HURRICANE DESTRUCTION IN GULF STATES GREAT

Property Loss From Wind and Rain in Mississippi and Alabama Reaches Millions

LOSS OF LIFE NOT KNOWN

Mobile With \$4,500,000 Property Loss and Probably Many Fatalities, Heaviest Sufferer—No Communication Within Fifty Miles of Stricken City, Which Is Reported Under Martial Law

Special to The Telegram.

NEW ORLEANS, Sept. 29.—Hourly accounts of the magnitude of Thursday's storm in Mississippi become more serious today, as interrupted telegraphic communication with that state is resumed in every direction. Town after town in the interior wired here that buildings have been blown down, lives endangered and crops blown flat in the fields. Simultaneously there arrived news of an almost unbroken line of wreckage of shipping on the gulf coast in the direction of Mobile. However, all reports at this situation ended abruptly at a point about fifty miles west of Mobile.

Vessels Reported Wrecked

In addition to shipping washed ashore on the main land first reports came in today that vessels were wrecked or stranded on the chain of islands out in the gulf which form the Mississippi sound. Little news which arrived from the Mississippi river delta added to the property damage reported there, but also the lower end of the delta has been submerged as far as the eye could reach and altho steamers coming up the river reported they passed floating household goods, no loss of life is reported.

Delta Lands Isolated

It may be several days before details are learned about the fishing and oyster country in the new delta lands, which are isolated even from quarantine and Pilot Town, the only places on the lower river having telegraphic communication with this city.

Fort St. Philip Damaged

NEW ORLEANS, Sept. 29.—Damages of \$10,000 at Fort St. Philip, sixty miles below here on the Mississippi river, are reported today by incoming steamers. A portion of the levee erected to protect the post against such tides is reported to have been broken and the magazines are flooded. The new quarters under process of erection are also reported swept away.

May Be One Hundred Lives Lost

MOBILE, Ala., Sept. 29.—Between seventy-five and 100 lives were lost, fully two score vessels driven ashore or wrecked in various parts of the Gulf of Mexico, damage amounting to \$4,500,000 in the city of Mobile and millions more at outside points are the result of the storm which swept over Mobile on Wednesday and Wednesday night. No accurate estimate of the number of casualties can be made, and it is doubtful if it will be known for a week or more.

Grave apprehension exists regarding the situation at Gulfport and other points, where it is believed many lives have been lost. Reports from outside points in this vicinity are meager and unsatisfactory. It is declared by the local municipal officials that no lives have been lost in the city of Mobile, but that all of the deaths have occurred in places within a radius of fifty miles of this place.

The dead as far as known are at present:

- MRS. D. LADIMER and two daughters.
At Johnson: HENRY JOHNSON.
At Caden: MRS. SIMON KLOSKEY.
Little grandson of Mrs. Kloskey.
SUSAN CREVILLION, servant of Mrs. Kloskey.
O. WERNETH.
MRS. O. WERNETH.
MRS. M. CRAE.
MRS. HENRY TURNER.
CAPTAIN J. STEVENS.
THREE MISSES ALEXANDER.
MRS. HUELAND.
THREE HUELAND CHILDREN.
Three unidentified bodies found on beach.

Storm Started Tuesday

The storm, which was first noticed by the weather bureau when between Jamaica and Cuba, made its appearance in the neighborhood of Mobile Tuesday afternoon, when fitful winds from the north began to blow and the barometer began to fall. The wind rose steadily and at 7:15 o'clock Thursday reached its greatest speed, blowing from the easterly quarter at the rate of fifty-five miles an hour, the barometer falling to 29.86. A few minutes after 8 o'clock Thursday morning the wind decreased and the barometer began to rise. The total rainfall in the city of Mobile during the storm was 6.58 inches. While the storm was at its height the water from the bay was driven in with great force upon the city, the waves covering the wharves six feet.

Flood Invas City

Six blocks up into the heart of the city the flood was driven, filling every

basement and store in that section. At Commerce street, which is the first thoroughfare away from the docks, the water rose in the stores to the height of five and a half feet. The marks on the buildings on Water street, which is next to Commerce, show a depth of four and a half feet. The flood did not quite reach Royal street, one square beyond Water street. During the time the storm was at its worst it was utterly out of the question for the men alone will amount to \$49,000. The spike of St. Francis Street Baptist church was blown down, the remainder of the church being unhurt. About \$10,000 worth of property was lost in the city. Every other church building in the city was damaged in a less degree, but none of them were so seriously injured that they were unable to be used.

Damage Enormous

The damage in the city of Mobile proper has been enormous. It is contended by some that there is a building in the city which has not been damaged. In some instances the amount is a trifling matter, such as shingles ripped off or a chimney blown down, but some of the largest buildings in the city have suffered severely. Prominent among those which were badly damaged was Christ Episcopal church, the oldest religious building in the city. A large part of the roof was torn away, the steeple was blown down, and all the windows were blown out. It is estimated that the damage to this building alone will amount to \$49,000. The spike of St. Francis Street Baptist church was blown down, the remainder of the church being unhurt. About \$10,000 worth of property was lost in the city. Every other church building in the city was damaged in a less degree, but none of them were so seriously injured that they were unable to be used.

