STATE WITNESSES HEARD IN TRIAL OF ROSS AT ABILENE

ABILENE, Texas, Sept. 11.—The trial of Tom Ross for the alleged slaying of H. L. Robertson, got under way in district court here this morning when the state presented its case. The state presented its case through the testimony of W. R. McLean, Jr., of Fort Worth, N. B. Morgan, a lawyer, 48 years old, was the second witness presented this morning and likewise described the scene in and around the hotel prior to and after the shooting. It is possible the state will complete its direct testimony late today.

SEES BROTHER FIRST TIME IN THIRTY-FIVE YEARS

ABILENE, Texas, Sept. 11.—J. R. Loftus, Columbus, Miss., saw his brother, Tom Ross, for the first time in 35 years when Loftus came here to attend Ross' trial for the slaying of H. L. Robertson, state inspector. Loftus said his brother, whose real name is Hill Loftus, left home as 18 years of age and came to Fort Worth. Loftus learned of his brother's whereabouts through reading newspaper accounts of the trial at Abilene.

JURY COMPLETED IN CASE OF TOM ROSS AT ABILENE

ABILENE, Texas, Sept. 11.—With completion of the jury here last night the case of the state versus Tom Ross charged by indictment with the murder of H. L. Robertson, state inspector, last April, is expected to make good progress today. The indictment was read last night by District Attorney Milburn B. Long and a formal plea of not guilty was entered in behalf of the defendant by L. P. Cunningham, defense counsel. The witness had been accused for the day and no effort was made to present testimony last night. The jury was completed each side had no challenge left. Hundreds of witnesses and spectators from all parts of the state, including the foreign press, are present.

EXPERT EARLY OPINION ON THE TASKER-FARLEY SHIP OPERATION PLAN

WASHINGTON, Sept. 11.—The opinion of the department of justice as to the plan of the Tasker-Farley ship operation plan probably will be transmitted to President Coolidge early next week. Within another day or two another opinion as to the question of using the navy to enforce prohibition is to be sent to the White House. Attorney General Daugherty returned to Washington today after several weeks at his home in Columbus, Ohio, and is expected to attend a cabinet meeting. It was the first time since Mr. Coolidge became president that there were no vacant chairs at the head of the executive's official family.

Vernon Castle Name Dropped From Boulevard

PORT WORTH, Texas, Sept. 11.—Upon the request of a number of property owners, the city commission today changed the name of Vernon Castle Boulevard to Boulevard. K. Robey and Rev. O. T. Bond, representing people living along the boulevard which is on the north side, said that the change was desired because the name "Vernon Castle Boulevard" is too long. They said the movement was not prompted by any ill will against Vernon Castle, famous dancer and air hero of the world war, for whom the street was named.

DELIVER ABSTRACT OF TITLE TO LOCATION FOR TECHNOLOGICAL COLLEGE

AUSTIN, Sept. 11.—Abstract of title to the 2,500 acres of land adjoining Lubbock selected as the location for the newly created Texas Technological College, was received by the attorney general's department today for examination and approval. This constitutes the final step in transferring the land to the state.

Believes Government Taking Adequate Steps For Coal Distribution

WASHINGTON, Sept. 11.—President Coolidge believes the coal government is taking adequate steps to insure distribution of fuel to the consumer during the coming winter as cheaply as possible. It was pointed out at the White House today that the president took away the coal commission some time ago and the recommendations of that subject contained in recent letters of Attorney General Clegg, Secretary of the Interior, and John L. Lewis, president of the United Mine Workers of America. The commission was asked especially to do all it could to see that fuel was available at fall prices.

TENTATIVE FIGURES INRAIL VALUATIONS AFFIRMED BY I. C. C.

PROTESTS FILED BY TWO ROADS ARE OVERRULED BY COMMISSION

WASHINGTON, Sept. 11.—After many months of investigation the Interstate Commerce Commission today finally disposed of the first two contested cases to come before it under the law authorizing it to fix a physical valuation for railroads as a basis for rate making. "Final single sum values" of \$44,000,000 for the San Pedro, Los Angeles and Salt Lake Railroad Company and \$23,245,557 for the Atlanta, Birmingham and Atlantic Railroad Company were fixed by the two decisions as a result of extended hearings and examination into protests which have been filed against the valuation previously announced for the two lines.

