Jiminez and Morales Plan to Overthrow Government

NEW YORK, July 3.-A dispatch from San Juan, Porto Rico, to the Tribune says that French and Cuban steamers which have arrived there brought a large number of exiles from Santo Domingo. They are unanimous in the assertion that Barahona, Porto Plata, Monte Cristi and other towns are frequently attacked by bands of insurgents, while the rebellion is in full swing along the northwest line. They say that the insurrection has been handleapped by lack of supplies and an efficient leader and that most of their arms and ammunition have been taken from the government troops in repeated encounters. The captain of the Deutschland,

with which the Kronland reached communication first, reported that the steamer was leading the La Provence by fifty miles. Later the Kronland received signals from a French steamer, whose captain reported he was gaining on the German rival. Neither vessel gave its position, but the Kronland was south of Cape Race, Newfoundland. It was last Friday when the Kronland received the wireless messages. The two swift steamers are now close to the finish point of their race for Lizard's Head.

WILSON PRAISES MEAT

Statement Issued to Restore Confidence of Public in Packers

By Associated Press. WASHINGTON, July 2 .- By direction of the President, Secretary of Agriculture Wilson has issued an official statement concerning the new system of meat inspection to be immediately put into effect. The statement is intended to restore public confidence at home and abroad in cannel meat and products of American packing institutions. It reads: "American live stock is the healthiest in the world. The great ranges of the west produce herds of cattle in which the percentage of disease is remarkably small, which the federal government is steadily reducing by approved scientific methods. Inspection

of animals before the time of slaugh-

ter laws has been thorough. Power Was Lacking "It is true the department heretofore lacked the power and money to provide for efficient supervision of methods for preparing canned meat from products. The legislation just effected provides the department with adequate law and ample money to carry it into effect. The supervision of inspection will be extended from pasture to package. Federal stamps upon the can will be a guarantee not only of the healthfulness of the animal, but also that the product was prepared in sanitary surroundings with the addition of no deleterious chemicals or preservatives in

any product." WOULD SUPPORT HEARST Paris Politician Declares Populists Are

By Associated Press. NEW YORK, July 3.-Forty-eigh, strikers in the wallpaper factories of Janeway & Co. and Janeway & Carpenter at New Brunswick, N. J., have thrown out of work five hundred employes and practically shut down the two plants.

On July 1 in each year the union and the employers sign a contract for the coming year. This year the printers and color mixers demanded that each man work fifty-five hours weekly and be paid for sixty hours. This means a half holiday every Saturday in the year, while heretofore this has been given only in the summer. Another demand is that while a union man is off a day his machine shall be run by the next man, who shall receive pay for two men for running both machines. The employers refuse to agree to these terms. All the manufacturers in the United States may become involved in the fight against the unions.

Monday's Results. Dallas 6, Waco 3. Fort Worth 4. Cleburne 0.

Fort Worth 4, Cleburne 0, was the story of Monday's game. What more could one expect from as crippled-up a team as Cleburne had yesterday? Mickey Coyle left yesterday for Cleburne to see his mother, Powell was sick and played the bench, Mason was put behind the bat, Dickson on first and Shelton on second.

Rick Adams, as usual, pitched a splendid game, but could never have won with the support that was given

For three innings both sides were retired without a score, but in the fourth Fort Worth started something. Salm led off with a beautiful threebagger. Wilson hit an easy one to pitcher and it looked as if Rick would pull out of the hole, but Carlin ruined his chances for anything like that. He bunted down third base line, scored Salm and beat the bunt out for a hit. Fick did not like the way things were going; he got mad and struck out the next two batters.

Cleburne never looked like she was going to get a score: She never once got farther than second and only twice did she succeed in getting there. In the second Moran got base on balls and stole second, and in the third Wright got a hit and stole second. Both times Walsh retired the side without any damage being done.

Only three hits could the Railroads get off of Walsh, and they were so well scattered that one could hardly count them. Wright got the first one in the third, Shelton the second in the sixth and Whiteman the last one in the

Walsh was much more generous in giving passes than he was with his hits. He gave four bases on balls and hit one batter.

Fort Worth scored her other three runs in the fifth and eighth innings, respectively. In the fifth. Walsh, the first man up, got a base on balls, was advanced on an error of shortstop and scored on Aken's error of Ollie's easy grounder. Adams struck the next batter out. The other two men were out on infield fly and an assist from catcher to third. Three of Fort Worth's Wilson got on by an error of Aken's, the plate by Adams, who made a dive for him and tagged him three feet from home. Clayton, the next man, struck out; Erwin got a hit, scoring both Wilson and Carlin; Walsh followed with a hit: Ollie struck out, ending the game for Fort Worth.

In the ninth Whitman led off with a hit, Poindexter flew out to Erwin, Moran to Gfroerer and Speaker finished the game by going out to Cav-The score:

# MATINEE RACES JULY FOURTH

Five Numbers Arranged For Big Event

"Five events that will make your patriotic blood course through your veins faster than Lou Dillon ever dreamed of running," said Secretary H. A. Lawler Tuesday morning, in answer to an inquiry as to how the Fourth of July race program was to be filled. Continuing, Mr. Lawler, who has the reputation of being an excellent press agent as well as a thorough racing enthusiast, said:

"Ladies will be free; everything will be arranged for the comfort and the pleasure of everybody, and everybody will enjoy the races. They will enjoy them for the simple reason that this program will have a little more 'snap, vim, life and fire' about it than any we have ever pulled off. The members of the Fort Worth Driving Club are beginning to take more interest in things at the track. We have things in better shape than ever before and we all expect to see the grand stand crowded to its utmost capacity. The bell will sound for the first race at 2:39 o'clock."

