That the committee was going beyond well beaten paths, as the matter should be settled in county affairs; that this course would probably result in the election of a republican congressman, as conditions are dangerous. He did not want the committee to take this action as long as he was at the head of it. -

Another resolution was adopted as to fulfilling platform demands, that county conventions should insist on such from the nominees.

At this junction Mr. Thomas offered a resolution that the committee reconsider the vote by which the committee recommended the repeal of the Terrell election law. This was adopted, the committee going back on what it had previously done.

Chairman Andrews appointed the following committee to make arrangements for the state convention at Dallas: Moses, Potter, Blalock, Moreland and Justiss. Husband of Alice Kinnan Volunteers Aid to Officers

By Associated Press. NEW YORK, June 12.—Detective Sergeant Samuel Price of the Bronx detective bureau, announced last night that he had been in communication with Richard Kinnan, the husband of Mrs. Alice Kinnan, who was murdered on the piazza of the Stanton mansion in Washington avenue on Friday

Kinnan, whom the police have wished to interview ever since the tragedy, has, it is said, voluntarily come forward to do what he can to assist the slayer. He has been living at Belslayer. He ha sbeen living at Belmare, N. J., for some time.

Learns of Tragedy Reading in the newspapers of the tragedy. Kinnan sent his daughter by a former wife to learn the facts from Lawyer Burton W. FOUR PACKERS FOUND GUILTY

Packers Charged With Accepting Concessions

FOUR FIRMS TRIED

Defendants Contended United States Court Lacked Jurisdiction in Matter

By Associated Press.

KANSAS CITY, June 12.-Armour & Co., Swift & Co., Cudahy & Co. and Nelson Morris Packing Company were found guilty in the United States district court here today of accepting concessions from the Chicago, Burlington & Quincy railroad on export shipments on packing house products. The case was given to the jury at 10:40. The verdict was returned at 11:40. Judge 'Smith McPherson of Red Oak, Iowa, presiding judge, stated that the sentence would not be assessed until the case against the Burlington railway, which is charged with granting concessions to the packers, is concluded. The Burlington's trial will begin this afternoon. The law in the present case provides for a fine only, and not a jail sentence.

By Associated Press. KANSAS CITY, June 12.—The cases of the four meat packing companies charged with accepting rebates has been given to the pury in the United States district court and the verdict is expected today. The cases are those of Armour & Co., Swift & Co., Cudahy & Co., and Nelson Morris Packing company. They are charged in the indictments returned here last December with accepting from the Burlington railway concessions on shipments from the Kansas City plants to New

York for export. The cases are consolidated for trial purposes. The specific cases considered are practically identical with that charging Cudahy & Co. with accepting a rate of 23 cents a hundred pounds on shipments of lard to New York for export to Germany when the legal tariff then on file with the interstate commerce commission was 35 cents.

Cases of Importance The trial began last week and after lengthy arguments was continued until this morning with Judge McPherson of Iowa, presiding. The judge instructed the jury. The present cases bear an unusual importance in the list of rebate trials to come up in this court for it is the first time any concern has been brought to trial before a jury on a charge affecting export rates as applied to the interstate commerce act. The counsel for the defendants contended that the court lacked jurisdiction which was overruled by Judge McPherson and that when they signed a contract covering the 23 cent rate it was legal and that the Burlington later revised its tariff to 35 cents. Judge McPherson's instructions to

Ex-Vice President Stevenson Will Address Throngs at Louisville

By Associated Press.

LOUISVILLE, Texas, June 12.-All trains running with extra coaches and a double number of Pullman cars and a great many of them in two and three sections proved today that Kentuckians from all parts of United States are flocking back to their native state for "Home Coming Week," which will be formally inaugurated tomorrow.

Thousands of natives born and nearly as many more who cannot claim Kentucky as a birthplace, but who are anxious to take part in the festivities of the week, have already arrived and within twenty-four hours Louisville will hold the largest crowd ever gathered in the city for any event. Accommodations at leading hotels are already exhausted by the present occupants. Louisville, however, made most ample preparations for the visitors and the committee which has charge of the society's guests expresses the utmost confidence of its ability to perform its task to the satisfaction of everybody who comes.

Prominent Speakers Ex-Vice President Adlai E. Stevenson, who is to speak Friday, has ar-

rived from Indianapolis. Ex-Governor David R. Francis of St. Louis will also speak and comes with a large delegation of ex-Kentuckians from Missouri. Ex-Governor Preston H. Leslie of Montana arrived early in the day. The "Kentucky Colonels," a marching club that is to do much escort duty during the week, made its first appearance on the streets today and elicited great applause. It will act as a guard of honor to all distinguished guests as they arrive and depart and its program for the week borders closely on the stren-

PUZZLE OVER BEEF PROBLEM

Judge Cowan's Bill Is Basis for Inspection Law

SCORE PRESIDENT

Claim That Roosevelt Aimed at Packers and Blow Fell Upon Stockmen

WASHINGTON, June 12. - After having spent the whole of the day in executive session, cogitating the subject of meat inspection, Chairman Wadsworth said late Monday that it would perhaps be three or four days before the committee on agriculture would be able to report a substitute for the Beveridge measure. When it is remembered that, in deference to the desire of the stockmen for speedy action, th committee hoped to make its report Tuesday, this announcement indicates that there is a greater diversity of opinion among the members

of the committee than was expected. The only agreement reached-and that only in a tentative way-was that there is no need to date the inspection labels, as the Beveridge measure directs. This is a concession to the packing house view, and in accord with the bill drawn by Judge Cowan, which is the one used today as a guide. The contention is that meat properly canned will keep healthful for many years, but that the public, having a prejudice against aged foodstuffs, would not buy a tin of meat whose label showed it to be over twelve months old.

