## Public Schools Week

The need for the public school never changes, but times and conditions may change or require to be changed methods and practices of public education. This is inherent with anything that grows, for growth is the result of change.

Our Texas public schools were created 102 years ago. In 1854 the first law passed establishing the public school.

It is a healthy thing in our democratic way of life to have intelligent understanding of the important functions of our basic institutions. This is especially true of schools. The initiative and resourcefulness and the wisdom and leadership that our schools are inculcating in the youth of today are the answer of the problems of citizenship in the years ahead.

Yes, "bring me men to match my mountains." That is the need of our times and must come from the public schools—schools that are strong in virtues required for building strong men and women.

We can be assured of this and do our part in understanding and helping the public schools to fulfill their great obligation to our times by being a participant in the annual Public Schools Week, March 5 through 10. Schools will hold open house; accept their hospitality, and you will enjoy the experience of going back to school — if but for a day.

**HEALTH NOTES**

Austin, Jan. 26—State Health Commissioner Henry A. Holle today appealed to Texas parents to have their children vaccinated now as protection against polio this spring and summer.

"The polio season starts early in Texas," the Commissioner warned. "This year, for the first time in history, we have a vaccine against the disease on hand before the Texas season opens in earnest in mid-April."

Dr. Holle said the vaccine's effectiveness to date has been "gratifying."

"Official records show paralytic polio during 1955 struck six times more frequently among unvaccinated children than among those who received prescribed amounts of the vaccine at the proper intervals."

Three shots are said to give a high level of protection against polio: the second shot given one month after the first shot, and the third following seven months later.

According to that schedule, all Texas children who received second shots during summer or fall are now ready to have their third shot.

The success of the vaccine was announced April 12, 1955, after exhaustive nationwide studies. But by then countless numbers of children had already been exposed in a rising seasonal incident. Result: 1955 was pretty much an ordinary year for polio for the nation as a whole, despite the fact that Texas' 1955 season below the 5-year median.

Too, vaccine was in supply during those early days, and protection difficulties unsettled public confidence in the product.

Both these problems have since been overcome, Dr. Holle pointed out. Supplies are increasing daily, and, concerning production safeguards, "health and medical men agree that the vaccine is as safe as human hands can make."

**HIGGINBOTHAM BROS. & CO.**

Austin—Gov. Allan Shivers says he prefers his four-point "states rights" program to a fourth term as governor. Therefore he will not be a candidate for public office in 1956.

Thus he will bring to a close at the end of this year, 29 active years as a public official. With him will go a record of never having been defeated in any election campaign.

But Shivers is not through yet. He has a plan of action to protect local authority from federal interference. It centers around interposition.

Four steps in his program include (1) a general discussion of interposition; (2) public expression for or against interposition — at precinct, county and state conventions; (3) if approved by party committees, the placing of an interposition proposition on the primary election ballot; and (4) if endorsed by voters, passing of a legislative resolution asking U. S. Constitutional Amendment to strengthen and clarify local powers.

In announcing his decision not to run again, Shivers defended his administration against those who have attacked it because of veterans land and insurance upheavals.

Faults found in each are being quickly and efficiently corrected, he declared. He predicted that the veterans land program, when completed, will bring the state a \$25,000,000 profit. As to insurance, he said that by May 31 the commission "will have cleaned out every unsound, insolvent or dishonest company that can be closed under the present stringent laws."

**Interposition Reaction Varies**

Reaction to Governor Shivers' proposed interposition ran the gamut of yes, no and maybe.

Possibilities of a referendum on the Democratic primary ballot this summer, now are under study by the party's legal committee. It will be taken up by the full executive committee probably about the middle of March.

Approving the plan were Atty. Gen. John Ben Shepperd, who demurred only on the "slowness"; Gubernatorial Candidate Reuben Senterfitt; and Dallas members of the Democratic Executive Committee.

More time to study the idea was asked by Reps. J. W. Cooper Jr., and L. DeWitt Hale of Corpus Christi.

It's a "waste of time and energy" said Rep. Barefoot Sanders of Dallas. James P. Hart, a potential candidate for governor, called it "futile and dangerous."