On the Amateur Diamond The 161 and the Moody Heights will cross bats tomorrow at the Diamond Hill grounds. The line-up is as fol-

"Ladies' night" at the Palace rink. Lake Erie, last night was a great success, the largest crowd being present that was ever accommodated at the rink on a Monday night. The management has extended an invitation to all ladies to visit the rink on Monday nights and skate free of charge, and a great many of them took advantage of the offer Monday night. This is the first time that such an invitation has ever been issued by a local rink, and judging from the reception which it was accorded, it bids fair to become nost popular.

The skating was by no means confined to the ladies, as fully as many he session even more than usual. # FRAUD DECLARED IN FAMOUS RACER

Go-Between Said to Be Stallion, Not Gelding

By Associated Press. NEW YORK, July 3.—The protest made against Go-Between, winner of the Suburban handicap, on the ground that he was improperly described as a gelding, took on a new phase yesterday when the veterinary surgeons appointed by the stewards of the Coney Island Jockey Club at a Sheepshead Bay meeting reported that the statements in the protest were correct and certified that Go-Between is a stallion and not a gelding, as he has been described in entries throughout the four

years of his racing career. Received Undue Allowance

The report made it plain that for four years Go-Between has raced in a capacity not properly his, and repeatedly has received allowance in weight to which he was not entitled. The matter is held under advisement by the stewards, who stated that they had no statement to make, beyond the report of the veterinarians. It is said, however that they will hold a thorough investigation of the entire history of Go-Between. C. F. McMeekin, who bred Go-Between, was killed in the railroad accident at Salisbury, England, Sunday but it is probable that the records of his sale will be available as a starting point in the inquiry.

## RESOLUTIONS PASSED

Fort Worth Bar Issues Memorial on Judge B. R. Webb.

The death of Judge B. R. Webb was the subject of resolutions by the Fort Worth Bar Association, the memorial being reported to the meeting of that body Monday by C. C. Cummings, I. N. Stephens, J. C. Scott, Sidney L. Samuels and Robert McCart, the committee appointed for that purpose. The text of the resolution reported is as

"Judge Truman M. Connor, Chairman Fort Worth Bar Meeting-The undersigned committee, heretofore appointed to draft suitable resolutions expressive of the deep affliction we teel at the recent demise of our late brother at the bar, Judge Britain R. Webb, whose death occurred in this city June 28, 1906, beg leave to report as follows for the consideration of our brother members of the bar:

"Judge Webb was born in the state of Mississippi fifty-four years ago and after a liberal education at the University of Mississippi began the practice of his profession in his native state, which he pursued with the diligence and application characteristic of the man until his removal to western Texas in 1877. There he soon attained the high rank in his calling which he has held with ever increasing progress till the day of his death. His constituency in a short time honored him with a place on the district bench, which position he filled with eminent satisfaction to his friends until he chose to take his stand as a member of the bar in a practice that brought him flattering results.

"In the meantime he turned his facile mind toward authorship, which leaves us a heritage of great use to the profession and his 'Record Title' stand, as a monument to his genius for taking pains in arraying decisions in admirable order on this abstruse subject. His other works are positive forces for good in the line of our profession. For ten years he has been building a reputation as a careful and industrious collator of decisions of the court of civil appeals of the second supreme judicial district of Texas, as reporter of this court. The mode of his selection to this important trust argues most certainly as to his qualifications as guardian of this most difficult post and the fact that he has held it without a rival so long exemplifies the work he has left, which will last as long as the annals of the state remain. This busy life, with its varied obligations and intense and most strenuous duties, we fear, has contributed in no small degree to his demise. Therefore, be it

"Resolved by this bar, That we deever drawn in admiration; that he was one whom we delighted to honor and was one whom we loved with an ardent affection for his many high qualities of mind and heart. That we deepy sympathize with his bereaved famlly and here tender them our most heartfelt condolence in this hour of heir most direful affliction.

Y. Cummings-We, your committee, appointed at the meeting of the candidates held at Euless Tuesday, June 26, 1906, to draft suitable resolutions concerning the death of Reuben Baskin, the father of our esteemed friend and fellow candidate, Hon. A. J. Baskin, and the grandfather of our esteemed friend and fellow candidate, Thomas W. Jackson, beg leave to report as follows, to-wit: Resolved. That in the death of Mr. Baskin, Tarrant county has lost one of her most worthy and useful citizens: a man whose four score years were filled with deeds of kindness and usefulness: a man who was at all times a loving father, a tender hus-

band, a public spirited citizen and ar

honest and upright man-one whose

loss will be felt by the many friends made during a long life spent in our midst. He was one of nature's gentlemen, whose every thought was for the happiness of his fellow men. Resolved, That to his sons and laughters and other members of his family numbered among our most valued and useful citizens, and their friends, we desire to express our most sincere sympathy and to assure them that the throbs of their grief stricken hearts meet a response in the heart of each one of those who knew Mr. Baskin, and who can appreciate the loss of such a father and relative. Resolved, That to Messrs, Baskin and Jackson, we desire to extend the tender and loving sympathy of each one of our number, who during this campaign have learned to appreciate

the many noble qualities possessed by each. Respectfully submitted by the committee R. H. BUCK, Chairman. JOHN L. TERRELL.

# GRAND JURY HAS **BIG DOCKET ON**

Many Cases to Come Up For Disposition at Present Term

The grand jury of the Forty-eighth district court, which has not been in session for nearly a month, was reconvened Monday and at once went to work on any new matters that may be presented to that body. There has been quite an accumulation of business since the adjournment four weeks ago that will have to be disposed of. One of the most important matters probably is the murder charge that is pending in Justice Rowland's court against Mrs. Mattie Bouvet. Mrs. Bouvet was at the courthouse Monday, but investigations made by The Telegram showed that she not only did not go before the grand jury, but that she had not been summoned to appear up to 2 o'clock Monday afternoon. She has never been arrested on the charge of murder pending in the justice's court and is not under any bond.

