

**ASSISTANCE VOTED**

**Ambulance Assured  
By County Action**

Our dry weather is getting rather monotonous, and we're just about out of anything new to say about it, except that every day the situation gets worse.

We drove to Ruidoso over the weekend, and saw firsthand what we've been hearing for some time: the drought isn't confined just to our area.

Never have we seen the mountain areas of New Mexico in such a dry condition. It was so dry that local leaders had passed a law against cooking out--so that portion of our weekend plans had to be altered.

They even prohibit you to smoke while in the forest. When you see how dry the underbrush is, you can readily understand the reason for caution.

Someone said that if a fire got started out there, it likely would burn all the way to Friona before it could be stopped.

There had been a fire started from a "doused" campfire which burned about two acres a week or so ago near Ruidoso, hence the "no fires" ordinance.

There was one fire alarm while we were there, and it made us snap to attention. We've never been caught in a forest fire, and have no desire to remedy the situation.

Our counterpart in Ruidoso, Hugh Stiles, who is editor of the Ruidoso News, was also decrying the drought in his column of last Friday. We thought a portion of his piece would sum up our feelings on the subject:

"Jack and Jill may have gone up a hill somewhere to fetch a pail of water, but it certainly was not in our immediate area. We have heard that the current dry spell is becoming so intense that even the membership of Alcoholics Anonymous is dwindling and that some would even favor seeing the construction of an ark by one Noah.

"We could use about forty days and nights of rain, but question whether there is enough pitch in the area to waterproof the ark. At any rate, a call for rain or moisture is certainly in order.

"Pay the preacher, have a rain dance, or maybe even seeding the clouds perhaps wouldn't be out of the question. If you know anyone with a moisture mansion or a Waterloo rain reserve, use your influence to assist in our need."

The four-day break from school this year was fine, but we were made to wonder why the calendar-makers didn't take an additional day off, and put the five days together from a week of school.

That way, those who could do so could have had two weekends, a grand total of nine days off, just by taking the extra day.

The way it was, there were six days off, but they interrupted two separate weeks. We heard some say they (like ourselves) were able to take the latter part of the week prior to Easter off.

Some others were off Monday, so it seems as though there was a wide diversification.

Also, we heard reports that the Monday, Tuesday and Wednesday prior to the Easter break were actually a "waste" as far as schooling was concerned.

Teachers, especially in the lower grades, were hesitant to start anything new, with the six-day break coming up. Yet, we also understand that students who missed any of those days were given "zero" grades for their courses.

Perhaps the "zeroes" were in order, although under the circumstances we wonder about their validity. We wonder if the solution to the problem might not be taking the extra day off, and making it a really nice break. The additional day could be made up at the end of the schedule, we presume.

**Temperatures**

Date	Hi	Low
April 7	60	26
April 8	72	39
April 9	80	43
April 10	71	41
April 11	79	50
April 12	88	50
April 13	90	45

No precipitation. High winds on April 13.

Parmer County commissioners voted Monday to join the cities of Friona and Bovina in paying a monthly subsidy to Claborn Ambulance Service, thus assuring that Parmer County would continue to have a qualified ambulance service.

Commissioners, after an hour of heated debate, passed a motion by a 3-1 vote to make a monthly payment of \$420 to defray losses Claborn said he was incurring. The city of Friona had earlier agreed to pay \$200 monthly, and Bovina had indicated it would pay \$100.

J.C. Claborn had told the commissioners at their last meeting that the service was losing an average of \$720 per month, but that he would continue the service if some arrangement could be made to get the ambulance service at a break-even point.

In making the motion for the county to participate, Commissioner Tom Lewellen of Precinct 1 said he thought the county should take the \$300 per month assistance offered by the two cities, before the county had to perhaps pick up the entire bill at a later date.

A bill has been proposed which would put all ambulance service in the state of Texas under the county commis-

sioners in each county for administration.

Also giving the measure yielding support was Commissioner Charlie Jefferson of Bovina, who seconded the motion.

"I think it would be a tragedy if we were to let this go and be without ambulance service. I've talked to a hundred people, and not a one of them were against this proposition," he stated to

the court. Jefferson added that he thought the county's participation on the basis presented would be much less than if it had to start an ambulance service "from scratch" at a later date.

"It would be a crime if we don't support this, and then have some motorist lie dying out on the highway because we have no ambulance available," the Bovina commissioner said.

Voting for the measure were Lewellen, Jefferson and Commissioner Raymond Treider, Jr. of Precinct 4. Commissioner Guy Cox of Precinct 3 (Farwell) voted against.

County Judge Archie Tarter, who also indicated he felt the county should support the ambulance subsidy, pointed out that the two cities involved (Friona and Bovina) had gone the extra mile.

"Taxpayers in those two cities will be paying for the service out of both pockets. Residents of the rest of the county will only pay out of one," he pointed out. The Judge added that the county's participation would come to only 35¢ per capita per year--pretty cheap "ambulance insurance."

Commissioner Cox, who was vocally against the county's role in the ambulance subsidy from the outset, argued that his constituents used ambulance service out of Clovis almost exclusively.

"I say NO," Cox shouted, as soon as Judge Tarter brought up the issue. However, thanks to Tarter's tactful handling of the situation, the matter received its proper hearing.

Treider, like Cox, pointed out that many of his constituents in the Lazbuddie area used other ambulance service, primarily from Muleshoe. However, after delaying his decision for some time, he voted in favor of the motion.

Both Farwell and Lazbuddie have purchased ambulances within the past year. However, both are run by volunteers, and it was admitted, were better suited to "light emergencies."

In other business, the commissioners disposed of the final right-of-way matter in the Running Water Draw watershed project (see separate story), and approved the Treasurer's quarterly report.

**Advance Sales  
Now Underway**

Tickets for the Zogi Variety Revue, to be held next Friday, April 23, went on sale this week from members of the two Friona Lions Clubs.

Proceeds from the performance, which will be given at 8 p.m. at the Junior High School Auditorium, will go toward the completion of the new Little League baseball park.

Advance tickets to the production sell for \$1.50. Tickets at the door will cost \$2.00 each. Thus, a saving can be effected by those planning to attend the show.

Featured in the revue, will be magic, illusion, E.S.P., comedy, hypnotism, drama and audience participation.

The program is billed as ideal family entertainment.

**Broom Sale  
Is Thursday**

The annual Lions Club broom sale will be conducted on Thursday. The business district is to be canvassed in the afternoon, and the residential section after 5 p.m.

Proceeds of the sale will go toward the Little League baseball park fund, which is attempting to raise over \$5,000 to complete the park for this year's baseball season.

**Local Cancer Chapter  
Sets 1971 Fund Drive**

The Parmer County chapter of the American Cancer Society met Monday to make plans for the chapter's 1971 fund drive.

The group set the week of April 26-30 for their local drive. Mrs. Joe Reeve and Mrs. Von Edelman were named chairmen of the drive, and will be calling on block chairmen for assistance for the Friona drive.

Officers of the Parmer County Chapter of the American Cancer Society are A.L. Outland, president; Mrs. Calvin Talley, vice president; Mrs. Jerry Hinkle, secretary; Mrs. Jack Nelson, treasurer; Mrs. Joe Reeve, campaign chairman.

Mrs. Sue Naegle is city coordinator for the city of Bovina, and Hugh Moseley is coordinator for Farwell.

Rural residents who wish to contribute may call any of the

above named officers, or send or leave their contribution to Mrs. Jack Nelson at Friona State Bank.

The American Cancer Society was established in 1913. It is a voluntary organization dedicated to the control and eradication of cancer. It is pointed out that there are 1,500,000 living Americans cured of cancer today, proof of what science, medicine and public education have done.

Cancer research is now one of the most active and productive fields of basic and clinical investigation. The ultimate goal of the ACS is elimination of this dread disease. For the moment, the goals are to save more lives and to diminish suffering from cancer to the fullest extent possible.

Local ACS officials urge residents to support the fund drive.

**CLEAN-UP WEEK.** . . The week of April 19-24 has been proclaimed "Clean-up Week" in Friona, as local residents are urged to take advantage of the situation and clean-up, paint-up and fix-up. Friona businesses which sell equipment for cleaning, painting and fixing up are featuring some specials this week. See their ads inside this issue.

**CHAMBER DECLARES**

**July 4 Celebration  
Slated For July 5**

The Friona Chamber of Commerce and Agriculture elected at its regular meeting Tuesday to hold its July 4th celebration on the evening of Monday, July 5, rather than schedule the observance on Sunday.

