TAX COLLECTION, \$116,145.96 MADE IN BAILEY COUNTY DURING YEAR

Lacks Only \$10,000 Being 100 Per Cent Collection With Eight Months More For Payments

PROPERTY OWNERS OF BAILEY COUNTY STAGE A REMARKABLE COMEBACK UNDER NRA RULE

Collector's Books Show a 55 Per Cent Of Tax Collections Against 27 Per Cent Paid During The Year of 1933.

Property owners of Bailey county staged a wonderful come-back during the past year, according to the tax records of Jim Cook, county tax collector, whose books show that during the fiscal year beginning October 1, 1933 and closing February 1, 1934 there was a total of \$116,145.96 paid in state, county and school taxes in this county, which sum lacked only about \$10,000 of being a 100 per cent collection for a year's assessment, and there are still eight more months in which taxes may be paid during the current year. This represents about a 55 percent payment of current taxes, as against only 27 percent of last year.

State taxes paid up to February 1, this year was \$22,585.43, total taxes was \$26,698.70, while the amount of taxes paid into the treasury of the 13 school districts of the county was \$68,063.34. Automobile tax collected to Feb. 1, totaled \$89.86.

As the fiscal tax-paying year drew to a close there was a tremendous rush at the collector's office to liquidate indebtednesses of this kind, the collector and his clerks being kept on the jump from early morning until late at night during the last week in January.

School taxes received by Collector Cook during January were as follows: 7 districts, \$2,539.20; Goodland, \$3,297.22; Oniew, \$1,857.97; Wilson, \$468.07; Aileyboro, \$1,061.01; Watson, \$739.62; Ia, \$432.57; Muleshoe, \$6,719.20; Wess, \$27.38; West Camp, \$2,979.00; Circleback, \$3,666.29; Fairview, \$3,111; Stegall, \$301.33.

Total taxes paid into these various

Bailey County Poultry Show Real Success

Bailey county's first poultry show held in Muleshoe, Thursday, Friday and Saturday of last week was very successful and attended by a large number of interested spectators.

There were 11 breeds of chickens in the showing, also an entry of capons and one of eggs. Plans are now being considered to make this a permanent organization with annual showings.

Premiums and ribbon awards were as follows:

Rhode Island Reds:
First cockerel, Lloyd Quesenberry.
Second cockerel, Lloyd Quesenberry.
Third cockerel, J. D. White.
First old pen, G. A. Nelson.
Brown Leghorns:
First young pen, J. I. Lawler.
S. C. W. Leghorns:
First, second and third hen, Z. J. Malone.
First and second pullet, Fred Reynolds.
First old pen, G. W. Harris.
First young pen, R. L. Roubinek.
Buff Leghorns:
First, second and third pullet, Fred Reynolds.
First young pen, Cecil Davis.
Buff Orpington:
First cockerel, D. R. Pochel.
First, second and third pullet, D. R. Pochel.
First young pen, Edd Hulse.
Australorps:
First cock, first hen, first young pen, A. J. Scott.
Dark Cornish:
First cock, first and second pullet, first old pen, H. A. Robb.
Capon:
First: J. L. Withrow.
Eggs:
First white, L. M. Day.
First dark, Tom Rodney.
Second dark, J. D. White.
Third dark, Tom Rodney.
Black Giants:
First cock and first cockerel, Robert Rundell.
First hen, J. L. Withrow.

(Continued on last page)

VARIOUS KINDS OF LOANS MAY NOW BE OBTAINED THROUGH THE PRODUCTIVE CREDIT ASS'N

The Muleshoe Productive Credit association is now in possession of all necessary authority to transact business and take applications for loans.

The management invites all who are interested to come in and discuss any matter in connection with applying for a loan. However, they have not received all of the many instructions from the federal authorities at Houston.

There will be an application writer located in each town of the district (Parks and Lamb county), who will be furnished with information and application forms, and the public is to be advised as to the names and location of these application writers. At this time they have appointed the following application writers: Mrs. M. O. Aldridge, Farwell; Mr. Vermilian, Bovina; Wright Williams, Frona; M. G. Miller, Muleshoe; Jay V. McGee, Amberst. Others are to be appointed this week.

Any one wanting information and application drawn may be furnished from the Muleshoe office or come to the local office and have application drawn. For further information in connection with an application or the working of the association may be had through any one

Muleshoe Wins County Honors In Basketball

Muleshoe boys and girls High school basketball teams each won first place in the county tournament begun at Goodland Friday and Saturday of last week and concluded at Muleshoe, Tuesday night. Goodland boys team and Baileyboro girls team won second place.

The tournament was held 'round robin' style, each team of boys and girls being scheduled to play three games. In the girls team playing, Muleshoe first met the Baileyboro team, winning in a score of 34 to 4, then won over the Goodland team in a score of 32 to 21. The third game was forfeited by Bala. Muleshoe boys played Bala, Baileyboro and Goodland teams. The game with Goodland was about half over when the lights went out, persistent efforts to repair the plant being defeated. It was decided to finish the game in the Muleshoe gym, Tuesday night, which resulted in a score of 22 to 5 in favor of Muleshoe. In the finals the Baileyboro boys team was disqualified on an objection time, one of its members had too many high school semesters to his credit, and the team was withdrawn by its coach.

The final game between Goodland and Baileyboro girls was also played here Tuesday night resulting in a score of 13 to 12 favoring Baileyboro. It was a hard fought game throughout, Goodland being one score in the lead at one time while the half stood 6-8 in favor of Baileyboro.

Teams winning first place honors were awarded beautiful trophy cups.

The winners of the Muleshoe county will enter the district meet to be held at Littlefield, March 2 and 3, teams from 16 counties contending for district honors. Date for boys district meet has not yet been set.

George Mahon, Of Colorado City Is Out For Congress

George Mahon, of Colorado, Texas, is a candidate for Congress from the 19th district.

At present he is serving his fourth term as District Attorney of the 32nd district. He will be remembered as the prosecutor of the Parks Wife Drowning case at Sweetwater several months ago.

He is 33 years of age; a resident of Mitchell County; has lived in what is now this Congressional district for 25 years.

Mahon has not yet made any extended statement for publication. He is a vigorous campaigner, and hopes to meet most of the people in a more personal way. In his many public appearances he will meet the people and discuss the national issues.

D. L. Brewer Asks Co. Commissioner's Place In Bailey Co.

D. L. Brewer, of the Circleback community, in this issue of the Journal, makes his formal announcement as a candidate for the office of County Commissioner of Bailey county in Precinct No. 4.

"I announce myself as a candidate for Commissioner in Precinct No. 4, in Bailey county."

"I have lived at Circleback during the past four years. I have invariably stood for what I believe is right."

"I believe in progressiveness, but not in extravagance, and if I am elected I will do everything possible for the good of Bailey county."

—D. L. BREWER.

E. Hall Out For Office Of County Commissioner Pre. 4

In this issue of the Journal, the announcement of his candidacy for County Commissioner, Precinct No. 4, of Bailey county, is made by the action of voters in the coming Democratic

As he is a native Texan, resident of Bailey county, eight years and is a pro in this county, being a vocation, and knowing well the needs of his fellow-citizens in this particular county, he has always been a Democratic ticket and is one of the principal of that political

"Life is an open book," said he, "and the public is invited to it. I have never had a single kind lodged against me, and always prided myself upon my patriotic American

As a county commissioner, I am of caution and good sense. While we are slowly climbing out of the depression, we must, by every means, and in every way, do our best to meet the demands of the county demand attention, at least during these two years. I have been successful in the management of my own business affairs, and I believe I can handle the affairs of this particular precinct as county in general. And I will gladly co-operate with the elected members of the court in all matters appertaining to the general welfare of the

only believe in good roads, at all times do my very best to the roads of my particular precinct in the best possible manner that the funds or their improvement. And I sure my constituents that in the affairs of the county, my particular precinct, there is partiality shown whatever; at all times endeavor to represent the needs of all citizens.

