**MOVING STONE HOUSE**

Unusual Task Now in Progress on the South Side  
Moving a stone residence of eight or ten rooms intact a distance of 135 feet is a notable piece of house moving work that is now being done in Fort Worth. This work is being done on what is known as the Chase place, on South Hemphill street, by Contractor S. P. Spose of Dallas for the owners of the property, which consists of about four full blocks. As it was decided to build an asphalt boulevard through the center of the land and the stone residence is standing exactly in the center of the tract, it was necessary to either tear down the building, which is a valuable one, having cost over \$5,000, or move it. Spose undertook the contract to move the building on rollers and the moving of it 135 feet north of its present location will begin this week. This will be the first brick or stone building ever moved intact in Fort Worth. The work of loading the building on rollers has been successfully accomplished without the walls having been cracked at any point.

Law Openly and Frequently Violated in Fort Worth

**NO QUESTIONS ASKED**

Assistant Chief of Police Calls Attention to Condition—Has Frequently Driven Boys Out

There is one evil running rampant in Fort Worth. It could be stopped by the law, but as fast as can be learned the effort to bridle it has been weak, very.

It has been in progress for a long time, and has undoubtedly been the means of causing trouble untold. The law says that young men under age must not enter saloons. It also says that if a saloon keeper sells a minor a drink of intoxicating liquor he is liable for \$5,000. Regardless of this, a visit to some saloons in the city will reveal the fact that the youth can buy the same as the man.

An employee of The Telegram, 19 years old, said when asked Monday, that he had not been refused a drink in any saloon in the city which he has visited during the past year. The list of places he says he has visited includes some of the best known uptown bars in the city.

It is usually a hard proposition for a minor to purchase a drink in the larger downtown saloons, and more than once they have been asked to go out by the proprietor or bartender. It is the small saloon that takes the chances of being sued. Down in the red light district there are many gril shops that will sell to a youth—just as they wear long trousers—as quick as they will to a lady.

In speaking of the evil and the violation of the law, Assistant Chief of Police Ray stated that he had seen more than one occasion driven minors out of a saloon. He stated that their presence does not bother himself or his men, but the state's law should be stopped at all means.

It is true that in the majority of cheap gin mills in town one can see the sign, "No Minors Allowed in Here," but in most cases the bartender does not bother himself or his men, and the youthful looking customer whether or not he has reached the age where he can lawfully buy a drink, some whisky or beer, and naturally the youth wanting a drink will not tell his age on walking up to the bar. This is the bartender's or proprietor's violation of the place makes the inquiry the law is violated immediately.

It was stated by Assistant Chief of Police Ray that orders had been given several times to various saloons to be careful how they sell to young boys, but that no suits had ever resulted from the practice.

It is probable that a crusade will be started against saloons violating the under-age law when Chief of Police Maddox, who is now out of the city, returns.

**SEVEN REBELS KILLED**

**FIGHT ON CAR**

Skates and Knife Figure in Affray on Interurban

THEY QUARREL OVER \$20  
Both Men Brought to Fort Worth and Arrested on Charges of Aggravated Assault

S. P. Spose, a Dallas contractor, and Charles Dean, also of Dallas, were brought from an interurban car that left Dallas at 9 a. m. Monday to the court house, both bloody from wounds received in a fight on the car at Stop 18, between Arlington and Grand Prairie, just inside Tarrant county.

Spose was stabbed in the left side about the neck and lost a lock of hair. Dean was bloody from wounds in his head made by a pair of roller skates. Charges of aggravated assault were made against each of them and they were released on \$200 bonds each.

**Quarrel Over \$20**

The trouble between the men was over a quarrel over \$20 that Spose claimed Dean owed him. The car was at a stand at Stop 18 and Dean was talking with a woman in the car. Dean told Spose that he had better sell an acre of the land he had in possession of in the city, for \$20, to Dean. Dean denied owing him anything and then followed hot words on both sides, the tie being loose. Dean was struck over the head with a pair of roller skates and knocked down and his arm slightly cut by it being jabbed through the glass of a car window. In the mix-up Spose was stabbed in the left side and a slash was made in the back of his coat.

