Tobacco Crop Damaged

By Associated Press. HAVANA, Oct. 20 .- News from the interior of the island continues to come in slowly. The damage done to the tobacco crop in the province of Pinar del Rio is not yet fully known but it is believed to be great. The tobacco was planted late this year on account of continued rains, hence the plants have not yet sprouted and many seed beds have been washed out, necessitating replanting, which retards the crop. The storm is reported to have been very severe in Vuelta Abajo district of Pinar del Rio. The principal havoc outside of Havana is reported to have been at Batabano, where seven men were drowned. The were wrecked, many houses destroyed and many persons rendered homeless. Mayor Batavano has issued an appeal for relief for the distitute and Governor Nunez of Havana province will proceed there today with funds and food supplies. The brunt of the storm seems to have been sustained by the city of Havana and suburbs. No more deaths have been reported.

T. B. REED'S ESTATE **DOUBLES IN VALUE**

Widow of Former Speaker Is

Now Worth \$500,000

By Associated Press. NEW YORK, Oct. 20 .- The estate of Thomas Brackett Reed, ex-speaker of the house of representatives, has nearly doubled in value since the death of Mr. Reed in December, 1902. At that time the approximate value of the estate was about \$200,000. This week Augustus G. Paine, who was an intimate friend of the ex-speaker. sent Mrs. Susan H. Reed, over \$500,-000, which represented the original investment holdings of the estate and the profits from these and other investments in the last four years.

The greater part of the estate was in railroad stock and Mr. Paine, as executor, had entire charge of turning these securities into cash. It is said that Mr. Paine could have wound up the affairs of the estate many months ago, but re-invested a large part of the estate funds at the solicitation of Mrs. Reed.

Statement From Paine

When asked last night if these as sertions regarding the Reed estate were facts, Mr. Paine said: "It is true that Mrs. Reed is now in very comfortable circumstances. Whatever I have done for the estate I have done gladly. Mr. Reed was one of my greatest friends." The widow is living in the old Reed

homestead in Portland, Me. It will be remembered that Mr. Reed when he retired from public life, did so a comparatively poor man. He said at the time that he retired to go into the business world to make a little money.

By Associated Press. KEY WEST, Fla., Oct. 20 .- The Austrian steamer Jennie, Captain Dudnich, bound from Gulf Port for Genoa, has called at this port to land forty-nine workmen picked up at sea near the Bahama coast, 160 miles from Key West. The men were part of a force of 150 workingmen belonging to barge No. 4, engaged in East Coast extension work. Most of the others were either killed or drowned in the storm early Thursday. Nine other barges crowded with workingmen engaged in extension work were at sea with barge No. 4. There is no news of them and it is feared all were lost.

Forty Killed Outright

W. H. Dusenbury, one of the engineers saved by the steamer Jennie, says the storm struck barge No. 4 at 5 o'clock Thursday morning. The houseboat went to pieces in the raging sea and thirty or forty men were killed in the crash. Dusenbury says nine other boats working on the extension at Long Key went to sea with barge No. 4. Tragedy in Baird Rouses West Texas Towns

STABBED IN HEART

Assailant Turns Knife on Self After Crime and May Die. Taken to Abilene

Special to The Telegram. BAIRD, Texas, Oct. 20 .- The love or a Mexican youth for a young white woman, said to have been betrothed and about to be married to a young man employed by the Texas and Pacific railway and living here, is the only known cause of a tragedy enacted here Friday afternoon as a result of which Miss Emma Blakely, aged 22, is dead and Alberto Vargas, desperately wounded, lies in jail at Abilene where he was hurried by of

hands of an enraged mob. The tragedy which occurred in the City hotel, aside from the excitement it has caused in Callahan and Taylor counties, no less than three mobs having been formed to lynch Vargas, has unusually pathetic features.

ficers to prevent his death at 1

Miss Blakely had been a waitress at the City hotel so long that she was regarded as almost one of the family by the patrons and the proprietors. She was popular with a lafge number of acquaintances, largely among Texas and Pacific employes who boarded at the hotel or took their meals there while the trains stopped at lunch hours. Vargas had been a dishwasher at the hotel only two months. He fell violently in love with Miss Blakely and because she paid no attention to him was driven to frenzy of jealous rage.

Waited Behind Screen

Friday during the dinner hour Var-gas left the hotel, but no one noticed his absence. Returning, he hid behind a screen separating the dining room from the kitchen. E. Sigal, proprietor of the City hotel, tells the

rest of what occurred as follows: "When I entered the dining room about 1:30 o'clock I saw Vargas spring in front of Miss Blakely and stop her with his left arm. She was carrying a tray full of dishes when he stabbed her with a knife. I grab-bed him and kept him from striking her a second time, when he gave him-self several blows and fell to the floor."

Wounds Thought Fatal

Vargas was hurried to jail, bleeding from three wounds about the fleart. A doctor who dressed them said he did not believe Vargas could live, Miss Blakely was beyond medical aid when a doctor reached the hotel. Vargas has been conscious since the tragedy. Shortly after he was taken to jail he was asked by W. R. Ely, county attorney, why he killed Miss Blakely. According to the county attorney his re-

ply was: "Thank God for that. That gives me great pleasure. She will not be an American man's wife now." Letters, evidently written by Vargas, have been found indicating that the tragedy was premeditated. One letter was in English and the other in Span-The substance of the note in

"Oh, Emily, you will never know how much I love you! You were going to marry an American man and I could

never consent for you to do that. We will die together and be one in the eternal church." Mob Quickly Formed

Baird, the scene of the tragedy, is 161 miles west of Fort Worth and is divison point of the Texas and Pacific railroad. It is beautifully situated at the foot of a high range of hills and is the home of several hun-dred railroad employes. Practically all of them knew Miss Blakely and news of her death was no sooner received than immediate demands for summary punishment of Vargas were heard. All of the afternoon crowds were gathered and no secret was made of the fact that it was the object of the crowd to storm the jail and take the prisoner. About 8 o'clock some several hundred could be seen wending their way thru the main street toward the jail. They were met by Deputies Joe and Dolph Tisdale, who informed them that the prisoner had left about an hour before in the custody of Sheriff T. A. Irvin and Jaller Felix Raines for Abilene. This did not satisfy the nor would anything but the blood of the prisoner wanted, and a committee was appointed, which was thown thru the jail. Likewise the court house and old jail were searched and at midnight the search was still in progress. In the first part of the night a telephone message was received at Baird from Eagle Cove, the home of Miss Blakely, that a party of seventy-five cowboys would leave there for Baird and would get in shortly after midnight to avenge the death of their friend.

Asks Law to Be Obeyed

C. H. Willeford of Eagle Cove arrived in Baird at 9 o'clock last night. He was Miss Blakely's step-father. He asked that the law be allowed to take its course, and said that had been his belief all his life, tho it was hard to

stick to when brought home.

Miss Blakely is survived by four brothers, W. T. Blakely, a teacher in Ellis county; Frank Blakely, farmer in Ellis county; Olea Blakely of May. pearl and Fred Blakely, a railroad man. Howard Willeford, a half-brother, is a student in Abliene.