It will be my purpose to make a thorough canvass of the voters during the coming campaign, and I wish to take this opportunity of thanking the citizens in advance for all their favorable votes and consideration of my candidacy, assuring them of my sincere interest in the welfare of this county and of each citizen residing here."—S. E. HALL.

ALSUP-SPARKS

Miss Mozelle Alsop became the bride of Raynes B. Sparks in a simple but very impressive ceremony read by Rev. C. A. Joiner, pastor, Sudan Baptist church, at Sudan last Saturday evening.

The bride was attractively attired in a dress of coral rouge crepe, with white fur trimming, and wearing white accessories. The simple ring ceremony was used in the wedding pledge by the minister who was a former pastor of the bride, being recently of Muleshoe.

Mrs. Sparks is the very accomplished daughter of Mr. and Mrs. J. L. Alsop, this city, and enjoys an especially large circle of friends and acquaintances here whose most hearty good wishes follow the wedding couple to their new home in the southern part of the state.

Mr. Sparks is the son of Dr. and Mrs. I. J. Sparks, former Muleshoe residents, but now residing at Oton. He is a very successful young business man, highly respected both here and in Oton.

Parents of the bride, one of her younger brothers and Mrs. Joiner, wife of the minister to the contracting parties, were the only ones present as the nuptial vows were taken. Immediately following the ceremony, the young couple left for Houston where they will make their future home. Mr. Sparks being associated with his brother there in the furniture business.

"SOUPY" WEATHER LAST WEEK

While rain was prevalent over much of North Texas last week, in the South Plains area the precipitation was scant. Thursday, Friday and Saturday of last week being marked principally by foggy weather, such as is frequently seen in gulf and seacoast areas, and generally spoken of by aviators as being "soupy."

With the misty weather also came a lowering of temperature a few degrees, and night driving became hazardous, especially Saturday night, when waves of fog drifted across highways making visibility very short and uncertain.

Snow coated the Oklahoma Panhandle and there was some rain and light snow reported from North Plains areas.

SHERIFF COOK ASSAULTED

Sheriff Jim Cook has in his possession a broken and battered farm hammer which he is willing to turn over to the owner when he calls for it.

Accompanied by four other men Friday night of last week, Cook was sitting in his car at the Goodland school house, while attending the county basketball tournament, when some unknown party threw the hammer into the car.

One of the front door glasses was broken, the tool hitting Cook a glancing lick on the shoulder but doing no particular damage. Another man in the car was struck by flying glass and his face considerably lacerated.

TOWN TEAM BEATS BAILEYBORO

Following the final games of the County Basketball tournament played Tuesday night, there was a game played between the Muleshoe town team and school team of Baileyboro, local boys winning in a score of 33 to 29.

GEORGE WASHINGTON MASONIC PROGRAMME HELD AT AMARILLO

The two Masonic lodges of Amarillo are to be hosts to the Masons of the Panhandle Thursday, Feb. 22nd, 1934, in a program honoring the memory of George Washington.

A lodge will be opened on the top floor of the Amarillo Masonic temple and the Entered Apprentice as well as Master Mason degrees will be conferred by members of the Panhandle Certificate Men's association.

The meeting will convene at 2:00 p. m., and it is planned to close about 9:30 p. m., so visitors can commence return journey home before it becomes late.

METHODIST MISSION MEET

The Methodist Missionary society met at the home of Mrs. Tom Davis, Monday afternoon, with Mrs. J. C. Weaver, leader. She chose as her subject, "Sisters Wanted," using John 9 as basis for her lesson.

Mrs. Leonard West talked on "Visitors Wanted." Mrs. A. P. Stone discussed the "Mission work," and the topic, "Prayer for Friendship" was ably handled by Mrs. Bill Collins.

A round table discussion by members followed. Mrs. A. W. Copley led in prayer, after which Mrs. S. C. Beavers presided over a short business session.

The auxiliary voted to serve lunch the first Monday in April if said date had not already been spoken for by King's Daughters class.

Next Monday the circle leaders, Mesdames West and Errod will have charge of their respective circles.

The meeting closed with prayer by Mrs. E. C. Raney.—Reporter.

LEGION GETS MET AWARD FOR INCREASED MEMBERSHIP

The American Legion post in Muleshoe is in receipt of a Certificate of Meritorious Service from Geo. E. Hughes, state adjutant, according to Curtis Taylor, adjutant of the local post.

The certificate came as an award of honor for the big membership attained by this post. The required quota was 40; but this number was swelled to 70 this year. In 1932 when the quota was only 25 the membership here totaled 102.

Muleshoe post of Legionnaires has been especially active since its organization, being one of the few Texas organizations that invariably exceeds its membership quota by such large percentages. Prof. W. C. Cox is post commander this year.

JOHNSON OF AUSTIN HEADS STATE RELIEF COMMISSION

Adam S. Johnson, former city manager of Austin, was last Monday named director of employment relief by the Texas Relief commission, succeeding J. F. Reed, Galveston, who has been acting director since the resignation of Col. Lawrence Westbrook who has accepted a federal position at Washington, D. C. Six of the nine members voted for Johnson.

C. R. Braun, who acted under Westbrook, was appointed assistant director. The question of "politics" was hurried backward and forward, and has for sometime been connected in an acquiescent way with the office.

TAKES ON PLYMOUTH AGENCY

Arnold Morris, popular local garage-man, last Tuesday closed contract with distributors for agency as the Muleshoe representative for Chrysler and Plymouth automobiles.

Mrs. Morris expects a shipment of these cars within the next few days.

W. L. Shafer Out For Commissioner Bailey Co. Prec. 4

W. L. Shafer, of the Circleback community, makes announcement in this issue of the Journal for the office of County Commissioner in Precinct No. 4, subject to action of the voters to be expressed at the coming Democratic primaries.

Mr. Shafer states he was born and reared in the State of Texas, and has been a resident of the Circleback community since 1928. He is also a property owner in Bailey county, is vitally interested in its future welfare and willing to give of his time and ability toward the county's benefit.

"I have never before run for office of any kind," said Mr. Shafer, "and at this time not doing so merely because I want a job. I realize full well that being a servant of the people is an exacting task; it is also a very important one, requiring considerable forethought and business judgment in correctly handling the multitudinous matters that come up for consideration of a public officer."

"I am confident of my ability to efficiently and successfully handle the duties of a County Commissioner, and assure the voters of this particular precinct that at all times their interests will be carefully considered; that it will be my chief purpose to represent the precinct as a whole, and not any particular portion of it; to represent the citizenship as a whole and not a particular person."

In all matters appertaining to county generally, I assure the voters that I will act unflinchingly to work in harmony with other members of the Commissioners' Court and for the welfare of the people residing in Bailey county, it being one of my leading ambitions to carefully conserve the taxpayers' money and be extremely cautious in expenditures.

"I am confident there are various matters affecting this particular precinct which need direct representation in behalf of the citizens residing in No. 4, and at all times my fellow-citizens may feel free to consult with me regarding any matters of precinct or county-wide importance.

Good roads, in these modern days are highly important both for passenger and commercial travel. The farmers' cost of hauling to market may be considerably lessened by good roads, and I assure the voters I will use every effort to keep the roads, particularly of this precinct in the very best possible condition.

