D. C. COX DIGS COMMUNITY WELL TO IRRIGATE OWN LAND AND TO ACCOMMODATE A FEW NEIGHBORS

Several Owners of Small Tracts Will Use Water From This Well Which Will Deliver 1,200 Gallons Per Minute

D. C. Cox, former Santa Fe agent in Muleshoe, now at Lockney who owns 15 acres of this good Blackwater valley land just north of the corporate limits of the town, is planning a community irrigation project destined to be worth thousands of dollars to this section, his son Howard, being here last week to close details of the plan. Cox this week began drilling of an irrigation well on "Hog" hill just north of the townsite which, when completed, will have installed in it a vertical type centrifugal pump of modern design capable of delivering at least 1,200 gallons of water per minute, propelled by an electric motor.

Because of the location of this well on a slight hill, it will be possible to furnish water to surrounding tracts in every direction, gravity taking care of the flow, and several surrounding land holders have already signed contract for use of the water.

Among those already agreeing to use the water are A. J. DeBord, having 20 acres, H. A. Eddler, owning 10 acres, Joe Lee, 10 acres, P. E. Wilmon, 15 acres, B. C. Treton, 10 acres, and there are several other small tract owners within reach of the main ditches which will also be water users from this one well.

The arrangement is considered to be ideal, since it will save neighboring trunk farm owners thousands of dollars necessary to put down individual wells, and install separate pumping plants, at the same time rendering much better service because of the larger volume of water coming from the one well than could be obtained from smaller individual wells.

Most of these small farm owners are planning putting in garden truck of various kinds this spring, several acres of land going to Irish potatoes, onions, beans, tomatoes and other marketable products.

Cox expects to have the plant ready for operation just as soon as the well can be completed. The pump, motor and other machinery accessories will be promptly ordered, ditches will be made across the land and a thorough test will be given as soon as installation is completed. It is anticipated the well will have to be drilled about 100 feet to strike the third and heavy flow of water for irrigation purposes. The hole will be 18 inches in diameter with casing 10 or 12 inches in diameter, perforated through the water bearing strata.

STATE RELIEF COMMISSION WILL LAUNCH A STATE WIDE PROGRAM OF TERRACING AND CONTOURING

Austin, March 4.—A soil conservation program designed to save the agricultural resources of the state is being formulated by the rural department of the Texas Relief Commission. It has been announced by V. R. Smithman, manager of the rural department. The plan will make it possible for farmers to preserve their lands and for rehabilitation clients to work on self-liquidating projects which will afford them cash wages to apply on their obligations to the rural corporation.

Under W. M. Burkes, formerly county agent in Upland county, the conservation service section of the rural department was established last week. Mr. Burkes was named to the place by mutual agreement of rural department officials and officials of the Extension Service at A. and M. College, which will cooperate in the program. "Terracing alone will not save the soil in Texas," Mr. Burkes declared. "It is a good practice to take land with eight to ten per cent slope out of cultivation and convert it to pasture or timber land."

The conservation program will consist of erosion control, running terrace or contour lines, building terraces or contours, terrace outlets, spillways, gully controls, dams; planting legumes, grasses, trees or other cover soil improving crops; water conservation in the form of wells, dams and ponds; building of trendish silos and storage houses for crops and livestock; forestry where work will assist in conserving the soil.

County agents have been asked to help start the program by offering the services to farmers in the various counties. Where requests for running terrace lines on as much as 4,000 acres are forwarded to Austin, a conservation assistant, upon approval of the request, will be sent to a county to supervise work there. From one to four squads of four men each, to be supplied from rehabilitation or relief rolls, will be located in the work, it has been estimated.

Equipment will be furnished locally. The service will be paid for by the owner of the property at its appraised value on a job, unit, or time basis, the rate to be determined by the extension agriculture engineer, the county terracing committee, and the representative of the rural department of the Texas Relief Commission, and agreed to by the owner.

After terrace lines have been run, the conservation assistant will remain in the county to supervise actual construction of terraces. No part of the construction costs, however, will be borne by the rural department. "Need for this work is best described," Mr. Burkes said, "by the fact that not more than one-tenth of the land in the state needing conservation work has received it, and in most instances where this work has been carried on, it has been incompetently done."

J. B. Waide, jr., Bailey county farm agent, commenting on this program, stated that the conservation program of the Rural Department, Relief Commission would be taken up by the Bailey County Farm association soon, and a large number of farmers were being asked to run terrace lines on their farms. Bailey county has approximately 150,000 acres of land that should be terraced or contoured.

Waide explained that terracing and contouring accomplished two purposes: prevents soil from blowing, and conserves the moisture by keeping the water on the land where it falls. The experiment stations have shown in dry years, such as 1934, terracing or contouring will increase the yield of crop considerably.

DAY OF PRAYER AND FASTING PROCLAIMED

Austin—Gov. Alford Friday proclaimed March 8 "a day of prayer and fasting" and called on Texans to "spend the day assuring themselves that all Texans love God."

"The keeping of a day of prayer and fasting should be interpreted to mean that there is a spiritual element in the recovery program of our Nation and State," the proclamation said, "as fundamental and I believe as important as that of the material."

WOMEN URGE A H. D. AGENT IN BAILEY COUNTY

Will Present Matter To Commissioners' Court Monday Morning

That the women of Bailey realizing the value of a home demonstration agent in Bailey county are determined to press the matter until such appointment has been made, was the consensus of opinion at a meeting attended by about 65 of them in the school auditorium at Circleback last Tuesday afternoon, representatives from all sections of the county being present. The meeting was also attended by Miss Westrook, home demonstration agent of Lamb county, who gave a demonstration on towel making and spoke strongly of the value of her work in any county. Following the talks if several other women, it was decided to bring the matter before the Commissioners' court at its regular meeting next Monday, and two delegates from each community of the county were appointed to attend the court and present the matter.

For several weeks past the women of this county have been gathering information, discussing the matter of a home demonstration agent and organizing clubs for such work, until now there are 10 such clubs in the county, as follows:

- The West Camp club known as the Pollyanna; Baileyporch; Busy Bees; Circleback; Circleworkers; Watson; Get Busy; Goodland; Sunshine; Maple; Happy Homemakers; Progress; T. T. T.; Loveless; U-Need-Us; Clubs at Bula and Enochs have not yet been named. These clubs comprise about 250 members.

At the meeting Tuesday Mrs. W. O. ... vice-president; Mrs. Brewer, Bula, assistant secretary; Mrs. Wm. Kennedy, Progress, reporter; while Mrs. N. C. Moore, Longview, had been previously elected president of the county-wide organization, and Mrs. L. C. Gurley, West Camp, chosen secretary.

\$56,234.00 ARE RECEIVED HERE FOR AGGI MEN

1,026 Bailey County Farmers Benefit By Federal Funds

It's a case of where time first served, and still there are nearly 100 checks, representing \$6,187.20 yet to be distributed of the \$56,234.10 Federal money received early last week by the Bailey county farm agent.

There were 1,026 of these financing checks in this one batch, representing the initial distribution of two cents per pound or 50 per cent of the value of cotton certificates, about 60 per cent of them being pooled and sold by farmers. The remainder of payment should be received sometime this spring, Mr. Waide said.

It is understood Cotton Tax Exemption certificates for 1935 will be issued for the unpaid portion.

ARIZONA COTTON MAKES 4.6 BALES ON EACH ACRE

The University of Arizona experimental farms today changed a world record for high cotton production per acre, over 4.6 bales.

Dr. Ralph S. Hawkins, head of the agronomy department, said he did not believe there is a like record for the United States or abroad.

He said the yield resulted from experiments in different irrigation processes rather than an attempt for high production.

RELIEF WORK IS DEMANDED QUIT IN BAILEY CO.

\$2,863,495 Relief Quota Allowed Texas For Month of March

Notwithstanding there are \$3,800 still in the Muleshoe State Bank for Bailey county relief work, all relief work including improvements on State Highway No. 28 were called to a halt last Saturday afternoon, according to a message received Saturday morning from the State relief office in Austin by Pat R. Bobo, county director.

The order to stop improvement work is understood to be state wide, it being declared money was running low and that remaining, if used for direct relief work, would go farther than is used for road improvement work.