Chief Obstacle Is Lost

A member of the committee said that the chief obstacle encountered today, the one which precluded all hope of being able to report Tuesday, was the question of defraying the cost. Judge Cowan's bill makes an appropriation of \$2,000,000, but authorizes the secretary of agriculture to prescribe fees to supply any money that may be needed for an effective inspection.

No one seems to know how much the inspection would cost. Representatives of the cattlemen think it would cost much more if defrayed by the imposition of fees than it would if paid by fees, the party in power would have inviting opportunity to make places for political workers without cost to the government The republicans find themselves in

a dilemma with respect to the question of how the cost of inspection shall be defrayed. They fear that the estimate of \$2,000,000 is far too low. They suspect it will be nearer \$4,000,000. They are reluctant to add so great a demand on the revenues of the government and they are equally reluctant to levy it as a direct tax on the stockmen and farmers of the west. They cannot persuade themselves that such a direct tax would be accepted uncomplainingly, and they know that if the stockmen should express resentment at the ballot box there would be fewer western republicans in the next congress than there are in this one. There are several western and northwestern states in

which the stockmen dominate politic-Government by Politics

The fact is, there has been a very perceptible change of feeling in Washington as to the President's warrant for his course. It is now seen that the Neill report did not support the shocking stories which the President allowed to circulate for four days. The Neill report itself has suffered much depreciation. There is a feeling that the President, acting with his usual impulsiveness, and mindful more of the defeat which he had suffered at the hands of the packers than of the interests of the cattlemen, struck a terrific blow at the packers and hit

the cattlemen. This view has been brought to the attention of the President, and, it is understood, he is having additional information gathered to justify his course. Meantime, if neither the packers nor the stockmen are delaying the measure, it is the the congressmen who stops to consider political con-

GOLD OUTPUT GROWS

Alaskan Production For Current Year Placed at \$24,000.000

Special to The Telegram. DENVER, Col., June 12.—It is thought the Alaskan gold output of the current year will reach a total valuation of \$24,000.000, or the equivalent of the total for 1905 of Alaska and Yukon combined. The latter territory, it is estimated, will yield about \$8,000,000 this year. Reports of the Nome district are to the effect that the gold output for this year should show a large increase, almost double over that of 1905. According to late advices from South Africa the output for March was 443.723 fine ounces, val-ued at \$9,141.352. There were 7.025 stamps at work on the Rand and 7,460 in the whole Transvaal. The highest profit per ton earned on the Rand was 36 shillings, of \$9 per ton. The yield of South African mines this year will approximate \$100,000,000 in gold.

DANCE HALL EVIL WINS IN COUNCIL

Aldermen Permit Societies to Run Bar

By Associated Press. CHICAGO, Ill., June 12.—The United Societies of Chicago, composed principally of persons of foreign birth or parentage, won their fight last night in the city council for the privilege of special permits to dispense liquor at dances and other entertainments by a vote of 47 to 19. The aldermen passed the ordinance framed by the societies, which empowers the mayor to grant the right to sell liquor from 3 p. m. to

3 a. m. In taking this action the council sidetracked the ordinance recommended by the committee on license as guaranteed to stamp out the dance hall evil. After a spirited encounter between its sponsors and the representatives of the societies, the committee ordinance, which was full of restrictive provisions was laid aside in favor of the substitute.

Battle Not Over There is still trouble in store for the victors of the fight. The contention will be raised that under the law any bar at which liquor is dispensed is a dren shop and that the ordinances forbid any dram shop to sell liquor after 1 a, m This construction of the law having been applied to restaurants, it will be argued that it should apply also to

amusements. The council also passed by a vote of 53 to 11 the ordinance permitting the consolidation of the Chicago Edison and the Commonwealth Electric Companies and providing for a reduction in the rates to be charged for electric

GUARD INSPECTED FOR ENCAMPMENT

Annual State Meeting Promises to Be Most Successful

Special to The Telegram. AUSTIN, June 12.-Colonel Roy A. Hearne of San Antonio, commander of the Second regiument of the Texas National Guard, was here yesterday conferring with the adjutant general regarding matters connected with the coming state encampment. Colonel Hearne said that he believed that the coming encampment would be one of the largest and most successful in the history of the guard.

Colonel Hearne is on a tour of inspection of the eight companies contained in the Second infantry. The eight companies are located at Bremond, Waco two companies, Gatesville 'Hillsboro, Taylor, Jasper and Cameron. He will make a thorough inspection of these companies and see that they are in perfect order for the maneuvers. New Companies Organized

After completing the inspection of these companies Colonel Hearne has been detailed to make an inspection of several new companies that have signified their intention of joining the Texas National Guard. These new companies are located at Temple, Belton, McGregor and Mart, the last two named places being in McLennan county. Colonel Hearne will also make an inspection of the military compa-nies at Palestine, Longview and Mineola before returning to his headquarters at San Antonio. He goes from here to Bremond and then to Waco.

