MOTHER OF GOLD

EMERSON HOUGH'S LAST STORY

Thrill of Adventure—Love—Action in a New Setting—Mexico

A million men have died hunting for the same source of mythical wealth that took the heroes of Mother of Gold through Mexican desert and over Mexican mountains.

For adventure and action, Emerson Hough did not go back to the old American frontier days he loved to write about. For in the present-day Mexico he found the same dangers and the same romance and the same rewards that our own West once provided.

Emerson Hough has died, in the height of his popularity. But he has left as his last great contribution to American literature this glorious tale of love and adventure.

### JOHNSON LAYS DOWN GAUNTLET TO ADMINISTRATION

#### DENONCES WORLD COURT PLAN AS LEAGUE NATIONS' SUBTERFUGE. RIDICULOUS POSITION CABINET MEMBERS

#### Irreconcilable Senator Heard By Enthusiastic Crowd at Banquet.

By Universal Service.  
 NEW YORK, July 25.—Senator Hiram Johnson, California, at a dinner given in his honor tonight at the Waldorf-Astoria sounded a solemn warning to America to shun European entanglements, declared another war is brewing, and then, with more than a thousand men and women cheering, declared: "Without limitations of politics or candidacies, I dedicate myself to maintaining America just as America has ever been." The message the senator brought back from a tour of four months and a half in Europe where he made a careful study of political and economic conditions, was a direct slap at the proposed American participation in the world court. "Call it court or what you will," Senator Johnson declared, "its genesis is the league of nations. If we become a part of what is happening abroad, we would be but the dupes or the prey of the one faction or the other."

Then, attacking the court as a league of nations subterfuge, he hit straight out with this: "What we condemned under a democratic administration will not accept under a republican administration."

"Johnson in 1924." While the huge crowd of banqueters, including leaders of various political faiths, both men and women, cheered the senator, some one shouted "Johnson in 1924," and the applauding hundreds redoubled the din.

Among the notables present was George Harvey, ambassador to Great Britain.

"Yes, I have nothing to say," he told reporters. "I came to hear Senator Johnson."

Declaring the court to be a part of the league and inseparable therefrom, Senator Johnson said: "It is part of the machinery of the league. It is the advisory body of the league. Its opinions are based upon the representatives of the league; the law of the league is in reality the law of the court. Behind the league, controlling it, directing it, are the chief officials of Europe, with their secret diplomacy, their selfishness and cupidity and their hideous schemes of exploitation and conquest."

"In this condition abroad, can any question what should be our attitude? We must not be persuaded to a false step in a little policy, however alluring it may seem, which ultimately may involve us in that which, so far, we have shunned and avoided."

The senator made significant allusion to the attitude of the Harding administration in behalf of the world court.

"The president says that under no circumstances will we have anything to do with the league," the senator said.

Johnson declared that pro-leaguers are with the president in advocacy of the court in the belief that, once in it, the president would be found to be mistaken, and that anti-leaguers are opposed to an

### MISS NEW SILVER DOLLAR MAY BE SHY PHYSICALLY AND COMMERCIALY—BUT WE'RE ALL FOR HER

DR. WALLACE HAROLD BARNES

MARY O'REILLY

tering the court because they are convinced it means entrance into the league.

"The paradoxical situation is presented," the senator declared, "of the pro-leaguers favoring the court because they believe the president is mistaken, and the anti-leaguers opposing it for the same reason."

Every argument of the last four years for the league is paraphrased in the argument today for the court, the senator said. He then pointed out that in 1919 a group of distinguished gentlemen pledged their faith that if a republican president were elected, the United States could enter the league of nations.

"Among those who pledged themselves," Senator Johnson declared, "were the two great statesmen, Messrs. Hughes and Hoover, who are now members of the president's cabinet and whose utterances in behalf of the League of Nations were among those most eloquent and persuasive."

"They are now part of the administration which said that the verdict of the American people was rendered against the league in 1920, that America would have nothing to do with it, and that the issue of the league was as dead as slavery."

He then pointed out that they have recanted their views and are "just as the president is, opposed to the entry of the United States into the league."

The applause then congratulated Hughes and Hoover and the people on their having "seen the error of their ways" and on "their coming to the American people."

"They, however, are believed in Europe," Senator Johnson added, "to be sponsors for the present administration which said that the verdict of the American people was rendered against the league in 1920, that America would have nothing to do with it, and that the issue of the league was as dead as slavery."

The senator then suggested that in view of their past vehement opinions that their present view on a less important international policy be accepted "with a bit of caution."

The diners greeted the senator's admonition with a burst of applause that swelled on into loud cheering.

The applause was renewed when the California declared that what America condemned under a democratic administration will not be accepted under a republican administration.

After reviewing the failure of renowned statesmen, one after another, to solve the political problem of Europe, from Charlemagne to Poincaré, Senator Johnson referred to the stability of the United States to induce the coal miners of West Virginia to live in peace, and added somewhat sarcastically: "These significant problems of our simple American environments are too stiff for us but we are told, and in many cases we actually believe, that the infinitely stiffer and deeper problems of Europe need only the application to them of American wisdom."

While there may be a succession of falling ministries, Senator Johnson disavowed belief that Europe would degenerate into chaos.

"But I saw plain evidence of future conflict," he said. Another bloody war is in the making. It is no concern of ours. I would not send a single American soldier again across the sea."

Concerning his vision of what America's foreign policy should be, Senator Johnson declared: "It is nonsense to talk of turning our back upon the world and maintaining aloofness from its daily activities. We may have a foreign policy if we choose, and that foreign policy may speak in tones which will cause all the world to pause."

"For one, I would have a definite foreign policy of our own. It may not agree with succeeding administrations but this presents no obstacles to a frank avowal of our present purposes."

"If the administration for the moment in power believes any foreign country jeopardizes peace, there is no reason why we should not say so. I regard that our great country can only speak in concert with others and that it cannot speak alone."

After declaring that nobody in Europe gave a rap for the world court and the idea of divorcement of the court and the league is there considered a jest, Senator Johnson declared: "It is a dreadful thing to tell our people that the international court will stop war or that it will have the slightest effect upon war."

"The court means nothing of the sort," he said. "It is an utterly futile agency for peace—it cannot and it will not prevent wars and it does not pretend either in its organization or in its operation to do so."

He also declared claims that getting into the court would exercise America's moral weight.

"Not so," the senator exclaimed. "The sure way in which we might dissipate our moral weight is to make it subject to the decision of those upon whom we wish to exercise moral suasion, or to submit it for ultimate expression to those who have no moral sense."

Senator Johnson was warmly applauded when he said: "If a title of the time and money spent in endeavoring to convince our citizens they should solve Europe's ills were spent in solving our own, the solution would be found."

He closed with this admonition: "There's just one course to pursue. Just one way to play our proud part. Just one method to render real service—speak our voices frankly and boldly, be true to our own institutions, hold our own ideals, be fair and just to all people, but standing upon our own shores, remain the master of our own destiny, the captain of our own souls."