Present indications are that all relief work may be held up pending action of Congress upon the \$2,800,000,000 relief bill now up for consideration, and there are some suggestions that such work has been stopped for the purpose of forcing public opinion back of the passage of such bill.

More than 100 million dollars have been disbursed in Federal and State by direct relief of the destitute in Texas since Federal money first began being used.

Expenditures in Bailey county for February were \$10,237.25, with a balance of \$13,800 remaining on hand the first of March for use during this month, and which will probably last between two and three weeks if used for direct relief work only, Bobo said.

Saturday of last week the Relief administration at Washington allotted \$5,576,574 for general relief during the month of March, \$2,843,468 being the quota allowed Texas.

BAILEY COUNTY BAPTISTS WILL FARM INCREASE BUILD CHURCH IS 20 PER CENT ON BASEMENT

Bailey Ranks 4th In 25 Regional Counties In Occupied Farms

The number of occupied farms in Bailey county have increased nearly 20 per cent during the past five years, according to preliminary count of the returns of the supervisor of the 1935 Census of Agriculture, the inventory being as of January 1, 1935. The report shows there were 736 farms in this county in 1930, while the report taken this year shows 903 farms, an increase of 145 farms during the past five years.

When it is recalled that 10 years ago practically this entire county was given over to ranches, and that during the past four years the depression has been on all over the United States, the increase is indeed gratifying.

A resume of the statistics shows only three counties out of a list of 25 in this area had a greater farm number increase than did Bailey county, these counties being Cochran, 251 increase; Stonewall, 208 increase; Lubbock, 155 increase. Nine of these same 25 counties showed a decrease of from one to as high as 300 farms.

BAPTISTS WILL BUILD CHURCH ON BASEMENT

Turn Dirt This Week For Superstructure Of New Church.

Members of the Baptist church, this city, in congregational action, last Sunday elected a practically unanimous to rear the superstructure over the basement utility of their church in which they have been worshipping for the past 10 years.

The superstructure will be 40x62 feet, containing the auditorium, and a restroom 14x80 for pulpit, minister and choir across the south end, a baptistry and a Sunday school platform. The floor of the auditorium will be raised toward the entrance.

The structure, to cost approximately \$2,500, exclusive of accessory finishings will be of frame construction so as to be brick veneered later. R. L. Jones, W. L. Shaw, and Judge J. E. Adams compose the building committee.

Work of construction began Wednesday.

It is stated that practically all moneys needed to defray the expenses of construction have been raised and is hoped dedication will be held as soon as the building has been completed.

TRIAL OF MRS. COOK THIS WEEK

The trial of Mrs. Bera Cook, Bula community, on a charge alleging she murdered her husband, Tom Cook, is scheduled to be heard in the Lamb County District court at Olton, this week.

Muleshoe Postoffice Oversells Its "Baby Bonds" Quota March 1

The "baby bonds" of the United States Treasury, went on sale in all post offices Friday of last week, the Muleshoe office receiving \$600 worth and having calls for \$6,000 worth of them. It is reported many post offices sold out their consignments the first day, having to order more to accommodate their customers.

These bonds are intended primarily for small investors, and are offered in denominations of from \$25 to \$1,000 each, maturing in 10 years. They do not pay interest, but are sold at a discount, and if held until maturity, will return the equivalent of 20 per cent interest, compounded semi-annually, or they will be redeemed by the Treasury 60 days after issuance. Redemption value at one year is 1-1-3 per cent, rising every six months thereafter.

It is anticipated that while the purchase of the "baby bonds" will deplete the financial reserves being held by banks over the country, these banks, in turn, may become heavy buyers of such bonds.

SET COTTON ALLOTMENT

Washington—States' allotments of the 1935 quota of 1,982,294 bales under the Bankhead compulsory cotton act and terms of the new one-year adjustment contract were announced last Saturday by the Farm administration.

State allotments in terms of 500 pounds gross weight bales, include: Texas, 3,406,117; New Mexico, 67,001; Arizona, 95,232; California, 209,205.

COLLECTOR AT LITTLEFIELD

Joe H. Hooper, deputy internal revenue collector, will be at the First National Bank, Littlefield, Monday, March 11, to confer with and assemble citizens in making out their income reports.

YOUNG GUYS MAIL ROUTE

W. E. Young, Quannah, was the successful bidder for the mail route from Muleshoe to Olton, according to announcement, beginning July 1.

AUTO LICENSE FOR 1935 NOW LEGAL IN STATE

1934 Car Owners Got 15 Months Service; Pay For Only Twelve

License plates for automobiles and trucks were legally placed on such vehicles in Texas beginning Friday of last week, Jim Cook, Bailey county agent, receiving ruling from the State Highway department.

Payment for the preceding year, however, must have been made before the collector can issue a 1935 receipt. Any new or unregistered used vehicles placed in service during March are required to be registered for March of 1934 before a 1935 license will be issued according to House Bill 515. The year does not begin until April 1, and old license fees and plates are effective until that date.

Previous to March 1 state of license plates in Bailey county have been very slow, less than two dozen having been issued; but it is now anticipated the sales will pick up promptly, thus considerably lightening the load as of April 1, when they become effective, as after that date it will be illegal to operate a car on the roads without a 1935 license plate.

License fees this year are identical in practically every instance with the fees paid last year by car or truck owners.

In the change of the operating year for automobiles and trucks it is pointed out that car owner is given a bargain on his fees for 1934, being allowed 15 months of legal operation of his year on the highways instead of the usual 12 for one year's fees.

GIRL SCOUT MEETING

The regular meeting of the Girl Scouts was held in the American Legion hall Tuesday afternoon, opening the session with a bunch of snappy songs and fine spirit of interest, Zoe McRyan, leader.

The Texas patrol is studying signals and members of other patrols are studying trees. Several games were played.

Miss Hazel Elizabeth Alford, sister to Governor James V. Alford, was the sixth bride to take the vows in the governor's mansion, when she was married last Saturday to William B. Stokes, Gladewater.

HUNDREDS OF RABBITS KILLED

A rabbit drive was held Thursday of last week northeast of Muleshoe in the Pleasant Valley school district community, about 100 men taking part, and several hundred rabbits being slaughtered.

A feature of the day was a big community dinner served at the A. W. Stevens home in that community.

One man took home with him 90 rabbits and a coyote to feed to his hogs. Other drives are planned for this week.

WATCHING CLAUDELL TEST

The five-inch well in the Wilmes oil test well being drilled on the Claudell ranch 18 miles northwest of Elida has set concrete run, water bled out and drilling resumed last Monday. Expectation is reported running high in anticipation of bringing in a gusher sometime this week.

The drill is reported now to be 200 feet in the Florietta sand.

BAILEYBORO DOES TERRACING

The Baileyboro agricultural class under direction of Glenn Daugherty, superintendent of the Baileyboro school, has completed terracing and contouring 1000 acres.

Members of the "farm" club are planning a picnic on the terrace line.

TO WRITE LIFE INSURANCE

Mrs. L. S. Bacon, local agent, has taken agency for the State insurance company.

She is out

ACCESSIBILITY OF REPAIRS

A \$5,000 automobile out of service for lack of repairs is absolutely worthless. The fact that sufficient parts are carried in stock by the average Ford dealer makes V-8 unit a much more desirable car or truck to own. Add to this the fact that practically all wearing parts of the V-8 are affected by the liberal exchange plan making the new V-8 for 1935 doubly desirable.

MOTOR CO.

Muleshoe Band Will Begin Real Playing On Thursday Night

The Muleshoe band met Monday evening at the High school auditorium in regular session. The attendance was good considering inclement weather. Director K. W. Shearer was in charge of the meeting, the greater part of the time being consumed in helping beginners choose instruments and making arrangements to obtain them. Director Shearer indicated that plans for practice would include arrangements for beginners to meet twice each week with experienced members meeting only once each week. In this way instruction would be given the less experienced musicians without encroaching too heavily upon the time of others. Announcement was also made of a band meeting Thursday night of this week at the court house, in the district court room, to be called at 8:00 o'clock. At this time all players are invited and urged to be present, also anyone else who is interested in the band. All musicians are urged to bring instruments as an evening of practice and making music will be held.