THE MULESHOE JOURNAL

Entered as second-class matter at the Muleshoe Postoffice under the Act of Congress, March 3, 1879.
JESS MITCHELL, Editor. I. F. MITCHELL, Bus. Mgr.

SUBSCRIPTION RATES
In Bailey County, one year, \$1.50. Outside of County one year, \$2.00.
Published every Thursday at Muleshoe, Texas.
Advertising rates given upon application. Telephone No. 54.

Subscribers who change their addresses, or fail to get their paper, should immediately notify this office, giving both new and old addresses.
Communications of local interest are solicited. The Journal will be briefly written on only one side of the paper, and must reach this office not later than Wednesday morning of each week. The right of revision or rejection is reserved by the publisher.
Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, matters not by whom nor for what purpose, if the object is to raise money by admission fee or otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.
Obituaries, cards of thanks, and resolutions of respect will also be charged for at the same rate.
Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Muleshoe Journal will be gladly corrected upon its being brought to the attention of the publisher.
In case of errors or omissions in local or other advertisements, the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

SEVEN HEALTH RULES

Several Muleshoe citizens who have policies in one of the country's largest life insurance companies are in receipt of a little pamphlet called "Seven Horse Sense Rules." We believe everyone who values health will be interested in it.
The booklet lays down these seven simple rules for keeping in the best of health: 1—Learn to play. 2—Do not eat too much. 3—Take proper exercise. 4—Don't work too hard, either mentally or physically. 5—Don't worry, fuss or lose your temper. The best tonic in the world is optimism and cheerfulness. 6—Seek some healthful amusement that diverts the mind and exercises the muscles. 7—Once a year have the family doctor examine you for health, not for disease.
The last rule may be the most difficult to observe, but it is one of the most important. And don't overlook Rule 5, either. It takes but a few moments to memorize these seven horse-sense rules. Then if you will practice them faithfully you'll do what the life insurance companies want people to do—live to a ripe old age.

THE WEATHER

When all is said and done, the world's favorite topic of conversation is weather. Haven't you noticed that when two strangers are thrown together, and they have occasion to speak to each other, they always start in by commenting on the weather? And can't you recall that the very first thing you say to a friend when

you meet him on the streets of Muleshoe is something about the weather? When you run out of something to talk about, what is it you start up the conversation with? The weather, of course.
So with the weather in mind it is timely to note that regardless of what the balance of winter has in store, this winter has been a Godsend to the American people. Throughout the far West and New England states it has been a bit severe. But in the Middle West, the North and the South there has been nothing to compare with it is mildness for a good many years. The coal men have suffered, wheat farmers have lost considerable, but millions have been saved suffering by reason of its mildness. Those without work have been enabled to keep warm and comfortable, and to take their few remaining pennies, that they would have had to spend for fuel in ordinary winters, and use them for the purchase of food.
There is an old saying that "The Lord tempers the wind to the shorn lamb." That old saying has never been more convincingly proven than in the winter now drawing along toward its end.

KEEPING THE WOLF AWAY

Few have said very much about it and probably many more have never even thought about it, but the garden has played a very prominent part in keeping the wolf away from thousands of family doors during the last two or three years of economic depression.
In many places on leading highways roadside marketing was popular during the warmer months and considerable money obtained in the sale of garden and truck products to be used in making other necessary purchases.

POLITICAL ANNOUNCEMENTS

The Journal is authorized by the following citizens to announce their candidacy for the respective offices under which their names are listed, subject to action of the Democratic primaries:

- For Congress, 19th District
ARTHUR P. DUGGAN
CLARK M. MULLIGAN
GEORGE H. MAHON
- For District Judge, 64th District
CHARLES CLEMENTS, (re-election)
R. C. JOINER
- For District Attorney
CHAS. H. DEAN
- For County Judge and Ex-Officio County Superintendent of Schools
J. E. ADAMS, (re-election)
- For County Attorney
CECIL H. TATE (re-election)
- For Sheriff, Tax Assessor and Collector
JIM COOK (re-election)
- For County and District Clerk
J. B. BURKHEAD, (re-election)
- For County Treasurer
MISS HELEN JONES
- For County Commissioner, Prec. 1
Wm. S. F. MATTHESEN
J. A. (Allan) MCGEE
J. A. WHITE
- For County Commissioner, Prec. No. 2
D. W. DANIELSON (re-election)
JOHN S. WILLIAMS
- For County Commissioner, Prec. No. 3
W. E. REINFROW (re-election)
- For County Commissioner, Prec. No. 4
J. M. (Mack) BELL
W. R. CARTER, (re-election)
J. W. ALFORD
S. E. HALL
D. L. SHAFER
D. L. BREWER
- For Justice of the Peace, Precinct No. 1
J. F. VAUGHAN (re-election)
- For Constable Precinct 4
J. F. STRICKLAND, (re-election)

In Bailey County there have been thousands of cans of "garden sass" and meat stored away in pantries and cellars which have been life-savers for hundreds of families. It is not pleasant to contemplate what might have been the fate of numerous families in this section but for the fact of a little windmill irrigated garden which provided the substance for a canning campaign which has successfully combated the ravages of the "big, bad wolf" during these wintry months.
Right now is a good time to begin planning for the home garden in what it means plenty of back-breaking labor, but it pays big dividends that

can not be overlooked. Those who had no gardens last year should take up this beneficial exercise this year, and many who did have will doubtless be increasing its size and the variety of vegetables grown in it. At any rate, let's start the planting right now.

Considerable agitation is now going on about the voting qualifications of persons who have been on the relief rolls of the poll tax prerequisite to voting, and we think still less of it now. There are plenty of citizens in Bailey county otherwise well qualified to vote and it is no fault of their own that they did not have the necessary funds to procure a poll tax receipt. Surely, some relief to such a situation should be given by the legislature now in special session.

Following the West Texas meeting of young Democrats held at Lubbock last week, practically all the counties in the State are now organizing county clubs of these young voters. However, nothing has been done in Bailey County. Has this county turned Republican or does it need to elect a different committee—one that will be "up on its toes" in interest of the party?

We are now beginning to believe that some truths are self-evident, particularly that one about all men being created equal and endowed by their creator with certain inalienable rights, among which are life, liberty and the right to pursue the office of Governor. We are now wondering who is going to announce from Bailey county.

Along with the other elections to be held this year it must not be overlooked the importance of selecting a competent personnel to compose the City Commission for Muleshoe for the coming two years, either in re-election of the present members or choosing from the best of the town has for the coming administration.

As one accredited and experienced poultry judge said: "It's been years since I saw a finer display of birds at a poultry show." Muleshoe and Bailey county citizens should be proud of the first poultry show held in this county, and it should become a strong incentive for another one bigger and better next year.

Nearly every Muleshoe citizen will be glad when the waterworks extension is completed in Muleshoe. There were about 100,000 gallons of water in the city, and it will be a relief when this jeopardy is removed.

While many other counties are falling down in their cotton acreage reduction, it looks now like Bailey county will have about a 65 percent sign up in what it was last year. Here is a bunch of patriotic citizens of which any county may well be proud.

Much praise is due Al Isaacs, Ty Young and George Harris who took the lead in making Bailey county's first poultry show a success. They put it over in a big way. Now for a bigger and better one next year!

Bailey county had by far the largest number of any of the county delegations present at the cotton control meeting held in Lubbock last Friday. Such a spirit of interest and co-operation is entirely commendable.

After all, the primary law for candidates for office in Texas may not be so bad. All of our politicians should be required to go to school as far as the primary class before announcing.