By NEA Service.  
 WASHINGTON, July 25.—America's new dollar lady may have a delectable, thick lips and pinched nostrils.

But all that doesn't detract from her popularity.

Nobody says Dr. Wallace Harold Barnes of San Francisco lifts a scornful eyebrow in her direction.

And Mary O'Reilly, assistant to F. E. Scooby, director of the mint here, just raves about the lady's beauty.

"Why, I think she's beautiful," Miss O'Reilly exclaims. "Of course her face is idealized. It's more youthful, more inspiring than some of her predecessors."

Operation Needed  
 Dr. Barnes, clinical instructor of medicine at Stanford University Medical School, recently declared the "dollar lady" too sickly to be circulating around the country. She ought to be in a hospital, he tells us.

Her physiognomy reveals, says Dr. Barnes, that she should undergo an immediate operation for adenoids. Those awful adenoids must come out. They've been there, you know, since early childhood.

They've made her a "mouth breather." They've thrown her face out of alignment, left her nose undeveloped and her chin receding. All of which denotes not only poor health but likewise a weak will.

At least that's the trend of the Stanford medic's analysis.

Anthony Franchese, New York sculptor, submitted the design. And he proudly admits it.

But Scooby denies he had anything to do with the selecting. "She's no child of my choosing," he pleads.

And the records back him up. The design was approved by Scooby's democratic predecessor, Ray Baker, back in December, 1921.

Oh, Sherlock!  
 Can it be that Baker had any ulterior motive in accepting the design? Did he pick it, knowing what the coins were to be struck off by a Republican administration? It looks like it, a case for Sherlock Holmes to worry about.

Cordell Hall, chairman of the Democratic National Committee, who confesses he's not an art expert, declines to comment on the lady's good looks or lack of good looks.

He has noticed, though, these shining new dollars don't go as far as the old ones did. That would tend to bear out Dr. Barnes' contention that the goddess is somewhat of a weakling, he suggests.

Two hundred and seventy thousand of the new dollars are being coined. They're replacing the "iron men" melted down during the war when so much silver was being shipped abroad.

And day by day the "dollar lady," sickly though she may look to Dr. Barnes, is becoming more and more popular.

including the very best agricultural land and building locations in the vicinity of the city. One on the south surrounded the beautiful Country Club estate on three sides, the other on the east offered a beautiful building place on an eminence about twenty-five feet above the city and divided from the city limits by a running stream and the third on the northwest offered the material advantages of fifteen hundred feet of water main, the same footage of sewer line and gas line and the same length of street car line bounding the site on one side.

The southern and northwestern sites both included thirty acres of land within the city limits. The one on the south includes a part of the land accepted by the locating board for the site of the old West Texas A. and M. College which was never built.

Abilene also boasted of 156 blocks of hard surfaced paving in its limits and 132 miles of gravel road in Taylor.

WICHITA DAILY TIMES

WICHITA FALLS TELLS... PUBLISHED EVERY WEEKDAY AFTERNOON AND ON SUNDAY MORNING.

MEMBER ADVERTISING REPRESENTATIVE... NATIONAL ADVERTISING REPRESENTATIVE.

TO ADVERTISERS... In case of error or omission in legal or other advertisements...

WHEN GOING OUT OF TOWN... Readers of The Times can have the paper while away on vacation...

A THOUGHT FOR TODAY... He that gathereth in summer is a wise son; but he that sleazeth in harvest is a son that causeth shame.

HARDING MUST HAVE IT OUT WITH THE RADICALS... It's come just as we expected.

Speaking of the group named the Denton Herald says that if existing market conditions had been ordered they could not have measured closer to their demands and specifications in a political way.

"Politicians, especially topwaters," says the Herald, "have trouble keeping afloat when conditions are good, when crops are abundant and the prices reasonable."

"These gentlemen are insisting that the president convene congress in extraordinary session for the purpose of saving the wheat farmers."

"The matter of financing this huge undertaking is quite a simple proposition—simply tax the business world to meet the demand."

"Should the program outlined by Senators Brookhart, Johnson and LaFollette go through it will be a joyous day for the favored group for awhile."

"What's the matter? Is it hotter than this?" she was asked. "Hotter than this? Well, I should say so. The whole two days I was there I could only think, 'Fritz' soon it'll be dinner, then a little while we'll go to bed, and tomorrow I'm leaving.'"

And here we are, with one citizen "hoist" to get back to Wichita Falls, complaining of the heat! Of course it's hot. The sun is scorching. We feel like if another rung on the thermometer were added we would dry up and blow away. We would be better to dry up and blow away slowly and

cleanly and dryly than to simmer down into a sticky pool of gum, which is the ultimate vision the heat in some parts of the state makes one conjure up!

It's hot and dry here, and hot, dry heat is always more or less bearable. But there's no come-back against the damp, sticky heat that takes the life and spine and ambition out of folks. We may feel that we suffer the ultimate discomfort, for a few hours a day a few days in the year. But take a trip to some other section of the state, or of a dozen other states, and see whether the damper atmosphere is more comfortable.

We're fairly well off, here in Wichita Falls, and just don't know it.

THERE ARE EXCEPTIONS TO EVERY RULE... It's a nice thing for the history of each generation, bequeathed to an open-eyed posterity, that we have failed refutations of our prevalent and popular delinquencies.

"We know some folks who're quite demented," whips along a little newspaper rhyme, advantageously displayed on an editorial page—

"They've got a car; their home is rented." Quite fairly bespeaking the charge of the times. The present generation is mortgaging its homes to buy its cars; it is departing from the honored and sagacious custom of saving to buy its cars; almost, it has been charged, it is selling its soul to buy its cars!

And yet yesterday, slipped inconspicuously among the "for sale" ads of a popular and widely circulated daily newspaper received into most of the homes in Wichita Falls, the following ad appeared:

"To trade, a practically new Cadillac touring car for a six or seven-room house."

There is a new boomerang in the air. The old style, thrown by ages on the other side of the earth, was a little piece of wood. If it failed, it hit the mark at which it was thrown. It came back and fell at the feet of its owner—some times.

The new boomerang is a flying machine, with no man in it, controlled, driven and steered by wireless. The French built the first flying machine from one city to another and brought it back to the place whence it started. And wireless steered the machine.

The same wireless could have dropped T N T bombs on the city to which the machine was sent.

That's something the people of the United States, especially congress, ought to think about, while they are over allowing the army twenty-five million dollars for flying equipment. A hundred millions would be spent more efficiently spent would be well spent.

You know about "father and son week"?

One week would be set apart to draw the fathers and sons of America closer together.

Why not "father and son, mother and son" week? Why pick out a father and son if you must have a week?

What the son needs is a father that can look up to and reverend to as an example. A "chum" father, only another playmate, is a second class, following with evident admiration the easy, elegant gait of a May-day girl who was making her way toward the harbor.

Will farmers, including senators of the farm belt, have opposed immigration, make a note of each time they eat their wheat and buy it in this country.