Men are more anxious to play safe than to play fair.

General News Over Texas And Adjoining States For The Week

A peanut factory has been established at Portales, N. M.

The First National Bank at Neesho, Mo. was robbed last Saturday of \$18,000.

Mrs. Olive Flake, deputy U. S. clerk has been appointed United States commissioner at Lubbock.

There were 92,397 visitors to the Carlsbad, N. M., cavern last year, the greatest number in its history.

The geographical center of Texas, 20 miles north of Brady, is to be appropriately marked and a state park established there.

Flames of unknown origin caused a \$25,000 loss to the Anchor Milling Co. in Albuquerque, N. M., Friday night of last week.

Reflecting the low condition of range and pastures, livestock shipments were considerably lower last month than in February of a year.

H. H. Mann, vice-president of the First National Bank at Loveland, has been named postmaster there.

Two sisters married to two brothers, Tom and George Sherman, living near Fort Worth, gave birth to sons within an hour of each other.

More than 10,000 houses have been constructed or repaired for families in the rural rehabilitation program, and 3,500 more will be completed for occupancy in Texas within the next 90 days.

Gov. Clyde Tingley last week had an attack of writer's cramps from signing 2,000 refunding bonds of \$1,000 each, also a number of bills just passed by the New Mexico legislature.

New Mexico's liquor bill was passed by its Legislature last week, effective May 26, setting license fees and requiring places of sale to be closed from 1:00 a. m., until 8:00 a. m.

A strike of large proportions, paralyzing wheels of commerce, street cars, elevators and municipal water pumps affecting more than 200,000 people, occurred in El Paso Thursday of last week.

Lieut. Gov. Walter Woodul has been presented with a small gavel carved from a pine log taken from the old law office of Gen. Sam Houston at San Antonio, being carved out by M. H. Saurgard, keeper of the structure.

With last week's issue of the Castro County News, Dimmitt, Sam Braswell Jr., becomes the new editor. He is from Childress, son of Sam Braswell sr., former president of Texas Press association.

More than 45 girls were arrested last Saturday night in Amarillo by the Sheriff's department, most of them being taken from hotels and rooming houses to the jail. Charges of vagrancy were filed against them, fines totaling \$14 each being assessed. Still more were arrested Sunday and Monday.

Former Congressman Dennis Chavez of New Mexico, defeated in the fall election by Senator Bronson Cutting, last week filed a contest suit for Cutting's seat in Congress with the Senate, alleging excessive expenditures and illegal voting in four counties. Cutting replied they would probably ask for a recount of votes throughout the entire state is Chavez insisted on recounting the vote in just four counties.

J. Frank Norfleet, Hale County farmer-detective, had a birthday Wednesday of last week. He bristled into a Plainview newspaper office wearing a smile as wide as his 10-gallon hat, telling about two grand-children who were born on his birthday one in Florida and the other in Hale county—but was so enthusiastic over the advent of these two new comers he forgot to tell how old he was.

Uder Stradivarius Worth Less

When two Stradivarius violins were offered at auction one, made in 1725, was knocked down for \$11,500, and the other, made in 1714, brought \$4,000.

POULTRY FACTS

BLACKHEAD BATTLE WON BY PREVENTION

Treatment Necessary While Birds Are Young.

By L. E. Cline, Extension Service, University of Nevada—Nevada Service.

Blackhead, dread disease of turkeys, can be prevented by holiday bird growers, but its cure is very difficult and not practical. Preventive measures are very successful if intelligently and persistently carried out when the birds are young and the cost is negligible. Now is the time to take them.

Sanitary measures are essential for control, but cannot be depended upon entirely, so the next preventive is to render harmless so far as possible any infection taken into the young turkey's body.

Practical prevention of blackhead lies in keeping the turkey flock free of certain worms, which act as intermediate hosts, and this can be done with pulverized tobacco in a simple and inexpensive way.

When the young birds are three to four weeks old, add two pounds of powdered tobacco to each 100 pounds of starting mash, feeding the tobacco mixture exclusively, except for the usual supply of green feed, water, and milk.

The tobacco mixture is given for two full days, followed on the morning of the third day, by a physic consisting of one pound of epsom salts to each five gallons of water or milk. The birds should be forced to drink the salts solution for about two hours. This eliminates the blackhead organisms and the cecum worms.

Once a month until the turkeys are at least four months old, the treatment should be repeated. While being purged and for the day following, the birds should be kept warm to prevent colds and piling up. Immediately after each treatment the pens and houses should be thoroughly cleaned.

Only fresh tobacco of a guaranteed nicotine content of 1 1/2 per cent and kept in sealed containers should be used.

Eggs in Water Glass Is Good Plan for Storage

Eggs are best stored in earthenware vessels in the cellar or other cool place. For this purpose, says Wallace's Farmer, thoroughly clean and scald, say, a five-gallon crock, six or eight gallons of water glass with four and one-half gallons of water that has been boiled and allowed to cool to room temperature, 32d pour it into the crock, and immerse the whole place clean, strictly fresh, infertile eggs from day to day, as they are gathered. Keep on adding eggs to within two inches of the top of the liquid.

Dirty eggs should never be stored in this way, nor should any attempt be made, if dirty, to clean them. Washing an egg removes the natural protective covering which prevents spoiling. Also watch every egg put away, to see that the shell contains no cracks whatsoever. This is very important.

Eggs may be stored in this manner and be kept until November or December. When removed, and they are to be boiled, a small hole should be made with a pin in one end of the egg, to prevent the shell from cracking in the cooking process.

Why Eggs May Be Dark

Many amateur poultry keepers are surprised and sometimes alarmed when they find their eggs changed in color. This change is seen in both the color of the whites and the yolks. The yolk is frequently of a much darker yellow, and the poultry keeper thinks there is something seriously wrong. Nothing is wrong, and the eggs have the same quality and food value as the lighter colored eggs. The change is due to two causes. First, the hens store up much coloring matter during the winter months and this is released to the egg yolk when warm weather comes. Second, the succulent green grass, weeds, etc., eaten avidly increase the coloring matter in the system.

Poultry Helps

The turkey is the lone native already domesticated in 1617 by Fernandez along the coast of Yucatan.

If high quality is to be maintained, eggs should be gathered frequently, kept dry and stored in a cool place.

Flock records show that the early hatched chicks return more money to a farmer than chicks hatched later in the year, for they begin to lay eggs when prices are higher.

Hens may live and lay some eggs even when kept in a poorly constructed house, but a flock kept in a good house and given proper care is much more likely to be profitable.

It is unsafe to hold back pullets by limiting feed when production starts. It seems wiser to feed such birds liberally so they can maintain weight while laying.

Ability to rear a thirty flock of chickens is the best test of a successful poultryman.

Fierce Sand Storm Sweeps Plains Area First Of The Week

March came in like a meek little lamb, but it didn't take it very long to grow into a stalwart lion, for Sunday afternoon another terrific sandstorm, blowing from the southwest visited this area in blustering, smothering manner when daylight was turned into deep twilight.

The storm struck Muleshoe about 2:30 Sunday afternoon, being at its height for about an hour, then gradually dwindling away. At times visibility was extremely low, one sitting close to a window being unable to read the Sunday paper. Layer after layer of fine silt like sand sifted in at every crack and crevice covering everything of surface nature.

North and east of here some rain was reported and west of here there was hail.

Monday, about 9:30 o'clock the wind again resumed its fierceness and dust-laden propensities, the sky being entirely overcast with great clouds of dust, but the velocity not quite so rapid. Again Wednesday.

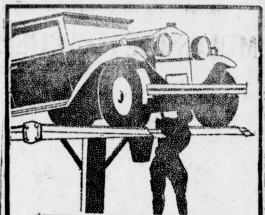

"The wind sprang up from sleep, saying, 'Now for a frolic, now for a leap. I'll raise a commotion in every place'—and it did!"

About the only place now to find "home cooking" is at the restaurant.

Large Stomach in Dogs

Dogs often eat as much if not more food than their masters because they have a much larger stomach capacity. The stomach of a 40-pound dog can hold at least three times as much as that of a 150-pound man.—Dr. C. M. Dibbell, Allentown, Pa., in Collier's Weekly.

