## MAN RESCUED IS **RAVING MANIAC**

### Two Hours in Tunnel Causes Loss of Mind

CHICAGO, Ill., May 1.-A dispatch to the Record-Herald from Milwaukee,

Imprisoned in a compartment of the partially constructed tunnel under the river through a break in which water was pouring, John Slater stood for two hours yesterday, watching the water rise slowly until it threatened to engulf him. When at last he was rescued he was a maniac, his mind having given way from fright. Peeping through a bullseye in the

compartment, his companions saw him in his plight and for a long time were unable to help him. Leads from the fire boats were let down in the tunnel and the engines were worked at a furious pace to pump out the water while the resoue work

In spite of everything that could be done, the water rose steadily above Slater's waist to his armpits and finally to his neck. Fifteen minutes later he would have been drowned. Barely in time to prevent this, however, the firemen succeeded in opening the door and took Slater, insane and benumbed with cold, to a hospital.

### SPRINGS START AGAIN

Vesuvius Eruption and Earthquake Held Responsible

CHEYENNE, Wyo., May 1 .- The state board of charities and reforms, which controls the Thermopolis hot springs reservation, has been notified of a phenomenon there which is believed to have been connected with the recent activity of Vesuvius. Fifteen years, ago one of the largest of the Thermopolis thermal springs, which an enormous volume of water has been gushing since time immemorial, suddenly ceased to flow, and until recently was believed to have become extinct. On the same day that Vesuvius became active water burst from this spring, and has since been flowing in uninterrupted volume. The recurrence of the flow from the supposedly extinct spring can be accounted only on the theory that the same great internal disturbance that caused the eruption of Vesuvius, and probably the California earthquake, exercised an influence on the source of the Thermopolis springs.

### ARMY PLANS A **NOVEL FEATURE**

# Figure of Cross to Be Formed

on Stage

NEW YORK, May 1 .- The Salvation Army has arranged the biggest meeting it has ever given outside of London for Sunday evening, May 13, at the hippodrome, for the benefit of the San Francisco sufferers. This will be a part of its twenty-sixth armiversary congress, which will be held from Friday, May 11, to Wednesday, May 16, inclusive. Commander Evangeline Booth will conduct the big meeting and in it will sing the "Song of Love and Tell the Story of the Broken Heart." This has been done before, but will be much extended for the big meeting. A living cross will be formed as Miss Booth sings and 260 women, wearing white, will come on the stage at intervals and arrange themselves in the form of a cross. They will be followed by army men in red uniforms, who will outline the cross, and they in turn will be followed by army officers in their dark uniforms, who will form an outer line around the cross.

Sunday afternoon a big open air meeting, at which the whole local army will be present, will be held in Brooklyn. Monday, May 14, at 3 o'clock, the big new slum settlement house of the army will be opened. The congress will close Wednesday afternoon with a tea to the provincial officers.

### TWINS ARE BORN ON THE STREET

Bachelor and Two Old Maids Aid Mother

### Special to The Telegram PHILADELPHIA, Penn., May 1.-

Two little boys destined to bear the suggestively spring name of Koslip (cowslip) came into the world most unexpectedly on Fourth street, above After recovering from what seemed

merely momentary prostration, no one appeared to be less surprised over the occurrence than the mother, Mary Ann, who, although possessing a good American Christian name, is a native of Poland. To be sure she did not expect manifold blessings, but she accepted the situation like a true philosopher. By one of life's little wayside ironies it remained for an old bachelor and two old maids to render the first aid. Inexperienced though they were, they, too, proved themselves the possessors of philosophic spirit of a most prac-tical kind. They helped the mother into a near-by house from which she presently walked to the patrol wagon that took her and the little ones to the Philadelphia hospital.

"I will name one of the boys after you," said the sturdy matron, in broken English, to the bachelor-benefactor, as they parted, "and the other after the names of your husbands," she added to the maiden missionaries. Thus it is that while the first of the youngsters has a name, the other still stands in need of one. Mrs. Koslip and the twins are doing

### INTERCHURCHMEN PLEAD EDUCATION

### Body Said to Be That of Nova | Propose That Children Attend Church on Wedesdays

By Associated Press. NEW YORK, May 1.-4 Catholic priest, a Jewish rabbi and priestatives of six Protestant denominations united in a meeting last night to plead for a more thorough religious education of children. The movement had its inception at the interchurch convention last fall. It is proposed that the public schools shall so arrange the schedule of studies that subjects of no special importance shall come on Wednesday afternoons and that such children whose parents desire it shall be free to go to the church of their choice and receive religious instruction without loss of time from

Rev. Anson Atterburg presided. Father McMillin said in part: "To us it is visionary that there can be morality without religion. The method suggested will help us to get rid of that pernicious idea that religion is for Sunday alone and has no place in

the business day." Coadjutor Bishop Greer said: "I am a strong and staunch believer in the public schools. I want them pretty much as they are and for what they stand. They do that which they aim to do, and do it fairly well This is good as far as it goes, but it does not go far enough. There must be moral and religious training. That is more than a religious influence. In the last analysis, moral training rests on religious training. If the seductive evils of our modern life are to be met as they should be met, something more is necessary than the training that is given by a secular education. ### Cole to Return Home at Hingham, Massachusetts

GREENFIELD, Mass., May 1 .-Charles H. Cole, former president of the Globe National Bank of Boston and once a prominent financial leader of that city, was released from the Greenfield jail last night after serving fourteen days less than six years in the institution for the misappropriation of the bank's funds, He left at once for Boston and will return to his former home at Hingham, Mass. Cole's conviction followed a series of financial disturbances in Boston dur-

ing the latter part of December, 1899. The business situation was seriously unsettled by the failure Dec. 15 of the John P. Squire & Co. (corporation) pork packers, for \$3,000,000 and the closing of the Broadway National Bank the following morning. The Squire cor-poration had a large amount of paper in the Globe National Bank and heavy withdrawals followed the packers' failure. The Globe bank failed Dec. 21. Cole, whose health became impaired, had gone to Los Angeles, Cal., after resigning his position as president of the bank in the fall of 1899. He was arrested in California, charged with misappropriating \$900,000. April 14 he pleaded guilty to three of the counts of an indictment.

### ROAD HAS BIG PASSENGER GAIN

### Cotton Belt Monthly Report for City Issued

One hundred per cent increase in passenger receipts for the past month over receipts for April a year ago is the report made by the local Cotton Belt ticket office by J. A. Rounsaville,

city passenger agent. This road alone had finished its monthly report Tuesday morning, all other lines, however, reporting that their figures when completed will show substantial gains over last year. A number estimate the total increase be-

tween 30 and 40 per cent. The hundred per cent increase given by the Cotton Belt, though, being an unusual incident in the railroad business of the city is not unprecedented, the International and Great Northern having last year presented a yearly increase equaling that percentage. Passenger business, however, is in unusually good condition with pros-

Frisce to Build

Report received in this city that the Frisco is to build to a Rock Island connection from Carrollton and enter Dallas in this way cannot be confirmed in this city, W. H. Drake, vice president and general superintendent, being at Sherman. It is known, however, that a line has been run from Carrollton as indicated. This, however, in view of railroad history, does not spell the construction.

pects for continuance through the sum-

According to report the Frisco, which now uses the Cotton Belt and Texas and Pacific tracks to Carrollton from Fort Worth, will abandon this plan, building to a connection with the Rock Island between Fort Worth and

### Storms in Territory

Reports received at general offices of the Rock Island Tuesday morning show heavy windstorms in the territory Monday afternoon, which seriously crippled telegraph service. It was reported, however, that all damage has been repaired as has been the track washed out near Red River, service being now maintained as usual.