**Porter Predicts Victory**

Jack Porter, spokesman for Texas' elated Republicans, predicted in Austin speeches that President Eisenhower will carry Texas again this year.

National committeeman Porter said the Republicans also are hopeful of sending a man to the U. S. Senate if Price Daniel resigns to become governor.

His party does not expect to name a full slate of candidates. "But we have two prospects in sight as a nominee for governor," he said. "And GOP Congressman Bruce Alger of Dallas will be re-elected."

Republican state executive committee members meet in Austin on March 12 to decide whether the party will hold a primary this year. Site for the state convention May 23 will be named at this meeting.

**Indictments Handed Out**

A. B. Shoemaker, head of US Trust and Guaranty Co. and its affiliates, who tried to kill himself Jan. 7, was indicted by a McLennan Co. grand jury. Indictments charge the sale of certified drafts, without a state license, after the new insurance securities law became effective.

The grand jury was critical of the insurance commission.

Also indicted and charged with having unlawful campaign expenditures back in 1954 was Vernon T. Sanford, general manager of the Texas Press Association. He was charged with placing a total of \$76 worth of advertising in Waco newspapers in behalf of Lt. Gov. Ben Ramsey.

Texas Election Laws prohibit an individual from spending more than \$25 in behalf of or against any candidate, or contributing more than \$100 to a candidate's campaign fund.

Sanford places ads for candidates and others, in Texas newspapers, as an agent of TPA. He states that he did not spend any of his own money, or any funds of the Texas Press Association in behalf of Ramsey or any other candidate.

Says TPA President Russell W. Bryant, publisher of the Italy News-Herald, "Charges that Mr. Sanford has violated the Texas election code are ridiculous and without foundation. The entire matter stems from a defeated candidate who cannot face the fact that the people of Texas believed him unfit to be lieutenant governor."

TPA Directors, meeting in a special session, adopted a resolution expressing complete confidence in Sanford and commending him "for the manner in which he has and is executing the affairs of our association."

**Short Snorts**

Texas Military District announces an increased number of beginning spaces in the Army Medical residency training program will be available July 1. Eligible are reserve Medical Corps officers not on active duty who have had six months or more duty in tactical units as medical corps officers.

Dr. Ralph T. Green, chairman of Baylor University's economic department, has been appointed ex-

ecutive director of the State Commission on Higher Education.

Deadline for 1956 auto inspections is April 15. Col. Homer Garrison, public safety director, says that 2,000,000 Texas auto owners have not yet taken their cars to licensed inspection stations for safety checks.

**New Meat Record Seen for '56.**  
Fort Worth—The Livestock and Meat Situation a review prepared and bearing approval of the Outlook and Situation Board, USDA, had some figures in their end-of-February sizeup of the livestock business that served to dampen the hopes of any tremendous price improvements in 1956.

Inventory of meat animals, the reports said, is up two per cent from a year ago. Based on this inventory total livestock slaughter and meat production in 1956 are expected to advance to another new high.

Significant items are two per cent

By Mrs. Edwin Erwin

The singing was good Sunday afternoon with good singers from Eastland, Cisco, Scranton, Rising Star, Clyde, Eula and Cross Plains attending. Everyone has a welcome to our singings.

Mr. and Mrs. Loran Barron visited in the home of Mr. and Mrs. W. S. McCann and Mr. and Mrs. Lee Cumba, Sunday afternoon.

Mr. and Mrs. Noel Black of Clyde and their son, Cecil Black and family of Eula were visitors in our community Sunday afternoon.

Mr. and Mrs. Jimmy Scott of Grand Prairie visited home folks over the week end.

Jimmy Laminack along with other agriculture boys and their teacher, Prof. Moiser of Scranton, enjoyed a fishing outing at Lake Leon, Saturday.

Sandra Lusk has been on the sick list, but is doing much better and is back in school.

Mrs. J. L. King accompanied her brother, Buddy Matthews to Odessa last Tuesday where they visited their mother, Mrs. Maatthews, who has been very sick. She was doing better when they left for home Wednesday afternoon.

Rev. and Mrs. Whitehorn and children were Sunday dinner guests in the home of Misses Josie and Alma Morris.