Electric Appliances.

In this day of modern conveniences, no home can afford to be without the necessary electrical appliances to take care of the drudgery, and lighten the tasks that daily confront the house-wife. There are so many essential electric appliances that it is almost impossible to name the ones that is the most needed in your home, or would serve to do you the most good, but every electrical appliance added to the ones you may now have, means another burden lifted from the household tasks another convenience that is indispensable placed in action in your home.

It may be that you have been delaying buying that electrical appliance, thinking that perhaps Santa Claus would get it for you Christmas. If he failed to do so, today would be a good time to call on your appliance dealer and see the many electrical labor savers he has to offer that are badly needed in your home.

A PANHANDLE SANDSTORM

BY JESS MITCHELL

Poets have sung the praises of fragrant flowers and evening zephyrs, artists have depicted in easels innumerable scenes...

Various other sections of the world have dust storms of more or less stature, but the gigantic proportions of a Panhandle sandstorm is a peculiar act of Nature claimed only by this area of West Texas.

It never does anything in slow tempo. Speed is its middle name. Everybody is in a rush and it's no wonder the wind catches that habit.

The Panhandle sandstorm is a dirt in an hour than a hundred reiters can in several days. It will blow down more buildings than a regiment of engineers can erect in a month.

This writer one time took a picture of a cyclone, (in the distance) and numerous land winders have reported living in fear of tractor storms, forked lightning torpedoes and giant waterspouts.

Stand anywhere in the glorious sunshine upon a little eminence of this wide-stretching prairie and look off in the direction of this approaching sirocco; see it as it assembles in the distance, gathering force, speed and power, engulfing everything loose within its maw, rolling, tumbling, ugly coming on at terrific speed.

It breaks no interference of the sun, quickly turning it to a dull grey disk, a saffron hue or a dark soot color, sometimes blotting out its effulgent rays entirely until lamps must be lighted in the rooms or else folks feel their way about in the deep dusk.

Nothing is left to the imagination when a Panhandle sandstorm starts out on a rampage; everything is realistic. It is a manifestation of the darker mood of Nature that is second to no other.

But after all no part of this great world is entirely perfect, and the Panhandle sandstorm season, folks note, their pulses are quieted and they quickly forget its ravaging inconvenience.

There are no mosquitoes here, no malaria nor miasma—no prevailing disease of any kind. The water is 99.99 per cent pure by chemical test and the atmosphere 100 per cent pure by breathing test.

The wind whips strong out here only a few months in the springtime, sand storms come only occasionally. Ninety per cent of the time, fragrant, quiet zephyrs float soothingly across these flower strewn prairies.

Baileysboro News

Baileysboro was suddenly hurled into darkness by a terrific sand storm which arrived here about three o'clock Sunday afternoon.

We wish to announce the wedding of Miss Cora Fears of Baileysboro to Ralph Brewer of Circleback.

The Baileysboro Busy Bee club met at the home of Mrs. W. O. McCrory last Wednesday Everybody seemed to enjoy the evening very much.

Mr. and Mrs. Tom Howard and son and Mrs. J. W. D. Reid, all of Sudan, were visitors here Sunday.

Here Is the Famous FARMALL Family

Qualified to Provide Any Farm with Economical Power

MANY good things come in threes and among the very best from the farm point of view is FARMALL power—in THREE sizes. Here they all are—F-30, F-20, and F-12—each of them ready not only to plow but to plant, cultivate, run belt machines, and handle all row-crop and general-purpose needs.

All of them have these exclusive patented Farmall features—quick-dodging ability, forward location of gangs, and braking either rear wheel through the steering gear for square turns.

Call us and we will come out and demonstrate any or all of the Farmalls.

FARMALL COMPANY

Circleback News

The ladies of this community met and organized a Home Demonstration club. Mrs. L. R. Gilbert was elected chairman and Mrs. Cecil Robertson, clerk.

Sunday school March 3 was not as well attended as it should have been but what few were there enjoyed it.

The W. M. U of Baileysboro is putting on a special program, "Home Missions" March 10 at 2:30 p. m.

Rev. Fort will preach again at the school house at three o'clock, March 10.

Saturday, March 2, the largest crowd was at Circleback that has been since last summer G. V. Sharnon gave away \$30 worth of groceries in three prizes.

Our town is growing. The Circleback Consumers Co. moved into their new building on the time ago A. B. Aldrich building, moved into a new dwelling west of G. O. Sharnon last week.

Both teachers and pupils are getting ready for the county meet. Soon we will print the honor roll.

Miss Corrine Ater of Lubbock, visited her sister here last week. Miss Anna Jewel Shuteaworth of Sudan, spent the weekend with Miss Leona Slaughter.

Mr. and Mrs. Walter Damron and Mrs. Damron's mother, Mrs. Malone, visited in Ralls recently.

Notice of Trustee's Sale

WHEREAS, On the 20th day of May, 1928, James L. Dow and Della Dow executed a deed of trust, conveying to Wiley L. Robertson as trustee, the real estate herein described, to secure EMERALD TRUST MORTGAGE COMPANY OF WICHITA FALLS, TEXAS, in the payment of a debt therein described, said deed of trust being recorded in Vol. 7, Page 401 in the deed of trust records of Leake County, Texas; and

WHEREAS, The undersigned has been appointed substitute trustee in the place of said original trustee, upon the contingency and in the manner authorized by said deed of trust; and

WHEREAS, Default has occurred in the payment of said indebtedness and the same is now wholly due, and the owner and holder of said debt has requested the undersigned to sell said property to satisfy said indebtedness;

NOW, THEREFORE, Notice is hereby given that on Tuesday, the second day of April, 1935, between ten o'clock A. M. and four o'clock P. M. I will sell said real estate at the door of the County Court House in Baileysboro, Texas, to the highest bidder for cash.

Said real estate is described as follows: In the County of Bailey, State of Texas: The NW. 1/4 (9) and NW. 1/4 (10) of Leake No. 177, of the Motley County School Lands, containing 354 Acres of Land.

Witness my hand this 2nd day of April, 1935. H. L. HUNTER, Substitute Trustee. March 7, 14, 21, 28, 1935.

Ship's Butcher's Pet Nerves Since the earliest days of ocean travel, passengers' pets have been placed in charge of the butcher, a wisecracker among passengers generally, and no little mingling on the part of the owner of pets.

Graceful Hawk The osprey is one of the most graceful hawks and is frequently seen hunting the shores of lakes. It is expert in catching fish and seldom misses his mark when he hurls downward.

Lowest Places in World The shores of the Dead Sea are the lowest places in the world not covered by water, being about 1,300 feet below sea level.

NOTICE FOR BIDS ON ROAD MACHINERY

NOTICE IS HEREBY GIVEN that on the 8th day of April, 1935, the Commissioners Court of Bailey County, Texas, at the Court House in Muleshoe, Texas, will open bids for—

- (a) Purchase of 1 50 Horse Power Diesel Tractor, with auxiliary starting equipment and high compression ignition and. (b) Purchase of 1 12 foot Blade Grader.

A CERTIFIED check for five per cent (5%) of the amount of each bid shall be required to be filed with each bid submitted, as required by law, and the check shall be payable to J. E. ADAMS, County Judge of said County.

IT IS ESTIMATED that the cost of road machinery, hereinabove described will not exceed the sum of SEVEN THOUSAND FOUR HUNDRED DOLLARS (\$7,400.00), which will be paid by the issuance and delivery to the proper contractor or contractors of the legally issued warrants of said County, bearing interest at a rate not exceeding SIX PER CENTUM (6%) per annum, payable annually or semi-annually, as directed.

SEVEN THOUSAND FOUR HUNDRED DOLLARS (\$7,400.00), payable serially, the maximum maturity date to be April 15, 1942, and which warrants will be paid by the levy of a continuing direct annual tax on each one hundred dollars' valuation of all taxable property, out of the FIFTEEN CENT ROAD AND BRIDGE TAX, authorized by the Texas Constitution (art. 8, sec. 9), and by Texas Revised Statutes, 1925 (arts. 2332 and 7048).