### To Repair Here

The large outfit of the Nelson construction company has been brought to this city for repair at the Fort Worth Machinery and Foundry company and will be thoroughly overhaul-The outfit is one of the most impor-

tant in this part of the state and includes a number of engines and full grading equipment.

### New Official Here

C. O. Jackson, southwestern passenger agent of the Frisco, with headquarters at Dallas, is temporarily both of the passenger department of the road here, being in charge of the general passenger department during the temporary absence of C. W. Strain and F. M. McClure.

### Stock Movement Over

The spring movement of Texas stock cattle to the territories is about over and it is only now and then that a train load from the south and west passes through. The haul this year has not been so large as in some years past, but has been very good. The movement up to this time has been more than usually satisfactory and successful, not an accident to a cattle train having been reported.

### APPLICATIONS FILED Several Seek Place As City School Su-

Several applications have been filed with the school board pending the election by that body of a superintendent for the Fort Worth schools. Interest in election of the new board, scheduled for Thursday afternoon, is largely connected with the choice which the new board will make.

Among those who have filed application for the superintendency is Charles Pierson, who has just returned from the Philippines, where he was a divisional superintendent under General Luke Wright.

Professor Pierson is 40 years of age, a graduate of Leland Stanford University and has been in educational work over twenty years. He did scientific work for Leland Stanford University in South American three years and also made a scientific collection of fishes from the Philippine waters for the World's fair.

Found Not Guilty of Violating New

Theater Ordinance For the first time since the beginning of the De Beque cases, the jury in the case tried Tuesday morning before Judge Prewett in the corporation court returned a verdict of not guilty. The jury was out about fifteen minutes. There are still four cases on the docket which have not been tried. As the situation stands, De Beque has fined a total of \$200 on a charge of conducting a bar on the premises of the Standard theater. All of these cases have been appealed to the counciles for 27 years. Price 50 cents.

### Cooper Makes Unusual Claims. Cures Deafness

Special to The Telegram. ST. LOUIS, April 30 .- L. T. Cooper, or the "Great Cooper" as he is called, was seen in his hotel this morning by a reporter, and proved to be a comparatively young man as he is little

Mr. Cooper is the man who is said to have created a sensation in eastern cities by his extensive charitable work and the enormous sale of two preparations of which he is the owner. While talking his face lights up with a smile, almost boyish in its expression, and he seems very young to have acquired the enormous fortune he is said to possess. When asked about his plans for his visit to St. Louis, he saids:

"I shall remain in this city about four weeks. I have come here to introduce my preparations in my usual way, and I will give the public ample opportunity to ascertain whether the claims I make for these medicines can be verified.

"It is one of my beliefs that every successful man should devote a part of his resources in aiding the unfortunate. I rely to a great extent on the public for information concerning families, or individuals, who are in need, and I will, therefore be very grateful to all who will send me the name and address of people who are destitute."

Upon being asked about the public removals of deafness, which he has made in Pittsburg and other cities, Mr. Cooper said: "I have appeared each night in the cities I have visited before audiences that range from two to ten thousand people and have stated that I would remove in less than three minutes' time, deafness of years'

"I have treated in public in this manner over a hundred people each night. I shall do this work in St. Louis to some extent and I will then prove whether I am successful or not. It will be time to discuss this work after I have given one of these demonstrations, as my claims would now seem extravagant.

"The preparation with which I give these demonstration is not the one to which I owe my success, as my New Discovery is my principle remedy. This preparation is for the removal of all forms of stomach trouble "I have not yet decided where my headquarters will be while here, but

"You shall not," firmly said mamma. Miss Julia disrespectfully made a 'snoot" at her mamma. Whereupon mamma swooped down upon Miss Julia and with the aid of her knee and a large palm turned time backward in its flight about ten years and spanked her daughter. Raging and tearful, Miss Julia dashed out of the house, having de-

clared herself to the effect that she would never, never come back. Fortune threw in the way of the spanked child one Joseph Tarodi, with whom she had had love passages when she was much younger. "Marry me and take me away," she

pleaded. "I have been spanked and I shall stand it no longer." Mr. Tarodi, having a sympathetic and loving heart, albeit he is quite an old man compared with Julia-he bet ing 20-tucked his arm under hers and then hied away to a priest. In about twenty minutes the spanked bride was

AND SICK HEADACHE CURED BY DR. WILLIAMS' PINK PILLS.

Another Triumph for the Tonic Treatment for Disorders of the Digestive System.

The symptoms of stomach trouble vary. Some victims have a ravenous appetite, others loathe the sight of food. Often there is a feeling as of weight on the chest, a full feeling in the throat. Sometimes the gas presses on the heart and leads the sufferer to think he has heart disease. Sick headache is a frequent and distressing symptom.

A weak stomach needs a digestive tonic and that there is no better tonic for this purpose than Dr. Williams' Pink Pills is shown by the statement of Mr. A. C. Merrill, a mining man, of Oneals, Calif., a veteran of Battalion C, Third U. S. Regular Infantry. "I had never been well since I left

the army," he says, "always having had trouble with my stomach, which was weak. I was run down and debilitated. Could keep nothing on my stomach, and at times had sick headache so bad that I did not care whether I lived or died. My stomach refused to retain even liquid food and I almost despaired of getting well as I had tried so many kinds of medicine without relief. Then I was bitten by a rattlesnake and that laid me up from work entirely for a year, six months of which I spent in bed. "One day a friend recommended Dr.

Williams' Pink Pills to me and I began taking them. They cured me when all other medicine had failed. I have recommended the pills to a great many, for during my recovery every one asked me what was helping me so and I told them Dr. Williams' Pink Pills. I cannot speak too highly of them." If you want good health you must have

good blood. Bad blood is the root of all common diseases, like anæmia, rheumatism, sciatica, neuralgia, St. Vitus' dance, nervousness, indigestion, debility, general weakness, paralysis, locomotor ataxia and the special ailments that only women-folk knew. ## SAYS HE HAD TO PAY WRONG FARE

L. N. Walker Sues Cotton Belt Railway for \$5,000

L. N. Walker alleges in a petition filed in the Seventeenth district court that he was compelled to pay the fare of a child, whose name he does not know, by the conductor on a St. Louis and Southwestern train, the alternative being to be ejected from the train himself. For this he asks that he be

awarded \$5,000 damages.