Mr. and Mrs. Gilbert Hefner of Aspermont, Mr. and Mrs. Raymond Cumba of Abilene, Mr. and Mrs. Sam Balkum of Cross Plains and Mr. and Mrs. Jimmy Scott of Grand Prairie were Sunday visitors in the home of Mr. and Mrs. J. C. Hefner.

Clifton Lusk and Vesta of Sidney were Saturday night visitors in the W. E. Lusk home.

Mrs. Lorena Lilley attended the quarterly conference at Barnes Chapel Sunday.

Mrs. Ernie Stanzky and children, the former Madylin Beebe, of Loop City, Neb., visited in the home of her relatives, Mr. and Mrs. Truett Dawkins last Thursday.

Mr. and Mrs. Ralph Erwin and children of Hobbs, N. M. have returned home after a few days visit with their parents.

Mrs. O. B. Switzer was a business

more beef calves on farms and 14 per cent more steers! Estimated number of steers on Jan. 1, 1956, was 9,644,000 against 8,444,000 a year ago.

Hogs on farms are nine per cent above a year ago. Most of the increase due to the big fall pig crop of 1955, which means these hogs will be marketed during 1956.

**Cattle Runs Taper, Hogs Rush.**  
When the Monday estimates were received in Fort Worth the 12 major markets had 10,000 fewer cattle than a week earlier, but the market circle reported over 108,000 hogs. This big hog run was a surprise and tilted prices lower at most points.

At Fort Worth cows, bulls, slaughter calves and stocker and feeder classes of cattle and calves were fully steady. Some stockers were unevenly higher, quality considered. However, beef steers, yearlings and heifers were steady to weak.

Comparative prices: Good and choice beef steers and yearling \$14.50 - 16.00, some club cattle to \$19.50. Common and medium sorts \$10 - 14.50. Fat cows \$11 - \$12.50. Canners and cutters \$7 - 11. Bull \$10 - 14.50. Good and choice fat calves \$16 - 18.50; medium and lower grades \$11 - 15.50. Stocker steer calves \$14 - 19; steer yearlings \$12 down; stocker cows \$10 - 13. Some stocker heifer calves \$17 down.

**Hogs Weak to 25c Lower.**  
Choice butcher hogs cashed at \$12.25 to \$12.75 at Fort Worth Monday. Less desirable butcher weights and grades drew \$10 to \$12. Sows cashed at \$8.50 to \$10.

**Lambs Weak, Ewes Sell 50c Higher.**  
Opening day's trade Monday at Fort Worth saw shorn lambs sold on a slow and weaker basis. This reaction was not surprising, following the series of rising markets of the past ten days. Lambs of fresh shorn or No. 3 pelts were around 50 cents lower, and those with better skins were steady to 25 cents lower. Old ewes selling up to \$8.50 for slaughter were strong to 50 cents higher. Feeders were about steady.

Comparative prices: Good and choice No. 1 and fall shorn pelt lambs and a few full woolled fat lambs, cashed at \$18 to \$18.50. No. 2 fresh or recently shorn pelts cashed 2 pelts sold around \$17 to \$17.50 and at \$16 to \$16.50. Cull, common and medium slaughter lambs drew \$13 to \$16. Woolled feeder lambs topped at \$19, those at that figure being practically fat. Shorn feeders drew \$16 to \$17, longer pelts at the higher figure.

Slaughter ewes sold from \$6.50 to \$8.50. Old bucks drew \$5 to \$6.50. Some mixed ewes and bucks at \$7. Old wethers \$9 to \$13. Yearling wethers \$13 to \$16.

**Many Plain Cows Due In Sale.**  
Indications are that there will be sizeable numbers of plain stocker cows and pairs in the special distributional cow sale at Fort Worth, April 13. Henry Elder, secretary of the Texas Hereford Association, reports that at recent sales and shows he has been contacted by several men who reported they planned to have some of that quality in the sale.

Glen Tole, secretary of the Texas Aberdeen-Angus Association reported interest among some Oklahoma and Louisiana stockmen with blacks and asked that out-of-state people be reminded they are welcome to enter any of the special stocker and feeder sales at the market.

