SOLDIERS AND HOODLUMS KILL JEWS BY HUNDREDS

Men and Women Bayoneted as

Officers Take Part

ST. PETERSBURG, Sept. 10.—The predictions made in these dispatches Aug. 23 of a Jewish massacre at Siedlce, Russian Poland, has unhappily been justified by fighting which began Saturday night and developed yesterday into a carnival of indiscriminate slaughter in which soldiers and mobs took part.

The unfortunate Jews were shot and bayoneted in the streets of the town. Houses and shops were broken into and sacked. Valuables were carried off and offered for sale by the soldiers to passengers on passing trains. In addition to the Jews a number of Christians and even some officers met death in the fighting.

The number of victims has not yet been established, but a conservative estimate places it at 140.

Jews in Panic
Jewish fugitives who thronged the railroad stations at Siedlce are in a state of panic. Reports received here from Warsaw and other towns in the vicinity of Siedlce place the number of victims at several thousands. Early reports of the Siedlce massacre put the responsibility at the door of the terrorists, but the fugitives declare that the soldiers had never allowed to get so completely out of hand without connivance, if not under actual direction, of their officers.

Twelve Officers Killed
The first reports received of the Siedlce massacre last June said the terrorists had killed also. Passengers who arrived in Warsaw at night gave the following account of the slaughter.

"After the murder of the policemen by terrorists Saturday night and the firing of a volley by the troops into the assembled crowd, which resulted in the killing of two citizens and the wounding of many more, the terrorists held a meeting, at which it was decided to exact vengeance by inaugurating a general campaign against the police and troops similar to recent activity along the same lines in Warsaw. Sunday morning twelve patrolmen and soldiers were killed. As a result of this a Libau regiment, in a state of anger, marched into the afternoon and shot the Jews as they fled, many of them shooting right and left as they went.

Soldiers Sell Booty
The troops were joined by crowds of hoodlums who co-operated in plundering and wantonly destroying everything they were unable and undesirous of carrying away. The result of booty by the soldiers went under the very eyes of their officers. At a late hour in the afternoon a Kaluga regiment arrived on a special train. The measures were instituted to put a stop to the program. In spite of this, however, the shooting continued up to a late hour last night. The correspondent of the Associated Press, who was not able to get into Siedlce yesterday started for there a second time this morning. Siedlce is a town of 30,000 population, half of whom are Jews.

Troops surrounded the houses from which this firing came and poured volleys through the windows and doors. This was followed by a search of the premises, which soon developed into wholesale plundering and subsequently into massacre and slaughter.

The trouble began on Plienka street and spread rapidly to a large portion of the town. Jewish shops which have been looted. Owners who defended their property were killed or wounded. Any person seen leaving the house or looking out a window was shot without mercy.

Artillery Used
WARSAW, Sept. 10.—The artillery was used in Siedlce this morning and buildings on Plienka, Warsaw and other streets have been destroyed. According to reports received here, twenty-five Jews were killed and 3,000 wounded during the program.

NEW YORK, Sept. 10.—The Cunard line steamer Carpathia, which arrived yesterday from the Mediterranean ports, reports that on the outward voyage Aug. 9, at 3:30 p. m., a Hungarian mislabeled overboard. After an hour's search in the darkness, the boat returned to the steamer without finding the man. The next day the Carpathia stopped at Gibraltar and then sailed for Naples.

At 4:30 o'clock in the afternoon she overtook a Liverpool steamer, which signaled she had a man on board belonging to the Carpathia. The man was transferred, and to the astonishment of the officers, it was discovered he proved to be the interpreter. He said that after he had swam about for seven and a half hours the steamer came along and picked him up. He added that he had tried several times to drown himself.

NEW YORK, Sept. 10.—The Tribune today says:

Count Hans Ferdinand von Pochberg, heir to the duchy of Rohstock and officer in the kaiser's bodyguard, nephew of Princess Marie von Saxe-Weimar and cousin of the Grand Duke Michael von Saxe-Weimar, married yesterday at Osting, Louise Ernestine Carew, a German shop girl, whom he had summoned here to wed, and in so doing severed the ties that bound him to his family, his regiment and his associates in Germany.

Marries in Boarding House
The ceremony took place in a boarding house and Rev. Dr. McWilliams of the Ossining Presbyterian church officiated. A civil ceremony, it was announced, had been performed in Germany two years ago.

Well Known in Berlin
The Count is a son of Count Bolke von Hockberg of Rohstock, in Silesia, and superintendent of the royal opera in Berlin. His mother was Princess Christine von Schonach-Carolath, a cousin of Crown Princess Cecelia. Young von Hockberg attended the Boett Military College and was appointed to the first regiment of German foot after his graduation. He was constantly at court. He was head usher at the crown prince's wedding in June, 1905.

Becomes a Chauffeur
During his career in Berlin the count met Miss Carow, who was a clerk in a glove store, and an attachment followed. To break this, he was sent to America. In New York he stayed for a while at the Hotel Empire as "Mr. Graf," but soon assumed his real name. He obtained employment as a chauffeur in Tarrytown. Soon the count called for Miss Carow to join him. The German authorities tried to prevent her from leaving Germany and afterward from landing here.

BALTIMORE CELEBRATES
Services Commemorate Recovery From
1904 Conflagration

SPECIAL TO THE TELEGRAM.
BALTIMORE, Sept. 10.—The jubilee celebration in commemoration of the recovery of Baltimore from the big fire of 1904 began Sunday with praise service in the various churches. The celebration will continue throughout the week. A military parade Tuesday will be participated in by battalions of marines from the cruiser Newark, and from companies from Annapolis, Washington and League Island. The chief entertainment of the week will be the monster industrial parade Wednesday. From present indications there will be at least 30,000 men in the parade.

Crowd Unable to Batter Down
Doors and Rescue

CHICAGO, Sept. 10.—A dispatch to the Tribune from Mineola, Texas, says: In an effort to burn his way out of jail yesterday, Silas Johnston, a negro, lit his own funeral pyre. He was cremated with a mob surged around the jail watching his last agonies through iron window bars, but unable to save him.

Started Fire in Jail
Johnston was arrested on a drunkenness charge and started a fire in the prison, hoping to burn his way out. The fire got beyond his control, and the turkey could not be found until too late.

A general fire alarm was turned in and crowds rushed to the burning lock up. Impelled by the screams of the negro frantic attempts were made to rescue him.

A heavy battering ram was procured, but the iron doors withstood the shock. Axes and sledge hammers had no more effect, and the crowd was forced to look on and watch the negro burn to death.

The town is without adequate fire service and though the fire got beyond control, the flames, the fire got beyond control. The negro was crying out in his agony. After the last attempt at rescue, the parents' wishes of the ill fell in and he was buried beneath the debris.

SPECIAL TO THE TELEGRAM.
TEMPLE, Texas, Sept. 10.—The little 11-months-old daughter of Mr. and Mrs. Sam H. Cater, living two miles west of Temple, died last night under very peculiar circumstances. The child was apparently well at bed time, but about 11 o'clock the parents were awakened by the evident distress of the infant. A physician was hurriedly summoned, but before he could arrive the baby had breathed his last, after having been sick only about an hour.

