ACCIDENTALLY KILLS DAUGHTER

Father Was Adjusting Weapon When It Was Discharged Special to The Telegram. AUSTIN, Texas, May 25.—Val Lincoln, a well-known citizen here, accidentally shot and instantly killed his 14-year-old daughter, Miss Willie Lincoln, today at his residence on Guadalupe street with a forty-four caliber Winchester while trying to extract a bullet from the weapon. She was shot through the head and never uttered a word after being shot.

NOTES FROM THE RANGE

In Howard County Big Springs Herald. The New York and Texas Land company has conveyed to eastern parties, represented by Messrs. Bond, Cox and White, 55,000 acres of pasture lands in Crockett county, bordering on the Rio Pecos. The consideration is not given. The body of land represents all the remaining interest of the International and Great Northern to lands in Crockett county on the old original grant of the legislature.

Last Tuesday about 6 p. m. a heavy rain began falling and for several hours it came down in torrents. The gullies and streets resembled miniature rivers. The rain continued until far into the night and the ground received a thorough soaking. Much thunder and lightning was in evidence during the rainstorm. This rain seemed to be general as it extended east beyond Cisco and west as far as El Paso. It extended as far north as Spangenberg, but we failed to learn how far south it extended. The rain caused an eight-foot rise in the artificial lake of the Texas and Pacific, one mile south of town, while a twelve-foot rise is reported in the Birdwell lake.

In Ector County Odessa Democrat. Horace Harding, candidate for Commissioner Precinct No. 3, reports the sale of twenty head of full-blood Herefords to L. G. Yates at \$30 each, or a total of \$1,900 for the twenty.

Again west Texas has been blessed with a good rain. Thursday afternoon last there appeared in the southeast a cloud that had all the appearance of a regular old east Texas rainstorm and as it arose and came over it fully justified its looks for it gave us a ground shower, a gully washer and trash mover. Rain fell in torrents for something like thirty minutes and continued afterward for some time in a good steady rain and the result is that our country is thoroughly wet to the great joy of all. We have had several rains in the last few weeks, but this one was a good one and one that wet things to the bottom. There is already a great tide of immigration set in this way, but if these good rains continue the like of people has never been seen and we are glad to see them come. We believe that the rains will continue and that the people will come and in a very short time that land prices will be higher than ever before heard of.

PRISONER LYNCHED

North Carolina Mob Hangs Man to a Tree By Associated Press. RALEIGH, N. C., May 25.—A special to the Times from Washington, N. C., says early today a mob of citizens, after having knocked insensible Sheriff Hoggan, battered down the doors of the county jail, secured the hanging of a prisoner. The man was strung up to a tree and his body riddled with bullets.

FOOLISH THINGS FOLKS DO

Think they are reading when they sit down with a book, but in such a constrained position that they put quite a strain on some muscles at least. "Think that a habit is well spent if it is a vigorous exercise is taken the whole time, although their ordinary lives may be very trying physically and they need more of a rest. Think that they are smart because they possess some small facility for picking out the worst points of their friends. Think that they are showing good backbone when they curtly refuse some slight, probably harmless, request because they are very hardy due to their brains and pitfalls in their daily life. Think that if they are virtuous and good life should be made absolutely easy for them in every way. Think that they are being through a convention as regards the style of their clothes, and that rules of this kind are foolish and unworthy of educated folk. Think that because one person has one foolish habit she must be condemned forever; in fact, let one point in a person's character color one's entire opinion of the person herself.

SPEEDILY CURED BY
CUTICURA REMEDIES

"I wish to inform you that your
wonderful Cuticura has put a stop to
twelve years of misery I passed with
my son. As an infant I noticed on
his body a red spot and treated same
with different remedies for about five
years, but when the spot began to
get larger I put him under the care
of doctors. Under
their treatment the disease spread to
four different parts of his body. The
larger the doctors treated him the worse
grew. During the day it would get
pugh and form like scales. At night it
would be cracked, inflamed, and badly
swollen, with terrible burning and itch-
ing. When I think of his suffering, I
nearly break my heart. His screams
could be heard down stairs. The suf-
fering of my son made me full of misery.
I had no ambition to work, to eat, nor
could I sleep.

RHEUMATISM
TROUBLESOME PAINS AND ACHES

While Rheumatism is usually worse in Winter because of the cold and dampness of a changing atmosphere, it is by no means a Winter disease entirely. Persons in whose blood the uric acid, which produces the disease, has collected, feel its troublesome pains and aches all the year round. The cause of Rheumatism is a sour, acid condition of the blood, brought about by the accumulation in the system of refuse matter, which the natural avenues of bodily waste have failed to carry off. This refuse matter coming in contact with the different acids of the body, forms uric acid which is absorbed by the blood and distributed to all parts of the body, and Rheumatism gets possession of the system. Rheumatic persons are almost constant sufferers; the nagging pains in joints and muscles, are ever present under the most favorable climatic conditions, while exposure to dampness or an attack of indigestion will often bring on the severer symptoms even in warm, pleasant weather. Liniments, plasters, lotions, etc., relieve the pain and give the sufferer temporary comfort, but are in no sense curative; because Rheumatism is not a disease that can be rubbed away or drawn out with a plaster. S. S. S. is the best treatment for Rheumatism; it goes down into the blood and attacks the disease at its head, and by neutralizing the acid and driving it out, and building up the thin, sour blood, cures Rheumatism permanently. Being made entirely of roots, herbs and barks, S. S. S. will not injure the system in the least. Book on Rheumatism and any medical advice without charge.

