BILL BLAKLEY

Bill Blakley is a plain man. There's no fuss or vanity about him. He's as Texan as a cowboy's saddle. His career is of the stuff that made Texas great.

When he was 14 he was earning a cowhand's wages. He taught himself accounting and became an accountant. He taught himself law and became a lawyer. Long years of hard work and sacrifice made him a successful businessman, rancher, lawyer, but he never once forgot his humble beginnings . . . from the time he was born when his family was on the way to the Oklahoma Territory in a covered

wagon...to this very hour when he gives the people of Texas the most solemn choice for a United States Senator they will ever have.

Bill Blakley, a self-taught, self-made Texan earnestly believes that EVERY man and woman in Texas deserve a voice in their government. Bill Blakley believes in government close to the people. Bill Blakley believes that the U.S. Constitution is the greatest guarantee of liberty ever conceived. He'll work to preserve it, for you and your family and their families.

The Government is YOUR Business ... Send a BUSINESSMAN to the Senate!

Bill Blakley for U. S. Senator

Vote for Bill Blakley for United States Senator and you'll be proud of this vote the longest day you live.

Wheat Support Price Raised on '58 Crop

College Station .- The U. S. Department of Agriculture has announced that because of an increase in the wheat parity price, the national average support price to producers for 1958-crop wheat will be \$1.82 per bushel-an increase of four cents per bushel above the "advance" minimum price for this year's crop announced in April :957.

The 1959-crop average support of \$1.82 per bushel compares to a national average support of \$2 per bushel for the 1957 crop.

When the minimum price was set in accordance with "favored pricing" provisions of law, the USDA announced that the support price would be redetermined as of July 1, 1958, the beginning of the 1958-crop wheat marketing year, on the basis of the current wheat parity price and the percent level of support as indicated by the relationship of the total supply of wheat available to a determined normal supply for the marketing

The July 1958 wheat parity price of \$2.43 per bushel is higher than the estimated parity price of \$2.37 per bushel used to determine the minimum price in April 1957.

No change is indicated in the 75-percent level of support announced in April 1957. At a support level of 75 percent of parity the July 1958 parity price calls for a 1958-crop national average support at four cents per bushel higher than the minimum support of \$1.78 per bushel as announced last year.

This level is determined in a variable range from 75 to 90 percent of parity on the basis of wheat supply relationships. The total upply of wheat available for the 1958-59 marketing year is now estimated to be 187.9 percent of the normal supply. The available total supply is considerably above earlier estimates when the total supply was estimated to be 141.8 percent of the normal supply. Under the law's formula, a wheat supply percentage above 130 calls for the minimum 75-percent level of sup-

Mrs. Mary Burton and children of

of Callahan County

In my campaign for election to the office of County Judge, I have made an effort to see each and every person of the county, but to those whom I have missed I would like to ask your consideration. Your vote will be greatly appreciated.

I have tried to conduct my campaign on my own merits, and it has been a pleasant experience to meet and talk with so many good people. I appreciate all the courtesy that you have shown me and if elected to this office I will do my best to make you a good

Sincerely,

LOWELL BOYD

FOR BETTER SERVICE, CONVENIENCE and SAFETY SUPPORT the EXTENDED AREA SERVICE PLAN!

We, the undersigned citizens of this area; favor the proposed Extended Area Service Plan of the Kizer Telephone Company and urge its approval

The Kizer Telephone Co. is, under its current REA Loan Expansion Program, offering to its patrons a plan of area-wide dialing service. This service will make it possible for any telephone to dial any other telephone without toll charges in the present and expanded area as shown in the map above. Area-wide dialing service is a step forward in keeping with the policy of being a progressive telephone company. The Kizer Telephone Co. can furnish this service for the small increase of 50 cents per month for residence telephones, and \$1.25 per month for business telephones. The advantages of area-wide dialing service are:

it doubles the number of telephones that can be reached from

any telephone it doubles the number of telephones that can dial any one telethere are no toll charges for calls within the service area

The Kizer Telephone Co. has the opportunity to offer this service to its patrons under its present loan program. Area-wide dialing is not a brand-new plan; it is available to patrons of other telephone companies in varying degrees. It is felt that this plan will, be of benefit to all patrons at the present time and an even greater benefit in the future with expansion and growth.

Mrs. McMillan Attends Dallas Furniture Market

Mrs. Exal McMillan of Cross Plains, representing Higginbotham Bros & Co, was among the nearly 7,000 buyers and other retail executives attending the Southwest Furniture Market in Dallas.

The four-day market, open only to retail furniture store buyers and officials, opened July 14 and closed Thursday, July 17. Officials of the Retail Furniture

ssociation of Texas, sponsors of he summer and winter markets in Dallas, terrned the July, 1958, Southwest Furniture Market "one of the est we have ever had." Market officials reported that

orders written during the opening days of the Market indicate total sales probably will exceed \$20,000,and estimated that "the Market will be responsible for an equal amount of re-orders during the coming months.

More than 300 manufacturers of all types and styles of furniture extheir new lines in more than 165,000 square feet of display space in three buildings on he grounds of the State Fair of This new merchandise will e available in the Southwest's retail stores next month.

Much of the new furniture shown at the Southwest Furniture Market ir. Dallas-fourth largest in the nation-reflected the current trend toward the use of medium-dark finishes, as opposed to the rather light finishes in evidence at former markets. Maple, walnut and mahogany continue to be the leaders in cabinet woods used in both medium grade and better chairs, bedroom and dining room group-

In upholstered furniture and carpets the furniture manufacturers and rug mills are coordinating styles and colors to provide both harmonious and colorful room groupings. Market officials emphasized that today's home makers can take care of their furnishing needs with the knowledge that styles and colors will be "fashion right" and in any price range to fit within their family budgets.
