DEATH AND RUIN IN EARTHQUAKE

Many Killed in Disturbance at Valparaiso, Chile

WHOLE CITY IS AFLAME

Every Building Reported Damaged by Shock—Tremors Felt From Coast to Argentine—Cable Service Interrupted and Details of Disaster Are Lacking

By Associated Press. NEW YORK, Aug. 17.—The city of Valparaiso, Chile, is reported badly damaged by earthquake. One report received here is the situation in Valparaiso will be as serious as the San Francisco disaster. Practically every building in the city is damaged and there are fires in different parts of the city. Many persons are reported killed and wounded.

RIVALS FRISCO DISASTER

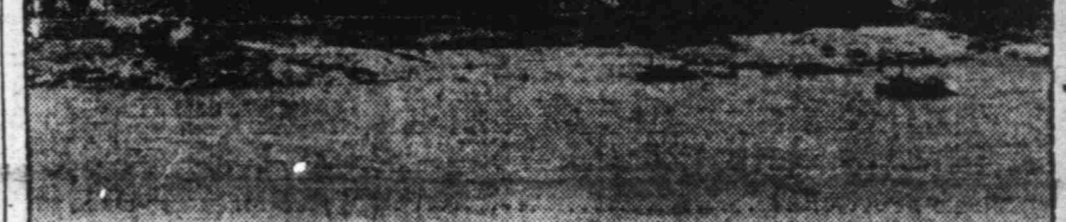

Rivalling the San Francisco disaster, Valparaiso, Chile, on the Pacific Coast, is reported the victim of an earthquake. Many have been killed and every building in the city damaged. The shock was felt as far away as Argentine. Cables have been affected, and although the loss is enormous, no estimate can at this time be given. Valparaiso has a population of 150,000. Many Americans live there.

Cable Interrupted

The earthquake interrupted the cable facilities at lower South American points and communication is restricted to the route via Lisbon. Another report from Valparaiso is the loss of life has not been confirmed. Fires are burning in various parts of the city.

Population 150,000

Valparaiso is a fortified seaport of Chile and the most important commercial town on the western coast of South America. Its population is about

150,000. It is capital of the province of the same name and is situated on a large bay in the Pacific ocean, seventy-five miles west-northwest of Santiago, with which it is connected by rail.

Felt in Argentine

LONDON, Aug. 17.—An earthquake shock was felt at Mendoza, Argentine, last night, but did not result in any consequences, according to a dispatch to the Reuter Telegram Company from Buenos Ayres.

Establish Communication

NE WYOMING, Aug. 17.—The Central and South American Telegraph Company has re-established the main office at Valparaiso and is working with that city now. This would seem to show that conditions are not as serious as first reported.

Shock Recorded in Washington

WASHINGTON, D. C., Aug. 17.—The weather bureau today issued the following earthquake bulletin: "A very heavy distant earthquake was recorded on the seismographs at the weather bureau in Washington yesterday afternoon, beginning five minutes and twenty seconds past 7 p. m., seventy-fifth meridian time. Complete and perfect records were obtained of both north, south, east and west movements of the earth."

Lasted Several Hours

Earth tremors at Washington were of comparatively slow and deliberate motion, each complete movement covering from eighteen to forty seconds of time. The earthquake lasted continuously for several hours and finally ceased about midnight. The most violent shock occurred seven hours, forty-two minutes and twenty-six seconds in the afternoon.

Hundreds Reported Killed

NEW YORK, Aug. 16.—One report which reached this city said that portions of Valparaiso were burning all night and that bodies of hundreds of its residents were buried in the ruins of the buildings.

THE MAN WITH THE HOE

John P. Lee, of San Angelo, a member of the well known ranching and breeding firm of Lee Bros., takes rather a pessimistic view of the ranching business in his section of the country.

The story told by Mr. Lee but coincides with that which comes from practically every portion of what was once the great range country lying east of the Pecos river.

Cattlemen have never taken kindly to this innovation. There are lots of them left in West Texas today who have absolutely no confidence in that section as an agricultural proposition.

It has only been a few days since a leading Short-horn breeder and former banker in one of those West Texas towns confessed that he had just sold his last year's corn crop, and it netted him 60 cents per bushel.

And the cattlemen, as a general proposition, is getting all he has coming in the enhancement of ranch land values.

such big and quick returns. It is this enhancement in land values that has kept hundreds of the largest ranch owners in West Texas from going to the wall during the long period of depression that has existed in the live stock business, and it is a strange situation, but it is nevertheless a fact that the interest they have the most antagonized in the past is today working out for them the problem of life in the most solid and substantial manner.

