THE FOURTH OF JULY

The Fourth of July is the day we celebrate as the anniversary of American independence by burning powder, indulging in sky-scraping and spread-eagle crotchery, and usually with the old-fashioned barbecue.

The first celebration of our national birthday was observed in Philadelphia just four days after the declaration of independence on July 8, 1776, and there was just as much clamor over the occasion then as at present.

The first celebration by congress was a dignified but very enthusiastic affair. From an unpublished letter written by John Adams we learn that no thought had been taken for any special demonstration until the second day of the month, and no mention was made of it officially until the third.

The first orations date from the declaration of peace, and George Washington, the Constitution, the United States and the Daughters of America were just as popular as themes in the early days as they are at present.

Thirty years ago the celebration of the centennial of the Glorious Fourth was witnessed in Philadelphia, and to the inexpressible delight of Young America, bells, cannons and fireworks blazed a jubilant welcome.

Today the crack of the torpedo, the boom of the cannon cracker and the wild hurrah of Young America users in the day. Old Glory floats proudly in the breezes from earliest dawn, and the hours are filled with parades, processions, the blare of brass instruments and the utilization of practically everything that can make a noise—even including the leather lunged boots who imitate Patrick Henry in his famous "Give Me Liberty or Give Me Death."

That great event comes to us annually and will continue to be observed as long as this nation stands.

Perhaps it would be better for us if we celebrated in a saner manner, but we do not usually stop to figure on results. American patriotism is given but one day in every year to assert itself, and it usually does the thing up in a very lively manner.

THE OX THAT IS GORED

It all depends on whose ox is gored. When Judge James B. Wells was a prospective candidate for governor and before he had committed himself to the support of Judge Bell, various organs of Colquitt claimed the Wells support would be given to Colquitt, on the ground that Colquitt had made Wells chairman of the state democratic executive committee.

"Judge Bell will sweep southwest Texas," says the Fort Worth Telegram, "according to the cheerful report of Judge James B. Wells, former chairman of the state democratic executive committee, and when Judge Wells says a thing is going to happen down in that section of the state it usually shows up just that way.

From the floor of the senate the junior senator from Texas, Mr. Bailey, answered the attacks made on him by Hearst publications. The propriety of such a proceeding may well be doubted.—Waco Times-Herald.

The Tyler Courier does not blame the Texas trusts for working for Candidate Bell. While attorney general he was their friend and they owe him their support now.—Brenham Banner.

It seems to be the prevailing opinion that Judge Terrell of Travis county is retiring from politics entirely too soon, inasmuch as it is highly probable that the Terrell election law will be an issue in the next campaign.—Austin Statesman.

Mr. Colquitt pledges a solvent state treasury. That's one of the many good reasons why he should be nominated.—Houston Post.

In the history of Texas there never has been such a demand for labor as at the present time. New railroads, taps and switches are being constructed in almost every section of this great commonwealth, and in Indian Territory railroad construction is in full swing.

There is no occasion for any man to be out of employment in Texas now except from choice. There is an active demand for labor all over the state and wages are better than for a number of years.

The Texas Press

A gentleman said to us in Fort Worth the other day that money is being poured out like water in the gubernatorial campaign. He said the trouble with him was where it all comes from.—Cleburne Watchman.

The Post believes that the passenger reduction should be enjoined because under present conditions the reduction is not justified, but a general movement for the setting aside of all freight tariffs is unwise and if persisted in the railroads owners will eventually regret it.—Houston Post.

The Courier and the Banner should study the records a little closer. Investigation will reveal the fact that Bell did more to put trusts out of business than any man who has ever served Texas in the capacity of attorney general.

It is not necessary to make Colquitt governor in order to have a solvent state treasury. He does not carry the taxable values of Texas in his vest pocket.

There is no occasion for any man to be out of employment in Texas now except from choice. There is an active demand for labor all over the state and wages are better than for a number of years.

YOU WANT THE BEST FOR YOUR CHILD

The greatest American Pianist is Edward Baxter Berry. The greatest Violinist of the South is Chas. D. Hamm. The most successful Vocalist in the Southwest is Katherine Stewart. These famous musicians are at the head of departments in the Landon Conservatory and are assisted by thoroughly trained teachers of married, inborn gifts for imparting instruction, each teacher being enthusiastic in the work of teaching, and each has a strong magnetic and forceful character, being teachers "by the Grace of God," as the Germans say. This shows how Landon Conservatory has earned a National Reputation, and has attracted students from thirty-three states during its seven years of wonderful growth and remarkable success. The director has furnished four teachers for a well-known conservatory in New York, twelve to the Randolph-Macon College of Virginia. The presidents of colleges in the Southwest call for many times more teachers than it has graduates to supply. Landon Conservatory has a Home Life with active religious influence. CHAS. W. LANDON, Director, Author of Landon Methods. Eighth session opens September 11, 1906. Address Desk W, LANDON CONSERVATORY, Box 873, Dallas, Texas.

Visit the College or write to Mrs. O. A. Carr, Sherman, Texas.

FUJII THE JAP ASKS STANDING

Tokyo Student Claims Vaulting and Sprinting Record

In the name of the Emperor of the Imperial University of Tokio, Arata Hamano, president of the university, makes the first formal announcement of the acceptance of the new pole vaulting and 100-yard dash records made in that country. He asks that they be officially recognized if better records have as yet to be established. The records referred to consist of the pole vault and the 100-yard dash, both made by Minoru Fujii. This mark was made in the games on the university grounds November 11, 1905. The other record which they wish recognized was run as far back as November 14, 1902, when Fujii made the time of 19.24. The record that Japan knew of, they say, was that of McLaughlin, who in New Haven, Conn., U. S. A., in 1904, won 12 feet. The details of the pole vault are: Constant Minoru Fujii, amateur, student of the law college of the Imperial University of Tokio; age, 25 years; height, 1.80 meters; weight, 71.250 kilograms; height vaulted, 3.66 meters, or 12 feet 0.94 inch. The apparatus consists of a pair of leveling staffs, each erected at a distance of six meters from the other and to register the height a cotton cord 1.8 millimeters in diameter was used instead of a bar. It was stretched across the staffs, hanging on brass pegs 4.6 millimeters diameter and is millimeter long, fixed at right angles to the top of the staffs. To straighten the cord tension was given by means of two small bags (32.7 grams each), completely obviating all sagging and thus making it possible to register the height more exactly than with a wooden bar. Mr. Fujii vaulted with a bamboo pole carefully selected and seasoned, length 3.93 meters, weight 1.38 kilograms, but not enough to move the cord. The vaulting was started at 2.5 meters and continued without failure until the record was made, the cord in no instance being touched. Mr. Fujii also holds a record in 100 meters, which he ran in 19.24 November 14, 1902, on turf ground. It appears that Mr. Fujii would have run the same race in time one-fourth of a second shorter, a difference which might be ascribed to errors in observations. In the case of the 100-meter race, the time was taken by a special chronograph register, designed by Dr. A. Tanakadate, which gives the time correct to 1-100 of a second. The arrangement is briefly as follows:

low: An electric chronograph is run with two break-current keys in it, one at the starting point and the other at the winning post of the race course. The key at the start is fixed to the starter's pistol, and is operated automatically by the blow of the gas at the nearest possible instant of the emission of the signal sound is recorded on the chronograph. At the winning line another key is fixed to a fine tape stretched across the course, which, when the racer touches it, breaks the chronograph circuit again. The interval between the two breaks is taken as the time in which the racer runs the course. The length of the chronograph register corresponding to one second is 37 millimeter, and the measurement is carried to 1 millimeter, so that the time will be correct to 1-100 of a second. Rate of the chronometer is compared with standard time from the observatory.

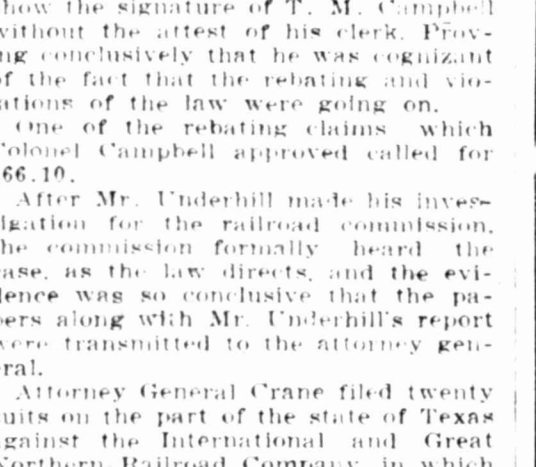

WHEN CAMPBELL GAVE REBATES

Did He Approve Flagrant Violations of Law?

Special to The Telegram. AUSTIN, TEXAS, July 4.—Colonel Tom Campbell, as a candidate for governor, is not the same Colonel Campbell who was at the head of the International and Great Northern railroad several years ago. Now he wants every law enforced and obeyed, and makes promises to that effect, but in those days which have passed—well he was just the antithesis of his political promises. Now this is a broad statement, and it would be grossly unjust to Colonel Campbell for such a statement to be published if the facts did not justify it. The facts are at hand, however, and a perusal of them will show that the colonel, while he was at the head of this great railroad, sanctioned and approved flagrant violation of the law. This law which he helped to violate was the railroad commission law, the violation of which, his friend, the late Ex-governor Hoek, in 1897 Attorney General Crane instituted twenty suits against the International and Great Northern Railroad Company, charging it with giving rebates on freight shipment to the National Cotton Oil Company of Houston and other corporations and individuals, while Colonel Campbell was general manager. The railroad commission had been advised that Colonel Campbell's road was violating the law as to giving rebates, so it ordered an investigation. Its expert in those days was E. M. Underhill, who had no superior in investigating "crook-class" or "double-dealing" on the part of the railroad companies. Mr. Underhill found from an examination of the books of the International and Great Northern railroad that it had been giving rebates to the National Cotton Oil Company of Houston, as well as others. That the rebates paid to this company aggregated \$1,751,737, and that they were paid by the International in November and December 1895, and in February and March 1896. The rebates were paid on cotton seed and hulls from Jewett and Oakwoods to Houston. That on shipments from T. F. Smith at Crockett a rebate of \$123 was allowed, while on a similar shipment from Houston, no rebate was paid, showing a rank discrimination in favor of Crockett against Houston. But these minor acts are not important. Copies made by Mr. Underhill of vouchers in the general offices of the International and Great Northern show that the rebates were allowed for these "overcharges," as they were termed, and in some instances the name of T. M. Campbell appears on the vouchers, and that of his clerk, but some of the vouchers allowed on these rebates show the signature of T. M. Campbell without the attest of his clerk. Proving conclusively that he was cognizant of the fact that the rebating or violations of the law were going on. One of the rebating claims, which Colonel Campbell approved called for \$62,100.

After Mr. Underhill made his investigation for the railroad commission, the commission formally heard the case against the International and Great Northern, and the evidence was so conclusive that the papers along with Mr. Underhill's report were transmitted to the attorney general. Attorney General Crane filed twenty suits on the part of the state of Texas against the International and Great Northern Railroad Company, in which the giving of rebates to the National Cotton Oil Company and others of Houston was alleged. The penalty sued for in each case was for the recovery of \$2,000, which is the maximum allowed under the law. The minimum is \$500. The cases are on the docket of the Travis county district court, and are numbered 13756 and 13757, inclusive. When the suits were called for trial the International and Great Northern Railroad Company came forward and entered a plea of guilty and was fined \$500 in each case, making a total of \$10,000 in the twenty cases. Judge Bell Squelched it. There is another chapter which can be added to this item. The last official act of Judge Q. K. Bell while he was attorney general was to file suit against this same National Cotton Oil Company, charging it with fixing the price of cotton seed, which was in restraint of trade. He sued to forfeit its charter, was successful in all of the state courts. The company appealed the case to the supreme court of the United States and there Judge Bell whipped it out of existence, and it no longer in existence. Its charter was forfeited, due to the pursuit made against it by Judge Bell.

LARGEST STOCK AND BEST ASSORTMENT IN THE CITY, AT

A. J. ANDERSON'S GUN STORE

410 and 412 Houston St. Fort Worth Texas

MANY STREET CARS ARE NOW PLANNED

Fort Worth Companies Active in Building

If the projects which the several street car companies of the city have mapped out materialize, the city will be pretty well gridironed with street car tracks, so that the user of any other kind of transportation will be at his wit's end to find the place to go where he can have an unobstructed street to go over.