Merchants' Loss Heavy

The heaviest loss will fall on the merchants along the water front who she also shot dead, putting the waves not think it would drive the waves

GIRL ESCAPES HER PRISON THRU TUNNEL, KILLING THREE GUARDS

ST. PETERSBURG, Sept. 29.—Lukasha Tronoff, a girl of 18 years, escaped last week from Kazan city prison after killing three wardens and wounding a fourth.

When the six bullets were spent, Tronoff, covered with earth, emerged from the tunnel and shot the warden thru the head. Other prison officials who came in without lights she also shot dead, putting a bullet into the leg of a fourth, and escaped into the town.

SENATOR SCORED Time Asked to Prepare Ammunition for Battle—Dares Bailey to Accept

HOUSTON, Texas, Sept. 29.—H. F. Ring has received in response to the petition of citizens to M. M. Crane asking him to meet Senator Joe Bailey in joint debate a favorable reply, but not to meet him Saturday night, on account of the insufficiency of the time to make proper preparation. It means, of course, that he is willing to meet him later. The answer is as follows: "H. F. Ring, Houston, Texas.—Dear Sir: Your wire received. I answer as follows: 'Time too short for preparation and arrangement of preliminaries. See letter.'

CABLES FOR SOLDIERLY

First Installment to Enforce American Control Will Be Sent From Newport News—Cuban Officials to Report to Taft—Citizens Are Asked to Assist

WASHINGTON, D. C., Sept. 29.—Secretary Taft cabled, "Make immediate preparations to send an army of occupation to Cuba."

WASHINGTON, D. C., Sept. 29.—The first expedition for Cuba has been ordered to mobilize at Newport News. Five thousand men will be sent in the first transports.

Secretary Taft's Proclamation HAVANA, Sept. 29.—No one appears inclined to doubt the good intentions of President Roosevelt and representatives and there is no apprehension of any serious trouble or resistance to the provisional government in any part of Cuba. While Governor Taft has not yet taken possession of the palace, this is only because the ex-president will not be ready to vacate the official residence until Monday, and Mr. Taft desires to do whatever will suit the ex-president's convenience.

GENERAL FRED FUNSTON, WHO WILL COMMAND UNITED STATES TROOPS IN CUBA.

are gratified at the change of government, the striking feature of the provisional government is the fact the Cuban flag has not been lowered. This establishes a precedent in provisional governments and protectorates. Governor Taft's proclamation follows: "The the People of Cuba: The failure of congress to act on the irrevocable resignation of the president of the republic of Cuba or elect a successor leaves the country without a government at a time when great disorder prevails and requires that pursuant to the request of Mr. Palma, necessary steps be taken in the name and by the authority of the President of the United States to restore order and protect life and property in the island of Cuba and the islands and keys adjacent thereto, and for this purpose to establish therein a provisional government.

ROME, Sept. 29.—King Victor Emmanuel has earned the reputation of Italy of an automobile scorcher. He is indeed an expert and enthusiast in the sport which he considers one of the finest and most useful in existence. He learned the art of motoring very thoroughly about eight years ago, shortly after his marriage and now is a very skillful driver. He shares the motor mania with his mother, Queen Margherita, who tries to forget the tragedy of her widowhood in the excitement of the road. One day the king was speeding along a straight and lonely road when he

IS THERE A LOST MINE IN OLD KENTUCKY?

Whether or not John Swift found a silver mine in Kentucky in 1761—some years before Daniel Boone entered the country—it is certain that several generations have believed the testimony of a Journal left by Swift, and that they have impoverished themselves in the hunt for the missing treasure.

A writer in Appleton's for October describes his own visit to the little-travelled region, the legends and facts he unearthed, and the fatal devotion of the fortune-hunters.

Whatever may be thought of Swift himself, he says, he has left behind him a terrible influence in the Journal that has entranced five generations. It seems to put Swift's own soul into the body of everyone that reads it. The picture of the dead Svengali was no more hypnotic.

I have at least done what no other writer has done, says Howard Flanagan, the author of the article—I have gone over the ground, and I feel that I am in a position to speak with more authority than some of the scholars who have sat in their libraries and scribbled at the story as a mere fable.

In the light of his own history, it is 1761 when Swift dawns upon Kentucky. It is blacker than blackest Africa, and not better known at this time.

Roosevelt's "Winning of the West" informs us that Kentucky was a hunting ground and field of battle for different tribes of Indians, north, west and south, when Daniel Boone penetrated its mountain fastnesses in 1769. N. S. Shaler in his "History of Kentucky," tho he insists that no precious minerals have ever been found in Kentucky, emphasizes the peculiar fact that the Indians used Kentucky solely as a ground for annual hunts: "No other part of the United States, not a desert, was ever found uninhabited by the savages and uninterrupted by their villages and clearings."

This would tend to confirm Swift's story that he erected smelters there and made several journeys to and fro under the guidance of Munday (who knew the Indians' habits) before they were discovered. As for Swift's preceding Daniel Boone, it must be remembered that as early as 1654 a Colonel Wood made explorations in Kentucky. La Salle paddled down the Ohio river in 1669, and in 1747 Dr. Thomas Walker explored the state, twenty-two years before Boone arrived. The French were congregating on the Ohio in 1764.

