## Wool, Mohair Price Supports Announced

A shorn wool incentive price of 62 cents per pound and a mohair support price of 70 cents per pound have been announced for the 1960 marketing year which begins April 1, 1960. These prices are the same as for the first five years of the program running from 1955 through 1959 marketing years, according to A. B. Wooten, extension economist.

Yearly production of shorn wool is moving toward the 300-million pound goal set by the law. Estimated 1959 production of 252 million pounds, the highest since 1946, and compares to 234 million pounds in 1955, the first year of the wool payment program. Stock sheep numbers increased 3 per cent during 1957 and 4 per cent during 1958, and on Jan. 1, 1959, were the largest since 1948.

ASC offices completing payments for the 1958 marketing year, the fourth year of the program. The shorn wool payment rate for the 1958 marketing year was 70.3 per cent, the percentage required to bring the average price of 36.4 per pound of shorn wool, grease basis, up to the 62-cent incentive level. This results in a payment of \$70.30 for every \$100 received from the sale of shorn wool, Wooten noted. The payment rate on unshorn lambs was \$1.02 per hundredweight of live lambs marketed.

The payment rates for the 1958 marketing year were higher than anticipated because prices received by growers for wool declined to the lowest since 1941, reflecting the drop in wool prices in the world market of 40 per cent from mid-1957 through early 1959.

Through August 31, 1959, payments for the 1955, 1956, 1957 and 1958 marketing years were approximately \$207.8 million. A small percentage of 1958 payments is yet to be made. From this amount, approximately \$11.4 million was deducted for the self-help advertising and sales promotion program for lamb and wool being conducted by the American Sheep-Producers Council, Inc.

## 1960 Cotton Farm Allotments To Be Set

Cotton acreage allotments for the 1960 upland crop are not being established for all the eligible farms in Callahan County, according to the County Agricultural Stabilization and Conservation Committee. Notices of the allotments will be mailed to farm operators well in advance of December 15 referendum on 1960-crop cotton marketing quotas.

For 1960, as in 1959, two allotments—Choice (A) and Choice (B) will be set for each farm. If marketing quotas are approved by at least two-thirds of the growers voting in the referendum, then each farm operator may elect a choice as to which allotment he wishes to comply with in growing his 1960 upland cotton crop.

Choice (A) will be the "regular" farm allotment and price support at not less than 75 per cent of parity available on the cotton grown in compliance with it. Choice (B) will be a 40-per cent larger farm allotment, and price support not less than 80 per cent of parity available on the eligible cotton.

If marketing quotas are not approved by the necessary majority, then only the "regular" allotments on cotton grown in compliance with will be in effect, and price support the allotments will be available at 50 per cent of parity.

Mr. Tomie Harris pointed out that the 1960 county allotment representing the county's share of the State allotment, less any acreage reserved for new cotton farms—divided among farms on which cotton was planted or "regarded as planted" in 1957, 1958 or 1959. An allotment may be "regarded as planted" if it was "reserved" under the Soil Bank Conservation Reserve Program or if it was otherwise preserved under some legal provision. The minimum farm allotment for "old" cotton farms is the smaller of 10 acres or the farm's allotment for 1958.

## SCD NEWS NOTES

Now is the time to make plans for the seeding of perennial grasses in 1960.

Much grain sorghum is now on the land which has not been plowed since harvest. This stubble makes an excellent seedbed in which to plant grasses. The stubble should be left standing and not plowed prior to seeding of grasses.

When sorghum is grown strictly as a litter crop in which to seed grasses, the sorghum should be drilled or planted in close spaced rows. The sorghum should be mowed or shredded prior to frost to prevent the maturing of a seed crop. Shredding to leave stubble six to eight inches high is preferred over mowing.

A grass drill or planter with disc openers should be used when seeding in a dead cover of stubble.

Such grasses as Little Bluestem, Sand Bluestem, Indiangrass, Side-oats Grama and a mixture of Bluestem grasses should be seeded during the period of January 1 to April 1.

Weeping Lovegrass, Blue Panic, Switchgrass, Sand Lovegrass and King Ranch Bluestem are grasses that should be seeded from March 15 to June 1 for best results.

All of these grasses are perennial and will come back each year from the stool if properly managed.

Grazing should be deferred the first growing season after seeding or until plants are well established.

Mr. and Mrs. W. M. Weathermon of Hobbs, N. M., spent Saturday night with her brother and wife, Mr. and Mrs. Dick Montgomery.

Mrs. Rosa Purvis left Sunday for Mobile, Ala., for an extended visit in the home of her son, Ervin Purvis and family.

