## GRAND NAVAL PAGEANT IS HELD DURING STORM

President Reviews Big Fleet at  
Oyster Bay

### 40 SHIPS PARADE

Heavy Rain Has No Effect on  
Big Crowd Which Wit-  
nesses Event

By Associated Press.  
OYSTER BAY, Sept. 3.—The day for the grand naval review by President Roosevelt of forty vessels sailing down the sound, a distance of three miles and all under the command of Rear Admiral Evans, opened overcast and stormy. At intervals hard rain was driven before stiff but variable winds. The disappointing weather conditions are not allowed to interfere with any details of the program, however, and apparently has no effect on the crowd that gathered to witness the imposing spectacle. President Roosevelt did not mind the weather in the least.

**President as Host**  
The senate naval committee were guests of the President on the Mayflower during the review. Senators Boise, Penrose, Penna, Julius Burrows of Michigan and Charles Dick of Ohio. The house naval committee was represented by Chairman Ross of Illinois, and Representative Loudenstager of New Jersey, Mudd of Maryland, Vreeland of New York, Bates of Pennsylvania, Lilley of Connecticut, Meyer of Louisiana and Padgett of Tennessee.

**On Board Mayflower**  
Mrs. Roosevelt was with the President on the Mayflower, also Secretary of the Navy, Bonaparte, Postmaster General Cortelyou, Acting Secretary of State Bacon, the secretary to the President and Mrs. Loeb, Assistant Secretary of Navy Mr. Newberry, Surgeon General of Navy, Rixey, Lieutenant Commander Key, Naval Aide to President W. Emlen Roosevelt, W. P. Lunn, J. W. Connolly, Grant Lafarge, Dr. Hollander and Mr. Valaque.  
On the Dolphin, where the President and Mrs. Roosevelt entertained a large part of the guests were Miss Ethel Roosevelt, Master Richard Roosevelt, Master Archie Roosevelt, Master Quentin Roosevelt, Mrs. George B. Cortelyou, Mrs. Bacon, wife of acting secretary of state, Mrs. Rixey, Mrs. Loeb, Mrs. Rixey, Mrs. W. Emlen Roosevelt, Miss Christine Roosevelt, Mr. and Mrs. Emmett Stowe Phillips, Mr. John Keenan, Mr. L. West Roosevelt, Miss Loraine Roosevelt, Mr. and Mrs. Frederick Tams, Mr. and Mrs. E. Merritt, Mrs. C. Grant Lafarge and Miss Isabelle Hagner.

**Mayflower Leads Center**  
The Dolphin early took the place at the head of the third column, the Des Moines at the head of the first column, both ships remaining in these positions throughout the review. When the Mayflower is anchored at the head of the center column Flag Officers and Division Commanders of the fleet will pay their respects to the President and be entertained on the Mayflower at luncheon. Luncheon over President Roosevelt will take a launch and visit the several battleships and the torpedo boat flotilla which are to be reviewed. The review will be an event of the year and has planned to remain on the Mayflower with a number of guests until evening to witness the electric illumination.

### TILLMAN DECLINES

Will Not Accept the President's Invitation to Review the Naval Parade

WASHINGTON, Sept. 3.—Senator Tillman will not review the naval maneuvers from the Mayflower with the President on Labor Day. He has declined the invitation extended by the President along with other members of the naval committee of the senate and house of representatives.

The note declining was received at the navy department. It had been generally predicted here that he would decline. Senator Tillman said to friends, following the receipt of the President's invitation to review the White House invitation to Senator Tillman to meet Prince Henry because of the Tillman-McLaurin fight, that he would never accept another invitation from the President until he had apologized to him for withdrawing the former invitation.

Boy Meets Death in an Unusual Manner

Special to The Telegram.  
TULSA, I. T., Sept. 3.—Harry, the 13-year-old son of John Lester, a miller of Fairview, O. T., was smothered to death in a pit of wheat at his father's mill. The boy was attempting to make some repairs on the engine and losing his balance fell head first into the pit. He was dead when found.

### POLANDERS SEEK TO FREE COUNTRY

Socialist Society Holds Big Meeting in New York

By Associated Press.  
NEW YORK, Sept. 3.—The ninth biennial convention of the Polish Socialist Alliance of America is being held here. It has a two-fold purpose, spreading propaganda of socialism in this country and furthering the efforts for free and united Poland. It is attended by nearly every state in the union sort of thing. It is not at all unlikely that the troops were directed to return to their headquarters and keep themselves in readiness in case that this country decides to intervene.

## BRYAN NOW ON HOME STRETCH

Sees No Opposition to Federal Ownership of Railroads

### CLINGS TO ISSUES

Nebraskan Says He Will Have to Be Shown Disagreement Over His Ideas

Special to The Telegram.  
NEW YORK, Sept. 3.—Escorted by the Nebraska "Home Folks," more than a hundred strong, William J. Bryan started on the home stretch of his progress around the world in a special train of five cars which left Jersey City over the Lehigh Valley railroad at 5:30 Sunday afternoon. There was no demonstration at the station, but many passengers in the waiting room introduced themselves to Mr. Bryan and shook hands with him. The special is expected to reach Detroit tomorrow morning, and after a day and a night reception, will start at midnight for Chicago, where another reception will be held Tuesday. The train is scheduled to reach Lincoln, Neb., Wednesday, where a rousing reception is promised by Mayor Brown, who headed the delegation of Nebraskans.

On the way over the river in the ferryboat Mr. Bryan smilingly said in an interview:  
"Speaking from a personal standpoint, the reception accorded to me was very gratifying. Speaking from a political standpoint, I think that they showed a marked change in public sentiment along the lines of economic questions, especially those questions relating to the trust issue."  
"The one unpleasant feature about the reception is that I have been so busy speaking and going from place to place that I have not had time to shake hands with all those who had come great distances.

"The reception which my neighbors at home are preparing will be a gratifying one, but it can hardly be more cordial than have been my receptions in the east."  
Referring to the reported disagreement of prominent democrats with his advocacy of Federal ownership of railroads, which is to be reviewed by the President today, had got in formation. He was enthusiastic, but not boastful. While he recognized the splendor of the fleet, he declared that it was not as big as some that a few other great powers had assembled in waters of the old world.

**Fleet Only Small One**  
"It is only a little fleet," he said, "but a very select one. I wish it were three times as big, and I wish every man, woman and child in the United States were here to look at it and see that they were getting a return for their money. I would advocate the assembling of a fleet similar to this—larger, of course annually. It would have a splendid educational effect, not only on the men of the fleet themselves, but on the people generally."

**Review Costs But \$300.**  
"There has been much talk of a purely fictional nature about the enormous expense of a gathering such as this. In reality the expenditure is almost nominal. The ships in commission here would have been in commission anywhere and it does not cost a cent more to supply them at Oyster Bay than it would at any other anchorage. Our supply ships are factors of the fleet. Absolutely the only additional item of expense will be for black powder to fire the salutes, and that will cost roughly, not more than \$300."

**Urges Frequent Gatherings**  
"It is a good thing to have these ships with us to familiarize them with the code signals. Down in the Caribbean the two parties who were in communication caused us some trouble."