The petition alleges that on the 2d of February, 1906, plaintiff with his wife and two minor children were passengers on one of defendants trains, from Texarkana to Fort Worth, and had paid the defendant its charges for transporting them from Texarkana to Fort Worth. That while en route the conductor on said train demanded of plaintiff that he pay the fares of a child whose name even the plaintiff did not know and who the conductor charged was the child of plaintiff. Upon plaintiff's refusal to pay the fare of the unknown, the petition alleges, he was assaulted by said conductor and other employes of defendant, who attempted to eject him from said train -that to avoid being so ejected he paid the fare of the child, but not before his clothes had been torn, himself humiliated and his wife shocked and morti-

### COMMITTEEMEN ABSENT Warehouse Proposition Not Decided

Tuesday Morning The meeting of the committee from the Farmers' Union with President Johnson of the Tarrant county union called for Tuesday morning to take final action on the warehouse proposition, was not held in the morning on account of the non-arrival of some members of the committee and President Johnson. The absentees were expected to come in on later trains and if they do the meeting will be held this afternoon and the matter of the establishment of the warehouse here in which to store the cotton of Tarrant county farmers will be acted upon. There is a strong sentiment in favor of the warehouse being located in Fort Worth and if it is it will mean from 8,000 to 10,000 bales of cotton on the Fort Worth market the coming cotton season, which, with cotton at present prices, will mean the distribution at this point of a half million dollars

## **DEMOCRATS.MAY** USE LAKE ERIE

State Candidates May Possibly Be Named at Pavilion

An effort is being made at this time to secure the use of the pavilion at Lake Erie for the accommodation of the state Democratic convention, which will probably meet early in July. Q. T. Moreland, member of the state Democratic executive committee from this, the Thirteenth district, is working hard to attract the convention to Fort Worth, and feels that he has a good chance with this meeting place together with the efficient hotel accommodations that this city offers.

The state executive committee, which will choose the place of meeting, is composed of thirty-one members, one from each of the thirty-one senatorial districts. There will probably be about 2,000 in attendance at the convention.

### WEATHER SERVICE **CAUSES INSANITY**

Strenuous Life Wrecks Brains of Many Men

Records show that more men become insane in the government weather bureau than in any other department and although it may not appear so to the public, it is caused by the "strenuous

The public has a general idea of the manner in which the different branches of the weather department are conducted, but it is not familiar with the details. One little supposes that the weather bulletin which he sees posted in public places is the result of labor of a force of several hundred men and that every weather official throughout the United States has daily 5,000 chances of making some mistake in his report. Moreover, it is this fear of a mistake that has lead to the large percentage of insanity in the service.

The government is strict and a certain number of mistakes each month will lose an agent his position. An exact record is kept at Washington and no mistake passes by unnoticed. If an agent places- the temperature of any one city one degree higher or lower it is set down against him. It is said that the weather department is the most accurate and efficient of all government service.

Need of Care The reason for this strictness is apparent, for upon the report of an observer at times much life and property depends. If an observer should send in a report for one of the Great Lakes that fair weather was at hand when a tempest should have been predicted, loss of life would be the result, for on the lakes and coasts the entire shipping interests closely watch the daily report and conduct their business accord-

There are men in the service who have been working hard for years for advancement, but the younger men in many instances rise above them, as they seem to have the "instinct" or grasp of the situation. The service is very fascinating when one throws himself into it and every opportunity is given for advancement. Credit is always given where excellent work is done ,and the training for accuracy in details is unequaled in any other line

of business. A visit to the local weather office. which is in charge of D. S. Landis, at the Federal building, would prove a revelation to many. There are costly instruments which record every minute the velocity of the wind, humidity of the atmosphere, high and low atmospheric pressures, precipitation, temperature, earthquake disturbance and solar changes.

### PRESIDENT ROOSEVELT'S WEAKNESS

Theodore Roosevelt, President of the United States, Is doubtless a well meaning man, but he has his weakness. The weakness betrayed by the President up to this time is his impulsiveness. He seems to have a method of attempting things in the wrong manner and expressing himself in such terms as to give considerable offense where doubtless no offense was really intended. He has been embroiled with his party ever Fince before he was elevated to the vice presidency, and it has been frequently asserted that his present prominence was brought about solely by the desire of his party to shelve him. It was believed when he was nominated for the vice presidency that a means for his retirement had been discovered, but it only served to place him at the pinnacle of American aspiration.

Men with the impetuous nature of Theodore Roosevelt cannot avoid the commission of error. Impulsive, they are quick to think and quicker to act. When the President in his friendly and impulsive manner penned the screed which released Paul Morton from prosecution on a charge of giving rebates when manager of the Santa Fe railway, he did not know that he was laying a predicate for the escape of the members of the alleged beef trust through the same kind of an avenue. The presidential heart was fired with a mighty resolve to make an object lesson out of the big packers if any means could be devised for their conviction, and when Judge Humphrey let them out at the Paul Morton gap the President was naturally incensed. He showed his displeasure by a caustic and · sensational message to congress demanding the passage of a law that would prevent such occurrences in the future, and incidentally, he took some shots at the federal court that must have stung the mark they were

And the President was wrong in the action taken. He should not have sought to besmirch the federal judiciary for following his predicate. He ought to have dismissed Garfield from the public service and asked congress to pass the necessary law without the strictures contained in his message. Commenting on this feature of the situation, the Baltimore News says;

The immunity conferred by the decision upon the beef trust people as a consequence of their communications to Commissioner Garfield is a thing which was universally regretted throughout the country; and the President may be, and probably is, entirely right in desiring such change of the law as will make a recurrence of such an experience impossible. It is possible even that Mr. Roosevelt is right in thinking that Judge Humphrey was not justified in his decision by the law as it stands; but between Theodore Roosevelt thinking that a federal judge has misinterpreted the law and the President of the United States sending a special message to congress expressing that opinion in harsh and unrestrained language there ought to be a great gulf fixed. But Mr. Roosevelt is notoriously unable, or unwilling, to draw any such distinction. He does not recognize his great office as imposing any restraint upon the utterance of his individual senti-

This is not the only evidence of the President's weakness. His action in the relief of the California earthquake sufferers is but another illustration of the unfortunate depths to which a man's impetuosity can lead him. It can be said, however, that when he finds himself wrong he is guick to try to set himself right, Tout these occurrences serve to weaken him with the people from the fact they place him in the light of being a vacillator. And in reality, there is no vacillation about the presidential character. He is too quick

Private Car Party

Mrs. D. B. Keeler gave a number of her friends a treat, taking a party up to Wichita Falls Monday in her car to spend the day, complimentary to Miss Teddie Edrington. They left on the Denver train for Wichita Falls, where they spent a couple of hours. On the way they stopped at Bellevue. The most delicious course luncheon was served on the car. The table was decorated with a quotation made of red roses reading "The Penn is mightier than the sword," appropriate to the approaching wedding. While at luncheon a telegram from D. B. Keeler was received reading "Here's to all that are here no matter where you're from. May the best day you have seen be worse than your worst to come," signed D. B. Keeler.

The guests of this charming party were Mesdames Bacon Saunders, Geo. Clayton, D. V. Williams, Ricknell, Mc-Dowell, Misses Teddie Edrington, Ray Saunders, Elizabeth Tarlton. Burnie Newlin, Anita Penn, M. A. Phelan, Jo-Newlin, sephine Blair.

