### READ THIS AND REASON FOR YOURSELF

We are conservative when we tell you frankly that it is a business proposition of merit for home sites, builders and investment. It fulfills every hope of the home builder, and is easily one of the most pleasant places for a home that is in reality "home, sweet home," to be found anywhere in the Southwest. Values are absolutely certain to rapidly enhance, because Arlington Heights is one of the prettiest pieces of sub-division property ever yet offered in Fort Worth. We conscientiously tell you that the property is certainly as desirable as any in Fort Worth. Now, the twenty-five thousand dollar home of The Fort Worth Country Club, which magnificent structure is about the center of the 700-acre suburb, is the same distance from the center of Fort Worth as other localities, where lots of the same dimensions—50x125 feet—are commanding much higher prices. The intrinsic value of the property is there to justify such prices. When we tell you, therefore, that we are placing our lots—50x125 feet—upon the market at from \$100 to \$300 per lot—\$10 payable in cash and \$10 payable monthly—no taxes or interest to begin to accrue until final payment shall have been made—can you fail to be attracted by the proposition? One of the best, largest and altogether most accurate and conservative newspapers in the Southland reportorially said of Arlington Heights: "Picturesquely situated just to the west of the Panther City, stretches one of the prettiest and altogether most aristocratic suburbs in the entire Southwest. Located upon a hill, at an elevation of more than one hundred and fifty feet above that of Fort Worth, Arlington Heights commands a magnificent view of the entire city. Indeed, Arlington Heights affords the ideal home site because the climate is superb, the elevation high and because the resident may enjoy every advantage of city and suburban life. Electric lighted, with an ample water supply, only a twenty-minute ride from the center of the city, there is every reason that Arlington Heights property should rapidly enhance in value. Already this healthful and aristocratic suburb is dotted with palatial homes that would do justice to any city anywhere. Some of these residences cost as much as \$15,000, \$18,000, \$20,000 and \$25,000. The Fort Worth Country Club has a \$25,000 home, elegantly situated just across from the new of-

fices of the Arlington Heights Realty Company, the latter costing \$4,600. The visitor is at once struck with the natural beauty of the place; the wide, spacious, graded streets, the delightful breezes, the handsome homes, the picturesque view and the unsurpassed surroundings of the Heights." All of the lots are nice, large, deep and well drained, magnificently located at an elevation of one hundred and fifty feet above the level of Fort Worth. The Arlington Heights Traction Company is putting in effect a ten-minute service, the ride requires only twenty minutes, is a delightful one, and there is but one railroad track crossed from the city hall to Arlington Heights. The entire ideal and aristocratic suburb of 700 acres extends over as pretty a tract as can be found in the Southwest, and we do not make an exception. Its spacious, wide, elegant, graded streets, its splendid waterworks, its excellent electric light service, its many conveniences, accessibility, natural beauty and healthfulness, its proximity to schools, stores and churches, and its park attractions, present in the entirety the ideal combination of city and suburban life. Besides, it is just west of the city. Picture to yourself, for just a moment, the cities in the Southwest, with which you are familiar. Doesn't, in almost every instance, the aristocratic, ideal and most desirable residence section lie to the westward? Now, be honest with yourself and think this proposition over. Fort Worth is really just building in that direction. See for yourself the palatial homes at Arlington Heights. Think of it! Lots 50x125 feet, selling at from \$100 to \$300 per lot. We are confidently sure that values will necessarily double within fifteen to twenty-four months. It is THE investment of investments. And, the beauty of it is that your property will rapidly enhance all the while you are making payments on the easiest of easy terms. It is the gem of Fort Worth. It is an unparalleled opportunity. Now is the time to buy. You are welcome. See us in our new home just opposite the Country Club. We want to talk it over with you and show you the property; it is no trouble to do so, and you do not obligate yourself by inquiring. To even approximately appreciate this pretty property you must see it for yourself. Please take the ride.

THE TEXAS DEMOCRATIC CAMPAIGN

The New Orleans Times-Democrat has been studying the Texas political situation, and after sizing up our new Terrell election law pronounces it inferior to that used in Louisiana and Mississippi. It says:

The Texas democratic campaign closed Saturday with a primary throughout the state for the nomination of candidates for the governorship and other state officers, members of the legislature, United States senator and representatives. It is by long odds the biggest primary ever held in this country, as Texas is the largest state of the union; and the total vote cast, in excess of 375,000, or five times as many as Louisiana cast in its last exciting primary, will give some idea of the popular interest aroused.

The primary is the first held under the Terrell election law; and the large vote cast is the best possible evidence of popular interest felt and the desire of the people to have some share in the selection of the party's candidates.

The Texas law gives them a share in the choice of candidates, but not the absolute control that they possess in Louisiana under the new primary law of this state. Each candidate has to submit his nomination to the primary, and if he gets an absolute majority of all those who become his nominee; but there is no second primary, and if the vote is scattered among a number of contestants the nomination is fought out in convention, where there is, of course, the usual opportunity for diplomacy and clever political work, although the chances are best for the highest candidates.

The primary just held in Texas was the first general primary Texas has ever had, and there are many disgusted Texas citizens who fondly hope it will be the last. The result of that primary is not yet known, and will not be evident for several days yet. The returns from the different counties in the state seem to be almost as complicated as the law itself. And the primary has established nothing. The campaign in Texas will go on until the meeting of the state democratic convention with unabated vigor, and the convention itself must settle the nomination. The primaries have cost the state thousands of dollars, and there is mighty little to show for the investment. The New Orleans paper continues:

It is here that the Texas primary differs materially from that in force in Louisiana and Mississippi. In these states there would be a second primary between the two highest candidates, and the result would be determined by the people. But in Texas a convention meets, in which each candidate is entitled to the proportion of votes that he polled in the primary in each county. The vote is counted and the delegates pro-rated among the candidates. A county is entitled, we will say, to five delegates to the state convention and polls 1,000 votes for governor. Mr. Bell polls 200 votes in the county and gets one delegate or vote in the state convention; Mr. Colquitt polls 600 popular votes and gets 2-2 votes in convention; Mr. Campbell polls 100 popular votes and gets 1-2 vote in the convention, and Mr. Brooks polls 200 votes and gets one delegate. The convention will then be divided up between the four candidates for governor. After the first ballot the lowest man is dropped. His votes are entirely independent after that. They do not go to the leading candidate, but to any one of the three men left in the field. If on the second ballot there is no nomination the lowest candidate is dropped, and his delegates may then go to any candidate they prefer. It will be seen that by this arrangement there are the same chances for swaps and combinations as in any political convention; but the latter must make its choice from among the three leading candidates in the primary.

In the matter of securing the popular will, the Louisiana and Mississippi plan is, of course, the better. The Texas plan of a combination of primary and convention, however, offers one advantage, that it allows the discussion and framing of a platform. Both, however, recognize the right of the people to be consulted as to candidates and do away with the old abuse of caucuses and "states."

There is a great big job ahead in the matter of preparing the vote for the different candidates for state and district offices in the different counties of the state.

Each man's strength is to be figured down to the nicety of a gnat's nose, and when all this has been done it is only to find that the people are brought right back to the point from which they started. There is still a little matter of four candidates for governor, and not one of them can be eliminated until the first ballot has been taken. After the first ballot the law proceeds to amputate the hindmost candidate with every successive ballot until a nomination is accomplished.

The Terrell election law is most fearfully and wonderfully made, and under its provisions the Texas state democratic campaign has in reality just opened. The political log rolling and efforts at combination will now begin, and the result cannot be possibly forecast in advance of the meeting of the state convention. Instead of simplifying matters, the Terrell election law has produced additional chaos and confusion. Never before in the history of the state has a campaign been waged with such little apparent tangible results. The nomination of a governor has now passed out of the hands of the people and into the hands of the politicians. The politician with the longest pole is going to knock the persimmon at the Dallas convention.

FLIRTATIONS AMONG CANDIDATES
The political wiseacres at Austin are guessing. The result of the primary election held in this state Saturday has completely frustrated the men who have been accustomed to hand out political prognostications for the people, and they are completely up in the air. About all they can do is to look wise and hint of all manner of impending combinations. The Austin bureau of the San Antonio Express is doing some tall guessing, and the following is among some of its deductions:

There is considerable speculation being indulged in as to where the vote of the low candidates for governor will go when they are dropped in convention. It seems to be practically certain that Colonel Tom Campbell will be the strongest man in convention, and his supporters feel confident that he will receive the nomination on second ballot. They base their conclusions on the belief that the Bell or Brooks vote, whichever may be lowest will be cast for Campbell on second ballot. If Brooks is second man in the race, as now seems likely, the Bell support will doubtless go to him. Whether that vote will place him far enough in the lead to secure his nomination is problematical. If the candidates stand Campbell, Colquitt, Brooks and Bell, in the order named, it is the opinion of some of the Campbell leaders that Bell's vote, or a large share of it will go to Campbell, thereby insuring his nomination.