**There is special need of drills with impediments, and the more practice we have with it the better it will be for our navy. It prevents the men from getting rusty and it inspires them with an enthusiasm that they would not feel if their fellow citizens were not permitted to share the glory with them."**

### KILLED BY NEGROES

White Man Resents Insult to Wife and Meets Death

Special to The Telegram.  
SHREVEPORT, La., Sept. 3.—Steve and P. T. Hart, merchants and planters of Powhatan, La., fought a duel on the road at Powhatan yesterday afternoon with Coley and Duke Howard, negroes. Steve Hart was fatally shot and his brother and one of the negroes slightly wounded. The negroes escaped. Poses are in pursuit, determined to lynch the blacks if captured. Coley Howard is alleged to have insulted Mrs. Steve Hart a few days ago.

Expense of the Maneuvers at Oyster Bay Will Be But \$300

By Associated Press.  
OYSTER BAY, Sept. 3.—As Rear Admiral Robley D. Evans yesterday surveyed from the bridge of his flagship, the Maine, the forty-five vessels of his command, stretching more than three miles down the sound in three columns, he looked an admiration that he refused to express to the newspaper men who visited him just after the fleet, which is to be reviewed by the President today, had got in formation. He was enthusiastic, but not boastful. While he recognized the splendor of the fleet, he declared that it was not as big as some that a few other great powers had assembled in waters of the old world.

Frenzied Husband Slashes Man Who Ruined His Life

Special to The Telegram.  
HAMILTON, O., Sept. 2.—Frenzied with rage at the man he holds responsible for the suicide of his wife, William Reid of 2109 Walmace street tonight slashed into ribbons the face of Frank Amiot, a blacksmith at Princeton, Butler county, as the latter stepped out of a saloon. Amiot and Reid's wife were arrested in this city about two months ago on a charge of living together as man and wife. This fell so heavily upon the woman that she ended her life with a bottle of carbolic acid. Public sympathy is with Reid.

**Went First to Liverpool**  
It has been ascertained Stensland fled from Chicago July 12, going directly to New York, and sailed in a steamer of the White Star line for Liverpool. He remained in that city two days and then took a steamer for Gibraltar, which he reached July 27. From there he took boat for Tangier. The Tribune correspondent and Assistant State's Attorney Olsen were on the trail and arrived at Tangier about one hour after he left it for a trip to the east coast of Africa. It was ascertained he deposited \$12,000 in

**Arrest Confirmed**  
CHICAGO, Ill., Sept. 3.—Assistant State's Attorney Barbour received a cablegram today from Assistant State's Attorney Harry Olson stating Paul O. Stensland had been arrested at Tangier, Morocco.

**Stensland Leaves Trail**  
Stensland was absolutely sure that he was not being followed, and had become extremely careless, for he left a wide trail.

**Stensland Chose Morocco**  
Stensland chose Morocco as a permanent residence because there is no extradition treaty with that country.

**Stensland Has \$12,000**  
It was discovered that he has \$12,000 in a bank in Tangier. Steps have been taken by Assistant State's Attorney Olsen to tie this money up, and, if possible, restore it to the swindled depositors.

**Woman in Story**  
"It was the old story of a woman scorned that led to the finding of Stensland's trail. One of his numerous friends who thought she had been shabbily treated, put the Tribune in possession of the first point as to the fugitive's whereabouts. Her information was indefinite, but investigation proved its probable accuracy.

**Sailed From New York**  
Finally, August 13, it became certain that he was in Tangier and had been there for sixteen days. He fled from Chicago Sunday, July 12, went direct to New York and took the White Star boat, sailing Tuesday for Liverpool, and stayed 12 days in that port. Stensland then took the P. & O. boat, reaching Gibraltar July 27. There he immediately took the boat for Tangier.

**Woman's Story Proves True**  
Stensland has many friends among women in this city, on whom he was accustomed to spend much money, and one of these feeling that she had not been treated by him with due consideration came to the Tribune a few days after his flight with the information regarding the direction in which he had gone.

**Information was somewhat indefinite, but investigation proved its probable accuracy.**  
A representative of the Tribune was sent to State's Attorney Healy, who was at that time in the east, with the information and requested a representative of the state's attorney office be permitted to accompany the Tribune representative on quest of the fugitive. Mr. Healy agreed and sent State's Attorney Olsen with the Tribune correspondent.

"SOMETIME" STANZA HER LAST MESSAGE

Lines From Familiar Poem Found Near the Hand of Mrs. E. Scrutcheff, When Body Was Discovered in a Room at Mohawk Hotel

"Life seems to me an endless waste, Without your presence fair, For on my heart your name is traced; It will long linger there."

The above first stanza of George Totten Smith's "Sometime" was found within a few inches of Mrs. E. Scrutcheff's right hand when she was found dead from the effects of carbolic acid in her room at the Mohawk hotel, Sixteenth and Calhoun streets, Sunday afternoon.

Saturday morning there appeared at the Mohawk hotel a woman who gave her name as Mrs. E. Scrutcheff, she registered from Knox City, Texas, and asked that she be assigned to a room, saying that she was suffering severely from a terrible headache.

Police officers were notified by the hotel management and when they arrived a note was found directing that Mrs. M. E. Travis, Haskell county, be notified.

By reason of the bottle which contained carbolic acid being found on the dresser and the body on the bed several feet away it is the opinion that Mrs. Scrutcheff drank the acid and then lay down on the bed to await death.

The piece of paper on which was printed the verse of poetry lay at the finger tips of the right hand. The position of the right arm looked as if it had been drawn slowly away from the face. The piece of paper evidently fell from the hand when this was done.

In Mrs. Scrutcheff's purse was found \$8.10, two baggage checks and a freight bill, showing the shipment of household goods from Knox City to Cleo. It is thought she came direct here from Knox City, although nothing could be learned of her there.

The body of the woman was found in a room at the Mohawk hotel, Sixteenth and Calhoun streets, Sunday afternoon. She evidently had carried the piece of poetry for a long time, as the paper on which it was printed was turning yellow and plainly showed having been handled frequently.

The piece of paper on which was printed the verse of poetry lay at the finger tips of the right hand. The position of the right arm looked as if it had been drawn slowly away from the face.

The piece of paper evidently fell from the hand when this was done. In Mrs. Scrutcheff's purse was found \$8.10, two baggage checks and a freight bill, showing the shipment of household goods from Knox City to Cleo.

It is thought she came direct here from Knox City, although nothing could be learned of her there. The body of the woman was found in a room at the Mohawk hotel, Sixteenth and Calhoun streets, Sunday afternoon.

She evidently had carried the piece of poetry for a long time, as the paper on which it was printed was turning yellow and plainly showed having been handled frequently. Saturday morning there appeared at the Mohawk hotel a woman who gave her name as Mrs. E. Scrutcheff, she registered from Knox City, Texas, and asked that she be assigned to a room, saying that she was suffering severely from a terrible headache.

Police officers were notified by the hotel management and when they arrived a note was found directing that Mrs. M. E. Travis, Haskell county, be notified. By reason of the bottle which contained carbolic acid being found on the dresser and the body on the bed several feet away it is the opinion that Mrs. Scrutcheff drank the acid and then lay down on the bed to await death.