DECISIONS ARE RESULT OF EXTENDED HEARINGS

Power to Fix Valuations Authorized As Basis For General Rate Making. WASHINGTON, Sept. 11.—After many months of investigation the Interstate Commerce Commission today finally disposed of the first two contested cases to come before it under the law authorizing it to fix a physical valuation for railroads as a basis for rate making. "Final single sum values" of \$44,000,000 for the San Pedro, Los Angeles and Salt Lake Railroad Company and \$23,245,557 for the Atlanta, Birmingham and Atlantic Railroad Company were fixed by the two decisions as a result of extended hearings and examination into protests which have been filed against the valuation previously announced for the two lines. The finding with regard to the Atlanta, Birmingham and Atlantic is regarded as having established a precedent for further valuation decisions which are to be made by the commission intermittently in the near future. The Atlanta line is a property, according to the commission, that has been a consistent loser, that it was held that its valuation could not be based upon a consideration of the "junk worth" of the property as it stood, but rather a distinct service to the territory traversed. The Atlanta and Atlantic had contended that the original cost and development of its properties and its working capital should be the basis for valuation. A claim of \$74,000,000 was made by the San Pedro line as the value of its property as a whole. The commission declared, however, that in the determination of value for rate making purposes, "we are not limited and we are confined to a mere formula."

ITALY PLANS TO ANNEX TROUCE IN NEXT FEW DAYS

GENOVA, Sept. 11.—The Jugoslavian foreign minister, M. Hristich, declared in a statement today that his government had no intention of submitting to the League of Nations its differences with Italy over the Fiume question. PARIS, Sept. 11.—It is understood from information gathered in Rome that the government had no intention of submitting to the League of Nations its differences with Italy over the Fiume question. FORD FOR PRESIDENT CLUBS ARE ORGANIZED IN EIGHTEEN STATES

OMAHA, Neb., Sept. 11.—Ford for President clubs have been organized in 18 states, according to Roy M. Harrop, national chairman of the national independent progressive party, here, making arrangements for a meeting of the national committee of the party on November 21, at which time a resolution of a city for holding the national convention will be made. The clubs established have a total membership of 10,000, according to Mr. Harrop, who stated a petition was filed in Nebraska bearing 2,000 names asking Ford's name be placed on the ballot. If it is planned, will be chosen to head the party "ticket with some southern farmer," perhaps a farmer union man, as "vice president."

NEW COOPERATIVE PLAN FOR MARKETING GRAIN

CHICAGO, Sept. 11.—Completion of a new national cooperative marketing project for grain will probably be announced in nine or ten days, Walter F. Foster, director of co-operative marketing for the American Farm Bureau Federation said today. "The enterprise will be upon the commodity plan, known as the Danish or California system," he added. "The plan has been in operation in my own state of Iowa for two years. The plan being formed, national marketing of grain, and comparable to those being applied in the cotton and tobacco markets now."

Outstanding Act of Heroism in Recent Japanese Disaster Was On American Naval Destroyer

LONDON, Sept. 11.—The Kobe correspondent of the Central News says that references to the heroism of the American naval destroyer 217 with the most outstanding act of heroism after the earthquake. This was the dash of the craft up Tokyo bay to rescue marooned foreigners in the Japanese capital. Ocean going vessels rarely attempt to steam further up the gulf than Yokohama and for the Americans to take their ship to Tokyo through the shallow waters of the upper bay after the seismic upheaval involved unknown dangers.

Sheriff Chases Comedian While Audience Waits

CHICAGO, Sept. 11.—While a crowded house impatiently awaited the raising of the curtain at a downtown theatre here last night, William T. Kent, leading comedian of the play scheduled to be shown, led a deputy sheriff a chase behind the curtain for several minutes before the latter served him with a notice for divorce instituted by his wife, Bliss Kent.

LOS ANGELES, Sept. 11.—Three hundred chickens, thought night had come when darkness accompanied yesterday's eclipse of the sun and went to their roosts at Artesia, a suburb, but were prevented from going to roost by thieves who took them to sew homes, according to reports to the sheriff's office here.

TO INVESTIGATE DISASTER TO U. S. NAVY DESTROYERS

SANTA BARBARA, Calif., Sept. 11.—A board of inquiry with Rear Admiral W. V. Pratt as its chief member, was expected at the scene of the wrecked naval destroyers at Santa Barbara, 75 miles north of here, today to investigate the disaster which cost the lives of 23 enlisted men and set a record for peacetime naval losses.

The death list was placed at 23 last night with the official announcement that 22 men were missing and one dead. The possibility that the unrecovered bodies may have been swept out to sea was given added strength today when Lieut. Lee at the scene of the wreck said he believed no bodies remained on the destroyers. Bodies were given added strength today when Lieut. Lee at the scene of the wreck said he believed no bodies remained on the destroyers.

