URGENT CLAIMS OF FT. WORTH

J. A. Todd and O. S. Lattimore Address Woodmen

TO MOVE OFFICES

Effort Being Made to Secure Headquarters of Order for Fort Worth

J. A. Todd and O. S. Lattimore have gone to Omaha, Neb., to represent the claims of this city for national headquarters of the Woodmen of the World.

As announced in The Telegram, the headquarters of the organization are to be moved from Omaha, owing to provision in that state for a tax upon the reserve fund of fraternal insurance organizations.

A similar law is in effect in Texas, but at a conference recently held in this city between representatives of the organization, Governor Lanham and State Senator Hanger, removal of such a tax was considered favorably.

It is also declared that national banks of the city have offered to guarantee the organization against taxation if headquarters are brought to Fort Worth.

As ascertained at the conference in this city, it will be impossible to secure removal of the tax at the special session of the legislature called March 28, but such action is declared practically assured at the following regular session.

It is confidently expected that action regarding removal of the headquarters will be taken at the present session of the council.

Sovereign Commander Root of the organization is quoted in a dispatch from Omaha as saying:

"If we stay here beyond the end of March we shall be stuck for this year's taxes, amounting to another \$70,000, as our reserve fund is in excess of three millions. So we are going to pull out before April 1, even if it is no matter to show that of the total appropriations for all purposes made by congress within the last ten years, the army and navy have received only 1 per cent and that only 1 per cent in addition to that had been appropriated for the encouraging of commerce, the 200,000 members have appropriated for army, navy and pension purposes.

To Push City's Claims

Representatives Todd and Lattimore will urge the selection of Fort Worth, go with the combined support of the business interests and private citizens and no effort will be neglected in presenting the claims of the city.

In addition to this the strength of the organization in Texas and the fact that this city has the largest camp of the organization in the world, with practically 1,200 members, are taken as strong points in favor of this city.

In a circular recently issued the advantage of the headquarters was summed up as follows:

First—It would mean the erection at once of a \$100,000 office building to accommodate the business of the sovereign office.

Second—It would mean the erection at once of an \$80,000 office building to accommodate the Woodmen Circle.

Third—It would mean additional employment of about 160 people in the various offices, which would take rank among our best people.

Fourth—It would increase postoffice receipts in Fort Worth about \$45,000 per year.

Fifth—It would add to the volume of money coming into Fort Worth about three and one-half millions a year, of which about \$200,000 would be paid out in this city for salaries, printing, etc.

Sixth—It would mean an extra daily balance of about \$400,000 in banks here, which would mean an easier money market.

Prospects for success are considered bright, Texas having one-fourth of the votes to be cast when the matter is brought up at the convention for verification. This city, it is understood, will have the support of practically the entire state. The council is limited to a resolution of the last convention calling for change to some place where tax exemption sought may be secured.

SIGNATURE ANNOUNCED

President Approves Investigation of Monopolies

WITH HESITATION

Roosevelt Tells Congress Resolution Is Likely to Achieve Nothing Without Funds

WASHINGTON, D. C., March 7.—President Roosevelt today sent a message to congress announcing his signature to the joint resolution recently passed, instructing the interstate commerce commission to make an examination into the subject of railroad discrimination and the monopolies reported in coal and oil. He says frankly that he has signed it with hesitation, because it may achieve little or nothing. He indicates, too, that if the investigation proposed by the resolution is conducted thoroughly, it will result in giving authority from commercial prosecution to all persons who are called and sworn as witnesses. In the opinion of the president, the direction of the resolution will result in practically inoperative unless money be provided to carry on the investigation and the commission be authorized to make this application under its provisions. He suggests, therefore, that congress give serious consideration to just what it desires the interstate commerce commission to do, and that the sum of \$50,000 be placed at the disposal of the commission to defray the expenses of the proposed investigation.

Amendment Agreed WASHINGTON, D. C., March 7.—Senators Spooner and Bacon today reached an agreement concerning the amendment to the Isle of Pines treaty, which is intended to protect American interests. It provides that the island shall be regarded as a separate province within the meaning of the Cuban constitution. This would give to the island local self-government and representation in the Cuban congress when the population of the island warrants such representation. An American and in the treaty it is proposed amendment will be satisfactory to them.

To Extend Quarantines WASHINGTON, D. C., March 7.—By a vote of 11 to 2 the house committee on interstate and foreign commerce agreed today to make a favorable report on the committee substitute for the Williams bill to extend the Federal control of quarantines. Representatives Bartlett of Georgia and Russell of Texas cast negative votes. They will make a minority report opposing the measure on the ground that it is unconstitutional in that it interferes with the rights of the states.

SUFFERED AGONIES FOR FOUR YEARS

Whole Foot Nothing But Proud Flesh — Tried Different Physicians and All Kinds of Ointments—Could Walk Only With Crutches—Ohio Man Says: "CUTICURA REMEDIES THE BEST ON EARTH"

"In the year 1899 the side of my right foot was cut from the little toe down to the heel, and the physician who had charge of me was trying to sew up the side of my foot, but with no success. When he found out that wouldn't work, he began trying to seal the wound with all kinds of ointment, until at last my whole foot and way up above my calf was covered with proud flesh. I suffered untold agonies for four years, and tried different physicians and all kinds of ointments. I could walk only with crutches. It is sixteen months ago since I began using Cuticura Soap and Ointment for my limb and foot. The first two months the Cuticura Remedies did not seem to work, but I kept on using them both. In two weeks afterwards I saw a change in my limb. Then I began using Cuticura Soap and Ointment often during the day and kept it up for seven months, when my limb was healed up just the same as if I never had trouble. It is eight months now since I stopped using Cuticura Remedies, the best on God's earth. I am working at the present time, after five years of suffering. The cost of Cuticura Ointment and Soap was only 80¢, but the doctors' bills were more like \$600. You can publish my name and refer any one to write to me about Cuticura Remedies. I will answer all letters if postage is enclosed. John M. Lloyd, 715 S. Arch Ave., Alliance, Ohio, June 27, 1905."

SEEKS DIVORCE AND ALIMONY

Mrs. Lizzie M. Riley Asks for Separation

Mrs. Lizzie M. Riley of Tarrant county has filed suit against her husband, Hugh Riley of Wichita county, asking divorce and alimony.

The petition alleges that plaintiff and defendant were married in 1893 and that the defendant abandoned her the following year and at the time of her marriage she owned in her own right 169 acres of land in the J. Jennings' 640-acre survey in Tarrant county and that afterward she bought lot 8, block 75, Rosen Heights and has made some payments on same with her own separate money and that said property constituted her entire estate. Plaintiff alleges that the defendant (her husband) is a man of large wealth, owning large bodies of land in a part of this state, and that the plaintiff married him and a part of which has been acquired since. Plaintiff asks that defendant be ordered by the court to render an account of his property, that he be required to pay her \$250 attorney fees and that on the final hearing of this case she be granted a divorce and such alimony as in the judgment of the court is right and proper.

Deputy Arrested Iva Newbury, a deputy sheriff of Denton county, was lodged in the Tarrant county jail Wednesday on charges preferred by P. S. Johnson of Hall county. The prosecuting witness named in the complaint is Miss Leona Johnson of Hall county.