The present indications point to the bunching of Brooks, Colquitt and Bell. They will be close together in the matter of convention votes. By combining, Campbell and Bell may have enough votes to nominate one or the other of them. If they should unite their vote upon one or the other of them, either Bell or Brooks will become first in the balloting, with Campbell second and Colquitt third. In such event, the question would arise as to where Colquitt's support would go. Will Colquitt and most of his leading supporters it has been anything to beat Bell. It is still anything to beat Bell, although they are now boasting over his defeat, and it would seem that they have good grounds for doing so. Bell and Brooks are still the controlling factors in the contest. They can name the man for governor. If Bell should be placed in the lead in the balloting, it is pretty certain that Colquitt would do all he could to prevent any of his vote from going to him. He would throw it to Campbell, thereby insuring the latter's nomination. If Brooks is placed in the lead through the addition of Bell's vote, no power which Colquitt might attempt to wield could prevent a large share of his support from going to that candidate, thereby assuring Judge Brooks' nomination.

The Campbell and Colquitt people are already saying some nice things about Judge Bell and Judge Brooks. They are getting very coquettish, and the liking which they have developed towards their former bitter antagonists is amusing. "The Colquitt men are now saying that the railroads would much rather see Colquitt governor than Campbell, and for that reason Judge Bell's friends should come over to Colquitt. The Campbell leaders now say that Campbell and Bell have always been political and personal friends; that Campbell is not the radical man some of his opponents would have the people believe; that he would be a safe, conservative governor. The Campbell men also express a warm liking for Judge Brooks just now. This flirtation of the high candidates with the low candidates is likely to grow very interesting as the days pass.

The Austin political prognosticators need not worry about Judge Bell's vote. It will be cast in the state democratic convention for Judge Bell, and the probabilities are that there will be enough of it to insure his nomination. It is morally certain that Bell will go into the convention with votes enough to at least make him the third man in the race, and the probabilities are he will be second. It is almost sure he will be second after the first ballot, if not first, and when the process of dropping off the weakest man begins Bell stock is going to the front with a rush that is going to make him the democratic nominee.

Some of the Texas papers speak of Campbell as if he was already nominated. The Campbell strength is practically developed, and when the breakup comes but little of that now divided between the three other candidates will go to him. The large popular vote cast for him does not indicate anything. If Bell had carried Tarrant county by 50,000 it would have amounted to nothing in the state convention except to give him the vote of Tarrant county. And so it is with Campbell. The popular vote does not amount to anything. It is the convention vote that counts.

So far as the flirtation alleged to be going on among the candidates is concerned, The Telegram does not think there is much in the allegation. Judge Bell is courting no favor with the other candidates and has entered into no combination. He expects to be nominated and elected governor of this great state, but realizes that it is a matter that must be settled by the state democratic convention. He has settled down to await the action of that convention and will be governed by the result.

And The Telegram will venture a prediction along the line of political prognostication on its own account. The name of the next governor of Texas will not be Campbell or Colquitt. The nomination will come either to Judge Charles K. Bell of Tarrant county or it will fall to Judge M. M. Brooks of Dallas county. The supporters of these two gentlemen will be found in the end to be thoroughly in control of the situation.

THE COUNTY ATTORNEY'S RACE
After one of the warmest political campaigns that was ever waged in Tarrant county the returns show the nomination of Jeff D. McLean for county attorney as his own successor. The margin is a close one. Cummings made a wonderful race and has no reason to feel the least bit chagrined over the result. The vote shows that he was, at all events, the choice of the people of Fort Worth and immediate vicinity.

So far as Mr. McLean is concerned, if he is satisfied with the situation no one else has a kick coming. He did not receive a plurality in a single ward of the people among whom he made his home and only managed to apparently save his political bacon by the intervention of the county precincts. The result of the election in Fort Worth is entirely satisfactory to the business interests of Fort Worth, which stands over

ready to welcome and protect legitimate business investments. The Telegram is satisfied with the result so far as Fort Worth is concerned, for Fort Worth amply vindicated The Telegram's position. Jeff McLean will make just as good county attorney for The Telegram as he will for the balance of the people, and The Telegram will support him in the same spirit as is manifested by Fort Worth citizenship generally.

The National Live Stock Exposition of Fort Worth is a winner from the very beginning. The ease with which that required \$50,000 will be raised will demonstrate to the world that the old Fort Worth spirit is still doing business at the old stand. And Fort Worth will have something that will put the Dallas fair and all other southwestern expositions completely in the shade. It is a great idea and there is no calculating its direct benefits to Fort Worth, Texas and the entire southwest.

The plan suggested for the putting of the Fort Worth Fat Stock Show upon a permanent basis is a very proper and timely one, and should meet with the unqualified approval of all who have the interests of this great institution closely at heart. The sum of \$50,000 required to be raised by Fort Worth and her allies, the cattlemen, is a mere bagatelle when considered in connection with the benefits that will necessarily accrue, and there should be no delay in meeting the terms of the requirement.

Those Texas papers that are now speaking so tenderly of Judge Bell in the light of a "has been" may find a little later on that they were somewhat previous. Judge Bell has not yet been defeated in his race for governor, and is just as much of a candidate as he ever was. And his prospects for obtaining the nomination have not dwindled perceptibly.

Friends of E. G. Senter are pleased with his winning of the senatorial race in Dallas county, for Senter is a real man of the people. He has been in the thickest of the political fight in this state for years and has rendered the party some invaluable services. Senter is one of the new members who will make good at Austin.

Miss Clara Driscoll of San Antonio, the talented and patriotic young lady who saved the Alamo to the people of Texas, was married in New York a few days ago to Hal Sevier, former publisher of the Sabelian Sentinel, who now holds an important position on the New York Sun. And the best wishes of all Texas people attend her.

The ladies of Terrell gave Colquitt an imitation ballot box on the occasion of his homecoming before the election, which was intended to typify the solid vote of Kaufman county. But the irony of fate decreed that when the box was opened it should contain the smiling face of M. M. Brooks, the prohibition candidate for governor.

Judge Henderson will be re-nominated for his present position on the court of criminal appeals, and this is a fitting tribute to the thorough manner in which he has attended to the duties of his position. His opponent has already conceded defeat.

Judge A. M. Carter of this city gave Judge I. W. Stephens of Weatherford a pretty close run for his position as a member of the court of civil appeals for this district, but "Uncle Ike" came under the wire the winner by a very close margin.

When The Telegram told the Houston Post that Colquitt would not carry his home county it gave utterance to a truth that was amply vindicated by the primary held in Kaufman county.

When Tarrant county endeavored to hand the floater to the other counties in the district, it seems to have been passed back with the remark that it just fitz-hugh.

Judge William D. Williams did not make much noise in his campaign for railroad commissioner, but he seems to have gotten in his work where it counts good and strong.

That Chicago judge who made the Zion City decision had best look out. He is liable to be cited for contempt of Elijah the Restorer.

THE TELEGRAM AND THE TEXAS PRESS SHOULD GET VALUE RECEIVED
What the Fort Worth Telegram says of the streets of its city is applicable to Austin and all cities. The Telegram says: "The streets of Fort Worth are no more valuable today than they were this time last year, but it is very gratifying to note there is a general awakening to the realization that the streets are valuable and franchises should be granted to corporations only when the city and the people get value received. The Telegram has been consistently fighting for this great principle when recent converts were fighting it, and The Telegram is pleased with its early and complete vindication."—Austin Tribune.

The Telegram in commenting on the above calls attention to the fact that when a city needs money to improve its highways that not one of the beneficiaries will offer to help pay the expense. Denton should get value received for the use of her streets. She is entitled to it just as much as her larger sisters.—Denton Record and Chronicle.