Dinner for Miss Edrington

The groomsmen and ushers entertained Miss Edrington and her bridal party with an elaborate and much enjoyed dinner Monday night at the Touraine. Covers were laid for twenty on a large square table in the banquet hall, exquisitely decorated with a solid heart of pink carnations in the center of the table and four smaller solid hearts of the same flowers and a large moon of the carnations encircling a bowl of honey, suggestive of the honeymoon. The bride presented her maids with gold hat pins, brooches and shirt waist sets and their gloves and the bridegroom gave the ushers and groomsmen their gloves and ties. Many toasts were drunk to the bride and groom, especially appealing were the sweet thoughts and good wishes

for them both expressed in a toast proposed by Rev. B. B. Ramage. The guests were Mr. and Mrs. Will Edrington, Mr. and Mrs. Ed Burns, Mr. and Mrs. Ed Richardson, Misses Teddie Edrington, Burnie Newlin, Ray Saunders, Anita Penn, M. A. YEAR'S WORK REVIEWED

FACTORY CLUB

Steps to Be Taken to Entertain National Grocers Delegates Upon Visit to Texas

The Factory Club held its annual meeting at the county court house, in C. T. Rowland's office, Monday night, at which the work of the past year was reviewed, annual reports of officers and committees received and plans for future progress discussed. W. R. Booth presided. There was a fair attendance, but many were kept away by the threatening weather, on which account the election of new officers and directors was postponed until next Monday night.

The club has been organized but one year, and during that time has accomplished much good for the city. Industries have been induced to establish in Fort Worth, organizations already here enabled to extend their trade. Literature advertising the city has been sent throughout the United States, and at present there are several propositions pending which may mean more industries and larger popuation for this city in a short time. These facts were brought out in the report of the secretary, N. B. Moore, who has recently resigned, A. N. Ev-

ans being elected to the position. The secretary's report further showed that the club had aided to a great extent Polytechnic College and Fort Worth University, and had been instrumental in starting the girl's college at Arlington Heights.

H. Brann of the sign stated that the committee had found a drawback in the movement to put up street signs at all corners, because of the great expense involved. Upon investigation it found that it would cost \$10,000 to cover the entire city with signs, but that the committee had not become discouraged at all. Provision has been made for at least 500 signs, and these will be put up within a short time. Business men of the city will be asked to help in raising the necessary amount of money, and it is stated a few of the women's clubs may also be called upon to assist.

John Van Zandt of the entertainment committee reported the plans under way to hold an automobile meet during the summer, and stated the committee was as yet not prepared to report fully on the matter, but would do so at the meeting next Monday.

To Entertain Grocers The National Retail Grocers' Association will meet in Dallas this suni-

mer. and J. C. Martin said that the association would also visit Fort Worth at the same time, and that there would be present 1.000 merchants from all over the country. At the last convention of this association, held at Niagara Falls, the grocers agreed that Fort Worth was the most widely advertised city in Texas. It was suggested at the meeting Monday night that provision be made by the club to entertain the merchants when they visit the city. and steps will be taken in this direc-

J. O. Wright, in speaking of freight rates, said that the city was handicapped by the high rates, both local and foreign, and he made the suggestion that a committee from the club be appointed to petition the railroad commission for lower rates, and also carry the matter before the interstate commerce commission. No action was taken in regard to the matter.

The club now has more than 150 members, and the officers are as fellows: President, W. R. Booth: first vice president, J. H. Van Zandt; second vice president, L. G. Gilbert; secretary, A. N. Evans; directors, Dr. J. L. Cooper, H. Brann, A. N. Evans, A. R. Speer and B. H. Dunn.

A committee of five was appointed to nominate oficers and directors to be elected at the next meeting. The members of the committee are H. Patterson, H. Brann, H. J. Evans, D. Purvis and B. Harwood.

# MUSEMENTS

At the Majestic

Closing week at the Majestic has a bill that promises to leave a strong drawing card for the opening of the next season, the various vaudeville features offered giving much pleasure to the large audiences at Monday's performances.

Gardner & Revere presented laughable sketch, "The Bellboy and the Soubrette," amusing situations being handled in a way to get the most merriment in the shortest time. Miss Revere also uses the sketch for some clever dancing.

"Caught," a short play presented by Ethel Browning, Ashley Miller and George Ralph, made good its title by catching the audience whose sympathies were entirely won by the little story of heart interest.

"Last Night," presented by Willard Newell, Grace Turner and Gertrude Clemens, proved another laugh producer, a proposal in undue haste and complications following the appearance of a cousin on the scene affording ample opportunity for hilarity. Sketches are not alone, however, on

the bill a wire act by Les Laroses as a crowning feature of which amexhibition, blindfold and with Dutch shoes is given. Chester, equilibrist, furnishes another nerve stimulant, while an extra whistling number was as well received as any other number on the

Next week the theater will be dark, but the famous lights leading to the theater will be continued in service.

At the Majestic

At the Majestic Theater, Saturday, May 12, the Gay Happy Hollow company will make its first appearance. The company will consist of fifty carefully selected voices. The comedy will be carried out by retired professionals. This operatic farce is on the Williams and Walker order and will be staged and managed by colored people. Manager Fascher has heard them and says it will be a treat to see their production.

Lake Erie The management of Lake Erie an-nounces that in the future the pavilion at the park will be open to the public every night except when engaged by

The district Christian Endeavor society will hold its annual convention in Fort Worth Tuesday, Wednesday and Thursday, May 8, 9 and 10.

This district embraces seventeen counties, lying north and west of this city and includes fifty societies. Rev. C. D. Hall of Hillsboro, state president of the Christian Endeavor. will be present. This is chiefly a social meeting, but the general conditions of the society will be discussed. Most of the sessions will be held in the Taylor street Cumberland Presbyterian church.

### ALARM BOXES PLACED

System to Insure Patrolling of Beats Adopted Here The American District Telegraph

company is installing a new system of night watch alarms with boxes in many factories, stores, offices and churches.

The instrument is the report box which operates by the turning of a key by the night watchman or police, registers at the main office the place and time. This report is made on relays of paper tape similar to that of a stock ticker. Each box is supplied with a fire alarm separate from the

hourly report instrument. This tally on the movements of night watchmen makes the guarding of the premises absolute, as in case of accident or neglect notification is received by failure to tally. There have been some few of these night boxes in use in the city for several months. The new circuit will serve eighteen or twenty members at present.

Savannah, Ga., Monday reported the highest temperature so far noted in the United States this spring, 94 degrees. While hot weather is experienced in the southern states, killing frosts are reported in Utah and Montana. Texas for the past several days has had rainy weather and more is promised. The weather map shows that the highest wind in the country yesterday prevailed in Arkansas, at Fort Smith, thirty-two miles per hour.

The temperature in Fort Worth was 76 degrees, cooler than for several days. Abilene reported 84, the highest in the state. The lowest showing was made at Denyer, where the thermometer registered 30.

Generally partly cloudy weather with light southwest wind was reported Tuesday morning along the Denver Road. Temperatures were: Texline. 42: Amarillo, 50; Childress, 50, and Wichita Falls, 60. Official statement is:

"Low barometer conditions continue over the southwest gulf region, in the lower Missouri valley and over the New England coast states, as a resultant rain and thunderstorms have been general in the lower Missouri valley and in the Ohio valley and in the Blue Ridge country. "High barometer conditions over the west slope of the Rocky mountains has caused killing frost in Utah and Mon-

"The cotton states are partly cloudy to cloudy, and showery conditions with high temperatures have been quite general."

A Catholic Young Men's Christian

Association is not impossible, says The Calendar of the Paulist church, New York, and adds: "It needs but the man to organize it. The time is at hand; the boys are waiting, and they are suffering while they wait. It will cost effort; it will cost worry; it will cost money. But it will save boys; it will build up characters; it will preserve religion: in no small measure, men of intelligence and conscience." then. A lady says.