Dean claims that Spose drew the knife and he wrestled it from him and that he was stabbed accidentally during the scuffle. Spose denies this and says Dean drew the knife after he was hit over the head with the roller skates. Dean had \$20 in his pocket. A physician, Spose walked out into the city and had his wounds dressed. Spose was taken to a room as soon as he had given bond.

**274 KILLED IN**  
**TRAIN ACCIDENTS**

Large Number Meet Death in Three Months' Time

Special to The Telegram.  
AUSTIN, Texas, Aug. 27.—The railroad commission has just received a copy of "accident bulletin" No. 19, issued by the Interstate Commerce Commission for the months of January, February and March, 1918. This bulletin shows that the number of persons killed in train accidents during these three months, as shown by reports made by the railroad companies in the United States to the interstate commerce commission was 274, and of injured 2,862. Accidents of other kinds, including those sustained by employees while at work, and by passengers getting on or off the cars, etc., bring the total number of casualties up to 1,126, and 17,170 injured.

The interstate commerce commission in this bulletin gives in this bulletin the cause of 46 prominent train accidents which were the result of collisions. Of these 46 accidents, 29 were killed by collisions, 396 injured, and the damage done to engines, cars and roadways amounted to \$328,299. Of these 46 accidents, 29 were killed from derailments, 208 injured and the damage done to engines, cars and roadways amounted to \$163,121.

Continuing, the commission says in the bulletin: "The number of casualties reported as occurring in the quarter under review is large. As in bulletin 18 the increases over the totals for the corresponding quarter of the preceding year are nearly all very large. Many of the present totals are smaller than those in the corresponding columns three months ago, but this is a comparison that affords scant ground for congratulation, because the changes are not large enough to indicate that the government's present conclusion that can be reached from these statistical comparisons, in whatever part they are taken, is that the government should investigate the disastrous collisions, derailments and other accidents on which they are based, and set forth in unmistakable terms their causes and remedies."

The bulletin shows the total number of collisions and derailments for the three months stated above on all railroads in the United States to be 3,490 (1,921 collisions and 1,569 derailments), of which 288 collisions and 187 derailments affected passenger trains. The damage to cars, engines and roadways in these accidents amounted to \$2,243,355.

Cuban President Refuses Compromises With Rebels

FIGHT MUST COME  
Shows Its Stability By Defeating the Insurgents

By Associated Press.  
HAVANA, Aug. 27.—President Palma today gave out a statement in which he says the insurrection is no program, and the cries which the insurgents raised do not constitute a program of ideals or a justification for the movement. Continuing the president says: "All the revolutionists must have a program as our revolution for independence in 1895. Everybody at that time knew the Cubans revolted against Spain and engaged in an open fight for liberty of their country. The present movement is a mere local adventure and only a crazy movement on the part of disoriented persons. There is no moral reason for it."

**Would Avoid Excesses**  
"The government could, suspend constitutional guarantees, but it intends to maintain vigor and the hope of the people and avoid possible excesses." "The medical force has been instructed to attend to all prisoners and give the wounded or sick insurgents the same attention as to the wounded or sick men belonging to the government. Any insurgent repenting his action can return within the pale of the law and may not be molested. The government has no petty spite or feeling of rancor against those who return to their senses and abandon the cause of disorder."

**Palma Wants War**

President Palma is not disposed to employ any other method than that of arms for the suppression of the present revolt. He declared emphatically the government here would absolutely never compromise with any form of disturbers of the order of government legitimately constituted, bound by imperative duty and must demonstrate it is able to safeguard the republic, life and happiness of the people at present and in the future, and compromise will sow the seed of armed revolution throughout the country.