Reported That the Revolution-

Capital City

CHICAGO, Sept. 10.—The Record-Herald today says:

Mrs. Emily White, 59 years old, who says she is a granddaughter of the illustrious Patrick Henry, expects to be evicted today from her shabby home at 3116 Armour avenue. She is a paralytic, confined to bed, and in addition suffers with rheumatism and heart trouble.

Dr. Andrew L. Smith, who visited the invalid some days ago, at the solicitation of the bureau of charities, when evicted was threatened, declared that any effort to remove the woman would result in her death. Notwithstanding this, according to those in the house, a constable called Saturday and roughly announced that the house would have to be vacated today and that an ambulance would be furnished to convey the invalid to the poor house.

Cared for by Daughter
For six years, during which she has been unable to leave her house, the aged woman has been cared for by her daughter, Mrs. Martha Williams, 58 years old, who also is so crippled with rheumatism and illness that for many months she has been unable to earn enough money to properly care for her mother and herself.

Live on \$12 a Month
During this time they have depended solely upon a monthly pension of \$12 from the government, because the son and brother, Marcus White, served as a soldier in the Fifth Massachusetts cavalry during the civil war and there contracted a chronic illness from which he died in 1857.

Common Law Marriage
Mrs. White is the daughter of Reuben Henry, who, she claims, was the son of Patrick Henry by a common law marriage with an Indian woman, who bore him two daughters and a son. Later, according to the story, when the statesman refused to formally legalize the marriage, an Indian woman returned to her tribe, taking with her the two daughters, but leaving the boy, Reuben, with the father.

SPECIAL TO THE TELEGRAM.
NEW BEDFORD, Mass., Sept. 9.—After a year's incarceration at the state leper colony on the isolated island of Penikese, and two years of strict seclusion under the surveillance of the state charity authorities, Mary Barros, a leper, from Wareham, is to be released as cured, according to a statement by Dr. Louis Edmonds, the state board's resident physician at Penikese.

Mrs. Barros was living with her husband in East Wareham, when, two years ago, it was found that she was, and had been for some time, a leper.

She was removed to Penikese about a year ago, when the state colony was established. The presence of the disease was determined by a culture of secretions of the throat.

Since she is supposed to have had the disease Mrs. Barros has become the mother of three children, one of them being born on Penikese island last March. All of the children are said to be in normal physical condition.

CHICAGO, Sept. 10.—Secret memorandum covering illegal transactions in the Stensland bank, were found yesterday by Police Inspector Shippy among the effects of Frank Kowalski, the teller, who suicide followed closely by the exposure of the bank's condition.

Records Tell Story
The record kept by Kowalski, it was alleged, indicates apparently that in less than two weeks Henry W. Hering, the imprisoned cashier, personally obtained \$110,000 of the money of depositors by the same means adopted by Stensland in his systematic looting of the vaults. In four months by the use of "cash tickets," which he placed in the drawer, he obtained \$100,000 more, according to Kowalski's schedule, and in another month \$50,000.

Cupboard Held Secret
The discovery of Kowalski's tell-tale figures was a result of the opening yesterday of a wooden cupboard in one of the bank vaults that had remained unnoticed since Bank Examiner Jones took charge of the institution Aug. 4.

When it was forced open, in the presence of Attorneys Koch, Weissenbach and Jacob W. Loeb, representing Receiver Petzer, a large bundle of \$20 bills, the existence of which had not been suspected and which will increase materially, it is believed, the total amount stolen from the bank, was found.

In addition, there was a memorandum in the handwriting of Henry W. Hering, which related closely with the memorandum of Paul O. Stensland's forgeries, which he left behind when he fled from Chicago. One of the new forged notes was for \$25,000.

PORTLAND, Maine, Sept. 10.—A fair day, interesting and important issues and a determination of party leaders to get out every possible vote, all combined today to bring throngs of citizens to the polls. Voting will be continued until 5 o'clock in the afternoon. It will be several days before the result in the 520 cities, towns and plantations will be known. Maine is a prohibition state and the question of the sale and manufacture of liquor is practically the sole issue before the voters at large this year, while those of the second congressional district are called on to deal not only with the liquor question, but also indirectly with the question of labor legislation in the lower branch of congress.

Fight Against Littlefield
This condition is brought about by Charles E. Littlefield's failure to vote for certain labor measures advocated by the American Federation of Labor. Samuel Gompers, president of the federation, personally stumped the district and asked the people to defeat Mr. Littlefield. Prohibition has been the keynote of the campaign of Governor Cobb.

Prohibition Main Issue
Governor Cobb's re-election means a continuation of prohibition. Backed by the Cobb-Sturgis bill, which was passed by the last legislature and which was the subject of severe criticism by the Democrats during the campaign. The election of Cyrus W. Davis, Democratic candidate for governor and supporting the Democratic legislature rule, is once more placing before the people the question of the sale and manufacture of liquor in the state and the retirement from public life of Senator Frye.

Curtin is said to have lost his temper during a dispute with Jardine Saturday night over a baseball game and to have cut Jardine's throat with a razor.

When taken to the police station, Curtin was apparently in good spirits, laughing and chatting. He will be given a hearing today.

QUITS AFTER 37 YEARS
Miss Rosa M. Water Holds Long Rec-
ord of Service

SPECIAL TO THE TELEGRAM.
WASHINGTON, Sept. 10.—It is seldom that a government clerk resigns, and rare indeed after nearly two score years of service, for death as a rule then musters out the faithful employe, but Miss Rosa M. Water, of the loan and currency division, has resigned from the post she has held for the past thirty-seven years in the treasury department. A personal appointee of President Grant from his home town of Galena, Ill., Miss Water early proved her worth and amid the changes of administration and new treasurers she was still found "available."

She became expert in detecting counterfeiters, and it is said that she will be keenly felt. Now advancing years have earned her a right to rest from her labor, and she is going to spend the remainder of her days in Milwaukee, Wis. Every one of her associates has a kindly word for her.

The quiet, genial and thoroughly reliable clerk will be greatly missed in the office where she has served so long.

Knights Templars to Entertain Boston and Maine Official

D. J. Flanders of Boston, Mass., general passenger agent of the Boston and Maine railway, arrived in Fort Worth Sunday evening in his special car, over the Rock Island. Mr. Flanders is accompanied by his family and while he comes to Texas to see something of the state, he also comes to Fort Worth, the first of the important cities of the state at which he stops, that he may see his son, who is one of the prominent civil engineers with the Northern Texas Traction Company at Fort Worth.

Tuesday evening Mr. Flanders will be the honored guest of World Commandery No. 13, Knights Templars, at a reception to be tendered him at Masonic Temple at 8:30 o'clock. He is a past grand commander of the grand commandry, Knights Templars of Massachusetts and Rhode Island, those two states being joined in the one commandry.

Thursday evening the Dallas Commandry No. 6, of Dallas, will tender him a reception at Dallas.

He will visit other parts of the state before returning north.

TO BE BOYS' DIRECTOR

E. B. Travis of Chicago Accepts Position

E. B. Travis of Chicago has accepted the call of the Fort Worth Young Men's Christian Association to become boys' work director when the work opens.

