way will be explained and discussed with landowners of the district.

He pointed out that Turkey Creek watershed plans are progressing toward construction readiness and progress in obtaining easements needs to be speeded up in order to be ready for the Soil Conservation Service to make designs for each flood control structure to be built.

Construction of the 12 planned floodwater retarding structures could begin by the spring of 1960. The government is now waiting on the landowners to provide all easements and right-of-way, cost free as their part in this 50-50 program. The land on which these lakes are to be built will remain private property and will not, under any circumstances, be purchased by the government, it was pointed out. The local people owning the land participate jointly with the government in the complete watershed program to giving all easements and by putting a conservation program on the land situated in the watershed. In turn the government will bear all construction costs of the flood control structures, which in this project will total approximately \$900,000.00.

Directors of the district are anxious to have all landowners on whose places these structures will be built, present at this meeting, along with all other interested citizens.

Plans in regard to when construction may be started will be discussed at this meeting, it was said.

DRUG FACTS

IF SICKNESS STRIKES, THE QUICKEST AND SUREST WAY TO GET "BACK IN THERE PITCHING" AGAIN IS TO FOLLOW YOUR DOCTOR'S ADVICE CAREFULLY AND TAKE HIS PRESCRIPTIONS TO CITY PHARMACY

THEY WILL FILL THEM ACCURATELY ALWAYS.

The 56th Legislature of the State of Texas passed an act, which controls the sale of dangerous drugs. A dangerous drug by the definition of this act means "Any drug that is unsafe for self-medication."

This act went into effect Aug. 11, 1959, and it very nearly parallels the Federal law which has been in effect for several years.

All of these drugs and new ones that are developed, which come under this act will bear the legend, "Federal Law prohibits dispensing without a prescription."

Being in the Drug Business naturally your druggist wishes to sell you anything he can, however, there are many drugs which come under this law, so please be patient with your druggist when he refuses to sell you certain types of medication over the counter. He is merely trying to obey State and Federal laws... and remember these laws were passed for YOUR PROTECTION!

At the first sign of illness see your Doctor. If you need medication he will prescribe it.

THE STATE OF TEXAS

TO: W. F. Thomas, if living and if dead, the unknown heirs and legal representatives of W. F. Thomas; Ed Thomas, if living and if dead, the unknown heirs and legal representatives of Ed Thomas; Charles Thomas, if living, and if dead, the unknown heirs and legal representatives of Charles Thomas; Thelma Thomas Taylor and husband, Otto Taylor, if living and if dead, their unknown heirs and legal representatives; and the unknown heirs of R. S. Thomas, deceased, and their heirs and legal representatives Defendants, Greeting:

You are hereby commanded to appear before the Honorable District Court 42 Judicial of Callahan County, Texas, at the courthouse of said county in Baird, Texas, at or before ten o'clock A. M. of the Monday next after the expiration of Forty-Two days from the date of issuance of this citation, the same being the 30th day of December, 1959, then and there to answer Plaintiff's Petition, filed in said court on the 15th day of October A. D. 1959, in this cause numbered 11,267 on the docket of said court, and styled, Tim Spurrier, Plaintiff, vs. W. F. Thomas, et al, Defendants.

The nature of Plaintiff's demand is as follows, to-wit: an application for a division and partition of property jointly owned by the plaintiff and the defendants; said land and premises being two tracts of land situated in Callahan County, Texas, and being more particularly described as follows:

FIRST TRACT: Two (2) acres off the East end of a certain twenty acre tract out of the North one-half of the Southeast one-fourth of Section No. Sixty-five (65) of the BBB & CRR Co. Abst. 86, and

SECOND TRACT: Fourteen (14) acres more or less, off the West end of a certain twenty acre tract of land out of the North one-half of the Southeast one-fourth of Section No. Sixty-five (65), BBB & CRR Co. Abst. 86, Callahan County, Texas; as is more fully shown by Plaintiff's Petition, on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.

The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates hereof, and make due return as the law directs.

Issued and given under my hand and the seal of said court at Baird, Texas, this 16th day of October A. D. 1959.

Attest: MRS. CORRIE DRISKILL, Clerk, District Court, Callahan County, Texas.

(Seal) 32-4tc

Tips Given for Safety During Christmas Season Ahead

Austin.—With some retail stores now carrying stocks of low wage cost imported Christmas tree strings and sets from Japan and other countries, the Texas Safety Association reports that consumers would do well to use care when buying such imported electrically lighted Christmas decorations.

Although on the surface some imported sets and strings may appear to be almost identical to similar products made in the U.S.A., this is not always the case. Hence, a careless purchase of imported Christmas decorations may result in serious damage or loss of life.

