MOD Program To Be Staged Tonight

(Thursday) will be a BIG MOD program... This is the first time that everyone in this community is urged to turn out and attend the annual MOD program...

JOHN T. HIGGINBOTHAM, of Dallas, son of the late R. W. Higginbotham, one of the founders of the company, is the new Higginbotham Bros. & Company president.

don't get us wrong, we have against athletics—in fact, that anyone enjoys a good game of baseball game any better than we do—but we do feel that there is far too much stress placed on athletics in our high schools and colleges. It is our belief that they should be secondary and virtually unimportant.

U. S. has caught up with the rest of the world in almost every field... We offer football coaches, basketball coaches, and other sports-related services.

PHILOSOPHER COMES OUT FOR SALTIER NEWSPAPERS; EXPLAINS HIS LAZINESS

Dear editor: I don't care how brainy a man is, how important his job is, whether he's mayor of a town without enough money to operate on or the Secretary of State in the same shape, or a college professor or a business tycoon or a scientist who thinks in mathematical formulas instead of words, there are times when, if you can catch him at it, he's not doing anything. He's tired. He's loafing.

1958 Farmers' Tax Book Is Now Available

College Station—Farm and family income and social security are reminded by Extension Management Specialist C. H. Bates that the 1958 Farmers' Tax Book is now available. Copies may be obtained from county extension agents. Bates says the 64-page reference publication is not materially different from last year's popular edition. The booklet is provided by the Internal Revenue Service and is written in easy to understand language with many income and security tax items covered in detail. Also, a number of sample forms are shown for the guidance of those seeking first-hand information or "know-how." DALLAS COUPLE PARENTS OF SON Mr. and Mrs. Gene Childress of Dallas are announcing the birth of a seven pound, 12 ounce baby. The baby was born Friday, Feb. 3. Mrs. Willie Childress of Dallas is the paternal grandmother. W. D. Smith of Cross Plains is the maternal great-grandfather.

How far would your electric appliances reach?

The number of jobs you do with electricity is one good measure of your standard of living. The more ways you put it to work, the more likely you are to live comfortably and conveniently. You and other customers of the more than 400 independent electric companies can use electricity widely because it's plentiful and costs so little. Right now, in every room in your home, electricity is working for you or waiting for your command—probably in more ways than you remember. And you can depend on it. Making sure you get good service always is the main job of the men and women of your electric company.

## STATE CAPITAL

# Highlights AND Sidelights

by Vern Sanford

TEXAS PRESS ASSOCIATION

AUSTIN, Tex.—By 1962 the first wave of the state's "war babies"—probably hundreds of thousands of them—will be seeking a college education in Texas.

Time to get ready for them is now, says the Commission on Higher Education.

Created by the Legislature in 1955, the Commission has spent some two years getting organized and gathering facts. Now, says the Commission's director, Dr. Ralph

T. Green, it is ready to start making some "firm recommendations," beginning with its meeting Feb. 10 in Denton.

Commission has the responsibility for studying the needs and problems of all 18 state supported colleges and universities and making recommendations and appropriate requests for them to the Legislature.

Commission staff has done extensive research in areas of

essor's salaries, how many students take what courses and possible need for more branches and courses in certain areas.

Several cities have been actively demanding senior college status for their junior-colleges. Commission is to have recommendations on this later.

At present, says Dr. Green, Texas' 18 state colleges have some 77,913 students. By 1962, he predicted, they will have 102,000.

Statewide, the possibilities are even more overwhelming. There are some 160,000 students in both state and private colleges now, said Dr. Green, but by '62 there will be an estimated 320,000 prospective college students.

Exact figures are not possible, of course, he said, but "there's no getting around it, the kids are there. It's almost frightening to foresee this tremendous volume and know, too, that standards must be raised to meet demands for improved scientific and technical training. But with good planning, we can do it."

**POLIO PLUMMETS**—Best news from the State Health Department recently is the 1957 polio figures—lowest in a decade.

Total for 1957 was 734 cases, just a little over half the 1956 total 1,307 and less than one-fourth the peak year of 1952 (3,984).

Department officials said they expect a continued, but more gradual decline, as more people take the vaccine. Shots are not likely ever to stamp out the disease completely, they said, since the vaccine does not prevent non-paralytic polio.

**COME AND SEE US**—Texans can garner many millions in out-of-state dollars by learning to be good hosts to tourists.

Said Tom Taylor, manager of information and statistics for the State Highway Department, "The tourist industry is one of the easiest in the world to promote. Every community has something to offer. But many Texans don't know enough about their own communities to give directions."

Considering the scarcity of promotion, said Taylor in a speech to the Texas Motor Transportation Association, it was surprising to note that Texas is fifth among the states in number of tourists. It was a \$500,000,000 industry in 1957, he said, bringing Texans more income than cotton, cattle and wheat combined.

But, Taylor noted, competition from other states is getting stiffer, and Texans will have to work harder to get out-of-staters to spend their vacation money here.

**SCHOOL QUESTIONS TO GO OUT**—Some 25,000 manuals are to be mailed to counties by Feb. 15 for use in a massive study of Texas public schools.

Study guides are being sent out by the Hale-Aikin Committee which is to report to the next Legislature on school needs. County leaders will distribute the 44 page study guides to the local school districts. It is hoped that answers and suggestions will be worked out in a series of group meetings in each area.

Rep. L. DeWitt Hale, vice chairman of the study committee, said local groups should feel free to add more topics of their own. Study guide has 167 questions.

If people all over the state respond with facts, ideas and suggestions, the committee will have some 24,000 replies to serve as basis for its recommendations.

**MORE COTTON ASKED**—Texas should be allowed to produce more cotton this year to meet active demand for better grades, said White. Because of the end of the drought, he said Texas had an excellent chance to produce high quality cotton this year for the first time in eight years.

**WELL WATERED**—Texas goes into the 1958 growing season with the best soil moisture conditions in years, reports the U. S. Dept. of Agriculture.

High plains wheat prospects are considered the best in years. Most areas have enough moisture to carry the crop well into spring.

In many areas growers now want "open" weather. Said USDA, "Many fields in East Texas have turned pale as waterlogged soil prevents root aeration."

Panhandle grain farmers need sunshine to prepare for spring planting and Valley vegetable growers to harvest the winter crop.

**FLU UP AGAIN**—Number of flu cases in Texas climbed in January, but was no where near the October peak.

According to State Health Department officials, estimated number of cases at end of December was 3,411. In successive weeks totals went up to 4,301, 4,820 and 8,800.

But during the October outbreak the total reached 40,000.

Gov. Price Daniel was among the recent victims.

**SHORT SNORTS**—Texans salted away \$94,382,837 more in their bank savings accounts in 1957 than the year before, according to the State Banking Commission. Increase was from \$288,703,258 to \$383,086,095, a jump of approximately 24 per cent.

Atty. Gen. Will Wilson has been asked for an opinion as to constitutionality of the new law prohibiting an insurance company official's making a gift to an Insurance Department employe. Opinion was asked by the district attorney of Randall County, locale of Estate Life Insurance Co. Estate's president, John L. McCarty, was recently deposed after testimony concerning a \$2,000 gift to a state employe.

Mr. and Mrs. Harold Baxter and baby of Odessa are here visiting their parents, Mrs. E. Baxter and the Ben Porter family.

Mrs. Roy Nichols of Snyder visited here several days last week with Mrs. Lula Havner and other relatives. Mrs. Havner accompanied her daughter home and will visit in the Nichols home for several days.