THE RIGHT is reserved to reject any and all bids. ISSUED, this 7th day of March, 1935, pursuant to order of the Commissioners Court of Bailey County, Texas. March 7, 14, 1935

SUBSCRIPTION RATES

In Bailey County, one year, \$1.50; Outside of County one year, \$2.00.

Published every Thursday at Muleshoe, Texas.
Advertising rates given upon application. Telephone No. 54.

Subscribers who change their addresses, or fail to get their paper, should immediately notify both office, giving both new and old addresses. Communications of local interest are solicited. They should be briefly written, on only one side of the paper, and must reach this office no later than Wednesday morning of each week. The right of revision or rejection is reserved by the publisher.

Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, it matters not by whom nor for what purpose, if the object is to raise money by admission fee or otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.

Obituaries, cards of thanks and notices of respect will also be charged for at the same rate.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Muleshoe Journal will be gladly corrected upon its being brought to the attention of the publisher.

In case of errors or omissions in local or other advertisements, the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

A THOUGHT FOR THE WEEK

How are the mighty fallen and the weapons of war perished!—II Samuel 1:27.

It is not possible to found a lasting power upon injustice, perjury and treachery.—Demosthenes.

FEED THE PREJUDICES

There are plenty of people today who feed their own prejudices, but few of them realize it. On the other hand, peristat that we are very broadminded when we certainly are not.

Too many people never read the other side of any given question, or try to understand the view point of those who do not agree with their own ideas. If they are a Protestant, they read Protestant papers and condemn unceremoniously other religions, frequently other Protestant religions which do not line up with their own avowals. Plenty of good hot air has been wasted in years gone by on which is the true Sabbath day, the proper mode and essentially of Baptism, single or double procession of the Divine Spirit, etc., and numerous other theological questions of more or less importance.

If a man is a Republican, he is not likely to read Democratic nor red hot Socialist newspapers or magazines. Capitalists don't often read labor papers, and vice versa. Some farmers confined in their old-fashioned ideas of farming refuse to accept any of the newer tried and proven systems of agriculture.

In other words, many folks set in their opinions. They will tend to confirm and corroborate their already set ideas, rather than to learn something new.

It's all wrong! Many of our cherished ideas have had to undergo changes, revisions and modifications, and many more are similarly destined. Really, it's a good idea to study both sides of any question. Such action helps us to form better, more intelligent and correct ideas of our own. The Almighty gave us brains, and expects us to use them to our best advantage.

WHY THE CHANGE?

If it war should come again would you be as ready to boost it along as you were some eighteen years ago?

Hundreds of people in Muleshoe and surrounding community can recall how even the ministers endorsed war from the pulpits, even declaring in some instances that God Himself had called the nation to arms; that it was a crusade in which the church should do its part. If war threatened today would the ministers of America again take that stand?

The answer is emphatically "Not!" Recently thousands of ministers have reversed their opinions, and they now declare in their sermons that war is contrary to Christianity. Many say they will refuse to take part in any war except, possibly, a war of defense. As to the average citizen and taxpayer he is farther away from endorsing war than at any time in the history of the republic. They cannot forget the last one, with the same results that have to be made now and will have to be made in the future to get it paid for.

Eighteen years ago opinion was based on passion. Today it is based on horrible facts. Eighteen years ago the people of the U. S., as a rule, had no way of realizing what war really meant. Today they know, through experience, all that they need to know about it. And it is this knowledge which keeps war farther from us than it has been at any time in our history. Common sense would seem to suggest keeping that fact in mind.

A YEAR OF ECLIPSES

When the present year ends it will into history as one marked by an unusual number of eclipses. Altogether, thirteen of these already passed, and the rest to come, 1935 will witness seven eclipses. Five of them are of the sun,

two of the moon. It is something which has not happened since the year 1805, and it will not occur again until the year 2485.

The first eclipse this year was that of the moon on January 19, but it was not visible in this part of the world. On February 3 there was an eclipse of the sun, which would have been visible in practically every part of the United States had it not been for the fact that the skies were heavily hung with clouds throughout the entire day. The next one, which will also be an eclipse of the sun, is scheduled for June 30, but it will not be visible in this country. On July 14 there will be a second eclipse of the moon, which should be seen in all parts of the U. S. There will be still another eclipse of the sun on July 30, and then Christmas will be celebrated by another one.

We mention these facts for the benefit of readers who may be sufficiently interested to mark down the dates and keep track of them, and we might also add that several eclipses can also be used by Muleshoe weather sharks in the event they need an alibi to explain why their guesses on the weather went wrong.

LET 'EM ALONE

Senator Wheeler of Montana, says he is planning to introduce a bill in Congress authorizing the taking over of the railroads of this country by the federal government. As far as the people around are concerned, their memories are not as short as Mr. Wheeler's seems to be. Most of them still recall the mess the government made when it attempted to operate the railroads during the war, and the billion dollar bill we had to settle after their return to private ownership.

Railroads are a business enterprise, one of the largest and most important business enterprises in this country. Trained men, not politicians, are needed to operate them. And even if the trained men haven't been making out so well during the last few years, their record is far superior to that established by the government during its costly experiment.

KEEPING BUSY

One man has publicly expressed something of interest in this sentence: "A very busy man has no time to grow old." This may not appeal to Muleshoe people who make a sentiment of growing old by the calendar. It might well be changed into a Townsend old-age pension plan, or be acceptable to the young who feel that the old codgers should be shouldered aside.

After all, there is something to commend the philosophy of keeping busy. Any man, at any age, who still is physically and mentally fit, and has something to keep him busy, should forget birthdays and be content to hay foot-strawfoot happily with the marching years. It's the spirit within that makes the drum major that way.

Pavement Pickups

Everybody had plenty of sand in their crops Monday.

E. C. Chittwood, these spring sandstorms are just as he likes 'em—the grit saves a lot of grub chavin'.

Muleshoe restaurant has a specialty last Monday of serving pies with sand-marshmallow frosting. Did you get yours?

Vic Walden says the difference between opportunity and a pessimist is that opportunity knocks only once and then quits.

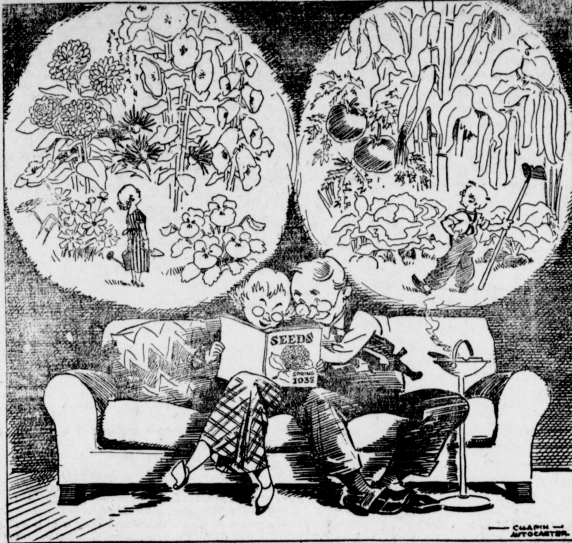

"Boom times," declares Raz. Renfro, "is a short period when everybody spends the money he will make in the next few years."

C. F. Moeller, if one will eat plenty of sauerkraut they will live to be a hundred. Who ever thought the lowly cabbage mould some day become a century plant.

President Roosevelt, Premier Mussolini and King George V have been officially raised at the world's highest men, but that official probably never

The Royal Road To Romance

— by A. B. Chapin

heard how busy R. L. Brown, of Muleshoe, is on Trades Day. Boy, he's gotten all best a city clock

Following the sandstorm last Monday, local barbers were busy collecting sand from customer's faces when they got shaved, some men using the shaving method as a mere 20 cent excuse to get their faces washed. Skeeet has on display a large pebble he dug out from a crease in an old-timer's mug.

Mrs. Irvin St. Clair is telling it around town that she actually saw a rain and a sleet while in Dallas last week. Some of the younger generation didn't know what she meant by the words "rain" and "sleet," while some of the adults are still wondering if this good lady was drinking something she shouldn't while away from home.