The warrant for the arrest of Newbury was issued by Justice John L. Terrell March 5 and placed in the hands of Constable Henry Cantrell. He communicated with the sheriff of Denton county, who arrested Newbury at Lawsville, Denton county, and notified the Tarrant county officers. Constable Cantrell went to Denton Tuesday and returned with his prisoner Wednesday morning.

MEMORIAL DAY FOR GOV. HOGG

Proclamation Issued Setting Aside March 25

IN STATE OF TEXAS

Date Is Day Following fifth Anniversary of Birth of Former Executive

AUSTIN, Texas, March 7.—Governor Lanham today, at the request of a delegation of citizens, issued a special proclamation setting aside March 25, 1906, as a memorial day for the late Governor James S. Hogg. The proclamation follows: "In obedience to the suggestion of a large number of friends and admirers of James S. Hogg, former governor of this state, and yielding to my own personal feelings and the sense of propriety, I, S. W. T. Lanham, governor of the state of Texas, do hereby request that Sunday, the 25th day of March, A. D. 1906, be the day following the fifty-fifth anniversary of his birth, be set apart and observed throughout the state as a memorial day, in recognition and commemoration of the invaluable services rendered to the people of Texas by him in public as well as in private life. "Every one must realize that, in the death of this illustrious native Texan, the state has sustained an irreparable loss and that his work was the work of commemoration and his life one of emulation by her people and that it will be appropriate to commemorate the virtues throughout the state in the public manner suggested. "In testimony whereof I hereunto set my hand and have caused to be impressed hereon the great seal of the state. "Done at Austin, Texas, this 7th day of March, A. D. 1906. "S. W. T. LANHAM, Governor. "By the governor: "O. K. SHANNON, Secretary State."

AGREEMENT NOW NEARLY COMPLETE

France and Germany Quarrel About Past

BERLIN, March 7.—Private conversations between the German and French envoys at Algiers have brought them almost to an agreement on the Moroccan police controversy so near indeed that the foreign officers here regard a satisfactory issue of the conference as assured. Germany, it is understood, accepted France and Spain, in having officers sent to Morocco for the policing of Morocco and France accepts the international control in principle, undertaking to supply the guarantee that the police shall not be national in character. It is the specific form of these guarantees that remains unsettled and continues to be the subject for discussion. It is likely that an international protectorship will be created consisting of a single officer of repute from a power other than France, Spain or Germany. One detail which continues to be discussed is the propriety of the inspection being located in a neutral harbor. The ministers of the powers will also exercise general observation over the police.

A MERCHANT PHILANTHROPIST

The largest merchandise store in all the Wilmsett Valley is that of James Craig, in Silverton, Oregon. Mr. Craig is not only a big merchant, he is a philanthropist as well. He takes a genuine interest in the welfare of his neighbors. He writes as follows: "Office of James Craig, General Merchandise, Silverton, Ore., Oct. 16, 1905. "GENTLEMEN:—I would like you to send me a bunch of your pamphlets. I can send lots of customers to our local druggist, as I am a strong believer in your cure for Bright's Disease, due to the following: The local physicians gave a young lady up as incurable. Her father brought a pamphlet of yours to me, my only advice. I found I knew two of those whose names were given, viz: E. U. S. Sub-Treasurer Spaulding and Dr. Zelle. I wrote Spaulding. His reply was so satisfactory that the young lady's father ordered six bottles. Before she had finished two she was out driving, and today is teaching school in Arizona, happy and well. I have done lots of talking for you this past four years, and a good many of my customers who have been afflicted are well. The reason that I am writing this is that another one wants to start taking the compound and wants to read up on your literature. Yours truly, "JAMES CRAIG. "Did you ever hear of anything else in all the world that was so effective for business men who get among their neighbors and urge them to take it? "We solemnly declare to you that Bright's Disease and Diabetes are now curable in about 87 per cent of all cases by Fulton's Compound. Send for free booklet to John J. Fulton Co., 409 Washington Street, San Francisco, or to H. T. Pangburn & Co., agents, Fort Worth, Texas."

COAL STORAGE IS CONTINUED

Officials Believe, However, the Strike Will Be Averted

Inquiry at the vice president's office of the Rock Island regarding the further developments in the impending coal strike situation as viewed by the railroads, developed the fact that the Rock Island is still storing coal in large lumps at all of its fifteen emergency stations. It is believed by some of the railroad officials here that in view of the enormity of the commercial interests at stake there will be some arrangement made for avoiding the strike. At the same time, the roads are going to make all the preparations possible. These, however, it is admitted, will avail but little in the event a prolonged strike takes place.

Homelessers Coming

Advice has been received here that a large homelessers' excursion will reach Fort Worth at 7:20 o'clock Wednesday night. The homelessers are coming via the Katy; the excursion being one of the largest brought here this year. A large portion of the homelessers will stop in the hotels and the hotels will be crowded. A number of land and immigration agents will also accompany the party. At Fort Worth the homelessers will separate and proceed to various parts of the state. The excursionists are from Missouri, Kansas, Nebraska and other central states.

Southern Officials Here

Third Vice President J. M. Culp of the Southern Railway Company, headquarters Washington, accompanied by Fifth Vice President T. C. Powell, headquarters St. Louis, and Mrs. Culp and Mrs. Powell, arrived in Fort Worth Tuesday afternoon. They were in special car 103 of the Southern, and spent the night in the city. They left Wednesday morning over the Cotton Belt for Atlanta, commencing afternoon Vice Presidents Culp and Powell took a carriage drive over the business part of the city, noted the many improvements and expressed their admiration at the wonderful progress of the city.

Notes and Personals

S. B. Hovey, vice president of the Rock Island, J. S. Peter, chief engineer, and E. L. Lusk, superintendent for Amarillo on an inspection trip. W. V. Galbreath, general live stock agent of the Katy, returned Wednesday morning from Galveston. J. H. Chapman, commercial agent of the Queen and Crescent, with headquarters at Dallas, is in the city. Roscoe Bishop, city passenger agent of the Chicago, Peoria and St. Louis railroad, is a visitor from Dallas. E. A. Pennington, city passenger agent of the Houston and Texas Central, is in Dallas.

TRUCK UNINJURED BY HEAVY FROST

Low Temperature Again Is the Local Forecast Heavy frost occurring in this city and vicinity at about 6 o'clock Wednesday morning, was not injurious in the slightest. It takes a heavy frost of longer duration to do any damage. The minimum temperature reported for the city at the weather bureau was 34 degrees, but the temperature rose soon after getting to this mark. Careful investigation at Riverdale showed no damage to truck and peach trees, many of which are in bloom are not believed to have suffered. On the other hand, the frost of Wednesday morning and the one that is predicted for Thursday morning will aid crops to some extent, retarding the growth. Total rainfall in Fort Worth Tuesday was 54 of an inch, lasting until after 7 o'clock at night. Corpus Christi had the heaviest fall of the state, 1.78 inches. Rainfalls reported at other Texas cities were as follows: Abilene, .20 of an inch; Galveston, .86 of an inch; Palestine, .48 of an inch; San Antonio, .20 of an inch. Official statement of weather conditions is: "The low barometer area over the southwest yesterday has moved eastward and is centered at New Orleans this morning, causing a rise in the lower Mississippi valley. In the Cumberland mountains, and in the Ohio valley. "The regions west of the Rockies are dominated by high barometer conditions, causing clear and cold weather, the freezing line reaching as far south as Abilene, accompanied by killing frost. Fort Worth had heavy frost, temperature reaching 34 degrees. "Snow is falling in Pennsylvania, Michigan, New York and in the upper Ohio valley."