Mr. Travis has had a large experience in association work and last spring graduated from the Chicago Y. M. C. A. training school after a three year course. During his course he spent much of his time with boys, and liking this line of work so well, he decided to continue in this department.

The directors of the association were compelled to go out of the state to find a boys' work man, as there is not in Texas at this time a man employed in this capacity.

The Fort Worth association is again setting a new pace for the other associations of the state in employing for his whole time a trained man to look after the boys.

The finishing of the building is progressing steadily and those who have been through it are pleased with the prospect of splendid facilities for a modern work.

From Dreadful Pains From Wound on Foot—System All Run Down After Six Months' Agony—Not Able to Work—Completely Cured in Two Weeks

MIRACULOUS CURE BY CUTICURA REMEDIES

"Words cannot speak highly enough for the Cuticura Remedies. I am now seventy-two years of age. My system had been all run down. My blood was so bad that blood poisoning had set in. I had several doctors attending me, so finally I went to the hospital, where I was laid up for two months. My foot and ankle were almost broken as a result of recognition. Dark blood flowed out of wounds in many places, and I was so disheartened that I thought surely my last chance was being leaving me. As the foot did not improve, you can readily imagine how I felt. I was simply disgusted and tired of life. I stood this pain which was dreadful, for six months, and during this time I was not able to wear a shoe and not able to work.

"Some one spoke to me about Cuticura. The consequences were I bought a set of the Cuticura Remedies of one of my friends who was a druggist, and the praise that I gave after the second application is beyond description. It seemed a miracle, for the Cuticura Remedies took effect immediately. I washed the foot with the Cuticura Soap before applying the Ointment and I took the Resolvent at the same time. After two weeks' treatment my foot was healed completely. People who had seen my foot during my illness, and who have seen it since the cure, can hardly believe their own eyes."

MRS. WM. ASTOR SERIOUSLY ILL

Has Been Leader of Real 400 Since 1874

By CHOLLY KNICKERBOCKER. Special to The Telegram.

NEW YORK, Sept. 10.—The serious illness of Mrs. William Astor, and I am assured that her illness is serious, brings before the public eye the most remarkable woman in American society. It has been said that Mrs. Astor is society as far as the New York branch of the institution is concerned.

Since 1874, when she gave the first of those balls, an invitation to which means to the recipient that she has reached the highest round of the social ladder, Mrs. Astor's right to the leadership in society has been undisputed. In her person was united the best of all things—Knickerbocker blood, with unlimited cash, exquisite taste and unerring judgment in social matters.

Her invitation list has always been famous for its exclusiveness. This exclusiveness was not gauged by any standard known in these modern "slipshod" days, really, cannot think of any other word that expresses it—but was so built on the lines of the old Knickerbocker blood that to be added to it and to be seen at any of the Astor entertainments was to set wide for all gates to New York society.

This old blood did not draw the line at trade or business so much as at the inborn refinement—the polished family and a respectability that money could not buy.

Like his cousins, young Whitney is a simple unaffected young fellow with a strong vein of practicality. He should make a model husband.

Morgan Out of Water

J. P. Morgan and his millionaire neighbors about Thirty-sixth street and Fifth avenue face a water famine. A leak in the main supplying that section of the city has caused the supply to be shut off indefinitely and the millionaires for a time will have to take their straight or use mineral water.

John Low Dead

A dispatch from London tells of the death of John Low, who was one of the officers of the Confederate privateer Alabama. He was 71 years of age. While not as widely known as Commodore Semmes and Commander McRish, his superior officers, Mr. Low did gallant service on the Alabama.

Traveling Rush Enormous

On account of the great homeward rush from summer vacations, the New York Central finds it impossible to store all the trunks in the Grand Central station and has piled more than 200,000 pieces of baggage in the Grand Central Palace.

So great is the travel to New York that it is necessary to give two days' notice to secure parlor car seats. They are bringing children home by thousands to be ready for the opening of schools Monday.

Girl of 8 Heroine

"Well, I couldn't stand there and see Nellie drown, could I?" That was all modest 8-year-old Jessie De Young of Jersey City would say after she had proved herself a little heroine by saving Nellie Drew, aged 12 years, from drowning in New York bay.

Without a moment's hesitation the 8-year-old girl sprang into the water with all her clothes on and swam to her drowning playmate, whom she rescued.

Rabies on Increase

An epidemic of rabies has reached alarming proportions about New York and the disease is more than 100 years in the city. It is the announcement that is made by Director W. L. Wheeler of the Pasteur Institute.

Six new cases have been received at the institute within the last day or two and already 400 cases have been treated there since Jan. 1. As many more have been privately treated. The experts are unable to say what has caused the epidemic. They only know that it is increasing rapidly in Brooklyn, Yonkers, many New Jersey towns and Massachusetts and Connecticut.

Poker Not a Crime

Under the decision made by Magistrate Stewart in the case of Mrs. Goldham, who was threatened with prosecution because she indulged in the great American game, he holds there is no reason why a woman should not play poker, even if her husband objects.

"I see no harm in the game," said the magistrate, with a calm judicial poise. "It isn't a crime to play poker."

REPUBLICANS SEE BIG FIGHT AHEAD

G. O. P. Guards Against Defeat in November Elections

Special to The Telegram.

WASHINGTON, Sept. 10.—The republican party, its achievements for half a century, and particularly its record in the present congressional campaign, is commended to the voters in the campaign textbooks given out by the republican congressional committee. The book is replete with republican doctrine, embracing every conceivable subject upon which information may be desired. Radicalism or conservatism, it is declared, never are matters of concern to republicans, but it is said "they are content with practical and progressive ideas and the maturing of those ideas into positive performance."

Every statement made and all figures presented is declared to be official or authoritative.

Issues of Campaign

In discussing the campaign issues of 1906 it calls attention to the fact that since the termination of the Fifty-third congress in 1895, the house of representatives has been republican, and adds that "there is every reason to expect that a substantial working republican majority will be elected."

During those ten years, it is said, "we have made a greater advance as a nation and a people than was ever made before by a generation as long as many respects greater than during our whole previous history. There cannot, therefore, be the least doubt of republican success if the voters study carefully the record of the two parties."

There will be thousands and hundreds of thousands, the book says, "who will vote for the first time in November, who were mere children when the democrats had a majority of representatives, and they do not all vividly remember the awful times and conditions brought on the country by that congress."

The Tobacco That Made Chewing Popular

Man's fondness for chewing tobacco is created and popularized by the tobacco produced in the famous Piedmont tobacco belt. Only choice selections of this well matured, thoroughly cured leaf are used in making SCHNAPPS. That's why SCHNAPPS requires and takes a smaller amount of sweetening than any other kind—and that's why SCHNAPPS has a wholesome, stimulating and satisfying effect on chewers.

There are many imitations of SCHNAPPS claiming to be "just as good," but without the flavor or quality that has made SCHNAPPS sales more than all similar tobaccos.

It is made in the Reynolds factories, famous for producing the best chewing tobaccos, by clean, sanitary processes, under the same direction, since 1875, of men who have made the business a life study. They are the largest and best equipped flat plug factories in the world and are situated in the very center of the world's greatest chewing tobacco district.

If you've never chewed SCHNAPPS, now is the time to get acquainted with the cleanest, most healthful, stimulating, satisfying and wholesome form in which tobacco can be used. Do not accept imitations.