Citizens of Baird have contributed a lot for burial and Miss Blakely will be buried here. It is said that what was to have been her bridal dress will be her funeral robe.

Parsley, supply and demand small, 30 cents per dozen bunches. Soup bunches, ample supply, 40 cents per dozen bunches. Radishes, good supply, 15 to 20 cents

per dozen bunches Pumpkin yams, the best of the sweet potatoes, 45 cents per bushel. All of the bunch stuff is sold at re-

tail at the rate of 5 cents per bunch. Celery, which is not grown locally to any great extent, comes to the Fort Worth market from various points, Colorado, California, New Mexico and Western Texas. The local demand is almost exclusively for the large-stzed, coarse varieties and the requests for the small tender Michigan or Kalalazgo variety are very rare. The le cal demand is for about a car load or 1,000 dozen bunches a week. The increase in the demand in Fort Worth has been remarkable, as it is only a few years since the local demand was fully supplied by 100 dozen bunches a

The first of the California goods are coming on the market and the commission men say that they are in better shape than ever and the quality is so high that it may be called fancy. The supplies of Irish potatoes, cabbage and onions come almost exclusively from Colorado, the potatoes beng the Greely variety.

The potatoes sell for from 85 to 90 cents per bushel. Onions, plentiful supply, sell for from \$1.75 to \$2 per 100 pounds. Cabbage, demand fully supplied, \$1.75

to \$2 per 100 pounds, Celery, demand fully supplied, 56 cents per dozen bunches or stalks. Apples, Jonathans, \$1.40 per bushel oox. There are no other varieties of Colorado apples now on the market, unless there are some held in cold storage, but when the supplies were here the price was about \$1.25 per box.

Missouri apples are coming on the market in fairly large quantities and the prices are from 75 cents to \$2.50 per bushel, depending on the variety. Bulk apples are about \$2 per barrel, or 75 cents per bushel, while the fancy Ben Davis sell readily at \$2.50

Grimes' Goldens are \$3 per bushel and the Jonathans are in good demand at \$3.50 per bushel.

There is a good local demand for apples, amounting to about three car loads per day. There are days when thirty to forty car loads of apples go thru here to other points. The California tomatoes of good

quality are on the market Saturday and the price is \$1.50 per four-basket California crate, which is different in shape and weight of contents from the Texas crate.

Cauliflower, all shipped in, is sold at 21/2 cents per pound. Grapes, according to variety, sell for from \$1.50, \$1.75 and \$2 per crate. They will run about twenty-five pounds net. There is a good demand, nearly all the time, for bananas, and that demand night be larger if there was a certainty

about the prices. There is no article of food that is nore absolutely under a trust control than the banana supply, and the price is varied at the will of the trust with every arrival of banana shipments at New Orleans or Mobile. Therefore the prices quoted today may be tomorrow out of all proportion to the actual value of the fruit. The current quotations are, for the "jumbo" bunches, which may have from eighteen to twentyfour dozens to the bunch, from \$2.50 to \$2.75 per bunch. Smaller bunches vary in price from \$1 up. There are sales for about a car load a day in Fort Worth, Some of the commission houses sell the bananas by the pound, and the price has been 4 cents a pound, the weight including the stalk. green bananas and other unsalable matter which may go with the bunch.

Petitioners Say Turn Table and Tank Are a Nuisance

In a petition filed in the district clerk's office claiming \$1,100 damages, I J. Samuels of Fort Worth alleges that the water tank, turn table and side tracks put in by the Missouri, Kansas and Texas railroad near his

property is a nuisance. The petition alleges that plaintiff Samuels on or before the date of the

ings and were reasonably worth \$3,-000, but that because of the location of said water tank, turn table and railroad tracks near same the prop-erty has been damaged fully \$1,100, for which amount he asks judgment.

Mrs. Annie P. Allison has also filed a suit against the Missouri/ Kansas and Texas railroad seeking to recover \$900 damages on the same grounds al-leged in the petition of Samuels. Plaintiff's residence is in the same locality and she too says the water tank, turn table and tracks is a nuisance and that her home has depreciated \$900 in value since the things complained of were established.

CITIZENS PROTEST AGAINST BAILEY

Action of Democratic Committee Chairman Scored

WEATHERFORD, Texas, Oct. 20.-In answer to a call published in the local newspapers for an inti-Bailey meeting, 200 citizens of the town and county assembled in the district court room last night and put themselves on record as opposing the re-election of the junior senator.

Special to The Telepram.

The meeting was called to order by H. S. Moran, who stated the object of the assembly. Organization was perfected by the election of Judge J. M. Richards as chairman and R. W. Davis as secretary. Short speeches were made by Mr. Moran and Judge C. A. McCall, the former replying to attacks which, he declared, Mr. Balley had made on him personally. On motion it was decided to appoint a committee of five to canvass the sentiment of the county as to whether the members of the legislature should be instructed to ignore the instructions of the primary, and vote against Senator Bailey's re-election. This committee consists of R. W. Kindel, J. T. Cotton, H. S. Moran, Charles McFarland

and Aaron Smith. After this committee had been named O, S. McKinney, speaking from the floor, asked if it was permissible for a Bailey man to be heard. He was told to go on, and soon the discussion became general, and at times exciteg, several persons participating. It was apparent from this running debate that the sentiment of the crowd was very much divided, but the anti-Bailey people seemed to be in the ma-

as follows: Resolved, By this mass meeting of democrats of Parker county, That the democrats of Texas have the right to discuss, criticise or review the record or conduct of their representatives in congress or all public servants, and the exercise of this right cannot be abridged or stopped by the state executive committee or by the chairman thereof. Whether the democrats of Texas have merely indorsed or legally nominated Senator Bailey to the United States senate he must be elected by the Texas legislature. Such indorsement does not preclude the democrats of Texas from further discussing whether or not they desire their representatives to re-elect him and make known their will; and it is believed that an effort by the said committee or the chairman thereof to discourage freedom of speech or action on the part of the democrats of the state will impair the democratic organization of Texas much more than will the free

proceed. The resolutions then go on to set forth the various charges against Senator Bailey, particularly those regarding his alleged trust affilations and that the representatives of Parker county should vote against the senator's re-election in the legislature.

GERMAN SUICIDES

Tarrant County Patient in Insane Asylum Was Foreigner The German, G. E. Thiel, who hanged himself at the Terrell asylum Friday morning was convicted of insanity in the probate court here Sept. 27. The

man was found wandering aimlessly about the streets and taken in charge by the police. It appears that he had been in the United States but about three weeks. He could not speak a word of English, and being what is known as an Umber German, there were but few people here who could understand what he said. It is believed the man was insane when he landed in this country and that he was a fit subject for deportation. So far as known he had no relatives in this country.

LACK OF QUORUM **PREVENTS FIGHT**

Planned to Submit Senatorship Question to Voters

Special to The Telegram. DALLAS, Texas, Oct. 20 .- What promised to be a merry fight was prevented today by lack of a quorum at a meeting of the Dallas county democratic executive committee. It is known a resolution signed by four or more members of the committee had been drafted looking to a resubmission of the senatorship question to the voters of the county. Lack of a quorum, however, prevented any business being transacted.