It is all very well, on the broader streets, to have a double track, but when it comes to double lines of conflicting systems on the same street, and that a narrow one, the users of ordinary vehicles are almost barred from the use of the streets. Add to the complication the wires and poles of two trolley lines and it is serious. There are after the action of the city council Monday night, now pending three, or it might safely be said, four franchise applications to be submitted to the voters of the people Sept. 1, asking for the right to use certain of the city streets and the routes desired are as given below.

The Northern Texas Traction Company asked for this franchise, over the south side streets, which are named in their application and appears in the advertisement now running in The Telegram, to-wit:

Beginning at the intersection of Daggert avenue and Wheeler street and connecting with the present line of street railway belonging to said company on said street, thence in a southerly direction along Wheeler street to Pennsylvania avenue, thence in a westerly direction along Pennsylvania avenue to College avenue, and thence in a southerly direction along College avenue to Bois d'Arc street.

Beginning at the intersection of Jennings avenue and Daggert avenue and connecting with the present line of street railway belonging to said company, thence in a southerly direction along Jennings avenue to Foster Smith street, thence in an easterly direction along Peter Smith street to St. Louis avenue, thence in a southerly direction along St. Louis avenue to Bois d'Arc street.

Beginning at the intersection of Eighth avenue and Weatherbee street and connecting with the present line of street railway belonging to said company at said point, thence in an easterly direction along Weatherbee street to Fairmount avenue, thence in a southerly direction along Fairmount avenue to the city limits.

Will Double Tracks Suit?

The fact that the traction companies and the Allen franchise applicants

The Handy Doctor in Your Vest Pocket

IT'S a thin, round-cornered little Enamel Box.

When carried in your vest pocket it means Health-Insurance.

It contains Six Candy Tablets of pleasant taste, almost as pleasant as Chocolate.

Each tablet is a working dose of Cascarets, which acts like Exercise on the Bowels and Liver.

It will not purge, sicken, nor upset the stomach.

Because it is not a "Bile-driver," like Salts, Sodium, Calomel, Jalap, Senna, nor Aperient Waters.

Neither is it like Castor Oil, Glycerine, or other Oily Laxatives that simply lubricate the Intestines for transit of the food stopped up in them at that particular time.

The chief cause of Constipation and Indigestion is a weakness of the Muscles that contract the Intestines and Bowels.

Cascarets are practically to the Bowel Muscles what a Massage and Cold Bath are to the Athletic Muscles.

They stimulate the Bowel Muscles to contract, expand, and squeeze the Digestive Juices out of food eaten.

They don't help the Bowels and Liver in such a way as to make them lean upon similar assistance for the future.

This is why, with Cascarets, the dose may be lessened each succeeding time instead of increased, as it must be with all other Cathartics and Laxatives.

Cascarets act like exercise.

If carried in your vest pocket, (or carried in My Lady's Purse) and eaten just when you suspect you need one, you will never know a sick day from the ordinary ills of life. Because these ills begin in the Bowels, and pave the way for all other diseases.

"Vest Pocket" box 10 cents. 12¢

Be sure you get the genuine, made only by the Sterling Remedy Company, and never sold in bulk. Every tablet stamped "C.C.C."

NEGRO SURRENDERS

Hunger Forces Man Who is Charged With Murder to Give Up

By Associated Press.

WAXAHACHIE, Texas, July 4.—Being unable to secure a sufficient quantity of food to sustain the pace of a hunger, Freeman James, a negro who last Thursday night shot and killed David Pittman at Ennis, surrendered to the authorities today morning. James had been hiding in the Trinity river bottoms since the night of the crime. Last night he beat his way to Ennis on a "Mud" train and went to the home of his mother, whence he phoned the officers that he was ready to give up. He was brought to Waxahachie this morning and lodged in jail.

SPENDS FOURTH IN BED

Horse Frightened by Craeker Explosion Throws John Webster

The explosion of a fire cracker Thursday afternoon at John Webster's riding horseback along Hompbill street is responsible for his spending the Fourth of July in bed.

A bunch of boys who could not wait for the dawn of the national holiday began celebrating the day before, and just as Webster got opposite them the boys exploded the fire cracker, causing the horse to sweeney, throwing the rider to the street. Webster's left shoulder was dislocated. The boys disappeared.

LOTS OF WHEAT IN SIGHT

But it All Depends Now on the Weather Man

"If there is no rain for ten days Tarrant county will thresh out one of the best wheat yields for years," said John Burns. "From every section of the county favorable reports come of the grain, both as to condition and yield. The grain in the field is green and will grade high in the market. I am satisfied that the yield all over the county will average not less than twenty bushels to the acre."

Secure State Contracts

AT ST. LOUIS, Texas, July 4.—State Purchasing Agent Anderson has awarded a portion of the heavy dry goods contracts, W. B. Smith and McKee, Ed. Ellis & Co. of Austin got the bulk, while Sanger Bros. of Dallas and A. B. Franks & Co. of San Antonio were awarded some.

Dr. Lyon's PERFECT TOOTH POWDER

Cleanses and beautifies the teeth and purifies the breath. Used by people of refinement for over a quarter of a century. Convenient for tourists.

PREPARED BY
J. W. Lyon, D.D.S.

are for the use of the same streets in part will be noted and it is a serious question for the voters to decide. No one wants to check the march of progress and there is no doubt but that the development of transportation facilities distinctly in the line of progress, and yet there is a decided inclination to get some compensation for the use of the streets, and also to save some of them for the use of ordinary wheeled traffic.

One of the suggested compensations is the arbitration of the streets by the car companies, over which the new franchises are asked for and some go even beyond that and wish for money compensation and a limit to the time the franchise shall run.

Under the referendum the voters are to be asked to vote on the franchises to be granted and so decide by their votes, that practically ends the whole question.

There is a careful perusal of the several applications is quite likely to be what every voter will begin to make.

Monday night the same company asked for the following additional right to the use of the streets named for street car purposes:

Beginning at the intersection of Tenth and Houston streets, a double track to Fifteenth street and a single track on Houston to the intersection of Front street, thence east on Front to Main.

Another franchise desired is for the following lines: Beginning at the intersection of Seventh and Main streets and thence east on Seventh to Jones, thence north on Jones to Third, thence east on Third to Pecan, thence north on Pecan to First, thence east on First to Hampton.

At Hampton street a connection will be made with the present Belknap street car line, which turns north at Hampton and Belknap streets. While it is one application two distinct franchises are there asked for, the one in the First ward and the other down Houston street toward the Texas & Pacific depot, in the Fourth ward.

Arlington Heights Proposition.