Another case that is to be investigated by the present jury is that against George Moore, charged with robbery of the safe of the National Fruit & Produce company. Moore claims that he was forced to burglarize the safe by men who he endeavors to connect with the death of the two men found on the Santa Fe track near the Darlington cut, north of the stockyards, which mystery is still un-

The case against Mrs. Aelo Taliaferro, charged with killing her brother-in-law, Joseph Cree, of Fort Worth, also is expected to be disposed of by the present grand jury.

# ST. VITUS' DANCE

CHILD OF TEN CURED BY DR. WILLIAMS' PINK PILLS.

Mrs. Ream's Daughter Began to Gain Flesh at Once and Is Now Well and Happy. Children are doubtless punished many

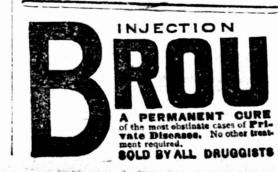

times at school for not keeping still or for dropping things when the trouble is really chorea, or St. Vitus' dance, as it is popularly called. So common is this nervous disease in childhood that in some schools one-fifth of all the pupils have been found suffering from it in one form or another. Before the presence of the disease is betrayed there is usually a disturbance of the general health. The child shows listlessness and inattention. Then it becomes restless and twitching of the muscles and jerking of the limbs

Often the patient loses flesh and becomes pale and bloodless. A remedy that cures St. Vitus' dance, and cures it so thoroughly that no trace of the disease remains, is Dr. Williams' Pink Pills, A recent cure is that of Georgia, the tenyear-old daughter of Mrs. D. M. Ream, of Conemaugh, Pa. Mrs. Ream says:

"When Georgia started to school last year she had stomach trouble and afterward her mouth began to twitch. She would shake all over and could not be still. After a few months her mind became affected. She was under the care of two doctors for almost four months. When she had been sick for about seven months we heard of a case like Georgia's that had been cured by Dr. Williams! Pink Pills. It was in the latter part of February that she commenced to take the pills and they made the greatest change in her. They not only cured every trace of the St. Vitus' dance but helped her in every way. She never was very stout until after she took the pills, but now she has gained in weight. She goes to school every day and is well and happy. Dr. Williams' Pink Pills are

worth their weight in gold." Dr. Williams' Pink Pills build up the blood to carry health and strength to every part of the body. They have cured severe cases of bloodlessness, indigestion, influenza, headaches, lumbago, sciatica, neuralgia, nervousness, spinal weakness and the special ailments of girls and women whose blood supply becomes weak, scanty or irregular. They are sold by all druggists or will be sent by mail, postpaid, on receipt of price, 50 cents per box, six boxes for 2.50, by the Dr. Williams' Medicine Company, Schenectady, N.Y.

JUST NINE DAYS FOR RUFUS MARTIN

A Noted Piece of Hemp Will Hang Negro

Rufus Martin, the negro sentenced to be hung on the charge of the murder of Charles Swackhammer, a white farmer, near Polytechnic Heights, has just nine days to live, the date of his execution being Thursday, July 12. The execution will take place inside the walls of the county jail, the same gallows being used that was used at the execution of James Darlington alias Garlington. The rope that will swing the condemned man into eternity has been used in seventeen executions and the Martin hanging will be its eighteenth. The number of witnesses allowed inside the jail is regulated by law and Sheriff Honea says that no tickets of admission will be issued beyond what the law permits. Martin is aproaching his last day with remarkable firmness and those in charge of him say he will meet death without flinching. He never talks of the crime for which he is to die, and there is nothing to indicate that he will make a scaffold confession. Sheriff Honea said to a Telegram reporter Tuesday that it was reported that he would delegate the disagree-

able duty of the sheriff on the occasion of Martin's execution to some one of his deputies. "I wish to deny this," he said, "I will hang Martin myself, and not shirk the unpleasant duty that the law imposes on me. Of course, I don't like the job-it is not a pleasant one; but it has to be done by some one, and as the law says it shall be done by the sheriff, I am not going to ask some

The balloon case in Justice Rowland's and Justice Terrell's courts has not yet been tried and it presents a very complicated aspect. The woman, Marie Coleman, charged with burglary by R. T. GIFT FROM MIKADO Cartoonist Sent Drawings of Late War to Japanese Emperor

By Associated Press. NEW YORK, July 3 .- A London dispatch to the Times says that last November Henry Mayer, the cartoonist, forwarded to Tokio as a gift to the Mikado the originals of his drawings on the Russo-Japanese war, which had appeared in the Times. He has just received word that the Mikado has accepted the gift and as a return courtesy has sent him a pair of Japanese cloissone vases with the imperial crest thereon.

### THE THREE BIG BILLS

The three conspicuous measures pending before congress relating to railway rates, meat inspection and pure food, finally passed and have been signed by the President. Jointly they comprise the most important regislation enacted in this country for many years. Following is a brief synopsis of the leading features of these very important measures:

The railway rate bill requires all interstate carriers to make through routes and reasonable joint rates. It makes oil pipe line companies, express companies and sleeping car companies common carriers and subject to the law. Railways are forbidden from engaging in any other business than transportation. Pipe lines are excluded from this prohibition. While permitting railways to use private cars, it requires that all incidental charges arising from refrigerating and other services be incorporated in the transportation charge. It requires publication of all rates, fares or charges. and forbids change save on thirty days' notice. Jurisdiction is conferred upon the interstate commerce commission to hear complaints of unjust and unreasonable rates, and to fix rates that are just and rea-Rebates and other discriminatory practices are forbidden and subject to penalties. A limited review or orders or requirements of the commission may be made by the courts, but no injunction, interlocutory or decree suspending or restraining the enforcement of an order of the commission shall be granted except after not less than five days' notice to the com-Free transportation is limited to certain specified persons, and the interstate commerce commission is enlarged to seven members, whose compensation is fixed at \$10,000 annually.