A mob kills the prosecuting attorney in Frankfurt, and newspapers predict the rule of Germany by a red uprising. No such rule is probable, for this reason:

Before he went to Holland the German youth had been trained from all over Germany into the army, brought them to the big cities, and they talked to older soldiers, members of the social democratic party.

For more than forty years that party has been educating the working people of Germany. And those workers know what the French didn't know in the eighteenth century that you can't make a government better by substituting wholesale murder for established law, even when the law is defective.

The great ship Leviathan, owned by the United States government, came back from England, bringing just five sacks of British mail. The rest of the mail was on the dock, held for the British ship Homeric, arriving several days later.

No criticism called for there. The English are wise to encourage their own ships and have the right to save their highly profitable carrying of mail for British ships. But the United States should have brains enough to do the same thing. American mail should go on American ships, American passengers and freight also.

Not always are born to smile; Each man must brave his rugged mile. Yet he who journeys forth with cheer When high above his skies are clear, Will not be lonely through the day When trouble turns the blue to gray. (Copyright, 1932, by Edgar A. Guest)

SMILE A WHILE WITH TOM GIBBS... The swimming pool smells all right to the kids.

A wife will notice a blond hair on her husband's coat and won't notice a button off.

Boyle's arena has 30 acres. When the Firpo-Willard fight was over it had two more acres.

Barnders should make good umpires. They are used to bottles.

Teeth are nice things. If you had no teeth what would you grit when a collector comes?

Difference between bachelors and used automobiles isn't much. Both have been run a few thousand miles.

TODAY

No death house radio. Motors kill trains. A better boomerang. Father and son week.

By ARTHUR WEISBERG (Copyright, 1932, The Star Co.)

In Sing Sing prison's death house, twenty men await their turn in the death chair. The thirteenth Army sent a radio set to cheer up the murderers and make the death house brighter. But the warden says he can't "change the death house into a house of mirth."

The law says condemned murderers must be kept in solitary confinement. With radio bringing news of the world, prize fights, baseball games, etc., the death house would not be solitary.

It's disappointing for the twenty men, but soon they will take a trip farther than any radio message ever traveled, and will know that the warden doesn't know. That may console them. Besides, it would seem ridiculous for the death house to listen in on Uncle Wobblie's bedtime story.

The New Haven abandons its branch line in Franklin county, Massachusetts, driven out by automobile competition. That's the first road to close down under such competition.

Many another, as regards passenger traffic, will close down hereafter, thanks to flying machine competition. In fifty years or less, newspapers will tell of some old lady arranging to go from Chicago to New York on a freight train, because she still retains her horror of flying machines and passenger trains no longer run, on long hauls.

There is a new boomerang in the air. The old style, thrown by ages on the other side of the earth, was a little piece of wood. If it failed, it hit the mark at which it was thrown. It came back and fell at the feet of its owner—some times.

The new boomerang is a flying machine, with no man in it, controlled, driven and steered by wireless. The French built the first flying machine from one city to another and brought it back to the place whence it started. And wireless steered the machine.

The same wireless could have dropped T N T bombs on the city to which the machine was sent.

That's something the people of the United States, especially congress, ought to think about, while they are over allowing the army twenty-five million dollars for flying equipment. A hundred millions would be spent more efficiently spent would be well spent.

You know about "father and son week"?

One week would be set apart to draw the fathers and sons of America closer together.

Why not "father and son, mother and son" week? Why pick out a father and son if you must have a week?

What the son needs is a father that can look up to and reverend to as an example. A "chum" father, only another playmate, is a second class, following with evident admiration the easy, elegant gait of a May-day girl who was making her way toward the harbor.

Will farmers, including senators of the farm belt, have opposed immigration, make a note of each time they eat their wheat and buy it in this country.

A mob kills the prosecuting attorney in Frankfurt, and newspapers predict the rule of Germany by a red uprising. No such rule is probable, for this reason:

Before he went to Holland the German youth had been trained from all over Germany into the army, brought them to the big cities, and they talked to older soldiers, members of the social democratic party.

For more than forty years that party has been educating the working people of Germany. And those workers know what the French didn't know in the eighteenth century that you can't make a government better by substituting wholesale murder for established law, even when the law is defective.

The great ship Leviathan, owned by the United States government, came back from England, bringing just five sacks of British mail. The rest of the mail was on the dock, held for the British ship Homeric, arriving several days later.

No criticism called for there. The English are wise to encourage their own ships and have the right to save their highly profitable carrying of mail for British ships. But the United States should have brains enough to do the same thing. American mail should go on American ships, American passengers and freight also.

Not always are born to smile; Each man must brave his rugged mile. Yet he who journeys forth with cheer When high above his skies are clear, Will not be lonely through the day When trouble turns the blue to gray. (Copyright, 1932, by Edgar A. Guest)

SMILE A WHILE WITH TOM GIBBS... The swimming pool smells all right to the kids.

A wife will notice a blond hair on her husband's coat and won't notice a button off.

Boyle's arena has 30 acres. When the Firpo-Willard fight was over it had two more acres.

Barnders should make good umpires. They are used to bottles.

Teeth are nice things. If you had no teeth what would you grit when a collector comes?

Difference between bachelors and used automobiles isn't much. Both have been run a few thousand miles.

OLD KING COAL NEEDS A GUARDIAN

By Morris

I was wawking around to Mary Watkins house after supper last night and who did I meet going in the same direction but Puds Simkins, me thinking, Some people don't know it's company and it's a crowd. And I said, Waw you going? I bet you're going around to Mary Watkins, ain't you? I said, I bet you're going there yourself, Puds said, Well waw of it if I am, I said, Shut up and keep quiet, Puds said, This is a free country for me as much as it is for you, he said, Aw don't talk so much, I said, Shut up and keep quiet, Puds said, And we kept on wawking around together and talking to each other like 2 enemies and when we got around to Mary Watkins front steps she was setting on them and who was setting on them with her but Puds aisey, cousin Persey Weaver, me saying, Barn that guy, I hate that guy, I'm sorry I every had him for a cousin, Puds said, And me and him getting so near we was almost wawking past, Mary Watkins saying, Hello boys, waw you setting on them, Puds said, And we wawked all the way past and then kept right on going, Puds saying, O, waw do I care, she ain't so much, I said, Lets go around in front of the movies and watch the people going in, Puds said, Which we did.

One must also be cautious in forming opinions about prohibition by comparing crime for drunkenness. The average drunk, arrested for intoxication these days, would have been allowed to go his way in these few years ago. The old-time mid-jag looks like a very "heavy load" that the horses aren't hauling" in year 1932 for drunkenness attracts more attention and seems more extreme in a semi-dry environment.

The first bet on the coming presidential election are offered in Wall Street. An unknown gentleman, who apparently is connected with the Safety First movement, will bet you \$1000 against \$40,000 that Governor Smith will be the next ree-free tenant of the White House in a few years ago.

Another offer is \$1,000 against \$1,000 that Ford will be elected if nominated, either by Republicans or Democrats. Easy money.

