Pictures of American Schools Go to China By Associated Press.

NEW YORK, May 24 .- The board of education adopted a resolution at their meeting yesterday to send fifty lantern slides to their excellencies Tuan Fong, viceroy of Fukien and Tai Hung Chi, assistant secretary of the Chinese treasury. The slides contain pictures of public schools in this city, roof gardens, recreation centers, kindergartens and other educational activities. The Chinese officials had heard about New York spending nearly \$30,-000,000 a year on the education of its children and applied for photographs of the work carried on.

HISTORIC HOME WILL BE RAZED

Blackstone Building in Chicago Sold for \$500,000

By Associated Press. CHICAGO, May 24.-Another of Chicago's historic homes is to go. It was announced yesterday that Mrs. Timothy B. Blackstone, widow of the former president of the Chicago & Alton railroad and founder of the Blackstone memorial library in Kenwood, has sold to Otto Young for \$500,000 the family homestead on the northwest corner of Michigan avenue and Hubbard court.

In spite of the large price offered, Mrs. Blackstone was extremely unwilling to part with the place which has been her home for more than forty years. When she finally consented, it was with the stipulation that Mr. Young would tear the building down as soon as she left, allowing no one else to occupy it. It will be razed accordingly early next spring, Mr. Young securing possession on Janu-

The lot upon which the house stands has a frontage of eighty feet and a depth of 172 feet. As the building itself was given no value in the transaction, the sale price represents a value of \$6,750 a front foot, and a little more than \$36 a square foot. This is easily the record price for land that far south of Michigan avenue. The building is of brick and three stories high. The interior is finished

ROAD INCORPORATES

Railway to Be Built Within El Paso County

Special to The Telegram. AUSTIN, Texas, May 24.-Articles of incorporation of the Organ Mountain railroad of Texas were approved today by the attorney general and filed in the state department. The principal office is El Paso. The capital stock is \$100,000. The purpose is the construction of a railroad from El Paso to the boundary line between the territory of New Mexico and Texas, northerly from El Paso, about fifteen miles, the line being entirely within the county of El Paso. The incorporators are Harris Walthall, D. Y. Hadley, A. S. Cox, A. M. Walthall, H. W. Fall, W. S. Crombie, Dan M. Jackson, J. W. Eubank of El Paso, N. D. Streeter, Philadelphia, and Adrien A. H. & T. C. ROAD **CLOSES ITS CASE**

Hearing on the Reduced Fare Proposition Nearly Ended

Special to The Telegram. AUSTIN, Texas, May 24.- The railroad commission resumed its hearing today on the proposition to reduce the passenger fare on the Houston and Texas Central. Judge Garwood introduced an estimate of the value of the road up to Jan. 1, placing it at \$22,964,-343, not including rolling stock, valued at over one million dollars. General Passenger Agent Robbins took the stand and testified that if the rate were reduced on his road other roads would have to voluntarily reduce rates, as sentiment would demand it. Besides, he said, his road's earnings were below what they should be and the reduction would further cripple the revenues. Judge Garwood said that he thought the proposed reduction was directed at the Central for the reason it shows an alleged surplus. General Superintendent Hawkes testified as to the expense of handling business, being 2 to 1 in favor of state traffic. Traffic Manager Jones testified that the completion of the Trinity and Brazos Valley deprived his road of considerable business. This closed the case for the

Central. General Attorney Stedman of the International and Great Northern and General Attorney Freeman of the Texas and Pacific submitted figures showing that the proposed reduction would cause their lines to suffer and that there would be reduction on all their business of one-sixth of the present fares collected, as they would have to meet the reduced rates on the Houston and Texas Central or lose business at

competitive points. Colquitt Keeps Seat

As told in Wednesday's Telegram, Judge Garwood filed a motion to disqualify Commissioner Colquitt from sitting in the hearing on the ground that Colquitt had publicly prejudiced the case (referring to Mr. Colquitt's campaign speech at McKinney). Mr. Colquitt replied, saying that he

was glad the motion was presented, as in his opinion the commission was not a judicial tribunal. If the commission were a court, that the legislature would have provided it with an attorney to look after its orders. That if he has a wrong opinion in the case he will change it if he is convinced of his er-

He did not think that his associates had jurisdiction to remove him, or to prevent him from sitting in any case. That if he was disqualified for his opinion, Judge Storey was likewise disqualified, for he had been reported in the newspapers as being opposed to

the proposition. When Mr. Colquitt concluded, Judge Storey and Mr. Mayfield said that they were of the oinion that the commission was without authority to remove any member for any purpose whatso-

Special to The Telegram. DES MOINES, Iowa, May 24.-The Cumberland branch of the Presbyterian church passed out of existence when the Presbyterian general assembly adopted resolutions for the union of the churches this morning. The existing boards will carry on the work of the church until next year, when the actual consolidation will be made

By Associated Press. DES MOINES, Iowa, May 24.-"I do solemnly declare and hereby publicly announce that the basis of reunion and union is now in full force and effect and that the Cumberland Presbyterian church is now reunited with the Presbyterian church in the United States of America as one church." With these words uttered before the general assembly today, Moderator Hunter Corbett officially established the union of the Cumberland church with the Presbyterian church in the United States of America. The big assemblage burst into a storm of rejoicing, handclasping, cheering and waving of handkerchiefs gave expression to unalloyed pleasure. the consummation devoutly wished and worked for through many years, despite many obstacles, had become a reality. Yesterday a telegram was received from Decatur, Ill., announcing the adoption of the joint resolution by the Cumberland church. At the opening session of the Des Moines convention a similar action was taken and messages to that effect were dispatched

The church union accomplished at Des Moines and Decatur adds to the Presbyterian church in the United States of America (northern Presbyterian), a membership of about two hundred thousand, of whom thirty-five thousand reside in Texas. Hereafter as a result of the union the name 'Cumberland' will be dropped from the Presbyterian churches heretofore bearing that title. The Cumberland Presbyterian church separated from the Presbyterian church in the United States of America in 1810. One primary cause of difference was the doctrine of predestination, the Cumberland Presbyterian holdings that the parent church held too fatalistic a view on this doctrine. Another point of difference was the licensing of ministers, not college graduates, need for this growing out of a largely increased number of churches, following extended revivals at the beginning of the last century. Since that time the Presbyterian church has modified its predestinarian doctrine and it also now licenses lay ministers. The necessary steps toward the union which was consummated Thursday have been in progress five

CITY ATTORNEYS MAY ORGANIZE

Effort Being Made to Form State Association

Special to The Telegram. WACO, Texas, May 24.—A letter is being sent out by City Attorney Lud T. Williams to about twenty city attorneys in leading cities and towns in Texas, asking about the formation of an association of the city attorneys of the state. If replies are favorable a meeting for the purpose of organizing will be called at some place designated by the replies. City Attorney Williams believes the organization would be most useful and that many matters of great municipal moment could be systematized and that precedents could be established as to statutory matters, avoiding much confusion and many mistakes. The association could prepare and recommend laws for a general municipal statute, he thinks, out of which would come precedents which would settle many matters which are now undetermined owing to the haphazard and independent line of procedure followed. He thinks that one matter which could be taken up specially at once is that of a constitutional amendment providing for fixing a lien against homesteads by the front foot rule so asto facilitate paving in the cities. This question was raised in Dallas after he had prepared his letter, mentioning this subject. He recommends that a meeting for organization be held and that a second meeting be held just prior to or just after meeting of the next legislature.