Main item of interest is the fireworks display, and the Chamber leadership was seeking a date that would be best for the most people. It was thought that Monday evening would catch more people in town for such an event, and the Chamber hesitated to schedule it on Sunday.

Bill Ellis was appointed chairman of the event, with Chamber Manager Billy Jones as assistant.

In other business, Jones reported that the Chamber's request of area feedlots for donations of calves for use for the Maize Days barbecue had met with favorable response, and it appears that this project will be worked out.

It was reported that tickets are on sale for the Zogi Variety Show, which the Chamber booked and turned over to the Lions

**Storm Alert  
Is Thursday**

The Friona Volunteer Fire Department will stage a tornado alert test Thursday at 7:15 p.m., in order to familiarize Friona residents with the alert signal, since the turbulent weather season is close at hand.

The tornado warning consists of a 40-second continuous blast, repeated several times. The all-clear signal, which is a series of short beeps, will be given after a period of time.

Clubs as a fund-raising project.

Jones also reported on the Chamber's efforts to secure an apparel manufacturing plant for Friona. The Chamber is to take part in the American Apparel Conference in Dallas in May, but meanwhile has made some private contacts in the industry.

President Ralph Shirley asked the board members what the Chamber of Commerce can do to benefit the Friona area. The most consistent reply was that local businesses and chamber members need to be contacted often, to get their opinions. Manager Billy Jones was instructed to do more visiting along this line.

It was noted that an arrangement had been completed to keep the ambulance service in operation, through the county and the cities of Friona and Bovina.

Also discussed was the membership status. Several updates

**ALL-STAR PLAYERS.** . . Four members of Friona High School's one-act play cast were chosen to the all-star cast. The girls are Holley Stephenson, left, and Ann Hurst. The boys are Steve Stone, top, and Carl Evans. In addition, Stone was chosen "best actor." The FHS play won the District 3-AA championship, a first for the school.

**74-Year-Old Woman Hikes  
Through Enroute To Yuma**

By CAROL ELLIS

If you were 74-years-of-age and needing a kidney operation would you start out on foot from Nebraska to Yuma, Arizona? Hazel Johnson did. Little old Mrs. Johnson, accompanied by her dog Clara Lou, arrived in Friona last Wednesday evening.

Hazel has travelled all over the United States by walking and hitch-hiking. She plans to stop in Yuma, Arizona, where she will have her bad kidney removed, then after recuperation she will make her way to Portland, Oregon, where she will make her

home with a stepdaughter, who is her only living relative.

She spent Wednesday night in Friona at the Holiday House Motel at the invitation of a Friona family. She started on her way again Thursday morning and was picked up by a group of Friona teenagers who took her as far as Bovina. When last seen she was heading West.

If you should be traveling in that direction and notice a tiny withered old person pushing a dog in a stroller, that's Hazel. Give her a lift.

**ELDERLY TRAVELLER.** . . Hazel Johnson, the 74-year-old woman who hiked through the area enroute from Nebraska to Yuma, Arizona last week, was caught by the Star camera as she entered the Friona City limits from the east. Mrs. Johnson spent last Wednesday night in Friona, then resumed her trek, along with her 13-year-old dog.

## Senator's Attack On Hoover Unjustified

"Everyone," commented a Washington politician recently, "is entitled to at least one boner." This may be so; but it is difficult to understand how Congressman Hale Boggs, the distinguished House Majority Leader, could have "pulled such a boner" as his disastrous early-morning, one-minute speech before Congress on April 6. House members on both sides of the aisle were stunned when Boggs blurted, "When the FBI taps the telephones of members of this body and of members of the Senate, when the FBI stations agents on college campuses to infiltrate college organizations, when the FBI adopts the tactics of the Soviet Union and Hitler's Gestapo, then it is time—it is way past time, Mr. Speaker—that the present director thereof no longer be the director."

Perhaps Deputy Attorney General Richard Kleindienst had the best answer, when he said that "We have come to the conclusion that he was either sick or he was not in possession of his faculties when he made that statement."

The absurdity of the charge should be immediately apparent to everyone. Even if Mr. Hoover had utterly no regard for the civil liberties of the people of this nation—which he does; and even if he should wish to become a tyrant of the Soviet or Nazi stripe—which he does not; Mr. Hoover has been around Washington long enough, and has had enough experience, to know that he would be utterly foolish to pull such a stunt as tapping the telephones of U.S. Senators and Congressmen. Mr. Hoover values his own career and the reputation of the FBI, which he has very carefully nurtured through years of effort, to destroy it all by indulging in illegal phone tapping.

This seems to be a time of open season for taking pot-shots at the FBI and Director J. Edgar Hoover. But that still does not explain how Mr. Boggs should have put himself in such a political bind.

## Pause and Reflect

By Nelson Lewis

This Railpax thing has got me worried. I don't know enough about it to do a serious article on it—but that's not what worries me because neither does anyone else!

The thing that sticks in my craw is the very obvious fact that Railpax is just another stop-gap, government financed (your money and mine) program by the Bureaucrats in the Disneyland on the Potomac claiming to know what is best for places like Amarillo and Friona, Texas or Coon Dog Switch, North Dakota.

For years, the railroads have been begging Uncle Sam to release the airbrakes and let them roll along as a free-wheeling competitive American business.

But to no avail.

Looking back about a hundred years, we can see that the railroads, more than the "sixgun," really won the West. Not only our part of the great Southwest, but every section of this nation owes a big debt of gratitude to the men who pushed those twin ribbons of steel from the Mississippi to the Pacific.

The see-saw of economics followed a perfectly natural pattern—as the private automobile became popular as a people mover the railways became dependent on freight.

When the motor freight trucks began hogging the narrow black topped highways and clogging busy city streets, they took another slice of business from the railroads.

So it is understandable that America's first industrial giant found himself in trouble.

But there are two sides to every coin and the railroads must admit that they are partly responsible for their present plight.

If I go by train to visit relatives in Virginia, I must travel via Chicago, Ill., four days and about two hundred dollars. I can fly there from Amarillo in three and one-half hours for the same money.

But we still need trains—we need them badly—and their place in our society will not be replaced, in the foreseeable future, by any other means of public transportation.

Railpax as presently planned is only part of the answer. The Three Big Brains in Washington are the first to admit that the success of Railpax depends upon "feeder lines" in outlying areas.

Maybe it's time to take a closer look at English and European railroads.

Originating in England, the present T.A.C. system in Europe seems to furnish more answers and make more sense than anything yet devised by us Rebels here in the Colonies.

T.A.C. is the abbreviation for the French-Trains-Couchettes, this network of railways connects most of the major terminals in the whole of Europe.

Your car is loaded on a double-decker flat car and you may have a sleeper or day coach according to the length of the trip or your pocket book.

The schedules are timed and executed to the minute, the cost is reasonable, the highways less crowded, and you arrive rested and in safety.

If Railpax is to become the Iron Horse of the future let's ride him with a tight rein and be sure that he performs as well as his counterpart of a century ago.

## Flashbacks

...from the files of the Friona Star

**40 YEARS AGO--APRIL 17, 1931**  
The Texan Theatre has installed new talking equipment which has made a wonderful difference in the sound feature of this theatre. Manager Lee says that now all of the tone values of the pictures shown are clear and distinct and that patrons are enjoying the programs without the annoyance of vibrations which formerly disturbed them in the theatre.

**35 YEARS AGO--APRIL 17, 1936**  
Missing in Star files.

**30 YEARS AGO--APRIL 18, 1941**  
The farm home of Mr. and Mrs. Wilson Wylie, some 15 miles northwest of Friona, was totally destroyed and all of its contents carried away by a severe wind that struck it about four o'clock Sunday morning. All the outbuildings except one were also destroyed. Mr. and Mrs. Wylie were blown a short distance from the house, but neither they nor their small child were hurt badly.

**25 YEARS AGO--APRIL 19, 1946**  
Showing this week at the Regal Theatre: Jack London's "Call of the Wild," with Jack Oakie. Also, Gene Tierney, Dana Andrews and Clifton Webb in "Laura."

**20 YEARS AGO--APRIL 12, 1951**  
Measles, mumps and throat infections have this week taken their toll in absentees from the local school system, with 88 grade school students and four high school students being absent yesterday. Though hampering classroom activity, the epidemic has not been termed of a nature severe enough to warrant any closing of school, the officials state. Parmer County Hospital has also been filled to capacity almost all week.