Of the injured in hospitals here and at San Diego it is believed all will recover.

The inquiry will involve explanations from the commanders of the vessels which were on duty in the area last Saturday while cruising at 20 knots in an hour in a heavy fog from San Francisco to San Diego.

At San Diego, the naval base where the survivors were taken, it was officially reported last night that the orders to change course were given from the Destroyer leading the column, before the craft had reached Point Arguelles.

NEW ZR-1 IN EXHIBITION FLIGHT

The newest addition to the air forces of the United States, the ZR-1, is shown in the water tower and the spectators in the foreground, of whom there were several thousands.

PHILADELPHIA, Sept. 11.—The ZR-1 paid her scheduled visit to Philadelphia this morning, entering the city at the northwestern limits shortly after 9 p. m. and sailing down over the Delaware river toward the center of the city.

NEW YORK, Sept. 11.—The giant airship ZR-1 today flew up from her hangar in Lakehurst, N. J., to visit New York.

New York was on its feet to greet her. Hoops visible for miles from the Woolworth tower were crowded with spectators.

The giant airship first was sighted from the tower after she had passed over quarantine and headed up the harbor toward the Statue of Liberty.

Five engines, strung in the airship they reported, circled the ZR-1 as she passed over the tip of Manhattan, glided up the island and disappeared in the haze far to the west.

The ZR-1 rode on an even keel most of the time. As she passed the Statue of Liberty, however, she slipped her nose quite perceptibly. Down went her bow also as she turned northwest toward the Hudson, following the river on her way up town.

Only five of her six motors were working as she passed over the city, but their hum could be heard indoors, even above the noise of the city.

The giant airship returned to the city of Manhattan after a steady voyage of half an hour over the city.

The ZR-1 paid a visit to Brooklyn and then returned to Manhattan, landing shortly after 11 p. m. She cut graceful circles in the air, turning with remarkable swiftness for her size, as it to prove she could wriggle through aerial traffic just as skilfully as a glie taxis deage surface cars and pedestrians thousands of feet below her.

Art instruction is practically unknown in schools of Turkey, but it is expected that water color painting will be taken up in the near future.

Roosevelt Urges Farmers Combine To Buy and Sell

SYRACUSE, N. Y., Sept. 11.—Combination and co-operation is the hope of the American farmer, assistant Secretary Roosevelt of the navy department declared today in an address at the New York state fair.

The power will be put in aiding the agriculturalist, he said, should be confined to legislation which co-ordinates and assists it through the federal agencies of information and in extending credit facilities where it serves some practical purpose.

"In my opinion," Mr. Roosevelt said, "the farmer has not kept step with the times. The day of the small individual has passed. Economy and efficiency are vital to success and it is axiomatic that either in buying or selling if you deal in bulk you can deal to your advantage."

"There is one way, and one way only, that the farmer can meet this condition. He must combine himself. If he does not combine and co-operate with his brother farmers he will unquestionably be forced under. The proof of this is everywhere around us."

OPTOMETRISTS VISITING OTHER TOWNS SUBJECT TO STATE OCCUPATION TAX

AUSTIN, Sept. 11.—Regulatory boards, commissioners who have an established office but visit other towns and collect business are subject to the state occupation tax of \$50 annually assessed against itinerant physicians and optometrists, the attorney general's department held in an opinion delivered today to State Comptroller L. A. Smith.

The opinion further held that optometrists not regularly licensed who travel from place to place also are subject to a state occupation tax.

The opinion was rendered as a result of an attack on the optometry act passed by the 57th legislature, creating the state optometry board.

Bucilla

A New Department Added in Our Store That Is Welcome News to the Needle Worker

Bucilla threads and stamped work materials need no introduction to the needle worker in this section of Texas, and McClurkan and Company has just secured the exclusive franchise for Wichita Falls for the entire line of Bucilla rope thread, embroidery thread, crochet thread, in fact every thread that is made by the Bucilla people.

Because of their exquisite taste and admirable colorings "Bucilla" sets are becoming more in demand each day. They offer the high class trade a fine line of materials in package goods, which are ready made, with thread enclosed, for the finished work such as aprons, night gowns, teddies, baby dresses, boudoir caps, luncheon sets, buffet sets, scarfs, pillow covers, etc.—and the prices of these stamped goods are so reasonable, starting at 45c each and up to \$2.00.

Miss Elizabeth Peyton, who has charge of this department, will be only too glad to show you through the line of Bucilla goods or answer any inquiry you may make, either in person or by phone.