Jaunty Journalettes

As the average Muleshoe man sees it, what the world really needs is a razor that will give a fellow a shave that will actually last.
Granting that the world does owe the average Muleshoe man a living, just how is it going to pay that debt when it is flat broke.

There is such a thing as a Muleshoe citizen being so broad-minded that he will swallow anything that comes along.

As a rule, the Muleshoe man who doesn't make up his own mind has a wife who makes it up for him.

One thing that made Old Dobbin so popular with the average Muleshoe citizen so long was the simple fact that nobody was always fussing around because he wasn't streamlined properly.

The average Muleshoe woman shopper needs only about 15 minutes to select a dress, but sometimes it takes friend hubby several weeks to get it paid for.

Old-fashioned Muleshoe parents used to worry about how their children would turn out; but modern parents are now spending more time wondering what time they are going to turn in.

They say American smokers use a billion matches a day, and yet every once in a while we run into a Muleshoe smoker who hasn't a single match.

Wall Street is said to be worrying about a "Paper money flood," yet we know a passel of Muleshoe citizens who wouldn't worry a bit if they were caught in one.

One thing that put a lot of Muleshoe citizens where they are today was

permitting the children to say, "Charge it to Dad."

Coffee has been in use in America for more than 300 years, yet it's our continual observation that some Muleshoe restaurant cooks don't yet know how to make it properly.

Pavement Pickups

A prominent Muleshoe citizen, whose name shall remain silent for safety first's sake, went to the Masonic lodge the other night, promising his wife he would be back home before midnight; but he was delayed in some unexplainable (?) manner and didn't get in until about three a. m. Unfortunately he left the door key at home and had to call friend wife to let him in. She asked him what time it was, and he replied "12 o'clock." But while going on back into the kitchen to get a drink the clock struck three, and she began to bawl him out. "Well," replied the fated husband, "if you want to take the word of one of those damned old-fashioned drug store clocks instead of that of your husband, it's alright." The next day he was seen returning the clock to the dealer.

A farmer dropped into Skeet's barber shop the other day to get his head and hair washed. Skeet worked up a terrific lather on his skull, and the young man asked him what that stuff was. "Shampoo," replied Skeet. "Well," replied the customer if that's 'sham poo' I wonder what real 'poo' looks like."

County Commissioner Carter is smoking a new pipe. Some one in the court house asked him last week what kind of pipe he preferred. "Any given kind," the commissioner replied.

Lloyd Quisenberry who won so many R. I. Red prizes at the chicken show last week, declares if he had just taken his birds to the beauty parlor first and had their feathers curled he would have darned near won a sweepstake.

Jess Murrah says if Roosevelt would reduce the sand content of these West Texas windstorms about 41 per cent, he'd get the gold content of the dollar, folks out here would appreciate it more.

Judge Vaughn says that the State of Matrimony is the only one outside of Texas that has a female governor.

Wm. Pool says the fact there are germs on money don't worry him a bit. He never can keep the money long enough for the germs to hop off of it onto him.

A Bailey county citizen whose name we don't dare call because he is a candidate for office, suggested the other day that youngsters under 21 years of age should be permitted to vote because most young folks now in their teens had as much sense as some adults have at 40 or 45 years of age. But he said further, if we go to putting the age minimum down to where it will be low enough to catch the bottom voter we would soon have youngsters coming to the polls in campers and baby carriages, and then some of them wouldn't vote unless the judges set up a Christmas tree hung full of toys and presents for the franchise holders.

Neil Rockey, local Ford dealer, got up against a real proposition the other day. A man came in and said to Neil "Did you tell me when I bought that car from you that you would replace anything that broke or

was missing." "Sure thing, I did," replied the auto dealer. "Well I want four teeth, a part of and ear and a three-cornered piece of skin about two inches in size."

With the soon arrival of spring and the reestablishing of nudist colonies, skin games will probably increase, says Al Isaacs, local dramatic humorist.

STRAYED: One hammer having broken claw and battered face found coming through my automobile window. Owner may have same by identifying any paying for this ad.—Jim Cook sheriff.

Pays to Pipe Down
Men who have had to deal with native races in tropical countries know that the white man who is most respected is the one who never releases his voice nor loses his temper.

Double-Quick Relief

GENUINE BAYER ASPIRIN

BECAUSE of a unique process in manufacture, Genuine Bayer Aspirin Tablets are made to disintegrate—or dissolve—INSTANTLY you take them. Thus they start to work instantly. Start "taking hold" of even a severe headache, neuralgia, neuritis or rheumatic pain a few minutes after taking. And they provide SAFE relief for Genuine BAYER ASPIRIN does not harm the heart. So if you want QUICK and SAFE relief see if you get the real Bayer article. 1 for the Bayer cross on every 1/4 as shown above and for the GENUINE BAYER ASPIRIN every bottle or package you buy. You have to equal the gasoline if you want to equal the speed! Conoco Bronze Gasoline has definitely superior qualities that can only be duplicated by another tankful. Conoco Bronze Gasoline is a blend of three types of gasoline in a new formula that has created its leadership. Instant starting, lightning pick-up, extra mileage, great power, smooth operation and greater anti-knock—these are Conoco and at no premium price.

Get a free Tony Sarg book of these eighteen advertisements. Go to any Conoco station or dealer, who will give you a postpaid, addressed postcard. You will receive this large book of entertaining advertising illustrations by mail.

CONOCO BRONZE GASOLINE
INSTANT STARTING—LIGHTNING PICK-UP—HIGH TEST

THE KEROSENE LAMP.

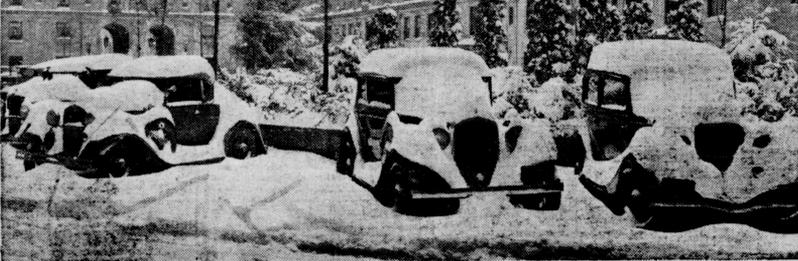

—served the purpose of illumination until the electric light replaced it. A wise, a broom, a washboard, and an iron, may serve for cleaning, was, and ironing in the home . . . after a 1 ion.

Electrical home aids are far superior to the outdated devices still in many homes, as the electric light better than the kerosene makeshift.

There is no better time than now place your home on an efficient up date basis—with the latest electrical methods of saving time, labor, and money.

Texas Utilities C YOUR ELECTRIC SERVANT

"I BET MY CAR STARTS.
The tank's full of High Test Phillips 66"

"HIGHEST TEST" AND anti-knock
at the price of ordinary gasoline

WHEN your car is covered with snow after standing out all night in the cold... will the motor start promptly at the touch of the starter? It will!—if the tank is filled with Phillips 66. This greater gasoline is genuine high Super-volatile. Packed with quick-acting elements which snap into action pronto. Does this sound familiar? Have you seen claims like these before? Then glance below and see something you won't find in other ads—scientific figures which tell you exactly how high the test of Phillips 66 is. We print our gravity range in plain figures, without fear of comparison, because Phillips is the world's largest producer of natural high gravity gasoline. Obviously, we can afford to offer extra high test

gasoline without charging a penny extra. Every gallon of Phillips 66, therefore, gives you greater value... marvelously fast starting... quicker warm-up... more pep and power... more miles per gallon. Besides, this finer performance is always consistent because it is protected against changes in weather by CONTROLLED VOLATILITY. Phillips pioneered this basic principle which matches the gasoline to your weather. If you haven't yet tried it, get a tankful of this high test, high anti-knock motor fuel; and treat your car (and incidentally your pocketbook) to the quickest winter starting and smoothest bunch of miles you've ever had. Get just one trial tankful and feel that difference in your motor. Look for the Orange and Black 66 shield and **Phill-up with Phillips** when you see it.