QUARREL FATAL TO ONE

Man Fatally Shot by His Wife's Alleged Paramour

LINTON, Ind., Sept. 1.—A duel in the lobby of the Vandalla Coal Company's office this afternoon between Will T. Stull and W. D. Reid resulted in Reid getting fatally shot and Stull seriously injured. The trouble is said to be the result of Stull getting too friendly with Reid's wife. Last Thursday night, it is alleged, when Reid came home he found Stull with his wife on the front porch.

Stull, the story goes, ran away, but was overtaken by Reid, who returned to their home. Reid drew a razor, but was stopped from doing harm by his little daughter, who happened in, and who fainted. Today Stull, who is checkweigher at Vandalla mine No. 5, was in the office making out the day's report. Reid, who is driver for the Alexander Davis Bank Company, appeared at the office with a gun in his hand and requested Stull to come outside. Stull stepped back and got his gun. Reid fired the first shot, which took effect in Stull's left leg.

KILLED BY STEP-SON

Kentucky Farmer Meets Death in Street Duel

LEXINGTON, Ky., Sept. 2.—Frank Wilburn, a farmer living near the city limits on the Georgetown pike, was shot and mortally wounded by his stepson, James Strigal, at the corner of Georgetown and Fourth streets, tonight. Both men were gunning for each other and when they met, each leveled a double-barreled shotgun and fired. The shot from Wilburn's gun going wide of the intended mark, while Strigal's aim was true. Bad blood has existed for some time between the men and the trouble has been feared by their families. Strigal had not been captured at a late hour.

Barbecued Meats AND DRESSED POULTRY EVERY DAY. TURNER & DINGEE

AN ALL-DAY WITH BATTLING NELSON

BY C. H. TAVENNER. Special to The Telegram.

GOLDFIELD, Nev., Sept. 2.—5:55 a. m.—Manager Nolan shouts into the "Battlers' room": "It's 6 o'clock. Get up." No answer. Nelson has been up a quarter of an hour, leaving his room via the window, and gone across the street. Nelson finds him discussing the weather with a half-dozen women. The latter are wives of the miners, who have no opportunity to chat with the Dane escape. Nelson knows them by name by this time, and in his good-natured, boyish way tells them where he has fought, what his mother says about him as a fighter, and how he expects to whip Gans easily.

"We all wish you good luck, Mr. Nelson," the women shout as Nolan pulls the Hegeswich fighter away toward the hotel. "You're worse than any old woman I ever saw for gossiping," says Nolan. "I've been looking for you half an hour." Nelson has in reality made the acquaintance of one-half the men in the mining camp. He respects men older than himself, never talks rough, and is particularly polite to aged women. He will talk to the latter as long as they show interest. 6:40 a. m.—Nelson, Clifford and Nolan at breakfast. Nelson orders boiled rice and cream, two soft-boiled eggs, toast and coffee. 8 a. m.—Out for an eight-mile run with Clifford. He goes through his road work considerably faster than Gans. 9:25 a. m.—Nelson is in his shower bath. 9:30 a. m.—He is getting a run-down. 10:20 a. m.—Nelson is now entertaining himself reading letters from admirers, cranks, etc. 10:30 a. m.—He is posing for a group of newspaper photographers in fighting costume. Both he and Gans do this willingly, although it ultimately becomes rather annoying. 12:30 p. m.—Nelson and his trainer at lunch. He is eating heartily of

roast beef, boiled onions, peas, rice and tea.

3 p. m.—The "Battler" is writing letters. "I bet one of them is going to your Italian sweetheart," says Nolan. "You don't have to prove it," says the Dane, smiling broadly and pushing the written pages out of Nolan's view. "I admit it." 3 p. m.—Nelson is beginning his dully "gym" work with ten minutes of "bitension" exercise, which consists of a series of exercises with a heavy rubber exerciser. "I have used a hundred kinds of exercisers," he says, "but I never found one so satisfactory as this one, which I purchased in Cleveland." He next has a six-round bout with the punching bag, followed by two rounds of shadow boxing and two of outlining. He then devotes ten minutes to the "medicinal" ball, which is similar to the basket ball. Six fast rounds with Clifford and the day's "gym" work is over. 4:10 p. m.—Shower bath and rub down. 4:40 p. m.—He is talking with the newspaper men who are here who are every large city in the United States and Canada. 5:20 p. m.—Nelson is reading what the Goldfield Daily Sun has to say of him. The article pleases him. Nelson takes great pride in having the newspapers speak so highly of him personally, and reads the papers much closer than Gans. 6 p. m.—Nelson is eating fresh road work consisting of chicken with gravy. Toast and green tea complete his dinner. 6:30 p. m.—Nelson and his friends are visiting the various sports with the miners. He is followed from place to place by a crowd of the curious. 7:30 p. m.—Nelson is turning down drinks on every hand. 7:45 p. m.—Nelson invests \$1 in chips and tucks the roulette. He wins \$2.25. 8 p. m.—Back at training quarters. 8:10 p. m.—In his bunk. 8:30 p. m.—The "Battler" is in the land of nod.

AN ALL-DAY LONG WITH JOE GANS

BY C. H. TAVENNER. Special to The Telegram.

GOLDFIELD, Nev., Sept. 2.—5:50 a. m.—Gans is getting up. 6 a. m.—He is walking a slow half mile to get up an appetite. With him is "Kid" Simms. 6:15 a. m.—The colored man is at breakfast with his wife and trainer, Frank McDonald. His order was two soft boiled eggs, coffee and toast. "I'll put it out in just two hours," says Gans, smiling. "I'm so sure of it, I'd bet my life, even my wife, on it. No, I wouldn't, honey, because if I stood a chance, I lose you I'd be scared I wouldn't have any energy left to fight." 6:18 a. m.—Mrs. Gans smiles and everything is lovely. 6:23 a. m.—Gans, accompanied by Simms, Charles Price, a mining engineer, and W. Durgan, a bank clerk, are out on a nine-mile run. Gans and Price are the fastest of friends. Gans is attired in a suit of heavy underwear, flannel trousers and belt, shoes and stockings. 7:15 a. m.—Runners back to hotel. Price and Durgan are all in. "I'm ready to run nine miles more," says Gans, as he squares up to McDonald and knocks his trainer's hat off. 7:18 a. m.—Gans lies down in training clothes for ten minutes, in order to sweat as much as possible. 7:25 a. m.—In a shower bath. 7:29 a. m.—McDonald is giving Gans a good rub. He will allow no one but McDonald to perform this function. 7:35 a. m.—Gans is resting in his hammock. Mrs. Gans is sitting near, reading a Baltimore paper. She reads a prediction that her husband will win. Gans smiles broadly and looks on as if reading the article himself. 12:30 p. m.—Gans is at lunch with his wife and trainer and gets into an altercation with the latter because he can't have another slice of roast beef. "That's the kind my mother used to feed me when I was just beginning to deliver the knockout. It did me good then, and it won't hurt me now." As usual he gives in good-naturedly to McDonald. 2:30 p. m.—In the hammock sleeping. 3:30 p. m.—In the gymnasium boxing with "Kid" Simms. The "Kid" gets two or three joints on the jaw, and says, "Not so rough." "Excuse me,"

says the colored man. "I was just imagining you was the Dane. Another mix-up like that and you would have been out." They shake hands, and Gans begins skipping the rope. Gans then punches a 50-pound sawdust bag ten minutes, and finishes his "gym" work with ten minutes of terrific bar punching. 4:23 p. m.—Dripping with sweat, he is getting ready for a plunge bath. After satisfying themselves that everything is going along smoothly, the crowd of miners and "hangers-on" that assemble here to witness the Gans train are leaving. They all seem to agree Gans will win. When some of the same men watch Nelson work they state that he is equal to Gans, but will surely wallopp the "col" plenty. 5:30 p. m.—Dinner. Gans in a happy mood as usual. 7 p. m.—Gans reads the newspaper while, then goes into the bar room of the "Merchants" hotel, where he is training. Someone happens to blow cigar smoke his way, and he says: "Please don't blow your smoke my way. It is irritating to me." Gans throws the dice once for \$60 and loses. He yawns as if it were indifferent to him whether he won or lost and goes upstairs. 8:15 p. m.—Gans is going to bed. 8:30 p. m.—Sleeping. 8:35 p. m.—Snoring.