TO BE BOYS' DIRECTOR

E. B. Travis of Chicago Accepts Position

E. B. Travis of Chicago has accepted the call of the Fort Worth Young Men's Christian Association to become boys' work director when the work opens.

Mr. Travis has had a large experience in association work and last spring graduated from the Chicago Y. M. C. A. training school after a three year course. During his course he spent much of his time with boys, and liking this line of work so well, he decided to continue in this department.

The directors of the association were compelled to go out of the state to find a boys' work man, as there is not in Texas at this time a man employed in this capacity.

The Fort Worth association is again setting a new pace for the other associations of the state in employing for his whole time a trained man to look after the boys.

The finishing of the building is progressing steadily and those who have been through it are pleased with the prospect of splendid facilities for a modern work.

HOPE FOR BARRINGTON

Effect Will Be Made in Condemned Murderer's Behalf

Special to The Telegram.

ST. LOUIS, Sept. 10.—That Fredrick Seymour Barrington, condemned murderer, did not kill James P. McCann, and that the real murderer is at large in St. Louis, was the startling statement of Mrs. Lillian E. Gates, St. Louis society leader. Mrs. Gates has visited Barrington and discussed plans for his defense and promised sensational developments. According to the society woman's statement Dr. Mary Hart of Cincinnati, who was well acquainted with McCann, will come to St. Louis and give information which will clear Barrington and lead to the apprehension of the guilty party. Mrs. Gates says her brother and Barrington were school chums at Eton and therefore she has interested herself in representing him. She will request the British ambassador to ask his government's assistance.

LONGWORTH CONFIDENT

Says He Will Be Re-elected to Congress This Fall

Special to The Telegram.

OYSTER BAY, N. Y., Sept. 10.—"I will be re-elected to congress this fall beyond a doubt." This statement was made today with much emphasis by Representative Nicholas Longworth, with his wife left Sagamore Hill after a visit to his mother-in-law, for their home in Cincinnati.

"I know nothing of any plan of Mr. George B. Cox to prevent my re-election. Even if he had the desire he has not the power. The fact that I was not chosen as a delegate to the state convention has no bearings on the congressional race."

Mr. and Mrs. Longworth are looking well and enjoyed their visit to Oyster Bay, brief as it was.

What is a Backache?

IT IS NATURE'S WARNING TO WOMEN

Diseases of Woman's Organism Cured and Prevented by Lydia E. Pinkham's Vegetable Compound.

"It seems as though my back would break. Women utter these words over and over again, but continue to drag along and suffer with aches in the small of the back, pain low down in the side, "bearing-down" pains, nervousness and no ambition for any task."

They do not realize that the back is the mainpring of woman's organism, and quickly indicates by aching a diseased condition of the female organs or kidneys, and that the aches and pains will continue until the cause is removed.

Lydia E. Pinkham's Vegetable Compound has been effective for many years the one and only effective remedy in such cases. It is a specially cured female and kidney disorders and restores the female organs to a healthy condition.

"I have suffered with female troubles for over two years, suffering intense pain each week, my back ached until it seemed as though it would break, and I felt so weak all though I did not find strength to attend to my work but had to stay in bed a large part of the first two or three days every month. I would have sleepless nights, bad dreams and weary headaches. All this undermined my health.

"We consulted an old family physician, who advised that I try Lydia E. Pinkham's Vegetable Compound. I began taking it regularly and soon found that I could sleep and eat better than I had done for months. Within two months I began regular and no longer suffer from backache or pain."—Miss Maude Morris, Sec. Ladies' Aid and Mission Society, 56 E. Hunter St., Atlanta, Ga.

Mexican General Says There Is No Danger of War

Special to The Telegram.

EL PASO, Sept. 10.—A special to the Herald from a staff correspondent sent to Douglas, Ariz., to meet General Luis Torres, commander of the Mexican military zone, embracing the states of Sonora, Sinaloa and Lower California, declares the general calls the sensational revolutionary talk "nonsense" and says:

"The men under arrest have no money, have no influence and are simply wretched rascals who fled from Mexico to escape their crimes. In all their letters captured there are pleas for money, showing that they have no finances, and that they are a class of men who can never do anything serious."

"There is a feeling of unrest, I admit, in northwest Mexico, but just there is a feeling similar in southwestern United States, and nobody knows the cause, but so far the so-called revolutionists have no money and the Mexican government is giving itself no concern, except taking such precaution as the United States or any other country would."

"There will be no serious trouble and the arrest of the Arizona men will end the matter entirely."

He speaks warmly of his and Mexico's gratitude for the prompt steps taken by the United States officials.

It is believed that the trial of the alleged revolutionists at Douglas will be prepared pending the arrest of other members of the junta at St. Louis.

ALLEGED CURE FOR CANCER

There is no question but that medical science has made great progress during the past few years, but some diseases have apparently baffled all efforts in the direction of finding a panacea. Consumption and cancer are two of these, and people who are afflicted with these maladies are reduced to the extremity of sitting down and patiently awaiting the summons that is to free them from their sufferings, notwithstanding the general belief that no disease has been inflicted upon the human family for which there is not a remedy in existence. The open air treatment for consumption has given much encouragement, and it is claimed that in many cases a cure has been effected. But cancer once in the blood has seemed to be an almost hopeless proposition.

Belief that a remedy for cancer has been found is expressed by Dr. C. W. Saleeby, F. R. S., the well known scientist and author of London. He describes the results of the researches into the cure of cancer made by Dr. John Beard of Edinburgh, who has devoted over twenty years to the study of tumors, malignant and benign. Dr. Saleeby does not assert that absolute certainty has been attained, but he does say:

"The giving of the widest and most immediate publicity to these results seems to be a proceeding from which it would be cruel and cowardly to refrain, even though absolutely dogmatic and final statement could not yet be made, and even though one may be accused of rushing in where wiser people fear to tread. If the cases I have seen be not exaggerated, the common error of the term—that is to say, due to divine interference with natural law—has no choice but to speak."

Dr. Beard's theory of the method by which cancer appears in the human body is given in the article. Dr. Beard holds that the cells, of which it is formed, have always been in the body, and only under exceptional conditions awake to malignant activity. They may be destroyed or, as he puts it, "dormant," by means of trypsin, and to establish this Dr. Beard inoculated several mice with cancer and then treated two with trypsin. One of these was accidentally killed after four injections in ten days.

"The microscopic examination," says Dr. Saleeby, "demonstrated that every single cell was in a state of degeneration, fully half of them being represented by shapeless masses of particles, probably remains of nuclei, and all the rest were mere skeletons of cells. Even these seemed to be in many cases to be crumbling and falling rapidly away, as though in a hurry to quit the scene."

The treatment of the second mouse lasted for twenty-one days, when it was killed, since on that day one of the untreated mice died of its tumor. In the case of this mouse the tumor was as large as the last segment of a man's thumb, while in the treated mouse it was only as big as a lentil. Microscopically this latter epiphyse for a tumor was in advanced degeneration, shrinking away to nothingness and quite harmless. Even without further treatment the tumor would have in all probability, been absorbed shortly or its remains cast out."