The Arlington Heights car line, or as the franchise is called in the application, W. O. Allen and associates, ask for the right to build and operate street car lines over the following streets:

Commencing on Texas street in said city of Fort Worth at the intersection of the said street with Burnett street and a junction with the street car line of Arlington Heights Traction company, thence south on Burnett to North street, thence west on North street to Tenth street, thence east on Tenth street to Jarvis street, thence east on Jarvis street to Wheeler street, thence south on Wheeler street to Pennsylvania avenue, thence west on Pennsylvania avenue to College avenue, thence south on College avenue to Laura street, thence east on Laura street to St. Louis avenue, thence north on St. Louis avenue to Tucker street, thence west on Tucker street to Tenth street, thence north on Tenth street to Peter Smith street, thence west on Peter Smith street to the intersection of the said street with the said line on said Wheeler street.

LAND VALUES TREBLED

Property in Knox County a Year Ago at \$10 Now Worth \$30

D. T. Brookerson, from Benjamin, Knox county, was in the metropolis of Fort Worth last evening for the purpose of saying for his section.

"Knox county," remarked Captain Brookerson, "has done some of the best growing in the last year that any county of the state situated as she is has ever done. Lands that were selling for \$10 per acre a year ago are now going easily for \$30. The railroad, the Orient, has been graded through our town for three years, and the cars and traffic comes to Knox City, only fifteen miles from us."

Gridled With Railroads

"The road from Seymour is building down to Haskell, and soon we will be gridled with railroads. Burke Burnett has probably 200,000 acres of land in his pasture, and at the rate land is increasing in value his land will make him a mint of money. Colonel Mac-ters, who, until recently resided in your city, has sold out in Fort Worth and has invested in Benjamin property and will in the future reside there. His ranch contains 160,000 acres of very fine land as good as can be found for agricultural purposes in the county. We have very fine crops of small grain, corn and cotton and, of course, Kaffir corn and milo maize."

DROUTH HURTS CROPS

Captain C. E. Ballard Finds Continued Heat Damaging in South Texas

Captain C. E. Ballard returned from a trip down south and reported that things were in a very bad way. "After you passed below a hundred miles from Fort Worth drouth set in and crops were not good and the further one went south the worse they got, until the coast country was reached, when things were in a bad shape, indeed. The corn crop is a dead failure and grass was getting bad."

CONDITIONS GOOD NORTH

Crops and Cattle Make Fine Showing in Indian Territory

"We are in great shape in every way, both from a stock and crop view. It has rained just as we wanted it to and in consequence grass is something wonderful to look at and cattle are fat. Cattle are abundant and good, strong fellows at that."

Cowman Should Rejoice

"There is no sickness of any kind and there is nothing to make the cowman's heart sore and sad except the condition of the market at present. I never saw such corn as we have this

To Remove Freckles & Pimples in Ten Days, Use Nadinola

A new discovery, sold under a positive guarantee in every case where it falls freckles, liver spots, sun-tan, skin eruptions, blackheads and all eruptions of the skin, no matter of how long standing, in 10 days, and the worst in 20 days. It is safe, clean, healthy and beautiful. No poison, no harm, even from use by mail.

These defects are removed by the use of Nadinola, a leading drug store or by mail.

NATIONAL TOILET COMPANY, Paris, Tenn.

SCIENTIFIC STUDY AID TO STOCKMEN

Industrial Progress at State Agricultural School

The Agricultural and Mechanical College has turned out some very bright and useful young men, and they have and will add to the credit of the state in its industrial progress in the future, for education will win in the end, makes no difference what it is. J. W. Loving, and grand nephew of George Loving who so long was the leader in stock interests of Texas, is being very busy yesterday, down with some good stuff from the ranch.

College a Great Aid

"I graduated this year from the A. and M. College," said Mr. Loving, "in animal and husbandry, and think that the time I spent at the college was well spent. The college is the most useful educational establishment that the state has ever had. It has given me a thorough practical and scientific knowledge along the lines taught in the college, and it has made me a man than any other that he could take. Agriculture, including of course the basis of stock raising, comprises the basis of all the work of the college, and the mechanical education received at the same time enables a young man to take his place on ranch or farm with a certainty that he will be in mental and physical condition to work out the problem of how best to do it."

State Should Help Institution

"The state through its legislature should not hesitate in considering how best to apply the revenues of the state to the Agricultural and Mechanical College first place, and always be ready to appropriate what is required to make it the equal if not the best institution of its kind in the United States."

Ranch Conditions Good

"Our ranch and cattle conditions are first class in every way. In fact they are better. Rain has fallen beautifully and grass and every kind of vegetation is as good as could be. Cattle are frisky, they feel so well, and, with a better market, I think many more would be sent in. The grass is so good that people who have a surplus stock can hold indefinitely if they wish. Calves are in numbers above the average and in condition are sturdy young chaps. There is nothing the matter with any kind of stock. We raise horses and have two good thoroughbred stallions. One is a lineal descendant of Star Pointer, through Tom Hal, and in fact we call him Star Pointer. Saddle and harness horses are the classes that we endeavor to raise and they are a paying proposition."

Prefers Shorthorn Bulls

"We have sold some sixty head of broken saddle and harness stock since we started. Shorthorn bulls is the class that favor profers, and they are bred to white-faced cows. The cross makes a fine beef animal, both as to looks and quality."

"Lard is being rapidly taken up in our section and farming is becoming the common thing and no longer the exception. We have sold something over 25,000 acres of the ranch to homeseekers and at good prices."

Abilene Reports Excellent Conditions

Colonel Dick Logan passed through the city on his way home in Abilene, and halted a moment to hear what the people had to say for Fort Worth. As Fort Worth always shows for herself the tables were turned on the colonel, and he was compelled to tell what was the matter with the Abilene country.

"Just say for me," said he, "that everything is lively and only the market is bad. Grass and cattle could not be better and the calves are so thick that they get in the way and, with the present condition of the market, are a nuisance. We are all right and that covers the case exactly. You had better come out and take in the carnival."

HILLSBORO NEEDS RAIN

Corn Crop Is Suffering for Lack of Moisture

J. M. Lary, the stockman and shipper who resides in Hillsboro, but is so well known that he feels at home in any part of the stock ranges of Texas, came in to hold converse with any drifting cowman from the western ranges that he might round up.