Painful Rheumatic Swelling Disappear

Discoverer Tells Druggists Not To Take a Cent of Anyone's Money Unless Alleviate Completely Swelling All Rheumatic Pains and Twinges.

Mr. James M. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery, which he called ALLENRHU, to those who took it with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. He has therefore instructed druggists everywhere to dispense ALLENRHU with the understanding that if the first pint bottle does not show the way to complete recovery he will gladly return your money without comment. False Drug Sues and Central Drug Store will supply you.—adv.

PLAN WOULD MAKE FRIBERG ROAD A STATE HIGHWAY

CLAY COUNTY WOULD PAVE ROAD TO BYERS IF PLAN WORKS

COUNTY JUDGES WILL MAKE TRIP TO AUSTIN

Effort Will Also Be Made to Make Mt. Carmel Road State Highway

Plans are being formulated for securing a continuation of State Highway No. 39, the Seymour road, through Charlie and Byers. It was learned Tuesday morning. Clay county officials have approached County Judge B. D. Sartin on the proposition and have agreed to hand over the road to the Wichita county line, provided state aid is available.

Judge Sartin and County Judge Yaden of Clay county will go to Austin within the next week or ten days to discuss the proposition with the state highway officials with a view to having the Byers road made a state highway and securing state aid. They will make an effort to have the road made a continuation of the Seymour road project.

At the Monday session of the Wichita county commissioners court, a contract was let for repaving the Charlie road to the Clay county line.

Clay county officials have conferred with Judge Sartin and agreed, if state aid could be obtained, to hand over the Byers-Charlie road to the Wichita county line. Judge Sartin assured them that Wichita county would be in a position to meet the road at that point with similar pavement if the highway became a reality.

If the Wichita and Clay county officials are successful in securing the cooperation of the state highway commission, it is expected that contracts for the paving will be let in the near future.

New Paved North of Electra. When Judge Sartin goes to Austin to appear before the state highway commission he will also propose that the Mt. Carmel road, from Electra to the Red river bridge, leading to Frederick, Okla., be declared a state highway in order that the road may be paved the entire distance.

The road has been paved a distance of five miles north of Electra, but at this point it was necessary to stop due to lack of further funds. Should this road be declared a state highway, Commissioner H. H. Harrier of precinct No. 4 has agreed to expend a portion of his road maintenance money, which will be apportioned on January 1, for completion.

Miss Lela Davison, star performer, entertained some younger members of the Hagenbeck Wallace shows, largest organization of its kind in the world, which will give two performances and grand free street parade here Saturday, September 15.

Action, color and music, plenty of each, from the time the trumpets announce the grand entry, until the final strains of the band toll that the big show is over, are paramount features of the 1928 performance of the Carl Hagenbeck-Wallace Circus, which comes to Wichita Falls for afternoon and night exhibition and grand, free street parade at 11 a. m. Saturday, September 15.

Not only is it true that there is not a dull moment during the entire two and one-half hours of entertainment, but the most blasé circus "fan" comes away admitting that, for novelty and variety of character, the Hagenbeck program is entitled to a 100 per cent rating.

The Hagenbeck-Wallace circus, this year as always, is making a feature of its trained wild animal acts, and the biggest and best wild animal acts now before the public, appear in the large steel arena. For the past thirty years the name of Hagenbeck has been noted in America, as well as Europe for the best in animal numbers, and all of the acts have been trained by John Heliott, authorized training representative for Hagenbeck in this country.

But animal acts do not constitute the program alone, for among the two hundred stellar performers are found artists of international reputation. Included in the list of features are the Australian Woodchoppers; the four troupes of Chinese stunts; the Danesport; Grasshopper and Lowland riding acts; the society horse number, as well as the old-time English fox hunt.

The afternoon show is scheduled for 3 p. m. while the night performance will start promptly at 8 o'clock. The doors will open an hour earlier, so that the patrons can find time to inspect the immense menagerie. A town-wide ticket office will be opened city-wide at Tipton's Drug Store, where tickets for both performances can be purchased at the same price as on the grounds.

Tractor Exhibit Will Be Feature At Fair Grounds. The tractors exhibit this year at the Texas-Oklahoma Fair and Exposition to be held here, Oct. 1 to 7, inclusive, will be equal to the display at any tractor show in the United States. Manufacturers are showing many types showing the improved features and inventions. The tractor is becoming an efficient farm machine and is regarded as the "iron horse" about such farms, according to C. H. Verschoyfe, secretary of the fair association.

Tractors were first made for plowing and discing, and that was all that was expected of them until the past three years. Today they are not only being used for plowing and discing, but for most all kinds of farm work.