AMUSEMENTS
Crowds at Lake Como
Between four and five thousand people visited Lake Como yesterday afternoon and evening, and the capacity of the Arlington Heights Traction Company was tested almost to the limit. Manager Allen announces, however, that the equipment of his line will keep pace with the demands of the public. The loop at the end of the line is now in use, facilitating the handling of crowds to a great extent. Arrangements have been nearly completed for the erection of a miniature railway around the lake and other features will be added as time permits.

PENN TO MANAGE BELL CAMPAIGN
Fort Worth Candidate Has a Large Travis Following
AUSTIN, Texas, May 28.—It was learned Saturday at the state house that Judge R. L. Penn of this city has been placed in charge of the campaign of Judge C. K. Bell, candidate for governor from Travis county. It is the intention of Judge Penn to wage an aggressive campaign in behalf of the Fort Worth man, with the end that Travis county shall be placed in the Bell column when the votes are counted at the state convention in August.

NEW YORK STOCKS

Market Relapses Into Former State of Dullness - Volume of Business Very Small

Special to The Telegram.
NEW YORK, May 28.—The stock market started the week rather dull and trading during the session was principally among professional investors. However, upon the whole the market behaved rather well and in the leading issues prices recovered the losses sustained Saturday. The day's news was of an indifferent character and early cables were featureless. The market opened easy with prices for the general list fractionally lower and a declining tendency was exhibited during the session, owing to some further liquidation of long stocks and a moderate amount of share selling. By 10:30 a. m. the active issues had sold off 1/2 to 1 point from the closing level of the previous session, there was a renewal of buying and full recovery was effected before the noon hour. Reading led the rally, working up under good buying to a level 1/2 point higher than the low mark touched during the first hour and only 1/2 below the high record of last week. This was, aside from fluctuations covered a range of more than 1 point, but the other leading issues attained fractional net gains. The market closed with a further decline during the afternoon, owing to a rumor of possible liquidation in the Union Pacific. A rumor was in circulation to the effect that the New York Central would issue a \$25,000,000 stock. There was no confirmation but it has been generally expected since the new \$100,000,000 issue was authorized some time ago that the company would issue it in five or fifty millions within a few months to enable it to make certain improvements. This would not be affected by the rumor, which was inactive. Reading was the topic of discussion on the floor during the afternoon, owing to a rumor of possible liquidation in the Union Pacific. This was considered a bid card for the latter stock. Nevertheless, the price was shaved off more than a point from the best price of the day, which was 11 3/4. The market continued very dull to the close, which was steady at 11 1/4. The market closed at 11 1/4. The market closed at 11 1/4. The market closed at 11 1/4.

Bears Hammer May Values Down More Than \$1 a Bale—Loss Recovered Later

Special to The Telegram.
NEW YORK, May 28.—The feature of the cotton market today was a bear raid on the May option, which took place during the first hour and sent the price off more than \$1 per bale in a very short space of time. The market opened easy, with prices 1 to 3 points lower, in response to the disappointing character of the early cables. There was very little business at the start, and bulls were apathetic. After a first half hour bears made a sharp attack bringing out a good many stop orders and causing the slump above mentioned. At the low point prices were 1 1/2 to 3 points lower, in response to the disappointing character of the early cables. There was also some liberal selling of new crop months by the local crowd and for the purpose of evening up shorts for July eased off some 6 to 6 points. After the first hour the market was extremely dull, the only trading being for the purpose of evening up shorts. Short covering during the middle of the session sent prices back almost to the opening figures, but in the afternoon it was again lower. The May option, eased off again, and the market closed steady with prices at a net loss of 1 to 3 points.

Chicago Grain
CHICAGO, Ill., May 28.—Wheat prices fluctuated within a comparatively narrow range on the local market today for the most part, slightly below Saturday's final, but the market could not be called weak, as the undertone was at all times steady. Cables reported the Liverpool market quiet but steady, with prices fractionally higher. The opening here was easy, prices on the first call being 1/2 to 1/2 below Saturday's final. This proved to be the low point of the day, as although prices touched this level several times there was always sufficient support to bring about a reaction. Weather news was generally favorable, but there was some talk of rain for the remainder of the day and some good buying of the September option by houses with Northwest connections was attributed to this theory. Strength of the market also helped prices. The market closed steady with prices 1/2 net lower.

CATTLE AND HOGS

Receipts of Grassers Large—Dull Market on All Except Choice Beeves.

Special to The Telegram.
FORT WORTH, Texas, May 28.—New Orleans cotton opened for the week dull and with an easier undertone, due principally to very favorable crop and weather reports. The principal feature, the political situation in Russia and the attitude of England toward Japan, were also disquieting. Liverpool was held up to expectation and there appeared to be little else but the large short interest in the new crop positions for the bulls to talk about. This short interest has undoubtedly been the chief support of the market for some time and the market will be put in a weak position if it is lessened. Everything now hinges upon the bureau reports, which, according to law, will have to be issued on Monday, June 4, in spite of the desire of the trade in general to have them issued on the 5th. The indications are that the ideas of the bureau will work up to about 90 for the percentage of condition instead of 86, which now appears to be about the general expectation.