To be sure that a Christmas tree string or set is safe, the purchaser should check to see that the label of the Underwriters' Laboratories is affixed to the wire of the equipment. This label indicates that all wiring, sockets, etc., in the set meet the UL test requirements, and there are regarded as safe for decorative use.

Farm Questionnaires Being Mailed to Area Farmers

Questionnaires for the 1959 Census of Agriculture are now in the hands of local farmers within a few days, it was announced recently by Field Director James W. Stroud of the Census Bureau's regional office at Dallas.

The farm census questionnaires are being mailed from Chicago, Illinois, with the distribution timed so that the report forms will reach farmers about a week ahead of the date when census takers will begin the field canvass. The advance mailing is for the purpose of giving the farm operators time to consult their records before filling in the answers required by the questionnaires and getting them ready for the census takers to pick up. This procedure is designed to insure greater accuracy of reporting and to save time for the farmer and the census taker when the latter calls at the farm.

The 1959 Census of Agriculture questionnaire is designed to provide information on the number and size of farms, acreage and harvest of crops, livestock production and

inventories, selected farm facilities and equipment, selected farm expenditures, farm values, and mortgage debt. On the average, each farmer is asked about 100 questions, many of which can be answered by simply checking yes or no.

Mr. and Mrs. L. F. Foster were Abilene visitors Monday afternoon.

Mr. and Mrs. R. C. Gilmore and Jimmy were business visitors in Abilene Thursday night of last week.

Mr. and Mrs. Marion McMillan left Monday of this week for Fort Worth to make their home.

Any man who looks up his family tree is apt to get out on a limb.

If success made the heart swell like it does the head, this would be a far better world.

If you can't get behind a movement for the good of the community, the least you can do is get out from in front of it.

State Capital NEWS

By Vern Sanford

Austin.—Typical of the tangle of interests and viewpoints that confront Texans when they set out to "solve the water problem" is the current hassle over Trinity River water.

Trinity development poses special problems. This second largest river in Texas (in volume of water) has a 455-mile channel that meanders through or near three major population centers—Fort Worth, Dallas and Houston. All are directly concerned, not to mention the smaller

cities along the way.

In the current hearing before the State Board of Water Engineers, Houston and the Trinity River Authority jointly seek permits to build two dams, both near Houston. One would be a reservoir at Livingston; the other, a salt water barrier at Wallisville.

At first, Houston alone sought the permits with stiff opposition from TRA. Then the two agencies compromised and agreed that both would build the dams with Houston footing 70 per cent of

the bill and getting 70 per cent of the water.

But before the plan could be approved, objections came from all sides. These now are being heard before the Water Board.

San Jacinto River Authority, which supplies part of Houston's water, contends the city should stick with the San Jacinto. North Texas Municipal District and the Municipal Service Company are worried about their own future water supply from the Trinity.

Southern Canal Company, which long has sought irrigation rights downstream, is opposed to the plan as are various land owners whose property would be flooded by the new reservoir.

Testimony is complex, often is heated and expected to be quite lengthy.

Some of the data presented on future water needs provides a glimpse of the possible Texas of tomorrow. An engineer, appearing for Houston, predicted the nine-county area around that city will have a population of 6,750,000 by the year 2010—more people than the whole state had in 1940. Water needs will be a staggering 2,682,000,000 gallons a day, he said.

Uranium Promotion Studied—House Investigating Committee has been looking into the money-raising methods of a man who claims to have a device to upgrade uranium ore.

John Milton Addison faces charges in state and federal courts of using illegal financing methods. He has reportedly borrowed \$1,000,000 at 10 per cent interest in unsecured loans.

But lenders appearing before the House committee said they had faith in Addison and felt he had been "persecuted" by law enforcement officers.

Rep. H. J. Blanchard of Lubbock heads the investigating panel. Other members are Reps. Joe Burdett of Kerrville, Tom James of Dallas, Carl Allen of Raymondville and John Conley of Longview.

Court to Move—Texas Supreme Court holds its last session in the 71 year old State Capitol building this week.

But it may be a month before the high court gets all its records and huge library moved and gets settled into the splendid new quarters in the just completed Courts Building.