GRAVITY 65° TO 69.5°
Insures INSTANT STARTING Plus MORE MILEAGE

MRS. SMITH BIRTHDAY PARTY

After Sunday school last Sunday, a group of Progress friends gathered at the home of Mrs. L. Smith, going from there to the home of Mrs. L. Smith in Farwell, each person carrying a dish for the birthday anniversary surprise dinner. Mrs. M. Smith was 81 years of age and Miss Jessie James

age February 5. Mrs. T. L. Smith, Miss Murrah also received birthday gifts since their anniversaries came during the same week. A delicious dinner was served picnic style, the young folks of the party later going to the court house to take pictures. About 5:30 p. m. after wishing Mrs. Smith many more happy birthdays, everyone departed for their respective homes.—Reporter.

So. Plains Counties Protest 10 Yr. Basis Gov. Cotton Control

Realizing the federal government's decidedly favorable attitude toward establishing a compulsory cotton reduction plan, probably in passing the Bankhead bill by Congress, a meeting was called for in Lubbock Friday of last week and attended by representatives from 27 different counties of the South Plains area.

A. B. Davis, manager of the Lubbock chamber of commerce, was in charge of the meeting, explaining its purpose, and addresses of detailed nature were made by Harry Blocker, F. R. Firend and others, following which there was a general discussion of the Bankhead bill and other proposed cotton legislation.

Clearly those present were not in favor of the 10 year yield average to be set as a basis of cotton reduction, since such measure was entirely unfavorable to South Plains cotton producing counties. It was pointed out that because of the population growth, development and increased acreage planted to cotton in these counties a 10 year average production was unfair and unequitable, Harry Blocker, Lubbock, producing considerable data confirming this contention.

That the matter might be brought before the body for definite action Jess Mitchell introduced a motion to the effect that a committee be appointed to draft resolutions regarding a more equitable basis average and that same be telegraphed to President Roosevelt, Texas senators and representatives in Washington and to the manager of the Cotton Control administration, also, if deemed necessary that one or more representatives be sent to Washington to look after the interests of this area.

It was voted that a three year basis was more equitable and favorable of South Plains counties, and P. C. Ralls, of Ralls, Harry Blocker, of Lubbock, and Jess Mitchell, of Muleshoe as chairman, were chosen to popularize the measure by a committee to go to Washington.

Following the meeting, Mitchell, contacted Congressman Marvin Jones in Washington, D. C., over long distance telephone, explaining to Mr. Jones the action of these representatives. Jones stated he was not in favor of the 10 year average production as any basis for congressional action, had already

advised his fellow congressmen in that respect and was of the opinion that a more equitable basis not so penalizing to South Plains counties would be accepted before any bill was passed. This committee sent by air mail considerable data on the cotton situation, as it affects these South Plains counties but, upon suggestions of Mr. Jones, has deferred making the trip to Washington at this time. Mr. Jones, over the phone, expressed his great appreciation of the action of his constituents in this district and stated if the presence of this committee became necessary he would immediately telegraph for them to come to Washington.

Bailey county had the largest representation at this meeting of any of the cotton growing counties of this area, those present from this county being Judge J. E. Adams, J. B. Waide Jr., Jess Osborn, J. F. Strickland, C. Dotson, R. L. Brown, Cecil H. Tate, Pat R. Bobo, John S. Williams, Sam Lawrence, M. G. Miller, C. P. McCullough, A. W. Copley, and Jess Mitchell.

MULESHOE MAY HAVE TO VOTE BONDS FOR WATER EXTENSION

Following a state Supreme court decision last week to effect that a city could not authorize the issuance of bonds as a lien on a public utility without a vote of the people, citizens are now wondering if an election will have to be called here before work of extending and adding to the local water work system can be started.

The matter has been taken up with R. A. Thompson, state PWA engineer. Heretofore, the city commission has had power to issue such bonds, but if an election must be called the matter will be delayed at least 30 days for advertising such election. Engineer H. N. Roberts expects to have plans and specifications ready within the coming week.

VACCINATE AGAINST DIPHTHERIA

Dr. A. R. Matthews, local county health officer, has been doing considerable vaccination of school children against diphtheria during the past week, administering to them the "toxoid" single inoculation. About 200 children have been immunized against this disease of which a few cases are reported throughout the county.

Last week pupils of Goodland, Wilson and Watson schools were given the treatment, and Monday pupils of Baileyboro school were inoculated. The doctor trusts that all children should have this protection.

Governor Signs Bill Extending License Date

Owners of motor vehicles in Texas were given until March 31 to pay their 1934 registration fees when Governor Miriam A. Ferguson last Saturday signed a bill, which became law immediately, fixing that date as the permanent deadline for such remittances without penalty.

The bill has been approved by a two-thirds majority vote in each house, thus making it effective when signed. Under the statute that the new law replaces those who did not pay each year before midnight of February 1 were subjected to a penalty of 20 per cent of the amount of the registration fee if they operated their vehicles upon the highways.

The new law provided that those who had been obliged to pay a penalty this year since February 1 must be refunded. There will be 12 refunds made in Bailey county.

Vic. C. Nelson Is Buried In Kansas After Sudan Funeral

Funeral service for Vic C. Nelson, prominent Sudan citizen and well known in Muleshoe, were held Friday afternoon in Sudan, following which remains were sent to Burlingame, Kansas, his former home, for burial.

Nelson came to Sudan, in Lamb county, in 1923. Formerly he was a dentist by profession, but after coming to this section he engaged largely in land business, later becoming one of the organizers of the First National Bank, Sudan, and was president of that institution when he died. He was Sudan's first mayor, had charge of CWA relief work in Lamb county, and was considered one of the leading citizens of the county, at one time being nominated for congress in this district to oppose Hon. Marvin Jones.

Nelson had been ill about a month with some form of gall bladder trouble, spending about two weeks here in the home of his business associate, R. B. Canfield, and, improving somewhat, was removed to a Lubbock sanitarium. Less than a week previous to his death he was considerably improved and doctors expressed their opinion of his rapid and ultimate recovery. However, the first of last week he suddenly was taken worse and death followed in a few days.

Deceased is survived by his brother, Hayden Nelson, Memphis, Tenn., and a sister, Mrs. Fred Berry, Daytona, Fla., both of whom were present to attend the last obsequies.

Location of Lapland

Lapland is not a separate political entity, but it is a region embracing about 150,000 square miles in north-west Europe, lying partly in Norway, Sweden and Soviet Russia.

THOSE UGLY SPOTS!

Don't despair. They can be removed from the most delicate of garments. Don't try it yourself, though. You'll probably not only make it worse—you'll ruin the garment.

We know from experience exactly what is needed to remove spots and stains from the most delicate of fabrics—and how to clean and press them to look as good as new.

RED'S CLEANING SYSTEM
T. L. GLASSCOCK, Proprietor

Science says Today use a LIQUID Laxative
If you want to GET RID of Constipation worries—

The unwise use of harsh laxatives may drain the system, weaken the bowel muscles, and in some cases even affect the liver and kidneys. A doctor will tell you that the wrong choice of laxatives often does more harm than good.