Brabason went back to Ketatan by the morning train. He had not seen Pennington since their meeting at the Rest-House, but he had run into a lively crowd of brother-planters and government men, and the climax of the "celebration" that followed had been something in the nature of a disaster! A dull throbbing at his temples reminded him of this.

Brabason was a planter of experience. He knew just how much a coolie could be expected to do in a day. As he went the rounds on his Bajau pony he encountered nothing but his head of habit, he reached for his glass and, as he did so, something passed his cheek so closely that he felt the wind of it, and stuck, quivering, in the wooden wall behind him.

Hung strolled up. We chatted together for half-an-hour. "Did he ask which way you were going?" Pennington demanded. "I fancy he did; but I changed my mind at the last moment and dropped in at the Dutch padre's."

"I'm more than glad you changed your route, old man," Pennington assured him. "Because, if you hadn't, you wouldn't be here now—and, for all your faults, you're one of the few men I shouldn't care to lose sight of."

Brabason's broad face bore an expression of surprise and amusement. "What's that? My faults?" Pennington came across the floor and dropped a hand on his friend's shoulder.

"I refer to the woman, God bless 'em," he told him. "You were positively ogling one when I met you."

Brabason crimsoned. "When you came up? You don't mean that Malay girl? My dear old man, surely a fellow can admire a certain regularity of feature without being called to account for it!"

"You're a terrible man, Brabason," he said. "I remember a girl in Ketatan, Lumpy, telling me that you were irresistible. How long are you stopping in town?"

"Going back by the morning train."

"I was only going to warn you that if you do happen to meet the Commissioner's sister, just try and restrain that abnormal flow of personal magnetism—for my sake."

"Oh-ho," remarked the planter, raising his eyebrows. "What's her name?"

"Viney," said Pennington. "Mona-Viney. She's a widow."

Brabason winced. "I thought you said it was Chai-Hung who kept you in Joeselton?"

"It is," Pennington assured him earnestly. "But I'm not sorry about it, all the same!"

"I bet you're not! When's it coming?"

Pennington gazed dreamily over the rail.

"Possibly not at all. I haven't asked her opinion on the subject yet."

"Good heavens, man! What on earth are you waiting for?"

Pennington turned. "I'm waiting until I've called Chai-Hung," he declared.

Brabason scrambled to his feet and joined him. "What's he doing?"

"Want any help?"

"Possibly."

"Then call on me for it; I'm just about fed up with the life I'm leading. A thundering good rowd' about clear my head."

"Thanks," returned Pennington warmly. "I fancy you'll be in one better long."

"In the meantime, keep your weather-gauge open for Chai-Hung."

He paused and looked to where the waters of the bay glistened in the light of the sun that was low in the western heavens. "It's a waw world, Brabason," he continued. "I used to delight in these nocturnal wanderings, these wild up-country treks. I suppose it was because I had nobody to worry about but myself. I fancy that if I manage to pull this through, I shall hand in my resignation. I wonder if you'll understand me. They kidnaped Hewitt and his sister came with me to look for him, but subtle changes has crept over me ever since. I find myself a great deal too solicitous about my own welfare. Queer, isn't it? Cherie!"

Brabason went back to Ketatan by the morning train. He had not seen Pennington since their meeting at the Rest-House, but he had run into a lively crowd of brother-planters and government men, and the climax of the "celebration" that followed had been something in the nature of a disaster! SPUDDERS OVERWHELMED IN FINAL GAME OF SERIES 13 TO 7

With Real Ball Club in Field For First Time In Weeks Hopefuls Look Worse Than With Lineup of Hurlers

Just about the time the hopefuls were getting set for the drive that is expected to lead them on top again, those pesky Exporters came along and knocked them loose from a 13 to 7 game, thereby dropping an ambitious contender...

Terpago Gets Five Hits. Of late it seems that when the Spudders get the pitching they don't get the hitting and when the hitting is there, there is no pitching...

DOUBLE-HEADER WITH BEARS IS SCHEDULED FOR FRIDAY PROGRAM

The Spudders will clear their slate of postponed games on the home grounds Friday when they undertake to give the slugging Bears from San Antonio a double...

Cripples in Line. All of the cripples are now in line except Blachoff and Grigory and these two should be ready in a day or so.

George Stuebel drew the starting assignment on his wildness kept him in trouble in the first two rounds. Though the Exporters got three hits in the first round, only one run came across...

Strong started with a clean one through short and moved up on a second ball. He had a lead on Berger and Jones...

Stuffer was hit hard the rest of the way, while Grigory, who needed Bailey, was touched frequently after the first inning or so.

After treatment made one in the first, the Spudders were led by three. Becher, who had a big day with four hits out of five, started with a triple down the first base line and scored...

PORT WORTH, July 25.—Wachtel was in rare form Wednesday after the first inning, while Morrison was in the first, the Spudders defeated the Bears, 6 to 1. It's Becher who has had a big day with four hits out of five, started with a triple down the first base line and scored...

The Lookout

By AL PARKER

Who'd a thought those Spudders would let Pop Kitchens get away from here with two ball games out of three? That's just what the old folks and the rest of his folks did. They outplayed the hopefuls in two of the three games and were entitled to the games they won.

Maybe some day the Spudders will start to knock on all cylinders at the same time. It seems impossible to get hitting and pitching working smoothly at the same time. When the game is hitting the pitching is faltering and when the pitchers are going the hitters are on vacation.

Four and a half games out of the lead and 40-50-odd games to go. The Spudders have quite a few games remaining with all of the teams above them and in these they must do their best to get back in the lead. The Bears are here for four games that may decide the pennant winner.

So it may be seen that the Spudders are going to have to get in their dirty work in the other fellow's yard. At least the Spudders have eight games at home and 15 on the road. The best part about the remaining schedule is the fact that the hopefuls have 11 more games with Shreveport, being three postponements having over with the Exporters. The Gassers are not proving so easy to beat now as at the start of the season, but still they are the weakest club in the league and the Spudders should get a handsome majority of the 11 games to be played.

That acquisition of Bobby Barrett to the Spudders' front line is a move that somebody had to do. The playing of Dyer in center field Wednesday may or may not mean anything, but it can be said that if Rocky Coombs does get the gate, he has done his bit for the Spudders. Without him the Spudders would have been in many a bad fix, for he has served the cause at every place on the infield, except third, and the outfield.

Praxy R. O. Harvey came out of Wichita Falls Wednesday without any warning. His departure was known, his business in going to Chicago could not be denied. But it is safe to say that he has gone to the windy city for a conference with Commissioner Landis concerning the salary limit and the penalty inflicted on Mike Sexton on the Wichita Falls club. Landis has upheld the dictum of the minor league league that Harvey probably has gone to see if his presence will have any effect on the "hard boiled" old boy who is supposed to hold the reins of discipline on his fingertips. It is known that the salary limit rule is not yet over after the amendments may be expected in the future.

PITTSBURGH, July 25.—Pittsburgh went into the game with Cincinnati for second place Wednesday when they defeated Boston in both games of a double header, winning the first game 3 to 1 and the second 10 to 1.