### M. E. CONFERENCE **DELEGATES LEAVE**

Fort Worth Members Off Monday Night

MANY TEXANS ATTEND

Revs. O. F. Sensabaugh, H. A. Boaz and W. E. Williams Among Representatives from North Texas

Rev. O. F. Sensabaugh, W. Erskine Williams and Rev. H. A. Boaz of this city, delegates to the general conference of the Methodist Episcopal church, south, to be held at Birmingham, Ala., May 3, left Monday night over the Cotton Belt. They were joined here by others of the fourteen delegates from the northwest Texas annual conference, including this city. Members from this city report no matters to be brought up from this district, though many questions of general interest promise to make the meeting an important one.

Other delegates from the northwest Texas annual conference will be: Judge S. W. Scott of Haskell, Dr. R. S. Hyer of Georgetown, Judge J. M. Robertson of Meridian and Judge J. K. Parr of Hillsboro.

Texas in all has thirty-three of the 242 delegates. Among the more important matters

to be taken up by the approaching conference are these: The establishment of a university for women in the south, to be supported by the church. It is the intention to make this institution rank with anything of the kind in the United States and it is proposed to raise at least a million dollars as a beginning.

A change in the present presiding eldership system. Presiding elders are at present limited to thirty charges and they are supposed to visit each charge at least four times each year. It is probable that two more bishops will be elected because of the increased demands of the church. The churchmen most prominently spoken of in this connection are Dr. Collins Denney of Nashville, Tenn.; Dr. J. J. Tigert of Nashville, Tenn., editor of the Quarterly Review, and Rev. W. B. McMur-

ray of St. Louis, Mo. May Extend Pastorate

Another matter that will be brought up is that of institutional churches. It is pointed out that the growth of cities in the south and the increase of what are known as "downtown" churches makes necessary the extension of the present four-year tenure of pastors, which is ironclad under the present laws of the church. It is maintained by those in favor of the proposed change that the successful club work that should be done in the "downtown" churches is handicapped by the pastor's feeling that he must leave and turn over the work to someone else at the end of four years.

who is the senior bishop, and the bishops will preside in rotation over the various sessions. The eleven bishops of the church at present are: Bishop A. W. Wilson of Baltimore, Bishop John G. Granbury of Ashland, Va.; Bishop W. W. Duncan of Spartanburg, S. C.; Bishop Charles R. Hendrix of Kansas City, Mo.; Bishop J. S. Key of Sherman, Texas; Bishop O. P. ### HOW GIMPY BILL **ESCAPED FIRE**

Thrilling Story of Frisco Survivor's Escape

USED A BLANKET ROPE

Had No Legs, But Moved Fourteen Miles in Two Days and a Half and Saved Lottery Ticket

SAN FRANCISCO, Cal., May 1 .-Here is the story of Gimpy Bill, a

cripple mendicant, who escaped death in the great fire as if by a miracle. Gimpy Bill has gone through life with his head no higher than that of a dog. Since his legs were cut off almost at the hips, a trundle platform with four casters has been his only means of locomotion for years. With two irons in the shape of sad irons he has pushed himself over the city pavements with tortoise-like shuffle, selling pencils in public and tickets for Chinese lotteries in the privacy of saloon back rooms. Gimpy Bill's life has

been a hard one. Wednesday morning last, when the fearful convulsion of earth tossed over walls and snuffed out the lives of hundreds, Bill was sleeping in his lodgings above a saloon in Washington street, near Montgomery. The pitiful half of him was thrown out of bed and sent rolling about the room like an empty demijohn. A heavy brick cornice from adjoining eaves came crashing through the roof and blocked the door of his

Sits on Stumps and Curses William of the trundle car sat upon his stumps in a corner and cursed. "Yes, I did swear some," said Bill, "for I thought I was going to pass and I had a winning ticket on Chang's

place in my pocket." When the wave motion of the floors decreased Bill took stock of the situation. He was penned in his room. There was no exit except by a window about twenty-five feet from the street. "Say, young man, it looked like cases to me. I thought there was not a twoshot chance of getting out of that

Gimpy Bill sleeps in his clothes, hence no thought of improper exposure deterred him from making the most expeditious exit possible. He hitched himself across the room to his platform and strapped himself thereon. Of the blankets he made a rope and tied the end of this to the leg of his bed nearest the window.

Then, with his iron pushers hung about his neck by a window cord, William drew himself, platform and all, to the window ledge. The blanket rope dangled within ten feet of the sidewalk. Gimpy then went down the knotted lengths until he hung like a pendulum at the end.

man with legs, but for half a man with a rolling platform under him it is a serious proposition. Bill hung there, calling lustily, until a man from the saloon below plucked him from the end of the blanket rope.

"About that time," says Bill, "the engines were going down Montgomery street to beat h-, and I see a bus wagon go up to the morgue with corpses loaded on like cordwood. says to myself, says I: "Things is going some, and to the woods for me." With "the woods" fixed in his mind as a strong objective point Bill trundied himself up Kearny street and turned down that thoroughfare.

Chances Are 500 to 1 A man with no legs and standing no higher than the head of a dog had chances approximating 500 to 1 in the midst of a city ruined by earthquake and seized by fire panic.

But Gimpy Bill saw four dead men on Kearny street and he knew he was still alive. He pushed himself over to the sewer drain and out in the middle of the street and waited his one chance. "Say, you should have seen the women from Belden alley," quoth Bill. "Those French women. One had a cut upon the head and the blood was streaming down to the waist. She did not have on a rag except a skirt and a pair of slippers, and another laid

down upon the car track with a dog and just yelled French things. She was plumb dotty.' Bill waited upon the corner of Ash and Kearny streets for almost two hours during the panic. Men rushed by him without even a glance at his stump of a body. The dead were carried within two yards of him, the legs and arms protruding from the grating

of the market wagons in which they Yet Gimpy Bill's chance of getting "to the woods" came not. Finally when the flames from the Palace hotel were leaping high above the Chronicle building and the line of fire began to eat out behind him a Battery street express wagon loaded to the tailboard with wild-eyed refugees came down Kearny street in Bill's direction. He hailed it, but the driver

shook his head. Bill cursed and the driver took out his whip. Hitched to a Wagon But as the wagon went past, close to the curb, Gimpy Bill spied a dangling strap on the tailboard and seized it. Bill on his trundle platform under the box of the wagon leaped from stone to stone as the horse trotted down the

"That was fierce," says Bill, with earnest emphasis. "I hit the stones like a pile driver at a fast clip. My heav-

stones gave way to smooth asphalt and William's progress was easier. But there the front axle of the wagon broke. Bill was a mile from the nearest fire and there was less excitement in Washington square than on Kearny Reaches Place of Safety

"Then I tries to hit the hill. Say, it was hard going, sure. I zigzagged two blocks, then rested, zigzagged another block and was all in," said Bill. Bill rested for an hour and then gave a boy 10 cents to take him up to the top of Union street hill at the end of a rope. He stayed there the rest of the day and slept in a barn.