All breeds are eligible to enter the special sale, and some crossbreeds featuring Brahman blood will be entered from East and South Texas, according to word from there.

**Pioneer Home Demonstration Club Meets In Hitt Home**

The Pioneer Home Demonstration Club met recently in the home of Mrs. R. D. Hitt on the Pioneer Lake Road.

Mrs. Calvin Roady was in charge of the meeting in the absence of the president, Mrs. Hitt led members in the club pledge and brought the devotion from Proverbs 3: 27-28.

The meeting was then turned over to the County Agent, Mrs. Minnie Hart, who gave a very interesting program on Family Planning and Spending.

Mrs. Leo Franke entertained during the recreational period, assisted by Mrs. Nancy Pancake and presented a skit called "This Is Your Life" which was enjoyed by all.

Refreshments of cake and limeade were served to the following: Mmes. O. D. Strahan, Everett Wright Bob Doady, Don Strahan, Edward Pancake, Calvin Roady, H. A. Freeman, Leo Franke, J. W. Foster, Elmer Garner and the agent, Mrs. Hart, and three new members, Mrs. J. E. Hart, Miss Missouri Strahan and Mrs. E. K. Coppinger.

Mrs. Everett Wright invited the club to meet in her home east of Cross Plains on old Highway 36. At this meeting all members are to bring a gift for their secret pal.

**Mr. and Mrs. Paul Freeman Honored**

Mr. and Mrs. Leo Franke honored Mr. and Mrs. Paul Freeman with a surprise pink and blue shower and a "42" party Saturday evening, Feb. 25.

## Washington

"As It  
Looks  
From  
Here"

**OMAR BURLISON**  
Congressman  
17th District

Washington, D. C.—On July 6, Mr. Benson, . . . Secretary of Agriculture, said, "I did not become Secretary of Agriculture to stand idly by while farmers suffer from high costs and falling prices."

On February 2, 1956, in Portland, Oregon, Mr. Benson said, "I did not become Secretary of Agriculture to stand idly by wringing my hands while our farm families continue to suffer year after year of economic decline."

During the Past Year, Cattle Prices . . . have declined 14 per cent and hog prices 36 per cent.

But the big packers haven't shared the farmer's plight. Profits of the big meat packers are up between 33 per cent and 50 per cent in 1955 over 54.

In 1952 The Republicans . . . were saying, "The first thing we intend to do is to take the emphasis off of Washington. Our goal will be sound farmer-run programs that safeguard agriculture, but do not regiment you, do not put the Federal Government in charge of your farms."

Under the Administration's farm bill as submitted to the Congress, the Secretary of Agriculture will be the absolute boss of the so-called "soil-bank."

It is a Peculiar Thing, . . . but many of the features for a new farm program now recommended by the Department of Agriculture were vigorously opposed by them just a few months ago.

Advocates of the "Soil Bank" Idea want to convince people that will put money into the farmer's pocket. As a matter of fact, it only attempts to pay him a little money for what he will not produce next year. The goal of any agricultural program should be to raise his purchasing power, and this certainly does not do that.

The Bureaucracy of Washington . . . has its own language. The following are definitions:

Program: An idea that cannot be carried out with one phone call.

Channels: The trail left by inter-office memos.

Committee: A means for evading responsibility.

Reliable source: The guy you just met.

Informed source: The guy who just told the guy you just met.

Unimpeachable source: The guy who started the rumor originally.

Search the files. Ask the janitor.

\*Quotation by Victor Hugo  
(1802 - 1885)

to look through yesterday's sweepings

For The Last Several Years . . . I have felt the Congress was doing more investigating than legislating. Some investigations are of course very necessary, but not to the point of straining at a knot and swallowing a camel.

The serious charges made by retired General Matthew Ridgeway certainly justify a closer look at our defense preparedness program.

General Ridgeway, writing in The Saturday Evening Post, said, "The decisions of the Defense Department were based on decisions other than clear-cut military needs. They were based on budgetary considerations, on political considerations, on the advantage to be gained in the field of domestic politics by a drastic reduction in military expenditures."