Mr. Flanagan gives what is known of Swift's Journal, and submits that its authenticity is proved. For its authenticity we must take all the facts and conditions presented and weigh them in the balance. The language of the Journal and minute descriptions of country are from the recollections of mountain guides, still living, employed by Swift's successors to locate the mine. Diagrams and maps were part of the Journal, and these were studied step by step by latter-day guides for a partial and finally complete identification of land and rocks and creeks having peculiar markings which Swift had

RISE IN BREAST

And many other painful and serious ailments from which most mothers suffer, can be avoided by the use of "Mother's Friend." This great remedy is a God-send to women, carrying them through their most critical ordeal with safety and no pain.

No woman who uses "Mother's Friend" need fear the suffering and danger incident to birth; for it robs the ordeal of its horror and insures safety to life of mother and child, and leaves her in a condition more favorable to speedy recovery. The child is also healthy, strong and good natured. Our book "Motherhood," is worth its weight in gold to every woman, and will be sent free in plain envelope by addressing application to Bradfield Regulator Co. Atlanta, Ga.

MOTHER'S FRIEND

noted, and which he remembered when his sight was gone.

Only one Kentucky historian deigns to take any account of the appearance of John Swift and what he is supposed to have said for himself. In Collins' "History of Kentucky," he is mentioned in several places in footnotes quite extensively and impatiently.

Now John Swift deserved either better treatment or worse treatment. He started enough trouble in his lifetime to justify some research regarding his identity. Even as a ghost he ought to have been more investigated and duly exposed in order to fortify his stout spirit from obsessing the hearts and the heads of men.

In his article in Appleton's Magazine Mr. Flanagan shows the arguments for and against Swift, but concludes that whether or not the mine exists, the story of the hunt for it is certainly worth telling. In this he proves his point beyond cavil, and his article, illustrated with photographs of actual scenes, is a most unusual and interesting feature.

GETTING READY FOR RACING MEET

Preparations Being Made at Fort Worth Track

As the time approaches for the big fair to be held at the driving club park a busy scene is presented at the track. Carpenters are getting stails in readiness, electricians are stringing wires and painters are at work making things take on a brighter appearance.

Tuesday several horses arrived from Kansas and Missouri and a number are looked for within the next few days from Tennessee and Kentucky. In all there will be about four hundred horses quartered at the track when the fair opens and all of them will participate in the many races to be run. The purses being offered by the Fort Worth Fair Association are attracting horsemen from all sections and it is safe to predict that some of the best races of the season in the southwest will be pulled off during the big show.

The amusement feature of the fair has not been overlooked and there will be quite a number of meritorious shows on the ground. It has not been decided yet as to whether the shows will be clustered together and a midway made or a pike formed or whether they will be distributed freely about the grounds.

The track is now in splendid shape and is being worked on all the while in the effort to have it as fast as possible by the opening date.

The fair is going to be a success and it will be the means of bringing hundreds of people into the city at the happiest time of the year—just when they can do their fall shopping.

MURDER CHARGED

Man Fails to Give \$3,000 Bond and Stays in Jail

Special to The Telegram.

HILLSBORO, Texas, Sept. 29.—Clem Harris, charged with the murder of George Jenkins, who was killed at Aquilla Wednesday afternoon, was brought here Wednesday night, by Sheriff Satterfield and placed in jail. A complaint had been filed against Harris in the justice court at Aquilla shortly after the slaying and he was an examining trial and was granted bail in the sum of \$3,000.

He has not as yet given bond and remains in jail.

TEDDY HAS FROLIC

President's Son Arrested Then Released by Officers

Special to The Telegram.

BOSTON, Mass., Sept. 29.—Teddy Roosevelt Jr., the most popular man at Harvard, was arrested after a frolic with a "cop" in which the officer lost his club and revolver. A number of students were skylarking. "The cop" interfered. The students surrounded him and rolled on him. All but four of the students ran when other officers arrived. Roosevelt remained and told the police sergeant he had nothing to do with the cut-up and was released.

BAN ON SOLICITORS

War Department Prohibits Pension Agents on Military Reservations

Special to The Telegram.

WASHINGTON, Sept. 29.—A general order just promulgated by the war department positively prohibits soliciting pension or other claims against the United States on military reservations or at military camps or stations and commanding officers are directed to take measures to effectually prevent such solicitations. Officers and enlisted men who give information with the view and persons who solicit such claims lay themselves liable to trial by court-martial.

C.—Hotel News Stand.

ONE PEOPLE AFTER ALL: The southern states have been cruelly misrepresented during the years that lie in the past by the northern and eastern press, and much prejudice has been created in consequence in all sections of the country.

It is a fact that the southern people were a band of semicivilized creatures to be carefully differentiated from their brethren of the north. The north had no word but to burn even when there were no attacks on white women.

It was a nice political trick on the part of Bailey and his friends to thus seek to bind the people of Texas as so far as actualities are concerned there is nothing binding about it.

This idea of calling on leading men to become candidates for the senate in opposition to Bailey is all wrong, and should be deferred until there has been some definite disposition made of the present incumbent.

Nine out of every ten newspapers in Texas have condemned Senator Bailey, and his newspaper supporters can be numbered with the digits on two hands.

Those cool autumn days we have been wishing for so long have at last made their welcome appearance, and while nature must now assume the sere and yellow leaf, it is a transition that but serves to make the world feel better.

The presence of the secretary of war in the tropics seems to have had the effect of creating a mighty disturbance in the elements.