EL PASO, Texas, Oct. 20.—Raids continued today in El Paso after the revolutionists and S. Blanco was jailed shortly before noon. The federal officials were closeted all morning with the Mexican consul Mallen and other Mexican officers. None of the arrested men are allowed to talk and none have had hearings. It is believed all will be deported. At the same time of raid on this side of the river, the authoritles in Juarez, the Mexican town opposite El Paso, arrested seven revolutionists, but the names are withheld. Mexican soldiers paraded Juarez all night after midnight. American officers over there today are helping the Mexican officers in further hunts.

Stocks Take Tumble and Tone Becomes Panicky

By Associated Press. NEW YORK, Oct. 20 .- There is renewal of urgent liquidation in the stock market today, which carried early prices 11/2 to 31/4 points below last night for active speculation of favorites. The change in the money situation resulting from yesterday's advance in the Bank of England's discount rate from 5 to 6 per cent was the motive for unloading speculative accounts. The market closed in a state of demoralization with panicky breaks

at various points. Liquidations came in a flood as the close of the session drew near. Reading was off 61/2 with a single block of 1,000 shares taken at 142. Great Northern preferred slumped 8, Anaconda 10½, Pullman and United States Express 5, St. Paul and Canadian Pacific 4%, Smelting 4%, Union Pacific 4, with declines thruout the list of 3 to 8 points.

OGDENSBURG, N. Y., Oct, 19 .- W. R. Hearst last night was shown a dispatch setting forth Charles F. Murphy's statement that certain representatives of the Independence League had demanded money for the withdrawal of the league candidates. Mr. Hearst

"About as much weight should be given to this statement by Murphy as would be given to a similar statement by Woodruff. In many instances the league has indorsed democratic candidates. On the other hand, in many places the league had nominated independent candidates for the senate and assembly and in some places for congress. It has made independent nominations where the democratic candidates did not appear to be of a character to carry out the principles to which the league is pledged and in some other cases to give adequate representation to labor, the importance of which neither one or other of the parties has sufficiently recognized. Where the independent candidates are in the field they are likely to be elected and consequently it is natural that the manager of either party should seek to oppose them by every eampaign trick or discreditable meth od. For instance, Fitzgerald, the letter carrier who is running for congress in Brooklyn on the independence league ticket, has been informed by the administration that he must retire or be discharged from a position that he has occupied for years and in which he has won many service stripes for long and faithful work. "I imagine Murphy's vague charge is a campaign tinhorn blast. If he has any reasons to sustain such a charge, it is his duty, as of all American citizens, to administer the most stinging rebuke possible at the polls to the guilty parties. But if he has no such evidence, the statement is unworthy

ROOSEVELT AFTER **SCALP OF HEARST**

President Dissatisfied With Campaign in New York

WASHINGTON, Oct. 20 .- President Roosevelt told a republican caller a day or two ago that he felt sure the managers of the Hughes campaign in New York greatly underestimated the strength of Mr. Hearst. The President also expressed great dissatisfaction with the manner in which the republicans of that state wer conducting the campaign.

It may also be stated on unimpeachable authority that it is only with the greatest difficulty that the President is being restrained from entering the New York campaign himself, either with a letter, urging the election of Mr. Hughes, whom he virtually nominated, or even making one or more addresses in behalf of the republican

candidate.

The President resents very deeply the charge that he is responsible for many of the radical utterances of Mr.

Hearst, or for "Hearstism." It is charged even by republicans that the frequency with which the President has urged anti-corporation legislation and his more recent declarations favoring the limitation of the amount of wealth a man may be allowed to accumulate and inherit, are in large measures responsible for the movement which threatens to make Mr. Hearst governor of New York and a formidable candidate for the Presi-

Such suggestions are said to infuriate the President. He told a caller a day or two ago that he realized that if Mr. Hearst were elected the re-sponsibility therefor would be laid at the door of the White House, which would be eminently unjust.

There is no doubt that the conservatives among New York republicans are aghast that the President should be advocating such drastic legislation at the very time Mr. Hearst is make ing his campaign on such radical lines. It gives color, they say, to the Hearst claim that everything is "wrong."

HOUSTON MAN KILLED Cousin of Victim Surrenders to Police Murder Charged

Special to The Telegram. HOUSTON, Texas, Oct. 20 .- Marshall Tankersley Jr., a well-known young man of this city, was shot last night about 10 o'clock in St. Emanuel street and from the effects of wounds died within a few minutes after arriving at St. Joseph's infirmary.

E. B. Nichols, a cattleman, formerly of Galveston, and a cousin of the dead man, surrendered to the police and he is now in the city jail with a charge of murder pending against him. The man was picked up in the street by an ambulance and conveyed to the hospital, where he died. The two shots fired struck young Tankersley in the stomach and passed thru his body. After the shooting Nichols walked up Congress avenue, caught a car and came to town to give himself up.

Prisoner Taken Back to Mineral Wells Charged With Death of Wife

Special to The Telegram. MINERAL WELLS, Texas, Oct. 20. -The man Hardin, charged with causing the death of his wife and unborn child, was not carried to Weatherford, as was originally intended. The officers took him out of town and carried him to Rock Creek, where he was guarded all night and then returned to the jail in this city. After his preliminary examination here he will probably be carried to the county jail at Palo Pinto and held there until his trial in the next term of district court. Sentiment is still very strong here against the prisoner, and it is said that feeling in Weatherford was what prompted the officers to change their minds about carrying him there.

EDNA, Texas, Oct. 20.-Felix Powell and Monk Gibson, charged with the murder of Mildred Lee Conditt and Mrs. Lora Conditt, and Henry Howard, indicted as an accessory to Felix Powell in the murder of Mildred Lee-Conditt, were arraigned before District Judge Wilson in open court and after all preliminary matters were disposed of in due form the court on its own motion transferred the first case against Felix Powell and Monk Gibson to Victoria county and the second case against them to DeWitt county. The cases against Henry Howard, Augusta Diggs and Bether Reed were also transferred to Victoria county. The prisoners will probably be kept here until the Victoria county district court meets in the latter part of November. Judge Wilson has intimated that these cases will be placed at the head of the docket so as to get them disposed of at the earliest possible date. bership on the board of pardons. LAMPASAS, Texas, Oct. 20 .- The pecan crop in this section of Texas is practically a failure this year. Lam-passas has the reputation of being one of the best pecan markets in Texas an the best in this part of the state. Last year the nuts were marketed here and shipped to eastern buyers by the carload, the grade being good, as most of them were of the paper shell variety. This year, however, there are no pecans on the trees, and it will be a very difficult matter to get pecans of any grade. Pecan raisers consider themselves lucky to get crops three years out of five, and this appears to be one of the off years.