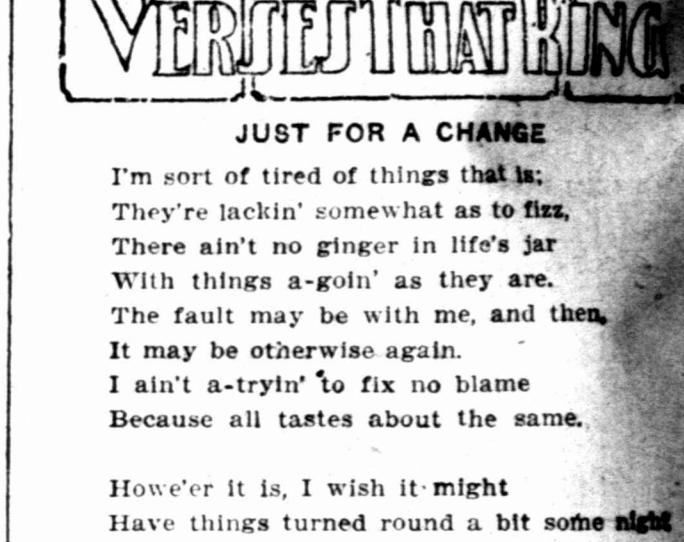

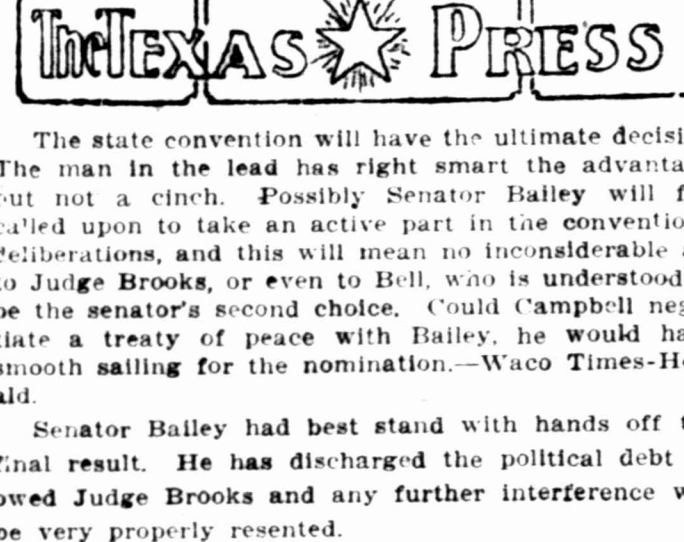

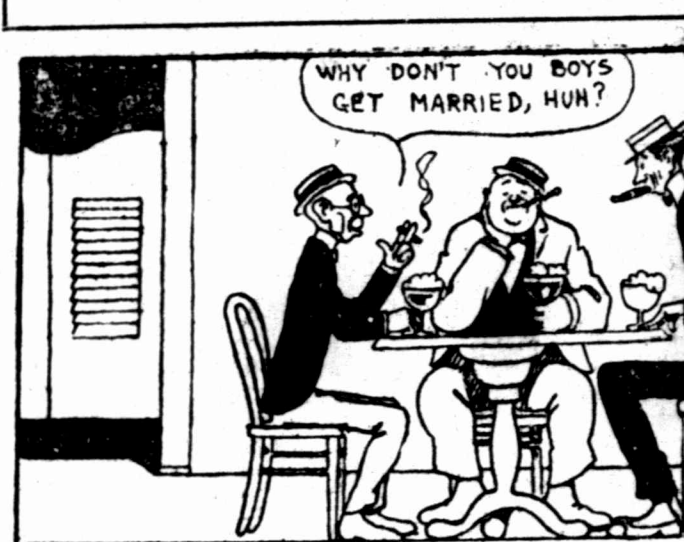

GAVE ENEMIES A BLUDGEON
Those Texas papers that have so persistently insisted that the two excursion trains run out of this city by friends of Judge Bell were furnished by the railroads free of expense, have been guilty of deliberate falsehood. Those trains were charged for at regular rates and paid for according to contract. The primary election is now over and the campaign belongs to the past, but those glaring misstatements should be speedily corrected.—Fort Worth Telegram.

The Record and Chronicle was not one of the papers who charged the Bell people with playing with the affections of the railroads, so feels like it could give a little belated advice on the subject. We have no doubt that the trains were paid for as stated, but the idea was not a good one. It gave political enemies a bludgeon to hammer your candidate with. It is well in a hot campaign to avoid appearance of friendliness of trusts.—Denton Record and Chronicle.

A man who probably speaks from experience says that one of the most frigid things in life is a woman's cold shoulder.

THE FOOLISH LIFE

BY R. W. TAYLOR

THE TEXAS PRESS

VERIFIED THAT BRING

JUST FOR A CHANGE
I'm sort of tired of things that is. They're lackin' somewhat as to fix. There ain't no ginger in life's jar With things a-goin' as they are. The fault may be with me, and then, it ain't be otherwise again. I ain't a-tryin' to fix no blame Because all tastes about the same.

How'er it is, I wish it might Have things turned round a bit some night So that instead of as they be, They'd work toward the contrary. I'd like to see some mountain rill Have spunk enough to flow up hill, So that old Nature might be shown It had opinions of its own.

The Times-Herald is still persuaded that C. K. Bell is the best equipped man for governor in Texas. It is proud of the fact that McLeann county gave to Judge Brooks, or even to Bell, who is understood to be the senator's second choice. Could Campbell negotiate a treaty of peace with Bailey, he would have smooth sailing for the nomination.—Waco Times-Herald.

I'd like to see the settin' sun Out in the east when day is done, Just as a nint, when goin' to bed, To prove it wasn't bigoted. I'd like to hear a bullfrog sing Like nightingales upon the wing, Instead of that eternal "clunk" With which he seeks his swampy bunk

Judge Bell may have been correct when he said that "Governor S. W. T. Lanham is one of the grandest men in Texas," but he may not be impertinent in guessing to state that Parker county, Governor Lanham's home, climbed up and took a comfortable seat in front of the Campbell's hump.—Houston Post.

A cat that barks, a dog that meows, And when it comes to milkin' cows, 'Twould cheer me up to get a pail Of lemonade or ginger ale; And if the bucket in the well Would give up water for a spell And bring me up some fresh root beer, There'd be no kick a-comin' here.

The Boston board of health, reporting on a sample of potted ham, says it contained considerable epidemics, numerous blood vessels and nerves, and the salivary glands ground to a paste. It sums up "quality poor, the material being largely scrap." Those Boston sanitarians are awfully erudite, but my, how calm.—San Antonio Gazette.

'Taint discontent that's vexin' me With life so everlastin'. But just a sort of parchin' thirst To get a peek at things reversed. They've been the same so very long A change would strike me pretty strong. And though I'm makin' no complaint, For once I'd like 'em as they ain't.—John Kendrick Bangs, in "In Lighter Vein" in the August Century.

The Boston board also found that the potted ham contained a considerable quantity of cornmeal, but there was no trace of beans.

Williamson county farmers are scouring the country for cotton pickers, and it looks as though they would have to go out of the state. There is no calamity district in Texas this year.—San Antonio Express.

Here is a genuine call for the army of defeated candidates, and an opportunity for them to make good. The sun shines hot down in Williamson, but the pay for picking is always ready at the scales.

POINTED PARAGRAPHS
Splinters naturally oppose men who do not prosper. Ready money is generally the kind that isn't readily borrowed. When a man marries he saddles another mortal with his life. Some wives seem to think that it is their duty to nag their husbands. Art is long and a little spot cash is what the world longs for. All popular songs are composed, but many of them seem to be decomposed. While all expressions of sympathy are well intended, few are really sincere. When he encounters a chap who says "There's no confidence man smiles. A citizen isn't necessarily worthless just because his wife is worth more than he is. It's a wise woman who knows just when to stop talking and turn on the flow of briny tears. Many a man's so-called dignified silence is the lamentable fact that he doesn't know what to do."—Chicago News.

That may have been a lucky intervention after all. St. Peter is getting very old, and seeing the Dallas man arriving at the celestial portals wearing a blind bride, might have mistaken him for a mule and ordered him hitched on the outside.

QUAKER REFLECTIONS
There are no two weighs about it—a pair of scales is a mule. The average automobile is almost as stubborn as a mule. A dog's bark is generally worse than its bite. It's different with a mosquito. Some fellows never respond to treatment. They expect us to do all the treating. The beauty about statistics is that you can't see them prove almost anything you want. "Try our coffins and you will use no other," is an advertisement of a Kensington undertaker.—Philadelphia Record.

At Philadelphia a dog was operated on for appendicitis. Physicians versed in diseases of animals performed the operation. What next?—Sherman Democrat.

REFLECTIONS OF A BACHELOR
It's no use to try to get a woman to wear bloomers unless she knows she has nothing to hide. A man who has no bad habits has the worst one of bragging about it to the rest of the family. Some people are so careful they wouldn't eat onlms when they were going to sleep in a sleeping car. If a man had to spend on medicine for his family one-tenth the money he spends on drinks for himself he would call himself a bankrupt. The trouble with kissing a girl when you are taking her home in the rain is the umbrella either gets tangled up in her hair or jabs you in the eye.—New York Press.