Attacking Women and Children the Law Will Break Down

It is easy to deprecate this primeval savagery and this lamentable and dangerous disregard of the law, but a matter of fact we now know that uncontrollable race hatred will result from the hideous outrages.

What is to be done about it? There is only one thing as appalling as these outbreaks, and that is the seeming impossibility of solving the problem involved in the presence of 10,000,000 people lately from the wilds of Africa.

Attacking women and children the law will break down. It is easy to deprecate this primeval savagery and this lamentable and dangerous disregard of the law, but a matter of fact we now know that uncontrollable race hatred will result from the hideous outrages.

Among the Exchanges

The San Antonio Express says that the dairy industry is not half developed in Texas. It is worse than that, it can hardly be said to be in the kindergarten stage.

Kansas and Oklahoma butter makers are growing wealthy from Texas patronage, and Texas has more cows than any other state in the union.

A Mexican at Beaumont was given two years for stealing half a watermelon, while at Houston an indictment for murder against a white man was quashed.

The integrity of Senator Bailey is not under question. The issue is whether or not he is justified in attempting to serve two masters.

Evidently imprisonment is not punishment to the great majority of the vagrants in the county jail at Fort Worth.

The movement to prevent the return of Senator Bailey to the house of American Lords is one of the most significant moves that has been made by the democrats of Texas.

General Funston has been ordered to Cuba to lend his influence to bring about peace. His fighting career began in the island as an officer of the United States army.

If Mr. Bailey is ready to resign his nomination for United States senator, the people of Texas stand ready and willing to accept his resignation.

The cotton fields of Texas are white with the harvest and the cry comes from every section of the state for willing hands to gather it at remunerative prices.

We are not of those who would sneer at or discourage any man who thinks that he can better himself by going to West Texas.

This is the sensible view to take of the situation. West Texas must be settled and developed, and Texas will be called upon to furnish her quota.

If Henry Clay Pierce received Joseph Weldon Bailey and thereby brought Texas officials into ridicule, and Texas laws into contempt, isn't it the urgent business of Joseph Weldon Bailey to seek to right that wrong?

That is the point exactly. If Senator Bailey is in sympathy with the people of Texas and resentful of the fraud practiced upon the state and himself, why does he not show it?

Because her stomach was so weak that she could not eat, Mrs. Mary H. Walters of St. Clair street, Columbus, O., was literally starving to death.

The presence of the secretary of war in the tropics seems to have had the effect of creating a mighty disturbance in the elements.

Because her stomach was so weak that she could not eat, Mrs. Mary H. Walters of St. Clair street, Columbus, O., was literally starving to death.

DUKE MARRIES POOR SHOP GIRL

Gives Up Princess to Save Young Woman's Honor

Special to The Telegram. NEW YORK, Sept. 29.—Because he considered it his plain duty, Count Ferdinand von Hohenberg, heir to the duchy of Rohatnack, former playmate and schoolfellow of the German crown prince, officer of the Kaiser's personal bodyguard and fiancé of a princess of one of the reigning German families, has forsaken his country, his prospects and his heritage in order that he might marry a shop girl whom he met in a glove store in Berlin.

The wedding of Count von Hohenberg and Louise Carow took place in a little hall bedroom in a boarding house in Ostending and was performed by Rev. Dr. McWilliams, of the Ossling Presbyterian church.

The count, who is a cousin of the Grand Duke Michael Von Saxe Weimar, and nephew of the Princess Marie, was about to marry a princess

who is a favorite of the Kaiser, the betrothal was announced with great ceremony at the palace. His father, the prince, who was in Berlin, is the composer of "Lustige Weiber" and "Wassertröpfchen."

After a staid stay at the Empire hotel the count abandoned the pseudonym of Mr. Graf, and using his own name, obtained a position at the office of the paid attorney of the corporation, mastering this work he sent for Louise Carow and again married her.

The military court of honor is about to try the young count and his betrothed, confidently expect an exoneration.

Those who have read Senator Bailey's defense given out at Dallas are disappointed in that not a single charge brought to light in the H. Clay Pierce testimony is refuted.

Much is being said in the press about the relations of Senator Bailey to the Howard Gould, his sister, Miss E. E. Clemens, a sister of Mrs. Howard Gould, his betrothed.

That is the point exactly. If Senator Bailey is in sympathy with the people of Texas and resentful of the fraud practiced upon the state and himself, why does he not show it?

Because her stomach was so weak that she could not eat, Mrs. Mary H. Walters of St. Clair street, Columbus, O., was literally starving to death.

TEXAS PRESS AND SENATOR BAILEY

FACTS COME OUT CLEARLY

Ever since the now famous deal by which the Waters-Pierce Oil Company was admitted into Texas there has been criticism of Senator Bailey's connection with the affair, and more than once the fact has been pointed out that since that deal Bailey has been extraordinarily financially prosperous.

Now two facts have come out clearly in sworn court testimony: The first that the Waters-Pierce Company is merely a branch of the Standard Oil Trust, organized to do business in a certain territory.

The second is that Senator Bailey is not only the attorney for the head of the Waters-Pierce Company, but had personal control of \$13,000,000 worth of that gentleman's property.—Granbury News.

THE PEOPLE OF TEXAS DO NOT, OF COURSE, DESIRE THAT MR. BAILEY SHALL DIE

Special to The Telegram. NEW YORK, Sept. 29.—Every true democrat knows where his duty lies. This is likely to be the watchword of the democrats of this state who have fully decided not to support the Hearst ticket nominated at Buffalo.