The meat inspection bill provides that before any cattle, sheep, swine or goats are taken into any estab-Ifshment for slaughtering and preparation for market they must be examined while alive for any signs of disease, and if such are found they are to be slaughtered separately and the carcasses given a special examination. All carcasses are to be carefully inspected and if sound, healthful and fit for human food will be tagged "inspected and passed," and if not will be tagged "inspected and condemned," and in the latter case must be destroyed in the presence of the government inspector. After this first inspection another inspection of carcasses or parts of carcasses may be had to see If the meat has become unfit for human food since the first inspection. An inspection must also be made of all meat food products, and this inspection will follow the product into the can, pot, canvas or other receptacle into which the same is put until the same is Any meat or meat food products put into can, pot, canvas or other receptacle, must have a label attached to it under the supervision of a government inwhich shall state the contents. All establishwhich prepare meat for interstate or foreign commerce must be inspected by expert sanitary inspectors, and kept in perfect sanitary condition according to rules and regulations provided by the govern-Government inspectors are given the right to enter any part of any establishment at any and all

The pure food law prohibits the manufacture, sale, delivery for shipment, or introduction into any state or territory or the District of Columbia of adulterated. misbranded, poisonous or deleterious food, drugs, medieines or liquors and imposes a penalty for any violation of the law. It provides for making rules and regulations for executing the provisions of the act, requiring an examination of specimens of foods and drugs and if the law be violated the offender will be proceeded against without delay in the courts. If drugs differ from standards in strength, quality or purity, which are fixed in the national formulary, they will be held to be adulterated. Confectionery will be declared adulterated if it contains any ingredient or coloring matter deleterious or detrimental to health. Foods will be

considered adulterated if containing any substance injuriously affecting the quality or strength. Preserva-DAILY, SUNDAY AND WEEKLY BY THE FORT | tives may be applied externally when directions for their removal are printed on the package, Drugs or foods will be deemed misbranded if falsely described by their labels. Drugs in packages must bear a statement on the label of the quantity or proportion of alcohol, morphine, opium, cocaine or heroin alpha or beta cocaine, chloroform canable indica, chloral hydrate, or any derivative thereof. The word "compound," "imitation" or "blend" must appear on mixed liquors, and only harmless coloring or flavoring ingredients can be used. False labeling of food or drugs imported into the United States will prevent their admission.

#### WHAT ROOSEVELT HAS ACCOMPLISHED

In commenting on the fact that President Roosevelt has cost this country \$100,000 more than any of his predecessors, Senator Joseph Weldon Bailey recently said "Roosevelt has cost more and is worth less than ether Presidents we have ever had."

That is pretty strong language and on the surface may be more or less justified, as it has been well said the President has promised more and done less than any of his predecessors. But the fault may lie with the Edterial Rooms-Phones ...... 676 fact that the President has undertaken so much. Yet, more has been accomplished in his term-even in the last year-to bring the piratical trusts into subjection to law than in the three decades since the interstate commerce law was passed.

> Roosevelt has brought about the railway rate bill, which will give us honesty in freight shipping.

He has won out in packing house inspection, which it is believed will put an end to unwholesome meat. He has practically destroyed the wholesale stealing

of western lands by syndicates and saved millions of acres for settlers.

It is because of President Roosevelt that there is to be federal prosecution of the Standard Oil people.

It is because of him that fines aggregating \$90,000 have been imposed upon five packing companies and a railroad, and two freight brokers sent to jail, for violation of the anti-rebate law

It is because of him that fines amounting to \$40,000 were imposed upon another railway and two of its officials for a like offense.

It is because of him and his sleepless zeal and unceasing activity that the great corporations have been made at last to understand that they are not superior to law, but must conform to it or suffer heavy con-

The paper trust has been destroyed.

The fertilizer trust faces eighty indictments. The tobacco trust has been compelled to bring its

books into court and two of its constituent companies have been indicted. The drug trust has been enjoined.

And back of every one of these moves against corporate greed and lawlessness has stood President Roosevelt with the Big Stick.

Due allowance can be made for the President's blunders, egotism, compromises and recklessness of speech. and there still remains an immense balance of worth hat cannot be discredited in the minds of the grea American people

Senator Bailey is a democrat and a leader in the democratic ranks. He has a right to pick flaws in the record of any member of the republican party, and it is a duty he owes to his own party to hold up the folbles and failures of the great leader of the oprosition party whenever the opportunity presents itself. But Senator Bailey should be fair.

The Telegram is a democratic paper and never fails to stand up for the great principles of its party. But The Telegram believes also in the eternal principles of the Square Deal. For that reason it believes it but just and right to give the President due credit for all he has accomplished. He may not have done as much as was generally expected, but the fact is clear that he has done much that reflects credit upon his administration and that will result in benefit to the masses of

And Roosevelt could and would have done more but for the opposition of his own party leaders. That he has been able to accomplish so much under such adverse circumstances is greatly to his credit

Censure for what has not been accomplished belongs to the republican party far more than to the President, who has evidently done the best he could under the

The court of criminal appeals has adjourned for the erm, very badly behind with its work. The records show that Judges Davidson and Henderson have writand handed down about seventy opinions each in disposing of cases pending, while Judge Brooks has barely written a dozen. If the court had been able to handle as many cases as was handled at the Dallas term it would have pretty well cleaned up the docket at Austin, but on account of Judge Brooks' absence many cases had to be carried over to the Tyler term.

The expected has happened in the matter of the finds itself face to face with injunction proceedings. These who are in position to judge very well as to the real conditions are emphatic in the belief that the infunction will be sustained.