On Thursday the fire began to show on Clay street hill, a mile to the south, and Bill moved down hill to Van Ness. He plodded past piles of furniture household goods and through throngs of terrified folks. Thursday night he went to sleep on his wheeled platform at the corner of Page and Market streets, with the glow of the fire still a mile away. He had eaten nothing that day but a piece of bologna and some crackers.

The last stage of Gimpy Bill's pilgrimage through the wilderness was made on an automobile temporarily impressed into service.

Bill was lifted into the machine and whisked off to the panhandle camp. "I'm there, all right," said Bill, with a quiet air of triumph, "and I've still got them lottery winners, but I guess they're no good now that Chinatown's

### REFUGEES IN DENVER

Nearly 1,000 Persons From San Francisco Being Cared For Special to The Telegram,

DENVER, Col., May 1.-Denver s crowded with refugees from San Francisco and all of them needing assistance are being cared for under the direction of the Chamber of Commerce. Thousands of dollars have been subscribed to the relief fund and no one in need of aid is turned away. Every train from the west is loaded with helpless people, men, women and children and they are met at the union station by committees and provided with temporary help and transportation from Denver to destination. Besides this assistance they are given enough provisions to last them to the end of their trip home. From 500 to 1,000 persons are cared for daily at

A car of drugs was shipped to Frisco today, making the fiftieth carload of supplies that has been sent from this city since the catastrophe. Thus far Denver has raised in money and supplies a grand total of \$36,000 for the earthquake sufferers. From the state of Colorado a grand total assistance of approximately \$100,000 has been given the needing people of the stricken city. Some harrowing stories are told here by returning refugees. One in particular where a poor woman went crazy over the loss of her two small children who were killed in the fall of their home, which crushed out the lives of the children. The woman refused to give up her dead ones and was seen dragging them about Golden Gate park. But few Denver people perished in the disaster.

Following the request in his will, two of Meiser's friends took the ashes of his cremated body and scattered them around the roses in Eden Park. Patrick Case Witness Can't Say About Embalming Fluid. y Associated Press.

NEW YORK, May 1.-Effects of emming fluid in concealing evidence of eath by inhaling chloroform was subet of expert testimony today at the earing of Albert T. Patrick's motion or a new trial on the charge of murlering William Marsh Rice, of Texas. Dr. Albert T. Weston, coroner's phyician and a witness called in Patrick's behalf, said that he had injected mbalming fluid into bodies of twelve rsons before making an incision of he lungs. Although none of these perons had died of inhaling chloroform, was satisfied, he said, that emalming fluid made entry into lungs and would make it difficult to deterine whether death had been caused y breathing any irritant vapor, chloform included. One of Patrick's conntions has been that embalming fluid hay cause lungs to appear as if sub-ect had died of chloroform poisoning.

Bullish Acreage Report Imparts Ealy Strength-Reaction Follows and Final Prices Are Lower Special to The Telegram.

NEW YORK, May 1.—The cotton market derived strength at the start from a report issued by a local authority fixing the increase in acreage at 5 per cent and pointing to scarcity of labor. As the estimated increase was considerably under popular expectation the report caused a mild wave of bullish sentiment among the general trade, which was later dissipated to some extent by another report regarding the acreage, estimating the increase at 9.56 per cent and making the total acreage in excess of 31,000,000 and the weekly weather report showing the prevalence of generally favorable conditions during the past week. In the trading the market opened firm, with prices 3 to 4 points higher and under good buying the gain was soon increased a further 5 to 6 points, placing May 20 points over July. At this premium the bull crowd got out of May and bought uJly. After the Norden report and the weather bulletin were issued the market reacted gradually selling off 13 points for July and closing quiet and steady with prices near the lowest at a net loss of 3 points on July and 7 points on new-crop months. Spots were quiet at unchanged prices on a basis of

NEW ORLEANS, La., May 1.-The cotton market was rather active for a time and exhibited some strength in response to rather bullish reports on acreage, but the activity soon gave way to the usual duliness and with the issuance of the weekly weather report, which was upon the whole favorable to the bears, a reaction ensued. The opening was firm with July 4 points higher. The gain was increased to a matter of 6 points during the first hour, after which time prices eased off gradually, touching a level 15 points under the best during the last hour. The close was steady with prices 8 points lower for July and 10 lower

for new-crop months. Spots were steady and in good demand at unchanged prices on a basis of 11%c for middling. Offerings were limited and sales were 2,450 bales on the spot and 1,000 bales f. o. b.

This amount did not overload the longs, who received all brought forward and forced shorts to cover their commitments, thereby imparting a firm tone to the market and advancing prices. This wasc about the only feature of the session which was never more than moderately active. The market opened firm with prices %c to %c higher, the local crowd bulled the market from the start and bought liberally enough to more than offset the selling which came from commission houses, prices never touched yeserday's closing fevel, but advanced gradually throughout the session, touching a net gain of 1/2c for July. The close was steady with prices at a gain of 1/4c to %c. Local receipts 5 cars vs. 72 cars this day last year. Corn

Corn ruled firm from the start, under good buying influened by reports of crop damake by heavy rains in some sections of the belt. Final figures showed a net gain of 4c to 3c. Local receipts 387 cars vs. 76 cars this day last year. Oats

Oats were moderately active and the market exhibited a strong undertone throughout, prices advancing easily under short covering. Closing figures were unchanged to 1/8c higher for July and September and 1/4c higher for May. Local receipts 251 cars vs. 146 cars this day last year. Provisions

Provisions ruled dull and featureless, prices fluctuating within a narrow range and generally slightly under yesterday's closing level. Final figures, showed a loss of 5c for pork, while lard and ribs were unchanged to 3c lower.

 FORT WORTH, May 1.—Cotton speculators were not at all active to-

day. The news was somewhat con-

flicting, that is, regarding the possible

acreage, there being a radical differ-

ence in the conclusions formed by the

Journal of Commerce on the one hand

and A. Norden & Co. on the other.

The one report offered a direct antith-

The Journal of Commerce came first

and estimated the increase in acreage

at 5 per cent; this report also drew

attention to the scarcity of labor, but

stated that the season was 10 to 15

days earlier in all sections, with the

exception of South Carolina, Alabama,

Georgia and Tennessee, where plant-

ing was about one week late. These

figures were a surprise to all con-

cerned and were responsible for a firm

opening of the market. Norden's report

came later, fixing the acreage at 31 .-

dull day in cotton. The outside public

and the professional scalping element

saw nothing to induce speculation on

either side. The features of the morn-

ing were about evenly balanced, a re-

port by A. Norden & Co., which esti-

mated the increase in acreage at 9.36

per cent, offsetting the effects of an

estimate of an increase of only 5 per

cent by the Journal of Commerce. Re-

ports and estimates on acreage will

probably come thick and fast now, but

the trade will not take any of them

seriously for a while, simply because

it is generally appreciated that all the

sead is not yet in the ground and that

planting will not be completed, taking

the whole belt into consideration, for

some little time to come. The govern-

ment put out its usual weekly sum-

mary of weather conditions, but while

it was a little more favorable than

expected it had no influence on prices.

The truth is that since the government

has eliminated all comment on the crop

from its reports they have ceased to

interest all but the few that pose as

experts on weather and crop condi-

tions; the general trading public de-

mands a flat statement one way or the

other if it is to be interested. The

weather map this morning was mor

favorable than unfavorable. At the

same time no rain was reported in the

southeastern portion of the belt, where

rain is needed badly. The spot demand

continued unabated, but trading was

restricted by limited offerings and

higher prices asked. Receipts of one

bale at Little Rock were taken as an

indication that supplies in the country were rapidly becoming exhausted.

