Firm, Plump, Flesh!

MANY are the eyes that are turned to gaze with keen admiration on the well developed, healthy girl, no matter where she may be. On the rapidly moving thoroughfare or gliding gracefully over the dance floor.

All eyes turn because we all appreciate the girl with the figure so trim and plump—the girl with radiantly red cheeks, eyes that carry a touch of rosy from nature's own garden—the girl with the sparkling eyes, keen and sharp—the girl with buoyancy and the smiling of youth.

Not necessarily an out-of-door girl. Just a girl with ever increasing blood cells. Just a girl filled with the vim and vigor of youth.

Dr. S. S. Sims' Blood Cells, S. S. S. means restored strength—rekindled vitality—added energy. Take S. S. S. and watch the bloom of youth return to your cheeks. Watch that healthy, rosy complexion flash away before you that is firm and plump. Red blood cells will do it and S. S. S. will build them. It contains only pure vegetable ingredients. S. S. S. is sold at all good drug stores. The large size bottle is more economical.

The Tangle

Letter from John Alden Prescott to his wife, Mrs. Leslie.

I awakened in the night, my darling, and set myself up listening, listening for sounds that I seemed to hear.

Before I was fairly conscious of reality my heart stopped, for I seemed to sense that something was wrong. Oh, Leslie, I wish I could tell you how much you mean to me. When I left you yesterday morning, I felt that I was not going to see you again, but I am so glad to have you back in my heart, such a feeling at this slight separation.

I hope I appreciate how good the letter has been to me and if I love you always devotedly will show my appreciation, then you will know how you fill my life, my heart.

I've pointed me out last night and my old regular old hair-cut such as we used to have when we were at college. There is something about it that I don't like, but I really think he looks no better than I know myself. Principally, my hair, because he is not always so neat, but I don't know what to do. I'll ask you how you like it.

I got the contract for the Blazer underwear. That looks like I'll have money enough to pay for all your things. Truly, Leslie, I wanted to have your picture put up that money for you, but I don't know what to do. I would give anything in the world if my mother were like yours.

THE OLD HOME TOWN

Several members of the crew, who were very afraid of the captain, jumped overboard and took hold of lifelines. When they had done so, the ship was abandoned to its fate. The captain, who was very brave, stayed on the ship and tried to save it. He managed to keep the ship afloat for some time, but eventually it sank. (Continued)

Iceless Desserts and Other Household Suggestions

Here are some hot weather desserts for the woman who does not have ice at her disposal.

While frozen desserts are out of the question any chilled dessert that must stand several hours is perfectly possible.

A good way to chill desserts is to wrap a wet cloth around the dish or pan they are molding in.

And keep in mind that any dessert containing milk and eggs is a heavy dish and plan the rest of the meal accordingly.

Sister Mary Preparing a new recipe.

GENERAL MENU.

Here is a general formula Sister Mary suggests housewives follow in preparing a menu for one person:

One starch vegetable.

One bulky mineral vegetable, one green, fresh vegetable, one potato, meat or a custard or similar dessert.

And remember that each person must have at least a pint of milk a day. If not taken one way, it can be furnished another.

thoroughly when they're done. I do not let the dishcloth dry over the pans, but I wash the cloth and hang it up to dry. There are more reasons for this than any other thing else in the house.

Salads-Chicken Sandwich.

Get chopped seeded radishes with cottage cheese and blend between lettuce leaves between slices of bread to make a delicious and easily digested sandwich.

Keeping Honey.
Honey, if it stands too long, will crystallize and become solid. It keeps best in a dry, fairly warm place.

Curling Hair Corners.
To prevent the corners of a rug from curling, rub them with a little oil.

from curling, rub some stiff material, like buckram or haircloth, on the under side of each corner.

Bar in Rain.
It is economy not to buy canned peaches or apricots. The dried fruits cost less, taste as good and contain three times as much fruit as the canned variety.

Upholstered Furniture.
To clean upholstered furniture, cover the stuffing with a towel and whip with a rattan, shoving the towel whenever it grows dusty.

Fire Prevention.
When you are frying meat or anything that is apt to splutter, grease put newspapers on the floor about the range to protect your floor.

with straw, excelsior, wrapping paper or so on. If such things have to be kept, keep them in boxes, mark plainly, box if possible and set far from the windows.

Large Holes.
To darn large holes haste a piece of thin net over the hole and darn in the usual manner.

Kitchen Mat.
A thick mat of coconut fiber or worn rope, placed in front of the sink, when you stand when you wash dishes, or when you stand when you iron, will add to your comfort and conserve your nervous energy.

Spotting Glasses.
When you are trying to read anything that is apt to splutter, grease put newspapers on the floor about the range to protect your floor.

Clean Towels.
Always put your clean towels at the bottom of the shelf on which you keep your linens. This way they all get an equal amount of wear.

Greasy Dishes.
Never set sticky dishes or greasy plates on your clean shelves. It is the only invitation that reaches