**Rebels Rest on Arms**

HAVANA, Aug. 27.—The Cuban revolution is apparently resting. The full is explained by a statement that the insurgents are resting with forces large enough to force the government to come to terms regarding the nullification of former elections without resorting to open conflict. The insurgents are waiting for the government to move. The city is still stirred by the rumor of disagreement between Palma and Vice President Capote, Palma being the vice president and Capote being the conspirator to force his resignation. No fighting is reported this morning.

A number of officers who might be mistaken for General Trofrev have their hats taken in preparation to have the bars shaven off.

## There is No Good Reason Against Good Insurance

Not any substitute for it. Wherever failure to live means financial loss, there is need for insurance. Is your life of financial value to another—your family, partners or thought will be better than their afterthought. When it comes to the best kind of Life Insurance, men do not all think alike. There is no desirable kind that cannot be obtained from THE MUTUAL LIFE INSURANCE COMPANY. This is the oldest active Life Insurance Company in America, and the largest and staunchest in the world. It is a Mutual Company with no stockholders. Its assets belong to its policy-holders. It has paid them dividends continuously for fifty-six years. Taking its history through.

## The Mutual Life Insurance Company

has done as well for its policy-holders as any company. It should have done better, as has recently been shown. Under the present management all policy-holders may expect unusually favorable results. This is made reasonable by the facts that it is a strictly Mutual Company, operated under New York laws, which are now the best in the world; that its great volume of business means smaller share of expense on each policy, and that the new methods and economies, which are now a part of its constitution, will save immense sums which must go to the policy-holders, as the only proper place. Mr. Charles E. Hughes, who became famous by conducting the investigation of the great companies exposed to close and unparing analysis, has recently said: "We have had solidly as the rock of Gibraltar. I would rather take insurance in a New York company than in any other company of the world. It is the sentiment of the people of the United States."

#### SHORTS TO RETIRE

Chief Engineer Stevens Will Head the Canal Commission

Special to The Telegram  
PANAMA, Aug. 27.—It is reported that the Chief Engineer Stevens will go to the United States on the next boat and return with President Roosevelt in November. While in Washington he will be in charge of the canal commission. The Isthmian canal commission will be effected, putting Stevens at the head. Shorty will retire after congress meets. Magoo's successor for governor will be named. A new man will be made minister, thus separating the two places.

Judge Guider rendered a decision yesterday in the Shuber case, wherein rents and damages were sought to be collected from the commission, holding that being part of the United States government, it cannot be sued. The claimants must go to the court of claims or congress for the amount of a special law permitting the suit. The decision will have a weighty effect on owners expecting exorbitant prices for land needed for the canal.

#### HOME DYNAMITED

Great Damage Done But No One Injured—Perpetrators Unknown

Special to The Telegram.  
CORSIANA, Texas, Aug. 27.—One of the most dastardly crimes ever attempted in this city was perpetrated at an early hour yesterday morning. The home of Mrs. Mary Freeman, in the eastern part of this city, was wrecked by an explosion of dynamite. A large water pipe, one end of which extended in the shape of an L. The explosive was placed under one corner of the house, in which the parlor was located.

The force of the explosion was so great that a hole about four feet square was blown in the floor and almost every window in the house and much of the glass and chinaware was shattered, although no one was injured. A piano, one end of which rested near where the dynamite was placed, fell through the hole made by the explosion and was badly damaged. A large water pipe in Mrs. Freeman's bedroom, which was just across the hall from the parlor, was overturned.

The explosion occurred at 2:10 o'clock, the clock being stopped by the concussion.

There is no clue to the perpetrators of the crime. Bloodhounds were brought to the scene shortly after the explosion, but failed to take the trail. Richard Henderson, a son of Mrs. Freeman, and Claude Young, a nephew, were also occupants of the house.