MEXICO SUFFERS FROM BIG FLOOD

Immense Amount of Property Damaged by Water

Special to The Telegram. CITY OF MEXICO, Sept. 2.—The terrible storm which swept over the Pacific coast of the republic for nearly three weeks has ended after having occasioned immense damage throughout an extensive region. The port of Manzanillo is, after many days of isolation, again in communication with the rest of the country. Telegraph lines were prostrated and in a long distance not a signal post was left in the place; often everything was swept away by floods. In the state of Sinaloa and the territory of Tepic great injury was done to farmers and great loss of crops and cattle is reported. Some of the machines employed on the port works at Manzanillo were destroyed or rendered useless. Many houses occupied by poor people and situated near the sea were ruined. The overland trail from Tuxpan to Colima is impassable in places and extremely dangerous in others. Five miles of a pack train crossing the trail were caught by a torrent of water in the bottom of the Beltran arroyo and drowned. Several travelers had narrow escapes from death. In the city of Colima several houses have fallen as the result of heavy rains. No loss of life has been reported.

PANIC ON SHIP

Women and Children Trodden Upon in Fight for Life Boats Special to The Telegram. NEW YORK, Sept. 2.—A wild desire to see the battleships and cruisers assembled off Oyster Bay for today's naval review caused a panic among the 1,800 passengers yesterday morning, in which scores of women and children were trampled upon. As the Bridgeport approached the fleet every one rushed to the port side. The steamer heeled over until her guards were submerged and a flood rushed over the lower decks. "She's turning over," was the cry. The crowd rushed for the starboard rail causing just as terrific a list in that direction. Then came a fight for life preservers, in which many were injured.

BABE FATALLY BURNED

Infant Let Drop by Mother in Kettle of Preserves Special to The Telegram. PARIS, Texas, Sept. 2.—While the wife of Tom Watson, colored, near Petty, was engaged in preserving fruit Friday evening and was holding her infant in her arms the baby accidentally slipped from her grasp and fell in the kettle, sustaining fatal burns.

If you could see how SCHNAPPS is made and sniff the delightfully appetizing aroma of the thoroughly cured, well-matched which it is cover the reat-tured tobacco of made, you would dis-sons for the big difference between SCHNAPPS and its imitators. SCHNAPPS is clean! The Reynolds factories are as clean as the cleanest kitchen—the tobacco in manufacture is scarcely touched by human hands—with special machinery to cleanse the leaf and produce clean chewing tobacco. When such scrupulous care is taken with the choicest sections of tobacco from America's finest chewing tobacco districts, can you wonder that SCHNAPPS is so satisfying, so pure, so appetizing and wholesome—so different from chews that pretend to be as good? Expert tests prove that this superior tobacco requires and takes a smaller amount of sweetening than any other kind—and has a wholesome, stimulating and satisfying effect on chewers. Be sure the letters on the tag and under the tag spell S-c-h-n-a-p-p-s. The Reynolds Company is under the direction of the same men who have managed it since 1875, and who have made the chewing tobacco business a life-study. There are plenty of plugs that look like Schnapps, without the same satisfying chewing qualities. R. J. REYNOLDS TOBACCO COMPANY Winston-Salem, N. C.

The Proper Home Spirit

C. W. Merchant returned last night from Fort Worth and Dallas, and reports the crops much better in this district than there, and says that...

We reminded Mr. Merchant that merchants sell goods cheaper than do those of the cities named, and he had a case in point.

On yesterday he bought a suit of clothes from the biggest clothing house in Fort Worth, and had to pay \$25 for it, not even being able to get a pair of suspenders there.

When he got home he found that his son Mack had just bought the same kind of suit made by the same firm, getting it from an Abilene firm for only \$17.

We have always contended that Abilene pays more for cotton and sells goods cheaper than any city and as cheap as any place that can be found.

The Reporter displays the proper spirit in standing up for its home town, for it is in this manner thriving towns and cities are built.

The statement that clothing is so much cheaper in Abilene than in Fort Worth is probably but a matter of speculation.

It is a pair of suspenders will square the account, doubtless the Fort Worth dealer will send them by the next train.

Lazarus Brown and Dives Rockefeller

There was an end to the tragic life story of Edgar Brown, the discoverer of the Meaba and Vermilion iron ranges, when Brown died, last week, at Salt Lake City in a pauper's home.

Brown owned the rich ore lands by right of discovery. John D. Rockefeller got them by right of money.

When Brown had located his immensely rich find—estimated to be worth \$15,000,000 even in that day—he looked for a partner for development.

John D. Rockefeller saw his chance. He knew the value of the security well enough. He loaned Brown a million and a half.

The ore was useless without a railroad and Brown built the Duluth and Iron Range road from the wilderness to the ore docks of Duluth.

When this railroad was completed Mr. Brown bargained with J. J. Hill of St. Paul for the purchase of the property at a cost which would have made the former wealthy.

Rockefeller heard about the contemplated sale. He didn't want it to go through. He was wonderful in his way of doing things.

Just how it was done is not proven, but before Brown could get the money due Rockefeller the notes came due.

The mortgage was foreclosed and the bank took the property. Rockefeller was left with a considerable amount of money.

Just an ordinary business transaction. All regular? A mere repetition of thousands of failures and foreclosures?

Maybe, Brown always contended that the failure broke him physically as well as a consoling of the state's efforts to get on his feet, in vain.

He died a pauper. Just an ordinary business transaction. All regular? A mere repetition of thousands of failures and foreclosures?

Anyways the man who found and developed the great iron fields died a pauper and Rockefeller added to his millions.

And yet—in the great white light of Eternity, when all things must be explained, who of these two would you rather be?

Elephant Cashes In

Death of Animal Blow to Circus Exhibiting in Texas. Special to The Telegram. EAGLE LAKE, Texas, Sept. 3.—Ruth, the elephant belonging to the Alexander and Collins shows, which exhibited here yesterday, died here yesterday afternoon.

The elephant was a male, about 10 years old, and was brought to the state from a cost not in excess of \$500, and Texas has never seen a warmer political fight than that in which James S. Hogg was the main center.

It is believed that the situation has materially changed since Hogg was a candidate, but if it has changed in the manner by which the candidates are selected, it is a public calamity.