DURYEA GETS \$13,000

Jury's Verdict Goes Against Georgia and Alabama Iron Company

NEW YORK, May 24.- A special to the Times from Nyack says: William Duryea of Nyack brought suit in the Rockland county supreme court at New City yesterday against Eugene Zimmerman, the railroad financier of Cincinnati; William C. Rogers, N. Cockrane Brown, William C. Perrin, Daniel Bleachman and Adelaide H. Brown as executors of Archer, to recover \$20,000 which he invested six years and a half ago in stocks of the Georgia and Alabama Iron Company. He was led to purchase this stock, he alleged, through misrepresentations and the stock proved worthless. Mr. Zimmerman was summoned to tell what he knew about the matter. The jury last night rendered a verdict for Mr. Duryea for \$13,000, with 5 per cent allowance. He keeps his stock.

\$25,000,000 LOAN **PENDING IN PARIS**

3n Associated Press. NEW YORK, May 24.-The Times

A group of American insurance companies according to information current yesterday in well informed banking circles is arranging a loan of large amount in Paris to permit them to provide for their San Francisco losses without depending on the New York money market. The placing of another large loan in Paris following the Pennsylvania railroads borrowing there, woeld lead, is was thought yesterday, to further large imports of

The report that local companies were seeking the loan, although accepted in banking circles, was discredited last night by officers of several of the large New York fire insurance companies, who said there was no truth in the report so far as their companies were concerned. It was pointed out, however, that the loan was probably being arranged in the interest of some of the smaller New York companies and probably also for some large companies whose home offices are in other states The loan was said to amount to \$25,-

000,000 or more, the rate to be at 4 per cent and the loan to run a year. The principal significance attached to the matter was that the New York money market would be relieved of the necessity of providing the funds needed to pay off the losses of many fire insurance companies.

DEATH PENALTIES ARE TO STAND

John Boyd and Henry Brown Will Have to Hang

Special to The Telegram. AUSTIN, Texas, May 24 .- The court of criminal appeals yesterday affirmed two death penalty cases, being the case of John Boyd from Fayette county and Henry Brown from Medina

Boyd was convicted in Fayette county and given the death penalty for a criminal assault upon a Bohemian woman named Annie Bores. The main contention of the appellant in his appeal for a reversal of the case was that the evidence was insufficient to convict him, but the record of the case presented to the court of criminal appeals shows beyond a doubt that the evidence was sufficient to sustain the conviction, the prosecutrix having fully identified Boyd, the clothing he wore at the time of committing the crime, also the tracks he made in the wet sand.

Brown, who is a convict serving out two sentences, one for ninety-nine years and one for life on murder charges, was convicted of the murder of a fellow convict named Taylor. Brown and Taylor were at work on a railroad in Medina county, having been hired to the railroads with other convicts. Brown and Taylor became involved in a quarrel while at work loading a car of gravel and Brown struck Taylor on the head with a shovel and killed him. He was tried and given the death penalty.

A Novel Claim The principal contention of the appellant for a reversal of his case was that he could not be tried until he had finished serving the two sentences now hanging over him. The court of criminal appeals, however, did not agree with this contention. Touching on this

point the court says: "We hardly think that the question can be seriously argued. We have not been cited to any authorities nor are we aware of any provision of law, statutory or otherwise, that would prevent the trial and conviction of a convict for homicide, or for any other offense, committed while he was detained as a prisoner by virtue of his prior conviction. It would take very strong reason or authority or an express statute to show that a person confined in the penitentiary could not be tried and punished for homicide of one of his fellow convicts."

on an extensive scale.

NEW YORK, May 24.—Colonel Max C. Fleischman of Cincinnati and his bride, Sarah Sherlock, sailed today on the Kaiserin Augustine Victoria, en route to Tromsoe on a summer honeymoon trip to Franz Josef land. They and friends who are going with them will meet at Tromsoe, Norway, the Norwegian exploring steamer Laura. After completing the stock of a year's provisions and getting a supply of dog sled teams, the steamer will proceed to the far north, expecting to get back in October next to Tromsoe. The expedition is not to be a "dash for the pole," but a hunting and fishing trip

Yesterday Colonel Fleischman entertained the members of the Arctic Club. Before sailing poleward, every member of the club receives a silk club flag. When this is brought back it is supposed to be marked with the highest latitude reached. Such a flag was presented to Col. Fleischman yesterday at the luncheon and will be carried by him as far as the Laura will carry the honeymoon party northward. The colonel assured his guests that he would neither appear on the lecture platform nor print a book of hard-luck stories of the Arctic regions.

TREPOFF BACK OF REVOLUTION

Russian Government Hesitates to Grant Amnesty

CONFLICT AT HAND

Inaction Certain to Arouse a Storm of Protest in the

Lower House By Associated Press. ST. PETERSBURG, May 24.-The government seems to be hesitating about executing the resolution taken a

week ago to grant partial amnesty. An official statement issued last night justifying the government in not granting plenary amnesty seems to designate a way for refusal on the ground that under the present circumstances the release of the political prisoners deserving freedom can be left to local authorities. Nothing could be more irritating to the liberals than for the emperor to relegate discretion granting pardon to every man responsible for the wholesale arrests which occurred during the winter, and such decision is sure to arouse a storm in the lower house and increase the danger of a conflict. The hand of General Trepoffe, who engineered the protests of branches of a league of Russian people (Black Hand) in the interior, which were cited in the official statement as evidence that the Russian masses were opposed to amnesty, is seen in this new shift in the government's position and again raises the spectre of a counter-revolution.

PALE DELICATE WOMEN AND GIRLS The Old Standard Grove's Tasteless Chill Tonic, drives out malaria and builds up the system. Sold by all dealers for 27 years. Price 50 cents.

DO YOU LOVE your baby? You wonder why he cries. Buy a bottle of White's Cream Vermifuge and he will never cry. Most babies have worms, and the mothers don't know it. White's Cream Vermifuge rids the child of worms and cleans out its system in a pleasant way. Every mother should keep a bottle of this medicine in the house. With it, fear need never enter her mind.

Married women after marriage. The bearing of children is often destructive to the mother's shapeliness.

Every woman covets a shapely, pretty figure, and many of them deplore the loss of their girlish forms All of this can be avoided,

however, by the use of Mother's Friend before baby comes, as this great liniment always prepares the body for the strain upon it, and preserves the symmetry of her form. Mother's Friend overcomes all the danger of child-birth, and carries the expectant mother safely through this critical period without pain. It is woman's greatest blessing. Thousands gratefully tell of the benefit and relief derived from the

use of this wonderful druggists at \$1.00 per bottle. Our little book, telling all about this liniment, will be sent free.