According to manufacturers more three-bottom tractors will be exhibited at the fair than any other type. Such a tractor is capable of pulling a plow which turns three furrows at a time, and has from 12 to 25 horsepower.

Five years ago the small tractor, so popular today, was practically unknown. Today there are approximately 200,000 of this type being used on farms. Experts predict more than 1,000,000 tractors will be in use by 1928.

Many other labor saving devices for farms will be exhibited at the fair. Entreat for such exhibits are being received daily from dealers and manufacturers, and it is quite probable that some of the larger exhibits will be under canvas, as the exhibits are too large and require too much inside space, according to Verschoyfe.

Welfare Council Aids Boy to Reach West Virginia

A life long ambition to get a thorough education and take his rightful place among the big men of his country, caused William Bentley, 14-year-old lad, to ask the aid of Mrs. E. B. Goring, of the Welfare Council, for a ticket to his home at Beverly, West Virginia, which he left last Christmas when he came to Texas with his uncle.

Only a youth and small for his age, the lad in a timid manner told Mrs. Goring how he had been deserted by his uncle and forced to face the world. Not complaining, the boy obtained work and has supported himself by selling newspapers and working at odd jobs, such as washing dishes in restaurants, working in hotels and stage and running errands.

For four months the lad has awaited word from his uncle, who left him in Hollywood, without saying good-bye.

The boy said that he was in the eighth grade at school when he decided to take a trip to Texas with his uncle. On his arrival in the Lone Star state the lad was placed at work in a hotel, where he worked for several months, the uncle refusing to support him.

Although he has changed jobs a number of times, the lad told Mrs. Goring that he had always managed to provide himself with food and a place to live, and had not notified his parents that his uncle had deserted him, although he writes his mother every week.

Mrs. Goring took the lad in charge and has written his father, who is a team contractor, living four miles from Beverly, for money with which to purchase a ticket for the lad in order that he can return home and complete his education.

HEARING IN GAS INJUNCTION CASE MAY BE POSTPONED

Unless the suit between the Municipal Gas Company and the Lone Star Company, which was dismissed out of the district court at Dallas Monday afternoon, is settled out of court, the injunction hearing against the Municipal company filed by twenty-one cities which are served by it, which is scheduled to be heard in the district court at Sherman Thursday will probably be postponed, according to Mayor Frank Collier.

The injunction was asked by the cities against the company when it was learned that the Municipal company intended adding a 50 cents "ready-to-serve charge" on all gas bills.

According to the mayor, the new charge is the same as that on a gas meter and will be an extra within ten days, which makes the charge 75 cents for 1,000 cubic feet of gas. Mayor Collier pointed out the fact that residents of "Waco" were charged \$1 for a charge of the same amount of gas with the same reduction for prompt payment, or 50 cents for 1,000 cubic feet of gas.

Under the present injunction the same rate will remain in effect and no changes in the ready-to-serve charge will be made until the suit between the two companies is settled and the injunction hearing at Sherman is held.

The temporary injunction against the Municipal company was granted in the district court at Sherman ten days ago.

When the hearing is held City Attorney W. E. George and probably the mayor will attend.

ing has a great advantage. He may not be able entirely to ignore the unpleasantness of life as they come along, but he at least doesn't meet them with a magnifying glass.

A good memory is most valuable when accompanied by a good imagination.

The average husband has more sense than his wife thinks and not as much as he thinks.

Taking proper care of a beautiful complexion leaves no time for cleaning up the house.

Men have worn neckties a thousand years without thinking up a logical cause for them.

The best way to argue with your wife is to go out on the porch and smoke a cigar.

Some men take baths on Saturday night. Others go out to get soaked.

Dollars are supposed to be well made. But they won't last. You must keep making new ones.

TODAY'S TALK

By GEORGE MATTHEW ADAMS

YOUR DOORS.

Every time you think or speak, you let out something into the world. Many of the most influential figures in history have been the silent men and women—those who radiated without talking.

Your eyes are doors. How much comes out of a pair of eyes that could come out in no other way? Eyes talk, admonish, melt in sympathy, fire with indignation, warm with love, inspire by their ability to look right into people's faces and into the face of the world.

Your mouth is a door. Sometimes just a handful of words, flitly spoken and sent out through each a door, have traveled around the world and touched the lives of millions.

You never know how far or how deeply any of your words will go or sink. They may travel quickly to the furthestmost parts of the world, or simply dig their way into some nearby heart and there lodge and grow to something very wonderful as though in some silent garden.

Then your mind, too, has doors, and so has your heart.

We seem to be a house of doors. I'm glad we are, for this makes possible a life of such varied achievement and association.