"It is dry with us now, that is, we need rain for the corn and it is important that the weather man get in his work at once and furnish it. Corn won't wait and wells and windmills don't do it any particular good when it is in a thirsty condition. The hard rain some time ago has done us badly and it will not make a full crop, even with rain now. Oats made only a moderate showing, yielding from sixty to eighty bushels to the acre."

Cattle Interests Drag

"Cattle interests are just holding on and dragging along for the present. There is no life in the business such as we stockmen would wish. There are several causes for this condition, I suppose, but it does not do any particular good to talk about them. There is very little range in Hill county, so it is no use to guess at the calf yield this year. There is no sickness among cattle that I have heard of up to date."

DRY IN COTULLA

Hot Winds Are Curing Grass at a Rapid Rate

J. W. Payne was here recently with twelve cars of cattle for the Fort Worth market and unloaded at the yards.

"It is very dry down in the Cotulla section of the state," said he, "and the grass is curing very rapidly on the range. This condition has come upon that section only within a very few days past and is owing to the hot days that have struck that portion of Texas. There was no lack of rain all spring and early summer and everything was going along swimmingly until this spell struck us."

Water Lacking

"Cattle are doing very well except for lack of water in places. No disease of any kind is reported and the calf crop is good. Corn and other crops were doing so well the other day that everybody thought that the worst was past. I never saw better roasting ears than we had on the table before the hot winds arrived, but that is in the past now."

CLEBURNE IS TOO EASY FOR LOCALS

Score Tuesday Was 11 to 5 Against Railroaders

Cleburne was not in it Tuesday. The score was Fort Worth 11, Cleburne 5. Fort Worth started the boy with the chalk and blackboard to work in the first inning. After two men were out, and two strikes were called on him, Bales singled. The next four batters followed with hits, allowed Wright to succeed in following Bales across the plate. In the second three more hits and two more men were out. By this time Ben Shelton thought that they were hitting Dickson too hard, so he gave him a rest. Speaker came into pitch and Adams was put in at right field. The best Fort Worth could do in the third was to run one man across. From then until the fifth there was no scoring. In this inning Cleburne succeeded in getting two men across. It was done in this way: Speaker got on by a misdeed of Clayton. Carlin advanced him and allowed Wright to reach first by missing the nasty ball that Wright's drive had on it. The next batter advanced them a base by a sacrifice. Aiken scored them with a two-base hit to the right field fence. The next batter flew out to Carlin, and the next to Carlin.

In the sixth Cleburne got three more by making three hits and by errors of the Panthers' infield. The Railroaders were crowding things too close, so the Panthers got to work and made one in their half of the sixth inning. Bales led off with a single, and second on by Dickson. Third on an error by the pitcher, and scored on a fly to the outfield. In the seventh Clayton got on and was scored by being advanced two bases, because of the pitcher giving two bases on balls and by a sacrifice. The last time Cleburne looked bad was in the seventh. They got two hits in that inning, but they counted for nothing.

In the eighth inning Fort Worth got two more runs. Salin's two-bagger

Yesterday was Fort Worth day for doubles. Dupree made his second out by catching Speaker's attempted bunt, and throwing Moran out at first. In the ninth the Panthers got an obnoxious hit. This time it was from Bales to Clayton to Salin.

Whitman was easily the star of yesterday's game. He got seven putouts, three of them being phenom catches. His running back-hand catch of Cavender's drive in the sixth was the best ever seen here.

Notes of the Game

Bales out attempting to bunt third strike.

Score by innings:
 Fort Worth 4 2 0 0 1 1 2 x—11
 Cleburne 0 0 2 3 0 0 0—5

Summary—Learned runs, Fort Worth 5, Cleburne 1; stolen bases, Cavender, Bales 3, Salin, Carlin 2, Clayton, Polindexter, two-base hits, Salin, Carlin, Aiken, Shelton; struck by Dickson 2, by Speaker 3, by Dupree 3; bases on balls, off Dickson 1, off Speaker 4, off Dupree 3; wild pitches, by Dupree 1, by Groover 1; passed ball, Moran; sacrifice hits, Groover, Clayton, Erwin 2, Coyle, Time of game, 1 hour and 50 minutes. Umpire, Dunham.

Notes of the Game
 Yesterday was Fort Worth day for doubles. Dupree made his second out by catching Speaker's attempted bunt, and throwing Moran out at first. In the ninth the Panthers got an obnoxious hit. This time it was from Bales to Clayton to Salin.

Whitman was easily the star of yesterday's game. He got seven putouts, three of them being phenom catches. His running back-hand catch of Cavender's drive in the sixth was the best ever seen here.

RAILROAD INCOME FAST ON INCREASE

Texas Reports Show Record of Great Prosperity

The earnings, gross and net, of many of the railroads of the country show a gratifying increase, measurably through economies in the management, the saving in operating expenses, because of track improvements, strengthening the lines and reducing grades and, probably, the abandonment of rebating.

A typical example, taken because it is in part, a Texas line, is the Santa Fe. The May earnings increased 16 per cent gross and 37 1/2 per cent net, over the eleven months ending May 31, 1905. The gross earnings were \$14,145,000 net, if this is maintained to the end of the fiscal year, the net earnings will be \$12,000,000.

The stockholders may expect an increase in the dividends, now 4 per cent. This system now has over 8,444 miles of track under control.

12,000 Miles in Texas
 In Texas the reports to the state railway commission show an improvement in the earnings. There is about \$2,000,000 more in the gross earnings than actually operated in Texas, and for the ten months ending April 29 the gross earnings increased 5.57 per cent, while the net earnings increased 1.58 per cent.

The increased mileage for the year is estimated at 50 miles. The railway mileage of the world is estimated, by German authorities (Jan. 1, 1906) to be 557,735 miles. The annual increase is about 14,000. Therefore the assumption is warranted that the world's railroads by now equal 575,000 miles. Of the total the United States have 29 per cent. The average cost, roughly estimated, has been \$76,000 a total of \$12,000,000,000, an enormous investment of capital and skill in transportation.

Since eighty years ago, when the first railway line was operated, only five railroads of the United States have given their receivers hands so far this year, the largest, the Chicago Terminal Transfer, eighty-four miles long, and the next in importance, the Toledo Terminal, because of reckless financing by leasing companies. Five roads were sold under foreclosure, aggregating mileage 175 miles, nearly all of that being the 125 miles of the St. Louis and North Arkansas.