Dr. Saleeby goes on to describe two cases of the distention of trypsin to man, and the excellent results obtained. "I have personally watched," he says, "from the first the treatment of a case of cancer in an outlying dis-

trict of London. The surgeons had pronounced the case inoperable and the patient was evidently sinking. Writing two days less than four weeks later, he tentatively and partially commences treatment by trypsin. I am able to report that, so far as all the indications go—and they are abundant—the tumor has already been killed outright. The patient is on the high road to recovery, though some difficulty has yet to be apprehended by reason of the poisonous action of the disintegration products of the growth. So far as my small experience goes, this is certainly the most amazing thing I have ever seen. Or another case Dr. Saleeby says it "has been under treatment for six weeks, three successive operations having been performed by a distinct surgeon, who declined to undertake a fourth. In this case it is possible to say, even at this stage, not only that the growth of the tumor has ceased, but that it is now dead. The patient is apparently making a rapid recovery and it is expected that in a few days more no signs of the tumor will be discoverable."

Of the methods of application of trypsin too little experience has been had to permit of dogmatic statement, but it may be administered by the mouth, under the skin, and, where possible, by local application. Its application to the nose, as done by the experiments made upon mice, seems entirely innocuous. It has, moreover, the virtue of being readily obtainable anywhere. Experience will show whether the long desired remedy for the awful scourge of man has been discovered, but so certain is Dr. Saleeby of the value of this new method that he writes:

"The facts which I am about to recount may be due to a series of miraculous interventions with the course of events. Or they may be no facts, but dependent upon the simultaneous loss of reason by the various persons who have observed them. There are now too many of them, and they are too consistent for any one to believe that they are to be explained by a series of unprecedented coincidences. The other hypothesis being incredible, I for one have no choice but to believe that I am now privileged to describe a number of facts, our knowledge of which may mean, by their use in embryology, but promises to put an end forever to what is perhaps the most appalling of all the ills that flesh is heir to."

RELIGION, GOODNESS AND FAITH TODAY

It is asserted that civilized people are becoming less religious; that in the rush and turmoil of business; in the growth of wealth and the pursuit of pleasure, and as a result of applying science to religion, belief in God is lessening, and the churches are all but deserted.

Don't you believe it. No matter where you hear that argument, nor by whom it is advanced, don't you believe it.

There may be churches where empty seats greet the preachers; there probably are houses of worship where the congregations are largely made up of women and children.

But it is a fact that today there is more good in life; a greater and more earnest desire to be kind and sympathetic and tender and charitable than ever before.

And it is easy to believe, basing that belief on the good that one can see in everyday life, that the day of the true brotherhood of man will dawn in God's own good time.

The other day 20,000 pilgrims made the trip to Lourdes to bathe in the spring that is credited with the miraculous power of healing. You have no right to sneer at those unfortunates, free them from their sufferings, notwithstanding the general belief that no disease has been inflicted upon the human family for which there is not a remedy in existence. The open air treatment for consumption has given much encouragement, and it is claimed that in many cases a cure has been effected. But cancer once in the blood has seemed to be an almost hopeless proposition.

The decreasing supply of crude petroleum and the advancing prices are expected to stimulate the search for new sources of supply. There is plenty of oil to be had by drilling the borers can only find the right spot.—San Antonio Express.

The decreasing supply of crude petroleum and the rapid advance in price has caused many consumers to discontinue the use of oil and return to kerosene. The price of oil is placing in jeopardy the possibility of continued use as fuel.

Whisky is said to be sure death on the cotton boll weevil. Now, if the murderer's swallowing what's in the bottle and then rubbing the weevil with the outside of the flask will do the work, then the discovery has some value. But why waste good liquor on a damned little weevil?—Texasarkana Courier.

The whisky antidote for the boll weevil is believed to be another ruse adopted by inhabitants of local opinion communities. There will now probably be an alarming spread of boll weevils in all the dry districts.

The San Antonio Express and Fort Worth Telegram seem in dead earnest in "trying" to get Senator George W. Glascock to "make" Governor Campbell's administration a failure. Calm yourselves, gentlemen—it's all a false alarm.—Georgetown Commercial.

A clear case of drawing heavily on a very fertile imagination, so far as The Telegram is concerned. This paper wants to see the Campbell administration turn out to be one of the best ever enjoyed by the state of Texas.

The cotton worm is proving very destructive in this section. W. D. Bentley stated to a Timbers representative in one batch of second planting cotton examined he only found one sound boll on fifty-two stalks, while an adjoining patch of first planting cotton appeared to be about all right.—Bowle Cross Timbers.

The boll worm is doing great damage to cotton all over the country. The wet weather that has prevailed has been greatly to the worms' advantage, and they have cut down the promised yield quite perceptibly.

Some of our state exchanges have been remarking upon the death of the populist party. What had it to live for, since the republicans stole all its voters and the democrats all its "demands"?—El Paso Times.

The populist party has been dead for several years. Since the last national election Tom Watson has been the only living populist, and Tom is showing signs of being awful lonesome.

A Fort Worth man who is interested in advertising Texas sent a paper in Georgia an advertisement setting forth the advantages of Texas. The Georgia newspaper man returned the money and the advertiser with the following explanation: "Too many people going to Texas now." The explanation is all right, but just think of that man returning the money.—Denton Record and Chronicle.

Such smallness as that will not keep Georgians from coming to Texas. Those who are already here and prospering will not fail to convey that fact to their kindred and friends, and the stream of immigration from Georgia to Texas will continue unabated.

There are three brothers in the county who are trying to mix family relations up in a confusing manner. The oldest married a young lady and the next married the bride's mother; now the youngest has proposed to the bride's grandmother, who is a young-looking woman herself. This is no joke to begin an argument on the relationship, but is a fact.—Glinesville Messenger.

That is certainly a happy family arrangement, as it keeps the grandmother, the mother and both mothers-in-law in the family and promotes a relationship that affords opportunity for the usual mother-in-law joke.

We believe that the Thirtieth legislature would subserve the interests of the people by following the example of some other states in passing a stringent law against the use of formaldehyde and other acids and substances in milk and meat products. The first offense should be punishable with a heavy fine and a repetition with forfeiture of permit to do business.—Beaumont Enterprise.

A very sensible and timely suggestion. Undoubtedly hundreds of Texas babies are being killed annually by impure milk, and we should save the babies. The general public health should also be protected in the elimination of all harmful preservatives.

Tom Campbell will be over-run by applicants in the office who give him no assistance in the campaign, and he should turn them down. Men who were honestly for him or men who honestly opposed him are the character of men he should choose from when he makes up his list of appointments.—Tyler Courier.

Colonel Campbell should select the very best available material for every appointive position, regardless of the campaign work done in his behalf.

Cone Johnson and Colquitt to succeed Culberson and Bailey? That makes us wonder why some of the rest of the east Texas bunch don't seize his boot-traps and lift himself in Bryan's place.—Brady Enterprise.

East Texas is now in the political saddle, and can be expected to produce an aspirant for everything in sight. Those east Texas politicians were never very modest.