Through the doors of our eyes, our minds, our hearts, our mouths, may come and go the beauties and expressions and words of all the world.

You may be all alone—and yet if you will but open the doors of your mind, a whole multitude of friends may come in to make you glad and happy. Through your mind's imagination may come every beautiful experience to live again. And into the doors of your heart may come the cheers of other days to make this day like those.

We are less afraid of ourselves with the thoughts, feelings and love of others coming into the different doors of our selves all the time.

And if you are made happy by what comes into your doors, think how happy others will be to receive something of you through their doors.

JUST FOLKS

"TWENTY-FIVE YEARS AGO TODAY"

The papers print a column which they call "Twenty-Five Years Ago Today." How queer such strange events should have happened here.

I'm looking at my father, who smiled and said, "It was there when this happened," or shook his head at some ancient report, to indicate the truth of a tale of some bygone date.

Oh, it seemed in youth they could not be so. Those stories of twenty-five years ago; Then "twenty-five years ago today" Seemed ever and ever so far away.

But I'm getting old, and it can't be hid, I'm shaking my head as my father did As I find them printing the things I know As the record of twenty-five years ago.

And the children stare at my head they pat And, surprised, they question, "Did you see that?" They think it strange that a man should say He saw things twenty-five years ago today.

Oh, it's not so long. Just a flick, that's all! You may think it great but it's really small. And you'll find it out when the papers tell Some ancient news you remember well.

Rippling Rhymes

NOTHING BUT GOOD.

I hang a wreath upon the tomb of J. Augustus Frank, and thus alleviate the gloom of all his weeping aunts. I hoist him in the market place now that he's looped the loops; "He was a credit to the race," I say to village groups. Augustus bowed me many years, state rage he used to show, and from my eyes the bitter tears his stories often drew. But now he's dead and in his grave and he'll be there a while, and I am anxious to behave in seemly, flit-like style. Men say we should bestow our flowers on people while they live, now as their graves drip briny showers—such tears no comfort give. But while a man is still on earth he's able to recast the couplets speech or stilted mirth of any boring poet. He's able to criticize him then, to say he is a poet, to show his faults with tongue or pen, regardless of the cost. If he repeats the things I've said, his vengeance he may seek, and punch me piously on the head, and even go on the back. But when he dies I must forget all rancor, love and spite, and boost him as the village pet, and say a fond "Good night!" Speak nothing of the dead but praise the thimble-thimble man; recall the things for which they stood, remembering their useful deeds.

MARSHALL'S RELIEF PITCHING DOWNS SPIDERS BY 7 TO 5

Osborne Is Unable to Hold Bears While Kunz Comes Along too Late; Cotter and Berger Hit Home Runs

The Spuders were not so good Monday in the final game of the season with the San Antonio Bears as they were Sunday and the Bruins made away with the last game, 7 to 5, due to a complication of circumstances. Bob Osborne was bumped a bit too often, he was wild and he allowed a couple of stolen bases that figured largely in the result of the game. In the third round when the Bears made three, had Osborne held runners on first, the Bears may not have made a run, but as it was they got all of three and overcame a two-run lead that the Spuders had compiled in their one big inning of the game.

After Osborne was bumping Earl Kunz finished it up and pitched good ball, holding the Bruins scoreless until the ninth, when one run was made. But Bob Coleman had a relief pitcher up his sleeve who was even better than Kunz. The Spuders had their big inning, the second, in which five runs were made, at the expense of Chester "Red" Lucas. Dewey Marshall was the reason in the second and for seven and eight innings he held the hopefuls to two hits and no runs.

Two Home Runs

Two home runs aided the Spuders materially in the production of their five runs in the second inning, the distance smacks coming in succession from the bats of Cotter and Berger. Cotter poked one over the scoreboard in right center, while Berger's was a drive over the left field wall. Tanager was on when Cotter hit for the distance. The Bears got a run on Osborne's first offering. Fuller singled on the first pitched and Todd tripled to center on the second. After Boone walked, Todd scored when Osborne threw out Simon. Myers fanned, but Galloway's hit that got to Waine for two bases scored Boone. The Spuders failed to get one in their half.

After the Bruins failed to score in the second, the Spuders unleashed the big guns and ran the route five times. Tanager singled and Cotter hit for the circuit. Berger followed with a home over the left field fence. After Barrett went out, Blachoff was safe on Gross' bobbie. Blachoff stole second and Berger was swinging and scored on Berger's single to right. Blachoff took second on the throw and scored when Coleman lined a double to left. Marshall relieved Lucas and retired Waine on a long fly to center.

