Cross Plains Man In Race For Sheriff

Alex B, Shocklee, former Cross Plains Deputy Sheriff and a resident of Callahan County for more than 25 years, this week made offical announcement of his candidacy for Sheriff, subject to action of the Democrat primary to be held May 7.

His initial statement to the voters appears hereunder.

"After weeks of seriouss consideration I have decided to offer myself as a candidate for Sheriff of Callahan County. Having made my home in Cross Plains and Baird for more than half of my life, I feel that many of you already know me. For those who do not, however, permit me to offer the following brief biographical sketch.

"My family consists of my wife, the former Louise Slaughter, and two children, a son, Alex B. Shocklee, Jr., whose mother died 17 years ago, and a 11-year-old daughter, Barbara.

New Year Ushers in ADUNUANI Kamidi

Not in the recollection of oldest citizens has a new year started as promisingly from a rainfall standpoint, as has 1960.

There have been more wet days than fair ones thus far. Agricultural prospects are exceptionally bright.

Precipitations have fallen so gently that it was not until Tuesday morning of this week that official gauges were dumped and measured at 1.50. Both S. F. Bond, observer derson of Cross Plains; a sister, for the U. S. Weather Bureau, and Chester Glover, who maintains a gauge for the Commerce Department, were in exact agreement in calling the total moisture 1.50 inches to mid-morning Tuesday.

Ranchers and livestock men were beaming broadly yesterday. They report small grain prospects good and range conditions excellent for

this season of the year. Financial writers have been referring to the new decade as "The Golden 60's". Local livestock men say they prefer: "The Green and Glorious 60's" and presently, at least, Nature seems inclined toward the latter motto.

Doesn't Cost To Dream

We can't have everything. Wouldn't it be nice, though, if the following could be had in Cross Plains during 1960?

1. Paving full extremeties and guttering of all state highway streets through the city limits.

2. A uniform plan of modernizing store fronts in the downtown district.

3. City delivery of mail, such as is currently enjoyed by Baird, Winters and many other towns of comparable size of Cross Plains.

4. Enlargement of present water facilities.

5. Modernization of street lighting in the business district. 6. Completion of the proposed state highway from

Coleman via Cross Plains to Cisco. 7. A dentist to locate here.

8. A stop light at the intersection of Main Street and Highway 36.

9. A spirit of harmony and cooperation between all of us, so dedicated that these and other projects would be easily obtainable.

It is pointed out that in recent

years barely more than 50 percent of the qualified voters have participated in elections, many for the reason that they were not eligible because of non-payment of poll

Local peanut growers are being advised that marketing quotas will continue in effect through the next

three harvests. More than 94 percent of the nation's peanut farmers voted for continuance of the quota plan for the next three years in a referendum held Dec. 15.

Peanut marketing quotas have been in effect since 1949. The last previous peanut quota referendum was held in December 1956, when 93.5 percent of the votes were in favor of quotas for the 1957, 1958 and 1959 peanut crops. Since growers now have approved quotas for another 3-year period, it will not be necessary for them to vote again before 1962.

Under the quota program, marketing penalties will apply to "excess" peanuts of growers who do not comply with their acreage allotments, and price support will be available to "eligible" producers (who comply with their peanut allotments) at the full level of the available support. The law directs peanut price support under quotas at a level between 75 and 90 percent of parity, with the minimum depending upon the supply. The marketing quota penalty is equal to Mrs. Elmer Hamby of Cross Plains, 75 percent of the price-support

The Cross Plains high school girls Tuesday night and edged the Ris-ing Star girls, 42-39. Cross Plains basketball team pulled an upse handed Rising Star its first defeat of the season in a come from behind effort. The Wildcats had beaten the local gals twice earlier in the season, while hanging up 17 victories straight.

The Rising Star boys kept their jinx on the local boys and nipped the Buffs, 47-50. The Buffaloes now have lost four games this season, three of them to the Wildcats.

The local Misses took the lead with about four minutes left in the game after trailing most of the contest. A 19-point second half was just enough as the defense held Rising Star to 12.

Vondean Walters paced the locals

in their revenge with 27 points. The Buffaloes scored only 19 points in a cold first half which Rising Star led at intermission, At the end of the third period the score was knotted at 35-35. Rising Star poured 15 points through the goal while the Buffs could manage only 12 in the fourth the approaching marriage of Miss quarter.

Yegg Fails To Open Baird Store Safe

What Callahan County officers classed as an "amateur yegg", came out second best in an effort to loot the contents of a Baird groceryman's safe last week.

In an effort to break into the safe at Black's Food Store, the culprit blew the knob but was unable to get inside. The safe was so severely damaged that help from an expert was required to get it

Missing from the store was an estimated \$80 worth of men's socks ond an undertermined amount of cigarets.

Mr. and Mrs. G. O. Parrish left Monday for Sacramento, California, for an extended visit in the home of their son Gormond Parrish and family.

Thomas Harvey, sophomore in Cross Plains high school, returned here last week end after spending several days with relatives and friends in Lamesa. Thomas makes his home with his uncle, Kenneth

PHILOSOPHER NOT INTERESTED IN IDEA OF **URGING PEOPLE TO STUDY HOW TO LOAF**

Editor's note: The Bayou | farm on the Bayou gets the new year undreway about like he left the old one, his letter this week

I started the new year off sucessfully, a business man in Cross Plains gave me a 1960 calendar wrapped in a copy of The Abilene Reporter and since I don't pay much attention to a new calendar, as soon as I got home and got my feet propped up.

According to an article in it, a University of Chicago Professor has done a lot of research on modern man and has come up with the conclusion that man's goal now is leisure, that the idea that work is the most creative expression of man's daily life is obsolete, and the educational institutions must "gear education to the use of lei- fer to use it loafing. Some people Mrs. W. W. Rose. re-examine their principles and sure time."

I won't go into his ideas on work, that's out of my field, but I'll admit it's news to me that this college professor seems to think you have to be educated to loaf.

Philosopher on his Johnsongrass cation," I don't seem to recall that it was geared for leisure. What loafing I've managed to do, in school or out, was accomplished on my own. If educators are setting out to teach people how to enjoy their leisure time, I believe I could hire out as a professor right now.

The trouble with college professors when thew start theorizing about modern man is that they stump their toe before they get started. Modern man is no different it aside and tackeled the newspaper from old-fachioned man, except he's better organized. His mass production is better organized, his social life is better organized, his wars are better organized, his crime is better organized, his schools are better organized, his tax-gathering is bet-

ter organized, his chairty is better organized, his games are better organized, but when it comes to loafing, I prefer mine unorganized. If I've got time to spend study-

ing how to loaf, I believe I'd prejust can't be educated. Yours faithfully,