CA VASS BEGUN FOR STOCK SHOW

Committee Raises \$1,000 in a Short Time The committee in charge of raising the funds for the Fat Stock Show spent two hours Wednesday morning on the first canvass for funds and within that time raised almost \$1,000. The committee partially canvassed the east side of Main street from the Worth hotel to the Texas and Pacific depot and raised the money from this small section. The amounts of the contributions could not be found, as the various members of the committee have not given their lists to the chairman although each had telephoned the amount raised. No work has been done by the committee at North Fort Worth as yet, as Maricah Sanson, the chairman of the committee is in South Texas and a meeting has not been called in his absence. The committee members who were working this morning were J. Spencer, chairman; E. H. Tupper, George Stillman, O. P. Haney, Jacob Washer, O. S. Houston and J. F. Ellis.

"We tried various medicines, but without any benefit whatever, and she could not take cod liver oil or emulsions, as they nauseated her and upset her stomach. Learning that Vinol contains all the medicinal and strength-giving properties of cod liver oil, but without the nauseating and system-clogging oil, we decided to try it, and the results were marvelous. TRADE EXCURSION SCHEDULE DRAWN

Board of Trade Plans Merchants' Trip REACH 33 CITIES

Population of 140,000 to Be Reached by Proposed Itinerary

At a meeting of the directors of the Board of Trade, held Tuesday afternoon, the proposed trades excursion was taken up and a route suggested for the trip. The committee on the establishment of a freight bureau also reported, and it was decided that the matter should be dropped on account of lack of interest. The trades excursion will leave Fort Worth on Tuesday, May 8, if sixty persons can be secured to make the trip. Captain Paddock of the Board of Trade announced this morning that the cost of the trip will be about \$55 or \$60 each.

Route Proposed. The proposed route for the trip provides departure from Fort Worth via the Frisco, going to Holdenville, then through Chicago, Rock Island & Pacific will be used via El Reno to Lindsay and return to Fort Worth via the Santa Fe. The total mileage of the trip will be 570 miles, which includes eighteen miles for the round trip from Seulin, T. T. to Sulphur Springs. If the schedule should be adopted without the trip to Sulphur Springs, more time could be arranged for other cities.

Reach Thirty-three Cities. Altogether thirty-three places are on the list, with a population of 140,675 inhabitants. More time is left of course for the larger towns than for the smaller ones. The idea of the excursion is to make the merchants who take the trip better acquainted with the merchants in the territory north of this city.

Schedule Proposed. The proposed schedule is as follows: Leave Fort Worth, Tuesday, May 8, at 8 a. m.; arrive Frisco, population 900, 10:15 a. m.; arrive Prosser, population 100, 10:35 a. m.; leave 10:45 a. m.; arrive Celina, population 1,000, 11:05 a. m.; leave 11:25 a. m.; arrive Sherman, population 16,000, 1 p. m. (dinner stop), leave 4 p. m.; arrive Denison, population 15,000, 5:30 p. m.; leave 5:45 p. m.; arrive Madill, population 3,000, 6:45 p. m. supper. Second day, Wednesday—Leave Madill, population 1,400, 9:22 a. m.; leave 10 a. m.; arrive Mill Creek, population 1,300, 10:20 a. m.; leave 10:40 a. m.; arrive Sulphur Springs, population 1,200, 12:15 p. m.; leave 2 p. m.; arrive Hickory, population 600, 2:45 p. m.; leave 3 p. m.; arrive Bowling Green, population 1,100, 3:15 p. m.; leave 3:50 p. m.; arrive Ada, population 3,500, 4:20 p. m.

Third Day, Thursday—Leave Ada 7 a. m.; arrive Frisco, population 900, 7:35 a. m.; arrive 8:20 a. m.; arrive Holdenville, population 3,000, 9 a. m.; arrive 10:30 a. m.; arrive Wewoka, population 850, 10:45 a. m.; leave 11 a. m.; arrive Earlbore, population 600, 11:30 a. m.; arrive 11:40 a. m.; arrive Shawnee, population 13,000, 12:15 p. m.; leave 3 p. m.; arrive MeLeod, population 1,000, 3:25 p. m.; arrive 3:45 p. m.; arrive Chowch, population 200, 4:10 p. m.; leave 4:20 p. m.; arrive Oklahoma City, population 26,000, 4:50 p. m.

TICKET BROKERS GIVEN NOTICE

Enforcement of Ordinance Begins Thursday. WILL NOT BE OBEYED. Compliance With Regulation, Declare Dealers, Would Mean Suspension of Business.

Chief of Police Maddox stated Wednesday morning that he had notified the officers of the city and the ticket brokers today that they must take a license and provide a bond in compliance with the new ordinance passed by the city council on Feb. 19, or that he would begin making arrests Thursday.

The legal publication of the ordinance has become a matter of some importance, and the ordinance became effective Monday, but the ticket men have been given a little time to take out their licenses and furnish the bonds required. Thus far there have been none taken out, and the brokers expressed their intention of fighting the ordinance, claiming that it would be impossible for them to comply with the ordinance and continue to conduct their business.

Among the provisions of the ordinance is a requirement that they pay an annual license fee of \$10 and furnish bond in the sum of \$2,500. There are also further restrictions regulating the sale of the tickets after any bond and license has been obtained, which the brokers claim would make it impossible for them to conduct business even after having provided themselves with a license and furnished a bond. It will be unlawful for them to sell any ticket carrying the provision non-transferable or to sell tickets where it will be necessary for the purchaser to impersonate another.

The brokers also required to keep a well-bound book in which shall be entered in writing a description of all tickets and the names of the purchasers of tickets showing the date when the ticket expires, the amount paid for the same and also the starting point and destination. This certificate, it is provided, shall be signed by some one in the office of the broker making the sale on his behalf.

WILL FORT WORTH STAND HITCHED?

The people of south and southwest Texas have never taken kindly to the new rule promulgated by the Fort Worth Live Stock Exchange, which has resulted in the cutting off of solicitors.

You will be able to detect the Fort Worth commission man at the meeting in Dallas on March 19, 20 and 21, for if reports be true he will wear a "blab," for there are many headquarters established by any of the numerous firms doing business in that market.

The esteemed Express may expect to find the Fort Worth commission men wearing blabs at the Dallas convention, but we do not believe it. In fact, such a procedure is wholly foreign to the Fort Worth way of doing business.

There is plenty of time yet for Fort Worth to take the necessary action in the premises, and the members of the Fort Worth Exchange can be depended upon to look closely after their own interests, and at the same time provide south and southwest Texas with all the facilities they desire for the howling act.

without the proper inspiration, and Fort Worth means to provide the inspiration. Let south and southwest Texas proceed to get ready to howl, for Fort Worth feels she has two great big howls coming from that direction, and will be grievously disappointed if they are not full grown and lusty in every particular.