Texas congressmen are complaining that they cananot get home in time to make Fourth of July speeches for their admiring constituency, but we will manage to get along without them some way. The barbecue will be just as good and the baby show just as successful as if a real live congressman was in attend-

Mayor Tom Johnson of Cleveland, Ohio, will pre-J. Bryan in New York upon the occasion of his return from foreign lands, and Henry Watterson will deliver the address of welcome. It is expected the occasion will be an old-time democratic love feast.

John D. Rockefeller, who is now sojourning in Europe, avers that he has had no connection with the Standard Oil company for twelve years. Perhaps the Federal government is going to be put to some trouble to locate the members of that great corporation, which moves in a mysterious way its wonders to perform.

Fort Worth will get \$150,000 for the enlargement of the Federal building in this city, and while not as much as is badly needed, the amount given will enable improvements to be made that will greatly relieve the present crowded conditions.

The great American eagle will scream in many parts of Texas on July 4, as many candidates for public office proceed to pluck a few feathers from his tail.

Perhaps the type of the Panama canal will be fixed some time before the big ditch is completed.

M. M. Crane very wisely decided not to enter the lists against Balley for the senatorship.-Denton Record and Chronicle.

The time intervening before the state primaries was too short to permit Crane to do justice to the situation. Bailey will have no opposition for the next term.

\* \* \* \* It is to be hoped that the request of the Agricultural and Mechanical college for new buildings will be heeded by the state. It is to be hoped that it will be given what it wants, and treated in a most liberal way. The success of the school means the prosperity of the state as a whole.-Terrell Transcript.

The college at Bryan is the institution in Texas that is constantly proving its value. It is giving our young men a practical education and fitting them for the battle of life in the proper manner. It deserves every support and encouragement.

Old Dick wouldn't do much to Brother Micajah, but what he did do would be a-plenty. -Waco Times-Herald.

In a certain western town there was a political office to be filled last spring, paying the munificent salary of \$250 per year. The opposing political parties were about evenly balanced and there was keen opposition and a lively campaign for this small plum. One of the candidates was a shrewd old fellow and was well liked. It looked as though he would be successful, as a neat little sum had been subscribed and turned over to him as a campaign fund. But to the atsonishment of every one, however, he was defeated.

"I can't account for it," said one of the political leaders, gloomily. "With that money we should have won. By the way, how did you lay it out?"

"Well, it was this way," replied the defeated candidate, slowly, pulling his whiskers, "you see, that office only pays \$250 a year salary, an' I didn't see no sense in payin' \$850 out to get the job, so I jist bought meself a little truck farm instead."

# JUDGE BELL'S MANLY CAMPAIGN

Judge Bell has made and is still making a manly and open fight for the high office he is seeking. His campaign was pitched on statesman like lines and he A stanch friend of Judge Brooks in Terrell admits has only deviated from legitimate and proper paths when it was necessary to call down the glaring misrepresentations of some of his competitors. He has studiously refrained from mudslinging and all forms of personalities, and has appealed to the people only as a patriot and a statesman. And Judge Bell has isked no favors. He has made his fight as a man should and would make it. There have been no stabs in the back, no undercuts and no appeal to the passions and cleanest ever witnessed in Texas, and that is the reason it is proving a winner.—Fort Worth Telegram.

Nothing reflects more credit on Judge Bell in his whole career than the dignified and manly course he has pursued in this campaign. While some of his opponents were losing their tempers and calling people liars, he has pursued the even tenor of his way, impressing the people of Texas with his manly, temperate and yet vigorous course.-San Antonio Express.

#### . . . . THE FIGHT ON LANHAM

A little less criticism of Governor Lanham and a little more attention to the legitimate issues of the guternatorial campaign would be more becoming on the part of papers that pride themselves on the quality of their democracy. Governor Lanham is not an issue in the campaign and seems to be attending strictly to the duties of his position .- Fort Worth Telegram.

The candidates who are making this race on the supposed demerits of their opponents and whose chief stock in trade is personal criticism, deserve the rebuke that the good people of Texas will shortly give them. Certainly the efforts of these men and their supporters to lug Governor Lanham into this race are so petty as to be beneath contempt.—San Antonio Ex-

#### . . . . INVEST THE SCHOOL FUND

There may be a big hole in the general revenue of the state, but it is gratifying to note it does not reach the public school fund. There is now in the state treasury more than \$1,000,000 of the children's money that has not been invested. And that school fund is the pride of every progressive citizen of Texas. It is a heritage left by the fathers grander than that of any other state in the union. The Texas public school endowment is one of the biggest and grandest things on earth.-Fort Worth Telegram.

It is to be hoped that the million dollars or so much of it as is not needed for current expenses will be invested. That sum of money at even a low rate of interest would bring a tidy sum. At 3 per cent the interest would be \$60,000 and that would run several schools.-San Antonio Express.

teaching service. Major Van Zandt objected to the teaching experience outside of the city unless in graded schools of about the same character, counting with the teaching experience in the city schools,

#### and that view prevailed. To Await Prof. Hogg's Report

The consideration of the report was temporarily suspended that Professor Hogg might make a statement, in the nature of a report, showing the progress of the schools in the last four years and especially in the matter of attendance. The total number of teachers last year was 125 and the superintendent and the supernumeraries were ten more. It was urged that ten or twelve additional teachers were needed to care for the increase in pupils. The report will be compiled in more detail and printed if the board can see the way to provide funds for that work,

# \$80,000 Needed

The statement was made that the total needed for the pay of the teachers under the reported schedule would be about \$80,000, the increase being

Some of the trustees advocated the yearly raise in salaries depending on length of teaching service. It was soon seen that the board was getting into deep water on the whole question and that it might be more carefully considered, adjournment was taken.