## FORTY ORPHANS MAY BE DEPORTED

### Refugees From Russian Massacre Cause Much Trouble

Special to The Telegram.  
NEW YORK, Aug. 27.—The case of forty Hebrew Russian children who arrived here on Saturday on the steamer Amerika was heard by the board of special inquiry at the immigration station on Ellis Island and the board, after deliberating, decided that the children should be excluded from this country. Accordingly their deportation was ordered. This, however, is not final and the case has already gone on appeal to Washington. The children, all of them made orphans by the recent massacres in Russia, were gathered from the centers of the great cities where they were held in charge of Mrs. Sophie Perlman of Berlin. Wealthy Hebrews of this city supplied the funds and secured homes throughout the country where the children could be sent. Secretary Waldman of the United Hebrew Charities appeared in behalf of the children. He said there was no chance that they would become charges on the public. The board, after consideration of the case, thought otherwise and announced that the children were ordered excluded. Mr. Waldman said that the case would be appealed and a decision is expected in a few days. In the meantime the children will be well fed and well cared for on Ellis Island.

## NEGRO LYNCHED

### Hundreds View Body and Pleased With Mob's Action

Special to The Telegram.  
CALIFORNIA, La., Aug. 27.—Alfred Schauflet, negro, was lynched here at 10 o'clock yesterday by a mob for attempting to criminally assault Miss Olive Chambers, a prominent young woman of this place at an early hour this morning. Schauflet was frightened by the screams of his intended victim and fled, but was later captured by a posse a few miles out of town. He was brought back to town and after confessing his guilt was hanged to a telegraph pole.

His body was viewed by hundreds of people, both white and black, and everyone seemed pleased with the swiftness of the justice meted to the negro.

The following bold notice was posted upon the negro's body: "This is a warning to all negroes who would attempt to force an entrance to the apartments of white women. The mob was a quiet but determined one."

### Rockefeller Says American Life Is Too Strenuous

Special to The Telegram.  
CLEVELAND, Ohio, Aug. 27.—John D. Rockefeller aired his opinion of newspapermen yesterday, especially those of New York, after reading the slanting, rushing life being led by Americans. He said that the rapid life the Americans are leading was reflected in New York newspapers.

"We are leading an awfully fast life in this country. It is simply rush, rush along in the newspapers for the most part keep pace of the times. They show the life of their readers. People live too fast. Their life is accelerated by the headlines, the concentrated excitement all bound up in a few words. The people see the big lines, rush to read the paper, rush off to work and read some other paper and rush to a fire. It's rush, rush all the time."

## COULD NOT REST NIGHT OR DAY

With Irritating Skin Humor—Whole Body Affected—Scalp Itched All the Time and Hair Began to Fall Out—Wonderful Result From

### APPLICATION OF CUTICURA REMEDIES

"I am never without Cuticura Soap and Cuticura Ointment since I tried them last summer. About the latter part of July my whole body began to itch. I did not take much notice of it at first, but it began to get worse all the time, and then I began to get uneasy and tried all kinds of baths and other remedies that were recommended for skin humors; but I became worse all the time. My hair began to fall out and my scalp itched all the time. Especially at night, just as soon as I would get in bed and get warm, my whole body would begin to itch and my finger nails would keep it irritated, and it was not long before I could not rest night or day. A friend asked me to try the Cuticura Remedies, and I did, and the first application helped me wonderfully. For about four weeks I would take a hot bath every night and then apply the Cuticura Ointment to my whole body; and I kept getting better, and by the time I used four boxes of Cuticura I was entirely cured, and my hair stopped falling out, but I continue to use the Cuticura on my scalp. It keeps all dandruff out and scalp is always clean. I always use Cuticura Ointment on my face after shaving, and have found nothing to equal it. I will never be without it." D. E. Blankenship, 319 N. Del. St., Indianapolis, Ind., Oct. 27, 1905.

## FIRE FATAL TO THREE

Negro Children Meet Death in Explosion of an Oil Can

Special to The Telegram.  
CALVERT, Texas, Aug. 27.—Saturday afternoon, three negro children, ages 6, 4 and 1½ years, were burned to death about half a mile from town. The best information that can be had is that the children were at home by themselves and attempted to start a fire with kerosene and the can exploded and the children all being small were unable to render the others any help.