I Have a Limited Number of Booklets . . . called "Our Capitol," containing 56 pages of pictures and information on points of interest in Washington. If you are interested in having one of these booklets, address me:

Room 1531 House Office Building  
Washington 25, D. C.

The Chinese had a proverb: "He who sacrifices conscience to ambition burns a picture to obtain the ashes."

## Veterans ? Box

Q—I am a veteran of World War I and I am receiving VA compensation for a service-connected disability. I am eligible for Social Security payments. If I apply for these payments, will my compensation be cut off?

A—No. Receipt of Social Security payments will have no effect on your VA compensation. You will continue to receive compensation checks for the usual amount because there is no income limitation for service-connected compensation.

Q—I am taking flight training under the Korean GI Bill. Because of bad weather, I didn't receive any instruction at all last month. How much of a GI training allowance will I receive for the month?

A—You will not receive any allowance. Under the law allowances may not be paid for any month which GI flight trainees receive no instruction.

Q—My husband died, leaving me a GI insurance policy. At the time of his death, he owed some bills, which I plan to pay as soon as possible. Do his creditors have any right to seize the GI insurance policy in order to get their money immediately?

A—No. Proceeds of a GI insurance policy are exempted by law from the claims of creditors. They may not be seized or attached to repay your husband's debts.

Q—I obtained a GI home loan when the maximum guaranty was \$4,000. Since then, it was raised to \$7,500. Would I therefore be entitled to another GI home loan to be guaranteed for the difference, or \$3,500?

A—Yes you would be entitled to another home loan having a maximum guaranty of \$3,500.

Q—I am a widow of a World War II veteran who died of a service-connected disability, and I have never remarried. Would I be eligible for a GI home loan, even though my husband made use of his loan benefit before he died?

A—Yes. The fact that your husband used his GI loan benefit would not serve to prevent you from getting a GI loan in your own right.

Q—I am taking farm training under the Korean GI Bill. I know that I must train full time, but is there any rule against doing a little outside work if it doesn't interfere with my training?

A—You may work for pay outside of your training, so long as you do not put in more than 180 hours during any 12-month period, and so long as the school finds that your outside work does not interfere with your studies.

Q—What date does VA consider a GI insurance premium to have been paid—the date I put the check in the mail or the date the check reaches VA?

A—The postmark date on the envelope is considered as the date the premium is paid.

Q—How do I go about changing my program of training under the Korean GI Bill?

A—You must apply to VA for a change on VA Form 7-1995. Included must be a report of progress and conduct from your present school. This application form goes to the VA regional office that has your records.

Farm Land Values Up Despite Drop In Farm Income

Factors other than farm income have been keeping farm land values high during the past 2 years. In the past, according to John G. McHaney, extension economist, the value of farm land and buildings has risen when farm income rose and dropped when farm income declined, showing a definite relation between the two. Since 1953, contrary to the usual pattern, farm land values have slowly and steadily risen to a new record-high peak, despite declining farm income. U. S. Department of Agriculture figures, based on regular reports from 16,000 farmers and 10,000 real estate reporters, show this to be a nation-wide trend. McHaney cites these important developments as probable causes for this unexpected strength in land values: Farmers are strong bidders for additional land to enlarge their farms. Caught in a cost-price squeeze, many farmers see increased use of machinery and more land as a means of increasing their production efficiency. Too, credit to finance farm purchases has become more readily available. Several large lenders reduced interest rates and raised appraised values for loan purchases in 1954, and a booming nonfarm economy has encouraged investment in farm land by urban people. Despite the influence of these three factors on land values during the past few years, the specialist believes that over the years farm land values will depend, as they have in the past, upon the general level of farm earnings. Some current investments in farm land may be the expectation that it will develop "scarcity" value as our population continues to increase. McHaney discounts this possibility on the basis that technical advances in prospect for agriculture over the next 20 years will make it possible for us to meet all foreseeable needs from present farm acreage.