Major Adams of Buffalo furnished the phrase, and he is not going to support W. R. Hearst. Mayor McClellan declared that he never would support Hearst, but would vote for the rest of the state ticket, and that he was opposed to Murphy.

Edw. M. Shepard, who was the democratic candidate for mayor in 1901, and presided at the Albany conference, issued a statement endorsing his continued opposition to Hearst.

Intense indignation is becoming manifest in this city over the report that a deal has been cut between Hearst and Hearst whereby they are to apportion the ten supreme court judgeships between them, each taking half.

Hearst's nomination was ratified at a mass meeting in Madison Square Garden last night. There was a tremendous outpouring of men and women, the building being packed in every part.

Timothy L. Woodruff issued a statement soliciting contributions, but stating expressly that none will be received from corporations and persons with the understanding, expressed or implied, that favors will be granted in future.

The chairman of the committee, in answer to a question with him as to the best way of reforming the insurance business has promised Mr. Hughes his support.

WASHINGTON, D. C., Sept. 29.—Miss Anna F. Thomas, who says she is a cousin of President Roosevelt, was fined \$10 by Justice Mulready of the police court yesterday morning because she would not testify to the police court to her by a negro lawyer.

Miss Thomas was a witness against a negro charged with having treated his horse in a cruel manner. When she had completed her testimony Frank Roberts, the colored lawyer of the defendant, put a question to her: "I refuse to answer questions asked by a darkey," said Miss Thomas, addressing her remarks to the court.

"He is not a darkey," said Justice Mulready, who is a native of Richmond. "He is an American citizen and a member of the bar, defending this man. He has a right to ask you the questions."

"I refuse to answer a negro," repeated Miss Thomas. "You must answer, quick," replied his honor.

"I won't answer, even for you," said Miss Thomas, defiantly. "You had better be quiet," cautioned his honor.

"Keep quiet yourself," replied the witness. "I shall be compelled to fine you unless you are quiet," said the justice. "You won't fine me," declared the witness.

"I fine you \$10, in default of which I will send you to jail for two days," announced the justice, and the state should no longer be marred by its representatives whose private interests place him in direct opposition to the interests of those whom he was elected to serve.—Grandview Tribune.

PLANS TO ARREST PRESIDENT'S SON

Boston Police Show No Partiality to Rowdies

Special to The Telegram. BOSTON, Mass., Sept. 29.—Declaring that Boston is too big for a playground for overgrown children, Police Commissioner O'Mear issued a statement, after an investigation of the trouble between Harvard students and police last night, saying that tomorrow warrants would be issued for the arrest of Theodore Roosevelt, son of the President, and Shaun Kelly, his companion, who accompanied him in the west.

The police commissioner does not yet say that the student detained and claimed to be the President's son is actually identified, but says that the officers concerned will identify him tomorrow.

In issuing a formal statement of his special investigation today the police commissioner gave no reason for the stress being given the incident. He says that the first man or boy doing injury to the Boston police while they are on duty will be punished.

That with the return of students to Boston it is necessary for them to be taught that Boston is too big for them to use as a playground and that pupils who choose to act as hoodlums shall be punished as such.

Prominent Democrats Declare They Will Not Vote for Him

Special to The Telegram. NEW YORK, Sept. 29.—Every true democrat knows where his duty lies. This is likely to be the watchword of the democrats of this state who have fully decided not to support the Hearst ticket nominated at Buffalo.

Major Adams of Buffalo furnished the phrase, and he is not going to support W. R. Hearst. Mayor McClellan declared that he never would support Hearst, but would vote for the rest of the state ticket, and that he was opposed to Murphy.

Mr. BAILEY

Asks Your Consideration of a Clear Statement of Facts of Interest to Every Texan

In the past twenty-six years the people of Texas have paid the Eastern and Northern Life Insurance Companies

\$81,000,000 IN PREMIUMS

While these companies have paid in Texas ONLY \$27,000,000 IN DEATH LOSSES. The State of Texas, consequently, has been

DRAINED OF \$54,000,000

For, while no account is taken in these figures of commission, medical fees and other expenses, neither is the interest earned by these funds taken into account, and as it will amount to more than the expenses named, it will more than offset them.

SHOULD NOT THIS DRAIN BE STOPPED?

You can stop YOUR part in it by taking YOUR life insurance with the Fort Worth Life Insurance Co.

B. P. BAILEY, Vice President and General Manager, FORT WORTH LIFE INSURANCE CO.

When in Chicago Stop at The Stratford Hotel

PROGRESS AND DEVELOPMENT IN WEST TEXAS

Electric Lights for Midland
Special to The Telegram.
MIDLAND, Texas, Sept. 29.—The Midland Light and Ice Company has received word that its engine has been shipped. This means that within the next thirty days this city will be supplied with electric lights.

Light for Pecos
Special to The Telegram.
PECOS, Texas, Sept. 29.—A franchise has been granted to parties who will at once begin the construction of an electric light system. There is also a strong probability that an ice plant will be constructed in connection with the light plant.

Light for Haskell
Special to The Telegram.
HASKELL, Texas, Sept. 29.—J. T. Strickland, manager of the Haskell Light, Ice and Water Company, says work has commenced on the electric light plant and it is expected to have it in operation within the next thirty days. The building is now practically completed.

