City Council Organized; Clean-Up Campaign Set

Cross Plains City Council with three newly-elected members was organized in initial session Tuesday night.

The present alignment is: Theodore D. Souder, mayor; C. H. Dawson, Mayor-Pro Tem and Secretary-Treasurer; Otis Purvis, Street Commissioner; C. D. Westerman, Gas Commissioner; C. F. (Pat) McNeel, Jr., Water

Commissioner, and Garland B. Gary, Sanitary Commissioner.

Clean-Up Campaign

The Council called for a city-wide Clean-Up Campaign and designated April 26 as date for city supplied trucks to pick up trash and rubbish at no expense to householders. Only requirement is that the refuse be left in containers placed in alleys or accessible locations.

Trouble With Gas

Recent difficulties in the gas service, believed caused by oil in lines, was discussed and remedial measures studied. It was pointed out that the fluid had caused some difficulties to hot water heaters and floor furnaces. Efforts are being made, however, to correct this situation shortly.

Upon a vote of the Council the city will contribute \$25 to the forthcoming Cancer Crusade, the local drive for which is to be made Friday.

Regular meeting of the Council will continue to be the second and fourth Tuesday nights of each month.

Prominent Burkett Lady Dies Tuesday

Mrs. A. J. Koenig, 59, died in a Coleman hospital Tuesday afternoon at 4:30 after an illness of one year.

Funeral services are to be held from the Burkett Methodist Church Thursday afternoon at 2:30. Interment will be in the Burkett Cemetery under direction of Higginbotham Funeral Home in Cross Plains.

Cora Bell Koenig, daughter of Mr. and Mrs. Sam D. DeBusk was born April 1, 1901 in Brown County. She was married to A. J. Koenig April 22, and had been a resident of the Burkett area 45 years.

Survivors include her husband; one son, Dick of Coleman; one daughter, Mrs. James Leonard of Eunice, N. M.; both parents, who reside between Cross Plains and Burkett; two brothers, Raymond DeBusk of Cross Plains, and Jack DeBusk of Burkett; three sisters, Mrs. O. K. Angeley of Earth, Tex., Mrs. Bill Davee of Houston, and Mrs. E. L. Garrett of Brownwood; four granddaughters and one grandson.

Safety Stickers On 638 Local Vehicles

With deadline for auto inspections closing Thursday night, April 14, R. C. (Cliff) Gilmore told the Review late Tuesday that 638 local vehicles had been inspected and approved. He estimated that fully 25 percent of the cars and trucks are yet uninspected.

Approximately 1,000 of the safety stickers are normally issued in Cross Plains prior to the deadline date.

To avoid the rush and inspection bottlenecks next year, Gilmore pointed out yesterday that 1961 stickers could be issued any time after Sept. 1.

Law enforcement officers have pointed out that vehicles on public roads after April 14 without the safety inspection certificate are subject to fines.

Mr. and Mrs. Ressie Brown of Brownwood spent Sunday in the home of her parents, Mr. and Mrs. T. E. Baum in Cross Plains.

Ladies To Make Annual Cancer Drive On Friday

Cross Plains ladies will canvass the community Friday, hoping to raise \$500 as this city's annual contribution to the nationwide fight on cancer.

Mrs. J. Peyton Smith, local chairman, stressed yesterday that every dollar raised would go to the national foundation. Nothing will be retained locally, as this is in violation of rules set forth by the national organization.

More than 20 ladies will participate in the drive here, and Mrs. Smith and her workers have the city zoned to see that no homes are missed. It is pointed out, however, that some people will be away when the

solicitors call, and to prevent a worker having to make a second trip, those who are missed are asked to leave contributions at the Citizens State Bank. Tellers will identify the donors on deposit slips to the cancer fund.

It will be impossible for canvassers to visit rural homes. It is hoped, therefore, that rural people will hand their contributions to a member of the committee or leave it at the local bank.