MANY CATCH SNAKES

Texas Rattlers Shipped North to Museums
TERRELL, Texas, Aug. 2.—Catching rattlesnakes with the aid of a forked stick and a leather bag is an occupation that is fast becoming very lucrative in Texas. In Shackelford county in the central portion of the state live several men who do nothing but catch snakes, imprison them and ship to the north for exhibition in museums of the larger cities, for sale to be slaughtered and have their hides tanned and for the extracting of rattlesnake oil for medicinal use. The snakes are caught in large numbers in the rocky gulches of Shackelford county and show no signs of becoming extinct.

FARMERS WOULD CONTROL COTTON

Many Warehouse Companies Now Being Chartered
That the Texas Farmers' Union is preparing to control the cotton market of this state may be seen by the number of charters filed in the office of the secretary of state at Austin for the purpose of establishing public cotton warehouses for the storing of the staple. When the price suits them, the farmers will sell and, when it is considered too low, they will store their cotton in these warehouses and wait until the demand becomes sufficiently acute to bring about a bullish market. It is also announced that the Farmers' Union has an arrangement whereby they expect to set direct to the spinners, eliminating percentages paid to commission men. The warehouse companies have from \$5,000 to \$15,000 capital stock each and each branch will be placed in charge of an experienced cotton man.

OFF TO BRADY TO LOOK OVER GROUND

President Davidson Leaves for the South

President A. J. Davidson, Vice President C. R. Gray and Engineer of Maintenance and Ways McByers of the St. Louis and San Francisco Railroad Company, having completed an inspection of the Frisco properties here, including the south end of the city limits, left for Brady, where they will make a thorough inspection of the company's terminals at that point. The party will return from Brady to Fort Worth by daylight, continuing the inspection en route.

JOHN RINGLING HERE

Big Circus Magnate Finishes a Tour of the State
John Ringling, the circus magnate, passed through Fort Worth Wednesday evening, en route from Austin and the southern part of the state to Chicago. Ringling came into Texas about two weeks ago to make arrangements. If everything was favorable, for a tour of his circus aggregation in the state of Texas would be completed in a few days.

At the Frisco Yards

Rapid progress is being made with the work on the Frisco yards and round house southwest of the city limits. The yards have all been graded and are now being filled with 50,000 square yards of Bear Creek gravel. The concrete round house is well advanced, the walls being nearly completed and the laying of six miles of yard tracks will be pushed just as fast as the work can be done. Architect Wright, who is supervising this work, is determined that it shall be something for railroad men to talk about.

Luxury in Travel

With special coaches equipped with libraries, bath rooms, sun parlors, games, pianos and so on one would imagine that the luxuries of railway travel were about exhausted. Not so, however, for at least two of the transcontinental lines promise to inaugurate a novelty within a few months that will be not only a boon to actors and actresses, but to the general traveling public as well.

THEATER SEASON NOT FAR AWAY

The Promise of an Interesting Booking
With the opening of the theatrical season a little more than a month off, local patrons with an inquisitive turn of mind are beginning to inquire into the class of attractions which they are expected to patronize the coming season. The only two persons who can furnish this information are not able to do so just now, as they have not yet received a list of their bookings. However, they expect to receive them the latter part of next week.

At Greenwall's

At Greenwall's theater some of the best and largest attractions leaving New York will be seen, while at the Majestic the cream of the vaudeville world will appear. Both houses are making extensive preparations for the season and promise amusement of the highest class.

Social Events

A picnic supper with skating, boating and other picnic frills was enjoyed Wednesday night by Mr. and Mrs. Robert May, Misses Mary Montgomery, Elizabeth Wells, Gwendolyn McCarty, Elizabeth Wells, Martha Cantey, Mabel Caldwell, Hazel Walker, Messrs. Wallace Peak, Mack Maddox, Joe Hyman, A. Gernsbacher, Charles Wynnes and Max Elser.

Society Personals

Miss Grace Maxwell leaves next Saturday for a visit in Ballinger. W. Beall Smith is at home from the ranch for a visit. Mrs. J. L. Driebel of Dallas is visiting here. Mrs. M. E. Binyon, Miss Lucille Pendleton of Temple is the guest of Miss Alice Van Zandt.

M. Kendall; district clerk, A. Bury; sheriff, H. H. Henderson; tax collector, H. N. Price; county treasurer, George D. Mackley; superintendent public instruction, W. B. Cheek; North Fort Worth; county commissioner, John R. Harding, precinct No. 1; justice peace, T. F. Conroy for No. 1, and H. N. Babcock for No. 2; chairman county executive committee, William Wehrs.

THE MAJESTIC
Manager Harris of the Majestic declares that the season of vaudeville to be observed at that popular house will eclipse all previous ones in the matter of pleasing patrons. "The best vaudeville people in the business," stated Mr. Harris, "will visit Fort Worth this season and each week while on their way from three to four headliners."

Both of the playhouses have been renovated during the past month. At Greenwall's the interior has been redecorated with new, hand-painted ceilings, beautifully decorated boxes greet one's eye, while at the Majestic the interior has received a "touching up" and is delightfully fresh and pleasing.

Greenwall's will start the season with the Elmore Sisters in "The Rajan of Bohng" on Sept. 3, Labor day, and the Majestic will throw open its doors Sept. 15.

# Annual vs. Deferred Dividends from Advertising

All this talk about the cumulative effect of advertising is pretty much the same argument the insurance man put up when he sold us our deferred dividend policy.

IT'S an excuse to put off the day of final settlement in both cases.

We'll take our dividends annually, Mr. Insurance Man.

And, Mr. Advertiser, if this year's advertising didn't earn dividends you're on the five, ten or twenty year accumulative plan—may have to lapse before dividend time.

You may win out after your advertising "expert" gets through experimenting.

But we would like an opportunity to tell you in an interview how to get Annual Dividends from your Advertising. We would like to explain to you what we do to make advertising sell goods from the start, without the advertiser having to wait 5, 10 or 20 years for a dividend.

By doing this for our present clients—both large and small—we have built up the largest

business of its kind in America.

One of our representatives is in your city every few days looking after the interests of some of our present clients. That is why we are advertising in this newspaper—to you—NOW.

A letter addressed to us, signifying that you will grant us an interview in your office, will not obligate you in any way.

We are solving commercial problems every day, and this is an offer to discuss such problems (small and large) as between business men. If the discussion does not develop the reasonable certainty that YOUR volume of business and percentage of net profit can be increased by Lord & Thomas advertising, there it will end.

Will you write us today?

We are issuing a series of small books (cloth bound) covering advertising, which we send free to interested advertisers.

Edison Has Plan Which May Revolutionize Building

Special to The Telegram. NEW YORK, Aug. 2.—Whole houses molded in a single casting out of solid concrete, which will provide cozy homes for workmen at a cost of from \$500 to \$600—much less than the average mechanic pays today—is the goal which Thomas A. Edison is striving to reach. He is confident of success. Combined with economy of construction and maintenance the inventor aims to embody architectural beauty and practical indestructibility.  
Mr. Edison intends to make his first practical experiments next year in his new village in Warren county, N. J. One of the big Edison industrial establishments is situated there, and he proposes to erect the homes by the new process for the families of the hundreds of employes of the plant. If he succeeds in demonstrating the practicability of the scheme he will introduce it generally.  
He already has conceived every detail of the project. Four days at the outside is the period Edison estimates will be necessary to cast and turn out whole houses with from eight to ten rooms each, complete in almost every detail and ready to be furnished and carpeted. The actual time for pumping the concrete into the metallic molds will be only a few hours, and the rest of the time will be consumed in drying out and hardening. Whole cities of concrete may be reared in the brief period of four days if only enough molds and men are provided.  
Mr. Edison thinks that the time is near when the world must find some substitute for brick and lumber. The States will be destroyed within fifty years if the present drain upon them is maintained.

#### AFTER BRYAN'S SCALP

Hearst and Sullivan Said to Be Planning Nebraska's Overthrow  
Special to The Telegram. CHICAGO, Aug. 2.—Democratic congressional headquarters were opened in the Palmer House yesterday with a profound silence. Congressman James T. Lloyd was frightened at the aspect of democratic party affairs as a result of the Bryan letters and Mr. Rainey's confinement of all pain and danger, and insures safety-to life of mother and child. This scientific liniment is a god-send to all women at the time of their most critical trial. Not only does Mother's Friend carry women safely through the perils of child-birth, but its use gently prepares the system for the coming event, prevents "morning sickness," and other discomforts of this period.

#### BECOMING A MOTHER

Is an ordeal which all women approach with indescribable fear, for nothing compares with the pain and horror of child-birth. The thought of the suffering and danger in store for her, robs the expectant mother of all pleasant anticipations of the coming event, and casts over her a shadow of gloom which cannot be shaken off. Thousands of women have found that the use of Mother's Friend during pregnancy robs confinement of all pain and danger, and insures safety-to life of mother and child. This scientific liniment is a god-send to all women at the time of their most critical trial. Not only does Mother's Friend carry women safely through the perils of child-birth, but its use gently prepares the system for the coming event, prevents "morning sickness," and other discomforts of this period.