THE STATE DEMOCRATIC PLATFORM

The platform adopted by the Democracy of Texas at the Dallas convention is a good one and commends itself to the favorable consideration of every progressive citizen of Texas.

The administration of Governor Lanham is indorsed, and the first plank after this indorsement is a demand for a law that will prevent lobbying at the state capital.

Then the platform takes up the subject of nepotism, again demanding the passage of a law that will put a stop to the practice in the public service of this state, and then comes the demand for a uniform text book law.

The nomination of Bryan for the Presidency is indorsed. Bailey and Culberson received indorsement, and the attacks upon Bailey in the East denounced.

There is nothing disappointing in the state Democratic platform. It is a document that measures fully up to the demands of the situation and the expectations of the people generally.

THE DEMOCRATIC NOMINEE

East Texas is again in the saddle, and more than two-thirds of the state boys in abject submission to the splendid political machine that has been built up in this state during the past fifteen years by Colonel Thomas M. Campbell.

Colonel Campbell is today the democratic nominee for governor of the great state of Texas, and as such is entitled to the unqualified support of every true democrat in Texas, and will receive it.

The Telegram hastens to tender its congratulations to the victor. May he poll one of the greatest democratic votes ever cast in Texas, and may he give the people of this state a wise and economical administration.

That The Telegram is disappointed in the result is too obvious for argument. The Telegram thought and still thinks that Tarrant county presented to the people of this state the candidate that should have received the nomination.

For several months it has been intimated that the Campbells were coming in Texas, and there can now be no questioning the fact that they have arrived.

LIKE THE TEXAS LAW

The people of Illinois have just held their first election under a new primary law, and the result has been as much of a disappointment as accompanied the same procedure here in Texas.

There is lots of room for improvement in the new law as it governs public expression of senatorial and

representative issues. The law should be extended to include all county candidates from the sheriff down, the sanitary trustees and all municipal officers.

It develops that the outrages committed by those negro soldiers at Brownsville were premeditated, and that fact serves to increase the popular indignation.

It looks like Dallas might have put a little more ice in the water served to Democratic delegates, but Dallas is thrifty, and doubtless it was the idea that if there was not plenty of free ice water there would be more demand for the product of the Dallas brewery.

Of course, the democracy of Texas is for Bryan. That fact was known long before the Dallas convention, and nothing that was said at Dallas could add or detract from the esteem in which the great Commoner is held in this state.

There is great complaint of the accommodations extended the state democratic convention at Dallas, and The Telegram opined as much when that city was chosen for the meeting.

It was a dirty shame the way the governor of this state was hooled down in the midst of his address at Dallas Wednesday, and it is hard to believe that such a thing could have happened in a democratic state convention.

While Dallas has been entertaining the politicians this week Fort Worth has been progressing steadily with the great work of building more factories, and factory building in Texas is of really more importance than governor making.

Senator Culberson made a very able speech at the Dallas convention and one that has attracted the most favorable attention.

The next legislature can be depended upon to simplify the Terrell election law by striking out the enacting clause.

Those good and true Democrats who were not nominated for office at Dallas will not sulk in their tents. They realize that many are called but few are chosen.

Fort Worth is growing very fast these days, and delegates to the Dallas convention who came over were loud in their praises of this, the liveliest city in all Texas.

There were not many kind words heard at the Dallas meeting of democracy for the Terrell election law.

IN TEXAS PRESS

Carry Nation has caused a tarnished sight of talk among the newspapers. It is chiefly through means of the free advertising thus accorded her that she is enabled to play her string.

The Enterprise is sadly deficient in gallantry. Sister Nation is a woman and doubtless thinks her mission in life is to accomplish all the good she can do.

Most of the stockmen are shipping the spring calves to market. This is done in order that the cows will have time to fatten before winter.

Stockmen have been marketing the bulk of the calf crop now for several years, and it is doing much to keep down the source of supply.

Since it has become known that it cost Hon. Frank Andrews, who, by the way, has made a most impartial state chairman, in the neighborhood of \$5,000 to discharge the duties of the place, politicians are a bit about accepting this position.

Political honors seem to come very high in Texas when viewed from almost any standpoint, and it looks like the time is just about at hand when no man can aspire for any kind of honorable position who is not a patriot and the owner of a barrel.

It is said that the interurban line between Fort Worth and Mineral Wells is a sure thing and that work on the road is to begin right away.

The time is not far distant when electric lines of railway will run from Fort Worth in almost every direction. The success of the line between this city and Dallas insures that fact.

Good mules are selling in Tyler at from \$150 to \$200 each and the market is bare at these figures. Why not turn the negro farms into pastures and grow mules for the market?