Exposition and a Fair

The principal difference between an exposition and a fair, although the terms are used interchangeably, is that the former is rather a setting forth of objects for public view with an idea of expressing their historical, political or commercial significance, without a thought of sale, while a fair is more a gathering of merchandise or interesting objects and a meeting of buyers and sellers at a certain place at a specified time for commercial advantage.

AGED WOODEN CLOCK KEEPS TICKING TIME

Memphis.—A wooden clock which began ticking more than a century ago still keeps good time. It is owned by J. B. Knox, who lives six miles southeast of Memphis. He bought it for 60 cents more than 40 years ago at his grandfather's sale. The grandfather, Vincent Galtier, who died at the age of 84 bought the clock when he and his bride began housekeeping. In the back of the clock is a tabulation of the postal rates and the U. S. census for the year 1830. The clock was constructed entirely of wood excepting one brass wheel. All other wheels are made of willow cherry. The clock has stopped only once in the last 40 years Knox said. A wheel broke and he repaired it himself.

Thumbs In or Out

In the ancient Roman combats when a gladiator was vanquished it rested with the spectators to decide whether he should be slain or not. If they wished him to live they shut up their thumbs in their fingers. If they wished him to be slain they turned out their thumbs.

Progress News

The women of this community met at the school house Saturday afternoon at two o'clock and organized a Farm Women's club. Our next meeting will be Thursday, March 7 at the school house. Every woman of this community is invited to attend the meetings.

Sunday school was well attended Sunday, there being 62 present. Rev. Lovel filled the pulpit during the preaching hour.

Mrs. Everett Smith and daughters, Milna and Naomi, Mr. and Mrs. Orville Stone of the West Camp community, were visitors in the Virgil Stone home, Sunday.

Mrs. Ara Shipman, of Muleshoe, visited in the J. S. Shipman home last week.

A group of young folks of this community visited with Misses Audene, Ruby and Marie Smith, Sunday—Reporter.

Greatest Port in France

Marseilles is not only the greatest port in France, but through its phenomenal growth during the last century, it has earned the right to be called one of the most important port cities on the Mediterranean. Commercial traffic in 1929 amounted to about four and one-half million tons. During a recent year it passed the twenty-million-ton mark.

Enochs Echoes

The ladies of this community met at the home of Mrs. H. H. Snow, Friday afternoon, March 1, and organized a Home Demonstration club. The following officers were elected:

Mrs. Homer Green, president; Mrs. H. H. Snow, secretary-treasurer; Mrs. L. L. Patterson, council representative; Mrs. Sam Patterson, reporter; Miss Zola McGinnis, seamstress.

Hot chocolate and cake were served to the following: Mesdames Ray Helton, F. M. Calvert, Shortie McCall, Clyde McCormick, Walter Strickland, Siegler, W. P. Nicholson Bob Adams, Bill Snow, Carl Hall, Lewis Harris, R. D. McCormick, R. L. Patterson, Cecile Watson, Homer Green, Roy Layfield, Jake Hall and Sam Patterson.

Mrs. Jake Hall spent Wednesday in Littlefield with Mrs. Homer Hall.

Mrs. J. D. Blalock spent the weekend with Mrs. Willis Holder in Littlefield.

The youngest daughter of Mrs. F. M. Calvert burned her arm about three weeks ago. She has taken cold in her arm and is quite sick with a temperature.

Mrs. Ruth Alford and two daughters moved to Lubbock last week where Mrs. Alford entered Tech.

Miss Jewel Teal, of Littlefield, spent the past week visiting Mrs. Clyde McCormick and friends.

Miss Rachel Howell who is attending school in Lubbock, spent the weekend with her parents, Mr. and Mrs. G. P. Howell.

Mrs. F. M. Calvert and children have returned to Enochs from Oklahoma where they have been for sometime.

Mr. and Mrs. Haven and family, of Morton have moved to Enochs where Mr. Haven has taken over the Phillips service station, formerly run by Davis Calloway. Mr. and Mrs. Calloway have moved Ollon where they will take over a station there.

Mrs. G. P. Howell has been in Lubbock the past week where she is having dental work done.

Mr. and Mrs. M. J. Gibson are the proud parents of a new baby which was born last Saturday night in Littlefield. Mother and baby are doing fine and hope to return home soon.

Mr. and Mrs. M. J. Gibson are the proud parents of a new baby which was born last Saturday night in Littlefield. Mother and baby are doing fine and hope to return home soon.

Mrs. AWTREY HAS BIRTHDAY ANNIVERSARY CELEBRATION

Wednesday of last week Mrs. W. H. Awtrey celebrated her birthday anniversary with an all day party at her home four miles north west of Muleshoe.

At the noon hour a covered dish lunch was served. The women brought their needle work and the evening was spent working and visiting.

Those attending were Mesdames S. E. Morris Jr., Mrs. Allen McGee, Mrs. Sam Cook, Mrs. Mollie Buzard, Mrs. Dudley Buzard, Mrs. George Nelson, Mrs. Nan West, Mrs. John Kropf, Mrs. J. S. Glasscock, Miss Myrtle Huffstader, and Mrs. Awtrey's mother, Mrs. Julia Bryant of Wheeler.

The guests departed about the middle of the afternoon wishing Mrs. Awtrey many more happy birthday anniversaries.

Marriage is a partnership in which each partner is honor bound to think of the rights of others.

Muleshoe Girls Win Medals At Wilson Basketball Tourney

Friday and Saturday of last week the Muleshoe girls' basketball team attended the District meeting at Wilson.

Those going were Maida Chandler, Oleta Shofer, Jean Willman, Tidwell Douglas, Melaine Rocky, Naomi Harper, Ruby Sterling, Crystal Kennedy, Evelyn Wilterding, Aleene Evans, Sibyl Hunter and Ruth Eckler. Mr. and Mrs. A. W. Copley and Miss Melaine Rocky furnished cars. Miss Ouida Davis the girls coach took much interest in the playing.

Muleshoe played their first game Friday afternoon at three o'clock with Southland, the scores being 16 and 24 in favor of Southland. Their second game was played Friday night at nine o'clock with Shallowater, the scores being 18 and 37 in favor of Shallowater.

Medals were awarded to players of the four teams that were eliminated in the first two rounds. Maida Chandler and Ruby Sterling were the two from Muleshoe to receive the medals as being outstanding players.

The teams which took part in the meeting were Abernathy, Muleshoe, Lorena, Shallowater, Littlefield, Southland, Ropesville Wilson, Morton and Meadow. The four teams eliminated the first two rounds were Wilson, Muleshoe, Meadow and Lorena.

The Muleshoe girls remained in Wilson Friday night and stayed at various homes. All expressed what a nice times they had and how welcome they were made to feel by the citizens of that town.

"Wild Bill" Cummings Drives Second Chevrolet

"Wild Bill" Cummings, national A. A. A. racing champion, recently took delivery of his second Chevrolet—a new 1935 Master De Luxe sedan with which he is pictured above. Cummings became a Chevrolet owner following his victory at Indianapolis last Decoration Day. In the oval he is shown as he finished the Indianapolis classic, wearing the new type crash helmet that was recently adopted by the A. A. A. Contest Board for all racing drivers in 1935.

Mr. and Mrs. Gilbert Wollard attended the funeral of his cousin, Dr. N. S. Wollard last week. Dr. Wollard died of last week. He had lived in Portales 29 years.

EVERY Child needs training in speech. Give your child the advantage of lessons in expression. See Katherine Hobbs at the Baptist annex on Tuesday or Thursday. Private lessons \$4.00 per month. 6-21p

Paper-Making

Paper is made from various plant fibers, obtained by disintegrating wood, lute, hemp and alfa grasses of Spain and North America. In the early days of the industry, paper was made almost invariably from one of the discarded textile fabrics, particularly cotton and linen, technically called "rags," and including worn-out sarments, cuttings and waste from looms.

SEXTUPLETS IN AFRICA

The Dionne sextuplets of Canada are due to lose their notoriety since Dr. Edward Schumann, of the medical faculty, University of Pennsylvania says he has a photograph sent him by a medical missionary showing pictures of sextuplets born to a negro woman on the gold coast of Africa.

The doctor declares the picture is not only authentic but that the infants were eight days old and still living when the picture was taken—and all without any high price medical service or scientific hospital equipment.