BIRMINGHAM, July 25.—Boyd Duncan, professional from Lucy Tenn, established what is believed to be a world's record at the bama state transshipping meet, which came to a close here Wednesday. Duncan registered an unfinished run of 21 straight breaks, after dropping his 19th target at the start of the tourney, Monday.

The new champion for 1933 following T. K. Tackhola, Lee, (Birmingham), all around and doubles champion G. L. Carl, Birmingham, singles and handicap champion; Nat. M. Selma, pro-singles champion. E. F. Woodward, of Houston, Texas, was high amateur for the tourney, with 220 breaks in his 100.

EIGHT SURVIVORS REMAIN IN PLAY FOR NET HONORS

By THOMAS L. CUMMISKEY

Entrants in the city tennis tournament now under way dwindled down to eight with the completion Wednesday of the second round. The Spudders have quite a few matches will be played Thursday and Friday, while the finals probably will be held over until Monday or Tuesday.

The city junior tournament will be started Monday, and from the point of interest the Spudders are displaying. It is expected that there will be a greater number of entries than in the senior tourney. Those desiring to enter the junior event have been asked to communicate with Bill Powell at Anderson's dry goods store or Morrell McElroy at the First National Bank. The entrance fee is 50 cents.

Most of the favorites came through the second round as expected. The Spudders are wishing, no doubt, that they had the 16,000 Wemyly Stadium, of which the circus has been the tenant since the city's purchase of the site. According to the best information obtainable the Polo Grounds is likely to be the scene of the extravaganza.

By THOMAS L. CUMMISKEY, Universal Service Sports Editor. NEW YORK, July 25.—Promoter Tex Rickard announced Wednesday night he had signed Jack Dempsey and Luis Firpo to fight for the world's heavyweight championship. This confirmed a report sent out several days ago by Universal Service to this effect. Rickard said he was not ready to announce the date or the site of the fight, but that it would be held in the United States. There had been lots of talk of holding it in Firpo's home town, Buenos Aires, Argentina, but reports of drawing a gate as big as here were not very limited by law. Manager Jack Kearns signed for Dempsey, while Firpo scrawled his own name on the dotted line of the terms. Rickard several months ago signed Firpo to an agreement to fight for him, becoming impressed at the time with the ability of the "Wild Bull of the Pampas."

Not long ago, Rickard expressed the belief that Firpo would be the next world's heavyweight champion and that he would be the one to knock out the "Big Boy" in the ring. According to the best information obtainable the Polo Grounds is likely to be the scene of the extravaganza.

There had been lots of talk of holding it in Firpo's home town, Buenos Aires, Argentina, but reports of drawing a gate as big as here were not very limited by law. Manager Jack Kearns signed for Dempsey, while Firpo scrawled his own name on the dotted line of the terms. Rickard several months ago signed Firpo to an agreement to fight for him, becoming impressed at the time with the ability of the "Wild Bull of the Pampas."

Not long ago, Rickard expressed the belief that Firpo would be the next world's heavyweight champion and that he would be the one to knock out the "Big Boy" in the ring. According to the best information obtainable the Polo Grounds is likely to be the scene of the extravaganza.

By THOMAS L. CUMMISKEY, Universal Service Sports Editor. NEW YORK, July 25.—Promoter Tex Rickard announced Wednesday night he had signed Jack Dempsey and Luis Firpo to fight for the world's heavyweight championship. This confirmed a report sent out several days ago by Universal Service to this effect. Rickard said he was not ready to announce the date or the site of the fight, but that it would be held in the United States. There had been lots of talk of holding it in Firpo's home town, Buenos Aires, Argentina, but reports of drawing a gate as big as here were not very limited by law. Manager Jack Kearns signed for Dempsey, while Firpo scrawled his own name on the dotted line of the terms. Rickard several months ago signed Firpo to an agreement to fight for him, becoming impressed at the time with the ability of the "Wild Bull of the Pampas."

SCRAPPERS READY FOR LEGION SHOW FRIDAY EVENING

By Universal Service

Word from the Lake Wichita training quarters of the participants in Friday night's American Legion boxing show is to the effect that every one of the battlers is in the best condition, and all arrangements are complete to give the fans their best show of the season, Friday night at the Lake Wichita arena.

Fighting Simmons, who left a good impression in his appearance last week, will be in the ring with a newcomer in Cyclone Bowser, of Electra. Bowser is said to be a real scrapper and one who will give Simmons a lively tussle. Simmons and Bowser are billed in the second round main event.

A bout that is attracting almost as much attention as the leading in the semi-final of eight rounds between Cowboy Rogers and Anderson Martin. These two gave the fans a good show in their preliminary, and there are several other good preliminaries on the card, as well as a wrestling match.

The first bout will start at 8:30 o'clock. His appearances that seem well high incredible, with the privilege of taking 75 per cent of the gate receipts in most places. Only once lately has Firpo's business acumen failed him. He got \$5,000 for appearing three days in Boston at an amusement park, and he is said to have drawn over \$50,000 for his appearance in New York. He has been willing to take a gamble.

Of course, Firpo will make more in one fight with Jack Dempsey than he will make in half a dozen tours, but perhaps Firpo figures that the money will not be "easy" and he will make from battering "set ups."

Experts, recalling that Dundee has been such a hard puncher as Benny Leonard, Lew Tendler and scores of others without effect, are not batters Crigul can hurt the little fellow.

The Browns and the Indians, playing in St. Louis, took a run apiece in both the fifth and sixth innings, ending the evening with a 2-1 victory. The St. Louis team with two outs, succeeded in getting a run at the end of the seventh inning, winning 3 to 2. The Pirates, playing at their home grounds, won from the Boston Red Sox, 6 to 3, in a 3-5 game.

Other teams were not scheduled. Detroit, playing in Chicago, trimmed the White Sox, 6 to 3, in a 3-5 game. The Washington Senators, who were scheduled to play the first and fourth in the second inning, were not scheduled.

LOSS OF FORMER IRISH CHAMP IS ONLY GOLF UPSET

By Universal Service

(CLEVELAND), July 25.—Captain E. F. Carter, of Chicago, former champion of Ireland, considered one of the most likely contenders for the title worn seven times by Chick Evans, of Chicago, was the only favorite to meet defeat in the second round of match play in the western tour golf association's annual tournament here Wednesday afternoon. He was forced to concede the crown of victory to a slim 19-year-old youth from his adopted home city—Yra Couch defeating him 3 up and one to play.

Carter's elimination makes certain that either Evans or Sweater will be the final Saturday. If one of these strong favorites win in the upper bracket where they are placed. Joe Wells, of East Liverpool, Ohio, former Ohio state champion, defeated Eddie Heid, of St. Louis, former public links champion on the nineteenth hole, while Clarence Wolf, of St. Louis, was forced to give up before winning from Johnny Anderson, of New York. Sweater and Evans, the outstanding favorites, both had comparative ease in their matches. Sweater won from Frank Godchaux, New Orleans, and 2, while Chick Evans, who shot the first nine holes of his match in 25, one under par.