Bears Take Lead

The Spuders led last long when the hopefuls put together a lot of bad baseball in the third. Boone walked, Berger followed by Simon. Myers was safe on Berger's error. Galloway's long fly to center advanced Boone to second, second baseman Simon scored the fourth with a double and Coombs the sixth with a single, but neither hit materialized. To start the sixth, Barrett lined a double when Simon threw wild to first. Barrett sacrificed. A perfectly good play, which would have put Boone in the fifth after a foul pop up one of Blachoff's flares out of commission, Boone in from the outfield. A simple matter for Kolbecker to pick up the ball and tag Berger. Marshall retired the Spuders in order in the seventh. Barrett, Kunz had little trouble with the Bears until the ninth when Todd doubled with one out and Boone scored. Boone scored and Boone singled, scoring Todd and sending Boone to third. Myers hit into the Spuders' third, doubling play to center. The home run failed to reach first in their last chance, Marshall fanning Barrett, Jonnard and Kunz.

NEW YORK, Sept. 11.—The New York Yankees made it three straight from Boston, winning easily Monday, 5 to 1. Ruth again led the Yankees in the fourth inning, hitting home, when he hit his thirty-fifth homer. Sam Jones, who recently pitched a no-hit game against Philadelphia, duplicated the feat when he did not allow a hit until the seventh, including a game on August 21, against Boston. Jones had pitched 16 2-3 innings without allowing a hit, which is believed to be a record.

SUSPECT FOUL PLAY IN DISAPPEARANCE OF THOMAS EARL DUDNEY

FORT WORTH, Sept. 11.—Fear of foul play in the disappearance of Thomas Earl Dudney, newspaper man and Texas Christian University student, who disappeared from his classes at the university on August 28, when he was to have received his diploma as a missionary, was expressed by his father, R. L. Dudney, of Dallas, who requests police to go to any ends to locate his missing son.

Dudney, after receiving his diploma, was to have accepted a postgraduate in St. Louis, Mo., in September, but has never reached his destination, according to his family.

CHALLENGER DOES LITTLE WORRYING OVER ROPE BURN

ATLANTIC CITY, N. J., Sept. 11.—Luis Alvarez Firpo Tuesday was the center of concerned eyes when an ugly looking eruption appeared on his best left, the mauling right arm. His manager was worried, and was everybody else, everybody but Luis Angel.

The sore, located at about the center of the back of the arm between the elbow and shoulder originally was a rope burn caused by Luis' playful habit of literally bounding back from the ropes of the ring while boxing with his partners.

But a sore in Dempsey's camp would cause a rush of specialists from New York and elsewhere, but Luis Angel just told Washington, his negro barber, to put a little horse liniment and loose grease on the arm after the afternoon's workout.

There was quite a roar from the assembled crowd of Firpo's workout watchers when Miss St. Louis, a reporter, crawled through the ropes in bathing attire and was presented to the challenger for Jack Dempsey's crew.

There was more cheering when Luis posed with Blanche Douglas, an Irish girl who recently toured Mexico in a boxing exhibition, meeting everybody at 187 pounds unaided.

Firpo and John Lester Johnson were lit hammer and tongs for two rounds and then Young Bob Fitzsimmons and Luis sparred for two more, the crowd leaning towards Fitz but every time Luis leaned toward him Bob was leaving away from him. When six rounds were over Firpo was breathing as heavily as if he had been putting in a heavy series of chess exhibitions.

Wednesday's exhibition will finish Firpo's workouts here. He and his party will leave for New York Wednesday evening. The whole arrangement is so confident that Luis will win as Columbus was that he would discover something if he kept going.

WATCHING THE SCOREBOARD

The Cincinnati infield cracked behind one Donohue's wildness and Pittsburgh shut out Cincinnati, Lee Meadows had wonderful control of his curve ball and only one Cincinnati player reached base. The victory for Pittsburgh put them back in second place.

Conroy Griffith, with four consecutive hits, one of which was a double, led the assault on two Philadelphia pitchers and Brooklyn's first game of their series 5 to 3.

WATCHING THE SCOREBOARD

CHICAGO, Sept. 11.—Sam Jones of the New American League pitched a no-hit game against Philadelphia last week, came close to duplicating the feat against the Boston Americans Monday. He did not allow a hit until the seventh inning when George Burns singled after one was out. The Braves won, 1 to 0. Jones' record last week was pitched 26 2-3 innings without yielding a hit. It is believed to be a record. Jones hit the 25th out of 25.