ROAD ACROSS ISTHMUS

Mexican Government Authorizes Large Expenditure

In furtherance of its plans for the improvement of the transportation facilities across the isthmus of Tehuantepec, the Mexican government has authorized the expenditure fo \$15,000,000 in the year 1906 and \$12,000,000 in the year 1907. Contracts have already been made which will cover these amounts with S. Pearsons & Sons. This is the firm which constructed the great drainage canal for the city and valley of Mexico and which has done the work on the improvement of the harbors at Coatzacoalcoas and Salina Cruz, the former the Gulf port and the latter the Pacific port termini of the Tehuantepec railway.

Traffic to such an encouraging amount is flowing across the isthmus that it has been found necessary to double-track the line and part of the inthorized expanditures named above is for that purpose. When the Federal government of Mexico decided on the improvement of the transportation across Tehuantepec it appropriated \$65,000,000 and a considerable part of that has been expended. That there newly authorized expenditures made without an additional appropriation. Those conversant with the situation anticipate an enormous traffic over this isthmus. The harbors are now or will be soon practicable for the largest steamships. The distance across is about one hundred and seventy miles, and though the use of this route necessitates breaking bulk twice, once at each end of the railway, the expense has seemed, to the authorities, justifiable and they are confident they have solved in part at least one of the questions relating to isthmus transportation between the Atlantic and the Pa-

Denver Now Has Additional Line to Quanah

T. L. Benedict, general foreman of telegraph construction for the Fort Worth and Denver, was in the city Tuesday and announced the completion of the work of stringing an additional telegraph wire from Fort Worth to childress. The new wire was demanded by the increase of business on the Denver road and it will be used for Company purposes only. The stricking of this wire was quick work. Foreman Benedict beginning it less than a month ago.

CHANGE IN ORDERS

Denver Trains to Be Directed from Union Station

Fort Worth and Denver passenger rains beginning Tuesday, June 12, will hereafter receive running orders from the Texas and Pacific relay office, that office now being connected with the Fort Worth and Denver telegraph system. Heretofore train orders have been received by Denver conductors at the Fort Worth and Denver freight depot, but the change has been necessitated by the removal of the Fort Worth and Denver freight depot building to point on Ninth street, some two locks distant from the main track.

Railroad Notes and Personals It is estimated that the reduction of the railway fares in Texas from

three to two and one-half cents per mile would cost the railways of Texas a net loss of over \$1,500,000 per year. American capital is interested in he building of the Jalisco-Minchoach railway, which is an important link of the Pan-American railway. W. C. McFrancis will succeed Ben

Mission Furniture

On the second floor will be reception rooms, library, cafe and billiard room. The furnishings will be in the mission style throughout to agree with the interior finish, and the pieces will be of heavy oak upholstered in the finest leather. This style of furnishings is calculated to give an air of restfulness and quiet to the rooms. The club starts out with a membership of nearly 100. It is expected that by the end of two or three years the organization will be well completed and then plans for a permanent home will be made. At the expiration of the five-year lease on the present quarters the club hopes to be ready to move into a home built for its exclusive use and out of the business center.

MARTIN HANGING ** WILL BE PRIVATE

Law Offers No Alternative, Even Should He Consent

Rufus Martin, the negro condemned to be hung for the murder of Charles Swackhammer and who is now under the death watch in the county jail, will be hung inside the jail walls and not outside, as has been reported.

There has been considerable talk about the execution being public, and the statement made that the matter would be left to the condemned man to decide; that if he consented to a public execution he would be hung in front of the jail opposite the court house square.

Judge Irby Dunklin, before whom Martin was tried and convicted and by whom the negro was sentenced was asked by a Telegram reporter Tuesday if under the sentence there could be a public execution if the condemned man consented to it. He said:

"There can be no public exception in Martin's case; he will be executed as the law requires inside the walls of the county jail. The law on the infliction of the death penalty is very plain; executions most be private, and they cannot be changed to public executions even if the condemned consents to it.

"There is a gallows at the county jail and arrangements have heretofore been made to have all executions in the county take place there, and Martin will be executed in the jail under the law regulating executions." Martin is putting in a great deal

of his time preparing for the final act. He reads the Bible regularly and he has been visited by and received advice from ministers, both white and black. As the day for his execution draws nearer, he appears as much composed as he was before the sentence of death was passed on him, and he gives every indication that he will meet death firmly.

"If he will only cut out socialism and stick to democracy," they have been saying in their heart to heart discussion of the outlook. Now that Mr. Bryan has taken the first opportunity to draw the lines against socialism they believe all doubt of his nomination has been removed.

"I fully expect to see Grover Cleveland supporting Mr. Bryan in 1908," said Representative Beall of Texas. "If he makes the right sort of speech at that New York reception, and I am confident he will, he will not only be nominated, but elected."

"There is no reason to doubt Mr. Bryan's democracy," said Senator Blackburn of Kentucky. "There need be no fear that he will rise equal to the occasion. We who have always supported him know that Mr. Bryan is not extremely radical. He is a democrat, and democracy is healthy conservatism."

"Bryan is all right. There is no man in the United States I would rather see President than he, for I know he is all right," said Senator Tillman. "The so-called conservative democrats of the country know they can have every confidence in him. I ought to know, for, you see, I am sometimes pictured as a conservative myself."