**15 YEARS AGO--APRIL 13, 1956**  
One of the larger real estate transactions recorded within the Friona city limits was completed this week with the sale of all undeveloped property within the Lakeside Addition to Carl G. McCaslin of Hereford. The Lakeside and Staley additions were each commenced last year at a time of acute housing shortage in Friona. Building in both locations has proceeded at a rapid pace, probably as fast as local building labor could proceed.

**10 YEARS AGO--APRIL 13, 1961**  
Kenneth Miller, 28-year-old head coach at Groom High School, was selected from 15 applicants Monday night to become Friona High School's head football coach. Miller has coached the Groom Tigers to two consecutive Class B district championships. Miller replaces Earl Smith, who resigned recently after two years as the Friona head coach.

**5 YEARS AGO--APRIL 14, 1966**  
A large crowd attended dedication services for the new Friona Masonic Lodge Monday. H.W. Fullingim, Most Worshipful Master of Masons in Texas, made the dedicatory address. Jack Hightower, grand orator, also made an address. Mrs. Pearl Kinsley, who donated the land for the new building and \$5,000 toward its construction, attended the cornerstone laying.

### LETTERS TO EDITOR

Dear Friona Star,  
The next time you interview citizens about current issues playlike you asked me and I said:

Now that we see what pressure from the people can do to influence government decisions --Let's clamor to save not only one man-Lt. Calley-but 300,000 others just as meanly treated and demand that this war be stopped NOW!

Sincerely yours,  
Ruth Edelman

### Hospital Notes

**Admissions:**  
Connie Perez, Friona; Oma Lee Williams, St. Vrain, N.M.; Karen Stevick, Friona; Cheryl Weatherly, Black; Estella Garza, Friona; George Humphrey, Clovis, N.M.; Walter A. Kriegel, Bovina; Serena Sparkman, Friona; Mary Grubbs, Friona; Betty Evans, Friona; Stella Purcell, Bovina; Daniel Salz, Friona; Juanita Dickson, Hereford; Sharon Lawson, Farwell.

**Dismissals:**  
Estelle Bearden, Patricia Pharris, Vernell Campbell, Jonquin Carrasco, Keith Finch, Betty Whitson, June Patton, Dick Habbina, Naomi Delgado, Melvin Hassenpflug, Stella Purcell, Lucy A. Scott, Karen Stevick, Manuela Torres, Cheryl Weatherly, Mrs. Ubaldo Bermudez and baby, Estella Garza, Connie Perez, George Humphrey, Daniel Salz, Betty Evans and Mary Grubbs.

**Patients in Hospital:**  
Juanita Dickson, Walter Kriegel, Mrs. Clifford Lawson and baby, Stella Purcell, Serena Sparkman, Earsel E. Taylor and Oma Lee Williams.

### Ellis, Price On TV Panel

Bill Ellis, editor and publisher of The Friona Star, will be one of three featured panelists in KVII-TV's "Hot Line to Austin" program next Monday at 7:30 p.m.

The guest lawmaker will be Congressman Bob Price of Pampa. Other panelists will be Don Nelson of Dimmitt and O. J. Smith of Higgins.

Jim Pratt, news director for Channel 7, is the panel moderator.

"The term, 'hitchhike' today is thought of in association with automobiles," reports the Public Service Company of Colorado. "Actually, it originated in the days of horses, rather than horse power, in this manner: 'Two men had to go on a journey with only one horse between them. One man started out on horseback, the other on foot. At a predetermined point the one

on horseback dismounted, hitched the horse to a convenient tree, and continued on foot. When the man who started on foot caught up, he mounted the horse, and passed the former rider.' By alternating 'hitching' and 'hiking' the two travelers eventually reached their destination."

worshipper, but I do believe we can find out about God by viewing his revealing characteristics in the beauty of nature. ..But all too often their fast trips will cause them to miss its real value.

Now that is the direction in which I am trying to travel with our thought for today. I suppose I could have just said--"Don't go so fast you miss the important things."

I think we get so all fired up in daily existence with pressure--discontent--poor interpersonal relationships--job problems --etc., that we actually try to "bull" and "rush" our way through (reminds me of the Biblical story about the "bullrushes"--sorry about that) just trying to escape it all--and what we need to remember is that the purpose of life is not to escape it. . .Now mull that over before you run on. . .

It is hard for me to think that in the days of long ago that life was considered fast--and yet God must have had something in mind when the Psalmist reports his word as "Be still and know that I am God."

Or, could we think about the "still small voice" noted in I Kings--or being "led beside the still waters" of the 23rd Psalm--or the calming of the storms in Mark. . .

Of course many more, but this has calmed me down some and I hope it has you, too. Now, while you are rested, calmed and reposed--I've got to run along. . .

"WHAT DID YOUR FATHER SAY WHEN YOU TOLD HIM ABOUT OUR ENGAGEMENT?"

### Employment Information To Be Sought Locally

The Bureau of the Census will conduct a survey of employment and unemployment in this area during the week of April 19, Walter A. Freeman, Jr., Director of the Bureau's regional office in Denver, announced today. Laura Hart is the interviewer who will visit households in the Friona area. This survey is conducted monthly by the Bureau for the U.S. Department of Labor. A scientifically selected sample of households throughout the en-

tire United States is interviewed. The employment and unemployment statistics that are based on the results of this survey provide a continuing measure of the economic health of the Nation.

In February, for example, unemployment edged down for the second straight month; on a seasonally adjusted bases, 5.8 percent of the labor force was out of work as compared with 6.0 percent in January and 6.2 percent in December.

Facts supplied by individuals participating in the survey are kept strictly confidential by law, and the results are used only to compile statistical totals.

### Conway Twitty Sets Concert

Conway Twitty and the Twitty Birds will appear in concert Thursday, April 22 in the Lubbock Municipal Auditorium at 8:00 p.m. In appearance also will be Anthony Armstrong Jones.

Conway, who is generally considered one of the nicest and most respected artists in all of Country Music, as well as one of the most talented, is a proven giant in his field.

Advance tickets are available at Montgomery Ward and B&B Music in Lubbock. Tickets will also be available at the door.

In the 15th Century, Queen Isabella of Spain declared that she only had two baths in her life—including one on the day she was married!

In quite another spirit, when Charles II was restored to the English throne, milk baths were the thing with women who wanted beautiful skin!

Today, a squeeze of a new bath preparation on a wash cloth, sponge or bath mit is all that is needed for an all-over wash. Used instead of soap, Moisturelle is a multipurpose cleanser, bubble bath and shampoo that leaves the skin silky soft.

### Missionary To Speak Locally

Rev. James Wood, missionary to Iran, will speak at the Friona Pentecostal Church Thursday, April 15.

The service will begin at 7:30 p.m., according to Rev. O.G. Stanton, and the public is invited to attend.

SIR, ARE THESE YOUR HAILSTONES?

If that is your crop, so leafy and green, underneath that ominous cloud . . . then you may rest assured that they are indeed your hailstones. If you are a farmer in the state of Texas, chances are very high that hail will do some damage to your crops this year. The wise farmer today can't afford to take risks with his money crop, that is why more and more farmers are limiting their risks by buying crop - hail insurance. WHY NOT CALL ETHRIDGE-SPRING TODAY!

**SATURDAY**

**Tech Hosts Seniors During Open House**

High school seniors from a wide area of Texas and New Mexico are invited to find out for themselves "what it's like" at Texas Tech University Saturday, April 17.

The university will conduct an open house from 8 a.m. to 12 noon for visiting seniors, who later will have an opportunity to attend one or more events scheduled during the afternoon and night.

"The purpose of the open house," said Dr. Owen Caskey, associate vice president for academic affairs, "is to acquaint high school students with the services and educational opportunities offered at the university."

"Choosing the university where he will spend the next few years of his life is one of the biggest decisions a high school student will make. Often this decision is made without the benefit of even seeing the campus he will attend."

The open house will afford interested high school students a chance not only to view the campus but also to visit with the departments in which their educational interests lie, he said.

The University Center--the student union of Tech--will be open to the visiting students as will the bookstore, Residence Halls Housing Office, The Museum of Texas Tech, and the academic and administrative offices of the university.

Caskey also announced that the office of admissions in West Hall will be open where visiting students may pick up catalogs, permits to enroll, and other materials of interest to them.

Information booths to accommodate students will be manned in the Administrative Building, the University Center and in West Hall.

"Texas Tech is one of the four multi-purpose universities of the state," said Caskey. "The school is growing daily with new construction adding to the worth of buildings already present."