Fort Worth will be at Dallas good, strong and amply supplied with all the material necessary to promote that pent up howling.

ARE LEGISLATORS BEGINNING TO HEDGE?

There is an interesting question that has been suddenly sprung since the governor issued his call for a special session of the state legislature, and that question is whether or not the impending session is to be a free or a paid session.

It has been freely commented upon that one peculiarity of the governor's call for the lawmakers to assemble at Austin is that the purpose of the assembly is limited exclusively to the one object a majority of the legislature agreed to meet and accomplish without cost to the state.

The question as to whether the members, officers and employes of the Twenty-ninth legislature will serve without compensation appears not to have as yet been settled. From present indications, however, the lawmakers, or least a good number of them, and the employes, will take advantage of their constitutional right and demand their mileage and per diem.

The Austin paper goes further and says members of the legislature who have visited that city since the call was made for the special session are expressing themselves as willing to stand by the original agreement but are deprecating the fact that the call was so long in materializing, and was made at a time when their services are needed at home.

Of course, such action will call down an avalanche of angry protests from the people, but the average member of the state legislature cares very little for the people, but the average member of the state legislature cares very little for the people when he considers his own personal interests at stake.

Easter does not come until the middle of April this year, and the men who pay the freight are thankful for the fact that it is a matter of more than thirty days yet.

The good people of west Texas are still busy picking cotton, and yet there are some people who think that section can never do much in the matter of becoming a great farming country.

Dallas claims to have everything in ship shape for the approaching session of the Cattle Raisers' association in that city, and promises to give the men from the range the time of their lives.

The finishing touches are now being put on the arrangements for the annual Fort Worth Fat Stock Show, and so far every end has been brought up in the most efficient manner. The big event is going to be a veritable eye-opener.

Congress is figuring on cutting off the free garden seed distribution that has so long gladdened the hearts of the inhabitants of the rural districts, and thus it is that our most cherished institutions continue to crumble and disintegrate in rapid decay.

Are you patronizing home industry? If not, why not? Fort Worth as a manufacturing center must develop in due proportion with the manner in which Fort Worth people insist upon having the Fort Worth made article.

The papers of the state are saying some very nice things about the late James S. Hogg, and he is universally rated as one of the greatest men ever produced in the state of Texas.

Advices from Washington indicate that the general appropriation bill will carry about \$900,000 for public buildings in Texas, and of this amount Fort Worth will get about \$225,000.

make a very gratifying showing, and at least tie us over to the point where we can get what the necessities of the situation so clearly demand.

The declination of A. B. Robertson, of Colorado City, to permit the use of his name as a candidate for the presidency of the Cattle Raisers' Association of Texas, seems to insure something of a cinch for Colonel Ike T. Fryor, of San Antonio.

The contest instituted by Andrew Jackson Houston for the seat in congress occupied by Brooks, from the old Cooper district, will result in Brooks retaining his membership. The contest that will be instituted by Samuel Bronson Cooper for the same seat before the people may result in a totally different procedure.

The fact that the late Governor Hogg desired a simple funeral and asked that it should be without ostentation, did not prevent thousands from doing honor to his memory at Austin Monday.

AMONG THE EXCHANGES

Senator W. A. Hanger will be renominated and re-elected with ease, according to disinterested citizens of his district. Hanger made a valuable lawmaker during the life of the Twenty-ninth legislature.

Hanger does not need any one to vouch for him. He made a record at Austin that speaks for itself.

When the legislature meets here the latter part of the present month in extra session you may expect the political groundhog to come out of his hole every morning to see if it is entirely safe for him to venture forth during the day.

It is to be hoped there will be no more political play on the part of the state legislature. There was enough of that sort of foolishness during the previous two sessions, and the interests of the state seriously suffered.

In order that the work of the special session of the legislature may not be hindered or delayed by too much politics, it might be a good idea to quarantine the state capital against gubernatorial candidates and their special advocates while the legislature is in session.

It would be a pious idea to keep all the candidates away from the state legislature while it is in session, but would be a difficult problem. The average candidate is omnipresent.

The Fort Worth Telegram objects to The Commercial saying that Judge Bell wears gum shoes. Political gum shoes is what we meant. Judge Bell has been in office a quarter of a century and never stepped on anything or anybody officially.

Judge Bell did more while attorney general of Texas to bring the trusts operations in this state within the pale of the law than any of his predecessors.

We have the best hotel accommodations of any city in the state. Fort Worth is amply able to take proper care of the state democratic convention.

We are for Fort Worth then—but you know the next convention is going to be the biggest ever held in Texas.—Sherman Register.

Fort Worth always makes good, and is the one city in the state best qualified to take proper care of the biggest democratic convention ever held in the state.

There was but one James Stephen Hogg and death has removed him. Just at present it would be difficult to name the man who could take his place in the public and political life of Texas.

The people of Texas have lost a fearless and aggressive champion in the passing of James S. Hogg, and it will be a long time before another such character will appear upon the scene of action.

Every honorable man in the land should be a champion of purity in man and woman, a self constituted protector of virtue. And every honorable man is this. The standard of manhood should be just as high as it is for womanhood.

Almighty God never intended there should be two codes of morals. Sin is the same whether committed by man or woman, and it is human custom that has decreed woman shall sin and suffer while man shall be permitted to go ahead and sin some more.

C. K. Bell, candidate for governor, touches upon the prohibition question and defines his views very clearly. The candidates for governor are evidently afraid the prohibition question will be made an issue in this campaign, but Mr. Bell meets the issue squarely, and it is said the others have the same opinion.

Judge Bell has never hesitated to express himself fully upon every public question, and his views publicly announced have met with the unqualified approval of the people of this state.

PUBLIC OPINION

The Richmond (Va.) Times-Dispatch pleads that it is time for the Richmond schools to have a public library. (It is surprising that they have not.)

England, although more of a plodder than we are, can give us some lessons in this phase of education.

The New Orleans Times-Democrat, discussing the situation of the rate bill placed in Senator Tillman's hands, thinks he will probably disappoint those that attempted to dull the arrows of his invective by putting him in this position.

The Washington Star discusses "Hearst and 1908" soberly. He will have to be reckoned with on a different basis from that of two years ago; that he has a considerable following now, and that carrying grist to his mill is hardly the proper thing for republicans.

Will the republicans hand him a plank in the shape of an amended Chinese exclusion law, which in its enforcement will increase the smuggling of coolies into this country? Nothing would please him better.

THE TRUTH ABOUT ADVERTISING

There is no good thing in this world that is not misused, and this is as true of advertising as of anything else. The temptation to "stretch things" in telling a story of business—which is truly what an advertisement is—is as strong as in telling an ordinary yarn, and this leads to untruth and deception.

A single business man in a town who brazenly disregards setting forth exact facts in his advertising may easily spoil the value of advertising to all the rest and to the newspapers as well, so that it would be a splendid law if it could be made an indictable offense for a dealer to make any statement in print not easily substantiated.