Cotton Outlook Good
Special to The Telegram.
SWEETWATER, Texas, Sept. 29.—Superintendent Parkhouse of the Sweetwater Cotton Oil Company has returned from a trip covering Fisher and Severy counties, and says the outlook for a big cotton crop is very encouraging. Boll worms have done very little damage and gathering the crop is now in good headway all over the country.

Grandfalls Bank Organized
Special to The Telegram.
GRANDFALLS, Texas, Sept. 29.—The First State Bank of Grandfalls has been organized with a capital stock of \$15,000, all paid in. R. D. Gage of Pecos is president, John T. Stone, vice president; E. H. Moore, cashier.

State Farm for Roscoe
Special to The Telegram.
ROSCOE, Texas, Sept. 29.—Arrangements are being perfected for the establishment of a state farm at this place, and it will soon be in operation. The stock is all taken. Dr. L. B. Roebuck will be president, W. L. Turner, vice president, and L. E. Jarman, cashier.

Woodmen to Build
Special to The Telegram.
COLORADO, Texas, Sept. 29.—The Woodmen of the World will soon begin the erection of a fine business house in this city. The lot is \$10,000. The lower story will be used as a business house and the upper floor for a lodge room. The lower floor has already been leased for a period of five years at \$100 per month.

One Thousand Acres of Cotton
Special to The Telegram.
SNYDER, Texas, Sept. 29.—H. P. Wellborn, a typical southern planter, who lives in this county, has 1,000 acres in cotton, which he says will yield at least 75,000 lbs. He must return to El Paso with twenty-six Mexican cotton pickers, which makes his third Mexican importation. He says he prefers the Mexicans to negroes, as they are much easier controlled.

Baptists to Build
Special to The Telegram.
MINERAL WELLS, Texas, Sept. 29.—The Baptist denomination in this city will soon begin work on the construction of a handsome new church edifice. The Thomas Love Mineral Wells has been appointed to visit other cities in the state for the purpose of getting some idea as to new and modern plans.

Onions Weigh Ten Pounds
Special to The Telegram.
SAN ANGELO, Texas, Sept. 29.—A very remarkable yield of Bermuda onions has just been gathered by William Lackey, a farmer of Irion county. He raised 14,000 pounds on a half acre of ground, and seven average onions out of the lot weighed ten pounds. Figuring the entire half acre yield at 2 cents per pound, the medium price, the whole amount is worth \$280. He has been several uncommonly large crops of onions reported over this section at different times, but none has equalled this crop.

To Rival Mineral Wells
Special to The Telegram.
WEATHERFORD, Texas, Sept. 29.—A land deal of great magnitude and meaning great deal of money in the construction of a line of railway to the Weatherford Land Company has been organized with a paid up capital of \$30,000, and the Thomas Love Mineral Wells, together with sixteen acres owned by G. N. Helfren and fourteen acres owned by C. D. Hartnett, purchased. Within a few days the land will be worked by the land and arranged for big improvements. The intention is to establish a health resort that will in a measure rival Mineral Wells. A large hotel and pavilion will at once be erected.

WOMAN STOPS JAIL DELIVERY

Throws Arms Around Prisoner, Crying for Help

Special to The Telegram.
GRANBURY, Texas, Sept. 29.—A wholesale jail delivery was frustrated here last night by the extraordinary presence of mind and steady nerve of the jailer's wife. There were six prisoners confined in the jail and implicated in the effort to escape, some of them ex-convicts and very desperate characters. Jailer Mahan had given the prisoners their supper, and when he started out he was grabbed by one of them, who attempted to take his pistol. There was a scuffle over the weapon, and the other prisoners came to the assistance of their leader, overpowering the jailer and forcing him into a cell.

Mrs. Mahan heard the noise and arrived on the scene just in time to throw her arms around the neck of the leader and scream for help. Her cries attracted attention and help came in time to prevent the men from getting out of the building. Jailer Mahan is the democratic nominee for county judge of Hood county.

CONVICTS CAPTURED

Bloodhounds Run Three to Earth and Fight Enthusiastically

Special to The Telegram.
RUSK, Texas, Sept. 29.—Five convicts confined in the state penitentiary here, yesterday made an unsuccessful break for liberty. Two of the men voluntarily returned before night, and the other three were captured within an hour after getting out by the dog man. The convicts were working at the carpenter's trade, repairing some state property, and Mr. Millstead was guarding them, but only had a pistol.

The convicts got possession of the pistol and carried Millstead about a mile and three of them left him. The other two returned to the penitentiary with Millstead. The bloodhounds at the penitentiary were put on the trail of the three fugitives and soon ran them to cover. One of the dogs was killed by the convicts and they fired several shots at their pursuers, but were finally induced to surrender, as ammunition was running low, and were carried back to prison.

Find Dead Man

DALLAS, Texas, Sept. 29.—The body of Ed Johnson, a white man, was found near the crematory early Friday. No marks of violence were on the body, and it is supposed he died a natural death.

\$20,000 for More Water

STAMFORD, Texas, Sept. 29.—Stamford's water works, which in extent and character amounts to almost an entirely new system, is being rapidly pushed to completion. The old tower and tank will be replaced by new steel tower and steel reservoir of 100,000 gallons capacity. The old mains are to be replaced and additional fire plugs placed. A number of extensions will be made so as to cover practically all of the city. There will be a direct connection with the tanks so that the entire tank supply will also be available. The cost of new improvements aggregates about \$20,000.