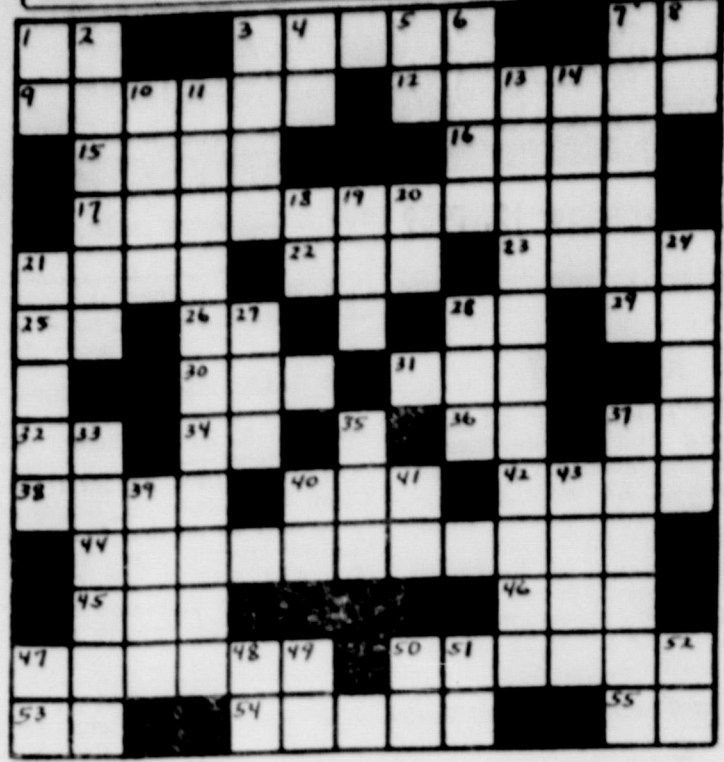

On Nov. 18, however, the judges are to sit at the new marble bench. Furthermore, they will add a new tradition to Texas judiciary history by wearing black robes.

Court of Criminal Appeals and Third Court of Civil Appeals are to move into the new building at a later date.

Union May Be Sued—State Supreme Court has ruled that a labor union may be sued for damages by one of its members.

It reversed the holding of a lower court that the union could not be held responsible. This clears the way for a plumber to seek

SEW AND SO CLUB MEETS WITH MRS. WESTERMAN, NOV. 5

The Sew and So Club met Thursday afternoon, Nov. 5, in the home of Mrs. Luke Westerman with Mrs. Richard Thompson serving as co-hostess.

Club President, Mrs. Volle McDonough presided over the meeting which opened with the singing of the club song. After a short business session, Mrs. McDonough gave a reading on personality.

Plans for the Christmas party were discussed.

The recreational hour was spent in sewing, visiting and laughter, after which a refreshment plate was passed to the 15 members present.

Attending the meeting were: Mrs. W. H. Coppinger, Pat McNeel Sr., C. D. Lane, J. W. Dunlap, Volle McDonough, Jeff Clark, O. M. Bailey, Claude McAnally, Craig McNeel, I. N. Riley, Marvin Smith, H. A. Young, C. L. Smith, A. D. Petty and co-hostess, Mrs. Thompson.

The next meeting will be held Thursday, Nov. 19, in the home of Mrs. H. A. Young.

Mr. and Mrs. Freddy Tatom and sons returned to their home here Monday after a week end visit with relatives in Fort Worth.

Mr. and Mrs. T. T. Nichols and son and Mrs. Johnny Adair and children visited in San Angelo Sunday with Mr. and Mrs. Larry Nichols and children.

Asleep?—Texas Conservatives heard a familiar voice tell them they have become "lazy".

Speaking to a Chamber of Commerce audience, former Gov. Allan Shivers said, "In Austin, the conservative element has little or no leadership—has lost its initiative—its incentive."

Shivers, long a Conservative standard bearer, recommended development of a program for the general welfare rather than fighting isolated battles for business interests alone.

He urged a coordinated Conservative program. Opposing forces, he said, have the "perfect set-up", generating fever for their causes through a tax-free organization, the AFL-CIO Committee on Political Education.

Motorists Speed Up—Texas drivers are bearing down on the accelerator more this year, a State Highway Department survey shows.

Study showed average highway speed at 54.8 miles per hour in 1959 compared to 53.4 for 1958. Passenger cars are traveling at an average 56.2 miles per hour; trucks, 50.3; busses, 60.7. Legal rate of speed for busses is 55 miles per hour.

According to the sampling, 21.9 per cent of passenger cars are traveling faster than the legal rate

of 60 miles per hour. Last year only 15.2 per cent were above the legal speed.

The Highway Department's survey was made with camouflaged radar equipment at 24 representative locations on rural highways.

New DWI Tests Urged—It's so hard under present law to prosecute a driving while intoxicated charge that most law officers settle for a lesser charge, says the head of the Governor's Highway Safety Commission.

Speaking to the Texas Safety Association, Brad H. Smith urged passage of laws allowing for chemical tests to determine drunkenness.

Daniel Raps Lawmakers—Private research agencies have done a good job of fact finding, but the Legislature has been slow to carry out recommendations, Gov. Price Daniel said at the Texas Research League's annual meeting.

He cited law enforcement and traffic safety as areas of legislative foot-dragging and implied there had been an effort to undo Insurance Department reorganization.