SIGNIFICANCE OF BRYAN MOVEMENT

The unanimity with which the former members of the Democratic party opposing Bryan have returned to the Bryan fold and are now engaged in raising a cry for the distinguished Nebraskan to lead the party in the next national campaign, has caused a lot of speculation as to the animus that is behind the movement. And it would be well for the friends of Bryan to keep an eye on the indicator and not be misled by the developments of the present situation. The leaders within the Democratic party who have always fought Bryan so openly and persistently have not suddenly become converted to the Bryan manner of looking at things. They feel the same way deep down in their hearts that they have always felt, and the allegations they are making to the effect that they consider the Nepraskan a bigger and broader man than during his two previous campaigns may be well taken with a moderate amount of

There are two reasons why men of the Dave Francis stripe are now proceeding to find seats for themselves in the Bryan bandwagon. The first of these is the full and complete realization that the bone and sinew of the Democratic party will not be satisfied with any other leader. The result of the fiasco perpetrated by -teaders of this class in the last national campaign is etill fresh in the minds of the people, and there exists a quiet but unalterable determination that the Belmont wing of the Democratic party shall no longer dominate the organization. These people realize that in the realignment of the Democratic party since they sent it to such a disastrous defeat has taken place without regard for them. In the gathering together of the demoralized fragments from the party wreck there has been no attention paid to these party wreckers, and recognizing the disposition to go ahead without them, they have proceeded to clamber into the old party bandwagon and are now raising such a hue and cry for Bryan that the unitiated would readily infer that they have been ardent friends and supporters of Bryan from the time he first became a factor in the political situation. But it is not so. They are now engaged principally in an effort to save their own political bacon. They know that Bryan will be the nominee of the party-that the party will be satisfied with no one else, and they are getting in on the ground floor in order to make it appear they are the people who saved

The other factor in the situation is the candidacy and persistent activity of William R. Hearst. That very ambitious young man is laying some well concocted plans to appear as a factor in the next national campaign, and he unquestionably has a considerable following throughout the country. If Bryan were not a candidate the Hearst movement would be much more formidable than it really is, and the Dave Francis brand of Democracy is not at all partial toward William R. Hearst. In fact, it loves Hearst in just about the same proportion as the devil is said to love holy water, and the declarations being made for Bryan at this time by these people is also intended to send cold chills up and down the spinal column of the Hearst boom. In a choice between Bryan and Hearst these people feel that they are taking what they consider the lesser of the two evils, and it is not love for Bryan that prompts the action.

It may be that these people have a scheme to kill off Hearst with Bryan, and believe that the Bryan boom will expend itself during the two years it has to run the railway center of the Southwest. before there can be real expression of the people in the impending national campaign. At any rate, it would be well for the old party guard to keep an eye on the situation and not suffer these people to become too familiar with the party organization as it is now being shaped up. Permit them to take part as humble

in positions where they can do mischief, will be the safe and proper rule,

The East Texas papers are declaring that the Campbell gubernatorial boom is rapidly growing. But those East Texas papers will occasionally get things down a little bit wrong. It is the Bell boom that is constantly

CORPORATIONS AND THE LAW

Two of the largest industries in the South are located in North Fort Worth and it is alleged that others vere about to locate there when frightened off by the action of the attorney general in respect to those already existing. The contention seems to be that the only question involved was whether a Texas state efficial's interpretation of an involved and complicated statute was correct.

The Express sympathizes with the apprehension of For: Worth people that too drastic treatment of important industries because of alleged violations of the anti-trust laws will have a harmful effect on business investments and further enterprise that should be encouraged rather than hindered or harassed.

At the same time, the Express, in common with ther exponents of public sentiment, must insist that the laws shall be complied with and that violations must be punished. There is, however, a way to do this without going about it too harshly. The law is assunied to be impartial and to purpose correction rather than abuse. To use the law as an instrument to discourage public or private enterprise because of an unreasoning prejudice against capital or corporate effort along legitimate lines would be to do the state as well as the local community more harm than to permit the existence of a trust in defiance of the laws.

Texas must be liberal in the promotion of enterprise and development, but resolute in the enforcement of laws intended to protect the citizens against abuse by corporate power that is not sufficiently restrained. Regulation, however, does not mean ruination or confiscation. It does not mean injustice to or suppression of legitimate business, even when there is manifest wrongdoing. It should simply mean correction of abuses and holding of the offenders to a strict accountability without a suggestion of hostility to coproprate enterprise or industry. Our politicians of a certain order appeal too much to the prejudices and animosities of the unthinking and easily misled in an attempt to array class against class for their own selfish purposes.

Texas needs the corporations, the railroads and the manufacturing industries and should encourage and sustain them in every proper way and the people should consider their advantage and at the same time insist upon "a square deal" all around.—San Antonio Express. And a square deal is all that any Fort Worth insti-

tution expects in matter of this kind. A square deal is all that Fort Worth citizenship demands for any Fort Worth enterprise. . Fort Worth is also very thoroughly imbued with

the principles of right and justice. Her people are broad minded and liberal to a fault, always inexorably opposed to every form of oppression, whether it emanates from one source or another, and believe that the right must ever prevail. They have shown disapproval of the policy manifested by certain state off'cials because they believe it was conceived in the

Fort Worth would not seek to shield any corporation or individual from the legitimate fruit ofan open and persistent infraction of the law. But Fort Worth subscribes to the theory that there are methods when even the enforcement of the law may be converted into an instrument of oppression instead of a medium for the administration of even-handed justice, and when verted .it must come in for the condemnation it so

Corporations, according to the Fort Worth idea of justice, are just as amenable to the majesty of the law as individuals, and should be made to toe the mark under all circumstances. But Fort Worth is not yet prepared to subscribe to the theory that property should be confiscated under the provisions of the law simply because it is corporation property, and thriving industries wiped out of existence—thousands of deserving citizens thrown out of employment and the wheels of commerce blocked simply that the extreme idea of certain officials may be carried out.