Holders of spots betrayed considera-

tle interest in the cotton goods sales

which begin in New York today, for

they believe that they will show that

retailers' stocks are well exhausted.

Dry goods reports from Shanghai were

bearish, for they said that stocks of

goods in the interior of China were

Hogs Hogs made the poorest showing for many a day. The run numbered 1,280. nearly all from Texas points. The same bearish tactics pursued Monday haracterized the opening bids, and the market ruled weak to 5c lower. It would probably have been worse than that but for the presence of an outside buyer, who took on a few loads for the California trade and paid the highest price of the morning session for a load of Texas hogs, \$6.321/2. They were a very good class of butcher weights, averaging 194 pounds. The bulk of heavies sold from \$6.17@6.30. while medium packers and butcher hogs made \$6.15@6.271/2. Railway Rate Bill Debate Will Close May 10

Special to The Telegram.

WASHINGTON, May 1.-Friday, May 4, is the date fixed by the senate for the consideration of the amendments to the railroad rate bill. Debate on the bill in general is to come to a close the day preceding. This is but a starter and what the

outcome of the voting will be few men are in a position to hazard a forecast of any reliability. There is much speculation and a corresponding variety of opinions. The prevalent opinion is that a broad court review amendment, such as Mr. Aldrich wants, will get into the bill, despite the fact that a report which bears marks of authenticity has become current that if such an amendment is put into the bill the President will send to congress such a veto message as will startle the country like a fire alarm in the night. But while this outcome is the one most generally expected, there are some who confidently look forward to the passage of the bill without any court review amendment whatever. All are agreed that the Hepburn bill is an imperfect measure, but, after the manner of wise doctors, no amendment seems to have won the approval of a majority. The bill itself will have a majority of ten or twelve.

Garner for Statehood Vote Special to The Telegram,

WASHINGTON, May 1.-In the mild filibuster which Mr. Williams has begun to force the speaker to give the house a vote on the statehood bill the minority leader has appointed Mr. Garner his first lieutenant. It fell to Mr. Garner during the absence of Mr. Williams to act in that capacity yesterday, and it happened that the first victim was Mr. Garner's colleague of Texas, Mr. Stephens. Mr. Stephens arose and asked unanimous consent for the reprint of a bill. "I object, Mr. Speaker," Mr. Garner exclaimed grim-

"The gentleman from Texas objects to the request of the gentleman from Texas," the speaker announced.

But the sarcasm of the speaker's manner did not discomfit Mr. Garner; he explained to Mr. Stephens that he acted in accordance to the tactical plan of campaign and in pursuance to orders. Mr. Stephens was quite satisfied.

May Establish Laboratory

Special to The Telegram. WASHINGTON, May 1 .- Mr. Burleson has received a letter from Secretary Carlson, assuring him of his sympathy with the effort to establish a plant laboratory in Southwest Texas. Dr. Galloway, chief of the bureau of plant industry, has already sent an expert to Southwest Texas to look into the conditions, and if he finds them as favorable as represented the laboratory will be established. Mr. Garner is co-operating with Mr. Burleson in this project, and if it should be decided to establish this laboratory its exact location will be governed largely by the wish of Mr. Garner.

"See the Courts," Says Committee Special to The Telegram.

WASHINGTON, May 1 .- Colonel A. J. Houston, who has been trying to persuade the house committee on privilegs and elections to express an opinion on its report of the Broock case as to the constitutionality of the Texas poll tax law, will leave for home today disappointed.

Chairman Driscoll of the committee told Colonel Houston yesterday that the question as to the constitutionality of the Texas statute was one to be submitted to the courts. The committee will submit a report

declaring marely that Colonel Houston was not elected.

Would Remove Restrictions Special to The Telegram.

WASHINGTON, May 1.-A third effort is to be made to remove the restrictions of the surplus lands of the Indians. A bill has been drawn to be introduced in the senate by Mr. Clark of Wyoming and in the house by Mr. McGuire of Oklahoma, This bill proposes to remove the restrictions on the surpius lands of not only the mixed bloods but of the full-bloods, but there is a very good prospect that, amended so as to apply to the surplus lands of the mixed bloods, the bill can be put through both houses. It is assured in advance of favorable action by the committees which have immediate charge of the affairs of the Five

Tribes. Davis-Murrah

The county clerk's office was the scene Monday of the marriage of O. L. Davis, 2315 Gould avenue, and Miss Minnie H. Murrah, also of North Fort Worth. They will make their home in that city.

J. H. Wombell J. H. Wombell, a former resident of Fort Worth, died Sunday night at Hubbard City. He was well known in this city and was in business here prior of 1897. Miss Bessie Wombell, who is at Kansas City, has been advised of her father's death and is expected to arrive in the city Tuesday night.

Death of Mrs. Harkrider

Special to The Telegram. ABILENE, Texas, May 1.—At the residence of her daughter, Mrs. W. A. Riney, Mrs. Laura A. Harkrider died after an illness of several months. Her age was 66 years. She leaves five chinidren residing in Abilene and west

OFF FOR CONFERENCE

Dr. W. L. Nelms Goes to Birmingham, Alabama Special to The Telegram.

GEORGETOWN, Texas, May 1.-Dr.

W. L. Nelms, dean of the Theological institute of the Southwestern university, left yesterday for Birmingham. Ala., to attend the general conference of the Methodist Episcopal church. south. C. C. Hooper of Taylor, who is a delegate to the conference, foined him at Taylor. Dr. Nelms has been very favorably mentioned as one of the probable new bishops to be elected by the conference during its three weeks' session, but before leaving for Nashville Dr. Nelms said: "I have in no way thought of the matter seriously."

Graphic Gossip and Scenes and Incidents Since the Fire.

Special to The Telegram. but never let the chance go by to get SAN FRANCISCO, May 1.-Those something for nothing. Thus those without a penny are robbed of their who cross the bay on the business of relief and aid thank God every morning when the ferry boat gets close enough to allow a view of the tall All the advertising carried by the tower with its flag staff leaning south newspapers are "help wanted" adverand its huge clock dial with the hands yet pointing to 5:16 a. m.

It is a sign that all is not lost; that the site of San Francisco is still here. A 6-months-old baby, lost for three days, was restored to its mother at the ferry. The mother, frantic with fear and grief, ran from one relief sta-

tion to another, and at every station her cry was the same: "Find my baby." She described it minutely, and a big, red faced, red haired Irish teamster set himself the task of finding that baby gees scattered over the peninsula. Just as the mother was about to give up, the big Irishman met her on

her eternal rounds of the relief sta-When it was over, Simmonds crooked at Godfrey an inviting finger, and to-"Come wid me," he growled, as he limped up to her and grasped her by the arm.

"Have you found him? Oh, have you done it?" cried the poor mother. "Come wid me," was all the red headed son of Anak would reply, and something, maybe the mother instinct, made her turn and follow.

Back through the gloom of the ferry building they went and in a corner, behind a huge wagon out of use, wrapped in an old coat, lay the baby, wan and weeping, it is true, but safe and sound and hungry.