Fortunately, the public is fast returning to the use of laxatives in liquid form. A properly prepared liquid laxative brings a perfect movement. There is no discomfort at the time and no weakness after. You don't have to take "a double dose" a day or two later.

In buying any laxative, always read the label. Not the claims, but the contents. If it contains one doubtful drug, don't take it. Dr. Caldwell's Syrup Pepsin is a prescriptional preparation in which there are no mineral drugs. Its ingredients are on the label. By using it, you avoid danger of bowel strain.

You can keep the bowels regular, and comfortable.

The liquid test: This test has proved to many men and women that their trouble was not "weak bowels," but strong cathartics:

First: select a good liquid laxative. Second: take the dose you find is suited to your system. Third: gradually reduce the dose until bowels are moving regularly without any need of stimulation.

Dr. Caldwell's Syrup Pepsin has the highest standing among liquid laxatives, and it is the one generally used. It contains senna, a natural laxative which is perfectly safe for the youngest child. Your druggist has Dr. Caldwell's Syrup Pepsin.

Fred Brown

(The Grocer)

Says...

"The Same Principles Apply to Both Groceries and Gas!"

FRED BROWN, the grocer, heard the other day that the average family spends 10 times as much for groceries as for gas. It brought to his mind another comparison—that both businesses must operate on the same fundamental principles. In selling a dozen oranges, Fred's retail price covers their cost, his expenses in handling them and a small profit. If his customers demanded oranges at a price which thought he should pay, the grocer often would lose money, because many would not appreciate all the costs involved in selling oranges, or other food items. As it is, people buy oranges on their value to the customer and both buyer and seller benefit. Fred favors gas rates being controlled by law, but believes all factors of expense to the Gas Company should be considered in arriving at these rates, and some thought should be given to the value of gas.

The Browns are typical of families in your neighborhood who operate their own businesses. They are familiar with the many costs involved in selling the products in which they are interested, and appreciate the fact that their customers buy goods for their value rather than on price alone.

Considering the value of gas, the small place it holds in the family budget, and the fact that good service depends upon sound business principles—you will appreciate gas for the bargain it is.

GOOD GAS WITH DEPENDABLE SERVICE

General News Over Texas And Adjoining States For The Week

Texas has an industrial payroll of \$146,000,000.

There are 15 citizens at Happy seeking the postmaster appointment there.

Texas has a law requiring all children having the measles to be kept out of school for at least 21 days.

Cotton reached a new high point in Texas last Monday when it sold over the state at 12 cents per pound.

An Edinburg farmer has a 200-acre field of English peas planted to provide seed for an Idaho firm.

J. W. Anglin's Wheeler owns a clock, originally costing \$25, which has been in use the past 40 years and has never needed repairs.

There is a total of 2,297 students enrolled at Tech college, Lubbock, including 341 new entrants this last semester.

Texas Tech college has applied for \$5,000,000. Civil Works administration funds to assist students to remain in that college.

The federal government has spent \$37,000,000 in relief funds in Texas during the past 15 months, according to Jack Reed, state director of relief.

The 1933 cotton crop was the most valuable the South has had since 1929 when the staple sold for an average of 16.8 cents per pound.

Texas' gross farm income for the month of last year up to November 30, is estimated at \$355,427,770 a gain of 44 per cent over 1932.

Because it has been operating at a loss, the First State Bank of Pluvanna, in Sevier county is closing out business, depositors being asked to call for their accounts.

Dr. Oren L. Ratley, 81, former president of Wayland college, Plainview, and more recently secretary of the Southern Baptist convention, died last Saturday, following a six weeks illness.

Texas ranks fifth among the states in number of dairies, but only fifteenth in production of creamery butter, ninth in cheese production and twelfth in ice cream manufacture.

The first grape juice bottling works in Texas has been established at Newcastle, drawing its products mostly from the vineyards of the Brazos valley in Young county.

The making of iodine from oil well brine is an industrial potentiality of real value in Texas, methods having recently been perfected for this purpose.

A gas processing plant, to cost \$150,000 and having a capacity for handling 10,000,000 cubic feet of gas daily, is under construction near Crowell, Foard county.

Following a unanimous decision of the U. S. Supreme court, all persons charged with violating the federal prohibition law and not yet tried on such charges, or who have been convicted and appealed decision, will go free.

Discovery of a new type of Texas pink grapefruit, so distinctive from other varieties that the United States patent office has granted a patent on it under the name of "Ruby" grapefruit, has been announced.

The total cotton income of Texas farmers for 1933 was \$239,123,402, exclusive of cotton seed and was at least \$100,000,000 larger than it otherwise would have been without the plow up campaign.

Smith county, in Texas, is the champion blackberry producing county of the entire United States, having 2,550 acres devoted to producing blackberries and dew berries, last year producing 1,825,950 quarts of this fruit.

In a test case last week Texas' new gasoline tax enforcement law, which has been recovering millions in hither-to stolen state revenues since its enactment last March, was upheld as to its constitutionality by the Court of Civil Appeals.

There were more eagles in the Plains country this fall and early winter than ever before known, according to authorities, who say it was because of the warm weather prevailing. Eagles, like hawks, migrate with the seasons.

Cattlemen, sheep raisers and farmers of Midland, Ector, Martin and Andrews counties have pooled their efforts to rid their communities of hitherto and 50,000 poisoned bats will be put out under direction of E. B. Ligon, of the U. S. Biological survey.

Prof. W. L. Stengel, head of the animal husbandry department, Tech college, has been appointed judge of Hereford steers and superintendent of the swine department and the boys and girls' pig show to be held at the Southwestern Exposition and Fat Stock show in Fort Worth, March 10, 17.

Shortly after Sheriff Lee Boyd took office at Palestine, he advised bootleggers to quit business to avoid grand jury indictments, promising no bills for still operators who agreed to quit.

Within three days after his announcement five whisky-making plants were delivered to the sheriff.

Tully C. Garner, son of Vice-President John C. Garner, has been named president of the Production Credit Corporation by Albert C. Williams, Texas agent of the Federal Farm Credit administration. He had been acting in this capacity for several weeks.

Candidate for Congress

Vernon Tate Killed At Clovis, Three Are Held In Connection

Orim tragedy echoing a feud of long standing broke forth anew in Clovis, N. M., last Monday, and guns blazed again leaving in the wake of their sulphurous smoke one dead, Vernon Tate who, January 18, 1930 shot and killed G. C. Bohanan and his son Carl, 19, within 90 feet of the Monday tragedy.

Commenting on the tragedy, the Clovis News-Journal said:

"Tate virtually died with bullets in the hands of Carsey, Bee, and Louis Bohanan, sons of G. C. Bohanan, was killed as he vainly sought to escape fire from two directions as he dodged behind a car parked at the south side of the Citizens Bank.

"Crumping up under the first fusillade of shots as he stood in the gutter beside a car, Tate fell and after he had gone down one of the Bohanans is alleged to have stepped closer and to have pumped several shots into his body.

"Near Tate's body was found, his 38 calibre Smith & Wesson special revolver with two empty shells in its cylinder.

"With no one close to give an adequate account of what took place, one witness said that Tate had just parked his car at the curb on the south side of the bank, had gotten out and reached the curb when from points unknown the Bohanans appeared, one of whom, his gun gripped in both hands, fired several times point-blank at Tate.

"Tate backed away. At the same instant another of the Bohanans is alleged to have approached from the rear of the car and to have opened fire from that direction. Tate crumpled and fell in the gutter. It was then according to meagre reports, that one of the Bohanans stepped closer and pumped several shots from an automatic at the prostrate figure.