"Another aspect of Tech's growth can be seen when its present enrollment of more than 20,000 is compared with its first class in 1925 of 910."

Students will be able to visit

any of the different colleges which make up Texas Tech University--the colleges of Agricultural Sciences, Arts and Sciences, Engineering, Education, Home Economics, and Business Administration and the Law School and Graduate School. A new School of Medicine is scheduled to accept its first class in the fall of 1972.

A variety of events will take place on the Tech campus during the day. The Texas Tech Rodeo, widely-known as one of the biggest and best of the collegiate rodeos, will have two performances Saturday at 2 and 8 p.m. Featured entertainers will include actor Dale Robertson and singer Jody Miller. Rodeo contestants are college and university students.

"The Lion in Winter" a truly moving play, will be presented in the University Theater at 8:15 p.m. and the Moody Planetarium of The Museum of Texas Tech will also present a show, "Jupiter, the Giant Planet" at 3 p.m.

Texas Tech has a faculty of more than 1,360 professors and instructors and a staff and supporting personnel of 1,960 who "make it possible for our university to offer the best educational opportunities," said Caskey.

SPRINGLAKE DRIBBLERS. . . The Springlake-Earth entry in the regional Little Dribblers basketball tourney this weekend is shown above. In the back are Dickie Brown, Scotty Cooksey, Rodney Geissler, Ardis Barton, coach, Clint Dodson and Carlton Gregory. Kneeling are Donnie Weil, Keevin Kelley, Mark Barton, William Flores and Royce Jordan. Springlake, which won the Little Dribblers' championship tourney at Levelland last year, meets Farwell in a first-round game Friday.

**LEGAL NOTICE**

Notice is hereby given by the Parks and Wildlife Department that a public hearing will be held at Farwell on May 4, 1971 at the County Courthouse at 10:00 a.m. for the purpose of gathering information concerning proposed hunting, fishing and trapping regulations for the above-named county.

As the result of action by the Texas Legislature, the Texas Parks and Wildlife Commission is responsible for the setting of seasons, bag limits, and means and methods of taking the wildlife resources in Farmer County. All interested persons are urged to attend and comment upon the proposed regulations. 28-1tc

**FOR SALE** . . . TV tower and antenna. 247-2569. 28-1tp

**Chamber Meeting** . . . (Continued From Page 1)

members have not as yet paid their 1971 dues. It was emphasized that the Chamber needs the support of every business and businessman farmer in order to carry out its program of work.

Miscellaneous items discussed included a request from the Girl Scouts for assistance in obtaining playground equipment for the City Park, a report on the cost of outdoor advertising, and work toward a suitable "Friona souvenir" for visiting dignitaries, banquet speakers, etc.

The manager is to attend a West Texas Chamber of Commerce Convention in Amarillo April 15-16. Three Frionans, Shirley, Jones and Clarence Martin attended a WTCC workshop in Abilene last month.

**Johnny Bench wants your son for the All-Star Game!**

"Now your son has the chance to experience firsthand, the thrill of competing at an All-Star Game, by winning the second annual Official Major League Baseball Pitch, Hit and Throw Competition, sponsored by Phillips 66. The rules are simple. All you have to do is take him to the nearest participating Phillips 66 station or authorized registration location, with the coupon below, between now and May 20. No purchase required. The competition is open to boys who'll be 9 through 12 as of August 1, 1971.

and each boy competes only against boys his own age. If he keeps winning, he'll pitch, hit and throw his way through local, district, divisional and league competitions to the All-Star Game. Eight finalists and their parents will go to the game, where the boys will compete for four championship awards. Give him a chance to be a champion. Fill out this coupon today and take it to your nearest participating Phillips 66 station or authorized registration location."

### Federal Guide Is Available

A unique guide to nearly 500 federal assistance programs for development of the rural community has just been published by the Independent Bankers Association of America.

Purpose of the handbook is to give the rural community the kind of information that big cities are able to obtain through paid staffs of experts. Too often, smaller communities miss out on badly needed federal money because they can't afford to hire such experts to uncover the assistance programs available to them.

Written in layman's language, the IBAA Guide to Federal Programs for Rural Development tells not only what programs are available, but also how to help your community benefit from them.

All IBAA member banks have been supplied with a copy of the Guide, and local citizens are invited to explore its contents by inquiring at Friona State Bank.

The IBAA commissioned a uniquely qualified Washington couple—John and Sue Baker—to slice through the bureaucratic epurastations and bring to light some 494 programs available to your community. Mr. Baker is a former Assistant Secretary of Agriculture and is now a consultant on rural development. Mrs. Baker is a writer and former newspaperwoman.

The IBAA is an organization of more than 6,600 independent banks in 40 states, most of them in the smaller rural communities. The Guide is an outgrowth of the association's nationwide effort to promote rural community development.

The book has been divided into sections with colored paper stock for easy reference and is completely indexed and cross-referenced.

Part I of the 574-page Guide lists the federal programs of assistance relating to business stimulation, jobs creation and income expansion.

Part II relates to buildings, installations and the physical components of a community.

Part III assembles the federal programs relating to community operations, public assistance and citizen activities.

Part IV discusses federal programs for designing future development.

### On The Farm In Parmer County MACK HEALD County Agent

A good set of peaches or plums from the trees which are now in full bloom is not a certainty. Insects can damage the fruit or even "wipe-out" the crop if not controlled.

Insect control on fruit trees, is largely a preventive program. Once the insects begin to cause damage, little can be done to rid the fruit of the pests and prevent further damage. Most of the common fruit damaging insects begin their activity and reproduction during the first 30-45 days after the trees begin to bloom. Therefore, insecticides applied during this early period will control the insects which damage the fruit later in the season.

Homeowners with a few trees are advised to follow a preventive spray program. Malathion or methoxychlor, either in the wettable powder or emulsible concentrate forms, are effective. They are not hazardous when used as directed and will not leave a residue.

Four spray applications are best, timed to coincide with bloom and fruit formation. The first or petal fall spray should be applied when about three-fourths of the blossom petals have fallen. The second or shuck split spray should be made in about 10 days. The third or cover spray should follow the second spray in 10 to 14 days and the fourth or second cover spray should follow the third application in 14 to 21 days.

Should later infestations become damaging, a spray containing carbaryl (Sevin) will give good control. It can be safely used on peaches and plums up to the day before harvest.

Good management, including fertilizing, mowing and watering, will be even more important, in the weeks ahead so far as the home lawn is concerned. Under the current weather conditions, low moisture and climbing temperatures, the job ahead could be a real toughy.

Turf requires adequate amounts of plant food if it is to stay green and maintain growth under drought conditions. Water requirements necessarily will have to be increased to take care of the lack of rainfall. Underwatering should be avoided if at all possible. Soak the soil to a depth of several inches at each watering; thus maintaining a good turf. In the long run, the amount of water used will be no more and may be less than when light sprinkling of the lawn is practiced.

Lawns should receive an application of a complete fertilizer in the spring about the time growth begins and another in the fall a month ahead of the first frost. During the summer, an application of nitrogen every 30 to 40 days will keep the lawn green and growing and the ground covered. Ground cover is important during periods of high temperature.

Nitrogen is the key element in turf production. It produces vegetative growth and gives the plant a deep green color. Phosphorus stimulates development of a good root system and potassium affects the physiological processes of the plant.

Deficiency of nitrogen causes stunted plant growth and the condition often referred to as "firing." Slow growth results from the lack of phosphorus and a shortage of potassium causes the entire plant to "dry up" and take on a brownish color.

The lack of water can cause many of the same symptoms and when coupled with deficient plant nutrients the stand of lawn grass may be lost. Mowing too short is not advisable, because longer turf is insulation against heat and gives protection against possible damage from the sun.

here's a house paint that actually...

with your house

IT'S PITTSBURGH PAINTS **SUN PROOF** Latex HOUSE PAINT

Reg. \$8.50 \$7.00 GALLON

Your house stretches and shrinks with variations in temperature and humidity. It's this expansion and contraction that most often causes house paint to work loose, crack and peel.

The flexibility of Sun-Proof Latex House Paint enables it to resist the stress and strain that ruptures an otherwise sound paint film. It resists cracking, peeling and flaking... lasts longer and saves you money! Come in today for a free color chart.

### Workers Urged To Register With TEC

States which use Texas migrant farm labor have warned that fewer jobs will be available this year.

Illinois, Indiana, Michigan, Minnesota, Ohio, Wisconsin, Oregon, Washington and Idaho all report an expected drop in migrant job opportunities for 1971.