The cost of the gubernatorial campaign in Texas undoubtedly was larger than is shown by the account rendered by the candidates, who reported the sum they spent out of their own pockets, but nothing was reported for the sum spent by their friends and backers.

A close friend and one of the lieutenants for one of the gubernatorial candidates told State Press early in July that the expenses of his friend's campaign would be about \$70,000, and State Press believes that fully that amount was spent, and that, too, for legitimate purposes.

"I favor the control of only the trunk lines by the national government and the ownership of all other roads by the state government."

The idea of government ownership and control brought home by Colonel Bryan has been very coldly received by the business interests of the country, and is calculated to put something of a damper on the Bryan boom.

Fort Worth has raised the amount, \$25,000, apportioned to her for 250 memberships in the Fat Stock show. A committee is now in charge of the work of securing the remaining \$25,000 from the stock raisers of Texas, Indian Territory and Oklahoma.

When he got home he found that his son Mack had just bought the same kind of suit made by the same firm, getting it from an Abilene firm for only \$17.

The statement that clothing is so much cheaper in Abilene than in Fort Worth is probably but a matter of speculation.

It is a pair of suspenders will square the account, doubtless the Fort Worth dealer will send them by the next train.

Lazarus Brown and Dives Rockefeller

There was an end to the tragic life story of Edgar Brown, the discoverer of the Meaba and Vermilion iron ranges, when Brown died, last week, at Salt Lake City in a pauper's home.

Brown owned the rich ore lands by right of discovery. John D. Rockefeller got them by right of money.

When Brown had located his immensely rich find—estimated to be worth \$15,000,000 even in that day—he looked for a partner for development.

John D. Rockefeller saw his chance. He knew the value of the security well enough. He loaned Brown a million and a half.

The ore was useless without a railroad and Brown built the Duluth and Iron Range road from the wilderness to the ore docks of Duluth.

When this railroad was completed Mr. Brown bargained with J. J. Hill of St. Paul for the purchase of the property at a cost which would have made the former wealthy.

Rockefeller heard about the contemplated sale. He didn't want it to go through. He was wonderful in his way of doing things.

Just how it was done is not proven, but before Brown could get the money due Rockefeller the notes came due.

The mortgage was foreclosed and the bank took the property. Rockefeller was left with a considerable amount of money.

Just an ordinary business transaction. All regular? A mere repetition of thousands of failures and foreclosures?

Maybe, Brown always contended that the failure broke him physically as well as a consoling of the state's efforts to get on his feet, in vain.

He died a pauper. Just an ordinary business transaction. All regular? A mere repetition of thousands of failures and foreclosures?

Anyways the man who found and developed the great iron fields died a pauper and Rockefeller added to his millions.

And yet—in the great white light of Eternity, when all things must be explained, who of these two would you rather be?

Elephant Cashes In

Death of Animal Blow to Circus Exhibiting in Texas. Special to The Telegram. EAGLE LAKE, Texas, Sept. 3.—Ruth, the elephant belonging to the Alexander and Collins shows, which exhibited here yesterday, died here yesterday afternoon.

The elephant was a male, about 10 years old, and was brought to the state from a cost not in excess of \$500, and Texas has never seen a warmer political fight than that in which James S. Hogg was the main center.

It is believed that the situation has materially changed since Hogg was a candidate, but if it has changed in the manner by which the candidates are selected, it is a public calamity.

The cost of the gubernatorial campaign in Texas undoubtedly was larger than is shown by the account rendered by the candidates, who reported the sum they spent out of their own pockets, but nothing was reported for the sum spent by their friends and backers.

A close friend and one of the lieutenants for one of the gubernatorial candidates told State Press early in July that the expenses of his friend's campaign would be about \$70,000, and State Press believes that fully that amount was spent, and that, too, for legitimate purposes.

JUICY PLOVER IN SEASON NOW Birds Flying South to Coast Feeding Grounds Plover are now on their return migration trip from the north, where they raised their young during the summer season and are making their way to the coast country, where they will winter, making their appearance again in this part of Texas next spring. These birds are not protected by the game laws of Texas and it is legal to kill them whenever found. There is no better bird for the table than the plover at this season of the year; in the spring, after having gone through the winter, they are poor, but even then the flavor of the plover is equal to that of any game bird, the quail or dove not excepted. Plover now are as fat as butter balls, and will no doubt be eagerly hunted for by the hunters of this section. It is legal to sell these birds and the restaurants are always in the market for them. Ten years ago the prairies near Fort Worth were a favorite feeding ground for these birds and the slaughter of them was terrific, as many as fifty being bagged by a single hunter in a morning and they were shot. Several hunters made good wages killing these birds ten years ago and selling them at 60 and 75 cents per bird. Plover now are so fat that when they strike the ground after having been shot, as they fly, the skin on the breast will burst, letting out so much grease from their fat that the hunters' game bags are saturated with it. It is deemed unfair by true sportsmen to shoot plover otherwise than on the wing, but pot hunters are not so sensitive and desiring to make sure will maneuver to get the birds in a row on the ground so as to kill two, three or four at a single shot. This is termed "hogchasing" by genuine sportsmen, who always give the birds a chance. In 1894, plover almost took possession of the Eighth ward and at early morning and late in the afternoon, the reports of shotguns in that part of Fort Worth sounded like a skirmish on the firing line. People stood on their galleries early in the morning and killed birds enough for their breakfast, and so eager did some hunters become and so exciting was the sport that they would get reckless, and shoot regardless of anything. Many

loads of shot found lodged in public residences and others found lodged in horses and cattle on the prairie and in lots adjoining residences. Captain J. C. Terrell was right in the heart of the plovers' feeding ground in those days and received the full benefit of the noise made by the hunters. He led the army of plover in that section of Fort Worth. Fly Only by Night The plover remain in this section only about thirty days. In their long journey from the northern hatching grounds they make stops to rest and feed by day and the best time to find them is in the early morning and late in the afternoon, just before the sun goes to rest. Of late years there has been fewer plover about Fort Worth than formerly. The birds retreat in the face of man and their main line of flight is further west, where they are just as plentiful now as they were in this section ten years ago. With the plover also come the curlew, a member of the same family, but double as large and whose flesh is equally as good. The curlew has a darker plumage than plover and his bill instead of being straight is hooked at the end. To bag a half dozen curlew even when plover are thick (and the two birds move together) is a big achievement that a hunter likes to talk about. The plover and curlew feed where the prairie grass is short during the day and at night when not on the move hide in the timber if there is timber near or in the long grass, emerging at early morning in the open.

RANK CONFERRED Pythians Hold Important Sunday Session At a meeting of Fort Worth Company No. 2, Uniform Rank, Knights of Pythias, held in the Castle hall of the Pythian Temple Sunday afternoon at 2 o'clock, the rank was conferred on the following named knights: Post Fort Worth Company No. 2—R. R. Owsley, F. J. and J. H. Nichols. By request of Ruby Company No. 45 the rank was conferred on the following members of that company—W. A. Crain, A. Strathead, E. J. Prince, H. M. Harper, J. A. Sweeney, Robert Dunham, C. A. Steel, T. E. Lowrey, Wm. MacClearn, George E. Chollar, H. H. Ingram, Charles M. Galloway and Joe Pugh. The meeting was then resolved into a joint meeting to consider the matter of the proposed encampment and a committee was appointed with full power to act to arrange the time and place for the encampment which it was voted to have. Brigadier General J. H. Tiller, commanding the Texas brigade, U. S. E. of P., presided during the initiation ceremonies.