"As spectators began to rush toward the scene, Carsey and Bee Bohanan ran into the Citizens Bank where they took refuge in the vault, the same spot where Tate took refuge immediately following the tragedy of four years ago. Louis ran to the office of Drs. A. L. and F. A. Dillon where he remained until Deputy Sheriff A. J. Bell took him to the court house.

"Louis, when taken into custody had in his possession a 380 automatic pistol out of which all shots had been fired. His rifle had four unfired shells in the magazine. The type of arms carried by Carsey and Bee had not been ascertained at 3 o'clock.

Fortunately, no one was within several feet of the scene of the tragedy while the shooting was taking place, and no bystander was injured. One or two cars in the immediate vicinity of the tragedy were perforated by bullets.

"At 3:10 o'clock officers removed Carsey and Bee Bohanan from the bank vault where they had taken refuge and took them to the county court house."

The killing is said to be the offspring of a school fuss in 1930 when the father and another son were killed. Tate was acquitted of that killing.

RED CROSS FUNDS ARE LOW

Occasioned by the depletion of funds, it is stated by Mrs. A. P. Stone and Mrs. J. C. Weaver, in charge of Bailey county Red Cross affairs, that in the future no Red Cross funds will be available for those who are receiving direct aid or labor through the county CWA organization.

This action, it is stated, is also in keeping with a recent official ruling from Washington, D. C.

Empty stomachs are dangerous things.

CITATION BY PUBLICATION

THE STATE OF TEXAS.

To the Sheriff or any Constable of Bailey County—GREETING: YOU ARE HEREBY COMMANDED: That you summon by making Publication of this Citation in some newspaper published in the County of Bailey if there be a newspaper published therein, but not then in the nearest County where a newspaper is published, one in each week for four consecutive weeks previous to the return day hereof, of D. L. Hammer, M. C. Parrish, D. C. Reed, Capital Investment Company, Troup State Bank, Cleburne State Bank, Reuben Usher and Hutton Oil Corporation, whose residence is unknown, to be and appear before the Hon. District Court, at the next regular term thereof, to be holden in the County of Iron on the second Monday in March, 1934, same being the 12th day of March, 1934, at the Court House thereof in Sherwood, Texas, then and there to answer a petition filed in said Court, on the 5th day of February, A. D. 1934, in a suit numbered on the docket of said Court No. 491, wherein Iron County, a municipal corporation acting by and thru its County Judge, R. J. Atkinson, and its Commissioners Court as follows: Adolph Helmer, Comr. Prec. No. 1; Harry Lindley, Comr. Prec. No. 2; D. I. Taylor, Comr. Prec. No. 3, and Tom Auld, Comr. Prec. No. 4, is plaintiff and D. L. Hammer, M. C. Parrish, D. C. Reed, Capital Investment Company, Troup State Bank, Cleburne State Bank, Reuben Usher and Hutton Oil Corporation, are defendants. The nature of the plaintiff's demand being as follows, to-wit:

To recover judgment against all Defendants in the sum of \$40,184.00, with interest thereon at the rate of six per cent per annum from date until paid, and against all Defendants except Defendant Hammer and Hutton Oil Corporation for an additional sum of \$2486.29 with interest thereon at the rate of six per cent per annum from May 21, 1932, the first interest being the amount of principal and interest, and Attorney's fees due upon four notes dated February 17, 1936, each for the principal sum of \$8350.50 described in a deed from Iron County to D. L. Hammer recorded in Vol. 6 at Page 189, Deed Records of Bailey County, Texas, the last amount being the amount of a judgment recorded in Cause No. 193, in the District Court of Bailey County, Texas, entitled BAILLY COUNTY, INDEPENDENT SCHOOL DISTRICT VS. D. C. REED ET AL, said judgment having been paid by Plaintiff.

Plaintiff further seeks foreclosure of a vendor's lien against all Defendants upon the following described property

situated in Bailey County, Texas, being 4428 acres of land, more or less, known as League No. 167 of Iron County School Land, for all costs of suit, and for general and special relief. HEREBY FAIL NOT. And have you with your endorsement thereon, showing how you have executed the same. Given under my hand and seal of said Court, at office in Sherwood, Texas, this 5th day of February, A. D. 1934.
HETTIE, WHITAKER, Clerk District Court, Iron County, Texas.

Senior News

The Seniors have selected the play "Blowing Bubbles," for the class play. It will be presented about the last of March. The play has been carefully selected in order to please as nearly everyone as possible.

The class has chosen to wear caps and gowns for graduation, rather than dresses and suits. The new style caps and gowns of Oxford grey color were chosen.

Several Seniors, among them, Virginia Ruth Robertson, R. B. McHorse, A. L. Swanson, and Beulah Burton are out of school on account of measles and other sickness. Other Seniors are hoping they will all be back soon.

The county basketball tournament is over, and of course, Muleshoe made it known that they were there. Muleshoe girls came rolling out on top with the first place trophy. It looked for a while like the girls were going to "outkick" the Baileyboro girls, until the last quarter when the Baileyboro girls ran up a score of 4 points to Muleshoe's 34 points.

The Goodland game wasn't quite so easy. At the end of the half the score was 20 and 12 in Muleshoe's favor. During the third quarter the Goodland girls sneaked up to three points behind the Muleshoe girls. Nevertheless, the Muleshoe girls came out on top with a score of 32 to 21.

Bula girls forfeited their game to Muleshoe.

The boys also played some very interesting games. The Muleshoe boys came out of a hard fought game with the Bula boys with the largest score, besides some scratches and bumps. Two of the boys were knocked out in this game, which is quite unusual in basketball.

The boys also played a hard and also rough game with the Baileyboro boys. Although it was a rough game, it was one of the best games of the entire tournament. There was better sportsmanship shown in that game on both sides than in any other during the tournament. Baileyboro came out of this game ahead which would have given them county championship for this year had the team not withdrawn later.

The Muleshoe and Goodland boys started a game which was to determine the winner of second place. The Muleshoe boys were playing a grand game and had the score up to 11 and 2 in their favor when the lights went out. It was ten seconds until the half. Different ones worked on the light plant but it seemed that the defect could not be located. The large crowd which had come in hopes of seeing a good game, stumbled around in the dim light of about two or three gasolene lamps until about twelve o'clock. They finally decided to go home and come to Muleshoe grammarian Tuesday night to finish that game and also to play the game off between the Goodland and Baileyboro girls to determine second place. The boys game is to start at the half with the score 11 and 2 in Muleshoe's favor. In the playing Tuesday night the Muleshoe boys were awarded first place also. Baileyboro boys team withdrawing under protest, claiming one of its players was ineligible. However, there is a strong opinion that Baileyboro might have won first place without this questioned player.

Goodland boys and Baileyboro girls won second places.

Junior News

Some of the Juniors have been suffering sorely from the trials of the Detention hall. This seems to be a subject uppermost in the student's minds, for some of the editorial and news stories which have been written for English class were on this subject. One of the themes even decided there was some good in it, in that it breaks such bad habits as chewing gum and being tardy, and makes one study harder. After all, good does come out of evil sometimes.

The Juniors and members from some of the other classes are still working on their play "The Arrival of Kitty." They have not yet decided on the date, which will be announced later.

One of the editorials for English IV was as follows:

"The Business in Which There Should Be No Failure," by Bessie Collins.

"There is one business in which there should be no failure. It is the business of life. In this business there are no engaged more people than in any other. One reason for failure, is that few are properly equipped; other reasons are lack of good judgement and ignorance.