There is good money to be made in the production of mules, for these is always a good market for the animals. Farmers in every part of Texas will find the mule crop a very profitable industry.

The rains of the past few days if continued are liable to make more weeds than cotton, but so far there has been very little complaint of boll worm, which is supposed to revel in wet weather.

The north Texas cotton crop has already been injured by too much rain. And a good long dry spell is now needed to enable the plant to put on more fruit.

Too many men look upon home as merely a place to sleep.

EVERETT TRUE AT THE BALL GAME

THE TELEGRAM AND THE TEXAS PRESS

COTTON AND COTTON MILLS: Texas is going to make a fine cotton crop this year, but there are few cotton mills in Texas to make that cotton into cloth for the waiting nations of the earth who need it for many purposes.

We hope your first proposition is correct, but it is certainly counting chickens before they hatch. You should remember that at this time of year old King Cotton is very treacherous.

DIVERSIFICATION IN TEXAS: East Texas is prosperous this year from its fruit and trucking industry and it is reported that Cherokee county alone has sold more than \$300,000 worth of tomatoes this year.

It is such things that makes cities, counties and citizens prosperous. Nor is there a section in the world that will raise better tomatoes than the "Sticks" section of Cooke county.

POINTED PARAGRAPHS: Even a small man may acquire a large tombstone. A woman doesn't necessarily cry when she sheds tears.

Every man on earth realizes that he used to be a chump. Any all-round man ought to be able to make both ends meet.

And a woman's conscience is almost as elastic as her tongue. If a man isn't a society favorite that is something in his favor.

Some men couldn't hear the voice of conscience through a megaphone. Jealous wives have kept many a husband out of the straight and narrow path.

There isn't much hope for a man who will not speak at least one kind word a day. A minister talks about his "work" but the male members of his congregation are apt to call it a "snap."

There is one good feature about breaking up house-keeping; it enables people to get rid of their old furniture.

It's all well enough to advise people to look on the bright side of things, but so many things have no bright side.—Chicago News.

REFLECTIONS OF A BACHELOR: It's almost better to have a bad reputation than none.

If a girl never goes in she has to have all the handsomer bathing suit. You don't hear anybody kicking about sleeping with cold feet in the real summer weather.

It would be nice to have money enough not to be afraid to refuse to lend a man who tried to borrow from you.

A queer thing about business is a man can be too busy to go to the mountains with his family but not to go off on a yachting trip while they are at home.—New York Press.

QUAKER REFLECTIONS: Ask a woman her age and she is justified in saying 23.

Lots of people are virtuous because they are afraid to take a chance. No, Maude, dear; planting leeks in a garden won't make it any drier.

A man no sooner prays for rain than we find him wishing it would clear off. Virtue is its own reward, but there are people who don't seem to care about the reward.

Slobbs—Are you fond of puzzles? Slobbs—Yes, indeed; I even read all the magazine poetry. Patience may be necessary in the making of a fisherman, but it is not essential as an utter disregard for the truth.—Philadelphia Record.

THE VOICES OF THE PEOPLE

Oh, I hear the people calling through the day time and the night time— They are calling, they are crying for the coming of the right time.

It behooves you, men and women, it behooves you to be heading for there lurks a note of menace underneath their plaintive pleading.

Let the land usurpers listen, let the greedy-bearded ponder, On the meaning of the murmur, rising here and swelling yonder;

Swelling louder, waxing stronger, like a storm-stream that courses Through the valleys, down abysses, growing, gaining with new forces.

Day by day the river widens, that great river of opinion, And its torrent beats and plunges at the base of greed's dominion.

Though you dam it by oppression and filing golden bridges o'er it, Yet the day and hour advances when in flight you flee before it.

Yes, I hear the people calling through the night time and the day time— Wretched tollers in life's Autumn, weary young ones of life's May time.

They are crying, they are calling, for their share of work and pleasure; You are heaping high your coffers while you give them scanty measure;

You have stolen God's wide acres, just to glut your swollen purses— Ah, restore them to His children ere their plaudits turn to curses.

Evening newspapers: The evening newspaper is unmistakably the paper of progress and success. Its development in point of circulation and advertising patronage during the past few decades is the most striking fact in all the record of American journalism.

Y. W. C. A. BARS KIMONO GIRLS

Negligee Attire Leads to Successful Crusade

Special to The Telegram.

CINCINNATI, Ohio, Aug. 17.—An anti-pajama-kimono crusade has been brought to successful issue by the board of managers of the Young Women's Christian Association.

Four young women boarders at the

association house left at the request of the managers, and now there are stories of hallway frolics, in which fleeting forms, clad in pajamas, figure.