Sunday Games

For the first time since the present Texas league season opened the Fort Worth Panthers are scheduled for an

appearance on the Dallas grounds

Thursday afternoon, to begin a three-

game series. According to the dopesters the Panthers ought to do something in this series to loosen Dallas' hold on first place with an 800 percentage. Dallas has not been winning recently with the regularity which characterized its games a week or two ago, while the Panthers have shown some encouraging signs of improvement on their present tour away from home. While t is true the Panthers have failed to break even on out-of-town games, the team is showing great improvement at the bat. Salm keeps up his good form. Cavendar is nearly always sure for something good, Clayton can also be depended on and Gfroerer at last sems to have caught the swing. He scored a home run Tuesday and a triple Wednesday. Umpire Collins, who made a hit with the fans in practically every town on the circuit has been released by President Roberts following affidavits charging him with unfairness to several players. The release came at the end of the Dallas-Greenville series. Who made the charges or the instances of alleged unfairness are not given out by President Roberts, but Collins' dismissal will be a source of regret to fans all over the league In Fort Worth Collins satisfied better than the majority of blue-shirt wearers who have been seen here in many seasons. Jarvis Case Decided

At San Antonio Wednesday the dispute between Baton Rouge and San Antonio over the alleged sale of Pitcher Jack Jarvis was decided in favor

The plaintiff alleged that the San Antonio baseball association bought the player last season from the Baton Rouge association and obligated itself to pay \$100 for him. The San Antonio association argued that the player was not bought by an authorized agent and was given a verdict.

RAIN GENERAL THROUGH SOUTH

Florida and Texas Both Have Heavy Showers

In the weather realm, the official in charge of the local bureau said Thursday morning that Florida has had known anywhere in the south for some time-all within the past thirty-six hours, being now in the neighborhood of nine inches precipitation. Texas has likewise been visited with showers from east to west and from

north to south. . Thursday morning the rain area was reported to be over the Rocky mountains. In Colorado they know when rain is coming: in Kansas they can see it moving across the sunburnt plains, while in Texas people know about the rain when it arrives and when Houston street begins to look like a creek. The official forecast indicated Thursday morning that scattered showers would visit Fort Worth and vicinity, following those of Wednesday and Wednesday night.

Generally cloudy weather with heavy rains during the night between Iowa Park and Dalhart is reported by the Denver Road. Temperatures at 7 line, 60; Amarillo, 55; Childress, 50, and Wichita Falls, 56. Railroads report showers from Waco to Marlin and east to Marshall and clearing weather west and north.

Official statement is: "The low barometer area noted in the southwest yesterday has moved a little northeastward, being centered at Denver this morning, continuing to cause rain and thunderstorms in the Rocky mountain states, in the extreme northwest and in the Mississippi and the Missouri valleys, heavy precipitation being noted in Kansas, South Dakota and Minnesota.

"The 'low' area continues over Florida, resulting in rain at Jacksonville, 8.14 inches being recorded during the past 48 hours. "The cotton belt is generally cloudy and showery.

"Texas reports heavy rains at Brownwood, Mexia and Corsicana, Waco and Brownwood report close to 3 inches precipitation." Our own heart, and not other men's

JUDGE BELL'S LLANO SPEECH

He Discusses Increases in Expenses of the State

WHY HE IS RUNNING

Believes His Experience as Attorney Will Stand in Good Stead in Governorship

LLANO, Texas, May 24.-Judge C. K.

Bell of Fort Worth, candidate for governor, addressed a large crowd here in the interest of his candidaey. He spoke in the auditorium, which has a seating capacity of 1,500, and it was comfortably filled. Judge Bell pointed out how the expenses of the state government had in-

Special to The Telegram.

creased during the past ten years. He called attention to the Confederate pension item of \$500,000 per year; also \$140,000 per year for the three additional normals, and the additions to the North Texas hospital for the insane. He contended that we must raise additional revenue, and he did not believe the people would ever consent to close a single state institution or cut off the pensions that now go to the heroes of the great war. Candidates who are trying to fool the people by telling them that they would run the state on the same amount of money that Governor Culberson did are up against it when the above items are to be considered.

His objections to exempting the homesteads from taxation, and his remarks favoring an enforcement of all the Jaws, were loudly applauded. He briefly referred to his record while he was attorney general, in connection with the charge made by his opponents that he was being supported by the corporations, saying that during the four years he was attorney general there were more charters forfeited than during the fifty years prior to that

Judge Bell said he regretted that the esperation of some of his opponents had driven them to the necessity of resorting to the character of campaign which called for this statement from him; that he was aware that such tactics would not deceive the people, but that he had thought best to submit the statement which he made, and to challenge its refutation.

Speaks of His Record In speaking of monopolies, he told of

a gigantic trust that in 1903 was be-

ginning to invade Texas, after it had successfully fastened its fangs in all the other southern states. Our antitrust acts of 1889 and 1895 had been decided unconstitutional, owing to exemptions in the law, and Texas was at the mercy of this cotton seed oil trust that was just getting a foothold here.

The regular session of the Twenty-eighth legislature was about to adjourn without passing an anti-trust law to take the place of the law that had been knocked out, and Judge Bell knew that if two years were allowed to pass without the enactment of a satisfactory anti-trust law the state would be in the meshes of this trust. He went to Governor Lanham and laid the question before him, and he very promptly told Judge Bell to prepare a bill drafting a new anti-trust law and he would send it up to the legislature with a special message calling on the lawmakers to consider and pass it at once. This law contained no exemptions of any kind, as all combinations calculated to restrain legitimate trade were embraced in its provisions. "This act today," said the judge, "gives Texas the best and most effectual anti-trust law of any state in this country." This

statement was applauded. He announced himself as a champion of the law, and said to his hearers, let us stand by the law. This was heartily approved by every one present. He closed with this peroration: have no desire to be the governor of this state for the mere name of being governor. My reason for aspiring to this high office is because I think, as a result of the familiarity with the affairs of the state which I acquired as

lected for that position. The friends of Judge Bell here say that he will carry the county by a good majority. Judge Bell spoke at Thorpe Springs Wednesday afternoon and at Gran-

CALLS ASQUITH AN ASSASSIN

English Woman Suffragist Makes Sensational Plea

HOUSE BARRICADED

Immense Crowd Harangued From Second Story of Her Residence

By Associated Press. LONDON, May 24.—Mrs. Montefiore one of the leading women suffragists under whose lead many women have pledged themselves not to pay their taxes on the ground that taxation without representation is tyranny, harangued a great crowd of women suffragists from the second story of her house near London today. soundly denied the chancellor of the exchequer, Asquith, as an assasin, because he stood in the way of advance of the women's movement and the chief secretary of Ireland, Brice, and Captain John Sinclair, secretary for Scotland, were also bitterly assailed. Mrs. Montefiore informed her hearers that the women who were refusing to pay taxes were taking this course in order to advance education of the cabinet ministers, and warned the latter of the determination of those conducting a campaign to obtain their indisputable rights. She asserted that the cabinet ministers who opposed the movement were marked men and suggested that her hearers break the windows of Mr. Asquith's house. She would do so herself, she declared, were it not for the fact that she was engaged in defending her residence against tax collectors and

Runaway Declared Due to the Rush of Train

R. M. Dorris, who lives near Benbrook, has sued the Texas & Pacific ailroad for \$1,900 alleged damages for njuries received by his wife.