### HEAT REGISTERS 160

Many Die from Prostrations in California Gold Fields  
Special to The Telegram. LOS ANGELES, Cal. Aug. 2.—According to reports which have reached this city, terrible heat conditions are prevailing in the Idaho county gold fields and adjacent desert, and mining prospectors are dying daily from the heat. W. H. Adams, a mining engineer who left Los Angeles July 4 for the Panamint range and who has just returned to the city, states that eight prospectors were brought in dead from the heat while he was in the region. During his stay at Panamint six bodies were brought there, all victims of sunstroke. The heat, he says, is terrible and unabated day or night. At Balfazat, he relates, the thermometer registered 135 at noon and at the midnight following had dropped to but 110 degrees, which was the average for three days. In the desert sections, lying south of Redlands, he says, the mercury went up to 160 and could record no higher.

### WOLF ATTACKS BABE

Animal Was Carrying Child Off When Effects Rescued  
Special to The Telegram. DENISON, Texas, Aug. 2.—At Red Lake, Chickasaw nation, resides a family by the name of Bozarth. Sunday night an enormous prairie wolf walked into the open door when the family was asleep and attacked a child. The wolf dragged the child out of the cabin and started for the woods, when it was attacked by the mother. The wolf dropped the child and fled. The only damage was the tearing of a calico wrap which the child wore. The teeth of the wolf barely missed the child's throat.  
Baby Percy Medicine is sold by your druggist and is guaranteed to cure summer complaints, stomach or bowel trouble caused by teething. Ask for it. For sale by all druggists.

### PILOT POINT MAN HERE

Walter Sullivan Owns Ranch in Lamb County  
Walter Sullivan is a practical stockman, who has spent many years in the business of this part of Texas. Corn "Point" said he: "that is, my wife and family live there, but my ranch is out in immediate locality, either but is a county is not organized, but is attached to Garza for government purposes. The range is in as good condition as I ever saw it. It is a good, consequently getting on famously in every way. There is no sickness of any kind and the increase has been very satisfactory."  
Has Large Ranch  
"My postoffice address out there is Oldham. I have twenty-one sections in the place and am above the quarantine line and no ticks to worry me. There is very little cropping in our county, only a few farms on the east line; all grass with us, which is mesquite and buffalo, with some sage."  
Wheat Poor in Denton  
"In Denton county all crops are very good, although wheat did not come up to expectations, but was about the average in this part of Texas. Corn prospects are good and cotton is very fine indeed. We had a short dry spell in the summer and for a time it did look as if things were going to head, but it set in to raining and then we had too much. The average of everything, however, is good."

### PRESIDENT GIVES \$1

Forwards His Contribution to Congressional Campaign Fund  
Special to The Telegram. NEW YORK, Aug. 2.—President Roosevelt has contributed \$1 to the republican national congressional committee's campaign fund. The contribution was sent in response to a general appeal for \$1 contributions. Chairman Sherman of the congressional committee has published the President's letter, enclosing his contribution to the fund. The letter follows:  
"OYSTER BAY, N. Y., July 25, 1934.—Dear Mr. Sherman: I have your \$1. I send you my dollar. I think it an admirable plan, and I congratulate you upon the success that bids fair to attend the movement. Sincerely yours, "THEODORE ROOSEVELT."

### OFFICIALS KEPT

#### BUSY BY LEPER

#### Thousands Are Eager to See

#### Diseased Syrian

By Associated Press. PARKERSBURG, W. Va., Aug. 2.—George Rossett, the Syrian leper who has been an uninvited guest in this city since Tuesday noon, was last night smuggled away on a train on the Baltimore and Ohio by two constables to Elkins, his former place of abode.  
Rossett's deportation was arranged in secrecy and it was not generally known that he had left the town. Rossett's removal was by order of Governor W. R. Dawson. On a grassy plot at the rear of the Baltimore and Ohio station, with ropes stretched about to keep back the people, Rossett spent his time while sleeping and talking to those who ventured near enough to him. He did not seem to mind the circumstances in connection with his trip to this city and claimed the Parkersburg people gave him better treatment than he received elsewhere.  
Ask Shaw to Help  
The district attorney's office sent a telegram to Leslie M. Shaw, secretary of the treasury, asking that the state take charge of Rossett and have him removed to North Brothers Island, N. Y., but no answer was received. A box car was sidetracked Tuesday night near where the leper took up his quarters and he refused to take it, preferring the open air. From then until he left this city he camped on the unsheltered ground without a bed of any sort. Baltimore and Ohio railroad officials say that Rossett ate heartily and despite the fact that he had been abused and neglected, he had an abundance of food.  
Three to Be Tried  
The trial of the officials and the Maryland physician, who were charged with bringing Rossett here, has not yet been held. It is set for tonight and all three will appear, having given bonds. The railroad company contends that it was not responsible for Rossett's visit here.

### RAIN WAITED TOO LONG

Jim Stewart Tells of Conditions in Gonzales County  
Jim Stewart of the cattle firm of Stewart & Budd of Welder, Gonzales county, was on the market Monday; in fact, both members of the firm were along.  
"It has not been altogether a good year for us, for the rains held off too long and grass got bad and corn was practically a failure. Plenty of rain has fallen since, however," said he, "and things are looking much better and grass is fine and cattle looking up. There are not many cattle in Gonzales county now, for it has become almost a sold farm. We have a ranch out in the Uvalde country, however, which is in fine condition now. All our stock interests are good, and as no disease of any kind has put in an appearance and the increase is good we have no reason to complain."

### TERRITORY CORN FINE

Dick True Says Crop Exceeded Expectations  
Dick True, a stockman from the brake and falls in Indian Territory, at Ryan, came in as cheerful and as full of good feeling for his friends and the world in general as usual and remarked:  
"You all look all right after the election and you would feel all right, too, if you only had time to look upon the finest corn crop that ever grew. I am not telling you a fairy story when I say it is the finest yet, for there never was a better corn crop in the Territory as the one that is now approaching harvest time in our section. This is not alone confined to our immediate locality, either, but is all over the Territory. With this crop of corn and the fine grass in addition, you can certainly have some good cattle coming out of that neck of the woods soon. While corn is a 'croking' crop, you must not forget that we are cotton raisers, too. We have alfalfa, too, in spots. We are not very far from Texas and hope she will adopt some of our methods and grow big corn crops, too."

NEW YORK STOCKS

Enormous Dealings in St. Paul—Best
People Buy—Price Advances 3/4
in Fifteen Minutes
Special to The Telegram.
NEW YORK, Aug. 2.—Spectacular
movements of St. Paul completely
overshadowed all other events which
transpired on the stock exchange to-
day. The opening of the market was
comparatively featureless and the
price of St. Paul was unchanged, but
enormous buying of that issue was
soon noted and the price advanced by
leaps and bounds, a gain of 3/4 points
being attained during the first fifteen
minutes. The buyers were some of the
best people in the street—Gates, Baché
& Co., Hall, Day, Adams Henning,
Taylor & Co. being large individual
purchasers. There was a great deal
of stock out on the advance and the
upward movement was checked, but
powers of absorption were strong, and
although wide declines were noted at
intervals, recovery and the upward move-
ment remained in complete control up
to noon. The general market was less
active than yesterday, but although
checked by no means propitious for
an extension of the upward move-
ment, as the news from abroad was
not favorable, the bank rate remain-
ing unchanged and a falling London
market for American securities being
reported as the result of unsatisfac-
tory Russian news, the list was stimu-
lated by the strength of St. Paul and
prices as a result did not vary much
from yesterday's final during the
early session.

The light raged fast and furious dur-
ing the afternoon and at 1 p. m. sales
totalled 1,028,300. The market was
pointed to its early gain and the list,
particularly the Harriman issues, sym-
pathized, both Union and Southern
Pacific deriving substantial benefits
from the movement. Once more the
expectation of important developments
regarding the St. Paul's plans for
financing the coast extension proved
a fallacy for at the directors' meeting
scheduled for this afternoon a quorum
was not present, when the market
closed and once more the eager publi-
cation was foisted. The lack of definite in-
formation caused a quiet drop in the
price of St. Paul and 2 points from the
best were shaved off during the last
few minutes. The money market ruled
rather firm, rates ranging from 2 1/4
to 2 3/4 per cent.