Well, now conditions are so very bad, and Colonel Campbell is doing very well. There will be some good and a good many quite good pieces to fill when he gets down there, he does not expect to find a place for all who

THE MORTGAGE LIFTER

And the mortgage is the pitfall part of the story. Perhaps if there had not been so much cotton planted, there would not have been so many mortgages. Diversification is a mortgage lifter.—Fort Worth Telegram.

That's the time—and about half of the Cooke county farmers have forgotten how a mortgage looks. The cotton raiser is always the man who is intimately acquainted with the "death-grip."—Gainesville Messenger.

THE GOVERNOR'S SALARY

The Fort Worth Telegram advocates increasing the salary of the office of governor. We see no need of doing so as long as such men as the last four aspirants will pay out from \$9,000 to \$15,000 to get the position.—Athens Review.

BAILEY PUTS OFF FIGHT ON BRYAN

Leaders Want Harmony in Party to Continue

WASHINGTON, Sept. 10.—Leaders of the Democratic party have decided not to make any fight at the present time against William J. Bryan's advocacy of government ownership of railroads.

Senator Joseph W. Bailey of Texas, who is generally recognized as the leader of his party in the senate, is in the city. At first he was known to have no opinion on the question, and these are known to be decidedly at variance with those recently expressed by the Texasan, but this evening he said, after consultation with the leaders of the party, he would defer his announcement. He thinks that it would be unwise at this time, when the congressional campaign is pending, to inject into this situation anything which tends to disrupt the party and endanger its success.

Controversy over the ownership of railroads, Senator Bailey and other leaders of the party believe, might jeopardize the success of Democratic candidates in some parts of the country, and discussion of it so far in advance of the national campaign would be unwise.

The opponents of the Bryan idea, however, reserve the right to answer Mr. Bryan at a later date in both speech and action. Senator Bailey said to a statement regarding his attitude on the question of government ownership of railroads, he would have nothing to say at this time. Senator Bailey said, however, that he is decidedly opposed to the proposition or anything like it, and would fight it whenever it should come up.

He does not think it wise now for Democrats to be fighting a declaration which is nothing more than the declaration of a person capable of hiring an assassin to kill me.

On reflection I dismissed the idea of appealing to the county authorities, and simply returned to my home in the seat of Wabasha county was twenty miles away, the processes of law were unfamiliar, and I wished to avoid publicity. The county court, of course, have been easily disposed of by an appeal to the Anandale constable, but now that I suspected Pickering of treachery the situation was a very serious one. I had waited all my life for a chance at Arthur Pickering, and in this affair I hoped to draw him into the open and deal with him.

I slept presently, but woke at my usual hour, and after a tub felt ready for another day. Bates served me, as usual, a breakfast that gave a fair aspect to the morning. I was alert for any sign of perturbation in him; but I had already determined that I might as well let my emotions run a stone wall in this plain, colorless serving man. I had no reason to suspect him of complicity in the night's affair, but I had faith in him, and merely waited until he should throw himself more boldly into the game.

By my usual morning I found this note written in a clear, bold woman's hand:

OPPOSES BRYAN

John Sharp Williams Not in Favor of Railroad Idea

Special to The Telegram. AZOCCITY, Miss., Sept. 10.—John Sharp Williams, the nationally known congressman, gave an expression of his views on William J. Bryan's plans for government ownership of railroads last night. He said the idea was a plank of the Democratic platform.

"I am opposed to government ownership of railroads irrevocably, now and forever, in theory and in practice—a question of expediency. Mr. Bryan and I agree to disagree. But I see no good to be attained by my rushing into party of the subject. We will simply vote it down at the next election."

"Meanwhile let us not magnify democratic differences. There are so many things we all agree upon—let us magnify them. Push them to the front if we can. Bryan is not infallible and he is right, but he is right about so many things, eloquently and greatly right, but absolutely and altogether wrong about this one racial, political and national question of peace and quiet in the south. Let us strongly regulate railroad rates, but not operate railroads."

HEARST BACKS DOWN

Seeks Help of Democrats for gubernatorial Nomination

NEW YORK, Sept. 10.—As the time for the convention opened by William R. Hearst to nominate himself for governor as the candidate of his independent League approaches, he hesitated to make a declaration of independence at the headquarters of the league in the Gilsey House today it was decided definitely to enter into a deal with the New York Times. The deal, if possible, notwithstanding repeated statements by Mr. Hearst that he would run only as the candidate of the independent League.

To accomplish this deal without the appearance of a complete back-down, Mr. Hearst and his managers determined to give the New York Times the deal upon the shoulders of the democrats in the interior of the state.

The House of a thousand candles

By MEREDITH NICHOLSON Author of "The Main Chance," Etc.

Synopsis of Previous Installments. John Glenarm, a roving young engineer, is killed an estate near Anandale, Ind., by his grandfather, on condition that he live there a year, else it will revert to Marian Devereux of New York, niece of the elder Glenarm's friend, Young Glenarm, returned from New York from Africa, is informed of the terms of his grandfather's will by Pickering, a lawyer, his former schoolmate, whom he greatly dislikes.

He accepts the terms of his grandfather's will and goes to Indiana. On the night of his first evening at home while seated by the fireplace, he falls to discover his mysterious assailant. Next morning he takes a walk to the miller's estate with a hammer. After a parley, Morgan flings his hammer at Glenarm and the latter fires his revolver, but both miss. Glenarm becomes convinced that Morgan and Bates are rogues in league and that it was Morgan who fired at him through the window the first night of his stay at his grandfather's house.

CHURCH WORKERS TO TAKE CENSUS
Expect to Begin Religious Census of City September 25

At the meeting of the city Sunday school superintendents, held at the First Baptist church at 2:30 o'clock Sunday afternoon, the question of a proposed religious census of the city was considered in further detail and plans for the work advanced well toward the concrete stage. Jere Reeves was appointed the head of the committee to redistrict the city, with the authority to appoint his own fellow committeemen. That committee will make a report to the meeting of the superintendents and others, who are especially interested in the work at a meeting to be held at the First Baptist church Sunday afternoon next, Sept. 16. The census is to be taken Tuesday, Sept. 23, or begun on that day. For the work Mr. Daniel of the First Baptist church has promised the aid of one hundred members of his congregation as enumerators. The Broadway Baptist has promised fifty enumerators, the Taylor Street Presbyterian church twenty-five, and so on, others promising varying numbers, but all promising more, so that the enumeration may be accurately and quickly made. The special work of the Jere Reeves committee will be to redistrict the city. About ten years ago a similar work was done, but as to results it fell rather abortive, for the reason that it was not followed up. It is the intent of those who are now at the head of the movement to get, if possible, a perfect list of those in the city who have any church affiliation and also those who have not. The movement is entirely non-sectarian. The statement is made by some of those most interested in the census that there are fully 40,000 people in the city, including the suburbs, within car line distances, who are not allied with any church. They think that is a condition to be changed. When the census is completed, there is the intent to send to each parish a copy of the non-church members in his territory, with the wish that by some church effort, by means of the work of committees aiding him, all of those so reported shall be visited and, if possible, to give some attention to church school.

The meeting, like that of Sunday, Sept. 9, is not to be of the mass meeting type, though in addition to the "helpful" church superintendents and their assistants, all of those who may feel an interest in the work the census committee has mapped out for it will be most cordially welcomed.