UNIFORM SCHOOL TEXT BOOKS

The state of Texas has a uniform text book law which applies to all the state except such cities as have as nany as 10,000 inhabitants, and this law expires by limitation at such time that the next legislature will be called upon to re-enact it or something else in its place, and there is going to be a fight to have the law re-enacted so as to apply to all the state without any reservations. Commenting on the situation, the El Paso Times says:

The next session of the Texas legisature will have to act on the text book law as the contracts under the resent state adoption law will expire the succeeding legislature meets. There is already much discusion on the subject and it appears that all opposition to the idea of state adoption has entirely disappeared, or those who oppose it have not the temerity to come out openly. Practi-cally all of the patrons of the public especially those outside of the larger cities, are strongly in favor of state text books, as, it means the d use of the same books at a very low price, particularly when compared to the high cost prevailing n this state before state adoption, and hen teachers were changing books at will, and at the same time acting as its for the publishers and renissions on all books sold

r the last two adoptions cities of 10,000 inhabitants and over have en exempted from the provisions of the state text book law and allowed to elect their own school books. There s some question as to whether a ange will be made, the few believe that the law would be extended as a blanket to cover these large places. However, quite a few patrons of the city schools have insisted on having the text books adopted by the state, out the expert school men say that wing to the long terms and higher nd more thoro work carried on in the ern city schools the text books in under adoption would not permit of this advance study.

A new proposition in connection ith the city school adoption is that the text book law be made local opon to those places, and if the patdopted the question be submitted to vote of the patrons. In this way the patrons would be in a position to say what books shall be used in their s, instead of the city boards, as

If we are to have uniform text books, let them be uniform all over Texas and do away with any and all discrimination, which in effect can do no real good. Present conditions create confusion. THE SENTIMENT OF THE MASSES The hurran crowds around the cities and towns of Texas who are making so much noise over Senator Joseph Weldon Bailey do not represent all the trend of public sentiment in this

state. The following from the Granbury News is typical of what you will find in many weekly papers of Texas: If the sentiment of Hood county democrats is any indication as to the situation in other parts of the state, Senator Bailey will be elected over the protests of ninety per cent of the plain democrats of the state. We have talked with hundreds of farmers during the past two weeks and to

a man they oppose Bailey and think he should retire from the public serv-

ice. There has been some talk of a

county mass meeting to give expres-

sion to the views of the voters in the

matter. The proposition to appoint a lady superintendent of the Confederate Home at Austin is going to have pretty rough sledding. Not that the lady mentioned for the honor is not in every way worthy of it, but on account of the fact that it is generally believed that it requires a strong masculine hand to deal at times with the vet-

The average East Texan is intensely patriotic when it romes to a matter of pie.

Judge John M. Duncan, who will be elected to the state legislature from Smith county, is said to have already prepared a substitute for the Terrell election law, and if he has made it as brief as the time in which he has been engaged upon it it is undoubtedly a great improvement over the original

The day of election is rapidly drawing near, and about the only fight of any consequence in Texas is between the two wings of the republican party. Both of these are making strenuous efforts to distance the other in the hope of being officially recognized as the real thing.

The legislature that meets in Austin next January will save both time and trouble by promptly enacting all the state democratic platform demands into law. That should be the first thing done, and those things done, then the body cannot be accused of neglecting its plain duty.

Cotton is bringing a good price, and Texas farmers are finding that they produced a great deal of cotton this year. There is cotton enough in sight now to keep all hands busy picking until away after the holidays. In some portions of Texas they will be picking cotton until next spring.

The proposition to lease the city's lighting plant does not seem to meet with much popular favor. In fact, there seems to be something of a suspicion extant that this is an entering wedge, which if permitted, might lead to further very considerable complica-

exercise it themselves, but to deal with Funeral of Mrs. Davis Held the large que ions of general policy which any conjectent business man is capable of investigating and deciding. at Richmond

> Special to The Telegram, RICHMOND, Va., Oct. 20.-With tributes from a nost of representatives of many states in the southland, the body of Mrs. Jefferson Davis, widow of the President of the Confederacy, was yesterday laid to rest in Hollywood cemetery beside the grave of her dis-

tinguished husband. The train bearing the body of Mrs. Davis arrived yesterday morning and was met by the lieutenant governor, Taylor Ellison. The members of the Davis family present were Mr. and Mrs. J. Addison Hayes, Jefferson Hayes Davis, Miss Hayes and Dr. and Mrs. Webb. A detail from the New York camp

of Confederate Veterans acted as honorary guard. Details from the local camp of Confederate Veterans escorted the body to

the St. Paul's Episcopal church. There the casket was placed in the basement auditorium, amid flowers and floral designs. At 3 o'clock the casket was taken to the church, which was packed. The funeral services were conducted by

Rev. Robert W. Forsyth, rector, assisted by Rev. Dr. William Jones, chaplain general of the United Confederate Veterans; Rev. James Power Smith, who was Stonewall Jackson's chaplain; Rabbi Calisch of Beth Ahaba synagogue, Richmond; Rev. Dr. Landon Mason, Rev. W. V. Tudor and Rev. Dr. N. A. Seagle. The services were of the simplest character. The procession to Hollywood cemetery was made up of the local battalion of the Seventieth regiment of Virginia Volunteers, a company from Petersburg, the Richmond Light Infantry Blues and the Richmond Howitzers, local and visiting camps of Confederate Veterans and Sons of Veterans, Daughters of the Confederacy and the Confederate Memorial association. There were representatives in the line from most of the states which were in the Confederacy. At the nead rode General Stephen D. Lee of Mississippi, in civilian

garb, as chief marshal of the parade. Rain fell almost constantly. The whole route of the procession was lined with spectators, who stood under umbrellas.

At the cemetery there was another large gathering. The brief services were conducted by Rev. Forsyta and Rev. Dr. Seagle. The Howitzers fired a salute and two companies of the infantry fired three volleys over the grave. Among the floral offerings was one from President Roosevelt. This, at the cemetery, was placed at the base of the monument over the grave of President Davis.

Taps were sounded by Bugler Cowardin of the Richmond Howitzers, who performed a similar service for President Davis and Miss Winnie Davis.

Former Senator Burton Goes to Penilowing telegram was sent Senator J. tentiary Next Monday W. Bailey Thursday by his Abilene Special to The Telegram.

ABILENE, Kan., Oct. 20 .- Joseph Ralph Burton, former United States senator from Kansas, will begin serving his six months' sentence at Ironton, Mo., on Monday next. He will be accompained to Ironton by Mrs. Burton, who will remain in that town until her husband is released.

Mr. Burton received a telegram from his attorney at St. Louis, announcing that the latter had made arrangements for the ex-senator to be in court in that city on Monday next when the mandate of the United States supreme court upholding his sentence will be formally presented and Mr. Burton given in the charge of court officials.

Immediately upon receipt of the telegram Mr. Burton arranged to start for St. Louis Sunday at noon. He announced that Mrs. Burton would accompany him.

precedented severity, accompanied by a terrific downpour of rain, swept over Havana and Pinar del Rio provinces Wednesday night, and resulted in twenty deaths in this city and the serious injury of a dozen or more persons. The damage is estimated at fully \$2,-000,000. The dead are all Cubans of the poorer classes.

The United States cruiser Brooklyn dragged her anchor under her stern and grounded in the mud off La Regia, She got off this morning without in-The storm caused great havoc in the

shipping harbor. Many buildings were badly damaged and nearly all the trees in the city and suburbs were uprooted. The 2,000 American soldiers and marines at Camp Columbia were put to great inconvenience. Nearly four hundred tents were blown down, but there was little actual damage. Henry Fosdick, an army teamster with the Twenty-eighth infantry, from Sioux City, Iowa, sustained probably fatal injuries. He was crushed by a tree which fell thru the barracks in which

he was sleeping. Fred Sutcliffe of Fort Snelling had his head seriously injured, and Thomas Shonealt of Reading, Pa., sustained injuries to his back.