No town ever amounts to much without one or more good newspapers to tell the stories of business. This can be set down as indisputable. The advertisement of a newspaper, therefore, often marks the beginning of a town's business prosperity and general awakening.

There is no good thing in this world that is not misused, and this is as true of advertising as of anything else. The temptation to "stretch things" in telling a story of business—which is truly what an advertisement is—is as strong as in telling an ordinary yarn, and this leads to untruth and deception.

marks the beginning of a town's business prosperity and general awakening, but it is doubtful whether the newspaper is given this credit. It is often true that a non-advertiser in a live town does a good business—it is very natural that he should—but the credit is not due to himself or to his not advertising, but to those who do spend their cash liberally with the newspapers and bring the tide of people to the place to trade.

The sum of the whole question is, therefore, that public-spirited and discerning people should support advertising firms and at the same time insist on their telling the truth. If the people like to be deceived—and some appear to—they are apt to be accommodated, but if merchants know that their announcements are criticized and that their untruthfulness reacts on their business no other incentive toward reformation is needed.

The people can if they wish compel truthful stories of business to be told and thereby raise the value of advertising to everybody—the merchant, the newspaper, the town and the community in general.

THE PAIN AND THE PERIL

When the kidneys are sick, every sudden twist or movement sends a sharp pain coursing through the back. As the trouble gains ground, the pain strikes you first in one place, then in another, until you never know when or where it will coming. It clogs the kidneys themselves, and the urinary channels, causing distressing urinary troubles, dizziness, and Bright's disease. It also crystallizes into gravel, stones in the kidneys and sediment in the urine; it disturbs the action of the heart, liver, stomach, and brain, causes headaches, dizzy spells, dimness of eyesight, nervousness, depression, languor. Colds and changes of weather make these troubles worse.

Backache, rheumatic pain, sciatica, gout and lumbago are brought on in most cases by an excess in the blood of uric acid, a dangerous poison that should be filtered off by the kidneys, and expelled with the urine. Uric acid poisoning is a serious danger. It has a weakening and debilitating effect on every organ of the body. It clogs the kidneys themselves, and the urinary channels, causing distressing urinary troubles, dizziness, and Bright's disease. It also crystallizes into gravel, stones in the kidneys and sediment in the urine; it disturbs the action of the heart, liver, stomach, and brain, causes headaches, dizzy spells, dimness of eyesight, nervousness, depression, languor. Colds and changes of weather make these troubles worse.

FIFTEEN BOTTLES WITH NO JAG Girl Makes Statement at Investigation. Proof by test that fifteen bottles of Teetotal is not sufficient to cause intoxication has led to decision by city authorities that the beverage may be sold in places of theatrical entertainment without constituting a violation of the ordinance recently passed regarding sale of intoxicants at such places. At the Star Theater they are now drinking soft drinks, according to the report of Assistant City Attorney Parker, who has been making investigations. Teetotal is the name of the drink and Mr. Parker states that he had it analyzed and that it contained less than 1/2 of 1 per cent alcohol and that he considered it non-intoxicating. One girl testified during the investigation that she had drunk fifteen bottles of it without becoming intoxicated. Judge Prewett of the corporation court also believes that it is non-intoxicating.

S.S.S. THE BLOOD DISEASED - SYSTEM DISORDERED. When a Sore or Ulcer is slow in healing it is the best evidence of a diseased condition of the blood and a disordered system. They show that the bodily impurities, which should pass off through the natural channels of nature, are being retained in the system from some cause. The blood absorbing the waste matters becomes steeped in poison which finds an outlet through the Sore or Ulcer, keeping it inflamed, painful and festering. As the blood constantly discharges its poison into these places, they eat deeper into the surrounding flesh and tissues, growing larger and more offensive in spite of all the sufferer can do, until the entire health is affected. Washes, salves, powders and such treatment are desirable for the reason that they are cleansing and also help to relieve the pain, but they are in no way curative. The blood is filled with poison, and until it is removed the sore cannot heal. S. S. S. is the only cure for these evidences of Impure Blood. It goes down to the root of the trouble and cleanses the circulation of all poisons and impurities. S. S. S. enriches the blood and reinvigorates the different members of the body so that the impurities and waste matters can pass off as nature intended. Then the discharge ceases, the sore scars over, new flesh is formed, and the place heals permanently. Book on Sores and Ulcers and any medical advice you need without charge. MAN MUST WORK

City Recorder Imposing Maximum Vagrancy Fines. The maximum penalty for vagrancy, a fine of \$10, was assessed against D. McMillan, about 35 years of age, in the corporation court Wednesday morning. McMillan plead guilty to the charge but stated that he had been waiting to go to work for the Arlington Heights Traction Company in the "back street" railroad. Asked how long it had been since he had worked any he told the court that it had been over a year, stating that he had been in bad health a portion of the time. The maximum penalty has been assessed against vagrants several times of late, and where the offender is able bodied and without excuse for being out of work it is beginning to be the rule to give him the limit. J. K. Rosson Looks for Modification of 28-Hour Law. J. K. Rosson has just returned from a visit to Big Springs and that vicinity and reports everything in fine fettle. Grass is good and cattle coming ahead fast. Farmers are getting ahead with their work and will put in large crops of feed stuff. It is a little dry, but not enough to be a cause for not working. It is beginning to be the rule to give him the limit.

STATE SHOOT DURING APRIL

Fort Worth to Be Well Represented. Notice has been received here of a state shoot to be held in Austin, April 23, 24, 25 and 26. This is the state shoot of the Texas State Sportsman's Association, and will be held under the auspices of the Austin Gun Club. Wallace R. Miller will manage the tournament. Arrangements are being made by several of the local sportsmen to attend the shoot and enter the events. There will be a shoot held Friday at Prospect Park, by some of the local sportsmen, and at this time it is likely a team will be chosen to represent this city. The Austin Gun Club and its friends in the capital city have announced that it will have \$5,000 or more added to their fund for the year. Shooters will be handicapped from fourteen to nineteen yards, according to their ability, professionals shooting for targets only, and the club has announced that the program will be arranged to favor the poorer shooter. The per centage system is in general use, and it is generally admitted that this is the better system of division for the younger shooter. Under this system they have a chance to "scratch" in the straight and win enough in one event to pay their entire entrance for the day. One day of the shoot will be devoted to live bird shooting, and there will be a number of ten and fifteen target events on the program. This will enable the 75 and 80 per cent shooters to make good records, while in 20 and 25 bird events they might be unable to hold out for a such a long string. Targets will be thrown not over 45 yards. Arrangements will be perfected to get excursion rates from all points in Texas to the shoot.