Success in the business of life is judged differently from that of other businesses. Business is judged by the acquisition of wealth while the business of life is judged by the Golden Rule. The Golden Rule furnishes information as to morality, mentality and spirituality. Failure awaits one who is not equally equipped with the right amount of these things. Success must be gained honestly for the Great Judge of all who shall judge the people of this world as to whether they have failed in life's business or not is not deceived by false traps, money and lies. He judges by the amount of honesty, truthfulness, good work to fellowman,

effort, earnestness and trust in Him with which one fills his life.

If one wishes really to gain success in the business of life he may measure his life by the Golden Rule and see that his works accord with it throughout.

The Sophomore class missed getting their news in last week. We had a reason, as one of our teachers has been keeping company with an insurance man which has had everyone torn up. Claud Willemson went to Plainview Sunday. If anyone will find out why he went and tell our reporter we will print the reason next week.

Ersson seems to have his mind on the basketball tournament to be held in the Goodland gym. Friday and Saturday. We all have high hopes of winning, but we need some roofers.

The Sophomores are starting a record as a Soph., was the first to get a spanking after new rules were made. That is at least something that seems to be the only kind of record we can get.

Several were absent from school this week due to illness. We hope to see their bright faces again soon.

Mr. Stevens explained to his history class the other day that for years the two sexes had raced for supremacy, but now they had settled down to neck and neck.

The lesson was in geometry, and Sybille of the Junior class, was sent to the blackboard to draw a horizontal line. She promptly drew a horse and a line.

The Freshman Class by W. C. Morgan are working very hard this week and intend to continue their good work. One reason for this earnest work is to continue the high averages which the Freshmen have already attained thru real interest in their school work.

The Freshmen are very proud of some of the students, especially Irma Willis, Zoe McReynolds and Margaret Ann Good. Irma Willis has a term average of A or A- on every subject. There is only one B plus on her entire card. This was the highest average on any report card in all Muleshoe High school for last semester.

The Junior boys and girls of this place played the Longview boys and girls in games of playground ball Friday, Feb. 9, at Longview. The scores of the boys' game were 19-0 in favor of Muleshoe, and the Muleshoe girls won 19-3.

MISS MOZELLE ALSUP HONORED BY A PRESENTIAL SHOWER

Climaxing a courtship of about two years duration, a very pretty pre-nuptial shower was given last Friday evening, from five to seven o'clock, at the home of Mrs. Arnold Morris, by Miss Opal Morris, to Miss Mozelle Alsup who, the following evening, became the bride of Raynes B. Sparks.

In keeping with the approaching valentine season, the rooms of that attractive home were decorated in a color scheme of red and white. On the dining table at each end of the festal board stood two miniature brides in heard steeple hats and were bowls of sweet peas draped with smilax. Red and white candles contributed to the illumination effect.

In the diningroom the walls were spotted with a number of blood red hearts, white strings leading away from them to a large number of gifts cached in various hidden places in the room. The bride-to-be was given a small Cupid bow and arrow, and called upon by the hostess to pierce each heart before being permitted to follow the lead to the various places of mystery where lay hidden some token of love and friendship from invited guests she being the recipient of a large number of beautiful gifts.

Mrs. L. H. Hobby, Clovis, N. M., presided at the serving table, refreshments being red and white sandwiches, angel food cake topped with red frosting, red and white mints, while tea was also served with red and white sugar squares.

Those present to enjoy this delightful occasion and to contribute their choice gifts and best wishes of future happiness were: Miss Alsup, the honoree, Mrs. J. L. Alsup, her mother, Mrs. A. L. Keyes, Mrs. Pat Bobo, Mrs. Julian Lenau, Mrs. Faye Smith, Mrs. J. E. Mann, Mrs. S. E. Morris, Mrs. David Anderson, Mrs. S. E. Morris, Jr., Mrs. Arnold Morris, Misses Mildred Davis, Ruth Mitchell, Irene Charles, Beth Mardis, Iris Harnden, Opal Hanes, Retta Mae Arnold, Reva Mae Williams, and the hostess, Miss Opal Morris.

EXCELSIOR LEAGUE PARTY

Last Friday evening the Excelsior League members were entertained at the home of Mrs. Nina Elrod.

Many enjoyable Valentine games were played.

At about the hour of ten p. m., refreshments of hot chocolate and cake were served to the following: Ethel Claire Raney, Edw. Douglas, Evelyn Jennings, Florence Stone, Norma Elrod, Roy Elrod, Carl Elrod, L. E. Arnold, Houston Hart, Lamar Witte, Spencer Beavers, Rev. and Mrs. E. C. Raney, Mrs. Fay Elrod and Elizabeth Harada.

Because of superior instinct women's first thoughts are best; men's are not.

METHODIST CHURCH Sunday school 9:45 a. m. Preaching by the pastor at 11:00 a. m. on 'A Survey of the Front Line Trenches.' The leagues meet at 6:45 p. m. At 7:30 p. m. the church will present on something of interest to the community. Mid week meeting at 7:45, Wednesday night, dealing with the Sunday school lesson.

Last Sunday we continued the thought of the Stewardship study dealing with the stewardship of the Person, the Christian Religion, Jesus Christ, and the Church thru the process of regeneration, regeneration and conversion lay claim to the entire human personality, its faculties, their uses and the products of all these.

Last Sunday night we had Rev. Reider, the pastor, settle his little address of four year old Peru boy who sang for us and then we had two addresses and a lot of very interesting moving pictures showing the conditions of affairs in South America and especially where he is working.

He held the crowd with good interest for two and a half hours and one of the leaders of the church said after the service closed that we realized our missionary education in the shortest time and more people received it than was ever given here before. We trust that the knowledge will lead all the people who saw and heard a more arduous missionary activity.

We are glad for the other churches to share the benefits with us. The Baptist church came almost in a body. We believe that these coming together occasions of the churches of the town ought to draw the churches closer together and at the same time create a more affable spirit with those outside the churches.

At the close of the service a free will offering was taken, amounting to \$25.57. Thanks for this money—E. C. RANEY, Pastor.

BAPTIST CHURCH Sunday, Feb. 11, was a bright day. The Sunday morning services at the Baptist church, in spite of a number of our regular attendants being away on account of sickness, the house was filled to overflowing. There was scarcely a vacant seat throughout the entire hour.

The Sunday school was well attended, as was also, our B. T. S. However, at the close of the B. T. S. we dismissed services to attend the special services of the Methodist church. Upon the highways of our country there are danger signs to be found at all places where there is the least bit of doubt of the travelers safety. In traveling the 'King's Highway' of life there are many dangerous things to the traveler.

VARIOUS KINDS OF LOANS MAY NOW BE OBTAINED THROUGH THE PRODUCTIVE CREDIT ASS'N (Continued from page one)

Farm Credit act of 1923, the term 'farmer' as so used includes a natural person, or corporation engaged in the business of farming or breeding, raising or fattening livestock.

All loans must be primarily secured by chattels sufficient to cover any advance as is required in any other banking institution, loans for general crop production not to be made for a period longer than twelve months. Dairy loans may, under certain circumstances and conditions, be considered for a longer period.

No loan will be made unless the applicant can show some possible and reasonable way of paying at maturity. The association will insist on the maturity of any loan to be as near the date of expected marketing of crop or livestock as possible.

The borrower will be required to take stock in the association in an amount to equal 5 per cent of loan approved. This will be class B stock, and the borrower will participate in any dividend and will have one vote at the annual stockholders meeting. No stock holder will be allowed more than one vote regardless of the number of shares held. This stock may be sold or transferred by the borrower when liquidated his indebtedness to the association, but such sale or transfer to be approved by the association and federal authorities.

BAILEY COUNTY POULTRY SHOW A REAL SUCCESS (Continued from page 1)