Developing Belknap Mines

GRAHAM, Texas, Sept. 29.—Manager Clark of the Belknap coal mines, is looking after that property, and says work will soon begin. The development of a line of railway to the mines at Belknap for the purpose of hauling out the coal. The indication is that trains will soon be running to the heart of Young county, bringing out the black diamonds that will add so much to the thrift and prosperity of this section. The development of this interest is going to do much in bringing this portion of Texas to the front, as Young county coal is of very fine quality.

White Bread Starves Many People

WANT WORK? WELL, HERE'S A CHANCE

Labor Agents After Men and Contractors Join in Chase

The present scarcity of common labor is just as much of a problem with the railroads as it is with manufacturers and building contractors. The ubiquitous labor agent was never quite so active as he has been during the present summer and now reports that the activity will continue indefinitely.

While the market is one of bewailing that the situation is a serious one, the railroad contractors are at their wits' end trying to engage the services of sufficient laborers to keep out the immense amount of construction work now under way. The situation is becoming so uncertain that cases are reported now where railroad contractors will make no agreement as to the time when work contracted for will be completed.

In the face of this dearth of labor the railroad contractors on the one side are pitted against the manufacturers and local contractors on the other. It is a battle royal, in which the latter are trying to retain the services of men that are available.

Labor Agents Busy

should do the work, the dam to be built of cement and crushed stone. The stone is ready and the other work has been commenced, but on account of caving in of the banks and other troubles, progress has been slow. Several times workmen have had narrow escapes from death on account of the caving in of the banks. Should a big rise come down the bayou any time soon the present work will all be a total loss.

Big Apple Orchard
Special to The Telegram.
ALPINE, Texas, Sept. 29.—A. M. Robinson, who has purchased 70,000 acres of land near Valentine, in addition to establishing the largest wheat farm in the world in that vicinity, will also plant an immense apple orchard. He says the west Texas country is admirably adapted to the production of the Oregon apple, which holds front rank. Apples are to be grown on an extensive scale, the aim being to supply a large part of the Texas market.

Loan Association Formed
Special to The Telegram.
EDROS, Texas, Sept. 29.—There has just been organized here a building and loan association with a capital stock of \$50,000, and practically all of the stock has been subscribed. Leading financiers are interested.

Dam Expensive
Special to The Telegram.
BROWNWOOD, Texas, Sept. 29.—The dam which the city is building near town in the improvement of the water works system, promises to be a much greater task than was first expected, and according to reports money would have been saved by letting the contract as first proposed.

Co-Operative Oil Mill
Special to The Telegram.
GRANBURY, Texas, Sept. 29.—The Hood County Farmers' Union will soon begin work on a co-operative oil mill which was first expected. A liberal amount of stock in the enterprise.

State Farm for Roscoe
Special to The Telegram.
ROSCOE, Texas, Sept. 29.—Arrangements are being perfected for the establishment of a state farm at this place, and it will soon be in operation. The stock is all taken. Dr. L. B. Roebuck will be president, W. L. Turner, vice president, and L. E. Jarman, cashier.

The intention is to establish a health resort that will in a measure rival Mineral Wells. A large hotel and pavilion will at once be erected.

BIG MEN AND SMALL TO HELP BUILD FRISCO

A party of Slavs, seventy-five strong, passed through Fort Worth Thursday en route to San Francisco from New Orleans. The foreigners are bound for the coast city to help rebuild Frisco and were gathered together at distant points and landed at New Orleans. There was not a man in the crowd who was not big and husky. Each looked like a giant, being almost six feet in height and tremendous shoulders and arms. The Slavs could speak no English and it was amusing to those who listened how they jabbered among themselves.

The labor agent who had the crowd of foreigners in charge stated that within the next sixty days there would be anywhere from 20,000 to 30,000 foreign laborers in San Francisco at work in making a new city.

A car load of Greek emigrants were also in Fort Worth en route to San Francisco. A remarkable peculiarity about this bunch of newcomers was their height, not one of the party being over five feet two inches. With their backs turned toward an object they would be taken for a bunch of schoolboys not over 14 years of age, but all of these newcomers had reached their majority some years back. Compared with the crowd of brawny Texans that surged about them at the Union station these new citizens looked like a company of pigmies.

GEN. MACARTHUR NOW HEAD OF U. S. ARMY

General MacArthur was born in Massachusetts June 2, 1845. His family moved to Wisconsin while he was a boy. August 4, 1862, he was mustered into the volunteer service as first lieutenant and adjutant of the Twenty-fourth Wisconsin infantry. After the war, which he left as lieutenant colonel of the lakes and forest for the regular army as a second lieutenant.

When the Spanish war broke out he was a lieutenant colonel in the adjutant general's department. He was made a brigadier general of volunteers and went to Manila, commanding his brigade during the early days of the war there. After the battle of Manila he was made a major general. In 1900 he made a major general in the regular army and succeeded General Otis as commander of the division of the Philippines and military governor.

In 1901 he was promoted to the rank of major general.

On his return to America he was appointed to the command of the department of the lakes and forest for the last few years has been in command of the division of the Pacific, with headquarters at San Francisco.