The petition alleges that April 14, 1906, a team of horses hitched to a wagon in which were plaintiff and his wife, were frightened by the train rushing near them, causing the horses to run away, overturning the wagon, throwing plaintiff's wife to the ground, and breaking three of her ribs and causing other serious injuries.

Contempt Charged.

Tom Jackson, Will Jackson and W. M. Merrell were fined \$50 each and sent to jail by Judge Irby Dunklin Wednesday afternoon for refusing to answer questions asked them by the

The three men are negroes and were before the grand jury Wednesday to estify in an investigation of selling on Sunday and open saloon cases. They declined to answer certain questions, Merrell claiming that a truthful answer would criminate him, the other two giving no reason for no answering. Judge Dunklin informed Merrell that he would not be incriminated by answering the questions the grand jury asked him, but still he refused to answer, whereupon the three were fined \$50 each and committed to jail until they consent to testify before the grand jury.

Division Results in Submission of Matter to Committee

Special to The Telegram. GREENVILLE, S. C., May 24, 2:30 p. m.-At the morning session of the Southern Presbyterian general assembly the following speakers were heard in behalf of Dr. Caldwell of Fort Worth: Dr. H. L. Smith, Davison college; Dr. E. M. Munroe, Milford, Texas; Dr. W. E. Boggs, Jacksonville; W. Moore Scott, Memphis; Bunyan Mc-Leod, Bennettsville, S. C.. To sustain the synod: A. C. Hopkins, Hampton, Va.; B. H. Young, Louisville, Ky.; Dr. R. H. Fleming, Lynchburg, Va.; Dr. Thorn Rice, Atlanta. The second section of the complaint, which related to the synod's severity of action, etc., was withdrawn by consent after the vote was taken.

Special to The Telegram. GREENVILLE, S. C., May 24.—The vote on the Caldwell case was called at 12:30 o'clock, resulting as follows: To sustain Caldwell, 79; to sustain in part, 11; to sustain synod, 89. A contest followed. A vote to sustain in part may be contested. Great excitement

prevails on the floor. The assembly agreed to appoint a committee to render the verdict of the court. Committee will decide legality of counting for Caldwell those who voted in part to sustain his complaint. It is believed the withdrawal of the second item of the complaint will cause this eleven to vote fully to sustain Caldwell, which means a victory for him. The committee will report this afternoon after a reecss.

KIND OF PAVING **PROMISES FIGHT**

Hemphill Street Material Matter of Difference

Question of the paving of Hemphill street from Magnolia avenue to the city limits, as outlined in a communication sent to the council by practically all property owners along the portion of the street named promises a warm discussion as to the kind of paving to be used.

The communication asked for rock asphalt, and this is understood to be the choice of the majority of the petitioners. The city, which will pave the intersections, if the petition is granted, however, has favored vitrified brick in its work and it is reported will try to secure its use, basing the effort on results secured in places where the style of paving has already been used. It is understood the Northern Texas Traction Company, which will pave the part of the street used by its tracks, also favors the brick. No meeting of the street committee

DIVERSITY AMONG CATTLEMEN

Bexar Hotel News Stand.

It is not a long jump from the Odessa country to the Concho country, as jumps are reckoned in Texas. There may be a difference of 150 miles or such a matter, but the difference in sentiment among the cattlemen of the two sections is much wider than that, A meeting of San Angelo cattlemen was recently held and the following extract is from the report they gave out of the official proceedings:

Some of San Angelo's prominent stockmen held a meeting Monday evening and discussed the question of the prosecution of the Fort Worth Live Stock exchange and commission men as a trust. They endorsed the action taken by the attorney general as highly commendable in him as an honest, capable and efficient officer in attempting to enforce the law, maintain the dignity of the state and protect the honest stock raiser. who has no interest in the commission business, against this iniquitous trust.

The cattlemen of the Odessa country have also held departure. a public meeting and the following is given out as an authoritative report of the business transacted at that meeting:

ODESSA, Texas, May 18 .- At a meeting of cattlemen of the southern plains today, among whom were included some of the wealthiest and most influential stockmen of Texas, as well as leading members of the cattlemen's association, the issue was sharply drawn with the Concho country stockmen, in regard to the | States senate. attitude the cattlemen should take relative to the antitrust suits now pending against the Fort Worta Live Stock exchange and the commission men as a

The action of the Concho cattlemen, in presuming to criticise the convention and its action, was ridiculed and a suggestion was laughingly made that said cowmen "secede from the convention and declare a new declaration of independence." Among those strongest in these convictions were W. N. Waddell, H. M. Pegnes, G. F. Cowden Jr., E. S. Martin

It is evident from a casual study of the situation that the conditions prevailing in the Concho country have not yet extended to the Odessa country, and there is a marked diversity of public sentiment. The Concho cattlemen seemed inspired by the belief that the Fort Worth Live Stock exchange is a trust to such an extent that they are willing to contribute of their means in aid of its prosecution. The Odessa cattlemen, on the other hand, characterize the commission men as the cattlemen's best friends and condemn the suits that have been filed against the exchange in no hesitating or half-hearted manner. The Concho cattlemen are jokingly invited to secede from the state organization, but it is hardly probable that eventualities will proceed so far.

There is a great work within the organization of the Cattle Raisers' Association of Texas to be done, and all cattlemen are directly interested in the result. There may arise minor differences between the membership over questions of expediency, but these differences can never assume the proportions of open revolt. The majority must rule, and the wisdom of majority rule in the association heretofore has not been successfully contradicted.

It is a little bit unfortunate that these differences should arise, but they come up in all organizations. The fact that they do arise is not an evidence of schism, but an indication that some men are disposed to do a little thinking for themselves and have the moral courage to speak their honest convictions. By the time the next annual meeting of the association Is held these differences will all be happily adjusted and all will be serene within the ranks.

JUDGE BELL AT WACO

Judge Charles K. Bell of this city, the leading candidate for governor of Texas, is indulging in some very plain talk in the campaign speeches he is now making In different portions of the state. He has been so persistently misrepresented by those who are seeking to stem the popular tide that has set so strongly in his direction that it is no wonder the distinguished | for the next state democratic convention than Fort andidate is determined to make his position perfectly Worth.

clear on every issue affecting the welfare of the people of Texas. The following review of his Waco speech

Judge Bell was introduced by Hon, W. M. Sleeper. Judge Sleeper made some very complimentary introductory remarks calling attention to Judge Bell's services as a public man on the bench, in state office and in congress.

The first question of public interest involved in the race for governor discussed was that of taxation. The speaker said there were various methods of levying taxes, but the one which proved the least burdensome was that of direct advalorem taxation. In addition to levying a tax on all property subject to taxation there as railroad franchises and franchises of other corporations which enjoy valuable privileges, that should be taxed and while it may be necessary to amend the constitution to give the legislature the authority to properly bring this property under the tax law it should and doubtless will be done.