The Fort Worth weather bureau is supposed to mail the daily weather map or card to all towns within a radius of 100 miles of Fort Worth and to this end Observer Landis has been sending out postal cards on which were printed several questions for the postmasters to answer, telling whether cards or maps were received and whether frames for the maps or holders for the cards were in the possession of the postmaster and whether weather signals were hoisted daily. Probably Observer Landis will not add to the official duties of the Vashti postmaster the arduous task of posting the weather map each day, and the residents of the town will have to worry along without the forecaster's prediction as to their weather.

### ADVERTISING THE CITY Transparencies of Fort Worth Going to

Northern Cities There are on view in the office of

the Board of Trade several samples "transparencies" made by the Southern Scenic Display Company. The "transparencies" are colored enlargements of photographs done on a transparent film so that when placed between the eye of the observer and a source of light the scene is brought out very graphically.

A harvest field scene, a bunch of grazing cattle, the Fort Worth City Park, Trinity river dam and the city hall are among those to be seen in the Board of Trade rooms, and some of them are really beautiful. The Board of Trade has had a large number of these views made and will use them as a means of advertising the city in northern states. They will be placed in a case exposed on a prominent corner and provided with electric lighting arrangement so as to be displayed during the evenings. A clockwork contrivance will turn the views slowly so that a number can be shown from the same case. Captain Paddock believes that these

Tumble Early, but Make Sub-Condition Report Bullish But Has Littie influence on Market-Comparatively Slight Advance Special to The Telegram. TEM YORK, July 3.-Nothing NEW YORK, July 3,-The cotton transpired over night to turn the tide testiment toward the long side of the stock market and a canvass of the

market was a very tame affair today, notwithstanding the fact that the department of agriculture issued the monthly condition report. While this was distinctly favorable from a bullish standpoint, inasmuch as the condition on June 25 was placed at 83.3, a deterioration of 1.3 per cent for the month, against 77, or a deterioration of 2 per cent for the corresponding period last year, the market was less affected than by any development of a similar character during the past year. The fact that the data from which the report was compiled was forwarded to the department of agriculture before the drouth conditions in southern Texas were relieved had in a measure discounted the bullish figures, and the approaching holiday also probably had a tendency to curtail activity, at any rate the even tenor of the market was not disturbed in the least, the only noticeable effect being a slight increase of activity among the short crowd who

covered, causing a gradual advance,

which in the course of an hour car-

ried prices up 9 points from the level

in the second undertone, in in the second in at which they stood at midday, when the report was issued. Prior to the issuance of the report trading had been almost suspended, in response to the unfavorable character of the Liverpool advices, the market opened weak with prices 5@9 points lower, and fluctuations more narrow during the early trading, prices standing at a net loss of 2 points for new crop months at noon. The full advance was not maintained owing to some liquidation, which occurred in the final hour. The market closed steady, with prices at a net gain of 1@3 points for new crop options. Special to The Telegram. NEW ORLEANS, July 3.-The monthly condition report showing the condition of the cotton plant on June 25, while undeniably bullish, fell atmost flat as a market factor, prices responding very poorly, as compared with what the talent had anticipated. #### The Brewer Letter

Urging Colonel Cecil A. Lyon of Sherman, Texas, to accept the nomination by the republican party of Texas for governor of the state, Dr. C. P. Brewer has come out in an open letter to Colonel Lyon, saying that he has not consulted with anyone regarding the matter and that he does not wish it to be understood as a concerted action resulting from plans outlined previously, but that he is confident the rank and file of the republican party of Texas will approve the suggestion and that, if he will accept. Colonel Lyon will be the republican nominee by acclamation.

Dr. Brewer refers to Colonel Lyon is the David of the party entitled to be pitted against Goliath, when the lemocrats shall select their nominee and the name of the Giant goes forth to the state. The communication pleads for the beginning of new things in the republican party in the Lone Star state, saying in part:

ing of the guards, driver and passen-"Let us begin a new history of regers, as the Indians did in the west publicanism in Texas. Let its every fifty years ago. # Obeying a call issued from Denison,

July 2, the independent republicans will meet in Dallas to decide on a state ticket and do other things pertaining to the interests of that wing of the After Slashing Wife with Knife republican party in Texas. The call, signed by R. S. Legate, Harry Beck and H. W. Gaston, reads: "The republicans of the state of

Texas who believe that its principles are first to be subserved, who are opposed to machine politics and to the promotion of the interests of individuals above party, who will aid in efforts to deserve and obtain the support of the good people of Texas in promulgating the true doctrine of republicanism are requested to meet at the Oriental hotel at Dallas, Texas, at

3 p. m., July 4, 1906." The names signed to the call are some of the members of the executive committee appointed at the Fort Worth meeting of the independent or insurgent Republicans, held in June. That committee is composed of a member from each of the thirty-one senatorial districts and Dr. J. M. Mosley of Fort Worth, who has been probably the most active spirit in the movement and who signed the call for the Fort Worth meeting, said Tuesday morning that twenty-one acceptances of the committee appointments had been received, nearly all from the Republican strongholds, as to voting strength. There was one exception, of which Dr. Mosley is proud. That is from H. W. Gaston of one of the Panhandle districts, where there are practically no negroes. Mr. Gaston was a presidential elector when Roosevelt was elected and stumped his district for the Republican presidential candidate. He says that they will get a large

number of votes for the independent inovement in his district. Predicts Small Lyon Vote.

It is the announced intention of the independents to put out a state ticket and try thus to aid in the preservation of the party by party organization. Dr. Mosley says if Colonel Lyon is nominated at El Paso as he understands will probably be the case, he will be surprised if the colonel gets 20,000 votes in the entire state. The voters are with the independents or insurgents, if that name suits best. The sentiment of revolt against the Lyon, or regular Republicans, is still said to be intense and those who are at its head expect substantial results to accrue from their action at the recent meeting here.