Senator Burton, of Kansas, has finally been presenate, and the vacant position has been tendered to F. D. Coburn, state secretary of agriculture. Coburn is one of the best known men in Kansas, is not a politician, and his selection seems to have been a very

Fort Worth continues to set the pace for Texas progress and development, and is rapidly striking the gait that insures perpetual supremacy. The Post believes that the railroad commission made a great mistake in issuing an order to reduce the passenger fares of the Houston & Texas Central railroad. Apart from the question of discriminating against one railroad and apart from the consideration that such a reduction on the Central would in many instances result in a reduction of competitive fares to less than two cents a mile on other roads, the action of the commission is open to serious objection, and it is inconceivable that the courts will permit it to stand.-Houston Post.

The Post is very unkind. The reduction of passenger rates on the Houston & Texas Central is about all the official work its candidate for governor accomplished during the month of May, and the Post should be more generous.

MEDICAL INSPECTION OF SCHOOLS URGED

Members of Local Board Are Fevorable to Plan

DOCTORS TAKE IT

Texas State Journal of Medicine Will Call Attention of Physicians

The June issue of the Texas State Journal of Medicine will contain two articles upon the subject of medical inspection of public school children, one being a paper by Dr. J. S. Lankford of San Antonio, which was read before the section on state medicine and public hygiene at the meeting of the State Medical Association of Texas, held at Fort Worth in April, 1906; the other, an editorial in which Dr. Frank Allport of Chicago, who has been untiring in the agitation of this sub-

ject, is quoted.

In Dallas and San Antonio Free medical inspection of pupils is now provided in some of the cities of the state and where the plan has been adopted uniformly satisfactory results have been reported. In Dallas and San Antonio the people are greatly pleased with the inspection and much good is said to have been done, although the plan has been practised but a short time. It is said that in San Antonio, as a direct result of instructions given the pupils on modes of prevention of contagion, at the time of the yellow fever epidemic last year the children searched out every pool and puddle of water in the city and covered them with oil, thus literally ridding San Antonio of mosquitoes. No Fee Charged

In Texas cities where inspection is now carried out the local organization of physicians delegates members who shall inspect the children from time to time. There is no expense involved when a child is found to be suffering with defective sight or hearing or withany other of the allments so common among children, yet so often overlooked, the teacher is informed and writes a note to the parent regarding the matter. The parent will then, in most cases, consult the family physi-

Dr. Allport is quoted in the State Journal of Medicine in part as fol-

"There are 16,000,000 school children in this country of whom it is believed 80 per cent are suffering from some eye, ear, nose or throat disorder. There are over 300,000 blind people in the United States, many of whom would not have become blind had their disabilities been detected during school life. The care of these people costs in the neighborhood of \$15,-000,000 annually. School statistics show that over 50,000 American children are annually removed from school on account of debilitated physical and nervous conditions, results of physical incapacity and injudicious mental pres-

Importance Urged

The editor of the Journal urges the matter upon the physicians of the state with the following words: "It is the duty of every physician to see that the board of trustees of the local schools are informed as to the necessity for such inspection. Teachers should undergo physical examinations for evidences of tuberculosis. They should receive instruction as to the prevention of contagion and infection. Medical inspectors for schools should be appointed, that parents may have timely notice of the imperfection of their children, and that the teaching may be adapted to their bodily needs and physical ability, and that by timely attention weak eves may be strengthened diseased throats improved, bad eves saved crooked backs straightened weak lungs cared for, and healthy bodies and active minds be insured and preserved. Such medical school inspection is now in force in a number of cities in Texas with excellent results. Capable physicians may be found in any community who will, free of charge, assist in the inauguration of such a system. County societies in Texas should see that our already excellent system of public schools is further perfected by attention to this

A meeting of the picnic committee of the North Fort Worth Christian church will be held Tuesday night for the purpose of making definite arrangements for this annual event, to be given Wednesday in Dr. Massie's park on Sycamore creek, about four miles southeast of town. The entire day will be spent in picnicking, each family to contribute to the genuine picnic lawn dinner, and at Tuesday's meeting the place of meeting to take cars, best means to secure cheapest transportation, etc., will be decided on. Many

will remember the fine time they had at last year's picnic near Birdville. It has been announced at the People's Grocery Company in North Fort Worth that they will soon remove their entire stock of groceries to Vernon, Texas. As soon as accounts and other business here can be closed packing will be commenced and it is hoped that they can ship early next week. J. H. Houssels of Vernon is proprietor of the north side store and will open a grocery in his home town. J. G. Humphreys, who is manager of the store, while in North Fort Worth, will leave for his home in New York City as soon as he can close up matters here. J. J. Lydon, Twelfth and Rusk streets, had worked started Monday on a new house in the lot adjoining his present home lot. The new building will be of frame construction, six rooms and, one story high, costing in the neighborhood of \$1000. He is building it for his own use and will take possession immediately upon its completion. Miss Erskine, who is a teacher in the North Fort Worth schools, it is understood, will occupy the house vacated by Mr. Lydon later in the summer. Miss Erskine is now at home in Tyler and will return with her mother in about two months.