Mrs. Smith has announced the following as solicitors for the drive: Mrs. Dick Dillard, Mrs. Albert Lovell, Mrs. Tom Cox, Mrs. W. T. McClure, Mrs. John Pruet, Mrs. O. B. Edmondson, Mrs. Paul Whitton, Mrs. J. C. Claborn, Mrs. Jack Tunnell, Mrs. Forrest Walker, Mrs. L. F. Foster, Mrs. D. J. McCarty, Mrs. H. C. Freeman, Mrs. Edwin Baum, Mrs. Jack Scott, Mrs. Roy Arrowood, Mrs. Mark Adair, Mrs. J. L. Bonner, Mrs. Claude Mayes, Mrs. Fonia Worthy, Mrs. Hadden Payne and Mrs. Rufus Renfro.

Census Enumerator To Finish Here Next Week

Mrs. Bob Latson, who is enumerating for the decennial census within the corporate limits of Cross Plains, will probably complete her task near the middle of next week. She will finish the east part of town Friday and begin on the west side early next week.

Persons whose homes have not yet been visited are cautioned to hold in readiness the forms they have prepared.

"It was impossible for me to be everywhere at once", Mrs. Latson points out, "and some people may think they've been forgotten. I will be in all homes shortly."

Mrs. Latson reminds that college students and servicemen can not be counted in the local census. The same is true with local people, who may be temporarily working in a nearby city and not sleeping at home five nights weekly.

Max V. Mossholder, of Abilene, District Census Supervisor, has announced that if towns under 10,000 population wish to know results of the enumeration before December, their Mayor must make written requests. If this is done, the totals will be released as soon as the counting is completed. In the case of Cross Plains, Mayor Teddy Souder has made official request for this city's population figures as soon as the data is available. It is expected that release of the information will be made early next month.

RESIGNS — H. McDonald has resigned as Minister of the Church of Christ in Cross Plains to become effective August 15, which will complete three years of service with the local congregation.

Home Towner

For weeks we've hoped to include in your home town newspaper an editorial column, touching on the lighter side of local life. Press of more dominant material has until now, however, denied the space.

As room allows, Home Towner will henceforth appear here.

Hobbies are fine for the persons engaged in them but several local men have one deserving of the plaudits of all. Their pastime is snake slaying. More than 500 poisonous reptiles have been killed this Spring by 7 local men.

Largest rattle-snake was a 9 1/2 pounder, which by coincidence measured the same height of an average man, 5 feet and 11 inches. It was wearing 22 rattlers and probably packing a poison potion deadly as a cobra's.

The next time you're walking across a rocky hill, fearing every step you take, remember to give thanks for such fellows as: Jim Baum, Henry Wilkes, "Pokey" Bonner, Parker Baum, Bobby Dillard, Jimmy Gilmore and Tommy Adams.

We're indebted to E. L. Jackson, the genial W.T.U. man from Cisco, for this humorous little jingle:

It's great to be a county editor
And sit up late at night
And pull your wool,
And throw the ball
And write and write and write

Sunday is Easter.
It's fine to attend church every Sabbath, however, Easter is one Sunday which probably more people observe religiously than any other.

Dr. C. A. Voyles, a Baptist pastor here a number of years ago, rose in his pulpit on Easter morn and said to the large congregation:

"Let me wish all of you a Merry Christmas and a Happy New Year and say I'll be expecting to see you here again next Easter."

One of the most important events in 10 years is now occurring in Cross Plains. It is the decennial census taking.

Cross Plains chances of receiving improvements, such as city mail delivery, easier long-term home financing and wider recognition by map-makers and political planners, is dependent upon what the count shows.

Let's not let a single soul be missed. In any event, Cross Plains will not get to count its approximate 100 inhabitants who are very much a part of us but who reside just outside the corporate limits.

To show a gain will be to strike a blow for progress.

CHEVY! YOU CAN'T BUY ANY CAR FOR LESS ...UNLESS IT'S A LOT LESS CAR!

Anyone who's looked around knows the majority of Chevrolet models—5's and V8's together—list for less than comparable models of other low-priced cars. But the price tag alone is only one of a whole raft of reasons a Chevy does better by your dollars.

Nothing near Chevy's size and price can match the Full Coil cushioning of its ride, or the fine, finished workmanship of its Body by Fisher. That even applies to some cars that cost a lot more. You're up in the higher price brackets before you find a car that moves as quietly as a Chevrolet or offers the inner space that Chevrolet does.