MERCHANT RATE TO BE REPEATED

First Excursions Prove Great Success VISITORS ARE SURPRISED Movement to Increase Wholesale Trade of City Exceeds Expectations of Those in Charge of Matter. Thursday will be the last day of the special merchants' rates of one and a fifth fare for the round trip. When seen this morning Manager Love of the Fort Worth sample room declared himself perfectly satisfied with the results of the excursion. Although there were not enough merchants secured to get the number demanded by the railroads, the exempt company from refunding the discount, there were more than expected, no hope being entertained that the required number would be secured for the first excursion. "We are well satisfied with matters as they are as we have brought a large number of merchants to the city who had already purchased their stock in this city before," said Mr. Love. "A number have been here who have not been in the city for ten years and they were greatly surprised by the growth of the city. We also had a large number of calls from merchants who had already purchased their stock of goods, but who wished to see what we could offer them and they all stated that they would come back to Fort Worth and there were more than the other merchants in the city on their next order. "We will have another excursion the first ten days in May probably and we will then have enough time to advertise the matter thoroughly. "Altogether there have been about sixty merchants in the city to buy from the wholesalers here. We have refused to sign tickets allowing cheap return fare for the excursion. The long soliloquies found in "Macbeth" were rendered in a manner that is seldom heard on the stage here. The dagger soliloquy of Macbeth just before the murder of Duncan, as given by Mr. Hermann was as fine a piece of reading as a Fort Worth audience has heard in many a day. A Texan in the troupe was Hugh Bower Keel, son of the president of the Texas Grain Dealers' Association of Gainesville, who took minor parts, this being his first appearance on the stage. The year's have dealt kindly with Modjeska's voice, one of the most wonderful ever heard on the American stage. Fort Worth theatergoers will remember kindly her last appearance here, if as has been announced, it is to be the last. But if Modjeska fails to return, Shakespearean lovers will again gladly welcome Charles D. Hermann, who is deservedly sharing honors with the star on this present tour.

AMUSEMENTS

The rainy weather undoubtedly kept a large number of people from Greenville's opera house Tuesday night, which resulted in their missing the best tragedy that has been presented here this season. Madame Modjeska and her company were presented by Charles D. Hermann. The long soliloquies found in "Macbeth" were rendered in a manner that is seldom heard on the stage here. BROWN IN TOWN

The clever satirical comedy by Mark E. Swan, "Brown in Town," will play at Greenville's opera house Saturday matinee and night, March 10. The plot is well known and deals with the desire of a young man to see his marriage a secret from his father. The management promises something new in the way of some excellent vaudeville specialties and a company which includes well known farceurs. Matinee prices, adults 25c, children 15c. Night prices, 15c, 25c, 35c and 50c.

THE MAJESTIC

There is a touch of comedy throughout the highly dramatic one-act play, "It Might Have Been," which Miss Jane Courthope and Mr. Forrester are presenting at the Majestic theater this week. And Miss Courthope gives the "touch," even while she gives the emotional scenes. "The story is that of an actress, a popular favorite whose rendition of "Macbeth" has won her a large following. Of course, that never really happens in New York, where the only queens of the stage, the real dazzling kind, are comic opera sopranos; but it sounds good in a story. Among the devotees is a young millionaire, whose fond mother discovers his infatuation and implores the actress, whom she has met at charity performances and "cut on all other occasions, to leave her son alone. The actress promises—and the young man appears to upset the match. To distinguish him, the actress assumes the role of a slang-sling, cigarette-smoking, conventionally-defying person; drinking champagne at an unseemly hour, telling of the uproarious times she has had, and expressing the fearful "rockiness" she feels. The comedy work done by Miss Courthope during these moments is clever.

HAMILTON RETURNS Former Legal Representative of New York Life Ready to Talk

NEW YORK, March 7.—Andrew Hamilton returned to New York today on the steamer Deutschland, on which he was registered under the name of W. Milton. Mr. Hamilton was at the head of the legislative bureau of the New York Life Insurance Company and had charge of the legislative work for several of the large companies.

To obtain an accounting from him of monies alleged to have been advanced to him by the late John C. McCall as president of the New York Life, John C. McCall, secretary of the company, went to Paris recently. The accounting was asked for by the Fowler committee, which is investigating the New York Life's affairs. Mr. Hamilton's statement was also placed before the legislative investigating committee. Explaining the cause for his return to the United States, Mr. Hamilton said today:

"I heard something about criminal proceedings and here I am." Commenting today upon Mr. McCall's death, Mr. Hamilton said that he gave the former president of the New York Life vouchers. Mr. McCall could have given a certificate of undisputed character. He said that he registered under an assumed name on the Deutschland in order to have his return voyage free from annoyance.

Three little rules we all should keep. To make life happy and bright, Smile in the morning, smile at noon, Take Rocky Mountain Tea in at night. —J. P. Brashear.

Dr. Tichenor's ANTISEPTIC

Dr. Tichenor's Antiseptic stops stinging sensations and chafing of skin after close shaving. Prevents "chapping" of face in cold weather. Stops bleeding from razor cuts at once, and prevents soreness afterwards.

Wash face and dry thoroughly, dampen corner of towel with Antiseptic and rub the face briskly until dry. For cuts or scratches simply bathe the injured spot with Antiseptic.

"Ask Any One Who Has Ever Used It."

On Sale at all Druggists, 25c, 50c and \$1.00 per Bottle.

GRAND JURY HAD TO REORGANIZE

Waxahachie Body Deliberated a Week in Vain

Special to The Telegram.

WAXAHACHIE, Texas, March 7.—Something of a sensation was created in court circles when the fact became known that the grand jury, which had been deliberating one week, had been illegally organized and that any business transacted by that body would be nullified. The trouble was caused by the acceptance of a juror who was not a qualified voter. The juror in question owns considerable property in Ellis county, but had moved to Venus a few months ago to send his children to school. Recently he returned to his farm in this county with his family and was under the impression that he had not been disqualified as a voter. When the matter was submitted to Judge Dillard he ruled that the grand jury was irregular and ordered the body reorganized.

Colonel R. H. Connolly of this city was selected to take the place of the disqualified jurors. No bills of indictment were returned prior to the discovery of the irregularity.

All the grand jury ballots were called in to have the oath administered to them again.

10c FOR A BED

Houston Establishment Also Gives Eye Opener in Morning

HOUSTON, Texas, March 7.—So far as the price of a bed is concerned, no man in Houston ought to lose sleep. In addition to the ordinary run of hotels and lodging houses all the way from cheap to high grade, there is a philanthropic establishment on Milam street which advertises:

"Cheapest Sleep in Texas. Beds 10 Cents and an Eye-Opener in the Morning. Ten cents for a bed and a drink! Cheap enough for Russell Sage or Hetty Green. As an insomnia cure it might be practicable to reverse the present order and give the patron his drink before he goes to bed, for the chances are that the drink would put 'mos anybody to sleep. As if to add a soporific influence to the place, a melodiously bellow negro walked by that way yesterday afternoon, loudly strumming on a guitar: "Please go 'wa and let me sleep."

Varsity at Practice

Outlook Good for Winning Team at Austin

AUSTIN, Texas, March 7.—Baseball practice at the university has started and an unusually large number of candidates are out for the 'varsity line. Prospects for a winning team seem very bright.

Last year's graduates cut into the Texas battery very materially. Ned Shands, pitcher; Albert Singleton, pitcher; and Walter Vann, catcher, not

being back this year. Pat Nixon in the outfit, Robert Beasley and Bob Edwards, infielders, also are not in the university this year. Of last year's team are left Manny Graham, pitcher; "Tab" Townsend, Captain Francis, catcher; and veteran left fielder, "Sleepy" Robertson, last year's captain; Louis Jacoby, the star third baseman; and MagMahon, last year's utility man. To fill in the gap left by graduation are a number of first-year candidates: Mike Hogg, Graves Stinson, Wathen, Robertson, Bell, Sears and a number of others who are showing up well.