On the subject of occupation taxes, Judge-Bell said he had received queries asking if he would recommend a repeal of the occupation tax law if elected and if he would try to have a demand inserted in the democratic platform for repeal of the occupation tax law. He answered both question in the negative. Other candidates for governor had replied differently to the same questions. He did not see how any candidate for governor could answer these questions any other way than he had answered them. The amount of money necessary to run the state government could not be raised at present in the rate of taxation if the occupation laws were repealed. He favored the repeal of the tax on all useful occupations as soon as the financial condition of the state would permit it, but ne did not believe such conditions would prevail at the time the next governor is to be inaugurated and therefore he would not pledge himself to recommend repeal of any occupation tax.

Judge Bell ridiculed the proposition of one of the candidates for governor to exempt homesteads from taxation. He said that would relieve many citizens who were best able to bear the burden of taxation and increase the taxes of those who were poor and least able to bear such burdens. He pointed out that the rich man who owned a fine residence would be exempt from taxes on the homestead, while the poor tenant living in a cottage would not only pay taxes to his landlord, but would have to pay an increased sum on his personal property.

The speaker closed his remarks on taxation by opposing the proposition to exempt railroads from taxation for county purposes, assessing them only for state purposes, following his Hamilton speech on this subject. He was not in favor of any experiments or new schemes in taxation, but would endeavor to secure reforms in methods in the interest of the people. He had been charged with being too conservative.

If to enforce the law as it stands on the statute books is conservative, he was conservative. To promise more On file at Manitou, Colo,-Th eMansions' Reading | than that he would not for any number of votes. He believed in the enforcement of the law and would do as he had done when in office, as much as any man to see that the law was enforced. Right there he stopped. If those who charged him with being too onservative for legislation of doubtful constitutionality, to excite the people and arouse the prejudices, he was proud to say he would not do anything of the kind. They had accused him of failure to enforce the law while attorney general. He had heard of such talk in Waco and he desired to meet that accusation by pledging that if the records do not show that he caused the forfeiture of more charters and permits of corporations, foreign and domestic, for failure to comply with the law than were forfeited during the eight years prior to his induction into the attorney general's office he would retire from the race for governor, and, all the information he needs in his business. money in penalties from corporations for violating the anti-trust law during his incumbency as attorney general than was collected by all his predecessors combined, he would withdraw from the race

The speaker followed his Hamilton speech closely in discussing the anti-trust law. He claimed that Texas had the most effective anti-trust laws in the country. He believed the Texas laws were sufficient to protect the people of Texas to the full extent of the state's power which could not always reach large corporations which operate outside of the state. Like all other laws abridging the license or privilege the anti-trust s violated sometimes, but it can and ought to be enforced like all other laws.

The talk of disruption in the ranks of the Cattle Raisers' Association of Texas is the veriest rot. If there are members of this great organization who are displeased with the manner in which its affairs are being conducted, they have the privilege of withdrawing their membership. But they will not be permitted to pull the house down when they conclude to take their

A short time ago Colonel Dick Wynne of Fort Worth, after considerable "advance notice" advertising, submitted and had published a red-hot article on political conditions in Texas, in which he declared that he wanted to see a radical state administration; that he was heartily tired of "conservatism," and appealed to the people to arouse themselves and "recapture their government from corporate domination.' We agreed with much of what Colonel Wynne said, which accounts for our very great surprise at reading the announcement that he is taking the lead in the fight for Judge Bell, the most "conservative" candidate, judged by his speech at Hamilton, that ever presented himself for governor of Texas. A gentleman recently found the following letter in the chamber of his negro coachman who had lately been dismissed from service: "Dear Mr. Goings: Last night I dreamed that you

and me was walking in a garden full of beautiful llowers, lilies, and roses, and pineys, but you were the peautifullest of all, Mr. Goings. I would risk my life crossing the ocean on a spiderweb to kiss your sweet lips. Mr. Goings, let me give you a hint of my love. Please send me a bottle of colone." "From your lovingest,

MILLERS EXPECT SUPPLY INCREASE

Crop Conditions Discussed at Annual State Session

At the afternoon session of the Texas State Millers' convention President J. C. Whaley of Gainesville reported after a thorough investigation of crop prospects that the wheat acreage of Texas for this year is about 80 per cent of the acreage of last year and that the yield for this year will be about 80 per cent of the yield of the year 1903, that is if conditions remain good through the season. Frank Kell of Wichita Falls, stated that he believed there would be 10,000,000 to 12,000,000 bushels more available mill wheat this year than last year. Reports from Kansas say that conditions in that state are good and that there will be a wheat yield this year between 75,000,000 and 90,000,000

Notwithstanding the unsettled weather conditions in Oklahoma Territory, which has delayed to some degree the growth, the wheat yield will be about 25,000,000 bushels. Frank Kell stated that the wheat yield in Texas this year would be 12,000,000 to 15,000,-

000 bushels. F. M. Rogers of Fort Worth addressed the association using as his subject "Friendly Relations Among Members; Its Effect on Business." He

said in part: "There should be a very friendly relationship between the members of this association. We can no longer have sentiment or love for every one in the Millers' Association; competition makes it impossible; but we can have a brotherly feeling, a wish for good luck. a hope that you will do well for ever; member. Each of us is bound to succeed with that friendly feeling for our

brother man." Mr. Rogers spoke briefly of the pure feed bill and the adjustment of rail. road rates in the association. The other speakers of the afternoon were M. L. Moore, of Commerce;; Hugo Ross and Charles H. Ridgeway of

Kansas City. The following officers were elected for the ensuing year: J. P. Burrus, McKinney, president; F. M. Rogers, Fort Worth, vice president; B. R. Neal, Dallas, second vice president, and Ed K. Collett, Fort Worth, secretary-

The Pain Family

You know them; they are numerous, and make their presence felt everywhere. The names of the family are Headache, Toothache, Earache, Backache, Stomach ache, Neuralgia, etc. They are sentinels that warn you of any derangement of your system. When the brain nerves become exhausted or irritated, Headache makes you miserable; if the stomach nerves are weak, indigestion results, and you double up with pain, and if the more prominent nerves are affected, Neuralgia simply makes life unendurable. The way to stop pain is to soothe and strengthen the nerves. Dr. Miles' Anti-Pain Pills do this. The whole Pain family yield to their influence. Harmless if taken as directed.

"I find Dr. Miles' Anti-Pain Pills an excellent remedy for overcoming head-ache, neuralgia and distressing pains of all sorts. I have used them for the past seven years in this capacity with the best of results." MRS. JOE MERRILL, Peru, Ind.

SESSIONS DAILY

Address to Be Delivered by Rev. W. D. Gentry Who Will Try to Organize Assembly Here

A series of revival meetings continuing three weeks will be held in Fort Worth under the direction of Rev. Wm. D. Gentry, of Lake Kerr, Fla., the presbyter of the "Assembly of God." The meetings will be held at the city hall beginning with a session at 7:39 o'clock Thursday night. Thereafter meetings will be held at 3:30 o'clock in the afternoon and 7:30 o'clock at night for three weeks excepting for two intervals. On May 29 and 30 the colored schools, commencement exercises will be held and June 11 and 12, the Colored Knights of Pythias will meet at the city hall.