Dickson was the pitcher for the visitors in both games, and held the locals down to six hits in each game, so badly scattered that they were no good, except to the individuals who made them, for they produced no runs for the home team. Merkel and Dupree were the Fort Worth twirlers, and though they also kept the hits down to six each, the Cleburne batters made their hits together and the result was runs, while the same number of hits for Fort Worth indelicately distributed over nearly the whole lot. Managers meant no runs for Fort Worth. The games were remarkably good exhibitions of ball playing and the spectators who may have been the partisans, saw some good ball playing as a finale to the season. The Cleburne team settled the question of the winner of the second series of 1936 Texas league championship and to decide who is the permanent holder for the whole season will require the playing off of the tie between Fort Worth, the winners of the first half, and the Cleburne team. Arrangements for the games have not yet been made. Mr. Ward stated, Monday morning. The game with Dallas, a play off of the tie of last Friday, slated for Monday morning, was not played because of the rain which fell in sufficient quantity to make the grounds too wet for ball playing. S.S.S. CURES ECZEMA The real cause for Eczema is the presence of humors and sour acids in the blood. These impurities get into the circulation because of imperfect action of those members of the system whose duty it is to collect and carry off the refuse and waste of the body. As this effete matter lies in the system it ferments and generates acid humors which are absorbed into the blood, overcharging this vital fluid with acid. In its effort to keep the system healthy the blood throws off the humors through the pores and glands of the skin, causing this tormenting skin disease. The escape of acids and humors through the pores and glands irritates and burns the skin, producing pustules filled with a clear, sticky fluid, which dries in crusts and patches, causing the most intense itching, and often pain. The trouble is in the blood, and S. S. S. is the remedy for Eczema, because it is a real blood purifier. It goes down into the circulation, removes all acids and humors and makes the blood rich, pure and healthy. When S. S. S. has done this the symptoms pass away, the blood is cooled and the disease cured permanently. Nothing acts so promptly or pleasantly in all skin diseases as S. S. S., and it is at the same time a fine tonic to the entire system. Book on Skin Diseases and medical advice free. THE SWIFT SPECIFIC CO., ATLANTA, GA.

COTTON YIELD LIGHT Weevils Get in Work on Crop Around Temple Special to The Telegram. TEMPLE, Texas, Sept. 3.—The receipts of cotton here Saturday amounted to 152 bales, being the best day's receipts so far during the present season. During the month of August the total receipts were 455 bales, as compared with 515 received during August a year ago. There were many farmers in town yesterday and complaint was general of shedding dead cotton and weevils, indicating a much lighter yield than first anticipated.

Revolutionary Saws Lacerate Man's Arm and Amputation is Necessary Special to The Telegram. TEMPLE, Texas, Sept. 3.—A serious accident occurred at Troy, eight miles north of Temple, the victim being A. D. Nelson, an employe of Macdonald Bros.' gin. The man was engaged in cleaning the ginstand when the revolving saws caught his arm and drew it into the stand up to the shoulder, mangle and lacerating a member, requiring prompt amputation. Nelson was also badly cut in the right side before he could be released from his terrible predicament. The doctors have small hope of saving his life.

MANGLED BY GIN Revolving Saws Lacerate Man's Arm and Amputation is Necessary Special to The Telegram. TEMPLE, Texas, Sept. 3.—A serious accident occurred at Troy, eight miles north of Temple, the victim being A. D. Nelson, an employe of Macdonald Bros.' gin. The man was engaged in cleaning the ginstand when the revolving saws caught his arm and drew it into the stand up to the shoulder, mangle and lacerating a member, requiring prompt amputation. Nelson was also badly cut in the right side before he could be released from his terrible predicament. The doctors have small hope of saving his life.

Untold Suffering and Constant Misery—Awful Sight From that Dreadful Complaint, Infantile Eczema—Commenced at Top of his Head and Covered Entire Body.

**MOTHER PRAISES CUTICURA REMEDIES**  
"Our baby had that dreadful complaint, Infantile Eczema, which afflicted him for several months, commencing at the top of his head, and at last covering his whole body. His sufferings were untold and constant misery, in fact, there was nothing we would not have done to have given him relief. The family doctor seemed to be wholly incapable of coping with the case, and after various experiments of his, which resulted in no benefit to the child, we went to Mason, Ill., to a druggist and got a full set of the Cuticura Remedies and applied as per directions, and he began to improve immediately, and in about three or four days began to show a brighter spirit and really laughed, for the first time in a year. In about ninety days he was fully recovered, with the exception of a rough skin, which is gradually disappearing, and eventually will be replaced by a healthy one."

"Praise for the Cuticura Remedies has always been our greatest pleasure, and there is nothing too good that we could say in their favor, for they certainly saved our baby's life, for he was the most awful sight that I ever beheld, prior to the treatment of the Cuticura Remedies. Mrs. Mabel Lyon, 1826 Appleton Ave., Parsons, Kan., July 16, 1906."

**COMPLETE TREATMENT \$1**  
Complete external and internal treatment for every humor, consisting of Cuticura Soap, Ointment, and Pills, may now be had for one dollar. A single set is often sufficient to cure the most torturing, disfiguring, itching, burning, and scaly humors, eczema, rashes, eruptions, from infancy to age, when all else fails.

Customers keep Ointment and Pills are sold throughout the world. Prepare and Sold by Dr. J. C. F. Wood, 120 N. 2nd St., St. Paul, Minn.

fine handkerchief lawn and the embroidery is all done by hand, but there are a great many appliques that can be substituted if the hand work proves too tedious or too costly, which are in every way to be commended. In either case the lines remain the same and it is the lines of the waist which provide its essential characteristics. In addition to the linen lawn the fine cotton materials and also the light weight silks, which in the lingerie style, are quite appropriate to the design. The insertion can be of any lace that may be liked or of narrow embroidery printed.

The waist is made with front and backs, the tucked portions being separate and arranged over the fronts on indicated lines, which will be shown when the pattern is cut away. The sleeves are simply full puffs and can be finished with bands at elbow length or with deep cuffs that extend to the wrists as liked.

The quantity of material required for the medium size is 4½ yards 21, ½ yards 25, 2½ yards 4, and 2½ yards of insertion to make as illustrated, ½ yard 18 inches wide for deep cuffs if the pattern 5405 is cut in sizes for a 32, 34, 36, 38 and 40 inch bust measure.

**TYPHOID PLAGUE IN WASHINGTON**

New Filter Completed and Typhoid Increases

Special to The Telegram.

WASHINGTON, Sept. 3.—The city of Washington is suffering from an epidemic of typhoid fever, a fact more remarkable as it has come immediately upon the completion of a \$3,000,000 filter plant, whose purpose was to render the water supply clean and sanitary.

Experts in the marine hospital service, who were called in to help discover the source of infection, pronounced it the Potomac water. The District commissioners have issued public warnings and advise that the water be boiled for drinking purposes.