The mother sank on her knees beside it, the tears and smiles of happiness on her face, and as the infant snuggled his little head to the fount he had missed so long, the Irishman, happy, shuffling, tearful and wearied to death, crawled into the empty wagon, took the seat cushion for a pillow and stretched himself to sleep.

There was a time when the Southern Pacific company was unpopular in San Francisco. The road is likely to live it down in this crisis. The Southern Pacific and the Santa Fe have put on all the passenger accommodations that they can scrape together, and are rushing the people east free. It is only necessary to get a pass. In issuing the passes they give preference to women, children and weaklings, but the passes are issued to the full limit of train service. Each road has issued about 30,000 passes. Right of way over regular trains carrying paid passengers is given to the trains carrying refugees.

Army gunners decided to blow down tne front wall of the Emporium, the largest department store on the coast. The wall, standing up all alone, resisted four charges of guncotton. Then the gunners concluded that it was not dangerous and let it alone.

Three hundred able bodied idlers were rounded up by the soldiers in Oakland one day this week, herded onto a ferryboat, and put to work on the ruins in San Francisco.

The engineers are blowing down dangerous walls with dynamite and the crash of huge blanket like masses of brick and cement punctuate the babel of cries and yells of drivers and the rattle and rumble of the great coin wagons that are passing, heavily laden, from the mint.

A Red Cross badge has ceased to be a badge of safety and honor. Toughs and rounders, observing the fact that the badges are good for passage any and everywhere, have pinned on rude imitations of badges and have been caught looting.

The congested Western Union mailed ,000 telegrams in one day to be wired from other points.

Anyone can see that the city cannot be cleared until the Southern Pacific proposal to build a railroad into the business district is accepted by the city authorities. There is no other way of getting out the hundreds of thousands of tons of broken brick, burned wood, scrap iron and refuse. The city must be nearly repaved. The

Said to Be Slated for Place on Canal Committee

Special to The Telegram. WASHINGTON, D. C., May 1 .-Senator Bailey will probably become member of the committee on Isthmian canals in place of Senator Gorman, whose continued illness has prevented his participation in its work. This change will be made at the suggestion of Senator Morgan. This committee has been at work almost daily for nearly two months and the brunt o the opposition work has been almost entirely upon Senator Morgan. Senator Morgan is convinced that there is much concealed that ought to be madpublic, but, unaided, he does not fee

equal to the task. Until now the work of the committee has been that of investigating, but shortly it will begin the consideration of its report. It is generally the opinion that the committee will make no recommendation as to the type of canal The effect of this would be to assure the making of a lock canal, perhaps a an eighty-five foot level. The committee will recommend some legislation for the government of the canal zone, and it is also likely to advise a reduction of the commission to three

Accidental Discharge of Pistol Causes Loss of Two Fingers

Officer Pugh of the police department met with a painful accident Monday night while patrolling his beat. In some manner his revolver was discharged while he was in the act of adjusting it and two fingers of his left hand shot off.

DEAFNESS CANNOT BE CURED by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever: nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O.

Declares Vinol Is the Best Cod Liver Oil Preparation

There has been a good deal of discussion in Fort Worth regarding the merits of cod liver oil preparations, and whether or not cod liver oil and emulsions that upset the stomach have any medicinal virtue; therefore, the following letter from M. A. Cassidy, superintendent of schools, Lexington, Ky., will be read with interest:

"I am pleased to state that after having used and tested the different cod liver oil preparations on the market, I find Vinol to be far superior to them all. It is palatable and pleasant to the taste, in fact, the oily, fishy taste of cod liver oil is done away with entirely, and the curative and strengthening properties of Vinol are truly remarkable.

Vinol built up my system, strength-

ened by nerves and made a new man of me, and I heartily endorse it as the most efficacious and agreeable cod liver oil preparation on the market." uggist, Mr. R. A. Anderson, when asked his opinion in regard to Vinoi, replied, "We firmly believe Vinol to be the best preparation of cod liver oil, therefore, the greatest strength creator and health restorer known to medicine today. We have never sold anything in our store equal to Vinol to build up the system, strengthen the nerves, cure indigestion, chronic coughs, colds, bronchitis and inciplent consumption, or to make growing children robust and give strength and vigor to the aged, and to make the weak strong and the sick

It is for this reason that we offer to give back the money in every case where it fails." R. A. Anderson, drug-

Last Game of Series With Cleburne Won by 6-4

NORTH TEXAS LEAGUE

Standing of Clubs -Games-Played. Won. Lost. cent. Clubs-.833 Dallas ..... 6 Greenville ..... 6 .500 Waco ..... 6 Temple .... 6 Fort Worth .... 6 Cleburne ..... 6

Fort Worth won the game from Cleburne Monday in the first inning, kept it until the seventh, then almost lost it by a succession of erratic stunts in which Walsh and Salm figured, and finally managed to save the score by a margin of two runs after a threatening ninth inning, which, for several seconds, looked like a tie. The Panthers got six runs, four of which came in the initial inning. Cleburne got four, all in the seventh, the unlucky seventh about which Shakespeare said: "Put not your trust in a woman's promise, a horse's strength or the seventh inning

of a ball game."
The first inning looked like, the promise of a farce, as far as Cleburne's part went. After the visitors had gone out in one two three order, Barry opened with a double to center. A assed ball let him reach third and then Anderson scored him with a wild pitch. Carlin got to first on Aiken's error. Cavender was hit by a pitched ball. Boles then bunted to Anderson, whose wild throw to third let Carlin score. Cavender also got in before the bail was recovered, but Collins sent him back to third. It looked like the horse play had stopped when Wilson and Salm struck out, but Abrogast muffed a fairly easy hit by Clayton, letting Cavender and Boles in. Walsh struck out and finally ended it.

In the second Anderson made a present of a run to Walsh after the latter's wingle had got him to first. With the bases full, Salm was given a walk, forcing Walsh in. Salm got the run in the third, after walking to first. Clayton's sacrifice and Barry's single did the business.

No more runs came Fort Worth's

All of Cleburne's circles fe'l in the seventh, when Shelton was hit by a pitched ball. Powell fanned and Poindexter died going first as a result of neat stop and throw by Clayton. Adams walked. The abrogast singled down along third base, scoring Shelton and Poindexter. Salm's error let Anderson get to first and Whiteman score. Aiken's single scored Abrogast, ending the run-getting.

A feature of the game was the brilliant pitching of Walsh up to the seventh inning. Until that time no Cleburne player got either run or hit.

Notes of the Game

The first part of the game was played with the speed of a back-lot match. It required over an hour to complete the first four innings. N N N

Salm is showing improvement at first. He handled a couple of high throws from Carlin Monday in major league style.

Clayton's work at second is one of the enjoyable things a fan gets to see. He plays all over his territory and plays it well.

Gfroerer probably will be back in the game this afternoon. The fans missed him Monday, although Barry made a good substitute.

\* \* \* Berry's throw to second is improving. He nailed Shelton in the first inning Monday and should have gotten credit for another assist in the seventh, but Collins called Poindexter safe.

Salm wiggled out of a dangerous box between third and home in great shape. Berry was at the bat and it looked as if the two were about to attempt a squeeze play, when Powell tossed the ball to Shelton. The latter had to go forward to meet it, and as he jumped ahead Salm jumped back, getting a start that put him back safely on third.