"It is even more important this year to contact the Texas Employment Commission office before you leave for migratory farm jobs out-of-state," says Lester Rape of TEC.

"This is the only way workers can be sure they will find jobs when they leave Texas. This

way, they can know when and where work will be available, what the wages will be, and what the working and living standards will be," Rape added.

Increased mechanization leaves fewer jobs each year for migratory laborers. This year, the economic downturn has made more local labor available, and this will cut migrant job opportunities even further.

Last year many migrants were stranded in other states when they went with "free wheeler" crew leaders who handle their own recruitment and employer relations.

A check with Texas Employ-

ment Commission beforehand will tell if there are jobs available, and other information about conditions. The Annual Worker Plan gives this information through contact with agencies in the demand states. Last year the number of migrants from Texas working in other states declined 30 per cent from the previous year.

The local TEC office is located at 103 West 7th, Friona, Texas.

## To some farmers, our service is a lot of bull.

We often lend money for one bull or to finance an entire herd. But to other farmers, a PCA loan means fertilizer, feed, or seed. It fixes fences and re-roofs barns. It remodels kitchens, pays medical bills, and sends your kids to college.

In the more-than-thirty years PCA offices have served farmers — and farmers exclusively — we've never turned down a qualified loan request for any sound farm operating need.

And there's no limit to how much is available from PCA. That's up to you and your farm's capacity to produce. Our financial assistance can run anywhere from less than \$100 to more than a million.

When you need short-term or intermediate-term money to make your farm more productive, more profitable, or a more pleasant place to live, contact your local PCA office. You'll deal with people who are both farmers and financial specialists, and who are geared to give you prompt service.

A GOOD PLACE TO DO BUSINESS

**Winners Announced In SCD Essay Competition**

The Parmer County Soil and Water Conservation District this week announced the top four placers in its essay-writing contest on the theme "Our National Environment-Preserve and Protect It."

First place winner was Sheryl Moore, daughter of Mrs. Alice Moore of Bovina.

Second place was won by Larry Johnston, son of Mr. and Mrs. Jim Johnston of Friona.

Third place went to Barbara Griffith, daughter of Mr. and Mrs. Tom Griffith of Bovina.

Fourth place was won by Jennifer Cockerham, daughter of Mr. and Mrs. Jimmie Cockerham of Bovina.

The four winning essays now qualify for statewide competition.

Presentation of the awards will be made at the respective schools.

Each year the Fort Worth Chamber of Commerce sponsors a statewide essay contest and invites all Texas high school aged youngsters to participate. The subject of the essays is always concerned with environmental improvement.

The purpose of the contest is to focus public attention to conservation of our natural resources.

"Congratulations are due to the four winners and to the many other contestants of the county for giving of their time and effort to this worthwhile project," said Herb Evans, District Conservationist.

**Johnson Chosen SCD Outstanding Farmer**

The Parmer County Soil and Water Conservation District announced Tuesday its selection of Leroy Johnson of the Hub Community as its outstanding Conservation Farmer for 1970.

Johnson and his wife, Christine, have three children and are members of the First Baptist Church in Friona. Part of Johnson's success as a Conservation Farmer can be credited to his background in the hardware business and as an officer of the bank in Shallowater.

This last activity has kept him current on money management, allows needed diversion from farming, and allows him to see both sides of the money business. Johnson believes conservation of irrigation water is a must on the high plains.

To conserve his own irrigation water, Johnson utilizes several tailwater pits. He said that one tailwater recovery pit will yield as much as a 400 gpm irrigation well not to mention the fact that the water is so much cheaper.

Soil management as well as water and money management is an integral part of Johnson's operation. Soil tests give precise fertilizer requirements and crop residues left on the soil give good soil tilth and wind erosion protection.

Johnson, being interested in preserving wildlife, believes the crop residues also provide cover and food for game birds. This concern for our natural resources is the mark of an outstanding Conservation Farmer.

Other causes of delayed refunds are missing Social Security numbers, arithmetic mistakes, and failure to follow instructions accompanying the tax forms.

Mr. Campbell asked taxpayers to use the blue preaddressed name label that came on the cover of the package containing their blank Forms 1040. The top part of the label should be removed from the package and placed on the tax return.

**AWAITS FUNDING**

**Draw Project Clears Final Hurdle**

The final acquisition of land rights for the Running Water Watershed Project was completed on Monday, winding up all the local work required prior to funding of the project by the U.S. Congress.

The last parcel of land affected by the two floodwater retaining structures in the county was secured, completing about a two and one-half year process of right-of-way bargaining involving some 22 landowners.

"For all practical purposes, the local sponsors of the project have done all they can do. We now must wait for federal funding of the project, prior to awarding of a construction contract," stated Herb Evans, District Conservationist for the Parmer County Soil and Water Conservation District.

Evans explained that the funding could not possibly come prior to July 1, since the government's fiscal year ends on June 30, and all money for that period is committed. However, he was hopeful that funding could be accomplished at an early date.

"This is a small watershed, and does not involve a tremendous amount of money. It does not involve as much territory as some watersheds in other

parts of the country," he explained.

The sponsoring local organizations are the Parmer County Commissioners Court and the Parmer County Soil and Water Conservation District.

Prior to the land rights acquisition, the project went through a lengthy process to assure that at least 75 per cent of the land within the watershed had conservation treatment.

Plans call for two structures to be built on the watershed, one north of Bovina on Catfish Draw, and the other near Lazbuddie and the southeastern county line.

Running Water Draw watershed project has been worked on by county conservation leaders for a number of years. Some years the watershed has seen millions of acre feet of water go "down the draw." However, it hasn't happened in recent years.

**Echoing the Swiss**

Since the first pure nickel coin was issued by Switzerland in 1881, 63 countries have used the same metal for 159 denominations.

BOSS SEZ IF A PAT ON THE BACK DON'T WORK-TRY A KICK A MITE LOWER!

**It's PIONEER again this year.**

**Here's why:**

BUTCH PRESTON, Friona, averaged 8314 pounds of grain sorghum per acre last year from two Pioneer hybrids--820 and 828. The 165-acre crop was planted between May 1 and May 15 and harvested about the first week in November at 15 percent moisture. It was irrigated five times including the pre-plant watering. Mr. Preston liked the standability, yield and easy threshing of both these varieties and expects to plant them again this year. We are proud that so many good farmers plant Pioneer brand hybrids year after year.

**PIONEER BRAND SORGHUM**

Pioneer is a brand name, numbers identify varieties. Reg. trademark of Pioneer Hi-Bred Corp. Company, Des Moines, Iowa U.S.A.

**Failure To Sign Names Holds Up Tax Refunds**

So far this year 2,075 North Texas taxpayers have not received their expected tax refunds simply because they failed to sign their federal income tax returns before filing them.

Since an income tax return is a legal document, it must be signed before the Internal Revenue Service can process it and issue a refund, Ellis Campbell, Jr., District Director of Internal Revenue for North Texas, said today. Signatures of both husband and wife are required on joint returns, he added.

To help reduce the number of missing signatures, Form

1040 shows the signature line--and other error-prone information areas--highlighted in red ink.

Other causes of delayed refunds are missing Social Security numbers, arithmetic mistakes, and failure to follow instructions accompanying the tax forms.

Mr. Campbell asked taxpayers to use the blue preaddressed name label that came on the cover of the package containing their blank Forms 1040. The top part of the label should be removed from the package and placed on the tax return.

**BOYS MAY ENTER**

**Signup Underway For Pitch-Hit-Throw Fete**

All boys, aged 9 through 12, in the Friona area soon will have an opportunity to test their baseball skills in a nationwide competition that will culminate with eight boys competing for national championships at the All-Star Game in Detroit on July 13.

Registration for the competition, the Official Major League Baseball Pitch, Hit and Throw Competition (PH&T), is now underway.

Now in its second year, PH&T is sponsored by Major League Baseball in conjunction with Phillips Petroleum Company and local Phillips 66 dealers.

Registration will continue through May 20 and local contests will be held on May 22, according to Charles Scales, the PH&T coordinator for this area.

Kendrick Oil Co. said they expect that several hundred boys from this area will register for the competition.

Each boy competes with boys of his own age in three events—pitching for accuracy, hitting for distance and throwing for accuracy. Winners are determined on the basis of total scores.

Local winners will advance to district contests on June 5 (or 6) in Cernarillo. Winners from there will go to division competition at Houston.