"In a few days," says H. B. Cerveny, who is one of the most active factors in the work, "a statement will be given to the public through the press, which will more fully set forth the scope of the work and the exact purpose those interested have in view.

MORE CLOUDS COMING
Overcast Skies Weather Forecast for Tuesday

A low barometer prevails throughout central and northern portions of Texas and partly cloudy weather is the forecast for Monday night, followed by scattered showers for Tuesday. Low pressure is also reported in the Upper Mississippi valley and regions east of the great lakes. Thunderstorms visited Iowa and Colorado Sunday night. High barometer over the regions east of the Mississippi, resulting in generally fair weather, except some cloudiness in the Blue Ridge section with light rains throughout Tennessee. High barometer is noted in the extreme northeast, causing fair weather and low temperatures. Calgary in the Canadian border region, reported Monday morning the lowest temperature at the local office, the minimum being 26 degrees. The cotton belt is experiencing some cloudy weather, though fair weather is prevailing Monday. Fair weather is prevailing throughout the southeast extremely, while light to heavy rains are noted in Georgia, Tennessee, Arkansas and Texas. Heaviest rains Sunday were in Middle and South Texas. A few of the temperature reports for Sunday and Monday morning are as follows: Abilene 86 and 68, Spokane 68 and 40, Chicago 84 and 72, New York 82 and 70, Jacksonville 82 and 72 and Galveston 86 and 72.

BAN PLACED ON SQUEEZE WALTZ
Dancing Masters Decide Hug and Glide Must Go on Shelf

On with the dance. Let joy be unconfined.—Byron.

And that's the whole rub. It was because the waltz, with all its dreamy fascinations, its delicious sweetness and all that sort of thing, kept the musicians up all night, that the dancing masters have decided it must be robbed of all that those who love to waltz love most.

The "hug" and the "hug" step is tabooed, and the "hug" step, that somehow or other does not touch the spot, is to be the vogue.

The dancing master's session in New York has declared, and Terpsichore must look down from her pedestal and weep.

The waltz, of the poets is to become only a tradition, and something that might be termed a compromise between a Highland fling and a dead march is to take its place.

There is something dreamy about the old-time waltz that the professors didn't like, and the "orchestra" bills became an issue, because the boys and girls just wouldn't stop waiting so long as the band played.

The new waltz is full of "balances," and if you get wise to its curves you and the girl will be at such dizzy heights that even mamma wouldn't censure the situation.

In fact, you mustn't get too close—you must hold on to the girl—half-Nelsons don't go—and there are a whole lot of things that are flagged.

Sorrow for Young Hearts
There is probably no accomplishment into which the great American public plunges so recklessly as that of dancing, and the news that the waltz, has been put through a reform process will carry large throbs of sorrow to more than one army of young hearts. Square dances, where distances are great and time wears on slowly, are to be encouraged.

But the old waltz is placed on the shelf.

It is simply a question whether or not the art of dancing is to become such as the beer halls give us, or as the ballroom deities' said a prominent dancing instructor: "There is a vast difference and we feel it our duty to draw the line—to make some line of distinction."

NEED CARS FOR COTTON
Rush from Southwest Texas to Markets Now On

The cotton movement out of the southern part of Texas is in full swing and the railroads are being used to handle the cotton business steadily. The movement this year is the heaviest ever known. In order to handle the movement with dispatch the Sunset and the Aransas Pass have been called upon for every available car they could supply, and extra freight have had to be put on. There is no visible decrease in the amount of cotton pouring into the bins, and even if none of the top crop matures this section will produce a record crop. Farmers are generally selling as rapidly as the crop is picked.

HOW MANY OF US?
Fail to Select Food Nature Demands to Ward Off Ailments

A Ky. lady, speaking about food, says: "I was accustomed to eat all kinds of ordinary food until, for some reason, indigestion and nervous prostration set in.

"After I had run down seriously my attention was called to the necessity of some change in my diet, and I discontinued my ordinary breakfast and began using Grape-Nuts with a good quantity of rich cream.

"In a few days my condition changed in a remarkable way, and I began to have a strength that I had never before possessed of before, a vigor of body and a peaceful mind that amazed me. It was entirely new in my experience.

"My former attacks of indigestion have been accompanied by heat flashes and many times my condition was distressing with blind spells of dizziness, rush of blood to the head and neuralgic pains in the chest. After breakfast I have been free from these troubles, except at times when I have indulged in rich, greasy foods in quantity. In a few days I was warned by a pain under the left shoulder blade, and unless I needed the warning of the old trouble would come back, but when I ate Grape-Nuts it disappeared. These troubles originated I returned to my Grape-Nuts and cream and the pain and disturbance left very quickly.

"I am now in the prime health as a result of my use of Grape-Nuts." Name given by Postum Co., Battle Creek, Mich.

BOWIE WANTS NEXT REUNION
R. E. Lee Camp to Help Montague County Get Meeting

R. E. Lee camp, U. C. V., has pledged itself to assist the city of Bowie in getting the next state reunion of Confederate Veterans, action to that effect being taken at the regular meeting of the camp Sunday afternoon. Bowie sent a representative to the meeting Sunday and the action was taken after he showed that Bowie wanted the reunion and would make ample arrangements to royally entertain the old soldiers.

Commander E. W. Taylor was not present at the meeting, and the session was presided over by W. P. Shaw. After the usual routine exercises Colonel James M. Cummings of Bowie, who was present, was invited to a seat on the platform and addressed the camp in the interest of the next annual state reunion of Confederate Veterans being held at that city. He stated that it would be difficult for the indorsement of three banks, all the merchants and all the other people of Bowie and would promise that Bowie sent a representative to the meeting Sunday and the action was taken after he showed that Bowie wanted the reunion and would make ample arrangements to royally entertain the old soldiers.

The committee in charge of the Confederate cemetery were instructed to proceed and have the cemetery put in good condition. This work, it is estimated, will cost \$7 or \$8.

The question as to who shall be delegates to the state reunion to be held at Dallas this year was settled by a motion to the effect that the delegates to the reunion be the delegates to the Dallas meeting.

The camp is entitled to forty-seven delegates. The election of a sponsor for the camp at the Dallas reunion will be held by the camp next Sunday.

W. J. Pankey, W. M. McConnell and C. C. Cummings were appointed a committee to draft resolutions on the death of J. C. Wilson.

Judge Ocie Speer of the civil court of appeals was present at the meeting and he called on the camp, he responded and delivered a brief address, which was enjoyed by all present.

The following applicants for membership were elected members: T. B. Wynant, private, Texas; Wilcox brigade, Hill corps, army of Virginia; Gregg W. Pickett, private, Texas; J. A. Clark, private, Texas; George R. Rucker, accompanied by Miss Fite Redeker.

"The Jersey Lilies"
Winsome, witty, vivacious, "The Jersey Lilies" bubbled with life and spirits. The very name is suggestive of dash and abandon, and the glint of silken bostery mid a mass of curls that would be difficult to imagine a more handsome coterie of beautiful maidens than those gathered by Manager William S. Clark for this attraction. With a graceful, natural, they render the tuneful catch musical numbers in a superlative manner, certain to delight the fancy of all observers. Charming so multitudinous were never before seen with any extravaganza organization. With a variety of the scenic painter's art furnish a charming background for the evolutions on the stage, and a company of eight clever comedians engendered the scenic painter's art.