The purpose of the revival meetings is to bring before the public the teachings of this "Assembly of God." Formation of a local assembly will be attempted and the assembly selects an ordained elder, who has entire charge and oversight over the assembly, as parents have over a family of children. Rev. William D. Gentry intends to unite all Christian churches and sects under one organization, the "Assembly of God," the purpose of which shall be to "Preach the Gospel as the apostles preached it in the early days; to practically demonstrate and secure Christian unity according to the scriptures; to work in unity with all Christians in proclaiming the full gospel of Christ, in securing deliverance for those who are bound to evil deeds, and to make plain the fact of the existence of the triune of God, the Father, Son and Paracletos or Holy Spirit.'

Rev. Gentry comes to Fort Worth from Cuthbert, Ga., where he conducted a series of regival meetings for three weeks, meeting with considerable suc-

BIG WHEEL CAST IN FORT WORTH

Mould Weighing 15,000 Pounds Successfully Taken

The Fort Worth Machine and Foundry Company of this city Wednesday afternoon cast the heaviest piece of iron work ever done in the state of Texas, a fly wheel weighing 15,000

After three days' work on the making of the mold in sand, all was declared in readiness for the white-hot liquid iron to be poured, about 4:30

A short time ago the Fort Worth

Iron and Steel Manufacturing Company gave an order for the fly wheel for use on their big engine in the plant. The Fort Worth Machine and Foundry Company at once set to work an expert pattern maker, who soon had a wheel identical to the one ordered and made of wood. The work then passed to the molders, who prepared a ped of soft molding sand on the ground in the large foundry room. They then took the pattern and proceeded to make the print. In doing this the wheel of wood was laid flat in the sand, which is packed and tampered and lightly sprinkled with water and then tampered more until hard. The pattern was then lifted, leaving the print of one side of the wheel-to-be. The same process secures the print of the reverse side of wood in another bed of sand nearby. The two prints were then placed together, one flat upon the other, making a hollow mold. The sand prints were made in two large flat trays, making possible their moving. The upper tray was then weighted down and a trough marking the diameter, was placed on top of all. Many perforations were made along the bottom of the trough to allow the filling of the mold with the liquid iron. About 4 o'clock Wednesday afternoon a fire was started in the bottom of the huge cupola or heating furnace and

at 5:10 o'clock the cupola was a kettle of roaring, boiling iron. The process of heating and melting the pig iron is simple. The chunks are unloaded from above, as is also charcoal,

iron. A powerful fan, causing a continuous blast, keeps the mixture in a white heat. The liquid iron thus secured was then drawn from below into a large ladle suspended from a twentyon crane, which carried the ladle to a tank above and at one end of the trough over the wheel mold. When proper amount of liquid iron was in position, the foreman, who had complete control of the work, tapped the kettle-the white, flaming liquid filled the trough and flowed into the mold. Vents for the escape of gas had been

"Up," shouted the foreman, and the white stream was cut. The experienced eye of the foreman told him the mold was full.

At 5:35 o'clock William Richmond president and general manager of the Fort Worth Machine and Foundry Company, said: "Well, she is done, and indications point to our success.'

Difficulties in Work

There are many dangers to be guarded against. A "blow hole" would make the wheel worthless. A blow hole is the factory name for the clogging of the liquid in some channel of the mold. The mold would be ruined if the sand should cave in along some channel. This is called a drop-up. In two days the wheel will be uncovered from the sand and about five or six days later the cast from wheel will be in condition to be handled. The cost of the wheel, weighing 15,000 pounds and measuring ten feet in diameter, is \$400.

to keep?

An unknown man is killed at the Marathon, an apartment house, Godfrey, a reporter, and Simmons, his detective friend, finding Grace Croydon, an acquaintance of the news-paper man, standing in the room with a smoking pistol in her hand. She proves her innocence of direct connection with the crime and is freed from suspicion.

Lester ,an attorney who knows Godfrey, takes apartments at the Marathon, the two thinking that Tremaine, who lives there and who becomes acquainted with Lester, has some connection with the murder. Cecily, the woman companion to Tremaine, so Lester learns in the course of their acquaintance, keeps a small pet snake, called Fefe, whose species is such that a bite kills the person bitten in a

very short time. Part III Tremaine visits the Delroys, Grace Croydon is there, Tremaine makes leve to her and Drysdale, also one of the house party, becomes enraged as he is engaged to Grace. It is proposed to immerse a pearl necklace belonging to Mrs. Delroy in sea water, to restore its lost brilliancy, two men being engaged to guard it. The elder man thus engaged is killed and investigation shows that Drysdare was the only person supposed to be out of the house during the time just preceding the

Private Estimate Makes Increase in Acreage Less Than 3 Per Cent. Market Not Affected.

Special to The Telegram. NEW YORK, May 24.—Another dull and narrow session was the best offered the talent in the cotton market

ing the increase in acreage at 2.8 per cent and the total acre covered at 27,769,635 acres, was the subject of much comment and corroborating as it did earlier private estimates served to further strengthen the position of the bulls. However, it had no appreciable effect on the day's market, as the date of issuance for the official repost is too near at hand for any outside estimates to startle the market into activity. Nevertheless, the unanimity of opinion among statisticians is having its efect on shorts, and if the truth could be known it is very likely that they are more uneasy over the forthcoming reports than are their enemies on the long side. At any rate the little buying which the market received today was

ing short committments. The Liverpool news was featureless aside from the good spot demand reported, but the local market opened steady with prices 1@2 points above yesterday's finals.

The private estimate did not have the effect anticipated at the start and only 1,000 bales were traded in on the call. The duliness permitted the market to sag a little and prices declined about three points during the first half hour. After this time the market was stagnant, but scattered covering by shorts sent prices up 8@ 10 points from the lowest and the close was steady with prices near the day's best level, Spots were quiet at unchanged prices on a basis of 11.90 for middling.

New Orleans Cotton

Special to The Telegram. NEW ORLEANS, May 24.-The New York Commercial estimate of an increase of 2.8 per cent in acreage did not infuse any life into the cotton market today, although shorts did pay some attention to it because of its practical corroboration of other private estimates, which have been published recently. This was practically the only feature of the news worthy of mention, as Liverpool advices were indifferent except regarding spots, and in this department the bullishness of the heavy sales were minimized by the loss of a point in prices.

The market opened steady with els. prices 1@3 points higher. There was some selling in response to reports of favorable weather, causing a drop of special to The Telegram. 3@7 points, but reducing of short lines was the principal feature of the trading after the first hour and a recovery was soon effected, prices on the upward movement touching a level of 9@10 points from the lowest. The close was steady, with prices one point under the best.