ARE TIME-SAVERS
 Electric Locomotives Have Many Other Advantages
 One advantage of the electric locomotive which may be overlooked, says a western electric journal, relates to the matter of layovers in the round-house after the completion of a run. Steam locomotives, after a run of 100 miles or more, must lay over to enable attendants to examine and clean the boiler. This loss of time means a considerable loss of earning power of the equipment, especially in short runs, for the time required for the layover after a short run is almost as long as after a long run. If the water in the boiler is poor the boiler must be washed, taking time for cooling and refilling. This means that the capacity for earning dividends is increased.

Grain Rates Reduced
 To meet a cut made by the Chicago Great Western in east-bound grain rates, the Santa Fe announces a reduction of 4 cent per 100 pounds on grain shipments to Galveston, except otherwise from any point on the system.

Railroad Sold
 The Northern, Brazos Valley and Great Northern railway was sold at Angleton Tuesday to C. H. Alexander, the president of the road, for the sum of \$1,000,000. The railway was sold for which the sale was made is \$235,000.

Brokers Arrested
 Because of the sale of a ticket from San Antonio to San Luis Potosi, Mexico, which an international conductor took up as a scalper's ticket, two men, charged with selling the ticket, were arrested in San Antonio Tuesday and the charge of swindling made against them. This is a novel way of meeting the scalper evil, as the railways term it.

Wall Street Now Cutting "Melons"
 Greatest Ever Known
 Special to The Telegram.
 NEW YORK, July 4.—The big summer melon cutting, the greatest ever known in this center of American finance, is on with a rush in Wall street. Thousands of men and women, from the biggest banker to the most obscure clerk, are head over heels in work distributing millions upon millions of dollars, dividends and interest to the holders of American securities the world over.

The monumental sum of \$175,925,000 is passing into the strong boxes of Wall street into the pockets of the investing public.

Practically all of the important railroads and industrial corporations are paying full dividends, some of them larger than ever before. The common stock of the steel trust is, as usual, a conspicuous exception, no dividend having been paid for nearly four years. Thirteen great companies have extra or increased dividends due to unusual earnings, upon their oceans of stock. Ten big industrials are new payers.

The July payments of interest on the New York Stock Exchange bonds is computed by bankers at \$83,555,000.

Railroad stocks listed on the local exchange are paying in July dividends something like \$30,000,000. Street railway companies that have announced dividends here are paying a total of about \$2,000,000. The greatest sum is being disbursed from the industrial corporations, listed and unlisted and reporting here, the total being \$54,500,000. This includes the Standard Oil dividend, just paid, and United States Steel preferred stock payments.

Of course the oil trust is the biggest payer. The fortunate few who hold its precious 9,750,000 shares have already received through the Standard Oil banks, mainly the National City, the towering sum of \$14,625,000 as the midsummer dot. Of this John D. Rockefeller received something like \$8,000,000, as he owns 60 per cent of all the stock.

He is the largest individual dividend collector in this country, if not the world.

Next in importance is the steel trust, which, as the Standard Oil has paid \$6,300,000. This stock is the most widely distributed of any of Wall street's securities and every class of society will be represented in the big harvest.

The Vanderbilts will have a jolly time counting their dividends from the New York central, the National City, Haven & Hartford and Pennsylvania systems. These three are to disburse in total about \$3,275,000. Missouri Pacific stockholders will divide a \$2,000,000 pie.

Of the street railway corporations the New York city traction trust will pay out \$2,500,000, heading the list. The street business must still be profitable for the trust that controls that commodity will distribute almost a quarter of a million.

The sugar trust will give its security holders got to a dividend of stock \$2,255,000. One kodak concern is paying in dividends on common and preferred stock \$600,000.

All payments are made by check or draft or exchange through various banks. And this is the busiest time of the year at the New York clearing house.

Stocks that have not heretofore paid dividends are now on a paying basis. The following names are prominent: National Lead, common. Mackay companies, common. Equitable, common. New York, New York, common. Corn Products, preferred. American Locomotive, common. United States Bank Note. Nitrolic mines, common. Guano and Consolidated. United States Reduction & Refining. Mexican Consolidated Mines. All among the stocks with increased dividends are: Ammonoia. Republic Iron & Steel. Copper Range. Smelters. Safety Car Heating. Central Steel. Maryland Canal. American Cigar.

BUILDINGS SWAYED
 Earthquake in New Mexico Shakes Plaster From Walls of Houses
 Special to The Telegram.
 ALBUQUERQUE, N. M., July 4.—Beginning at 10:30 o'clock yesterday morning, Sirocco, seventy-five miles south of this city, experienced a succession of three earthquakes. The first was a moderate tremor. Then came a loud subterranean rumble followed immediately by a rocking and swaying that startled every inhabitant of the town and caused them to seek safety in the streets. Buildings swayed and cracked, walls cracked and plaster was shaken from ceilings.

The second earthquake continued severely at intervals of a few minutes for half an hour and then faded away, the last in no less than a succession of shocks felt about eight hours later.

REVIVAL CLOSURES
 Ten-Day Services at Italy Baptist Church Come to End
 Special to The Telegram.
 TEXAS, July 4.—The protracted meeting which has been in progress at the city tabernacle for the past ten days, closed Monday night. The meeting was conducted by the Goodwill Baptist church, Rev. J. B. Edwards of Hico officiating. A meeting will begin Friday, July 6, at the tabernacle, under the supervision of the Methodist Episcopal church, South, Rev. Russell J. Hixson of Weatherford, an evangelist, has been engaged to help the pastor, Rev. R. A. Walker, in the services.

WOODMEN TO CELEBRATE
 Bell County Lodges Are Planning to Hold Big Picnic
 Special to The Telegram.
 TEMPLE, Texas, July 4.—The woodmen of the world of Bell county will hold a big Woodmen picnic at Midway Park on July 17, at which Morris Sheppard will deliver an address on "The Woodmen of the World." The Temple and Belton lodges held a conference here last night and decided upon the details. J. C. Black of Temple was elected chairman and Gus Ulrich of Belton, secretary of an executive committee that will make all arrangements. The woodmen are very numerous in Bell county and this gathering will be one of the largest ever held in this section.