T. M. Bird and family of Bedford are visiting in North Fort Worth with Mr. Bird's daughter, Mrs. Ella Foster, in Miss Fannie Hunnicutt of Dallas spent last Sunday in North Fort Worth with Mrs. Frank Stegall in Calhou

street. G. J. Heflin of Frost, Texas, was among the visitors in North Fort Worth last Sunday. R. P. Stokes of North Fort Worth spent Tuesday in Dallas on business. F. L. West, 1511 Lake street, North Fort Worth, is building an addition to his residence, one room and a large porch. This gives the house in all eight rooms.

PANTHERS EASILY WIN THIRD FROM CLEBURNE

Pitcher Criss Badly Pounded. Dallas Giants Here Now

Big Criss pitched for Cleburne at Haines park Monday afternoon, but 16 hits being recorded against him, while Dupree was landed on for eight real hits; runs 11 to 1, in favor of the Panthers.

Criss also sent four men to first base free. In the first inning the first four men up landed on Criss for from one to three bags.

MIKE O'CONNOR DEAD Veteran Baseball Player Passes Away at State Insane Asylum

AUSTIN, Texas, June 12.-Mike O'Connor, the veteran baseball player, known from one end of the state to the other, died yesterday afternoon at the state insane asylum, at which place he had been confined for about one month. Mike was for many years one of the leading figures in the Texas League and was well known to the rooters. He had been in ill health for some time, and about two months ago his mind became unbalanced and he was adjudged insane and sent to the asylum with the hope that he would regain his mental balance. GIANTS CELEBRATE

Hoisting of Pannant Made a

By Associated Press. NEW YORK, June 12.-This promises to be a memorable day in the annals of baseball in New York. The presentation of the world's championship pennant to the New York club of the National League and its unfurling at the Polo grounds will be made an event long to be remembered by the patrons of America's national game. The Polo grounds will be decorated more handsomely than ever before, and from 2 to 4 o'clock besides the band

The pennant will be formally presented by the national commission to President Pulliam, who will then turn it over to Patrick F. McGowan, president of the board of aldermen who, in the absence of Mayor McClelland, will present the pennant to the New York club. After this ceremony, it will be hoisted on a specially prepared pole by the Giants and members of the Cin-

In the Senate

In the senate Monday Senator La Follette made the statement that he had been informed that an assistant to the commissioner to the five civilized tribes had assisted a legal firm in preparing the Indian roll and had then passed upon the roll in his official cacapity. He also said that a brotherin-law of the senator who had reported the legislation preparing a court system for Indian Territory had been appointed a member of the court thus created. These statements were made by the Wisconsin senator in a speech in opposition to the conference report on the Indian appropriation bill. The conference report was accepted, however regardless of this opposition and that of other senators, the expression of which consumed the greater part of the day. The particular conference were those relating to the enrollment of the Choctaw Indians, the settlement of the claim of ex-Senator Butler and other attorneys in connection with the

from Third Story During Fire

Ruccial to The Telegran NEW YORK, June 12.- Four persons are known to be dead and several others are missing as a result of a fire in a five-story tenement house at 209 East Seventieth street, Monday. Two firemen were injured by falling from the building and one cannot live. Scores of thrilling rescues took place and just as the firemen were about to take a woman and her 2-year-old baby down the fire escape on the third floor, the woman fell, overcome by the smoke, and dropped the child. It was dashed to death on the pavement, thirty feet The other bodies were found on the top floor. All of them were so badly burned that they have not been identi-

OPPOSE CUMMINS President Takes Sides Against Iowa Governor for Third Term

Special to The Telegram. WASHINGTON, D. C., June 12 .-President Roosevelt has taken a step calculated to convince the public that Secretary of the Treasury Shaw spoke for the administration in his "stand pat" tariff speeches delivered in Iowa against Governor Cummins. It has been asserted that Mr. Shaw had no authority to represent the President when he attacked Governor Cummins so severely, and declared in favor of revision of the tariff after the Presi-

dential election of 1908. Anti-Cummins leaders in Iowa sent an urgent request to Secretary Shaw yesterday to speak in Davenport on Wednesday night. George W. Perkins of Sioux City is a candidate for the nomination for governor against Mr. Cummins. He is a "stand-patter." Secretary Shaw replied, declining the nvitation, but when President Roosevelt heard of it he insisted on his going.

Special to The Telegram.

The statement emanating from the department of agriculture just prior to the close of the market yesterday regarding the report of June 4, was used by the bulls as an argument in favor of their side of the question, their contention being that inasmuch as the assistant secretary of the department had admitted that a portion of the 6.2 per cent increase was from last year, the actual increase was small. The bull leader published a circular in the morning papers along these lines and there is no doubt but what the market derived some benefit, for the opening was firm with prices 6 to 9 points higher for old and four to five points up for new crop options. During the initial trading prices advanced a point or two more, but eased off again under liquidation to within two points of yesterday's finals for July and two points

A period of stagnation ensued which was relieved somewhat by the issuance of the weekly weather summary, which was favorable to the bulls inasmuch as it reported insufficient rain in almost all sections, and caused a rally, sending prices back to the former high level.

The forecast for general showers throughout the sections which the government report mentioned as suffering from drought caused selling months on to three points lower. Spot

Special to The Telegram. CHICAGO, Ill., June 12.—The wheat market was very quiet today. Overnight consideration evidently convinced the trade that the government report should not inspire any enthusiasm on either side and the volume of business was below normal.