The neighbors soon came and found the two smallest children dead and the oldest one beyond help.

The father of the children, Jake Holley, is well liked and has the sympathy of the entire community.

### RECOMMENDED TO ALL MOTHERS

"I have used Cuticura Ointment for chafing of infants, and as they grew older all skin diseases were given treatment with that and the Cuticura Soap. I never found it necessary to call a doctor, as those Remedies are a sure cure, if used as directed. I am glad to recommend them to all mothers." Sincerely yours, Mrs. F. A. Kennard, June 21, 1905, St. Paul Park, Minn. Cuticura Soap, Ointment, and Pills are sold throughout the world. Write to J. C. Ayer & Co., Lowell, Mass., for Catalogue. "Beware of cheap imitations."

## He Who Chews Will Know

### The Proof is in the Chewing

The wholesome flavor and delightful, appetizing aroma of the tobacco grown in the famous Piedmont tobacco belt continues to create and popularize man's fondness for chewing tobacco. Lovers of real tobacco and more pounds of tobacco chewed, to the population, in those States where SCHNAPPS tobacco was first sold, than there are in the States where SCHNAPPS has not yet been offered to the trade.

Only choice selections of well matured, thoroughly cured tobaccos, grown in the famous Piedmont tobacco belt, are used in making SCHNAPPS.

That's why it has a better quality and more lasting flavor than the tobacco formerly sold to chewers at double the price they now pay for SCHNAPPS.

That's why SCHNAPPS wins all classes of chewers: the rich, because they do not find a chew to really please them better at any price; the poor, because they get their money's worth of the real snappy chew and flavor not found in the highly sweetened mixtures. Neither the rich nor the poor wish to chew tobacco so intensely sweet that its true flavor and tooth-preserving quality are lost. Look for the word "SCHNAPPS" on the tag, and on the plug under the tag and then you have it—the most wholesome tobacco produced, with just enough sweetening to preserve the quality and bring out the flavor—the real tobacco flavor that stimulates and satisfies. Sold at 50c. per pound in 5c. cuts. Strictly 10c. and 15c. plugs.

## Pianos To Move

BY THE POWER OF PRICE.

Making Room For Fall Stock

THE ROSS & HEYER CO. ARE GOING TO MAKE THE LAST WEEK IN AUGUST ONE OF MUCH INTEREST IN PIANO CIRCLES.

Some Bargains to Go With the Passing Summer

As the curtain goes down on three months of summer selling, we find ourselves with eight used and slightly used pianos, which we have decided to dispose of before the summer is over, and we only have this week in which to sell same. Particularly do we expect to get in these pianos this week in order to make room for several cars of pianos which we expect to get in during September for fall business.

In the first place, we need the room for this incoming stock, and in the second place, it is our desire to have the curtain ring up on the fall business with nothing but new goods to show. Consequently we are going to sell this week the following pianos:

You will notice we said going to which is just what we mean. We are going to make a price on these pianos which will be sufficient power to move each and every one from our warehouse floor to the home of some customer who is quick to recognize a low price and a good thing.

### J. F. WILLIAMS DIES AT HOME

Was Superintendent of North Fort Worth Stock Yards

John Franklin Williams, one of the best known citizens of North Fort Worth and well known over the state of Texas among shippers of cattle, by reason of his long connection with the Fort Worth stock yards company, died Sunday afternoon at 1:30 o'clock, at his residence in North Main street, corner of Twenty-eighth, North Fort Worth, after a lingering sickness of several years.

His death is attributed to heart failure brought on by a complication of stomach and liver troubles. His last attack occurred about two months ago, while in Springfield, Mo., at the home of his eldest son, where he had gone with hopes of benefiting his health following a critical illness early this spring. While in Springfield he was confined to his bed for a period of five weeks and upon slight improvement returned here two weeks ago, accompanied by his daughter.