"The Jersey Lilies," in all their grace and loveliness, will appear at Greenwall's opera house Friday matinee and night, Sept. 14.

"A Message From Mars"
When the great comedy, "A Message From Mars," was presented in this city it proved to be one of the most satisfactory stage creations that had come this way for a long time. The popular approval given to the play was emphasized in numerous ways. This play will again be seen here at Greenwall's opera house Saturday matinee and night, Sept. 15, at which time a new star—at least new to theatergoers here—will be seen in the leading male part. The gentleman referred to is David Proctor, a young actor of recognized ability and accomplishments. Mr. Proctor is now playing his second year in this comedy and it is said of him that he is the equal of any one who has ever impersonated the part. Mr. Proctor is by no means a stranger in the theatrical world. He has advanced with marked rapidity to a commanding position.

S.S.S. CURES CATARRH

Catarrh cannot be washed away with sprays, inhalations and such treatment, nor can it be smoked out with medicated tobacco, cigarettes, etc. When you attempt to cure Catarrh with such things you are wasting time and allowing the impurities and poisons in the blood, which produce the disease, to get so firmly rooted as to become not only a disgusting trouble, but a very dangerous one. The annoying symptoms of ringing noises in the ears, "hawking and spitting," headaches, mucus dropping back into the throat, impairment to the senses of taste and smell, and a feeling of general debility, prove that there is a deep-seated cause for Catarrh. This cause is a polluted and unhealthy condition of the blood, and the disease cannot be cured until this is removed. The only way to get rid of Catarrh permanently is to purify the blood, and S. S. S. is the ideal remedy for this purpose. It soon clears the system of all impurities, purges the blood of all catarrhal matter and poisons, and effectually checks the progress of this disgusting and far-reaching disease. S. S. S. puts the blood in perfect order, and as this pure, healthy blood goes to every nook and corner of the body Catarrh is permanently cured. Book with information about Catarrh and medical advice free.

Palace Skating Rink
An unusually large attendance was accommodated at the Palace rink, Lake Erie, yesterday, the floor being crowded all day. A large number of skaters were out purposely to hear the new Palace band, which is said to be one of the finest in the south and judging from the applause which was given every number, the band must have struck a popular chord in the hearts of the city. Wednesday night, "Brother Against Brother." An entire change of program will be given throughout the week, with new illustrations by F. H. Hays public. A free matinee for ladies will be given Tuesday afternoon at 2:30 o'clock. The admission remains the same, 10 cents and 10 cents extra for reserved seats.

NEW YORK STOCKS

Atholison Sells at New High Level—Favorable Reports Cause of Advance. Others Quiet

Special to The Telegram. NEW YORK, Sept. 10.—Saturday's extremely unfavorable bank statements was a factor of considerable importance in the stock exchange trading today, and although several bullish items in the day's news prevented a serious break in prices prior to noon, the list displayed a halting tendency, and of the moderate volume of business transacted a fair portion was liquidation of long accounts.

NEW YORK COTTON

Condition Figures Bullish and Prices Immediately Rise More Than \$1.00 Per Bale

Special to The Telegram. NEW YORK, Sept. 10.—The cotton bulls are breathing somewhat easier, for with the coming of the government report, which showed a condition on 77.3 on Aug. 25, as compared with \$2.9 July 25, 72.1 at the corresponding date last year, 84.1 in 1924 and a ten year average of 72.2, the market supremacy fell on their shoulders and for the time being shorts were forced to seek safety in covering for it is generally conceded that material deterioration has occurred since the foregoing report was compiled and this with the expectation of a bullish ginners' report at 3 p. m. left them no alternative.

CHICAGO GRAIN

Quiet Day in All Parts—Government Report Restricts Trading—Oats Prices Advance

Special to The Telegram. CHICAGO, Sept. 10.—The day in the local grain pits was given over mostly to evening up transactions as far as the government report to be issued after the close of the market precluded any aggressive action by either contingent, consequently price changes were few and far between.

CATTLE AND HOGS

Scarcity of Decent Steer Cattle—Cows and Calves Sell Steadily—Hogs Steady

Receipts of cattle on the early market were 1,600 head and calves 1,500. This number stood to be increased by thirty-two loads reported to arrive about 1 o'clock.

COTTON IS LOWER THAN LAST YEAR

Bulletin Estimates 77.3 and Number of Bales 403,209

WASHINGTON, D. C., Sept. 10.—The crop estimating board of the department of agriculture estimates the condition of the cotton crop of 1925 up to Aug. 25 to be 77.3.

NEW ORLEANS COTTON

NEW ORLEANS, Sept. 10.—Local cotton traders awaited the bureau report before taking any active steps today and during the early hours the market was even more lethargic than usual on days when government reports were dropped. Fluctuations were very narrow before noon. An initial loss of 3 to 4 points was recovered during the first hour, but prices soon dropped back to the opening figure and were in that neighborhood when the report was issued.

Dear Sirs: Now, may be, you can't get the goods; if you can, your fortune is made.

You could sell that cloth for hundreds of miles; there'd be no limit.

A yard goes further; one buys less yards, wears longer; one buys less often. It always looks right till well worn out.

It isn't true in cloth, but it is in paint: the less you pay, the better it is; for the goodness of paint is reckoned by gallons; less gallons, more goodness.

WACO MERCHANT FOUND MURDERED

Head Split Open With an Ax. Two Arrested

Special to The Telegram. WACO, Texas, Sept. 10.—A horrible assassination occurred in a suburban home at Twelfth and Morrow streets last night. The victim was Matthias Block, a prosperous Jewish merchant, well known and liked.

The bloody instrument was found within a few feet of him. The assassin entered from the rear door, which was unlocked. Mr. Block's pockets were rifled and his wallet taken.

All the officers of the city have been working on the case since 4 o'clock this morning, when his body was discovered by his meat cutter, W. C. Hugbanks, who opens up Jesse Jones, a negro who has been working for Block and Hattie Williams, a negro with whom Jones boards, were both arrested in connection with the case.

Initial Steps for State Organization to Be Taken Here

At Masonic Temple, Monday evening at 8 o'clock, a meeting is to be held for the purpose of taking the initial steps for the formation of a Masonic Pastmasters' Association, to membership in which all pastmasters of the order in good standing in any regular lodge in Tarrant county are eligible.

Col. Campbell to Enjoy Vacation

Special to The Telegram. DALLAS, Texas, Sept. 10.—T. M. Campbell, Democratic nominee for governor, spent Sunday afternoon in Dallas on his way to Hot Springs, where he goes, as he put it, "to take a rest and get over being tired."

Jews Held in City

SIEDLICE, Sept. 10.—Six buildings in the big bazaar city are now in flames, adding another terror to the killing and plundering which have been going on here for the last thirty-six hours.

Terrorists to Blame

Field guns occupy points of vantage on the principal streets. There seems no doubt that the terrorists are responsible for the massacre.

Rioting Continues

WARSAW, Sept. 10.—A telegram received from Siedlice this morning says rioting and shooting there continues. The revolutionists are firing at the soldiers from windows and the troops are replying with volleys.