One hundred and fifty tobacco barns in the Alquizar district have been destroyed. The recently planted tobacco cros

has also been seriously damaged. Enormous damage is reported from the Guira section, the center of the banana and plaintain growing district. The crops are said to have been partially destroyed.

Nearly Five Inches of Rain The storm began at an early hour in the evening and increased in severity at night, when the wind reached maximum velocity of eighty miles an hour. The weather observer of the Belen College informed the Associated Press that the barometric pressure varied from 27.0 to 28.06. The rainfall in twenty-four hours reached 4.72 inches. The center of the cyclone appears to have crossed from the Caribbean, sweeping thru both provinces. It passed to the north from Havana and crossed Florida going northeast. One of the wrecked schooners is now perched on the rocks in front of the Santa Clara battery, a bundred feet from the water, while the other is at the foot of the Prado. Cable communication with the outside world came suddenly to an end Wednesday and was not restored until this afternoon, the break being in the land between

Havana and Cajinan. Gangs of hundreds of men of the public works department, under the direction of Lieutenant Colonel W. M. Black of the engineers, U. S. A., are replanting the uprooted trees, cutting off injured branches and generally cleaning up the parks and streets. While the damage to buildings was not very serious in many cases, later reports show that quite a number of walls were blown down and many win-

dows were wrecked. Train service with the east was resumed tonight with the departure of the Santiago express.

White Girl Attacked and Officers Hurry Assailant from Scene

Special to The Telegram. MONTGOMERY, Ala., Oct. 20.-Montgomery was stirred up yesterday by an attempted assault on Callie Belle Cain, a 10-year-old white girl, by Herman Thompson, a negro porter, in the suburbs of the city.

The negro was identified and captured shortly after his attempt and was immediately spirited away to Wetumpka, fourteen miles from here, by a deputy sheriff. The Wetumpka jail is an old prison and would be easily penetrated by a

mob, so the Elmore county sheriff is reported to have refused to harbor the prisoner. Sheriff W. R. Waller of Montgomery county left last night, his destination being withheld, and it is commonly reported that he has gone to Wetumpka to bring the negro back. In the meantime there is much talk of a lynching and a considerable crowd has assembled in court square. The

seem to be without a leader or determined purpose. The negro was delivering groceries to the Cain home. He attacked the child, but her screams prevented an accomplishment of his purpose. Representative negroes have issued a statement condemning Thompson's act and stating their willingness to aid in his legal conviction.

At 19 o'clock tonight a mob of 200 people which gathered about the county jail was dispersed by police reserves after a committee was allowed to inspect the prison. During the inspection a man started an incendiary speech, but was promp ly seized by a deputy sheriff and locked up in the jail. The good citizens are

The Great Difference In Life Insurance Companies

is not revealed by their names nor their claims. The day before the San Francisco disaster, all Fire Insurance Companies seemed alike to the thoughtless; there was a great difference nevertheless, and when the test came, some quibbled, some defaulted, while others drew on the reserve funds which they had ready for such a contingency, paid the large nounts due, and went right on.

It is because for years the money it has received from its policyholders has been invested with unusual skill and care—always safe, always growing, always ready for the hour of need—that

The Mutual Life Insurance Company

is the strongest and staunchest Life Insurance Company in the world. Read these figures as to the Mutual reserve.

At the close of 1905, the Mortgage Loans amounted to \$109,771,163.16, on which more than four and one-half millions have been received in interest during the year, and less than fifteen thousand dollars of interest was overdue at its close. Most of this trifling amount was paid in within a few days. The sum of \$26,196,278.84 was loaned on the Company's policies, and \$18,195,000.00 was loaned on other collateral, no interest whatever being overdue on either item. Bonds and Stocks costing \$239,966,702.05 and having a market value on December 31, 1905, of \$265,301,867.38 were held by the Company, and on this enormous amount not one dollar of interest was overdue and unpaid, and but one stock failed to pay a good dividend in 1905, this stock being that of a new company, subsequently sold at a profit over cost. When it is borne in mind that no such aggregation of purely investment securities has ever been brought together elsewhere, the absolutely clean and indeed perfect quality of these immense investments excites praise and wonder, felt and expressed most strongly by those who know most as financiers of the dangers and pitfalls attending the care of large investments. This remarkable showing also appeals to the plain people whose money comes slowly, who value safety and who understand that security like the above makes "insurance" insurance indeed.

tional ideas as to social obligations that once prevailed too much upon the stage have been gradually les-

There seems to be more general knowledge as well as higher technical equipment in the men of the law and of medicine today than there was, and the stage, to which its followers refer as "the profession," has kept pace with the improvement in other lines of activity.

The influence of college and the university is felt on the stage almost as it has come to be felt in journalism. One of the most prominent actors in the country and his artistic colleague, who is one of the cleverest, as she is one of the most beautiful women on the stage, have offered to found a school of dramatic art in George Washington University. Their plan has met with favor among other actors and the plans which they-Mr. Sothern and Miss Marlowe-have started will find even more supporters before it is much older. Joseph Jefferson, who was one of the most schorlarly of actors, left an impress upon the stage that has resulted in the lifting of high ideals by many clever young players who admired Jefferson's powers and who in their own way would emulate his example. They have many exemplars behind the footlights today to say nothing of the wonderfully gifted Henry Irving, who is among those who "have gone be-

Francis Wilson, whose legs brought him into prominence, but who has since forsaken comic opera for straight comedy, is a student. He has done a good deal of splendid writing and his devotion to and exposition of the beauties of Eugene Field's work are equaled by few literary men. Richard Mansfield is a most gifted linguist and has to his credit same brilliant accomplishments in writing. The English actors have set a high standard of general excellence in intellectual pursuits and on this side

of the water many women and men of stagedom have excelled in literature, painting and many other arts.

In his play of last season Henry

Woodruff, who is a graduate of Harvard, plays the part of a Harvard student, and he could easily secure a company composed exclusively of college men and women. Wilton Lackaye, who pleased Fort Worth audiences last year, is a graduate of Georgetown University, where he learned to write real poetry before he learned to act. Theodore Roberts, a splendid character actor, has written many good stories and verses. George Allison is one of the leading men who has done much creditable literary work. Hall McAllister, a resident of Nashville, Tenn., and the son of one of the state's most prominent attorneys, is a graduate of law and has won many laurels on the stage. Macklin Arbuckle, so well remembered in this city for his county chairman in the George Ade comedy, was a lawyer before he adopted the stage. Edward Davies, who is a headliner in vaudeville, was a minister of the gosactors, who have received splendid educations in other professions could be made almost endless.

The young actor of today finds that he cannot know too much about anything. The pace on the stage is swift and he who is best fitted is he who wins out. A good stage presence and a fine voice are no longer the sole requisites of success. With them it was possible to succeed better in the years agone. BURT'S ACCUSER . **NOW ARRESTED**

"Dutch" Murdock Is Held in County Jail

J. H. "Dutch" Murdock, alias Redford, was arrested by Police Officer Ladd Friday night and is now in the county fail, held in connection with the Charles Newman murder, which occurred in the Cave saloon in Rusk street late last Saturday night. When arrested Murdock displayed considerable nervousness and Saturday morning when seen by a reporter was pale

and trembling.