Manager Myer has found difficulty in arranging a satisfactory schedule on account of being hampered by the athletic council in starting negotiations with other universities, and by the faculty's limiting the time to be consumed in the team's trip to two weeks. The team will play the Agricultural and Mechanical College at College Station, April 28 and 29; Louisiana State University at Baton Rouge, La., May 1 and 2; Austin league team at Austin, May 13, 14 and 20.

Negotiations are also pending with Kansas, Haskell Indians, Tulane, Mississippi, Baylor, T. C. U. and St. Edwards.

BIG SPRINGS ICE, WAR NOW ENDED

Two Rival Concerns Effect a Consolidation

Special to The Telegram.

BIG SPRINGS, Texas, March 7.—Big Springs ice to have but one ice manufactory. A deal has been made which consolidates the two plants. The concrete building which was being erected by the Big Springs Ice and Manufacturing Company will be enlarged and the machinery which was ordered by the plant will be installed.

An engineer has arrived to superintend the placing of the machinery. The stock holders of the consolidated plant will be composed of the men who were interested in each plant. The plans for the new plant call for an expenditure of about \$300,000. The machinery which was bought by the Big Springs Ice Company will be sold. There is now no possibility of having an ice war the coming season.

A stock show will be held here March 12, and much interest in being manifested. Most of the stockmen in this vicinity are breeders of fine stock and some fine cattle, horses and mules will be on exhibition.

District court convenes here March 12. Prospectors continue to arrive and many real estate transfers are the result.

The Civic League has purchased three acres of land to be used as a dumping ground and the city will now be given a thorough cleaning up. An effort is being made to secure the location of the proposed Methodist college in this town.

J. A. Mangun of Odessa, who was confined in the county jail here, made his escape by sawing the door. He was to be held by the district court on a charge of forgery, there being two cases against him.

Want New Road

The citizens have raised a subscription to over \$55,000 of bonds and the right of way through the county and are awaiting the arrival of a representative of the West Texas and Northern railroad to offer this as an inducement for the road to build into Big Springs and locate its shops and general offices here.

Six hundred and fifty feet of new hose has been ordered for the volunteer fire company. The Sanitarium here has been opened and a number of patients are now there for treatment.

The Husbos building is being rushed to completion in order that the firm of Gary & Burns of Midland may open its business here. They will open for business some time this month. Mitchell & Park, druggists and jewelers, are now agents for The Telegram.

PAT CARROLL SHOT

San Saba Man Killed in Saloon—Constable Surrenders

SAN SABA, Texas, March 7.—Pat Carroll, a well known citizen of this place, was shot and instantly killed in a saloon here and Cal Woodward, a constable, surrendered to the officers. Witnesses of the affair say that the constable was endeavoring to get Carroll to go home. Carroll had a rifle and it is said that in the scuffle it was discharged. Immediately there were several other shots fired, whether by the constable or other parties is not known. Two bullets passed through Carroll's body. Woodward had two bullet holes through his hat.

ANOTHER TEXAS LANDMARK GONE

Ricardo C. De Zavala Buried Near Lynchburg, Texas

Special to The Telegram.

HOUSTON, Texas, March 7.—At the family home near Lynchburg, the funeral services over Ricardo C. De Zavala marks the passing of one of the links that bound the present to the beloved memories of the Alamo and San Jacinto, he being the son of the patriot De Zavala, who renounced his allegiance to Mexico and took up the battle of Texas when the old patriots were striving to throw off the yoke of that country.

Ricardo C. De Zavala came to Texas with his parents when an infant in arms and continued his residence in the Lone Star state until the time of his death. He was three times married and is survived by a number of children who revere his memory. His first wife was Miss Minnie Wastick and one son, Ricardo, by this union, now resides in Louisiana. His second wife was Miss Emily Smith, and several children were born to them of which Mrs. Ernie McMillan of Lynchburg is one. His third union was with Mrs. Fuller, whose death occurred some two years ago.

Ricardo De Zavala suffered two strokes of paralysis prior to his death and this affected his eyesight and forced him into retirement and caused him to remain rather closely to his home, but prior to that time he had been active in the affairs of the county and of his neighborhood. He served with distinction in the Confederate armies during the civil war and lived a life active and useful. His occupation was a ship carpenter. He was seized with the fatal stroke of paralysis about 6 o'clock last Saturday morning, and although Dr. Griffith was hastily summoned from La Porte, medical aid was unavailing to stay the ebbing life. Several of the children of the old veteran were at his side when the end came.

Oil Near San Antonio

Well Located at Schertz Station, on Southern Pacific

SAN ANTONIO, Texas, March 7.—Considerable excitement has been caused here by the bringing in of a seven-barrel crude oil well at Schertz, a station of the Southern Pacific railroad, twelve miles east of San Antonio. The grade of oil which is flowing is said to be the equal in every way of that found in the Beaumont and Sour Lake oil fields and a boom in the real estate of that section promises to follow.

For several years indications of oil have been frequently reported as having been present well. Several of the springs in the vicinity have been frequently covered with oil and this fact started an investigation.

The present well is the first one sunk and the fact that at a moderate depth it shows a daily flow of several barrels is considered to indicate that the field may develop into a very valuable one.

Other wells will be sunk at once to develop the extent of the field and the work on the present well will be continued to a greater depth to see if a second strata will be brought in.

This is the well which was erroneously reported as having been brought in on Alamo Heights.

UNIVERSITY OFFER BEST NET RECEIVED

Citizens Endorse Plan for Improvements

GOOD INVESTMENT

Outlay Will Be Returned Many Times in the Future Declares Supporter

Leaders in all branches of activity in Fort Worth have now become thoroughly aroused to the benefit to the city offered by proposed donation of \$15,000 to Fort Worth University upon the raising of a similar amount locally and are giving their money and time in furthering the proposition.

That the offer is the best of the many opportunities ever given Fort Worth is the declaration of one citizen. Others join in similar endorsement. Some of the expressions made are:

A Good Investment

W. M. Short—The Fort Worth University has always stood high among the institutions of learning in Texas and its graduates start out in life well equipped for the great battle; they compare favorably with the graduates of any college in the south. Such an institution located in any city is of vast benefit to that city.

The Fort Worth University has now reached a point where it needs help to increase its usefulness and any money donated to it by our people will be a high-class and good investment. The university has been conducted in the past with but little help from Fort Worth and it really deserves more than has been given it. It is a great and paying advertisement to the city to have such an institution located here. The better our institutions the more valuable our property holdings will be; besides a high class institution of learning such as Fort Worth University is creates an atmosphere of refinement that can be created by no other cause.

For these and other good reasons I heartily endorse the proposition for the people of this city to raise a fund of \$15,000 to supplement a like fund from the state. Money contributed to such a cause is education is money more beneficial even than it is now. I believe the people of Fort Worth will give the money and by so doing sustain their reputation for enterprise and enlightenment.