OPERATION PUTS TIGER PLAYER OUT FOR YEAR. DETROIT, July 25.—George Cutshaw, veteran infielder of the Detroit Americans, will be out of the game the rest of the season. It is learned Thursday, Cutshaw underwent an operation for appendicitis early this week and his condition was critical. Thursday, however, it was reported from the hospital that Cutshaw was taken that he is much improved.

CRIGUL WILL WIN BY KAYO OR LOSE TITLE TO DUNDEE ON POINTS, RUNYAN SAYS

By DAMON RUNYAN

NEW YORK, July 25.—Crigul and Dundee will meet Friday night. Crigul will be hit a great many times by his synthetic jaw, around his body in the early rounds by the sturdy little Italian with the battered ears.

Experts, recalling that Dundee has been such a hard puncher as Benny Leonard, Lew Tendler and scores of others without effect, are not batters Crigul can hurt the little fellow. The Browns and the Indians, playing in St. Louis, took a run apiece in both the fifth and sixth innings, ending the evening with a 2-1 victory. The St. Louis team with two outs, succeeded in getting a run at the end of the seventh inning, winning 3 to 2. MISS GALLAGHER'S CONDITION BETTER THURSDAY NOON

At 7:30 o'clock Thursday afternoon, the condition of Miss Gertrude Gallagher, who was seriously injured in an automobile accident at the corner of Lamar and Eleventh streets Wednesday morning, was slightly improved, according to reports from the General hospital, where she is confined.

M. B. OATES ACCOMPANIES TECHNOLOGY COLLEGE LOCATING BOARD ON TRIP

M. B. Oates, agricultural agent for the Fort Worth and Denver City railroad here, returned Wednesday from Abilene, where he has been with the locating board inspecting a prospective building site for the new West Texas Technological College which will be located in north-west Texas.

JOHNSON, CHENAULT AND LEA TO MAKE THREE TESTS ON WILSON TRACT, ARCHER

Dr. O. Johnson and Chenaunt and Lea of this city have made locations for the putting down of three tests on a 30-35 basis in blocks 444 and 445 of the Wilson lands, south-west of the producers on the Wilson tract in Archer County.

NEW TRIAL DENIED TO DENVER PRIEST

Denver, Colo., July 25.—Father Walter A. Grace, convicted yesterday by a jury in federal court of forging an application for liquor permits today was denied a new trial and was to be sentenced this afternoon.

CAREFUL, THERE!

Delaware University is expecting about 10,000 of its students during the coming year. Back in his native Honolulu, Hanky has quite a reputation as a catcher. And he keeps his "catchers" on all the time.

FOR OVER-ACTIVE KIDNEYS AT NIGHT

Are you of your child troubled with over-activeness at night, especially at night, which causes untold discomfort and may be a harbinger of serious kidney trouble? Little's Kidney Pills is relieving thousands, both adults and children, of this annoying disorder and should be the first bottle that you give to your child.

CUT IN GASOLINE WOULDN'T HELP PRODUCERS OF OIL

CHICAGO, July 25.—Any reduction in the price of gasoline at this time will not remedy the situation in the deflated crude market, declared H. B. James, of the Western Petroleum Refiners' Association and the Missouri Oil Men's Association today at the meeting here of southern western jobbers, refiners, producers and other interested parties.

He cited figures to show that refiners in the mid-western states had already reduced their refining operations to a minimum completely.

LOCAL NEWS BRIEVITIES

Jack Green of Dallas, south-western representative of the C. & G. W. railroad, was in the city Thursday.

Clifton Cobb of Dallas, freight agent for the C. & G. W. railroad, was in the city Thursday.

W. R. Kinney of Dallas, representative of the Baltimore and Ohio railroad, was a Thursday visitor.

W. J. Tremaine, assistant general agent for the V. & A. R. railroad, was in the city Thursday.

C. W. Kerber, commercial agent of the Wichita Falls and Southern railroad at Breckenridge, visited the office of the railroad here Thursday.

Mr. E. L. Humphreys of Seymour is spending the week here with his parents, Mr. and Mrs. J. W. Parker, 1423 Broad street.

CADDIE TOURNAY IS SCHEDULED AT MURK GOLF CLUB FRIDAY

Activities at the Wichita Falls Municipal Golf Club continue to boom, despite the warm weather.

The latest announcement is of a caddy tournament Friday morning.

The many club caddies have been swayed the "ticks" for many days in anticipation of Friday's event and the youngsters can be expected to turn in scores that will rival many of those made by the members.

A banquet for the members of the club is scheduled Friday night, with a special invitation being extended to the women members.

ONE ALLEGED CHICKEN FIGHTER TURNED LOOSE

One of the 17 men who were arrested Sunday night on charges of fighting chickens damaged a jury in the justice of peace court Thursday morning and the jury which heard the evidence returned a verdict of not guilty.

The defendant contended that although he was present at the time that the chickens were fighting that he was not interested in it in any manner except as an innocent spectator.

Even Washed Dishes in Uphill Fight for Higher Education

His first job— I studied entirely by myself.

By NEA Service. PULLMAN, WASH., July 25.—Two years ago an exiled Russian immigrant arrived in America's tongue or ways.

Today a college graduate with bachelor and master's degrees, a fluent conversationalist in the language of his adopted country.

That's Sergei Schelnukoff, late officer in the czar's army and Krasnaya's anti-bolshevik forces.

Sergei landed in the United States in September, 1921, after things got too hot for him in Russia. He came with only \$5 in his pockets plus a determination to complete his education in the shortest possible time.

He couldn't speak, read or write a single word of English.

Sergei made straight for the campus of Washington State College here. Now, 22 months later, he's able to talk an A. B. and an A. M. after his name. And he's a member of Phi Beta Kappa Phi, national scholarship fraternity, too.

How did he do it? Let him tell his own story. I had a hard time, though washing dishes at a big church entertainment. I was reminded, "I never had a wash before in my life. I finally did it through until 4 o'clock the next morning.

Then I swept and mopped floors. I had a hard time, though washing dishes at a big church entertainment. I was reminded, "I never had a wash before in my life. I finally did it through until 4 o'clock the next morning.

For a while I carried mail from school to the trains. I managed later to pick up one extra money by tutoring some "backward" students in mathematics.

"You see I had studied mathematics. French and German at the Institute of Technology of Moscow and the University of Moscow three years before the war broke out.

"The first semester here I took 12 hours of college credits. My English was good enough for me to understand class lectures or the matter in the text books.

"I read a good deal to accustom my eyes to the language.

"I began with elementary mathematics text. My English is simple and direct. It was easy to guess at much of it in connection with the figures. I began to study all the English grammar I could get hold of. I used only English text.

"I didn't have an English tutor. I listened to others speak and tried to get the sense of it. What I read, I repeated the words aloud, trying different pronunciations. If I came to a new word, I would sit down and write it many times.