The police claim that Murdock pawned a watch belonging to William Burt, the young man first arrested for committing the murder, and who was identified by "Cigarette Bill" Elmore and "Dutch" Murdock as the man who did the killing. Burt claimed that on the night of the murder he was robbed of \$40 and a watch and his memory was a blank during the early part of the night and did not right itself until near midnight. At this time he was in an upper Main street chili house. The watch stolen from Burt was recovered from a pawnshop in lower Main street and the proprietor of the place declares that a man known as "Dutch" left the time piece there for a loan. When this was found out by the police Murdock was immediately arrested and taken to police headquarters where he spent the night and was transferred to the county jail Saturday

The arrest of Murdock has created a sensation in police circles and many theories regarding the killing of Newman are being advanced. It is the belief that the real murdered of Newman will now be discovered.

Every police officer and deputy seriff now believe Burt to be absolutely innocent of the crime. It is not known when Murdock wil have a preliminary hearing.

SAD NEWS FOR HALL ROOM BOYS

"We Are Sorry, But You'll Have to Pay More"

Fort Worth boarding house keepers declare that to protect themselves they will be forced to raise the price of board, as everything in the grocery line is soaring toward the clouds as far as price is concerned. The weekend grocery accounts are becoming heavier all the time by reason of the stiff advance on food stuffs and from indications the already skyscraping prices will be elevated higher before the winter comes to a close.

A prominent downtown groceryman quoted a popular bearding house proprietor as saying that it would be absolutely necessary to elevate the He said that the price of foods had climbed so high that this move was bound to take place with boarding house keepers all over town.

Just now fairly good board can be had in Fort Worth for \$4 per week, in fact this is the average price. Figure eggs at 35 cents per dozen, butter at 30 cents per pound, bacon at 20 cents per pound, flour at \$5 per barrel and other things for the table equally as high and one can readily see the profit in operating a large boarding house at popular prices.

STREET CAR AND **ENGINE COLLIDE**

Woman Will Die-Car Astride the Cowcatcher

SAN ANTONIO, Texas, Oct. 20 .-

A Sunset switch engine collided with a South Heights car at 8 o'clock last night. Mrs. Sarah Russell, 606 Olive street, was fatally injured and two others slightly hurt. Only about ten passengers were on the car at the time, which accounts for the fact that the accident was not of a more serious nature. The switch engine was backing from the yards. The motorman saw it coming, but thought he had time to cross in front of it. He failed and the engine struck the car, lifting it from the rails and carrying it some distance down the track. The passengers, convinced that an accident was unavoidable, jumped from the car, with the exception of two passengers and the motorman. The latter three were the only ones not injured. Mrs. Russell, in jumping, fell on the track and was struck by the engine. The other passengers were only bruised by fall-ing from the car.

Market Showed Weakness on Unfavorable Bank Report and Money

NEW YORK, Oct. 20 .- There was a decline in the general line of tocks today. The unfavorable bank tatement and a renewal of liquidastatement and a renewal of inquida-tion in a vast number of the list of securities gave the bears another op-portunity to hammer prices down, and every opening for active and aggres-sive operations was taken. The future of the desirable stocks, however, was bearish and there was some trading on all reactions thruout the list. The bull sentiment was especially partial to such stocks as Coppers, Steel, Hill and Har-riman, Baltimore and Ohio, Reading, Canadian Pacific and Pennsylvania on the present decline, and a bull move-ment is anticipated before many days to recover the loss in these quotations. The increase in net profits in earnings in Southern Pacific for the first two onths is given at 4 per cent on com-

Eight roads for August show an increase of 18.16 per cent, and for two months an increase of 31.15 per cent. The Bank of England expects to get cold in the open market Monday. Dun's report says that industrial operations are unprofitable at present, while Bradstreet says trade continues on a large volume and the feature is the pressure to produce sufficient quantities to meet requirements. Total sales to noon only \$1,044,400.

the Close-Tone

Steady Special to The Telegram. NEW YORK, Oct. 20 .- There was a break at the opening of the New York cotton market but it was held up remarkably well, making a net gain at the close. The conditions seemed more favorable all day for a decline than an advance, and while there was sharp trading on declines by shorts, who were anxious to cover while the break obtained. The bull continues obtained. The bull sentiment was never entirely lost, however, and sensationally wild fluctuations were not in evidence. Telegraphic reports in-dicate that rain has been general during the week, especially in Texas and a few other cotton states, and picking has been greatly interrupted. This information came to the aid of the bulls to some extent, and liquida-tion was somewhat checked. The action of the great English financial concern was considered remarkable, and was the topic of much conversation today. Its rate of 6 per cent is not only the highest since the Boring failure in 1890, which makes this action remarkable, but the rate was changed on Friday, when the usual day for changing m Monday. It was reported that the change in the bank rate and the weakness in the financial centers which resulted was due to the expected default of Russia on the interest on her bonds, but this was denied today, and the advance attributed to the desire to prevent a recall of the gold drain from America and Egypt. Liverpool cotton was weak because of the development of the Bank of Engand, and of the failure of the storm to develop. Florida seems to have borne the brunt of the storm, which did no further damage to the coast cotton section. Elsewhere the weather report was more favorable today.

The close of the market marked a recovery of the opening loss, with a slight net gain. Spots closed quiet at 11c for middling, the same as at yes-

New Orleans Cotton Special to The Telegram. NEW ORLEANS, Oct. 20 .- The cotton market opened 6 to 11 points down today, but was a much better market than was expected by the general traders. The situation looked bearish but the market began to advance soon after the opening on weather reports having affected the cotton in The break in Liver pool was evidently due to the con-tinued uneasiness in the London money market. Cables say that the raising of the discount rate was due to large exports of gold. This explanation, however, was not regarded

as satisfactory. The break in today's market was not altogether unexpected, tho a few local shorts were caught. Prompt covering by local shorts soon started the market up, and it made steady advances, closing at a gain over yesterday's close.

Spots closed easy, middling 11c, the same as yesterday's close, and the same as New York spots, which is something unusual. Sales, 850, against yesterday's sales of 1,900 bales,

Opened on a Break But Made Gain at | Small Hog Movement and Increasing Consumptive Demand Bulled Provisions-Grain Weak

Special to The Telegram. CHICAGO, Ill., Oct. 20 .- The wheat market was again dull today so far as trading was concerned, and the prices were lower than yesterday. The total receipts today was only 41 cars, while a much larger shipment was expected. The financial troubles in Russia and the fact that foreign cables were lower, kept the market weak, and the local talent was more anxious to sell than buy. There was nothing in the situation for the investor to gather strength from, notwithstanding the conditions in the northwest remain strong, with very light receipts. The financial situation is being followed with much interest, and the continued rumors of a similar character had little effect on the bear sentiment. The principal trading was noticed in spring wheat today, but the supply was light. The blockade at Buffalo continued today, and was a continued hindrance to grain movement. The few concerns who are operating today by the strictly "guardian" route did a better business. The wheat figures announced yester-day of 168,000,000 bushels are considered rather high. The corn market started lower on

report of improved foreign cables, and in response to Liverpool's closing of %d off. Large Argentine shipments also had a bearish effect, and a slight decline was made. The light offerings are promptly taken by professionals, the much of the corn new arriving is of an inferior quality, and the price is suffering on this account. However, this cereal has stood up well with all things considered. The receipts today were 209 cars, while 323 cars were estimated to arrive.