Several young women persistently violated a rule by coming to Sunday dinners and daily suppers in kimonos, despite the fact that guests were present and transient boarders are a considerable feature of the association life. They were permitted to come to breakfast in dressing gowns.

A spirit of romance guided two young women to Fort Thomas, where they spoke to soldiers, and en route to Cincinnati on a car embraced and kissed each other with such joyous abandon that passengers gazed in wonder.

100 PROSTRATIONS

By Associated Press.

MINNEAPOLIS, Aug. 17.—The business sessions of the Grand Army of the Republic were held today. Abolition of the canteen from the old soldiers' homes and a proposed erection of a monument to Henry Wirtz by the women of the south were the most important questions to come up. The hot weather continued. It is estimated by the police the number of prostrations yesterday in the parade will reach one hundred.

Thousands of Women ARE MADE WELL AND STRONG

Success of Lydia E. Pinkham's Vegetable Compound Rests Upon the Fact that it Really Does Make Sick Women Well.

Thousands upon thousands of American women have been restored to health by Lydia E. Pinkham's Vegetable Compound. Their letters are on file in Mrs. Pinkham's office, and prove this statement to be a fact and not a mere boast.

Overshadowing indeed is the success of this great medicine, and compared with it all other medicines aimed at treatment for women are experiments.

Why has Lydia E. Pinkham's Vegetable Compound accomplished such widespread results for good?

Why has it freed and thrived and done its glorious work for a quarter of a century?

Simply and surely because of its sterling quality. The reason why Lydia E. Pinkham's Vegetable Compound has even approached its success is plainly and positively because there is no other medicine in the world so good for women's ills.

The wonderful power of Lydia E. Pinkham's Vegetable Compound over the diseases of womankind is not because it is a stimulant—not because it is a palliative, but simply because it is the most wonderful tonic and restorer ever discovered to act directly upon the female system, positively curing disease and displacements and restoring health and vigor.

Marvelous cures are reported from all parts of the country by women who have been cured, treated and cured. They have witnessed cures and physicians who have recognized the virtue in Lydia E. Pinkham's Vegetable Compound, and are fair enough to give credit where it is due. If physicians dared to be frank and open, hundreds of them would acknowledge that they constantly prescribe Lydia E. Pinkham's Vegetable Compound in several cases of female ills, as they know by experience that it will effect a cure.

Women who are troubled with painful or irregular periods, backache, bloating (or flatulence), weakness, displacements, inflammation, ulceration, that "bearing-down" feeling, dizziness, indigestion, nervous prostration or the blues, should take immediate action to ward off the serious consequences, and be restored to health and strength by taking Lydia E. Pinkham's Vegetable Compound. Any way write to Mrs. Pinkham, Lynn, Mass., for advice. It's free and always helpful.

PROHIBITIONIST TICKET NAMED
Is Headed by J. W. Pearson for Governor

Special to The Telegram.
TERRELL, Texas, Aug. 17.—At the prohibitionists state convention here Tuesday, the following state ticket was named:
Governor—J. W. Pearson, Boyce.
Lieutenant Governor—Thos. Brown, Beaumont.
Attorney General—J. M. Russell, Amarillo.
Comptroller—J. P. Crouch, McKinney.
Land Commissioner—H. L. Winchell, Cisco.
Superintendent Public Instruction—J. L. Andrews, Dallas.

The platform adopted was as follows:
The prohibition party of Texas, in convention assembled, recognizes now as in years past God's authority in all matters of government and politics and the traffic in alcoholic beverages as the greatest present danger which threatens the lives, health and happiness of the people of our nation; the integrity of our institutions and the future of our children.
We declare the toleration of such a business in this country to be contrary to all reason, either moral or economic.
We, as prohibitionists, do not offer prohibition as a cure-all; but we declare the legalized saloon to be the salient point in the battle lines of all these forces of evil which resist good government and hinder the progress of our people toward righteousness, peace and prosperity.

There are other evils in the battle line, such as the disregard for law, corruption of elections, unjust legislation and many more. But if the liquor traffic be destroyed many other evils will disappear and all will be greatly lessened.
We declare that a just government will secure the rights of all the people. That while we agree to the rule of the majority as a matter of convenience, we contend that the minority should be fairly represented in our legislative bodies. Believing that the license is the strategic point we concentrate our fire upon it and invite the support of all our fellow citizens.
We declare that the business and moral interest of our state demand:
1. The absolute prohibition of the manufacture, importation, exportation, transportation and sale of intoxicating liquors for beverage purposes.
2. The initiative and referendum.
3. The impartial enforcement of all laws.
4. That we request our senators and