DEMPSEY APPEARS TO BE IN PERFECT CONDITION FOR GO

By DAMON BUNTON
Universal Service Staff Correspondent

SARATOGA SPRINGS, Sept. 11.—Tanned to the color of an old cavalry saddle by the sun and wind of "Madison" New York, his body lean and leathery, his eyes bright and clear, Jack Dempsey is outwardly at least in what the experts call "the pink of condition."

The writer does not believe it possible for the average observer to tell the exact physical condition of an athlete of Dempsey's age and experience by his outward appearance.

At Great Falls, Dempsey seemed to be in fine condition outwardly. Outside Dempsey seems to be "right" as "right" as conscientious trainers can make him. What he is inside no one knows. But the writer does not believe it possible for the average observer to tell the exact physical condition of an athlete of Dempsey's age and experience by his outward appearance.

Further, Dempsey proved his physical condition by going 11 rounds with Tom Gibbons, who proved at the same time that on that particular day—at least—he did not have his old punching power. What means of that?

Punching power comes from the inside as much as it does from the outside, in the opinion of the writer. The writer has known a man who was highly polished, may look perfect, yet the motor which drives the machinery, the motor that is inside, may be out of gear, may not be furnishing the same old "juice."

The fact that Dempsey had not fought for two years before he met Gibbons is bound to affect Dempsey's timing, his judgment of distance. It may also have reduced his punching power. Horses are tired from active racing for any length of time lose their speed. Perhaps a man's punching ability drifts from him when he loses too long.

And Tom Gibbons, who is a practice to do a lot of gymnasium boxing, taking on all kinds of opponents, including little fellows and amateurs, has been a champion naturally had "pull" his punches to avoid hurting them.

It has been said Dempsey boxed nearly every day for a couple of years in gym. It is possible that his continual "pulling" of his punches cut him the back of punching him.

Against his sparring partners at Saratoga Dempsey has been unloading his punches, hitting them full force. He has been punching his partners evenly, but the writer takes little stock in what a fighter does in his sparring partners.

In the first place, sparring partners are necessarily of low caliber of ability, or they would not be sparring partners. It is not in reason that they could make a good showing against a champion, even if they desired. Then, again, many sparring partners are good actors, who know their role is to make their employer "look good," and they do their best to carry out their part.

If you judged Luis Firpo on his showing against his sparring partners, you would not pay a head for him. But the writer has seen Firpo in the gymnasium and Firpo in the ring are no more the same than the Dempsey of today.

THE LOOKOUT

By AL PARKER

Spuders chances of finishing in second place were dimmed considerably by the Monday loss to the Bears. The Bears again went to two full games ahead of the hopefuls, San Antonio finishes the season with Dallas and Shreveport. It is not likely that the Gassers will win many games from the Bears, while the latter may be out of gear, but the writer does not believe it possible for the average observer to tell the exact physical condition of an athlete of Dempsey's age and experience by his outward appearance.

LONGHORN GRIDDERS SETTLE DOWN TO WORK

AUSTIN, Sept. 11.—Thirty-five University of Texas football players reported to Head Coach E. J. Stewart Monday for gridiron practice. Short sprints and blocking the dummy occupied the Longhorns as they began their training season. Several additional men, including some of last year's team, are expected to report for training Tuesday.

Demand for Workers

Every activity is represented in The Times Classified Ads. Call for workers in the office, the store, the factory—the need for employes in every vocation is reflected in The Times Help Ads.

Men, women, boys, girls—all are at the command of the employer who would summon them through The Times Classified columns.

The Times Help Ads are the most effectual means of bringing employer and employe together in this community.

Employers know those looking for work expect to find their announcements in this one newspaper, because The Times prints more help wanted advertisements than the other Wichita Falls newspaper.

District Christian Endeavorers Have Interesting Convention at Seymour Closing Sunday Night

SEYMOUR, Texas, Sept. 11.—The Wichita District Christian Endeavor convention which held on in progress at the Presbyterian church with the Christian church and Presbyterian church as hosts, closed Sunday evening with a beautiful devotion service led by E. F. Hoppers, district secretary.

The convention has meant much to Seymour and the auditorium was filled all the time by people who wanted to know about Christian Endeavor work.

On Friday afternoon a reception of the delegates and assignments to homes were made at 6:30. The program was a very interesting and happy one.

On Saturday morning the program was opened with a quiet hour service after which a splendid program was carried out.

On Saturday afternoon at 1:30 the crowd assembled in the main auditorium and a conference period held by E. F. Hoppers of Dallas.

The closing of the convention was "True to Duty," and was most ably discussed by Rev. W. D. Cook of Wichita Falls.