Oats was weak thruout the session, and some pressure from northwestern selling was noticeable. Cash oats were weak at a decline of % of a cent, except for the better grades, which were readily taken. Today's receipts were 383 cars, an increase over the estimated number of cars to arrive of

Provisions were stronger today and the demand was good. The continued small nog movement and the increased consumptive demand leaves a very bullish influence. Prices were higher with buying by local shorts. There was some selling by packers and local

NEW ORLEANS, Oct. 20 .- Shorts were brought up with a jerk this morning. A mildly bearish visible supply statement and a very poor Liverpool market encouraged them to buy before the opening that they would be able to repeat past performances and put prices lower today again, but on the opening prices were down 11 points and later they displayed great strength and advanced until December was higher than yesterday's close. Liverpool was \$1 per bale cheaper on fu-tures and \$2 a bale lower on spots, which called for a corresponding decline here, as Liverpool was due unchanged on the fluctuations in the American markets yesterday. That the local market held up the way it did spoke well for the strength of the position of cotton and it indicated an oversold condition. The weather map was good, in so far as yesterday's weather was concerned, but was bad for futures and cotton. Cold and wet weather were indicated for tonight and tomorrow over a large portion of the cotton country and a regular blizzard seemed to be developing to the northwest of Texas. While the visible supply statement was bearish in its variations for the week, the spinners' takings were only 214,000 bales against 235,000 this, week last year and 265,-000 bales in 1904, the week-end figures had the bullish features. Thus the stock of cotton in Liverpool, all kinds, was put at 239,000 bales against 624,000 bales this date last year and 252,000 bales in 1904. The stock at Bremen was put at 38,000 bales against 190,000 bales last year and 83,000 bales in 1904, and the stock at Havre was put at 26,000 bales against 53,000 bales last year and 40,000 bales in 19904. Such a shrinkage in stocks abroad is worthy of serious consideration, particularly since the movement for export from this country is far from be-G. C. BATTLE, ing heavy.

number of trials, proved that pigs running in good pasture will make a gain of 0.86 of a pound a day without any grain, while those given a three-quarter grain ration in addition to the green feed, made a daily gain of 1.2 pounds, requiring only 377 pounds of grain for 100 pounds of gain, against 512 pounds for 100 pounds of gain for the pen-fed pig.

Lams affected with goiter indicate lack of complete nutrition, doubtless due to the lack of a sufficient grain ration to pregnate ewes. In and in breeding also tends to cause a weakness of this sort, and in all cases where the disease is prevalent a change (ram) should be made. Presence of lime in drinking water is the cause in some instances. Treat by generous feeding of nursing ewes. Remove wool and rub in iodine ointment on enlargements.

Eggs and Country Butter Scarce—Food stuffs Advanced—Fuel Unchanged

In the local retail markets there has been very little change in prices the last week. Vegetables are yet to be had in considerable quantities and many varieties. Practically all the principal vegetable products are shipped in from the coast, tho some local gardeners are yet putting homegrown stuff on the market. The sweet potato crop, as well as the turnip crop, is producing well this year, and large quantities of both are on the market. Eggs are becoming scarce and there is a strong demand at 25 to 30 cents per dozen. Country butter is selling at 25 cents per pound, with a very small supply. Both country butter and eggs are expected to advance within the next few days unless the supply is materially increased.

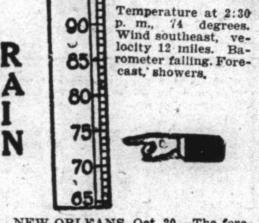

The price of coal and fuel remains the same, McAlester lump sells at \$7.50, egg coal at \$7.25 and nut coal at \$5

Prairie hay has made a slight advance the last two days, and is selling now at \$8 to \$10 per ton. Johnson grass hay remains at \$8 per ton, and there is plenty on the market.

Cotton seed at the oil mill brings \$13 per ton. Hulls are selling at \$4.50 per ton and cotton seed meal at \$1.20 per

Corn in ear is selling from farmers' wagons at 60 cents per bushel. Wheat bran retails at \$1.15, which is an advance of 5 cents per hundredweight within the last two days. Corn chops, per hundredweight, \$1.25.

Co-Operation in Advertising Makes it Possible-

Half price offers are but combinations of advertising. In a word, four magazines band together, use the same publicity and share the expenses. Four magazines working together reduce the cost of publicity about one-fourth of what it would be if taken up alone. The receipts are approximately the same as if the publicity were carried on independently. And who receives the benefits from this publicity club? The patron of the magazines, inasmuch as he secures a reduction in the subscription price made possible by economy. And thus the home can now secure three, four and five periodicals. which present-day needs require, for little more than the old-time price of a single magazine, that once was the solitary visitor to the family circle. For instdance, Combination No. 2, advertised by the Central Magazine Agency in our columns, offers the Cosmopolitan Magazine, \$1.00; the Harper's Bazar, \$1; the Home Magazine, \$1,00, and the Reader Magazine, \$3.00, one-half price, a saving of fifty

\$3.00-total value, \$6.00-all four for per cent. Another good offer is the Delineator, McClure's Magazine, the World's Work and the Home Magazine. These four may be had for just \$3.50.

One of the best bargains ever offered is the Cosmopolitan Magazine, the World Today and the Home Magazine, all three for one year for just For \$2.00 you can secure a year's

subscription to the Cosmopolitan, the World today and the Home Magazine. For \$2.50 you can have the Cosmopolitan, \$1.00; Home Magazine, \$1.00; the Reader Magazine, \$3, at one-half price, \$2.50. All three for less than the price of one. The best bargain of the year, however, is the Cosmopolitan, Home Mag-

best bargain of the year. Before subscribing to any magazine our readers should write the Central Magazine Agency (Bobbs-Merrill Co.), Indianapolis, Ind., for prices. Further than this if you have spare time and want to earn Christmas money, the Central Magazine Agency will pay you a liberal commission on these great magazine combinations. You will be surprised to find how easy it is to make from \$10 to \$100 a week in securing orders from your neighbors. You can save them from 40 to 50 per cent on their year's magazines and make a handsome commission your-

To any newsdealer, druggist or agent who will act as our agent we will run their name and address at the bottom of our large display advertising. Our commission to agents or newsdealers is 85 cents an order.

Write today for our special offer or send your order for any of the combinations mentioned above. Remember, the Cosmopolitan, Home Magazine, the Reader Magazine and Harper's Bazar -all four for \$3.00-total value, \$6.00. You save 50 per cent. Address the Central Magazine Agency (Bobbs-Merrill Co.), Indianapolis, Ind.

