## Choose Mrs. Walker And Edmondson Top Citizens

Mrs. Forrest Walker was named "Woman of the Year", and O. B. Edmondson "Man of the Year", at the annual Chamber of Commerce banquet, held in Cross Plains High School cafeteria Friday night.

H. McDonald, president of the organization, who presented the town's top citizens with plaques commemorating their selection, was himself honored with a surprise gift, awarded by incoming C of C president Albert Lovell. It was an envelope, containing cash, the gift of about 100 people, reported Howard McGowen who contacted donors.

McDonald praised both Mrs. Walker and Edmondson not only for their contributions to the community during the past 12 months but for their public spiritedness through the years. He pointed out that Mrs. Walker was primarily responsible for the concession stand at the local Little League field earning \$1,200 last season, the funds being used to finance much needed improvements. Edmondson was cited for his years of sacrificial service to farmers and stockmen of the Cross Plains area and for his willingness to work wherever needed, whenever called upon.

Main speaker for the banquet was Dr. John Stevens, assistant-president of Abilene Christian College, who urged the 72 people present to work constantly for the building of a better community.

## Mr. Businessman

An open telephone line is as important to you as an open door

No matter what your business, the telephone serves as a front door to many of your customers. When your line is busy, it's the same as locking your front door. A continued busy signal keeps your customers out and sends them elsewhere to buy.

If your present telephone is always busy, perhaps you need one or two additional lines. A call to our business office is all it takes to find out.

## NOW LOOK WHAT CORVAIR'S GONE AND DONE!

The same Corvair that tallied a thumping 27.03 miles per gallon\* in the Mobilgas Economy Run ... went right on to climb Pikes Peak earlier in the spring than any car has ever tried!

We wanted to show you what the fabulous traction of Corvair's rear-engine design and the sure-footedness of four-wheel independent suspension really mean. So the identical Economy Run car went right on to 14,110-foot Pikes Peak—and right up to the top of that savage mountain, on April 15, still deep in winter's snow and ice. No other car—even specially equipped—had ever been able to conquer that nightmare alpine road so early in the spring. But Corvair (with United States Auto Club officials aboard to certify that not one nut or bolt was changed) purred right to the summit without chains or even snow tires! That just underscores the fact that Corvair is totally unique. But you'll find that out the first five minutes you're at the wheel!