During the Russo-Japanese war he was in the field as a special observer for the war department, and at the close of the war he traveled extensively in the far east and India, where he was the guest of General Lord Kitchener.

He received the medal of honor for "coolness and conspicuous bravery in action" at Missionary ridge, and was recently decorated with the Order of the Rising Sun by the mikado of Japan.

YALE OUT OF DEBT

University Squares Accounts First Time in Many Decades

Special to The Telegram.
NEW HAVEN, Conn., Sept. 29.—Yale is out of debt today, for the first time in many decades. Treasurer Lee McClung today reported a surplus of \$62,000 for the last year in his annual statement. For years the report has shown a deficit. McClung, Yale's most famous halfback, says Yale has entered a new policy in buying real estate mortgages and selling all property in New Haven not needed for university development. Over \$1,000,000 was invested in New York last year.

LEG AMPUTATED

Negro Steps Onto Steel Conveyor and Member Badly Crushed

Special to The Telegram.
CALVERT, Texas, Sept. 29.—Sam Robertson, a negro employed at the Gibson oil mill, had his leg so badly crushed that amputation was necessary.

He was off duty, and feeling bad, crawled up in the seed house and went to sleep, and on coming out he was walking on the conveyor when his foot slipped and was caught by the steel conveyor and his leg quickly drawn in and broken in three or four places. Prompt action on the part of some of the employes in stopping the machinery saved Sam his life. Chances are good for his recovery.

HE FOUND RELIEF.

If you are troubled with liver complaint and have not received help, read this: Mrs. Mary E. Hammond, Moody, Tex., says: "I was in poor health—with liver trouble—for over a year. Doctors did me no good and I tried Herbine, and three bottles cured me. I can't say too much for Herbine, as it is a wonderful liver medicine. I always have it in the house. Publish where you wish." Sold by Covey & Martin.

ROSEN HEIGHTS TO ASK INCORPORATION

Sentiment of Mass Meeting in Favor of Petitioning Commissioner's Court to Call an Election—Claim Two Thousand Inhabitants

A meeting of the Citizens' League of Rosen Heights was held at the school building Friday night. The object of this meeting was to hear the report of committees appointed at a former meeting to look after various matters in connection with the proposed plan of incorporating for municipal purposes.

The committee appointed to confer with Mr. Rosen to ascertain if he was willing for what is known as the "second filing" to be recorded as town lots instead of "acreage" property, reported that Mr. Rosen was not at this time willing to do so. It is reported that Mr. Rosen is now being rendered for taxes, it was stated, at about \$15 per acre, whereas it is recorded as town lots a valuation much higher must be placed on the property.

Mr. Rosen expressed similar views. The meeting was perfectly harmonious, and not a single dissenting voice was heard.

Another meeting will be held in a short time. The matter is to be pushed as rapidly as possible, and the sooner Rosen Heights is incorporated the better will the people be pleased.

Mr. McQuerry stated that it was the duty of the citizens of Rosen Heights to look after the education of the children and give them the best training in the public schools that is possible. That there are more than five hundred in that settlement now within the public schools that is possible, and that the only way to obtain it was to incorporate.

Many others expressed similar views. The meeting was perfectly harmonious, and not a single dissenting voice was heard.

WHY SHOULD CITY LEASE LIGHTING?

Question Promises Interesting Debate at Next Council

What is there behind the move for the leasing of the city electric lighting plant? Is a question often asked in these days, but the answer is not forthcoming.

The question is precipitated by the introduction of a resolution in the city council at the last meeting which requires the city to lease the lighting plant to the city.

THE PUBLIC EYE

Starting a Glass Factory

It has long been known to men of finance that a properly organized and conducted glass factory could operate in Texas at an enormous profit to its managers, stockholders and promoters. This truth is about to be realized in the promotion of the Fort Worth Glass Company.

BOUNDARIES GIVEN

The boundaries are then given as follows:

Beginning at the southeast corner of the Thomas survey; thence north to the southeast corner of Rosen Heights addition to North Fort Worth, Texas; thence east to the northeast corner of the A. C. Card survey; thence north 1,013 feet; thence west to the east line of the A. C. Card survey; thence north 1,413 feet; thence west to the east line of the A. C. Card survey; thence north 45 degrees west, 3,420 feet; thence south 45 degrees west, 360 feet with the east line of Lydon avenue; thence north 45 degrees west, 4,320 feet to the northwest line of said Rosen Heights addition, second filing; thence south 45 degrees west, 2,565 feet with the west line of Lydon avenue; thence north 45 degrees west, 1,675 feet; thence east with the west line of said addition 1,375 feet; thence south 45 degrees west, 1,375 feet to the north line of Nineteenth street; thence north 45 degrees east, with the north line of said Nineteenth street, 1,485 feet to the south line of said addition; thence east with the south line of said addition to the place of beginning.

TALKS FOR INCORPORATION

There were quite a number of pertinent and enthusiastic talks made in favor of incorporation. There was a few present who had not been present at the meeting of the city council on this subject, but they were given information as to the benefits that Rosen Heights might derive from incorporation.

REUNION AT HANDLEY

Old Settlers and Club Women Attend Picnic

The attendance at the Old Settlers' picnic at Handley Friday evening was not as large as it was hoped it would be but all had a good time of it, particularly the older settlers and the young ones who were present.
