING LOCATION.

TAX ASSESSOR REPORTS INCREASE IN VALUATIONS

Chamber of Commerce Makes Plans For An Early Trade Excursion.

VERNON, TEXAS, July 19.—The school bond election here Tuesday resulted in a vote of 9 to 1 against the issuance of bonds of \$10,000 for the building of a new high school in this city.

The school board has already secured Guy A. Carlander of Amarillo as architect for the new building. The board is now at work selecting a site for the edifice. When work begins it will be rushed to completion to relieve the crowded condition of the local schools.

The school bonds of \$10,000 were tentatively sold over a month ago to Stern Brothers & Company of Kansas City, Mo., for a premium of \$3,500.

To Have Ford Day. Plans are being made for a big "Ford day" to be held in Vernon on Monday, August 6. It will be in the nature of a trade day, and there will be dozens of prizes awarded by local merchants to the winners in a number of unique Ford contests.

The actual program for the day will be under the direction of the chamber of commerce. If the event is as successful as present plans indicate, a similar trade day will probably be made a monthly occasion here.

Long Time Resident Dead. Funeral services were conducted at 1:30 Monday afternoon for John Wilson McCrary, 55, who died at 7:15 Sunday morning at his home on South Main street after 15 years of ill health.

Funeral services were conducted by Dr. Bob E. Jones, pastor of the Methodist church, assisted by Dr. M. K. Little of Fort Worth and Dr. John M. Barcus of Georgetown, both of whom were formerly presiding elders of this district.

Mr. McCrary has been a citizen of this county for 15 years, coming here with his family from Nolanville. He was born at Clay Hill, Tex., the county, Alabama, on August 18, 1874, but came to Bell county, Texas, when he was only a child. For years he made his home at his farm south of town, but for the last few years he has resided in Vernon.

In 1899 Mr. McCrary married Miss Gordon, nee of Nolanville, who survives him, together with the following seven children, all of whom were present at the time of his death: Mildred, James Wilson, Louise, James, Mrs. Gordon, Mrs. Carolyn Lee and Thomas, all of whom live in Vernon, except James Wilson McCrary of Dallas. He is also survived by a sister, Mrs. John M. Barcus of Georgetown, and by two half-brothers, Jim Parley of Fort Worth and Frank Parley of Vernon. He also had four grandsons, John Clayton McCrary, James Wilson McCrary Jr., D. Gordon McCrary and James Neal Carney.

Other relatives present at the funeral were: Mrs. J. F. Madin of Nolanville, mother of Mrs. McCrary; Lex Madin and Miss Lavert Box of Nolanville, and Dr. W. S. Barcus of Fort Worth.

County Valuations Increase. According to the report of Tax Assessor R. E. Porterfield, the valuations of taxable property in Wilbarger county for 1929 total approximately \$15,524,782, representing an increase of \$137,778 over the figures for 1928, which were \$15,386,987. This increase indicates that property values in this county are the result of a steady, safe growth many counties of the state are

showing a large increase in valuations.

New C. of C. Committee. At a meeting of the directors of the chamber of commerce this week, eight standing committees were appointed for the ensuing year, with duties as indicated by the title of their committees. The chairman of each committee will meet with the directors in their regular sessions every two weeks. The committees are as follows:

Membership, Geo. Yetico (chairman); Deo Norwood and O. L. Pearson; entertainment, F. E. Eggleston (chairman); R. W. Bailey, A. E. Beckingham; highways, Seth P. Ingram (chairman); L. E. Piper, M. E. Coffey; agriculture, J. D. Chaney (chairman); Sharp, Mrs. Ella Goodfellow; camp ground, Lon Byars (chairman); J. L. Swartwood, L. C. Hooper; trade extension, C. D. Ashenburt (chairman); E. N. Haney, J. A. Dixon; conventions, W. N. Stokes (chairman); M. C. Culbertson, W. H. Stiggins; industrial, J. L. Showers (chairman); A. N. Vernon, T. H. Shive.

At the directors meeting, J. V. Townsend resigned as a director, and L. E. Piper, cashier of the Waggoner National Bank, was elected to take his place.