Or look at the extras Chevy gives you—at no extra cost—that others in its class can't offer at any price. Shock-cushioned steering. Safety Plate Glass in every window. Keyless locking of all doors. Crank-operated vent windows. Chevrolet offers the widest choice of power teams, too. Drive a Chevy just once. You'll have a tough time settling for anything less.

MRS. PETTY ATTENDS SUNDAY SCHOOL MEET

Mrs. A. D. Petty has returned home from Fort Worth where she attended the first national Sunday School convention of the Southern Baptists. The convention presented outstanding clerymen and laymen of the denomination in a series of seminars which continued through three days.

Mrs. Petty, who is superintendent of adult department 3 at the First Baptist Church here, described the convention as the most educational and inspirational event of its kind she had ever been privileged to attend.

BRADBURY SPEAKS AT ANNUAL R.E.A. MEET

Annual membership meeting of the Taylor Electric Cooperative, Inc. was held Thursday, April 12, according to Sam Butman, Jr., secretary.

"The directors," said Lester Dorton, manager, "decided to stay within the official family for the chief speaker at this year's meeting."

Bryan Bradbury, Abilene attorney and counsel for the cooperative, gave the principal address.

For the first time since the cooperative was formed there was no proxy voting. The membership voted last year to amend the constitution, abolishing the proxy-voting privilege, on grounds "that no member is entitled to vote if not interested enough to attend the meeting."

Plans to submit another proposed amendment to the constitution are being considered, that of staggering terms of office of the directors. At present all nine director's terms expire each year.

RULING CONCERNING TRAILERS IS OF INTEREST TO FARMERS, RANCHERS IN CROSS PLAINS AREA

A ruling of interest to farmers of the Cross Plains area was handed down this week by the Texas Attorney General's office.

According to the clarification a farmer can haul unmarketed livestock back to his farm in an unlicensed trailer, or farm supplies if his stock is sold.

County Attorney Glyndon M. Hague of Cleburne asked for the opinion on whether a farmer could haul stock into town, using the highways and return the stock if he found the market unfavorable. The law states that he may use his unlicensed trailer to haul the goods to "the place where it is actually marketed and return."

The opinion stated it was not the Legislature's intent to forbid the farmer from returning the stock if he wanted to.

Hague also asked whether the farmer could haul back farm goods and machinery if the stock was sold, to which the opinion said "Yes".

The ruling carried the reminder that although the unlicensed trailer could be used for these purposes, the maximum weight could not exceed 4,000 pounds.

PHILOSOPHER SPECULATES ON THE VALUE OF LOOKING AT CLOUDS FROM TOPSIDE

Editor's note: The Bayou Philosopher on his Johnson grass farm on the Bayou has found out about the new weather satellite now circling the earth, his letter this week reveals.

Dear editor:

I'm always in favor of progress, provided it doesn't disturb the way I'm living already, and consequently I was pleased to learn that the United States now has a weather-viewing satellite circling the globe every 90 minutes, sending back pictures from 400 miles up.

A lot of professional weathermen are saying this will open up a new day in weather forecasting, but I read in a newspaper last night, along toward the bottom of an article about the new prospects, that one scientist said he had his doubts, that most weather is fairly local.

I don't know exactly what he means by this, but I do know that most people, including me, are a lot more interested in the weather immediately overhead and a few miles on all sides, than they are in the weather 1,000 miles away or 400 miles up. It's sort of like a scandal. The closer it is to your area, the more fascinating it is.

As I understand this new

satellite, it photographs clouds from up above, looking down, and while this may have some meaning I can't grasp, I'm not sure that looking at a cloud from the top down instead of from the bottom up will tell you whether or not it's going to give down any rain. At least I know that from a life-time of studying them from the ground looking up, I haven't been able to tell any more about what they're going to do than a long-range forecaster. I've seen a day dawn bright and clear without a cloud in the sky, and before noon had a cloud-burst. On the other hand, I've seen it stay cloudy for a week without getting more than a mildewink mist.

I guess it's going to be interesting to have a photographic record of where the clouds are all over the world, but there'll never be a substitute for clouds overhead when you need a rain, and it doesn't take a satellite to tell me that, all I have to do is tilt my head and look up, and if I'm lying flat of my back out in the open, I don't even have to go to that trouble.

Yours faithfully,
J. A.

Bill Doggett of Fort Worth was a visitor here Tuesday.