Apparently Nature takes care of herself. As birth control ideas become more popular the litters just increase!

CONSTIPATION Can be Helped!
 (Use what Doctors do)

Why do the bowels usually move regularly and thoroughly, long after a physician has given you treatment for constipation?

Because the doctor gives a liquid laxative that can always be taken in the right amount. You can gradually reduce the dose. Reduced dosage is the secret of real and safe relief from constipation.

Ask your doctor about this. Ask your druggist how popular liquid laxatives have become. The right liquid laxative gives the right kind of help, and the right amount of help. When the dose is repeated, instead of more each time, you take less. Until the bowels are moving regularly and thoroughly without any help at all.

The liquid laxative generally used is Dr. Caldwell's Syrup Pepsin. It contains senna and cascara, and these are natural laxatives that form no habit—even in children. Your druggist has it; ask for—

Dr. Caldwell's SYRUP PEPSIN

MOTOR COMPANY
 Muleshoe, Texas

Best Dressed—\$50,000 and \$27.92

NEW YORK . . . From Paris comes the cable that Mrs. Harrison Williams (lower right), an American woman, has for the second year in succession been named the best dressed woman in the world by the Dressmakers of Paris. From Chicago comes the report of four American girls age 15 to 20 years, who have won 1934 national style championships in the annual 4-H Club competition.

The Paris cable names twelve in its world-wide selection of "best dressed" women. It is estimated these twelve women each spend at least \$50,000 per year on clothes. New look to Chicago again, (top photo) left to right; Lucile Morris, 20, Greenwood, Ind. . . wool dress and complete accessories cost \$37.92; Almetus McKinley, 16, Vicksburg, Miss., wash dress and all accessories, \$21.75; Lorane Havelly, 18, Mayetta, Kan., best dressed wool crepe and all accessories \$18.95; and, Virginia Charlton, 15, Astaugville, Ala., party dress and accessories \$8.08. These girls designed and made their dresses and frocks.

Woman Mayor Indicted

WILLOWOOD, N. J. . . Mrs. Doris W. Bradway, (above), mayor here, faces an indictment with her entire board, on three counts. One count charges the use of city gasoline in her private automobile.

Heads Red Cross

WASHINGTON . . . The appointing of Admiral Carl T. Grayson (above), as Chairman of the American Red Cross, by President Roosevelt, has met with popular favor. Admiral Grayson was personal physician to the late President Woodrow Wilson.

Against Heart Balms

INDIANAPOLIS . . . Mrs. Roberta W. Nicholson (above), Democratic State Representative, has introduced a bill to prohibit use for heart balm, alienation of affection, etc., etc. . . "If a woman's love is genuine," says Mrs. Nicholson, "money surely cannot mend a broken heart and romance."

On Her Honey-moon

NEW YORK . . . Above is Mrs. James H. R. Cromwell, bride, who until last week was Miss Doris Duke, called the world's wealthiest girl and heiress to the Duke tobacco millions. The young couple was married quietly and are now on a world tour honeymoon. Mr. Cromwell is an advertising man.

Follows Famous Dad

NEW YORK . . . Mary Rogers (above), the young daughter of Will Rogers, stage, screen and radio star, made her stage debut here last week with her famous daddy coming on to cheer her on.

Cannon From Old Ironsides
A cannon from the historic United States navy frigate Constitution, known as Old Ironsides, is mounted in the yard of a Oatton (O.) Vault company. The old ship is preserved in the Boston navy yards.

CAMERAGRAPHS

PRaises COMMERCIAL SCHOOLS: Dr. John Robert Gregg (right), authority on business education and founder of famous Gregg Shorthand system, sees report of Warrenton Bureau of U. S. Department of Labor that secretaries receive highest pay of all classes of women office workers as "high tribute" to the skill of teachers of commercial education of public and private schools. "America's commercial educators are on the job," says Dr. Gregg.

CAME IN LIKE LAMBS: The nation's business breathes easy again since the Supreme Court has stayed the Government's dollar. The biggest justice are, from left to right, standing, Roberts, Butler, Stone, and Cardozo. Sitting, Brandeis, Van Devanter, Hughes, McReynolds, and Sutherland.

"ATTRactions" AT AUTO SHOW: Smart lines of 1935 cars were not the only attractions at the auto show this year, as this picture of three of the fair sex show. The girls are examining Plymouth's hydraulic brake exhibit.

SPEAKING OF AUGUST, it's getting nearer every day, now, and its Luning attractive film star, couldn't wait for the month to swing around.

IDEAS ABOUT STREAMLINING have changed slightly during the past three decades. The front end of rich "Sluggers" Wagon (left), started in the "Tour de France" in 1927, tapers down to a point like the rear end of the '35 Airflow De Soto Coupe (right).

Three Very Fast Pennsylvania Sisters

HANOVER, Pa. . . This seems to be an era of "sister acts" and above is the entry of the Hanover Farms here. They are the three fastest sisters which the trotting world has ever seen, and the only three ever known with records of two minutes or under. They are, left to right, Hanover's Bertha, 1:56.5; Miss Bertha Hanover, 2:00 and Charlotte Hanover, 1:59.5. . . They will soon be going to the tracks again.

Court Awards Boys Pot of Gold They Found

BALTIMORE . . . Theodore Jones, left, and Henry Grob, right, (above), both 16 and sons of families on relief rolls, unearthed a pot of gold coins, valued at \$27,800, in a cellar of the Jones home. The coins dated before 1858. There were many claims filed but the court ruled "finders are keepers" and the boys are to get the gold.

Jimmy Coming Home

NEW YORK . . . Despite ancient and former mayor Walker (above), of New York, it is not expected to make an immediate return to the city.

Seeks Money Throne

NEW YORK . . . Henry L. "Lou" Gehrig (above), ace slugger of the N. Y. Yanks, is now getting the attention of fans as reports indicate he will not sign without a big increase in salary, having waited years for Ruth to vacate the money throne.

Some Stew

IF you have people with big appetites to cook for—and not much time to prepare things, don't get in a stew. Stay out of it. You can do better on the outside, just stirring it occasionally, for it is a simple matter if you have the proper canned ingredients. Here are some excellent stews for cold days.

With Drippings Or With Rice
Beef Stew with Drippings: Sauté gently twelve small onions in two tablespoons of drippings for a few minutes. Add two large potatoes cut in chunks and sauté a few minutes longer. Add two cups boiling water, two teaspoons salt, one-eighth teaspoon pepper and two teaspoons kitchen bouquet. Cook until the potatoes and onions are almost tender. Add two cups of canned tomatoes and the contents of a 12-ounce can of roast beef in large pieces. Mix two tablespoons flour with two tablespoons cold water and add, a little at a time, to thicken the stew. Cook for about five minutes. Then drop on top of the stew, soft baking-powder biscuit dough which has been made with shortening. Cover tightly and steam for twelve minutes. This serves six persons.

Vote your ticket straight is good politics, but bad patriotism.

Our Bounteous Table

WHEN Uncle Sam sits down to dinner in a New York hotel he can eat corn grown in Illinois, and he can eat Boston baked beans when he dines in Denver. This wide choice of foods is not possible in most countries, however. When Benito Mussolini promulgated his edict that the agricultural population of Italy must remain on its farms, he took into account the fact that in Italy the earning business is small and most of the canned food is exported.

Canning Saves Lives
The same condition would exist here if canning were suddenly to cease. There would be a rush from the city to the farm. How "Mussolini," however, modern canning methods preserve the fundamental food in fresh foods is explained by Dr. Daniel E. Hoedden, D.Sc., LL.D., in the following statement:
"We have discovered that canned vegetables and fruits contain many of the rich and useful mineral salts which are fundamental in the life processes. Canned vegetables and fruits retain much of their vitamin content, and, in fact, some of them are quite as rich in this respect as fresh vegetables and fruits. This has been so well recognized by men of science and by medical men that recommendation has been made by them for the use of certain fruit juices from canned vegetables as a means of supplying babies with the vitamin C and the vitamin E. This is especially true of the canned tomato."
Tomato Soups
Test the integrity of the tomato in these two tested recipes. The rich, delicious tomato soups slices forth clearly in both of them.
Ripe Olive, Tomato and Cheese Soup
Sauté four tablespoons chopped onion in two tablespoons butter until golden brown. Add the contents of a No. 2 1/2 can of tomatoes, a 1/2 cup and a 1/2 cup salt, a quarter cup of olive oil per and cook gently five minutes. Add one cup grated cheese and stir until melted. Then add one cup chopped ripe olives. Put layers of crumbs and the tomato mixture alternately in buttered baking dish, having the crumbs on top. Dot with butter, and brown in hot oven for twenty minutes. This serves eight.
Tomatoes with Celery
Cook three-quarters of a cup sliced celery and a quarter of a cup green pepper in the contents of one 16-ounce can of tomatoes until tender. Add salt, pepper, half a teaspoon sugar, and half a teaspoon butter. Serve very hot. This serves two.
Work is anything we must do. Anything we want to do.