"After English grammar, I tackled novels. First I read Oscar Wilde because I was familiar with his Russian writings. I read and read his Portrait of Dorian Gray.

"There would be pages in which I deciphered just a word or two. That didn't discourage me. I finally got used to them.

Sergei stood fifth in composition in a large class of American students in mathematics. Then he will teach in his English class this year!

In the fall he will return to college to study for his doctor's degree in mathematics. Then he will teach. And that is the story of Sergei Schelnukoff, State College's immigrant prodigy. Perhaps it's just beginning.

Preliminary hearing in the Justice court at Archer City in the case of J. J. "Blackie" Garner, in connection with the fatal shooting of Frank Zimmerman in the Freeman-Hampton oil field Saturday, July 14, was again postponed Thursday at the request of the defense.

The hearing has now been set for 10 o'clock Monday morning.

E. H. Wigrand of Dallas, traveling representative of the L. & N. railway, visited local railroad offices Thursday.

TIMES DAILY MARKETS

COTTON MARKET

New York Cotton. NEW YORK, July 25.—Disappointment over the failure of Liverpool to reflect the high temperature in the southwest, yesterday, explained an open market with reported 10 points in the local cotton market today.

There was support from New Orleans and Texas commission houses but the selling for Liverpool account and by the Houston and Galveston liberal while a good deal of realising by yesterday's buyers took place during the day.

While the market in the second hour rallied, it was again in a very low point, which was around 23 1/2 for October, there was less buying of the weather news from Texas than had been expected and it was believed that the market would have been severely affected by the developments of the last few days and the weather news.

Some commission houses, however, were slow to develop unless there is a continuation of adverse conditions for several days more.

Little trade demand took place to the south of the market and the market was selling around 23 1/2 to 26 points under the previous close.

Scattered local covering, based on the southwest advanced October to 24 1/2 and December to 25 1/2 by 2 o'clock representing about ten point advance over the lowest of the day.

Cotton futures closed easy. High Low Close. October 23 1/2 23 1/2 23 1/2-24 1/2. November 23 1/2 23 1/2 23 1/2-24 1/2. December 23 1/2 23 1/2 23 1/2-24 1/2. March 23 1/2 23 1/2 23 1/2-24 1/2. May 23 1/2 23 1/2 23 1/2-24 1/2.

New Orleans Cotton. NEW ORLEANS, July 25.—A general selling movement was seen on the opening of the local market today and a fair percentage of the cotton was sold for export.

Many reports of extremely high temperatures in Texas and Oklahoma, brought in fresh buying of business prices were at net losses of 1 to 2 points. October came back to 23 1/2. November advanced to 24 1/2.

VERSCHOYLE SELLS WILMOT HOLDINGS FOR \$150,000.00

A. T. Sibley and associates Wednesday purchased from Charles Verschoyle for a consideration of \$150,000, a tract of 20 acres out of Mr. Verschoyle's holdings in the Wilmot land in the Archer field.

The sale also includes one producer known as the discovery well, which was finished about two weeks ago and is still producing in the neighborhood of 200 barrels daily.

The new owners are contemplating an extensive development of the property as soon as the market conditions are more settled.

Old But Nimble

Private wire advices from Tulsa, Okla., today stated the Oxy Oil Company, a subsidiary of the Gulf Oil Company, has decided to operate crude oil runs in Oklahoma fifty per cent.

W. H. Coverdale, of the engineering firm of Coverdale & Colpitts today declared the dividend of 11 per cent on common stock, setting at par recent reports that the rate was to be cut.

Directors of the Bethlehem Steel corporation this afternoon declared the regular quarterly dividend of 11 per cent on common stock, setting at par recent reports that the rate was to be cut.

BOMARTON TRACHER INJURED BY HORSE. BOMARTON, TEXAS, July 24.—Miss Doris Holt was thrown from a plowing horse this morning while helping her father move his cattle from one pasture to another.

The horse threw her partly off and dragged her down the fence, tearing her clothes practically off, cutting an ugly gash in her face and knocking two of her teeth out. She is bruised on the back of her head. The doctor sewed up the gash in her face.

Miss Holt is the primary teacher in the school here.

### PLANS ANNOUNCED TEXAS PANHANDLE GULF RAILROAD

FORT WORTH, TEXAS, July 25.—According to C. L. Powell, of Tulsa, Texas, president of the Texas Panhandle and Gulf railroad, who was in Fort Worth Wednesday, the new railroad from Fort Worth to the Plains and Eastern New Mexico will bring millions of dollars to this city and it is going to be owned by the people it serves. The president stated that construction of the new railroad would start within the next 12 months. He expects the interstate commerce commission to grant the certificate of necessity for the proposed road within 90 days. Application for the certificate was filed in Washington Monday. Mr. Powell said that the estimated cost of the new road is \$2,600,000. Construction of new lines will cost \$1,100,000 and the purchase of 100 miles of the Texas Gulf and Western railroad will cost \$2,500,000. Equipment will cost approximately \$1,000,000.

### GUILTY VERDICT AND 10-YEAR TERM IN LUECKE CASE

After deliberating a few minutes less than three hours, the jury of the 29th district court which heard the evidence in the Anton Luecke case returned a verdict of guilty and assessed a punishment of 10 years confinement in the state penitentiary. The case was concluded at 5 o'clock Wednesday evening. Judge H. R. Wilson holding court open until arguments of counsel were concluded. Immediately after the jury had received the charge and the case papers it went to supper and returning at 6:35 began its deliberations. The verdict was returned into open court at 8:10 o'clock Wednesday night. The defendant had little to say when the verdict was read. The arguments of counsel were not present in the court room when his father heard the verdict of guilty.

### FOR THE HOME

Paintmaking, thoughtful, competent workers for the home may be easily secured through The Times Classified Ads. There is a way to solve the problem quickly for the housewife—call upon The Times Help Ads to bring experienced servants who will come well recommended and are able to prove their ability to fit into the household and perform duties with conscientious, painstaking care. Experienced cooks, maids and other household servants look to The Times Want Ads to provide pleasant, profitable employment. The modern way of solving the servant problem in this community is to call upon The Times Classified Ads.