S.S.S. FOR THE BLOOD

The demand for S. S. S. has steadily increased since it was first placed on the market until it is now recognized as the greatest of all blood purifiers. It has won its way to success because **IT CURES DISEASE**, and there are few homes where "S. S. S. for the blood" is not a household saying. As the blood is the very life of the body, nourishing and supplying strength to every part, disease in some form is sure to follow when it becomes contaminated. Eczema, Acne, Tetter, Boils, Pimples and the various skin affections are due to an over-acid and impure blood-supply. Rheumatism, Catarrh, deep-seated Chronic Sores and Ulcers, Contagious Blood Poison, etc., are all due to an over-acid and impure blood-supply. S. S. S. reaches inherited blood taints and so enriches the circulation. S. S. S. reaches standing and permanent cures. It contains no harmful minerals and is nature's real blood purifier. Book on the blood and medical advice free. **THE SWIFT SPECIFIC CO., ATLANTA, GA.**

representatives to work for the passage of a law preventing the United States government from granting permits to sell liquors in prohibition territory.
5. Such rigid government control of public service corporations as shall best secure the interest of the people, and in case the interest of the people requires it, government ownership of public utilities.
6. A simple, adequate election law that will give each political party the right to decide when, how and by whom its candidates shall be nominated, and that will provide for a general election law by which an intelligent citizen can vote without the assistance of the attorney general or a professional politician.
We believe that every plank in the above platform is important, but we insist on the first as being vitally so.

HEART OUT, LIVES
Organ Removed from Body and Placed Back in Right Position

Special to The Telegram.
LOS ANGELES, Cal., Aug. 17.—After having his heart cut out and placed in the hand of a surgeon for the space of six pulse beats, A. McCartney still lives and looking forward to an early resumption of his former activities.
The remarkable operation was recently performed by Dr. W. P. Thompson of Los Angeles. On June 17, while riding a motorcycle at a high rate of speed, McCartney collided with the seven-foot iron prong of a buck-rake. The prong entered McCartney's left breast and penetrated his body seven inches, piercing the lower lobe of his left lung, broke the bronchial tube leading to it, pushed the heart four inches out of position, into the back between the eighth and ninth ribs, and caused the loss of three and a half quarts of blood.
Those who ran to the cyclist's assistance expected his death at any moment, but his splendid vitality sustained him until Dr. Thompson arrived and the physician immediately performed the daring operation. He took out of the patient's heart, deftly rearranged the other injured organs and then replaced the cardiac organ.
After the broken and displaced ribs had been attended to the gaping incision in the patient's breast was closed. McCartney has continued to improve daily and supported by pillows was able to sit up in his bed for his picture.

GOVERNOR FAILS TO STOP LYNCHING
Mob Cheered Executive and Hangs Negro

Special to The Telegram.
COLUMBIA, S. C., Aug. 17.—Within the shadow of the home of his victim, Miss Jennie Brooks, after having been identified by her, and after Governor D. C. Heyward, who yesterday went to the scene of the trouble had addressed the mob in vain, Bob Davis, the negro who on Monday rudely attacked Miss Brooks with intent to commit assault and who afterward outraged a negro girl, 14 years old, was lynched last night.
Governor Heyward reached the scene shortly after the negro had been captured. A platform was erected in a fence corner on the premises of the victim's father from which the governor addressed the mob in an effort to prevent the lynching. The governor beseeched the mob not to lynch Davis, but in vain. The conclusion of his speech the governor was surrounded by the mob and he was held prisoner from the view of the governor and, within a short distance of the home of his victim, the negro was riddled with bullets.
The militia in that section of the state is now encamped at Chickamauga Park and there were no near-by troops to be called upon. The governor's guard and the Richland volunteers of that city had been delegated to hold themselves in readiness in the event their services were needed.

Capture of the Negro
The negro was captured in a swamp, tied hand and foot and brought to the home of his victim, identified. When they arrived at the gate of the Brooks home a great crowd gathered.
"Let's wash his face, boys, before we take him to the house," said some one, but the crowd was too impatient. Four men were delegated to escort him to the house. The young lady, lying on her bed with a deep gash in her throat, turned her eyes toward the negro as he stood between his captors, his hands lightly bound with a rope.
"That's the scoundrel," she said, "I know him by his name."
The negro was removed outside the house.
"Hear the governor," said some one, when Governor Heyward began in a clear voice a most impassioned appeal. "I know," he said, "that nothing could take place that could keep you out of hearing the governor of South Carolina." The crowd applauded.
"I come here alone," he continued, "not bringing any troops, only two newspaper reporters with me, and I, as well as I, are South Carolinians. Just as you are, with like feelings, you are my friends. Here I am, not alone as your governor, but as your friend.
"But it is my duty to enforce the laws of South Carolina. Don't cheer, men; this is a solemn occasion and I am very much in earnest; and, besides, I understand it excites the ladies and this is a consideration that appeals to all South Carolinians. (The residence was only forty feet away.) I come to appeal to your manhood. The question is, shall the people allow themselves to be ruled by their passions and prejudices or shall the supremacy and the majesty of the law be upheld? I promise you on my honor that as speedily as the law allows I shall be cutting the rope to hang that scoundrel, provided the law says so."