Mr. Williams was born in Baltimore Md., Sept. 7, 1849, and soon would have been 81 years of age. Previous to his removal to Fort Worth, Mr. Williams had spent most of his life in Illinois and Kansas, coming here in the spring of 1887 as a quarantine officer for the state live stock sanitary board. After two years' service as such in Texas he accepted the position of superintendent of the old stock yards, and when the stock yards company was organized about four years ago Mr. Williams retained the superintendency of the yards, which service he was holding at the time of his death.

Left surviving him are his widow, three sons and a daughter. The sons and one daughter residing at home and two married daughters, Mrs. Emily Reynolds of Roanoke and Mrs. Elton Hopkins of this city. His parents died some years ago. Besides his relatives are left his many friends to whom he was held in high regard and affection.

The funeral will be held Tuesday afternoon at 2 o'clock from the family residence, with interment at Oakwood cemetery.

The funeral services will be conducted by Rev. J. H. Freeman of the Broadway Presbyterian church.

### TAFT CLUB TO BOOST GREEN

Wheels Within Wheels in Texas Republicanism

### WARM CAMPAIGN

Effort Will Be Made to Import Speakers of National Reputation on Both Sides

Wheels within wheels, plot and counterplot, stump speeches, hand-shake canvasses and by no means least, frequent tappings of sundry "barrels"—all the elements of a real campaign loom up in the near distance for republicans of Texas this fall, with the republicans in battle for supremacy between Colonel E. H. R. Green of Terrell and Colonel Cecil A. Lyon of Sherman.

Incidentally it is learned in Fort Worth a new republican organization to be known as the Taft Club will be organized in the city. It will be organized in the city. It will be organized in the city. It will be organized in the city.

Members of the Roosevelt Club and those prominent in the organization of the Taft Club emphatically declare there is no rivalry between them and their work will be entirely independent, except in the united effort to strengthen the growth of republicanism in this grand old empire state of the south.

It will be recalled by democrats who have interest enough in the proceedings of Texas republicans to read what they do that the "reorganizers" was a republican picnic at Handley at which leading members of the Roosevelt club extended an invitation as well as some prominent republicans from other parts of the state. Colonel Cecil A. Lyon spoke at the picnic and was generous in the united effort to strengthen the growth of republicanism in this grand old empire state of the south.

It is understood a strong effort will be made to have Secretary Taft come to Texas this fall.

In view of what Secretary Taft said in his recent speech at Greenville, S. C. regarding "republican executive chairmen in the south who apparently use their positions only for the distribution of political pie which goes with it" and the fact that this arraignment is the most common one used by the "reorganizers" and "reorganizers" it is believed Secretary Taft could make a speech in support of the "reorganizers."

Another speaker who is said to be under consideration by Colonel Green's friends is Senator Albert J. Beveridge, Indiana's high-browed representative in the upper house and a young man of great promise.

Beveridge might not be averse to coming to Texas. Some years ago he had an interesting passage at arms (figurative and literal) with Senator Bailey on the floor of the senate, and although the Washington correspondents give it out regularly every year for a scrap and the glare goes with it the Bailey territory and deliver a few speeches might appeal to him in more ways than one.

Senator Foraker Pessimistic Over Political Situation in Ohio.

Special to The Telegram.—CINCINNATI, Aug. 27.—Senator Foraker in an interview regarding the political situation in Ohio, devoting considerable attention to the probable action of the approaching convention in that state with respect to those of the congressional delegation who had differed with the President in some matters of legislation, said:

"I am sorry to learn that the Republicans of Ohio are having some sharp controversy, but the differences do not seem to me very important. I can not think, therefore, that there is likely to be any serious injury done to the party, whatever may happen to individuals.

"So far as endorsing me is concerned, that is not important to any one except myself and I shall try to accept with equanimity whatever may be the convention's action."