The eight boys who will go to the All-Star Game to compete for four national championships—with four representing the National League and four the American League—will be picked from the highest scorers among the division winners.

The eight finalists, in addition to competing before the All-Star Game audience, will be the guests of the sponsors, with their parents, for the trip to Detroit and they'll all have box seats for the game. The boys also will meet many of the All-Star players, at the game players, at the game and at a banquet in their honor the preceding evening.

Winners and runners-up at every level—including the local winners—will receive handsome plaques and jacket pat-

ches. At the division level, each participant from this area will compete in a junior-size baseball uniform loaned for the purpose.

They also will be feted at a banquet with the major league stars and taken out on a sight-seeing tour of the city.

Scales said that when PH&T was launched last year, more than a quarter-million boys participated in all of the 50 states. This year the number is expected to exceed a half-million.

This year, in this area, registration forms will be available at Lakeside 66 Station.

Baseball Commissioner Bowie Kuhn, in a statement issued in connection with PH&T, said the competition has transformed the widespread popularity of baseball among boys into a nationwide physical fitness and youth development program.

While most boys, he said, play baseball simply for enjoyment, it is a maturing experience. "PH&T has given a new dimension to that experience."

GIRL TRACKSTERS. . . Sharon Smith, left, and Janice Milner are shown during a track workout. Both are intermediate distance runners on the Squaws' 1971 track team. The Squaws' district meet is scheduled for April 20.

**Carthel Scores For 7th Grade**

Davey Carthel was the lone point-maker for Friona's seventh grade track team in their district meet last Tuesday at Olton.

Carthel was a double winner, taking wins in the 50-yard dash with a 6.3 timing, and the shot

put with a 36-10 heave. He also placed fifth in the discus at 98 feet, 10 inches.

Carthel accounted for ten points, which was good enough to give Friona fifth place among the eight district teams. Olton won the meet with 60 points.

**WITH STAR HURT**

**Longhorns Win Third**

**Straight Track Title**

The Lazbuddie Longhorns raced to their third straight District 4-B track championship last Wednesday, but the Longhorns' "victory celebration" was saddened somewhat by the fact that star Charles Lee was hurt in the meet and couldn't even enter one of his specialties—the intermediate hurdles.

Coach Pat Casey said Lee apparently suffered a pinched nerve while running the anchor lap of the 440-yard relay, one of seven events the 'Horns won. Lazbuddie qualified seven individuals and a relay team for the

regional meet.

After the relay race, Lee couldn't get his "trailing leg" over the hurdles. However, he went ahead and entered, and won the 120-yard high hurdles, although knocking down every hurdle because of the injury.

Lee would have been a cinch victor in the other hurdle race had he been healthy, and possibly could have taken regional and state, but the injury caused him to be withdrawn from the 330-yard hurdle race. Lee was a state champion hurdler as a sophomore.

Sprinter Roy Young helped

soothe things for Lazbuddie by winning the 100 and 220-yard dashes and the long jump with a leap of 19-9. Rick Seaton, who usually runs behind Lee, came through with a win in the intermediate hurdles.

Seaton would have finished second to Lee in the 120 race, but tripped over one of Lee's falling hurdles.

Jimmie Noland won the discus with a toss of 123-9, and Joe Luera placed second in the mile to round out Lazbuddie's regional qualifiers. The sprint relay team is composed of Lee, Young, Arthur Graves and Johnny Jones.

Other point-makers for the Longhorns in the district meet were Arthur Graves, fourth in the 100 and fourth in the broad jump; George Wilson, fourth in the shot; Noland, fifth in the shot and Lee, sixth in the shot.

Lazbuddie tallied 124 points for the win, as Anton was second with 117 points. The meet was held at the South Plains College track.

Coach Pat Casey said early this week he does not know how Lee will respond to the injury. "If he is healthy, we could have a good shot at winning regional, and could do well at the state meet. If not, then it will be a different story," he said.

Lazbuddie has won seven district championships in the last three years, getting two titles each in football and basketball to go with the three track trophies.

**Clark Wins In 3-AA Meet**

The Friona Chieftain track team placed fourth in the District 3-AA championship meet last Wednesday at Plainview, with jumper and vaulter Wesley Clark emerging as the team's only qualifier for the regional meet.

Clark turned in a career best high jump effort of 6-1, and a season pole vault of 12 feet to emerge as winner in both events. His double wins and Mike Parsons' mile win for Olton kept district champion Floydada from sweeping every event. The Whirlwinds won 11 of the 14 track and field events.

Clark duplicated his feat of a year earlier, when he was district champion in both the high jump and pole vault.

Friona had two entrants who placed third, and they will be alternates to the regional meet, in the event someone finishing ahead of them cannot participate. They were Ronnie McPherson in the high jump and James Weatherly in the discus throw.

McPherson jumped 5-10 to place behind Clark and Olton's Billy Gary. Weatherly tossed the discus 134 feet, seven inches, but was edged out for second place by Kim Rose of Floydada on his final throw in the event.

Also scoring points for the Chieftains were Larry Nickel, who placed fourth in the 440-yard dash, and the mile relay team of Clark, Nickel, McPherson and Charles Bentley, which placed fifth.

Floydada ran away with the championship with 190 points. Lockney was second with 56, followed by Olton, 48, Friona, 45, Morton, 44, Littlefield and Dimmitt, 33, and Abernathy, 25.

The Chieftains were without sprinters Louis Lee and James Harvey, out with injuries, and Rex Minshew, who had an appendectomy recently.

Clark competes in the regional qualifiers' meet this weekend, then the Region I track and field meet April 23-24 at Texas Tech.

## Cub Scout Happenings

Cub Scout Pack 56 held its monthly pack meeting Thursday, March 25 at 7:30 p.m. in the Grade School Auditorium. The meeting was started with Webelos Den 1 presenting the United States and Texas Flags and posting the colors. The color guard was made up of the following scouts: Jeff Peak, Bron Euler, Tammy Vilalobos and Brit Eustace. There was to have been an awards presentation but due to a delay, no badges were received.

The theme for this month's meeting was "Cowboys and Indians," the different Cub Scout Dens presented the program. Den 6 opened with a skit and we saw stage center five young cowboys, wearing the western costumes which they had made. The cowboys were surrounded on three sides by Indians and in the back of them was a raging river, when they asked "What can we do?" The rest of the den came to the rescue by singing "Row Row Your Boat" as a means of escape. When three other Den 6 cowboys were discussing going West, and wanted to know "What's to stop us?" the den added a note of discouragement by singing "Ten Little Indians."

Den 1 then presented a skit which showed the Indians sitting around their campfire waiting for a message about the peace treaty. The Indians were told by the spirits to "be good Cub Scouts, and follow Okela." Now that peace had been re-

stored, Den 7's cowboys were able to show us how the cowboys used to be able to sit around the campfire at night during peaceful times and sing songs to relax.

Den 7 members dressed as cowboys and sang two records of "Clementine" and "Blue Tail Fly." The announcement was made by Cub Master, Pete Hollis that the leaders meeting scheduled for April 13 has been postponed until April 20 at 7:30 p.m. because of the Easter holidays. Den 1 Cub Scouts ask all the other Dens to join them in saying the Cub Scouts Promise for the closing ceremony and then retired the colors.

### Den Meetings:

The Cub Scouts of Den 1 met Wednesday, March 24, in the home of their Den Mother. The boys continued to work on their costumes and skit for the Pack Meeting. Refreshments were served by Rudy Pena.

Den 7 Cub Scouts met Monday, March 22 for their weekly meeting in the home of Mrs. Joyce Wilkins. There was 13 boys, Mrs. Wilkins and Mrs. Gene Brito present. The boys learned how to braid plastic key chains as their project, with the help of their Den Chief. Refreshments were served by Joe Ortiz. Den 7 also met Tuesday to practice their skit for the pack meeting. They also brought their key chains back for everyone to see their work.

It seems that just about everybody In And Around Friona either went somewhere or had company during the Easter holidays and some of them did both. Of course, this is really no different than it usually is when we have a long holiday. If someone needs a good simile for "as dead as..." they might just add, "Friona on a holiday weekend."

Judging from the reports I have heard about church attendance in town Sunday, the preacher who remarked, "I rarely ever get to preach to some people more than two times a year—Easter Sunday and Mother's Day," missed one of those opportunities.

Friona Star Editor Bill Ellis took advantage of a rare opportunity and took Carol, Laura and Stanley to Ruidoso for the weekend. I'm thinking he may have been the victim of a plot.