NEW YORK COTTON

Reports Prepare for Government Re-
port—Session Dull and Without
Feature—Price Changes
Special to The Telegram.
NEW YORK, Aug. 2.—As usual on
the eve of an important government
report, speculating on what the figures
would be occupied more time than
speculating in futures, and the cotton
market was dull and featureless, with
transactions principally for evening
up purposes, and fluctuations narrow.
The opening was tame, prices being
unchanged to a point higher, and on
the call one investor bid for and
another offered all options, neither of
them making any trades of conse-
quence.

Reports of heavy rains over night
in the eastern section of the belt
caused some increase in short cover-
ing and an advance of 2 points follow-
ing the upward movement had
no impetus and before the second call
the gain was dissipated.
After this time the market was ex-
tremely dull and although prices work-
ed back to the former high level, they
again receded and at the close were 2
points below yesterday's final, with
the market steady.

The spot market ruled quiet, prices
being unchanged at 10.9c for mid-
dling. Sales, 800 bales.

New Orleans Cotton
NEW ORLEANS, Aug. 2.—The cot-
ton market did little today toward
changing prices in either direction, al-
though the fact that this was the last
chance for the directors' meeting be-
fore the bureau report in connec-
tion with bullwhip weather condi-
tions in the eastern section of the
belt—heavy rains having fallen there-
over—caused quite an influx of
buying orders during the early hours.
Lack of outside interest and some
liquidation from professional longs
prevented any material advance, while
the better weather outlook for to-
morrow caused prices to sag off be-
low yesterday's final before the noon
call.

Trading was at a standstill during
the afternoon and fluctuations were
narrow and several minutes apart, the
market closed quiet with prices at the
low point, showing a net loss of 2
points. The bureau report will be is-
sued at 12 m., Washington time, to-
morrow.
Spot cotton market ruled quiet,
prices being unchanged at 10c for
midling. Sales, 525 bales, including
25 f. o. b.

GRAFT IN ARMY
Officers in Philippines Alleged to Have
Misappropriated Funds
By Associated Press.
MANILA, Aug. 2.—Colonel Wood,
while investigating the accounts of the
army construction department, found
evidence of graft lasting the past four
years. Four army quartermasters and
two clerks are ordered to the United
States to testify. He alleges vouchers
were falsified and payrolls padded.
Captain Nugent, Colonel Kimball and
Colonel Friend are in charge of the
quartermaster's department. No
specified accusation against any of
these is made. Thousands of dollars
were misappropriated.

CHICAGO GRAIN

Wheat Prices Show Small Change—
Sentiment More Favorable, but
Efforts of Bulls Opposed
Special to The Telegram.
CHICAGO, Ill., Aug. 2.—Wheat traders
in the local pit became imbued with
the idea that prices were low enough
today, and most of them took a little,
but there was never any indication
of strength in the market, and although
an advance would have been consistent
with the day's news, prices ruled gen-
erally below yesterday's final, this
condition being brought about under
the persistent hammering of some of
the larger traders. Unfavorable weather
conditions in Russia, the strike at
Osessa and an estimated 30,000,000
decrease in the crop of the three north-
western states were bullish factors and
caused a very slight uptick at the
opening, but the demands for a raise
was again very light, and exerted con-
siderable influence on trading. The
market closed steady with prices un-
changed to 1/4c lower.

Local receipts, 273 cars vs. 169 cars
this day last year. Primary receipts
1,293,000 bushels vs. 895,000 bushels this
day last year. Shipments 812,000 bush-
els vs. 611,000 bushels this day last
year.
Corn
Corn showed independent strength
today, but the price held steady in
Illinois tomorrow and the early
weakness of wheat. Price advanced 1/4
to 3/4c during the day, but lost most of
the gain in the final dealings, the close
being 1/4c higher with prices unchanged to
1/4c higher.

Local receipts, 273 cars vs. 163 cars
this day last year. Primary receipts
381,000 bushels vs. 241,000 bushels this
day last year. Shipments 281,000 vs.
242,000 this day last year.
Oats
Oats for near delivery were not in
demand, but the price held steady,
while the distant options sympathized
with the upward movement in corn and
closed at a net gain of 1/4c.
Local receipts, 240 cars vs. 222 cars
this day last year.

Provisions
Provision traders were surprised by
the monthly visible statement, which
showed a decrease of 100,000 head,
and the stock of lamb being but 14,000
head, while the ribs it was 22,000
head, there being no change in con-
tract pork and a decrease of 5,000
head in the other kinds. Stocks of meat
of all kinds decreased 8,000,000 pounds.
The market ruled firm on good buy-
ing, closing prices being 13c higher
for pork, 2c up for lard and 15c to 17c
up for ribs.

TEXAS AGAIN ON
SOLID CASH BASIS
Government Money Enables the
State to Pay Bills
Special to The Telegram.
AUSTIN, Texas, Aug. 2.—The state
of Texas went on a cash basis today,
after being operating on a deficit for
the past several weeks. The cash
basis was brought about by the fact
that the state treasurer has been re-
ceiving installments from the federal
National Bank of this city on the Texas
claims of \$375,000 which was allowed
by congress a short time ago.
State Treasurer Robbins announced
that all warrants presented would be
cash. The amount is coming in in
installments, but enough has been re-
ceived to justify the treasurer in go-
ing on a cash basis.

YOUNG ASTOR A LIFE SAVER
Lieut. John Jacob Rescues Drowning
Soldier of His Troop
Special to The Telegram.
LONDON, Aug. 2.—Lieutenant John
Jacob Astor of the First Life Guards,
disson of the late Lord Astor, dis-
tinguished himself by saving a troop-
er of that regiment from drowning.
Lieut. Astor's troop was practicing
swimming when one of the men was
kicked by his horse while in the mid-
dle of the Thames near Windsor. The
man sank in deep water, and Lieuten-
ant Astor immediately dived for help.
After a struggle he rescued the man,
managed to get the man ashore, where
the doctors revived him.

CATTLE AND HOGS

Moderate Supplies in All Branches of
the Cattle Trade—Steady
Prices Everywhere
Cattle receipts today were only mod-
erate, close to 3,500 head.
Beef steers were in very small sup-
ply and the quality hardly got better
than medium to good grassers, with a
fairly good supply of early feeders.
The medium to good steers there was
fairly good demand at steady prices,
on the basis of the recent decline, the
loads bringing \$3.40 to \$3.50. Most
of the steer supply sold early. Feed-
ers were active for the plain grass
steers. Sales of steers:

Table with columns: No. Ave. Price, No. Ave. Price. Lists prices for various cattle grades like Steers, Cows, etc.

Butcher cows formed the bulk of the
cattle run, and made a better show-
ing of quality than they did yesterday.
The market proved to be broad from
packers and outsiders and good order
er cows sold stronger. Top car lots
brought \$2.64. Demand for canners
was light, and these sold no better
than steady with the week's decline.
Sales of cows:

Bulls
Bulls continued to be scarce, with
feeders inclined to compete a little in
buying. Sales of bulls and stags:

Calves
The calf market showed an increase
in numbers, about 1,900 head coming
in, counting those coming in mixed
loads. The quality was improved on
the best vealers showing in the north-
east, and the market was strong
for the best light calves bringing
\$1.15. Heavy calves were taken lib-
erally by packers. Sales:

Hogs
Only on load of hogs was on the

\$6.30, steady with yesterday's
decline. Sales of hogs:

MAY BUILD TO
MINERAL WELLS

New "Mergers" Looking Into
Interurban Project
E. W. Christy and C. D. Close of
Cleveland, two of the capitalists who
are financing the consolidated trac-
tion and lighting company, went to
Mineral Wells late Thursday after-
noon to look into the question of the
building of the interurban between
this city and Mineral Wells.
Mr. Christy said that he was going
to investigate matters there in con-
nection with the proposition to build
the Mineral Wells line. There seems
now to be no doubt that the line will
be built and an early date.

The Citizens Railway and Light
Company, formed by the consolidation
of the Rosen Heights and Arlington
Heights traction companies and the
Citizens Light and Power Company
is prepared to enter upon a campaign
of extensive improvements and the
Mineral Wells interurban, it is said,
will be the greatest of their undertak-
ings.

HORSE ATE TRANSFER
And a Woman in Pittsburg Has to Pay
Her Fare
Special to The Telegram.
PITTSBURG, Pa., Aug. 2.—"That
horse ate my transfer, and I won't
pay."
This was the remark made to a con-
ductor of a Craig and Center car this
morning by an irate woman as she sat
on the car. She pointed to a horse
which was browsing about hitched to
a grocery cart.

The woman's story was corroborated,
too, by some of the other passengers
who had mounted the car with her.
But the conductor couldn't hear to this
excuse.
"Y' ought to have brought the tag
on with you, ma'am," he said, "an' I
could have rung him up for fare. Con-
ductor," she said. The woman had
dropped her transfer, and the horse
was quicker than she was.