## Farm Census Field Work To Begin Locally Soon

Field work in the 1959 Census of Agriculture gets underway locally on Nov. 18, when a force of census takers will start visiting every farm in the area, it was announced recently by Field Director James W. Stroud of the Census Bureau's regional office at Dallas.

Farm census questionnaires have been mailed to all farm operators. The census takers will visit all local farms to collect the questionnaires and, if necessary, assist the farmer in filling out the report form.

The 1959 Census of Agriculture is the 17th in a series of nationwide farm canvasses, the first of which was conducted in 1840. The Census of Agriculture is taken at five-year intervals to provide up to date statistical information about the nearly five million farms which supply food and raw materials for manufacture of goods used by the people of the United States, now numbering about 178 million. The current census will yield information on the number and size of farms, acreage and harvest of crops, livestock production and inventories, selected farm facilities and equipment and selected farm expenditures.

The field director emphasizes

### TAX-MAN SAM SEZ:

Well, the tax people have a new income tax form out this year. They call this new form the 1040-W. It doesn't replace the old Form 1040 or the 1040-A card form. It is a single sheet, buff colored form printed on both sides. The title of the form tells what it is for—"Optional Form for Wages and Salary Income and Not More than \$200 of Interest and Dividends". You can itemize your deductions on this form as well as the 1040. You can't itemize deductions if you use the 1040-A card. You can take the standard deduction on any of the

three forms. All be available at the Internal Revenue January.

By Vern Sanford

Austin—Sometimes the law enforcement officer has the feeling of being alone.

This statement was made by Abilene Police Chief Warren Dodson at the Texas Law Enforcement Foundation's banquet in Austin. It pinpoints one of the reasons for TLEF's existence—to effect a better partnership between the public and the law enforcement agencies.

Public sympathy, it seems, is inclined to go out to the criminal, putting him in the role of "underdog," the hapless victim of hard-hearted policemen and prosecuting attorneys.

"Texas Legislature has a poor record for crime fighting," Gov. Price Daniel charged at the meeting.

"Of 27 law enforcement bills proposed last session, only three were passed—and these were partially crippled."

Governor Daniel warned that crime is increasing three times as fast as the population, and it is the state's most serious social problem. During the first six months of this year, lawlessness flourished at the rate of three murders, three rapes and 125 burglaries each day.

TLEF is a privately financed organization of outstanding citizens from over the state.

All The Way For LBJ—Governor Daniel announced he will support Sen Lyndon Johnson, not only for the presidential nomination but for chairman of the Texas delegation to the Los Angeles national convention.

Senator Johnson and former Gov. Allan Shivers fell out over who should be state delegation chairman in 1956. Johnson won.

Daniel says he wants Johnson to be chairman, but that he, Daniel, will take an active role in working for the senator both here and in other states.

Save The Seed—State Board of Education has gone on record as being unanimously opposed to spending anything but the income from the \$400,000,000 Permanent School Fund.

The fund has been built up over the years, principally through the sale of mineral rights on the school lands. It has been invested in government and municipal bonds which have an income of about \$12,500,000 per year.

This investment income is used for school operating expenses. It is dipping into the principal—the \$400,000,000—that the Board opposes.

Board resolution compared the school trust fund to seed corn which "our forefathers saved to plant instead of grinding it for use as food."

There has been some talk of tap-

ping the permanent fund to meet current demands for a teacher pay raise.

Board of Education approved the holding of a county-wide election to see if Cooke County residents would be willing to support a junior college at Gainesville.

A study of the feasibility of establishing a junior college in Midland also was approved.

Textbooks in seven subjects were adopted by the Board, including, for the first time, Journalism books. Rule Hits "Corporate Optometry—Within the next few weeks Texas optometrists will vote on a proposed new rule prohibiting practice under any name except the name under which the optometrist is licensed.

Before polling the optometrists, the Board of Examiners in Optometry got a ruling from Attorney General Will Wilson stating that the regulation would be legal and valid.

While the board is not bound by the results of the balloting, it was predicted that a favorable response would almost certainly result in adoption of the rule. This, because there are hundreds of individuals engaged in optometry as compared with firms so engaged.

If adopted, the rule would prohibit practice "under an assumed name, corporate name, trade name or any other than the name under which the optometrist is licensed."

This would mean the end of such firms as Texas State Optical, and Lee Optical, where glasses are available at considerable savings to the general public.

Hospital Problems Studied—State Hospital Board has underway studies aimed at three of its current problems.

One is to find a way, other than providing expensive mental hospital facilities, to care for some 2,700 patients whose only ailment is old age. Two plans are being considered. One is state assistance toward the cost of caring for the oldsters in private nursing homes. Other is providing for state nursing homes.