Dazed Prisoner Hears Governor
A few yards away stood the dazed prisoner and men stood close about him with rifles and shotguns in their hands.
"I am here alone," went on the governor, "but I represent the majesty of the law; I represent the state of South Carolina, your state and mine, and I say to you I beg you to employ you in God's name, don't put another stain upon our fair state. I plead with you to let the law take its course. You have an opportunity to let it be said that South Carolina leads in this matter. Let us reason together. I feel just as you do. I have lived in the country and realize the dangers to which our women are constantly exposed, but there is something higher than that black devil and fiend of hell. You won't enjoy it tomorrow when you look upon it all."
"For the men came up to the stand and said:
"We appreciate what you said, but we're not going to do it. We have stood this thing long enough."
Many shouted for the governor to go on, and he concluded his fruitless appeal to prevent the lynching.

Special to The Telegram. CLEBURNE, Texas, Aug. 17.—The most enjoyable game of the year was played at Gorman Park yesterday afternoon. It was not enjoyable by reason of the science put in the game, but for the energy displayed by the players when at the bat. Alken was at bat five times and got in three base hits and two two-base hits. Criss got three hits, one of which was a two-bagger. Shelton got two hits. This kept the fielders running all over the field and they got tired of it. The rosters thought it funny and kept up such a din the amusement of the umpire could not be heard. Whiteman batted a ball so heavily he broke the bat, but still made a single out of it. In the lining the score stood Fort Worth 6, Cleburne 3. It was just about this time that the fireworks opened and the rosters went in high glee over the game closed, the score being 9 to 6 in favor of Cleburne. The score: Fort Worth. AB. BH. PO. A. E. THOMPSON BACK FROM CHICAGO

Delegate to Teamsters' Union Returns

Jack Thompson, secretary and treasurer of the local teamsters' union, has returned from Chicago, where he went as a delegate to the international convention of the union.

General President C. P. Shea of the order was re-elected by an overwhelming majority over John White of Chicago. President Shea is expected to be in Fort Worth before Labor Day.

Regarding a reported split among the teamsters, Mr. Thompson says it was due to the efforts of Albert Young of Chicago to be elected president of the union, and that about forty delegates who left the convention with Young afterwards returned.

The delegates enjoyed a number of entertainment features, including a boat ride and carriage drive over the city.

A feature of the convention was the buttermilk furnished by Delegate Summers of the Milkwagon Drivers' Union. Summers agreed to furnish ice cold buttermilk to the delegates in the hall if they would refrain from patronizing the bar downstairs.

The delegates enjoyed a number of entertainment features, including a boat ride and carriage drive over the city.

IMITATES CRUSOE TO HELP SCIENCE

Distast Island May Contain Unknown Animal Species

NEW YORK, Aug. 17.—Like a Robinson Crusoe, only without a man Friday and with a certainty of rescue, Alfred J. Klein will spend three months on Kerguelen Island, away south of the Indian ocean and half way between Tasmania and the southern end of the continent of Africa.

Unknown Animals Live There Through the voyage of a whaling vessel, the museum has obtained information about Kerguelen Island, which leads to a belief that the island contains many specimens of plant and animal life, entirely unknown to the world of science.

Kerguelen Island is situated at 49 degrees south latitude and 70 degrees east longitude, halfway between Africa and Tasmania.

It is nearly miles long and contains volcanoes and glaciers. Its temperature varies from 59 degrees above to falls below zero. It has never been inhabited for any length of time.

A whaling vessel will leave Mr. Klein at the island, returning for him after a three months' cruise in southern waters.

United States Best Country The leader of the reform movement made a speech from the steamer's deck at the Hamburg-American line yesterday, when Kang Yo Wei, president of the Chinese Empire Reform Association sailed. He had completed a year's visit to this country, Mexico and Canada and was going to observe conditions in Russia, Spain, Greece and Portugal.

When the reform party goes into power at home, said he, "your methods will be copied."

Particularly did he praise American women, saying that their beauty and the freedom of their lives were extremely attractive to him. He wished the women of China were as beautiful as those that they could live as unhampered as women here.