Views on the Market
Vivion Commission Company
FORT WORTH, Texas, Aug. 2.—
Cotton statistics and statistics al-
most without exception have found that
the plant has sustained some damage
during July as a consequence of which
the condition is lower at present than
on the 25th of June. The present sea-
son has been more similar to that of
1904-05 than any other and for the best
statistical results comparisons should
be made with figures of that season,
although it is impossible to arrive
at a conclusion with any degree of
certainty, because no one can tell what
the elements will furnish during the
next thirty days. Nevertheless, a
diver into statistics produces a bullish
impression, notwithstanding the fact that
the season so far as a whole has been
an unusually favorable one, and there
seems little doubt but what the yield
will be large.

To compare the seasons: In 1904 the
condition figures of August were 91.6
and in the ensuing month the plant
suffered a deterioration of 7.5 per cent,
making the September condition 84.1.
Now, at the beginning of the govern-
ment reports in June of the present
season the condition was 1.6 per cent
better than at the same time two years
ago and while the records in the in-
terim show a decline in the average
yield, the government figures be any-
where in the neighborhood of private estimates,
nothing but a bullish construction could
be placed upon the situation. Statis-
tics bear me out in this statement.
For example, take 91.6 as a basis for
August condition, and the average
of the normal yield, being the average
of the crop which we are now com-
paring, to be conservative and allow
plenty of latitude I will estimate the
condition at 84.5, which, according to
private estimates is entirely too high,
and with conditions for the next thirty
days similar to those of the season re-
ferred to the average yield should be
196.25 pounds of lint cotton per acre,
which with an acreage of 28,886,000,
would mean a total crop of less than
11,900,000 bales, and also giving
the normal yield, the crop would be
proportionately smaller. Now these are
statistical conclusions, but hardly like-
ly to become realities, as while not
impossible it is hardly probable that
such a falling off in condition should follow
next month as that sustained in 1904-
05. Nevertheless, it can plainly be
seen that a report showing a condi-
tion of 84.5 would by no means be
bearish, although it would probably
have that effect on the market for the
time being.

The bureau report will be issued to-
morrow at 11 a. m., our time. The
day's market was featureless and price
changes of minor importance.

BIG ROW FAILS
TO MATERIALIZE

Cummins Easily Nominated for
Iowa Governor
Special to The Telegram.
DES MOINES, Iowa, Aug. 2.—Governor
A. M. Cummins was renominated
last night by the republicans of Iowa.
There were three names placed before
the convention, those of the governor,
George B. Perkins and S. W. Rathbun.
The ballot resulted as follows: Cum-
mins, 933; Perkins, 603; Rathbun, 104.
The anticipated row in the conven-
tion did not materialize. Cummins, as
he had claimed all along, controlled a
majority of the delegates.

As adopted, the platform commends
President Roosevelt and endorses Gov-
ernor Cummins, expresses a desire for
the enactment of a primary election
law which will provide for the nomi-
nation by direct vote of all candidates
for office to be filed at the general
election and an expression of prefer-
ence in the selection of United
States senators in favor of protection
and "the reciprocity inaugurated by
Blaine, advocated by McKinley and
Roosevelt and recognized in republic-
an platforms and legislation."

CRAPS TO DECIDE

Special to The Telegram.
PITTSBURG, Pa., Aug. 2.—Con-
demned murderers "Bud" Williams
and Cornelius Combs, negroes, now
awaiting death in the county jail on
Sept. 6, have decided to shoot a game
of craps to decide which shall take
precedence over the other on the fatal
day. Williams and Combs spend their
exercise hour together every day, and
discuss their situation in a serious
manner.

Sheriff Dickson has expressed a will-
ingness to let the men settle the ques-
tion of precedence between them.
While they were willing, even anxious
to be hanged together, neither wants
to be the first to walk to his death.
There will be about fifteen minutes
between the hangings, and both of the
condemned men insist that a great
deal can happen in even such a short
space of time.

BRIDEGROOM KILLED
Was Leaving With Wife on Honey-
moon When Death Occurred
Special to The Telegram.
CHARLOTTE, N. C., Aug. 2.—A tele-
phone message from Bessemer City
says that William Brown, a bridegroom
of an hour, was shot and killed by John
M. Kincaid at the depot yesterday
morning. Brown was married at 8
o'clock to Miss Rettle Perry, a Bes-
semer City girl. They were escorted
to the depot by a number of friends,
and intended going to Danville, where
the honeymoon was to have been spent.
Soon as the bridal party arrived at
the depot, Kincaid, who was there,
called Brown aside and walked with
him to a near-by room. A moment
later he placed five bullets into the
number of people rushed to the room
and found Brown dead with Kincaid
standing by holding a smoking pistol.
Death was instantaneous. Kincaid
immediately gave himself up to the
authorities.
It is said Brown was to have mar-
ried Kincaid's sister, whom he had
legally been divorced some months ago.
Both men worked in the cotton mills
there. Kincaid has a wife and three
children. His father is a farmer and
lives near Bessemer City. Brown's
relatives live at Cowpens, S. C.

### STATE FAIR WILL TAKE A BACK SEAT

#### What New Live Stock Building Is to Be in Scope

“With the building of the \$175,000 exhibition building for the National Live Stock show, which will supersede the Fort Worth Fat Stock Show, Fort Worth will be in a way to have the most attractive exhibition of fine stock in the United States,” said Stuart Harrison to a Telegram reporter.

“I have from the beginning had an abiding faith in an exhibition of this kind and it gratifies me that my fondest hopes are at last to be realized. For I know that the exhibition every year will be of incalculable benefit to Fort Worth, and to the live stock interests of the state. The people of Texas have an intense interest in blood stock of all kinds, and has interest in growing year after year, and mark my word, when this exhibition once gets started you will see that the people of Texas take more interest in it than they ever did in any fair held in the state.”

“There is no reason why the exhibitions should be confined to cattle and horses but it is of great interest to have them embrace all domestic live stock. Already competition or rather friendly rivalry and individual pride has done wonders to improve the quality of live stock in Texas, and the rivalry that this annual exhibition at Fort Worth will create will eventuate in such an improvement in stock of all kinds that Texas will go right up to the front as a breeding state. The Dallas fair has done much for that, but it is merely a sample of what this live stock exhibition can be made to do for Fort Worth. It will bring people here not only from all over Texas but from all over the United States, and it will be for few years until Texas will be the show place for the state in the union for fine cattle, fine horses, fine sheep and even fine mules. There is no such thing as a limit to the possibilities of this enterprise and with the aid of credit, which has never failed to manage it, there is no such thing as failure: it is bound to win out.”

Mrs. Large to Explain Home Town to Californians

The lady of one Fort Worth woman to her mother-in-law, who is in a letter received by Captain Paddock of the Board of Trade Thursday morning. The letter was from Mrs. W. H. Large, who is spending the summer in California. She writes from Vallejo for illustrated literature descriptive of Fort Worth and says she desires to do a little missionary work while in California. She is quite sure that she has no conception of Texas as it really is, and she desires to enlighten them. In the one week Mrs. Large has been through several of the most beautiful cities of the west, and she expects to return to Fort Worth about Sept. 1.

**LEAVE MEXICO**  
American Machinists Go to Mexico to Await Ending of Strike

SAN ANTONIO, Texas, Aug. 2.—A number of the American machinists forced into idleness by the strike of Mexican machinists have come here to remain until the shops are open again. These refugees, who have been at the Monterey, Chihuahua and other points. This, of course, threw them out of work. They think the claim of the American machinists that they are equal to that of the Americans is unjust and absurd. They claim the Americans are much more skillful and occupy places of much greater responsibility. Mexico, either toward the government or to Americans or other inhabitants. I do not believe an outbreak, if such a thing is possible, could amount to anything, as the Americans are able to cope with any conditions that may arise there. An outbreak would be speedily put down.”

**WILL TURNS OUT DEED**  
Aged Negro Woman Declares Relative Frauded Her Out of Farm

Special to The Telegram.

WACO, Texas, Aug. 2.—Maria Johnson, an aged and ignorant old negro woman, has been plaintiff in a peculiar suit in which she alleges that she was deceived and fraud was practiced on her in taking away by deed of a nice little farm of 120 acres situated about eight miles from here. The suit is against the relative of Maria, and she alleges that Maudy Evans and Ben Johnson persuaded her to make a will leaving the property to them after her death. They were relatives, he says, and she agreed. About two years ago she signed an instrument which she was told by them and which she believed was a will leaving the property to them after death. It now turns out that she really signed a deed turning the property over to them, and she sues to nullify this deed.