Under law, the state is not responsible for giving institutional care for the aged. But these patients were all admitted on court order as mental cases. Now they are too infirm to be "turned out."

Another problem under study is that of tuberculosis patients who go "awol" from TB hospitals before they are completely cured. Danger is not only that they will relapse, but that they will infect healthy outsiders.

Third matter under study is the facilities needed for present and future care of mentally retarded children under school age.

Carr Appoints—Named by Speaker Waggoner Carr to the Joint Education Standards Commission were Reps. C. T. Matthew of Yoakum, Leon Thurman of Anson and Maurice S. Pipkin of Brownsville. Commission is to search for ways to cut school costs without sacrificing necessities.

Reps. Louis Anderson of Mid-

land and C. W. Peary of Temple have been selected by Carr to serve on a committee to study the state fiscal system.

Four big city solons will serve on a committee to study the possibility of merging some functions of city and county government. They are Reps. Raymond R. Russell of San Antonio, Warren C. Cowen of Fort Worth and Ben Atwell of Dallas County.

Court To Move—Texas Supreme Court justices will sit at their new marble bench for the first time on Dec. 3, rather than Nov. 18, as previously announced. A special ceremony will be held Dec. 3 in the new State Courts Building, with the justices formally attired in black robes for the occasion.

Interviews with thousands of car owners across the country show clearly what they like or dislike about their present cars . . . and what they want most in their 1960 cars. Here's what the people tell us they want . . . and here's how Chevrolet meets their needs.

- "Price, that's what's uppermost in my mind." All Impalas and Bel Airs with V8 engines are lower in price, as are automatic transmissions and many other popular options. Also Biscaynes now include as standard equipment conveniences formerly optional at extra cost.
- "And how about operating economy? And resale value?" You keep right on saving after you buy your favorite Chevrolet, too. And Chevrolet's traditionally higher resale value means you'll get more back when you trade.
- "Give me plenty of good old-fashioned comfort." There's comfort and then some in this one. Chevy's long on space, for one thing. Once you're under way you'll know just how comfortable Full Coil suspension makes your ride.
- "Safety—don't forget safety!" You're surrounded by safety features in a new Chevrolet. You've got big, sturdy brakes underfoot, for example, that last longer. As it has been for years, safety is standard equipment in Chevy.
- "Let's keep upkeep down, too." More than ever, Chevrolet for 1960 is built to stay on the road and out of the repair shop. You can tell that from its hushed, unruffled way of going, from the solid thunk of Chevy's big doors. Of course, if you should need service, you're always near efficient, economical attention to your needs.
- "I want a car that will stand up to the driving I do." For proof of Chevy's staying power, just spend a minute watching the nearest road. You'll see more Chevrolets traveling on it than any other car—evidence-on-wheels of Chevrolet durability. (And that higher resale value attests to it, too.)
- "Me for a sweet-handling car." Handling's always been Chevy's forte, and 1960 is no exception. But really, this kind of lightness and precision you've simply got to enjoy for yourself.
- "... a car you can look at and be smug about buying it." Chevrolet for 1960 leaves the low-price field far behind when it comes to fashion. But you're the best judge of styling, so take a good close look at Chevrolet. We warn you: you're about to fall in love.
- "And performance. Let's have a hot one!" Chevy's spirited V8's have set the standard for ultra-efficient power in American-built passenger car engines. You've got a long list of performance-minded transmissions to pick from, too.
- So that, friends, is what you told us you want. We think it can be summed up rather well in just one word: value.
- Get the full story of Chevy's brand of value soon at your Chevrolet dealer's.

## DRUG FACTS

WE FILL PRESCRIPTIONS CAREFULLY AT  
**CITY PHARMACY**  
THAT'S OUR SPECIALTY!

When illness strikes you or a loved one, the medication your Physician prescribes is of the utmost importance. Fortunately, great progress has been made in the field of pharmaceutical research. Modern drugs are highly effective, if given properly . . . They bear no resemblance whatever to the 35-cent prescription of 1939.

However, these drugs must be taken in the proper amounts and the proper dosage and care in their administration must be used. Most all of the newer drugs are very potent and are not safe for self-medication. That is why we have State and Federal laws which limit our sales to prescriptions only, but which were designed only for the protection of the public.

We are proud to be a part of the Pharmaceutical Profession, which is dedicated to the restoration of health and the prolongation of life. We are proud that our business and our store can be called a Pharmacy. We hope you do not require pharmaceutical assistance, but, should the need arise, you may be sure we are prepared to serve you.