When his decision to close the office for a couple of days was announced, he vaguely mentioned "spending a leisurely weekend at home." Early Thursday morning he had not announced any specific plans for going any where.

Had someone been listening in, they might have thought Bill and Carol were playing "Crazy Questions and Foolish Answers," or some such game.

Carol announced, "This is the day we clean the storage closet and get rid of that accumulation of newspapers and other junk and do a lot of things that have needed to be done for a long time."

Before the first mentioned chore was completed, Bill said, "I think we should just take off and go somewhere for the weekend."

This may have been what Carol had in mind in the first place. At any rate, the closet got cleaned, Carol got to browse through some antique shops, the Easter bunny found Stanley Sunday morning and Bill and Laura enjoyed a change of scenery.

Pete and Myrl Buske flew to Dallas together and then went their separate ways before finally arriving at Richmond, Virginia for a visit in the home of Rick and Deann Styles and children, Mike, Scott and Sheri.

I'm not real sure whether it was by careful planning or by accident that Myrl got on the wrong plane on her way from Dallas to Washington, D.C. At any rate, the plane she got on went non-stop and the one she was supposed to have gotten on stopped several times. Maybe she was anxious to see the grandchildren and took advantage of an available opportunity.

Pete had to go by way of Miami, Florida, to attend to some business and then went from there to Richmond.

Myrl reports that they had a very enjoyable weekend and that the Styles family is enjoying living in Virginia again after spending some time in New Mexico.

Philip and Phila May Weatherly and children, Park, Pepper and Penni, went to Carlsbad for a sightseeing tour of the caverns. Then on the way home they stopped in Lubbock and visited friends.

The Lewellen families drove to their cabin in the mountains near Center, Colorado. That is, part of them drove and part of them flew. Katie, who is the daughter of the Joe Lewellens, had the misfortune of breaking a leg while skiing, so the trip was shorter than had been anticipated.

Little Laura Greif of Lubbock was a visitor in the home of her maternal grandparents, John and Louise Hays. Her mother and daddy, Debbie and Doug, came, too.

Mike and Kathy Cook were here for a few days. They visited their parents, Bill and Fadine Wooley and Raymond and Iona Cook. Mike and Kathy live in Dallas.

Brenten Riedmayer is visiting his grandparents, Mr. and Mrs. Bob Riedmayer and Mr. and Mrs. Doyle Elliott. His parents, Mike and Becky, have returned to College Station.

Think Grandpa Marc Houser hid Easter eggs for the grandchildren who were here. Jamie and Alvie Heggie of Salina, Kansas, are visiting Marc and Vi.

The Rene Sneads and Cotton Housers have been fishing somewhere in central Texas. Had it not been so dry in that area, they might have brought us some rain clouds.

Jimmy and Nancy Norwood and children, Doug, Becky and Jim, spent a few days in Albuquerque. They visited the Gerald Barnetta and W.R. Norwoods.

Joanie, Wade and David Clements of Amarillo visited Grandmother Martha and Granddad Roy during the weekend.

Bobby and Sonny Dunbar went to Amarillo to visit their grandparents, Mr. and Mrs. M.B. Ivy. They are presently making their home with the J.C. Becks.

## Modern Study Club Has Texas Day Program

The Modern Study Club met April 6 with president, Mrs. George Taylor welcoming members and guests.

Highlights of the Caprock District Federated Convention held in Plainview were given by the delegate, Mrs. Sloan Osborn. Mrs. Wesley Foster, Mrs. Dalton Caffey, Mrs. Glenn Reeve and Mrs. Beth Thompson also attended the convention.

The Modern Study Club won first awards for the Public and Visual Aids Division and also in the Literature and Drama Division. The club also received a certificate of award for one hundred per cent subscription to The Texas Clubwoman Magazine.

Club Delegate, Mrs. Sloan Osborn was honored as being a club member for forty years. After the business meeting, Mrs. Lois Miller led the group

in singing "Texas, Our Texas." Vocal solos, "Have You Ever Been To Texas In The Spring," and "Rain Drops Falling On My Head," were sung by Dana Miller, accompanied by her grandmother, Mrs. Roy Miller, at the piano.

Mrs. Otho Whitefield presented a very interesting program on Our State Capitol. She pointed out in her report that the state capitol was located in seventeen places before finally being built in Austin.

Mrs. G.E. Tannahill presented The Governor's Mansion and showed pictures of the first Governor's Mansion and the one that is now occupied.

Mrs. Roy Miller and Mrs. Sloan Osborn served refreshments to eighteen members and guests, Mrs. Ross Miller and Dana Miller.

BAHAMA CRUISE. . . Mrs. Viola Treider poses aboard the S.S. New Bahama Star anchored at Miami, Florida just prior to a recent cruise to Nassau and the Bahamas. Those aboard this floating hotel enjoyed music entertainment, swimming and shopping while enroute.

## Horsemen Invited To Ride Sunday

If you live in the Friona area and enjoy riding horseback, you are invited by Howard Love, president of Friona Riding Club, to join the group Sunday afternoon.

Club members and guests will meet at the Rodeo Arena at 1:00 p.m. Then they plan to go in a group to the Escavada Ranch Headquarters in the southwestern part of Deaf Smith County for a ride.

Those attending are to bring sack lunches.

LIBRARY WEEK. . . Getting a head-start on Library Week are Kim Brandt and Tommy Villalobos who are checking out books with librarian Billy Fairchild. April 18 starts National Library Week in Friona and across the nation. Locally school children and pre-schoolers will be honored in several events throughout the state.

## Visitors Honored With Easter Dinner

Mr. and Mrs. C.B. Hanson and daughter, Pam, of Athens, Texas, were weekend visitors in the homes of Mrs. Hanson's parents, Mr. and Mrs. A.H. Hadley, and other relatives and friends.

An Easter dinner honoring the visitors was hosted by Mr. and Mrs. Leo Balls in their home in the Hub Community Sunday.

Others present were Mr. and Mrs. Windle Sikes, Ralph, Robin and Lajuan and Mr. and Mrs. Thomas Shoemaker, Debbie and Glenn all of Bovina; Mr. and Mrs. James Pope and sons, Gary, Michael and Lynn; Mr. and Mrs. Donn Tims and sons, Larry and Ricky and Mr. and Mrs. Kenny Balls.

Afternoon callers were Cathy, Carol and Brooks Mast, all of Bovina.

The Hansons are former Friona residents.

## Mrs. Bill Brandt Presents Program

A painting demonstration was presented to members of Rhea Home Demonstration Club and their guests at the Monday evening meeting in the home of Mrs. Andy Anderson by Mrs. Bill Brandt, who was a special guest.

Following the demonstration plans were made for a trip to Deaton's Dorsey Mansion.

Other guests were Mrs. Raymond Schueler, Mrs. Roy Zieschang, Mrs. Keith Garner, Mrs. Wendell Garner and Mrs. Bill Smock.

Members present were Mesdames Walter Schueler, Cordie Potts, Chris Drager, Floyd Schueler, Shirley Smith, Walt Dittmer, Franklin Bauer, Elmo Dean, Floyd Schlenker, John Drager, Jack Patterson and Norman Taylor.

Refreshments of coffee, spiced tea, fruit tarts, cake and nuts were served by the hostess.

ADULT READERS. . . Nola Faye Vestal and Peggy Bryant have made their reading selections from the adult section of the Friona Public Library just prior to National Library Week, which will be April 18 through 24. Librarian Billy Fairchild assists them with their selections. New books are being added regularly to this section and all Friona residents are urged to visit the Library next week to look over the current selections.

Out-of-town visitors in the Bee Westbrook home last week were their grandson, Mr. and Mrs. Wendell Westbrook and son, Wesley, of Lubbock. Also visiting were Mrs. Westbrook's brother, Mr. and Mrs. H.R. Bevel of Amarillo.

## Harrol Redwine Wins Promotion

Harrol D. Redwine, 25, whose wife, Charlotte, lives on Route 1, Friona, Texas, recently was promoted to Army Chief Warrant Officer in grade W-2 while

serving with the 1st Cavalry near Vinh Long, Vietnam.

CWO Redwine is a pilot in Troop A of the Cavalry's 7th Squadron. He has been awarded the air medal, the Vietnamese Gallantry Cross and the distinguished flying cross.

## Dinner Honors

### Joe Zachary

An Easter dinner in the home of Mr. and Mrs. Jerry Zachary and children, Joe and Grace, honored Joe, who was observing his fifth birthday.