LIVERPOOL, May 24.-The cotton market exhibited a good undertone through the session and although opening prices were hardly up to expectations, being unchanged for old and one point higher for new crop options, sentiment was generally friendly to the market, and shortly after the call prices attained the level due in response to the New York close of yesterday. Healthy conditions in the spot market helped strengthen futures. The market closed quiet with prices two points net higher for all

Cotton statisticians in their estimates

regarding the acreage of the new crop,

with only two exceptions of note, have

published figures which the most rad-

ical bear must admit are pre-eminently

bullish, and one of the exceptions could

not be called bearish (I refer to Nord-

than a 10 per cent increase in acreage,

which would mean an area of about 30.-

quirements. The other was the esti-

mate of a Texas authority, issued to-

day, estimating the increase at 14 per

cent and the actual acreage at 30,078,-

000. While subsequent events in the

shape of the government report may

prove these figures to be correct, the

tendency at the time is to treat them

lightly because out of seven private

estimates which we have to hand, in-

cluding the one issued by the New

crease at 2.8 per cent, and the acreage

at 27,769,635, the two exceptions al-

place the increase at more than 7 per

> Reports by Secretary-Treasurer and Chairman of Arbitration Committee Show Work of Year

> The Texas Grain Dealers' Association opened its eighth annual convention in this city Thursday, May 24, with 150 members and visitors pres-

President J. Z. Keel of Gainesville called the assembly to order at 10 o'clock. Invocation was delegred by Rev. A. E. Dubber, pastor of the Christian Tabernacle

Mayor W. D. Harris welcomed the visitors in behalf of the people of Fort Worth. "I trust that your stay in our city may be profitable as well as pleasant," he said. "I am persuaded, gentlemen, when looking into your aces, that you have never lost sight of your mission among us. I assure you Fort Worth extends a free, warm and hearthy welcome to you all." Captain B. B. Paddock addressed the assembly, extending welcome in behalf of the board of trade and business interests of Fort Worth.

"Gentlemen, the board of trade, which I have the pleasure of representing, extends to you a free and hearty welcome," he said. "I assure you that we have at heart the interest and prosperity of the Texas grain "I am pleased to state that within

the last twelve months there has not been one case up before the arbitration committee of the board of trade for settlement and adjudication, which makes us proud of you as men playing such a great part in our business circles." Captain Paddock extended a warm invitation from the Panther Club of this city to be at Hermann park at 6:30 o'clock. Eugene Early of Waco, fist vice

president of the association, responded to the addresses of welcome to Fort Worth. Address by President.

In his annual address President ..

Z. Keel of Gainesville said in part: "We have finished another year, and we come to this convention of the association one year older than we were this time last year. Our association is now in its eighth year. Very necessarily the question comes to the minds of each of us as to what we have accomplished during the last year that has been beneficial to us as an organization, representing as we do the greatest interest in the state, namely, the agricultural.

Work of Year. "We succeeded last season in get-

ing quarantine restrictions removed from the shipment of our oats to the southeast, a territory in which our oats especially find a ready market. "While to accomplish this result quite a little money was expended, yet the interests with which we are closely allied, the farmers, have been much weak. Beeves, \$4.00@5.90; cows and benefited by our efforts in this direction.

Mr. Keel spoke encouragingly of the future for the association and thanked the members for the pleasure of serving them as president for two consecutive terms.

Official Report.

H. B. Dorsey, Fort Worth, secretarytreasurer of the association, then read his annual report, which showed the

cases had been disposed of. These aggregated \$11,534.64. He told of the work done in the committee, the dificulties confronting them and of the gratifying results occomplished.

Other speakers at the morning session were: C. P. Shearn, Houston, and H. Waldo, Collinsville, speaking on "Underbilling and Incorrect Description of Shipments," and F. W. Frasius of Wichita, Kan.

NON-UNION MEN ARE EMPLOYED

Miners and Operators Fail to Reach Agreement

COLUMBUS, Ohio, May 24.-The ef-

fort to bring about a settlement in the mining controversy in Ohio at the conference between John H. Winder, president of the Sunday Creek Coal Company: William H. Green, president of the Ohio miners, and Rev. Roderick Maclihin, a Catholic priest of Belmont county, last night failed, and two mines in Jefferson county, Ohio, resumed operations with nonunion men early today. Mr. Winder, who is chairman of the "stand pat" operators of Ohio, Indiana and Illineis, received no report today of any disorder when the mines started. The mines are defended by stockades, a maxim gun and a company of armed Pinkerton men,

MANY REBATES SECURED Brokers Paid for Settling Railway

Claims Drawing to Close Special to The Telegram.

KANSAS CITY, May 24.-The rebate cases against L. B. Taggart and George Thomas, New York freight brokers and Traffic Manager George Crosby of the Burlington railway are drawing to a close today. A leading local dry goods merchant testified today to paying Thomas \$500 year salary each to look after their shipments. At irregular intervals they would receive packages of money containing nothing to indicate whence it came, but which they took to represent settlement of claims against the railway effected by Thomas. These amounts were usually much larger than they ! expected.

500 MEN FIGHT FIRE ON SHIP

Flames Subdued Before Great Damage Is Done

Special to The Telegram.

NEW YORK, May 24 .- A fire that burned briskly in the steerage of the big Holland-American line steamship Nieu Amsterdam, moored at the foot of Fifth street, Hoboken, gave the 500 members of the crew some excitement. The fire was discovered by the captain and inspector, who noticed a red glare from the portholes of the steerage deck. Captain Bunjer sounded the ship's fire alarm and then climbed down to the scene of the trouble. Several straw mattresses in the forward part of the steerage deck were on fire and the flames had spread to a wooden partition.

The fire fighting force of the ship got lines of hose streaming upon the blaze in quick order, but Captain Bunjer, not caring to take chances, had an officer go ashore and summon the city firemen. Near the fire one of the large hatches leading to the freight hold forward was wide open and inviting the flames. There was a lot of valuable freight in the ship. When the Hoboken firemen arrived

forces soon had the fire under con-

Bing Out Dozen Safeties and Chalk Six Times

Pitcher Jones of Temple was on the blink for fair Wednesday. In the second round he was stung for five safeties, two of them triples. Sipmson was sent out on the relief wagon and after that the Panthers toured the bags but twice. Gfroerer seems to have been hitting a bottle of wallop juice the last day or two from the way his batting average has gone up. Wednesday he tripled and singled. He also did the Raffles act twice, and landed a brace of tallies. Dupree gave the Boll Weevils but four-hits. The score:

OPEN PUBLICITY THE BEST

When the maker of a medicine, sold through druggists for family use, takes his patients fully into his confidence by frankly and fearlessly publishing broadcast as well as on its bottle wrappers, a full list of all its ingredients in plain English, this action on his part is the best possible evidence that he is not afraid to have the search light of investigation turned full upon his formula and that it will bear the fullest scrutiny and the most thorough investigation. Dr. Pierce's Favorite Prescription for the cure of the weaknesses, periodical pains and functional derangements of the organs distinctly feminine, is the only medicine put up for sale through druggists for woman's special use, the maker of which is not afraid to take his patients into his full confidence by such open and