### OPENING NEW ROAD IS CELEBRATED AT FARMERS' VALLEY

VERNON, TEXAS, July 25.—Approximately 75 members of the Vernon Chamber of Commerce and King Tut Club participated in the trade excursion Tuesday night to Farmers Valley, 16 miles west of here, to celebrate the recent opening of a new road through that community to Vernon. Over a hundred residents of the community gathered to welcome the motorists. The Vernon band was present and rendered stirring music before and during the program. The visitors began arriving about dark, and spent a few minutes in getting better acquainted. Because of the hot weather, the program was made an out-door affair, with the addresses being made from the steps of the Farmers Valley church. R. M. Fielder, secretary of the Vernon Chamber of Commerce, was master of ceremonies. Addresses were made by R. H. Nichols, president of the Vernon Chamber of Commerce, and by Mayor Harry Mason of Vernon. Features of the evening's program were songs and stunts by the student committee of the King Tut Club, including some real, old-fashioned string quartet music. The band music was heartily enjoyed. Numbered among the visitors Tuesday night was Mayor Randal of Chillicothe. Chamber of commerce officials and King Tut Club members were as being highly pleased with the success of the trade trip. The next trip will be made to Elliott in the east part of the county, probably some time next week. Water Very Pure. Mayor Harry Mason and City Engineer A. J. Robinson received a letter Tuesday from Dr. W. H. Beasley, state health officer, giving the results of the analyses of six samples of Vernon water sent to Austin last week. The samples were taken from the springs at Hill Crest Country Club, Condon Springs, the new city wells, and the old city wells. The average bacteria count per cubic centimeter was 23, an

### extremely low count, indicating a high purity of the water.

Consider Chlorinator. David Morey Jr., of the firm of Morey and Morey of Dallas, distributor of Wallace and Tiernan chlorinators, was here yesterday conferring with the city commission in regard to a proposed chlorinator for the water supply from the new city wells. Tests made on the water last week indicate that it is very pure, but in order to avoid the least possible danger of contamination, city officials may decide to install a chlorinator. Decision will be reached at a meeting of the commission next week. Ice Much Ice. Vernon citizens will use during the month of July approximately 1,750,000 pounds of ice, according to figures compiled by the Vernon Electric and Ice Company. The capacity of the local ice plant is 45 tons per day. Vernon people consume this amount of ice, and more, the excess being shipped in, principally from Childress. Not so efficiently is the local ice supply handled as there has not been a single occasion of its shortage this summer. Odell Youth Dies. Raymond Williams, son of Mr. and Mrs. W. A. Williams of Odell, died in a local hospital Sunday after an unsuccessful operation ten days ago for appendicitis. The appendicitis had ruptured before the last reached the surgeon. Funeral services were held at Odell Monday. Meeting at Oklaunion. Dr. J. L. Sims, pastor of the First Baptist Church of Vernon, is conducting a revival meeting with the Baptist church at Oklaunion. Rev. W. M. Reed, the Oklaunion pastor, supplied the local pulpit Sunday night. Notice. Peaches for sale, two miles north and one mile east of Thornberry. W. C. Rigby, adv.

### Non-Surgical Methods

In the treatment of accepted cases of Chronic Diseases. Rheumatism, Kidney, Heart, Nerve, Blood, Skin, Pelvic Organ, and all other diseases, ARE HAVING MANY OPERATIONS. DR. BREVOORT, Specialist maintains a highly specialized equipment for administering the latest discoveries in non-surgical treatment. CONSULTATION AND EXAMINATION FREE. CALL AND SEE. NO CASE ACCEPTED. The advances of recent times in disease treatment, as exemplified by the equipment of a modern office. Refer to hundreds of former satisfied patients. I AM EQUIPPED to administer all the latest Serums, Bacterins and Intravenous Treatment under sterile conditions and painless technique. Also use Light, Heat, Vibration, Ray and Electrotherapy. Medicines dispensed without extra charge. PHLEbotomists call or send for my free booklet before consulting to operation. 8021 Olive Ave. Wichita Falls, Texas.

### The Banker Has An Axe to Grind

The bank executive who gives you advice and business information when you ask for it has an axe to grind; he knows that his prosperity and advancement are dependent largely on yours. That consideration dominates him in giving you that important form of banking service. The First National Bank Indiana at Eighth St. Established 1884 Capital and Surplus \$1,500,000. Thursday Is Dollar Day. Come to the bank tomorrow and start a savings account with your dollars and watch it grow. Security National Bank "The Bank of Personal Service" Eighth and Indiana.

### COOK GETS MAD CLEARS OUT KITCHEN

Step Everything in Sight and Clean Over the Gruesome Dead. "Our cook got in a rage yesterday and went on a rampage when she wanted to turn the house upside down," said a well known club woman to a friend she met while down town shopping. "We were all quite excited about it, but I'm glad it happened, now that it is all over. I am sure she won't have any more trouble like we had before. We had just hired her, and when she went in the kitchen to get dinner, she complained that the place was overrun with roaches and water bugs. She said the last cook was simply awful. I won't tell you what she said, but she called up the druggist and had a bottle of Fly-Fix sent out and soon cleared out every one of the pests. Oh, yes, it is a sure death to all sorts of insects, moths, flies, mosquitoes and bedbugs, too. You can get it at any drug store, and also at your grocer's. A 25¢ certificate goes with every bottle—if you follow the directions and it doesn't do the work they will pay you \$20 in gold. It's the very thing to use when you put away your fur. Large bottle 50¢ with sprayer at druggists, grocers, general stores and other retail depots. Fly-Fix Corporation, Manufacturers, Atlanta, Ga. J. H. Radford Grocery Co., Distributors—adv.

### THIRD SAFE RIFLED HERE DURING WEEK NO VALUABLES LOST

The office of the Long-Bell Lumber Company, 1905 Ohio Avenue, was broken into Wednesday night when the safe was rifled, bringing the number of riflings for the week to three. Only a few papers were in the safe at the time, and they were prepared to construct a line from Tucumcari to Seymour, Texas, a distance of 303 miles; to

### MOTION TO QUASH VENIRE IN MURDER CASE SUSTAINED

A motion to quash the special venire summoned for the trial of the murder case, as presented by the defense, was sustained by Judge H. R. Wilson Thursday morning. The special venire had not shown the signature of the district clerk. The case was continued until Monday morning, August 27, at which time another venire of 100 men will be ordered to report. The defendant asked that each venireman be personally served, objecting to the regular method of summoning veniremen by postal card. Mayor Harry Mason and City Engineer A. J. Robinson received a letter Tuesday from Dr. W. H. Beasley, state health officer, giving the results of the analyses of six samples of Vernon water sent to Austin last week. The samples were taken from the springs at Hill Crest Country Club, Condon Springs, the new city wells, and the old city wells. The average bacteria count per cubic centimeter was 23, an

### STOP ITCHING SKIN

Zemo the Clean, Antiseptic Liquid, Gives Prompt Relief. There is one safe, dependable treatment that relieves itching torture and that cleanses and soothes the skin. Ask any druggist for a 25¢ or 50¢ bottle of Zemo and apply it as directed. Soon you will find that irritations, Pimples, Blackheads, Eczema, Blisters, Ringworm and similar skin troubles will disappear. Zemo, the penetrating, satisfying liquid, is all that is needed, for it banishes most skin eruptions, makes the skin soft, smooth and healthy.

## ICE is only 74 10000 of cost of living

### A small item but very important

THE cost of ice in the average family is a very small fraction of the cost of living. An investigation made by Dr. Wm. E. Marsh, of the Bureau of Municipal Research, New York City, showed that ice is only 74/10,000 of the cost of living in an average family. Without ice, food bills would double in warm weather, the spoilage would be so great, and health would be endangered. Many people waste both food and ice by using too little of the latter. Their refrigerator may be too small, or they may let the ice get too low. That is false economy. A full ice chamber in a good sized ice box will save you money.