Dairy Price Support Purchases Drop

U. S. dairy price-support purchases have dropped considerably during the past year. Purchases of butter, cheese, and nonfat dry milk solids in 1955 were down 35 percent from purchases in 1954. The U. S. Department of Agriculture reports. Butter purchases during 1955 were down 50 percent from 1954. Cheese purchases were down 59 percent and nonfat dry milk solids in 1955 were down about 15 percent. Quantities of dairy products purchased in 1955 were also considerably below 1953 purchases. The stepped-up movement of dairy products purchased in 1955 were also considerably below 1953 purchases. The stepped-up movement of dairy products out of Commodity Credit Corporation stocks which began in 1954 has resulted in disposing of approximately 2.8 billion pounds of surplus. Expanded consumption of dairy products in the U. S. has been encouraged through the movement of 330 million pounds of CCC stock for domestic school lunch welfare use. One and four-tenths billion pounds have been used to relieve hunger abroad. U. S. Armed Forces and Veterans administration installations have received 78 million pounds and sales of 190 million pounds have been made into trade channels both for domestic use and for export. Special programs have also moved CCC dairy products, 668 million pounds of non fat dry milk have been sold to relief shortages of high protein animal feed supplement, primarily in this country. Continued heavy disposals of dairy products throughout 1955 brought uncommitted CCC inventories at year-end to the lowest point for butter and cheese since 1953 and for nonfat dry milk since 1951.

Veterans Warning On Selling Their Homes

Two important warnings to veterans buying or selling GI homes were sounded today by the Veterans Administration. They are: First, veterans will run afoul of the Federal law if they purchase a home with a GI loan intending to turn a quick sale at a profit rather than to occupy it as the law requires. Second, veterans who sell their homes and let the purchasers assume the favorable, low interest GI loans, run the risk of later having to pay all or part of the debt resulting from a default by the new owner.

The veteran who gets involved in such a deal subjects himself to serve penalties, including forfeiture of all Veterans Administration benefits, among them disability compensation and pension. A builder or lender or seller who has knowledge prior to the closing of the deal that a veteran does not intend to occupy the home and lets the deal go through, may face suspension from GI loan program, loss of guaranty and insurance, or even criminal prosecution.

The Veterans Administration said veterans who sell their GI home and let the purchaser assume the VA-guaranteed mortgage, remain responsible for the payment of the loan. One way for veterans to protect their interests is to have the purchaser pay cash or arrange a new loan in his own name which relieves the veteran of all liability.

Veterans Administration pointed out that the property is more easily sold with the favorable GI mortgage remaining in effect—a factor that should influence the selling price.

However should the new owner of the property fail to keep up payments, the holder of the GI mortgage can foreclose. When proceeds of foreclosure sale do not cover the GI loan outstanding, the difference may remain a debt against the veteran.

Veterans assuming this risk are advised to keep the holder of the GI mortgage and the Veterans Administration advised of any change in his address. He should also request the lender to notify him if the new owner defaults.

VA, when notified of property sales and of any change of address, will inform the veteran of the loan is in serious default or in danger of foreclosure.

The veteran can then protect his interests. In many instances, the veteran might be able to obtain title back from the owner and either sell the property to cover the unpaid balance or rent the property for enough to keep the loan current.

Veterans faced with problems in buying or selling homes can obtain assistance or advice from the Veterans Administration or from their lender.

Traffic Violators

"The deliberate traffic violator who takes the life of an innocent person in a traffic accident is not far removed from the crime of murder." That statement was made by Mr. President of Eppled-cmfwyphrdiu E. C. McPadden President of the Texas Safety Association, Inc., today as he commented on the importance of the Texas Safety Association and Department of Public Safety's Know and Obey Traffic laws program, which is being conducted in Texas this month in cooperation with the National Safety Council. "Traffic accidents are a serious