ONLY 82 YEARS OLD
 "I am only 82 years old and don't expect even when I get to be old to feel that way as long as I can get electricity," says Mrs. E. H. Brunson of Dublin, Ga. Surely there's nothing else keeps the old as young and makes the weak as strong as this grand tonic medicine. Dyspepsia, torpid liver, inflamed kidneys or chronic constipation are unknown after taking Electric Bitters, reasonable time guaranteed by Walkup & Fielder, Holland's Red Cross Pharmacy, Renfro Drug Co., druggists. Price 50c.

MAKES STRONG HEARTS
 Thousands of weak hearts have been made strong and healthy by the use of Dr. Miles' New Heart Cure. It acts directly upon the heart muscles and nerves, quieting the excited condition, nourishing and building up their wasted energies. It regulates the circulation of the blood, tends to increase and tone up the stomach. If first bottle fails to benefit, money back.

SUBURBAN NEWS

NORTH FORT WORTH

North Fort Worth and Marine office of The Telegram, 1417 Rusk street, W. G. Holland, circulator. Classified advertisements and subscriptions received there.

Several of the members of the North Fort Worth fire department are taking a day off Wednesday in celebration of the Fourth. The party, composed of Walter Smith, Will Capps, Harry Smith, Gibb Smith and J. W. Petty, left town headed for Lake Innes where they will fish and hunt until Wednesday night.

A country fair will be given every night next week, July 9-14, by the Catholic ladies of North Fort Worth on their church lawn, corner Lake avenue and Twentieth street.

L. G. Pritchard and wife, 1317 Calhoun street, North Fort Worth, will leave Wednesday for Mineral Wells, where they will spend considerable time this summer.

E. W. Pember, 1417 Gould avenue, North Fort Worth, left Monday for Toledo, Ohio, where he will remain several months on business and pleasure.

Culmer Gowan and family, formerly of Main street, North Fort Worth, have removed to Alvarado, Texas, where they will make their home in the future.

The board of equalization did not meet Wednesday, but joined the national holiday officers in celebrating the national holiday.

Mrs. L. Ashby of Denton is visiting at the home of her daughter, Mrs. John Kane, in Lake Avenue, North Fort Worth, left Tuesday for a visit in Cameron, Texas.

Phone 1367, William Cameron & Co., North Ft. Worth, for prices on lumber.

ROSEN HEIGHTS

(Items for this column may be left at site of the Rosen Store or the Rosen Heights Drug Store.)

"From 6 p. m. to about 9 a. m. each night and morning we can get water from none of the hydrants in Rosen Heights." This is the substance of the complaints heard on the heights against the water supply, which, it is stated, has been very short for the last two weeks. Lake Togo is rising and as all pumping into the lake must be done at night, the tank is pretty nearly empty by morning. This is probably the cause of the inconvenience to the company's customers.

There are very few families at home Wednesday in Rosen Heights. Great crowds of picnickers went early to White City park, intending to spend the entire day in celebration. Wednesday night there will be a free exhibition of fireworks on the banks of Lake Togo.

Mrs. Price is making some improvements to her house in North Pearl street, Rosen Heights.

Walter Snyder and Roy Harris of Springtown were Rosen Heights visitors over the Fourth.

GLENWOOD

No public celebration in Glenwood on the Fourth. A good many families are spending the day at Handley and Lake Erie.

Mrs. Minnie Grove and daughter Bertha of Cleburne, Texas, are the guests of F. J. Cornett and family, 117 Bessie street, the Fourth.

Mrs. Allen Albright and sister, Miss Lena Overstreet, 100 Bessie street, are visiting friends and relatives this week in Ballinger and San Angelo.

DIAMOND HILL

The "161" Messengers and the Moody Heights team will play ball Wednesday afternoon as the main feature of the day.

JULY FOURTH IS CELEBRATED

Fort Worth Turns Out En Masse

Noise Made King

Business Generally Comes to a Standstill and Citizens Show Patriotism

Probably never in the history of the city of Fort Worth was there such a general observance of the national day of American Independence as characterized the Fourth of July, 1906.

All kinds of business houses gave their employees holiday, and the entire day, or if that was impracticable, as in the cases of the grocers, butchers, druggists and others, where there was a need for being open all or part of the day, the holiday was a half holiday.

Being a legal holiday, there was a closing of all the banks, public offices, where not incompatible with public business, general offices of the railroads, as to all except the necessary business, the postoffice, except as to Sunday hours and, in brief, everything closed which could observe the day in so. The number of picnics to the suburban resorts, or the pleasant places within easy access of the city, are simply incalculable.

At the Pleasure Resorts For the accommodation of the people visiting Lake Erie the service was doubled and that is also true of the Rosen Heights line to the heights and to Whiteburg. The Arlington Heights line, to Lake Como, ran on a ten-minute headway, and all of the cars were crowded. Many autos and other pleasure seekers.

Fireworks displays were on the schedule for Rosen Heights at night, many citizens made similar provisions for the hour of the day at their homes as the stock of fireworks was well depleted by noon.

After midnight of July 3, and before day dawn, the water four arrests recorded at the police station. After that, up to 1 o'clock p. m., there was not a call of any kind received. No arrests were reported up to the hour named.

Several different picnic parties went to Jackson Park, near the old stove foundry. The number who went to Lake Erie and Como with lunch baskets was innumerable and they were mostly family or neighborhood parties.

At Lake Como The special celebration of the day at Lake Como was that under the auspices of the Knights of Pythias. A number of the members of the new uniform rank company went out in uniform at the district parade, and they and their guests had a good time of it.

The growth of the spirit of local Fourth of July observance is noteworthy and is made the subject of comment by the older residents. It is taken as a development of the patriotic spirit which has so largely increased in the south since the Spanish-American war.

Sanquet Given W. D. Drummond, superintendent of American National Insurance Company agents in the Fort Worth district, gave the banquet at the Hotel Hamilton on the Fourth of July banquet at the company's offices in Scott-Harrod building Wednesday. Agents were called in from all over the district and met each other for the first time in many months at the banquet board.

STRENUOUS FOURTH IN PARKER COUNTY

Judge Bell Speaks Twice on Nation's Birthday

Special to The Telegram. WEATHERFORD, Texas, July 4.—Two speeches were scheduled in Parker county today for Judge C. K. Bell, who ends his present trip along the Texas and Pacific tonight.

Judge Bell arrived here this morning from Abilene and left for Garner in time to address a farmers' picnic there at 11 o'clock.

By driving across country he was able to reach here in time for an address at 2 o'clock this afternoon, to a large gathering.

Tonight he will return to Fort Worth for a short trip to Pilot Point and Denton.