New cases of typhoid are being reported at the rate of 75 a week. This is much worse than a year ago when the filter was still under construction, and no efforts were being made to purify the water. For the first eight or eight weeks the number of cases has been from 50 to 100 more each week than for the same period a year ago.

Washington is probably the most unhealthy city in the country. Few if any cities have so high a death rate. The death rate among black people is particularly high. The average annual rate per 1,000 has lately been running as high as 32 for blacks, and from 17 to 21 for white people.

Few cities have spent anything like the amount of money that Washington has on its water supply. The system was originally planned by George Washington, and was carried out only after many thousands of dollars. The intake is located 14 miles distant from the White House, at Great Falls on the Potomac river, and from this point the water is carried in an aqueduct to a reservoir located just beyond the north city boundary.

It was supposed by the engineers

**PREDICTS EARTHQUAKE**

Scientist Declares Disaster Will Visit Mexican Pacific Coast

Special to The Telegram.

CITY OF MEXICO, Sept. 3.—Prof. Emanuele Triaedraer of Naples, Italy, one of the noted geologists of the world, predicts that the next disastrous earthquake will occur along the Pacific coast of Mexico. He believes that it will be recorded within the next six months. Prof. Triaedraer came to Mexico to attend the annual meeting of the international geological congress.

The Italian scientist declares that the San Francisco and Alparalpa earthquakes were the result of changes in the earth's crust at the bottom of the Pacific ocean. The line of activity, he states, is not far distant from the west coast of Mexico, and he believes that as the changes continue the Pacific coast regions will be in danger.

Live Stock Commission Companies Begin Active Campaign

Special to The Telegram.

KANSAS CITY, Sept. 3.—The Co-operative Live Stock Company, incorporated at Denver last July, begins business in this city today. The company had its inception last April at the annual meeting in Denver of the American National Live Stock Association, when it was decided "to take action against the recent advance in commission charges for the sale of live stock at the various markets."

Stock was sold only to live stock companies a few days ago, and the commission permitted to hold more than fifty shares. The company will, it is said, reduce the commission on sheep and hogs far car load and will boycott the exchange of commission men in Chicago and St. Joseph. The commission on cattle will be the same as charged by the Kansas City live stock exchange.

**SHERIFF FATALLY SHOT**

Tragedy Occurs at Mexican Dance

Special to The Telegram.

SAN MARCOS, Texas, Sept. 3.—At an early hour yesterday morning a tragedy was enacted near Redwood in the northern part of Guadalupe county, seven miles from this place. Deputy Sheriff Porter of Guadalupe county was shot at a Mexican dance at Redwood, when two brothers named Torres assaulted him, shooting him just below the stomach and inflicting perhaps a fatal wound. He fired upon the aggressors, killing one instantly and dangerously wounding the other. He had only two balls in his pistol.

Porter was sent home and the physicians who went from here say his chance for recovery is slight. He is unmarried.

**CATTLE AND HOGS**

Steers Are Steady—All Grassers Cows Firm—Calves 25c Lower—Hogs Steady to Strong.

A liberal supply of cattle filled the pens this morning and trading was done in a lively fashion on all except calves, despite the inclemency of the weather. Total receipts, 3,100 head.

**Steers**

The beef steer supply was made up exclusively of grass stuff of none too good grade of excellence. Of a total of about thirty loads of steers not more than ten loads were fit for killers, the rest being fit only for stockers and feeders.

With no killing being on at the yards on account of Labor day packers were not inclined to be optimistic as to the amount of purchases to make and generally dalled over them. The best of the samples of the pretty weather until some of the second quality changed hands. This buying was done generally on a basis generally steady, with the close as follows:

**Stockers and Feeders**

A reasonably good supply developed in stockers and feeders, the supply being fully equal to the demand. Some very good fleshed steers averaged around 1,000 pounds with the gross but the bulk of the selling was done between \$2.50 and \$2.80. Sales:

**Butcher Stock**

Butcher cows were numerous, with a light end of good to choice, the bulk being common to medium cows. A good demand prevailed early on the best of the cows, with a steady tone as the market progressed, and the close was slow and weak. Top cows made \$2.40, with the bulk selling between \$2 and \$2.20.

**Calves**

Calves were on the market in a flood, 1,200 of them, mostly in the northern pens. Choice veals were comparatively scarce, the bulk of the calves run being big, heavy fellows, on which the demand is far from strong. Prices weakened at the close on heavy calves and closed a quarter lower. Choice veals made \$4.25. The bulk of calves sold from \$3.75 to \$3.85.

**FIRST OYSTERS**  
**SELL QUICKLY**  
Arrive With September and Are Rapidly Disposed Of

**YOU** aware that oysters R now on the market? September, first of the fall months to rejoice in the possession of the letter R, arrived Saturday, and the oysters came Monday morning inquiries at local fish markets disclosed that somebody, whether epicure or no, was on the watch for the first shipment, for by 11 o'clock everything that looked like an oyster, except the canned kind, had been sold and orders were already being booked for the Tuesday supply.

Reports from oyster beds this year say the crop will be plentiful, owing to the improved methods of cultivation. This is largely due to laws passed by Texas along the Atlantic coast, putting an end to the wholesale piracy which has heretofore been practiced, protecting the young and unsophisticated oysters, and regulating the bouandaries within which the oysters may be taken for market.

The oyster cocktail has not yet made its appearance at any of the Fort Worth restaurants, so far as a Telegram reporter was able to make the rounds Monday morning, but it is expected in a few days.

Arrested on Charges of Swindling Made in Fort Worth

B. C. Dean has been arrested at Houston and his bond fixed at \$500 on charges of swindling made to the police of Fort Worth by several parties in this city. Dean was in Fort Worth a week ago and by means of drafts on Houston banks he had secured several sums of money, the total aggregating in the neighborhood of \$100. The drafts were sent to Houston for collection and were returned endorsed "no funds," but by the time they were returned Dean had left the city. Detective Sebe Maddox, to whom the case was referred, with the chief of police at Houston and secured the arrest of Dean and then the case was presented to the county attorney here. Detective Maddox says, however, that it is not likely that the man will be brought back, as no county officer will go for him.

**TO INVADE MEXICO**  
Mormons Buy Thousands of Acres For Settling Purposes

Special to The Telegram.  
BALTIMORE, Md., Sept. 3.—The Mormons are planning an invasion of Mexico. Some time ago they purchased for colonizing purposes a large tract of land in the state of Oaxaca and within the last few days they have closed a deal for 300,000 acres of rich land in the Puerte river valley of the state of Sinaloa. It is said to be the plan to send 12,000 Mormon families from Utah, Colorado and Nevada into Mexico.

A short time ago Mormon interests secured from the Mexican government a concession covering the manufacture of beet sugar in Mexico. It is proposed to at once invest \$500,000 in gold in the industry.

Mormon investigations in Mexico have extended over several years, and the heads of the church are entirely satisfied with the possibilities of the republic. The Mormon colonies established several years ago in the northern part of the state of Chihuahua are very prosperous.

**LABORERS IN DEMAND**  
Western Pacific Wants 5,000 Men for Two Years' Work

A recent circular, issued by the general passenger department of the Denver & Rio Grande Railway Company, contains the following information: "The contractors engaged in the construction of the Western Pacific Railway between Salt Lake City and San Francisco are greatly in need of laborers and require immediately for this work about 5,000 men."

