Acreage signed up under the government's new soll bank plan may be used by farmers for livestock grazing without penalty, according to an annonncement made recently by Herschel A. Lynch, Callahan County supervisor for the Farmers Home Administration.

In speaking on the subject, Lynch stated, "many farmers think they must plow up soil bank acreage and leave it idle. If they have it planted to cotton or peanuts, they must plow it up to show they do not plan to harvest a crop from it, but they do have the right to turn stock into it to take advantage of any grazing there may be on it".

In the Improvement of Telephone Service to Our Customers!

First- Automatic Dial Phoning Now- Rekordak Accounting

With your telephone bill this month you received the original toll ticket for every long distance call charged to your number. This makes it possible for you to have an instant, accurate check on every long distance call placed at your telephone, the person making the call and the party called.

You no longer have to call the office to get this information. Bookkeepers can make this accounting distribution immediately, and each customer will have an instant and accurate record of every charge made.

This new service is made possible by the installation of a Rekordak mathine which makes a microfilm recording of every ticket for our files. The originals can now be released to you.

In the event of an error or question, bring the ficket to the Business Office and an adjustment of explanation will be made.

men at age 62 or over, instead of at 65 or older. No reduction in such benefits will be made for a widow filing a claim on her late husband's account, or for a dependent mother who files on the wage record of a deceased son or daughter. All former requirements for such entitlement, other than age, must still be met. The deceased person must have been fully insured, must have died after 1939. and there must be no other survivor with a superior right to payment. Also, for the dependent mother. proof of dependency must be filed with the Social Security Administration within two years of the date of death of the son or daughter, or a showing of good cause why such proof was not filed must be made before September of 1958. A wife who files on her husband's record between the ages of 62 and 65 will have a slight reduction made in the amount of her benefits. If the wife files at age 62, she can be paid 75 percent of the amount payable at age of 65. For each month that she is past 62, this 75 percent is increased by 25-32's of 1 percent of the figure computed for age 65. For example, if the wife would be due \$40 at age 65, she could be paid \$30 at age 62; if she filed at age 62 1-2, she could be paid \$31.60; if at age 63, \$33.20; at age 64 1-2 \$38.40, etc. Such reduced rate stays in effect and is not increased when she reaches age 65.

Women who file on their own records at age 62 may receive 80 per cent of the amount otherwise payable at age 65. For each month they are past 62, and amount of 5-9's of 1 percent of the age 65 amount is added to the 80 percent figure.

Such benefits are first payable for the month of November 1956. A woman past the age of 62 who wishes more information about her own case should write the Social Security Administration, Abilene, Texas, giving her name and address, date of birth, social security number involved. Arrangements will be made to secure formal applications in plenty of time to avoid any possible loss of benefits.