WEST TEXAS CLEAR

Cloudy Skies With Showers and Warmer Temperature

Practically no rainfall is reported in Texas since the last issue from the local weather bureau and during the past twenty-four hours up until Saturday morning, clear skies have prevailed. The forecast of Saturday in Fort Worth is for cloudy skies with showers and warmer temperatures. West Texas is still generally clear, as is the west portion of the cotton belt. The cotton belt in the east portion is partly cloudy and especially so in the Atlantic coast states.

Low barometris conditions continue in the extreme southeast portion of the country and heavy rains are reported the result of the low area on the coast from the Carolinas north to New York state. Warmer weather is also ruling in the upper lake regions and another low barometer area is noted contered over the middle Mississippi and Missouri valleys region.

Cold weather continues in the northwest and snow is falling Saturday in Montana and Wyoming. The lowest temperature reported at the local bureau is from western Utah, where the minimum is 23 degrees. Some other tempereatures reported are: Amarillo, 70 and 56; Abilene, 74 and 62; Spokane, 42 and 35; Chicago, 66 and 53; New York, 72 and 64; Atlanta, Ga., 70 and 54; Galveston, 74 and 68, and Fort Worth, 78 and 56.

The cotton belt is partly cloudy to clear, except along the immediate Atlantic coast region. The Carolinas report heavy precipitation, with 1.70 inches at Goldsboro. Texas was generally clear at 7 a. m. this morning. D. S. LANDIS, In Charge of Local Weather Bureau.

A Golf Match

Several match games were played off Saturday at the Country Club golf links on the second round for the J. B. Gray cup. The eight pairs which had qualified fifteen days ago will on Saturday night be re-matched among the winners, making four pairs. Some few of the games were played last Saturday and during the week and the remaining games were necessarily played today, it being the fifteenth

UNCLE SAM WANTS MEN Smith is Here Employing Workmen

for Panama Canal Henry A. Smith, representing the

labor department of the Panama canal commission, with headquarters at Washington, D. C., is here to make contracts with skilled mechanics for work in the Panama zone. He is a former Texan, having lived in San Antonio three years, during which time he was general agent in the freight and passenger department of the National railroad of Mexico.

Fort Worth is Mr. Smith's second stop in Texas since a complete tour of northern cities in his labor mission. He recently took 150 skilled laborers to Panama from Chicago and he says that shiploads are leaving New York every week. Mr. Smith confines his contracts to skilled mechanics of the trades now most in demand in the Panama zone, such as machinists, carpenters, boiler makers, blacksmiths, painters and plumbers, and helpers in each trade. He says good wages are paid the men and the cost of living in Panama is considerably reduced by the fact that living rooms are furnished free of charge to the workmen un-

der contract by the government. Mr. Smith has his office in the room of the internal revenue official at the federal building and remains in Fort Worth until Tuesday, leaving here for Dallas. His itinerary includes all of the principal cities of the state.

SAYS DISCRIMINATION

Depot Official Says Local Officials Don't Play Fair

Speaking of two employes of a railroad being placed on trial in the city court for blockading a street crossing with their train, a union depot official said Saturday:

"I don't see why the city discriminates between railroad people and house movers. The engineer and fireman who were tried in the city court had no intention to violate the law by obstructing public traffic. They got through their work as quick as possible and pulled out; but in the middle of Seventeenth street, between the Santa Fe and Denver tracks there has stood for a week or ten days-without any attempt to move it-a two-story house that virtually blockades that thorofare, and I have never heard of the authorities getting busy about this

"East of the joint track there is another house that has been standing in the middle of the street for nearly two weeks. There has been nothing said or done about this obstruction, so far as I have heard. I would like to know why this is the case-why this discrimination?"

Need Brain Power? EAT

"Wonderland" at Greenwall's Friday night delighted a large audience as children are pleased at a gaily colored fairy book. With "Little Chip," for whom there never must have been an old block clever enough to claim him as parent fun-maker, tickled the crowd into enthusiastic admirers of his inimitable skill.

Mary Marble is charming, as usual. She perhaps appears to best advantage in the second act, as a Buster Brown boy, when she sings "The Ginger Bread Boy and the Pie Crust Girl," In this one is reminded of the days when this actress was with the "Babes in Toyland," and he cannot help enjoying it.

Dan Marble and Leo Hayes helped Little Chip make the fun and they

As a spectacle "Wonderland" is every way worthy of its name. Gorgeous and brilliant effects are numerous. Beautiful ballets and entrancing electrical effects are sprinkled all the way thru. "Wonderland" gave a matinee Saturday afternoon to a second big house, and closes tonight.

made it well.

"County Fair"

Under the management of Messrs, Sutherland and Tower, Neil Burgess will appear in the well known preduction that has made him famous in his familiar character of Abigail Prue. The fact that Mr. Burgess himself will be seen in this well known play, "The County Fair," will be welcome news to the many admirers of the well known comedian. Mr. Burgess has been playing the part of Abigail Prue in "The County Fair" for the past seventeen years and his impersonation of this well known female character has never been equaled. The great secret of his success in his impersonation is the fact that he sinks his own personality for that of the character he is assuming and to see him on the stage with curls and skirts and to see the brisk and energetic man on the street one would never know them to be the same person. Mr. Burgess will bring his metropolitan cast with him to this city on Monday night, Oct. 22, at Greenwall's opera house.

"Playing the Game"

It is claimed that no comedy of recent years has equalled the brilliancy of language and situations of Cleveland Moffett's and Hartley Davis' latest effort, "Playing the Game," which is the vehicle of Joseph & William W. Jefferson this season. "Playing the Game" is a pretentious production, both in cast and scenic display, employing a large company and requiring some very elaborate scenery and effects. The best artists have been employed in their construction, and it is said no handsomer production has been made this season. This play in its entirety will be at Greenwall's opera house Tuesday and Wednesday nights, matinee Wednesday, Oct. 23 and 24.

Chevalier's Foster Brother

There will probably be a rather joy-ful meeting when Madame Yvette Guilbert and Albert Chevaller reach Quebec on their hurried farewell tour thru the country. Chevalier was born in London, in the east end among the Costers whom he impersonates so well today, but early in life he was left an orphan and was adopted by an English family by the name of Clark. Chevalier entered the English navy and served for some years, and while he was at sea, evil times fell upon the family which had been so kind to him. They emigrated to Canada and today Roy Clark, Chevalier's foster brother, is a successful merchant established in Quebec. He was delighted to learn that Chevalier was booked to appear in Quebec as he has not seen him for over twenty years. The tour of Chevalier and Guilbert is to last six weeks, during which time the twin stars will visit over forty cities and will travel over 35.000 miles.

The resourceful genius of stage direction is said to be amply exemplified in the extravagant production of "Happy Hooligan's Trip Around the which is underlined at Greenwall's opera house Friday matinee and night, Oct. 26, as a musical comedy of unqualified novelty.

Can a wind instrument and a brass at that, be played, as one plays a violin-smoothly, fluently, even caressing ly, letting the notes find their way out from their metal bonds as melodies escape from the body of sound box on a wood instrument?

August Tyson, trombone player in the Majestic theater, has been answering the question this week, whenever he played the "Evening Star Song," from Tannhauser, as part of the Tannhauser selections used by the orchestra as an intermission overture.