Letters are being sent out by the Denver & Rio Grande, which will insure work to applicants. The pay is from \$2 to \$2.50 per day, depending on the character of work. It is estimated that the work will last nearly or quite two years.

The work is being done by the Utah Construction Company and the E. R. and A. L. Stone Company and in addition to the common laborers and teamsters also require a number of steam shovel engineers, crane-men, firemen, bridge carpenters, blacksmiths, drill runners and other skilled laborers.

**Try an Experiment**  
It has been said that the man or woman who can read all of the want ads in a newspaper without finding one that stirs a little personal interest, or appeals to him or her in any way, is without human interests or needs.

Whether or not this is true, it may prove an interesting experiment for anyone, not already in the habit of reading the classified ads, to look over them carefully for one day. It may help you to learn how far you may have drifted from "the ways of the world"—how far about you may be living from "the small excursions and affairs of the day's life."

**RAILROADS KEEN COMPETITORS FOR GALVESTON BUSINESS**  
The agreement made in Chicago the second day of September, that it was supposed to have insured a settlement of the grain rate problem to the Gulf and to the seaboard ports, is not settled by the conference. It is for the business has resulted in several smashes in the rates lately. Most of the trouble is due to the desire to get the Gulf business, which has proved out of all proportions to records and to expectations.

All of the lines of railway reaching Galveston have a new record for the season in grain shipments and the elevators have been compelled to decline business tendered them by firms who have not heretofore shipped through the Galveston port, but now find there is such an advantage in so doing that they wish to use the grain shipping facilities at that port for the foreign shipment of grain.

**LITTLE AHEAD FOR COUNCIL**  
Minor Business in Sight for First September Meeting

For the city council meeting, the regular first Monday meeting of the month, there were few matters of great importance filed with the secretary at noon.

There is no report from the city engineer on the suggested new calaboose or detention house, advocated by the city marshal and on which the city engineer was directed to report an estimate, but it is understood that the estimate may be ready for submission this evening, will give the cost at from \$3,000 to \$5,000 which is so much in excess of the first stated cost of \$1,000 that many of the councilmen regard it with some misgivings. Another suggestion is that the part which seems to be absolutely required may be built now and the addition, to fully supply the need, later.

The formal proposition from the North Fort Worth city council for the sale of five acres of their dumping ground to the city of Fort Worth is expected to be presented this evening.

As stated in Sunday's Telegram there will be no full report of the special committee on water works management at the Monday evening meeting and, while the committee may submit certain recommendations, it is sure the council preparation will ask for further time for the preparation of the complete report.

**Petitions Filed**  
The following petitions have been filed for submission to the council, as well as a few tax relief petitions, not here given:

James E. Strong makes a tender of \$1,700 for a vacant lot he understands the city owns, at Wheeler and Adams street.

The formal contract as between the city and Henry R. Worthington for the purchase of a named lot of water meters.

Oaths and bonds of Special policemen J. Sprinkle, H. O. White and W. R. McMill and of Extra Policeman B. F. Harman.

A request of Dr. Barber for an ordinance providing for covering trash, garbage, etc., when being hauled through the city is filed.

Frank E. Trice petitions for the use of the city park September 22 for a picnic.

G. S. Hart complains of water damage from defective grading at Terrell and Cosedale avenues and wants \$4,000.

Property owners complain of damage from alleged defective storm sewer on South Nichols, between Broadway and Tyler Smith streets and ask for relief.

The Fort Worth Fuel Company petitions for a chance to bid on the city coal supply for the year.

George H. Reynolds has become involved in a dispute with the water works department about the just charge for certain water taps on Houston street for the George H. Reynolds building. The amount involved is about \$500.

**FEELS THE RATE LAW**  
Leaves His Private Secretary at Home

Special to The Telegram.  
KANSAS CITY, Sept. 3.—"Mr. Fairbanks, where's your private secretary?"

Representative E. C. Ellis asked the question as he and the vice president stood waiting for the Santa Fe train that was to take Mr. Fairbanks to Dodge City.

The vice president thrust one hand into a suit trouser pocket and the slinking of silver dollars could be heard.

"A private secretary is a luxury these days, he is not needed in the rate law. I could not afford to pay for myself and a private secretary, so I left him at home."

**THE BREATH OF LIFE**  
It's a significant fact that the strongest animal of its size, the gorilla, also has the largest lungs. Powerful lungs means powerful creatures. How to keep the breathing organs right should be man's chiefest study. Like thousands of others, Mrs. Ora A. Stephens of Fort Williams, O., has learned how to do this. She writes: "Three bottles of Dr. King's New Discovery stopped my cough of two years and cured me of what my friends called consumption. O, it's grand for throat and lung troubles." Guaranteed by Hancock Drug Co. Price 50c and \$1.00. Trial bottle free.

**"BOY WANTED" SIGNS NUMEROUS**  
Opening of School Cuts Down Available Supply

"Boy wanted." This inscription can be seen on more than one card hanging in show windows, on doors and other places in the downtown district.

No wonder. School opens Tuesday and almost every boy deserted his employer in order to make for the learning house.

When last Saturday night rolled around scores of boys when handed their school books started to school.

This was something fierce and the man who was forced to let his only office boy go, pulled his hair and said the boys were "rough, boys that want to look the town over with a rake to find another. It has been known for a long time that real good little boys were scarce, very.

Possibly it was the telegraph companies that were hit hardest by the opening of the city's schools. At the Western Union over a dozen young Americans, who had trundled all over town during summer delivering messages, quit. They walked out with a laugh notwithstanding the fact that school books stared them in the face.

Monday morning doctors, merchants, brokers, banks, restaurant keepers, telephone offices, grocerymen, messenger services and others commenced to write the sign "Boy wanted," and up until late in the day the majority of them were still wanting.

But surely "rough, boys that want to work and can be awfully shy just now. The few that were in town have got to go to school and the few that are left are already working."

great deal of late cotton in his field and that is but little damaged. He saw the first of this year's weevil about three weeks ago and the increase in the numbers in the last few days is wonderful.

The boll worm is doing some damage and he is so found, in some of the bolls, a much longer worm than the true boll worm, which he called a "corn worm." The latter is fully one inch and a half long.

Mr. Salmons says that all of the late cotton in that part of the county is badly damaged or absolutely ruined. The early cotton is not so much affected.

The weevil has grown worse with every succeeding year for about three years back.

**32 ROOMS IN NEW BUILDING**  
Structice at Poor Farm Will Be Most Complete in State

County Commissioners Purvis, Andrews and Sweet met in the county commissioners' room Monday morning but as there was not a majority of the commissioners present no business was transacted. The commissioners will meet in regular session next Monday and dispose of accumulated business.

At the meeting Monday the commissioners inspected and discussed the plans for the new building to be erected at the poor farm, but pending bids for the construction of the same nothing will be done. This building will be a two story brick, lathed and plastered inside, with concrete floors, and in dimension it will be 116 feet front by 48 feet deep. When completed it will be the best and most complete poor farm building in Texas. It will have thirty-two rooms, sixteen on the first and sixteen on the second floor, with two halls the full length of the building on each floor.