A slump in Liverpool prices, which was attributed to the contradition of the report regarding the prohibition of Russian exports, caused an easy opening here, with prices 1/4c to 1/8c lower. Some of the large operators were lined up on the bull side and their support eventually sent prices up 14c from the opening figures, but there was nothing spectacular about the upward movement, it being gradual and reaching its zenith after midday.

Profit-taking, which was attracted by the advance, was responsible for a slight recession and the market closed firm with prices at a net gain of %c

Local receipts, 11 cars, against 6 cars this day last year. Estimated for tomorrow, 3 cars. Bradstreet's report of the world's available supply shows a decrease for the week of 5,200,000

Corn, after selling 1/8c to 1/4c lower on the call in response to scattered commission house selling, firmed up on good buying by the pit crowd, which, soon attracted a general following and occasioned a spectacular advance in prices, abolishing old high records and establishing a new one at 53%c for July, a net gain of 2c. There was some reaction on profit-taking during the last hour, but the close was strong, with prices at a net gain of 11/2c for July. Local receipts, 416 cars, against 474 this day last year. Estimated for tomorrow, 278 cars.

Oats were sold freely on the first call by commission houses as well as the local pit crowd, but prices were not affected and good buying soon appeared, which, finding the crowd, caused an advance. The market closed firm with prices %c to %c higher.

Local receipts, 162 cars, against 281 this day last year. Estimated for tomorrow, 132 cars. Provisions

Provisions were quiet. Opening prices were higher generally, but the best levels were not maintained for any length of time and closing figures showed prices unchanged to 7½c lower for pork, 7c lower for lard and 9c to 13c lower for ribs.

PATRICK MUST DIE

Lawyer Convincted of Murder Still Hopes for Clemency

By Associated Press. OSSING, N. Y., June 12.-Albert T. Patrick, the lawyer whosee appeal for a new trial on the charge of murdering William Marsh Rice was denied yesterday, suggested to Warden Johnson of the state prison today that the warden defer his arrangements for Pat-

ricks' execution next week. Patrick, who did not seem to be despondent, notified the warden that he was preparing an application to the United States circuit court on a writ of error, and that this would probably stay the execution. Warden Johnson, however, informed Patrick that he would continue his ar-

rangements unless stopped by an order

Funny thing about this dog tax. The tagless dogs are the ones that are friendly and harmless. They neither snarl nor attempt undue familiarity. The dogs with the bran new tags are the ones that run out after pedestrians, that chase horses, jumping after the horses heads, that keep the neighbors awake nights and make church members swear.

OUR DAILY SHORT STORY

"Debts, debts. I must play. I must win. Oh, d- the fate of the unfortunate! But I am sure of this trick. It is my chance." Jack Ollet had made up his mind. The card trick had been taaugh him by his friend, Ralph Hamilton, who never thought for a moment Jack would put it to a base use.

The game was under way, when like a vice the descending hand of Baron Gottlieb closed upon Ollet's fingers. A card-the ace of diamonds-flew out and fell face upward on the carpet. On the face of Jack Ollet a gray pallor crept slowly. He had been caught cheating-in this, his first descent into the shameful depth.

No Agreement Reached Conference Held

The special committee appointed at the last session of the city council to confer with representatives of the Northern Texas Traction Company and the Arlington Heights lines of street railway to endeavor to harmonize the conflicts as to double use of certain streets on the south side, the said cer-tain streets appearing in the asked-for franchises of both of the companies, held a meeting Monday afternoon, attended by the mayor, the members of the committee and representatives of the interested companies, including Messrs. Capps and Flourney, attorneys respectively for the Traction Company and the Arlington Heights line, and Mr. Allen, who has charge of the track building more particularly for the latter

After discussing the matter fully, the conclusion was reached that the best thing to do was to adjourn to a later date in the week, subject to the call of the chairman, and let the representatives of the two companies, after a careful inspection of the proposed routes, decide if it was not possible to arrive at an agreement which should cover the case.

UNIFORM RANK ELECTS

Officers Chosen and Plans for Attend-Ing Encampment Discussed

At a meeting of Fort Worth com-pany No. 2, Uniform Rank, Knights of Pythias, the following officers were elected: R. R. Darrah, captain; John C. Smith, first lieutenant; George Gause, second lieutenant; W. Alex Abey recorder; J. Mat Perry, treasurer; C. W. Maxwell, guard, and John A. Walker, sentinel, were appointed by

the captain.
At all of the biennial encampments of the Uniform Rank ever attended by Company No. 2 since the organization of the company in 1886, Fort Worth has been worthfly represented in Uniform Rank circles and it is the stated desire of the members of the company that this shall also be the case at New Orleans, when the next blennial encampment is held. To further that end No. 2 will hold another meeting Thursday evening next, June 14, to enlist new members, so that, as was said of the bear's cubs, they can be licked into shape for the New Orleans meeting.

The process of organizing the new company of the Uniform Rank is pro-ceeding and many of the measures for the uniforms of the members of the proposed new company have been taken and the others will be as soon

SUNDAY SCHOOL RALLY

C. D. Meigs Addresses Meeting Broadway Baptist Church

At the Sunday afternoon meeting of the Sunday school convention rally meeting, held in the Broadway Baptist church, C. D. Meigs, general superintendent of the state Sunday school work, addressed the meeting. He predicated his address by remarking that he had no intention of making an address, but wanted to urge the people of Fort Worth to attend the state Sunday school convention, which will be in session at San Antonio June 19, 20 and 21. His talk pertained to the program which has been arranged for the state Sunday school convention.