Today's crowd at Weatherford and Garner again demonstrated Judge Bell's popularity with west Texas crowds. He was enthusiastically greeted at both places and addressed many friends to his already large list.

Other speakers scheduled for this afternoon at Weatherford were A. B. Davidson, candidate for lieutenant governor, and F. E. Hill of Denton, candidate for the same office.

Other features of the afternoon included a baseball game and various sports.

Tonight J. W. Swayne of Fort Worth, candidate for congress in the Twelfth district, is billed for an address and Parker county office seekers will be given opportunity to present their claims.

A fireworks display will conclude the day's celebration.

BIG DAY AT BRIDGEPORT

Colonel R. M. Wynne Helps the Day's Celebration

The people of Bridgeport are having a grand Fourth of July picnic today, and drafts have been made on a number of local spellbinders to make Fourth of July orations. Colonel R. M. Wynne of Fort Worth left for Bridgeport Wednesday morning and will make a speech for Hon. A. M. Carter, candidate for the civil court of appeals.

The Bridgeport picnic or barbecue is the big event in Wise county today.

WEATHER FORECAST BY Associated Press. NEW ORLEANS, La., July 4.—The weather here, and in the Gulf States, Arkansas—Tonight and Thursday, generally fair.

Oklahoma and Indian Territories—Tonight and Thursday, fair. Texas—North—Tonight and Thursday, partly cloudy, light northerly winds on the coast.

The Itch Fiend

That is Salt Rheum or Eczema,—one of the outward manifestations of scrofula. It comes in itching, burning, oozing, drying, and scaling patches, on the face, head, hands, legs or body.

It cannot be cured by outward applications,—the blood must be rid of the impurity to which it is due.

Hood's Sarsaparilla

Has cured the most persistent and difficult cases. Accept no substitute for Hood's; no substitute acts like it.

LAND IMPROVES OVER \$25,000.00

Captain Terrell Realizes Handsome Profit

A gain of \$25,000 on an investment of \$250 was made thirty-seven years ago—this is what has just been realized by Captain J. C. Terrell, one of the oldest residents of Fort Worth.

Captain Terrell has sold, through M. G. Ellis, eighty-six acres of land adjoining the city on the south to John C. Ryan for the sum of \$25,800.

This tract is adjacent to the site which the Frisco railway people have selected for their shops south of town and also adjoins several hundred acres of land owned by Mr. Ryan previous to this latest purchase. This purchase makes Mr. Ryan the largest owner of suburban property in South Fort Worth. It is an interesting fact in connection with this sale, which has been pending for some weeks but was finally closed yesterday morning, that all of the interested parties are old residents of Fort Worth.

Captain Terrell has lived here fifty-three years and M. G. Ellis, who made the sale, has claimed Fort Worth as his home for fifty-seven years. Mr. Ryan came to the city twenty-five years ago. Captain Terrell purchased the eighty-six acres for \$250 as an investment thirty-seven years ago and has held it all these years, knowing that some day it would bring him rich returns on the small amount invested. The land has never been broken by plow, but has been used by Shaw Brothers' dairy as pasture. Mr. Ryan has a fine house on the property, and he will make of the valuable property.

OCEAN RACE WON BY DEUTSCHLAND

French Ship La Provence Defeated by Eleven Hours

By Associated Press. NEW YORK, July 4.—The second eastward trans-Atlantic race between Hamburg, America, and Deutschland and the French line steamer La Provence, ended this morning with a decisive victory in favor of the German boat.

The Deutschland was reported 14 miles southwest of Browhead at 5 o'clock yesterday afternoon and was reported passing Edinstown Light at the entrance of Plymouth harbor at 6:30 a. m. today. Her time of passage from New York to Plymouth was five days, four hours and nine minutes, at a voyage speed of 23.61 miles per hour.

REFRIGERATOR ROBBED

Thieves Enter Residence at 210 Bessie Street—Watch Left.

Entering the kitchen of the residence of S. Yank at 210 Bessie street, some time Tuesday night, thieves ransacked the refrigerator of the household and secured therewith to be fed. Next the hall was searched for the pockets of one of Mr. Yank's coats turned inside out and growing bolder the person or persons went into his bedroom, went through his trunks and carried away some silver—about \$2—but left a watch that was in the room, in evident haste to be off.

The robbery was reported to the police department Wednesday morning. No arrests have been made.

PARIS FORMS BELL CLUB

Organization Formed in Lamar for Fort Worth Candidate

Special to The Telegram. PARIS, Texas, July 4.—A number of lawyers and citizens organized a Bell club in this city yesterday to canvass the country in the interest of the Fort Worth statesman. Judge Hathaway was elected president and today is attending a Fourth of July picnic in a nearby town. Judge Bell has arranged to deliver two speeches in Lamar on July 13.

Only friends of Campbell and Bell have organized in this county. The canvases is as heated as that for local offices.

FORT WORTH RECOGNIZED LINER MEDIUM CZAR USE IN ST Publicly Directs Inv of Recent Ric OFFICERS Agrarian Leaders Plalenge Government solve Parliame By Associated Press. ST. PETERSBURG, July 4.—Nicholas has taken unprecedented step by publishing Grand Duke Nicholas vitch, commander of the military district of St. Petersburg, and take measures to investigate and take the disorders, relieving P. Chkoff, commander of the from duty and dismissing General Ozeroff, commander of the division, and a regiment, first battalion, recently disgraced for sympathy with the party protesting against doing business with an American named Gadon. Gadon is said to be an American named name having been Russia lapse of time. All attempt the army of the spirit of now that it has invaded the coming revolution, the of the government is proceeding rapidly. Revolutionists are rejoicing success of what they regard the final phase of work for the coming revolution. As the first step, they propose the lower house adopt a resolution the country is not bound by obligations to the government as the emperor refuses to accept the demands of parliament. If tutored democrats decline them in the program of the group of those proposing manifesto to the country, more plainly is to compel ament to attempt to disrupt the government and thus force a dissolution of five newspapers were confiscated last night two hundred papers were being the last fortnight. Mayor Dismissed. By Associated Press. BIALYSTOK, Russia, July 4.—Bogolevsky, temporary general of Bialystok, which after martial law, dismissed because he refused to accept from the inhabitants, asking vocation extraordinary of council to deny the report. Badler, a former governor, out massacre of Jews here; policemen have been indicted participating in the rioting.