Others present included Mr. and Mrs. Van L. Pickett, Amarillo, who were weekend guests in the Zachary home. Mrs. Pickett is Mrs. Zachary's mother.

Sunday afternoon visitors were Mr. and Mrs. Thomas Shoemaker and children, Debbie and Glen, of Bovina.

## Ron Awtrey Ends Training Course

Ron Awtrey, son of Mr. and Mrs. Deon Awtrey, 402 Jay Avenue, recently completed an eight week training course at Fort Bliss.

Awtrey began his National Guard training in October 1970 and completed his basic training at Ford Ord, California.

He is a 1964 graduate of Friona High School and received his bachelor of science degree with a major in agricultural economics from Texas Tech University, Lubbock in 1969.

Awtrey and his wife, the former Sandra Beene, live at 404 Jay Avenue.

Friona Public Library will be observing National Library Week April 18-24 and has planned several special activities.

Students of ABC School and pre-school age children who attend Story Hour will be viewing a film Thursday.

There will be a special story hour for the public school kindergarten.

Some of the public school children will be visiting the library for a special tour and will have an opportunity to win an attendance gift.

Libraries over the state and nation have planned to observe this special week.

Governor Preston Smith has issued a proclamation in accordance with this special observance and it is printed elsewhere in this paper.

Children in the first eight grades should watch for announcement of the summer reading program.

Three new books have been added in the adult department. They are "God Is An Englishman," by Delderfield; "Car-

van to Vacarres," by McLain and "Hail To The Chief," by Montgomery.

## O'Brians Host Annual Dinner

Mr. and Mrs. Russel O'Brian were hosts at an annual Easter dinner and egg hunt in their country home in the Lakeview Community Sunday.

Out-of-town guests were Mr. and Mrs. Jim Welch and children, Jack, Jeannie and Julie, of Pettit; Mr. and Mrs. Larry Hogue, Levelland; Mr. and Mrs. L.V. Hogue and Dean, Pep; and Mrs. A.H. Hyden, Big Spring.

Others present were Mr. and Mrs. Kenneth O'Brian; Mrs. Leta Fustace, Brit and Kim; Mr. and Mrs. Burke Hand, Phillip, Danny and Tawnya; Mr. and Mrs. Lloyd Chesser, Cindy, Christy, Cathy and Charla; Mr. and Mrs. Charles Carter and Rusty and Mr. and Mrs. James W. Cunningham and Joe.

## Son Born To Stricklands

Mr. and Mrs. O.C. Strickland of Plainview, formerly of Friona, became parents of a baby boy Sunday, April 4.

He was named Aaron Gabriel and weighed 8 lbs. 9 ozs. The Stricklands have one daughter, Lya, 2.

## The Lonely Heart

## Get your money's worth electric air conditioning

### OVER 30 YEARS OF PROVEN DEPENDABILITY

Just like your refrigerator, electric air conditioning uses the same experience-proven method of cooling. A dependable compressor keeps on cooling no matter how high the outside temperature.

### LOW OPERATING COST

Before you buy, be sure you have complete information. Electric air conditioning saves you money when you buy and because it uses only electricity and free air, your operating cost is low . . . no extra installation costs, either!

### HIGH ALTITUDE — NO PROBLEM

Despite our high altitude, electric air conditioning keeps on doing its job because the electric cooling method is completely sealed against the effects of altitude changes.

### CHOICE OF BRANDS

There are 58 manufacturers of electric air conditioning and all major brands are available in our area. Brands in your area are listed in the Yellow Pages or identified on your neighborhood dealer's store front.

### CHOICE OF SIZES

Electric air conditioning offers the right size for your cooling job. Too large a unit makes your first cost unnecessarily high; too small runs up operating cost. Electric air conditioning can save you money on both counts.

### COMPLETE SERVICE

The principle of electric air conditioning is so well understood and the parts so easy to change that any air conditioning man can give you service quickly should you ever need it.

12-4

ELECTRICITY — IT DOES SO MUCH GOOD FOR SO MANY PEOPLE!

# ON YOUR MARK GET SET GROW! This Is Friona's Annual . . . CLEAN-UP PAINT-UP FIX-UP WEEK

You'll find all the needed tools and supplies at Friona Consumers to do a great job of cleaning up your place whether it's in town or on the farm. Check our stock of tools, fertilizers, mowers, sprinklers, etc. before you start the big Spring clean-up.

**AT SYMPOSIUM**

**German Millers Receive Report On Texas Wheat**

A group of 80 German flour millers and grain traders were recently provided with a current report on the baking properties and blending values of U.S. wheats at a symposium sponsored by Great Plains Wheat, Inc.

The meeting, held in Munich on February 25, was aimed at gaining increased interest in U.S. wheats in the southern portion of West Germany, particularly among those millers who have not been using U.S. wheats in their grists.

Melvin G. Maier, European Director of Great Plains Wheat, reported that the information was well received by the millers, some of whom came over 300 miles to attend, and that GPW would attempt to set up similar meetings in other parts of Germany and Europe in the future. The market development work of GPW is carried out in Europe in cooperation with the Foreign Agricultural Department of the USDA.

Of primary interest to the audience were the results of laboratory milling and baking tests on various blends of both U.S. spring and winter wheats with German wheat. The study showed that mixtures of 20 per cent U.S. wheat and 80 per cent domestic wheat resulted in near optimum milling and baking characteristics.

The two U.S. wheats used in the tests, Dark Northern Spring and Dark Hard Winter, were taken from recent cargoes arriving at European ports.

The U.S. and German wheats

tested were typical of what millers in South Germany are presently able to purchase.

Great Plains Wheat is the foreign market development organization for wheat producers in Colorado, Kansas, Nebraska, North Dakota, Ohio, Oklahoma and South Dakota.

Bill Nelson, Executive Vice President of Texas Wheat Producers Association in Amarillo, said that symposiums such as this one held in Germany, are important to continued export sales of U.S. wheat.

He said that at this time Texas is not involved in such activities promoting the use of Texas wheat, and that the trend has been sharply downward in the production of wheat in Texas the past three years.

Nelson said that if producers in the Panhandle and Rolling Plains vote in the wheat referendum May 11, for a five mill per bu. assessment on their production, funds then would be available to join with the other states in supporting the work of Great Plains Wheat, Inc. and provide Texas wheat interests access to the worldwide promotion program activities, hopefully leading to increased foreign sales and stronger farm wheat prices.

**Keeping The FAITH**

What is love? This is probably one of the most basic questions of human existence. Love is extolled by poets, described by novelists, dramatized by playwrights, analyzed by psychologists, advocated by theologians, profaned by pornographers, and sought by all. But in the end, it remains as mysterious as lightning. We can observe the effects of love, yet cannot grasp its essence.

If ever there was a definitive work on this elusive and universal subject, Emanuel Swedenborg's *Divine Love and Wisdom* meets the test.

Swedenborg, 18th century scientist, philosopher, and the

ologist, begins where other men left off. With his opening statement, "Man knows that there is such a thing as love; but he does not know what love is," his theme is clearly stated. Using all his talents, Swedenborg combines science, philosophy, and religion into a logical, yet readable explanation of love.

The author's insight raises love into a new light where it can be seen as "ultimate reality"—the basic element in human nature.

Although *Divine Love and Wisdom* was written in 1763, the answer to the question, "what is love?" is perhaps asked more now than ever before. Readers will find this book fascinating and challenging. It will enlarge one's understanding of life itself.

Helen Keller, who credits the works of Swedenborg as being a great source of comfort and inspiration, stated:

"This book (Swedenborg's *Divine Love and Wisdom*) is a fountain of life I am always happy to be near. I find in it a happy rest from the noisy insanity of the outer world."

**YOU—YOUR OWN BOSS?**

Here's a simple little test of your managerial ability. If you can answer "yes" to each of these questions—you've probably got what it takes to run your own business:

1. When you finish one assignment, do you seek another? Accepting additional responsibility is fundamental to leadership.
2. Do you try to improve present methods? Would you look for ways to attract customers and save money?
3. Are you an optimistic worker? Optimism and enthusiasm on the job can lead to constructive changes.
4. Are you willing to learn? Part of being an executive is seeking out and learning better ways to run your business.
5. Do you like to deal with people? If you like them, they'll like you—and work for you!
6. Do you really know your present job? The best way to advance to a better job is to be a top performer in your present position.
7. Can you handle criticism graciously? Taking criticism personally is a sure sign of immaturity, bad for you—and bad for business.