Opportunity Knocks

William Bryce—Fort Worth has now an opportunity to get a great benefit at a comparatively small cost and should not let the opportunity go by without taking advantage of it. By subscribing \$15,000 to the university fund, \$15,000 already being guaranteed by Fort Worth will raise a like amount, improvements on the institution will be made that will put it abreast of any educational institution in the south. I endorse the proposition to subscribe the \$15,000 heartily, and have cheerfully subscribed to the fund, and I regard it as one of the best investments I ever made. An institution such as the Fort Worth University is of incalculable benefit to any city in which it is located. Good educational

facilities and advantages are always big advertisements to a city, and such a proposition as is made in this instance should be accepted by our people without hesitation. There ought to be no trouble in securing the amount necessary in order that the improvements needed by the university may be made.

Favored by Alderman

Q. T. Moreland—I am decidedly in favor of Fort Worth subscribing \$15,000 to the university fund in order that needed improvements may be made.

Fort Worth University is one of the recognized institutions of Fort Worth, and not only of Fort Worth but of north and west Texas. In its career it has graduated many men and women who have come to be splendid citizens. The morale of the university teaching has always been excellent and dignified and it has accomplished much against great odds. It has been hampered from the very start in one way and another, and especially by lack of funds. It now has an opportunity to secure a large sum of money from an outside source, the only condition being that a like sum be raised by Fort Worth. Quite an amount of the local fund, I understand, has already been pledged and the balance should be pledged without delay. The city of Fort Worth cannot afford to let this opportunity pass. Money put in schools as well as in churches in Texas is a good investment for purely commercial holdings. If the schools and churches could, or should be removed from the rate of 10 per cent a month would immediately decline, and go down at the rate of 10 per cent a year, therefore a donation to such a valuable institution subserves various good purposes.

The people of Fort Worth are always neglected upon any good thing and sometimes for two or three things at once, still I cannot see that they have lost or are losing anything by the university for the city is growing at a marvelous rate, and where good fortune and prosperity are, generosity and liberality should be equally great.

University Helps City

Phil W. Greenwald—Education is the lever that moves the world and too much cannot be done to increase its power. Money contributed to advance the cause of education is money contributed to the betterment of the world and I heartily endorse any proposition that has for its object the advancement of the university. Fort Worth University is one of the city's greatest benefits and the proposition that our people subscribe \$15,000 in order to help enlarge the institution's usefulness is full of merit and should be accepted by our people and the money raised. Fort Worth has long neglected any good thing and this being one of the best ever offered it I am satisfied Fort Worth people will do their duty as they always have done.

Fort Worth University has done much to advertise the city; has done much to enhance property values and has furnished graduates who will make the world better for their having lived in it, all because of the training received by them in this school. This work should not end without the full amount needed for the best improvements at the university being raised. It will be money that will be returned ten fold to the city hereafter.

COMMISSION SUCCESS IF MEN ARE RIGHT

Publication in The Telegram of details connected with the operation of the suggested form of government for Galveston has led to the suggestion that Fort Worth seeks a charter amendment from the next legislature, permit him to operate in the city. This has excited some discussion among business men. Some there are who unreservedly favor the commission, but others object to the approval with qualifications.

If the proposition carries with it a salary of not more than \$1,000, for each of the suggested commissioners, there is a doubt of the possibility of getting the quality of men essential to the success of the scheme. The experiences of Memphis, Tenn., and Galveston have had great weight in determining the views of some and, while they recognize the fact that the conditions are different here and there, it is not unlikely, in the opinion of some of the citizens, that the commission idea is one of the best.

Good Men Necessary

One of the most pronounced in his opinions is Major K. M. Van Zandt. Living for a part of the time at least, in Galveston, where the commission was a taxing district, he learned much of the workings of the commission, charged with the administration of the city affairs, and also visited Memphis, where he gleaned more from his own observations. Having some intimate friends on the Galveston commission he has learned down their work something of the merits of the commission for the administration of municipal affairs. And so, in a general way, he is a firm commission man and yet he qualifies that by saying that there is an absolute necessity for the election or appointment of good men to the positions or the whole project means a failure. His observations, and what has been told to him, convinces him that the commission mode of city government is a measure of economy.

He knows it is an old saying, even if true, that 'too many cooks spoil the broth,' and, in my opinion, three good men could better manage the affairs of the city than a commission. But you must have the right men to achieve success.

L. H. Sargent in a general way favors the commission idea, and is inclined to think the success of the administration of the civic business of

Galveston under the commission has something and maybe much, to do with his own experience. He says that if three men, say like Major Van Zandt, Judge Beckham and Judge Seth Stewart, could be constituted into a commission, he felt assured that would work satisfactorily, and be the means of saving much money which could go to the improvement of the city streets and for other desirable purposes.

Business Tact Needed

J. C. Lord rather favored the commission idea, always, provided the proper kind of men for the commissioners could be had and induced to serve. The men, he thought, should be honest, safe, conservative in some things and yet broad enough to be properly progressive. Such men would bring to the management of the city affairs the kind of business tact that the large corporations use, buying the best goods needed for the use of the city at the lowest possible price. That kind of business sense with everything cut to the quick in the way of true economy, not niggardliness, and it would not be long before the city would be freed from debt.

Jake Washer said: "I do not know enough about the suggested commission to express an opinion other than this. It works well in Galveston and seems to be all right in Dallas, though the commission work there is of a different type. I cannot see any reason why it should not work well here."

Sam Miller is opposed to the whole thing. He says we are doing fairly well, and why not let well enough alone?

Not Like Galveston

T. P. Fenelon thought the subject one for serious consideration. Because of the peculiar conditions which came of the great storm of 1900, the commission was a success at Galveston, there is no reason why under any other conditions it should be successful here that the same type of commission for the city government should be a success in Fort Worth.

L. Foster did not know the type of commission desired by those who advocate the idea and while he is convinced that if the proper men can be had to execute it it would be a movement for the welfare of the city, he is convinced that it is out of the question to expect anyone, capable of doing the work, to be content with nothing or for a mere pittance. Good men were worth their pay and if efficiency is to be had the compensation must be commensurate with the work expected of the laborer.

George Ross, postmaster at Hancock, Texas, who was appointed by a public administration, is a county commissioner elected as a democrat, a justice of the peace elected as an independent, and a school trustee for the precinct.

EASTER HUNT FOR GLENWOOD

Eggs to Be Hidden at Tyler Lake This Year

Fort Worth will have two Easter egg hunts this year instead of one. The one will be given in city park as usual while the second will be in the grounds around Tyler's lake, Glenwood. The hunt at the city park for the past two years has been conducted by the Glenwood Methodist church, but this year the park was secured earlier by the women of another Methodist church before they had handed in their application.

As they could not get the city park grounds and now will give their annual hunt there. It has not been determined as yet whether the time of the two hunts will conflict or not, but it is likely that arrangements will be made so that they can be given at different times in order that the children may have the chance to attend both if they wish.

W. E. Williams and Miss Bessie Barkley of Glenwood were married Sunday and left for their future home at Shawnee, O. T., Tuesday morning. Miss Emma Lee Curry of Saratoga is visiting the family of W. T. Mayfield in Edwards street.

Mrs. Ash of Crescent street, who has been ill for some time, is reported as much better.