**PEELER FOR SPEAKER**  
Austin Man Confident of Being Elected Executive in Legislature

Special to The Telegram.

AUSTIN, Texas, Aug. 2.—Colonel J. L. Peeler of this city, renominated to the legislature without opposition, thereby receiving the unanimous endorsement of the people of Travis county, states that he will be the speaker of the next house of representatives. The confidence placed in him by the democracy of this county is a fitting introduction to the new members.

His attention was called today to the press dispatches from Dallas containing a statement from Thomas B. Love as to his claims on the members of the legislature. Colonel Peeler said he did not believe that the Missourian could make good his boast or that the members of the next legislature belonged to him.

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to the members of the sex. It is made of native medicinal roots and is perfectly harmless in its effects in any condition of the system. It is a powerful invigorating tonic, “Favorite Prescription” imparts strength to the whole system and to the organs directly benefited. It relieves all general nervousness, indigestion, constipation, neuralgia, hysteria, spasms, chorea, St. Vitus' dance, and other distressing nervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and depression.

Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One to three a dose. Easy to take as candy.

#### GRAPE ON THE MOVE

Fruit From Texas Vineyards Being Shipped North

Barstow grapes are now moving east from the vineyards on the Texas plains, and are being shipped by express over the Texas and Pacific to the northern and eastern markets. The movement of this fruit crop by freight will not be inaugurated until next week or ten days. The grape crop in the Barstow country this year is said to be the heaviest ever grown there and it will bring many thousand dollars to the grape growers.

Efforts looking toward a satisfactory adjustment of the differences between the creditors of the Parker-Lowe Dry Goods Company and the firm are under way and it is probable that all claims of creditors will be adjusted and the petition for involuntary bankruptcy be withdrawn.

#### SUICIDE FOILED

Man Tired of Life Cuts Throat But Will Live

Special to The Telegram.

WACO, Texas, Aug. 2.—E. A. Herding, the Cincinnati man who tried to commit suicide by cutting his throat with a penknife, is now getting on very well. He received dangerous wounds, but much on either side of the throat being severed, but the jugular was not cut. He traveled for a Cincinnati paper bag house, and says that a suitable place for raising and growing oranges, lemons, grape fruit and other citrus fruits will be established. The government authorities are satisfied that the coast country to the south and southwest of San Antonio can be made to rival California in the production of semi-tropical fruits.

David Fairchild and O. F. Cook, two experts from Washington, are now in that section to test the soil and make recommendations regarding a suitable site for such a farm.

DON'T BE BLUE

I believe it is the best medicine of its kind, and I wish all sufferers from these troubles to know the good Herbine has done me.” Sold by Covey & Martin.

#### DEATH OF ED F. MCGOWEN

Well Known Resident Succumbed to Protracted Illness

Special to The Telegram.

HOUSTON, Texas, Aug. 2.—Edmond F. McGowen, aged 54 years, one of the best known residents of Houston, died this afternoon at 1 o'clock at his residence, 1306 Travis street. He had been in feeble health for six years or more. Arrangements for the funeral services have not yet been made. Ed F. McGowen was born in Houston and was the son of Judge Alexander McGowen, one of the distinguished jurists of his time.

#### Treating Wrong Disease.

Many times women call on their family physicians, suffering, as they imagine, from dyspepsia, another from kidney disease, another from liver or kidney disease, another from nervous exhaustion or prostration, another with pain here and there, and in this way all present ailments are being treated, going, indifferent, or over-dosed, separate and distinct diseases, for which he, assuming them to be such, prescribes his pills, and, consequently, their suffering patients get no better, but probably worse, by reason of the delay, wrong disease, and consequent complications. A proper medicine like Dr. Pierce's Favorite Prescription, directed to the cause would have entirely removed the disease, and relieved the patient of all the symptoms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to the members of the sex. It is made of native medicinal roots and is perfectly harmless in its effects in any condition of the system. It is a powerful invigorating tonic, “Favorite Prescription” imparts strength to the whole system and to the organs directly benefited. It relieves all general nervousness, indigestion, constipation, neuralgia, hysteria, spasms, chorea, St. Vitus' dance, and other distressing nervous symptoms commonly attendant upon functional and organic disease of the uterus. ## The Largest, Best-Equipped and Cleanest Flat Plug Tobacco Manufacturing Plant in the World

The Reynolds factories, equipped with every modern appliance for producing the best chewing tobacco by a clean, sanitary and healthful process, under the direction of men who have made the business a life study, are located in the centre of the Piedmont tobacco belt, known to the world as the best productive soil for tobacco with an aroma so delightful, pleasing and appetizing that it created and popularized the fondness for chewing tobacco.

Only choice selections of this well-matured, thoroughly cured leaf are used in SCHNAPPS and others of the high-grade Reynolds brands, and expert tests prove that this tobacco requires and takes a smaller amount of sweetening than any other kind, and has a wholesome, stimulating and satisfying effect on chewers.

SCHNAPPS is the brand that made the Reynolds factories famous as the manufacturers of the best and most popular brands of chewing tobacco, and made necessary the enormous growth from a small factory in 1875 to the largest flat-plug factory in the world.

The men who started the Reynolds Co., in 1875, are directing it to-day. There are a greater number of manufacturers making imitations claimed to be just as good as SCHNAPPS than any commodity manufactured; yet there are more pounds of SCHNAPPS chewed than the total amount of all imitative brands, or tobacco of similar appearance.

Be sure the letters on the tag and under the tag spell S-C-H-N-A-P-S, and you will have the genuine.

**Wholesale Prices on Retail Purchases**  
 That's what we're giving every day! Competition's long face tells you it's true.  
 Competition simply cannot meet us half way. And why?  
 We are just fifty times as powerful as the individual store-keeper. The combined buying power of our fifty stores commands fifty times as much respect among manufacturers. We get absolutely bottom prices, and those bottom prices are lower than the small dealer's wholesale figures. That's why we can give wholesale prices on retail purchases.  
 And when we make a giant purchase that makes ordinary wholesale figures look large, why, we just announce a "Special Sale." But that's another story. These wholesale figures are every day occurrences.

**HELISINGFORS, Aug. 2.**—There was no firing at Sveaborg or other islands in the vicinity during the night of this morning and no definite news was received today from the scene of the mutiny. Officers decline to make any statements, but it is asserted from reliable sources that the mutineers, with the exception of a few on the smaller islands who have a few guns, surrendered, the prisoners being landed in batches and guarded by local troops. They are sullen and seem to take little thought of the punishment which awaits them.

**Food Becomes Scarce**  
 Little food is left and if they do not succeed in replenishing their supplies soon they will be unable to hold out. At this writing the firing of big guns announces the struggle, after a short interval, has recommenced. Great excitement prevails here. The red guard of the armed socialist legion, in command of Johan Koch, appealed to the Finns to strike in support of the brave heroes of the Russian revolution, but a general strike is regarded impossible at present. The railroad men have for several miles near Riihimaki and reinforcements of troops are arriving here, but the railroad men succeeded in effecting temporary repairs. Telegraph communication between Helsinki and St. Petersburg is cut, but the railroad wire is working. Official dispatches state the railroad men do not desire to strike.

**MAN IS INJURED IN A RUNAWAY**

**Allen Bettis Thrown from a Buggy—Will Recover**  
 Allen Bettis, who lives at Henderson and North Streets, Fort Worth, was thrown from his buggy Wednesday afternoon, suffering a severe cut over the left eye and with other minor bruises and badly wrenched. Bettis and another man drove to one of the horse and mule barns in Exchange avenue, North Fort Worth, with a view to selling the horse they were driving. No sale being made, they started away and in starting their horse shied and turned too short, throwing the buggy over, pitching both occupants to the ground. Mr. Bettis was later taken to his home, the wounds having been dressed. The stranger, it is reported, escaped with but few slight bruises and scratches. Bettis works at the Bewley mills.

**PLACING SPANS ACROSS MARINE**

**Material Arrives For North Fort Worth Structure**  
 The last of the steel material for the new bridge over Marine creek in Main street, North Fort Worth, arrived Tuesday and Thursday a large force of men had the span well in position. Within the next few days the flooring will be laid. The span is 80 feet long and 16 feet wide. Steel girders about eight feet high line the roadway and support the span. The bridge was purchased from the Leverage company of Fort Worth at a cost of \$1,050. Tarrant county contributed \$320 toward the general expense.  
 Work so far on the bridge has been done by the Leverage company and at their expense, the contractor states that the span shall be set in position on the abutments by them. The plank flooring, however, is furnished by the city, but also laid by the company.  
 The old abutments have been repaired, or built over, and the new bridge is going to be one of the best in this county.