Fish Trade Excursion. At a meeting of the chamber of commerce this week, Secretary R. M. Fielder was instructed to make plans for a trade excursion trip next Tuesday night to the Farmers Valley community in the west part of Wilbarger county. The event will be in the nature of a celebration of the opening and construction of a new highway connecting the community to Vernon. A program will be held in the Farmers Valley church; the Vernon band will be there, and several Vernon boys will speak.

College Head Here. R. L. Taylor, principal of the Baylor Commercial College, was in Vernon yesterday and today surveying the situation and discussing with chamber of commerce officials the advisability of moving his commercial college to Vernon. His school has been in successful operation for 25 years.

Heavy Tolling Near. Under the auspices of the Federated Women's Clubs of Vernon, a fund-raising play for children will be held in Allingham Park at 5 o'clock tomorrow afternoon. Miss Fay Hogsett and assistants will direct the children. Local club women are very enthusiastic over the plans, and the story hour will probably be held twice each week.

The Wilbarger County Farm Bureau Cotton Association this week elected its president and committee for new members. The campaign is under the direction of H. W. Cabe and W. A. Walker, district and county presidents respectively of the association, and G. R. Thomas of Dallas, a field worker of the farm bureau. Workers have been assigned to canvass all parts of the county. Reports of the week's results will be made at a meeting here at 1 o'clock Sunday afternoon. A committee from the cotton association has been interviewing Vernon business men, and the association has been endorsed by a majority of the merchants and banks.

Highway Officials Here. J. C. Wells, field manager of the Colorado-to-Gulf Highway, was in Vernon yesterday, conferring with the chamber of commerce on matters relating to the highway. He was accompanied by Curtis Vinson, staff correspondent of the Dallas News.

Cooper Declines Call. Robert B. Cooper of Denton has notified the congregation of the First Baptist Church of Vernon that he cannot accept their recent call as assistant pastor because he had accepted other work when the Ver-

non call came. The local congregation will probably soon extend a call to someone else.

Child Dies Suddenly. Funeral services were conducted here Tuesday afternoon at the home of Mr. and Mrs. W. E. Antie for their only child, William Morris Antie, aged nine months, who died suddenly Sunday in Louisville, Ky. The Anties had gone to Louisville by automobile to visit Mrs. Antie's parents.

Funeral for Civil War Veteran Will Be Held Here Friday

FEED CROPS ARE PRACTICALLY ALL DESTROYED HERE

A survey of the county made by County Agent Guy R. Jones leads to the assertion that practically all feed crops in the county are destroyed as a result of the extremely hot weather during the past three weeks.

The heavy rain in this city Monday did not extend out into the agricultural district very far and around Electra and Burk Burnett very little rain fell. However, it was stated that had the rain visited there the feed crops would not have been revived.

Sweet corn, as well as field corn, has in nearly all cases, turned yellow and dried up. The cotton crop outlook is not nearly as promising now as it was ten days ago, although it is still believed that it will make a fair yield.

Royal Selos Becomes Banker. VIENNA, July 19.—The latest royal personnel to enter the ranks of the mercantile world is Count Otto Seefried, a grandchild of the late Emperor Francis Joseph, whose appointment as manager of the Budapest branch of the Austrian Commercial Bank is just announced.

Breaking Out All Over Arms. Pimples Itched and Burned. Lost Rest. Cuticura Heals. "I had a breaking out of pimples all over my arms. They itched and when I rubbed them they burned very badly. My clothing aggravated the breaking out at night, and I could not rest. I began using Cuticura Soap and Ointment and they helped me, and after using two boxes of Cuticura Soap and one box of Cuticura Ointment I was completely healed." (Signed) John Aldred, Rouston, Texas.

Clear the pores of impurities by daily use of Cuticura Soap and occasional touches of Cuticura Ointment as needed to soften, soothe and heal. They are ideal for the toilet, as is also Cuticura Talcum for powdering and perfuming.

Respectful Strike Succeeded. DUBLIN, July 19.—For a week recently the public of Ireland was without reports of the proceedings in the Irish parliament. The newspapers had boycotted parliament because of the grievances of the reporters.

The quarters for newspapermen were so inadequate, and the restrictions against them so onerous, that the reporters voted in boycott in which they were supported by the newspaper proprietors. In less than a week the difficulties were removed.