Unfortunates Attend Catholic Rites and Take Holy Sacrament

NEW ORLEANS, Aug. 17.—Unprecedented in the history of the Catholic church in Louisiana, a priest yesterday visited the isolated lepers' camp in person and held services in the chapel of the leper home.

Accompanied by a few faithful priests and the sisters in charge of the leper home he entered the confines Wednesday afternoon and spent several hours with these unfortunates, who have only to eke out an existence until death claims them.

Ten of the inmates, one 54 years old, knelt at the altar to accept confirmation at the hands of the archbishop. No one can touch the lepers. The sisters who attend them wear a glove.

The archbishop used a small wand, dipped in oil and wrapped in cotton, for the administrations.

The sad plight of the leper in West Virginia who attempted to reach New York has started a movement here for the establishment of a national lepers' home in Louisiana at Indian Island.

WOMAN SHOTS BOY

Fatally Wounded for Batting Ball Through Window

SARASOTA, Fla., Aug. 17.—Thomas Davis, 15 years old, was shot through the back by Mrs. Annie Fritzeley, at South Sharon, this afternoon, and will probably die. The woman is in jail awaiting the outcome of his wound.

Davis, with several companions, was playing ball at the South Sharon Park, and the ball was batted through a window in Mrs. Fritzeley's house.

Davis later walked into her yard for a drink when Mrs. Fritzeley appeared with a 38-calibre revolver.

She ordered the boy to leave. As he turned to go, she fired three shots, one of the bullets striking him in the back and penetrating his kidneys.

The only statement Mrs. Fritzeley will make is that she was mad because the boy broke the window.

BADLY HURT BY BULL

GUTHRIE, Okla., Aug. 17.—James Boy, a farm hand in the employ of Joseph Ward, living near Agra, was attacked by an angry bull and critically injured. Following a prolonged battle with the animal, the bull finally knocked Boy down and trampled him, breaking one leg and injuring him internally.

COUNTY FUNDS SHOW CONDITION

Bonds Paid But Healthy Balance Remains

The county commissioners' court of Tarrant county is taking some credit to itself these days for the showing it can make of the financial affairs of the county.

The court has been called on to incur some extra expense because of the raising of roads by the extraordinary rains which have fallen in the last year or so, and to replace some damaged bridges or make extensive repairs in others.

Bonds amounting to \$67,000 in face value have been paid off and yet every one of the funds of the county show good healthy balances, as contrasted with some deficits which the present court took charge of the county affairs.

When the several funds of the county were turned over to the present Treasurer Hart, Nov. 19, 1904, the condition of each, as contrasted with the present condition of the same fund is shown in the recapitulation which follows:

First class, or the jury fund— Balance Nov. 19, 1904, \$7,153.03

Balance Aug. 1, 1906, \$1,994.83

The increment of this fund is from occupation taxes, jury fees, civil and criminal, and proceeds of estray sales.

Second class, roads and bridges— Overdraft Nov. 19, 1904, \$41.51

Balance Aug. 1, 1906, \$5,681.99

This fund is fed by part of the ad valorem taxes, fines and receipts from convict bonds.

Third class, general expenses— Deficit Nov. 19, 1904, \$7,348.91

Balance Aug. 1, 1906, \$0.10

This fund is derived from the ad valorem taxes, all of the county police, excess fees of the county officials.

The publication expenses in tax suits paid from this fund, but as the several amounts are returned to the fund, after the collections are made, there can be no actual gain from that source.

Fourth class, road and bridges, interest and sinking funds— Balance Aug. 1, 1905, \$14,673.52

Balance Aug. 1, 1906, \$13,247.76

A number of the bonds chargeable to this fund have been paid during the year, to wit, \$11,000 in face value.

Fifth class, This was the designation of the jail bond fund and sinking fund, but as all of the bonds have been retired, the class no longer exists.

Sixth class, court house interest and sinking fund— Balance Nov. 19, 1904, \$52,882.13

Balance Aug. 1, 1906, \$6,427.90

During the year of this fund, with a face value of \$46,000, have been paid, leaving a balance of \$36,000 still due on this account. The original cost of the court house was nearly a half million, and the payments of the interest has always been promptly met and the payment of the bonds even anticipated when that could be done to advantage.

The amount of the outstanding bridge and road bonds is \$73,600.

In the matter of road expenses, a contract is made of expenditures for the nine months ending Aug. 3, for the years named:

1906, \$60,144.70

1905, \$63,843.33

1904, \$67,127.78

One of the concrete bridges, the first ever erected in the county, that over Dry branch, on the Birdie road, was washed out and it had to be entirely rebuilt.

A new concrete bridge was put in on the road to the Masonic Home, and new steel bridges in other parts of the county, where the need existed have been erected.