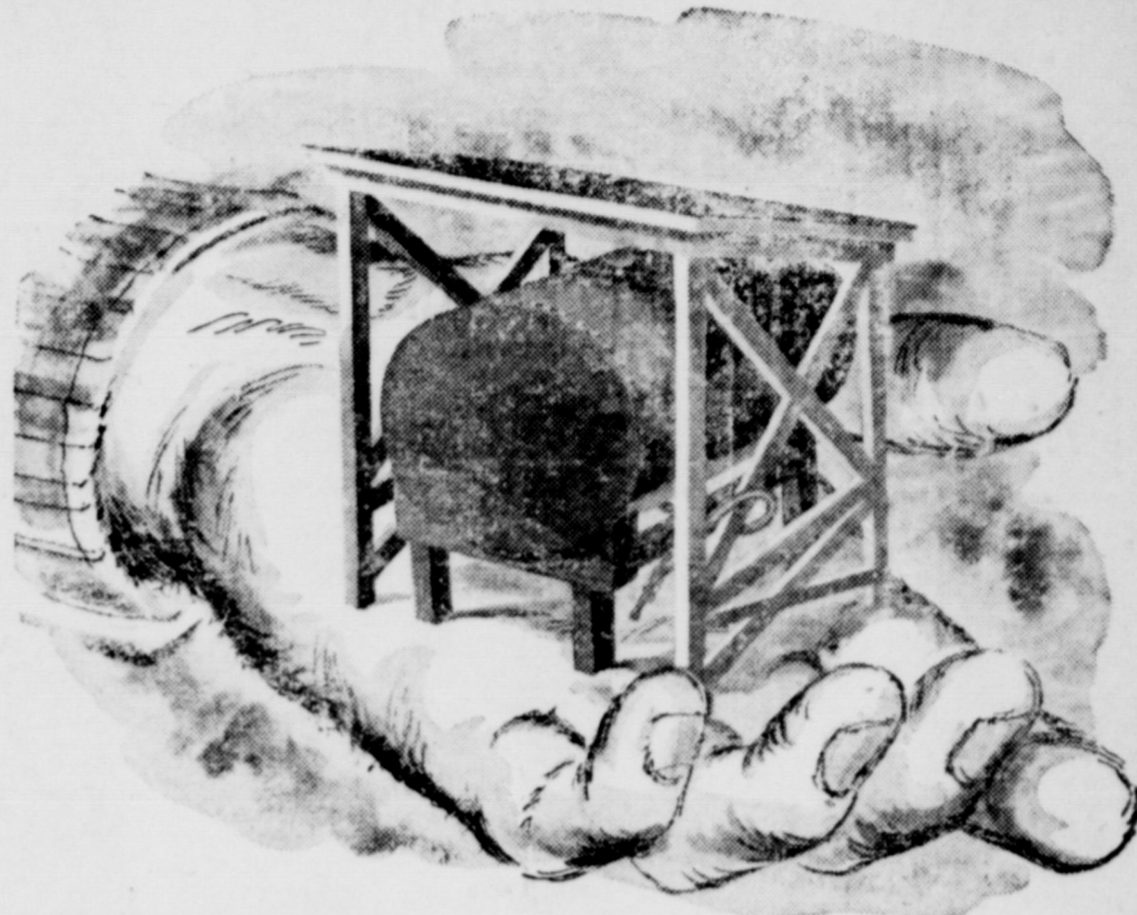

problem—serious to each and every one of us," Mr. McPadden said. "National Safety Council records show that 36,000 persons were killed and 1,250,000 persons were injured in motor-vehicle accidents in 1954." Pointing out that more than half of the drivers involved in all accidents in 1954 were violating one or more traffic laws, Mr. McPadden emphasized the increasing need for more stringent laws relating to traffic violations and stiffer penalties for traffic offenders. Suggesting increased vigilance on the part of law enforcement officials, he indicated how the motor-vehicle licensing bureau and the traffic court might solve the traffic accident problem.

by more effective methods of controlling the number of traffic violators. One of these would be by revoking the driver's license. Another by stiffer fines and jail sentences.

### B. R. Hargrove Is Home From Hospital

His many friends here will be happy to learn that B. R. Hargrove who suffered critical injuries, including the fracture of both legs, in a two-truck collision near Cottonwood, Sept. 21, last year, has been returned to his home here from Abilene hospital and is now out of the body cast he has been in for over five months.

He is now able to move more freely and can set up in bed. His left leg is still in a short cast covering the limb to just below the knee. B. R. says he feels like a "bird out of a cage" and is eagerly looking forward to the time when he can get out in the open in a wheelchair.