# HEADS INDIAN MISSION

Kansas Man Succeeds Professor George Trotter as Superintendent. Special to The Telegram.

TULSA, I. T., July 3.-Professor Charles Garber, a Kansas man, has been appointed superintendent of the Euchee Indian mission school at Sapulpa to succeed Professor George Trotter, who has been at the head of the institution for three years. The school is in a very flourishing condition. Last year over one hundred pupils were enrolled. Five buildings comprise the mission and forty acres of ground are farmed by the young Indians.

All the people in the world are my day," said Mr. Eckels. "He is going friends—if only I can treat them as to keep a promise made to me a long they should be treated!

# BELL TAKES LEAD IN TAYLOR COUNTY

Abilene Welcomes Three Candidates For Governorship

Special to The Telegram.

ABILENE, Texas, July 3 .- Texas political interest today is centered in the west Texas carnival under the auspices of the West Texas Fair Association. Three gubernatorial candidates, Bell, Campbell and Brooks, are on hand. Bell opened at 12:30 this afternoon. Brooks was next and Campbell

Baseball and races this morning helped to draw a crowd to the auditorium building of over a thousand, being filled when Bell began. Political sentiment seems well scattered in Taylor county and much depends on the outcome of today's efforts.

Candidates Arrive Early.

All the candidates arrived at 5:30 this morning and after three hours' rest were out greeting friends. Bell was greeted by a strong delegation. He is in fine health and voice, despite his strenuous beginning of this week's campaign tour. Tomorrow Senator Joseph Bailey speaks here and even larger crowds than today are expected. The selection of the order of today's speaking was made by mutual agreement instead of by lot.

# A DIVISION OF MARINE LIKELY

Democratic Committee May Change Voting Places

The democratic campaign committee, charged with the conduct of the primary, which is to be held July 28, has difficulty in regard to the Marine voting. It is estimated there are about 1,400 voters in what is still the Marine voting precinct, a precinct established before the growth of North Fort Worth, Marine proper and Rosen Heights added so many to the voters of the old Marine voting precinct. It has been suggested that the precinct be divided in two or three voting places and the places suggested are Marine proper, the stockyards and Rosen Heights. It is said that if the voters will all file a waiver of objection to the act that it can be done and in ample time for the voters to accustom themselves to the new boundary lines, defining their new voting places. All of the candidates who have been interviewed about the matter are perfectly willing that the division shall

## COTTON MEN MEET Convention Aims to Keep Prices of

Market Steady By Associated Press. LONDON, July 3.-Charles Wright Macara, chairman of the committee of

the International Federation of Master Cotton Spinners and Manufacturers' Association, who just returned here from the cotton spinners' congress at Bremen, thinks the international organization is within measureable distance of obtaining its main objects, namely, steadying prices, checking professional gambling operations, appointment of a committee to investigate rules of cotton exchanges and finally improvement of ginning, baling, transportation and marketing of cotton. He considers the decision to improve the marketing of cotton to be the most important action taken by the Bremen congress. He estimates \$5,000,000 will he annually saved in these items in American cotton alone and believes the strong financial position of American growers is enabling them to hold cotton and has an important influence in steadying prices.

Nebraskan Will Be Honored on His Return to America Special to The Telegram.

NEW YORK, July 3.-With plans already under way for a big welcome to William Jennings Bryan at his home, in Lincoln, Neb., on his return from his round the world journey, Colonel M. C. Wetmore and Morton Jourdan, leading democrats of St. Louis, will sail Wednesday for Europe to lay their plans before Mr. Bryan and to confer with him regarding the reception planned by the Commercial Travelers' Anti-Trust League to be given in New York.

"It is a foregone conclusion," said Colonel Wetmore, "that Bryan will be the nominee of the democratic convention in 1908, and it is my judgment, based on what I believe to be an intimate knowledge of political affairs in the west and southwest, that he will

Habit-forming Medicines. Whatever may be the fact as to many of the so-called patent medicines containing injurious ingredients as broadly published in some journals of more or less influence, this publicity has certainly been of great benefit in arousing needed attention to this subject. It has, in a considerable measure, resulted in the most intelligent people avoiding such foods and medicines as may be fairly suspected of containing the injurious ingredients complained of. Recognizing this fact some time ago, Dr. Pierce, of Buffalo, N. Y., "took time by the forelock," as it were, and published broadcast all the ingredients of which his popular medicines are composed. Thus he has com-pletely forestalled all harping critics and all opposition that might otherwise be urged against his medicines, because they are now of known composition. Furthermore, from the formula printed on every bottle wrapper, it will be seen that these medicines contain no alcohol or other habit-forming drugs. Neither do they contain any narcotics or injurious agents, their ingredients being purely vegetable, extracted from the roots of medicinal plants found growing in the depths of our American forests and of

well recognized curative virtues. Instead of alcohol, which even in small portions long continued, as in obstinate cases of diseases, becomes highly objectionable from its tendency to produce a craving for stimulants, Dr. Pierce employs chemically pure, triple-refined glycerine, which of itself is a valuable remedy in many cases of chronic diseases, being a superior demulcent, antiseptic, antiferment and supporting nutritive. Golden Seal root, Stone root, Black Cherrybark and Bloodroot, contained in "Golden Medical Discovery," in all bronchial, throat and lung affections attended with severe coughs. As will be seen from the writings of the eminent Drs. Grover Coe, of New York: Bartholow, of Jefferson Medical College, Phila.; Scudder, of Cincinnati; Ellingwood, of Chicago; Hale, of Chicago, and others, who stand as leaders in their several schools of practice the foregoing agents are the very best ingredients that Dr. Pierco could have chosen to make up his famous "Discovery" for the cure of not only bronchial, throat and lung affections, but also of chronic catarrh in all its various forms wherever located. avenue, Rosen Heights, will leave soon