WORKING AT ACADEMY

Carpenters Finishing Interior at St. Ignatius School

A concrete block wall is being built along the south line of the grounds at St. Ignatius academy, extending from the west end of the new building to Jennings avenue.

The iron fence will remain on the Jennings avenue side of the grounds. The carpenters and finishers are working on the interior of the new four-

fatting, principally of the leaders and incidentally of the humbler members.

So, having been restrained by congress, the labor leaders now propose to go into politics and elect labor trust members to run the balance of us.

Such massing of class or trust power in the hands of a few men is exceedingly dangerous for the safety of the common people at large.

There is but one safe procedure. Elect men who do not represent any trust but stand steadfast for the citizens, the 100 per cent, the whole people and not the few trust members who seek to pad of the many.

What could be expected of a labor trust city council, legislature or congress but to enact strict labor trust laws.

"We need anti-trust representatives in this country to protect the people at large. Don't fail to question your candidates.

"Do you stand for the trusts, either of labor or capital, or will you represent the best interests of the people?" Don't permit any cowardly excuses but demand to know.

This is a trust burdened age, but the people's prosecuting officers are trying to protect the people and will no doubt turn the attention to prosecution of the labor trust leaders for their many conspiracies and overt acts against the citizens.

Think over this trust question and "let the little light of Reason burn." Give the public a clear analysis of facts and they will do the rest.

C. W. POST. N. B.—This announcement is paid for by the maker of Postum and Grape-Nuts from money still left to him after about three years of boycott of the labor unions in their attempt to ruin the business.

It is an offering to the cause of human liberty and the rights of the common man. He offers an honest sympathy to every workman, both in and out of the union. Many an honorable mechanic is held like a slave and forced to do what his inherent manhood rebels at.

But every man sturdily defend his own personal liberty and vote and act against coercion and tyranny of any trust, including the wide-spread labor trust.

BITTEN BY SKUNK

Girl Awakes to Find Animal Clawing at Head.

LAWTON, O. T., August 17.—The six-year-old daughter of W. J. Greer, of near Sterling, was awakened Tuesday morning about 4 o'clock by a peculiar pain on her cheek and brushing her hand over it pushed off what the farmers of that section term a "hydropobia skunket" dier in the chin.

The child screamed and awakened her father and when he made an examination it was found that the animal had bitten her on the cheek and chin, its teeth going clear through the chin. The child was holding the animal in her embrace when the father found her.

CAUGHT SIXTY LBS. FISH

Muge Fish Caused Much Trouble at Waco

Special to The Telegram. WACO, Texas, Aug. 17.—A sixty-pound catfish, caught at China Springs by Frank Sing, caused a lot of pleasure and trouble here yesterday. The fish furnished a meal for the entire community of the city. The Fishermen's Association, which two boys were arrested on a charge of stealing the fish which was afterwards sold to one of the officers, who, of course had no idea other than the boys had caught it. Garrett caught the fish, staked it out on the bank later to find that it was gone. He reported the matter in Waco, and it was found that a huge catfish had been sold by boys to one of the officers. The clue was followed and Ed Crowson and another boy named Holt were arrested.

It's a Bit Of a Job

to order around and boss free Americans and bully them if they don't obey "orders" without question. Quite a little chore.

The labor trust leaders tried by their own rule the balance of us. Such massing of class or trust power in the hands of a few men is exceedingly dangerous for the safety of the common people at large.

There happens to be 78 millions anti-trust Americans and about 2 millions labor trust members, many of them held by force.

Naturally every gain of either money or advantage for the members of any trust—must be absorbed from the "common" persons outside the trust. Every trust must fatten by feeding off "outsiders."

Think it over a moment and see if that's right. The beef trust raises the price of meat.

Who pays the raise? The labor trust raises the price of labor and we don't object to that in reason, but who pays the raise? The oil trust tries to freeze out a citizen who starts in an independent oil business. Why? So it can rule and have the attention of the people outside the oil trust "obey" and pay toll.

The labor trust tries to force an anti-injunction bill through congress to prevent courts from issuing restraining orders or injunctions, so it can be free to attack property or independent men when the pretension of the courts is withdrawn and thus terrorize the people and make them "obey" the trust leaders and prevent every independent American from selling his labor at all, even though his family may be starving.

You are ordered to refuse any labor but that sold by the labor trust, and to buy any article of merchandise, unless it bears the "union label," the trademark of the trust.

Some of the most irksome tyrannies and outrages are put upon citizens who believe in the old doctrine that America is for freemen and a "square deal" for everybody.

But this biggest of all trusts, the labor trust, assumes to itself the right to rule the balance of the people and make them pay tribute to it, for the further