A glance at the published ingredients on each bottle wrapper, will show that it is made wholly from native, American, medicinal roots, that it contains no poisonous or habit-forming drugs, no nar-cotics and no alcohol—pure, triple-refined glycerine, of proper strength being used instead of the commonly employed alcohol, both for extracting and preserving the active medicinal properties found in the roots of the American forest plants employed. It is the only medicine for women's pecular diseases, sold by druggists, that does not contain a large percentage of alcohol, which is in the long run so harmful to woman's delicate, nervous system. Now, glycerine is perfectly harmless, and serves a valuable purpose by possessing intrinsic value all its own, and besides it enhances the curative effect of the other ingredients entering into the "Favorite Prescription." Some of the ablest medical writers and teachers endorse these views and praise all the several ingredients of which "Fa-

vorite Prescription" is composed - recommending them for the cure of the very same diseases for which this worldfamed medicine is advised. No other medicine for women has any such professional endorsement—worth more than any number of ordinary testimonials. If interested, send name and address to Dr. R. V. Pierce, Buffalo, N. Y., for his little book of extracts from the works of eminent medical writers and teachers, endorsing the several ingredients and telling just what Dr. Pierce's medicines are made of. It's free for the asking.

DEAFNESS CANNOT BE CURED by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. Announcement Made at Closing Exercises

DIPLOMAS GIVEN

Session of 1905-6 Ends With Annual Address at St. Paul's Church

Closing exercises of Fort Worth university were held in St. Paul's Methodist Episcopal church, Seventh and Lamar street, Wednesday night, with good attendance, though rain prevented the coming in great numbers of the friends of the university.

After the invocation by Rev. J. F.

Boeye and a finely rendered selection on two pianos, a violin solo was given by Mr. Claud Rossignol. The address of the evening was de-livered by Rev. E. L. Parks of Siloam Springs, Ark., upon "Educational and

Address of President. Dr. William Fielder, president of the university, delivered the closing address and presented the graduates with their diplomas. He expressed his regret at the inclement weather, but was very pleased with the character of the program and music and highly commended the address of Dr. Parks. Dr. Fielder said that although the school year opened under very unfavorable circumstances, its closing was characterized by faithful work and an increasing attendance of the students. "A few months ago the institution was heavily in debt, the buildings were badly in need of improvements, with no immediate prospect for relief," said Dr. Fielder, "but now we have already secured \$25,060 for the

improvement of the university and I

the whole \$30,000 needed."

Improvements Outlined. Dr. Fielder said that work will soon begin for the improvement of University and Cadet hall, and the other buildings of the university campus, and expressed a hope that when the students return next fall they will be delighted by the changes they will find. He referred to the kindly spirit toward the university manifested by the citizens of Fort Worth, especially by men of large means, whose subscriptions to the university have already been very liberal. They expressed, he said, a wilingness to render similar aid in the future if nec-

"In these times biology gives us our definitions. Perhaps the best recent definition of an education is that it is the securing of a superior adjustment

of one's environment "Biology also describes life in terms of adjustment to environment and measures it by the degree of adjustment to environment. Thus, the definition of the object of an education amounts to the preparation for a larger life, and the educational object resolves itself into the life object.

"The best thought of the world re gards Jesus as the ideal man. His fundamental idea of man is that he should live as a child of God, he should come into communion and union with God: that is religion, the first element in the life object. As God is love and pours out His blessings upon others, one living in communion with Him must give himself in love. As a man is to live as a brother to his fellow man, he must give himself in service to man; this service to men is the sec ond element. But both of these elements require the development to the utmost of man's noble powers; this is the third element, manhood. The three inseparable elements of the true life objects are, therefore, religion, serv-

ice to man, manhood. 'Some make wealth the object of their living. This is putting the means for the end. Wealth should always be a means to the end, manhood. We do not possess what we have titles to, but only what enlarges our lives. When society recognizes that wealth should always be a means to the end. manhood there will not be less wealth, but it will be better distributed.

"Some make pursuit of happiness the object of their living. If by happiness is meant physical enjoyment, then the man sinks to the level of the mere animal. The masses and the classes as well seem to be possessed with a craze for mere amusement.

"A distinction should be made between happiness and blessedness. Happiness is the satisfaction which results from adjustment to one's environment. It is a comprehensive term, and has its higher and lower sides. Blessedness is the satisfaction which results from adjustment to one's moral and spiritual environment. The pursuit of happiness as a proper life object orept even into the declaration of independence. But happiness cannot be obtained by seeking it in and of itself. What is needed is adjustment to the laws of one's being and to God, and the highest happiness will follow un-

bought and unsought. "Some men make knowledge the object of their living. Knowledge is the consciousness of reality. To turn away from an opportunity for knowledge is a sin. But the life object cannot stop with knowledge, which is merely means, it must sweep on to the end,

Real Objects

"Manhood. By manhood I mean a symmetrical and harmonious development of the noble powers of our being. The ambition of the young to be and to do is normal. There should be no sympathy with those who are willing to be babies, nonentities in life's battle. Men are intended to be great. But they get the wrong idea of greatness, and think of it as only relative. Just as in a picture true greatness is not in the bulk, but in the quality. In the sight of God, Christlike quality of life is always great.

"Great as is the individual there is something immeasurably greater in the world, and that is humanity. One cannot live the life of a man alone. Man's highest powers are his moral and spiritual ones. In a symmetrical manhood, the moral and spiritual must be supreme. Any attempt to center life in self is moral suicide, treason against the great social law of our being, disloyalty to God. Service to our fellow man must pervade the whole life.

world. The true life object must have its bearings upon eternity and must take God into account. Religion is not mere worship; it should include the whole life. Every hour's labor should rise as grateful incense. "These three elements of the true life object are mutually interdependent. You cannot have any one of them

First Locomotive

A question frequently asked is "Who invented the first railroad engine? Investigation shows Trevethick invented the first steam locomotive. He exhibited it in London on a circular track. It ran fiteen miles an hour. Trevethick, though, made nothing out of his invention. People laughed at it-they'd have none of it-all Trevethick accomplished in his life was to pave the way for Stephenson's success. He gied in poverty

Letter to A. & L. August FORT WORTH, Texas.

Dear Sirs Clothing is just like It fits or it don't: it wears paint. or it don't: turns weather and water or not; and goes out of fashion. What do we wear clothes for? Did ou ever think of it? have different reasons, no doubt, but one paints Devoe for beauty, to be in fashion and keep-out water.

Fashion says paint: we all paint. There is beauty in paint; we paint a good deal for that. And buildings are costly and fashionable; put-on a waterproof two or three coats of paint, and your buildings last as long as you keep them dry. It costs nothing to paint; it costs your buildings not to. Devoe is the paint that lasts; disappointing paints are the paints that Yours truly cost. F W DEVOE & CO

Pupils of Van Zandt School

Second contribution by Fort Worth school children to the Bellevue school building fund was made Thursday morning, when pupils of the Van Zandt school sent Superintendent Alexander Hogg \$8 as their collection for the purpose. This, with a contribution already made in the First ward, raises the fund to over \$17, and Superintendent Hogg declares an effort will be made to swell the total to \$100.