# **GOOD OLD SUMMER** TIME A REALITY

Temperature at High Notch at Several Texas Points

There is an old saying which runs thus: "There's no loss without some small gain." These good old summer days, when the sun is beating down on the pavements and reflecting its heat back into our faces, as we hurry along streets, we are apt to lose our temper and sureto lose some of our avoirdupois in the form of perspiration. But the continuation of the heat day after day may help us to cultivate our patience and become resigned to the fate which awaits us in this torrid climate. We may gain in patience what we

Monday was another of those warm July days, the government thermomeer registering 96 degrees as the maxmum. During the night 71 was the owest point reached by the mercury. Temperatures were high over the tate, several places reporting 100 degrees or over. Rain was general in the outheastern portion of the state. Waco, Temple, San Marcos and Palestine reporting more or less neavy precipita-

The Rocky Mountain region is generally fair under a high barometer, but he eastern states experienced rain in many parts, this serving to alleviate the suffering from the intense heat of the past week. The lowest temperature reported was at Lander, Wyo., where the thermometer registered 40 degres. At Phoenix 106 degrees, the maximum for the country, was recorded.

## PANTHERITES VISITING

W. D. Davis and Others Talk of Cattle

Conditions The San Antonio Express prints the ollowing grist of items concerning Fort Worth visitors in the Alamo City: W. D. Davis and wife of North Fort Worth spent the day in San Antonio Thursday. Mr. Davis is mayor of his city and is also prominently connected with the live stock commission rade in that market.

Discussing the situation generally, he said to the Express: "The cattlemen of north and northwest Texas are in excellent shape, both from a financial as well as a range point of view. Rains have been reasonably abundant, and while prices are not as good now as they have been, they are sufficiently seductive to attract heavy receipts of cattle at the markets. The calf receipts in Fort Worth of late have been heavy, averaging about 2,000 heal every day. The price has been pretty good and this, together with the evident desire of the cattlemen to reduce their herds, has caused the extra heavy runs of vealers. Many of the big cattlemen are now investing in lands and city real estate, and I could name a half dozen or more right in Fort Worth who are investing in city property rather than extend their holdings in cattle. The settlement of the country by farmers is, of course, the prime factor in this disposition to

buy dirt instead of heifers." Mr. Davis is a member of the Fort Worth Live Stock Exchange and is as firmly convinced as ever that he has not violated any of the anti-trust laws of the state, but believes that the courts and not the newspapers are the proper place to decide the question. He and Mrs. Davis left for home Thursday night.

William T. Way of Fort Worth came n from Spofford Monday. "I don't know just how much rain fells out west," said he, "but I know it was raining between Cline and Uvalde as we came through there Monday night. The west is in very good shape and while the cowmen are in an enthusiastically receptive mood, so far as rain is concerned, they are still shipping fat cattle to market. I ought to know, for I came in with a train of them Monday night. South Texas, at least, for the past four or five years, has never failed to get rain in time to prevent any suffering among stock and the precipitation last night and the threatening aspect today is, I trust, the forerunner of sufficient moisture to guarantee an excellent fall range."

J. W. Carter, traffic manager of the back in the city from a trip down the way as far as Corpus Christi. "Some press, "and the cowmen the world over are just alike about rain. They are always glad to see it and are never in a hurry to have it stop. The cattle are looking good everywhere I stopped and there is nothing to prevent the South Texas man from marketing cattle most any time he likes, for he can always hustle up a string of fat ones."

Aged Man Receives Mercy in Police Court

With tears streaming down his aged face, a stranger charged with intoxication, pleaded for mercy at the hands of Judge C. T. Prewett in Fort Wortn corporation court Tuesday morning, and was set free on the instant that ne mentioned the name of William Jennings Bryan as "the captain who will guide the old ship of Democracy into a haven of rest, and safely anchor the bark of the people in the port of Victory."

"Judge, your honor, a man can hardly he blamed for taking a wee bit too much in such a noble place as the good city of Fort Worth and, when I think that I was celebrating the return of democracy to her true leader; when I think that the captain who will guide the old ship of Democracy into a haven of rest, and safely anchor the bark of the people in the port of Victory is a man for whom, in days gone by, I myself stumped my home county for-the silver-tongued orator, Bryan--"

"Old man, you've made a hit with this court right now," interrupted the magistrate, "and you may go-you are free. Mr. Marshal, adjourn court." "Amen, and may God bless you all for kindly gentlemen," answered the aged prisoner. "A man can hardly be

blamed for celebrating--Further speech was drowned by the noise attendant upon closing a session of the police court that had lasted until nearly afternoon, by reason of the heavy docket of cases resulting from recent wholesale arrests of persons charged with vagrancy.

Meeting Declares For Moyer, Haywood and Pettibone

At a meeting of local No. 296, Industrial Workers of the World, of Fort Worth, Texas, the arrest of Moyer, Haywood and Pettibone, the Western Federation of Miners' officials, was taken under consideration. The affair was reviewed from the time the accused were kidnaped from their homes to the present stage.

the entire proceedings, demanding the immediate liberation of Moyer, Haywood and Pettibone and urging the prompt investigation of the affair by the United States government, Copies of the resolution were ordered sent to President Roosevelt. Judge Smith of Boise City and the Fort Worth press. One of the clauses of the resolutions

"Everything (except the conspiraors) clearly demonstrates the innocence of any crime on the part of the abor union officials, but facts plainly reveal that the mine owners and the wo governors are so steeped in crime that now since a big part of the press has taken up the investigation of the miners' kidnaping, they fear that the trial will complete the investigation and show them up in their true color and put them in the right place."