Heart Specialist

CLEVELAND . . . Dr. Claude S. Beck (above), performed the first successful operation in medical history for relief of angina pectoris, a heart ailment regarded as incurable. Medicinal men had the achievement the most important of recent times.

Newcome et al, labor 27, league 112, Crosby county school land.

Feb. 21—W. O. McCrary et ux to V. B. Mays, 1 acre more or less out of NE corner labor 5, league 178 Motley county school land.

Toes And Tomatoes

THE serving of food requires diplomacy. It's so easy to tread on someone's toes, if one isn't careful. There's Uncle John you should have known doesn't eat cooked fruits—yet you served baked apple for dessert. There's the Jones family who doesn't eat meat on Friday—and you served that delicious big steak. Well, what can you be safe in serving when there are so many toes about, waiting to be tread on?

Try tomatoes. Keep on hand a list of delicious dishes made with tomatoes, for almost everyone likes them. Here are some suggestions for tomatoes in various courses of the menu.

A Puree and An Omelet
Tomato and Cauliflower Puree: Cook one medium head of cauliflower until tender. Press through a sieve. Press the contents of one can of tomatoes through a sieve also, and mix with the contents of one can of consommé and one cup of water to the cauliflower. Bring to boiling. Season one tablespoon of minced onion in two tablespoons butter for a few minutes. Add three tablespoons of the hot soup, and then add the remainder of the soup and cook until creamy. Season to taste with salt and pepper. This serves six persons.

Omelet with Macaroni and Tomato Sauce: Make a French omelet with four eggs, one-half teaspoon salt, a few grains of pepper and four tablespoons milk. Meanwhile make a tomato sauce of one tablespoon butter, one tablespoon flour, salt and pepper to taste, one-half teaspoon sugar, three-fourths cup strained tomatoes and a few drops of onion juice. Add three-fourths cup of cooked macaroni, cut in one-half pieces, and spread over half the omelet just before folding. T serve four persons liberally.

Waide Gets 600 Of Chinese Elms To Be Planted In County

Tree planting time is here again, past experience teaching that trees planted on the Plains in the spring-time do better than those planted in the fall.

Last Saturday J. B. Waide went to Lubbock, bringing back about 600 Chinese elm trees, 400 of which were ordered, and it is understood about 200 will be fore sale to those desiring them.

They were hauled out at the court house and may be secured of Mr. Waide at around 10 or 12 cents each. They are running from 60 to 80 six feet high.

Many property owners of Mulleshoe and throughout Bailey county generally have ordered fruit trees for spring planting, some planting them in large quantities for wind protection.

Wives listen best to their husbands when they talk in their sleep.

Truthful Tomatoes

WHEN the teacher asked the third grade to compose poems, one little girl who lisped rose and recited:

"A poem
Tells the truth"

Perhaps this cynical sentiment was her reaction to having just written: "Honesty is the best policy" a hundred times in her copy book. Perhaps she had once followed George Washington's example and confessed unashamedly—with less happy results than the Father of Our Country. Perhaps, as some psychologists tell us, there is no such thing as a natural honor in children.

Honor in Vegetables

But of course there is. Even vegetables have natural honors. Take the tomato. It's honest and true no matter where you find it. In the soup, in the salad, in stews, in any dish, you can always count on the tomato's true flavor to speak out frankly.

It is estimated that there are 13,000,000 fishermen and hunters in the United States.

Plaintiff of Buckingham Palace

Nowhere is the British love of quietness and unobtrusiveness so clearly betrayed as in the stately homes and mansions. For, with the exception perhaps of Windsor and Balmoral castles, not one of them is in the least spectacular or grandiose. Indeed, visitors to London are often surprised by the plainness of Buckingham palace. But in spite of its architecture, the palace, in its secluded setting in the heart of London, manages to give an effect of dignity and quiet grace. It has, too, a charming position between St. James' park and the flower park and a broad approach in the Mall.

Rethreshed Sudan Straw Brings The Williams Bros. \$1200

There is plenty of use for the useless now days, according to Johnny Williams, of the West Camp community, who last week finished a job of saving the waste which brought him and his brother, Willie, more than \$1,200.

The brothers had four stacks of Sudan straw from the 1931 crop which, of course, had been previously threshed and stacked. Casting about for a little extra cash needed, they investigated these stacks and decided there had been enough Sudan seed gone through the threshers when threshed three years ago, at which time the price of Sudan was very low, to warrant re-threshing. They did so, each stack turning out an average of 2,800 pounds of re-cleaned seed and about 50 tons of straw.

The seed was sold on local market at eight cents per pound, bringing \$280.00 per stack or a total of \$840.00 for the four stacks, while the straw averaged about 60 tons per stack, selling at \$7.50 per ton, or a total gross receipt for both seed and straw of \$1,260.00. Germination test on the seed runs from 75 per cent up, another surprise for seed which had lain in the stack that long. Most of the straw was a very bright color, except a little on the top and around the edges.

GARDEN THEATRE
Sudan - Texas
Thursday, March 7
Guy Kibbee and Almie McMahon in "BABBIT"
Friday night & Saturday afternoon
March 8 and 9
Ken Maynard in "STRAWBERRY ROAN"
Saturday night & Sunday afternoon

James Dunn and Alice Fay in "355 NIGHTS IN HOLLYWOOD"
Wednesday and Thursday,
March 13 and 14
Jean Arthur and Donald Cook in "MOST PRECIOUS THING IN LIFE"

Hundreds Of Mail Order Catalogues Are Received Here

That Mulleshoe business patronage is appreciated abroad as well as at home is clearly evidenced by the number of mail order catalogs received here during the year, according to Postmaster Mrs. B. Carles.

Last week 500 catalogs from Montgomery Ward & Co., were received here and the week before there were 530 catalogs shipped here through the mail by Sears Roebuck & Co., to say nothing of the hundreds of other and smaller mail catalogs from various other mail order houses received here every month during the year.

Just now hundreds of seed catalogs are being received here, also farm machinery catalogs of various kinds, all soliciting trade from this town, and post office statistics show that thousands of dollars of money is spent annually with their various foreign concerns. Indeed, it has been officially estimated that 85 per cent of the business which should be done in Mulleshoe is transacted somewhere else.

NO VACANT HOUSES HERE

If vacant houses is a positive criterion of depressed conditions, then Mulleshoe has always been prosperous, for there has never been a vacant dwelling or business house in this town during the past three years of the economic decline.

Recently various newspapers in surrounding towns have been declaring "every house is filled," a condition which has never been otherwise in this town. In fact, never a week has passed for the past three years but

Enjoy a **Comfort Zone Ride**

WITH V-8 POWER **FORD ECONOMY**

THE new Ford V-8 is a car of major developments. This year, to the proved performance and economy of the V-8 engine, Ford has added another major engineering development—the Full-floating Springbase with Comfort Zone Seating. This means "front seat riding comfort" for back seat passengers. Now everybody can enjoy a **Comfort Zone Ride**.

The car is longer and wider... more room for passengers and baggage. It's beautifully streamlined, and luxuriously upholstered. It has many important safety features, including welded all-steel body and wheels. Safety glass all around and large, sure-tension balloon tires are included at no extra cost.

Here is a car that meets every 1935 driving need... whether you want safety, speed, power, size, dependability, economy, or beauty. See it now at your nearest Ford dealer's.