Mr. Meigs said it was the bounden duty of every superintendent to be progressive and to keep up to date. He spoke on the Sunday school values, saying: "Many Christian people know the value of a horse, cow and a bale of cotton better than they know the value of a Sunday school to the church and the world.

"It is as sad as it is true that 75 per cent of our church officers and members do not see enough value in the Sunday school to make it worth their while to give it one hour's help the whole week through." He spoke on six of the topics to be discussed at the state convention.

In weather such as we now have it matters but little, for the reason that it is no special inconvenience to go out into the street, though the pedestrian has the right-of-way over the crossing and should not be made to go out in the street or off of the crossing he has a right to use. DOCTOR EXPLAINS

His Article in the Medical Magazine About Coffee

One of the most famous medical publications in the United States is the "Alkaloidal Clinic," in a recent number of which an entertaining article on coffee by a progressive physician and surgeon was published. In explaining his position in the matter-this physician recently said:

"In the article in question I really touched but lightly upon the merits of Postum Food Coffee. I have had several cases of heart trouble, indigestion and nervousness where a permanent cure was effected by merely using Postum in place of coffee without any other treatment.

"In my own family I have used Postum for three years and my children actually cry for it and will not be satisfied with any other beverage. Indeed they refuse to eat until they have had the customary cup of Postum and as it is a rebuilder and does nothing but good I am only too glad to let them have it

"To get the best results we boil the Postum at least twenty minutes and it is then settled by adding a little cold water, then the addition of fresh cream makes a beverage I now prefer to the very best coffee." Name given by Postum Co., Battle Creek, Mich. Authorities are agreed that Postum is a wonderfully quick and sure re-

builder. Ten days' trial in place of coffee proves it.

FEWER CIGARS SMOKED Internal Revenue Statement Shows De-

One million cigars per annum is the decrease shown in the comparative statements of the United States internal revenue department for the Fourth district of Texas, during the past two and a half years.

The Fourth district of Texas includes 200 counties in the northern, eastern, northwestern and western parts of the state, beginning at Rusk county on the eastern edge of the district and taking in Texline in the Panhandle, as well as Andrews county on the western side. Official statement of the cigars made

NO SENATORIAL **CHAIRMAN CHOSEN**

Filings of Candidates With Moreland "O. K."

It seems that there is a vital question of more one arising from the sentorial contest in the Twenty-eighth senatorial district, and that is, did or did not the senatorial convention held at the Tarrant county courthouse July 19, 1902, select a chairman for the senatorial district? A reference to the files of The Telegram for that date fully warrants the assertion that it did

Briefly summarized, the proceedings of that convention were: In the absence of the chairman of the district, George Armstrong, R. F. Milam called the convention to order. Temporary organization, afterward made permanent, was effected by electing Judge John Richards of Parker president and J. J. Hines of Hood secretary. The delegates present were few; the Tarrant county delegates, Judge Richards, representing Parker; J. J. Hines, representing Hood, and R. F. Milam, by proxy, representing Som-

erwell county. Judge Richards, saying that Parker county had not had the senator for 18 years, sought to have a resolution passed giving the senator to Parker next term.

It was objected to for the reason that the convention then in session could not bind any subsequent convention which might assemble to make senatoril nominations, and finally it was recommended to the voters of the district that it was the sense of the convention that Parker county should have the next state senator from the Thirtieth district. W. A. Hanger was nominated, no-

tified, accepted in a brief speech and the convention then adjourned. No action whatever that by any strain of the imagination could be construed as even hinting at the election of a chairman for the senatorial district can be found, and therefore it seems there is no one to act in that capacity execept State Executive Committee Q. T. Moreland, with whom all the candidates have filed applications for places on the senatorial ticket.

FAINTING SPELLS

CAUSED BY WEAK CONDITION OF THE BLOOD.

Cured by Dr. Williams' Pink Pills, the Remedy Which Actually Makes New Blood. Anæmia makes the patient short of

breath so that there is often a sense of suffocation, sometimes there is a cough and the sufferer seems to be going into consumption, at others there is a murmur of the heart and heart disease is feared. In the following case severe fainting spells were an alarming symptom resulting from "too little blood."

Mrs. George Forrester, of 7 Curtis street, Watertown, N.Y., says: "Some time ago I took a heavy cold and it left me in a very weak condition. I became worse and worse until finally I had anæmia. I lost flesh and appetite, had no color and was subject to fainting spells. Sometimes they would attack me suddenly and I would fall to the floor with hardly any warning.

"I had one of our best physicians, but after he had been attending me about a month without any improvement in my condition, I decided to see what Dr. Williams' Pink Pills would do "The pills were well known to me

for, about two years before, members of my family had taken them with the best results. I soon found that the pills were just what I needed for I soon began to notice an improvement. After I had taken them a while longer I was entirely cured, and we all believe in Dr. Williams' Pink Pills and recommend them highly." Dr. Williams' Pink Pills cured Mrs.

Forrester because they actually make new blood. They do that one thing and they do it well. Impoverished blood is deficient in red corpuscles. Dr. Williams' Pink Pills increase the number of these red corpuscles and in this way send health and strength to every tissue. Medical authorities are agreed that the health of the nervous system depends directly upon the red corpuscles in the blood and in this way Dr. Williams' Pink Pills have cured many nervous disorders as well as blood diseases that have not yielded to ordinary treatment. All druggists sell Dr. Williams' Pink Pills or they will be sent by mail, postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Wil-liams Medicine Co., Schenectady, N. Y.
